Course Description

Determinants of global food consumption, production and the factors underpinning food security and malnutrition. The importance of international trade in balancing countries' supply and demand for food, examination of trade barriers and institutions facilitating trade.

Course Objectives

As an entry level university course in agribusiness and agricultural economics, the Economics of World Food Issues and Policies is aimed to help you:

1. Understand the basic economic tools used in analysis of global food markets.
2. Become familiar with important issues in world food markets including food demand, production/supply, food policy and welfare effect, natural resources and environmental issues, food security, international trade and interregional differences and similarities.

Textbooks

Optional:

Southgate, D., Graham, D. and L. Tweeten, "The World Food Economy: Second Edition."
Columbus: John Wiley & Sons, 2011.

Barrett, C.B. and D.G. Maxwell, "Food Aid After Fifty Years: Recasting Its Role."
London: Routledge, 2005.

Supplementary Reading

There will be several additional readings for the course. Most are listed below. They will be available online on UMLearn or through the U of M library. Details will be provided as needed throughout the term.

Course Materials

This course will be taught in person. We will observe the health-related protocol mandated by the university. Please check the COVID-19 Updates webpage of the university for the latest information. Pay particular attention to the “Protocols and need-to-knows before you arrive on campus” section on that webpage.

Regular attendance is expected from you. All-important announcements will be made in the first 15 minutes of the start of the class and will not be repeated for the students who come late. You will be doing extra practice questions during class. These questions will help you understand the format of the questions of the Quizzes. Also, this time could be used to get help with understanding topics.

Your participation mark is your marks on the in-class exercises. No make-up exercises unless students have a legitimate absence (i.e. illness supported by a medical certificate).

All readings will be available free to students in UM Learn under the heading “readings”. Students will be responsible for knowing all of the assigned readings for quizzes.

Please respect copyright laws. Photocopying textbooks or other reading material is a violation of copyright laws and is unethical, unless permission to copy has been obtained.

Course Deliverables and Evaluation

Make-up Quizzes

There is no Make-up Quiz, however in some circumstances it will be scheduled for those who have a legitimate absence, or the marks will be adjusted as per Instructor's discretion. It will be held on specific hour by the professor, and it is your responsibility to be present on the assigned date and time for your make-up exam.

Students who miss the quizzes without a valid medical or compassionate reason will receive a mark of 0.

Quiz Requirements

- Students need to be prepared to show valid photo ID during the quizzes.
- Scientific calculators or financial calculators may be used for the quizzes. Cell Phones with calculators, PDA's, other Organizers, or programmable calculators (e.g., Graphical Calculators) will NOT be permitted to be used as calculators. Cell phones must be turned off during all classes and exams.
- Students must be punctual. Those who enter the classroom 10 minutes later than the starting time scheduled will NOT be allowed to write the quizzes/exams.

Electronic and Mechanical Devices

Students will need to have regular access to the UM Learn to access outlines, PowerPoint of the lectures, Quizzes, class information, email, and grades.

Cellphones are not required for any element of the course, so their use during class time is strongly discouraged.

For in-person lectures, recording of lectures and class discussions (by any means) is not permitted unless a student is registered with Student Accessibility Services and requires this support.

GRADE DISTRIBUTION

Grading will be based on the following conversion of marks to letter grades.

Letter Grade	Percentage
A+	90-100%
A	80-89.9%
B+	75-79.9%
B	70-74.9%
C+	65-69.9%
C	60-64.9%
D	50-59.9%
F	0-49.9%

NOTE: In the event of a skewed distribution of grades, the total course marks may be curved up or down as necessary. All Final grades are subject to Department approval.
