Price Faculty of Engineering
Department of Electrical and Computer Engineering

Course Outline

Instructor
- Peng Hu, P.Eng.
  SP-326 Stanley Pauley Eng. Bldg.
  (204) 474–6294
  Peng.Hu@umanitoba.ca

Office Hours
- By appointment

Teaching Assistant
- Tristan Dobrowney
  dobrownt@myumanitoba.ca
- Rashmita Chatterjee
  chatter2@myumanitoba.ca
- Zack Louttit
  louttitz@myumanitoba.ca

Contact Hours
- 4 credit hours
- Lectures:
  3 hours x 13 weeks = 39 hours
- Laboratories:
  3 hours x 5 weeks = 15 hours

Prerequisites:
- ECE 2220 Digital Logic

ECE 3610 – Microprocessor Systems
Winter 2024

Course Objectives

This course introduces the student to fundamentals of microprocessors and microcomputers. The topics include: data flow, machine programming, architectures and instructions sets, stacks, subroutines, I/O and interrupts, interfacing fundamentals, and designing with microprocessors.

Course Content

The following topics will be covered:

- Review of number systems, logical operations, and digital circuits
- Macro/micro-instruction programmability
- Condition code register
- Assembly language programming
- Addressing modes
- Program writing methodology
- Transfer, arithmetic, and logic instruction
- The stack and subroutines
- Assemblers
- Integrated development environment
- Basic microprocessor interfacing
- Address decoding in memory mapped systems
- Memory mapped I/O and interrupts
- Multiple sources of interrupts and interrupt priority
- Memory accessing techniques and direct memory access
- Design examples.

Textbook

Computer Organization and Architecture, A. Clements, Cengage Learning, 2014.
ISBN 978-1-111-98704-6

Learning Outcomes

1. Ability to design a simple microprocessing system.
2. Develop assembly language programs.
3. Identify, define, and describe the components of a basic microprocessor architecture.
4. Describe the micro-operations performed by the processor when executing instructions.
5. Apply interrupts and polling for I/O.

Expected Competency Levels

Outcome	KB	PA	IN	DE	ET	IT	CS	PR	IE	EE	EP	LL
1	I		D	D	D							
2	D	D	D	D	D	I						
3	D	I	D	D								D
4	D	D	D	D	D	D						
5	D	D	D	D	D							

CEAB Graduate Attributes Assessed

KB.3 – Recalls and defines, and/or comprehends and applies, first principles and concepts in fundamental engineering science.

PA.3 – Analyzes and solves complex engineering problems.

- **Quizzes**
  Thursday, Jan 25th, 2024
  Thursday, Feb 8th, 2024
  Thursday, Mar 14th, 2024
  Thursday, Mar 28th, 2024

- **Term Test**
  Monday, February 26th, 2024
  6:00PM – 8:00PM

- **Voluntary Withdrawal Deadline**
  March 20th, 2024

- **Louis Riel Day**
  February 19th, 2024
  No classes or examinations

- **Spring Break**
  February 20th – 23rd, 2024
  No classes or examinations

- **Good Friday**
  March 29th, 2024
  No classes or examinations

Accreditation Details

Accreditation Units

- Mathematics: 0%
- Natural Science: 0%
- Complementary Studies: 0%
- Engineering Science: 70%
- Engineering Design: 30%

Graduate Attributes

KB: A knowledge base for engineering
PA: Problem analysis
IN: Investigation
DE: Design
ET: Use of engineering tools
IT: Individual and team work
CS: Communication skills
PR: Professionalism
IE: Impact of engineering on society/
environment
EE: Ethics and equity
EP: Economics and project
management
LL: Life-long learning

Competency Levels

I - Introduced (Introductory)
D - Developed (Intermediate)
A - Applied (Advanced)

Evaluation

The final course grade is determined by the student's performance in assignments, laboratories, term test, and the final examination. Students must complete all the laboratories in order to be eligible to receive a passing grade. Students must pass the final exam to be eligible to receive a passing grade.

Component	Value (%)	Method of Feedback	Learning Outcomes Evaluated
Assignments	10	F, S	1, 2, 3, 4
Laboratories	15	F, S	2, 4
Quizzes (best 3 of 4)	10	F, S	1, 2, 3, 4
Term Test	15	F, S	2, 4, 5
Final Examination	50	S	1, 2, 3, 4

* Method of Feedback: **F** - Formative (written comments and/or oral discussion), **S** - summative (numerical grade)

Student Absences

Attendance in lectures, tutorials, and laboratories is mandatory. For short-term absences due to illness or other extenuating circumstances of 120 hours (5 days) or less, students are required to complete a *Self-Declaration Form for Brief or Temporary Absence* available on the University website. This form must be submitted to the course instructor within 48 hours of the absence. (No additional documentation is required.)
Note that students are responsible to complete any missed work and must consult with the instructor to make appropriate arrangements.
For absences longer than 120 hours, students must contact the instructor and ECE Undergraduate Advisor, Tammy Holowachuk (Tammy.Holowachuk@umanitoba.ca) for further instructions.

Deferred Final Examinations

Students who miss the regular scheduled writing of a final examination, for valid medical or compassionate reasons, may be given the opportunity to write a deferred examination, subject to approval by the Associate Dean (Undergraduate). All requests for a deferred examination must be made within 48 hours of the missed examination, and must follow the procedure described on the Faculty website, without exception. Course instructors do not have the discretion to grant deferred final examinations.
(https://umanitoba.ca/engineering/student-experience#engineering-student-policies)

Academic Integrity

Students are expected to conduct themselves in accordance with the highest ethical standards of the Profession of Engineering and evince academic integrity in all their pursuits and activities at the university. As such, in accordance with the *General Academic Regulations* on *Academic Integrity*, students are reminded that plagiarism or any other form of cheating in examinations, term tests, assignments, projects, or laboratory reports is subject to serious academic penalty (e.g. suspension or expulsion from the faculty or university). A student found guilty of contributing to cheating by another student is also subject to serious academic penalty.

Retention of Student Work

Students are advised that copies of their work submitted in completing course requirements (i.e. assignments, laboratory reports, project reports, test papers, examination papers, etc.) may be retained by the instructor and/or the department for the purpose of student assessment and grading, and to support the ongoing accreditation of each Engineering program. This material shall be handled in accordance with the University's *Intellectual Property Policy* and the protection of privacy provisions of *The Freedom of Information and Protection of Privacy Act (Manitoba)*. Students who do not wish to have their work retained must inform the Head of Department, in writing, at their earliest opportunity.

ECE 3610

Grading Scale

Letter	Mark
A+	95–100
A	85–94
B+	80–84
B	70–79
C+	65–69
C	55–64
D	45–54
F	< 45

Note: These boundaries represent a guide for the instructor and class alike. Provided that no individual student is disadvantaged, the instructor may vary any of these boundaries to ensure consistency of grading from year-to-year.

Requirements/Regulations

- Attendance at lectures and laboratories is essential for successful completion of this course. Students must satisfy each evaluation component in the course to receive a passing final grade.
- It is the responsibility of each student to contact the instructor in a timely manner if he or she is uncertain about his or her standing in the course and about his or her potential for receiving a failing grade. Students should also familiarize themselves with the University's *General Academic Regulations*, as well as Section 3 of the Faculty of Engineering *Academic Regulations* dealing with incomplete term work, deferred examinations, attendance and withdrawal.
- No programmable devices or systems (such as calculators, PDAs, iPods, iPads, cell phones, smart watches, wireless communication or data storage devices) are allowed in examinations unless approved by the course instructor.
- Students should be aware that they have access to an extensive range of resources and support organizations. These include Academic Resources, Counselling, Advocacy and Accessibility Offices as well as documentation of key University policies e.g. Academic Integrity, Respectful Behaviour, Examinations and related matters.
