THESIS EXAMINER'S REPORT

Student: _____

Thesis Title: _____

I have read the thesis and have placed it in the following category:

- _____ 1. The thesis in its current form is ready to be defended at an oral examination.
- _____ 2. Although the thesis in its current form has a number of minor problems which will have to be addressed in the oral examination it is essentially ready to be defended.
- _____ 3. The thesis in its current form has a number of major problems/flaws and it is not ready to be defended.

An examiner who places a thesis in either category (2) or (3) must provide a detailed list of his/her concerns so that the writer of the thesis, the advisor, and fellow examiners will have a clear understanding of the issues/concerns involved.
