Course Description

This course is designed to help students think critically about the modern world by applying theories from political economy and cultural geography to current issues. The course does not suggest solutions to the complex political, economic and environmental problems that frame our period. Instead, this course will touch on different ways to ask important questions and develop theoretical frameworks that will provide context to consider these problems. A multimedia approach will advance students' understanding of geopolitical events from political economy and spatial perspectives.

The student can use all technology in classroom setting only for educational purposes approved by instructor and/or the University of Manitoba Disability Services. Expectations: I Expect You To

Lectures

You are under no obligation to come to class. I understand that some students do just fine learning the material on their own. However, if you do not come to class, it is your responsibility to find someone in the class (not me) to fill you in on what you missed. If students choose to miss a lecture, for whatever reason, it is up to the student to independently learn the material from the lecture. Remember that you are responsible for the lecture material. Tests and exams will be based primarily on lecture notes. Some of this material is not covered in the textbook. If students are having any difficulty with the material, I am, of course, happy to help

them.

Learning requires more than passive memorization. Lectures will often be in a question and answer format. Please participate in the class discussion. Please ask questions during class.

Powerpoint lectures will not be posted online.

Study Tips

This will appear at first glance to be a less than onerous class. You will be watching John Oliver videos and thinking that this class is easy. It is not. Students will be expected to master the specific terms and tools introduced in the class and be able to apply them to the material discussed in class and presented in the various formats. It is crucial for students to keep up with the readings and videos that form the basis for the course material.

Academic Integrity:

Students should acquaint themselves with the University's policy on plagiarism and cheating and examination impersonation (see http://umanitoba.ca/student/resource/student_advocacy/cheating_plagiarism_fraud.html). In general, plagiarism is passing anyone else's work off as your own. If you are using a direct quote make sure it is in quotation marks and cited. If you are paraphrasing no direct quotes are necessary, but a citation is required.

Plagiarism or any other form of cheating in examinations, term tests or academic work is subject to serious academic penalty (e.g. suspension or expulsion from the faculty or university). Cheating in examinations or tests may take the form of copying from another student or bringing unauthorized materials into the exam room (e.g., crib notes, pagers or cell phones). Exam cheating can also include exam impersonation. (Please see Exam Impersonation, found in the Examination Regulations section of the General Academic Regulations). A student found guilty of contributing to cheating in examinations or term assignments is also subject to serious academic penalty.

To plagiarize is to take ideas or words of another person and pass them off as one's own. In short, it is stealing something intangible rather than an object. Plagiarism applies to any written work, in traditional or electronic format, as well as orally or verbally presented work. Obviously it is not necessary to state the source of well known or easily verifiable facts, but students are expected to appropriately acknowledge the sources of ideas and expressions they use in their written work, whether quoted directly or paraphrased. This applies to diagrams, statistical tables and the like, as well as to written material, and materials or information from Internet sources.

To provide adequate and correct documentation is not only an indication of academic honesty but is also a courtesy which enables the reader to consult these sources with ease. Failure to provide appropriate citations constitutes plagiarism. It will also be considered plagiarism and/or cheating if a student submits a term paper written in whole or in part by someone other than

him/herself, or copies the answer or answers of another student in any test, examination, or take-home assignment.

Working with other students on assignments, laboratory work, take-home tests, or on-line tests, when this is not permitted by the instructor, can constitute Inappropriate Collaboration

Penalties for Academic Dishonesty

The common penalty in Arts for plagiarism on a written assignment is F on the paper and F (CW) (for Compulsory Withdrawal) for the course. For the most serious acts of plagiarism, such as the purchase of an essay and repeat violations, this penalty can also include suspension for a period of up to five years from registration in courses taught in a particular department in Arts or from all courses taught in this Faculty.

The Faculty also reserves the right to submit student work that is suspected of being plagiarized to Internet sites designed to detect plagiarism.

Students Accessibility Services

If you are a student with a disability, please contact SAS for academic accommodation supports and services such as note-taking, interpreting, assistive technology and exam accommodations. Students who have, or think they may have, a disability (e.g. mental illness, learning, medical, hearing, injury-related, visual) are invited to contact SAS to arrange a confidential consultation.

Course Evaluation Methods

Date:	Assessment Tool	Value of
-------	-----------------	----------

		Final Grade
Oct7 in class	Term Test 1	20%
Nov 6 in class	Term Test 2	30%
December 9-20	Final Exam	50%

Term tests will all contain some, and perhaps all, written responses.

Students appealing any term work, whether it is informal or formal, must do so within 10 working days of receiving their mark.

If you believe that a grading mistake has been made on a test, you may submit a re-grade request to me explaining why the question has been graded incorrectly. If a grade request is submitted, I will re-grade the entire exam, not simply the individual question.

Missed tests will only be accepted in the case of a VERIFIED medical or compassionate emergency. Students who miss the term test will not write a make-up test. The weight of the term test will be placed on the final exam.

Students must remain available until all examination obligations have been fulfilled.

All grades are subject to departmental review.

Voluntary Withdrawal

The Voluntary Withdrawal date is November 18, 2019. Students will know the grade of their mid term test before the VW date.

Students Services

Writing and Learning Support

The Academic Learning Centre (ALC) offers services that may be helpful to you throughout your academic program. Through the ALC, you can meet with a learning specialist to discuss concerns such as time management, learning strategies, and test-taking strategies. The ALC also offers peer supported study groups called Supplemental Instruction (SI) for certain courses that students have typically found difficult. In these study groups, students have opportunities to ask questions, compare notes, discuss content, solve practice problems, and develop new study strategies in a group-learning format.

You can also meet one-to-one with a writing tutor who can give you feedback at any stage of the writing process, whether you are just beginning to work on a written assignment or already have a draft. If you are interested in meeting with a writing tutor, reserve your appointment two to three days in advance of the time you would like to meet. Also, plan to meet with a writing tutor a few days before your paper is due so that you have time to work with the tutor's feedback.

These Academic Learning Centre services are free for U of M students. For more information, please visit the Academic Learning Centre website at:

<http://umanitoba.ca/student/academiclearning/>

You can also contact the Academic Learning Centre by calling 204-480-1481 or by visiting 201 Tier Building.

University of Manitoba Libraries (UML)

As the primary contact for all research needs, your liaison librarian can play a vital role when completing academic papers and assignments. Liaisons can answer questions about managing citations, or locating appropriate resources, and will address any other concerns you may have, regarding the research process. Liaisons can be contacted by email or phone, and are also available to meet with you in-person. A complete list of liaison librarians can be found by subject: <http://bit.ly/WcEbA1> or name: <http://bit.ly/1tJ0bB4>. In addition, general library assistance is provided in person at 19 University Libraries, located on both the Fort Garry and Bannatyne campuses, as well as in many Winnipeg hospitals. For a listing of all libraries, please consult the following: <http://bit.ly/1sXe6RA>. When working remotely, students can also receive help online, via the Ask-a-Librarian chat found on the Libraries' homepage: www.umanitoba.ca/libraries.
