March 28, 2011

IMPORTANT UPDATE on CHRPP

The Course in Human Research Participant Protection (CHRPP), developed by Queen's University, will soon be replaced by the Course of Research Ethics (CORE). CORE reflects the new content in the Tri-Council Policy Statement Ethical content for Research Involving Humans 2010 (TCPS2). CORE is based on the same framework as the CHRPP (that reflects TCPS1).

Please note: for all researchers submitting an ethics protocol for REB review, the REB deadline to complete the CHRPP or CORE tutorial remains September 1, 2011. Those who have already completed the CHRPP tutorial will NOT be asked to complete the CORE tutorial.

The Interagency Panel for Research Ethics (PRE) plans to replace the on-line Tri-Council Policy Statement (TCPS) tutorial with CORE. The exact date for the changeover is not yet known but we expect the change **sometime in April, 2011**. A link to the TCPS on-line tutorial will be provided.

CHRPP will remain an active tutorial for at least one month following the changeover to CORE. This will facilitate those who have already started working on the CHRPP tutorial to complete it within a reasonable time frame.

For the time being, if you would still like to complete the CHRPP tutorial, please visit the website at <http://www.chrpp.ca/homepage/MAN/>. For further information, please feel free to contact the Research Quality Management Office.

Contact the Research Quality Management Office (Rm 053, Apotex Bldg., Bannatyne Campus):
