March 5  Use of Risk Prediction in Optimizing Decision Making in Liver Diseases.
Section of Hepatology

Objectives:
1. To understand the rational basis for the development of a prediction rule for the screening of varices in cirrhosis.
2. To review how prediction models can help in selecting patients for TIPS treatment.
3. To gain insight on the use of risk prediction to implement a referral pathway for NAFLD

Juan Gonzalez Abraldes MD, MMSc
