

2019 – 2020 Health Administration Elective Courses

Updated August, 2019

Students who wish to pursue the Health Administration concentration must complete 4 courses (12 credit hours) offered by the Department of Community Health Sciences (Faculty of Medicine).*

Mandatory courses for the Health Administration concentration (2 courses – 6 credit hours):

CHSC 7320 - Organization and Financing of the Canadian Health Care System (3 credit hours)

CHSC 7520 – Principles of Epidemiology (3 credit hours)

Plus two of (your choice of 2 courses from the following list – 6 credit hours):

CHSC 7290 – Economic Evaluation of Health Care (3 credit hours)

CHSC 7300 – Health Policy and Planning (3 credit hours)

CHSC 7310 – Epidemiology of Health Care (3 credit hours)

CHSC 7510 – Problem Solving in Public Health (3 credit hours)

IDM 7010 - Industry Project** (3 credit hours)

*Please note that the Health Administration courses are offered at the Bannatyne Campus and may not fit within the normal Asper MBA elective schedule. Students who wish to register for these elective courses must obtain permission from the instructor of the course to register. This permission can be in the form of an email and must be submitted to the Asper Graduate Program Office (Ewa Morphy) prior to registration.

See below for the available 2019-2020 Health Administration Course offerings

Fall 2019 Term:

CHSC 7300 – Health Policy and Planning

This course defines health policy and describes the planning and decision-making process. Case studies will be used to illustrate and critique the substance, process and outcome of policy papers that address contemporary policy issues. Prerequisite: permission of instructor.

Instructor: Leslie Carrothers

E-Mail: lcarrothers@shaw.ca / phone 204-897-3942

Location: o65 Apotex

Start date: September, 2019

Class time: Fridays, 9:00am-11:20am (optional tutorial 8:00-8:50am same day)

CHSC 7520 – Principles of Epidemiology (Mandatory)

This course will introduce the basic concepts and methods of epidemiology, including the definition and measurement of health status and health determinants in populations, assessing health risks and inferring causation, and issues in the design and analysis of population health studies. Prerequisite: permission of instructor.

Instructor: N. Nickel

Phone/email: Nathan_nickel@cpe.umanitoba.ca

Location: 204 Brodie Centre

Start date: September, 2019

Class time: Wednesdays: lecture 10:30 – 11:50 AND 1:00-2:20

Winter 2020 Term:

CHSC 7310 – Epidemiology of Health Care

This course will discuss the advantages and disadvantages of using large administrative data bases for research purposes. Substantive topics dealt with include: regional variations in provision and utilization of health care, short- and long-term outcome studies, individual physician behaviour, and technology assessment. Policy implications are considered. Prerequisite: CHSC 7520 or CHSC 7820 or permission of instructor.

Instructor: A. Mahar

Phone:

Location: TBA

Start date: January, 2020

Class time: Thursdays, 8:30am-11:20am

CHSC 7290 – Economic Evaluation of Health Care

The objectives of this course are to enable students to understand economic evaluation methodologies (cost-effectiveness, cost-benefit, cost-utility analysis) as applied to health care and to familiarize them with the applied literature on economic evaluation of health care. Prerequisite: permission of instructor.

Instructor: E. Forget

Phone/email: evelyn.forget@umanitoba.ca

Location: TBA

Start date: January, 2020

Class time: Thursdays, 9:30-11:50

CHSC 7320 – Organization and Financing of the Canadian Health Care System (Mandatory)

Students will study the historical development and current structure of the Canadian health care system and relate its development to changes in social and political factors. The course provides an economic perspective on current policy issues in the organization, financing, and delivery of health care in Canada. Prerequisite: Permission of instructor.

Instructor: Les Carrothers

E-Mail: lcarrothers@shaw.ca / phone 204-897-3942

Location: TBA

Start date: January, 2020

Class time: Wednesdays 1:00-3:20 (optional 12:00-12:50) AND Fridays 9:00-11:20 (optional 8:00-8:50)

CHSC 7510 – Problem Solving in Public Health

Focus on current issues and topics in community health, particularly as they relate to Manitoba and to Canada. Emphasis will be placed on current literature and ongoing research to examine emerging policies and programs within health care and social development. Prerequisites: CHSC 7520, CHSC 7810 or CHSC 7820, CHSC 7320. Students outside CHS require instructor permission.

Instructor: J. Kettner

E-Mail: joel.kettner@umanitoba.ca

Location: TBA

Start date: January, 2020

Class time: Wednesdays, 1:00pm-3:50pm
