Researchers must follow their unit's new electronic grant submission process.

All proposals applied for must be accompanied by a Funding Application Approval Form (FAAF) and must follow the deadlines (unless otherwise posted).

As a reminder, below are the ORS deadlines for submitting research proposals and FAAF's.

For large, complex grant applications (e.g., tri-agency major programs, those that require matching funds and/or additional institutional support, etc.)

- **10 working days in advance of agency deadline**

For other regular and/or 'rolling' and one-time grants:

- **5 working days in advance of agency deadline**

Also as a reminder, researchers should work with the University's Research Facilitators early in the proposal development stage, for assistance in strategic research planning and proposal review.
