What is Extensive Reading

Reading for Fluency is an extensive reading program for multilingual UM students and others who want to become better readers. Extensive reading programs improve reading comprehension and speed by allowing readers to gain more exposure to English vocabulary in context, understand English speaking culture better and become more familiar with popular English literature.

How can extensive reading improve your English?

When you read from textbooks in order to study for an exam or prepare for a lecture, or when you are doing research for a term paper you are reading intensively. This type of reading often involves critical thinking, analysis and other higher order thinking processes in order to accomplish a specific course assignment. While this type of reading could be interesting, even fascinating at times, it is rarely done for enjoyment or relaxation purposes.

Pleasure reading refers to reading a book because the content is enjoyable and fun. You can read a lot of text intensively, as you will most likely do throughout your life. However, for the purpose of gaining reading fluency in the English language, it is important to read a lot of interesting, easy to read books.

When readers enjoy what they are reading, they read more, and become faster at recognizing and processing vocabulary and making sense of the sentences they read. Reading for pleasure is as important as intensive reading when it comes to learning a language because you need a lot of experience with the language you have learned to get faster at recognizing, retrieving and using the English language. Also, reading is just like any other skill. You need to practice it in order to get better at it.

When a book is easy and interesting you are motivated to read more, so you’ll become a faster, more effective and happier reader! This is the essential principle behind this Reading Fluency program.
What should you read?

When your English is still developing and you are trying to accelerate its development, you might feel a certain urgency to immerse yourself in the language, so you might pick up any English novel that seems interesting. The problem with this is that you might actually be stunting your growth rather than improving it. Research has shown that comprehension is severely impeded when a sentence has more than 2-3 new words, so struggling to understand will reduce your enjoyment of the book so you might get frustrated and quit reading it. Furthermore, because the vocabulary is chosen randomly you may not come across useful and frequently used vocabulary and sentence patterns enough times to build the fluency you need to understand other texts. For very proficient non-native speakers and for native speakers learning less frequently used patterns and vocabulary is an effective way to add necessary linguistic sophistication. However, when you understand only 60% percent of what you are reading for example, it’s hard to appreciate, enjoy and understand unadapted English texts. Reading texts that are far above your level of comfort may prove more harmful than beneficial.

When you read intensively for school or work you have to put up with difficult text, so you must find ways to work around it in order to understand the content. But..., let’s face it, this type of reading doesn’t exactly make you want to enthusiastically pick up another difficult text. Even advanced learners and native speakers, might get frustrated or bored and stop reading when books are too difficult. It’s the enjoyable reading experience, not the frustrating one that will keep you coming back for more. The purpose of pleasure reading is to condition yourself to read more, so you can improve your reading fluency and English proficiency.

The good news for students whose English language is still developing is that, in recent years, a large variety of graded readers for multilingual readers have been published. As a multilingual learner, you are no longer limited to reading children’s books or unadapted texts that you may or may not have any interest in reading. Graded readers, such as Oxford Bookworms published by Oxford University press, Penguin readers published by Pearson Education or Good Reads published by Grass Roots Press to name a few series, are “smart” books that use high frequency vocabulary and sentence patterns and target particular stages of linguistic development to help you improve your English systematically. Writers of graded readers will often take existing adult stories and books, and retell them using controlled vocabulary and grammar. These writers try to maintain the literary integrity of the original story, or develop new high interest stories. When you read graded readers you become more familiar with classic and modern English literature while developing your English proficiency. The benefits of extensive reading extend beyond reading fluency to a better understanding of culture and society in English speaking environments.
To be enjoyed, books must be understood. For multilingual speakers, research has shown that when exposed to language slightly above their current level of competence, learners’ English proficiency develops a lot faster. Small linguistic challenges are the best kind of challenges to move you forward. The benefits of extensive reading in the literacy development of native speakers are well documented and agreed upon. Graded readers offer nonnative speakers of English the opportunity to benefit from enjoying easily understood books. In addition to marked improvement in reading motivation and confidence, vocabulary, general knowledge of English speaking culture, research studies with multilingual readers have shown marked improvements in English writing proficiency, and even spoken English proficiency. There is no doubt that reading a lot of easily comprehensible enjoyable books will boost you general language proficiency and consequently boost your academic English proficiency.

**How do you find your level?**

There are two ways to determine your optimal reading level.

1. Go to each publisher’s website and take their levels test. Here are the websites of the publishers whose books we have in our library:

   - Cambridge: [http://cdextras.cambridge.org/Readers/RPT_last.swf](http://cdextras.cambridge.org/Readers/RPT_last.swf)

2. Choose a graded reader at an intermediate level and begin reading a few pages. If you find more than two new words per page, you need to go to a lower level and if you understand every word on a page, you need to go up a level. You can keep going down or up the levels of a reader until you find a level where you know 98-100% of the words on a page. Remember that you must read at a comfortable level in order to enjoy reading.

**Where can you find graded readers at the University of Manitoba?**

Dafoe Library in the instructional materials collection on the second floor holds most of the graded readers. Some of these books can be found in other libraries at the University of Manitoba, and you can request that they be brought in for you to pick up at a library that is most convenient for you.

We have turned this search into a .pdf catalogue that includes all the graded readers at the University of Manitoba libraries. You will find the book’s call number, so you can go directly to the library and borrow that book. The catalog also includes the level of the book and a description, so you can choose an interesting book at your most comfortable reading level.

**How does the Reading for Fluency Program (RFP) Work?**

You do not need to be registered with ALC to borrow graded readers from any of the UM libraries. However, if you do want to have RFP sessions with an ALC staff member you need to register in the Reading for Fluency program (RFP).

1. Make an initial consultation appointment with our EAL specialist instructor. She will explain how the program works and what you need to do.
2. Find out your reading level by going to the publishers’ websites listed above and taking their placement test.
3. Browse this catalog for a book at your level and that you think you’ll enjoy.
4. Read the book.
5. Meet with the EAL specialist instructor to discuss the book.

**How do you keep track of your progress?**

Because extensive reading is about improving your English through reading for pleasure, you do not need to be evaluated or tested. You are welcome to just use the library. However, if you want to keep track of your progress, check your understanding of the book, or simply talk about the book you can schedule an appointment with the EAL specialist instructor.

- **Call Number:** (PE 1126 A4 V53 2008)
- **Subjects:** Fiction; True stories
- **Description:** “All they could hear was the wind, and the waves crashing on to the rocks. All they could see was the night. They could not see the ship, broken in two. They could not see the people holding on to the dark wet rock, slowly dying of cold. And they could not hear the cries for help - only the wind. How could they save the people on the rock? Was their wooden boat stronger than the iron ship? Were a man and his daughter stronger than the great waves that broke the ship in two? The Forfarshire was wrecked off the north-east coast of England in
1838. This is the true story of Grace Darling - a girl who became a famous heroine on that stormy night.” (Cover)
