

## **Architectural Draftsperson**

### **Escher Designs And Drafting Service**

#### **Job Overview**

We are seeking a skilled Drafter to join our dynamic team. The ideal candidate will be responsible for creating detailed technical drawings and schematics that support various engineering projects. This role requires proficiency in drafting software and a keen eye for detail to ensure accuracy and compliance with industry standards.

#### **Duties**

- Develop and prepare detailed drawings and schematics using software such as AutoCAD and Sketchup.
- Collaborate with engineers and project managers to understand project requirements and specifications.
- Create 2D and 3D models for various projects, including civil, structural, and architectural designs.
- Review and revise drawings based on feedback from team members or clients.
- Ensure all designs comply with relevant codes, standards, and regulations.
- Maintain organized records of all drafts and revisions to facilitate easy access for future reference.

#### **Qualifications**

- Proficiency in drafting software such as AutoCAD and Sketchup.
- Strong understanding of engineering principles and the ability to interpret technical documents.
- Excellent attention to detail with strong analytical skills.
- Ability to work collaboratively in a team environment while managing multiple projects simultaneously.
- Effective communication skills to convey complex information clearly to team members and stakeholders.
- Previous experience in a drafting role or related field is advantageous but not mandatory.

Join our team as a Drafter where your skills will contribute significantly to our innovative projects!
