**FINANCIAL MODELING**  
**SUMMER 2021**

---

**INSTRUCTOR**

Name:	Ying Zhang	Office Location:	Virtual
Phone:	204-474-9480	Office Hours:	by appointment
Fax:	204-474-7545	Class Time:	Tuesdays and Thursdays 6:15pm - 9:30 pm
Email:	ying.zhang@umanitoba.ca	Course Dates:	May 16th 8:45 am - 4:15 pm

**COURSE DESCRIPTION**

The objective of this course is to provide you with a practical perspective of the application of major finance models using Microsoft Excel. At the end of the course, students should have a good appreciation for the development and use of spreadsheet-based financial models, implementation of a concise and sound methodology, and utilization of financial theory over a wide range of applications used by practitioners in the financial industry.

This course aims to prepare students for success by building a toolkit for financial modeling. The course will benefit students aspiring to a career in financial-services including investment banking, private equity, portfolio management, research, and consulting. It will also benefit students interested in a corporate-finance career.

The course will be taught in the form of lab sessions. The lab sessions are designed to implement financial models acquired in the prerequisite course using Excel. The advantage of spreadsheet modeling for financial management and model valuation is well established and widely accepted. Since the main focus of the course is "hands-on" learning of financial modeling, it is necessary that students will be comfortable with the theoretical models.

**COURSE OBJECTIVES**

On course completion, you should be able to:

- Be familiar with financial models.
- Use Microsoft Excel to solve financial problems.

## AACSB Assurance of Learning Goals and Objectives – Masters of Finance

The Asper School of Business is proudly accredited by AACSB. Accreditation requires a process of continuous improvement for the School and our students. Part of “student improvement” is ensuring that students graduate with the knowledge and skills they need to succeed in their careers. To do so, the Asper School has set the **learning goals and objectives** listed below for the **MFIN Program**. The checked goal(s) and objective(s) will be addressed in this course and done so by means of the items listed next to the checkmark.

	<b>Goals and Objectives in the MFIN Program</b>	<b>Goals and Objectives Addressed in this Course</b>	<b>Course Item(s) Relevant to these Goals and Objectives</b>
1	<b>Proficiency in Asset Valuation:</b> Knowledge and understanding of the principles, theories, and applications of asset valuation.		
	A. Demonstrate knowledge and ability to apply asset valuation models.	✓	Entire course
	B. Demonstrate knowledge and ability to apply asset pricing models.	✓	Entire course
2	<b>Proficiency in Portfolio Construction and Management:</b> Knowledge and understanding of the principles, theories, and applications of portfolio construction and management.		
	A. Demonstrate knowledge of theories and applications of asset allocation.	✓	Entire course
	B. Demonstrate an understanding of the theories and approaches of risk management and its applications.	✓	Entire course
	C. Demonstrate an understanding of financial markets, instruments, asset classes, and trading environment.	✓	Entire course
	D. Demonstrate an ability to apply behavioural finance models in portfolio construction and management.		
3	<b>Ethical Mindset:</b> Consideration of ethical issues in financial analysis and management.		
	A. Demonstrate an understanding of the role of ethics in financial decision-making.	✓	Ethics Learning
	B. Demonstrate a knowledge of the CFA Institute’s <i>Code of Ethics</i> and the <i>Standards of Professional Conduct</i> .	✓	Ethics Learning
4	<b>Communication Ability:</b> Ability to communicate effectively and clearly, both verbally and in writing, in a professional context.		
	A. Communicate in a clear and concise manner.	✓	Term Project
	B. Communicate in a coherent and logical manner.	✓	Term Project

### COURSE MATERIALS

As classes will be delivered synchronously via videoconferencing, a device enabled with a camera and microphone is required. Further, you are expected to be in a location with a reliable Internet connection

that is strong enough for streaming video. You may also want to consider using earphones/headset with a mic, unless you have a computer/tablet with good speakers/mic.

For exams, which will be administered via the Respondus Lockdown browser and Respondus Monitor, you will need a computer or iPad (smartphones and Chromebooks will not work) with one of the following operating systems:

- Windows 10, 8, or 7 (note: will not work with Windows 10S)
- Mac OS 10.15 to 10.12, OS X 10.11, or OSX 10.10
- iOS: 11.0+ (iPad only)

You will need the Chrome browser. Other browsers such as Safari may not work.

1. **Lecture notes** - Lecture notes will be available on the course's UM learn site. Students are responsible for checking UM learn and downloading the relevant material before each class.
2. **Computer** - Students are required to use their computer for every class and be ready to work with Microsoft Excel.
3. **Other course material** - I will post announcements, notes, Excel spreadsheets, and other course materials on the course UM learn site. You are responsible for downloading, printing, and reading the relevant materials

#### RECOMMENDED TEXT:

Simon Benninga, *Financial Modeling: Fourth Edition*, The MIT Press, Cambridge, Massachusetts, 2014.

Please respect copyright laws. Photocopying textbooks or other reading material is a violation of copyright laws and is unethical, unless permission to copy has been obtained.

### ATTENDANCE

Class attendance is important if students are to derive maximum benefit from the course. Moreover, the term project is based on methodology covered in class. The only way you can do the term project and contribute to your group is if you attend classes regularly. **Missing more than 20% of the classes will result in failing the course.** You are responsible for knowing what occurs in class which may include material not covered in the readings, modifications to the syllabus and announcements concerning the term project, presentations, or examination. **I will take the attendance each class.**

### BLOOMBERG MARKET CONCEPTS (BMC)

You are expected to complete two sections of the self-paced course Bloomberg Market Concepts (BMC). BMC will expose you to some of the most frequently used Bloomberg Terminal commands.

BMC consists of three sections- Core Concepts (includes four modules: Economic Indicators, Currencies, Fixed Income, and Equities), Getting Started on the Terminal and Portfolio Management. You are required to complete the **Core Concepts** and **Getting Started on the Terminal** sections for this class.

To register for BMC, please follow the steps below:

- 1) Please go to <https://portal.bloomberforeducation.com/>
- 2) SIGN UP, enter your name and university email address, generate a password and please tick to confirm you are taking BMC as part of a group.

**GROUP CODE: VPXRLWH3KM**

- 3) Accept the Terms of Service and commence the course.

There are multiple quiz questions and case studies throughout the course to assess your understanding. Please note that I will receive a report with details of your performance on the Core Concepts and Getting Started on the Terminal.

**TERM PROJECT**

The term project will be handed out at least two weeks prior to the due date. The project is due at **5pm** on **Thursday, May 27<sup>th</sup>**. Late submission will not be accepted. All projects must be typed. Hand written projects will not be accepted under any circumstances. Project presentations will take place in class on **Tuesday, Jun 1<sup>st</sup>**.

**COURSE ASSESSMENT**

Student progress will be assessed through:

- Attendance ..... 5%
- BMC Modules ..... 5% (each worth 2.5%)
- Midterm Exam.....25%
- Quiz ..... 5%
- Term Project .....35%
- Project Presentation ..... 25%
- Total .....100%

Please note that the term project grade is a combination of the grade assigned by me and group-member evaluation. For the group-member evaluation, students will evaluate each of the group members with which they prepared the term project. The group-member evaluation is based on the member's contribution to the analysis and write-up of the term project. Please note that all group members are expected to significantly contribute to the project. Failing to meaningfully participate in solving the project will result in failing the course. Also, please remember that the only way you can do the term project and contribute to your group is if you are actually in class (see attendance requirements above).

The presentation grade is based on my own evaluation of every group member's presentation. Every group member will be evaluated individually based on (but not limited to) criteria such as: analysis, understanding of the concepts, delivery, and communication style, and visuals.

A grade of zero will be given to a missed examination without a legitimate reason. Students who miss the examination for a legitimate reason (medical, compassionate, academic conflict or university sports team travel) must apply to the Graduate Program Office for possible deferred examination privileges.

The midterm exam and quiz is open-book. You can (and should) also bring a financial calculator. In the event that your calculator is programmable you may NOT enter any text, formulas, or data.

Final grades are based on the student's weighted mark and performance relative to other students. The following are the tentative grade cut-offs.

Cumulative Marks	Grade	GPA	Performance
90-100	A+	4.5	Excellent
80-89.99	A	4.0	Very Good
75-79.99	B+	3.5	Good
70-74.99	B	3.0	Satisfactory
65-69.99	C+	2.5	Marginal
60-64.99	C	2.0	Unsatisfactory
50-59.99	D	1.0	Unsatisfactory
49.99 and below	F	0.0	Unsatisfactory

**NOTE: Class attendance is required. Missing more than 20% of this course due to absences may result in a failing grade. It is your responsibility to inform your professor in advance of your absence and the reason for it (medical documentation or employer note if away for a work commitment) is required. The professor decides how to deal with the impact of missed classes on your final grade.**

### **SUMMARY OF IMPORTANT DATES**

- Voluntary Withdrawal by: May 24<sup>th</sup>, 2021
- BMC is due May 25<sup>th</sup>, 2021
- Project is due: May. 27<sup>th</sup>, 2021 at 5pm
- Class presentations: Jun 1<sup>st</sup>, 2021
- Midterm Exam: May 18<sup>th</sup>, 2021 6:15 pm-7:45 pm
- Quiz: May 20<sup>th</sup>, 2021 6:15 pm -6:45 pm

### **TENTATIVE COURSE SCHEDULE**

Dates	Topic
May 4	Hypothesis Testing <ul style="list-style-type: none"> <li>• The Rejection Region Method</li> <li>• P-value Method</li> </ul>
May 6 to May 11	Simple Linear Regression <ul style="list-style-type: none"> <li>• Ordinary Least Squares Estimation of Beta and the Security Market Line</li> <li>• The Market Model</li> </ul>
May 13	Multiple Linear Regression <ul style="list-style-type: none"> <li>• Estimating Fama-French Three Factor Model</li> <li>• Portfolio Performance Evaluation</li> </ul>

May 16	Value-at-Risk (VaR) <ul style="list-style-type: none"> <li>• The Parametric Method</li> <li>• The Historical Pattern Method</li> <li>• The Monte Carlo Simulation Method</li> <li>• Estimating Bond Portfolio VaR</li> </ul>
May 16	Option Pricing Models
May 18	Midterm Ethics in Finance
May 20 to 27	Building financial models
Jun 1	In-class presentation

## ACADEMIC REGULATIONS AND STUDENT SERVICES

### HUMAN ETHICS APPROVAL FOR DATA COLLECTION

As part of coursework, if you will be collecting data from people who are not students in this class, you must obtain Human Ethics approval from the UofM's Research Ethics Board (REB) prior to data collection. This applies to data collection such as surveys, interviews, focus groups, experiments, video recording, etc., where a respondent is solicited for participation.

If the entire class will be working on the same project, your instructor will apply for human ethics approval from the REB. If individuals or small groups of students will be working on different projects, it is the responsibility of the students to obtain approval (only one group member needs to apply). Your instructor will tell you whether s/he will be or you need to. When in doubt, please talk to your instructor.

Instructions and forms to apply for human ethics approval can be found at:

[http://umanitoba.ca/research/orec/ethics/human\\_ethics\\_REB\\_forms\\_guidelines.html](http://umanitoba.ca/research/orec/ethics/human_ethics_REB_forms_guidelines.html).

In most cases, you will be using the "Protocol Submission Form" which is under the "REB Forms - Fort Garry Campus" heading.

It can take up to six weeks to process human ethics applications and obtain approval. Therefore, plan early. Note that approval must be obtained prior to data collection and cannot be obtained during the data collection phase or retroactively. Violation can get you, your instructor, and the Asper School in serious trouble with the REB.

If you will be collecting data only from other students in the class, you do not need REB approval. If you have any questions, please contact [humanethics@umanitoba.ca](mailto:humanethics@umanitoba.ca) or your instructor.

### UNCLAIMED ASSIGNMENT POLICY

Pursuant to the FIPPA Review Committee's approved recommendations of August 15, 2007, all unclaimed student assignments will become the property of the faculty and will be subject to destruction six months after the completion of any given academic term.

## STUDENT SERVICES AND SUPPORTS

The University of Manitoba provides many different services that can enhance learning and provide support for a variety of academic and personal concerns. You are encouraged to visit the below websites to learn more about these services and supports. If you have any questions or concerns, please do not hesitate to contact your instructor or the Graduate Program Office.

## ACADEMIC INTEGRITY

---

I.H. Asper School of Business, The University of Manitoba

It is critical to the reputation of the I. H. Asper School of Business and of our degrees that everyone associated with our faculty behaves with the highest academic integrity. As the faculty that helps create business and government leaders, we have a special obligation to ensure that our ethical standards are beyond reproach. Any dishonesty in our academic transactions violates this trust. The University of Manitoba Graduate Calendar addresses the issue of academic dishonesty under the heading "Plagiarism and Cheating." Specifically, acts of academic dishonesty include, but are not limited to:

- using the exact words of a published or unpublished author without quotation marks and without referencing the source of these words
- duplicating a table, graph or diagram, in whole or in part, without referencing the source
- paraphrasing the conceptual framework, research design, interpretation, or any other ideas of another person, whether written or verbal (e.g., personal communications, ideas from a verbal presentation) without referencing the source
- copying the answers of another student in any test, examination, or take-home assignment
- providing answers to another student in any test, examination, or take-home assignment
- taking any unauthorized materials into an examination or term test (crib notes)
- impersonating another student or allowing another person to impersonate oneself for the purpose of submitting academic work or writing any test or examination
- stealing or mutilating library materials
- accessing tests prior to the time and date of the sitting
- changing name or answer(s) on a test after that test has been graded and returned
- submitting the same paper or portions thereof for more than one assignment, without discussions with the instructors involved.

Many courses in the I. H. Asper School of Business require group projects. Students should be aware that group projects are subject to the same rules regarding academic dishonesty. Because of the unique nature of group projects, all group members must exercise extraordinary care to insure that the group project does not violate the policy on Academic Integrity. Should a violation occur on a group project, all group members will be held jointly accountable, no matter what their individual level of involvement in the specific violation.

Some courses, while not requiring group projects, encourage students to work together in groups (or at least do not prohibit it) before submitting individual assignments. Students are encouraged to discuss this issue as it relates to academic integrity with their instructor to avoid violating this policy.

In the I. H. Asper School of Business, all suspected cases of academic dishonesty involving a graduate student (i.e. MBA, MFIN, MSc or PhD student) will be reported directly by the instructor to the Dean of the Faculty of Graduate Studies.

## FACULTY BIOGRAPHY

---

I.H. Asper School of Business, The University of Manitoba

**Ying Zhang, Ph.D., CFA**  
Department of Accounting and Finance  
I.H. Asper School of Business

Dr. Ying Zhang is an Assistant Professor of Finance and received her Ph.D. in Finance from Concordia University. She is also a CFA charterholder and currently served on the CFA Society Winnipeg board as the Education co-chair, University Relations.

Dr. Ying Zhang has taught a variety of finance courses including Corporate finance, Investment, and Financial modeling. Her research interests include corporate governance, financial restatement, executive compensation, and market microstructure. Her work has been published in refereed journals such as *Journal of Corporate Finance*, *Journal of Business Finance and Accounting*, *Journal of International Financial Markets, Institutions, & Money*, and *the Journal of Multinational Financial Management*. She has presented her works at primary academic conferences, and served as ad hoc reviewer for several academic journals and conferences. She is the recipient of Associates Achievement Award for Research and Best paper award on Trading by the Toronto Stock Exchange.
