Section 8: Contact Information ....................................... 8

document outlines categories of admission, requirements, selection process, and deadlines.

This bulletin is available with, and constitutes part of, the application. It is assumed that all applicants have read and understood it prior to submitting the completed application.

Degree Programs Offered:

- Bachelor of Science in Engineering (Biosystems) [B.Sc. (Eng.)]
- Bachelor of Science in Engineering (Civil) [B.Sc. (Eng.)]
- Bachelor of Science in Engineering (Computer) [B.Sc. (Eng.)]
- Bachelor of Science in Engineering (Electrical) [B.Sc. (Eng.)]
- Bachelor of Science in Engineering (Mechanical) [B.Sc. (Eng.)]

Focus Areas, Specializations and/or Options are available for each program and details are available in the Academic Calendar. Co-op or internship options are available in all programs.

All of the above degree programs have a common first year (preliminary year). This does not add any extra time onto the degree and is incorporated into each of the programs.

Section 1: General Statement

The purpose of this bulletin is to provide information to prospective applicants to the Price Faculty of Engineering at the University of Manitoba. This
Section 2: Eligibility Requirements

The University of Manitoba will require graded coursework to fulfill all admission requirements as outlined in this bulletin. Pass grades will not be considered for meeting any of these requirements unless otherwise stated.

A. Academic Requirements

1. Admission to the Preliminary Year

Within the preliminary year, students can complete the courses required to apply for admission to a degree program. Upon completion of these courses, students will be required to submit an application and compete for admission with all other applicants to their engineering program(s) of interest.

There are three routes for admission into the preliminary year of the Price Faculty of Engineering:

a. Direct Entry

Applicants in this category are current high school students or students who have already graduated from high school but have completed fewer than twenty-four (24) credit hours at a recognized university/college. Applicants must meet the General Entrance and Specific Admissions Requirements as listed in the Direct Entry Applicant Information Bulletin

b. Through Engineering Access Program (ENGAP)

The Engineering Access Program is a specially designed program to support First Nation, Métis, and Inuit people enrolled in the Price Faculty of Engineering at the University of Manitoba. ENGAP provides assistance in four main areas: social, personal, academic, and financial. It delivers upgrading courses in physics, pre-calculus math, computer science, and chemistry to ensure ENGAP students are prepared for the rigours of an engineering degree. For more information, please visit

c. Bachelor’s Degree Graduates

Applicants who have graduated from any recognized bachelor’s degree program with a minimum adjusted grade point average (AGPA) of 2.50 can be considered for admission to Engineering (Undeclared). These students must have completed the high school pre-requisite courses of Pre-Calculus Mathematics 40S\(^\Delta\), Chemistry 40S\(^\Delta\), and Physics 40S\(^\Delta\) with no grade lower than 60%.

\(^\Delta\) Equivalent education systems are also considered. Equivalency is determined by the Admissions Office and questions regarding this can be directed to that office.

The AGPA will be calculated in accordance with the following table:

<table>
<thead>
<tr>
<th>TOTAL CREDIT HOURS IN PREVIOUS DEGREE</th>
<th>NUMBER OF WORST CREDIT HOURS DROPPED</th>
</tr>
</thead>
<tbody>
<tr>
<td>90-104</td>
<td>18</td>
</tr>
<tr>
<td>105-119</td>
<td>21</td>
</tr>
<tr>
<td>Over 120</td>
<td>24</td>
</tr>
</tbody>
</table>

d. Recognized Engineering Technology Diploma Program Graduates

Applicants who have graduated from a recognized Engineering Technology Diploma program with an overall Cumulative Grade Point Average (CGPA) of 2.50 may be considered for admission. These students must have completed the high school pre-requisite courses of Pre-Calculus Mathematics 40S\(^\Delta\), Chemistry 40S\(^\Delta\), and Physics 40S\(^\Delta\) with no grade lower than 60%.

\(^\Delta\) Equivalent education systems are also considered. Equivalency is determined by the Admissions Office and questions regarding this can be directed to that office.

2. Admission to a Degree Program

Students who have met the admission requirements by completing the coursework through another faculty at the University of Manitoba, any other recognized post-secondary institution, or through the preliminary year options listed above will compete for admission to any of the five engineering programs offered at the University of Manitoba.

All Engineering programs have enrolment quotas and admission is therefore competitive and not guaranteed.
Ranking in the program competitions is based on the candidate’s average over the best eight (8) final grades that have been achieved from within the list of twelve (12) required preliminary year courses.

**Required Preliminary Year Courses**

Applicants who have completed at least eight (8) of the following twelve (12) preliminary year courses (or equivalent), with a minimum grade of “C”, can be considered for admission to a program:

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 1300</td>
<td>U1 Chemistry: Structure and Modeling in Chemistry</td>
</tr>
<tr>
<td>COMP 1012</td>
<td>Computer Programming for Scientists and Engineers</td>
</tr>
<tr>
<td>PHIL 1290</td>
<td>Critical Thinking</td>
</tr>
<tr>
<td>PHYS 1050</td>
<td>Physics 1: Mechanics</td>
</tr>
<tr>
<td>MATH 1210</td>
<td>Techniques of Classical and Linear Algebra</td>
</tr>
<tr>
<td>MATH 1510</td>
<td>Applied Calculus 1 (or equivalent)</td>
</tr>
<tr>
<td>MATH 1710</td>
<td>Applied Calculus 2 (or equivalent)</td>
</tr>
<tr>
<td>ENG 1430</td>
<td>Design in Engineering</td>
</tr>
<tr>
<td>ENG 1440</td>
<td>Introduction to Statics</td>
</tr>
<tr>
<td>ENG 1450</td>
<td>Intro to Electrical and Computer Engineering</td>
</tr>
<tr>
<td>ENG 1460</td>
<td>Intro to Thermal Sciences</td>
</tr>
<tr>
<td></td>
<td>One course from the approved list of Written English Courses for Engineering Students*</td>
</tr>
</tbody>
</table>

Courses must be completed within 10 years of the application term. For the Fall 2021 intake, this means any course taken before September 2011 will not be considered for the preliminary year course requirements.

1. PHIL 1290 is recommended but not required; students may choose an alternate course from the Faculty of Arts or Management at the 1000 level or above, with the exception of ARTS 1110 Intro to University, which may not be held for credit in Engineering.

Students intending to obtain a degree in Engineering are strongly advised to complete MATH 1510 and MATH 1710, however, the below substitutions are allowed as follows:

2. MATH 1500 or MATH 1230 may be taken in lieu of MATH 1510.

3. MATH 1700 or MATH 1232 may be taken in lieu of MATH 1710.

*Courses taken outside of the University of Manitoba must be assessed for the Written (W) requirement in addition to being granted course equivalency to one of the courses specified on the approved list of Written English Courses for Engineering Students. A course syllabus must be submitted reflecting that all of the following requirements are met within the course expectations:

- A minimum of 3 papers of at least 3-5 pages each OR a minimum of 2 papers of at least 6-8 pages each with a minimum total word count of 3000. One paper with a word count of 3000 words or more will not meet this requirement.
- The written work must include a written description or argument that is clear, concise, and logically structured and that reflects an appropriate awareness of the audience or readership being addressed.
- There must be feedback given to the student on the style as well as content of written assignments.

**NOTES:**

1. If more than eight (8) of the twelve (12) courses have been completed, the eight (8) courses with the highest grades will be used to determine an adjusted grade point average (AGPA) for selection.

2. Applicants, who have repeated courses from the required preliminary year courses, will have their most recent attempt used when calculating the AGPA.

3. All applicants must complete the minimum preliminary course requirements by the end of April 2021 to be considered for September 2021 admission to a program within the Price Faculty of Engineering.

4. In order to be considered for admission, as well as to continue within the Price Faculty of Engineering following admission, students who have attempted at least 72 credit hours of courses applicable to a Price Faculty of Engineering program must have passed at least 75% of the attempted credits.
Furthermore, if the student has attempted less than 72 credit hours, the total number of failed credit hours (from all courses with a grade of “D” or “F” that are applicable to the student’s potential engineering program) must not exceed 18 credit hours in order to be eligible to be considered for admission.

5. Students who are enrolled at an international post-secondary institution at the time of application must submit unofficial transcripts showing all complete and in progress coursework by March 15. All official final transcripts with grades must be received by June 1 for selection.

6. It is the applicant’s responsibility to inform the Admissions Office in writing of any deferred exams or grade changes. All final grades, including grade changes must be submitted to the Admissions Office by the document deadline in order for them to be included in the final selection process. Grade changes will not be accepted after the documentation deadline date. If a grade is not available by the documentation deadline date, an ‘F’ grade will be used in the final admission determination and calculation.

B. English Language Proficiency Requirements

All applicants whose primary language is not English and do not qualify for a waiver under the University of Manitoba’s English language proficiency regulations will be required to demonstrate proficiency in English through one of the options listed at the University of Manitoba Admissions web site.

See the link below to view information regarding specific English Language Proficiency Requirements and English Language Proficiency Waiver information:

http://umanitoba.ca/admissions/undergraduate/requirements/english-language-proficiency

Results for most language tests, including TOEFL, IELTS and CanTEST, expire two years from the test date. Test scores must be valid at the start of classes. Please confirm the validity of your test results.

Section 3: Application Process & Deadlines

Applicants are required to submit one application whereby they can rank up to 5 choices.

A. Application Fees

Canadian/Permanent Residents: $100.00
International applicants: $120.00

Applications are not considered received until the application is submitted and the application fee has been paid by the posted deadline.

All correspondence, including decision release information will be sent via email and posted to your application portal.

Please ensure your email account remains current and will accept emails from the University of Manitoba. Check your filters.

It is important to check your email and application portal regularly and specifically around the deadlines and important dates listed below.

B. Deadlines and Important Dates

<table>
<thead>
<tr>
<th>DATE</th>
<th>DEADLINES AND IMPORTANT DATES</th>
</tr>
</thead>
<tbody>
<tr>
<td>March 1, 2021</td>
<td>Final deadline to apply to Engineering degree programs.</td>
</tr>
<tr>
<td></td>
<td>Final deadline to apply to the preliminary year of Engineering from high school or from a degree or engineering-related diploma.</td>
</tr>
<tr>
<td>March 15, 2021</td>
<td>For current internationally-educated applicants, this is the deadline for submission of unofficial transcripts showing all coursework completed and in progress.</td>
</tr>
<tr>
<td></td>
<td>Final deadline to submit all course outlines. Courses being submitted to meet the Written English for Engineering requirement will be sent for both course equivalency and the written attribute assessment as long as the provided request form is also submitted by this deadline.</td>
</tr>
<tr>
<td>April 1, 2021</td>
<td>Deadline for any program ranking changes. Changes can be made by updating the choices listed in the Applicant Portal until this deadline.</td>
</tr>
</tbody>
</table>
June 1, 2021

Deadline for submission of all outstanding final official transcripts.
Deadline for submission of Proof of English Proficiency.
Deadline for submission of Proof of Canadian Citizenship or Permanent Residence.

Early June, 2021

Admission decisions will be released on application portals. Offers of admission are time sensitive and require the applicant’s response within a short time period. A deposit of $250 will be required at this time to accept your offer.

C. Required Application Documentation

The following documents will be required to complete your application:

- **Interim transcripts** showing current registration are to be submitted when applying or shortly thereafter. Additionally, this should be provided as soon as all Winter semester final grades are available.

- **Course outlines** for all completed and in-progress coursework not taken at the University of Manitoba that might be eligible for transfer credit towards the preliminary year courses.

- **Final official transcripts** from any university or college attended other than University of Manitoba are required. Student copies or photocopies are not acceptable. Transcripts become the property of University of Manitoba and will not be returned.

- **Final high school transcript** should be provided for all applicants applying for admission to the Preliminary Year and for prerequisite purposes for all program applicants (if not already provided).

- **Proof of Canadian Citizenship, Permanent Residence or Refugee Status** is required if born outside of Canada. This can be uploaded to the online application before application submission.

- **Name change documentation** is required if name change has occurred as a result of marriage, divorce or any other reason.

- **Proof of proficiency in the use of the English language** (see Section 2: Eligibility Requirements, B. English Language Proficiency Requirements)

It is the applicant’s responsibility to inform the Admissions Office in writing of any deferred exams or grade changes. All final grades, including grade changes, must be submitted to the Admissions Office by the document deadline in order for the grades to be included in the final selection process.

Please send all documentation to the following address:

**Admission for Engineering**  
**University of Manitoba**  
**424 UMSU University Centre**  
**66 Chancellors Circle**  
**Winnipeg, MB R3T 2N2**

Electronic transcripts should be submitted to Applicant.Services@umanitoba.ca

*In the event that you are not able to provide an official transcript (for example, if the issuing office at your university or college is closed due to COVID-19), the University of Manitoba will accept an electronic transcript provided that it has been sent directly from the email of the office responsible for issuing transcripts. Applicants who submit their documents electronically may be requested to provide original, physical copies at a later date.

D. Transfer credit information

At the University of Manitoba, all course work from a recognized prior post-secondary institution will be considered as part of the application for admission process for all undergraduate degree and diploma programs.

Courses are evaluated for advanced standing or transfer credit on a course-by-course basis and assigned a University of Manitoba equivalent, where applicable. Where a direct equivalent does not exist, students may receive general (unallocated) credit. The regulations regarding transfer credit are program specific and vary considerably depending on the faculty or school of application. The Price Faculty of Engineering will only consider external courses completed within the last ten years.
Courses deemed acceptable for transfer credit will be awarded, subject to program approval, up to the maximum allowed under the program of admission, based on the Faculty or School’s transfer credit policy and residency requirements (consult the section of the University’s Academic Calendar at: www.umanitoba.ca/calendar for details).

Students may be asked to provide comprehensive and accurate course outlines or syllabi, as issued by their institution of study, for all courses lacking a current evaluation. Course outlines or syllabi should include information on: course objectives, outline of the units studied, textbook(s) used, assignments, and accompanying laboratory information, if applicable, to assist in the transfer credit assessment process.

For information on current course evaluations receiving credit, please visit:

www.umanitoba.ca/admissions/tc

While we understand that some institutions do not have course information readily available, many students have been able to provide the information requested by contacting the individual departments or instructors at their prior institutions. Students that are unable to provide the requested course information may render themselves ineligible for programs with specific course requirements. Only successful applicants will be notified of transfer credit results.

Additional information related to transfer credit may be found at:

http://umanitoba.ca/admissions/undergraduate/requirements/transfer-credit

**Section 4: Selection Process**

**A. Admission to the Preliminary Year**

Applicants from the three following categories make up the intake to the preliminary year of engineering. The composition and distribution of spaces for each category will vary each year and is determined by the Engineering Selections Committee.

1. *From High School via Direct Entry*

The selection process is competitive and admission will follow the procedures outlined in the Direct Entry Applicant Information Bulletin.

2. *Through the Engineering Access Program (ENGAP)*

Applicants meet with the ENGAP staff (see Section 8: Contact Information) and admission is recommended on a holistic basis once documentation has been provided to ENGAP indicating First Nations, Métis, or Inuit ancestry.

3. *From a Bachelor’s Degree or Recognized Engineering Technology Diploma*

Selection is competitive and is based on the applicant’s Adjusted Grade Point Average (AGPA), if a Bachelor’s degree has been awarded, or the Cumulative Grade Point Average (CGPA), if a recognized Engineering Technology Diploma has been awarded (see Section 2: Eligibility Requirements, A. Academic Requirements, 1. Admission to the Preliminary Year, c. Bachelor’s Degree Graduates).

**B. Admission to the Programs**

Enrolment in the Price Faculty of Engineering is limited and based on competitive selection.

Students will apply for and rank as many of the 5 programs for which they wish to be considered. All applicants will be ranked according to AGPA (see Section 2: Eligibility Requirements, A. Academic Requirements, 2. Admission to a Degree Program) and will be offered the highest ranked program in which they are eligible. Applicants will only receive one offer and will not be waitlisted for any other programs. No changes in ranking of programs will be allowed after April 1st.

**NOTE:** Preference within each program will be given to Canadian Citizens and Permanent Residents. However, each program will aim to admit a minimum of 10% international students.
1. Program Capacity Targets

The following are the maximum number of students admitted to each department within the Price Faculty of Engineering in a given year:

- Biosystems engineering – 48 students
- Civil engineering – 76 students
- Electrical and Computer engineering – 120 students
- Mechanical engineering – 120 students

2. Special Consideration for ENGAP Applicants

The Special Consideration Category for ENGAP is intended for all First Nations, Métis, and Inuit applicants who have completed the minimum admission requirements (see Section 2: Eligibility Requirements, A. Academic Requirements, 2. Admission to a Degree Program), but who do not meet the cut-off AGPA established for the year’s admission. Applicants in this category must also be enrolled in ENGAP for a minimum of eight months by the end of April of the year of application.

Eight (8) admission spaces are available to ENGAP applicants annually. The expected distribution would be as follows:

- Biosystems engineering – 1 student
- Civil engineering – 2 students
- Computer engineering – 1 student
- Electrical engineering – 2 students
- Mechanical engineering – 2 students

If more than eight (8) students qualify in this category, eight (8) applicants will be selected based on an AGPA rank-ordered list (see Section 2: Eligibility Requirements, A. Academic Requirements, 2. Admission to a Degree Program).

Students wishing to be considered in this category must indicate this in the appropriate section on the Engineering Application Form. If students do not indicate this on the application form by the application deadline, they will not be eligible for consideration within this category.

If you are unsure whether or not to apply under this category, please consult with ENGAP (see Section 8: Contact Information).

Canadian Indigenous ENGAP applicants will automatically be considered in the regular admission process if it is deemed to be to their advantage. For example, an ENGAP Special Consideration applicant who has achieved an AGPA that exceeds the cut-offs established through the regular admission process will automatically be admitted as a regular applicant and will not fill one of the eight available seats in this category.

C. Tie Breaking Procedure for Offers

In the event of a tie, the following procedure will be used:

1. Increase the number of significant figures used in the calculation.
2. Where a tie still exists, the application that was received first will be used to break the tie. All completed applications are time stamped upon submission; in the case of a paper application, these applications will be time stamped after they have been entered into the system by a University of Manitoba Admissions Office staff member.

D. Notification of Decision

Decisions will be posted to the applicant’s portal. Applicants must log into their application portal to view the decision and to accept or decline their offer. If the offer is not accepted and the subsequent deposit paid by the deadline date indicated in the letter, the offer will lapse. Lapsed offers will be considered a declined response. It is imperative that emails and application portals are regularly checked, especially once decisions start to be released (early June).

Applicants offered admission will have 5 business days to respond and will be required to pay a non-refundable deposit of $250.00 to indicate their acceptance of the offer. This deposit will be credited to tuition fees or forfeited if the applicant subsequently declines.

Section 5: Reconsideration & Appeals

Individuals who wish to have their applications reconsidered should submit their request in writing to the Admissions Office. Past experience has shown that most inquiries can be satisfied at this level without
further reference. Persons wishing reconsideration of the decision shall direct their request to the Admissions Office within ten (10) business days of the posted decision date.

Should the student wish to pursue the reconsideration decision further, such an appeal will be made in accordance with the Senate Committee on Admission Appeals Procedures.

http://umanitoba.ca/admin/governance/governing_documents/students/admission_appeals.html

Applicants are advised that appeals of reconsideration decisions by the Senate Admissions Appeal Committee focus on questions of correct adherence to published policies and procedures, and NOT on subjective issues or the relative merits of the application.

Section 6: Counselling of Applicants

The Price Faculty of Engineering and Admissions Office are able to assist applicants who seek counselling regarding admission to the Price Faculty of Engineering. However, it is policy to not instruct applicants as to a specific course of action they should follow, but rather to provide the information needed for applicants to make their own choice with respect to the alternatives available. The following points require special attention:

1. Applicants are encouraged to discuss their plans with all who can usefully advise them, but they should be aware that second and third hand information about admission policies may not be accurate.

2. No official at the University of Manitoba can guarantee the admission of any applicant. Admission is determined on the basis of an annual competition.

3. All applicants are advised to supplement any personal enquiries with a written request so that an official written response can be made. Only written responses will be considered as evidence of any advice given (see Section 8: Contact Information).

Section 7: Student Accessibility

The University of Manitoba is committed to providing all students equal access to learning opportunities. If you are a student with a diagnosed disability (permanent, chronic, or temporary) who may require academic accommodations, please contact Student Accessibility Services at 204-474-7423 or by email at student.accessibility@umanitoba.ca to learn more about the confidential supports that are available.
