

Certificate in Applied Management

If you are looking for customizable professional development to advance your career, this may be the university certificate program for you. The Certificate in Applied Management (CAM) was designed to provide individuals in various work environments with the opportunity to combine management studies with applications relevant to their own careers.

Customized professional development

PROGRAM DESCRIPTION: This customizable university certificate program starts with a strong foundation of core courses followed by your own set of electives that's just right for you and your career. If you are employed by one of our partner organizations, your electives may already be packaged for you. Or, you will work with your sponsor to choose the most appropriate elective courses. If you are not employed by one of our partner organizations, you will choose your options based on your own career plans and goals.

SKILLS AND COMPETENCIES: Improve your management, team leadership, communications and industry skills with the program's core courses. Then, focus specifically on your own customized list of elective courses. Topics range from business methodology and skills to human resource management, leadership development, and specialized topics in business and management. If you are employed by one of our partner organizations, electives may include professional development offerings with your organization or customized courses created for your organization.
