Department of Sociology**

Introduction to Sociology - 6 credit hours

Time and Location: 077:120 L14 Tues/Thurs 1:00-2:30 306 Tier

Instructor: Kelly S. Gorkoff

Office: 301J Isbister

Office Phone: 474-6447

E-mail: kgorkoff@connect.carleton.ca

Office Hours: Monday and Wednesday 12 - 1 (or by appointment)

Required Textbooks:

Henslin, J. D. Glenday, A. Duffy, & N. Pupo Sociology: A Down to Earth Approach: 3rd Edition, Prentice Hall

Brym, R. Society in Question: Sociological Readings for the 21st Century 3rd Edition: Harcourt Canada

Course Objectives:

This course will introduce students to the discipline of Sociology, its perspective, its basic concepts and principles, its methods of analysis, and its major sub-fields. Through this introduction it is expected that students will begin to think in ways that take into account the social realm of thought, including the impact of social forces, social constraints, and social structure on an individual's thoughts and behaviors. It will also examine how group's interactions create and maintain social structures.

The goals of the course are to encourage students to begin to think critically about the social world, to examine various life issues with a sociological lens, to 'problematize' social issues, and to spark the sociological imagination - "the ability to see the relationship between individual experiences and the larger society" (C. Wright Mills, 1959).

Various topics will be covered and may be subject to change. Although the textbook and reader will make up the majority of the material, some topics will not be covered by the text. Thus, students will be responsible for lecture notes, handouts, & films. Information from all these resources will be included as test material.

Course Requirements:

Students will be required to complete 4 tests and 4 take home essays (the best 3 grades of the take home essays will count toward the final grade).

Tests will be taken in class and are non-cumulative. They will consist of multiple choice and short answer. Questions will test applied knowledge as well as recollection of course material.

While the majority of the class will be comprised of lectures, the course will be structured to encourage discussion of topics/issues among students. At the completion of a major topic, we will break into groups and have small group's discussions. These discussions will be guided by a series of questions. Students are then required to choose questions and complete an essay at home to be handed in the next class. There will be eight discussion classes throughout the year with four take home essays required.

This will be discussed further in class.

Test 1 – 17.5%

Test 2 – 17.5%

Test 3 – 17.5%

Test 4 – 17.5%

3 Papers at 10% each – 30%

TOTAL 100%

A test can only be missed for a legitimate medical or personal reason. Students who cannot write a test for one of those reasons must inform the instructor prior to the test with appropriate documentation from a legitimate source. Students who miss a test must inform the instructor within three days of the missed test with proper documentation to be considered for re-scheduling. Students who do not do so will be given a grade of zero. Similarly, the written papers will have a due date. Proper documentation is required within three days of the due date to arrange alternate dates. In the absence of such documentation, students will be given a grade of zero.

Academic Dishonesty

Students should acquaint themselves with the University's policy on 'plagiarism and cheating' and 'examination impersonation' found in the University Undergraduate Calendar.

Disruptions due to excessive talking or early departures from the classroom are especially distracting. Please be considerate and respectful of the needs and rights of others in the class. Students should be aware that persistent disruption may result in disbarment from the course. Any student who has a legitimate reason for leaving class early should inform the instructor at the beginning of the class.

Tentative Grade Distribution

A+	=	95 - 100	C+	=	68 - 69
A	=	85 - 94	C	=	60 - 67
B+	=	80 - 84	D	=	50 - 59
B	=	70 - 79	F	=	0 - 49

The deadline for voluntary withdrawal is March 17, 2004. University of Manitoba Senate Policy #1307 requires a post-examination review of final grades in multi-sectioned courses that will ensure an equitable correspondence between grades and level of performance in all sections.” Accordingly, the final grade distribution in this course may be raised or lowered to achieve this equity and, therefore, your final grade may be changed.
