The third segment will deal with the founding and logic of scientific sociology, during which students will read Durkheim's Suicide. The fourth segment consists of lectures connected with the reading of Nietzsche, "On the Genealogy of Morality, "Second Essay: 'Guilt', 'bad conscience' and related matters."

## **GRADING SCALE**

I find the normal grading system too constraining, so I have modified it to a limited extent by introducing the minus grade

(e.g., A-, B-, C- ). In the final grade submitted, however, I must conform to the university scheme.

Your answers are being evaluated on a letter grade system, not on a point system, which is converted to a letter grade. The main benchmarks for the grade ranges can be described as follows:

D/F = an answer which is factually weak, faulty analysis, and very poor organization.

C = an answer which is mostly complete in terms of facts but suffers from poor analysis, organization and integration. Knowing the facts is a good start, but only a beginning.

B = answer is factually accurate and mostly complete as well as organized and integrated.

A = answer factually complete, well organized, sophisticated analysis which demonstrates a good degree of comprehension.

No make-up tests or late assignments except for legitimate reasons (e.g., illness as attested by a medical certificate).

NOTE: Students should acquaint themselves with the University's policy on 'Examinations: Personations' (p.25) and 'Plagiarism and Cheating' (p.26) found in the University of Manitoba's Undergraduate Calendar.

*University of Manitoba Senate Policy #1307* requires a "post-examination review of final grades in multi-sectioned courses that will ensure an equitable correspondence between grades and level of performance in all sections." Accordingly, the final grade distribution in this course may be raised or lowered to achieve such equity and, therefore, your final grade may be changed.

Voluntary withdrawal deadline is March 18, 2004.
