

The **Department of Civil Engineering** at the University of Manitoba invites applications for a two-year term position at the rank of **Instructor I, Instructor II or Senior Instructor** in Civil Engineering (**Position #30206**). The starting date is July 1<sup>st</sup>, 2021 or a date mutually agreed upon. Salary and rank will be commensurate with experience and qualifications.

The successful candidate will have demonstrated expertise in three or more of the following areas: a) engineering mechanics, b) civil engineering geomatics, c) numerical methods, e) construction management, f) sustainable construction and g) capstone design projects.

The successful candidate must have a Bachelor's degree in Civil Engineering and Master's or Doctoral degree in Civil Engineering or a related field. Current registration with Engineers Geoscientists Manitoba as E.I.T. or P.Eng. is required. Undergraduate teaching experience and demonstrated training will be an asset. Candidate with three or more years of engineering consulting experience will be preferred.

The successful candidate must demonstrate an ability to teach effectively, be passionate, dynamic and inspirational teacher, and possess excellent written communication skills.

Teaching duties will include the following:

- To teach five undergraduate course sections in each academic year (September to August).
- To train, supervise and evaluate teaching assistants.
- To participate in course and curriculum development.
- To develop and coordinate the laboratory components of courses as required.

The service component may include service and administrative duties within the Department, the Faculty and the University, and in the community. In particular, the successful candidate will participate in initiatives related to undergraduate instruction and accreditation. This position has no research duties.

The Department of Civil Engineering ([www.umanitoba.ca/civil](http://www.umanitoba.ca/civil)) has twenty-two faculty members, thirteen support staff, and approximately two hundred and seventy undergraduate and one hundred and fifty graduate students. Approximately twenty-five percent of faculty members and thirty percent of students at both the graduate and undergraduate level are female.

The University of Manitoba is a research-intensive university. From its two campuses in Winnipeg, the university serves all parts of the Province, including inner city and suburban areas, rural and northern communities, and attracts students from all population groups and walks of life.

The University of Manitoba is strongly committed to equity and diversity within its community and especially welcomes applications from women, racialized persons, Indigenous peoples, persons with disabilities, persons of all sexual and gender identities, and others who may

contribute to the further diversification of ideas. All qualified candidates are encouraged to apply; however Canadian citizens and permanent residents will be given priority.

If you require accommodation supports during the recruitment process, please contact [UM.Accommodation@umanitoba.ca](mailto:UM.Accommodation@umanitoba.ca) or 204-474-7195. Please note this contact information is for accommodation reasons only.

Review of applications will begin April 23, 2021, and will continue until the position is filled. Applicants need to submit a cover letter, curriculum vitae, a statement of engineering practice expertise and undergraduate teaching interests, teaching evaluations if available, and names and contacts of three references. Please submit your application by email to [instructor30206@umanitoba.ca](mailto:instructor30206@umanitoba.ca) . Please combine all documents in one Adobe Acrobat (pdf) file and indicate the position #30206 on all correspondence.
