1. Direct Entry programs admit students directly from high school. Transit programs allow students to transit in automatically from University 1. (Arts/Science figures are separated into students who formally applied to Arts and Science and those who transited automatically from University 1). University Entry requires university study before application to the program. University Entry does not include special or visiting students.

2. Due to the COVID-19 pandemic and resulting changes to program/course delivery, 2020-21 may not be comparable to previous years.

3. Applicant data from the new application system, Radius, introduced in 2017-18.

4. Includes students who have accepted, or were offered, admission.

5. Registered status reflects data from end of term, in each year.

6. Agricultural & Food Sciences target includes the target for Human Nutritional Sciences (90).

7. The Faculty of Engineering changed its name to the Price Faculty of Engineering in 2020.

8. Beginning in 2017, the Rady Faculty of Health Sciences has an option for admission directly from high school.

9. Admissions to Family Social Science programs suspended Fall 2019.

10. Nursing has a split intake, with a Fall Term intake of 120 students and a Winter Term intake of 120 students.

11. Within the UCN program, The Pas and Thompson sites each have a target of 20.

12. Students admitted to the joint program take their first-year courses at UCN. For that reason, the number registered is not shown.

13. Beginning in Fall Term 2019, Pharmacy transitioned to a new PharmD program. There was no intake in 2019.

14. Physical Education and Kinesiology have a combined target of 100.

15. Law has five supernumerary places for half-time students and five supernumerary places for Indigenous students.
