EDUA 5660 Organization and Delivery of Resource Program and Support Services Cr.Hrs.3 (Formerly 129.566) A critical study of the nature of resource teacher programs and an analysis of factors influencing program development and effectiveness. Not to be held with the former 043.539. *Prerequisite or concurrent:* EDUA 5600 (129.560)(C).

EDUA 5670 Strategies for Organizing Inclusive Classrooms and Schools Cr.Hrs.3 (Formerly 129.567) An examination of the organization and implementation of school-wide supports for access, learning, socialization, behaviour, family liaison, clinical engagement, and community services. Organizational strategies to enhance consultation, cooperation, collaboration and professional development are included. Not to be held with the former 043.540. *Prerequisite or concurrent:* [EDUA 5600 (129.560)(C) or equivalent] and [EDUA 5630 (129.563)(C) or equivalent].

EDUA 5680 Promoting Responsible Behaviour in Educational Settings Cr.Hrs.3 (Formerly 129.568) The course is designed to provide teachers with an understanding of the needs of children who display maladaptive behaviours in a school setting. Conceptualization of behaviour disorders, identification/assessment procedures, and intervention strategies will be studied. The purpose of the course is to enable teachers to generate intervention strategies which are appropriate in an educational setting. Not to be held with the former 043.542.

EDUA 5690 Focus on Exceptionality: Gifted and Talented Cr.Hrs.3 (Formerly 129.569) Students will be introduced to various topics and issues in the realm of gifted education, including theoretical models; relevant research, and appropriate teaching and assessment practices.

EDUA 5700 Social Psychology of Education Cr.Hrs.3 (Formerly 129.570) An examination of the influence of social factors on the individual's achievement and adjustment in school. Additional emphasis will be placed upon the functioning of small groups and interaction in the classroom together with an analysis of the social structure of the school and the teacher's social role. Not to be held with the former 043.508.

EDUA 5710 Readings in Educational Psychology 1 Cr.Hrs.3 (Formerly 129.571) Directed readings and study of topics in various aspects of education from the psychological viewpoint.

EDUA 5720 Readings in Educational Psychology 2 Cr.Hrs.3 (Formerly 129.572) Directed readings and study of topics in various aspects of education from the psychological viewpoint.

EDUA 5730 Recent Developments in Educational Psychology 1 Cr.Hrs.3 (Formerly 129.573) An opportunity to examine the theoretical bases for, and practical application of, recent or emerging developments in this area.

EDUA 5740 Recent Developments in Educational Psychology 2 Cr.Hrs.3 (Formerly 129.574) An opportunity to examine the theoretical bases for, and practical application of, recent or emerging developments in this area.

EDUA 5750 Psychology of Learning in Educational Contexts Cr.Hrs.3 (Formerly 129.575) An examination of basic theories of learning as applied to classroom instruction, and as used for designing curricula. Emphasis will be given to cognitive information processing, through behaviourist, developmental, and psychosocial explanations of learning will also be covered. Not to be held with the former 043.543. *Prerequisite:* [EDUA 1800 (129.180)(C)] and [PSYC 1200 (017.120)(C)], or equivalent.

EDUA 5760 Psychology of Instruction in Educational Contexts Cr.Hrs.3 (Formerly 129.576) Designed primarily, although not exclusively, for classroom teachers and school personnel. A critical examination of major theoretical foundations and models of instruction. The course aims at the integration and application of traditional and emerging approaches and strategies of classroom instruction. Not to be held with the former 043.544. *Prerequisite:* [EDUA 1800 (129.180)(C)] or [PSYC 1200 (017.120)(C)], or equivalent.

EDUA 5770 Focus on Exceptionality: An Ecological Approach to FAS/E Cr.Hrs.3

(Formerly 129.577) Students will be introduced to an ecological or multidisciplinary approach regarding children with FAS/E. Theoretical frameworks and evidence based assessment and instructional practices will be covered.

EDUA 5800 Introduction to Educational Research Cr.Hrs.3 (Formerly 129.580) A study of scientific inquiry in the field of education. Research and statistical methods are surveyed within the context of educational research. Particularly recommended for students interested in the evaluation and application of research findings. Not to be held with the former 043.503.

EDUA 5810 Theory of Test Construction Cr.Hrs.3 (Formerly 129.581) Particular attention is given to problems of item analysis, validity, reliability, and test evaluation in the educational setting. Norm and criterion referenced tests are considered. Not to be held with the former 043.504.

EDUA 5820 Test Administrative Analysis Cr.Hrs.3 (Formerly 129.582) An overview of test classification and factors affecting test scores together with an analysis of the testing situation. Specific problems of test administration in schools will be treated. Not to be held with the former 043.505.

EDUA 5850 Computer Application in Education 2 Cr.Hrs.3 (Formerly 129.585) An advanced course dealing with tutorial applications of computers in both regular and special education classrooms. Not to be held with the former 043.526. *Prerequisite:* consent of instructor or 043.306 (C).

EDUA 5900 Education and the Developmental Process 1 Cr.Hrs.3 (Formerly 129.590) A survey of the developmental process from conception to pubescence. Specific emphasis will be placed upon biological foundations, cognitive development, and social aspects of behaviour as related to the educational process. Not to be held with the former 043.506.

EDUA 5910 Education and the Developmental Process 2 Cr.Hrs.3 (Formerly 129.591) A study of growth and development in the post-pubescent period with specific emphasis on implications for the secondary school. Not to be held with the former 043.507.

EDUA 5920 Children's Play Cr.Hrs.3 (Formerly 129.592) The role of play in children's learning, including historical aspects of play; play as intrinsic to the child's development; conceptual, perceptual, linguistic, physical attributes of play; and the delineation of work and play. Not to be held with the former 043.529.

EDUA 5930 Observing Child Behaviour Cr.Hrs.3 (Formerly 129.593) The use of qualitative observation techniques, especially in educational settings, to understand children's behaviour, thinking, and motivations. Not to be held with the former 043.530.

EDUA 5940 Language and Symbolic Process Cr.Hrs.3 (Formerly 129.594) The focus in this course is on the role of symbolic learning in the development of the young child. A study of theories on symbol formation is intended to serve as a framework for examining the emergence of representational capacities in movement, gesture, play, drawing and three dimensional media. Not to be held with the former 043.541. *Prerequisite:* former 043.307.

13.3 Collège universitaire de Saint-Boniface

EDSB 5011 L'Éducation Bilingue et l'Acquisition d'une Langue Seconde Cr.Hrs.3 (Ancien 120.501) Étude du développement linguistique de l'enfant tout en considérant un grand nombre de facteurs socio affectifs et cognitifs qui influencent le développement linguistique, facteurs permettant de réfléchir à toute la question de l'immersion et d'appliquer ces connaissances à la situation qui existe au Manitoba.

EDSB 5021 L'enseignement du Langage : Aspects Psycholinguistiques Cr.Hrs.3 (Ancien 120.502) Étude des divers facteurs psycholinguistiques et sociolinguistiques qui influencent l'acquisition du langage chez l'enfant et qui permettent de mieux comprendre le rapport entre la cognition, le langage et la lecture/écriture, les fonctions du langage dans la salle de classe, l'acquisition précoce d'une deuxième langue, et l'enseignement de la langue maternelle en situation minoritaire.

EDSB 5031 Histoire de l'Éducation Française au Manitoba Cr.Hrs.3 (Ancien 120.503) Les fondements de l'éducation française au Manitoba. Examen, dans une perspective historique, des événements majeurs, de nature sociologique et politique, qui ont marqué le développement de l'éducation française au Manitoba.

On ne peut se faire créditer le EDSB 5031 (ancien 120.503) et l'ancien 116.503.

EDSB 5041 Théories d'Apprentissage en Situation d'Immersion Cr.Hrs.3 (Ancien 120.504) Étude des connaissances théoriques concernant les processus, les mécanismes et les facteurs reliés à l'apprentissage d'une langue seconde. Développement d'une compréhension plus englobante de l'expérience pratique en immersion. *Préalable :* le EDSB 5011 (ancien 120.501) ou le EDSB 5021 (ancien 120.502).

EDSB 5051 L'Intégration des Matières en Situation d'Immersion Cr.Hrs.3 (Ancien 120.505) Familiarisation avec les principes de l'intégration des matières et les stratégies d'intégration de la lecture et de l'écriture dans l'enseignement des mathématiques, des sciences naturelles et des sciences humaines. Contenu du cours adapté au contexte de l'immersion.

EDSB 5061 Théories d'Apprentissage en Milieu Minoritaire Cr.Hrs.3 (Ancien 120.506) Familiarisation avec les recherches en éducation compensatoire et bilingue et dégagement des implications en regard de l'apprentissage en milieu minoritaire.

EDSB 5071 Difficultés dans l'Enseignement du Langage Écrit Cr.Hrs.3 (Ancien 120.507) Familiarisation avec les principes et les méthodes de prévention des difficultés d'apprentissage du langage écrit en tenant compte du contexte franco-manitobain.

EDSB 5081 Stage et Séminaires de Recherche-Action Cr.Hrs.6 (Ancien 120.508)

Utilisation du processus et des méthodes de recherche-action en vue de la résolution de problèmes éducatifs pratiques. Cours qui exige un minimum de 150 heures consacrées au stage de recherche. Pour s'inscrire à ce cours, il faut être en fonction dans le milieu éducatif.

EDUA 1801 Psychologie de l'Apprentissage 1 : Théorie et Pratique Cr.Hrs.3 (Ancien 129.180) Étude des concepts théoriques reliés à la nature de l'apprentissage et du développement en milieu scolaire, ou autre, et des pratiques qui en découlent. On ne peut se faire créditer le EDUA 1801 (ancien 129.180) et l'ancien 043.202.

EDUA 2011 Psychologie du Développement Cr.Hrs.3 (Ancien 043.201) Étude des principes de base du développement humain et de leur importance dans l'établissement de procédés efficaces de communication en classe. Étude d'un développement normal et des problèmes communs en éducation.

EDUA 2031 Psychologie de l'Enfance Exceptionnelle Cr.Hrs.3 (Ancien 043.203) Initiation à l'étude des besoins des enfants nécessitant une approche spéciale qui leur permet de se développer au maximum de leur potentiel. Examen particulier du rôle de l'enseignante ou de l'enseignant en vue d'identifier et de combler ces besoins.

EDUA 2041 Psychologie de l'Enfant Cr.Hrs.3 (Ancien 043.204) Étude de l'interaction entre l'enfant et son entourage. Analyse particulière de l'influence des parents, des adultes, des frères et des sœurs et de l'école sur l'évolution psychologique, affective, sociale et morale de l'enfant.

EDUA 2801 Psychologie de l'Apprentissage II : Éducation Inclusive Cr.Hrs.3 (Ancien 129.280) Étude des approches et des pratiques visant à répondre aux besoins diversifiés de tous les élèves, incluant les méthodes et les ressources disponibles pour inclure tous les élèves dans les classes et les écoles régulières.

EDUA 2901 Le Rôle de l'École dans la Société Cr.Hrs.3 Étude du système scolaire canadien et manitobain, dans le contexte d'une société diversifiée. Ce cours vise, dans un premier temps, à faire prendre conscience des enjeux historique, philosophique, sociologique et transculturel liés à l'enseignement. Dans un deuxième temps, il amènera les étudiantes et étudiants à comprendre le rôle de l'enseignant et de l'enseignante au sein de l'organisation du point de vue professionnel, légal et administratif.

EDUA 3011 Mesure et Évaluation Cr.Hrs.3 (Ancien 043.301) Théorie et application pratique dans la préparation, l'utilisation et l'interprétation de tests composés par les instituteurs et les institutrices; utilisation et interprétation de divers types de tests standards; techniques de statistiques connexes.

EDUA 3021 Principes de Programmation Scolaire Cr.Hrs.3 (Ancien 116.302) Analyse des principes fondamentaux qui gouvernent l'élaboration des programmes scolaires et étude de l'application de ces principes à certains programmes actuels.

EDUA 3051 Troubles Particuliers de l'Apprentissage Cr.Hrs.3 (Ancien 043.305) Initiation à l'étude de certains troubles perçus dans le développement des élèves. Étude du rôle de l'enseignante ou de l'enseignant dans le dépistage de ces troubles et application de programmes particuliers de rééducation.

EDUA 3061 Informatique En Éducation I Cr.Hrs.3 (Ancien 043.306) Applications pédagogiques des ordinateurs. Exploitation des logiciels, des progiciels et des didactiques applicables à l'enseignement.

EDUA 3071 Développement du Langage chez le Jeune Enfant Cr.Hrs.3 (Ancien 043.307) Étude des expériences sensorimotrices et des étapes de la communication pré linguistique et linguistique allant de l'expression vocale au développement syntaxique. Appréciation de l'importance de l'environnement linguistique et de la cognition dans le développement, l'acquisition et l'apprentissage de la langue première. Analyse particulière du développement d'une langue seconde aux niveaux préscolaire et primaire en immersion. Il est préférable mais non obligatoire de suivre le EDUA 2011 (ancien 043.201) au préalable.

EDUA 3201 Diversité Culturelle dans les Écoles Cr.Hrs.3 Les écoles accueillent un grand nombre d'élèves provenant de groupes sociaux marginalisés selon, entre autres, leur race, leur ethnie, leur langue maternelle, leur religion, leur orientation sexuelle ou leur statut socioéconomique. Ce cours abordera donc la question de la diversité culturelle, prise dans un sens large, dans le contexte de l'enseignement. Il permettra aux étudiantes et aux étudiants d'acquérir les connaissances et de développer les attitudes et les stratégies nécessaires pour favoriser l'équité et la qualité des apprentissages des élèves, peu importe leurs antécédents, leurs particularités ou leurs circonstances.

EDUA 3303 Intégration et Identité Professionnelles Cr.Hrs.3 Développement de l'habileté à faire le lien entre la pratique et la théorie et à mettre en œuvre une gestion efficace de sa pratique pédagogique.

EDUA 3313 Perspectives Autochtones en Contexte Scolaire Cr.Hrs.3 Introduction aux perspectives culturelles autochtones et métisses en contexte scolaire : dimensions historique, anthropologique, éthique et pédagogique. Développement de compétences professionnelles relatives à l'enseignement dans un environnement autochtone et métis.

EDUA 3323 La Pratique Réflexive dans la Formation Professionnelle Cr.Hrs.3 Analyse d'expériences vécues lors du stage pratique menant à une prise de conscience de son propre style d'enseignement.

EDUA 3991 Éducation Française en Milieu Minoritaire Cr.Hrs.3 (Ancien 116.399) Étude des aspects historique, démographique, culturel, linguistique, identitaire et pédagogique qui encadrent le phénomène de l'éducation française en milieu minoritaire canadien.

EDUA 3993 Éducation Française en Contextes Minoritaire et d'Immersion Cr.Hrs.3 Étude des aspects historique, démographique, culturel, linguistique, identitaire et des approches pédagogiques qui encadrent le phénomène de l'éducation française en milieu minoritaire au Manitoba (écoles d'immersion et écoles françaises).

EDUA 5011 Introduction à l'Administration Scolaire Cr.Hrs.3 (Ancien 129.501) Étude des concepts, des tâches et des processus de l'administration tels qu'ils s'appliquent à l'éducation. On ne peut se faire créditer le EDUA 5011 (ancien 129.501) et l'ancien 116.501.

EDUA 5021 Principes D'élaboration De Curriculum Cr.Hrs.3 (Ancien 129.502) Étude des différentes approches d'élaboration de curriculum, des facteurs qui en influencent le processus d'élaboration et des aspects de l'implantation. Participation de l'enseignant ou de l'enseignante à l'élaboration du curriculum. On ne peut se faire créditer le EDUA 5021 (ancien 129.502) et l'ancien 116.502

EDUA 5031 Gestion des Établissements Scolaires Cr.Hrs.3 (Ancien 129.503) Étude des modes fondamentaux d'organisation et du rôle de l'administration au sein d'un établissement scolaire. Attention particulière accordée à la prise de décision, à la communication, à la planification et à l'évaluation. On ne peut se faire créditer le EDUA 5031 (ancien 129.503) et l'ancien 116.503.

EDUA 5041 Administration du Personnel Scolaire Cr.Hrs.3 (Ancien 129.504) Étude des rapports de l'administratrice ou de l'administrateur avec le personnel, en mettant l'accent sur la politique de gestion, le perfectionnement et la motivation du personnel. On ne peut se faire créditer le EDUA 5041 (ancien 129.504) et l'ancien 116.504.

EDUA 5061 Principes de la Supervision en Enseignement Cr.Hrs.3 (Ancien 129.506) Étude des modèles théoriques d'enseignement et de supervision et de leur application dans la pratique. On ne peut se faire créditer le EDUA 5061 (ancien 129.506) et l'ancien 116.506.

EDUA 5071 Comportement Organisationnel en Éducation Cr.Hrs.3 (Ancien 129.507) Étude des théories et des recherches en sciences du comportement et en sciences sociales qui ont trait au comportement des individus et des groupes dans une structure organisationnelle. Analyse de la portée de ces théories et recherches par rapport à l'administration des établissements scolaires. On ne peut se faire créditer le EDUA 5071 (ancien 129.507) et l'ancien 116.507.

EDUA 5081 Courants Actuels en Administration Scolaire 1 Cr.Hrs.3 (Ancien 129.508) Étude des fondements théoriques et de l'application pratique des développements récents et des nouveaux courants en administration scolaire.

EDUA 5091 Courants Actuels en Administration Scolaire 2 Cr.Hrs.3 (Ancien 129.509) Prolongement de l'étude de certains sujets abordés dans le EDUA 5081 (ancien 129.508) en vue d'approfondir les études entreprises dans ces domaines.

EDUA 5101 Problématiques Actuelles en Administration Scolaire Cr.Hrs.3 (Ancien 129.510) Étude de sujets d'importance en administration scolaire. On ne peut se faire créditer le EDUA 5101 (ancien 129.510) et l'ancien 116.510.

EDUA 5481 Techniques de Counselling Cr.Hrs.3 (Ancien 129.548) Acquisition de techniques de counselling telles que l'attention et l'écoute, le reflet du contenu et des émotions, la rétroaction et la révélation de soi, la focalisation et le résumé. On ne peut se faire créditer le EDUA 5481 (ancien 129.548) et l'ancien 129.556 ou l'ancien 043.516. *Préalable* ou concomitant : EDUA 5501 (ancien 129.550) ou l'ancien 043.509.

EDUA 5491 Stage en Counselling Cr.Hrs.3 (Ancien 129.549) Situation réelle de counselling où les étudiantes et les étudiants auront l'occasion, sous la supervision de professionnels compétents et avec l'appui de leur professeur ou de leur professeur, de mettre en pratique les techniques de counselling qu'ils ont apprises. On ne peut se faire créditer le EDUA 5491 (ancien 129.549) et l'ancien 129.556 ou l'ancien 043.516. *Préalable* ou concomitant : le EDUA 5501 (ancien 129.550) ou l'ancien 043.509 et le EDUA 5481 (ancien 129.548).

EDUA 5501 Théories de Counselling Cr.Hrs.3 (Ancien 129.550) Étude de la philosophie et des théories du counselling. Sujets importants en orientation et en counselling scolaires. On ne peut se faire créditer le EDUA 5501 (ancien 129.550) et l'ancien 043.509.

EDUA 5511 Counselling à l'Élémentaire Cr.Hrs.3 (Ancien 129.551) Examen du rôle et des fonctions de la conseillère ou du conseiller dans une école élémentaire. *Préalable* ou concomitant : EDUA 5501 (ancien 129.550) ou l'ancien 043.509. On ne peut se faire créditer le EDUA 5511 et l'ancien 043.510.

EDUA 5531 Counselling au Secondaire Cr.Hrs.3 EDUA l'animation de groupe et de l'acquisition des compétences connexes, particulièrement en ce qui a trait à la fonction de la conseillère ou du conseiller en milieu scolaire. On ne peut se faire créditer le EDUA 5541 (ancien 129.554) et l'ancien 043.512. *Préalable* ou concomitant : le EDUA 5501 (ancien 129.550) ou l'ancien 043.509.

EDUA 5541 Counselling de Groupes Cr.Hrs.3 (Ancien 129.554) Étude des groupes, de l'animation de groupe et de l'acquisition des compétences connexes, particulièrement en ce qui a trait à la fonction de la conseillère ou du conseiller en milieu scolaire. On ne peut se faire créditer le EDUA 5541 et l'ancien 043.512. *Préalable* ou concomitant : le EDUA 5501 (ancien 129.550) ou l'ancien 043.509.

EDUA 5551 Psychologie des Relations Humaines Cr.Hrs.3 (Ancien 129.555) Étude des relations interpersonnelles. Approche de type laboratoire visant à augmenter la sensibilité personnelle des étudiantes et des étudiants aux autres personnes. Cours qui s'adresse particulièrement au personnel enseignant, administratif et professionnel en milieu scolaire. On ne peut se faire créditer le EDUA 5551 (ancien 129.555) et l'ancien 043.515.

EDUA 5571 Éducation Familiale Cr.Hrs.3 (Ancien 129.557) Étude de la sexualité humaine et des relations familiales, axée sur les résultats de la recherche, les ressources et les méthodes pédagogiques, le développement, ainsi que la collaboration avec les membres de la famille et la collectivité. On ne peut se faire créditer le EDUA 5571 (ancien 129.557) et l'ancien 043.517.

EDUA 5581 Orientation de Carrières Cr.Hrs.3 (Ancien 129.558) Étude et application des théories sous-tendant l'orientation de carrières, le choix de carrière et la prise de décision; évaluation et conception de programmes de connaissance de soi aux fins de prises de décision dans un contexte de counselling. On ne peut se faire créditer le

EDUA 5581 et les anciens 043.513 ou 043.545.

EDUA 5601 Introduction à l'Éducation Inclusive Cr.Hrs.6 (Ancien 129.560) Survol des préoccupations dans le domaine de l'éducation inclusive. Étude des barrières à l'inclusion en ce qui concerne les lois, la pédagogie, les attitudes et les organisations, de même que les modalités d'inclusion exemplaires. On ne peut se faire créditer le EDUA 5601 (ancien 129.560) et l'ancien 043.518.

EDUA 5631 Évaluation et Programmation en Éducation Inclusive Cr.Hrs.6 (Ancien 129.563) Étude des modalités d'évaluation basées sur le curriculum et sur le fonctionnement de la classe en vue de guider l'instruction des élèves éprouvant des difficultés d'apprentissage et de comportement en contexte d'inclusion. On ne peut se faire créditer le EDUA 5631 (ancien 129.563) et l'ancien 043.536. *Préalable* ou concomitant : le EDUA 5601 (ancien 129.560) ou l'ancien 043.518 ou l'équivalent.

EDUA 5661 Gestion des Programmes d'Orthopédagogie et de Soutien Cr.Hrs.3 (Ancien 129.563) Étude des modalités d'évaluation basées sur le curriculum et sur le fonctionnement de la classe en vue de guider l'instruction des élèves éprouvant des difficultés d'apprentissage et de comportement en contexte d'inclusion. On ne peut se faire créditer le EDUA 5631 (ancien 129.563) et l'ancien 043.536. *Préalable* ou concomitant : le EDUA 5601 (ancien 129.560) ou l'ancien 043.518 ou l'équivalent.

EDUA 5671 Stratégies pour l'Organisation de Classes et d'Écoles Cr.Hrs.3 (Ancien 129.567) Étude de l'organisation et de la mise en œuvre à l'échelle de l'école de mécanismes de soutien visant à favoriser l'accès à ces écoles, l'apprentissage, la socialisation, le comportement, les rapports avec la famille, la participation de professionnels de la santé et les services communautaires. Analyse des stratégies d'organisation visant à améliorer la consultation, la coopération, la collaboration et le perfectionnement professionnel. On ne peut se faire créditer le EDUA 5671 (ancien 129.567) et l'ancien 043.540. *Préalable* ou concomitant : le EDUA 5601 (ancien 129.560) ou l'ancien 043.518 ou l'équivalent et le EDUA 5631 (ancien 129.563) ou l'ancien 043.536 ou l'équivalent.

EDUA 5681 Promotion d'un Comportement Responsable Cr.Hrs.3 (Ancien 129.568) Étude des besoins des enfants ayant des problèmes de comportement en milieu scolaire. Analyse de la conceptualisation des troubles du comportement, des procédures d'identification et d'évaluation de ces troubles, ainsi que des stratégies d'intervention. Le cours a pour objectif d'habiliter les enseignantes et enseignants à concevoir des stratégies d'intervention appropriées en milieu scolaire. On ne peut se faire créditer le EDUA 5681 (ancien 129.568) et l'ancien 043.542. *Préalable* ou concomitant : le EDUA 5601 (ancien 129.560) ou l'ancien 043.518 ou l'équivalent.

EDUA 5701 Psychologie Sociale de l'éducation Cr.Hrs.3 (Ancien 129.570) Examen des facteurs sociaux qui influencent le rendement et l'adaptation de l'élève à l'école. Importance accordée au fonctionnement des petits groupes et aux interactions en classe, ainsi qu'à l'analyse de la structure sociale de l'école et du rôle social de l'enseignant et de l'enseignante. On ne peut se faire créditer le EDUA 5701 (ancien 129.570) et l'ancien 043.508.

EDUA 5711 Lectures Dirigées en Psychologie de l'Éducation 1 Cr.Hrs.3 (Ancien 129.571) Lectures dirigées et étude de sujets traitant de divers aspects de l'éducation du point de vue de la psychologie.

EDUA 5721 Lectures Dirigées en Psychologie de l'Éducation 2 Cr.Hrs.3 (Ancien 129.572) Lectures dirigées et étude de sujets traitant de divers aspects de l'éducation du point de vue de la psychologie.

EDUA 5731 Courants Actuels en Psychologie de l'éducation 1 Cr.Hrs.3 (Ancien 129.573) Examen des courants théoriques et des applications pratiques récents ou en émergence dans ce domaine.

EDUA 5741 Courants Actuels en Psychologie de l'éducation 2 Cr.Hrs.3 (Ancien 129.574) Étude des fondements théoriques et des applications pratiques de développements récents et de nouveaux courants dans ce domaine.

EDUA 5751 Psychologie de l'Enseignement en Contexte Scolaire Cr.Hrs.3 (Ancien 129.575) Étude des théories fondamentales d'apprentissage telles qu'elles sont appliquées à l'enseignement en salle de classe et utilisées dans l'élaboration des programmes. Analyse du traitement de l'information cognitive et des aspects comportemental, développemental et psychosocial. On ne peut se faire créditer le EDUA 5751 (ancien 129.575) et l'ancien 43.543. *Préalable* : le EDUA 1801 (ancien 129.180), le PSYC 1201 (ancien 017.120), l'ancien 043.202 ou l'équivalent.

EDUA 5761 Psychologie de l'Enseignement en Contexte Scolaire Cr.Hrs.3 (Ancien 129.576) Conçu principalement, mais non exclusivement, à l'intention des enseignantes, des enseignants et du personnel scolaire. Étude critique des fondements théoriques et des modèles d'enseignement principaux. Intégration et application d'approches et de stratégies d'enseignement existantes ou nouvelles. On ne peut se faire créditer le EDUA 5761 (ancien 129.576) et l'ancien 043.544. *Préalable* : le EDUA 1801 (ancien 129.180) ou le PSYC 1201 (ancien 017.120), l'ancien 043.202 ou l'équivalent.

EDUA 5801 Introduction à la Recherche en Éducation Cr.Hrs.3 (Ancien 129.580) Étude de l'investigation scientifique dans le domaine de l'éducation. Examen des méthodes de recherche et d'analyse statistique dans le contexte éducatif. Cours particulièrement recommandé aux étudiantes et aux étudiants qui s'intéressent à l'évaluation et à la mise en application des résultats de la recherche. On ne peut se faire créditer le EDUA 5801 (ancien 129.580) et l'ancien 043.503.

EDUA 5811 Théories de Construction de Tests Cr.Hrs.3 (Ancien 129.581) Étude des problèmes reliés à l'analyse d'items, à la validité, à la fidélité et à l'utilisation des tests dans le processus d'évaluation en milieu scolaire. Considération des tests normatifs et critériés. On ne peut se faire créditer le EDUA 5811 (ancien 129.581) et l'ancien 043.504.

EDUA 5851 Application de l'informatique en Éducation 2 Cr.Hrs.3 (Ancien 129.585) Cours avancé sur l'utilisation de logiciels d'apprentissage dans les classes ordinaires et dans l'enseignement aux élèves ayant des difficultés d'apprentissage. On ne peut se faire créditer le EDUA 5851 (ancien 129.585) et l'ancien 043.526. *Préal-*

able : le EDUB 5761 (ancien 132.576) ou l'ancien EDUB 5281 (ancien 081.528) ou l'autorisation du titulaire du cours, ou l'ancien 043.306.

EDUA 5901 Éducation et Processus du Développement 1 Cr.Hrs.3 (Ancien 129.590) Survol du processus du développement de la conception à la puberté. Importance accordée aux fondements biologiques, au développement cognitif et aux aspects sociaux du comportement dans leurs rapports au processus éducatif. On ne peut se faire créditer le EDUA 5901 (ancien 129.590) et l'ancien 043.506.

EDUA 5911 Éducation et Processus de Développement 2 Cr.Hrs.3 (Ancien 129.591) Étude de la croissance et du développement à l'âge postérieur à la puberté. Attention particulière accordée à leurs effets sur l'apprentissage au niveau secondaire. On ne peut se faire créditer le EDUA 5911 (ancien 129.591) et l'ancien 043.507.

EDUA 5921 Le Jeu Chez l'Enfant Cr.Hrs.3 (Ancien 129.592) Examen du rôle du jeu dans l'apprentissage chez l'enfant, en incluant la perspective historique. Discussion du jeu en tant que partie intégrante du développement de l'enfant. Distinction entre les activités ludiques et non ludiques, considération des attributs conceptuels, perceptuels, linguistiques et physiques du jeu. On ne peut se faire créditer le EDUA 5921 (ancien 129.592) et l'ancien 043.529.

EDUA 5931 Observation du Comportement de l'Enfant Cr.Hrs.3 (Ancien 129.593) Étude des techniques d'observation qualitatives qui peuvent être utilisées en milieu scolaire pour mieux comprendre le comportement de l'enfant, ses modes de penser et ses motivations. On ne peut se faire créditer le EDUA 5931 (ancien 129.593) et l'ancien 043.530.

EDUB 1011 Stages et Séminaires 1 Cr.Hrs.3 (Ancien 081.101) Initiation pratique et théorique à l'enseignement au moyen de stages d'observation suivis de discussions en petits groupes.

EDUB 1061 Langue et Littérature Cr.Hrs.3 (Ancien 063.106) Initiation au monde de la littérature : comment comprendre et se produire dans différentes situations à l'aide de stratégies propres à son style et au contexte.

EDUB 1411 L'Enseignement des Sciences de la Nature au Secondaire Cr.Hrs.3 (Ancien 081.141) Principes généraux sous-tendant l'enseignement des sciences, le développement conceptuel, les théories d'apprentissage, la culture scientifique, le caractère de la science, les interactions entre les sciences, la technologie, la société et l'environnement. Accent mis sur les modèles pédagogiques qui tiennent compte du développement conceptuel chez les apprenants et apprenantes afin de soutenir l'enseignement de divers thèmes scientifiques. Cours obligatoire pour ceux et celles qui veulent enseigner les programmes de sciences de la nature au niveau secondaire.

EDUB 1501 Éducation au Secondaire Cr.Hrs.3 (Ancien 132.150) Étude des prémisses qui sous-tendent les objectifs de l'éducation au secondaire, le rôle de l'enseignant ou de l'enseignante au secondaire et les programmes d'études dans les écoles.

EDUB 2011 Stages et Séminaires II Cr.Hrs.3 (Ancien 063.201) Poursuite plus poussée de la pratique de l'enseignement dans les écoles, soutenue par des discussions en petits groupes portant sur le matériel de simulation et sur les pratiques observées dans les écoles.

EDUB 2021 Communication Cr.Hrs.3 (Ancien 063.202) Activités dont le but est de développer l'adresse en communication sous toutes ses formes. Étude de la dynamique de dons de communication oraux et écrits qui s'appliquent plus à l'enseignant et à l'enseignante dans son interaction avec les individus et les groupes. Étude de la communication tant verbale que non verbale.

EDUB 2041 Littérature pour adolescents Cr.Hrs.3 (Ancien 063.204) Aperçu de la littérature appropriée aux élèves de la 7e à la 12e année. Critères d'évaluation littéraire et problèmes dont l'étude sera placée dans un contexte historique, social et psychologique.

EDUB 2081 Perfectionnement de l'Expression Orale I Cr.Hrs.3 (Ancien 063.208) Comparaison de son expression orale en français à la norme internationale (au plan de la structure de la phrase, de la phonétique et du vocabulaire). Suite à ce diagnostic, perfectionnement de la langue parlée.

EDUB 2121 Littérature Pour Enfants Cr.Hrs.3 (Ancien 063.212) Aperçu général de la littérature enfantine créatrice disponible dans les divers moyens de communication; établissement de critères pour l'évaluation de livres et de matériaux connexes; problèmes du lecteur en difficulté et du non-lecteur. Établissement des normes en vue de porter un jugement d'appréciation sur la littérature enfantine en mettant l'accent sur l'analyse critique et l'interprétation de la littérature replacée dans son contexte historique, sociologique et psychologique.

EDUB 2171 Atelier en Art (dessin) à l'Élémentaire Cr.Hrs.3 (Ancien 063.217) Cours pratique. Étude des techniques et du matériel appropriés permettant d'acquérir des notions de l'enseignement créatif à l'élémentaire et au primaire.

EDUB 2181 La Bibliothèque, Source de Référence Cr.Hrs.3 (Ancien 063.218) Utilisation des livres et des bibliothèques comme sources de références et de recherche au niveau universitaire.

EDUB 2191 Perfectionnement de l'Expression Orale II Cr.Hrs.3 (Ancien 063.219) Comparaison de son expression orale en français à la norme internationale (au plan de la structure de la phrase, de la phonétique et du vocabulaire). Suite à ce diagnostic, perfectionnement de la langue parlée.

EDUB 2201 Enseignement de l'Anglais au Primaire d'Immersion Cr.Hrs.3 (Ancien 063.220) Étude de la philosophie de l'apprentissage de l'anglais au primaire d'immersion, afin de pouvoir identifier les transferts et interférences dans l'apprentissage des deux lectures (anglaise et française) et de tenir compte de ceux-ci dans l'enseignement. *Concomitant* : EDUB 3211 (ancien 063.321).

EDUB 2211 Perfectionnement du Français Oral et Écrit Cr.Hrs.3 Ce cours permettra aux étudiantes et aux étudiants d'améliorer leurs compétences langagières en français, tant à l'oral qu'à l'écrit, dans le but d'enseigner en français à tous les niveaux. Ce cours est accompagné de séances de travaux dirigés d'une durée d'une heure par

semaine. Ces séances obligatoires permettront de mettre en pratique les notions théoriques présentées dans le cadre du cours.

EDUB 2501 Sujets Particuliers en Éducation au Secondaire Cr.Hrs.3 (Ancien 132.250) Étude de thèmes et de questions reliés à l'enseignement au secondaire et au développement de l'identité professionnelle de l'enseignante ou de l'enseignant débutant. Coordination des activités qui varieront d'année en année avec des expériences en milieu scolaire.

EDUB 2511 L'Intégration de la Langue dans Toutes les Matières Cr.Hrs.3 (Ancien 132.251) Initiation à la langue comme outil d'enseignement et d'apprentissage et aux moyens offerts aux enseignants et aux enseignantes pour intégrer la langue dans toutes les matières et enrichir la compréhension du contenu.

EDUB 3011 Pratique du Microenseignement Cr.Hrs.3 (Ancien 063.301) Étude du comportement de l'enseignante ou de l'enseignant. Utilisation de vidéos fournissant le décor pour la pratique contrôlée de quelques-uns des éléments de l'enseignement, en particulier de l'analyse et de l'application des techniques suivantes : l'exposition, l'interrogation, la discussion et la démonstration. On ne peut se faire créditer le EDUB 3011 (ancien 063.301) et le EDUB 3161 (ancien 063.316).

EDUB 3013 Pratique Du Microenseignement Cr.Hrs.3 (Ancien 081.301) Étude du comportement de l'enseignante ou de l'enseignant. Utilisation de vidéos fournissant le décor pour la pratique contrôlée de quelques-uns des éléments de l'enseignement, en particulier l'analyse et l'application des techniques suivantes : l'exposition, l'interrogation, la discussion et la démonstration.

EDUB 3021 Sujets Particuliers en Sciences Humaines Cr.Hrs.3 (Ancien 063.302) Étude de sujets choisis dans le domaine de l'enseignement des sciences humaines.

EDUB 3031 La Lecture au Secondaire Cr.Hrs.3 (Ancien 063.303) Étude des habiletés de base en lecture et des relations de celles-ci avec les divers contenus disciplinaires du niveau secondaire. Examen de divers outils susceptibles de contribuer au développement des habiletés en lecture ainsi que diverses techniques d'évaluation.

EDUB 3033 Sujets Particuliers en Sciences Naturelles Cr.Hrs.3 (Ancien 081.303) Identification et solution des problèmes reliés à l'enseignement de sujets particuliers qui se trouvent à l'extérieur des champs de spécialisation des futurs enseignants et enseignantes.

EDUB 3101 Méthodologie de la Lecture à l'Élémentaire Cr.Hrs.3 (Ancien 063.310) Étude de l'apprentissage et de l'enseignement de la lecture à l'élémentaire dans les écoles franco-manitobaines et les écoles d'immersion. Compréhension en lecture, analyse des structures textuelles, lecture à voix haute et analyse du mot. Survol des habiletés préalables à la lecture et de quelques techniques d'évaluation de la lecture.

EDUB 3121 Méthodologie de la Lecture à l'Élémentaire II Cr.Hrs.3 (Ancien 063.312) Étude approfondie des stratégies d'enseignement de la lecture, entre autres, l'expérience langagière, les grands livres, les tableaux collectifs et l'exploitation des connaissances antérieures avant, pendant et après la lecture. Enseignement et apprentissage de la lecture par le biais de toutes les matières, lecture-recherche et prise de notes. Étude des liens entre la lecture et l'écriture. *Préalable* : EDUB 3101 (ancien 063.310).

EDUB 3131 Bibliothèque Scolaire Cr.Hrs.3 (Ancien 063.313) Cours pour les enseignantes et enseignants de classes régulières portant sur l'utilisation efficace de la bibliothèque dans les écoles élémentaires et secondaires.

EDUB 3161 Stages et Séminaires III Cr.Hrs.3 (Ancien 063.316) Choix d'expérience initiale ou d'enrichissement dans un des domaines suivants : niveau scolaire élémentaire ou présecondaire, une situation en éducation spécialisée ou expérience dans un service communautaire relié de façon ponctuelle à l'éducation totale. Aspects théoriques et pratiques traités en ateliers d'initiation et en discussions de groupes. On ne peut se faire créditer le EDUB 3161 (ancien 063.316) et le EDUB 3011 (ancien 063.301).

EDUB 3171 Processus de l'Écrit Cr.Hrs.3 (Ancien 063.317) Cours qui fournira de multiples occasions de rédiger différents genres de textes en français. Composition, transcription et révision de textes. Familiarisation avec le processus de l'écrit qui peut être adapté et appliqué aux niveaux primaire, élémentaire et secondaire.

EDUB 3211 Enseignement du Français au Primaire d'Immersion Cr.Hrs.3 (Ancien 063.321) Enseignement du français langue seconde au primaire. Étude des principes de la communication orale et écrite dans la salle de classe, de la nouvelle pédagogie dans l'enseignement de la lecture et de l'écrit et de l'intégration des savoirs et des matières. Concomitant : EDUB 2201 (ancien 063.220).

EDUB 3241 Principes d'Apprentissage du Français Langue Seconde à l'Élémentaire Cr.Hrs.3 (Ancien 063.324) Étude des théories de l'acquisition d'une deuxième langue ainsi que des stratégies d'enseignement et d'apprentissage à l'élémentaire par le biais de l'approche communicative.

EDUB 3251 Sujets Particuliers - Curriculum et Pédagogie Cr.Hrs.3 (Ancien 063.325) Étude de sujets choisis en enseignement et apprentissage en immersion.

EDUB 3261 L'Acquisition et l'Apprentissage du Français en Contexte d'Immersion Cr.Hrs.3 (Ancien 063.326) Cours théorique. Familiarisation avec les théories explicatives de l'acquisition et l'apprentissage d'une langue seconde et les approches pédagogiques qui en découlent. On ne peut se faire créditer le EDUB 3261 (ancien 063.326) et l'ancien 063.319.

EDUB 3271 Développement Langagière en Immersion Française à l'Élémentaire Cr.Hrs.3 (L'ancien 063.327) Étude des aspects pratiques de l'enseignement en situation d'immersion à l'élémentaire. Sensibilisation aux méthodes et aux techniques susceptibles de développer les compétences en français langue seconde. On ne peut se faire créditer l'ancien 063.327 ou l'ancien 063.320. *Préalable* : EDUB 3261 (063.326) ou l'ancien 063.319.

EDUB 3281 Développement Langagière en Immersion Française Cr.Hrs.3 (Ancien 063.328) Étude des aspects pratiques de l'enseignement en situation d'immersion au secondaire. Sensibilisation aux méthodes et aux techniques susceptibles de dévelop-

per les compétences en français langue seconde. *Préalable* : EDUB 3261 (ancien 063.326) ou l'ancien 063.319.

EDUB 3291 Principes et Pratiques de l'Évaluation des Apprentissages Cr.Hrs.3 Ce cours permettra aux étudiantes et aux étudiants de comprendre les approches et les principes permettant d'évaluer la progression des apprentissages et le degré d'acquisition des compétences des élèves.

EDUB 3313 Perspectives Autochtones en Contexte Scolaire Cr.Hrs.3 Introduction aux perspectives culturelles autochtones et métisses en contexte scolaire dimensions historique, anthropologique, éthique et pédagogique. Développement de compétences professionnelles relatives à l'enseignement dans un environnement autochtone et métis.

EDUB 3991 Étude Individuelle Cr.Hrs.3 (Ancien 063.399) Étude individuelle et recherche dirigées vers un sujet d'intérêt.

EDUB 3993 Étude Individuelle Cr.Hrs.3 (Ancien 081.399) Étude individuelle et recherche dirigées vers un sujet d'intérêt

EDUB 4011 Stages Cr.Hrs.9 (Ancien 063.401) Période d'application, en milieu scolaire, des connaissances acquises, sous la surveillance du personnel de la Faculté et de l'école qui reçoit le ou la stagiaire.

EDUB 4013 Stages Cr.Hrs.3 (Ancien 081.401) Période d'application, en milieu scolaire, des connaissances acquises, sous la surveillance du personnel de la Faculté et de l'école qui reçoit le ou la stagiaire.

EDUB 4021 Didactique - Élémentaire Cr.Hrs.6 (Ancien 063.402) Étude des programmes actuels offerts dans les écoles élémentaires et des méthodes pratiques dans l'utilisation du matériel didactique disponible tant pour l'enseignement des matières au programme que pour l'enrichissement culturel de l'enfant.

EDUB 4023 Didactique - Élémentaire Cr.Hrs.6 (Ancien 081.402) Étude des programmes actuels au niveau élémentaire et des méthodes pratiques d'enseignement.

EDUB 4051 Méthodologie Générale Cr.Hrs.3 (Ancien 063.405) Étude des fondements et de l'application de la méthodologie.

EDUB 4053 Techniques de Production Cr.Hrs.3 (Ancien 081.405) Production de matériel audiovisuel utilisable dans l'enseignement (diapositives, transparents, techniques d'art graphique). *Préalable* recommandé : le EDUB 2021 (ancien 081.202).

EDUB 4061 Didactique en Anglais (Secondaire) Cr.Hrs.3 (Ancien 063.406) Étude des programmes et des méthodes d'enseignement en anglais au niveau secondaire.

EDUB 4071 L'Enseignement du Français de Base au Secondaire Cr.Hrs.3 (Ancien 063.407) Étude de l'enseignement et de l'apprentissage du français langue seconde aux niveaux présecondaire et secondaire. Familiarisation avec l'approche communicative en tenant compte du programme d'études et des ressources disponibles au Manitoba.

EDUB 4081 Didactique en Géographie (Secondaire) Cr.Hrs.3 (Ancien 063.408) Étude des programmes et des méthodes d'enseignement en géographie au niveau secondaire.

EDUB 4091 Didactique en Langues Vivantes (Secondaire) Cr.Hrs.3 (Ancien 063.409) Étude des programmes et des méthodes d'enseignement en langues vivantes au niveau secondaire.

EDUB 4101 Didactique en Histoire (Secondaire) Cr.Hrs.3 (Ancien 063.410) Étude des programmes et des méthodes d'enseignement en histoire au niveau secondaire.

EDUB 4103 Didactique en Biologie (Secondaire) Cr.Hrs.3 (Ancien 081.410) Étude des programmes et des méthodes d'enseignement en biologie au niveau secondaire.

EDUB 4111 Didactique en Musique (Secondaire) I Cr.Hrs.3 (Ancien 063.411) Étude des programmes et des méthodes d'enseignement en musique au niveau secondaire.

EDUB 4113 Didactique en Chimie (Secondaire) Cr.Hrs.3 (Ancien 081.411) Étude des programmes et des méthodes d'enseignement en chimie au niveau secondaire.

EDUB 4121 Didactique en Musique (Secondaire) II Cr.Hrs.3 (Ancien 063.412) Étude des programmes et des méthodes d'enseignement en musique au niveau secondaire.

EDUB 4123 Didactique en Informatique (Secondaire) Cr.Hrs.3 (Ancien 081.412) Étude des programmes et des méthodes d'enseignement en informatique au niveau secondaire.

EDUB 4131 Didactique en Théâtre (Secondaire) Cr.Hrs.3 (Ancien 063.413) Étude des programmes et des méthodes d'enseignement en théâtre au niveau secondaire.

EDUB 4133 Didactique en Sciences Générales (Secondaire) Cr.Hrs.3 (Ancien 081.413) Étude des programmes et des méthodes d'enseignement en sciences générales au niveau secondaire.

EDUB 4141 Didactique en Art (Secondaire) Cr.Hrs.3 (Ancien 063.414) Étude des programmes et des méthodes d'enseignement en art au niveau secondaire.

EDUB 4143 Didactique en Sciences de l'Écologie Humaine I Cr.Hrs.3 (Ancien 081.414) Étude des programmes et des méthodes d'enseignement en sciences de l'écologie humaine au niveau secondaire.

EDUB 4151 Didactique en Sciences de l'Écologie Humaine II Cr.Hrs.3 (Ancien 081.415) Étude des programmes et des méthodes d'enseignement en sciences de l'écologie humaine au niveau secondaire.

EDUB 4153 Didactique en Sciences de l'Écologie Humaine III Cr.Hrs.3 (Ancien 081.415) Étude des programmes et des méthodes d'enseignement en sciences de l'écologie humaine au niveau secondaire.

EDUB 4161 Didactique en Éducation Physique (Secondaire) Cr.Hrs.3 (Ancien 081.416) Étude des programmes et des méthodes d'enseignement en éducation physique au niveau secondaire.

EDUB 4171 Didactique en Physique (Secondaire) Cr.Hrs.3 (Ancien 081.417) Étude des programmes et des méthodes d'enseignement en physique au niveau secondaire.

EDUB 4181 Didactique en Mathématiques (Secondaire) Cr.Hrs.3 (Ancien 081.418) Étude des programmes et des méthodes d'enseignement en mathématiques au niveau secondaire.

EDUB 4201 Didactique du/en Français au Secondaire Cr.Hrs.3 Ce cours est axé autour des questions didactiques soulevées par les programmes d'études de français langue première et ceux de français langue seconde -- immersion établis, pour les niveaux 7e années à Secondaire 4, par la Division du Bureau de l'éducation française d'Éducation, Citoyenneté et Jeunesse Manitoba.

EDUB 4203 Didactiques L'Approche Transdisciplinaire Cr.Hrs.6 Élaboration d'une unité d'enseignement menant à une synthèse de la formation initiale.

EDUB 5201 Lectures Dirigées en Curriculum, en Enseignement et en Apprentissage 1 Cr.Hrs.3 (Ancien 132.520) Lectures et recherches traitant de domaines particuliers de l'étude du curriculum.

EDUB 5221 Courants Actuels en Curriculum, en Enseignement et en Apprentissage 1 Cr.Hrs.3 (Ancien 132.522) Étude de la théorie qui sous-tend les courants actuels et les problématiques émergentes dans le domaine et de leurs applications pratiques.

EDUB 5231 Courants Actuels en Curriculum, en Enseignement et en Apprentissage 2 Cr.Hrs.3 (Ancien 132.523) Approfondissement de thèmes choisis qui ont fait l'objet d'études dans le EDUB 5221 (ancien 132.522).

EDUB 5261 Introduction aux Fondements de la Lecture Cr.Hrs.3 (Ancien 132.526) Étude de la nature de la lecture par rapport à diverses composantes du développement humaine telles que le langage, la vue, l'ouïe, la cognition et la motivation. On ne peut se faire créditer le EDUB 5261 (Ancien 132.526) et l'ancien 063.566.

EDUB 5271 Enseignement de la Lecture Cr.Hrs.3 (Ancien 132.527) Étude des fondements du programme d'enseignement de la lecture; objectifs du programme, conditions d'apprentissage, démarches et matériel pédagogiques et évaluation des apprentissages. On ne peut se faire créditer le EDUB 5271 (Ancien 132.527) et l'ancien 063.567.

EDUB 5281 Théorie et Pratique de L'Enseignement de la Lecture 1 Cr.Hrs.3 (Ancien 132.528) Étude approfondie des éléments didactiques de la lecture au premier et au deuxième cycle de l'élémentaire, l'analyse des méprises, l'analyse critique des habiletés de base et les recherches à l'appui. On ne peut se faire créditer le EDUB 5281 (Ancien 132.528) et l'ancien 063.568.

EDUB 5291 Théorie Et Pratique De L'enseignement De La Lecture 2 Cr.Hrs.3 (Ancien 132.529) Étude d'approches non traditionnelles à l'enseignement de la lecture au premier et au deuxième cycle de l'élémentaire, de l'évaluation et de l'enseignement diagnostique, et de la conception de programmes de lecture solides. On ne peut se faire créditer le EDUB 5291 (l'ancien 132.529) et l'ancien 063.529.

EDUB 5321 Séminaire sur les Arts Langagiers 1 Cr.Hrs.3 (Ancien 132.532) Séminaire de recherche et de lecture, qui comprend une analyse approfondie des fondements théoriques de l'étude et de l'enseignement des arts langagiers à l'élémentaire et de la recherche qui sous-tend ces fondements. Réflexion sur la portée pratique de ces théories dans l'enseignement en ce qui a trait à la communication orale, à l'écoute et à la création dramatique. On ne peut se faire créditer le EDUB 5321 (Ancien 132.532) et l'ancien 063.572.

EDUB 5331 Sujets Pratiques dans les Arts Langagiers 2 Cr.Hrs.3 Étude des pratiques d'enseignement de l'écriture et de ses rapports avec la communication orale et la lecture. Examen attentif des démarches pédagogiques, des techniques d'évaluation, du matériel existant et des méthodologies de l'enseignement de l'épellation, de l'écriture et de la composition écrite. On ne peut se faire créditer le EDUB 5331 (Ancien 132.533) et l'ancien 063.575.

EDUB 5341 Fondements de la Littérature Cr.Hrs.3 (Ancien 132.532 / 132.534) Étude de la nature de la littérature par rapport aux dimensions du développement humain et de l'enseignement telles que le langage, la vision, l'audition, la cognition, la motivation et l'objectif de l'enseignement. On ne peut se faire créditer le 132.534) et le EDUB 5261 (ancien 132.526) et l'ancien 063.566.

EDUB 5351 Problématiques Actuelles en Langue et en Littérature Cr.Hrs.3 (Ancien 132.535) Étude de sujets particuliers qui vise à faire connaître les courants actuels en enseignement de la langue et de la littérature.

EDUB 5361 Fondements de la Littérature Cr.Hrs.3 (Ancien 132.536) Étude de la nature et de la psychologie de la littérature enfantine à l'élémentaire. Aperçu du matériel existant, établissement de critères d'évaluation de ce matériel et résultats des recherches portant sur l'élaboration, le niveau d'intérêt et l'utilisation du matériel. On ne peut se faire créditer le EDUB 5361 (ancien 132.536) et l'ancien 063.544.

EDUB 5371 Littérature pour Adolescents et Adolescentes Cr.Hrs.3 (Ancien 132.537) Étude de la nature et de la psychologie de la littérature destinée aux élèves de la 7e à la 12e année. Aperçu du matériel existant, établissement de critères d'évaluation de ce matériel et résultats des recherches portant sur l'élaboration, le niveau d'intérêt et l'utilisation du matériel. On ne peut se faire créditer le EDUB 5371 (ancien 132.537) et l'ancien 063.545.

EDUB 5431 Développements Récents en Curriculum : Humanités Cr.Hrs.3 Examen des courants théoriques et des applications pratiques récents ou en émergence dans ce domaine.

EDUB 5471 Courants Actuels en Curriculum : Mathématiques et Sciences Naturelles Cr.Hrs.3 (Ancien 132.547) Examen des courants théoriques et des applications pratiques récents ou en émergence dans ce domaine.

EDUB 5531 Théorie et Pratique de L'Enseignement du Français Cr.Hrs.6 (ancien 132.533) Étude de la théorie actuelle et des nouvelles pratiques de l'enseignement du français langue seconde. Examen attentif de l'analyse des procédures pédagogiques et de la tâche d'enseignement. Initiation à la recherche dans le domaine de l'enseignement d'une langue seconde. On ne peut se faire créditer le EDUB 5531 (ancien 132.553) et l'ancien 063.512.

EDUB 5533 Théorie et Pratique de L'Enseignement du Français Langue Seconde Cr.Hrs.3 Ce cours fournit une mise à jour des théories et des pratiques de l'enseignement et de l'apprentissage en français langue seconde (immersion et français de base).

EDUB 5535 L'Utilisation des Médias en Enseignement du Français de Base Cr.Hrs.3 Ce cours est axé autour de deux volets relatifs à l'utilisation des médias dans la salle de classe de français de base. Dans un premier temps, les étudiants développeront une appréciation critique des médias, et ce, à partir d'une étude approfondie du sujet. Dans un deuxième temps, ils apprendront à utiliser les médias pour appuyer des thèmes explorés en situation de salle de classe et à développer des stratégies pédagogiques qui en découlent.

EDUB 5537 Théorie et Pratique des Arts Visuels et L'Enseignement du Français de Base Cr.Hrs.3 Examen des approches et des méthodes récentes dans l'enseignement des arts visuels et application des théories apprises au moyen d'exercices pratiques et de projets. Familiarisation avec le langage plastique et développement d'un esprit critique face aux diverses disciplines en arts visuels dans la classe de français de base. Ce cours favorisera l'expression artistique individuelle.

EDUB 5539 L'Enseignement du Français de Base et les TIC Cr.Hrs.3 Liens entre l'apprentissage, la pédagogie et les TIC. Mise à l'essai et évaluation des logiciels éducatifs. Utilisation pédagogique des logiciels comme Word, Excel, et Power Point. Développement des compétences techniques activités pédagogiques. Consultation et évaluation de sites Web. Création d'un plan de site Web pour une unité d'apprentissage. Cours en ligne.

EDUB 5541 Enseignement du Français Cr.Hrs.6 (Ancien 132.554) Revue critique du programme d'études; buts et objectifs, divers aspects de la discipline du français, théorie et pratique de l'enseignement, recherche et évaluation des techniques méthodologiques pour un meilleur enseignement du français. On ne peut se faire créditer le EDUB 5541 (ancien 132.544) et l'ancien 063.515.

EDUB 5543 L'Art Dramatique et L'Enseignement du Français de Base Cr.Hrs.3 Ce cours examine la littérature récente sur l'utilisation de l'art dramatique en éducation, et vise, en particulier, la théorie et la pratique de l'art dramatique dans la classe de français de base.

EDUB 5545 French Immersion for Teachers Intermediate C/D Cr.Hrs.3 Ce cours de perfectionnement linguistique vise les enseignantes et enseignants du français langue seconde, et qui veulent se perfectionner en français par le biais de l'approche communicative.

EDUB 5547 French Immersion for Teachers - Avance ou Perfection Cr.Hrs.3 Ce cours de perfectionnement linguistique vise les enseignantes et enseignants du français langue seconde, ou des personnes qui se destinent à l'enseignement du français langue seconde, et qui veulent se perfectionner en français par le biais de l'approche communicative.

EDUB 5547 French Immersion for Teachers Advanced/Perfectionnement Cr.Hrs.3 Ce cours de perfectionnement linguistique vise les enseignantes et enseignants du français langue seconde, ou des personnes qui se destinent à l'enseignement du français langue seconde, et qui veulent se perfectionner en français par le biais de l'approche communicative.

EDUB 5761 Courants Actuels en Enseignement des Mathématiques Cr.Hrs.3 (Ancien 132.576) Lectures et recherches sur l'enseignement des mathématiques (sujets particuliers).

EDUB 5771 Diagnostic et Intervention en Enseignement des Mathématiques à l'Élémentaire Cr.Hrs.3 (Ancien 132.577) Méthodes diagnostiques et ressources orthopédagogiques en enseignement des mathématiques à l'élémentaire. On ne peut se faire créditer le EDUB 5771 (ancien 132.577) et l'ancien 081.558.

Faculty of Engineering

General Office

E2-290 EITC (Engineering Information and Technology Complex)

Telephone: (204) 474 9809

Fax: (204) 275-3773

E-mail: eng_info@umanitoba.ca

Website: umanitoba.ca/faculties/engineering

Dean: Douglas Ruth, P.Eng.

Associate Deans: Ron Britton, P.Eng. (Design Engineering);

Ahmed Shalaby, P.Eng. (Undergraduate);

Joe LoVetri, P.Eng. (Research)

Student Advising Office: E1-284 EITC

Telephone: (204) 474-9807

Chapter Contents

SECTION 1: Academic Staff

SECTION 2: The Profession of Engineering

SECTION 3: Admission to the Faculty of Engineering

3.1 Degrees Offered

3.2 Course Requirements for Admission

SECTION 4: Academic Regulations

4.1 Foreign Language Requirements for co-op and Non-co-op Students

4.2 Professional Registration

4.3 Students Transiting to Departments

4.4 Grading and Assessment

4.5 Requirements for the Bachelor's Degree

4.6 Categories of Students

4.7 Student Progress and Academic Status

4.8 Course Selection

4.9 Examinations

4.10 Appeals

4.11 Withdrawal from Courses

4.12 Attendance

4.13 Use of Calculating Devices

4.14 Complementary Studies Electives

4.15 Management Minor

4.16 Arts Minor

4.17 Music Minor

4.18 Minor in Computer Science for Engineering Students

4.19 Minor in Mathematics for Engineering Students

SECTION 5: Program Requirements

5.1 Engineering Access Program

5.2 Preliminary Engineering Program

5.3 Common Courses Taught by the Faculty of Engineering

5.4 Biosystems Engineering

5.5 Biosystems Engineering Course Descriptions

5.6 Civil Engineering

5.7 Civil Engineering Course Descriptions

5.8 Electrical and Computer Engineering

5.9 Electrical and Computer Engineering Course Descriptions

5.10 Mechanical and Manufacturing Engineering

5.11 Mechanical and Manufacturing Engineering Course Descriptions

SECTION 6: Registration Information

6.1 Initial Access Times

6.2 General Information for Engineering Registration

6.3 Additional Information

SECTION 1: Academic Staff

Biosystems Engineering

Biosystems Engineering academic staff are also listed under the Faculty of Agricultural and Food Sciences.

Dean Emeritus

Laliberte, G.E., B.E., M.Sc. (Manitoba), Ph.D. (Colorado State), P.Eng.

Professor Emeritus

Muir, W.E., B.E. (Saskatchewan), M.S. (Illinois), Ph.D. (Saskatchewan), P.Eng.

Professors

Britton, M.G., B.E. (Saskatchewan), M.Sc. (Manitoba), Ph.D. (Texas A&M), P.Eng.; Cenkowski, S., B.Sc., M.Sc. (Technical Univ., PL), Ph.D. (Agric. Univ., PL), Sc.D. (Agric. Univ.), P.Eng.; Chen, Y., B.Sc., M.Sc. (China), Ph.D. (McGill), P.Eng.; Jayas, D.S., B.Sc. (G.B.Pant), M.Sc. (Manitoba), Ph.D. (Saskatchewan), P.Ag., P.Eng.; Mann, D.D., B.Sc., M.Sc., Ph.D. (Manitoba), P.Eng.; Sri Ranjan, R., B.Sc. (Peradeniya), M.Sc., Ph.D. (Colorado State), P.Eng.; Zhang, Q., B.Sc. (Hefei Polytechnical), M.S., Ph.D. (Pennsylvania State), P.Eng.

Associate Professors

Cicek, N., B.Sc. (Turkey), M.Sc., Ph.D. (Cincinnati), P.Eng.; Dick, K.J., B.Sc., M.Sc., Ph.D. (Manitoba), P.Eng.; Levin, D.B., B.E.S. (Waterloo), M.Sc. (Guelph), Ph.D. (McGill); Paliwal, J., B.Sc. (G.B.Pant), M.Sc., Ph.D. (Manitoba), P.Eng.

Assistant Professors

Morrison, J., B.Eng., B.Sc.(Hon.) (McMaster), M.C.S., Ph.D. (Carleton)

Instructors

Inglis, D., B.Sc., L.L.B. (Manitoba), P.Eng.

Civil Engineering

Professors Emeriti

Baracos, A., M.Sc.(C.E.) (Alberta), M.E.I.C., P.Eng.; Graham, J., B.Sc.(C.E.), Ph.D., D.Sc. (Belfast), P.Eng.; Lajtai, E.Z., B.A.Sc.(Geol.), M.A.Sc., Ph.D. (Toronto), P.Eng.; Morris, G.A., M.Sc. (Manitoba), Ph.D. (Illinois), M.E.I.C., P.Eng.

Professors

Clayton, A., B.Sc.(C.E.), M.Sc. (Saskatchewan), P.Eng.; Doering, J.C., B.Sc.(Hons.) (Queen's), Ph.D. (Dalhousie), P.Eng.; Mufti, A.A., B.Eng. (Karachi), M.Eng., Ph.D. (McGill), P.Eng.; Oleszkiewicz, J.A., M.Sc. (Wroclaw), M.Sc., Ph.D. (Vanderbilt), P.Eng.; Polyzois, D., B.A.Sc., M.A.Sc., Ph.D.(C.E.) (Toronto), P.Eng.; Rasmussen, P.F., M.Sc., Ph.D. (Denmark), P.Eng.; Shah, A.H., B.E. (Poona), M.Sc. (Stanford), Ph.D. (Berkeley), P.Eng.; Woodbury, A.D., B.Sc.(Geophys.), M.Sc. (Geol.), Ph.D. (UBC), P.Eng.

Associate Professors

Alfaro, M., B.Sc. (Philippines), M.Eng. (Thailand), Ph.D. (Saga, Japan), P.Eng.; Blatz, J.A., B.Sc.(C.E.), Ph.D. (Manitoba), P.Eng.; Gorczyca, B., M.Sc. (Poland), M.Sc., Ph.D. (Toronto), P.Eng.; Montufar, I.J., B.Sc. (C.E.), M.Sc., Ph.D. (Manitoba), P.Eng.; Rattanawangcharoen, N., B.Eng. (Chiang Mai), M.Sc. (Asian Inst. of Tech.), Ph.D. (Manitoba), P.Eng.; Shalaby, A.,

B.Sc.(C.E.), M.Sc. (Cairo), Ph.D. (Carleton), P.Eng.; **Svecova**, D., M.Sc. (Slovakia) M.Sc., Ph.D. (Carleton), P.Eng.

Assistant Professors

Clark, S.P., B.Sc.(C.E.), Ph.D, P.Eng., (Manitoba); **El-Gohary**, N., B.Sc. (Cairo), M.Sc. (Cairo), Ph.D. (Toronto), **El-Salakawy**, E., B.Sc.(C.E), M.Sc.(Menoufia), Ph.D. (Menoufia/Waterloo), P.Eng.; **Stadnyk**, T.A., B.A.Sc. (C.E.) Ph.D., Waterloo, E.I.T. (Manitoba)

Senior Instructors

Frye, M.J., B.Sc., M.Sc., Ph.D. (Manitoba), P.Eng.

Electrical and Computer Engineering

Dean Emeritus

Kuffel, E., B.Sc., M.Sc., Ph.D.(E.E.) (Dublin), D.Sc.(E.E.) (Manchester), P.Eng.

Professors Emeriti

Bridges, E., M.Sc.(E.E.) (Manitoba), P.Eng.; **Kao**, K.C., B.Sc.(E.E.) (Nanking), M.Sc. (Michigan), Ph.D., D.Sc. (Birmingham), F.Inst.P., F.I.E.E., C.Eng., P.Eng.; **Lehn**, W.H., B.Sc.(E.P.) (Manitoba), M.Sc.(E.E.) (Massachusetts), P.Eng.; **Martens**, G.O., B.Sc.(E.E.) (Manitoba), M.A.Sc. (Toronto), Ph.D. (Illinois), P.Eng.; **Menzies**, R.W., B.Sc.(E.E.) (Hons.) (McMaster), Ph.D. (St. Andrews), P.Eng.; **Onyshko**, S., M.Sc. (Alberta), Ph.D. (Washington), P.Eng. **Swift**, G.W., M.Sc.(E.E.) (Alberta), Ph.D. (Illinois Institute of Technology), P.Eng.; **Wexler**, A., B.Sc.(E.E.) (Manitoba), Ph.D., D.I.C. (London) F.R.S.A., P.Eng.

Distinguished Professors

Shafai, L., B.E.Sc. (Tehran), M.A.Sc., Ph.D. (Toronto), F.I.E.E.E., P.Eng.

Senior Scholars

Raghuveer, M.R., B.Sc.(Hons.), B.Eng. (India), M.Sc. (Manitoba), Ph.D. (Windsor), P.Eng.; **Shweddyk**, E., M.Sc.(E.E.) (Manitoba), Ph.D. (New Brunswick), P.Eng.

Professors

Alfa, A.S. B.Eng. (Ahmadu Bello), M.Sc. (Manitoba), Ph.D. (New South Wales); **Annakkage**, U., B.Sc. (Moratuwa), M.Sc., Ph.D. (Manchester); **Bridges**, G.E.J., B.Sc.(E.E.), M.Sc., Ph.D. (Manitoba), P.Eng.; **Buchanan**, D.A., B.Sc.(Manitoba), M.Sc. (Manitoba), Ph.D. (Durham); **Ciric**, I.M.R., B.Sc., Dipl.Ing., Ph.D., Dr.Ing. (Bucharest), F.I.E.E.E.; **Gole**, A.M., B.Tech. (Bombay), M.Sc.(EE), Ph.D. (Manitoba), P.Eng.; **Kinsner**, W., M.Sc. (Wroclaw), Ph.D. (McMaster), P.Eng., F.I.E.C.; **Lovetri**, J., B.Sc., M.Sc. (Manitoba), M.A. (Manitoba), Ph.D. (Ottawa); **McLeod**, R.D., B.Sc. (E.E.), M.Sc., Ph.D. (Manitoba), **Menzies**, R.W., B.Sc.(E.E.) (Hons.) (McMaster), Ph.D. (St. Andrews), P.Eng.; **Pawlak**, M., M.S. (Control and Comp Eng.), Ph.D. (Comp Eng.) (Wroclaw); **Peters**, J.F., B.A. (California), M.S. (Santa Clara), Ph.D. (Kansas); **Thomson**, D.J., B.Sc.(E.E.), M.Sc. (Manitoba), Ph.D. (Stanford); **Yahampath**, P., B.Sc., (Moratuwa), M.Sc. (Trondheim), Ph.D. (Manitoba).

Associate Professors

Hossain, E., B.Sc., M.Sc. (Bangladesh), Ph.D. (Victoria); **Moussavi**, Z., B.Sc. (Sharif U.), M.Sc. (Calgary), Ph.D. (Manitoba); **Oliver**, D., B.Sc. (Western Australia), Ph.D. (Monash U); **Rajapakse**, A., B.Sc. (Moratuwa), M.Eng. (Asian Inst. Of Tech.), Ph.D. (Tokyo); **Shafai**, C., B.Sc.(E.E.) (Manitoba), M.Sc. (Manitoba), Ph.D. (Alberta).

Assistant Professors

Cai, J. B.Sc., M.Sc. (China) Ph.D. (Waterloo); **El-Haq**, A. B.Sc. (Saudi Arabia), M.S. (Saudi Arabia), Ph.D. (Waterloo); **Ferens**, K. B.Sc. (Manitoba), Ph.D. (Manitoba); **Filizadeh**, S. B.Sc., M.Sc. (Sharif), Ph.D. (Manitoba); **Fung**, W., B.Eng., M.Sc., Ph.D (Chinese University of Hong Kong); **Kordi**, B., B.Sc., M.Sc., Ph.D. (Amirkabir); **Major**, A B.Sc. (EE) Vilnius Gediminas Technical), M.Sc. (Physics, Vilnius, Lithuania) Ph.D. (Strathclyde, UK); **McNeill**, D., B.Sc., M.Sc. Ph.D. (Manitoba); **Okhmatovski**, V., M.Sc., Ph.D. (Moscow Power Eng. Inst.); **Sherif**, S. B.Sc. (Egypt), M.Sc. (Wisconsin), Ph.D. (Colorado); **Thomas**, G. B.S.E.E. (ITSEM, Mexico), M.Sc., Ph.D. (Texas-El Paso).

Senior Instructors

Yoshida, B., B.Sc., M.Sc. (Manitoba).

Mechanical and Manufacturing Engineering:

Professors Emeriti

Azad, R.S., B.Sc. (Hons.), Ph.D. (Nottingham), P.Eng; **Hawaleshka**, O., B.Eng. (McGill), M.Eng. (McGill), Shewchuk, J., B.Sc. (Saskatchewan),

M.Sc. (Saskatchewan), Ph.D. (Pennsylvania State); **Sims**, G.E., B.Sc. (M.E.) (Manitoba), M.Sc. (Birmingham), Ph.D. (London), C.S.M.E., P.Eng; **Tangri**, K. K., B.Sc. (Punjab), B.Sc. (Met. Eng.) (B.H.U., India), M.Sc., Ph.D. (Missouri), P.Eng.

Distinguished Professor and Canada Research Chair

Chaturvedi, M.C., B.Sc. (Met.) (Banara) M.Met., Ph.D. (Sheffield), P.Eng.

Chair Professors

Bibeau, E. L., B.Sc. (McGill), M.Sc., Ph.D. (British Columbia); **Wang**, Q., B.Sc. (Zhejiang), M.Sc., Ph.D. (Peking).

Professors

Balakrishnan, S., B.Tech., M.Tech. (IIT, Madras), Ph.D. (M.E.) (Manitoba), P.Eng.; **Bassim**, M.N., B.Sc. (Cairo), M.Sc., Ph.D. (Virginia), P.Eng.; **Ca-hoon**, J.R., B.Sc. (Met.E.), M.Sc., Ph.D. (Alberta), P.Eng., FASM; **Chaturvedi**, M.C., B.Sc. (Met.) (Banara) M.Met., Ph.D. (Sheffield), P.Eng.); **Kuhn**, D.C.S., B.Sc., M.Sc., Ph.D. (Queens); **Ormiston**, S.J., B.Sc. (Manitoba), M.A.Sc., Ph.D. (Waterloo), P.Eng.; **Poppolewell**, N., B.Sc.(Hons.) (Math.) (Leeds), M.Sc., Ph.D. (Southampton), P.Eng.; **Richards**, N.L., Ph.D. (As-ton), Dip.Met.Class I (West Glamorgan); **Ruth**, D.W., B.Sc. (M.E.), M.Sc. (M.E.) (Manitoba), Ph.D. (Waterloo), P.Eng.; **Sepehri**, N., B.Sc. (Iran), M.A.Sc., Ph.D. (UBC), P.Eng.; **Soliman**, H.M., B.Sc. (M.E.) (Assiut), M.S., Ph.D. (M.E.) (Kansas), P.Eng.; **Wang**, Q., B.Sc. (Zhejiang), M.Sc., Ph.D. (Pe-king).

Associate Professors

Bibeau, E. L. M.A.Sc., Ph.D. (UBC); **Birouk**, M., M.Sc., Ph.D. (M.E.) (Orléans); **Chatoorgoon**, V.R., M.S. (California), B.Sc. (Manchester, UK), Ph.D. (Toronto); **Derksen**, R., B.Sc., M.Sc., Ph.D. (Manitoba), P.Eng.; **ElMe-kkawy**, T., B.Sc., M.Sc. (Cairo U.Egypt), Ph.D. (U. of Windsor); **Jayaraman**, R., M.Sc. (Wayne State), Ph.D. (Northwestern); **Singh**, M.N., B.Sc. (Cal-gary), M.A.Sc. (Waterloo), Ph.D. (Waterloo); **Tachie**, M. F., M.Sc. Ph.D. (M.E.) (Saskatchewan); **Wu**, C.Q., B.Sc. (Beijing), M.Sc. (UBC), Ph.D. (Manitoba), P.Eng.

Assistant Professors

Bartley, J.T., B. Eng. (Lakehead), M.Sc., (M.E.), (Manitoba), Ph.D. (M.E.), (Manitoba); **Luo**, Y., B.Eng., M.Eng. (Beijing), Ph.D. (Stockholm); **Ojo**, **O.A.**, B.Sc. (OAU), M.Sc., Ph.D. (Manitoba); **Peng**, Q. B.Eng. M.Eng. (Xian Jiaotong Univ.), Ph.D. (Birmingham, UK); **Wang**, B. C., B.Eng. (China), M.Sc. (China), Ph.D. (Saskatchewan), P.Eng.

Adjunct Professors

Alfa, A.S., B.Eng. (Ahmadu Bello), M.Sc. (Manitoba), Ph.D. (NSW), P.Eng.; **Bai**, H., B.Sc. (Beijing), M.Eng. (China); Ph.D. (Manitoba); **Bartley**, J.T., B. Eng. (Lakehead), M.Sc., (M.E.), (Manitoba), Ph.D. (M.E.), (Manitoba); **Ca-ley**, W. F., B.Sc. (Queens), Ph.D. (Toronto); **Chan**, C.K., M.Sc., Ph.D. (Cal-ifornia); **Chen**, D. M.Sc. (China), Ph.D. (C.A.S.) (China) N.U.T.; **Feitosa**, E., B.Sc. (Brasil), M.Sc. (Brasil), Ph.D. (Southampton); **Garg**, A., M.Eng. (Vil-lanova), Ph.D. (Michigan); **Naterer**, G.F., B. Math, M.A.Sc. (M.E.), Ph.D. (M.I.E.) (Waterloo); **Shanker**, K., B.Tech (Indian Inst Tech), M.S. (Denver), Ph.D. (Florida); **Strong**, D., B.Sc., M.Sc., Ph.D. (Toronto); **Wang**, G., B.Sc. (H.U.S.T.) (China), M.Sc. (H.U.S.T.) (China), Ph.D. (Victoria) P.Eng.; **Wells**, R., M.Eng. (McMaster), Ph.D. (Manchester); **Yee**, E., Ph.D. (Saskatchewan).

SECTION 2: The Profession of Engineering

Engineers use fundamental principles and energy sources from the natural world and direct them to the benefit of people. They interpret science in terms of material human needs and manage personnel, money, and materials. The profession is involved in all aspects of construction and manufacturing, including conceptualization, design, preparation of plans and specifications, and fabrication of products to meet predetermined standards of reliability and performance. Engineers acquire competence through instruction in basic sciences, mathematics, and engineering sciences; by introduction to the processes of synthesis and design; by complementary studies in the humanities, social sciences, and management; and by learning from the skills and experience of more senior engineers during the early years of employment.

The educational objective in the Faculty of Engineering is to prepare students for positions of leadership in a world where engineering, science, and management are of major importance.

SECTION 3: Admission to the Faculty of Engineering

3.1 Degrees Offered

Bachelor of Science in Engineering (Biosystems)

Bachelor of Science in Engineering (Civil)

Bachelor of Science in Engineering (Computer)

Bachelor of Science in Engineering (Electrical)

Bachelor of Science in Engineering (Manufacturing)

Bachelor of Science in Engineering (Mechanical)

Minimum time to graduation: Four years (One year in Preliminary Program for direct admission students or in Preliminary Program courses (or equivalent) taken while in University I, plus three years in a departmental program.)

The following is a summary of the admission requirements. Equivalent academic courses completed at recognized universities elsewhere will be considered. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website.

3.2 Course Requirements for Admission:

Direct admission into the Faculty of Engineering from high school:

Applicants who have completed Chemistry 40S, Mathematics 40S (pre-calculus), and Physics 40S with a minimum overall average of 85 per cent, and no grade lower than 60 per cent in any one course, may be admitted to Engineering directly from high school.

From University 1:

A minimum of 8 of the 12 courses in the preliminary engineering program, section 5.2, each with a minimum grade of "C", and a minimum Grade Point Average of 2.0.

Please note that all 12 courses are required to complete the preliminary engineering program with the 8 as the basis of admission from University 1 and/or other faculties.

Other requirements

The university written English and mathematics requirements are satisfied by the English and mathematics courses in the preliminary engineering program.

Chemical Engineering at the University of North Dakota

The University of Manitoba has an agreement with the University of North Dakota, Grand Forks, N.D., which allows students to obtain a degree in chemical engineering from the University of North Dakota by taking the Preliminary Engineering program at the University of Manitoba and three years at the University of North Dakota. The chemical engineering program at the University of North Dakota is accredited by the Accreditation Board for Engineering and Technology in the United States and is recognized by the Association of Professional Engineers and Geoscientists of Manitoba. Information on this program may be obtained from the Student Advising Office, E1-284 EITC.

SECTION 4: Academic Regulations

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Engineering has regulations and requirements, published below, which apply specifically to its students. Notwithstanding the regulations given in this section, the Faculty Council of Engineering reserves the right to rule on individual cases in exceptional circumstances.

4.1 Foreign Language Requirements for co-op and non-co-op Students

There are some opportunities for undergraduate co-op and non-co-op students to work in foreign countries. However, there are foreign language requirements that must be fulfilled before placement can be considered. Students interested in foreign work assignments should acquaint themselves with these language requirements by consulting with their department head as soon as possible after their entry into the Faculty of Engineering.

4.2 Professional Registration

In order to practice engineering in any province or territory in Canada, it is necessary to be a member of the professional engineering association of that province or territory. The requirements for membership are acceptable academic preparation and a subsequent period of acceptable engineering experience gained under the supervision of a registered professional engineer. The undergraduate programs in Biosystems, Civil, Computer, Electrical, Manufacturing, and Mechanical Engineering are accredited by the Canadian Engineering Accreditation Board (CEAB), reflecting acceptable academic preparation for membership in the association of professional engineers in any province or territory in Canada. Through a mutual recognition agreement, the programs are recognized as satisfying accreditation requirements in the United States, the United Kingdom, Ireland, New Zealand, Australia, and Hong Kong.

Graduates of an accredited program are eligible to apply for membership as an engineer-in-training, in the association of professional engineers in their province of residence in Canada. After a period of acceptable experience, they are eligible to apply to the association for registration as a professional engineer in that province.

4.3 Students Transiting to Departments

Students will be accepted into department programs based on the following criteria. Direct entry students who have completed all 12 Preliminary program courses with no "D" or "F" grades within a time frame, from the beginning of a regular academic session (September) to the immediately following June 30th, will be admitted to their program of choice, subject only to the enrolment cap of that program. If the enrolment cap is exceeded, students will be admitted on a competitive basis based on the average of the best eight marks in courses in the Preliminary Engineering program. Students with less than 12 (direct entry or University I) but eight or more required courses will be admitted to programs on a competitive basis. Applicants will be ranked based on the average of the best eight marks that they have achieved on courses in the Preliminary program or University I required courses.

Students transferring in from programs, faculties, or colleges will have all courses or equivalent courses that are required in a particular engineering program transferred in, including failed grades ("D's" and "F's") in those courses. The cumulative credit hours for the failed grades will count towards the 40 credit hour limit allowed within a single degree program.

Direct entry students must complete a program declaration form by May 1st in order to indicate their program of choice. Students from University 1 and other faculties must apply by May 1st through the Admissions Office.

4.4 Grading and Assessment

All grades awarded by instructors for undergraduate courses offered in the Faculty of Engineering are reviewed by examiners' boards, which comprise all of the instructors in the student's program year. After approval by department councils, they are presented to the Faculty Council of Engineering for acceptance. Following is a list of assessments which will occur after each of the terms (fall, winter, summer session):

Term Grade Point Average (TGPA)

The TGPA is computed from all of the final grades in all courses completed during a given academic term.

Degree Grade Point Average (DGPA)

The DGPA is computed from the final grades obtained in all courses attempted as part of a student's current degree program and courses transferred from other faculties and other institutions. Where a course has been repeated or replaced by an approved equivalent course only the last grade shall be included in the computation.

Cumulative Grade Point Average (CGPA)

The CGPA is computed from the final grades in all undergraduate courses attempted at the University of Manitoba and courses transferred from other faculties and other institutions.

Dean's Honour List

A continuing student who achieved a Term Grade Point Average (TGPA) of 3.50 or higher in their most recent academic assessment will be placed on the Dean's Honour List. The assessment is based on a minimum of 12 credit hours. The list will be updated at the end of each of the two regular session terms. A graduating student who achieved a Degree Grade Point

Average (DGPA) of 3.50 or higher in their final academic evaluation will graduate on the Dean's Honour List.

Awards

A number of scholarships, bursaries and other academic awards are available to Engineering students. For information concerning awards (prizes, scholarships, and bursaries), please visit the Faculty website or contact Myrna Donald at donaldm@cc.umanitoba.ca.

4.5 Requirements for the Bachelor's Degree

The requirement for a Bachelor of Science degree in Engineering is a grade of "C" or better in all required and elective courses in the student's program. All other students are governed by the rules in effect at the time of their first registration in Engineering.

A student must complete at least 50 per cent of an engineering degree program as a full-time student in the Faculty of Engineering. Unless otherwise approved by the Dean of Engineering, students must complete all degree requirements within seven calendar years after being accepted into an Engineering department.

Degree with Distinction

A student who on graduation achieves a Degree Grade Point Average (DGPA) of 3.80 or higher is awarded the degree "With Distinction."

Criteria for Medal Awards

The Faculty of Engineering Program Gold Medal shall be awarded to the graduating student in each engineering program who has achieved the highest Degree Grade Point Average (DGPA) (minimum of 3.80) with no distinction as to full- or part-time status. The program Medal will be awarded at spring Convocation to the student who has completed that program in the past academic year (including October and February graduands).

The University Gold Medal for the Faculty of Engineering shall be awarded to the graduating student in the Faculty of Engineering who has achieved the highest Degree Grade Point Average (DPGA) (minimum of 3.80) for the entire program with no distinction as to full- or part-time status.

4.6 Categories of Students

A student shall normally register for three to six courses in a term. Registration for more than six or fewer than three courses in a term must be approved by the Department Head or, in the preliminary program, by the Associate Dean (undergraduate).

Full-Time Student: Full-time students are those who are registered in at least 15 credit hours (considered 100 per cent) for the regular academic term of their specific programs. 80 per cent of a full course load is 12 credit hours; 60 per cent is 9 credit hours.

Part-Time Student: Part-time students are those who are registered for less than 15 credit hours for the regular academic term.

4.7 Student Progress and Academic Status

Students shall be evaluated at the conclusion of each academic term in which they receive a final grade in a minimum of 6 credit hours of course material (excluding Special Student credit hours), with the assessment being based on the resulting Term Grade point Average (TGPA) in those courses. The academic assessments are as follows:

Good Academic Standing

A student with a TGPA of 2.00 or higher is in *Good Academic Standing*.

Academic Warning Letter

The first time the student's TGPA drops below 2.00, he/she will receive an *Academic Warning*. Students who receive such a warning are required to meet with an academic advisor from their department or, in the preliminary program, with the Associate Dean (undergraduate).

Academic Probation

The second time that a student's TGPA drops below 2.00, the student will be placed on *Academic Probation*.

Required to Withdraw

The third time that a student's TGPA drops below 2.00, the student will be *Required to Withdraw*. Students who receive such a suspension shall be ineligible to take Engineering courses from the end of the term for which the suspension was issued through to the start of that same term in the subsequent academic year (normally, a period of 8 months.)

In order to be reinstated following the suspension period, the student must submit a written application for reinstatement to the Associate Dean (Undergraduate). Applications must be made by August 14, for reinstatement by September 1, or December 7 for reinstatement by January 1.

Ineligible to Proceed in Engineering

A student shall be *Ineligible to Proceed in Engineering* under either of the following conditions:

- The student's TGPA drops below 2.00 for a fourth time, or;
- The student has accumulated in excess of 40 credit hours of repeated or replaced credit hours.

Repeated or replaced credit hours do not include Voluntary Withdrawal (VW), Authorized Withdrawal (AW), or Special Student (SS) credit hours.

4.8 Course Selection

When arranging a program of study, a student must satisfy the following requirements:

- All prerequisite and corequisite course requirements must be met.
- All previously failed compulsory courses must be repeated. Students will require assistance with registration due to a block on the AURORA registration system which does not allow more than two repeats.
- Students are not normally allowed to repeat courses graded "C" or higher, except under special circumstances with the approval of the Department Head.
- Failed elective courses may be repeated or replaced with alternative elective courses.

Prerequisite Course: A prerequisite course must have been completed with a "C" grade or better before a subsequent course can be attempted. Under exceptional circumstances, a course instructor may waive, subject to approval by the Department Head (or designate), a prerequisite requirement.

Corequisite Course: A corequisite course must be taken concurrently or before its companion course. Under exceptional circumstances, a course instructor may waive, subject to approval by the Department Head (or designate), a corequisite requirement.

4.9 Examinations

Deferred Examinations

Deferred Examinations (See *Chapter, General Academic Regulations and Requirements* of this Calendar for details) are normally scheduled to take place within 30 working days from the end of the examination series from which the examination was deferred. The date of the deferred examination for a particular course will be set by the Dean's Office no later than January 15, May 15 or July 7, and in consultation with the instructor.

Special Examinations

A student who has attempted to meet all requirements for the degree and has a single failure in their final session, in an engineering course, can apply for a special examination in that course. Special examinations may not be requested for any other reason. However, a special examination may be given on the recommendation of a Board of Examiners under exceptional circumstances. A special examination is given in addition to the regular examination. The grades from both examinations are retained on the student's record, and both are used in the calculation of TGPA and DGPA. The results of special examinations must be reported to the Faculty Council of Engineering. The special examination privileges apply only to courses offered by the Faculty of Engineering.

Supplemental Examinations

The Faculty of Engineering does not provide supplemental examinations.

Challenge for Credit

Courses offered in Engineering may not be challenged for credit.

4.10 Appeals

Students who feel that they have received unfair treatment in a course should appeal to the instructor. If the matter is not thereby resolved, it should be raised with the Department Head, or the Associate Dean (Undergraduate). Students wishing to appeal their academic status should write to the Associate Dean (Undergraduate), Committee on Standing and Appeals, E1-284 EITC before August 15th. Information regarding this process is available from the Student Advising Office, E1-284 EITC.

4.11 Withdrawal from Courses

The responsibility for initiating withdrawals rests solely with the student, and no voluntary withdrawals are permitted after the deadlines for voluntary withdrawal without academic penalty (see the chapter, *General Academic Regulations and Requirements*, of this Calendar). For documented medical or compassionate reasons, Authorized Withdrawals may be permitted by the Dean.

A student who, after registering for courses, in any term, becomes ineligible to proceed in Engineering or receives an Engineering Suspension will be withdrawn from his or her Intersession/Summer Session program.

4.12 Attendance

When the number of unexcused absences recorded against a student in the Faculty of Engineering in any course exceeds 10 per cent of the number of lectures and laboratories for that course the instructor may report the case to the Dean of Engineering. When a student's attendance or work continues to be unsatisfactory, the instructor has the authority to exclude the student from classes, or examinations, or both. Such cases shall be reported to the Faculty Council of Engineering at the first opportunity. Students who are excluded from an examination for inadequate attendance in a compulsory course are required to repeat the course.

4.13 Use of Calculating Devices

For courses offered by the Faculty of Engineering in which the use of devices capable of calculations is permitted in tests or examinations, such devices must be incapable of receiving and/or transmitting signals. Instructors wishing to restrict devices to certain capabilities must inform students, in writing, within the first week of term. Questions concerning the suitability of any given device should be directed to the course instructor(s).

4.14 Complementary Studies Electives

Complementary studies electives are an integral part of the curriculum. Their purpose is to broaden the student's experience beyond the purely scientific and technical content of engineering. They include studies in engineering economics and the impact of technology on society, as well as the central issues, methodologies and thought processes characteristic of the humanities and social sciences. Opportunities for development of the student's oral and written communication skills are also provided. The coursework requirements may vary from one department to another. XXX.09X0 courses will not be allowed as complementary studies electives. ARTS 1110 Introduction to University may not be used for credit in the Faculty of Engineering.

4.15 Management Minor

The minor in Management offered by the Faculty of Management is available to Engineering students. The minor consists of any 18 credit hours of Management courses; students must meet all prerequisite requirements. Depending on the approval of the Engineering department, courses used for the minor may also be used to fulfil course requirements in Engineering. Admission requirements for the minor are based on all courses transferred to Engineering or completed while in Engineering; the requirements are a minimum of 30 credit hours with a minimum Degree Grade Point Average (DGPA) of 3.00. Up to 10 spaces are available each year for engineering students on a competitive basis. Applications can be made in the Engineering Dean's office up to May 30th.

4.16 Arts Minor

A minor in Arts is available to Engineering students. The minor consists of 18 credit hours of Arts courses, including a minimum of 6 credit hours in the Humanities and six credit hours in the Social Sciences; students must meet all pre-requisite requirements. Depending on the approval of the Engineering department, courses used for the minor may also be used to fulfil course requirements in Engineering.

4.17 Music Minor

A Minor in Music is available to Engineering students. The minimum requirement is 18 credit hours of music courses subject to the following constraints: i) Courses MUSC 1110 (Music Theory 1) or MUSC 1120 (Music Theory 2) are compulsory. ii) Students may take ensemble courses but in order to earn credit toward the minor all three of the courses MUSC 2180 (Ensemble) or MUSC 1290, MUSC 3180 (Ensemble), and MUSC 4180 (Ensemble) must be completed. These three courses will count for 6 of the 18 required credit hours. iii) Any course offered by the Faculty of Music may

be used for credit toward the minor. However, permission to register for any course must be granted by the Faculty of Music. Registration will be controlled by normal pre-requisites and class size restrictions. Students registered in the minor will not be allowed to register in Major Practical Study courses. Depending on the approval of the student's Engineering department, courses used for the minor may also be used to fulfil course requirements in Engineering.

4.18 Computer Science Minor

A Minor in Computer Science is available to Engineering students. The minimum requirement is 18 credit hours of computer science courses subject to the following constraints: (1) Courses COMP 1010, COMP 1020, and COMP 2140 are compulsory; (2) 9 additional credit hours of COMP courses at the 2000 or 3000 level; and (3) registration in computer science courses will be controlled by normal pre-requisites and class size restrictions.

4.19 Mathematics Minor

A Minor in Mathematics is available to Engineering students. The minimum requirements are 24 credit hours of mathematics courses subject to the following constraints: (1) the students must notify their home department that they are pursuing the minor; (2) up to 12 credit hours of mathematics courses in a student's engineering program may be counted toward the minor; (3) the student must complete at least 6 credit hours of courses from the mathematics department at the 3000 level or higher that are not included as part of the curriculum in the student's engineering program; and (4) approval of the Department of Mathematics is required for courses outside of the regular engineering program.

SECTION 5: Program Requirements

5.1 Engineering Access Program

General Office: E2-442 EITC

Telephone: (204) 474 9872

Toll Free: 1800 432 1960 ext. 9872

Fax: (204) 474 7518

E-mail: merrickc@cc.umanitoba.ca

Web: www.engap.com

The Engineering Access Program (ENGAP) recognizes that students of Aboriginal ancestry may be challenged with geographic and economic barriers, and/or lack of access to academic preparation, which may make them unable to meet the faculty's admission requirements. ENGAP serves as a specifically designed post-secondary program that provides an opportunity for students to complete their Bachelor of Science degree in Engineering. The program accomplishes this objective by offering upgrading courses in mathematics, chemistry, and physics, as well as providing academic advice, personal and family counselling along with financial supports. Aboriginal students who do meet the regular requirements may still wish to join the program to benefit from these supports.

5.2 Preliminary Engineering Program

Student Advising Office: E1-284 EITC

Telephone: (204) 474 9807

E-mail: eng_info@umanitoba.ca

Website: umanitoba.ca/faculties/engineering

The Preliminary Engineering Program is common to all programs in engineering. Students in the preliminary engineering program or University 1 must complete at least 8 courses to be admitted to a degree granting engineering program. A student must complete the following list of 12 courses in order to graduate with a BSc degree from any of the engineering programs.

Course No.		Credit Hours
CHEM 1300	Structure and Modelling in Chemistry	3
COMP 1010	Introductory Computer Science	3
ENG 1430	Design in Engineering	3
ENG 1440	Introduction to Statics	3
ENG 1450	Introduction to Electrical and Computer Engineering	3
ENG 1460	Introduction to Thermal Sciences	3
ENGL 1310	Literary Topics 1	3
MATH 1210	Techniques of Classical and Linear Algebra	3

MATH 1510	Applied Calculus 1 or equivalent (Note 1)	3
MATH 1710	Applied Calculus 2 or equivalent (Note 2)	3
PHIL 1290	Critical Thinking 1	3
PHYS 1050	Physics 1: Mechanics	3

Note:

- (1) MATH 1500 and MATH 1510 are regarded as equivalent to each other.
- (2) MATH 1700 and MATH 1710 are regarded as equivalent to each other.
- (3) MATH 1690 may be regarded as being equivalent to one course from (1) and one course from (2).
- (4) MATH 1300 is not an acceptable equivalent to MATH 1210

University Written English and Mathematics Requirements

All students are required to complete the university written English and mathematics requirement within the first 60 credit hours of their program. This requirement is described in the chapter, General Academic Regulations and Requirements, of this *Calendar*. In the Engineering programs the mathematics requirement is satisfied by one of MATH 1510 or MATH 1710 (or an equivalent), and the written English requirement by ENG 1310.

5.3 Common Courses Taught by the Faculty of Engineering

ENG 1420 Engineering Processes for Non-Engineering Students Cr. Hrs. 3 Develops an understanding of the engineering profession with emphasis on basic technical principles, the regulation of engineering in Canada, systems Engineering, and Project Management. Special emphasis will be placed upon the interface between management and engineering and the role that management plays in the conduct of technical projects and manufacturing.

ENG 1430 Design in Engineering Cr.Hrs.3 The Creative Process; The Design Process; Working in a Team. The Engineering Profession from the Perspective of Students and Professionals. Academic, Legal and Ethical considerations. Not to be held with the former 130.113 or 130.140. *Prerequisite:* A minimum grade of 60% in pre-calculus Mathematics 40S, or the former Mathematics 40S, Physics 40S, and Chemistry 40S.

ENG 1440 Introduction to Statics Cr.Hrs.3 Statics of Particles; Rigid Bodies, Equilibrium of Rigid Bodies; Analysis of Structures; Distributed Forces. Not to be held with the former 130.135. *Prerequisites:* A minimum grade of 60% in pre-calculus Mathematics 40S, or the former Mathematics 40S, Physics 40S, and Chemistry 40S.

ENG 1450 Introduction to Electrical and Computer Engineering Cr.Hrs.3 Part I: Current, voltage, energy, potential, power Ohm's law; independent sources; capacitor, inductor, ideal diode, op-amp; Kirchoff's law; simple circuits (Resistive, RC, RL, OP-Amp; Diode); introduction to ac theory (Sinusoidal waveform, phase relations of voltage and current waveforms for R,L,C. RL and RC circuits). Part II: Applications (Digital Logic, motors). Not to be held with the former 130.118. *Prerequisites:* A minimum grade of 60% in pre-calculus Mathematics 40S, or the former Mathematics 40S, Physics 40S, and Chemistry 40S.

ENG 1460 Introduction to Thermal Sciences Cr.Hrs.3 Properties of pure substances; First Law for Closed Systems; First Law for Open Systems; Second Law; Examples of Power Cycles and Refrigeration Cycles. Not to be held with the former 130.112. *Prerequisites:* A minimum grade of 60% in pre-calculus Mathematics 40S, or the former Mathematics 40S, Physics 40S, and Chemistry 40S.

ENG 2010 Technical Communications Cr.Hrs.3 (Formerly 130.201) Students work collaboratively in teams and develop strong project management skills. Focus is on the connection between engineering and communication design: the importance of audience analysis; a clear definition of the technical issues and the criteria by which to measure a design or solution; well-designed graphic aids which support the text; and clear writing and speaking. *Prerequisite:* ENGL 1310 (or 004.131)W Literary Topics (or equivalent).

Descriptions of common courses taught to all engineering students by other faculties are found in their respective chapters of this *Calendar*.

5.4 Biosystems Engineering

General Office: E2-376 EITC

Telephone: 474 6033

Fax: 474 7512

Website: umanitoba.ca/faculties/afs/biosystems_engineering/

Acting Head: D.D. (Danny) Mann

Acting Associate Head: N. (Nazim) Cicek

Admin. Assistant: Ms. D. (Debby) Watson

Office Assistant: Ms. E. (Evelyn) Fehr

The Department of Biosystems Engineering offers a fully accredited degree program in Biosystems Engineering. The program is designed to give students knowledge of the basic principles of engineering and, in particular, an adequate training and education in the fundamentals and professional applications of Biosystems Engineering. The program is offered in both a traditional and a co-operative education format. The department offers an Environmental Engineering option in both traditional and co-operative education formats. With the appropriate selection of elective courses the

bachelor's degree in Biosystems Engineering meets the requirements for admission to the Faculty of Medicine.

Biosystems Engineering emphasizes the application of engineering principles to biologically based systems (plants, animals, and microorganisms). The main areas of emphasis are environmental engineering, bioprocess engineering, biomedical engineering, and agricultural engineering (farm machinery, animal and plant production systems, water management, bioenvironmental controls, and light-frame buildings).

The undergraduate curriculum in Biosystems Engineering is an academic program in the Faculty of Engineering. Students wishing to study in the program in Biosystems Engineering must be admitted to the Faculty of Engineering. They are required to complete the Preliminary Engineering Program as a prerequisite to the courses in Biosystems Engineering.

Biosystems Engineering Degree Program

Students are encouraged to consult the department for eight- and ten-term program models. Students are strongly encouraged to follow the model programs when possible, as timetabling and course offerings are based on these program models.

Environmental Option

The departments of Biosystems Engineering and Civil Engineering offer an option in Environmental Engineering and it provides an opportunity for students to focus on environmental engineering related courses. Successful completion of the option in Environmental Engineering will be indicated on graduates' transcripts. Students selecting the environmental option within the Biosystems Engineering department will have the knowledge to solve problems associated with the natural environment (groundwater contamination, soil degradation, pollution of rivers and lakes, air pollution, environmental impact assessment) as well as the built environment (building air quality, temperature and humidity control). Biosystems Engineering students will gain a thorough understanding of the fundamental concepts and interactions between biology, engineering science and engineering design to prepare them well for a career in environmental engineering.

Preliminary Engineering Program

Common to all engineering programs (see Section 5.2 for details).

Departmental Program

Course No.		Credit Hours
CHEM 1310	University Chemistry 1	3
STAT 2220	Contemporary Statistics for Engineers	3
MATH 2130	Engineering Mathematical Analysis 1	3
MATH 2132	Engineering Mathematical Analysis 2	3
MATH 2120	Introduction to Numerical Methods for Engineers	4
CIVL 2790	Fluid Mechanics	4
Or		
MECH 3492	Fluid Mechanics and Applications	4
CIVL 2800	Solid Mechanics 1	4
Or		
MECH 3502	Stress Analysis and Design	4
CIVL 3710	Finite Element Analysis	4
CIVL 4050	Engineering Economics	3
MECH 3482	Kinematics and Dynamics	4
BIOE 2110	Transport Phenomena	3
ENG 2020	Engineering CAD Technologies for Biosystems	2
BIOE 2580	Biosystems Engineering Design Trilogy 1	4
BIOE 2590	Biology for Engineers	3
BIOE 3270	Instrumentation and Measurement for Biosystems	4
BIOE 3320	Engineering Properties of Biological Materials	4
BIOE 3580	Biosystems Engineering Design Trilogy 2	4
BIOE 3590	Mechanics of Materials in Biosystems	4
BIOE 4240	Graduation Project	3
BIOE 4390	Unit Operations 1	4
BIOE 4580	Biosystems Engineering Design Trilogy 3	4
SOIL 4060	Physical Properties of Soil	3
Or		
BIOL 1410	Anatomy of the Human Body	3
MBIO 2100	General Microbiology A	3
Or		
MBIO 1220	Essentials of Microbiology	3
AGRI 2200	Principles of Plant and Animal Physiology	4
Or		
BIOL 1412	Physiology of the Human Body	3
	One course in Technology and Society	3
	Two Complementary Studies Electives	6
	Four Biosystems Engineering Design Electives (see list below)	16
	Two Free Electives	6-8

		to
		164

Biosystems Engineering Design Electives		
These electives are offered in alternate years:		
BIOE 4400	Unit Operations 2	4
BIOE 4420	Crop Preservation	4
BIOE 4460	Air Pollution Assessment and Management	4
BIOE 4480	Environmental Impact Assessment	4
BIOE 4530	Analysis and Design of Biomachinery	4
BIOE 4540	Controlled Environment Production Systems	4
BIOE 4560	Structural Design in Wood	4
BIOE 4590	Management of By-Products from Animal Production	4
BIOE 4600	Design of Water Management Systems	4
BIOE 4610	Design of Assistive Technology Devices	4
BIOE 4620	Pollution Prevention Practices	4
BIOE 4630	Remediation Engineering	4
BIOE 4412	Design of Light-Frame Building Systems	4
BIOE 4414	Imaging and Spectroscopy for Biosystems	4
BIOE 4640	Bioengineering Applications in Medicine	4
Biosystems Engineering Science Electives		
These electives are offered in alternate years:		
BIOE 4416	Topics in Biosystems Engineering	3
Environmental Option		
The students can enter the Environmental Engineering option after the completion of 60 credit hours. Students taking the Environmental Engineering option in Biosystems Engineering are required to select the following courses as their electives:		
PHIL 2750	Environmental Ethics (as a Complementary Studies Elective)	3
CIVL 3690	Environmental Engineering Analysis (as a free elective)	4
CIVL 3700	Environmental Engineering Design (as a free elective)	4
BIOE 4480	Environmental Impact Assessment	4
or		
CIVL 4100	Engineering Management and the Environment	4
Three Biosystems Engineering Design Electives		12

Admissions to Medicine

The bachelor's degree in Biosystems Engineering provides the background to meet eligibility requirements for admission into the Faculty of Medicine. Students planning to apply for entrance to Medicine after completing the B.Sc. in Biosystems Engineering are advised to take PHIL 2740 Ethics and Biomed as their complementary studies elective, CHEM 2210 Organic Chemistry 1 and CHEM 2360 Biochemistry 1 as their two free electives.

Co-operative Education Program in Biosystems Engineering

Coordinator: N. (Nazim) Cicek

The co-operative education program is an approach to education in which academic study is complemented and enriched with practical work experience. A student alternates periods of attendance in university with periods of employment in industry or government. The work terms provide the students with practical experience, help to finance their education, and guidance for further career specialization.

A student on good academic standing may apply to enter the co-operative program format in Biosystems Engineering after completing 80 credit hours. Acceptance into the program is dependent upon the student receiving a job placement through the office of co-operative education in Biosystems Engineering. Students may seek employment on their own, but must consult with the co-op coordinator before doing so. Once a job placement has been secured through the office, the student is accepted into the program and enrolls in the course BIOE 3550 Co-operative Work Study 1 (and subsequently, BIOE 4550 Co-operative Work Study 2) for the specific work term (W1, winter, summer; W2, summer, fall) of employment.

In order to stay in the co-operative program format in Biosystems Engineering, a student must maintain a minimum GPA of 2.00 and must obtain a grade of "pass" for each work term report. All rules and regulations of the Faculty of Engineering apply. Students, who do not maintain these standards, may not remain in the co-operative format program and may be transferred back into the traditional program format or required to withdraw completely.

The course and grade requirements for completion of the co-operative program are the same as those for the traditional program. However, in order to satisfy course prerequisite needs, and the timetable, course arrangements of a student in the co-operative program may differ from those of a student in the traditional program.

Each successfully completed work term and its corresponding work term report carries one credit hour. Work term reports are given grades of "Pass" or "Fail." The co-op office assigns faculty advisors to mark work term reports. A graduate who successfully completes both work terms and the required work term reports will have the words "Co-operative Education."

5.5 Biosystems Engineering Course Descriptions

BIOE 2050 Metalworking Methods Cr.Hrs.3 (Formerly 034.205) Principles of operation of the lathe, milling machine, shaper, planer, drill, and grinding machine. Laboratory project requiring the use of the above machines. Limited practice in gas and electric welding.

BIOE 2080 Agricultural Survey Systems Cr.Hrs.3 (Formerly 034.208) Survey systems and techniques applicable to agriculture. Use of level, transit and tape. Theory of errors and error adjustment; mapping.

BIOE 2090 Machinery for Agricultural Production Cr.Hrs.4 (Formerly 034.209) Farm machinery selection. Machine performance. Ownership and operating costs. Analysis of machine functions for safety and efficiency.

BIOE 2110 Transport Phenomena Cr.Hrs.3 (Formerly 034.211) Principles of heat transfer, solar radiation, psychometrics, molecular diffusion, mass transfer and refrigeration and their application to biosystems. *Prerequisite:* ENG 1460 (or 130.112).

BIOE 2580 Biosystems Engineering Design Trilogy 1 Cr.Hrs.4 (Formerly 034.258) Biosystems Engineering and its place in the professions of engineering and agrology. Design concepts, with an emphasis on team building and technical communication skills. Philosophy of project planning. Preparation of a conceptual design by teams in response to design assignment submitted by industry. Written report presented orally. *Prerequisite:* ENG 1430 OR THE FORMER ENG 1400 (OR 130.140).

BIOE 2590 Biology for Engineers Cr.Hrs.3 (Formerly 034.259) Provide theories and principles of Biology to engineering students and present applications of biological principles to engineering problems. Fundamental theories involved in cell structure and function, metabolism, genetics and heredity, bacteria and virus structure and function, plant and animal structure and function are covered. An introduction to animal and plant physiology is also provided. Laboratory sessions and term assignments focus on the engineering applications of these basic theories and principles to provide a good understanding of the role of Biology in Engineering. *Prerequisite:* CHEM 1300 (or 002.130).

BIOE 3200 Environmental Engineering for Non-Engineers Cr.Hrs.3 This course will discuss air pollution and odor control, remediation of contaminated soil and ground water, waste-water and solid waste treatment, and the role of biotechnology in these processes. Consent of Instructor required.

BIOE 3270 Instrumentation and Measurement for Biosystems Cr.Hrs.4 (Formerly 034.327) Basic instrumentation for measuring electrical and non-electrical quantities associated with biosystems engineering and industry; transducers for automatic control. *Prerequisites:* MATH 2132 (or the former MATH 2110 (or 136.211)), ENG 1450 or the former ENG 1180 (130.118).

BIOE 3320 Engineering Properties of Biological Materials Cr.Hrs.4 (Formerly 034.332) Engineering properties of biological and interacting materials within the system. Relationship between composition, structure, and properties of plant, animal, and human tissues. Definition and measurement of mechanical, thermal, electromagnetic, chemical and biological properties and their variability. Use of these properties in engineering calculations. *Prerequisites:* MATH 2100 (or 136.210), and (CIVL 2800 or MECH 2220)

BIOE 3530 Engineering Fundamentals Cr.Hrs.3 (Formerly 034.353) Principles of heat transfer, steam, psychometrics, fluid mechanics, material balances, electricity and refrigeration. Cannot be held for credit in the Faculty of Engineering. Not to be held with the former 034.329. *Prerequisite:* MATH 1680(136.168M) or the former 013.129 or 013.128.

BIOE 3550 Cooperative Work Study 1 Cr.Hrs.1 BIOE 3550 Cooperative Work Study 1 Cr.Hrs.1 (Formerly 034.355) Work assignment in business, industry, or government for Cooperative education students in Biosystems Engineering. Requires a written report covering the work completed during a minimum 25-week work period. Available from January to August. (Pass/Fail grade only)

BIOE 3580 Biosystems Engineering Design Trilogy 2 Cr.Hrs.4 BIOE 3580 Biosystems Engineering Design Trilogy 2 Cr.Hrs.4 (Formerly 034.358) Advanced design concepts associated with Biosystems Engineering, with emphasis on the principles of safety and human factors engineering. Theory of project planning. Preparation of a preliminary design by design teams in response to a design assignment submitted by industry. Written report with engineering drawings presented orally. *Prerequisites:* BIOE 2580 (or 034.258 or 034.214). Not to be held with the former 034.326.

BIOE 3590 Mechanics of Materials in Biosystems Cr.Hrs.4 BIOE 3590 Mechanics of Materials in Biosystems Cr.Hrs.4 (Formerly 034.359) In this course students will be exposed to both the theory and physical behaviour of materials when subjected to loads. The course will be delivered using a combination of lectures and hands-on labs. The materials presented include a wide range of design biosystems engineers may be involved with, including plastics, bone, wood, concrete, steel, other biological materials and composites. *Prerequisite:* CIVL 2800 (or 023.280), or consent of instructor. Not to be held with the former 034.324

BIOE 4240 Graduation Project Cr.Hrs.3 (Formerly 034.424) Either an independent or a directed study including at least one of: a comprehensive literature review, an experimental research project, or an engineering design problem. The project is to be concluded by a formal report or thesis. *Prerequisites:* BIOE 3580 (034.358) or approval of department. (Pass/Fail grade only).

BIOE 4340 Animal Production Environment Cr.Hrs.3 (Formerly 034.434) Aspects of temperature, humidity, light, space, manure and feed handling components of controlled environments for domestic animals.

BIOE 4390 Unit Operations 1 Cr.Hrs.4 (Formerly 034.439) Equipment and systems used in handling, mixing, size reduction, separation and size enlargement of value-added food products. *Prerequisites:* CIVL 2790 (or 023.279) or MECH 2260 (or

025.226), BIOE 3270 (or 034.327). Corequisites: BIOE 3320 (or 034.332 or 034.323), BIOE 3580 (or 034.358 or 034.326).

BIOE 4400 Unit Operations 2 Cr.Hrs.4 (Formerly 034.440) Physical and mechanical operations for process and equipment design for handling, processing, and distribution of foods and food products. *Prerequisites:* BIOE 2110 (or 034.211), BIOE 3320 (or 034.332 or 034.323). Not offered in 2005-2006.

BIOE 4412 Design of Light-Frame Building Systems Cr.Hrs.4 Light-frame buildings as a structural and environmental system; structural loads in building systems; energy (heat), moisture and air contaminants in building systems; built-environment for building occupants. Hands-on labs of constructing small-scale structures for students to gain an understanding of building construction techniques. *Prerequisites:* BIOE 2110 (034.211) and BIOE 3590 (034.359).

BIOE 4414 Imaging and Spectroscopy for Biosystems Cr.Hrs.4 The purpose of this course is to familiarize senior Biosystems Engineering students with the fundamentals of imaging and spectroscopy for biosystems. Techniques of image acquisition, storage, processing, and pattern recognition will be taught. Various spectroscopy techniques and their applicability to biological materials will be discussed. Analysis of data using statistical, artificial neural networks and chemometric methods will be covered. Offered in alternate years. *Prerequisite:* BIOE 3270 (034.327)

BIOE 4416 Topics in Biosystems Engineering Cr.Hrs.3 This course will cover contemporary topics in Biosystems Engineering. The specific topics and a detailed outline will be available at the time of registration. *Prerequisite:* Permission of the department.

BIOE 4420 Crop Preservation Cr.Hrs.4 (Formerly 034.442) Biological and physical deterioration during storage. Methods of preserving and storing cereals, oilseeds, and other agricultural crops. *Prerequisite:* BIOE 2110 (or 034.211). Not offered in 2005-2006.

BIOE 4450 Radiation Processing of Food and Other Agricultural Commodities Cr.Hrs.4 (Formerly 034.445) An introduction to the scientific principles underlying the radiation processing of food and other agricultural commodities; its development and implementation within the context of societal needs and concerns. *Prerequisites:* BIOE 2590 (or 034.259) or 071.201 or BIOL 1020 and BIOL 1030 or the former 071.125 (C) and CHEM 1300 (or 002.130) or the former 002.123 or 002.127. Not offered in 2005-2006.

BIOE 4460 Air Pollution Assessment and Management Cr.Hrs.4 (Formerly 034.446) Air pollutant sources and characteristics, their impact on the environment, their behaviour in the atmosphere. Methods of sampling and measurement and the basic technological alternatives available for separation/removal and control. Particular problems of regional interest are discussed. Corequisites: CIVL 2790 (or 023.279) or CIVL 3610 (023.361) or MECH 2260 (or 025.226). Not offered in 2005-2006.

BIOE 4480 Environmental Impact Assessment Cr.Hrs.4 (Formerly 034.448) Basic methodologies for conducting impact assessments, including physical, chemical and ecological impacts. *Prerequisites:* approval of department. Not offered in 2005-2006.

BIOE 4500 Water Management Cr.Hrs.3 (Formerly 034.450) Introduction to the design of irrigation and drainage systems. Topics in irrigation include sprinklers, laterals, mainline and pumps. Drainage topics cover both the surface and subsurface systems. Analysis of precipitation and runoff. Environmental impacts of water management.

BIOE 4510 Agricultural Waste Management Cr.Hrs.3 (Formerly 034.451) Characteristics of waste, design of systems for collection, storage and land application, alternate treatment/conversion systems, impacts on air, soil and water quality. *Prerequisite:* ANSC 3530 (035.353) or consent of instructor.

BIOE 4520 Crop Preservation and Handling Cr.Hrs.3 (Formerly 034.452) Interaction of biological and physical factors related to methods of preserving, storing, and handling cereals, oilseeds, and other agricultural crops.

BIOE 4530 Analysis and Design of Biomachinery Cr.Hrs.4 (Formerly 034.453) Design of machines for bioprocessing; traction mechanics and tractor chassis mechanics; power transmission components; functional requirements for field and process machines; fluid power hydraulics. *Prerequisite:* BIOE 3580 (or 034.358) or 034.326. Offered in 2005-2006 and alternate years after.

BIOE 4550 Cooperative Work Study 2 Cr.Hrs.1 (Formerly 034.455) Work assignment in business, industry, or government for Cooperative education students in Biosystems Engineering. Requires a written report covering the work completed during a minimum 25 week work period. Available from May to December. (Pass-Fail grade only)

BIOE 4560 Structural Design in Wood Cr.Hrs.4 (Formerly 034.456) Design using wood as a structural material in light-frame buildings. Consideration of design constraints associated with sawn lumber as well as based composite materials. Emphasis on use of computer based design aids. *Prerequisites:* CIVL 3770 (or 023.377) or BIOE 3590 (034.359) or 034.324.

BIOE 4580 Biosystems Engineering Design Trilogy 3 Cr.Hrs.4 (Formerly 034.458) Advanced design concepts, with emphasis on the principle of quality control. Application of project planning techniques. Principles of owning and operating an engineering consulting company. Preparation of a final design by design teams in response to a design assignment submitted by industry. Written report with cost of services rendered, presented orally. *Prerequisite:* BIOE 3580 (or 034.358) or 034.326. Not to be held with the former 034.413.

BIOE 4590 Management of By-Products from Animal Production Cr.Hrs.4 (Formerly 034.459) Topics covered include solid and liquid manure, manure characteristics, manure collection, storage, land application and utilization, biological treatment, design of equipment and facilities for manure handling. Environmental issues, such as odour and water pollution associated with manure management will also be discussed. *Prerequisites:* CIVL 2790 (or 023.279) or MECH 2260 (or 025.226). Offered

in 2005-2006 and alternate years after.

BIOE 4600 Design of Water Management Systems Cr.Hrs.4 (Formerly 034.460) To introduce the basic theoretical principles in the design of irrigation and drainage systems. Topics covered include the determination of irrigation depth and interval, evapotranspiration, measurement and analysis of precipitation, design of sprinkler and drip irrigation systems, selection of pumps, surface and subsurface drainage design, water quality issues, salinity management, and the environmental impact of water management practices. Corequisite: SOIL 4060 (or 040.406) or CIVL 3730 (or 023.373) or consent of instructor.

BIOE 4610 Design of Assistive Technology Devices Cr.Hrs.4 (Formerly 034.461) Application and design of technology for individuals with disabilities; emphasizing the development of the requisite knowledge, skills, and attitudes to evaluate, design, and implement client-centred assistive technology. A multi-disciplinary approach to learning and applying knowledge will be emphasized with engineering and medical rehabilitation students collaborating on a design project. *Prerequisite:* ZOO 1330 or 022.133.

BIOE 4620 Remediation Engineering Cr.Hrs.4 (Formerly 034.462) The theoretical basis for the engineering design of different remediation technologies to treat contaminated soil and groundwater will be introduced. Methods for site characterization, monitoring of progress in remediation, and modeling of the remediation process will be presented. Different methods such as soil washing, air sparging, bioremediation, phytoremediation, constructed wetlands, electrokinetic remediation, reactive barriers will be discussed. *Prerequisite:* CIVL 2790 (or 023.279) or MECH 2260 (or 025.226).

BIOE 4630 Pollution Prevention Practices Cr.Hrs.4 (Formerly 034.463) To give students an understanding of pollution prevention as it relates to solids and hazardous waste management, air and water pollution, energy usage, and resource depletion. To evaluate practices on improved manufacturing operations, present fundamentals of pollution prevention economics, examine waste minimization incentives, design improvements to existing systems, and investigate overall sustainability of industrial practices. *Prerequisite:* CIVL 2790 (or 023.279) or MECH 2260 (or 025.226).

BIOE 4640 Bioengineering Applications in Medicine Cr.Hrs.4 This course surveys bioengineering applications and medicine from a clinical engineering perspective. Topics include: clinical engineering practice; device development legislation; biomedical sensors; biosensors; biomaterials and biocompatibility; as well as the principles of and design for medical imaging equipment. *Prerequisites:* ZOO 1320 (022.132) and ZOO 1330 (022.133) and BIOE 3320 (034.332).

Head: Dr. Peter Rasmussen, P.Eng.

Associate Head: Dr. James Blatz, P.Eng.

The Department of Civil Engineering offers a fully accredited degree program in Civil Engineering. Graduates of the Civil Engineering program are academically qualified to register as Engineers-in-Training in engineering licensing bodies in Canada.

The Civil Engineering program is designed to give students a broad knowledge of engineering principles and professional practice. The program has a strong core component that provides exposure to a range of areas in Civil Engineering, including – but not limited to – the design of building and bridges, the design of facilities and methods for treatment of water, waste water and solid waste, the design of foundations and earthworks such as dams and river bank protection, transportation planning, the design of roads and pavement, the design of hydraulic structures such as sewers, canals, and spillways, and the management of surface and ground water. In the last years of the program, there are some opportunities for specialization through selection of technical elective courses.

A cooperative education option allows students to include practical work experience in their program.

Civil Engineering Degree Program

Students are to consult with the department for four and five-year program plans. Students are expected to follow the program plans when possible, as timetabling and course offerings are based on these plans.

Environmental Engineering Option

An option in Environmental Engineering provides an opportunity for students to focus on environmental engineering related courses.

Student Support

Summer employment for a limited number of undergraduate students may be offered by the Department of Civil Engineering. Typical duties include assisting academic staff members with their research projects.

Laboratory Safety

Students entering Civil Engineering are required to attend a seminar on laboratory safety. The seminar will normally be held in September.

Preliminary Engineering Program

Common to all Engineering programs. (See Section 5.2 for details.)

Civil Engineering Program and Environmental Engineering Option

Common Core Program

Course No.		Credit Hours
STAT 2220	Introduction to Probability and Statistics	3
GEOL 2250	Geology for Engineers	4
CHEM 2560	Water Quality Analysis	3
CIVL 2770	Civil Engineering Materials	5
CIVL 2780	Civil Engineering Systems	4
CIVL 2790	Fluid Mechanics	4
CIVL 2800	Solid Mechanics 1	4
CIVL 2830	Graphics for Civil Engineers	2
CIVL 2840	Civil Engineering Geomatics	3
CIVL 3590	Numerical Methods for Engineers	4
CIVL 3690	Environmental Engineering Analysis	4
CIVL 3700	Environmental Engineering Design	4
CIVL 3710	Finite Element Analysis	4
CIVL 3730	Geotechnical Materials and Analysis	4
CIVL 3740	Hydraulics	4
CIVL 3750	Hydrology	4
CIVL 3760	Structural Analysis	4
CIVL 3770	Structural Design 1	4
CIVL 3790	Transportation Engineering 1	4
CIVL 4050	Engineering Economics	3
CIVL 4220	Geotechnical Design	4
CIVL 4250	Groundwater Hydrology	4
CIVL 4380	Infrastructure Engineering and Construction Management	4
CIVL 4390	Structural Design 2	4
CIVL 4400	Transportation Engineering 2	4
CIVL 4460	Technology, Society and the Future	3
CIVL 4590	Design Project	6
ENG 2010	Technical Communications	3
MATH 2130	Engineering Mathematical Analysis 1	3
MATH 2132	Engineering Mathematical Analysis 2	3
xxxx xxxx	Civil Engineering; Complementary Studies Elective (see Note 2)	3
	Environmental Option:	
PHIL 2750	Environmental Ethics	3
	Plus 3 of the following technical electives (see Note 3)	
	Civil Engineering Technical Electives: (3)	
CIVL 4030	Structural Design 3	4
CIVL 4040	Structural Dynamics	4
CIVL 4100	Engineering Management and the Environment or	4
BIOE 4480	Environmental Impact Assessment	4
CIVL 4180	Environmental Systems	4
CIVL 4200	Groundwater Contamination	4
CIVL 4230	Geotechnical Engineering	4
CIVL 4330	Graduation Project	4
CIVL 4350	Hazardous Waste Treatment	4
CIVL 4410	Transportation Systems	4
CIVL 4420	Highway Pavement Design	4
CIVL 4470	Watershed Processes	4
BIOE 4412	Design of Light Frame Bldg.	4
BIOE 4560	Structural Design in Wood	4
	Environmental Option Technical Electives: (3)	
CIVL 4100	Engineering Management and the Environment or	4
BIOE 4480	Environmental Impact Assessment	4
SOIL 4090	Chemical Analysis of Soils	3
SOIL 4500	Remediation of Contaminated Land	3
CIVL 4180	Environmental Systems	4
CIVL 4200	Groundwater Contamination	4
CIVL 4330	Graduation Project	4

CIVL 4350	Hazardous Waste Treatment	4
CIVL 4470	Watershed Processes	4
BIOE 4460	Air Pollution Assessment and Management	4

1) Students are required to take any course from the Faculty of Arts or Faculty of Management, at the 1000 level or above, as a complementary studies elective. However, ARTS 1110 Introduction to University may not be used for credit in the Faculty of Engineering.

2) Students may take one technical elective course with a significant engineering science and/or design component from another department, subject to the approval by the head (or designate) of Civil Engineering.

Co-operative Education Option in Civil Engineering

The Department of Civil Engineering offers a co-operative education option that provides a combination of education and experience by alternating academic terms with work terms.

Students generally apply for the co-op program in their fourth term of engineering studies. Entry into the program is competitive. Acceptance is based on GPA and general aptitude, and is contingent upon receiving a work term placement through the co-op office. The Department of Civil Engineering reserves the right to determine and select the best-qualified applicants. Students who are unable to maintain the standards of the co-op program will be transferred back into the regular program.

The course and grade requirements for completion of the Co-operative Education Option are the same as those required for the regular program. However, in order to satisfy course prerequisite requirements, timetables may differ from the regular program. Co-op students are evaluated in the same manner as regular students and all rules and regulations of the Faculty of Engineering apply.

Written reports must be completed at the end of each work term. Each successfully completed work term and its corresponding work term report receives a grade. Co-op graduates with a passing grade in at least three work terms will have the Co-operative Education Option acknowledged on their B.Sc. (C.E.) graduation parchment.

5.7 Civil Engineering Course Descriptions

CIVL 2770 Civil Engineering Materials Cr.Hrs.5 (Formerly 023.277) Principles of testing; testing standards; instrumentation: data acquisition systems; mechanical properties of steel, iron, cement, concrete, asphalt, wood and composites; classification and particle size analysis of soils and aggregates. *Prerequisite* ENG 1440 (or 130.144). *Corequisite*: CIVL 2800 (or 023.280).

CIVL 2780 Civil Engineering Systems Cr.Hrs.4 (Formerly 023.278) Introduction to applied systems analysis approach. Use of applied systems analysis in Civil Engineering. Optimization techniques: linear programming; dynamic programming; other techniques. Evaluation: decision analysis. *Prerequisite*: (MATH 1710 (or 136.171) or MATH 1700 (or 136.170)) (C)

CIVL 2790 Fluid Mechanics Cr.Hrs.4 (Formerly 023.279) Definition of fluid; fluid properties: variation of pressure in a fluid; hydrostatic forces; buoyancy; kinematics of flow; control volumes; continuity; Bernoulli's equation; momentum equation; energy equation; flow in closed conduits; open channel flow. *Prerequisite*: ENG 1440 (or 130.144).

CIVL 2800 Solid Mechanics 1 Cr.Hrs.4 (Formerly 023.280) Analysis of deformable bodies; stress and strain in three dimensions; equilibrium equations and strain-displacement relations; constitutive relations and mechanical behaviour of materials; radially symmetric and plane problems in elasticity; relevant experimental demonstrations. *Prerequisite*: ENG 1440 (or 130.144).

CIVL 2830 Graphics for Civil Engineers Cr.Hrs.2 Orthographic Drawing: Object Orientation and Views, Space Dimensions, Surfaces, Lines, and Hidden Features. Computer-based Drawings. Applications: Steel and Reinforced Concrete Structures, Digital Terrain Models. Ethical, Legal and Professional Issues. Not to be held with the former 130.140. *Co-requisite*: CIVL 2840 Civil Engineering Geomatics.

CIVL 2840 Civil Engineering Geomatics Cr.Hrs.3 Geomatics in civil engineering, map-making, map-reading, computerized maps; leveling; distance measurement angles, directions, traverses; coordinate geometry; electronic survey instruments; global positioning system; geographic information systems; digital photogrammetric methods and data; aspects of route surveying. Not to be held with the former 023.281 or 023.282 or CIVL 2820. *Pre or Co-requisite*: MATH 1210 (C), *Co-requisite*: CIVL 2830 Graphics for Civil Engineers.

CIVL 2900 Co-op Work Term 1 Cr.Hrs.1 Work assignment in business, industry, or government for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail Grade) May not be held with CIVL 3560.

CIVL 3570 Engineering Cooperative Education Assignment 2 Cr.Hrs.1 (Formerly 023.357) See CIVL 3560 (or 023.356) for course description.

CIVL 3590 Numerical Methods in Engineering Analysis Cr.Hrs.4 (Formerly 023.359) Variety of numerical techniques applicable to solutions of problems in civil engineering. Students may not hold credit for CIVL 3590 (023.359) and MATH 2120 (or 136.212). *Prerequisite*: COMP 1010 (or 074.101) (C). *Pre or Co-requisite*: MATH 2132, MATH 2100 (or 136.210)

CIVL 3690 Environmental Engineering Analysis Cr.Hrs.4 (Formerly 023.369) Intro-

duction to environmental engineering analysis concept; risk assessment; colloidal dispersions; mass balances, reaction kinetics and reactor design principles. Water pollution and water quality in rivers and lakes. Physical, chemical and biological unit operations and processes applied in water and/or wastewater treatment. Meteorology and air pollution; atmospheric dispersion. Solid waste management issues. *Prerequisites:* (CHEM 2560 (C) or CIVL 2760 (or 023.276) (C)), STAT 2220 (or 005.222) (C)

CIVL 3700 Environmental Engineering Design Cr.Hrs.4 (Formerly 023.370) Design principles are developed for water, solid/soil and air pollution control. Application of the principles in design projects which may include surface and groundwater remediation, solid waste management, landfilling, soil remediation and site assessment; municipal and industrial wastewater treatment; odour and air pollution abatement facilities. *Prerequisite:* CIVL 3690 (or 023.369).

CIVL 3710 Finite Element Analysis Cr.Hrs.4 (Formerly 023.371) One-dimensional analysis of fluid flow, seepage and heat transfer; truss, beam and frame elements; two-dimensional problems; isoparametric elements and Gauss quadrature; time-dependent problems, diffusion, consolidation, and time integration methods; introduction to commercial packages; solution of problems in civil engineering (seepage, dams, pavements). *Prerequisites:* CIVL 2790 (or 023.279) (C), CIVL 2800 (or 023.280) (C), CIVL 3590 (or 23.359) (C)

CIVL 3730 Geotechnical Materials and Analysis Cr.Hrs.4 (Formerly 023.373) Geotechnical Materials and Analysis (3-1.5T:0-0) 4 Soil and rock properties: laboratory and field techniques; in situ states of stress and consolidations; constitutive models; stress beneath loaded areas and around tunnels; analysis of simple retaining structures and slopes; stability and settlement of shallow and deep foundations in soil and rock. *Prerequisites:* GEOL 2250 (or 007.225), CIVL 2770 (23.277), CIVL 2800 (or 023.280).

CIVL 3740 Hydraulics Cr.Hrs.4 (Formerly 023.374) Hydraulics of uniform and gradually varied flow; backwater computation and classification of surface water profiles; hydraulics jumps, spillways, and stilling basins; flow over weirs; hydraulic models; theory of turbo-machinery. *Prerequisite:* CIVL 2790 (or 023.279).

CIVL 3750 Hydrology Cr.Hrs.4 (Formerly 023.375) Basic hydrological processes; precipitation; evapotranspiration; infiltration and runoff; analytical methods; hydrograph theory and application; application to reservoir design; project floods and flow forecasting; statistical analysis. *Prerequisite or corequisite:* STAT 2220 (or 005.222).

CIVL 3760 Structural Analysis Cr.Hrs.4 (Formerly 023.376) Different structural forms and load distribution, analysis of cables; statically determinate curved, beams and frames; influence lines; energy methods and deflections of structures; flexibility and stiffness methods; computer-aided structural analysis; introduction to structural dynamics. *Prerequisite:* CIVL 2800 (or 023.280).

CIVL 3770 Structural Design 1 Cr.Hrs.4 (Formerly 023.377) Introduction to design of steel structures; loading, structural configurations; design of simple members and connections; building code requirements. *Prerequisites:* CIVL 2770 (or 023.277) (C), CIVL 3760 (or 23.376) (C).

CIVL 3790 Transportation Engineering 1 Cr.Hrs.4 (Formerly 023.379) Introduction to transportation. Overview of Canada and U.S. transport systems. Fundamentals of transport systems analysis. Introduction to sequential demand modeling. Analysis and evaluation of uninterrupted flow on highways. Basics of geometric design of highways. Basics of design of at-grade intersections. Introduction to computer applications in transportation engineering. Basics of pavement engineering and design. *Prerequisites:* CIVL 2820 (or 023.282) or CIVL 2840, CIVL 2770 (or 023.277), CIVL 2780 (or 023.278), STAT 2220 (or 005.222).

CIVL 3910 Co-Op Work Term 2 Cr.Hrs.1 Work assignment in business, industry, or government for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment. *Prerequisite:* CIVL 2900. (Pass/Fail Grade). May not be held with CIVL 3570.

CIVL 4030 Structural Design 3 Cr.Hrs.4 (Formerly 023.403) Prestressed concrete structures; fibre-reinforced concrete structures; bridge loading, analysis and design in steel and concrete; special topics in structural engineering. *Corequisite:* CIVL 2770 (or 23.277), CIVL 2800 (or 23.280), CIVL 3760 (or 23.376), CIVL 3770 (23.377), CIVL 4390 (or 023.439).

CIVL 4040 Structural Dynamics Cr.Hrs.4 (Formerly 023.404) Dynamic loads in civil engineering; overview of structural dynamics; single-degree-of-freedom systems; free-vibration, harmonic, periodic and impulsive loads; multi-degree-of-freedom systems; distributed systems; beam vibrations; steady-state vibrations of foundations; introduction to earthquake engineering; elastic waves in soils, response and design spectrums; wind vibrations. *Prerequisite:* CIVL 3760 (or 023.376).

CIVL 4050 Engineering Economics Cr.Hrs.3 (Formerly 023.405) Introduction to engineering economics. Time value of money and discounted cash flow calculations. Comparing alternatives. Replacement analysis and life-cycle costing. Public sector engineering economy studies. Private sector engineering economy studies. Before and after-tax analysis. Applications in cost-estimating. Applications in asset management systems. Basic accounting. Accommodating capital limitations. Dealing with inflation. Dealing with risk and uncertainty. *Prerequisite:* STAT 2220 (or 005.222).

CIVL 4100 Engineering Management and the Environment Cr.Hrs.4 (Formerly 023.410) Teams of students apply environmental management techniques, such as: impact assessment, site assessment, and auditing to selected engineering construction projects and operations; several oral and written reports are required. *Corequisite:* CIVL 3700 (or 023.370).

CIVL 4180 Environmental Systems Cr.Hrs.4 (Formerly 023.418) Development of a river water quality model; waste allocation modelling; modelling of the sites selection process; analysis of environmental impact using technical and non-technical (i.e. sociological, ethical, aesthetic) parameters. *Prerequisites:* CIVL 2780 (or 023.278), CIVL 3690 (or 023.369), CIVL 3750 (or 023.375).

CIVL 4200 Groundwater Contamination Cr.Hrs.4 (Formerly 023.420) Introduction to the principles of groundwater chemistry; chemical evolution of natural groundwater flow systems; sources of contamination; mass transport processes; hydrochemical behaviour of contaminants; nuclear waste disposal; non-aqueous phase organics; aquifer remediation. *Prerequisites:* CIVL 4250 (or 023.425), GEOL 2250 (or 007.225).

CIVL 4210 Engineering Cooperative Education Assignment 5 Cr.Hrs.1 (Formerly 023.421) See CIVL 3560 (or 023.356) for course description.

CIVL 4220 Geotechnical Design Cr.Hrs.4 (Formerly 023.422) Site characterization; design and construction of surface footings, deep foundations, tunnels, earth and rock support systems; design and remediation of slopes; frozen soils and foundation design; geosynthetics and geofabrics in geotechnical construction; reinforced earth; geoenvironmental issues; tailing dams, clean-up, and remediation. *Prerequisite:* CIVL 3730 (or 023.373).

CIVL 4230 Geotechnical Engineering Cr.Hrs.4 (Formerly 023.423) Case-history approach to geotechnical engineering practice from civil and mining engineering; relationship between predicted and observed behaviour; surface and shallow footings; propped walls and bulkheads; rock and soft ground tunneling; deep foundations; rock and soil slopes; culverts; geoenvironmental problems. *Prerequisite:* CIVL 3730 (or 023.373).

CIVL 4250 Groundwater Hydrology Cr.Hrs.4 (Formerly 023.425) Introduction to theory of groundwater flow; flow nets; regional groundwater flow; well hydraulics; role of groundwater in geologic and engineering processes; multiphase flow. *Prerequisites:* GEOL 2250 (or 007.225), CIVL 2790 (or 23.279), MATH 2130 (or MATH 2110), MATH 2132 (or MATH 2100).

CIVL 4330 Graduation Project Cr.Hrs.4 (Formerly 023.433) The student will undertake an original study involving engineering design, procedure, or experimental investigation that emphasizes the student's initiative and judgement. The student must demonstrate an ability to plan, conduct and formally report on the study by written thesis and oral presentation. *Prerequisite:* Completion of 120 credit hours, ENG 2010 (or 130.201).

CIVL 4350 Hazardous Waste Treatment Cr.Hrs.4 (Formerly 023.435) Sources and classification of hazardous and industrial wastes. Overview of the waste management problem. Theory and applications of various physical, chemical, and thermal, waste treatment processes. Waste elimination options and strategies. *Prerequisite:* CIVL 3690 (or 023.369).

CIVL 4380 Infrastructure Engineering and Construction Management Cr.Hrs.4 (Formerly 023.438) Infrastructure engineering; drainage systems, maintenance engineering and management. Construction and project management; workplace health and safety, construction site field trips, construction equipment, temporary facilities, project management. Elements of law for civil engineers. *Prerequisites:* CIVL 4050 (or 023.405).

CIVL 4390 Structural Design 2 Cr.Hrs.4 (Formerly 023.439) Design in reinforced concrete; properties of materials; ultimate strength design; analysis and design of sections in bending; shear and development considerations; short- and long-term deflection; sections subjected to bending and axial stresses; design of simple floor systems; column footings. *Prerequisite:* CIVL 2770 (or 023.277), CIVL 2800 (or 023.280), CIVL 3760 (or 023.376), CIVL 3770 (or 023.377).

CIVL 4400 Transportation Engineering 2 Cr.Hrs.4 (Formerly 023.440) Fundamentals of traffic control for highways. Capacity and level of service analysis on urban streets. Urban supplement to geometric design guide for Canadian roads. Modelling vehicle performance. Elements of railway engineering. Design for trucks. Transportation systems management. Application of intelligent transportation systems. Basic pavement design methods. Introduction to pavement management systems. Highway accidents and design for safety. Legislative and policy framework for transportation engineering. *Prerequisite:* CIVL 3790 (or 023.379).

CIVL 4410 Transportation Systems Cr.Hrs.4 (Formerly 023.441) Contemporary approaches to transportation planning. Data for transportation planning. Advanced demand analysis and modelling. Illustrative transport planning studies. Planning and design for public passenger transportation. Planning and design for barrier-free transportation and transport of disabled persons. Goods movement and trucking studies. Planning and design for motor carrier operations. Planning and design for grain handling and transportation. Transport planning in developing countries. Evaluating transport plans and projects. Transport and the environment. Transport and energy. Vehicle operating costs and engineering unit cost models. *Prerequisite:* CIVL 3790 (or 023.379).

CIVL 4420 Highway Pavement Design Cr.Hrs.4 (Formerly 023.442) Soil classification and properties; soil-moisture-density-strength relationships; earthwork operations and specifications; soil stabilization; granular bases; surface drainage; structural design of flexible and rigid pavements. *Prerequisites:* CIVL 2770 (or 023.277), CIVL 3790 (or 023.379).

CIVL 4460 Technology, Society, and the Future Cr.Hrs.3 (Formerly 023.446) Impact of technology and technological change on society - past, present, future; specific technologies, e.g. construction, machine power, computers, communications, medical, military; the process of technological change; invisible effects of technology; technology and resource use; sustainable development, limits to growth and the role of technology. *Prerequisite:* ENGL 1310 (or 004.131) or ENGL 1320 (or 004.132).

CIVL 4470 Watershed Processes Cr.Hrs.4 (Formerly 023.447) Rainfall-runoff processes, flood routing; characteristics and mechanics of flow in (natural) channels; computer modelling of watershed hydrology and hydraulics; influence of man-made structures; river morphology, sediment transport prediction, design of a stable channel; river ice processes. *Prerequisites:* CIVL 3750 (or 023.375), (or 023.375), Pre or co-requisite: CIVL 3740 (or 23.374).

CIVL 4590 Design Project Cr.Hrs.6 (Formerly 023.459) An interdisciplinary project-based course involving engineering design, teamwork and delivered in studio format.

Students are expected to work in pre-assigned teams under the guidance of professional engineers on a pre-determined project. Lecture material will cover project management, construction, environmental and economic issues. Each team will be required to give an oral presentation of their design project. *Prerequisite:* CIVL 3770 (or 023.377), CIVL 3700 (or 023.370) and ENG 2010 (or 130.201).

CIVL 4900 Engineering Cooperative Education Assignment 3 Cr.Hrs.1 (Formerly 023.490) See CIVL 3560 (or 023.356) for course description.

CIVL 4910 Engineering Cooperative Education Assignment 4 Cr.Hrs.1 (Formerly 023.491) See CIVL 3560 (or 023.356) for course description.

CIVL 4920 Co-op Work Term 3 Cr.Hrs.1 Work assignment in business, industry, or government for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment. *Prerequisite:* CIVL 3910 (Pass/Fail Grade). May not be held with CIVL 4900.

CIVL 4930 Co-op Work Term 4 Cr.Hrs.1 Work assignment in business, industry, or government for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment. *Prerequisite:* CIVL 4920 (Pass/Fail grade). May not be held with CIVL 4910.

CIVL 4940 Co-op Work Term 5 Cr.Hrs.1 Work assignment in business, industry, or government for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment. *Prerequisite:* CIVL 4930 (Pass/Fail Grade). May not be held with CIVL 4210.

Head: Dr. U. Annakkage, P.Eng.

Associate Head (Computer Engineering): Dr. W. Kinsner, P.Eng.

Associate Head (Electrical Engineering): Dr. C. Shafai, P.Eng.

The Department of Electrical and Computer Engineering offers two fully accredited degree programs, one in Electrical Engineering and one in Computer Engineering. Both programs may include an industry internship. The programs are designed to give students knowledge of the basic principles of engineering and, in particular, an adequate training and education in the fundamentals and professional applications of Electrical and Computer Engineering. It is recommended that students entering Electrical or Computer Engineering acquire their own computer.

Industry Internship Program (IIP)

Director: Dr. R. McLeod, P.Eng.

Coordinator: J. Morissette

The Department of Electrical and Computer Engineering offers an Industry Internship Program. This program is designed to complement and enrich the academic program with practical work experience. Preceding the final year, a student in either the Electrical Engineering or the Computer Engineering program has the option of spending a continuous work term period of 12 to 16 months in industry. This work term provides the student with practical experience, helps to finance the student's education, and provides guidance for further career specialization.

A student in good academic standing, who will have completed 120 credit hours of the academic program by the end of the session, may apply to participate in the Industry Internship Program. Acceptance in ECE 4720 Industry Internship is dependent upon the student receiving job placement.

Satisfactory work reports, which will be evaluated by faculty members in the Department of Electrical and Computer Engineering, are required upon returning in order to have this participation recorded in the student's transcript.

Second Degree in Electrical or Computer Engineering

Requirements include:

1. The completion of all deficient third and lower year courses required for the second degree. If a student has already taken any of these courses as fourth year electives towards the first degree, then they will not have to repeat or replace the courses already taken.

2. The equivalent of a full fourth year program required for the second degree, i.e., twelve half courses. This must include:

i) A second thesis on a different topic relating to the field of the second degree

ii) All the fourth year course requirements of the second degree. If a student has already taken one or more of the required fourth year courses during

their first degree, then they must replace these courses by other appropriate fourth year courses as approved by the Department Head. For example, core courses common to both programs must be replaced by fourth year electives from the Department.

Electrical Engineering Degree Program

The program in Electrical Engineering has a core-plus-elective structure. The core develops the necessary base in mathematics, the physical sciences, dynamics, thermodynamics, electric fields and circuits, and fundamental professional courses focused on energy conversion and transmission, electronics, materials and devices, communications, and control systems. The final year includes a capstone group design project, control systems, and communication systems as core requirements, with the remaining program based on electives. A certain level of specialization is possible through the selection of elective courses offered in the final year.

The student's program must include a three credit hour complementary studies elective. Courses in engineering economics, technical writing, and ecology, technology and society are compulsory.

Students are encouraged to consult with the department for model four- and five-year programs. Students are strongly encouraged to follow the model programs when possible, as timetabling and course offerings are based on these.

Preliminary Engineering Program

Common to all Engineering programs. (See Section 5.2 for details.)

Complementary Studies Elective (1 required) (see Note 2)		
Total credits for Graduation		163

NOTES:

1. Course continuing through both terms. Credit on completion of course.
2. The complementary studies elective can be any course at the 100 level or above from either the faculties of Arts or Management. However, ARTS1110 (formerly 099.111) Introduction to University, may not be used for credit in the Faculty of Engineering.
3. The Department of Electrical and Computer Engineering does not guarantee that all elective courses will be offered every session or that it will be possible to fit courses into all of the many possible timetable combinations of students taking the programs. The term in which an elective course is offered is specified each year in the *Registration Guide*.
4. There may be a maximum limit set on the number of students allowed to take a particular elective in a session. Similarly, there may be a minimum limit and if registration is below the minimum, the elective will be cancelled and those registered will be required to transfer to another elective before the deadline date for course changes.
5. Students are urged to discuss their program of courses with members of the instructional staff toward the end of their third year to obtain advice concerning the best choice of electives for their needs.
6. A certificate in Cardiopulmonary Resuscitation (CPR) is required as a prerequisite for this course. The three hour course is available through Occupational Health and Safety; telephone (204) 474 6438.
7. Requires permission of the Department.
8. The elective course is to be chosen from a list of courses approved by the department.

Computer Engineering Degree Program

The program in Computer Engineering has a core-plus-elective structure. The core develops the necessary base in mathematics, physical sciences, computer science, circuits and systems, fundamental professional courses such as digital logic, discrete mathematics, electronics, microprocessors, microcontrollers, interfacing, data communications, embedded systems, operating systems, software engineering, and compiler design. The final year core includes the capstone group design project.

Some specialization is possible in either the software or the hardware area through the selection of technical electives in the final year.

The student's program must include a specified number of complementary studies electives. Courses in engineering economics, technical writing, and ecology, technology and society, are compulsory.

Students are encouraged to consult with the department for model four- and five-year programs. Students are strongly encouraged to follow the model programs when possible, as timetabling and course offerings are based on these.

5.9 Electrical and Computer Engineering Course Descriptions

ECE 2130 Electric Fields Cr.Hrs.4 (Formerly 024.213) Fundamental laws of field theory; Maxwell's equations in integral and point form. Corequisite: MATH 3132 or MATH 3100 or 136.310 or 006.360.

ECE 2160 Electronics 2E Cr.Hrs.5 (Formerly 024.216) Characteristics of integrated

circuits and transistors; design of DC and AC amplifiers in the steady state. *Prerequisite:* ECE 2262.

ECE 2220 Digital Logic Systems Cr.Hrs.5 (Formerly 024.222) Boolean algebra and logic primitives, net-work simplification techniques, physical realizations, number systems and codes; analysis and design of asynchronous and synchronous sequential circuits; applications to computation, measurements, and control. *Prerequisite* ENG 1450

ECE 2240 Numerical Methods for Electrical Engineers Cr.Hrs.4 Numerical methods applied to Electrical Engineering problems; mathematical models of physical systems, solutions of linear and non-linear equations, numerical differentiation and integration methods and associated errors, introduction to solution analysis. May not be held with MATH 2120. *Prerequisites* ECE 2262, COMP 1010, MATH 2132

ECE 2262 Electric Circuits Cr.Hrs.4 The application of circuit concepts; network theorems and formal methods, steady state analysis, frequency and transient response, application of the Laplace transform in the analysis of linear time-invariant networks. *Prerequisite:* [ENG 1450 (or 130.118). Pre- or corequisite: MATH 2132 or [MATH 2100 or 136.210 and MATH 2110 or 136.211].

ECE 3010 Elements of Electric Machines and Digital Systems Cr.Hrs.4 Introduction to elementary concepts in ac circuits, electric machines, and digital sub-systems. Topics include electrical impedance, capacitors, inductors, electric motors, logic gates, decoders, multiplexing, flip flops, registers, microprocessor structures, I/O and data acquisition. Not available to students in Electrical or Computer Engineering. *Prerequisite* ENG 1450, MATH 2132.

ECE 3530 Network Theory Cr.Hrs.4 (Formerly 024.353) Application of the Laplace Transform in the analysis of linear time-invariant networks, poles, zeros and frequency response; natural frequencies; general network theorems; two ports; energy and passivity. *Prerequisite:* ECE 2260 (or 024.226), corequisite: MATH 3110 (or 136.311).

ECE 3540 Advanced Circuit Analysis and Design Cr.Hrs.4 Application of the Laplace Transform in the analysis of linear time-invariant networks, poles, zeros and frequency response; natural frequencies; general network theorems; two ports; energy and passivity; transmission lines; time and frequency domain. *Prerequisite:* ECE 2262 (or ECE 2260) and MATH 3132 (or MATH 3100 or 136.310).

ECE 3580 Foundations of Electromagnetics Cr.Hrs.4 (Formerly ECE 2130) Fundamental laws of field theory; Maxwell's equations in integral and point form. *Prerequisite:* PHYS 2152, MATH 3132 (or MATH 3100)

ECE 3590 Electromagnetic Theory Cr.Hrs.4 (Formerly 024.359) Electrostatics; magnetostatics, Maxwell's equations and time-varying electromagnetic fields; polarization, boundary value problems; reflection and refraction; Poynting vector. *Prerequisite:* ECE 2130 (or 024.213).

ECE 3600 Physical Electronics Cr.Hrs.4 (Formerly 024.360) Basic solid state theory; properties of semi-conductors; principles of metal-semiconductor junctions, p-n junctions and transistors; optoelectronic processes. *Prerequisites:* PHYS 2152 or (PHYS 1070 or 016.107) and MATH 3132 or (MATH 3100 or 136.310), and ECE 3670 (or 024.367).

ECE 3610 Microprocessing Systems Cr.Hrs.4 (Formerly 024.361) Fundamentals of microprocessors and microcomputers; data flow; machine programming; architectures and instructions sets; stacks, subroutines, I/O, and interrupts; interfacing fundamentals; designing with microprocessors. *Prerequisite:* ECE 2220 (or 024.222).

ECE 3650 Electric Machines Cr.Hrs.5 (Formerly 024.365) Continuation of ECE 3720 (or 024.372), including steady state and transient performance and introductory power systems theory. *Prerequisite:* ECE 3720 (or 024.372) and a certificate in CPR.

ECE 3670 Electronics 3E Cr.Hrs.4 (Formerly 024.367) Continuation of ECE 2160 (or 024.216), including device models, feedback, regulators, frequency effects, oscillators, and bistability and gates. *Prerequisite:* ECE 2160 (or 024.216).

ECE 3680 Introduction to Digital Systems Cr.Hrs.4 (Formerly 024.368) Numeric systems and computer arithmetic. Digital logic, gates, flip flops and tristate devices. Sequential and combinational circuits. Decoders, encoders and multiplexing. Microprocessor structures. Introduction to I/O devices and data acquisition. Not to be held with ECE 3610 (or 024.361). *Prerequisite:* ENG 1180 (or 130.118).

ECE 3690 Engineering Law, the Environment and Society Cr.Hrs.3 (Formerly 024.369) Engineering law: public responsibility and liability of the Professional Engineer; patents, copyrights, trademarks, designs, contracts; environment ethics: energy choices, depleting resources and growth of demand.

ECE 3700 Telecommunication Network Engineering Cr.Hrs.4 (Formerly 024.370) This course will introduce modem concepts in telecommunications, including LANs, WANs, telephone networks, wireless and mobile networks, and Internet networks. Focus will be on design engineering, and management of networks, and on network programming for client server architectures. *Prerequisite:* COMP 2140 (or 074.214).

ECE 3710 Design of Engineering Software Cr.Hrs.4 (Formerly 024.371) This course will introduce various practical tools and techniques for developing engineering software. Topics to be covered include: Object oriented analysis and design, data structures, network programming, graphical user interfaces, and software engineering. *Prerequisite:* COMP 1010 (or 074.101).

ECE 3720 Electric Power and Machines Cr.Hrs.4 (Formerly 024.372) Principles and applications of electric power, energy conversion and machines. *Prerequisite:* ECE 2262 or ENG 1180 (or 130.118).

ECE 3740 Systems Engineering Principles 1 Cr.Hrs.4 (Formerly 024.374) Complexity and other system measures and analysis, system architectures and architectural elements for embedded systems, hardware and software, incremental design elaboration. Coding, testing, debugging, verification and validation. Project planning, cost analysis and maintenance. Real-time systems, graphical user interfaces and computational models. *Prerequisite:* COMP 2140 (or 074.214).

ECE 3750 Systems Engineering Principles 2 Cr.Hrs.4 (Formerly 024.375) Reliability

measures and analysis, software system architectures, system metrics, system verification for embedded systems. Coding practices for large scale embedded system development. Real-time systems, graphical user interfaces, and computational models. *Prerequisite:* ECE 3740 (or 024.374)

ECE 3760 Digital Systems Design 1 Cr.Hrs.4 (Formerly 024.376) Register-transfer and control-sequence design using a hardware description language. Design of finite-state machines with data path definitions and algorithms and algorithmic state machine charts. Hard-ware-software co-design. *Prerequisite:* ECE 4240 (or 024.424).

ECE 3770 Digital Systems Design 2 Cr.Hrs.4 (Formerly 024.377) Executable system specification and a methodology for system partitioning and refinement into system-level components. Models and architectures, specification languages, translation to an HDL, system partitioning, design quality estimation, specification refinement into synthesizable models. *Prerequisite:* ECE 4240 (or 024.424) and MATH 3120 (or 136.312).

ECE 3780 Signal Processing 1 Cr.Hrs.4 (Formerly 024.378) Introduction to signals and systems; spectral analysis (Fourier Series) of continuous-time periodic signals; spectral analysis of aperiodic signals (Fourier Transform); the impulse response and convolution operator; frequency analysis of linear time-invariant systems; applications to filtering, communications systems, and biological systems; A/D conversion; sampling. Laboratory periods will be used to give students hands-on experience in programming many of the techniques covered in the theoretical parts of the course. *Prerequisites:* ECE 2262 or ECE 2260 (or 024.226) and MATH 3132 or MATH 3100 (or 136.310).

ECE 3790 Engineering Algorithms Cr.Hrs.4 (Formerly 024.379) Numerical algorithms, optimization, statistical description of data random number generation, string processing, geometric algorithms, algorithm machines, dynamic programming and NP complete problems. *Prerequisite:* COMP 2140 (or 074.214). Pre- or Corequisite: MATH 3132 or MATH 3100 (or 136.310). May not be held with the former 24.451.

ECE 4100 Introduction to Microelectronic Fabrication Cr.Hrs.4 Introduction to the fabrication of integrated circuits (ICs). Emphasis is on silicon based devices. Topics include water preparation, oxidation, thin film deposition, diffusion and ion implantation, lithography, wet and dry etching and metallization. An introduction to MEMS and micromachining technology is given. *Prerequisite:* ECE 3670 (or 24.367).

ECE 4140 Power Transmission Lines; Field Effects and Insulation Coordination Cr.Hrs.4 (Formerly 024.414) AC and DC transmission line corona and its environmental effects. Electric field calculations; design methods to reduce electric field. Electrostatic and electromagnetic effects. Insulation design for power frequency, switching and lightning induced surges. Insulation coordination - conventional and probabilistic methods. Power apparatus testing - criteria and significance. *Prerequisite:* ECE 3720 (or 024.372).

ECE 4150 Control Systems Cr.Hrs.4 (Formerly 024.415) Principal methods of analysis and design for feedback control systems. *Prerequisite:* ECE 3780 (or 024.378) or 024.358.

ECE 4160 Control Engineering Cr.Hrs.4 (Formerly 024.416) Design of control systems by frequency domain and root locus method; state equations; introduction to nonlinear analysis. *Prerequisite:* ECE 4150 (or 024.415).

ECE 4190 Solid State Electronics Cr.Hrs.4 (Formerly 024.419) Microelectronic fabrication principles. Bipolar and FET structures: discrete devices and integrated LSI logic and memory cells. Lasers, LEDs, displays, optical and infrared photodetectors, photovoltaic solar cells, magnetic bubbles. Introduction to VLSI systems. *Prerequisite:* ECE 3670 (or 024.367).

ECE 4200 Electric Filter Design Cr.Hrs.4 (Formerly 024.420) Realizability theory, approximation of filtering characteristics, ladder networks and transmission zeros, active RC filter design with regard to sensitivity minimization, phase-shifting and time-delay filters, impulse response of filters, rudiments of digital filters. *Prerequisite:* ECE 3530 (or 024.353).

ECE 4240 Microprocessor Interfacing Cr.Hrs.4 (Formerly 024.424) Interfacing of microcomputers to the external world: interfacing of I/O devices with minimum hardware and software; data acquisition with and without microprocessors; data communication, transmission and logging with small computers. *Prerequisite:* ECE 2160 (or 024.216) and ECE 3610 (or 024.361).

ECE 4250 Digital Communications Cr.Hrs.4 (Formerly 024.425) Transmission of digital data; error rates, interference. Information measures, information rate and channel capacity. Coding. *Prerequisite:* ECE 4260 (or 024.426) and ECE 4830 (or 024.483) or 024.373.

ECE 4260 Communications Systems Cr.Hrs.4 (Formerly 024.426) Development and applications of random processes. Analysis and comparison of modulation schemes: AM, FM, PM, PCM. *Prerequisites:* ECE 3780 (or 024.378) and STAT 2220 (or 005.222).

ECE 4270 Antennas Cr.Hrs.4 (Formerly 024.427) Radiation fundamentals, linear antennas, point source arrays, aperture antennas, antenna impedance, antenna systems. *Prerequisite:* ECE 3590 (or 024.359).

ECE 4280 Engineering Electromagnetics Cr.Hrs.4 (Formerly 024.428) Plane, cylindrical and spherical waves, introduction to scattering and diffraction, waveguides, transmission line applications. *Prerequisite:* ECE 3590 (or 024.359).

ECE 4290 Microwave Engineering Cr.Hrs.4 (Formerly 024.429) Microwave circuit analysis; passive and active devices; communication system power budget and signal-to-noise ratio calculations. *Prerequisite:* ECE 3590 (or 024.359).

ECE 4300 Electrical Energy Systems 1 Cr.Hrs.4 (Formerly 024.430) Power system component modelling and computational methods for system problems such as load flow, faults, and stability. *Prerequisite:* ECE 3650 (or 024.365).

ECE 4310 Electrical Energy Systems 2 Cr.Hrs.4 (Formerly 024.431) Generating stations. Power system stability and optimal operation. EHV-ac and HVDC power trans-

mission. Power system protective relaying and reliability evaluation. *Prerequisite:* ECE 4300 (or 024.430).

ECE 4370 Power Electronics Cr.Hrs.4 (Formerly 024.437) Thyristor device theory and operation, controlled rectifiers and line-commutated inverters, and forced commutation as applied to d/c choppers and a/c variable frequency and voltage inverters. *Prerequisites:* ECE 3650 (or 024.365) and ECE 3670 (or 024.367).

ECE 4390 Engineering Computations 4E Cr.Hrs.4 (Formerly 024.439) Development and application of numerical methods for the solution of electrical and computer engineering problems. Optimization techniques. Finite difference, finite element and boundary element methods. Solution of large systems of linear and non-linear equations. *Prerequisite:* MATH 3110 (or 136.311).

ECE 4420 Digital Control Cr.Hrs.4 (Formerly 024.442) Mathematical modelling of sampling switches. Z-transforms. Response and stability of systems involving sampling. Design of digital compensators. *Prerequisites:* ECE 4830 (or 024.483) or 024.373 and ECE 4150 (or 024.415).

ECE 4440 Computer Vision Cr.Hrs.4 (Formerly 024.444) Image formation and sensing, image compression, degradation and restoration, geometrical and topological properties, pattern classification, segmentation procedures, line-drawing images, texture analysis, 3-D image processing. *Prerequisite:* ECE 3780 (or 024.378).

ECE 4520 Simulation and Modelling Cr.Hrs.4 (Formerly 024.452) Monte Carlo Methods, random processes, simulation of complex systems in the design of computer systems. Use of statistical interference and measures of performance in hardware and software systems. *Prerequisites:* STAT 2220 (or 005.222) or 005.250 and COMP 2140 (or 074.214).

ECE 4530 Parallel Processing Cr.Hrs.4 (Formerly 024.453) Classification of parallel processors, SIMD vs. MIMD, multiprocessing Vs parallel processing, interconnection topology, communications, and node complexity, pipelining and vector processors, array processors, connection machines, multiprocessors, data flow and VLSI algorithmic machines. *Prerequisites:* COMP 2140 (or 074.214) and ECE 3760 (or 024.376).

ECE 4540 Wireless Networks Cr.Hrs.4 Introduction to wireless communications systems, network architectures, protocols and applications. Topics include mobile computation systems, signals propagation, channel modelling, modulation, and networking standards. *Prerequisite:* ECE 3700 (or 24.370) (or 24.370), ECE 3780 (or 24.378)

ECE 4580 Optoelectronics Cr.Hrs.4 (Formerly 024.458) Basic theory of quantum mechanics; solution of Schrodinger equations; interaction of radiation with matter; masers and lasers; propagation, modulation, excitation and detection in optical waveguides; introduction to fiber and integrated optics. *Prerequisite:* ECE 3600 (or 024.360).

ECE 4600 Group Design Project Cr.Hrs.6 (Formerly 024.460) The engineering curriculum must culminate in a significant design experience which is based on the knowledge and skills acquired in earlier course work and which gives students an exposure to the concepts of team work and project management. *Prerequisites:* ENG 2010 (or 130.201) and completion of the program within 16 months.

ECE 4610 Biomedical Instrumentation and Signal Processing Cr.Hrs.4 (Formerly 024.461) Introduction for senior Engineering students to the solution of medical and biological problems using engineering techniques and equipment. *Prerequisites:* ECE 3530 (or 024.353) and ECE 3780 (or 024.378).

ECE 4720 Industry Internship Cr.Hrs.0 (Formerly 024.472) Industry Internship Supervised work experience, normally of 12-16 month's duration, concluded by a work report. (Pass-Fail grade only).

ECE 4740 Digital Systems Implementation Cr.Hrs.4 (Formerly 024.474) Implementation methodologies and technologies for digital systems, including VLSI implementations, PCB implementations, and rapid prototyping (FPGA). *Prerequisite:* ECE 4240 (or 024.424). Not to be held with ECE 4500 (or 024.450).

ECE 4770 Topics in Electrical Engineering 3 Cr.Hrs.4 (Formerly 024.477) This course will cover contemporary topics in Electrical Engineering via lectures and laboratory sessions. The specific topics and a detailed course outline will be available at the time of registration. *Prerequisite:* Permission of the Department.

ECE 4830 Signal Processing 2 Cr.Hrs.4 (Formerly 024.483) Representation of discrete-time signals and systems in the time and frequency domains; the z-transform; application to various discrete-time linear time-invariant systems; design of digital filters. Laboratory periods will be used to give students hands-on experience in programming many of the techniques covered in the theoretical parts of the course. *Prerequisite:* ECE 3780 (or 024.378).

ECE 4850 Topics in Electrical and Computer Engineering 1 Cr.Hrs.4 This course will cover contemporary topics in Electrical and Computer Engineering via lectures and laboratory sessions. The specific topics and a detailed course outline will be available at the time of registration. *Prerequisite:* Permission of the Department.

ECE 4860 Topics in Electrical and Computer Engineering 2 Cr.Hrs.4 This course will cover contemporary topics in Electrical and Computer Engineering via lectures and laboratory sessions. The specific topics and a detailed course outline will be available at the time of registration. *Prerequisite:* Permission of the Department.

ECE 4870 Topics in Electrical and Computer Engineering 3 Cr.Hrs.3 This lecture based course will cover contemporary topics in Electrical and Computer Engineering. The specific topics and a detailed course outline will be available at the time of registration. *Prerequisite:* Permission of the Department.

ECE 4880 Topics in Electrical and Computer Engineering 4 Cr.Hrs.3 This lecture based course will cover contemporary topics in Electrical and Computer Engineering. The specific topics and a detailed course outline will be available at the time of registration. *Prerequisite:* Permission of the Department.

Prerequisite: Permission of the Department.

5.10 Mechanical and Manufacturing Engineering

General Office: E2 -327 EITC

Telephone: (204) 474 9804 / 6630

Fax: (204) 275 7507

Website: umanitoba.ca/faculties/engineering/departments/mechanical/

Head: D. Kuhn

Associate Heads: M. Birouk and N. Sepehri

The Department of Mechanical and Manufacturing Engineering offers fully accredited degree programs in Mechanical Engineering and Manufacturing Engineering. Students entering the Mechanical Engineering program in September 2009 for the 2009/2010 regular session and thereafter may specialize with an option in Aerospace or Manufacturing, or a stream in Materials, Solid Mechanics, or Thermofluids. No new students will be accepted into the Manufacturing Engineering program as of September 2009. Students are urged to consult appropriate program requirements shown for each program/option.

The program in Mechanical Engineering provides the education required by those who wish to practice in Mechanical Engineering that embraces, among other subdivisions, the design of mechanical devices and systems, manufacturing engineering and management, computer-aided design and computer-aided manufacturing, power generation and utilization, air conditioning, the material sciences, and the aeronautical sciences. The program places special emphasis on the use of computers in solving engineering problems.

The program in Manufacturing Engineering comprises a thorough study in the engineering sciences followed by courses directly related to the field. The students will acquire creative and analytic skills to apply scientific approach to study macro/micro components of manufacturing systems. Advanced technologies such as robots, computer controlled machine tools, automation, mechatronics, production control methods and analysis of manufacturing systems and processes will be emphasized.

Both programs offer basic training in the sciences, mathematics and fundamental engineering subjects followed by more specialized subjects related directly to the Mechanical and Manufacturing Engineering disciplines. Students are allowed to choose technical electives to suit their career objectives and are also required to take complementary studies electives related to social issues. During the programs, arrangements are made for conducted visits to local power and industrial plants.

Co-operative Education Programs

Director: R. Derksen

Co-op Coordinator: Bernice Ezirim

The Department of Mechanical and Manufacturing Engineering offers a Co-operative Education Program in which academic study is complemented and enriched with practical work experience. The work terms provide the students with practical experience, assistance in financing their education, and guidance for future career specialization.

Mechanical and Manufacturing Engineering Students who have successfully completed all courses in first year and first term of second year of Engineering are eligible to apply for admission into the program. Admission to Co-op occurs during the first academic term of second year for placement in May. Final acceptance into the program is dependent upon the student receiving a job placement through the Co-operative Education office. Students may seek employment on their own, but must consult with the Co-op Coordinator before doing so. Upon acceptance, Mechanical Engineering students enrol in the course MECH 2050, Mechanical Engineering Co-operative Education Assignment (and subsequently, MECH 3050, MECH 4050, and the optional MECH 4060) for the specific work term of employment. Corresponding courses for the Manufacturing Engineering program are MECH 3910, MECH 3920, MECH 4910, and the optional MECH 4920.

Each successfully completed work term and its corresponding work term report are rated at one credit hour. Graduates who successfully complete at least three work terms and the required work term reports will have the words "Co-operative Education Option" printed on their diplomas. For more information regarding the Co-op Program requirements, please see the Co-op Coordinator.

Mechanical Engineering Industry Internship Program (MEIIP)

The Mechanical and Manufacturing Engineering Department offers an Industry Internship Program in Mechanical and Manufacturing Engineering. Upon successful completion of 120 credit hours, a student has the opportunity of spending a continuous work term period of twelve to sixteen months in industry. Interested students may apply in the first term of third year. After an internship placement has been secured the student registers for course MECH 4930. One technical report is submitted upon completion of the internship. Students may obtain additional information from the Co-op Coordinator.

Mechanical Engineering Program – NEW For students entering Mechanical Engineering in 2009/2010

Preliminary Engineering Program

Common to all Engineering Programs. (See Section 5.2 for details.)

Program Core Courses:

Course No.		Credit Hours
CHEM 2240	Applied Chemistry for Engineers	3
CIVL 4050	Engineering Economics	3
CIVL 4460	Technology, Society, and the Future	3
	OR	
ANTH 2430	Ecology, Technology and Society (B)	3
ECE 3010	Elements of Electric Machines and Digital Systems	4
ENG 2010	Technical Communications	3
MATH 2120	Introductory Numerical Methods for Engineers	4
MATH 2130	Engineering Mathematical Analysis 1	3
MATH 2132	Engineering Mathematical Analysis 2	3
MATH 3132	Engineering Mathematical Analysis 3	3
MECH 2012	Computer Aided Design and Manufacturing Processes	4
MECH 2202	Thermodynamics	4
MECH 2222	Mechanics of Materials	4
MECH 2262	Fundamentals of Fluid Mechanics	4
MECH 2272	Engineering Materials 1	4
MECH 3170	Project Management	4
MECH 3420	Vibrations and Acoustics	4
MECH 3430	Measurements and Control	4
MECH 3460	Heat Transfer	4
MECH 3482	Kinematics and Dynamics	4
MECH 3492	Fluid Mechanics and Applications	4
MECH 3502	Stress Analysis and Design	4
MECH 3542	Engineering Materials 2	4
MECH 3980	Mechanical Engineering Laboratory (full year)	4
MECH 4650	Machine Design 4M	4
MECH 4860	Engineering Design	5
PHYS 1070	Physics 2: Waves and Modern Physics	3
STAT 2220	Contemporary Statistics for Engineers	3
	5 Technical Electives (TE)	4
	1 Complimentary Studies Elective (CE)	3

NOTES:

1. A student's selection and timetabling of electives are subject to the following conditions:

- Only one complementary elective is required upon completion of Critical Thinking (PHIL 1290) and English (ENGL 1310) in the preliminary program.

- The complementary studies elective can be any course at the 1000-level or above from the faculties of Arts or Management. However, ARTS 1110 Introduction to University may not be used for credit in the Faculty of Engineering.

- Some courses from the Clayton H. Riddell Faculty of Environment, Earth, and Resources may be taken as complementary studies electives upon approval by the department head.

2. For courses continuing through both terms, credit is given on completion of course.

3. A minimum of 20 credit hours of technical electives is required.

Aerospace Option – NEW

Choose all 5 courses.

Course No.		Credit Hours
MECH 3520	Aerodynamics	4
MECH 4182	Aerospace Structures: Analysis and Design	4
MECH 4192	Aerospace Materials and Manufacturing Processes	4
MECH 4200	Gas Turbine Propulsion Systems	4
MECH 4452	Aircraft Performance, Dynamics, and Design	4

Manufacturing Option – NEW

Choose 5 from the following 10 courses. Some courses will be offered in alternating years.

Course No.		Credit Hours
MECH 3550	Robotics and Computer Numerical Control	4
MECH 3562	Introduction to Optimization	4
MECH 3570	Manufacturing Automation	4
MECH 3582	Manufacturing Planning and Quality Control	4
MECH 3592	Simulation Modelling and Facilities Planning	4
MECH 3900	Mechatronics Systems Design	4
MECH 4330	Contemporary Topics in Manufacturing Engineering 1	4
MECH 4342	Contemporary Topics in Manufacturing Engineering 2	4
MECH 4960	Manufacturing Processes 1	4
MECH 4970	Manufacturing Processes 2	4

Materials Stream – NEW

Choose 3 from the following 5 courses. Choose the remaining two TEs from the same stream, other TEs, or thesis. Some courses will be offered in alternating years.

Course No.		Credit Hours
MECH 4192	Aerospace Materials and Manufacturing Processes	4
MECH 4350	Topics in Materials 1	4
MECH 4360	Topics in Materials 2	4
MECH 4620	Corrosion of Metals and Alloys	4
MECH 4870	Fracture and Failure of Engineering Materials	4

Solid Mechanics Stream – NEW

Choose 3 from the following 6 courses. Choose the remaining two TEs from the same stream, other TEs, or thesis. Some courses will be offered in alternating years.

Course No.		Credit Hours
MECH 4182	Aerospace Structures: Analysis and Design	4
MECH 4470	Mechanical Vibration	4
MECH 4510	Fundamentals of Finite Element Analysis	4
MECH 4532	Advanced Strength of Materials	4
MECH 4550	Noise Control	4
MECH 4672	Advanced Mechanical Design	4

Thermofluids Stream – NEW

Choose 3 from the following 8 courses. Choose the remaining two TEs from the same stream, other TEs, or thesis. Some courses will be offered in alternating years.

Course No.		Credit Hours
MECH 4292	IC Engines	4
MECH 4412	Heating, Venting, and Air Conditioning	4
MECH 4560	Selected Topics in Fluid Mechanics 4M	4
MECH 4680	Energy Conversion Utilization	4
MECH 4692	Renewable Energy	4
MECH 4694	Advanced Topics in Heat Transfer	4
MECH 4702	Design of Thermal Systems	4
MECH 4822	Numerical Heat Transfer in Fluid Flow	4

Technical Electives in Mechanical Engineering - NEW

Course No.		Credit Hours
MECH 3520	Aerodynamics	4
MECH 3550	Robotics and Computer Numerical Control	4
MECH 3562	Introduction to Optimization	4
MECH 3570	Manufacturing Automation	4
MECH 3582	Manufacturing Planning and Quality Control	4
MECH 3592	Simulation Modelling and Facilities Planning	4
MECH 3600	Manufacturing Processes: Applied Fundamentals	3
MECH 3900	Mechatronics Systems Design	4
MECH 4162	Thesis (full year course) (See Note 2)	6
MECH 4170	Program Management and Systems Engineering	3
MECH 4182	Aerospace Structures: Analysis and Design	4
MECH 4192	Aerospace Materials and Manufacturing Processes	4
MECH 4200	Gas Turbine Propulsion Systems	4
MECH 4240	Design for Manufacturing	4
MECH 4292	IC Engines	4
MECH 4310	Contemporary Topics in Mechanical Engineering 1	4
MECH 4322	Contemporary Topics in Mechanical Engineering 2	4
MECH 4330	Contemporary Topics in Manufacturing Engineering 1	4
MECH 4342	Contemporary Topics in Manufacturing Engineering 2	4
MECH 4350	Topics in Materials 1	4

MECH 4360	Topics in Materials 2	4
MECH 4412	Heating, Venting, and Air Conditioning	4
MECH 4452	Aircraft Performance, Dynamics, and Design	4
MECH 4470	Mechanical Vibration	4
MECH 4510	Fundamentals of Finite Element Analysis	4
MECH 4532	Advanced Strength of Materials	4
MECH 4550	Noise Control	4
MECH 4560	Selected Topics in Fluid Mechanics 4M	4
MECH 4620	Corrosion of Metals and Alloys	4
MECH 4672	Advanced Mechanical Design	4
MECH 4680	Energy Conversion Utilization	4
MECH 4692	Renewable Energy	4
MECH 4694	Advanced Topics in Heat Transfer	4
MECH 4702	Design of Thermal Systems	4
MECH 4812	Automotive Engineering	4
MECH 4822	Numerical Heat Transfer in Fluid Flow	4
MECH 4870	Fracture and Failure of Engineering Materials	4
MECH 4900	Mechatronics System Design	4
MECH 4960	Manufacturing Processes 1	4
MECH 4970	Manufacturing Processes 2	4

NOTES:

1. The Department of Mechanical and Manufacturing Engineering may not be able to offer all technical electives listed above. Students are urged to consult the Mechanical and Manufacturing Engineering office for a current list of technical electives.
2. Students must be in their graduating year to register for MECH 4162 Thesis.

Mechanical Engineering Program

for students that entered Mechanical Engineering prior to 2009/2010

Preliminary Engineering Program

Common to all Engineering Programs. (See Section 5.2 for details.)

Mechanical Program Core Courses:

Course No.		Credit Hours
CHEM 2240	Applied Chemistry for Engineers	3
CIVL 4050	Engineering Economics (former 23.483)	3
CIVL 4460	Technology, Society, and the Future OR	3
ANTH 2430	Ecology, Technology and Society (B)	3
ECE 3010	Elements of Electric Machines and Digital Systems (formerly ECE 3720 or ECE 3680)	4
ENG 2010	Technical Communications	3
MATH 2120	Introductory Numerical Methods for Engineers	4
MATH 2130	Engineering Mathematical Analysis 1	3
MATH 2132	Engineering Mathematical Analysis 2	3
MATH 3132	Engineering Mathematical Analysis 3	3
MECH 2012	Computer Aided Design and Manufacturing Processes (replaces MECH 2010)	4
MECH 2120	Mechanics of Machines	4
MECH 2202	Thermodynamics (formerly MECH 2200)	4
MECH 2222	Mechanics of Materials (formerly MECH 2220)	4
MECH 2262	Fundamentals of Fluid Mechanics (formerly MECH 2260)	4
MECH 2270	Principles of Engineering Materials	4
MECH 2290	Manufacturing Engineering	3
MECH 2300	Introduction to Production and Manufacturing	3
MECH 3420	Vibrations and Acoustics	4
MECH 3430	Measurements and Control	4
MECH 3460	Heat Transfer	4
MECH 3480	Dynamics	3
MECH 3492	Fluid Mechanics and Applications (formerly MECH 3490)	4
MECH 3502	Stress Analysis and Design (formerly MECH 3500)	4
MECH 3540	Modern Engineering Materials	4
MECH 4160	Graduation Thesis (See Note 3)	3
MECH 4650	Machine Design 4M	4
MECH 4680	Energy Conversion and Utilization OR	4
MECH 4692	Renewable Energy	4
MECH 4822	Numerical Heat Transfer in Fluid Flow	4
MECH 4860	Engineering Design	5
MECH 4980	Mechanical Engineering Laboratory 1	2
MECH 4990	Mechanical Engineering Laboratory 2	2
PHYS 1070	Physics 2: Waves and Modern Physics	3
STAT 2220	Contemporary Statistics for Engineers	3
3 Technical Electives (TE)		3/4
1 Complimentary Studies Elective (CE)		3

NOTES:

1. A student's selection and timetabling of electives are subject to the following conditions:
 - Only one complementary elective is required upon completion of Critical Thinking (PHIL 1290) and English (ENGL 1310) in the preliminary program.
 - The complementary studies elective can be any course at the 1000-level or above from the faculties of Arts or Management. However, ARTS 1110 Introduction to University may not be used for credit in the Faculty of Engineering.
 - Some courses from the Clayton H. Riddell Faculty of Environment, Earth, and Resources may be taken as complementary studies electives upon approval by the department head.
2. For courses continuing through both terms, credit is given on completion of course.
3. Students must be in their graduating year to register for MECH 4160 Graduation Thesis. For those students graduating in December, register in A01 (first term) section of MECH 4160, and if graduating in May, register in A02 (second term) section of MECH 4160.
4. A minimum of 9 credit hours of technical electives is required.

Aerospace Engineering Option Courses

For students that entered Mechanical Engineering prior to 2009/2010

The Department of Mechanical and Manufacturing Engineering Aerospace option is open to all third year students in the Mechanical Engineering program and requires two years to complete after second year Mechanical Engineering. The option consists of six courses. These courses replace an equivalent number of courses in the Mechanical Engineering curriculum.

Preliminary Engineering Program

Common to all Engineering Programs. (See Section 5.2 for details.)

Aerospace Program Core Courses:

Course No.		Credit Hours
CHEM 2240	Applied Chemistry for Engineers	3
CIVL 4050	Engineering Economics (former 23.483)	3
CIVL 4460	Technology, Society, and the Future OR	3
ANTH 2430	Ecology, Technology and Society (B)	3
ENG 2010	Technical Communications	3
MATH 2120	Introductory Numerical Methods for Engineers	4
MATH 2130	Engineering Mathematical Analysis 1	3
MATH 2132	Engineering Mathematical Analysis 2	3
MATH 3132	Engineering Mathematical Analysis 3	3
MECH 2012	Computer Aided Design and Manufacturing Processes (replaces MECH 2010)	4
MECH 2120	Mechanics of Machines	4
MECH 2202	Thermodynamics (formerly MECH 2200)	4
MECH 2222	Mechanics of Materials (formerly MECH 2220)	4
MECH 2262	Fundamentals of Fluid Mechanics (formerly MECH 2260)	4
MECH 2270	Principles of Engineering Materials	4
MECH 2290	Manufacturing Engineering	3
MECH 2300	Introduction to Production and Manufacturing	3
MECH 3420	Vibrations and Acoustics	4
MECH 3430	Measurements and Control	4
MECH 3460	Heat Transfer	4
MECH 3480	Dynamics	3
MECH 3492	Fluid Mechanics and Applications (formerly MECH 3490)	4
MECH 3502	Stress Analysis and Design (formerly MECH 3500)	4
MECH 3520	Aerodynamics	4
MECH 3540	Modern Engineering Materials	4
MECH 4160	Graduation Thesis (See Note 3)	3
MECH 4170	Program Management and Systems Engineering	3
MECH 4180	Analysis and Design of Aerospace Structures	3
MECH 4190	Aerospace Materials and Advanced Manufacturing Processes	3
MECH 4200	Gas Turbine Propulsion Systems	4
MECH 4452	Aircraft Performance, Dynamics, and Design	4
MECH 4860	Engineering Design	5
MECH 4980	Mechanical Engineering Laboratory 1	2
MECH 4990	Mechanical Engineering Laboratory 2	2
PHYS 1070	Physics 2: Waves and Modern Physics	3
STAT 2220	Contemporary Statistics for Engineers	3
1 Technical Elective (TE)		3/4
1 Complimentary Studies Elective (CE)		3

NOTES:

1. A student's selection and timetabling of electives are subject to the following conditions:

- Only one complementary elective is required upon completion of Critical Thinking (PHIL 1290) and English (ENGL 1310) in the preliminary program.

- The complementary studies elective can be any course at the 1000-level or above from the faculties of Arts or Management. However, ARTS 1110 Introduction to University may not be used for credit in the Faculty of Engineering.

- Some courses from the Clayton H. Riddell Faculty of Environment, Earth, and Resources may be taken as complementary studies electives upon approval by the department head.

2. For courses continuing through both terms, credit is given on completion of course.

3. Students must be in their graduating year to register for MECH 4160 Graduation Thesis. For those students graduating in December, register in A01 (first term) section of MECH 4160, and if graduating in May, register in A02 (second term) section of MECH 4160.

4. A minimum of 3 credit hours of technical electives is required.

Technical Electives in Mechanical Engineering

Course No.		Credit Hours
MECH 3520	Aerodynamics	4
MECH 3550	Robotics and Computer Numerical Control	4
MECH 3560	Modelling and Analysis of Manufacturing Systems	3
MECH 3570	Manufacturing Automation	4
MECH 3582	Manufacturing Planning and Quality Control	4
MECH 3592	Simulation Modelling and Facilities Planning	4
MECH 3600	Manufacturing Processes: Applied Fundamentals (See Note 5)	3
MECH 4170	Program Management and Systems Engineering	3
MECH 4180	Analysis and Design of Aerospace Structures	3
MECH 4190	Aerospace Materials and Advanced Manufacturing Processes	3
MECH 4200	Gas Turbine Propulsion Systems	4
MECH 4240	Design for Manufacturing	4
MECH 4290	Internal Combustion Engines	3
MECH 4310	Contemporary Topics in Mechanical Engineering 1	4
MECH 4322	Contemporary Topics in Mechanical Engineering 2	4
MECH 4330	Contemporary Topics in Manufacturing Engineering 1	4
MECH 4342	Contemporary Topics in Manufacturing Engineering 2	4
MECH 4412	Heating, Ventilation, and Air Conditioning	4
MECH 4452	Aircraft Performance, Dynamics, and Design	4
MECH 4532	Advanced Strength of Materials	4
MECH 4550	Noise Control	4
MECH 4560	Selected Topics in Fluid Mechanics 4M	4
MECH 4620	Corrosion of Metals and Alloys	4
MECH 4672	Advanced Mechanism Design	4
MECH 4692	Renewable Energy	4
MECH 4694	Advanced Topics in Heat Transfer	4
MECH 4702	Thermal Systems Design	4
MECH 4780	Quality Assurance in Industry	3
MECH 4810	Automotive Engineering and Design	3
MECH 4870	Fracture and Failure of Engineering Materials	4
MECH 4900	Mechatronics Systems Design	4
MECH 4960	Manufacturing Process I	4
MECH 4970	Manufacturing Process I	4

NOTES:

1. The Department of Mechanical and Manufacturing Engineering may not be able to offer all technical electives listed above. Students are urged to consult the Mechanical and Manufacturing Engineering office for a current list of technical electives.

2. Core courses in Manufacturing Engineering that are not part of the core program in Mechanical Engineering will be accepted as technical electives in Mechanical Engineering. Similarly, core courses in Mechanical and Manufacturing Engineering that are not part of the core program in the Aerospace option will be accepted as technical electives in the Aerospace option. The associate head of Mechanical and Manufacturing Engineering must approve these electives.

3. There will normally be a minimum registration limit of six students for each technical elective. If registration is below the minimum, the elective will be cancelled for the session, and those registered will be required to transfer to another course before the course-changing date.

4. Students are urged to discuss their elective courses with members of the instructional staff toward the end of their second year in order to obtain advice concerning the best choice of electives to meet their needs.

5. MECH 3600 will be offered through Red River College as an equivalent course. Credit will be granted upon completion of the RRC course taken on a Letter of Permission. See department for details.

Manufacturing Engineering Degree

For students that entered Manufacturing Engineering prior to 2009/2010 Preliminary Engineering Program

Common to all Engineering Programs. (See Section 5.2 for details.)

Manufacturing Program Core Courses:

Course No.		Credit Hours
CHEM 2240	Applied Chemistry for Engineers	3
CIVL 4050	Engineering Economics (former 23.483)	3
CIVL 4460	Technology, Society, and the Future	3
OR		
ANTH 2430	Ecology, Technology and Society (B)	3
ECE 3010	Elements of Electric Machines and Digital Systems (formerly ECE 3720 or ECE 3680)	4
ENG 2010	Technical Communications	3
MATH 2120	Introductory Numerical Methods for Engineers	4
MATH 2130	Engineering Mathematical Analysis 1	3
MATH 2132	Engineering Mathematical Analysis 2	3
MATH 3132	Engineering Mathematical Analysis 3	3
MECH 2012	Computer Aided Design and Manufacturing Processes (replaces MECH 2010)	4
MECH 2120	Mechanics of Machines	4
MECH 2202	Thermodynamics (formerly MECH 2200)	4
MECH 2222	Mechanics of Materials (formerly MECH 2220)	4
MECH 2262	Fundamentals of Fluid Mechanics (formerly MECH 2260)	4
MECH 2270	Principles of Engineering Materials	4
MECH 2290	Manufacturing Engineering	3
MECH 2300	Introduction to Production and Manufacturing	3
MECH 3420	Vibrations and Acoustics	4
MECH 3430	Measurements and Control	4
MECH 3480	Dynamics	3
MECH 3502	Stress Analysis and Design (formerly MECH 3500)	4
MECH 3540	Modern Engineering Materials	4
MECH 3550	Robotics and Computer Numerical Control	4
MECH 3560	Modelling and Analysis of Manufacturing Systems	3
MECH 3570	Manufacturing Automation	4
MECH 3582	Manufacturing Planning and Quality Control	4
MECH 3592	Simulation Modelling and Facilities Planning	4
MECH 4160	Graduation Thesis (or TE#3; see Notes 3 & 4)	3
MECH 4650	Machine Design 4M	4
MECH 4680	Energy Conversion and Utilization	4
OR		
MECH 4692	Renewable Energy	4
MECH 4860	Engineering Design	5
MECH 4900	Mechatronics System Design	4
MECH 4960	Manufacturing Process I	4
MECH 4970	Manufacturing Process II	4
PHYS 1070	Physics 2: Waves and Modern Physics	3
STAT 2220	Contemporary Statistics for Engineers	3
2 Technical Electives (TE) (See Note 5)		3/4
1 Complimentary Studies Elective (CE)		3

NOTES:

1. A student's selection and timetabling of electives are subject to the following conditions:

- Only one complementary elective is required upon completion of Critical Thinking (PHIL 1290) and English (ENGL 1310) in the preliminary program.

- The complementary studies elective can be any course at the 1000-level or above from the faculties of Arts or Management. However, ARTS 1110 Introduction to University may not be used for credit in the Faculty of Engineering.

- Some courses from the Clayton H. Riddell Faculty of Environment, Earth, and Resources may be taken as complementary studies electives upon approval by the department head.

2. For courses continuing through both terms, credit is given on completion of course.

3. Students must be in their graduating year to register for MECH 4160 Graduation Thesis. For those students graduating in December, register in A01 (first term) section of MECH 4160, and if graduating in May, register in A02 (second term) section of MECH 4160.

4. For students in Manufacturing Engineering, there is a choice between graduation thesis and a technical elective from List B (see below).

5. Students are required to take a total of two technical electives (one from List A and one from list B) from the approved list of technical electives for Manufacturing Engi-

neering. If the student elects to do a graduation thesis (MECH 4160), then only one technical elective (List A) is required.

Technical Electives in Manufacturing Engineering

Course No. Credit Hours
Choose one from List A and one from List B OR one from List A and a graduation thesis project (MECH 4160).

LIST A

ECE 3010	Elements of Electric Machines and Digital Systems	4
ECE 4240	Microprocessor Interfacing	4
MECH 3460	Heat Transfer	4
MECH 3492	Advanced Fluid Mechanics and Design	4
MECH 3520	Aerodynamics	4
MECH 3600	Manufacturing Processes: Applied Fundamentals see note 4. below)	4
MECH 4170	Program Management and Systems Engineering	3
MECH 4190	Aerospace Materials and Advanced Manufacturing Processes	3
MECH 4200	Gas Turbine Propulsion Systems	4
MECH 4240	Design for Manufacturing	4
MECH 4290	Internal Combustion Engines	3
MECH 4310	Contemporary Topics in Mechanical Engineering 1	4
MECH 4322	Contemporary Topics in Mechanical Engineering 2	4
MECH 4330	Contemporary Topics in Manufacturing Engineering 1	4
MECH 4342	Contemporary Topics in Manufacturing Engineering 2	4
MECH 4412	Heating, Ventilation, and Air Conditioning	4

NOTES:

1. Core or technical elective courses in Mechanical Engineering that are not part of the core program in Manufacturing Engineering will be accepted as technical electives in Manufacturing Engineering.
2. The Department of Mechanical and Manufacturing Engineering may not be able to offer all of the technical electives that are shown. Students are urged to consult the Mechanical and Manufacturing Engineering office for a list of technical electives that will be offered in that year.
3. There will normally be a minimum registration limit of six students for each technical elective. If registration is below the minimum, the elective will be cancelled for the session, and those registered will be required to transfer to another course before the final date for registration revisions.
4. MECH 3600 will be offered through Red River College as an equivalent course. Credit, therefore, will be granted upon completion of the RRC course. Students should consult the department regarding scheduling.
5. Courses from the Faculty of Management that do not appear in the list above may be used as a technical elective for List B subject to approval by the Department of Mechanical and Manufacturing Engineering.

5.11 Mechanical and Manufacturing Engineering Course Descriptions

MECH 2010 Computer Aided Graphics for Mechanical and Manufacturing Engineering Cr.Hrs.2 This course will provide the students with essential skills to understand the theory and application of engineering graphics package. It will provide required training to produce and communicate engineering drawings. AUTOCAD will be the medium of instruction. The course will be delivered through a combination of lectures and practical sessions.

MECH 2012 Computer Aided Design and Manufacturing Processes Cr.Hrs.4 Provide instruction on the application of computer aided design software packages. The students will work in groups in the design and development of a product using CAD packages. The course will be delivered through a combination of lectures and tutorials. ENG 1430 (formerly 130.113 or 130.140). Not to be held with MECH 2010 or CIVL 2830

MECH 2050 Mechanical Engineering Coop Education Assignment 1 Cr.Hrs.1 (For-

merly 025.205) Special work assignment in business, industry, or government for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment, and in-depth presentation of related engineering problems. (Pass/Fail grade only)

MECH 2120 Mechanics of Machines Cr.Hrs.4 (Formerly 025.212) Graphical and analytical techniques for determining velocity, acceleration, and forces in mechanical linkages, cams, and gear trains. Computer solutions for kinematic design. *Prerequisites:* PHYS 1050 (or 016.105), ENG 1440 (or 130.135) and COMP 1010 (or 074.101).

MECH 2200 Thermodynamics 2M Cr.Hrs.4 (Formerly 025.220) Cycles, compressors, transient flow processes, irreversibility and availability, thermodynamic relations, departure charts, gas mixtures, psychrometry, combustion. *Prerequisites:* ENG 1460 (or 130.112), MATH 1500 (or 136.150) or MATH 1510 (or 136.151) and MATH 1700 (or 136.170) or MATH 1710 (or 136.171).

MECH 2202 Thermodynamics Cr.Hrs.4 (Formerly MECH 2200 or 025.220) Cycles, transient flow processes, entropy, gas mixtures, psychrometry combustion. *Prerequisites:* ENG 1460 (or 130.112), (MATH 1500 (or 136.150) or MATH 1510 (or 136.151) and MATH 1700 (or 136.170) or MATH 1710 (or 136.171) Not to be held for credit with MECH 2200 or 025.220

MECH 2220 Stress Analysis and Design 2M Cr.Hrs.4 (Formerly 025.222) Axial and torsional loading-stress, strain and deformation in statically determinate and indeterminate systems. Thermally induced stress. Stresses in beams under pure bending and bending with shear. Reinforced beams. Stresses under combined loading. The transformation of plane stress and Mohr's circle. Instability and columns. *Prerequisites:* PHYS 1050 (or 016.105), ENG 1440 (or 130.135) and MATH 1700 (or 136.170) or MATH 1710 (or 136.171).

MECH 2222 Mechanics of Materials Cr.Hrs.4 Topics covered in this course include: axial and torsional loading, stress-strain and deformation in statically determinate/indeterminate systems, thermally induced stress, and stresses in beams (including reinforced beams) under pure bending and bending with shear. The mechanical properties of materials under various loading modes will be addressed. *Prerequisites:* PHYS 1050, ENG 1440, COMP 1010 and (MATH 1710 or MATH 1700). Not to be held for credit with MECH 2220 (or 025.222) or MECH 2270 (or 025.227).

MECH 2260 Introduction to Fluid Mechanics Cr.Hrs.3 (Formerly 025.226) Fundamental concepts used in analysis of fluid behaviour, pressure in stationary fluids, forces on submerged surfaces, buoyancy, integral methods, the Bernoulli equation, pipeline analysis. *Prerequisite* or Corequisite: MATH 2130 (or MATH 2110) (or 136.211) or MATH 2132 (or MATH 2100) (or 136.210).

MECH 2262 Cr.Hrs.4 Fundamental concepts used in the analysis of fluid behaviour, pressure in stationary fluids, forces on submerged surfaces, buoyancy, integral methods, Bernoulli equation, pipeline analysis. *Prerequisites:* MATH 2130 or MATH 2110 (formerly 136.211). Pre r Co requisite: MATH 2132 or MATH 2100 (formerly 136.210). Not to be held for credit with MECH 2260 (or 025.226)

MECH 2270 Principles of Engineering Materials Cr.Hrs.4 (Formerly 025.227) Relationship of physical and mechanical properties of metals, alloys, polymers, glasses and ceramics to bonding, molecular structure and microstructure. Effect of environment including stress and temperature on short and long term behaviour. *Prerequisite:* CHEM 1300 (or 002.130).

MECH 2272 Engineering Materials 1 Cr.Hrs.4 Introduction to engineering materials; defects, strengthening mechanisms, and plasticity in engineering metals and alloys; fundamentals and application of heat treatment of metallic materials including topics such as diffusion, phase diagram, phase transformation, and thermal processing; mechanical properties of engineering metallic materials and their relationship to structure, defects, various strengthening mechanisms, and processing; structure of non-metallic polymers and ceramics. *Prerequisites:* CHEM 2240 (formerly 002.224) and MECH 2222 (or MECH 2220 or 025.222). Not to be held for credit with MECH 2270 (or 025.227), MECH 2290 (or 025.229) or MECH 3540 (or 025.354)

MECH 2290 Manufacturing Engineering Cr.Hrs.3 (Formerly 025.229) A study of the various ways of shaping and fabricating components. An introduction to manufacturing systems, production systems and automation. Plant tours.

MECH 2300 Introduction to Production and Manufacturing Cr.Hrs.3 (Formerly 025.230) The objective of this course is to introduce the fundamental principles that a manufacturing engineer needs to know in managing a production facility. Manufacturing and important related processes are described, along with the problem areas that need to be controlled to maintain productivity, flexibility, and quality within a timeframe. The basic techniques for maintaining control and solving manufacturing problems are described, and the students will be given a number of industrial problems to solve. *Prerequisite:* MECH 2290 (or 025.229).

MECH 3050 Mechanical Engineering Coop Education Assignment 2 Cr.Hrs.1 (Formerly 025.305) Special work assignment in business, industry, or government for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment, and in-depth presentation of related engineering problems. (Pass/Fail grade only). *Prerequisite:* MECH 2050 (or 025.205).

MECH 3170 Project Management Cr.Hrs.4 Topics covered in this course will include project planning, scheduling, resource allocation, process analysis, layout and control. The course will make use of industrial projects for developing a strong design and analytical approach pertinent to project management. *Prerequisites:* MECH 2290 (formerly 025.229). Not to be held for credit with MECH 4170 (or 025.417)

MECH 3420 Vibrations and Acoustics Cr.Hrs.4 (Formerly 025.342) Vibrations and computer simulations of single-degree-of-freedom systems, viscous and friction damping, MD of systems and modal analysis, measurement and sources of noise, noise control. *Prerequisites:* MECH 3482 (formerly MECH 2120 (or 025.212) and MECH 3480 (or 025.348)), and MATH 3132 (formerly MATH 3100) (or 136.310)

MECH 3430 Measurements and Control Cr.Hrs.4 (Formerly 025.343) Mathematical modelling of mechanical systems. Feedback systems and stability. Digital control: analog to digital and digital to analog control systems. *Prerequisites:* MATH 3132 (or MATH 3100) (or 136.310) and ENG 1450 (or 130.118)

MECH 3460 Heat Transfer Cr.Hrs.4 (Formerly 0253347) Steady-state and transient heat conduction, fins. Forced and free convection, laminar and turbulent conditions, internal and external flows. Heat exchangers. Radiation properties and exchange.

Prerequisites: MATH 3132 (formerly MATH 3100) (or 136.310) and ENG 1460 (or 130.112). May not be held with MECH 3470

MECH 3470 Heat Transfer 3M Cr.Hrs.3 (Formerly 025.347) Steady-state and transient heat conduction, fins. Forced and free convection, laminar and turbulent conditions, internal and external flows. Heat exchangers. Radiation properties and exchange. *Prerequisites:* MATH 3132 (formerly MATH 3100) (or 136.310) and ENG 1120 (or 130.112).

MECH 3480 Dynamics Cr.Hrs.3 (Formerly 025.348) Kinematics and kinetics of a system of particles. Extension to three-dimensional, rigid-body motions involving Euler's equations, bearing reactions and balancing. *Prerequisites:* MECH 2120 (or 025.212) and MATH 1700 (or 136.170) or MATH 1710 (or 136.171), MATH 2120 (or 136.212) and MATH 2130 (or MTH 2110) (or 136.211).

MECH 3482 Kinematics and Dynamics Cr.Hrs.4 Fundamentals of 2D and 3D rigid body motions (kinematics) and the forces/moments (kinetics) needed to produce such motions. Applications will emphasize elements of machine design. *Prerequisites:* PHYS 1050 (formerly 016.105), ENG 1350 (formerly 130.135), COMP 1010 (formerly 074.101), and (MATH 1710 (formerly 136.171) or MATH 1700 (formerly 136.170)). Not to be held for credit with MECH 2120 (or 025.212) or MECH 3480 (or 025.348)

MECH 3490 Advanced Fluid Mechanics and Design Cr.Hrs.3 (Formerly 025.349) Dimensional analysis and similitude, flow measurement, differential analysis. Introduction to boundary-layer theory. Design of flow systems and devices. *Prerequisite:* MECH 2260 (or 025.226). Corequisite: MATH 3132 (or MATH 3100) (or 136.310).

MECH 3492 Fluid Mechanics and Applications Cr.Hrs.4 The angular momentum principle, introduction to differential analysis of fluid motion, internal and external incompressible viscous flow, fluid machinery and multiple-path systems, fluid coupling and torque couplings and torque converters. *Prerequisite:* PHYS 1050 (formerly 016.105), ENG 1350 (formerly 130.135), COMP 1010 (formerly 074.101), and (MATH 1710 (formerly 136.171) or MATH 1700 (formerly 136.170)). Not to be held for credit with MECH 3490 (or 025.349)

MECH 3500 Stress Analysis and Design 3M Cr.Hrs.3 (Formerly 025.350) Strength and stability of columns, torsion of thin-walled members, unsymmetric loading and shear centres, beam deflection and energy methods. Time and temperature behaviour of materials, design against fatigue and creep. *Prerequisites:* MATH 2130 (or MATH 2110) (or 136.211), MECH 2220 (or 025.222).

MECH 3502 Stress Analysis and Design Cr.Hrs.4 Strength and stability of columns, torsion of thin-walled members, unsymmetric loading and shear centres, beam deflection and energy methods. *Prerequisites:* MECH 2222 (formerly MECH 2220 or 025.222), and MATH 2130 (formerly MATH 2110 or 136.211). Not to be held for credit with MECH 2220 (or 025.222) or MECH 3500 (or 025.350)

MECH 3520 Aerodynamics Cr.Hrs.4 (Formerly 025.352) Aeronautical definitions, compressible flow, plane normal shock waves, Mach. no. and shock waves in two-dimensional flow, potential flow theory in two-dimensional and axisymmetric flows. Two-dimensional wing theory, finite wing theory panel methods, elements of boundary layer theory. Compressibility and wings, wing design, flow control. *Prerequisite:* MECH 3492 (MECH 3490 or 025.349).

MECH 3530 Computer-Aided Engineering Design and Analysis Cr.Hrs.3 (Formerly 025.353) Overview of numerical techniques for CAD; principles of computer graphics; geometric modeling; introduction to finite element analysis and development of integrated CAD systems; coursework includes design labs and a comprehensive design project. *Prerequisites:* MECH 2220 (or 025.222), COMP 1010 (or 074.101) and MATH 3132 (formerly MATH 3100) (or 136.310).

MECH 3540 Modern Engineering Materials Cr.Hrs.4 (Formerly 025.354) A study of the relationship between the mechanical properties of metallic materials and microstructure. The development and manipulation of microstructures through thermomechanical treatments to obtain desired properties. The selection of materials for given applications. *Prerequisite:* MECH 2270 (or 025.227).

MECH 3542 Engineering Materials 2 Cr.Hrs.4 Mechanical properties of engineering non-metallic materials such as polymers, ceramics and composites, and their relationship to structure and processing; introduction to various shaping and joining processes used in manufacturing, their advantages and limitations; selection and application of engineering materials. *Prerequisites:* MECH 2272 (formerly MECH 2270 or 025.270). Not to be held for credit with MECH 2270 (or 025.227), MECH 2290 (or 025.229) or MECH 3540 (or 025.354)

MECH 3550 Robotics and Computer Numerical Control Cr.Hrs.4 (Formerly 025.355) This course builds up a foundation in the area of Computer Aided Manufacturing (CAM) such as computer numerically controlled machine tools and robotics. Intense hands on experience are provided in the laboratory sessions on part programming using Computer aided design (CAD) packages and robots to demonstrate application in the area of CAM. Several case studies and manufacturing applications will be discussed. (Not to be held with the former 025.484).

MECH 3560 Modeling and Analysis of Manufacturing Systems Cr.Hrs.3 (Formerly 025.356) The objective of this course is to develop the ability to formulate and analyze problems that will be encountered in a manufacturing system. The skills acquired will allow the students to approach problems from an optimization perspective. The students will be provided experience in related software packages. *Prerequisites:* MECH 2300 (or 025.230) or MECH 2170 (or 025.217), and STAT 2220 (or 005.222). (Not to be held with the former 025.341)

MECH 3562 Introduction to Optimization Cr.Hrs.4 (Formerly MECH 3560 or 025.356) The objective of this course is to develop the ability to formulate and analyze problems that will be encountered in a manufacturing system. The skills acquired will allow the students to approach problems from an optimization perspective. The students will be provided experience in related software packages. *Prerequisites:* MECH 2300 (formerly 025.230 or 025.217), and STAT 2220 (formerly 005.222). Not to be held with the former MECH 3560 (or 025.356 or 025.341).

MECH 3570 Manufacturing Automation Cr.Hrs.4 (Formerly 025.357) This course builds upon the foundation developed in a previous course: namely Robotics and Computer Numerical Control. The course covers a wide variety of topics in the area of computer controlled automation. The students are provided with hands on experience in design for automation. It will synthesize several aspects associated with integrated operation of computer controlled automated devices. *Prerequisite:* MECH 3550 (or 025.355). (Not to be held with the former 025.485)

MECH 3580 Production Planning and Control Cr.Hrs.3 (Formerly 025.358) The course covers topics such as: Group technology, Just-in-Time, Computer aided process planning, Statistical Process Control and Manufacturing Planning and Control. Issues related to the integration of several areas that fall with CIM are emphasized. Systems approach is introduced. *Prerequisite:* MECH 2300 (or 025.230). (Not to be held with the former 025.485)

MECH 3590 Systems Simulation and Facilities Planning Cr.Hrs.3 (Formerly 025.359) The objective of this course is to introduce simulation for manufacturing operations and the concepts of facilities location and layout. The students will learn how to program WITNESS, a simulation language, and through simulation, explore the effects of facility planning: resource availability e.g., machines and quality related problems on manufacturing productivity and timing. (not to be held with the former 025.471)

MECH 3592 Simulation Modeling and Facility Planning Cr.Hrs.4 (Formerly MECH 3590 or 025.359) The objective of this course is to introduce simulation for manufacturing operations and the concepts of facilities location and layout. The students will learn how to program WITNESS, a simulation language, and through simulation, explore the effects of facility planning: resource availability e.g. machines and quality related problems on manufacturing productivity and timing. Not to be held for credit with MECH 3590 (or 025.359 or 025.471)

MECH 3600 Manufacturing Processes: Applied Fundamentals Cr.Hrs.3 (Formerly 025.360) The course will give students hands on experience with numerous manufacturing processes, machines and systems by having them build a miniature Sterling engine, for example. Using CNC mills, lathes, conventional machine shop equipment and hand tools, the students will manufacture engine components, assemble them and trouble shoot any problems. The object of the course is to provide Mechanical and Manufacturing students with a hands-on-exposure to the application of basic manufacturing process tools. The course will be offered in collaboration with the Mechanical and Manufacturing and Communications department, Red River College. *Prerequisite:* MECH 2290 (or 025.229)

MECH 3910 Manufacturing Cooperative Education Assignment 1 Cr.Hrs.1 (Formerly 025.391) Special work assignment in business, industry, or government for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment, and in-depth presentation of related engineering problems. (Pass/Fail grade only).

MECH 3920 Manufacturing Cooperative Education Assignment 2 Cr.Hrs.1 (Formerly 025.392) Special work assignment in business, industry, or government for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment, and in-depth presentation of related engineering problems. (Pass/Fail grade only). *Prerequisite:* MECH 3910 (or 025.391).

MECH 3980 Mechanical Laboratory Cr.Hrs.4 Laboratory course on topics that complement and reinforce concepts developed in second and third year mechanical engineering courses. Comprehensive experiments followed by submission of laboratory reports will be required. *Prerequisites:* ENG 2010 (or 130.201), and MECH 2262 (or MECH 2260 or 025.260), and MECH 2222 (or MECH 2220 or 025.222). Pre- or Co requisites: MECH 3420 (or 025.342) and MECH 3502 (or MECH 3500 or 025.350), and MECH 3542 (or MECH 3540 or 025.345). Not to be held for credit with MECH 4980 (or 025.498) and MECH 4990 (or 025.499)

MECH 4050 Mechanical Engineering Coop Education Assignment 3 Cr.Hrs.1 (Formerly 025.405) Special work assignment in business, industry, or government for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment, and in-depth presentation of related engineering problems. (Pass/Fail grade only). *Prerequisite:* MECH (or 025.305)

MECH 4060 Mechanical Engineering Coop Education Assignment 4 Cr.Hrs.1 (Formerly 025.406) Special work assignment in business, industry, or government for cooperative education students. Requires submission of a written report covering the work completed during the four month professional assignment, and in-depth presentation of related engineering problems. (Pass/Fail grade only). *Prerequisite:* MECH 4050 (or 025.405)

MECH 4160 Graduation Thesis Cr.Hrs.3 (Formerly 025.416) Each graduating student must submit a satisfactory thesis on a subject which will be designated or approved by the head of the department. These are to be handed in to the Department of MEchanical and Industrial Engineering office by the designated deadline. RESTRICTION: Only students with a year class distinction of 4 or higher in Mechanical or Manufacturing Engineering may register for this course. *Prerequisite:* ENG 2010 (or 130.201) and eligible to graduate.

MECH 4162 Thesis Cr.Hrs.6 (Formerly MECH 4160 or 025.416) Each graduating student must submit a satisfactory thesis on a subject which will be designated or ap-

proved by the head of the department. These are to be handed in to the Department of Mechanical and Manufacturing Engineering office by the designated deadline. RESTRICTION: Only students with a year class distinction of 4 or higher in Mechanical or Manufacturing Engineering may register for this course. *Prerequisites:* ENG 2010 (or 130.201) and eligible to graduate. Not to be held for credit with MECH 4160 (formerly 025.416)

MECH 4170 Program Management and Systems Engineering Cr.Hrs.3 (Formerly 025.417) Authority and support controlling the logical relationship among the many simultaneous activities involved in the systems engineering process. Study of the steps required to produce a coordinated functioning system with a minimum of undesirable side effects. *Prerequisite:* MECH 2290 (or 025.229).

MECH 4180 Analysis and Design of Aerospace Structures Cr.Hrs.3 (Formerly 025.418) Methodology and techniques for design of aerospace structures and components to preclude failure with minimum weight, cost and resource consumption. Analysis of structural, air, gust and manoeuvre loads. *Prerequisite:* MECH 3500 (or 025.350).

MECH 4182 Aerospace Structures: Analysis and Design Cr.Hrs.4 (Formerly MECH 4180 or 025.418) Methodology and techniques for design of aerospace structures and components to preclude failure with minimum weight, cost and resource consumption. Analysis of structural, air, gust and manoeuvre loads. *Prerequisites:* MECH 3502 (or MECH 3500 or 025.350). Not to be held for credit with MECH 4180 (or 025.418)

MECH 4190 Aerospace Materials and Advanced Manufacturing Processes Cr.Hrs.3 (Formerly 025.419) Properties of aerospace structural materials including glass and graphite fibre composites, light metal alloys and high strength steels. Properties of high temperature materials; superalloys, ceramics, intermetallic compounds, metal matrix composites. Specialized methods for manufacture of these materials. *Prerequisite:* MECH 3540 (or 025.354).

MECH 4192 Aerospace Materials and Manufacturing Processes Cr.Hrs.4 (Formerly MECH 4190 or 025.419) Properties of aerospace structural materials including glass and graphite fibre composites, light metal alloys and high strength steels. Properties of high temperature materials; superalloys ceramics, intermetallic compounds, metal matrix composites. Specialized methods for manufacture of these materials. *Prerequisites:* MECH 3542 (formerly MECH 3540 or 025.354). Not to be held for credit with MECH 4190.

MECH 4200 Gas Turbine Propulsion Systems Cr.Hrs.4 (Formerly 025.420) Gas turbine systems, shaft power cycles, gas turbine propulsion cycles, centrifugal compressors, axial flow compressors, combustion systems, design performance predictions, off-design operations and transient behaviour of gas turbines. Design performance predictions. *Prerequisites:* MECH 2202 (or MECH 2200 or 025.220) and MECH 3520 (or 025.352)

MECH 4240 Design for Manufacturing Cr.Hrs.4 (Formerly 025.424) Identification of product opportunity, product development process, concurrent engineering concepts, design for assembly, design for injection molding, design for stamping, design for die casting and other processes, design of experiments (DOE), and optimization Systematic product design methods and tools will be taught along with real design practices. *Prerequisite:* MECH 2290 (or 025.229) Manufacturing Engineering.

MECH 4290 Internal Combustion Engines Cr.Hrs.3 (Formerly 025.429) Thermodynamics of internal combustion engine cycles; fuels and lubricants; supercharging; carburetion; valving; manifolding; combustion chamber ignition and fuel injection; engine performance and testing; free piston engines. *Prerequisite:* MECH 2200 (or 025.220).

MECH 4292 IC Engines Cr.Hrs.4 (Formerly MECH 4290 or 025.429) Thermodynamics of internal combustion engine cycles; fuels and lubricants; supercharging; carburetion; valving; manifolding; combustion chamber ignition and fuel injection; engine performance and testing; free piston engines. *Prerequisite:* MECH 2202 (formerly MECH 2200 or 025.220). Not to be held for credit with MECH 4290 or 025.429

MECH 4310 Contemporary Topics in Mechanical Engineering I Cr.Hrs.4 This course will cover contemporary topics in Mechanical Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered. *Prerequisite:* Permission of the department.

MECH 4322 Contemporary Topics in Mechanical Engineering II Cr.Hrs.4 (Formerly MECH 4320) This course will cover contemporary topics in Mechanical Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered. *Prerequisite:* Departmental Permission. Not to be held for credit with MECH 4320

MECH 4330 Contemporary Topics in Manufacturing Engineering I Cr.Hrs.4 This course will cover contemporary topics in Manufacturing Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered. *Prerequisite:* Permission of the department.

MECH 4342 Contemporary Topics in Manufacturing Engineering II Cr.Hrs.4 (Formerly MECH 4340) This course will cover contemporary topics in Manufacturing Engineering. The specific topics and a detailed outline will be available at the time of registration prior to the start of the registration period for the session in which the course will be offered. *Prerequisite:* Departmental Permission. Not to be held for credit with MECH 4340

MECH 4350 Topics in Engineering Material 1 Cr.Hrs.4 This course will cover contemporary topics in engineering materials. The specific topics and a detailed outline will be available prior to the start of registration period for the session in which the course will be offered. *Prerequisite:* Departmental Permission.

MECH 4360 Topics in Engineering Materials 2 Cr.Hrs.4 This course will cover contemporary topics in engineering materials. The specific topics and a detailed outline

will be available prior to the start of registration period for the session in which the course will be offered. *Prerequisite:* Departmental Permission.

MECH 4410 Air Conditioning Cr.Hrs.3 Psychometric processes, equipment selection, and the design of heating and cooling systems for typical buildings. *Prerequisite:* MECH 2200.

MECH 4412 Heating, Ventilation and Air Conditioning Cr.Hrs.4 (Formerly MECH 4410 or 025.441) Psychometric processes, equipment selection, and the design of heating and cooling systems for typical buildings. *Prerequisite:* MECH 2202 (formerly MECH 2200 or 025.220). Not to be held for credit with MECH 4410 (or 025.441)

MECH 4452 Aircraft Performance, Dynamics and Design Cr.Hrs.4 (Formerly MECH 4450 or 025.445) A study of the morphology of aerospace vehicles; basic components and their functions; Aircraft performance; drag, thrust, lift, basics of orbital mechanics. *Prerequisites:* MECH 3520 (or 025.352). Not to be held for credit with MECH 4450 (or 025.445)

MECH 4510 Fundamentals of Finite Element Analysis Cr.Hrs.4 Fundamentals of the Finite Element Method, basic components in a Finite Element procedure, application of FEM to solve engineering problems and use of commercial software. *Prerequisites:* MATH 2120 (formerly 136.212) and (MATH 3132 or MATH 3100 (formerly 136.310) and MECH 2222 (formerly MECH 2220 or 025.222).

MECH 4532 Advanced Strength of Materials Cr.Hrs.4 (Formerly MECH 4530 or 025.453) Stress and strain in three dimensions; thick walled cylinders, beams of elastic foundations, unsymmetrical bending and sheet-stringer construction, curved beams. Additional topics such as the analysis of fibre-composite material, techniques in experimental stress analysis and studies in metallics fatigue may be presented *prerequisite:* MECH 3502 (formerly MECH 3500 or 025.350). Not to be held for credit with MECH 4530 or 025.453

MECH 4550 Noise Control Cr.Hrs.4 (Formerly 025.455) An elective course open to all branches of Engineering; a recommended course for students taking Air Conditioning. Wave propagation, transducers and measurement techniques, psycho-acoustic criteria, legislation, techniques of noise and vibration control.

MECH 4560 Selected Topics in Fluid Mechanics 4M Cr.Hrs.4 (Formerly 025.456) Topics may include: wind tunnel design; experimental techniques; some exact solutions of the conservation equations; fundamentals of turbulence; secondary flows; fluidization; elementary meteorology; fluidics; other topics of current interest. *Prerequisites:* MATH 3132 (formerly MATH 3100) (or 136.310) (not to be held with the former 006.360), and MECH 3492 (or MECH 3490 or 025.349)

MECH 4620 Corrosion of Metals and Alloys Cr.Hrs.4 (Formerly 025.462) Electrochemical basis of corrosion, corrosion prevention by cathodic protection, inhibitors, alloying and heat treatment, passivation, stress corrosion cracking, corrosion fatigue; ionic and electronic conduction; oxidation of metals and alloys. *Prerequisite:* MECH 3542 (or MECH 3540 or 025.354)

MECH 4650 Machine Design 4M Cr.Hrs.4 (Formerly 025.465) Stress analysis and the design of various machine elements; shafts and couplings, springs, threaded fasteners and power screws, clutches and power transmission components; spur, bevel, worm and helical gears; lubrication, journal and roller bearings. *Prerequisites:* MECH 2120 (or 025.212) and MECH 3502 (or MECH 3500 or 025.350)

MECH 4672 Advanced Mechanism Design Cr.Hrs.4 (Formerly MECH 4670 or 025.467) Graphical, analytical and computer techniques for the analysis and design of mechanisms to produce a desired set of motion characteristics; design of linkages, double lever, slider and dwell mechanism; cognate linkages. Kinetic synthesis tasks function generation, path generation and motion generation. *Prerequisite:* MECH 3482 (formerly MECH 2120 or 025.212). Not to be held for credit with MECH 4670 or 025.467.

MECH 4680 Energy Conservation and Utilization Cr.Hrs.4 (Formerly 025.468) Energy supply and demand, advanced thermodynamic cycles, conventional energy sources, alternative energy, conservation of energy, environmental considerations. *Prerequisite:* MECH 2202 (formerly MECH 2200 or 025.220)

MECH 4690 Topics in Heat Transfer and Energy Cr.Hrs.3 (Formerly 025.469) Some combination of the following advanced topics: conduction heat transfer, radiation, heat-exchanger design, two-phase phenomena, fluidization, alternative energy, energy conservation. Other topics of current interest may also be included. *Prerequisite:* MECH 3460 (or MECH 3470) (or 025.347).

MECH 4692 Renewable Energy Cr.Hrs.4 Introduction to renewable energy systems, current and future global energy issues and the need for renewable energy applications, and distributed renewable energy generation. Renewable energy systems that will be considered are: solar heat, solar PV, biomass heat and power, hydro power, and wind power. Students will develop simple numerical models of renewable energy systems. *Prerequisites:* MECH 2202 (formerly MECH 2200 or 025.220) and MECH 2262 (formerly MECH 2260 or 025.226). Pre- or Co requisite: MECH 3460 (formerly MECH 3470 or 025.347)

MECH 4694 Advanced Topics in Heat Transfer Cr.Hrs.4 (Formerly MECH 4690 or 025.469) Some combination of the following advanced topics: conduction heat transfer radiation, heat-exchanger design, two-phase phenomena, fluidization, alternative energy, energy conservation. Other topics of current interest may also be included. *Prerequisite:* MECH 3460 (or MECH 3470 or 025.347). Not to be held for credit with MECH 4690 (or 025.469)

MECH 4702 Design of Thermal Systems Cr.Hrs.4 (Formerly MECH 4700 or 025.470) Modeling of thermal systems; system simulation; design applications of optimization methods: Lagrange multipliers, search methods, and dynamic geometric and linear programming. *Prerequisite:* MECH 2202 (or MECH 2200 or 025.220). Not to be held for credit with MECH 4700 (of 025.470)

MECH 4710 Engineering Systems Simulation Cr.Hrs.4 (Formerly 025.471) Fundamentals of modeling methods useful for industrial and production engineering prob-

lems. Financial, discrete and continuous as well as computer-animated modelling using selected simulation languages.

MECH 4750 Industrial Engineering Graduation Thesis Cr.Hrs.3 (Formerly 025.475) Each graduating student must submit a satisfactory thesis on an industrial engineering subject which will be designated or approved by the head of the department. These are to be submitted to the Department of Mechanical Engineering office by the designated deadline. *Prerequisite:* ENG 2010 (or 130.201) and eligible to graduate.

MECH 4810 Automotive Engineering and Design Cr.Hrs.3 (Formerly 025.481) Introduction to the design of passive suspension systems; control of active suspension systems; tire dynamics; ergonomics, safety and crash dynamics; automotive lighting and digital display trains. *Prerequisite:* MECH 3500 (or 025.350). *Corequisite:* MECH 3420 (or 025.342)

MECH 4812 Automotive Engineering Cr.Hrs.4 (Formerly MECH 4810 or 025.481) Introduction to the design of passive suspension systems; control of active suspension systems; tire dynamics; ergonomics, safety and crash dynamics; automotive lighting and digital display trains. *Prerequisite:* MECH 3502 (formerly MECH 3500 or 025.350) Pre or Co requisite: MECH 3420 (or 025.342). Not to be held for credit with MECH 4810 (or 025.481)

MECH 4822 Numerical Heat Transfer in Fluid Flow Cr.Hrs.4 (Formerly MECH 4820 or 025.482) General conservation equations; specific forms of the conservation equations and energy equations; finite difference methods; one dimensional steady problems' one dimensional unsteady problems' two dimensional steady problems; two dimensional; unsteady problems; convection, solution for the flow field. *Prerequisite:* MATH 3132 (or MATH 3100) (or 136.310), MATH 2120 (or 136.212), MECH 3460 (or MECH 3470 or 025.347) and MECH 3492 (or MECH 3490 or 025.349). Not to be held for credit with MECH 4820 (or 025.482).

MECH 4860 Engineering Design Cr.Hrs.5 (Formerly 025.486) Design projects; teams of students prepare written and oral design reports on solutions to specific problems from Manitoba industries; series of seminars by invited speakers. *Prerequisite:* eligibility for graduation in the current academic year or registered in third year Industrial Cooperative Education Program, (not to be held with the former 024.101). *Prerequisite:* ENG 2010 (or 130.201).

MECH 4870 Fracture and Failure of Engineering Materials Cr.Hrs.4 (Formerly 025.487) Criteria for crack initiation and propagation leading to structural failure. Fracture mechanics and fracture toughness phenomena. Effects of structure geometry, loading rate, environment, temperature, composition and microstructure on material integrity. *Prerequisite:* MECH 3540 (or 025.354).

MECH 4900 Mechatronics System Design Cr.Hrs.4 (Formerly 025.490) The course covers topics in the analysis of control systems and components with the goal to provide students with tools and an understanding of issues related to integrating mechanical, electronic and software components towards building mechatronic devices. Hands-on-experience is provided in the laboratory sessions on simulation and actual computer control of various devices. Problems considered would include application to fluid power systems, systems integration and validation. The focus is placed on learning to work with real hardware. *Prerequisite:* MECH 3430 (or 025.343)

MECH 4910 Manufacturing Co-operative Education Assignment 3 Cr.Hrs.1 (Formerly 025.491) Special work assignment in business, industry, or government for co-operative education students. Requires submission of a written report covering the work completed during the four-month professional assignment, and in-depth presentation of related engineering problems. (Pass/Fail grade only.) *Prerequisite:* MECH 3920 (or 025.392).

MECH 4920 Manufacturing Co-operative Education Assignment 4 Cr.Hrs.1 (Formerly 025.492) Special work assignment in business, industry, or government for co-operative education students. Requires submission of a written report covering the work completed during the four-month professional assignment, and in-depth presentation of related engineering problems. (Pass/Fail grade only.) *Prerequisite:* MECH 4910 (or 025.491)

MECH 4930 Mechanical Engineering Industry Internship (IIP) Cr.Hrs.0 (Formerly 025.493) Supervised work experience normally of 12-16 months duration, concluded by a work report. (Pass/Fail grade only.)

MECH 4960 Manufacturing Process 1 Cr.Hrs.4 (Formerly 025.496) This course will introduce additional or expanded versions of topics introduced in MECH 2290 (or 025.229), "Manufacturing Engineering". Topics will be selected from relationship of manufacturing, material selection to design, process improvement techniques; casting of metals and polymers; machining and cutting; polymers and composites; processing of powders, ceramics and glasses. *Prerequisite:* MECH 2290 (or 025.229).

MECH 4970 Manufacturing Process 2 Cr.Hrs.4 (Formerly 025.497) This course will introduce additional or expanded versions of topics introduced in MECH 4960 (or 025.496), "Manufacturing Process 1", and building on course material from MECH 2290 (or 025.229). Topics will be selected from forming or metals; joining processes; rapid manufacturing; micro-electronics processing; surface engineering and fishing systems. Laboratory experience will be obtained on casting and rolling of metals and comparison of mechanical properties of the two routes. *Prerequisite:* MECH 4960 (or 025.496).

MECH 4980 Mechanical Engineering Laboratory Cr.Hrs.2 (Formerly 025.498) Advanced laboratory course on topics covering different disciplines within mechanical engineering. Comprehensive experiments followed by submission of laboratory reports will be required. One lecture/week will be provided on issues related to experimental techniques. *Prerequisites:* ENG 2010 (or 130.201) (not to be held with the former 024.101) and MECH 3420 (or 025.342).

MECH 4990 Mechanical Engineering Laboratory 2 Cr.Hrs.2 (Formerly 025.499) Advanced laboratory course on topics covering different disciplines within mechanical engineering. Comprehensive experiments followed by submission of laboratory reports will be required. One lecture/week will be provided on issues related to exper-

imental techniques. *Prerequisite:* MECH 2202 (or MECH 2200 or 025.220). Pre or Corequisite: MECH 3460 (or MECH 3470 or 025.347)

SECTION 6: Registration Information

6.1 Initial Access Times

Students are referred to the chapter, "Registration Information: Aurora Student".

6.2 General Information for Engineering Registration

Welcome to the Faculty of Engineering. It is one of the finest engineering faculties in Canada and we are proud of our undergraduate programs. You will find your program challenging and enjoyable.

If you have any questions that are not answered in this *Guide*, or for detailed information on courses (flow charts, 5 year plans), contact your registration representative as follows:

Preliminary Engineering Program: E1-284 EITC
(Engineering Information and Technology Complex)
(204) 474 9807; and Toll Free Canada and USA 1(800)278-9591

Engineering Access Program: E2-442 EITC, (204) 474 9872

Biosystems Engineering: E2-276 EITC, (204) 474 6033

Civil Engineering: E1-368 EITC, (204) 474 9220, E1- 368 EITC, (204) 474-6251

Electrical and Computer Engineering: E2-390 EITC, (204) 474 7237

Mechanical and Manufacturing Engineering: E2-327 EITC, (204) 474 6630

6.2.1 Newly Admitted Engineering Students

The Engineering programs are demanding, and the pace of instruction is very rapid. You **MUST** give each of your courses its due attention starting from day one. You must always remember that in Engineering you must keep up: you don't catch up.

Students will progress through the various engineering programs subject to prerequisite and corequisite requirements and the seven-year rule. Five courses per term (10 courses per session) allows completion in five years or six courses per term (12 courses per session) allows completion in four years.

Most of the preliminary year courses are also offered in Summer Session. Students who are unable to complete at least eight of the 12 preliminary program courses in the fall and winter terms are encouraged to register in Summer Session. Courses completed by June 30th will count towards the eight courses needed to declare to an engineering department

6.2.2 Program Declarations

Student Program Declaration forms will be e-mailed out in March 2009 to all Engineering students in their preliminary year. Students are required to declare their program of choice to the Undergraduate Student Advising Office, E1-284 EITC before the end of the winter term. Acceptance to the programs is competitive, based on grades achieved in eight of the preliminary year courses.

Students are advised to consult with the registration representative for their selected program if they require more information before making a decision. You will not be able to access the registration system to register for second year unless you have selected a program.

6.2.3 University 1 Applications

Students applying to an Engineering program from University 1 must fill out an Engineering application form through the Admissions Office, Room 424 University Centre by 1 May 2007. There is a \$90 registration fee charged at this time.

6.2.4 Course Load Definitions

The minimum course load required to maintain full-time status is as follows:

100% course load = 15 credit hours (credit hours per term), 80% course load = 12 credit hours, 60% course load = 9 credit hours.

6.2.5 Academic Integrity

The Faculty of Engineering, being a professional faculty, expects Engineering students to behave with the highest academic integrity. Academic dis-

honesty, plagiarism, or any other form of cheating in examinations or term tests will be dealt with harshly. Students are referred to the section on Plagiarism and Cheating in the *Undergraduate Calendar*.

6.2.6 Ineligible to Proceed and Intersession

If you are assessed *Ineligible to Proceed in Engineering* following April examinations, you will be required to withdraw from any Intersession, Summer Evening or Summer Day courses you are registered in. You are responsible for any fees incurred. If you are assessed as *Engineering Suspension*, you may take the engineering math courses and other courses not taught by engineering (i.e. ENGL 1310 and PHIL 1290) and are required to transit to an alternate faculty (i.e. Extended Education).

If at the time of registering, you are on Academic Probation, note that to return to Good Academic Standing you must achieve a TGPA of 2.00 or better.

6.2.7 Help Available

Students at the University, especially first-time students, occasionally run into problems in their courses or programs. If this happens to you, remember that help is available and that with help you may be able to resolve a problem situation before it becomes serious. Following are typical problem situations and suggestions on where you may get help.

- Difficulty with a course? Make an appointment with the course instructor or head of department.
- Difficulty with some aspect of the preliminary year? Student Advising Office, E1-284 EITC, telephone (204) 474 9807/8 or 1 (800) 278 9591.
- Can't seem to study effectively? Learning Assistance Centre, 520 University Centre, telephone (204) 474 9251.
- Wish to appeal a decision by a department or the faculty? The Office of Student Advocacy, 519 University Centre, telephone (204) 474 7423.
- Personal problem? Counselling Service, 474 University Centre, telephone (204) 474 8592.
- Medical problem? University Health Services, 104 University Centre, telephone (204) 474 8411.

6.2.8 Final Examinations

Examination schedules are published approximately six weeks prior to the examination period. The final examination timetables are posted on the Internet umanitoba.ca/student/records/exam.htm and hard copies of the schedule can be found in most general offices on campus. Since some examinations are scheduled and/or arranged by the course instructor, make sure that you obtain the correct date, time and location from the course instructor.

6.2.9 Deferred Examinations

Students who are unable to write a final examination because of a serious illness or for compassionate reasons must apply for a deferred examination through the Student Advising Office, E1-284 EITC, as soon as possible but no later than seven days of the last examination the student is scheduled to write. *Final examinations CANNOT be deferred for vacation plans or family social events (weddings, anniversary celebrations). Students who have already written the final examination may not apply for an Examination Deferral.*

6.2.10 E-Mail Accounts

All Engineering students are expected to have an e-mail account with the University of Manitoba. (See the section of this *Guide* on *Obtaining a University of Manitoba email account*). As a student in the Faculty of Engineering, you are expected to check your e-mail regularly. All engineering students with UM accounts are included on the dean's office e-mail list.

6.2.11 University of Manitoba Engineering Students Society (UMES)

The student council members of UMES are involved in various academic, outreach and social activities throughout the year. Their council office is located in E2-292 EITC.

6.2.12 Need A Locker?

Go to the UMES office (E2-292 EITC). You will have to find your own locker partner.

6.3 Registration:

Students in departmental programs may contact the department representative for detailed information on their program.

Preliminary Year

Students entering the Preliminary Year directly from high school may have the ability to register for all 12 courses by selecting one of a number of Pre-planned schedules.

Pre-planned course timetables will register students in all 12 first year courses.

Instructions for block registration and example schedule plans will be posted on the Faculty of Engineering website ahead of the registration period.

Students can withdraw from courses during the first two weeks of classes without financial or academic penalty. Contact the Student Advising Office (474-9807) for more information.

6.3.1 Orientation

All students entering the Preliminary Program in the Faculty of Engineering should attend Orientation. Orientation will be held in September, usually the day before the first day of classes. The date and schedule of events will be mailed out to newly admitted students once the schedule has been finalized.

6.3.2 Dean's Office

For information on program planning, withdrawal from courses, deferred examinations, appeals, and interpretation of regulations, you should seek advice from a student advisor in the Undergraduate Student Advising Office, Room E1-284 EITC. Where necessary, an appointment can be made to meet with the Associate Dean of Engineering (Undergraduate).

6.3.3 Prerequisites and Corequisites

Students who do not obtain standing in fall term courses (D, F or VW) may normally register for the course in winter term. A schedule of sections offered in winter term can be found in the Engineering timetable section (in some instances, the Arts or Science section) of this *Guide*.

If you lack the prerequisite or corequisite of a winter term course that you are already registered in, you must withdraw from that course – it will not be done automatically.

6.3.4 Preliminary Year Guideline of Prerequisites and Corequisites

Students who are enrolled in the preliminary engineering program or taking engineering courses in University 1 should note that the following courses have pre- and co- requisite requirements:

PHYS 1050 (corequisite MATH 1510)

MATH 1710 (prerequisite MATH 1510, corequisite PHYS 1050)

ENG 1450 (corequisite MATH 1710)

Full time students are required to register for three to six courses per term. If you have difficulty with the course load in the fall term, consider taking fewer courses in the winter term.

Please note that all three first year mathematics courses, MATH 1210, MATH 1510 AND MATH 1710 are prerequisites for second year mathematics courses and for a number of engineering courses.

6.3.5 Preliminary Year students Intending to Pursue Computer Engineering

COMP 1020 Computer Science 2 is a prerequisite for COMP 2060 Discrete Structures and Programming in second-year Computer Engineering. Students intending to take Computer Engineering in their second year are advised to register for COMP 1020 in the winter term.

There are two options to consider:

Option 1: Register for COMP 1020 and withdraw from one of your courses in winter term. Most courses in the winter term are offered during Summer Session (May-June, 2007).

Option 2: Drop ENG 1460 and replace it with COMP 1020. ENG 1460 can be registered for in a later term. See the Department of Electrical and Computer Engineering for information.

Clayton H. Riddell Faculty of Environment, Earth, and Resources

Chapter Contents

SECTION 1: History and Guiding Principles

SECTION 2: Admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources

- 2.1 Admission from University 1
- 2.2 Transfer Students
- 2.3 Visiting Students
- 2.4 Second Degree Students
- 2.5 Special Students
- 2.6 Auditing Students

SECTION 3: Degree Regulations and Services Applicable to all Programs in the Clayton H. Riddell Faculty of Environment, Earth, and Resources

- 3.1 Degrees Offered
- 3.2 Courses Offered in Other Faculties and Schools Acceptable for Credit in the Clayton H. Riddell Faculty of Environment, Earth, and Resources
- 3.3 Available Minors in Departments and Faculties
- 3.4 University Written English and Mathematics Requirements
- 3.5 University 1 Requirements of Faculty of Arts and Faculty of Science Courses
- 3.6 Changes in Program Requirements
- 3.7 Prerequisite, Corequisite, Recommended Courses and Course Availability: Definitions
- 3.8 Repeated Courses and Attempted Credit Hours
- 3.9 Voluntary Withdrawals
- 3.10 Authorized Withdrawals
- 3.11 Residence Requirement
- 3.12 Letter of Permission to Take Courses at Another University
- 3.13 Dean's Honour List and Graduating with Distinction or First Class Honours
- 3.14 Academic Warning, Probation and Academic Suspension
- 3.15 Academic Dishonesty
- 3.16 Termwork and Debarment
- 3.17 Deferred Examinations
- 3.18 Challenge for Credit
- 3.19 Appeals Involving Academic Regulations
- 3.20 Incidental Fees
- 3.21 Student Advisor Office Hours
- 3.22 Student Responsibility
- 3.23 Maximum Number of Courses During a Term
- 3.24 Course Space Availability
- 3.25 Registration

3.26 Interfaculty Option in Aging

SECTION 4: Department of Environment and Geography

- 4.1 Academic Staff
- 4.2 Undergraduate Programming Available in the Department of Environment and Geography

SECTION 5: Bachelor of Arts in Geography Degree Regulations and Program Description

- 5.1 Program Information
- 5.2 Entrance Requirements
- 5.3 Minimum Performance Requirements
- 5.4 Dean's Honour List and Graduating with Distinction or First Class Honours
- 5.5 B.A. Geography Program Chart
- 5.6 Systematic Courses (HS, PS, TS) and Area Studies (A)

Note: Geography course descriptions are found in Section 6.7 of this Chapter.

SECTION 6: Bachelor of Science in Physical Geography Degree Regulations and Program Description

SECTION 1: History and Guiding Principles

History

The Clayton H. Riddell Faculty of Environment, Earth, and Resources is the University of Manitoba's newest Faculty, the first to be created in many years. In 2002, the University of Manitoba's Board of Governors approved

implementation of a new Faculty to focus on 'environmental issues and concerns'. In September of 2003, Senate and the Board of Governors approved a structure for the Faculty consisting of three units: the existing Department of Geological Sciences, the Natural Resources Institute and a new Department of Environment and Geography.

Purpose

Our Noble Purpose is to contribute to understanding the changing Earth and human condition and to disseminate and apply this knowledge for the benefit of the present and future.

Mission

Our Mission is to create an intellectual environment conducive to becoming a premier teaching and research Faculty in the broad areas of Earth, environment, sustainable development, resources and human activities. We will accomplish this by using the unique synergies of our inter-dependent disciplines and developing academic programs that respond to the needs of students, changing societal conditions and worldviews and opportunities for research and outreach.

Vision

Our Vision is to be a Faculty of outstanding merit in teaching, research and outreach concerned with complexities of the Earth, environment, sustainable development, resources and human activities.

Our aim is to be a Faculty that:

- is recognized for graduates with skills, competencies, and knowledge required by the needs of society;
- promotes individual excellence and collaboration in research, teaching, and outreach;
- is recognized for community engagement and leadership;
- promotes ethical principles and diversity and an understanding of cultural issues; and
- has the resources required to facilitate pursuit of our mission.

Values

The Clayton H. Riddell Faculty of Environment, Earth, and Resources recognizes that its strength is its people and that the most important measure of its success is the educational achievement of its students. The Riddell Faculty will strive to offer all students, staff and faculty a healthy, safe, open, friendly, supportive, consultative and stimulating environment conducive to individual intellectual growth, personal fulfilment and career progress. We embrace the principles of academic freedom and responsibility, education for its own sake, integrity, inclusion, respect for others, equity, fairness, and accountability. More specifically, the Clayton H. Riddell Faculty of Environment, Earth, and Resources holds, promotes, and demonstrates the following guiding values:

Learning - at the centre of what we do, we promote learning as a lifelong process in our faculty, staff, students and communities - for individual enrichment and the sustainability and betterment of society and our Earth.

Discovery - we promote the creation of new knowledge and its application to societal and environmental problems.

Leadership - we aspire to intellectual, moral, and environmental leadership and to promote environmental responsibility in the university and our communities, local to global.

Diversity/Inclusiveness - we promote and celebrate diversity and open access to education and knowledge and we embrace difference; we value the diverse contributions of the disciplines, cultures, fields and professions that comprise the Faculty; we actively seek participation of groups not well represented in the Faculty, especially the aboriginal people of Manitoba and Canada.

Ethical Practice - we promote ethical practice and integrity in all of our activities and respect for individuals, cultures and ecosystems.

Interdisciplinarity - to understand the complexities of human-environment interactions in all ecological, social, economic, cultural dimensions, we seek to integrate and synthesize knowledge across the disciplines - in the Faculty, University and beyond.

Excellence - we are dedicated to promoting and rewarding excellence in teaching, research and service.

Service/Responsiveness - we seek to identify, respond to, and serve the needs of our students, University, professions and communities - local to global.

Sustainability - we strive to demonstrate our environmental values in all our activities and promote the sustainability of our communities, ecosystems and the Earth.

Innovation - as a new Faculty, we shall adopt responsive and innovative approaches, methods, and technologies in education, curricula, research and service.

Key areas of focus in teaching and research include, *inter alia*:

Applied Geography
Earth Observation Science
Ecotoxicology and Ecological Risk Assessment
Lithospheric Geophysics and Environmental Geophysics
Arctic Systems Science
Meteorological Atmospheric Science
Integrated Environmental Management and Policy

Environmental and Natural Resources Policy and Law

In February 2005, the University of Manitoba named the Clayton H. Riddell Faculty of Environment, Earth, and Resources in honour of Dr. Clayton Riddell, a prominent University of Manitoba graduate, entrepreneur, and exploration geologist. In addition to being a distinguished graduate of the Department of Geological Sciences, an Honorary degree recipient in 2004, and a long-time friend and supporter of the University, Dr. Riddell made a \$10-million gift to the University of Manitoba to create an endowment fund to ensure the success of this Faculty. The \$10-million endowment fund will provide significant support for long-term planning, including funding to recruit and retain top quality faculty members; offer research grants to leverage funding from national granting bodies; develop new areas of curriculum and course delivery; and establish scholarships for outstanding undergraduate and graduate students.

This Faculty is the choice for students who are concerned about the environment in all of its facets from learning about the history of the Earth, to the interaction of human and natural systems, to understanding and acting upon environmental problems, to communicating the importance of 'Environment' to all members of our World. The Clayton H. Riddell Faculty of Environment, Earth, and Resources is a truly exciting, innovative and forward-thinking place, and is home to outstanding teachers, courses, and cutting-edge research. Teaching, research, extension, and learning take place on- and off-campus, and may include activities in places like the High Arctic, Churchill, Delta Marsh, Star Lake, Vancouver Island, Labrador, the United States, India, Dominica, or New Zealand. We believe in practical, hands-on education, focusing on current issues and problems, and we immerse our students into the world of the working environmental professional through courses, cooperative education programs, fieldwork and extensive partnerships.

SECTION 2: Admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources

2.1 Admission from University 1

Most students newly admitted from high school and those who have completed less than 24 credit hours at another post-secondary institution will complete the first year of their degree program in University 1. In University 1, students will select courses from a wide variety of offerings in Faculties across campus. For information about University 1, see the chapter on University 1 in this *Calendar*.

University 1 students are encouraged to apply for admission to a degree program in the Clayton H. Riddell Faculty of Environment, Earth, and Resources once they have completed 24 credit hours of course work and have met the minimum entrance requirements of their intended degree program. **Students must apply to be considered eligible for admission to the Riddell Faculty. Application information is available from the Admissions Office, Enrolment Services, 424 University Centre. This information is also available in the Riddell Faculty general office, 440 Wallace Building, and is posted on the University's website (umanitoba.ca/admissions).**

Faculty admission is determined on the basis of a 2.00 Grade Point Average on a minimum of 24 credit hours of course work from a recognized institution. Note: For students completing the Bachelor of Arts in Geography, entry is based on a Degree Standards Table found in section 5.2.2 in this chapter

Degree programs may define additional entrance requirements and students are referred to the appropriate section of this *Chapter* for further details as follows:

Section 5: Bachelor of Arts in Geography Degree Regulations and Program Description.

Section 6: Bachelor of Science in Physical Geography Degree Regulations and Program Description.

Section 7: Bachelor of Environmental Science and Bachelor of Environmental Studies Degree Regulations and Program Descriptions.

Section 8: Department of Geological Sciences: Bachelor of Science in Geological Sciences - Geology, Geophysics, and General Degree Regulations and Program Descriptions.

2.2 Transfer Students

Students applying for admission from other recognized universities or colleges are called 'transfer students'. For the University of Manitoba's general policy on transfer of credit and advanced standing, see the chapter on Admission to the University of Manitoba in this *Calendar*.

To be eligible for admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources, transfer students must have completed no fewer than 24 credit hours of university level course work and satisfied the minimum performance requirements of the intended degree program. Transfer students who have completed less than 24 credit hours must register in University 1 or Extended Education to complete the required credit hours of course work. Students with more than 24 credit hours who are not admissible to the Riddell Faculty should consider applying to Extended Education as their alternative choice.

Students on academic suspension as a result of work completed at another post-secondary institution or another Faculty will not normally be considered for admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources until the suspension has been served.

Transfer of Credit

External: See the Admissions section of this *Calendar*. Courses completed at an external institution ten years prior to registration in the Clayton H. Riddell Faculty of Environment, Earth, and Resources are not considered for transfer credit. Students should contact a Riddell Faculty student advisor regarding transfer credit policies.

2.3 Visiting Students

Visiting students may apply for admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources on the basis of a Letter of Permission

from the registrant or appropriate Dean of his/her home institution. Certain restrictions may be placed on the kind and number of courses in which a student will be allowed to register. Visiting students may wish to contact a Riddell Faculty student advisor in the Faculty general office for further information.

2.4 Second Degree Students

Students possessing a first degree from a recognized university program are eligible for admission as a Second Degree student provided they attained a minimum cumulative Grade Point Average of 2.00 on their first degree.

Second Degree requirements may be shortened by up to 60 credit hours and, once admitted, students will be expected to satisfy all continuation and graduation requirements in the degree program. Second Degree students are not required to satisfy the University Written English and Mathematics requirement. Specific information on degree requirements following completion of the first degree is available in the Riddell Faculty general office.

2.5 Special Students

After Degree Special Student

Students who have successfully completed a first degree from a recognized university program with a cumulative Grade Point Average of 2.00 or better are eligible for admission as Special Students.

2.6 Auditing Students

Students who wish to audit courses must have written permission from the instructor of the desired course before they can register. Auditing students must register in-person in the Riddell Faculty general office. The Clayton H. Riddell Faculty of Environment, Earth, and Resources prohibits auditors from registering in courses until after the initial access period.

SECTION 3: Degree Regulations Applicable to all Programs in the Clayton H. Riddell Faculty of Environment, Earth, and Resources

The Clayton H. Riddell Faculty of Environment, Earth, and Resources offers degree programs in Environmental Science, Environmental Studies, Geography, Physical Geography, Geological Sciences, Geology and Geophysics. All students are advised to examine their interests and future goals carefully to make appropriate program choices. Consultation with Faculty student advisors and/or department representatives is strongly encouraged.

3.1 Degrees Offered

Geography

Bachelor of Arts in Geography

Minimum time to graduation: Three years (University 1, plus two years). This degree is also called the General program. There is no time limit to complete the degree.

Bachelor of Arts in Geography (Advanced)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Bachelor of Arts in Geography (Honours)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Physical Geography

Bachelor of Science in Physical Geography (Major)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Bachelor of Science in Physical Geography (Major Coop)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Bachelor of Science in Physical Geography (Honours)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Bachelor of Science in Physical Geography (Honours Coop)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Environmental Science

Bachelor of Environmental Science

Minimum time to graduation: Three years (University 1, plus two years). This degree is also called the General program. There is no time limit to complete the degree.

Bachelor of Environmental Science (Major)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Bachelor of Environmental Science (Major Coop)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Bachelor of Environmental Science (Honours)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Bachelor of Environmental Science (Honours Coop)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Environmental Studies

Bachelor of Environmental Studies

Minimum time to graduation: Three years (University 1, plus two years). This degree is also called the General program. There is no time limit to complete the degree.

Bachelor of Environmental Studies (Major)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Bachelor of Environmental Studies (Major Coop)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Bachelor of Environmental Studies (Honours)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Bachelor of Environmental Studies (Honours Coop)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Geological Sciences

Bachelor of Science in Geological Sciences

Minimum time to graduation: Three years (University 1, plus two years). This degree is also called the General program. There is no time limit to complete the degree.

Geology

Bachelor of Science in Geological Sciences - Geology (Major)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Bachelor of Science in Geological Sciences - Geology (Honours)

Minimum time to graduation: Four years (University 1, plus three years). There is an eight-year time limit to complete the degree.

Geophysics

Bachelor of Science in Geological Sciences - Geophysics (Major)

Minimum time to graduation: Four years (University 1, plus three years). There is no time limit to complete the degree.

Bachelor of Science in Geological Sciences - Geophysics (Honours)

Minimum time to graduation: Four years (University 1, plus three years). There is an eight-year time limit to complete the degree.

Reminder

It is the student's responsibility to ensure that degree requirements are met. Riddell Faculty student advisors are available to clarify faculty and university regulations and degree requirements. A final and thorough program check should be completed after students have registered for their last year

or course. The Clayton H. Riddell Faculty of Environment, Earth, and Resources is not responsible for those students who do not satisfy degree requirements.

The provision of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies in this *Calendar*, apply to all students. In addition, the Riddell Faculty has regulations and requirements, published below, that apply specifically to our students.

3.2 Courses Offered in Other Faculties and Schools Acceptable for Credit in the Clayton H. Riddell Faculty of Environment, Earth, and Resources

Students who are registered in the Clayton H. Riddell Faculty of Environment, Earth, and Resources may take any course offered by another faculty or school for credit towards their degree, subject to permission from the department head (or designate) and/or a Riddell Faculty student advisor.

3.3 Available Minors in Departments and Faculties

Students in the B.Env.Sc., B.Env.St., B.Sc. Geological Sciences (Geology and Geophysics) and B.Sc. Physical Geography degree programs may, if they wish, declare and complete a Minor from departments and interdisciplinary programs in which a Minor is offered. Students registered in the B.A. Geography (General; Advanced) and B.Sc. Geological Sciences (General) are required to complete a Minor prior to graduation. Students may not, however, declare both their Major and Minor from the same subject area. It should be noted that for Honours students any consideration of completing a Minor should be made early due to restricted opportunities in later years in their programs.

A Minor will normally consist of at least 18 credit hours, with a minimum of 12 credit hours being at the 2000-, 3000-, and 4000-levels (although there are some exceptions). It should be noted that no course can be used as part of a prescribed Honours or Major program and also be part of a prescribed Minor. An alternate course will have to be selected to satisfy the Minor requirement. For example: if a course in Economics is part of the student's Major or Honours program in B.Env.Sc., then that course may not be used as part of a Minor in Economics.

Students planning to enrol in the I.H. Asper School of Business [Management Minor] must consult a Riddell Faculty student advisor as enrolment in this minor program is limited. *The Management minor consists of any 18 credit hours in courses offered by the Asper School of Business.*

3.4 University Written English and Mathematics Requirement

Students are required to complete the University Written English and Mathematics requirement as outlined in the chapter, General Academic Regulations and Requirements of this *Calendar*. It is recommended that students complete these requirements while in University 1 or in Year 2 of their program.

A list of all courses that satisfy the Written English and Mathematics requirements also appears in Appendix A of the chapter, General Academic Regulations and Requirements of this *Calendar*. Course numbers of designated written English courses are marked with a 'W' and designated Mathematics courses are marked with an 'M'. Students may wish to consider *GEOL 1410W Natural Disasters and Global Change* (3), *GEOL 3130W Communication Methods in the Geological Sciences* (3), *GEOG 3480W Canadian Problems* (3), *GEOG 3510W Agricultural Geography* (6), *GEOG 3580W Landforms* (6) and/or *GEOG 3680M Research Methods in Geography* (6) to satisfy these requirements. In addition, the Department of Environment and Geography offers several courses annually through Distance Education which satisfy the 'W' requirement.

3.5 University 1 Requirements of Faculty of Arts and Faculty of Science Courses

Students are required to take 6 credit hours from the Faculty of Arts, 6 credit hours from the Faculty of Science, and 6 credit hours from the Clayton H. Riddell Faculty of Environment, Earth, and Resources or the Faculty of Science or the Faculty of Arts. See the *chapter* University 1 for further details.

3.6 Changes in Program Requirements

Once students have successfully completed any portion of a degree program, they will not be required to meet new course requirements subsequently stipulated for that portion of the program, whether the requirements be for the Faculty or for an individual degree program. Students are required to complete their program in its entirety as outlined in the Calendar effective upon the point of admission to the Faculty and program.

3.7 Prerequisite, Corequisite, Recommended Courses and Course Availability: Definitions

Prerequisite: If a course is prerequisite to a second course, the prerequisite must be met in order to continue in the second course. The department giving the second course may require a minimum grade of 'C' in the first course to register in the second course. All courses offered by the Clayton H. Riddell Faculty of Environment, Earth, and Resources stipulate a grade of 'C' in the prerequisite course(s), unless waived by the department head.

Some prerequisite courses may be taken **concurrently**. In this instance, the course description will indicate that a specific course is a pre- or corequisite for the course in which you wish to register. If you have not previously taken the course, you may register for it in the same term.

Recommended: If a course is strongly recommended relative to other courses in a program, a student is advised to take it. The final decision as to whether or not to take the course rests with the student. Students are advised to consult with their department head (or designate) or the Faculty student advisor in the general office for guidance.

NOTES: Students who are allowed to enroll in courses or programs provisionally pending satisfactory completion of pre- or corequisites must, if unsuccessful, withdraw or amend their registration accordingly within the stipulated course revision deadline. Those students who do not may be withdrawn automatically and may relinquish the opportunity to add appropriate courses.

Any prerequisite, prerequisite or corequisite (concurrent) requirement or corequisite may be waived with written consent of the department head or designate.

Course Availability: All courses listed in this *Calendar* are not offered every year. The course(s) offered for the current academic term are published in the online undergraduate calendar (umanitoba.ca/calendar). The Department of Environment and Geography offer numerous courses under the following course numbers: *GEOG 3770 Special Topics in Geography (3)*, *GEOG 4670 Selected Issues (3)*, *GEOG 3740 Field Studies in Geography (6)*, *GEOG 3750 Field Studies in Geography (3)*, *GEOG 3760 Special Topics in Geography (6)*, *ENVR 2010 Field Topics in Environment (1.5)*, *ENVR 2020 Extended Field Topics in Environment (3)*, *ENVR 3000 Multidisciplinary Topics in Environmental Science (3)*, *ENVR 3010 Field Topics in Environmental Science 1 (1.5)*, *ENVR 3020 Extended Field Topics in Environmental Science 1 (3)*, *ENVR 4000 Multidisciplinary Topics in Environmental Science (3)*, *ENVR 4010 Field Topics in Environmental Science 2 (1.5)*, and *ENVR 4020 Extended Field Topics in Environmental Science 2 (3)*. Students are referred to the Department of Environment and Geography and the online calendar for current information.

3.8 Repeated Courses and Attempted Credit Hours

Clayton H. Riddell Faculty of Environment, Earth, and Resources students are subject to the University of Manitoba regulations (see General Academic Regulations and Policy, Repeating a Course as described in this *Calendar*) and the Riddell Faculty degree regulations regarding eligibility to repeat a course. Repeating a course will not result in the removal of the first attempt and grade in that course from the student's record. The course will appear on the transcript as many times as it has been repeated. Only the grade from the last attempt will be included in the calculation of the cumulative and degree Grade Point Average, unless otherwise stipulated by the degree program.

Students who wish to repeat a course must contact a Riddell Faculty student advisor for approval prior to registration.

There is no limit to the number of credit hours permitted in the degree programs in the Faculty provided a student does not exceed the credit hour limit of failed courses stated for specific programs.

Degree programs may define additional requirements regarding repeated courses and attempted credit hours and students are referred to the appropriate section of this *Chapter* for further details as follows:

Section 5: Bachelor of Arts in Geography Degree Regulations and Program Description.

Section 6: Bachelor of Science in Physical Geography Degree Regulations and Program Description.

Section 7: Bachelor of Environmental Science and Bachelor of Environmental Studies Degree Regulations and Program Descriptions.

Section 8: Department of Geological Sciences: Bachelor of Science in Geological Sciences - Geology, Geophysics, and General Degree Regulations and Program Descriptions

3.9 Voluntary Withdrawals

The responsibility for initiating withdrawals rests solely with the student. When eligible to do so, Voluntary Withdrawals must be done through Aurora Student, otherwise withdrawals must be authorized first by the Faculty general office and then through the Registrar's Office. No withdrawals will be permitted after the deadlines posted in the Academic Schedule.

3.10 Authorized Withdrawals

Subject to the provision of satisfactory documentation to a Riddell Faculty student advisor in the Faculty general office, Authorized Withdrawals (AW's) may be permitted on medical or compassionate grounds.

3.11 Residence Requirement

Students are required to complete a minimum number of credit hours at the University of Manitoba. Students should refer to their degree program in the appropriate section 5, 6, 7, or 8 of this *chapter* for further information. The courses used to satisfy the residence requirement must be acceptable for credit by the degree program in the Clayton H. Riddell Faculty of Environment, Earth, and Resources. Residence requirements apply to both first and second degree students.

3.12 Letter of Permission to Take Courses at Another University

Students wishing to complete courses at another institution for credit at this university must obtain written permission from the Registrar's Office prior to registering at the other institution or no credit will be permitted. Any earned grades are transferred and form part of the degree Grade Point Average, when applicable. Students who register for courses elsewhere without a Letter of Permission must reapply to the Faculty.

Students who are on academic suspension may not elect courses at another institution for credit toward an Environment, Earth, and Resources degree at this university.

Attendance at Other Institutions

Students who attend other post-secondary institutions without a Letter of Permission must reapply for admission to the Faculty before the application deadline and be academically competitive for admission. Similarly, students registered in the Clayton H. Riddell Faculty of Environment, Earth, and Resources may not be registered at another academic institution at the same time unless they are registered elsewhere on a Letter of Permission. The penalty for unauthorized or undisclosed attendance may be disciplinary withdrawal or academic suspension.

3.13 Dean's Honour List and Graduating with Distinction or First Class Honours

Dean's Honour List

A student's eligibility for the Dean's Honour List designation is evaluated after each term.

Students enrolled in a minimum of 12 credit hours of course work during a term and who achieve a term Grade Point Average of 3.50 or higher will be placed on the Dean's Honour List. The Dean's Honour List designation will appear on the student's transcript of marks. Students should refer to their degree program in section 5, 6, 7, or 8 for further information.

With Distinction

To obtain a Degree with Distinction, a student must achieve a minimum degree Grade Point Average as specified by the degree program calculated

on the basis of a minimum number of credit hours of course work. Students should refer to their degree program in section 5, 6, 7, or 8 of this *chapter* for further information.

The term 'Degree with Distinction' will appear both on the parchment and on the student's transcript of marks.

First Class Honours

To graduate with First Class Honours, a student must achieve a minimum degree Grade Point Average as specified by the degree program calculated on the basis of a minimum number of credit hours of course work. Students should refer to their degree program in section 5, 6, 7, or 8 of this *chapter* for further information.

The term 'First Class Honours' will appear both on the parchment and on the student's transcript of marks.

3.14 Academic Warning, Probation and Academic Suspension

Assessment will take place after each term only if a student completes more than 4.0 credit hours in any given term.

Students will receive an academic warning if, at the point of assessment following a term, he/she fails to achieve the required minimum performance level. The notation 'Academic Warning' will be recorded on the student's transcript of marks.

While on academic warning, students in the Faculty are permitted to register for two additional terms up to a maximum of 30 credit hours to attain the minimum performance requirements. Those who fail to meet this standard will be placed **on probation** for the next two terms of registration. The notation 'On Probation' will be recorded on the student's transcript of marks.

While on probation, students are permitted to register for two additional terms up to a maximum of 30 credit hours to attain the minimum performance requirements. Those who fail to meet this standard will be placed on **academic suspension for one year**. The notation, 'Academic Suspension for One Year' will be recorded on the student's transcript of marks. A student placed on academic suspension is not allowed to register in the Clayton H. Riddell Faculty of Environment, Earth, and Resources during the duration of the suspension.

A student will be placed on **academic suspension for two years** under the following circumstances:

- Upon return from one year suspension, the student fails to attain a 2.00 degree grade point average in the following two terms after the probationary assessment (see a Riddell Faculty student advisor for information).
- The Faculty calculates that it is mathematically impossible for the student to clear his/her probationary standing by the following assessment period.
- The student exceeds the maximum number of credit hours of failed courses.

The notation, 'Academic Suspension for Two Years', will be recorded on the student's transcript of marks. Those serving two-year suspensions are required to start the degree afresh should they choose to return to the Clayton H. Riddell Faculty of Environment, Earth, and Resources. Students may appeal for transfer of credit up to 30 credit hours in courses in which a minimum grade of 'C' was achieved.

Students should consult with a Riddell Faculty student advisor for further assistance in clearing their academic warning, probation or suspension.

3.15 Academic Dishonesty

Academic dishonesty is intentional cheating, fabrication, impersonation, or plagiarism. It is also knowingly helping or attempting to help others to be dishonest. Academic dishonesty lowers scholastic quality and defrauds others who will eventually depend on their own knowledge and integrity.

Plagiarism or any other form of cheating on examinations, term tests, or assignments is subject to academic penalty as serious as suspension or expulsion from the Faculty or University.

Students who are unsure of what constitutes academic dishonesty should refer to the regulations in the chapter, General Academic Regulations and Policy, Plagiarism and Cheating in this *Calendar* and consult with your professor or instructor.

3.16 Termwork and Debarment

A student is responsible for the completion of laboratory work, assignments, tests and other class work as prescribed by the course syllabus. A student who does not meet termwork requirements to the satisfaction of the Associate Dean (Academic) will receive a warning to this effect. If this warning is ignored, a student may be debarred from the course. Any student debarred from a course receives an automatic grade of 'F' in that course.

3.17 Deferred Examinations

A student who is unable to write a final examination because of illness or other incapacity or compassionate reasons must file an application for deferred examination in the Clayton H. Riddell Faculty of Environment, Earth, and Resources general office. The application must be filed within seven working days of the last examination that the student is scheduled to write in that series. Appropriate documentation must be provided that verifies the incapacity existed at the time the examination was to be written.

A deferred examination is offered in a manner prescribed by the department concerned. This is normally written within 30 working days of the last examination in that series.

Students requesting deferred examinations on the grounds that the examinations conflict with vacation or holiday plans shall not be granted deferrals.

A deferred examination is not normally granted to a student who has written the final examination.

Refer to the General Academic Regulations and Policy, Deferred Examinations in this *Calendar* for further information.

3.18 Challenge for Credit

Any student wishing to challenge a course for credit should contact the Clayton H. Riddell Faculty of Environment, Earth, and Resources general office.

3.19 Appeals Involving Academic Regulations

The Student Appeals and Discipline Committee in the Faculty considers appeals from students who request special consideration with respect to the rules and regulations governing their degree program and qualifications for graduation.

Appeals should be addressed to: Student Advisor, Secretary Student Appeals and Discipline Committee, General Office, Clayton H. Riddell Faculty of Environment, Earth, and Resources, 440 Wallace Building.

3.20 Incidental Fees

Incidental fees are assessed for some courses. This information is available in the department offices as well as the Clayton H. Riddell Faculty of Environment, Earth, and Resources general office, 440 Wallace Building.

3.21 Student Advisor Office Hours

Monday through Friday: 9:00 a.m. to 4:00 p.m.

Evening appointments: In exceptional cases, evening appointments can be arranged.

3.22 Student Responsibility

It is your responsibility to be familiar with the regulations, courses, and graduation requirements of your degree program. You are advised to review the appropriate sections of this *Calendar* carefully when selecting your courses to ensure compliance with degree program requirements. If you are not sure of how regulations and requirements apply to your case, please consult a Riddell Faculty student advisor. Since a complete graduation check is not done until you have declared your intention to graduate, you are encouraged to make an appointment with a Riddell Faculty student advisor prior to your initial registration access date to confirm you are meeting the degree requirements. Ultimately you are responsible to ensure compliance with degree program requirements.

Note: While we welcome the opportunity to assist you, it is important for you to realize that *it is your responsibility* to be familiar with university and Riddell Faculty academic regulations and registration procedures as they are described in this calendar.

3.23 Maximum Number of Courses During a Term

You may attempt a maximum of 15 credit hours in any one term unless otherwise stipulated by your program. If you wish to exceed the normal load you may apply in-person at the Faculty General Office, or complete the form available on the Riddell Faculty web page. (umanitoba.ca/environment)

3.24 Course Space Availability

The initial registration access time is based on *academic performance* from the Fall and/or Winter terms; therefore, space in all courses is available on the system from the beginning of the registration period for Fall and Winter terms.

3.25 Registration

Before the initial access begins

- Review your program requirements as outlined in the appropriate section of this *Calendar* and see a Riddell Faculty student advisor.
- Obtain written approvals, including Major, Advanced, and Honours forms, prerequisite waivers, course and term overloads, etc., and deliver them to the Faculty general office to ensure that they are programmed into your academic record. You should consult with a Faculty student advisor for final approval.
- Know your registration time. See above for information and review the registration instructions in the chapter, the *Aurora Student Registration System*.

What Aurora Student cannot do:

Aurora Student will not check degree requirements. You are responsible for knowing the requirements of your degree. Consult a Riddell Faculty student advisor for advice and assistance if degree requirements are unclear.

You cannot add or change a course classification through *Aurora Student*. Therefore, if you are an undergraduate student and wish to take a course as an Auditor, or as Challenge for Credit, you must add this course in-person in the Riddell Faculty general office within the normal deadlines for such activity.

Aurora Student will not prevent a student from registering in two (or more) courses that are designated not to be held for credit with one another. It is the student's responsibility to ensure that they are not registered for courses that are ineligible to be held for credit with one another. Read the course descriptions carefully. If you are unsure about a course you have selected, check with a Riddell Faculty student advisor prior to the revision deadline. No academic concessions will be granted in this regard.

Students are not able to change a section without first completely dropping the course they are in, and then adding the desired section.

Have you been away for a While?

Students who have been away from the Riddell Faculty for more than a year cannot use Aurora Student until they have consulted a Riddell Faculty student advisor. Students who have attended another post-secondary institution since their last registration at the University of Manitoba must normally re-apply for admission.

3.26 Interfaculty Option in Aging

Students in the B. Env. Sc., B. Env. St. and B.A. in Geography program may, if they wish, declare and complete the Option In Aging.

The Option in Aging spans six faculties, each of which offers its own specialized and targeted courses on aging. It is an opportunity to expand a student's area of study into several faculties, classrooms and learning experiences, giving a diverse and well-rounded educational experience.

To complete the Option, Clayton H. Riddell Faculty of Environment, Earth, and Resources students will need to complete the following courses, for a total of 18 credit hours of aging-related course work.

- 1) Two required courses of all students in the Option in Aging:
 - a. KIN /NURS 2610 Health and Physical Aspects of Aging (3 credit hours)
 - b. HMEC/REC /SWRK 2650 Social Aspects of Aging (3 credit hours)

- 2) Two courses required of all Clayton H. Riddell Faculty of Environment, Earth, and Resources students in the Option in Aging:

- a. GEOG 4710 Geography of the Elderly and Aging (3 credit hours)
- b. GEOG 4290 Geographies of Health and Health Care (3 credit hours)

- 3) An additional 6 credit hours of aging-related course work from any of the other faculties participating in the Option. This includes units in the Faculties of:

- Arts
- Human Ecology
- Nursing
- Kinesiology and Recreation Management
- Social Work

Students are encouraged to meet with a student advisor to select aging-related courses from other units. They may also find guidance on the Option in Aging website (umanitoba.ca/option_in_aging).

Upon completion of these requirements, a 'notation' will be added to the student's transcript indicating they have completed the Option in Aging.

SECTION 4: Department of Environment and Geography

4.1 Academic Staff

Distinguished Professor

Smil, V., M.S. (Prague), Ph.D. (Pennsylvania State), F.R.S.C.

Senior Scholars

Brierley, J.S., B.A. (Victoria), Dip.Ed. (Oxford), M.A. (Alberta), Ph.D. (Edinburgh); **Foster, R.H.**, B.A. (Berkeley), M.A. (San Francisco State), Ph.D. (Berkeley); **Smith, G.C.**, B.A.(Hons.), M.A. (Reading), Ph.D. (McMaster); **Tiwari, R.C.**, M.A. (Agra), Ph.D. (Reading).

Professors

Barber, D.G., B.P.E., M.N.R.M. (Manitoba), Ph.D. (Waterloo), Canada Research Chair; **Baydack, R.K.**, B.Sc.(Hons.), M.N.R.M. (Manitoba), Ph.D. (Colorado State); **Norton, W.**, B.A.(Hons.), Dip.Ed.(Hull), M.A. (Queens), Ph.D. (McMaster); **Oakes, J.E.**, B.H.Ecol., M.Sc., Ph.D. (Manitoba); **Stewart, R.E.**, B.Sc.(Hons.) (Manitoba), M.Sc., Ph.D. (Toronto); **Todd, D.**, B.A.(Hons.), Cert. Ed. (Leeds), M.A. (Queens), Ph.D. (London School of Economics).

Associate Professors

Benbow, S.M.P., B.A.(Hons.), Ph.D. (Liverpool); **Hallman, B.C.**, B.A., M.A., Ph.D. (Guelph); **Hanesiak, J.M.**, B.Sc. (Winnipeg), M.Sc. (York), Ph.D. (Manitoba); **McLachlan, S.M.**, B.Sc. (Hons.) (McMaster), M.Sc. (Guelph), Ph.D. (York); **Papakyriakou, T.N.**, B.Sc. (McMaster), M.Sc. (Queens), Ph.D. (Waterloo); **Wang, F.**, B.Sc. (Wuhan), Ph.D. (Peking).

Assistant Professors

Hanson, M.L., B.Sc.(Hons) (Toronto), Ph.D. (Guelph); **Walker, D.J.**, B.Sc.(Hons), M.Sc., Ph.D. (Manitoba).

Instructors

Christmas, L., B.Sc. (Victoria), M.A. (Saskatchewan) (Instructor I); **Hunter, K.**, B.Sc., M.Sc. (Manitoba) (Instructor II); **Iacozza, J.**, B.Sc. (McMaster), M.A. (Manitoba) (Instructor II).

4.2 Undergraduate Programming in the Department of Environment and Geography

The fields of study in this department can be divided into four overlapping areas: environmental sciences, environmental studies, human geography and physical geography. These areas are built on a diverse range of academic frameworks or foundations, including: natural, physical and social sciences, education, law, agriculture, management, medicine, humanities and architecture.

Environmental Science applies scientific knowledge from many disciplines to issues and questions relating to an increasing human population, the sustainability of resource use, degradation caused by pollution and disturbance, and the endangerment and extinction of species and natural systems. Environmental Studies applies the theory and practice of group and organizational communication, understanding public policies and programs that underscore environmental concerns, and the need to integrate diverse social, institutional, political and legal considerations inherent in attaining environmental objectives. (Students have the opportunity to focus advanced studies in one of several areas, defined through consultation with a Riddell Faculty student advisor.)

"Human Geography examines how people have been influenced by the environment and how, in turn, they have left their mark on the environment," Dr. Daniel Todd, Human Geographer. Students may choose to focus their studies into one of several areas including *Human-Environment Relations, Urban and Rural Development, Social Cultural Geography, Population, Resources and Development, and Area Studies*.

Areas of physical geography include the study of the environment through aspects of atmospheric science, geomatics, biogeography, and hydrology. Streams are currently available in *Atmospheric and Hydrological Sciences, Geomatics* (an emerging subfield, referring to the techniques of spatial data acquisition, handling and analysis) and *Physical Geography*.

Potential careers for graduates of these programs include a diverse array of possibilities in the natural sciences, social sciences, or a combination of both. Graduates are poised to assume positions where they identify and analyze the local, regional, national, and global patterns that shape our lives. As well, technical skills such as geographic information systems and remote sensing are demanded in several of the environmental sectors. Graduates of these programs can expect to enter the workforce in private, government, research, or not-for-profit sectors.

SECTION 5: Bachelor of Arts in Geography Degree Regulations and Program Description

Department Head: Ronald Stewart

General Office: 211 Isbister Building

Telephone: (204) 474-9667

Fax: (204) 474-7699

Website: umanitoba.ca/faculties/environment/departments/geography/index.html

Email: environment_geography@umanitoba.ca

5.1 Program Information

There are four broad categories of courses in the Geography discipline: **physical** geography is concerned with physical features on and over the globe; **human** geography examines the products of human activity; **regional** geography attempts to achieve a synthesis of physical and human geography of a particular place; and **techniques** in geography focus on analytical methods.

The attraction of Geography as a discipline lies in its diverse interests and approaches to knowledge building while being centred on the fundamental concepts of human-environment relations, location/place and space/distance. Geographers see the world and want to know how physical processes and systems shape the land, air, water, flora and fauna around them and how these are influenced by human activity. We want to know how human societies, cultures, and economies work and how these human systems are interdependent with each other and with natural systems. We work at a variety of geographic scales, from the micro-scale of local communities and regions, through the macro-scale of global human and physical systems. Geography embraces the study of topics as wide-ranging as: weather and climate, population distribution, agricultural systems, globalization, landforms and geomorphology, environmental perceptions, health and healthcare, and biogeography. Therefore, by selecting courses from within the department, as well as complementary courses from other academic units of the University, students can develop fascinating, focused and challenging degree programs that will prepare them for careers in a variety of areas.

The General degree in Geography provides students with a basic level of understanding of the discipline and its inter-relationships. **This degree is also a useful consideration for students planning to complete the After-**

Degree Bachelor of Education program (see the Faculty of Education chapter of this Calendar). The General degree program may be completed entirely by Distance Education (see the Distance Education Guide for further details). The Advanced degree program in Geography provides opportunities for students who desire a broad geographical education along with a reasonable degree of specialization in a particular field of Geography. Students planning a professional career or a high degree of specialization in Geography are strongly advised to enter the Honours degree program. The Honours degree demands the highest scholastic performance of all programs available. Students are strongly advised to enter an Honours degree program with their admission to the Bachelor of Arts in Geography. Consultation with the department head is also advised.

Structure of the B.A. Geography Degree Program

The structure of the B.A. Geography degree is summarized as follows:

A Geography (Major) component that varies in credit hour requirement depending on the degree program: 30 credit hours in the General; 54 credit hours in the Advanced; and 72 credit hours in the Honours. Students are not permitted to declare a second major.

Advanced and General degree students must complete a **Minor** in a subject field that is different than that of the declared major, and can be chosen from one of the other programs in the Clayton H. Riddell Faculty of Environment, Earth, and Resources. A **minor** will normally consist of 18 credit hours from a department offering this option at the University of Manitoba. Students can declare only one minor. Students in the B.A. Geography are not permitted to complete a Minor in Physical Geography. The Minor requirements are described in section 3.3 of this *Chapter*. Contact a Riddell Faculty student advisor in the Faculty general office for further information about eligible Minors.

Students must complete 5 subject fields with 6 credit hours in each (30 credit hours). For example: 6 credit hours in Geography, plus 6 credit hours in Environmental Science, plus 6 credit hours in Geological Sciences, plus 6 credit hours in Anthropology, plus 6 credit hours in Native Studies.

Students must also complete 6 credit hours in Humanities and 6 credit hours offered by the Faculty of Science. Note: Students can satisfy both a Humanity (or Science) and one of the 5 subject fields required with the same 6 credit hours of courses.

Humanities

Course subjects taught by the Faculty of Arts that can be applied to the Humanities requirement include: Asian Studies, Canadian Studies, Catholic Studies, Classical Studies, Drama, English (excluding ENGL 0930, ENGL 0940, ENGL 2000, ENGL 2001), Film Studies, French, German, Greek, History, Icelandic, Italian, Latin, Native Languages, Native Studies, Near Eastern and Judaic Studies, Philosophy, Polish, Religion, Russian, Spanish, Theatre, Ukrainian, and Yiddish. In addition the following courses may be used: Women's and Gender Studies WOMN 1530, WOMN 2530, WOMN 2570, WOMN 2600, WOMN 3570, WOMN 3600, WOMN 3610, WOMN 3620, and others including ARTS 1140, ARTS 1150, ARTS 2640 and ARTS 2650. Music and History of Art may also be eligible courses. Students should see a Riddell Faculty student advisor for further information.

Sciences

Course subjects offered by the Faculty of Science include: Astronomy, Biology, Chemistry, Computer Science, Forensics, Mathematics, Microbiology, Physics, and Statistics.

The qualifications of the degree programs are summarized as follows:

General

To qualify for the degree Bachelor of Arts in Geography, students must complete 90 credit hours including: all course requirements in their Geography General Major; a chosen minor field; the requirements in the five subject fields; and areas of Humanities and Sciences. As well, students must satisfy the Riddell Faculty regulations outlined in section 3 of this *Chapter*. Minimum performance requirements include passing grades ('D' or better) in each course and a minimum degree Grade Point Average of 2.00 on Geography courses as well as the 90 credit hours that constitute the degree. Students cannot exceed 48 credit hours of failed courses.

Advanced

To qualify for the Bachelor of Arts in Geography (Advanced) degree, students must complete 120 credit hours including: all courses and performance requirements in their Geography Advanced Major; a chosen minor

field: the requirements in the five subject fields; and areas of Humanities and Sciences. As well, students must satisfy the Riddell Faculty regulations outlined in section 3 of this *Chapter*. Minimum performance requirements include passing grades ('D' or better) in each course and a minimum degree Grade Point Average of 2.00 on Geography courses and the 120 credit hours which constitute the degree. Students cannot exceed 18 credit hours of failed courses.

Honours

To qualify for the Bachelor of Arts in Geography (Honours) designation, students must complete 120 credit hours including: all course and performance requirements; the requirements in the five subject fields, and the areas of Humanities and Sciences. As well, students must satisfy the Riddell Faculty regulations outlined in section 3 of this *Chapter*. Minimum performance requirements include passing grades ('D' or better) in each

course and a minimum degree Grade Point Average of 3.00 on Geography courses and the 120 credit hours which constitute the degree. Students cannot exceed 18 credit hours of failed courses.

5.2 Entrance Requirements

Students are required to attain a minimum degree Grade Point Average of 2.00 based on the Degree Standards Table in Section 5.2.2 to be eligible for admission to the B.A. in Geography. Students who are admitted will be placed in the General degree program. Students may be eligible for transfer to either the Advanced or Honours degree program provided they satisfy the entrance requirements defined in 5.2.1. To enter the Advanced or Honours degree program, a student must consult with a Riddell Faculty student advisor in the Faculty general office.

5.2.1 Entrance Requirements				
Degree Program in B.A. Geography	Minimum Number of Credit Hours	Minimum Degree Grade Point Average	Maximum Credit Hours of Failed courses	Additional Entrance Requirements
General	24	2.00 ¹	48	grade of 'C' in GEOG 1200 ² (or in each of GEOG 1280 and GEOG 1290)
Advanced	24	2.00	18	
Honours	24	3.00	18	grade of 'B' in GEOG 1200 ² (or in each of GEOG 1280 and GEOG 1290) or a GPA of 3.00 or better in all Geography courses

¹Minimum Grade Point Average for entrance into the General degree program is determined using the Degree Standards Table in 5.2.2.
²GEOG 120¹ or both GEOG 1281 and GEOG 1291 may be used in lieu of GEOG 1200, or GEOG 1280 and GEOG 1290, respectively.

5.2.2 Grade Point Average Calculation for Entrance and Continuation

General degree students in the B.A. Geography must attain a minimum 2.00 Grade Point Average at each point of assessment. The Degree Standards Table listed below is used to determine a student's eligibility for admission to the Riddell Faculty as well as evaluate a student's performance after each term.

5.2.2 Degree Standards Table	
Credit hours	Minimum Degree GPA
24-30	1.80
33-45	1.85
48-60	1.90
63-75	1.95
78-90	2.00
93+ hours	2.00

5.3 Minimum Performance Requirements

A student's academic performance is assessed first with his/her application for admission to the Riddell Faculty and then following each *term* in which the student is registered in more than 4.0 credit hours. To be in **good standing** and permitted to continue in a degree program, a student must achieve the minimum standards outlined for his/her degree program at each point of assessment. For General degree students, this includes the Degree Standards Table outlined above in 5.2.2, as well as the requirements outlined in 5.3.1. Students in the Advanced and Honours degrees are required to satisfy the requirements listed in 5.3.1. Minimum academic performance is based on the degree Grade Point Average and number of failed

courses. Prior to each registration, Advanced and Honours degree students must have their course selections approved by a Riddell Faculty student advisor. Students may not make any subsequent changes without receiving prior written permission.

To graduate with a B.A. Geography with the intended degree designation, a student must achieve the minimum performance standards and graduation requirements outlined in 5.3.1 following their last *term of registration* and satisfy all faculty and degree requirements in Geography as defined in sections 5.3.1 and 5.5 of this *Chapter*.

Students in the Honours and Advanced degree programs who do not meet these minimum performance requirements will be withdrawn from their existing program and placed in the Advanced and General degrees respectively. Students who do not meet the minimum performance requirements for the General degree program will receive an academic warning, be placed on probation or academic suspension as defined in section 3.14 Academic Warning, Probation and Academic Suspension in this *Chapter*. Students withdrawn from the Honours degree program may be eligible to enter the Advanced program and are required to obtain permission from a Riddell Faculty student advisor.

Students withdrawn from the Honours degree program will have the notation, 'Required to Withdraw from the Honours Program', recorded on their transcript of marks. Similarly, students withdrawn from the Advanced program will have the notation, 'Required to Withdraw from the Advanced Program', recorded on their transcript of marks.

5.3.1 Minimum Performance Requirements for Continuation and Graduation					
Degree Program (Cr. Hrs.)	Minimum Performance Requirements			Additional Graduation Requirements	
	Minimum Degree Grade Point Average (GPA)	Maximum Cr. Hrs. Failed Courses	Minimum Degree GPA in Geography Courses ³	Geography Courses Cr. Hr. Requirement (see 5.5 also)	Residence Requirement (Cr. Hrs.) (see section 3.10 also)
General ^{2,3} (90)	2.00; see 5.2.2 for continuation	48	2.00	30	48 cr. hrs. total or the final 30 cr. hrs.
Advanced ^{1,2} (120)	2.00	18	2.00	54	60
Honours ^{2,1} (120)	3.00	18	3.00	72	60

¹The courses required in this program will satisfy the university mathematics requirement.

²Within the first 60 credit hours of courses, General degree students must have completed 6 credit hours in each of 5 subject fields (totalling 30 credit hours). See section 5.1 for details.

³General and Advanced degree students are required to maintain a Degree Grade Point Average of 2.00 on the courses defining their Geography Major. **Note:** Students must complete all prerequisite courses with minimum 'C' grades.

5.4 Dean's Honour List and Graduating with Distinction or First Class Honours

Dean's Honour List

Students enrolled in a minimum of 12 credit hours of course work during a term and who achieve a term Grade Point Average of 3.50 or higher will be placed on the Dean's Honour List.

With Distinction

Students graduating with a B.A. Geography (General) degree will have their degree granted 'With Distinction' if they have a minimum degree

Grade Point Average of 3.80 and provided a minimum of 60 credit hours of acceptable course work is completed at the University of Manitoba.

Students graduating with a B.A. Geography (Advanced) degree will have their degree granted 'With Distinction' if they have a minimum degree Grade Point Average of 3.80 and provided a minimum of 90 credit hours of acceptable course work is completed at the University of Manitoba.

First Class Honours

Students in the Honours program will have their degree granted with 'First Class Honours' if they have a minimum degree Grade Point Average of 3.80 and provided a minimum of 90 credit hours of acceptable course work is completed at the University of Manitoba.

5.5 B.A. Geography⁶

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
HONOURS¹ 120 CREDIT HOURS (72 credit hours in Geography)			
GEOG 1200 (or GEOG 1280 and GEOG 1290) Plus 6 credit hours from the Faculty of Arts Plus 6 credit hours from the Faculty of Science	GEOG 2200, GEOG 2250, GEOG 2530 9 credit hours in Geography courses numbered at the 2000- or 3000-level ⁴ 12 credit hours in ancillary options ³	GEOG 3680 Plus 18 credit hours in Geography courses numbered at the 2000- or 3000-level ⁴ 6 credit hours in ancillary options ³	GEOG 4660 18 credit hours in Geography courses numbered at the 4000- level 6 credit hours in ancillary options ³

It is recommended that students complete the W course in University 1 or Year 2

ADVANCED¹ 120 CREDIT HOURS (54 credit hours in Geography)			
GEOG 1200 (or GEOG 1280 and GEOG 1290) Plus 6 credit hours from the Faculty of Arts Plus 6 credit hours from the Faculty of Science	GEOG 2200, GEOG 2250, GEOG 2530 9 credit hours in Geography courses numbered at the 2000- or 3000-level ⁵	GEOG 3680 Plus 6 credit hours in Geography courses numbered at the 3000-level ⁵	12 credit hours in Geography courses numbered at the 4000- level Plus 6 additional credit hours in Geography at the 2000- level or above

It is recommended that students complete the W course in University 1 or Year 2

GENERAL² 90 CREDIT HOURS (30 credit hours in Geography)			
GEOG 1200 (or GEOG 1280 and GEOG 1290) Plus 6 credit hours from the Faculty of Arts Plus 6 credit hours from the Faculty of Science	12 credit hours in Geography courses numbered at the 2000-level ⁵	12 credit hours in Geography courses numbered at the 3000- and/ or 4000- level ⁵	

It is recommended that students complete the W and M courses in University 1 or Year 2. Note: 30 credit hours, with 6 credit hours in each of 5 subject fields, must be completed in the first 60 credit hours.

MINOR 18 CREDIT HOURS			
GEOG 1200 (or GEOG 1280 and GEOG 1290)	6 credit hours in Geography courses numbered at the 2000-level	6 credit hours in Geography courses numbered at the 3000-level	

NOTES:

¹Entrance into the Honours and Advanced degree programs is summarized in 5.2.1. The courses required in this program will satisfy the University Mathematics requirement.

²Entry into the General degree program is summarized in 5.2.1 and 5.2.2.

³Ancillary options are chosen in consultation with the department head.

⁴Among the 2000- and 3000-level courses, at least 6 credit hours must be systematic and at least 6 must be area studies. Systematic courses and area studies courses are listed in Section 5.6.

⁵Among the 2000- and 3000-level courses, at least 12 credit hours must be systematic and at least 6 must be area studies. Systematic courses and area studies courses are listed in Section 5.6. Students wishing to transfer from the General to the Advanced degree program are permitted to take either GEOG 2200 and GEOG 2250, or GEOG 2530 in either third or fourth year.

⁶Equivalent courses offered through Collège universitaire de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart. Collège universitaire de Saint-Boniface courses end in the number "1" (e.g. GEOG 1201).

Note: Honours in Geography may be taken in combination with the program of Central and East European Studies (see the department head), Cross-disciplinary Minor programs are available using GEOG 2490 and GEOG 3590 (Asian Studies program) and GEOG 2350 (Latin American Studies program). In addition, courses GEOG 2450, GEOG 2570, GEOG 3431, GEOG 34806 and GEOG 37006 may be used in combination with the Honours, Advanced, and Minor programs in Canadian Studies.

•To fulfil prerequisite requirements, a grade of "C" must be achieved, unless otherwise stated, in any course stipulated as a prerequisite to a further course.

•Students should review the current course topics available through GEOG 3740 (6), GEOG 3750 (3), GEOG 3760 (6), GEOG 3770 (3) and GEOG 4670 (3). Also, all courses are not offered every year or every term. The course schedule for the current academic term is available from the online calendar at umanitoba.ca/calendar.

•Students registering in certain courses may be required to participate in field trips or field components and pay a portion of the associated expenses. For details, contact the Department of Environment and Geography general office.

5.6 Systematic Courses (HS, PS, TS) and Area Studies (A)

Courses numbered at the 2000- and 3000-level are arranged into Systematics (PS, HS and TS) and Area Studies (A). B.A. Geography students may specialize in the Physical Geography (PS); Human Geography (HS); Techniques (TS); Area Studies (A) but it is not compulsory for them to do so. B.A. Geography students wishing to specialize in Physical Geography should take at least three options (18 credit hours) from courses designated 'PS'. B.A. Geography students wishing to specialize in Human Geography should take at least three options (18 credit hours) from courses designated 'HS'. Students should discuss these options with a Riddell Faculty student advisor.

B.A. Geography students wishing to specialize in Applied Geography should include 2000-level courses from GEOG 2200, GEOG 2210, GEOG 2250, GEOG 2310, GEOG 2410, GEOG 2440, GEOG 2480, GEOG 2510, GEOG 2520, GEOG 2530 and GEOG 2620; and 3000-level courses from GEOG 3200, GEOG 3320, GEOG 3460, GEOG 3480W, GEOG 3510, GEOG 3520, GEOG 3540, GEOG 3580W, GEOG 3680M, GEOG 3710, GEOG 3720 and GEOG 3800.

Physical Geography (PS)

GEOG 2300	Atmosphere, Thermodynamics, Clouds and Precipitation	3
GEOG 2310	Introduction to Process Hydrology	3
GEOG 2440	Geography of Natural Hazards	6
GEOG 2540	Weather and Climate	3

See Section 6.7 for Geography Course Descriptions (located at the end of the B.Sc. Physical Geography program).

SECTION 6: Bachelor of Science in Physical Geography Degree Regulations and Program Description

Department Head: Ronald Stewart

General Office: 211 Isbister Building

Telephone: (204) 474-9667

Fax: (204) 474-7699

Website: umanitoba.ca/faculties/environment/departments/geography/index.html

Email: environment_geography@umanitoba.ca

6.1 Program Information

Physical Geography includes the study of the environment through aspects of atmospheric science, geomorphology, biogeography, and hydrology, all of which draw upon the natural and applied sciences to understand the natural environment. Atmospheric sciences examine the physical and biophysical processes at and near the earth's surface shaping climate and determining the weather. These processes are examined over cascading scales, local to global. Hydrology studies the flow of water between the Earth's surface and the atmosphere, including the quantity and quality of water resources as well as the spatial variability in the hydrologic cycle. The examination of processes at the earth's surface and the associated landforms is called geomorphology. Various sub-disciplines in geomorphology include weathering and erosional processes, volcanoes, glacial and river systems. Biogeography studies the interrelationships between the biospheric environment and the physical environment. Formation of soils, ecosystem and biome cycles and components, as well as human interaction with the physical environment are all topical areas in biogeography.

Geomatics is an emerging field referring to the techniques of spatial data acquisition, handling, and analysis. Included within this field have been geographic applications of computer analysis and spatial modeling, spatial statistics, remote sensing technology, and geographic information systems. Many of these techniques have their origins in the applied sciences, but both physical and human geographers have contributed greatly to their development and application. The application of such methodologies in geographic fields, such as resource management, urban geography, climate change, and applied geography has also provided closer co-operation between human and physical geography, as well as promoting considerable interdisciplinary research with other University disciplines.

The Major and Honours B.Sc. degree programs in Physical Geography serve students who desire advanced study in the academic subject matter of various themes contained within Physical Geography. The Honours program in particular is intended for students interested in the opportunity for exposure to advanced geographic research. As such, the Honours program demands higher academic performance. Students who are ineligible to enter Honours in their second year may establish this in the following year on the basis of their improved scholastic performance. The degree programs may be pursued on a full or part-time basis.

Minor in Another Department

Students in the B.Sc. Physical Geography have the opportunity to complete a Minor in a subject field that is different than that of the declared Major, and which normally consist of 18 credit hours from a department offering this option at the University of Manitoba. Students in the B.Sc. Physical Geography are not permitted to complete a Minor in the B.A. Geography. Students can declare only one Minor. The Minor requirements are described in section 3.3 of this *Chapter*. Contact a Riddell Faculty student advisor in the Faculty general office for further information about eligible Minors.

Streams

Students are required to complete a stream approved by a Riddell Faculty student advisor. Students in the Major or Major (Coop) programs are required to complete a minimum of 30 credit hours of 2000- (or higher) level courses, of which at least 18 credit hours must be at or above the 3000-level. The B.Sc. Honours and Honours (Coop) programs require students to complete 39 credit hours in a Stream, of which at least 24 credit hours are defined at or above the 3000-level and must include *GEOG 4660 Honours Thesis (6)*. Streams are currently available in *Atmospheric and Hydrological Sciences, Geomatics and Physical Geography*. See the department and/ or a Riddell Faculty student advisor for current information about these Streams.

Major

To qualify for the degree, Bachelor of Science in Physical Geography (Major), a student must complete 120 credit hours with passing grades ('D' or better) and a minimum degree grade point average of 2.00. Major (Coop) students must attain a minimum degree Grade Point Average of 2.50. Students must complete all faculty requirements. There is no limit to the number of credit hours a student completes provided he/she does not exceed 18 credit hours of failed courses.

Honours

To qualify for the degree Bachelor of Science in Physical Geography (Honours and Honours Coop), a student must complete 120 credit hours with passing grades ('D' or better) and a minimum degree grade point average of 3.00 in the courses that constitute the degree. Students must complete all faculty requirements. There is no limit to the number of credit hours a student completes provided he/she does not exceed 18 credit hours of failed courses.

Cooperative Education Option

A Cooperative Education Option is available to students registered in either the Major or Honours degree programs in Physical Geography. Coop is an arrangement whereby students spend alternating periods in university

and employment. There are several advantages to a cooperative education program for students. One benefit is that students are able to acquire both theoretical knowledge and practical experience. This experience assists them in selecting areas of specialization for their senior courses in their chosen Stream. As well, Coop assists students in their professional development by enhancing networking opportunities, participation in conferences and workshops and provides the foundation of skills and strategies required in searching and acquiring employment after graduation. Students can also defray some of the costs of their university education through these work term placements. Further information about Cooperative Education and student eligibility is available from a Riddell Faculty student advisor available in the Faculty general office.

Students electing to participate in the Cooperative Education Option will be assessed a program fee with their formal admission into the program. Once a student has accepted a position with a Coop employer, no portion of the program fee will normally be refunded.

The Cooperative Education Option consists of two employment work terms, each over a minimum period of four months, and contributes 6 credit hours towards the four year degree program. Students complete ENVR 2900 Professional Development 1 (1.5), ENVR 3900 Professional Development 2 (1.5), work term placements ENVR 3980 Work Term 1 (0), ENVR 3990 Work Term 2 (0), and the work term report courses ENVR 3910 Work Term Report 1 (1.5) and ENVR 3920 Work Term Report 2 (1.5). Additional work terms are available to interested students. Each academic term and each employment term commence in January, May or September. While on an employment term, a Cooperative Education Option student is not permitted to take more than three additional credit hours of academic work outside of the requirements of the Coop placement without permission of a Riddell Faculty student advisor.

Students are required to register in the appropriate Coop courses and pay course fees prior to beginning their placement.

6.2 Entrance Requirements

Students complete the first-year of their degree program in University 1 where they select courses from a wide variety of offerings including from the Clayton H. Riddell Faculty of Environment, Earth, and Resources. Students admitted from University 1 are placed in the Major degree program until they have completed a minimum of 48 credit hours after which they may transfer to the Honours program or remain in the Major. To make a program transfer, students must consult a Riddell Faculty student advisor.

6.2.1 Entrance Requirements

Degree Program in Physical Geography	Minimum Number of Credit Hours	Minimum Degree Grade Point Average	Additional Entrance Requirements
Honours	48	3.00	No failures on entry; a grade of 'B' or better in GEOG 1290 ³ (or GEOG 1200 ³); a grade of 'C+' or better in 12 credit hours from PHYS 1020 ³ (or PHYS 1050), MATH 1500 ^{2,3} (MATH 1510 or MATH 1520), PHYS 1030 (or PHYS 1070), MATH 1300 ³ (or MATH 1310)
Honours (Coop) ¹	60	3.00	No failures on entry; ENVR 2900; students must satisfy the requirements for Entrance/continuation in the regular program and (normally) have completed GEOG 2200 (or GEOG 2221), GEOG 2250 (or GEOG 2221), GEOG 2300, GEOG 2310, GEOG 2440, GEOG 2550, PHYS 1020 ³ (or PHYS 1050), and MATH 1500 ^{2,3} (MATH 1510 or MATH 1520)
Major	24	2.00	A grade of 'C' or better in GEOG 1290 ³ (or GEOG 1200 ³); a grade of 'C+' or better in 6 credit hours from PHYS 1020 ³ (or PHYS 1050), MATH 1500 ^{2,3} (MATH 1510 or MATH 1520)
Major (Coop) ¹	60	2.50	ENVR 2900; students must satisfy the requirements for Entrance/continuation in the regular program and (normally) have completed GEOG 2200 (or GEOG 2221), GEOG 2250 (or GEOG 2221), GEOG 2300, GEOG 2310, GEOG 2440, GEOG 2550, PHYS 1020 ³ (or PHYS 1050), PHYS 1030 ³ (or PHYS 1070), MATH 1300 ³ (or MATH 1310) and MATH 1500 ^{2,3} (MATH 1510 or MATH 1520)

¹Students may be permitted to enter the program without satisfying all requirements listed. Students should consult with the Cooperative Education Coordinator for further information.

²MATH 1510 or MATH 1520 or MATH 1690 may be used in lieu of MATH 1500.

³Equivalent courses offered through Collège universitaire de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart. Collège universitaire de Saint-Boniface courses end in the number 1 (e.g. GEOG 1201).

6.3 Minimum Performance Requirements for Continuation and Graduation

A student's academic performance will be assessed with his/her applica-

tion for admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources and following each *term* thereafter. A Riddell Faculty student advisor must approve a student's registration each Fall/Winter and

Summer term. Any revisions in this schedule should also be approved prior to the end of the registration revision period.

To be in **good standing** and permitted to continue in a degree program, a student must achieve the minimum standards at each point of assessment. This assessment is based on the student's minimum degree Grade Point Av-

erage; the grades received in each of GEOG 1290 (or GEOG 1200, GEOG 1201, GEOG 1291), GEOG 2200 (or GEOG 2221), GEOG 2250 (or GEOG 2251), GEOG 2300, GEOG 2310, GEOG 2440, GEOG 2550, GEOG 3680; and the number of failed courses after admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources.

6.3.1 Minimum Performance Requirements

Minimum Performance Requirements				Graduation Requirements ¹	
Degree Program (Credit Hours)	Minimum Degree Grade Point Average (DGPA)	Maximum Credit Hours of Failed Courses	Physical Geography Core: Minimum Grade Requirements in GEOG 12902, GEOG 22002, GEOG 22502, GEOG 2300, GEOG 2310, GEOG 2440, GEOG 2550, GEOG 3680	Stream (2000-Level or Higher)	Coop Option Courses
Major (120)	2.00	18	'C'	30 credit hours of which at least 18 credit hours must be at the 3000-level or higher; minimum Degree GPA of 2.00.	
Major Coop (120)	2.50	18	'C'	30 credit hours of which at least 18 credit hours must be at the 3000-level or higher; minimum Degree GPA of 2.00.	ENVR 2900, ENVR 3900, ENVR 3910, ENVR 3980, ENVR 3920, ENVR 3990; (ENVR 4910 and ENVR 4980 are optional)
Honours (120)	3.00	18	'B' in GEOG 1290; 'C+' grades in others	39 credit hours of which at least 24 credit hours must be at the 3000-level or higher; completion of GEOG 4660; minimum 'C+' grade in each course.	
Honours Coop (120)	3.00	18	'B' in GEOG 1290; 'C+' grades in others	39 credit hours of which at least 24 credit hours must be at the 3000-level or higher; completion of GEOG 4660; minimum 'C+' grade in each course.	ENVR 2900, ENVR 3900, ENVR 3910, ENVR 3980, ENVR 3920, ENVR 3990; (ENVR 4910 and ENVR 4980 are optional)

¹B.Sc. Physical Geography students must successfully complete a minimum of 60 credit hours at the University of Manitoba to satisfy the Residence Requirement. The courses used to satisfy the requirement must be acceptable for credit in the Clayton H. Riddell Faculty of Environment, Earth, and Resources.

²Equivalent courses offered through Collège universitaire de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart. Collège universitaire de Saint-Boniface courses end in the number 1 (e.g. GEOG 1201).

To **graduate** from the Bachelor Science in Physical Geography with the intended degree designation, a student must achieve the minimum standards and graduation requirements outlined above in 6.3.1 following the final term of registration and satisfy all degree course requirements in the foundation, physical geography core and Stream.

Students in the Honours program who do not meet these minimum performance requirements for continuation or graduation will be withdrawn from the degree program and placed in the Major provided they are eligible based on their performance. Students who do not meet the minimum performance requirements of the Major will be placed on academic warning, probation or academic suspension as defined in section 3.14 Academic Warning, Probation and Academic Suspension in this *Chapter*.

Students withdrawn from the Honours program as a result of their inability to meet minimum performance requirements will have the notation, 'Required to Withdraw from the Honours Program,' recorded on their transcript of marks. Similarly, students withdrawn from the Major program will have the notation, 'Required to Withdraw from the Major Program,' recorded on their transcript of marks.

6.4 Dean's Honour List and Graduating with Distinction or First Class Honours

Students enrolled in a minimum of 12 credit hours of course work during a term and achieve a term Grade Point Average of 3.50 or higher will be placed on the **Dean's Honour List**.

Students graduating with a B.Sc. Physical Geography (Major) degree will have their degree granted 'With Distinction' if they have a minimum Degree Grade Point Average of 3.50 on all course work.

The term 'Degree with Distinction' will appear both on the parchment and on the student's transcript of marks.

Students in the Honours program will have their degree granted with 'First Class Honours' if they have a minimum Degree grade Point Average of 3.50 based on all acceptable course work. The term First Class Honours will appear both on the parchment and on the student's transcript of marks

6.5 B.Sc. Physical Geography^{1,2}

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
--------------	--------	--------	--------

HONOURS 120 CREDIT HOURS

GEOG 1290 ⁷ (or GEOG 1200 ⁷) PHYS 1020 ³ , MATH 1500 ⁴ PHYS 1030 ³ , MATH 1300 ⁴ ; or 6 credit hours from GEOL 1340 ⁵ , COMP 1010, CHEM 1300, CHEM 1310, STAT 1000, STAT 2000, BIOL 1020 ⁶ , BIOL 1030 ⁶ , MATH 1700 ⁴ Plus 6 credit hours from the Faculty of Arts	GEOG 2200 ⁸ , GEOG 2250 ⁸ , GEOG 2300, GEOG 2310, GEOG 2440, GEOG 2550 Whichever of, PHYS 1030 ³ , MATH 1300 ⁴ , or 6 credit hours from GEOL 1340 ⁵ , COMP 1010, CHEM 1300, CHEM 1310, STAT 1000, STAT 2000, BIOL 1020 ⁶ , BIOL 1030 ⁶ , MATH 1700 not yet taken	GEOG 2620, GEOG 3680 9 credit hours from GEOL 1340 ⁵ , COMP 1010, CHEM 1300, CHEM 1310, STAT 1000, STAT 2000, BIOL 1020 ⁶ , BIOL 1030 ⁶ , MATH 1700 ⁴ not yet taken	GEOG 4660
---	--	--	-----------

It is recommended that students complete the W course in University 1 or Year 2

Plus a **Stream** approved by a Riddell Faculty student advisor. Honours Stream requirements are as follows: 39 credit hours of 2000- (or higher) level courses, of which 24 credit hours must be at the 3000- or 4000-level and include GEOG 4660.

HONOURS COOPERATIVE OPTION 120 CREDIT HOURS

---	---	--	--

It is recommended that students complete the W course in University 1 or Year 2

Plus a **Stream** approved by a Riddell Faculty student advisor. Major Stream requirements are as follows: 30 credit hours of 2000- (or higher) level courses, of which 18 credit hours must be at the 3000- or 4000-level.

MAJOR COOPERATIVE OPTION 120 CREDIT HOURS

GEOG 1290 ⁷ (or GEOG 1200 ⁷) PHYS 1020 ³ , MATH 1500 ⁴ PHYS 1030 ³ , MATH 1300 ⁴ ; or 6 credit hours from GEOL 1340 ⁵ , COMP 1010, CHEM 1300, CHEM 1310, STAT 1000, STAT 2000, BIOL 1020 ⁶ , BIOL 1030 ⁶ , MATH 1700 ⁴ Plus 6 credit hours from the Faculty of Arts	GEOG 2200 ⁸ , GEOG 2250 ⁸ , GEOG 2300, GEOG 2310, GEOG 2440, GEOG 2550, ENVR 2900 Whichever of, PHYS 1030 ³ , MATH 1300 ⁴ , or 6 credit hours from GEOL 1340 ⁵ , COMP 1010, CHEM 1300, CHEM 1310, STAT 1000, STAT 2000, BIOL 1020 ⁶ , BIOL 1030 ⁶ , MATH 1700 ⁴ not yet taken	GEOG 2620, GEOG 3680, ENVR 3900, ENVR 3980 ENVR 3910 9 credit hours from GEOL 1340 ⁵ , COMP 1010, CHEM 1300, CHEM 1310, STAT 1000, STAT 2000, BIOL 1020 ⁶ , BIOL 1030 ⁶ , MATH 1700 ^{4,7} not yet taken	ENVR 3990, ENVR 3920 (ENVR 4980 and ENVR 4910 are optional)
---	--	--	---

It is recommended that students complete the W course in University 1 or Year 2

Plus a **Stream** approved by a Riddell Faculty student advisor. Major Coop Stream requirements are as follows: 30 credit hours of 2000- (or higher) level courses, of which 18 credit hours must be at the 3000- or 4000-level.

NOTE: Students in the Major Coop are required to maintain an overall degree Grade Point Average of 2.50.

MINOR 18 CREDIT HOURS

GEOG 1290 ⁷ (or GEOG 1200 ⁷)	15 credit hours selected from 2000-, 3000-, or 4000-level courses designated as Physical Geography (PS) or Techniques (TS) courses in the Geography course descriptions defined in sections 5.6 in this <i>Chapter</i> .
---	--

NOTES:

¹Entrance into the degree programs is summarized in 6.2.1 in this *Chapter*.

²The courses required in this program will satisfy the University Mathematics requirement.

³PHYS 1050 and PHYS 1070 may be used in lieu of PHYS 1020 and PHYS 1030, respectively.

⁴MATH 1510 or MATH 1520, may be used in lieu of MATH 1500 or MATH 1690 may be used in place of MATH 1500 (or equivalent) and MATH 1700.

⁵GEOL 1440 may be used in lieu of GEOL 1340.

⁶BIOL 1000 and BIOL 1010 may be used in lieu of BIOL 1020 and BIOL 1030.

⁷Equivalent courses offered through Collège universitaire de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart. Collège universitaire de Saint-Boniface courses end in the number 1 (e.g. GEOG 1201).

⁸GEOG 2221 may be used in lieu of GEOG 2200 and GEOG 2250.

•To fulfil prerequisite requirements a grade of 'C' must be achieved, unless otherwise stated, in any course stipulated as a prerequisite to a further course.

•Students should review the course topics available for GEOG 3740 (6), GEOG 3750 (3), GEOG 3760 (6), GEOG 3770 (3) and GEOG 4670 (3). Also, all courses are not offered every year. The course schedule for the current academic term is available from the online calendar at umanitoba.ca/calendar.

•Students registering in certain courses may be required to participate in field trips or field components and pay a portion of the associated expenses. For details, contact the Department of Environment and Geography general office.

IMPORTANT: The Honours and Major programs need not be completed in the course order described in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

6.6 Environment, Earth, and Resources Course Descriptions

EER 1000 Earth: A User's Guide Cr.Hrs.3 This course will present a multi-disciplinary introduction to the Planet Earth as both the source of essential resources and as the site of resulting negative impacts. Focus in the courses will be provided by ad-

ressing important and current topics, case studies, and concepts that the well-educated citizen of the Earth should understand and will include natural and human-induced processes within a broad range of spatial and temporal scales.

6.7 Geography Course Descriptions

All courses are not offered every year. The course schedule for the current academic term is available from the online calendar at umanitoba.ca/calendar. **There are several course titles available under the topics courses including GEOG 3740, GEOG 3750, GEOG 3760, GEOG 3770 and GEOG 4670.**

Note: Students registering in certain courses may be required to participate in field trips or field components and pay a portion of the associated expenses. For details, refer to the online calendar (umanitoba.ca/calendar) and/or contact the Department of Environment and Geography general office.

GEOG 1200 Introductory Geography Cr.Hrs.6 (Formerly 053.120) This course studies aspects of the human and physical worlds and their interrelationships. Not to be held with GEOG 1201(053.120), or GEOG 1290 or GEOG 1291(053.129), or GEOG 1280 or GEOG 1281(053.128).

GEOG 1280 Introduction to Human Geography Cr.Hrs.3 (Formerly 053.128) This course studies aspects of the human world: population, settlement and resources. Not to be held with GEOG 1200 or GEOG 1201(053.120), or GEOG 1281.

GEOG 1290 Introduction to Physical Geography Cr.Hrs.3 (Formerly 053.129) This course studies aspects of our physical environment: climate, landforms, soils and vegetation. Not to be held with GEOG 1291(053.129), or GEOG 1200 or GEOG 1201(053.120).

GEOG 2200 Introduction to Thematic Cartography (TS) Cr.Hrs.3 (Lab Required) (Formerly 053.220) An introduction to the principles of map compilation and reproduction, including analysis and cartographic display of spatially referenced data. Emphasis will be placed on cartographic data manipulation, generalization, and symbolization, map design, visualization and communication. Not to be held with GEOG 2221(053.222). *Prerequisite:* a grade of "C" or better in a minimum of three credit hours Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2210 Economic Geography (HS) Cr.Hrs.6 (Formerly 053.221) An introduction to spatial aspects of economic activities. It includes consideration of natural resource extraction and development, industrial location theory, agriculture, and the basis of regional development. *Prerequisite:* GEOG 1200 or GEOG 1201 (053.120) (C), or GEOG 1280 or GEOG 1281 (053.128) (C), or permission of department head.

GEOG 2250 Introduction to Geographic Information Systems (TS) Cr.Hrs.3 (Lab Required) (Formerly 053.225) An introduction to the fundamental theoretical concepts of geographic information systems including acquisition, processing and analyzing environmental and socio-economic data. Topics to be covered include georeferencing, spatial data structures, processing, output and applications. Not to be held with GEOG 2221(053.222). *Prerequisite:* a grade of "C" or better in a minimum of three credit hours Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2300 Atmospheric Thermodynamics, Clouds and Precipitation (PS) Cr.Hrs.3 (Formerly 053.230) Critical thermodynamic processes are discussed that are associated with the Earth's atmosphere including dry and moist processes, phases of water, stability, cloud development and precipitation processes. *Prerequisites:* (GEOG 1290 or GEOG 1291(053.129) (C), or GEOG 1200 or GEOG 1201 (053.120) (C)), and (MATH 1500 or MATH 1501 (136.150) (C), or MATH 1510 (136.151) (C), or MATH 1520 (136.152) (C), or MATH 1530 (136.153) (C)).

GEOG 2310 Introduction to Process Hydrology (PS) Cr.Hrs.3 (Formerly 053.231) This course introduces students to the near-surface components of the hydrological cycle, including the processes of precipitation, evaporation, water-biosphere interac-

tions, infiltration, overland and stream flow. Not to be held with (053.362). *Prerequisites:* (GEOG 1290 or GEOG 1291 (C), or GEOG 1200 or GEOG 1201 (053.120) (C)), and (PHYS 1020 or PHYS 1021 (016.102) (C), or PHYS 1050 or PHYS 1051 (016.105) (C), or MATH 1500 or MATH 1501 (136.150) (C), or MATH 1510 (136.151) (C), or MATH 1520 (136.152) (C), or MATH 1530 (136.153) (C)), or permission of department head.

GEOG 2350 Latin America (A) Cr.Hrs.6 (Formerly 053.235) A survey of the principal regions and countries of Latin America. Human occupations, settlement, communication, population problems, and economy will be surveyed. Special emphasis will be given to Mexico. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2410 Geography of Tourism and Recreation (HS) Cr.Hrs.6 (Formerly 053.241) This course treats the economic, social, and physical dimensions of tourism and recreation. It studies forecasting, planning and management, and recreation resources, in both spatial and environmental context. The course focuses on Canadian experience. *Prerequisite:* GEOG 1200 or GEOG 1201 (053.120) (C) or GEOG 1280 or GEOG 1281 (or 053.128) (C), or permission of department head.

GEOG 2430 Political Geography (HS) Cr.Hrs.6 (Formerly 053.243) A study of the relationships existing between land and the state - its location, boundaries, and regional differences; elements of strength in relation to space, resources, population, and ethnic groups at international, national and local levels. Not to be held with GEOG 2651(053.265), or GEOG 2661 (053.266). *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2440 Geography of Natural Hazards (PS) Cr.Hrs.6 (Formerly 053.244) Physical environmental hazards to human settlement and economy are examined with particular attention to meteorological, soil erosion, mass wasting, earthquake, and volcanic phenomena. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2450 The Making of the Prairie Landscape (A) Cr.Hrs.6 (Formerly 053.245) Traces the evolution of the cultural landscape of Western Canada including Indian occupancy, environmental perception, urban and rural landscapes, and regional images in art and literature. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2460 Geography of Africa (A) Cr.Hrs.6 (Formerly 053.246) A systematic and regional survey of the contemporary political and economic geography of Africa. Emphasizes the variability and viability of the physical and human resource base, as well as political and social impacts on Africa's development. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2480 Population Geography (HS) Cr.Hrs.6 (Formerly 053.248) An examination of the factors controlling the number and distribution of human population. Variations in fertility, mortality, and mobility will be analyzed and the causes and consequences reviewed. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2490 Geography of Modern China (A) Cr.Hrs.3 (Formerly 053.249) Survey of the People's Republic of China. Discussion of China's population, food and energy production, industrial achievements, and internal politics will be preceded by a description of the country's environmental conditions and resources and concluded by an assessment of China's international position and future prospects. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses

numbered at the 1000 level, or permission of department head.

GEOG 2520 Geography of Natural Resources (HS) Cr.Hrs.3 (Formerly 053.252) An introduction to the basic concepts of the subject and the distribution of resources. Stress will be placed on Canadian resources and resource requirements but examples from other resource systems will also be used. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2530 Introduction to Scientific Geographic Research (TS) Cr.Hrs.3 (Formerly 053.253) An introduction to the use of scientific methodology in geography and the application of scientific explanatory frameworks to geographic research projects. Data collection procedures are discussed with particular emphasis on measurement, sampling designs, and interview surveying techniques. May not be held with the former 053.247. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 100 level, or permission of department head.

GEOG 2540 Weather and Climate (PS) Cr.Hrs.3 (Formerly 053.254) This half-course examines the nature, controls, and observations of weather and the variation of climate in time and space. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2550 Geomorphology (PS) Cr.Hrs.3 (Formerly 053.255) This half-course surveys a broad array of landforms in the world and the geomorphic processes responsible for their creation. Attention is strongly focused on those landform processes originating at the earth's surface. *Prerequisite:* GEOG 1200 or GEOG 1201 (053.120) (C) or GEOG 1290 or GEOG 1291 (053.129), or permission of department head.

GEOG 2560 Geography of North America (A) Cr.Hrs.6 (Formerly 053.256) The major regions of Canada and the U.S.A. are studied with respect to geographical patterns of their physical environment, settlement, culture, economic activity, and land use. Not to be held with GEOG 2580 (053.258), GEOG 2570 (053.257), GEOG 3431(053.343). *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2570 Geography of Canada (A) Cr.Hrs.3 (Formerly 053.257) A regional study of Canada. Lectures are the same as those given during one term of GEOG 2560 (053.256). Not to be held with GEOG 2560 (053.256), GEOG 2561 or GEOG 3431 (053.343). *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2580 Geography of the United States (A) Cr.Hrs.3 (Formerly 053.258) A regional study of the United States. Lectures are the same as those given in one term of GEOG 2560 (053.256). Not to be held with GEOG 2560, GEOG 2561 (053.256). *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2620 Geography of Environmental Changes (PS) Cr.Hrs.3 (Formerly 053.262) This course will introduce concepts of environmental change and examine in detail past, present and future environmental changes. The human response to, and the role of policy in dealing with environmental change will be discussed. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 2630 Geography of Culture and Environment (HS) Cr.Hrs.3 (Formerly 053.263) An introduction to the cultural geographic study of environment, focusing on the evolution of landscape, the creation of regions, and human relationships with nature. *Prerequisite:* GEOG 1200 or GEOG 1201 (053.120) (C), or GEOG 1280 or GEOG 1281 (053.128) (C), or permission of department head.

GEOG 2640 Geography of Culture and Inequality (HS) Cr.Hrs.3 GEOG 2640 Geography of Culture and Inequality (HS) Cr.Hrs.3 (Formerly 053.264) An introduction to the cultural geographic study of human and place inequalities, focusing on behaviour in landscape, group differences, and human identities. *Prerequisite:* GEOG 1200 or GEOG 1201 (053.120) (C), or GEOG 1280 or GEOG 1281 (053.128) (C), or permission of department head.

GEOG 3200 Introduction to Remote Sensing (TS) Cr.Hrs.3 (Lab Required) (Formerly 053.320) The course is an introduction to the principles of optical, active and passive microwave remote sensing. A review of satellite and sensors and their geographic applications will be presented, along with digital image analysis techniques. Laboratory assignments will provide hands-on experience in dealing with remote sensing data. Not to be held with (053.454). *Prerequisites:* (GEOG 1200 or GEOG 1201 (053.120) (C), or GEOG 1290 or GEOG 1291 (053.129) (C)), and (PHYS 1020 or PHYS 1021 (016.102) (C), or PHYS 1050 or PHYS 1051 (016.105) (C), or MATH 1300 or MATH 1301 (136.130) (C), or MATH 1500 or MATH 1501 (136.150) (C)), or permission of department head.

GEOG 3310 Atmospheric Dynamics, Storms and Radar (PS) Cr.Hrs.3 (Formerly 053.331) The course covers the critical dynamic processes that are associated with the Earth's atmosphere including forces that control wind, the kinematics of the wind field, general circulation, hodographs, thermal wind, laws of motion, mid-latitude circulations, convective storms and the utility of weather radar. *Prerequisite:* GEOG 2300 (053.230) (C), or permission of department head.

GEOG 3320 Introduction to Microclimates and Micrometeorology (PS) Cr.Hrs.3 (Formerly 053.332) This course introduces the concept of energy balance climatology and examines relationships among climate, microclimate, and environments of the Earth's surface and human-made environments. Studies include bioclimates and hydroclimates. *Prerequisites:* (GEOG 2310 (053.231) (C)), and (GEOG 2300 (053.230) (C)), or permission of department head.

GEOG 3460 Urban Geography (HS) Cr.Hrs.6 (Formerly 053.346) The course studies the processes and trends of urbanization; the classification of cities; central-place the-

ory; cities as systems; land-use patterns; social forces and factorial ecology; and urban transport problems. *Prerequisite:* GEOG 1200 or GEOG 1201 (053.120) (C), or GEOG 1280 or GEOG 1281 (053.128) (C), or permission of department head.

GEOG 3480 Canadian Problems (A) Cr.Hrs.3 (Formerly 053.348) The geographical basis of selected problems (e.g. regional, urban, rural, resource, land use). *Prerequisite:* GEOG 2560 (053.256) (C), or GEOG 2570 (053.257) (C), or GEOG 3431 (053.343) (C), or permission of department head.

GEOG 3510 Agricultural Geography (HS) Cr.Hrs.6 (Formerly 053.351) The course introduces location factors which influence the nature and distribution of farming activity. Study is made of the basic types of farming systems, prior to a detailed study of agriculture of the Prairies. *Prerequisite:* GEOG 1200 or GEOG 1201 (053.120) (C), or GEOG 1280 or GEOG 1281 (053.128) (C), or GEOG 2210 or GEOG 2211 (053.221) (C), or permission of department head.

GEOG 3520 Energy and Society (HS) Cr.Hrs.6 (Formerly 053.352) The course reviews in detail the role of energy in modern society. Explanation of basic energy laws and flows in the biosphere precedes discussion of energy resources, technologies, uses, and impacts. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 3530 An Introduction to Land-Resource Management (HS) Cr.Hrs.6 (Formerly 053.353) A study of the geographical aspects of problems and conflicts arising from land-resource utilization; methods of classifying land resources; elementary physical planning of resource development. *Prerequisite:* GEOG 1200 or GEOG 1201 (053.120) (C), or GEOG 1280 or GEOG 1281 (053.128) (C), or GEOG 2210 or GEOG 2211 (053.221) (C), or permission of department head.

GEOG 3540 Regional Development Planning Theory and Practise (HS) Cr.Hrs.6 (Formerly 053.354) The course considers regional disparities in a range of Western economies including Canada. The regional problem is explored theoretically and in the application of policies to alleviate disparities. *Prerequisite:* GEOG 1200 or GEOG 1201 (053.120) (C), or GEOG 1280 or GEOG 1281 (053.128) (C), or GEOG 2210 or GEOG 2211 (053.221) (C), or permission of department head.

GEOG 3580 Landforms (PS) Cr.Hrs.6 (Formerly 053.358) Present-day and Pleistocene glacial processes and landforms are examined in one term; slope processes and forms as well as the activities of rivers comprise the other. Human modification of these systems is discussed. Not to be held with GEOL 3490 (007.349). *Prerequisite:* GEOG 1200 or GEOG 1201 (053.120) (C), or GEOG 1290 or GEOG 1291 (053.129) (C), or GEOG 2550 or GEOG 2551 (053.255) (C), or permission of department head.

GEOG 3590 Geography of Developing Countries (A) Cr.Hrs.6 (Formerly 053.359) The main theme is modernization; examples from South Asia and Africa south of the Sahara. Historical development, population and social problems, land use and conservation, urbanization and industrialization. Not to be held with GEOG 3591. *Prerequisite:* a grade of "C" or better in six credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 3610 Climate Change (PS) Cr.Hrs.6 (Formerly 053.361) The course focuses upon the nature, evidence and causes of climatic change with special reference to historical and quaternary periods. *Prerequisite:* GEOG 1200 or GEOG 1201 (053.120) (C), or GEOG 1290 or GEOG 1291 (053.129) (C), or GEOG 2540 or GEOG 2541 (053.254) (C), or permission of department head.

GEOG 3680 Research Methods in Geography (TS) Cr.Hrs.6 (Formerly 053.368) A study of the process of model building in physical and human geography. The analysis and interpretation of data in testing geographic models. *Prerequisite:* GEOG 2530 (053.253) (C), or STAT 1000 or STAT 1001 (005.100) (C), or permission of department head.

GEOG 3700 Canada: The Making of the Human Landscape (A) Cr.Hrs.6 (Formerly 053.370) Emphasis is on the European settlement of Canada from the early 17th century until Confederation and the impact of this settlement upon the land. *Prerequisite:* a grade of "C" or better in six credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 3710 Population and the Third World (HS) Cr.Hrs.3 (Formerly 053.371) This course examines the policies and problems associated with population growth and redistribution in the Third World. *Prerequisite:* (GEOG 2480 or GEOG 2481 (053.248) (C)), or (SOC 2480 (077.248) (C)), or permission of department head.

GEOG 3720 Refugees, Displacees, Exiles (HS) Cr.Hrs.3 (Formerly 053.372) This course surveys the geographic dimensions of the nature, causes and consequences of past and contemporary involuntary migrations. *Prerequisite:* GEOG 1200 or GEOG 1201 (053.120) (C), or GEOG 1280 or GEOG 1281 (053.128) (C), or GEOG 2480 or GEOG 2481 (053.248) (C), or permission of department head.

GEOG 3730 Geographic Information Systems (TS) Cr.Hrs.3 (Lab Required) (Formerly 053.373) Weekly two-hour lab. An introduction to geographic information systems (GIS) input, processing, output and applications. *Prerequisite:* GEOG 2250 (053.225) (C), or permission of department head.

GEOG 3740 Field Studies in Geography (A,TS) Cr.Hrs.6 (Formerly 053.374) A field course designed to introduce students to either a detailed area study or to field techniques employed for specific geographic enquiry. *Prerequisite:* permission of department head.

GEOG 3750 Field Studies in Geography (A,TS) Cr.Hrs.3 (Formerly 053.375) A field course designed to introduce students to either a detailed area study or to field techniques employed for specific geographic enquiry. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 3760 Special Topics in Geography Cr.Hrs.6 (Formerly 053.376) This course will vary from year to year depending on the needs of students and the interests of instructors. *Prerequisite:* permission of department head.

GEOG 3770 Special Topics in Geography Cr.Hrs.3 (Formerly 053.377) This course will vary from year to year depending on the needs of students and the interests of instructors. *Prerequisite:* permission of department head.

GEOG 3800 Geography of Transportation Development (HS) Cr.Hrs.3 (Formerly 053.380) This course examines the development of selected modes of transportation and their associated route and network development. Emphasis is on the place of transportation in the cultural, economic, and physical landscape of Canada and the United States since 1800. *Prerequisite:* a grade of "C" or better in a minimum of three credit hours from Geography courses numbered at the 1000 level, or permission of department head.

GEOG 3850 Sustainable Manitoba (A) Cr.Hrs.3 This course approaches local sustainability issues from an interdisciplinary perspective. By looking at the ecological, social and economic aspects from a variety of discipline perspectives, a fuller understanding of sustainability is achieved. The broad range of perspectives is achieved through participation of guest speakers from other faculties and outside of the university as well as excursion outside the classroom. Not to be held for credit with ENVR 3850. *Prerequisite:* 60 credit hours of course work, or Permission of department head.

GEOG 4050 Ecosystem Management Cr.Hrs.3 This course will provide students with an understanding of the practical applications of ecological science, environmental policy, and resource management approaches in the large-scale planning of landscapes. The course will review ecological principles and trace the historical development of the ecosystem concept. Comparisons are made to other possible environmental management approaches. The synthesis of major elements and concepts will be reinforced through case studies on the Manitoba landscape, with an emphasis on practical learning by students through field seminars and group discussions. Not to be held for credit with ENVR 4050. *Prerequisite:* Permission of department head.

GEOG 4060 Biogeography Cr.Hrs.3 This course will provide students with a general understanding of the historical, ecological, analytical, and conservation aspects of biogeography. The course will also have a dual focus on the principles and concepts of reasons for the distribution of plants and animals worldwide, as well as incorporating discussion on as many local (Manitoba, Canada, North America) examples as possible. Not to be held for credit with GEOG 4060. *Prerequisite:* Permission of department head.

GEOG 4200 Advanced Methods in Remote Sensing Cr.Hrs.3 (Lab Required) (Formerly 053.420) Provides instruction in the current theory and application of remote sensing technology to Earth system Science. Emphasis will be placed on the processing and interpretation of remote sensing imagery and the integration of remote sensing data with other spatial data. Not to be held with (053.454). *Prerequisite:* GEOG 3200 (053.320) (C), or permission of the department head.

GEOG 4260 Sacred Lands Cr.Hrs.3 (Formerly 053.426) Students will increase their understanding of the importance and significance of Sacred Lands and Sacred Spaces to International Indigenous Peoples. Experiential learning, seminars, and a field component may be included. Not to be held with (NATV 4260) (032.426). *Prerequisite:* permission of department head.

GEOG 4290 Geographies of Health and Health Care Cr.Hrs.3 (Formerly 053.429) This course provides an introduction to and critical examination of the geographies of health and healthcare. Topics include perceptions and determinations of health and health care; health care delivery, focusing on spatial patterns and inequities; and the relationship between environment and health, particularly impacts of environmental contamination. *Prerequisite:* permission of department head.

GEOG 4300 Synoptic Meteorology and Weather Analysis Cr.Hrs.3 (Formerly 053.430) Applied aspects of meteorology are described in terms of weather analysis and forecasting techniques for synoptic-scales and meso-scales using various meteorological tools. An introduction to severe weather forecasting techniques will also be described. *Prerequisite:* GEOG 3310 (053.331) (C), or permission of department head.

GEOG 4310 Boundary-Layer Climatology and Micrometeorology Cr.Hrs.3 (Formerly 053.431) A seminar course on advanced topics in microclimatology and micrometeorology. *Prerequisite:* GEOG 3320 (053.332) (C), or permission of department head.

GEOG 4320 Modeling the Physical Climate Cr.Hrs.3 (Formerly 053.432) Numerical modeling techniques and applications to the physical climate and atmosphere. Students learn aspects of basic FORTRAN programming and explore various models that demonstrate physical concepts and their associated errors. Offered in alternate years. *Prerequisites:* (GEOG 3310 (053.331) (C)), and (GEOG 3320 (053.332) (C)), or permission of department head.

GEOG 4350 Parks and Protected Areas Planning and Management: Field Studies Cr.Hrs.6 The course is taught in two segments, an on-campus component and field study component taking place in Banff National Park. The on-campus component examines the historical development of the concept of parks and protected areas, the role of interpretation, management and research in the parks and emerging issues in the management of parks and protected areas. In addition, during the on-campus component planning for the field will take place. The field segment will focus on a wide variety of management issues with particular attention to Banff National Park. Emerging issues and trends will be examined and past management responses evaluated. There will be opportunities for students to investigate specific management issues of interest to them and to participate in current research being conducted in the park. This course is also offered in the Faculty of Kinesiology and Recreation Management as REC 4350. *Prerequisite:* Permission of the department head.

GEOG 4390 Global Climate Change Cr.Hrs.3 (Formerly 053.439) Students will be introduced to the complexities of climate changes through a series of introductory lectures and reading assignments that focus on recent scientific publications and review articles (mathematical skills are not required). Both sides of the climate change debate will be addressed in weekly assignments, and students will defend their conclusions

in classroom discussion. Each student will take on a project in some aspect of climate change -- glaciers, sea ice, temperature trends, precipitation, agriculture, animal migration, aerosols, or a regional impact. *Prerequisite:* permission of department head.

GEOG 4410 Rural Land Use Cr.Hrs.3 (Formerly 053.441) This course focuses on the dynamics of change on the rural-urban fringe. It involves seminars and individual field research. *Prerequisite:* permission of department head.

GEOG 4440 Advanced Cartography and Digital Map Analysis Cr.Hrs.3 (Formerly 053.444) The advanced study of the production and analysis of maps using computer mapping technology. The incorporation of remotely sensed data and the role of accurate statistical representation are emphasized. *Prerequisite:* permission of department head.

GEOG 4550 Topics in Air Pollution: Climatology, Location, and Planning Cr.Hrs.3 (Formerly 053.455) An introduction to air pollution sources; meteorology of air pollution; calculation of ground concentrations; effects and controls; environmental planning and policy. *Prerequisite:* permission of department head.

GEOG 4560 Techniques in Climatology Cr.Hrs.3 (Formerly 053.456) Instrumentation, the sources of climatic data, and the use of satellite photography, as well as methods of analysis and presentation are discussed. *Prerequisite:* GEOG 3320 (053.332) (C), or permission of department head.

GEOG 4570 Techniques in Geomorphology Cr.Hrs.3 (Formerly 053.457) Weekly seminar session on review of field and laboratory research techniques and selected applications in aspects of geomorphology. *Prerequisite:* permission of department head.

GEOG 4580 Concepts and Methods in Geography Cr.Hrs.6 (Formerly 053.458) This course surveys the historical development of the nature, scope, and methods of human and physical geography. *Prerequisite:* permission of department head.

GEOG 4590 Spatial Analysis Cr.Hrs.3 (Formerly 053.459) The theory and techniques of spatial statistical data exploration, inference and hypothesis testing as they pertain to geography analysis are explored. The role of spatial analytical techniques in field investigations, GIS and remote sensing applications are discussed. *Prerequisites:* A grade of "C" or better in GEOG 3680 (or 053.368) and MATH 1300 or MATH 1301 (or 136.130) or MATH 1500 or MATH 1501 (or 136.150) or permission of department head.

GEOG 4600 Cognitive-Behavioural Geography Cr.Hrs.3 (Formerly 053.460) Theoretical and empirical approaches to geographic space cognition. People's spatial knowledge of urban areas, regions, and nations is investigated. Policy-making implications of these approaches are assessed. *Prerequisite:* permission of department head.

GEOG 4640 Models in Urban Geography Cr.Hrs.3 (Formerly 053.464) The topics covered are: the reviews of land use modeling, the gravity and potential models, and the discrete and dynamic models. *Prerequisite:* permission of department head.

GEOG 4650 Models in Regional Analysis Cr.Hrs.3 (Formerly 053.465) Emphasis is placed on the use of regression techniques in regional analysis including the classical ordinary least squares methods and two-stage least squares. Migration and industrial location models are developed and calibrated using these techniques. *Prerequisite:* permission of department head.

GEOG 4660 Honours Thesis Cr.Hrs.6 (Formerly 053.466) This course involves the production of a thesis under the supervision of a department faculty member. *Prerequisite:* permission of department head.

GEOG 4670 Selected Issues Cr.Hrs.3 (Formerly 053.467) Intensive study of selected geographic issues. *Prerequisite:* prearranged written consent of an individual instructor and permission of department head.

GEOG 4690 Natural Hazards and Disasters Cr.Hrs.3 (Formerly 053.469) A conceptual and methodological survey of natural hazards. Characteristics and causes of geophysical disasters, human exacerbation of hazards, and human adjustments to and perceptions of natural threats will be studied. *Prerequisites:* (GEOG 2440 (053.244)(C)), and (GEOG 2550 (053.255) (C)), and (GEOG 3580 (053.358) (C)), or permission of department head.

GEOG 4710 Geography of the Elderly and Aging Cr.Hrs.3 (Formerly 053.471) Geographic approaches to the study of the elderly and growing old. Spatial aspects of elderly population distributions, migration moves, housing, daily travel patterns, and service systems are examined. *Prerequisite:* permission of department head.

GEOG 4720 Advanced Methods in Geographic Information Systems Cr.Hrs.3 (Lab Required) (Formerly 053.472) Weekly two-hour lab. This course focuses on the practical application of techniques used in Geographic Information Systems (GIS) and the development of techniques used in Geographic Information Systems (GIS) and the development of GIS models. The development, testing and presentation of GIS data, models and results are studied. *Prerequisite:* permission of department head.

Courses offered at the Collège universitaire de Saint-Boniface

GEOG 1201 Introduction à la géographie Cr.Hrs.6 (L'ancien 053.120) Étude des aspects physique et humain du globe et de leur interdépendance. L'étudiant ne peut se faire créditer avec GEOG 1200 (053.120), ou GEOG 1290 ou GEOG 1291 (053.129), ou GEOG 1280 ou GEOG 1281 (053.128). Donné au Collège universitaire de Saint-Boniface.

GEOG 1281 Introduction à la géographie humaine Cr.Hrs.3 (L'ancien 053.128) Étude des divers aspects du milieu humain: la population, l'habitat et les ressources naturelles. L'étudiant ne peut se faire créditer avec le GEOG 1280, ou GEOG 1200 ou GEOG 1201 (053.120). Donné au Collège universitaire de Saint-Boniface.

GEOG 1291 Introduction à la géographie physique Cr.Hrs.3 (L'ancien 053.129) Étude des divers aspects de l'environnement physique: le climat, le relief, les sols et la végétation. L'étudiant ne peut se faire créditer avec GEOG 1290 (053.129), ou

GEOG 1200 ou GEOG 1201 (053.120). Donné au Collège universitaire de Saint-Boniface.

GEOG 2211 Géographie économique (HS) Cr.Hrs.6 (L'ancien 053.221) Introduction à l'expression spatiale des activités économiques. Le cours traite du concept de ressource, de la localisation et de l'utilisation des ressources naturelles, des théories sur les facteurs de localisation des activités industrielles, de l'agriculture et des fondements du développement régional. Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans un minimum de 3 heures-crédits de géographie de niveau 1000 ou l'autorisation écrite du professeur.

GEOG 2221 Introduction à la cartographie et analyse de la carte numérique (TS) Cr.Hrs.6 Deux heures de laboratoire par semaine. Une étude de la production et de l'analyse de cartes, en tenant compte de la cartographie assistée par ordinateur. Ce cours est une introduction aux techniques de l'expression cartographique et à l'utilisation des données de la télédétection il porte une attention spéciale à la représentation précise des statistiques.

GEOG 2481 Géographie de la population (HS) Cr.Hrs.6 (L'ancien 053.248) Une étude des facteurs exerçant un contrôle sur l'ampleur et la répartition des populations humaines; l'analyse des variations de fécondité, de mortalité et de mobilité ainsi que leurs causes et conséquences. Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans un minimum de 3 heures-crédits de géographie de niveau 1000 ou l'autorisation écrite du professeur.

GEOG 2541 Météorologie et climatologie (PS) Cr.Hrs.3 (L'ancien 053.254) Étude de la nature, des contrôles et des observations du temps et des variations spatio-temporelles du climat. Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans un minimum de 3 heures-crédits de géographie de niveau 1000, ou l'autorisation écrite du professeur.

GEOG 2551 Géomorphologie (PS) Cr.Hrs.3 (L'ancien 053.255) Vue d'ensemble des reliefs variés de la surface du globe et des processus géomorphologiques responsables de leur formation. (Laboratoire hebdomadaire). Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans un minimum de 3 heures-crédits de géographie de niveau 1000, ou l'autorisation écrite du professeur.

GEOG 2651 Géographie politique I (HS) Cr.Hrs.3 (L'ancien 053.265) Étude des relations qui existent entre l'État et son territoire: sa localisation, ses frontières et ses disparités régionales. L'étudiant ne peut se faire créditer avec le GEOG 2430 (053.243). Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans un minimum de 3 heures-crédits de géographie de niveau 1000, ou l'autorisation écrite du professeur.

GEOG 2661 Géographie politique 2 (HS) Cr.Hrs.3 (L'ancien 053.266) Étude des rapports de force entre les États et leurs relations à l'espace, aux ressources, à la population et aux groupes ethniques. L'étudiant ne peut se faire créditer avec le GEOG 2430 (053.243). Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans le GEOG 2651 (053.265), ou l'autorisation écrite du professeur.

GEOG 3411 Géographie de l'eau (PS) Cr.Hrs.3 (L'ancien 053.341) L'eau, élément essentiel de la géographie physique: bilan d'eau, cycle hydrologique, infiltration, percolation et écoulement, eaux souterraines, hydrologie fluviale et marine: course d'eau, lacs et océans, environnement. Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans le GEOG 1290 ou GEOG 1291 (053.129), ou l'autorisation écrite du professeur.

GEOG 3421 L'eau, enjeu géostratégique (HS) Cr.Hrs.3 (L'ancien 053.342) L'eau, un enjeu stratégique d'importance: un survol historique des enjeux liés à l'eau et les enjeux actuels, la répartition inégale de la ressource .eau. et son partage équitable, les solutions techniques, économiques, institutionnelles et juridiques envisagées et le droit international. Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans le GEOG 1280 ou GEOG 1281 (053.128), et les deux GEOG 2651 (053.265) et GEOG 2661 (053.266) (ou le GEOG 2430 (053.243)), ou l'autorisation écrite du professeur

GEOG 3431 Géographie de Canada (A) Cr.Hrs.3 Étude du Canada par régions. L'étudiant ne peut se faire créditer à la fois le GEOG 2560 (053.256) ou le GEOG 2570 (053.257) et le GEOG 3700 (053.370). Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans un minimum de 6 heures-crédits de géographie de niveau 1000 ou l'autorisation écrite du professeur.

GEOG 3481 Particularités de la géographie du Canada (A) Cr.Hrs.3 (L'ancien 053.348) Ce cours aborde des problèmes spécifiques la géographie canadienne: régions, urbanisme, milieu rural, ressources, utilisation du sol. Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans un des cours suivants: GEOG 2560 ou (053.256), GEOG 2570 (053.257) ou GEOG 3431 (053.343), ou l'autorisation écrite du professeur.

GEOG 3501 Géographie de l'Europe (A) Cr.Hrs.6 (L'ancien 053.350) Vue générale sur la géographie du continent européen et plus spécifiquement sur l'Union européenne. L'accent sera placé sur quelques pays. Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans un minimum de 6 heures-crédits de géographie de niveau 1000, ou l'autorisation écrite du professeur

GEOG 3591 Géographie des pays en voie de développement (A) Cr.Hrs.6 (L'ancien 053.359) Le thème principal sera la modernisation des pays en voie de développement: exemples de l'Asie méridionale et de l'Afrique noire. Seront étudiés les aspects suivants: le développement historique, les problèmes démographiques et sociaux, l'utilisation du sol et la conservation des ressources, l'urbanisation et l'industrialisation. L'étudiant ne peut se faire créditer à la fois le GEOG 3590 (053.359) . Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans un minimum de 6 heures-crédits de géographie niveau 1000, ou l'autorisation écrite du professeur.

GEOG 3701 Canada : Évolution de l'écoumène (A) Cr.Hrs.6 (L'ancien 053.370) Étude de l'impact qu'a eu l'arrivée des Européens, au début du XVIIe siècle, sur les différents aspects de l'environnement canadien; évolution de la nature de l'utilisation

de l'espace canadien. L'étudiant ne peut se faire créditer avec GEOG 3700 (053.370) . Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans 6 heures-crédits de géographie de niveau 1000, ou l'autorisation écrite du professeur.

GEOG 3761 Sujets particuliers en géographie Cr.Hrs.6 (L'ancien 053.376) Le contenu de ce cours variera d'année en année selon les besoins des étudiants et la spécialité du professeur. Donné au Collège universitaire de Saint-Boniface. *Préalable*: l'autorisation écrite du professeur.

GEOG 3821 Les territoires de la francophonie mondiale (A, HS) Cr.Hrs.3 (L'ancien 053.382) La mise en place des espaces francophones à travers le monde: le développement et l'éclatement des empires français et belge. La territorialité et l'identité au sein de la francophonie internationale. Répartition géographique et développement institutionnel. Ententes politiques et aspirations territoriales. Donné au Collège universitaire de Saint-Boniface. *Préalable*: Un note minimale de C dans un minimum de 6 heures-crédits dans un cours de géographie de niveau 1000.

GEOG 3831 L'espace francophone panaméricain (A, HS) Cr.Hrs.3 (L'ancien 053.383) L'étude des communautés francophones des Amériques dans le temps et dans l'espace. La mise en place de la francophonie panaméricaine et les circonstances de son éclatement. Ses enjeux économiques, sociaux, politiques et culturels. Les infrastructures, les institutions et les réseaux francophones. Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans le GEOG 3821 (053.382).

GEOG 3841 Les espaces francophones de l'Afrique, de l'Asie et de l'Océanie (A, HS) Cr.Hrs.3 (L'ancien 053.384) L'étude des communautés francophones africaines, asiatiques et océaniques. Les étapes de la colonisation et de la décolonisation, l'évolution vers l'indépendance et l'accession au statut d'État souverain. La mise en place des infrastructures, des institutions et des réseaux francophones. Donné au Collège universitaire de Saint-Boniface. *Préalable*: une note minimale de C dans GEOG 3821 (053.382).

SECTION 7: Bachelor of Environmental Science and Bachelor of Environmental Studies Degree Regulations and Program Descriptions

7.1 Program Information

The Clayton H. Riddell Faculty of Environment, Earth, and Resources offers General, Major, and Honours degree programs leading to a Bachelor of Environmental Science (B.Env.Sc.) and Bachelor of Environmental Studies (B.Env.St.). Through an interdisciplinary approach, environmental issues relating to human populations, sustainable resource development, pollution and conservation, environmental health, and endangerment and preservation of species are explored in conjunction with alternative conditions that have the potential to reverse current trends and contribute to ecological sustainability. Students have access to undergraduate courses offered by the Clayton H. Riddell Faculty of Environment, Earth, and Resources as well as the Faculties of Agricultural and Food Sciences, Arts, Law, Engineering, Architecture, and Science in order to complete their education. They are expected to take many courses outside the Riddell Faculty enabling them to obtain a truly interdisciplinary education.

The Major and Honours degree programs serve students who desire advanced study in an environmental field. The programs are intended for students interested in professional training and the opportunity for advanced research. Honours degree programs demand higher academic performance and lead most directly to graduate studies. Students who are ineligible to enter the Honours degree program in their third year may establish this in the following year on the basis of their improved scholastic performance. See a Riddell Faculty student advisor in the Faculty general office for information. The degree programs may be pursued on a full- or part-time basis.

The B.Env.Sc. and B.Env.St. degree programs share a general structure that includes a foundation of either introductory Sciences or Social Sciences/Humanities. Students complete an environmental core and a Focus Area that is defined through consultation with a Riddell Faculty student advisor in the Faculty general office. Students completing the General degree program are required to complete 9 credit hours in a Focus Area; Major, Major Coop, Honours and Honours Coop students complete 33 credit hours in a

Focus Area. Other Focus Area requirements are defined in the graduation requirements in section 7.3.1 in this *Chapter*.

General

To qualify for the degree Bachelor of Environmental Science (General) or Bachelor of Environmental Studies (General), students must complete 90 credit hours including all faculty and degree requirements (including the foundation, environmental core and 9 credit hours of minimum 2000-level courses in a Focus Area). Minimum performance requirements include passing grades ('D' or better) in each course and a minimum degree Grade Point Average of 2.00. There is no limit to the number of credit hours a student completes provided he/she does not exceed 48 credit hours of failed courses.

Major

To qualify for the degree Bachelor of Environmental Science (Major) or Bachelor of Environmental Studies (Major), a student must complete 120 credit hours with a minimum degree grade point average of 2.00. Focus Area requirements are as follows: 33 credit hours of which 21 credit hours must be completed at the 3000- or 4000-level; 2.00 Grade Point Average. Major (Coop) students must attain a minimum degree Grade Point Average of 2.50. There is no limit to the number of credit hours a student completes provided he/she does not exceed 18 credit hours of failed courses.

Honours

To qualify for the degree Bachelor of Environmental Science (Honours) or Bachelor of Environmental Studies (Honours), a student must complete 120 credit hours with a minimum degree grade point average of 3.25. Focus Area requirements are as follows: 33 credit hours of which 21 credit hours must be completed at the 3000- or 4000-level; 3.00 Grade Point Average and minimum 'C+' grades. There is no limit to the number of credit hours a student completes provided he/she does not exceed 18 credit hours of failed courses.

Minor in Another Department

Students in the B.Env.Sc. and B.Env.St. have the opportunity to complete a Minor in a subject field that is different than that of the declared major, and which normally consist of 18 credit hours from a department offering this option at the University of Manitoba. Students are not permitted, however, to complete this Minor in a related 'ENVR' interdisciplinary environmental program. Students can declare only one Minor. The Minor requirements are described in section 3.3 of this *Chapter*. Contact a Riddell Faculty student advisor in the Faculty general office for further information about eligible Minors.

Cooperative Education Option

A Cooperative Education Option is available to students registered in either the Major or Honours degree programs in Environmental Science and Environmental Studies. Coop is an arrangement whereby students spend alternating periods in university and employment. There are several advantages to a cooperative education program for students. One benefit is that

students are able to acquire both theoretical knowledge and practical experience. This experience assists them in selecting areas of specialization for their senior courses in their Focus Area. As well, Coop assists students in their professional development by enhancing networking opportunities, participation in conferences and workshops and provides the foundation of skills and strategies required in searching and acquiring employment after graduation. Students can also defray some of the costs of their university education through these work term placements. Further information about Cooperative Education and student eligibility is available from a Riddell Faculty student advisor available in the Faculty general office.

Students electing to participate in the Cooperative Education Option will be assessed a program fee with their formal admission into the program. Once a student has accepted a position with a Coop employer, no portion of the program fee will normally be refunded.

The Cooperative Education Option consists of two employment work terms, each over a minimum period of four months, and contributes 6 credit hours towards the four year degree program. Students complete ENVR 2900 Professional Development 1 (1.5), ENVR 3900 Professional Development 2 (1.5), work term placements ENVR 3980 Work Term 1 (0), ENVR 3990 Work Term 2 (0), and the work term report courses ENVR 3910 Work Term Report 1 (1.5) and ENVR 3920 Work Term Report 2 (1.5). Additional work terms are available to interested students. Each academic term and each employment term commence in January, May or September. While on an employment term, a Cooperative Education Option student is not permitted to take more than three additional credit hours of academic work outside of the requirements of the Coop placement without permission of a Riddell Faculty student advisor.

Students are required to register in the appropriate Coop courses and pay course fees prior to beginning their placement.

7.2 Entrance Requirements

Students admitted from University 1 are placed in the Major degree program in either the Bachelor of Environmental Science or Bachelor of Environmental Studies until they have completed a minimum of 48 credit hours after which they can transfer to the General or Honours program or remain in the Major. To make a program transfer, students must consult with a Riddell Faculty student advisor.

Transfer students, and Second Degree students may be eligible for direct entry into the General or Honours programs. These students should consult with a Riddell Faculty student advisor in the general office.

7.2.1 and 7.2.2 define the Entrance requirements for the degree programs in the Bachelor of Environmental Science and Bachelor of Environmental Studies, respectively.

7.2.1 Bachelor of Environmental Science Entrance Requirements

Degree Program in B.Env.Sc.	Minimum Number of Credit Hours	Minimum Grade Point Average	Additional Entrance Requirements
Honours	48	3.25	No failures on entry; a grade of 'B' or better in ENVR 1000 and ENVR 2000 as well as a minimum 'C+' in BIOL 1020 ² and BIOL 1030 ² or CHEM 1310 ² and 'C' in the other course.
Honours (Coop) ¹	60	3.25	No failures on entry; ENVR 2900; students must satisfy the requirements for entrance/continuation in the regular program and (normally) have completed ENVR 1000, ENVR 2000, ENVR 2170, ENVR 2650, STAT 1000 ² , STAT 2000 ² , BIOL 2300 ² (AGEC 2370), ECON 2390 (ABIZ 2390), BIOL 1020 ² , BIOL 1030 ² and one of GEOG 1290 ² or GEOL 1340.
Major	24	2.00	12 credit hours in ENVR 1000, ENVR 2000, BIOL 1020 ² , BIOL 1030 ² , CHEM 1300 ² , CHEM 1310 ² , STAT 1000 ² , STAT 2000 ² , MATH 1500 ² (or MATH 1200 ² , MATH 1300 ² , MATH 1310, MATH 1510, MATH 1520), one of GEOG 1290 ² or GEOL 1340, PHYS 1020 ² (or PHYS 1050 ²), PHYS 1030 ² (or PHYS 10702), with a grade of 'C+' or better in six of the 12 credit hours, and a grade of 'C' or better in the remaining six credit hours.
Major (Coop) ¹	60	2.50	ENVR 2900; students must satisfy the requirements for continuation in the regular program and (normally) have completed ENVR 1000, ENVR 2000, ENVR 2170, ENVR 2650, STAT 1000 ² , STAT 2000 ² , BIOL 2300 ² (AGEC 2370), ECON 2390 (ABIZ 2390), BIOL 1020 ² , BIOL 1030 ² , and one of GEOG 1290 ² or GEOL 1340.
General	48	2.00	

¹Students may be permitted to enter the program without satisfying all requirements listed. Students should consult with the Cooperative Education Coordinator for further information.

²Equivalent courses offered through Collège universitaire de Saint-Boniface may be used in lieu of the specified course identified in the entrance requirements chart. Collège universitaire de Saint-Boniface courses end in the number '1' (e.g. CHEM 1301).

7.2.2 Bachelor of Environmental Studies Entrance Requirements			
Degree Program in B.Env.St.	Minimum Number of Credit Hours	Minimum Grade Point Average	Additional Entrance Requirements
Honours	48	3.25	No failures on entry; a grade of 'B' or better in ENVR 1000 and ENVR 2000; GEOG 1280 ² (GEOG 1200 ²) and GEOG 1290 ² (GEOG 1200 ²), ENVR 2650, with a grade of 'C+' or better in six of the 15 credit hours, and a grade of 'C' or better in the remaining nine credit hours.
Honours (Coop) ¹	60	3.25	No failures on entry; ENVR 2900; students must satisfy the requirements for Entrance/continuation in the regular program and (normally) have completed ENVR 1000, ENVR 2000, ENVR 2350, ENVR 2650, GEOG 1280 ² (GEOG 1200 ²) and GEOG 1290 ² (GEOG 1200 ²), ECON 2390 (ABIZ 2390), STAT 1000 ² , one of BIOL 2390 ² (or AGECE 2370) (or BIOL 2300 ²), and one of BIOL 1010 ² , (or BIOL 1030 ²).
Major	24	2.00	12 credit hours taken from ENVR 1000, ENVR 2000, BIOL 1010 ² (or BIOL 1020 ² or BIOL 1030 ²), STAT 1000 ² , NATV 1220, GEOG 1280 ² or GEOG 1290 ² ; with a grade of 'C+' or better in six of the 12 credit hours, and a grade of 'C' or better in the remaining six credit hours.
Major (Coop) ¹	60	2.50	ENVR 2900; students must satisfy the requirements for continuation in the regular program and (normally) have completed ENVR 1000, ENVR 2000, ENVR 2350, ENVR 2650, GEOG 1280 ² (GEOG 1200 ²) and GEOG 1290 ² (GEOG 1200 ²); ECON 2390 (ABIZ 2390), STAT 1000 ² , one of BIOL 2390 ² (AGECE 2370) or BIOL 2300 ²), and one of BIOL 1010 ² , (or BIOL 1030 ²).
General	48	2.00	

¹Students may be permitted to enter the program without satisfying all requirements listed. Students should consult with the Cooperative Education Coordinator for further information.

²Equivalent courses offered through Collège universitaire de Saint-Boniface may be used in lieu of the specified course identified in the entrance requirements chart. Collège universitaire de Saint-Boniface courses end in the number '1' (e.g. GEOG 1201).

7.3 Minimum Performance Requirements for Continuation and Graduation

A student's academic performance will be assessed with his/her application for admission to the Clayton H. Riddell Faculty of Environment, Earth, and Resources and following each *term* thereafter. A Riddell Faculty student advisor must approve a student's registration each Fall/Winter and Summer term. Any revisions to this schedule should also be approved prior to the end of the registration revision period.

To be in **good standing** and permitted to continue in a degree program, a student must achieve the minimum standards outlined in 7.3.1 at each point of assessment. This assessment is based on the student's minimum degree Grade Point Average and the number of failed courses after admission to the Riddell Faculty.

To graduate from either a Bachelor of Environmental Science or the Bachelor of Environmental Studies with the intended degree designation, a student must achieve the minimum standards and graduation requirements outlined in 7.3.1 following the final term of registration and satisfy all degree course requirements in the foundation, environment core and Focus

Area as defined in section 7.1 of this *Chapter*. In addition, students must satisfy the residence requirement by completing either a total of 48 credit hours or their last 24 credit hours at the University of Manitoba. These courses must be acceptable for credit in either the Bachelor of Environmental Science or the Bachelor of Environmental Studies.

Students who do not meet these minimum performance requirements for continuation or graduation will be required to transfer to the appropriate program based on their performance and eligibility as defined in 7.3.1. Students who do not meet the minimum performance requirements for the General degree program will be placed on probation or academic suspension as defined in section 3.14 Academic Warning, Probation and Academic Suspension in this *Chapter*.

Students required to withdraw from the Honours degree program will have the statement 'Required to Withdraw from the Honours Program' recorded on their transcript of marks. Similarly, students required to withdraw out of the Major degree program will have the statement 'Required to Withdraw from the Major Program' recorded on their transcript of marks.

7.3.1 Minimum Performance Requirements						
Degree Program (Credit Hours)	Minimum Performance Requirements			Focus Area	Additional Graduation Requirements ¹	
	Minimum Degree Grade Point Average (DGPA)	Maximum Credit Hours of Failures			Minimum credit hours of course work completed at the 3000- and 4000-levels	Coop Option Courses
General (90)	2.00	48		9 credit hours		
Major (120)	2.00	18		33 credit hours of which 21 must be at the 3000- or 4000-level; minimum cumulative GPA of 2.00.	33 credit hours	

Major (Coop) (120)	2.50	18	33 credit hours of which 21 must be at the 3000- or 4000-level; minimum cumulative GPA of 2.00.	33 credit hours	ENVR 2900, ENVR 3900, ENVR 3910, ENVR 3980, ENVR 3920, ENVR 3990; (ENVR 4910 and ENVR 4980 are optional)
Honours (120)	3.25	18	33 credit hours of which 21 must be at the 3000- or 4000-level; minimum cumulative GPA of 3.00; minimum 'C+' grade in each course.	39 credit hours	
Honours (Coop) (120)	3.25	18	33 credit hours of which 21 must be at the 3000- or 4000-level; minimum cumulative GPA of 3.00; minimum 'C+' grade in each course.	39 credit hours	ENVR 2900, ENVR 3900, ENVR 3910, ENVR 3980, ENVR 3920, ENVR 3990; (ENVR 4910 and ENVR 4980 are optional)

¹Students must satisfy the residence requirement for the degree program in order to be eligible for graduation. This is defined as either a total of 48 or the last 24 credit hours at the University of Manitoba.

7.4 Dean's Honour List and Graduating with Distinction or First Class Honours

Students enrolled in a minimum of 12 credit hours of course work during a term and achieve a term Grade Point Average of 3.50 or higher will be placed on the **Dean's Honour List**.

Students graduating with a Bachelor of Environmental Science (General) or Bachelor of Environmental Studies (General) degree will have their degree granted 'With Distinction' if they have a minimum Degree Grade Point Average of 3.50 on all course work.

Students graduating with a Bachelor of Environmental Science (Major) or Bachelor of Environmental Studies (Major) degree will have their degree granted 'With Distinction' if they have a minimum Degree Grade Point Average of 3.50 on all course work.

The term Degree with Distinction will appear both on the parchment and on the student's transcript of marks.

Students in the Honours program will have their degree granted with 'First Class Honours' if they have a minimum Degree Point Average of 3.50 based on all acceptable course work. The term First Class Honours will appear both on the parchment and on the student's transcript of marks.

7.5 Bachelor of Environmental Science^{1,2}

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
HONOURS 120 CREDIT HOURS

---	--	--

MINOR 18 CREDIT HOURS

ENVR 1000, ENVR 2000	12 credit hours of ENVR courses number at the 2000-level or above.
----------------------	--

NOTES:

¹Entrance into the degree programs is summarized in 7.2.1 of this *Chapter*.

²The courses required in this program will satisfy the university mathematics requirements.

³MATH 1510 or MATH 1520 may be taken in place of MATH 1500 (or equivalent).

⁴It is recommended that students consider a selection from List A below when selecting courses from the Faculty of Arts.

⁵PHYS 1050 and PHYS 1070 may be used in lieu of PHYS 1020 and PHYS 1030, respectively.

⁶MATH 1310 and MATH 1710 may be taken in place of MATH 1300 and MATH 1700(or equivalent), respectively.

⁷Focus Area courses must include a minimum of 21 credit hours at the 3000- and/or 4000-level. Focus Area performance requirements are defined in section 7.3 of this *Chapter*.

IMPORTANT: The Honours and Major programs need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

NOTES:

•To fulfil prerequisite requirements, a grade of 'C' must be achieved, unless otherwise stated, in any course stipulated as a prerequisite to a further course.

•Students should review the current course topics available through *ENVR 2010* (1.5), *ENVR 2020* (3), *ENVR 3000* (3), *ENVR 3010* (1.5), *ENVR 3020* (3), *ENVR 4000* (3), *ENVR 4010* (1.5), and *ENVR 4020* (3) as well as those offered through *GEOG 3740* (6), *GEOG 3750* (3), *GEOG 3760* (6), *GEOG 3770* (3) and *GEOG 4670* (3). Also, all courses are not offered every year or every term. The course schedule for the current academic term is available from the online calendar at umanitoba.ca/calendar.

•Students registering in certain courses may be required to participate in field trips or field components and pay a portion of the associated expenses. For details, contact the Department of Environment and Geography general office.

•Equivalent courses offered through Collège universitaire de Saint-Boniface may be used in lieu of the specified course identified in the program requirements chart. Collège universitaire de Saint-Boniface courses end in the number '1' (e.g. CHEM 1301).

12 credit hours of ENVR courses numbered at the 2000-level or above.

NOTES:¹Entrance into the degree programs is summarized in 7.2.2.²The courses required in this program will satisfy the university mathematics requirements.³GEOG 1200, GEOG 1201, GEOG 1281 and GEOG 1291 may be used in lieu of GEOG 1280 and GEOG 1290.⁴Students are permitted to substitute NATV 1220 with another 3 credit hours from the department or approved alternative course. See the student advisor for assistance.⁵Students with an interest in the Conservation and Biodiversity Focus Area are advised to complete the combination of BIOL 1020 and BIOL 1030 as well as BIOL 2300 (or AGE 2370) instead of BOTN 1010 and BIOL 2390.⁶It is recommended that students consider a selection from List A below when selecting courses from the Faculty of Arts.⁷Students must complete 3 credit hours of course work containing significant international content. Students are referred to List B for a list of available courses. Students may substitute with another course as approved by the student advisor.⁸Focus Area courses must include a minimum of 21 credit hours at the 3000- and/or 4000-level. Focus Area performance requirements are defined in section 7.3 of this Chapter.⁹**IMPORTANT:** The Honours and Major programs need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.**NOTES:**

•To fulfil prerequisite requirements, a grade of 'C' must be achieved, unless otherwise stated, in any course stipulated as a prerequisite to a further course.

•Students should review the current course topics available through *ENVR 2010 (1.5)*, *ENVR 2020 (3)*, *ENVR 3010 (1.5)*, *ENVR 3020 (3)*, *ENVR 4000 (3)*, *ENVR 4010 (1.5)*, and *ENVR 4020 (3)* as well as those offered through *GEOG 3740 (6)*, *GEOG 3750 (3)*, *GEOG 3760 (6)*, *GEOG 3770 (3)* and *GEOG 4670 (3)*. Also, all courses are not offered every year or every term. The course schedule for the current academic term is available from the online calendar at umanitoba.ca/calendar.

•Students registering in certain courses may be required to participate in field trips or field components and pay a portion of the associated expenses. For details, contact the Department of Environment and Geography general office.

•Equivalent courses offered through Collège universitaire de Saint-Boniface may be used in lieu of the specified course identified in the entrance requirements chart. Collège universitaire de Saint-Boniface courses end in the number '1' (e.g. GEOG 1281).

List A: Recommended List of Faculty of Arts Electives. Students may wish to consider courses from the following list when identifying appropriate selections from the Faculty of Arts.

ANTH 1210 Human Origins and Antiquity Cr.Hrs.3
ANTH 1220 Cultural Anthropology Cr.Hrs.3
ANTH 1520 Critical Cultural Anthropology Cr.Hrs.3
ECON 1200 Principles of Economics Cr.Hrs.6
ECON 1210 Introduction to Canadian Economic Issues and Policies Cr.Hrs.3
ECON 1220 Introduction to Global and Environmental Economic Issues and Policies Cr.Hrs.3
NATV 1200 The Native Peoples of Canada Cr.Hrs.6
NATV 1240 The Native Peoples of Canada, Part 2 Cr.Hrs.3
PHIL 1200 Introduction to Philosophy Cr.Hrs.6
PHIL 1290 Critical Thinking Cr.Hrs.3
PHIL 1320 Introductory Logic Cr.Hrs.6

PHIL 1330 Introduction to Symbolic Logic Cr.Hrs.6
PHIL 1510 Historical Introduction to Philosophy Cr.Hrs.6
RLGN 1420 Ethics in World Religions Cr.Hrs.3
RLGN 2180 Theory of Nature Cr.Hrs.3

List B: Courses containing significant international content:

ABIZ 1010 Economics of World Issues and Policies Cr.Hrs.3
ECON 2550 Political Economy 2: Economic Growth and Fluctuations in a Global Economic Environment Cr.Hrs.3
ECON 3670 International Trade Cr.Hrs.3
POLS 2040 Introduction to International Relations Cr.Hrs.6
POLS 3220 Globalization and the World Economy Cr.Hrs.3
POLS 3250 International Political Economy Cr.Hrs.3
GEOG 4260 Sacred Lands Cr.Hrs.3

or approved by the student advisor

7.7 Environment, Earth, and Resources Course Descriptions

EER 1000 Earth: A User's Guide Cr.Hrs.3 This course will present a multi-disciplinary introduction to the Planet Earth as both the source of essential resources and as the site of resulting negative impacts. Focus in the courses will be provided by addressing important and current topics, case studies, and concepts that the well-educated citizen of the Earth should understand and will include natural and human-induced processes within a broad range of spatial and temporal scales.

7.8 Environmental Science and Environmental Studies Course Descriptions

All courses are not offered every year. The course schedule for the current academic term is available from the online calendar at umanitoba.ca/calendar. **There are several course titles available under the topics courses including ENVR 2010, ENVR 2020, ENVR 3000, ENVR 3010, ENVR 3020, ENVR 3500, ENVR 4000, ENVR 4010 and ENVR 4020.**

Note: Students registering in a certain course may be required to participate in field trips or field components and pay a portion of the associated expenses. For details refer to the online calendar (umanitoba.ca/calendar) and/or contact the Department of Environment and Geography general office.

ENVR 1000 Environmental Science 1 - Concepts Cr.Hrs.3 (Formerly 128.100) This course will introduce students to the conceptual framework of the environment by examining its physical, biological, and social components. General topics to be consid-

ered will include ecological principles and the responses of natural and managed systems to disturbance; population growth; biodiversity and conservation; and environmental sustainability. Not to be held for credit with BIOL 1340 (071.134).

ENVR 2000 Environmental Science 2 - Issues Cr.Hrs.3 (Formerly 128.200) This course will briefly review the major features of the structure and function of natural systems along with the degree to which these have been compromised. The main component of the course, however, will concentrate on the identification of the issues that underlie environmental degradation, while exploring alternative conditions that have the potential to reverse current trends and ultimately contribute to ecological sustainability. *Prerequisite:* ENVR 1000 (128.100) (C).

ENVR 2010 Field Topics in Environment Cr.Hrs.1.5 Field and practical experience in selected topics of current interest in the Environmental Science and Studies, with the content to vary depending on the needs of students and faculty. *Prerequisite:* permission of department head.

ENVR 2020 Extended Field Topics in Environment Cr.Hrs.3 Field and practical experience in selected topics of current interest in the Environmental Science and Studies, with the content to vary depending on the needs of students and faculty. *Prerequisite:* permission of department head.

ENVR 2170 Environmental Problem Solving Cr.Hrs.3 (Formerly 128.217) A survey of mathematical and scientific approaches to environmental problems. A multi-disciplinary approach will be taken, using current topical issues as examples. *Prerequisites:* (CHEM 1310 or CHEM 1311 (002.131) (C)) and, (BIOL 1030 or BIOL 1031 or (071.125) (C)), and (PHYS 1020 or PHYS 1021 (016.102), or MATH 1500 or MATH 1501 (136.150), or MATH 1200 or MATH 1201 (136.120), or MATH 1300 or MATH 1301(136.130), or MATH 1310 (136.131), or MATH 1510 (136.151), or MATH 1520

(136.152), or MATH 1530 (136.153) (C)).

ENVR 2180 Introductory Toxicology Cr.Hrs.3 (Formerly 128.218) A survey of general principles underlying the effects of toxic substances on biological systems, including consideration of the history, scope and applications of toxicology, the mechanisms of toxic action, and some major types of toxicants. Not to be held with ENVR 2190 (128.219), BIOL 2380 (BOTN 2180 or 001.218), BIOL 2382 (BOTN 2190 or 001.219), ZOOL 2180 (022.218), ZOOL 2190 (022.219), AGRI 2180 (065.218), AGRI 2190 (065.219). *Prerequisites:* (BIOL 1030 or BIOL 1031 or (071.125) (C)), and (CHEM 1310 or CHEM 1311 (002.131) (C), or CHEM 1320 (002.132) (C)).

ENVR 2190 Toxicological Principles Cr.Hrs.1.5 (Formerly 128.219) A survey of general principles underlying the effects of toxic substances on biological systems, including consideration of the history, scope and applications of toxicology, and the mechanisms of toxic action. Not to be held with ENVR 2180 (128.218), BIOL 2380 (BOTN 2180 or 001.218), BIOL 2382 (BOTN 2190 or 001.219), ZOOL 2180 (022.218), ZOOL 2190 (022.219), AGRI 2180 (065.218), AGRI 2190 (065.219). *Prerequisites:* (BIOL 1030 or BIOL 1031 or (071.125) (C)), and (CHEM 1310 or CHEM 1311 (002.131) (C), or CHEM 1320 (002.132) (C)).

ENVR 2350 Technical Communication Skills In Environmental Science Cr.Hrs.3 (Lab Required) (Formerly 128.235) An introduction to technical communication skills required for environmental practitioners in research, government, and industry. The course covers technical writing and literature search techniques, business writing including reports, memos and e-mails, professional presentation skills, and fundamental internet skills. Practical experience is gained through assignments and laboratory exercises. Not to be held for credit with (128.205). *Prerequisite:* ENVR 1000 (128.100) or BIOL 1340 (071.134) or permission of department head

ENVR 2350 Technical Communication in the Environmental Sectors Cr.Hrs.3 (Lab Required) (Formerly 128.235) An introduction to technical communication skills required for environmental practitioners in research, government, and industry. The course covers technical writing and literature search techniques, business writing including reports, memos and e-mails, professional presentation skills, and fundamental internet skills. Practical experience is gained through assignments and laboratory exercises. Not to be held for credit with (128.205). *Prerequisite:* ENVR 1000 or 128.100 or BIOL 1340 or 071.134 or permission of department head

ENVR 2550 Environmental Chemistry Cr.Hrs.3 (Lab Required) (Formerly 128.255) An introduction to the chemistry of the environment. Emphasis will be on the composition of the natural environment and the processes of natural and human-introduced chemical species that take place within it. The course will provide students with the chemical basis for understanding the environment and environmental problems. Not to be held with CHEM 2550 (002.255). *Prerequisite:* CHEM 1310 or CHEM 1311 (002.131) (C).

ENVR 2650 Introduction to Environmental and Natural Resources Policy and Law Cr.Hrs.3 This course provides an introduction to legal and policy processes and an overview of Canadian law relating to the environment and natural resources. The course provides a general introduction to legal principles and the legal and policy processes related to the environment and natural resources; reviews important laws governing environmental protection and management; and provides an overview of the law governing the ownership and disposition of natural resources. Not to be held with the former ENVR 3650. *Prerequisite:* A minimum grade of C in ENVR 2000 (128.200) or permission of the department head.

ENVR 2900 Professional Development in the Environmental Sectors 1 Cr.Hrs.1.5 (Formerly 128.290) Through self directed learning students are introduced to the environmental sectors and issues including workplace health and safety, the respectful workplace, managing workloads and expectation, and professionalism. The course is a mandatory requirement to Cooperative Education Option admission. *Prerequisite:* 30 credit hours of university credit.

ENVR 3000 Multidisciplinary Topics in Environmental Science 1 Cr.Hrs.3 (Formerly 128.300) Selected topics of current interest in the Environmental Sciences and Studies. Course content to vary with each offering depending on the needs and interests of students and faculty. *Prerequisites:* Permission of department head, and 60 credit hours of university credit.

ENVR 3010 Field Topics in Environmental Science 1 Cr.Hrs.1.5 (Formerly 128.301) Field and practical experience in selected topics of current interest in the Environmental Sciences and Studies, with the content to vary depending on the needs and interests of students and faculty. *Prerequisite:* Permission of department head.

ENVR 3020 Extended Field Topics in Environmental Science 1 Cr.Hrs.3 (Formerly 128.302) Field and practical experience in selected topics of current interest in the Environmental Sciences and Studies, with the content to vary depending on the needs and interests of students and faculty. *Prerequisite:* Permission of department head.

ENVR 3110 Environmental Conservation and Restoration Cr.Hrs.3 (Lab Required) (Formerly 128.311) Environmental conservation and restoration are introduced and approaches based on science and traditional knowledge are contrasted. An emphasis is placed on systems thinking and both local and international case studies. Not to be held with (128.310). *Prerequisites:* BIOL 2390 (BOTN 2280 or 001.228) (C), or (ZOO 2290 (022.229) (C), or BIOL 2300 (BOTN 2370 or BOTN 2371 (001.237) (C), or ZOOL 2370 or ZOOL 2371 (022.237) (C), or AGE 2370 (065.237) (C) or permission of department head.

ENVR 3150 Environmental Responsibilities Cr.Hrs.3 (Formerly 128.315) Environmental responsibilities in terms of policies, legislation, standards and guidelines are covered through lectures, case study review and discussion. Environmental liability and due diligence are reviewed in relation to responsibilities of organizations and individuals. Strategies to manage environmental liabilities, including environmental assessment, risk assessment, audit, site assessment and management systems are also discussed. *Prerequisite:* A minimum grade of C in ENVR 2650 or permission of the

department head.

ENVR 3180 Methods in Ecotoxicology Cr.Hrs.3 (Lab Required) This is a laboratory-based course exploring the development, conduction and application of bioassays, biomarkers, bioindicators and biomonitors in ecotoxicology. Through a laboratory setting, students learn how to perform standard bioassays for a variety of species (plants and invertebrates) as well as systems (aquatic and terrestrial) at different levels of biological organization, from the individual to the ecosystem. Not to be held with the former ENVR 3300. *Prerequisite:* a minimum grade of C in each of ENVR 2180 or BOTN 2380 (or BOTN 2180, ZOOL 2180) or AGRI 2180) and a second year course in the Faculty of Science or the Faculty of Agricultural and Food Sciences that has a laboratory component, or permission of the department head.

ENVR 3250 Environmental Assessment Cr.Hrs.3 (Lab Required) (Formerly 128.325) The theory, principles and practices of environmental assessment as a planning and decision-making process to identify and mitigate adverse effects of development projects. Environmental assessment is defined in the context of federal and provincial legislation, and applicable standards and guidelines. Laboratory assignments involve practical experiences, case study review and basic report preparation. *Prerequisites:* (ABIZ 3550 (061.355) (C), or ENVR 3150 (128.315) (C)), and (BIOL 2300 (BOTN 2370 or BOTN 2371 (001.237) (C), or ZOOL 2370 or ZOOL 2371 (022.237) (C), or AGE 2370 (065.237) (C)), or permission of department head.

ENVR 3340 Circumpolar Cultures and Lifestyles Cr.Hrs.3 This course provides an introduction to the culture, lifestyles, belief systems, material culture, art, environmental issues, and politics of Aboriginal Peoples in northern Canada, Greenland, Alaska, Siberia and Scandinavia. *Prerequisite:* permission of the department head.

ENVR 3350 Environmental Management Systems Cr.Hrs.3 (Formerly 128.335) This course provides an introduction to environmental management systems and specific material on the ISO 14001 international EMS standard. Auditing principles and techniques are described with specific guidance on auditing an ISO 14001 EMS. *Prerequisite:* Permission of department head.

ENVR 3400 Introduction to Environment and Health Cr.Hrs.3 (Formerly 128.340) An overview of the linkages between human health and environmental issues. The course discusses the nature of environmental hazards, human exposure and health outcomes. Major environmental and human health issues such as air pollution, hazardous substances, endocrine disruptors and products in the home are covered. Not to be held for credit with (128.421). *Prerequisite:* 60 credit hours of university credit.

ENVR 3500 Project in Environmental Science Cr.Hrs.3 (Formerly 128.350) A research project in any aspect of environmental science, chosen in consultation with the department head and an appropriate supervising faculty member. Written reports and oral presentation on the results of the project will be required. The course is normally available only to final year students in the Environmental Science or Studies Program. *Prerequisite:* Permission of department head.

ENVR 3550 Environmental Analysis Cr.Hrs.3 (Lab Required) (Formerly 128.355) An introduction to classical and modern techniques for sampling, sample pre-treatment, and analysis of chemical substances in aquatic atmospheric and terrestrial environments and the interpretation of data obtained from such analyses. Not to be held with CHEM 3590 or (002.347) or (002.355). *Prerequisite:* ENVR 2550 (128.255) (C), or CHEM 2550 (002.255) (C), or CHEM 2470 (002.247) (C), or permission of department head.

ENVR 3750 Green Building and Planning Cr.Hrs.3 An overview of the concepts and tools of Green building design and Green Planning. The course covers the history and trends in Green Building and Planning, related policies, tools and techniques. There is a strong emphasis on learning from local case-studies through seminars and field trips. *Prerequisite:* ENVR 2000 and 57 credit hours of course work, or permission of department head.

ENVR 3850 Sustainable Manitoba Cr.Hrs.3 This course approaches local sustainability issues from an interdisciplinary perspective. By looking at the ecological, social and economic aspects from a variety of discipline perspectives, a fuller understanding of sustainability is achieved. The broad range of perspectives is achieved through participation of guest speakers from other faculties and outside of the university as well as excursion outside the classroom. Not to be held for credit with GEOG 3850. *Prerequisite:* 60 credit hours of course work, or Permission of department head.

ENVR 3900 Professional Development in the Environmental Sectors 2 Cr.Hrs.1.5 ENVR 3900 Professional Development in the Environmental Sectors 2 Cr.Hrs.1.5 (Formerly 128.390) Attendance and participation in seminars, conferences and workshops to foster greater interaction between students and practitioners in the environmental sectors. Students improve professional skill sets through assignments and mock interviews. The normal sequence for participation is after completion of ENVR 3980 (128.398). *Prerequisites:* ENVR 2900 (128.290) (C), and 60 credit hours of university credit.

ENVR 3910 Coop Work Term Report 1 Cr.Hrs.1.5 (Formerly 128.391) Work term report, completed in conjunction with the coop placement, designed to integrate professional experiences with the concepts and theories explored through academic study. Students must be admitted into the Coop program to be registered, and receive credit. *Prerequisite:* ENVR 2900 (128.290) (C). *Prerequisite* or Concurrent Requirement: ENVR 3980 (128.398).

ENVR 3920 Coop Work Term Report 2 Cr.Hrs.1.5 (Formerly 128.392) Work term report, completed in conjunction with the coop placement, designed to integrate professional experiences with the concepts and theories explored through academic study. Students must be admitted into the Coop program to be registered, and receive credit. *Prerequisite:* ENVR 3980 (128.398) (P). *Prerequisite* or Concurrent Requirements: ENVR 3900 (128.390), and ENVR 3990 (128.399).

ENVR 3980 Coop Work Term 1 Cr.Hrs.0 (Formerly 128.398) Work assignments in business, industry, research or government for students registered in the Honours or Major Cooperative program. This course is graded pass/fail. *Prerequisite:* ENVR 2900

(128.290) (C).

ENVR 3990 Coop Work Term 2 Cr.Hrs.0 (Formerly 128.399) Work assignments in business, industry, research or government for students registered in the Honours or Major Cooperative program. This course is graded pass/fail. *Prerequisite* or Concurrent Requirement: ENVR 3900 (128.390).

ENVR 4000 Multidisciplinary Topics in Environmental Science 2 Cr.Hrs.3 (Formerly 128.400) Selected topics of current interest in the Environmental Sciences and Studies. Course content to vary with each offering depending on the needs and interests of students and faculty. *Prerequisites*: Permission of department head, and 60 credit hours of university credit.

ENVR 4010 Field Topics in Environmental Science 2 Cr.Hrs.1.5 (Formerly 128.401) Field and practical experience in selected topics of current interest in the Environmental Sciences and Studies, content to vary depending on the needs and interests of students and faculty. *Prerequisite*: Permission of department head.

ENVR 4020 Extended Field Topics in Environmental Science 2 Cr.Hrs.3 (Formerly 128.402) Field and practical experience in selected topics of current interest in Environmental Sciences and Studies, with the content to vary depending on the needs and interests of students and faculty. *Prerequisite*: Permission of department head.

ENVR 4050 Ecosystem Management Cr.Hrs.3 This course will provide students with an understanding of the practical applications of ecological science, environmental policy, and resource management approaches in the large-scale planning of landscapes. The course will review ecological principles and trace the historical development of the ecosystem concept. Comparisons are made to other possible environmental management approaches. The synthesis of major elements and concepts will be reinforced through case studies on the Manitoba landscape, with an emphasis on practical learning by students through field seminars and group discussions. Not to be held for credit with ENVR 4050. *Prerequisite*: Permission of department head.

ENVR 4060 Biogeography Cr.Hrs.3 This course will provide students with a general understanding of the historical, ecological, analytical, and conservation aspects of biogeography. The course will also have a dual focus on the principles and concepts of reasons for the distribution of plants and animals worldwide, as well as incorporating discussion on as many local (Manitoba, Canada, North America) examples as possible. Not to be held for credit with GEOG 4060. *Prerequisite*: Permission of department head.

ENVR 4110 Critical Thinking and the Environment Cr.Hrs.3 (Lab Required) (Formerly 128.411) Topical issues and responses regarding the environment including conservation, management, and policy making are critically evaluated at local, national, and global scales. Term projects emphasizing applied work with environmental organizations and researchers are presented. Not to be held with the former 128.410 or 001.468. *Prerequisite*: ENVR 2000 (or 128.200)(C) and 72 credit hours of course work, or permission of the department head.

ENVR 4180 Ecotoxicological Risk Characterization Cr.Hrs.3 A biologically based, advanced course that will give students working knowledge of current processes and techniques for ecotoxicological risk characterization. The course material will cover the topics of problem definition, dose response characterization, exposure characterization, risk assessment, and risk management decision making. *Prerequisite*: ENVR 2180 (128.218) (C), or BIOL 2380 (BOTN 2180 or 001.218) (C), or ZOOL 2180 (022.218) (C), or AGRI 2180 (065.218) (C).

ENVR 4400 Advanced Issues in Environment and Health Cr.Hrs.3 (Formerly 128.440) An evaluation of global and local environmental health issues and the assessment and management tools used to manage these risks. Case studies of environmental issues and their human health effects are covered. Students have the opportunity to work on a substantial interdisciplinary environmental health project. Not to be held for credit with (128.422). *Prerequisite*: ENVR 3400 (128.340) (C).

ENVR 4500 Project in Environmental Science Cr.Hrs.6 (Formerly 128.450) A research project in any aspect of environmental science or environmental studies, chosen in consultation with the department head and an appropriate supervising faculty member. Written reports and oral presentation on the results of the project will be required. The course is normally available only to final year students in the Environmental Science or Studies Program. *Prerequisite*: Permission of department head.

ENVR 4550 Aquatic Chemistry Cr.Hrs.3 (Formerly 128.455) An examination of biogeochemical processes affecting the distribution, speciation and bioavailability of chemical substances in the aquatic environment. The theoretical basis for the chemical behaviour of natural water systems is discussed, as well as the description of the processes involved in wastewater treatment. Offered in alternate years. Not to be held with CHEM 4550 (002.455). *Prerequisite*: ENVR 3550 (128.355) (C), or (002.355) (C), or CHEM 3590 (C), or (002.347) (C), or permission of department head.

ENVR 4650 Advanced Issues in Environmental Law and Policy Cr.Hrs.3 This course provides an in-depth review of Canadian law and policy relating to environmental protection and management. In particular, the course describes the laws governing a variety of topics related to the environment, including constitutional responsibilities, federal and provincial environmental legislation, water law, parks and protected areas, wildlife and fisheries management, species at risk, and international law including climate change. *Prerequisite*: A minimum grade of C in ENVR 2650 or permission of the department head.

ENVR 4910 Coop Work Term Report 3 Cr.Hrs.1.5 (Formerly 128.491) Work term report, completed in conjunction with the coop placement, which is designed to integrate professional experiences with the concepts and theories explored through academic study. Students must be admitted into the Coop program to be registered, and receive credit. *Prerequisite*: ENVR 3990 (128.399) (P).

ENVR 4980 Work Term 3 Cr.Hrs.0 (Formerly 128.498) Work assignments in business, industry, research or government for students registered in the Honours or Major Cooperative program. This course is graded pass/fail. *Prerequisite*: ENVR 3990

(128.399) (P).

8.1 Academic Staff

Distinguished Professor

Hawthorne, F.C., O.C., B.Sc. (Spec.) (Imperial College), A.R.S.M. (Royal School of Mines), Ph.D. (McMaster), F.R.S.C., F.G.A.C., F.M.S.A., Killam Fellow, Canadian Research Chair, P. Geo.

Professors Emeriti

Brisbin, W.C., B.Sc. (Geol.Eng.) (Manitoba), Ph.D. (UCLA); **Cerný**, P., B.Sc., M.Sc. (Brno), Ph.D. (Czechoslovak Academy of Sciences), F.R.S.C.; **Ferguson**, R.B., B.A., M.A., Ph.D. (Toronto), F.R.S.C.; **Hall**, D.H., B.Sc. (Alberta), M.Sc. (Toronto), Ph.D. (UBC).

Senior Scholars

Ayres, L.D., B.A. (Saskatchewan), Ph.D. (Princeton); **Clark**, G.S., B.Sc., M.Sc. (New Brunswick), Ph.D. (Columbia); **Moon**, W., B.Sc. (Seoul), B.A.Sc. (Elec.Eng.) (Toronto), M.Sc. (Columbia), Ph.D. (UBC), F.R.A.S.; **Turnock**, A.C., B.Sc., M.Sc. (Manitoba), Ph.D. (Johns Hopkins).

Professors

Chow, N., B.Sc. (Hons.)(Calgary), Ph.D. (Memorial), P. Geo.; **Elias**, R.J., B.Sc. (Hons.)(Manitoba), M.Sc., Ph.D. (Cincinnati), P. Geo.; **Ferguson**, I.J., B.Sc., Ph.D. (Australian National), P. Geo.; **Halden**, N.M., B.Sc. (Hons.), Ph.D. (Glasgow), P. Geo.; **Last**, W.M., B.Sc. (Wisconsin), M.Sc., Ph.D. (Manitoba) F.G.S.A., P. Geo.; **Sheriff**, B.L., B.Sc. (Leicester), M.Sc. (Brock), Ph.D. (McMaster), P. Geo.; **Sokolova**, E., Dipl. (Hons.), Ph.D. (Moscow State); **Teller**, J.T., B.Sc. (Cincinnati), M.Sc. (Ohio State), Ph.D. (Cincinnati), P. Geo.

Associate Professors

Chakhmouradian, A., M.Sc., Ph.D. (St. Petersburg), P. Geo.; **Fayek**, M., B.Sc. (Hons.) (Carleton), Ph.D. (Saskatchewan), Canada Research Chair; **Frederiksen**, A., B.Sc.(Hons.)(McGill), M.Sc.; **Ph.D.(UBC)**, P. Geo.

Assistant Professors

Bekker, A., Dipl. (Leningrad Mining Institute), M.Sc. (Minnesota), Ph.D. (Virginia Polytechnic); **Camacho**, A., B.Sc. (Hons.), M.Sc. (La Trobe), Ph.D. (Australian National).

Instructors

Mandziuk, W., B.Sc., B.Ed., M.Sc. (Manitoba) (Instructor II), **Young**, J., B.Sc., M.Sc. (Manitoba) (Instructor II).

8.2 Program Information

The Geological Sciences deal with the history of the Earth and its life, especially that which is recorded in rocks. Different component parts of the Earth system, the *lithosphere*, *biosphere*, *atmosphere* and *hydrosphere*, operate at different length and time scales. During interactions between the spheres there is feedback between the component parts as energy and mass are exchanged, transferred and redistributed. In a geological context, the feedback can occur on a global scale, or on very small scales such as that which we see in minerals. More recently humans have become a major force in this Earth system because we have intervened in many of these exchanges.

Considering the Earth's past, geoscientists typically work with long time scales (in the order of millions to billions of years). We also use Hutton's original philosophy of *uniformitarianism*, stated as *the present is the key to the past*, to solve geological problems. However, as we see changes at the Earth's surface (our environment) occurring on very short time scales we

need to learn to extract the signal of human activity from the Earth's pre-human past. Once we understand and quantify the nature and extent of the Earth's natural evolution as well as our more recent environmental impact, geological sciences can help predict future changes to the Earth.

Geology and Geophysics are the sciences that provide the quantitative data on the physical and chemical behaviour and characteristics of Earth materials - rocks, minerals, fluids and gases. These data are needed to model the behaviour of minerals in natural as well as many industrial systems. The theoretical and instrumental expertise needed to tackle many resource extraction, mineral processing and environmental problems is resident in geological science departments. From a broad Earth, environmental and resource perspective our collective future will depend on sustainable use of our Earth's resources and care of the environment.

The three-year General program in Geological Sciences is designed to give students a basic understanding of the discipline in combination with a concentration of courses in a second subject area. The General Program is not intended for those students who seek a career in the geosciences. Rather, it is a useful consideration for students planning to enter the Bachelor of Education program (see the Faculty of Education in this calendar) or other programs that require an undergraduate degree for admission. Students intending to pursue a career in the geosciences or graduate study should hold an Honours or Major degree (comprising at least 120 credit hours) in Geology or Geophysics.

Professional Registration

The professional practice of geoscience in certain provinces and territories in Canada is governed by provincial/territorial law and is regulated by professional geoscience associations. In Manitoba, the Association of Professional Engineers and Geoscientists (APEGM) regulates professional practice. The requirements for professional registration are acceptable academic preparation and a subsequent period of acceptable geoscience experience. Students considering professional registration should take the B.Sc. Geological Sciences Honours or Major degree *and* make appropriate course selections, particularly in the basic sciences. Students should consult with the Department of Geological Sciences. Graduates who do not meet the academic requirements may be required by the professional association to take additional courses or examinations. Current registration information for APEGM is available in the department or from the association's web site: www.apegm.mb.ca/register/index.html

Geological Sciences Prerequisite Information

To fulfil prerequisite requirements, a grade of 'C' must be achieved in any course stipulated as a prerequisite to a further course in Geological Sciences.

8.3 Degree Regulations

8.3.1 B.Sc. in Geological Sciences (Major) Geology or Geophysics

The Major programs in Geology and Geophysics are designed for students interested in combining an in-depth study of Geology and Geophysics with broad coverage of another subject or subjects of their choice (Science or non-Science). Admission to graduate programs may be conditional upon completion of additional courses or require a period of pre-Master's study. Students intending to proceed to a Master's degree must consult with the department at the beginning of their second year of undergraduate study and in each subsequent year. The Major program may be pursued on a part-time basis, although it must be recognized that students may require additional terms to complete degree requirements.

To qualify for the degree, a student must complete a minimum of 120 credit hours with passing grades ('D' or better) in each course and with a minimum degree grade point average of 2.00 as indicated in the Graduation Requirements Table (see section 8.3.5). Students must complete all Faculty requirements as well as the university written English and Mathematics requirement as described in the chapter, General Academic Regulations and Policy, in this *Calendar*.

Students admitted to the Major program will normally have completed University 1 requirements, which include six credit hours of courses from the Faculty of Arts, six credit hours of courses from the Faculty of Science and six credit hours from either the Clayton H. Riddell Faculty of Environment, Earth, and Resources, the Faculty of Arts or the Faculty of Science. Students who do not meet this requirement while in University 1 must do so within the Major program.

Minor in Another Department

Students in the B.Sc. Geological Sciences have the opportunity to complete a Minor in a subject field that is different than that of the declared major, and which normally consist of 18 credit hours from a department offering this option at the University of Manitoba. Students in the B.Sc. Geological Sciences are not permitted, to complete a Minor in Geological Sciences. Students can declare only one Minor. The Minor requirements are described in section 3.3 of this *Chapter*. Contact the department and/or a Riddell Faculty student advisor in the Faculty general office for further information about eligible Minors.

Entrance to the Major

To enter a Major program in Geology or Geophysics, a student must have completed at least 24 credit hours with a minimum Grade Point Average of 2.00 as stipulated in Entrance and Continuation Requirements Table (see section 8.3.4). In addition, the student must attain the minimum grade requirements specified for individual Year 1 courses according to the program tables for the Major in Geology (section 8.4) or the Major in Geophysics (see section 8.5). Students who do not obtain the entrance requirements for the Major program in their first year but who are interested in obtaining the Major degree should consult with the department.

Continuation in the Major

A student's academic performance is assessed first with his/her application for admission to the Riddell Faculty and then following each *term* in which the student is registered. To be in **good standing** and permitted to continue in the degree program, a student must maintain a minimum Grade Point Average of 2.00 as stipulated in the Entrance and Continuation Requirements Table (section 8.3.4). Students are not limited in the number of repeated courses and failures. Students who do not meet the minimum performance requirement will be placed on academic warning, probation or academic suspension as outlined in section 3.14 Academic Warning, Probation and Academic Suspension in this *chapter*. Students who do not maintain this minimum average to remain in the program will be required to withdraw from the Major program. Students will have the notation 'Required to Withdraw from the Major Program', recorded on their transcript of marks.

Failed courses: A student is required to repeat those failed courses that are specified as required courses for the program. Students are subject to the University of Manitoba regulations (see General Academic Regulations and Policy, Repeating a Course as described in this *Calendar*) and the *Riddell Faculty degree regulations regarding eligibility to repeat a course*. Students who need to repeat a course more than once to fulfil degree requirements must contact a Riddell Faculty student advisor for approval prior to registration.

Program approval

The department head (or designate) and a Riddell Faculty student advisor in the Faculty general office must approve a student's Major program each term. Students must also obtain departmental approval for all revisions to their programs.

Graduation in the Major

In order to graduate from the Geology or Geophysics Major, students must complete all degree program and faculty requirements as stipulated in sections 3 and 8 of this *chapter*. Students must also achieve the minimum performance requirements as outlined in the Graduation Requirements Table (see section 8.4.4). This is defined as a minimum Degree Grade Point Average of 2.00 on 120 or 121 credit hours which constitute the degree.

Residence Requirement for Major Students

A student must successfully complete a minimum of 60 credit hours at the University of Manitoba. The courses used to satisfy the requirement must be acceptable for credit in the Clayton H. Riddell Faculty of Environment, Earth, and Resources. Residence requirements apply both to first and second-degree students.

Recognition of Academic Merit

Dean's Honour List

Students enrolled in a minimum of 12 credit hours of course work during a term and achieve a term Grade Point Average of 3.50 or higher will be placed on the **Dean's Honour List**.

Degree with Distinction

To obtain a degree with distinction a student must achieve a minimum 3.50 Degree Grade Point Average on all courses constituting the Major de-

gree. The term 'Degree with Distinction' will appear both on the parchment and on the student's transcript of marks.

8.3.2 B.Sc. in Geological Sciences (Honours) Geology or Geophysics

The Honours programs are the most heavily concentrated programs offered and lead most directly to graduate studies. A student is required to achieve higher grade standards than in the Major degree program. The Honours degree may be pursued on a part-time basis, although it must be recognized that students will require additional terms to complete degree requirements. Students must complete the degree program within 8 years of gaining initial admission to the Honours program. Failure to complete the Honours degree within the 8-year time limit may require a student to transfer into the Major program.

A student will normally begin the Honours program in second year and must meet the entrance requirements set out below. Students in full-time study can expect to complete the prescribed courses in three years beyond the first year of University 1. Honours programs lead to either the B.Sc. Geological Sciences (Hons.) (Geology) or the B.Sc. Geological Sciences (Hons.) (Geophysics).

To be eligible for any award granted exclusively on the basis of academic performance, a student must normally be enrolled in a full-time program as defined by the department.

Students must complete the University Written English and Mathematics requirement as described in the chapter, General Academic Regulations and Policy, of this *Calendar*.

Entrance to Honours

To enter the Honours program in Geology or Geophysics, a student must have completed at least 24 credit hours with the minimum Degree Grade Point Average as stipulated in the Entrance and Continuation Requirements Table (section 8.3.4). In addition, the student must attain the minimum grade requirements specified for individual Year 1 courses according to the program tables for Honours Geology (section 8.4) or Honours Geophysics (section 8.5). Students who are ineligible to enter Honours with their admission to the Riddell Faculty may establish eligibility the following year on the basis of their second year of academic performance.

To enter the Honours degree program, a student must complete a program approval form available in the department general office and have it approved by the department head, or designate, and a Riddell Faculty student advisor in the Faculty general office.

Continuation in Honours

A student's academic performance is assessed first with his/her application for admission to the Riddell Faculty and then following each *term* in which the student is registered. To be in **good standing** and permitted to continue in the degree program, a student must maintain the performance requirement as stipulated in the Entrance and Continuation Requirements Table (section 8.3.4). Students are not limited in the number of repeated courses and failures. Students who do not meet the minimum performance requirements will be placed on academic warning, probation or academic suspension as outlined in section 3.14 Academic Warning, Probation and Academic Suspension in this *chapter*. Students who do not maintain this minimum average to remain in the program will be required to withdraw from the Honours program and, if eligible, will be placed in the Major program. Students will have the notation 'Required to Withdraw from the Honours Program' recorded on their transcript of marks.

Program Approval

The department head (or designate) and a Riddell Faculty student advisor in the Faculty general office must approve a student's Honours program each term. Students must also obtain departmental approval for all revisions made to their programs.

Residence Requirement for Honours Students

A student must successfully complete a minimum of 60 credit hours at the University of Manitoba. The courses used to satisfy the requirement must be acceptable for credit in the Clayton H. Riddell Faculty of Environment, Earth, and Resources. Residence requirements apply both to first and second-degree students.

Graduation from Honours

In order to graduate from the Honours Geology and Geophysics programs, students must complete all degree program and faculty requirements as stipulated in sections 3 and 8 of this *chapter*. Students must also achieve

the minimum performance requirements as outlined in the Graduation Requirements Table (see section 8.4.4). This is defined for the Honours Geology program as a minimum Degree Grade Point Average of 3.00 on 120 credit hours which constitute the degree and for Honours Geophysics as a minimum Degree Grade Point Average of 2.80 on the 120 (121) credit hours which constitute the degree.

Recognition of Academic Merit

Dean's Honour List

Students enrolled in 12 credit hours of course work during a term and achieve a term Grade Point Average of 3.50 or higher will be placed on the **Dean's Honour List**.

First Class Honours

To graduate with **First Class Honours**, a student must achieve a Degree Grade Point Average of 3.50. The term 'First Class Honours' will appear both on the parchment and on the student's transcript of marks.

Honours Program Notes:

Double Honours Programs

Double Honours programs may be available. The program must be arranged in consultation with the departments concerned.

Honours Requirements and Options

Students who do not obtain the entrance requirements for the Honours program in their first year but who are interested in obtaining an Honours degree should consult with the department before registering for their second year.

Honours Geology Options

For students who wish to increase the focus of their knowledge, recommended electives are listed below:

Environmental Geoscience: BIOL 2300 (or AGECE 2370), CIVL 4250, SOIL 4060, SOIL 4130, SOIL 4500, GEOL 4290, GEOL 4370, GEOL 4630, GEOG 3610, ENVR 2180 (BIOL 2380 or AGRI 2180), ENVR 3110, ENVR 3250, or others approved by the department. (Students are responsible for completion of prerequisites for these courses.)

Honours Geophysics Option

Students who wish to enter the Honours Geophysics Option and have not taken 6 credit hours of introductory Geological Sciences (eg., GEOL 1340 and one of GEOL 1400, GEOL 1410, or GEOL 1420) may arrange with the department to make up this credit. Students must contact the department during the spring preceding entrance to the Honours program. All course choices in the Honours program should be made after consultation with the coordinator of the Geophysics program

8.3.3 B.Sc. in Geological Sciences (General)

Degree Program Structure

- A Geological Sciences component consisting of a minimum of 30 credit hours.
- A Minor of 18 credit hours (minimum) in a different department or an interdisciplinary program. e.g. in the Clayton H. Riddell Faculty of Environment, Earth, and Resources, or the Faculty of Arts, or the Faculty of Science. The Minor requirements are described in section 3.3 of this *Chapter*.
- Students will normally have completed University 1 requirements, which include 6 credit hours from the Faculty of Arts, 6 credit hours from the Faculty of Science and 6 credit hours from either Arts, Science or the Clayton H. Riddell Faculty of Environment, Earth, and Resources. Students who have not met these requirements while in University 1, must meet the requirements prior to graduation.

High School Requirements

It is important to note that the equivalent of Manitoba 40S Chemistry or CHEM 0900 will be required to proceed in the program as GEOL 2540 stipulates this course as a prerequisite.

Entrance to the General

To be admitted to the General program, a student must have completed at least 24 credit hours with a minimum Cumulative Grade Point Average of 2.00. In addition, a student must have completed GEOL 1340 with the grade of 'C'. Refer to Table 8.6 for further program requirements.

Continuation in the General

A student's academic performance is assessed first with his/her application for admission to the Riddell Faculty and then following each term in which

the student is registered. To be in good standing and permitted to continue in the degree program, a student must maintain a minimum Degree Grade Point Average of 2.00 as stipulated in the Entrance and Continuation Requirements Table (section 8.3.4). Students are not limited in the number of repeated courses and failures. Students who do not meet the minimum performance requirement will be placed on academic warning, probation or academic suspension as outlined in section 3.14 Academic Warning, Probation and Academic Suspension in this chapter.

Failed courses: A student is required to repeat those failed courses that are specified as required courses for the program. Students are subject to the University of Manitoba regulations (see General Academic Regulations and Policy, Repeating a Course as described in this *Calendar*) and the *Riddell Faculty degree regulations regarding eligibility to repeat a course*. Students who need to repeat a course more than once to fulfil degree requirements must contact a Riddell Faculty student advisor for approval prior to registration.

Graduation in the General

To qualify for the degree, students must complete 90 credit hours, inclusive of Geological Sciences courses, a minor in a second department or program, and any University 1 requirements. Minimum performance requirements include passing grades ("D" or better) in each course, a minimum degree grade point average of 2.00 in Geological Sciences courses, and an overall degree grade point average of 2.00 on the 90 credit hours which constitute the degree. Note: Where a Geological Sciences course listed in the calendar has required prerequisites, a student must hold a minimum grade of "C" in each prerequisite course.

Residence Requirement for General Students

Students must complete a total of 48 credit hours at the University of Manitoba, or they must complete their final 30 credit hours at the University of Manitoba in order to satisfy the residency requirement. The courses used to satisfy the requirement must be acceptable for credit in the Clayton H. Riddell Faculty of Environment, Earth, and Resources.

Recognition of Academic Merit

Dean's Honour List

Students enrolled in a minimum of 12 credit hours of course work during a term and achieve a term Grade Point Average of 3.50 or higher will be placed on the Dean's Honour List.

Degree with Distinction

To obtain a degree with distinction, a student must achieve a minimum 3.50 Degree Grade Point Average on all courses constituting the General degree. The term 'Degree with Distinction' will appear both on the parchment and on the student's transcript of marks.

8.3.4 Geological Sciences Entrance and Continuation Requirements

Degree Program	Minimum Degree Grade Point Average
Major (Geology)	2.00 ¹
Major (Geophysics)	2.00 ¹
Honours (Geology)	3.00 ¹
Honours (Geophysics)	2.80 ¹
General (Geological Sciences)	2.00 ¹

Notes:

¹In addition to the minimum degree grade point average noted in this chart, specific courses (with minimum grades) are required for entry and these are noted in the program chart for each program.

8.3.5 Geological Sciences Graduation Requirements

Degree Program	Minimum Degree Grade Point Average
Major (Geology) (120)	2.00
Major (Geophysics) (120)	2.00
Honours (Geology) (120)	3.00
Honours (Geophysics) (120)	2.80
General (Geological Sciences) (90)	2.00

8.4 B.Sc. Geological Sciences (Geology)^{1,7}

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
HONOURS GEOLOGY 120 CREDIT HOURS			
GEOL 1340 (B) and one of GEOL 1400, GEOL 1410, or GEOL 1420 6 credit hours from the Faculty of Arts	GEOL 2440, GEOL 2500, GEOL 2520, GEOL 2530, GEOL 2800, GEOL 2770, GEOL 3910 ⁶	GEOL 2060, GEOL 3110, GEOL 3130, GEOL 3310, GEOL 3490, GEOL 3900, GEOL 4910 ⁶ 9 credit hours of Geological Sciences Electives from Lists A and B ⁵	GEOL 4670, GEOL 4870 18 credit hours of Geological Sciences Electives from Lists A and B ⁵ not yet taken.
CHEM 1300, PHYS 1020 ² , and one of MATH 1500 ³ or MATH 1300 ⁴ must be completed in University 1 or Year 2. It is recommended that students complete the W course in University 1 or Year 2.			

MAJOR GEOLOGY 120 CREDIT HOURS

GEOL 1340 (C+) and one of GEOL 1400, GEOL 1410, or GEOL 1420 6 credit hours from the Faculty of Arts	GEOL 2440, GEOL 2500, GEOL 2520, GEOL 2530, GEOL 2800, GEOL 2770, GEOL 3910 ⁶	GEOL 2060, GEOL 3110, GEOL 3130, GEOL 3310, GEOL 3490, GEOL 3900, GEOL 4910 ⁶ 3 credit hours of Geological Sciences Electives from Lists A and B ⁵	GEOL 4670, GEOL 4920 15 credit hours of Geological Sciences Electives from Lists A and B ⁵ not yet taken
CHEM 1300, PHYS 1020 ² , and one of MATH 1500 ³ or MATH 1300 ⁴ must be completed in University 1 or Year 2. It is recommended that students complete the W course in University 1 or Year 2.			

Notes:

¹The courses required in this program will satisfy the University Mathematics requirement.

²PHYS 1050 may be used in lieu of PHYS 1020.

³MATH 1510 or MATH 1520 may be used in lieu of MATH 1500.

⁴MATH 1310 may be used in lieu of MATH 1300.

⁵Among the Geological Sciences Electives, all students must complete at least 12 credit hours from List A. In addition, Honours students must complete 15 credit hours from List B or courses from List A not yet completed; Major students must complete at least 6 credit hours from List B or courses from List A not yet completed. NOTE: With departmental approval, students may substitute 6 credit hours of 2000-level or higher courses from other departments in order to satisfy professional registration requirements. See Other Note 1 below.

⁶Students will register for GEOL 3910 and GEOL 4910 in Summer term. NOTE: Students should be aware that they are expected to contribute to transportation and accommodation costs. See the department office at the beginning of each year for information.

⁷**IMPORTANT:** The Honours and Major programs need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program. (Letters in brackets indicate the minimum prerequisite standing in a specific course required for entry to the program).

⁸Students who have GEOL 1440 (007.144) or the former 007.124 should consult with the department. At the discretion of the department, GEOL 1440 (007.144) or 007.124 may be permitted in lieu of GEOL 1340 for entry.

One of GEOL 1400, GEOL 1410, or GEOL 1420 is highly recommended to be taken in Year 1, but will not be considered when assessing entrance requirements to the program. If this requirement is not fulfilled in Year 1, it must be completed by the end of Year 2.

- To fulfil prerequisite requirements, a grade of 'C' must be achieved in any course stipulated as prerequisite to a further course in Geological Sciences.
- All courses are not offered every year. The course schedule for the current academic term is available from the online calendar at umanitoba.ca/calendar
- Students registering in certain courses may be required to pay a portion of the costs associated with field trips. For details, contact the department general office.
- Equivalent courses offered through Collège universitaire de Saint Boniface may be used in lieu of the specified courses identified in the degree program chart. Collège universitaire de Saint-Boniface courses end in the number '1' (e.g. CHEM 1301).

Other Note 1: Geological Sciences - Geology Electives Lists A and B**List A Electives: Honours and Major students must complete a minimum of 12 credit hours from the following courses:**

GEOL 2390	Environmental Geology (3)
GEOL 3290	Metamorphic Structure and Tectonics (3)L
GEOL 4280	Instrumental Techniques In Geology (3)L
GEOL 4300	Mineral Deposits (3)L
GEOL 4520	Petroleum Geology (3)L
GEOL 4890	Basin Analysis (3)L

List B Electives: Honours students are required to complete a minimum of 15 credit hours; Major students must complete a minimum of 6 credit hours from the following courses:

GEOL 3140	Gemology (3)L
GEOL 3420	Engineering Geology (3)
GEOL 3740	Exploration Seismology (3)L

GEOL 3750	Geology and Geophysics of the Planets (3)L
GEOL 3810	Applied Geophysics (3)L
GEOL 4260	Applied Geophysics Field Course (3)
GEOL 4270	Advanced Studies in Earth Sciences (3)
GEOL 4290	Topics in Environmental Geosciences (3)L
GEOL 4310	Paleontologic Principles (3)L
GEOL 4370	Global Change (3)
GEOL 4630	Geolimnology (3)
GEOL 4660	Volcanology (3)L
GEOL 4740	Geophysics Field School (6)
GEOL 4830	Remote Sensing and Geological Information Systems (3)L and/or up to 6 credit hours of additional courses not yet completed from List A.

NOTE: With departmental approval, up to 6 credit hours of 2000-level or higher courses from other departments may be substituted for courses in List B in order to satisfy professional registration (APEGM) requirements.

8.5 B.Sc. Geological Sciences (Geophysics) ^{5,7}

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
HONOURS GEOPHYSICS 120 CREDIT HOURS			
GEOL 1340(B) ⁶ and one of: GEOL 1400, GEOL 1410, or GEOL 1420 PHYS 1050(B) [or PHYS 1020(B+)], PHYS 1070(B), MATH 1210 ¹ , MATH 1510 ¹ (B), and MATH 1710 ¹ (B) [or MATH 1500(B) and MATH 1700(B) ¹] Plus 6 credit hours from the Faculty of Arts, which should include the required 'W' course	GEOL 2060, GEOL 2440, GEOL 2520, GEOL 2530, GEOL 2540 PHYS 2390, PHYS 2490, MATH 2130 ² , MATH 2132 ² , COMP 1010	GEOL 3130, GEOL 3740, GEOL 3810, GEOL 4670, GEOL 4740 ⁴ , GEOL 4810, GEOL 4870, CHEM 1300, PHYS 2600, MATH 2120 ³ , 9 credit hours of Geological Sciences Geophysics Electives from List A, 6 credit hours of Geological Sciences Geophysics Electives from List P and 9 credit hours of Geological Sciences Geophysics Electives from List B.	
30 Credit Hours	30 Credit Hours	60 Credit Hours for Year 3 and 4 ⁷	
MAJOR GEOPHYSICS 120 CREDIT HOURS			
GEOL 1340(C+) ⁶ and one of: GEOL 1400, GEOL 1410, or GEOL 1420 PHYS 1050(C+) [or PHYS 1020(B)], PHYS 1070(C), MATH 1210 ¹ , MATH 1510 ¹ (C+), and MATH 1710 ¹ (C) [or MATH 1500(C+) and MATH 1700(C) ¹] 6 credit hours from the Faculty of Arts, which should include the required 'W' course	GEOL 2060, GEOL 2440, GEOL 2520, GEOL 2530, GEOL 2540 PHYS 2390, PHYS 2490, MATH 2130 ² , MATH 2132 ² , COMP 1010	GEOL 3130, GEOL 3740, GEOL 3810, GEOL 4670, GEOL 4810, GEOL 4920, CHEM 1300, PHYS 2600, MATH 2120 ³ , GEOL 4740 ⁴ 6 credit hours of Geological Sciences Geophysics Electives from List A, 3 credit hours of Geological Sciences Geophysics Electives from List P and 6 credit hours of Geological Sciences Geophysics Electives from List B.	

NOTES:

¹ MATH 1690 may be taken in place of MATH 1500 or MATH 1510; MATH 1300 may be taken in place of MATH 1210. Selection of MATH 1300 or MATH 1210 will determine the prerequisite background for Mathematics courses required in years 2, 3 and 4.

² MATH 2720 and MATH 2730 may be taken in place of MATH 2130 and MATH 2132. Students should note that MATH 1300 is a prerequisite to MATH 2720 and a corequisite to MATH 2730.

³ MATH 2600 may be taken in place of MATH 2120

⁴ GEOL 4740 will normally be taken immediately following the spring examinations on or about May 1 and will continue for approximately three weeks. Registration will show as Summer Term. NOTE: Students are expected to contribute to the costs of transportation, lodging, and food. Contact the Department for further information.

⁵ The courses required in this program satisfy the university mathematics requirement.

⁶ Students who have GEOL 1440 (007.144) or the former 007.124 should consult with the department. At the discretion of the department, GEOL 1440 (007.144) or 007.124 may be permitted in lieu of GEOL 1340 for entry.

One of GEOL 1400, GEOL 1410, or GEOL 1420 is highly recommended to be taken in Year 1, but will not be considered when assessing entrance requirements to the program. If this requirement is not fulfilled in Year 1, it must be completed by the end of Year 2.

⁷ **IMPORTANT:** The Honours and Major programs need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program. (Letters in brackets indicate the minimum prerequisite standing required for further study)

NOTES:

- To fulfil prerequisite requirements, a grade of 'C' must be achieved in any course stipulated as prerequisite to a further course in Geological Sciences.

- All courses are not offered every year. The course schedule for the current academic term is available from the online calendar at umanitoba.ca/calendar

- Students registering in certain courses may be required to pay a portion of the costs associated with field trips. For details, contact the department general office.

- Equivalent courses offered through Collège universitaire de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart. Collège universitaire de Saint-Boniface courses end in the number '1' (e.g. PHYS 1051).

Other Note 1: Geological Sciences - Geophysics Electives Lists A, B and P

List A Electives: Honours students are required to complete a minimum of 9 credit hours; Major students must complete a minimum of 6 credit hours from the following courses:

GEOL 4250 Theory and Application of Geophysical Inversion Methods (3)L

GEOL 4320 Physics of the Earth: Seismology and Heat Flow (3)

GEOL 4330 Physics of the Earth: Geomagnetism and Gravity (3)

List B Electives: Honours students are required to complete a minimum of 9 credit hours; Major students must complete a minimum of 6 credit hours from the following courses:

GEOL 2390 Environmental Geology (3)

GEOL 2770 Principles of Inorganic Geochemistry (3)L

GEOL 3110 Petrogenesis of Igneous Rocks (3)L

GEOL 3290 Metamorphic Structure and Tectonics (3)L

GEOL 3420 Engineering Geology (3)

GEOL 3490 Glacial Geology and Geomorphology (3)L

GEOL 3750 Geology and Geophysics of the Planets (3)L

GEOL 3900 Sedimentology (3)L

GEOL 3910 Introduction to Field Mapping (3)

GEOL 4270 Advanced Studies in Earth Sciences (3)

GEOL 4300 Mineral Deposits (3)L

GEOL 4370 Global Change (3)

GEOL 4520 Petroleum Geology (3)L

GEOL 4830 Remote Sensing and Geological Information Systems (3)L

GEOL 4890 Basin Analysis (3)L

GEOL 4910 Advanced Field Mapping (3)

Any List A or P not already taken, or any advanced level Geological Sciences, Physics or Mathematics course(s) approved by department.

List P Electives: Honours students are required to complete a minimum of 6 credit hours; Major students must complete a minimum of 3 credit hours from the following courses:

CHEM 2290 Chemical Energetics and Dynamics: Macroscopic Descriptions (3)L

MECH 2260 Introduction to Fluid Mechanics (3)L

PHYS 2610 Circuit Theory and Introductory Electronics (3)L

PHYS 2650 Classical Mechanics 1 (3)

PHYS 3630 Electro - and Magnetostatic Theory (3)

PHYS 3670 Classical Thermodynamics (3)

Or alternate physical science course(s) approved by department.

8.6 B.Sc. Geological Sciences (General)

UNIVERSITY 1

YEAR 2

YEAR 3

GENERAL 90 CREDIT HOURS

GEOL 1340¹ (C) plus one of GEOL 1400, GEOL 1410, or GEOL 1420

A minimum grade of 'C' on 6 credit hours from a second department or program for a minor³

Meet any University 1 requirements⁵

GEOL 2540² plus a further 21 credit hours in Geological Sciences courses numbered at the 2000-level or above

A further 12 credit hours for the minor⁴

It is recommended that students complete the M and W course in University 1 or Year 2.

MINOR GEOLOGICAL SCIENCES 18 CREDIT HOURS

GEOL 1340 and one of GEOL 1400, GEOL 1410, or GEOL 1420

Plus 12 credit hours chosen from 2000- and 3000-level courses

Notes:

¹Students who have GEOL 1440 (007.144) or the former 007.124 should consult with the department. At the discretion of the department, GEOL 1440 (007.144) or 007.124 may be permitted in lieu of GEOL 1340 for entry.

One of GEOL 1400, GEOL 1410, or GEOL 1420 is highly recommended to be taken in Year 1, but will not be considered when assessing entrance requirements to the program. If this requirement is not fulfilled in Year 1, it must be completed by the end of Year 2.

² GEOL 2500 may be used in lieu of GEOL 2540. Manitoba 40S Chemistry, CHEM 0090 or equivalent is a prerequisite for GEOL 2540 and GEOL 2500. CHEM 1300 is highly recommended and should be taken in U1.

³ Students should determine their minor prior to the end of the Year 2 of the program.

⁴A minor will normally correspond to a Minor as outlined in a program chart for a specific department or program, e.g. refer to program charts for departments in the Clayton H. Riddell Faculty of Environment, Earth, and Resources, or in the Faculty of Arts, or in the Faculty of Science

⁵ Any U1 requirements not met in Year 1 must be completed before graduation.

- To fulfil prerequisite requirements, a grade of 'C' must be achieved in any course stipulated as prerequisite to a further course in Geological Sciences.
- All courses are not offered every year. The course schedule for the current academic term is available from the online calendar at umanitoba.ca/calendar
- Students registering in certain courses may be required to pay a portion of the costs associated with field trips. For details, contact the department general office.
- Equivalent courses offered through Collège universitaire de Saint-Boniface may be used in lieu of the specified courses identified in the degree program chart. Collège universitaire de Saint-Boniface courses end in the number '1' (e.g. GEOG 1281).

8.7 Environment, Earth, and Resources Course Descriptions

EER 1000 Earth: A User's Guide Cr.Hrs.3 This course will present a multi-disciplinary introduction to the Planet Earth as both the source of essential resources and as the site of resulting negative impacts. Focus in the courses will be provided by ad-

ressing important and current topics, case studies, and concepts that the well-educated citizen of the Earth should understand and will include natural and human-induced processes within a broad range of spatial and temporal scales.

8.8 Geological Sciences Course Descriptions

All courses are not offered every year. The course schedule for the current academic term is available from the online calendar at umanitoba.ca/calendar.

Note: Students registering in a certain course may be required to participate in field trips or field components and pay a portion of the associated expenses. For details refer to the online calendar (umanitoba.ca/calendar) and/or contact the Department of Geological Sciences general office.

1340 The Dynamic Earth Cr.Hrs.3 (Lab Required) (Formerly 007.134) An introduction to dynamics of the Earth's interior and surface that created the environment in which life evolved and that continue to change the world in which people now live. Taught with GEOL 2250. Not to be held with GEOL 1440 (007.144) or GEOL 2250 (007.225) or (007.123) or (007.124). Recommended for students intending to proceed in further courses in the Geological Sciences.

GEOL 1400 Time-Trekker's Travelog: Our Evolving Earth Cr.Hrs.3 Take a trip across billions of years, as we explore awesome times in the evolution of our planet and its life -- from dust to us! Not to be held with the former GEOL 1350 (007.135) or 007.123).

GEOL 1410 Natural Disasters and Global Change Cr.Hrs.3 Discover how and when natural disasters occur, and how to identify and recognize them. Explore the Earth processes that lead to natural disasters and global change. Not to be held with the former GEOL 1360 (007.136).

GEOL 1420 Exploring the Planets Cr.Hrs.3 Discover the Solar System as we explore ancient ideas and modern concepts. Emphasis will be on recent space exploration and a comparison of the Earth and its neighbours. Not to be held with the former GEOL 1370 (007.137) or 007.124.

GEOL 2060 Introductory Geophysics Cr.Hrs.3 (Lab Required) (Formerly 007.206) An introduction to geophysical exploration, Earth physics, satellite geophysics and remote sensing. Emphasis will be on quantitative modeling and will include geophysical measurements and handling of data. *Prerequisites:* (GEOL 1340 (007.134) (C), or GEOL 1440 (007.144) (C), or (007.123) (C), or (007.124) (C)), and (MATH 1300 (136.130) (C), or MATH 1310 (136.131) (C), or MATH 1500 (136.150) (C), or MATH 1510 (136.151) (C), or MATH 1520 (136.152) (C), or MATH 1530 (136.153) (C)), and (PHYS 1020 (016.102) (C), or PHYS 1050 (016.105) (C)); or permission of department head.

GEOL 2390 Environmental Geology Cr.Hrs.3 (Formerly 007.239) Examination of geological processes and material as they interact with human activities, environmental planning, and management. Also available by correspondence. *Prerequisite:* university geology or GEOG 1290 or GEOG 1291 (053.129) (C), or GEOG 1200 or GEOG 1201 (053.120) (C), or permission of department head.

GEOL 2440 Structural Geology 1 Cr.Hrs.3 (Lab Required) (Formerly 007.244) Elementary mechanical principles of rock deformation, brittle and continuous deformation, geometry of faults, folds, joints, cleavage, lineations. Descriptive geometric and stereonet solution to structural geology problems, cross sections, structural contour maps. *Prerequisite:* GEOL 1340 (007.134) (C), or GEOL 1440 (007.144) (C), or (007.123) (C), or (007.124) (C).

GEOL 2500 Introduction to Mineralogy Cr.Hrs.3 (Lab Required) (Formerly 007.250) An introduction to the chemistry, physics and classification of minerals. Brief, systematic description of about 200 of the most important minerals. Laboratory: hand specimen identification. For Major and Honours Geology students only. Entry to other students would be after consultation with the department and by permission only. Not to be held with GEOL 2540 or the former 007.207 or 007.262. *Prerequisites:* (40S Chemistry or CHEM 0900 (002.090) (Pass), and (GEOL 1340 (007.134) (C), or GEOL 1440 (007.144) (C), or (007.123) (C), or (007.124) (C), or 007.132, 007.133,

007.134, or 007.144 (c) or consent of the department. CHEM 1300 (002.130) is highly recommended. This course is intended for Major or Honours Geology students. A laboratory is required.

GEOL 2520 Igneous and Metamorphic Petrology Cr.Hrs.3 (Lab Required) (Formerly 007.252) The classification, occurrence and origin of igneous and metamorphic rocks. The study and identification of rocks using hand specimens and thin sections. *Prerequisites:* (GEOL 2500 (007.250) (C) and GEOL 2800 (C), or (007.260) (C)), or GEOL 2540 (C).

GEOL 2530 Introductory Sedimentary Petrology and Stratigraphy Cr.Hrs.3 (Lab Required) (Formerly 007.253) An introduction to sedimentary deposits and principles of stratigraphic analysis. Occurrence, classification and origin of sedimentary deposits. Facies concept, stratigraphic classification and correlation. *Prerequisites:* (GEOL 2500 (007.250) (C) and GEOL 2800 (C), or (007.260) (C)), or GEOL 2540 (C).

GEOL 2540 Introductory Mineralogy with Essential of Mineral Optics Cr.Hrs.3 (Lab Required) An introduction to the chemical composition, crystal structure, physical and optical properties of the most common minerals. Discussion of the occurrence of minerals in nature. Laboratory: Identification of minerals in hand specimens and thin sections. Not intended for students in Major or Honours Geology programs. Not to be held with GEOL 2500 (007.250). *Prerequisites:* (40S Chemistry, CHEM 0900 (002.090) (Pass) or equivalent), and (GEOL 1340 (007.134) (C), or GEOL 1440 (007.144) (C), or (007.123) (C), or (007.124) (C)), or permission of department head. CHEM 1300 (002.130) is highly recommended.

GEOL 2570 Energy and Mineral Resources Cr.Hrs.3 (Formerly 007.257) An introduction to the geological factors and processes responsible for the origin, concentration and distribution of fuels, geothermal resources, metallic and nonmetallic minerals. Available by correspondence only. Not for credit in a Major or Honours program in Geological Sciences. *Prerequisite:* Any university-level Geology course or permission of department.

GEOL 2770 Principles of Inorganic Geochemistry Cr.Hrs.3 (Lab Required) (Formerly 007.277) The cosmic abundance of the elements, nucleosynthesis, geological differentiation of the elements; chemical petrology of igneous, metamorphic and sedimentary rocks. An introduction to aqueous and low-temperature geochemistry. *Prerequisite:* GEOL 2500 (007.250) (C), or GEOL 2540 (C). *Prerequisite or Concurrent Requirement:* CHEM 1300 (002.130).

GEOL 2800 Optics and Spectroscopy of Minerals Cr.Hrs.3 (Lab Required) Use of the petrographic microscope; microscopic recognition of common rock-forming minerals; introduction to spectroscopic techniques in geosciences (including optical, vibrational and luminescence techniques). Not to be held with (007.260). *Prerequisite or Corequisite:* GEOL 2500 (or 007.250) (C) or consent of department.

GEOL 3110 Petrogenesis of Igneous Rocks Cr.Hrs.3 (Lab Required) (Formerly 007.311) Crystallization processes in magma and resultant textures; physical, chemical, and kinetic processes of magmatic systems. *Prerequisites:* (GEOL 2520 (007.252) (C)), and (GEOL 2770 (007.277) (C)).

GEOL 3130 Communication Methods in the Geological Sciences Cr.Hrs.3 (Lab Required) (Formerly 007.313) Practice in oral and written description of geologic subjects; tools of library and database research; manuscript organization; abstract writing; computer-aided table, figure, and slide preparation. *Prerequisites:* (GEOL 2500 (007.250) (C)), and (GEOL 2440 (007.244) (C)). This course is for students in the Honours and Major Geological Sciences programs only.

GEOL 3140 Gemology Cr.Hrs.3 (Lab Required) (Formerly 007.314) An introduction to the scientific study of natural and synthetic gem materials, methods of their identification and principles of gemstone appraisals. Laboratory: identification of gemstones using optical methods. *Prerequisites:* (GEOL 2500 (007.250) (C)), and (GEOL 2800 (C), or (007.260) (C), or GEOL 2540 (C)).

GEOL 3290 Metamorphism, Structure and Tectonics Cr.Hrs.3 (Lab Required) (Formerly 007.329) Deformation and metamorphism in orogenic terranes, crustal heat

flow, and the application of pressure, temperature and time paths to study metamorphic equilibria. *Prerequisites:* (GEOL 2440 (007.244) (C)), and (GEOL 2520 (007.252) (C)), and (GEOL 2770 (007.277)(C)).

GEOL 3310 Paleontology Cr.Hrs.3 (Lab Required) (Formerly 007.331) The study of fossils: invertebrate paleontology, with an introduction to paleontologic principles, vertebrate paleontology, and paleobotany. *Prerequisite:* GEOL 1340 (007.134) (C), or GEOL 1440 (007.144) (C), or (007.123) (C), or (007.124) (C), or permission of department head.

GEOL 3420 Engineering Geology Cr.Hrs.3 (Formerly 007.342) Engineering properties of rocks, laboratory testing and site investigations in engineering geology. Rocks as construction materials, engineering geology of tunnels, bridges, dams, reservoirs, shorelines, sanitary landfills, landslides, seismic risk areas, etc. *Prerequisites:* (GEOL 2440 (007.244) (C)), and (GEOL 2520 (007.252) (C)), and (GEOL 2530 (007.253) (C)).

GEOL 3490 Glacial Geology and Geomorphology Cr.Hrs.3 (Lab Required) (Formerly 007.349) Principles of landform development with emphasis on glacial deposition. Aerial photo and map interpretation in lab. Not to be held with GEOG 3580 (053.358). *Prerequisite:* GEOL 2530 (007.253) (C).

GEOL 3740 Exploration Seismology Cr.Hrs.3 (Lab Required) (Formerly 007.374) Collection of seismic data (land and sea); simple elastic wave theory; geometry of refraction and reflection seismology; rock velocity determination; seismic noise and signal; data corrections; data enhancement techniques; representation of data; survey procedures. *Prerequisites:* (GEOL 2060 (007.206) (C)), and (MATH 1500 (136.150) (C), or MATH 1510 (136.151) (C), or MATH 1520 (136.152) (C), or MATH 1530 (136.153) (C), or MATH 1690 (136.169) (C)).

GEOL 3750 Geology and Geophysics of the Planets Cr.Hrs.3 (Lab Required) (Formerly 007.375) Physical and chemical nature of the inner and outer planets and their satellites, asteroids and meteorites. The application of geophysical, geochemical and petrological techniques to planetology; remote sensing study of geological features of planetary surfaces and atmospheres. *Prerequisite:* GEOL 2060 (007.206) (C), or permission of department head.

GEOL 3810 Applied Geophysics Cr.Hrs.3 (Lab Required) (Formerly 007.381) The application of geophysical methods including gravity, magnetics, seismic reflection and refraction, electrical and electromagnetics methods in exploration, and environmental and engineering problems. *Prerequisite:* GEOL 2060 (007.206) (C).

GEOL 3900 Sedimentology Cr.Hrs.3 (Lab Required) (Formerly 007.390) The study of depositional environments of sedimentary rocks. Facies analysis and modeling of sedimentary deposits. *Prerequisite:* GEOL 2530 (007.253) (C).

GEOL 3910 Introduction to Field Mapping Cr.Hrs.3 (Formerly 007.391) Twelve day course introducing field mapping techniques including field navigation and basic field interpretations. Students are responsible for costs of room and board during the field course. Offered in the Summer term. Not to be held with (007.449). *Prerequisites:* (GEOL 2440 (007.244)(C)), and (GEOL 2520 (007.252)(C)), and (GEOL 2530 (007.253)(C)), and consent of department.

GEOL 4250 Theory and Application of Geophysical Inversion Methods Cr.Hrs.3 (Lab Required) (Formerly 007.425) Introduction to generalized and linear/non-linear inversion theory. Inversion techniques for the potential field, electrical and seismic data will be discussed. Application to global problems will also be discussed. *Prerequisites:* (GEOL 2060 (007.206) (C)), and (MATH 2100 (136.210) (C), or MATH 1300 (136.130) (C), or MATH 1310 (136.131) (C)).

GEOL 4260 Applied Geophysics Field Course Cr.Hrs.3 (Formerly 007.426) One and one-half weeks field instruction in the planning and execution of geophysical surveys and the use of portable geophysical instruments. Taught with the first half of GEOL 4740 (or 007.474). Not to be held for credit with GEOL 4740 (or 007.474). *Prerequisite:* GEOL 3810 (or 007.381 or 007.380) (C), and consent of department.

GEOL 4270 Advanced Studies in Earth Sciences Cr.Hrs.3 (Formerly 007.427) Advanced study in a selected subject in Earth sciences. *Prerequisite:* Permission of department head.

GEOL 4280 Instrumental Techniques in Geology Cr.Hrs.3 (Lab Required) (Formerly 007.428) Lecture and laboratory course covering the application of microbeam, mass spectrometer, diffraction and wet geochemical analytical techniques in mineralogy and geochemistry. Includes coverage of ICP, PIXE, powder and single crystal diffraction and electron microprobe analysis. *Prerequisites:* (GEOL 2520 (007.252) (C)), and (GEOL 2530 (007.253) (C)), and (GEOL 2770 (007.277) (C)).

GEOL 4290 Topics in Environmental Geoscience Cr.Hrs.3 (Lab Required) (Formerly 007.429) Advanced concepts and discussion of selected topics in the areas of human interaction with the geological environment and the influence of natural geological processes on human activities. *Prerequisite* or Concurrent Requirement: GEOL 3900 (007.390).

GEOL 4300 Mineral Deposits Cr.Hrs.3 (Lab Required) (Formerly 007.430) The tectonic setting and deformational and structural nature of ore deposits. The physics and chemistry of ore deposition and ore bearing fluids. The mineralogical, textural and environmental constraints on resource exploitation. *Prerequisites:* (GEOL 3110 (007.311) (C)), and (GEOL 3900 (007.390) (C)).

GEOL 4310 Paleontologic Principles Cr.Hrs.3 (Lab Required) (Formerly 007.431) Interpretation of Earth history using fossils: topics in taxonomy, functional morphology, paleoecology, evolution, biostratigraphy, and biogeography. *Prerequisite:* GEOL 3310 (007.331) (C), or permission of department head.

GEOL 4320 Physics of the Earth: Seismology and Heat Flow Cr.Hrs.3 (Formerly 007.432) Seismology and the structure, physical properties and equations of state of the Earth's interior; thermal constitution and the history of the Earth. *Prerequisites:* (GEOL 2060 (007.206) (C)), and (PHYS 2390 and PHYS 2490 (or the former 016.237) (C)).

GEOL 4330 Physics of the Earth: Geomagnetism and Gravity Cr.Hrs.3 (Formerly 007.433) Geomagnetism and geoelectricity; paleomagnetism; figure, rotation and gravity of the Earth. *Prerequisites:* (GEOL 2060 (007.206) (C)), and (PHYS 2390 and PHYS 2490 (or the former 016.237) (C)).

GEOL 4370 Global Change Cr.Hrs.3 (Formerly 007.437) Examination of the major processes controlling global change through time. The causes, magnitude, and periodicity of changes in the geological record resulting from the variability and interaction of continents, oceans, atmospheres, climate, Earth-sun relationships, and ice sheets, with an emphasis on paleoclimate. *Prerequisite:* GEOL 3900 (007.390) (C). *Prerequisite* or Concurrent Requirement: GEOL 3490 (007.349).

GEOL 4520 Petroleum Geology Cr.Hrs.3 (Lab Required) (Formerly 007.452) A study of the physical properties, origins and maturation, migration, and accumulation of petroleum products. *Prerequisite:* GEOL 3900 (007.390) (C).

GEOL 4630 Geolimnology Cr.Hrs.3 (Formerly 007.463) The major physical, geochemical, sedimentological, and hydrogeological processes in lakes and their watersheds. A multidisciplinary course. *Prerequisites:* GEOL 2770 (007.277) (C), or university chemistry and geology, or permission of department head.

GEOL 4660 Volcanology Cr.Hrs.3 (Lab Required) (Formerly 007.466) Physical volcanology with special reference to Cenozoic and Precambrian volcanism. Petrography of Cenozoic volcanic rocks. *Prerequisites:* (GEOL 3110 (007.311) (C)), and (GEOL 3900 (007.390) (C)).

GEOL 4670 Global Tectonics Cr.Hrs.3 (Lab Required) (Formerly 007.467) The structure and properties of, and physical processes taking place within, the Earth's interior. Continental cratons and their margins, orogenic belts, structural and petrologic features of the ocean basins, modern diastrophism, global tectonic theories. *Prerequisites:* (GEOL 2440 (007.244) (C)), and (GEOL 2520 (007.252) (C)), and (GEOL 2530 (007.253) (C)).

GEOL 4740 Geophysics Field Course Cr.Hrs.6 (Formerly 007.474) Three weeks of making geophysical surveys. Starts immediately following April examinations. Maps and reports to be submitted at the end of the three- week period. Students are responsible for costs of room and board during the field course. Not to be held with GEOL 4260 (or 007.426). *Prerequisite:* GEOL 3810 (or 007.381 or 007.380) (C), and consent of department.

GEOL 4810 Geophysical Data Analysis Cr.Hrs.3 (Formerly 007.481) The theory and application of spectral methods in geophysics. The use of Fourier Transforms, convolution, power spectra, coherence, transfer functions, covariance, correlation and filtering. *Prerequisite:* PHYS 2490 (or 016.237) (C), or consent of department.

GEOL 4830 Remote Sensing and Geological Information Systems Cr.Hrs.3 (Lab Required) (Formerly 007.483) The basic theory and application of remote sensing to geology and planetary studies. Data interpretation, analysis and presentation using geological information systems. *Prerequisite:* GEOL 2060 (007.206) (C).

GEOL 4870 Honours Thesis Cr.Hrs.6 (Formerly 007.487) A thesis based on a research project conducted by a fourth-year Honours student in Geology or Geophysics. Selection of a project and supervisor to be arranged prior to September 30 and submitted in writing to the department head. Consult with the department for submission deadlines. Not to be held with the former 007.495 or 007.496. *Prerequisite:* Consent of department.

GEOL 4890 Basin Analysis Cr.Hrs.3 (Lab Required) (Formerly 007.489) The study of major sedimentary basins. Qualitative and quantitative aspects of basin origin, classification, evolution, fluid content and diagenesis, and sedimentary facies architecture. *Prerequisite:* GEOL 4520 (007.452) (C).

GEOL 4910 Advanced Field Mapping Cr.Hrs.3 (Formerly 007.491) Twelve-day course developing field mapping techniques including independent mapping and interpretation and synthesis in complex geological terrains. Students are responsible for costs of room and board during the field course. May not hold with (007.449). Offered in the Summer term. *Prerequisite:* GEOL 3910 (007.391) (C), and consent of department.

GEOL 4920 Technical Report Cr.Hrs.3 (Formerly 007.492) A technical report based on a geoscience research project conducted by a fourth year Major student in Geology or Geophysics. Not to be held with GEOL 4870 (007.487). Normally this course is available after completion of Year 3 requirements in Geology or Geophysics Major program. *Prerequisite:* Permission of department head.

Service Course

GEOL 2250 Geology for Engineers Cr.Hrs.4 (Lab Required) (Formerly 007.225) Principles of physical geology; materials in processes in geology; classification of igneous, metamorphic, and sedimentary rocks; elementary geological and geophysical surveying techniques; geological hazards, volcanism, earthquakes, landsliding, processes of weathering, transportation and geomorphology. For Engineering students only. Not to be held with GEOL 1340 (007.134), or GEOL 1440 (007.144), or (007.123), or (007.124).

LeBlanc, A., B.A., M.A. (Wilfrid Laurier), C.R.E.D.I.F. (Laval), Ph.D. (Western Ontario);

SECTION 2: Extended Education

Extended Education provides a central focus for adult, distance, mature and summer continuing education in the university and undertakes planning and general administration for these programs and services. Insofar as possible, the university accepts the principle of parity of accessibility to its services in all areas of the province regardless of economic, geographic, physical, or social disadvantage.

Extended Education coordinates a wide range of programs through which degree courses and non-degree or certificate courses are offered. Degree courses are drawn from the offerings of various faculties and schools. Students must apply to, be admitted to, and register in a particular faculty or school to receive credit towards a degree.

SECTION 3: Program Areas

3.1 Aboriginal Focus Programs

Director: Rainey Gaywish

General Office: The University of Manitoba-Downtown: Aboriginal Education Centre, 11 The Promenade

Telephone: 204-982-4224

The Aboriginal Focus Programs area of Extended Education offers a range of programs that are designed to respond to the continuing education needs and concerns of Aboriginal people. The mission of the area is to create paths of choice in post-secondary education that are based on Indigenous worldviews and developed through partnerships with Indigenous Peoples and communities.

AFP offers certificate and diploma programs as well as degree programs through cooperative arrangements with Aboriginal stakeholders and faculties of The University of Manitoba. Programs are offered in a central location, as in-house training to staff of an organization, or as community-based programs. Programs are offered as 'open enrolment' or as block-funded cohort programs through an arrangement with an employer or sponsor. Delivery methodology can be part-time or full-time study, and can incorporate technology-based delivery where technology access permits. Aboriginal organizations that identify a need for specific post-secondary or adult education not currently available may be interested in knowing that AFP has the capacity to develop new programs to meet their needs. The following are programs currently being offered:

Aboriginal Child and Family Services Diploma

This off-campus program provides field staff of Aboriginal agencies in Manitoba the knowledge and skills they require to deliver child and family services as outlined by Manitoba's Child and Family Services Act, and as directed by the Aboriginal Child and Family Services agencies.

Aboriginal Counselling Skills Certificate

This foundation program gives individuals in the helping professions, who are employed by First Nation and/or Aboriginal social service agencies, knowledge and skills in how to provide culturally appropriate counselling services to individuals and families. The Faculty of Social Work offers graduates three allocated and 6 unallocated hours of credit.

Aboriginal Environmental Stewardship Diploma

This diploma is a partnership program between Aboriginal focus Programs and the University of Manitoba's Clayton H. Riddell Faculty of Environment, Earth and Resources, the Faculty of Arts; Department of Native Studies and Building Environmental Aboriginal Human Resources (BEAHR). This two-year diploma will address the assessment, monitoring, protection, management, sustainability, legal requirements and current issues in the

environmental field. All courses include both Aboriginal and western world views on the environment. BEAHR will coordinate work experience for students enrolled in this diploma making it easier to obtain employment upon graduation.

Child Sexual Abuse Intervention and Treatment Certificate

The disclosure of sexual abuse, as in the residential school experience, has highlighted the need for counsellors with specialised expertise. The CSAIT program builds on prior training and experience in counselling. Courses are offered in eleven six-day modules over a year.

Health Career Transition Year

This program enables students to gain the knowledge, skills and confidence needed to successfully pursue a professional health career. Students take a combination of preparatory and degree credit courses (21 – 24 credits) over one year. Tutorial, personal, financial and Aboriginal cultural supports are available to students.

Aboriginal Community Wellness Diploma

This newly revised degree credit program provides a professional development opportunity in community wellness for Aboriginal health and wellness service workers and those wishing to enter the field. The program is offered through a partnership between The University of Manitoba and the Manitoba Community Wellness Working Group. Each course in the program incorporates an indigenous wellness perspective. The diploma is designed to meet the educational needs for generic and specialized fields of practice (e.g., addictions).

Special Education Educational Assistant Certificate

This program provides culturally relevant accredited training for teacher assistants who work with special needs children under the direction of classroom and/or resource teachers.

Transition Year (18 to 30 credit hours)

The off-campus Transition Year is designed to facilitate the successful transition of students from their community to full-time post-secondary study. Emphasis is on building students' academic and personal skills through specific support to students such as expanded instruction, tutorial support and orientations to the expectations of post-secondary education programs. A minimum of 18 credit hours of university courses is offered in the Transition Year.

3.2 Access Programs

Interim Director: Brenda Lee Lafreniere

General Office: Aboriginal House, 220-45 Currie Place

Telephone: 204 474 8000

umanitoba.ca/extended/access

University of Manitoba Access Program (UMAP)

In cooperation with the Province of Manitoba, the University of Manitoba Access Program (UMAP) facilitates university studies at the degree level for persons who traditionally have not had the opportunity for such experience because of social, economic and cultural reasons, lack of formal education or residence in remote areas. Preference will be given to Aboriginal Manitobans (Status, Non-status, Metis or Inuit). Students in this program are provided with academic and personal supports. Financial assistance may be available. For information, call 474 8000 or, within Manitoba, 1 800 432 1960, extension 8000.

Health Careers Access Program (HCAP)

This program is designed to prepare Manitoban Aboriginal persons (Status, Non-Status, Metis, or Inuit) for entry to the health professional programs such as Medicine, Dentistry, Dental Hygiene, Pharmacy, Medical Rehabilitation (Physical and Respiratory Therapy) and Nursing. Through the cooperation of the Province of Manitoba and the University of Manitoba, students in this program are provided with academic and personal supports. Financial assistance may be available. For information call 474 8000 or, within Manitoba, 1 800 432 1960, extension 8000.

Professional Health Program (PHP)

This program is designed to support Aboriginal persons (Status, Non-Status, Metis, Inuit) in any of the professional health programs. Housed within the new Aboriginal Centre for Health Education at the Bannatyne Campus this program provides academic and personal supports. Limited financial assistance may be available. For information call 474 8000 or, within Manitoba, 1 800 432 1960, extension 8000.

Education Access Program (EAP)

The Education Access Program (EAP) is a joint partnership between the Faculty of Education and the Access Program. EAP provides students with supports to complete a Bachelor of Education (B.Ed.) degree at the University of Manitoba. Because the Bachelor of Education degree is an after-degree program, EAP students must complete their first degree with Access.

Students who identify teaching as their profession of choice must participate in a workshop series ("Destination Education") that is designed to enrich their awareness of the teaching field and the B.Ed. program. All students identifying education as their career choice will be assigned to the designated Access Education Academic Advisor. For information call 474-8000 or, within Manitoba, 1-800-432-1960 extension 8000. umanitoba.ca/education

3.3 Continuing Education Programs

Director: Atlanta Sloane-Seale

General Office: 188 Extended Education Complex

Telephone: 204 474 8036

A variety of certificate programs, seminars, and short courses are offered for professional and personal development in general management, health and social services, adult education and training, accounting, municipal management and horticulture.

Certificate Programs

Extended Education offers a range of professional continuing education certificate programs, in cooperation with agencies in the community and faculties and schools on campus. These programs vary in length, comprehensiveness, and level of certification. Most certificate programs are offered annually. See Section 4.0 below for a listing of certificate programs.

In addition to advising on existing programs, the staff of Extended Education will consult with individuals, groups, and organizations (profit and non-profit) who have an interest in or desire to develop learning experiences specific to their needs.

Copies of the current calendars of Continuing Education Programs are available by calling (204) 474 6742 or toll-free in Canada 1888 216 7011 (extension 6742) or visit websites: umanitoba.ca/extended/ce

3.4 Distance and Online Education

Area Director: Cheryl McLean

General Office: 188D Extended Education Complex

Telephone: 204 474 8012

Website: umanitoba.ca/distance

Each year, over 6000 university students complete degree credit courses offered by Distance and Online Education. Our courses are open to all University of Manitoba students and provide an opportunity for students to complete courses without attending classes on campus. Students have many different circumstances that motivate them to enrol in distance education courses: they may be full-time students needing flexibility for work and study, work shifts or in part-time service jobs, have young families and enjoy the convenience of studying at home, live or work at a geographic distance from the U of M, or continue to study year round in order to more quickly complete their degrees.

Over 139 degree credit courses are offered in Fall, Winter, Fall/Winter, Summer and Dist Ed Winter/Summer, from the following schools/faculties: Agricultural and Food Sciences; Arts; Education; Engineering; Environment, Earth and Resources; Human Ecology; Nursing; Kinesiology and Recreation Management; School of Art; Science; and Social Work. Programs offered by distance include a Bachelor of Arts, Bachelor of Arts in Geography, Bachelor of Social Work, Post-Baccalaureate Diploma in Education, and Baccalaureate Program for Registered Nurses.

Students may choose from the following course delivery methods: Independent Study, Group Based Study, Online Study, Campus Manitoba and Flexible Study.

To request a copy of the 2009-10 Distance and Online Education course calendar, call 474 8012, toll free in Canada at 1 888 216 7011, ext. 8012 or visit the website: umanitoba.ca/distance. Please feel free to drop into Distance and Online Education, located in 188D EE Complex.

3.5 English Language Studies

Director: Stephanie Olson

General Office: 188 Extended Education Complex

Telephone: 204 474 8738

English Language Studies provides opportunities for language learners to gain proficiency in additional languages. The area offers conversational language courses in French, Spanish, German, Japanese and mandarin from a beginner to an advanced level. Courses are part-time and are scheduled for September – December, January – April, and April – June.

The Area also offers iB TOEFL preparation courses several times a year and has recently become an official iB TOEFL testing site.

Seven levels of Intensive English Program sessions ranging in lengths from four weeks to one year, consisting of 25 hours of classroom instruction per week are offered throughout the year. Academic instruction, oral language experiences, socio-cultural activities constitute the basis of this program. Students are housed in residence on campus or with a homestay family depending upon their preference. Similar programs are also offered for groups coming from Mexico, Japan and Korea. At our U of M Tokyo Campus, several Intensive English Program instructors spend the month of March teaching English to students from Sagami Women's University.

In collaboration with the Faculty of Education, a Certificate in Teaching English as a Second Language (CTESL) is offered to meet the needs of individuals who are pursuing a teaching career in ESL. The Certificate program consists of a total of five 40-hour courses: Four required courses and one approved elective course. Courses can be taken full-time or part-time.

3.6 General Studies

Director: Bill Kops

General Office: 188 Extended Education Complex

Telephone: 204 474 8330 or 474 7154

Welcome to General Studies

A key component of the mission of Extended Education is to provide equality of opportunity and increased access to the educational resources of the university and the community. General Studies, originated in 1979, strives to fulfil this mission by allowing people who require a specific selection of courses to meet entrance requirements, or career development and personal goals to enrol at the University of Manitoba. It provides an opportunity for people who are not seeking a University of Manitoba degree to take degree credit courses in a variety of disciplines. As well, General Studies allows students to select courses from different areas in order to be able to make more informed decisions about their career direction. Courses may be taken in General Studies in the Fall and Winter terms or, Summer Session, off campus or distance and online education.

Entrance Requirements to General Studies

Students may be admitted in one of the following categories: Auditing Student; Mature Student; Special Student; Visiting Student. Detailed information on the entrance requirements and a description of the student categories can be found in the Admissions chapter of this *Calendar* or by contacting the General Studies office.

Student Services

A Student Advisor is available to assist students with course and program planning, and to provide admission and registration information on a drop-in basis or by appointment throughout the year.

For information call (204) 474 8330 or 474 7154, or toll-free in Canada, 1 888 216 7011 (Extension 7154 or 8330) or visit our website at umanitoba.ca/extended/general_studies.

Please see the General Studies pages following for information on registration and policies.

3.7 Inter-Universities North Program

In cooperation with Brandon University and the University of Winnipeg, courses in Arts, Science and Education are offered in communities north of the 53rd parallel. Telephone: 1 800 442 0462.

3.8 Military Support Office

Coordinator: Anne-Lucie Bouchard

General Office: 188 Extended Education Complex

Telephone: 204 474 8006

The Military Support Office is designed to assist CF personnel and their immediate family members in the pursuit of a university education. The office replaces the long-standing former Canadian Forces University Program, but has retained experienced staff to assist in overcoming the problems which can result from the frequent moves and deployments experienced by members of the Defence family.

Through this unique office, the University of Manitoba takes into account the difficulty which extensive mobility can create in satisfying the residency requirement for graduation. Recognition is given for a wide range of military training, academic counselling services are provided by highly qualified student advisors, and provision is made for academic and financial relief when military duties interrupt studies.

Courses are available through Distance and Online Education or on campus, either part-time or full-time, and a Mature Student entry program is also offered.

Call toll-free within North America 1 800 850 6166, or e-mail military@umanitoba.ca. The MSO website is at umanitoba.ca/extended/military.

3.9 Off-Campus Study

Area Director: Bill Kops

General Office: 188 Extended Education Complex

Telephone: 204 474 8019

Off-Campus Study is designed to improve accessibility and success in university for students. A flexible and convenient alternative, Off-Campus Study allows students to take degree courses at sites within Winnipeg other than the Fort Garry Campus. Courses are taught by University of Manitoba instructors in the evenings and on weekends. The courses taught in high school allow Senior 4 students to take university courses while still in high school and receive university credit.

For information call (204) 474 8019, or toll-free in Canada 1 888 216 7011 (extension 8019) or e-mail aclaman@ms.umanitoba.ca, or visit our website at umanitoba.ca/extended/off-campus

3.10 Summer Session

Director: Bill Kops

General Office: 188 Extended Education Complex

Telephone: 204 474 6963

Summer Session offers a wide range of courses in the spring and summer, including feature programs, summer institutes, travel/study and off-campus courses. Summer Session provides an opportunity to accelerate degree completion, ease course loads in the fall and winter, or benefit from smaller classes.

May and June Day courses begin in early May and continue to late June. Most classes meet for two hours each day either in the morning or early afternoon.

May to August Evening courses run from early May to early August. Classes are generally scheduled two evenings each week and meet for two and one-half hours.

July and August Day courses begin in early July and continue to late August. Most classes meet for two hours each day either in the morning or early afternoon.

For information about Summer Session, call (204) 474-7018 or (204) 474 6963, or toll-free in Canada 1 888 216 7011 (extension 6963) or e-mail summer@umanitoba.ca, or visit our website at umanitoba.ca/summer.

SECTION 4: Certificate and Diploma Programs

4.1 Agriculture

Prairie Horticulture

The purpose of this program is to focus on horticulture specific to the prairies, especially with respect to production and market conditions, climate, crop type, pests, disease, and other relevant prairie topics. Offered by independent study, part-time study.

4.2 Education

Adult and Continuing Education

To develop and enrich the knowledge and level of competence of those practicing in the field of adult education. Offered by face-to-face, blended and distance study. Part-time study. Some courses are cross-listed as degree credit in the Faculty of Education.

Teaching English As a Second Language

The Certificate Program objectives are to meet local, national, as well as international needs of teacher development in ESL and EFL. The program provides a focused initial preparation for teaching ESL. Upon successful completion of the program, CTESL participants will be able to: Discuss the theoretical basis of second language instruction; demonstrate a variety of effective ESL teaching techniques; and explain, in pedagogically relevant ways, the linguistic structures of the English language.

4.3 General Management

Financial & Management Accounting

This certificate program is designed to provide general accounting education to anyone working with accounting information. The program provides a solid technical and conceptual foundation in accounting processes. Courses can be applied to an accounting designation or transferred for degree credit. Part-time study.

Applied Management

This certificate is designed to provide individuals in various work environments with the opportunity to combine combining management studies with applications relevant to their own careers and industries. Registrants select a particular specialization appropriate to their own development interests. Specializations are available in: police service, records management, retail management, organizational effectiveness and utilities management. Part-time study over two to three years.

Human Resource Management

This program provides instruction in concepts and practices in human resource management. Part-time study over three years.

Intellectual Property and Technology Commercialization Management

In partnership with the University of Manitoba's Office of the Vice President (Research) Intellectual Property Advice and Technology Assessment Office, this program is designed to address many intellectual property and technology commercialization issues. Part-time study.

Interdisciplinary Studies

This program provides a certificate to students completing a minimum of 200 contact hours within the Continuing Education Program Area. Students must identify their learning objectives and develop a program to meet these objectives. A specialized stream offered in partnership with the Manitoba Customer Contact Association, and the Learning Technologies Centre are also offered.

Quality Management

This program offers a management approach to the design and implementation of quality programs. Offered by independent study or blended learning. Part-time study over 1 year.

Municipal Administration

This program provides an essential body of knowledge required to assume administrative responsibilities within small to mid-size municipalities in Manitoba. Available by independent study. Part-time study over four years.

4.4 Health and Social Services

Applied Behaviour Analysis

This program combines degree credit courses and supervised practicum courses to help individuals understand and practice the principles and techniques of applied behaviour analysis. Part-time study over three years.

Applied Counselling

To provide persons in health, education, private and government social service agencies with progressive skill development and theory in the practice of counselling. The four program areas are: general counselling, working with abused women and children, addictions studies, and child welfare practice. Part-time study over 1½-5 years. The two specialization areas are general counselling and addiction studies.

General Case Management

This program is for individuals who want to prepare for future positions in Canada's rapidly changing health and social service sectors by gaining a general background in case management. Part-time study over 3 years.

Rehabilitation Case Management

This program prepares individuals to work in rehabilitation programs (e.g., medical, social and physical services, claims management, long term care, education). Participants learn varied case management models, principles of social and physical rehabilitation and functional and psychosocial theories in rehabilitation. Part-time study over 3 years.

4.5 United Way of Winnipeg Leadership Development Certificate Program

This program is offered in partnership with the United Way of Winnipeg and provides extensive training to sponsored executives. Full time program for 16 weeks.

4.6 Management/Professional Institute Affiliation

Canadian Institute of Management Certificate Program in Management and Administration* (CIM)

To offer management training for managers and supervisors in industry, business, and government. 4 years part-time study.

Purchasing Management Association of Canada* (PMAC)

The University of Manitoba participates with the PMAC in the offering the Strategic Supply Chain Management Program, a series of courses designed to develop proficiency in functional area processes and technical competencies, as well as a number of core and elective courses.

Real Estate Institute* (FRI)

Awarded by the Real Estate Institute of Canada (REIC) to individuals whose education, experience and ethical conduct have met the standards set by the Institute. The FRI designation signifies professional expertise in market analysis, property sales and leasing, real estate marketing and residential appraisal.

Credit Union Institute of Canada (CUIC)*

This program provides in-depth understanding of the key competency areas in credit union business management. Individual courses.

NOTE: * Certificate awarded by an external agency.

4.7 Engineering

Post Baccalaureate Certificate in Manufacturing Engineering (PBCME)

The PBCME is offered in partnership with the Faculty of Engineering, Extended Education and Red River College. 3 years part-time study.

Distance and Online Education

Initial Access Times

To determine your registration access time, please see the chapter of this publication for which you were admitted.

Please register early for Distance and Online Education courses to ensure that you receive your course materials in time to complete your first assignment.

Section 1: Welcome and General Information

Distance and Online Education courses are open to all UM students and provide an opportunity for students to complete courses without attending classes on campus. Students have many different circumstances that motivate them to enrol in distance education courses: they may be full-time students needing flexibility for work and study, work shifts or in part-time service jobs, have young families and enjoy the convenience of studying at home, live or work at a geographic distance from the UM, or continue to study year round in order to more quickly complete their degree.

Over 120 degree credit courses are offered from the following faculties/schools: Agricultural and Food Sciences; Art; Arts; Clayton H. Riddell Environment, Earth, and Resources; Education; Engineering; Human Ecology; Nursing; Kinesiology and Recreation Management; Science; and Social Work. Programs offered by distance include a Bachelor of Arts, Bachelor of Arts in Geography, Bachelor of Social Work, Post-Baccalaureate Diploma in Education, and Baccalaureate Program for Registered Nurses.

To request a copy of the 2009-10 Distance and Online Education course calendar, call 474 8012, toll free in Canada at 1 888 216 7011, ext. 8012 or visit the website at umanitoba.ca/distance.

Distance and Online Education Course Delivery Methods

Independent Study

Independent Study courses are designed for you to study at your convenience. You will receive a manual that contains study notes, reading materials, and assignment questions. Any required textbooks or audio/video materials can be purchased from the UM Book Store. Additional reading materials or audio/visual materials, if required, may be borrowed from the Off-Campus Library Service. Courses differ slightly in their approach but generally have two to four assignments per term and an exam.

Online Study

When you register in an Online Study course, you will access a website to read course material, participate in discussions and submit assignments. Interaction with other students and your instructor via e-mail, chat, or discussion groups is easily available. The nature of interaction during most of the discussions allows participation when it is convenient for you.

Group Based Study

These courses allow the flexibility of studying independently, as well as having the "real-time" contact of an on-campus course. Audio or online conference sessions facilitate discussions based on the course topics and provide the opportunity for interaction between students in various communities and the instructor. Course manuals and textbooks may be supplemented with audiotapes and/or videotapes.

Flexible Study

Flexible Study allows you to study independently (using print-based or online course materials) while participating in scheduled tutorials that focus on content areas where students often have questions or problems. Most flexible study courses have four to six tutorials spread out over the term.

Campus Manitoba

Campus Manitoba (CMB) offers courses at a variety of locations around the province through a consortium that includes: Brandon University, the University of Manitoba, the University of Winnipeg, Collège universitaire de Saint-Boniface, Red River College, Keewatin Community College and Assiniboine Community College. CMB is a unique program in that stu-

dents receive transfer of credit for courses offered by any of the participating institutions. Courses are offered using a variety of technologies including virtual classroom software, as well as Internet and web-based components. Campus Manitoba courses are offered in the following locations:

Altona	Cross Lake	Flin Flon	Swan River
Boisevain	Dauphin	Killarney	The Pas
Brandon	Deloraine	Southport	Thompson
Carman	Eriksdale	Steinbach	White Bear First Nation

For a list of course offerings and fees, contact: Campus Manitoba, Brandon University, Brandon, Manitoba R7A 6A9; telephone: 204 727 9668; Fax: 204 726 1059; e-mail: campus_mb@brandonu.ca; website: www.campusmanitoba.ca

Accessing Distance and Online Education Courses

The technologies required for studying by distance education can vary depending on the course. In some cases, you may require a DVD or an audiocassette player. If you wish to take advantage of the many online course components that are available, you will require access to a computer, software, and an Internet provider. Information regarding requirements for online courses can be found under the Online Study program description of the *Distance and Online Education course calendar*.

Section 2: Registration

Please refer to the Registration System section of this publication for course registration dates and procedures. If you have questions regarding course registration procedures, please call 1-888-216-7011, ext. 8012. You may register for Distance and Online Education courses and on-campus courses in the same transaction.

2.1 Distance and Online Education Terms

Fall (3 cr. hrs.)	September 2009 - December 2009
Winter (3 cr. hrs.)	January 2010 - April 2010
Fall/Winter (6 cr. hrs.)	September 2009 - April 2010
Dist Ed Winter/Summer (6 cr. hrs.)	January 2010 - July 2010
Summer (3 cr. hrs.)	May 2010 - August 2010

The lecture section acts as an identifier for the specific section of a course. All Distance and Online Education lecture section numbers are prefaced by the letter 'D', i.e. D01, D02, etc. It is important that you select the appropriate section number prior to registration.

Section 3: Additional Information

3.1 Examinations

Final exams are held in April, July, August, and December. You are expected to be available at the scheduled day and time, and should consider this when registering for courses.

Most students are able to write exams in their own community. Students living in Winnipeg must write at the UM Fort Garry Campus.

3.2 Course Materials

Independent Study and Group Based Study course materials are sent to you by mail once you have registered for the course. Instructions regarding accessing Online Study courses will also be mailed to you once you register. Required textbooks can be confirmed and must be ordered directly from the UM Book Store. It is recommended that you register at least four to six weeks prior to the start of the term to ensure that you receive your course materials prior to the beginning of the term.

The following dates are **suggested guidelines** for course registration:

Courses beginning in September:

Register immediately upon your initial registration access time.

Courses beginning in January:

October 31, 2009 (course materials are not mailed during the university closure in December).

Courses beginning in May:

Register immediately after the registration period opens.

3.3 Distance and Online Education Course Fees

NOTE: Tuition Fees for the 2009-10 academic year are not available until May 2009; therefore the 2008-2009 fees are listed for reference. For information regarding additional compulsory fees (e.g., Registration Fee, Library Fee, Student Services Fees, etc.) please refer to umanitoba.ca/registrar or call 474-9420. Undergraduate International Students are subject to an International Differential Fee of 180%.

2008/2009 Fees (for reference only; fee varies depending upon faculty)

6 credit hours:	\$690 - \$846
4 credit hours:	\$460 - \$564
3 credit hours:	\$345 - \$423

Section 4: Contacting Distance and Online Education

For further information and for program and course descriptions, go to umanitoba.ca/distance or see the *Distance and Online Education course calendar*.

To obtain a copy, call (204) 474 8012 or Canada Toll-Free at 1 888 216 7011, extension 8012.

For other inquiries, contact:

Distance and Online Education
188D Extended Education Complex
8:30 a.m. - 4:30 p.m. Monday to Friday
Telephone: (204) 474 8012
Canada: Toll-Free 1 888 216 7011, extension 8012
Fax: (204) 474 7661
Email: de_info@umanitoba.ca
umanitoba.ca/distance

General Studies

Section 1: Initial Access Times

General Studies students registering for on-campus, distance education and online courses may register starting on August 2009. For more information about initial access times and how to determine your specific time, please refer to the University of Manitoba home page: umanitoba.ca

Section 2: Registration Assistance

Welcome to General Studies (Extended Education) for the 2009-2010 Session. We encourage you to read the *Undergraduate Calendar* for information about registration, course descriptions, rules, regulations and procedures.

Please take the time to become familiar with the academic regulations and requirements of the University of Manitoba (see the Chapter, General Academic Regulations and Requirements) and the specific academic regulations and requirements of General Studies. As well, you may wish to seek the advice of the General Studies student advisor.

The General Studies student advisor is available to assist you with course and program planning, and to provide admission and registration information on a drop-in basis or by appointment throughout the year.

Monday through Friday, 8:30 a.m. to 4:30 p.m.
188 Extended Education Complex

Student Advisor: Karen Nickerson (204) 474-8330

Assistant Advisor: Michelle Kidd (204) 474-7154

Toll free in Canada: 1-888-216-7011 (ext. 7154 or 8330)

Fax: (204) 474-7661 **Email:** general_studies@umanitoba.ca

Web: umanitoba.ca/extended/general_studies

Section 3: Registration Information

3.1 Instructions

You may register for up to a maximum of 30 credit hours in the combined Fall and Winter terms, and up to a maximum of 15 credit hours in any one term.

Read the Information Section on AURORA found in the registration section of the *Undergraduate Calendar*. If you experience difficulty in accessing

the registration system, contact General Studies for information and assistance.

If you have a family member or friend register on your behalf, please make sure they are aware of your initial registration access period. They must have your student number, your date of birth, and your six-digit PIN number. You are responsible for all transactions undertaken on your behalf.

3.2 Returning Students

If you have successfully completed 24 credit hours or more, you are eligible to apply directly to a faculty or school providing you have met that faculty or school entrance requirements. For detailed information on other faculties and schools refer to the appropriate chapter listed in the *Undergraduate Calendar*. If you need help with course selection or have any concerns about your status, please contact the General Studies student advisor before you apply.

3.3 Visiting Students

New visiting students must apply for admission. Please contact the General Studies Office for information.

Visiting students who have been admitted and registered previously in at least one course are eligible to register in a subsequent session without re-applying for admission provided: your home university has not changed since you last registered in General Studies; you have a Letter of Permission from your home university approving the selected courses in which you wish to register; and you provide the Letter of Permission to General Studies prior to registering.

3.4 Auditing Students

New auditing students must apply for admission. Please contact the General Studies Office for information. All auditing students are required to have written permission of the course instructor and register in-person with General Studies.

Section 4: Information Applicable to All General Studies Students

4.1 Academic Assessment Policy

Academic Assessment gauges student success at the University. Formal academic assessment shall be done following each academic term for all

General Studies students who have completed 30 credit hours or more of attempts. In order to be in “good standing” in General Studies, a student must achieve a degree Grade Point Average (GPA) of 2.00 or greater at each assessment period. Students in “good standing” may continue in General studies or, preferably, transfer to a target faculty.

Students who do not achieve a degree GPA of 2.00 will be placed “on probation”, which will appear on the student’s transcript. Once “on probation”, a student will be allowed to register for another term (or terms). At each point of assessment, students “on probation” must achieve a term GPA of 2.00 in order to proceed. In order to clear probation, a student must achieve a degree GPA of 2.00. While “on probation”, students are encouraged to consult the General Studies student advisor prior to registration and on a regular basis.

If a student does not succeed in achieving a term GPA of 2.00, they will be placed on “academic suspension” for one calendar year. A student on “academic suspension” is normally not allowed to register in another faculty or school at the University of Manitoba or to attend any other post-secondary institution during the time of suspension. Following the suspension period, a student may reapply for admission to General Studies

4.2 Credit Hour Policy

In an effort to assist students with academic decisions, all students who have completed 45 credit hours of study with General Studies will be required to meet with a student advisor before being allowed further registration. Until such time as the student meets with the advisor, a block will be placed on their record to prevent further registration.

4.3 Transferring to Other Faculties or Schools

General Studies students will need to determine the specific subject and credit hour requirements of the faculty to which they plan to apply. This information is available in the *Undergraduate Calendar* or from the General Studies office. Students are encouraged to apply to a faculty of their choice as soon as the requirements have been satisfied.

Entry to every faculty and school requires a formal application for admission or transfer of faculty form to be submitted to the Admissions Office. Admission dates and forms are available at the Admissions Office, 424 University Centre or on the Admissions Office website at umanitoba.ca and click on *Future Students*. It is always in your best interest to seek admission or transfer to a faculty or school as early as possible.

4.4 Courses Available to General Studies Students

All courses in the following faculties and schools are available to General Studies students. Prerequisites may be required for some courses as specified in the course descriptions in the *Undergraduate Calendar*.

Clayton H. Riddell Faculty of Environment, Earth, and Resources
Faculty of Agricultural and Food Sciences
Faculty of Arts
Faculty of Science
I. H. Asper School of Business

All courses offered in the following faculties and schools require teaching faculty written approval before registering with the exception of courses open to all students as listed under University 1 in the *Undergraduate Calendar*.

Faculty of Architecture
Faculty of Education (5000 level courses only)
Faculty of Engineering
Faculty of Human Ecology
Faculty of Kinesiology and Recreation Management
Faculty of Nursing
Faculty of Social Work (students with less than 30 credit hours)
School of Art
Marcel A. Desautels Faculty of Music

Off-Campus Study

Section 1: Initial Access Times

You can register for Off-Campus Study and on-campus courses in the same transaction. For more information about initial access times and how to determine your specific time, please refer to the University of Manitoba home page: umanitoba.ca or please refer to the registration information in this *Calendar*.

Section 2: Registration and General Information

A flexible and convenient alternative, Off-Campus Study allows students to take degree courses at various community sites within Winnipeg including the U of M Bannatyne Campus, Vincent Massey Collegiate, Gray Academy of Jewish Education, the University of Manitoba Downtown: Aboriginal Education Centre and the Canadian Mennonite University.

Students can register for Off-Campus Study courses online at umanitoba.ca. See the information in this *Calendar* for details on registration. Contact Off-Campus Study for more information on courses or for assistance concerning registration procedures. For questions regarding your academic program, contact a student advisor in your faculty or school.

2.1 Registration

It is your responsibility to be familiar with the requirements of your program and to complete the prerequisites for any courses you plan to take.

Where faculties/schools require written consent, for courses where written consent of the department head or instructor is required, you must submit the written consent to your faculty/school prior to registering.

2.2 Fall and Winter (September 2009- April 2010)

Registration for all courses scheduled in Fall and Winter terms begins mid-July in accordance with the initial access times that apply to your faculty or school for registration as outlined in this *Calendar*, and continues until early September for courses beginning in September, and until mid-January for courses beginning in January.

The period for late registration and registration revisions is usually from the first day of classes in September until mid-September for all Fall and Fall/Winter courses. A late fee will be assessed on all registrations during this period.

2.3 Fee Information

Fee information published in this *Calendar* is for reference only. When you register online, one of the transactions you must complete is a fee assessment, which will indicate the exact amount owing and the fee payment deadline.

2.4 Examinations

Final examinations are normally scheduled for the same location and time as the class. In some cases, examinations may be written at the University of Manitoba Fort Garry Campus. The examination schedule is published well in advance of the examination period. Students are expected to check the schedule and be available to write examinations as scheduled.

2.5 For Information

Off-Campus Study: 188 Extended Education Complex
8:30 a.m. – 4:30 p.m., Monday to Friday

Telephone: (204) 474 8019

Toll-Free in Canada telephone: 1 888 216 7011 extension 8019

Fax: (204) 474 7661

Website: umanitoba.ca/extended/off-campus

Section 3: Off-Campus Study Courses

The description for each Off-Campus Study course may be found in this **Calendar** listed by faculty and department. Courses may be added after the publication of this *Calendar*. Check our website for up-to-date course listings and information: umanitoba.ca/extended/off-campus

Associate Dean: Karen Jensen, Ph.D.

Associate Dean: Kevin Coombs, Ph.D.

Associate Dean: Tom Hassard, Ph.D.

Graduate Education

The University of Manitoba was founded in 1877 and has become a well-established research-intensive institution. Two campuses make up the University of Manitoba. The Fort Garry campus is located near the south end of the city of Winnipeg and encompasses a spacious 274-hectare area along the bank of the Red River, while the Health Science campus is part of one of Western Canada's most modern health care complexes located in the city centre.

The Faculty of Graduate Studies was founded in 1949 and brings together a community of scholars comprising 3,300 students and 1,970 faculty members from over 130 graduate programs across the university. We have a long and proud tradition of achievement and innovation in graduate scholarship as part of the oldest University in Western Canada, but education lives and breathes in response to changing developments in society and the body of knowledge which informs it. Our focus is to continue the visionary development of new programs, community relationships, and administrative infrastructure which will contribute to promote excellence in graduate education, scholarship, creative activity and research.

The University of Manitoba offers a variety of financial support to its graduate students. In addition to the research support many students receive from their advisors, the University has millions of dollars available for University of Manitoba Graduate Scholarships (UMGFs), Manitoba Graduate Fellowships (MGFs), International Graduate Student Scholarships (IGSS) for students entering and continuing in their graduate programs, competitive top-up funds for national awards (i.e., NSERC, SSHRC, CIHR), as well as more than 600 other graduate scholarships and bursaries, which are administered by the various graduate programs.

Graduate work at the doctoral level is offered in the faculties of Agricultural and Food Sciences; Architecture; Arts; Dentistry; Education; Engineering; Clayton H. Riddell Faculty of Environment, Earth, and Resources; Graduate Studies (Peace and Conflict Studies program, Interdisciplinary Programs); Human Ecology; Medicine; Pharmacy; Science; Social Work, and the I.H. Asper School of Business.

Graduate Programs

For a complete listing of graduate programs by Department, Faculty, or Institute, please consult the *Graduate Calendar* or the *Faculty of Graduate Studies website* (address given above).

The Faculty of Graduate Studies offers advanced courses of instruction and facilities for research leading to the following:

Master of Architecture (M.Arch.)
Master of Arts (M.A.)
Master of Arts (Collège Universitaire St. Boniface)
Master of Business Administration (M.B.A.)
Master of City Planning (M.C.P.)
Master of Dentistry (M.Dent.)
Master of Disability Studies (M.Disab)
Master of Education (M.Ed.)
Master of Education (Collège Universitaire St. Boniface)
Master of Engineering (M.Eng.)
Master of Environment (M.Env.)
Master of Interior Design (M.I.D.)
Master of Landscape Architecture (M.Land.Arch.)
Master of Laws (LL.M.)
Master of Mathematical, Computational and Statistical Sciences (M.M.C.S.S.)
Master of Music (M.Mus)
Master of Natural Resources Management (M.N.R.M.)
Master of Nursing (M.N.)
Master of Occupational Therapy (M.O.T.)
Master of Public Administration (M.P.A.)
Master of Science (M.Sc.)
Master of Social Work (M.S.W.)
Doctor of Philosophy (Ph.D.)
Diploma in Population Health

Application and Admission

Admission standards as well as criteria and procedures for admission vary from program to program.

See the *Graduate Calendar* (or the Faculty website) for admission procedures, program requirements and deadlines specific to each program.

SECTION 1: Academic Staff

Dean Emeritus, Professor Emeritus and Senior Scholar

Berry, R.E., B.H.E. (UBC), M.S. (Pennsylvania State), Ph.D. (Purdue).

Professor Emeritus and Senior Scholar

McDonald, B.E., B.Sc., M.Sc. (Alberta), Ph.D. (Wisconsin).

Senior Scholars

Bond, J.B., B.Sc. (Illinois), M.S., Ph.D. (Purdue); **Harvey, C.D.H.**, B.Sc. (H.Ec.) (Idaho), M.S., Ph.D. (Washington State); **Watts, B.M.**, B.Sc.(H.Ec.), M.Sc., Ph.D. (Manitoba).

Family Social Sciences

Professors

Durrant, J.E., B.A., M.A., Ph.D. (Windsor); **Mills, R.S.L.**, B.A. (Concordia), M.A. (Memorial), Ph.D. (Toronto).

Associate Professors

Brownridge, D.A., B.A. (Brandon), M.A., Ph.D. (Manitoba); **Duncan, K.A.**, B.S.H.Ec. (Saskatchewan), M.S., Ph.D. (Ohio State); **Piotrowski, C.C.**, B.A., M.A. (Waterloo), M.P.H. (San Diego State), Ph.D. (Pennsylvania State).

Assistant Professors

Eni, R., B.A., M.Sc., Ph.D. (Manitoba); **Mignone, J.J.**, Lic. Psic.(Salvador), M.H.S.A. (Alberta), Ph.D. (Manitoba); **Robles, W.**, B.A. (Campinas, Brazil), DipCs (UBC), M.A.I.A. (Athens, Ohio), Ph.D. (Guelph); **Roger, K.**, B.A. (Winnipeg), M.E. (OISE/Toronto), Ph.D. (Toronto); **Shooshtari, S.**, B.Sc., M.S.P.H.(Iran), Ph.D. (Manitoba).

Human Nutritional Sciences

Professors

Aukema, H.M., B.Sc., M.Sc., Ph.D. (Guelph); **Eskin, N.A.M.**, B.Sc., Ph.D. (Birmingham); **Friel, J.K.**, B.Sc. (Loyola), M.Sc. (Saskatchewan), Ph.D. (Guelph); **House, J.D.**, B.Sc. (Agr), Ph.D. (Guelph); **Jones, P.H.**, B.Sc., M.Sc. (British Columbia), Ph.D. (Toronto); **Sevenhuysen, G.P.**, B.Sc., Ph.D. (London); **Taylor, C.G.**, B.H.Ecol. (Manitoba), Ph.D. (Guelph); **Zahradka, P.**, B.Sc., Ph.D. (Western Ontario).

Associate Professors

Aluko, R.E., B.Sc. (Lagos), Ph.D. (Guelph); **Moghadasian, M.H.**, D.V.M. (Shiraz University, Iran), M.Sc., Ph.D. (British Columbia).

Assistant Professors

Aliani, M., Eng. (France), Ph.D. (Queen's – Belfast); **Lengyel, C.**, B.Sc. (Alberta), Ph.D. (Saskatchewan); **Suh, M.**, B.Sc., M.Sc. (Korea), Ph.D. (Alberta); **Thiyam, U.**, M.Sc. (India), Ph.D. (Germany).

Textile Sciences

Associate Professors

Feltham, T.S., B.S. (Montana), MBA (Montana), Ph.D. (Queen's); **Horne, L.**, B.Sc.(H.Ec.), M.Sc. (Alberta), Ph.D. (Iowa State).

Assistant Professors

Liu, S., B.Sc., M.Sc. (China Textile University), Ph.D. (U California, Davis);
Zhong, W., B.E., Ph.D. (China Textile University).

Instructors

Campbell, L., B. H.Ecol., M.Sc. (Manitoba); **Rahman, M.**, B.Sc. (Dhaka), B.Ed. (Winnipeg), Ph.D. (Leeds).

SECTION 2: Human Ecology and Professional Designations

Within an overall health promotion orientation, the mission of the Faculty of Human Ecology is to sustain, develop and transmit knowledge that supports individuals and their interactions in families and communities as they enhance their quality of life and improve their physical and social environments. Our teaching and research integrates both basic and applied sciences, incorporating innovative technologies and emergent areas of knowledge. The Faculty of Human Ecology contributes to the health of people in Manitoba, Canada and elsewhere by promoting good health. This health promotion contribution is distinct from the treatment of ill health. The Faculty uses the WHO (World Health Organization) definition of health as the framework for planning and activities: *A state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.* The Faculty uses the Ottawa Charter definition of health promotion: *The process of enabling people to increase control over, and to improve, their health (Ottawa Charter for Health Promotion, 1986).*

Programs in the Faculty of Human Ecology are specialized to meet the needs of students, employers and society. Scholarship, learning and research range from metabolic and clinical aspects to psychological, behavioural and community aspects. The Faculty's work extends along the continuum from cellular and biochemical aspects to health related products and policies. Study in the Faculty in one of seven undergraduate programs offers background that can lead to career opportunities in business and industry, dietetics and institutional administration, education, social services, government and research. We are one of the founding units of the University of Manitoba; our graduates have contributed to improving human health and well-being locally, nationally, and internationally for 95 years.

Professional Designations

Graduates of the Integrated Human Ecology and Education program are eligible to receive the professional certificate to teach at any level (K-12) in Manitoba providing all standards are met as established by the Province of Manitoba. See the Faculty of Education chapter for more details.

Graduates from the Human Nutritional Sciences program who have completed the Dietitians of Canada (DC) accredited undergraduate degree with courses as stipulated by DC may apply for a dietetic internship either through Pre-Selection by the Manitoba Partnership Program (MPP) or by application to dietetic internship programs in the final year of their degree or after completion of their degree.

Home economists in Manitoba, and other provinces, are regulated by legislation. Graduates may apply to the Manitoba Association of Home Economists (MAHE) for interim professional home economist (IPHE) status, and subsequently qualify as a professional home economist (PHEC).

SECTION 3: Admission to the Faculty of Human Ecology

3.1 Degrees offered

Bachelor of Health Sciences

Bachelor of Health Studies

Bachelor of Human Ecology

Bachelor of Human Ecology (Family Social Sciences)

Bachelor of Human Ecology (Indigenous Wellness)

Bachelor of Science (Human Nutritional Sciences)

Bachelor of Science (Textile Sciences)

Minimum time to graduation: Four years (University 1 plus three years).

Bachelor of Human Ecology/Bachelor of Education

An Integrated degree that combines Human Ecology with Education; minimum time to graduation: Five years (University 1 plus four years in Human Ecology and Education). Last intake to the program was September, 2006.

3.2 Course Requirements for Admission

The following is a summary of admission requirements. Equivalent academic courses completed at recognized universities elsewhere will be considered. Complete admission requirements are described in an applicant information bulletin that is available together with application deadline dates and forms from the Admissions Office, Enrolment Services, 424 University Centre. The detailed admission information is also posted on the university website.

General Entrance Requirements to the Faculty of Human Ecology: A minimum adjusted grade point average (AGPA) of 2.0 in at least 24 credit hours of University 1, including 6 credit hours from Arts and 6 credit hours from Science to total 12 credit hours, plus 12-18 credit hours of other University 1 courses, for a total of 24-30 credit hours. Students must complete at least 6 more credit hours of Arts or Science courses once admitted to the Faculty.

Other requirements for university study

High school prerequisites required for University level courses in certain programs: Mathematics 40S (pre-calculus or applied) and Chemistry 40S are required for the science requirements in Human Nutritional Sciences, the Interdisciplinary Health program, and textiles courses in Textile Sciences. Students who consider subscribing to the Engineering Sciences option in Textile Sciences must have pre-calculus Mathematics 40S, Physics 40S, and Chemistry 40S. Students planning to take BIOL 1020 for any program must have Biology 40S and any Grade 12 Mathematics course.

Minimum Adjusted GPA for consideration: 2.0.

The written English and Mathematics requirements are satisfied by required courses HMEC 2030 and STAT 1000 within the Human Ecology program. HMEC 2030 will be available to students upon admission to the Faculty of Human Ecology.

For students wishing to choose the focused approach for entry to the Faculty of Human Ecology, the course requirements for each of the programs or areas of concentration offered by the Faculty of Human Ecology are described below:

Family Social Sciences

ECON 1200 or ECON 1210 or ECON 1220

PSYC 1200 or SOC 1200

6 credit hours from Science including STAT 1000 and one of STAT 2000 or COMP 1260 or any other 3 credit hour science course

9-12 credit hours of Family Social Sciences courses including FMLY 1010, FMLY 1020, FMLY 1420, and FMLY 1900

Health Sciences

BIOL 1020

BIOL 1030

BIOL 1410

BIOL 1412

CHEM 1300

CHEM 1310

PSYC 1200

STAT 1000

3 credit hours of free electives

Health Studies

ANTH 1210
ANTH 1220
BIOL 1020
BIOL 1030
PSYC 1200
SOC 1200
STAT 1000

3 credit hours of free electives

Human Ecology Program

ECON 1200 or ECON 1210 and ECON 1220

PSYC 1200 or SOC 1200

6 credit hours of science courses (as defined by the Faculty of Science) including STAT 1000

12 credit hours of Human Ecology courses from the following list: HNSC 1200, HNSC 1210, FMLY 1010, FMLY 1020, FMLY 1420, FMLY 1900, TXSC 1600 or TXSC 1610

Human Nutritional Sciences

CHEM 1300 and CHEM 1320 (or CHEM 1310)

BIOL 1410 and BIOL 1412

HNSC 1200 and HNSC 1210

PSYC 1200 or SOC 1200

6 credit hours of free electives

Indigenous Wellness (pending approval)

BIOL 1020 and BIOL 1030 or BIOL 1000 and BIOL 1340

CHEM 1000 or CHEM 1300

ECON 1210 and ECON 1220 or ECON 1200

NATV 1220 and NATV 1240

STAT 1000

PSYC 1200 or SOC 1200

Textile Sciences – Product Development Stream

ECON 1210 and ECON 1220 or ECON 1200

PERS 1200

PSYC 1200 or SOC 1200

STAT 1000 and either CHEM 1000 or CHEM 1300

TXSC 1600 and TXSC 1610

3 credit hours of free electives

Textile Sciences – Textile Development Stream, Engineering Sciences Option

CHEM 1300 and CHEM 1310

ENG 1430 or ENG 1440

PSYC 1200 or SOC 1200

STAT 1000 and STAT 2000

TXSC 1600 and TXSC 1610

3 credit hours of free electives

Textile Sciences – Textile Development Stream, Exercise and Sports Science Option

BIOL 1020 and BIOL 1030

CHEM 1300 and CHEM 1310

PERS 1200

PSYC 1200 or SOC 1200

TXSC 1600 and TXSC 1610

3 credit hours of free electives

PSYC 1200 or SOC 1200

TXSC 1600 and TXSC 1610

3 credit hours of free electives

SECTION 4: Academic Regulations

4.1 General Academic Regulations

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Human Ecology has regulations and requirements, published below, that apply specifically to its students.

4.1.1 Prerequisite, Corequisite, and Course Availability: Definitions

Prerequisite: If a course is prerequisite to a second course, the prerequisite must be met in order to continue in the second course. The department giving the second course may require a minimum grade of 'C' in the first course to register in the second course. Some inactive (legacy) courses may be used as prerequisites. Please check with an Academic Advisor in Human Ecology.

Corequisite: If a first course is a corequisite to a second course, the first course (unless previously completed) must be taken in the same term as the second course.

Course Availability: Not all courses listed in this Calendar are offered every year. Students are referred to the on-line calendar for courses offered in the year. Human Ecology courses at the 3000 and 4000 level are available only to students registered in the Faculty of Human Ecology or one of the minors or options associated with the Faculty. Courses at the 3000 and 4000 level may be taken with written permission from an Academic Advisor as long as there is space.

4.2 Scholastic Standards

Graduation and Grade Point Average

To graduate, a student must have passed 120 credit hours acceptable for credit in the current degree program and have obtained a minimum of 240 quality points. This is equivalent to a Degree Grade Point Average of 2.0. A pass indicates a grade of 'D' or better. A student's Degree Grade Point Average (DGPA) will be determined from the number of effective courses which apply at a particular stage. The effective courses consist of all courses passed, in addition to all failures which have not been cleared, or substituted for, in the student's record. A maximum of 150 credit hours (25 courses or the equivalent) may be attempted in order to obtain the 120 credit hours. Effective for the admissions cycle beginning September 2009, to graduate, students in the Interdisciplinary Health Program (IHP) must attain a Degree Grade Point Average of 2.5 (300 quality points on 120 credit hours) on graduation and meet the probation standards as stated below.

Assessment

The status of each student will be assessed in May of each year in which a student is registered.

Academic Standards: Probationary Standing

Students must achieve or exceed the following standards at the specified stages in their academic careers. Failure to obtain the standard results in probation. Once placed on probation, students who fail to meet the appropriate performance level at the next assessment following the next registration will be academically suspended. A student is not permitted to be on probation for two consecutive years.

Probationary Standards

Effective Credit hours	Minimum DGPA
24-30 hours	1.80
33-60 hours	1.85
63-90 hours	1.90
93-117 hours	1.95
120+ hours	2.00

Probationary Standards – Interdisciplinary Health Program

Effective Credit hours	Minimum DGPA
24-30 hours	2.00
33-60 hours	2.20
63-90 hours	2.40
93-117 hours	2.50
120+ hours	2.50

Academic Standards: Suspension

Suspended students must remain out of the Faculty of Human Ecology for one academic year from the date of suspension and must apply for reinstatement at the Admissions Office no later than May 1.

Where mathematically possible for a suspended student to complete the degree by repeating failed courses, a suspended student shall be automatically reinstated after remaining out of the faculty for one calendar year, or by achieving a degree GPA above the probationary standard.

Academic Standards: Suspension (All Attempts Used)

Where it is mathematically impossible for a student to complete the degree by repeating failed courses, a suspended student, after remaining out of the faculty for one calendar year, may attempt reinstatement. By completing at least 12 credit hours in one term with a minimum 'D' grade in all courses and a term grade point average of at least 2.0, the student will be reinstated. The student will start the program afresh, with previous grades of 'C' or better applicable to the program.

4.3 Part-time Students

The maximum time allowed for completion of the degree is 10 years. After completion of 24 credit hours, part-time students will be evaluated each May and must conform to the minimum performance levels.

4.4 Repeating Courses

A student may repeat any course for the purpose of attaining a better grade. The latest registration of a repeated course will count in GPA calculations. Students must contact a Student Advisor. There are no supplemental examinations for students who have failed final or deferred examinations.

4.5 Challenge for Credit

A student wishing to challenge a course for credit should contact an Academic Advisor. Letter grades are granted upon completion of the course that is challenged for credit. A list of courses for challenge is available in the General Office. An application is required.

4.6 Transfer of Credit

See the chapters on Admissions and Academic Regulations and Requirements at the beginning of this *Calendar*. Students from faculties other than University 1 or from other institutions must make an appointment with an Academic Advisor by the end of their first academic year to arrange for transfer of credit.

4.7 Appeals of Academic Regulations

The Faculty Committee on Student Standing considers petitions from students who request special consideration with respect to rules and regulations governing their programs of study and qualification for graduation.

4.8 Dean's Honour List

Eligible students who achieve term Grade Point Averages of 3.5 or higher in at least 12 credit hours per term will be included in the Deans Honour List.

4.9 Degree With Distinction

Students who graduate with a degree GPA of 3.75 and higher will receive a degree with distinction.

4.10 Procedures Relating to Student Academic Records

See Section 5 of the chapter, University Policies.

4.11 Work Permit for Study Purposes

International students who are registering for courses or programs that require work placement must obtain a valid **Work Permit**, in addition to maintaining a valid Study Permit. Work placement includes, but is not limited to, any **paid or unpaid** practicum, internships, work experience, field placement, and co-op programs that are a required component for the completion of their degree, diploma or certificate. Please contact your program advisor or the International Centre for Students for further information.

SECTION 5: Human Ecology Program

Requirements

Students entering the Faculty will select one of the following six programs:

- Family Social Sciences Program
- Health Sciences Program
- Health Studies Program

- Human Ecology Program
- Human Nutritional Sciences Program
- Indigenous Wellness Program (pending approval)
- Textile Sciences Program

In order to qualify for a degree, students must complete the 120 credit hours (123 for TS, Eng. Sci. option) specified for the selected program. Elective choices provided in each program can permit students to transfer between them; however, this opportunity decreases as students progress. Students who transfer to another program must meet the full requirements of that program. There is a quota in effect for intake to each program per academic year. The quota may affect movement into a program after the September intake.

5.1 Advisement

The Faculty will provide entering students with orientation information and will refer a student to a program advisor if the student requests. The program advisor will be a faculty member from the student's department or program. Individual programs of study for returning students will be planned in consultation with departmental representatives at sessions scheduled in March of each year. All returning students in the Faculty of Human Ecology must submit a program plan for the succeeding year before the end of the Winter term.

5.2 Faculty Program Requirements

The following are the guidelines for the program requirements in the faculty. The courses outlined for each program in the sections which follow, meets these basic requirements.

Admitted in September 2005 or Later:

- A faculty core of 9 credit hours consisting of:

Course No.	Credit Hours	
HMEC 2030	Human Ecology: Perspectives and Communication	3
HMEC 2050	Introduction to Research in Human Ecology	3
HMEC 3100	Communication for Professional Practice	3

- Plus a minimum of 51 additional credit hours within the faculty;
- Plus a minimum of 30 additional credit hours outside the faculty of which at least 6 credit hours must be from the Faculty of Science and six from the social sciences;
- Plus a minimum of 12 additional credit hours of free electives leading to a degree requirement of 120 (123) credit hours.

Notes:

1. Students in the Interdisciplinary Health Program complete PSYC 2250 in lieu of HMEC 2050 and may choose HMEC 3100 as an elective.

2. Students admitted before September, 2005 and graduating after May, 2005, will make the following program adjustments because of the deletion of the former 028.408 (HMEC 4080) as a degree requirement.

- Family Social Sciences students must complete an additional 3 credit hours of Faculty electives at the 3000 or 4000 level.
- Human Ecology program students must complete an additional 3 credit hours of Faculty electives.
- Human Nutritional Sciences students must complete an additional 3 credit hours of free electives.
- Textile Sciences students must complete an additional 3 credit hours of free electives.

5.3 Program Electives

Courses within each program fall into one of three categories:

- Department electives must be chosen from within the program department.
- Outside electives must be chosen from a faculty other than Human Ecology.
- Free electives may be chosen from within or outside the Faculty of Human Ecology.

5.4 Family Social Sciences

Head: Karen Duncan

Applying knowledge from the social and physical sciences, students in Family Social Sciences examine factors affecting human psychosocial health and wellbeing. They study human development from infancy to old age within the context of families, communities, and culture.

Students are required to choose at least one area, or option, in which to focus their studies. The name of their option will appear as a "comment" on their transcripts. They may select from the following options: 1) Aging;

2) Child and Adolescent Development; 3) Family Economic Health; 4) Family, Housing and Community Studies; 5) Family Violence and Conflict Resolution. Family Social Sciences graduates are permitted to complete any option after their degree.

The Family Social Sciences program can provide students with academic preparation or complementary courses for programs such as Law, Social Work, Education or Graduate Studies.

In March of each year, program planning sessions are provided to assist students in their selection of courses for subsequent years of study.

Students Admitted in September 2002 or Later

Courses to be taken by all Family Social Sciences students:

Course No.		Credit Hours
STAT 1000	Basic Statistical Analysis	3
One of:		
STAT 2000 <i>or</i>	Basic Statistical Analysis 2, Introductory Computer	3
COMP 1260	Usage 1, or any other Science course	
One of:		
ECON 1200,	Principles of Economics, Introduction to Canadian	3-6
ECON 1210 <i>or</i>	Economic Issues, or Introduction to Global and	
ECON 1220	Environmental Economic Issues and Policies	
HMEC 2030	Human Ecology: Perspectives and Communication	3
HMEC 2050	Introduction to Research in Human Ecology	3
HMEC 3100	Communications for Professional Practice	3
FMLY 1010	Human Development in the Family	3
FMLY 1020	Family Issues across the Lifespan	3
FMLY 1420	Family Management Principles	3
FMLY 1900	Families, Housing, and Community: An Introductory Perspective	3
FMLY 2400	Family Financial Health (or FMLY 2070)	3
FMLY 2350	Multicultural Family Issues	3
FMLY 3780	Introduction to the Development of Programs for Children and Families	3
FMLY 3790	Introduction to the Evaluation of Programs for Children and Families	3
PSYC 1200 <i>or</i>	Introduction to Psychology or Introduction to	6
SOC 1200	Sociology	
	Department Electives	24
	Faculty electives (3000 or 4000 level)	3
	Outside Electives	12-15
	Free electives	30

NOTES:

- 1) If students choose ECON 1200, 12 credit hours of outside electives are required.
- 2) All courses listed in the general Family Social Sciences section (above) are required. In addition, students must choose at least one area, or option, in which to focus their studies. In the following section, the courses required to fulfill each option are listed. They will partially meet department, outside and free elective requirements. More courses will be required to complete the 120 credit hour degree. Students are encouraged to take more than one option. Each option must consist of 18 non-overlapping credit hours; that is, no course can satisfy the requirements of more than one option.

Aging Option

This option is the Interfaculty Option in Aging, which can fulfill the requirement for an option within the Family Social Sciences major.

HMEC or SWRK or REC 2650	Social Aspects of Aging	3
FMLY 4300	Field Experience	6
NURS or KIN 2610	Health and Physical Aspects of Aging	3
At least 3 credit hours from:		
FMLY 3220	Death and the Family	3
FMLY 3240	Families in the Later Years	
At least 3 credit hours from:		
NURS 2200	Selected Topics in Aging and Health	3
PSYC 2370	Developmental Psychology from Adolescence to Old Age	
PSYC 3460	Abnormal Psychology	
PSYC 3490	Individual Differences	
PSYC 3610	Memory	
KIN 4500	Physical Activity and Aging	
REC 4250	Leisure and Aging	
RLGN 1410	Death and Concepts of the Future	
SOC 2490	Sociology of Health and Illness	
SOC 2620	The Sociology of Aging	
SOC 3510	Population Dynamics and Change	
SOC 3540	The Sociology of Health Care Systems	

Child and Adolescent Development Option

FMLY 2600	Foundations of Childhood Developmental Health	3
FMLY 3600	Adolescents in Families and Societies	3
FMLY 4600	Risk and Resilience in Behavioural and Social Development	3
At least nine credit hours from:		
FMLY 2800	Family Violence	9
FMLY 3610	Developmental Health of Children and Youth	
FMLY 3800	Conflict Resolution in the Family	
FMLY 3802	Intimate Partner Violence	
FMLY 3804	Violence Against Children in the Family	
FMLY 3330	Parenting and Developmental Health	
FMLY 4330	Management of Family Stress	
FMLY 4602	Family Relationships, Health and Well-Being	
FMLY 4480	Work and Family Issues	
HNSC 1210	Nutrition for Health and Changing Lifestyles	
HNSC 2130	Nutrition through the Life Cycle	
NURS 4420	Health Promotion in the Community	
NURS 4440	Prevention of Illness	
PSYC 2440	Behaviour Modification Principles	
PSYC 2450	Behaviour Modification Applications	

Family Economic Health Option

At least 9 credit hours from:
 FMLY 3400 Families as Consumers
 FMLY 4330 Management of Family Stress
 FMLY 4400 Family Economics: Poverty and Wealth
 FMLY 4460 Family Financial Counselling
 FMLY 4480 Work and Family Issues

At least 9 credit hours from (at least 3 credit hours must be selected from courses numbered 3000 or 4000):

ACC 1100 Introductory Financial Accounting
 ACC 1110 Introductory Managerial Accounting
 ANTH 2550 Culture and the Individual
 ANTH 2430 Ecology, Technology and Society
 ECON 2280 Social Welfare and Human Resources
 ECON 2310 Canadian Economic Problems
 ECON 2350 Community Economic Development
 ECON 2360 Women in the Canadian Economy
 ECON 2390 Introduction to Environmental Economics
 ECON 2400 Introduction to Energy Economics

	Family Social Sciences Electives (see note 7)	15-18
STAT 1000	Basic Statistical Analysis (see note 8)	3
	TOTAL	60

NOTES:

1. The same entrance requirements will be applied to ADP students in order to maintain current Faculty of Human Ecology standards.
2. Basic social science knowledge is assumed because ADP students have previously completed an undergraduate degree; waiving U1 requirements for FSS courses acknowledges the skills, background and maturity of this particular group of students.
3. This choice provides students who have previously taken a research methods course with the option of avoiding redundancy in their program. Students are free to take all three core courses if they feel it would benefit them. If students select 9 credit hours of core courses, the FSS electives component is reduced to 15 credit hours.
4. This set of courses is currently required of all undergraduate FSS students and is required for students in the ADP.
5. Students are required to take a minimum of any two (6 credit hours) of the introductory level courses across options. Review the list of options found in the 120 credit hour undergraduate degree program to assist with planning for prerequisites for higher level courses.
6. Each FSS option is a total of 18 credit hours; ADP students will have taken at least one 2000 level course (3 credit hours) required by the chosen option as part of their program requirements, leaving the remaining 15 credit hours to be completed to fulfil the option. Completion of the option may include courses external to the Faculty of Human Ecology that are required to complete an option
7. ADP students are encouraged to specialize in two options simultaneously to strengthen and broaden their expertise. If a second option is chosen, these credit hours may include courses external to the Faculty of Human Ecology that are required to complete the option. If students have completed the 2000 level course required for the second option, the requirement to complete the option is 15 credit hours. If a second option is not chosen, then these credit hours must be taken within the department.
8. Students who have previously completed an undergraduate statistics course can either transfer it in directly (if already assessed as equivalent) or can request to have it assessed for advanced standing; if successful, students will be required to add 3 credit hours to their program from courses selected from the Department of Family Social Sciences.

5.5 The After Degree Program in Family Social Sciences

An After Degree Program (ADP) in Family Social Sciences is offered to students who have completed a previous undergraduate degree. ADP students must complete 60 credit hours in total to earn their second degree in Family Social Sciences. All Family Social Sciences U1 prerequisites are waived. In order to facilitate ADP students completing the program in a timely manner, they will automatically be permitted (without special permission from the course instructor) to take Family Social Sciences 2000 level prerequisites as corequisites for any required Family Social Sciences 3000 and/or 4000 level courses. Please consult with the Student Advisor when planning programs prior to registration. ADP students are required to choose at least one option to specialize in and meet its requirements at the second year level and beyond. These 18 credit hours may include courses external to the Faculty of Human Ecology that are required to complete an option. If a second option is not chosen, then these credit hours must be taken within the department. There are no free electives in the ADP.

Students admitted in January 2007 or Later

Faculty of Human Ecology Core Courses (any 6 credit hours. See note 3):

At least 6 credit hours from:

HMEC 2030,	Human Ecology: Perspectives & Communication,	6 - 9
HMEC 2050,	Introduction to Research in Human Ecology,	
HMEC 3100	Communication for Professional Practice (see note 3)	
Family Social Sciences Requirements (see note 4):		
FMLY 2400	Family Financial Health	3
FMLY 2350	Multicultural Family Issues	3
FMLY 3780	Introduction to the Development of Programs for Children and Families	3
FMLY 3790	Introduction to the Evaluation of Programs for Children and Families	3
And a minimum of 6 credit hours from (see note 5): 6		
FMLY 2600	Foundations of Childhood Developmental Health	
FMLY 2800	Family Violence	

5.6 The Family Social Sciences Minor

A minor in Family Social Sciences is offered by the Department of Family Social Sciences. Students must complete 18 credit hours, distributed as follows: Six (6) credit hours in Family Social Sciences at the 1000 level, and at least three (3) credit hours in Family Social Sciences at the 2000 level, and at least three (3) credit hours in Family Social Sciences at the 3000 or 4000 level, with no more than 6 credit hours at the 1000 level.

Students must check with their home Faculties to see if the Family Social Sciences minor is available in their programs.

5.7 Human Ecology Program

Chair: Gustaaf Sevenhuysen

The Human Ecology program is one of five degree choices in the Faculty of Human Ecology and is designed for students who have career goals that require basic preparation in each of the major subject areas of the faculty. The program provides course work in Human Nutritional Sciences, Textile Sciences and Family Social Sciences as well as the requirement of an 18 hour Minor in a related field – the minor designation will also appear on the student's transcript. The program has a large elective course component to permit students to select courses to meet individual interests and career options. Persons who intend to select this program are advised that high school Chemistry 40S and Mathematics 40S are prerequisites to CHEM 1300 University 1: Structure and Modeling in Chemistry, which is highly recommended as an elective course.

Before entering continuing years in the Faculty of Human Ecology, the overall program must be planned in consultation with the Chair or committee member. Course planning sessions are held in March of each year.

Students Admitted in September 2005 or Later

Course No.	Credit Hours	
ECON 1200	or ECON 1210 and ECON 1220 Economics	6
	Six credit hours from ECON 2280, ECON 2310, ECON 2390, ECON 2400, ECON 2540, ECON 2550	6

Free electives		12

5.7.1 Indigenous Wellness in the Human Ecology Program (pending approval)

Head: Gustaaf Sevenhuysen

This program aims to create a broad, holistic understanding among people working for Aboriginal communities of the factors that affect health and wellness. Graduates can build careers in a large variety of agencies and businesses that plan or deliver social and health related services and products. The program can provide a foundation for professional programs, but the program will not lead to any professional status. The program is offered in partnership with the Assembly of Manitoba Chiefs.

The integration of Indigenous and Western world views and knowledge systems will increase the effectiveness of cross-cultural community service work that addresses the social, economic, environmental and political problems that people face. As a degree program it provides the theoretical foundations for advice and action in communities, which allows graduates to apply their knowledge in many different settings. The integration will combine knowledge gained through Indigenous ways of knowing, scientific methods, and other sources of evidence. The integration supports the promotion of health, including the ecological approach, which is the guiding principle of the Faculty of Human Ecology.

Course No.	Credit Hours

courses: 15 credit hours)	

5.8 Human Nutritional Sciences

Head: Jim House

Students majoring in Human Nutritional Sciences will choose either the Nutrition Option, the Foods Option, the Food Industry Option, or will select the second degree in Human Nutritional Sciences. The educational requirements to qualify for a dietetic internship and membership with the College of Dietitians of Manitoba (CDM) or dietetic colleges in other Canadian provinces may be met within the Nutrition Option with the recommended selection of courses. Students can apply for a dietetic internship during the program (see application requirements and procedures for Pre-Selection by the Manitoba Partnership Program), in the final year of their degree or after completion of their degree. Internships are awarded competitively by external institutions. Review the section on academic requirements for eligibility to apply for a dietetic internship for students admitted in September, 2007 and later. Those who plan to enter Human Nutritional Sciences are advised that high school Chemistry 40S and Mathematics 40S are prerequisites to CHEM 1300 University 1: Structure and Modeling in Chemistry. A student admitted to the Human Nutritional Sciences program must take a minimum of one HNSC required course in the year they are admitted. Before entering continuing years in the Faculty of Human Ecology, the overall program must be planned with departmental advice. Sessions are held in March of each year.

Students Admitted in September 2002 or Later

Course No.	Course Name	Credit Hours
Courses to be taken by all Human Nutritional Sciences students		
CHEM 1300	University 1: Structure and Modeling in Chemistry	3
CHEM 1320	University 1: Introduction to Organic Chemistry (See Note 1)	3
CHEM 2770	Elements of Biochemistry 1 (See Note 2)	3
CHEM 2780	Elements of Biochemistry 2 (See Note 3)	3
FOOD 4150	Food Microbiology	3
HMEC 2030	Human Ecology: Perspectives and Communication	3
HMEC 2050	Introduction to Research in Human Ecology	3
HMEC 3100	Communication for Professional Practice	3
HNSC 1200	Food: Facts and Fallacies	3
HNSC 1210	Nutrition for Health and Changing Lifestyles	3
HNSC 2130	Nutrition through the Life Cycle	3
HNSC 2140	Basic Principles of Human Nutrition	3
HNSC 2150	Composition, Functional and Nutritional Properties of Foods	3
HNSC 2160	Food Preparation and Preservation	3
HNSC 3330	Ingredient Technology for Designed Foods	3
HNSC 4160	Seminar in Foods and Nutrition	3
HNSC 4290	Food, Nutrition and Health Policies	3
PSYC 1200 or SOC 1200	Introduction to Psychology or Introduction to Sociology or Combination of the two areas	6
STAT 1000	Basic Statistical Analysis 1	3
STAT 2000	Basic Statistical Analysis 2	3
BIOL 1410	Anatomy of the Human Body	3 - 6
or		
BIOL 1020 and BIOL 1030	Biology 1 and 2 (If Biology 1 and 2 are taken, the additional 3 credit hours are considered to be free electives)	
BIOL 1412	Physiology of the Human Body (See Note 4)	3

Nutrition Option

HNSC 3300	Vitamins and Minerals in Human Health	3
HNSC 3310	Macronutrients and Human Health	3
HNSC 3320	Nutrition Education and Dietary Change	3
HNSC 4320	Nutritional Management of Disease States	3
Or		
HNSC 4300	Community Nutrition Intervention	15
	Department Electives	24
	Free Electives	
	Restricted Faculty Electives (see Note 5)	

Foods Option

HNSC 3300	Vitamins and Minerals in Human Health or	3
HNSC 3310	Macronutrients and Human Health	
HNSC 3260	Food Quality Evaluation	3
HNSC 3350	Culture and Food Patterns	3
HNSC 4270	Sensory Evaluation of Food	3
HNSC 4280	Food Product Development	3
MKTG 2210	Fundamentals of Marketing	3
	Program Electives (See Note 6)	9
	Free Electives	24
	Restricted Faculty Electives (see Note 5)	

Food Industry Option

FOOD 4310	Introduction to HACCP	3
GMGT 2070	Introduction to Organizational Behaviour	3
HNSC 3260	Food Quality Evaluation	3
HNSC 3300 or HNSC 3310	Vitamins and Minerals in Human Health or Macronutrients and Human Health	3
HNSC 4280	Food Product Development	3
HNSC 4364	Foods Industry Option Practicum	6
MKT 2210	Fundamentals of Marketing	3

NOTE: HNSC 4290 is not a requirement for students in the Food Industry Option. Students in the Food Industry Option must complete one of the following concentrations (15 credit hours). Select 15 credit hours of course work from the list that follows. **NOTE:** See an Academic Advisor to discuss pending changes for the Food Industry Option.

Quality Assurance Concentration		15
AGRI 2190	Toxicology Principles	1.5
ANSC 2530	Nutritional Toxicology	1.5
FOOD 4500 Food Safety and Regulations		3
HNSC 4270	Sensory Evaluation of Food	3
STAT 3170	Statistical Quality Control	3
Food Product Development Concentration		15
FOOD 4500	Food Safety and Regulations	3
One of FOOD 3160, FOOD 3170, or FOOD 3200	One of Frozen Dairy Products, Cheese and Milk Products, or Baking Science	3
HNSC 4270	Sensory Evaluation of Food	3
HNSC 4290	Food, Nutrition and Health Policies	3
HNSC 4540	Functional Foods and Nutraceuticals	3
Food Industry Management Concentration		15
ACC 1100	Introductory Financial Accounting	3
GMGT 2080	Introduction to Management and Organization Theory	3
GMGT 3010	Management Decision-Making	3
HRIR 2440	Human Resource Management	3
MKT 3220	Marketing Research	3
Electives (see Advising Information for suggested electives)		15

5.8.1 Pre-Professional Preparation

Students in the Human Nutritional Sciences program can complete the entrance requirements for several professional programs as part of the degree.

A. Dietetics Focus: Academic requirements for eligibility to enter a dietetic internship.

1. Courses required in addition to the Human Nutritional Sciences program:

Course No.	Course Name	Credit Hours	Placement in Program
GMGT 2030	Administrative Theory (or GMGT 2070 or GMGT 2080)	3	Free Elective
HNSC 3342	Management for Food and Nutrition Professionals	3	Department Elective
HNSC 4140	Quantity Food Production and Management	3	Department Elective
HNSC 4XXX	One of HNSC 4300, HNSC 4310, HNSC 4362, or HNSC 4340	3-6	Department Elective

2. Entry into a Dietetic internship is competitive. It is strongly recommended that students seek advice from the Department on all aspects of preparing an application to an internship.

i. Students admitted prior to September 2007:

Students admitted prior to September, 2007 will follow regulations regarding Dietetic internship applications in the final year of their degrees (information available on the Human Ecology web site and from the Dean's Office).

ii. Students admitted for September 2007 or later:

Students admitted to the Faculty of Human Ecology's Department of Human Nutritional Sciences in September, 2007 or later, will be eligible to apply to be pre-selected by the Manitoba Partnership Dietetic Education Program (MPP) after completion of 60 – 90 credit hours. Details of the pre-selection process and the academic rating selection criteria will be published by the MPP and a link is available on the Faculty of Human Ecology's web site. If students are not pre-selected by the MPP, there are other opportunities to apply in the final year of degree for internships following degree completion.

3. For those intending to apply for a Dietetic internship, the second degree's Dietetics Preparation program meets the course requirements in Human Nutritional Sciences, but not all the other supporting course requirements, for example, psychology/sociology, humanities or social sciences, microbiology, research methods, communication arts, basic principles of management. Check with an Academic Advisor to review the supporting course requirements from previous academic work.

B. Medicine or Dentistry: Eligibility for entry into the program Doctor of Medicine, or the program Doctor of Dental Medicine, at the University of Manitoba.

Courses required in addition to the Human Nutritional Sciences program (can be taken as electives in the program):

Course No.	Course Name	Credit Hours	Placement in Program
CHEM 2210*	Introduction to Organic Chemistry 1: Structure and Function (see Note 7)	3	Free Elective
CHEM 2220	Introduction to Organic Chemistry 2: Reactivity and Synthesis (See Note 7)	3	Free Elective
CHEM 2360** or MBIO 2360	Biochemistry 1: Bio-molecules and an Introduction to Metabolic Energy	3	Free Elective
CHEM 2370** or MBIO 2370	Biochemistry 2: Catabolism, Synthesis and Information Pathways Humanities requirement (Check the Faculty of Medicine's application information regarding the Humanities/Social Science requirement).	3	Free Elective
PHYS 1020	General Physics 1	3	Free Elective
PHYS 1030	General Physics 2	3	Free Elective

* Cannot be held with CHEM 1320 in the same program. Prerequisite is CHEM 1310 (University 1: Introduction to Physical Chemistry).

** These courses replace the biochemistry courses in the Human Nutritional Sciences program.

C. Law: Eligibility for entry into the program Bachelor of Laws at the University of Manitoba.

1. The Human Nutritional Sciences program meets the entrance requirements of the Faculty of Law.

2. It is necessary to apply to the Faculty of Human Ecology to take HMEC 2030 (Human Ecology: Perspectives and Communication) in University 1, as it is not normally available to students in University 1.

NOTES:

- Under required courses, students can take either CHEM 1320 (University 1: Introduction to Organic Chemistry) or CHEM 1310 (University 1: Introduction to Physical Chemistry).
- Under required courses, students can take either CHEM/MBIO 2770 (Elements of Biochemistry 1) or CHEM/MBIO 2360 (Biochemistry 1: Bio-molecules and an Introduction to Metabolic Energy).
- Under required courses, students can take either CHEM/MBIO 2780 (Elements of Biochemistry 2) or CHEM/MBIO 2370 (Biochemistry 2: Catabolism, Synthesis, and Information Pathways).
- Under required courses, students can take either BIOL 1412 (Physiology of the Human Body) or BIOL 2410 (Human Physiology 1) and BIOL 2412 (Human Physiology 2). Note that students selecting BIOL 1020 and 1030 are not required to complete BIOL 1410, and will decrease electives to 12 credit hours. The selection of BIOL 1020 and 1030 will have more options with regard to taking higher level Botany, Zoology and Microbiology courses as electives.
- Students admitted between 1994 and September 2001 may choose to eliminate the requirement for 9 credit hours of Restricted Faculty Electives from their programs. Please advise an Academic Advisor using the elective change form available in the General Office.
- Nine credit hours of courses from either the Asper School of Business and/or from 3rd and 4th year courses in the Department of Food Science.
- For students who do not take CHEM 2210 and CHEM 2220, CHEM 1320 is preferred.

5.9 Minor in Human Nutrition and Metabolism

The Minor in Human Nutrition and Metabolism (18 credit hours) requires the following courses:

Course No.	Course Name	Credit Hours
HNSC 1200	Food: Facts and Fallacies	3
HNSC 1210	Nutrition for Health and Changing Lifestyles	3
HNSC 2140	Basic Principles of Human Nutrition	3
HNSC 3300	Vitamins and Minerals in Human Health	3
HNSC 3310	Macronutrients and Human Health	3
HNSC 4120 or HNSC 4540	Senior Thesis or Functional Foods and Nutraceuticals	3

5.10 Second Degree Program in Human Nutritional Sciences

Required Courses – 45 Credit Hours

Refer to information in section 5.8.1 about applying for a Dietetic internship. Students must complete 60 credit hours while enrolled in the second degree program. If any of the required courses have been completed in the previous degree, free electives must be chosen to meet the 60 credit hour requirement. Students are not required to satisfy the Written English requirement.

Course No.	Course Name	Credit Hours
CHEM 1300	University 1: Structure and Modeling in Chemistry (see note 1)	3
CHEM 1320	University 1: Introduction to Organic Chemistry (see note 1)	3
CHEM 2770	Elements of Biochemistry 1 (see note 2)	3
CHEM 2780	Elements of Biochemistry 2 (see note 3)	3
HNSC 2140	Basic Principles of Human Nutrition	3
HNSC 2160	Principles of Food Preparation and Preservation	3
HNSC 3300	Vitamins and Minerals in Human Health	3
HNSC 3310	Macronutrients and Human Health	3
HNSC 3320	Nutrition Education and Dietary Change	3
HNSC 3330	Ingredient Technology for Designed Foods	3
HNSC 4290	Food, Nutrition and Health Policies	3
STAT 1000	Basic Statistical Analysis 1	3
STAT 2000	Basic Statistical Analysis 2	3
BIOL 1410 or BIOL 1020 and BIOL 1030	Anatomy of the Human Body or Biology 1 and Biology 2 (see note 4)	3-6
BIOL 1412	Physiology of the Human Body (see note 5)	3

Free Elective Courses - 6 credit hours. If additional courses are required as prerequisites, they will be considered free electives.

Elective Courses – 9 credit hours from Human Nutritional Sciences (choose one of three options):

Course No.	Course Name	Credit Hours
A. Dietetics Preparation		
HNSC 3342	Management for Food and Nutrition Professionals	3
HNSC 4140	Quantity Food Production and Management	3
HNSC 4320	Nutrition Management of Disease States	3
B. Human Nutrition		
HNSC 4320	Nutrition Management of Disease States	3
	Choose 6 credit hours from:	6
HNSC 4300,	Community Nutrition Intervention, Nutrition	
HNSC 4310,	and the Elderly, Maternal and Child Nutrition,	
HNSC 4340	or Nutrition in Exercise and Sport	
C. Foods		
HNSC 2150	Composition, Functional and Nutritional Properties of Foods	3
HNSC 3260	Food Quality Evaluation	3
HNSC 4540	Functional Foods and Nutraceuticals	3

NOTES:

- Under required courses, students can take either CHEM 1320 (University 1: An Introduction to Organic Chemistry), or CHEM 1310 (University 1: An Introduction to Physical Chemistry). Students can take CHEM 2210 (Introduction to Organic Chemistry 1: Structure and Function) and CHEM 2220 (Introduction to Organic Chemistry 2: Reactivity and Synthesis) instead of CHEM 1300 and CHEM 1310 or CHEM 1320. For students who do not take CHEM 2210 and CHEM 2220, CHEM 1320 is preferred.
- Under required courses, students can take either CHEM/MBIO 2770 (Elements of Biochemistry 1) or CHEM/MBIO 2360 (Biochemistry 1: Bio-molecules and in Introduction to Metabolic Energy).
- Under required courses, students can take either CHEM/MBIO 2780 (Elements of Biochemistry 2) or CHEM/ MBIO 2370 (Biochemistry 2: Catabolism, Synthesis, and Information Pathways).
- Under required courses, students can take either BIOL 1412 (Physiology of the Human Body) or BIOL 2410 (Human Physiology 1) and BIOL 2412 (Human Physiology 2). Note that students selecting BIOL 1020 and 1030 are not required to complete BIOL 1410, and will decrease electives to 12 credit hours. The selection of BIOL 1020 and 1030 will have more options with regard to taking higher level Botany, Zoology and Microbiology courses as electives.

5. If BIOL 1020 and BIOL 1030 are taken, the additional 3 credit hours are considered to be free electives.

5.11 Interdisciplinary Health Program

Program Chairperson: Caroline Piotrowski

This curriculum consists of two degree programs: the Bachelor in Health Sciences and the Bachelor in Health Studies. These degree programs offer new approaches to planning, administration and delivery of health services by fully integrating biological science and social science in understanding the health of people. Students will gain experience of dealing with health

issues at the individual, community and institutional levels, as well as across the lifespan. The two degrees can serve as the foundation for careers in health care teams and community health management. They offer a general course of study, not a professional status. Students can use both degree programs to build the knowledge and prerequisites for entry into professional programs in the health and social science fields, such as medicine, dentistry and others. The Bachelor of Health Sciences degree provides students with an interdisciplinary background and skill set that will contribute to their preparation for a future in biomedical and health-related careers. This interdisciplinary skill set is seen as advantageous for future physicians and students applying for professional education.

5.11.1 Health Sciences Degree

Course No.	Course Name	Credit Hours
The following 30 credit hours are to be taken in U1		
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interaction	3
CHEM 1300	University 1: Structure and Modeling in Chemistry	3
CHEM 1310	University 1: Introduction to Physical Chemistry	3
PSYC 1200	Introduction to Psychology	6
STAT 1000	Basic Statistical Analysis 1	3
BIOL 1410	Anatomy of the Human Body	3
BIOL 1412	Physiology of the Human Body	3
Electives		3
Required courses		
COMP 1260	Introductory Computer Usage I	3
ECON 1210	Introduction to Canadian Economic Issues and Policies	3
GMGT 2070	Introduction to Organizational Behaviour	3
HEAL 2600	Integration: Individual Focus	3
HEAL 3600	Integration: Community Focus	3
HEAL 4600	Integration: Canada and World Focus	3
HEAL 4620	Health Sciences Capstone	3
HMEC 2030	Human Ecology: Perspectives and Communication	3
HMEC 3500	Developmental Health	3
HNSC 1210	Nutrition for Health and Changing Lifestyles	3
HMEC 3500	Developmental Health	3
PHIL 1290	Critical Thinking	3
PSYC 2250	Introduction to Psychological Research	3
Select 6 out of 9 credit hours		
GEOG 4290	Geographies of Health and Health Care	3
PHIL 2740	Ethics and Biomedicine	3
SOC 2490	Sociology of Health and Illness	3
Elective Courses	To be taken from an approved list of Science courses (available on the Human Ecology web site and from the Dean's Office): At least 21 credit hours are to be taken from the list of approved Science courses (Group A). At least 24 credit hours are to be taken at the 3000 and 4000 level.	36
Free Electives		12

5.11.2 Health Studies Degree

Course No.	Course Name	Credit Hours
The following 30 credit hours are to be taken in U1		
ANTH 1210	Human Origins and Antiquity	3
ANTH 1220	Cultural Anthropology	3
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interaction	3

PSYC 2250	Introduction to Psychological Research	3
Select 6 out of 9 credit hours		
GEOG 4290	Geographies of Health and Health Care	3
PHIL 2740	Ethics and Biomedicine	3

SOC 2490	Sociology of Health and Illness	36
Elective Courses	To be taken from an approved list of Social Science courses (available on the Human Ecology web site and from the Dean's Office): At least 21 credit hours are to be taken from the list of approved Social Science courses (Group A). At least 24 credit hours are to be taken at the 3000 and 4000 level.	36

Free Electives 12

Notes:

1. Before entering continuing years in the Faculty of Human Ecology, the overall program must be planned with academic advice. Sessions are held in March of each year.
 2. Students are strongly encouraged to seek the advice of Academic Advisors in the Faculty of Human Ecology in order to plan their programs to develop pathways of knowledge that will assist them in moving toward careers in chosen fields. Advice is available in the Dean's Office and on the Human Ecology web site.
 3. Students in both programs are required to structure their course selections as follows:
 - In Health Sciences, students are required to take 21 credit hours of science and 12 credit hours of social science courses from 36 credit hours of Approved Electives.
 - In Health Studies, students are required to take 21 credit hours of social science and 12 credit hours of science courses from 36 credit hours of Approved Electives.
- Students in both programs are required to take at least 24 credit hours at the 3000 and 4000 levels from 36 credit hours of Approved Electives. Students in both programs are required to take at least 21 credit hours from List A, at most 6 credit hours from List B and at most 3 credit hours from List C from 36 credit hours of Approved Electives.
- Students should consult the University Calendar to ensure that they have the appropriate pre- or corequisites before they attempt to register in a course. A number of courses are cross-listed between departments/faculties. The Student Advisor will give additional guidance.

5.12 Textile Sciences

Acting Head: Tammi Feltham

The Textile Sciences undergraduate program imparts knowledge and skills which meet the demands of work and research environments driven by scientific, technological, and logistical innovations in textiles. It comprises two streams – product development and textile development. The product development stream is structured to help students develop problem solving abilities systematically through the application and integration of knowledge in textile science, human and organizational behaviour, environmental forces, and methods of quantifying and interpreting observations. The textile development stream is a response to the emerging significance of textiles in health and health promotion. Within the textile development stream, three options will be offered – Exercise and Sports Science, Engineering Sciences, and Microbiological Sciences. These options capitalize on the strengths of other academic disciplines within the University of Manitoba which are relevant to the study of textiles for health and health promotion. Students who choose the textile development stream must have pre-calculus Mathematics 40S or the former Mathematics 40S and Chemistry 40S. Students who consider subscribing to the Engineering Sciences Option must have pre-calculus Mathematics 40S, or the former Mathematics 40S, Physics 40S, and Chemistry 40S. Students must choose either the Textile Development or Product Development choice upon first registration in the Faculty.

In March of each year program planning sessions are provided to assist students in their selection of courses for subsequent years of study.

Students Admitted in September 2005 or Later

KIN 3470	Exercise Physiology	3
BIOL 1412	Physiology of the Human Body	3
	Textile Sciences Department Electives	3
	Free electives	18

5.13 Interfaculty Option in Aging

An Option in Aging is offered by and in the following faculties: Arts, Human Ecology, Nursing, Kinesiology and Recreation Management and Social Work.

To complete the option, students in Human Ecology must complete each of the following requirements:

- HMEC 2650 or REC 2650 or SWRK 2650, The Social Aspects of Aging;
- NURS 2610 or KIN 2610, Health and Physical Aspects of Aging;
- At least three credit hours of professional/discipline specific applied work on aging within the student's department of registration (a list of courses is available in the general office); and,
- An additional nine credit hours of aging-related courses from the participating units; a list is available in the General Office. Upon completion of these requirements, a "comment" will be added to the student's transcript.

Further information is available from the General Office of Human Ecology.

5.14 The Minor in Management

A Management Minor is offered by the Asper School of Business. Human Ecology students may complete this Minor as part of the electives portion of their programs. The Minor will consist of any 18 credit hours of Management courses. Students must meet prerequisites for all courses. Further information is available from the Human Ecology General Office.

5.15 The Voluntary Minor

Students in the Faculty of Human Ecology may declare and complete a Minor from departments and interdisciplinary programs in which a Minor is offered. The Family Social Sciences Minor and the Minor in Human Nutrition and Metabolism are available through the Faculty of Human Ecology. Information about Minors in programs other than Human Ecology is found in the appropriate description of departmental/school/faculty program offerings in the Undergraduate Calendar.

Completion of the Minor is entirely optional. Students may not, however, declare both their Major and Minor from the same department/interdisciplinary program. No course may be used as part of a prescribed program in the Faculty of Human Ecology and also be part of a prescribed Minor. For example, if a course in Chemistry is part of a student's degree requirements in the Faculty of Human Ecology, it cannot be used as part of a Minor in another program. Completion of a Minor may require that a student take more than the minimum number of credit hours for graduation.

SECTION 6: Registration Information

6.1 Initial Access Times

Students are referred to the chapter "Registration Information: Aurora Student", Section 4 "Your Initial Registration Access Time" for registration dates. All Human Ecology students are required to register through The University of Manitoba's registration system, Aurora student.

6.2 Registration Assistance

6.2.1 Information Available in the General Office (209 Human Ecology Building)

Permission to Access Student's File form
(important for all 4th year students)

Minor Declaration form (important for anyone declaring a voluntary minor)

Program Guides

Course Permission Forms

Management Minor information

Option in Aging information

Scholarship information

Human Ecology program requirements checklists for all programs

Dietetic information

6.2.2 Online Information

The Faculty of Human Ecology website is umanitoba.ca/human_ecology/. The University website provides locations for your student history, the *Undergraduate Calendar*, and registration. You may also obtain information on the Faculty, staff research, departments and program summary sheets for your program on the Human Ecology website.

6.2.3 Telephone Numbers

General Office: 474-8508

Academic Advisors: (204) 474-6686 and (204) 474-9759

Email address: boutet@cc.umanitoba.ca and mutuc@cc.umanitoba.ca

Fax Number: (204) 474-7592

6.3 Orientation for Newly Admitted Students

All new students must ask for an orientation kit prior to being eligible to register. Call by telephone 474 8508 (message), or 474 6686 or 474 9759, or contact us by fax 474 7592 for an orientation kit. You will then be unblocked in order to access Aurora and select your courses for the 2009-2010 academic year. Advise us of your program choice when you contact us. You *cannot* register until you have an orientation kit. An orientation session will be held in late June, Room 206 Human Ecology Building. Dates will be provided on your acceptance letter and on the Human Ecology website.

An information session for all students new to the faculty will be held at the beginning of term. This session will provide you with general information about the faculty and program planning advice. The session will be held in: 206 Human Ecology Building, Wednesday, September 2, 2009, at 10:00 a.m. This session follows registration and is supplemental to orientation information.

6.4 Registration Information for all Human Ecology Students

6.4.1 Registration Time

The first date on which you can register depends on your grade point average. Human Ecology obtains reserved space in required courses, but be aware that you must ask an Academic Advisor to input permission to repeat a course into Aurora. Contact an Academic Advisor prior to your registration time.

The initial access time indicates the first opportunity you have to enter your course selection. It is *highly* recommended that you register when your scheduled access time arrives to provide you with the best opportunity to obtain the desired courses. Access is then 24/7.

6.4.2 Program Selection

All new Human Ecology students must select a program from one of the following choices prior to entering any course selections:

A. Family Social Sciences

If you know the option you want, select at least one of the following:

- Aging Option
- Child and Adolescent Development Option
- Family, Housing and Community Studies Option
- Family Economic Health Option
- Family Violence and Conflict Resolution Option
- B. The After Degree Program (ADP) in Family Social Sciences
- C. Health Sciences Degree (Interdisciplinary Health Curriculum)
- D. Health Studies Degree (Interdisciplinary Health Curriculum)
- E. Human Ecology program (general degree)
- F. Nutrition Option in Human Nutritional Sciences
- G. Foods Option in Human Nutritional Sciences
- H. Food Industry Option in Human Nutritional Sciences
- I. Second Degree Option in Human Nutritional Sciences
- J. Product Development Stream in Textile Sciences
- K. Textile Development Stream in Textile Sciences
- Engineering Sciences Option
- Microbiological Sciences Option
- Exercise and Sports Science Option

If you would like to make a program change in the Faculty of Human Ecology, consult with an Academic Advisor for more information. All programs are outlined in the current *Undergraduate Calendar*, which is available from the Registrar's Office.

6.4.3 Transfer of Credit

Students transferring in from University 1 will automatically have credit for courses taken in University 1 transferred into their Human Ecology program. Students transferring from other faculties, external universities and students seeking a second degree may be required to consult with an Academic Advisor either by appointment or telephone consultation to discuss transfer of credit.

The University of Manitoba does not evaluate courses from another academic institution until students are admitted to a program. Sometimes the evaluation of courses can take time, and if you are entering from another academic institution, we may not immediately have a complete picture of course transferability and equivalence. We will try our best to give you as accurate a picture as possible prior to your initial registration time. If you are admitted on the basis of a previous degree (seeking a second degree), we will have to specify which courses require evaluation from your previous program. This will require a consultation with an Academic Advisor in Human Ecology.

6.4.4 Returning Human Ecology Students

All returning students must submit a Program Planning Form to the Academic Advisor's office before April 30. Program information sessions are held in March in order to provide returning students with on-site consulta-

tion with professors in their programs. Program Planning Forms are due in the General Office by the end of April. If you have not handed in a Program Planning Form you will be blocked from Aurora and will not be able to register. If you are a student in Human Nutritional Sciences or the Human Ecology program, make an appointment with your department program advisor (professor) to approve and sign your completed Program Planning Form. If you are in Family Social Sciences or Textile Sciences, you are required to complete and hand in a Program Planning Form, but you do not have to obtain departmental approval or signature. Students in the Health Sciences or Health Studies programs should consult with an Academic Advisor.

Submit your Program Planning Form to the General Office of Human Ecology, Room 209, or fax it to us if you are not on campus.

You are encouraged to plan your program before the end of May. Each department or program will ensure that a program advisor (professor) is available throughout the summer weeks, and appointments must be scheduled in advance.

6.4.5 University Written English and Mathematics Requirement

The Faculty of Human Ecology has designated HMEC 2030 Human Ecology: Perspectives and Communication (or 028.203) and STAT 1000 Basic Statistics 1 (or 005.100) as the courses which fulfil the written English and Mathematics requirement. Neither the second degree option in Human Nutritional Sciences nor the ADP in Family Social Sciences requires HMEC 2030.

6.4.6 Advisement

An Academic Advisor is available by appointment to discuss program and course choices prior to registration. The following students are blocked from registration until they contact an Academic Advisor:

- Students on probation
- Students repeating courses previously taken (permission must be entered by an Academic Advisor)
- Students repeating a course with a grade of C or higher
- Students requesting to challenge for credit (note: specific deadlines required for challenge application)
- Students requesting to audit a course
- Students reinstated after suspension
- Returning students who have not completed course planning forms
- New students who have not received an orientation kit

6.5 Helpful Hints

6.5.1 Program Assessment

Your program will be formally assessed during the first term of your third year, and you may make an appointment at any time to review your file and your degree progress. During the first month of fourth year, an internal degree audit is conducted by an Academic Advisor of all the fourth year students who have declared graduation. It is your responsibility to ensure that you follow the program of study for your chosen major or option. Students may access their own records through Aurora Student.

6.5.2 Repeating Courses/Attempts

Any course you have failed, passed but voluntarily repeated, or substituted to obtain a higher grade, is considered an attempt.

Students are granted 30 credit hours of extra attempts to obtain the 120 credit hour Human Ecology degree. Students who exceed the 30 credit hour limit of extra attempts are placed on academic suspension and are required to withdraw from the Faculty of Human Ecology for one full year prior to attempting reinstatement. Students may not substitute for required courses.

When a course is repeated, the latest attempt of the course is included in the calculation of the degree grade point average. The first attempt of the course then counts as an "extra attempt." Both grades are permanently recorded on the transcript.

6.5.3 Voluntary Withdrawal (VW) from a Course

In order to withdraw from a course, you must use Aurora Student and complete the transaction by the deadlines at the beginning of this *Guide. Authorized Withdrawals (AW)* are available for medical and compassionate grounds. A copy of the Authorized Withdrawal policy is available in the General Office of Human Ecology, Room 209.

6.5.4 Reserved Courses

Reserves have been obtained in required courses taught by the Faculties of Arts, Science, the Asper School of Business, Engineering, and Physical Education and Recreation Studies. Check in the teaching Faculty's timetable and you will see notices regarding saved spaces for students in other faculties. Select from those lecture and lab sections when you are planning your timetable.

Students who have officially declared the Management Minor should use the School of Business timetable when selecting Management Minor courses. The Human Ecology reserves can be used by students who have not declared a minor. The School of Business will not impose any credit hour restrictions on such students. However, a student's home faculty may restrict the type and number of Management courses the student may take.

Check Aurora for reserves in required BIOL, CHEM, COMP, ECON, GMGT, MKTG, PSYC, SOC, and STAT courses.

6.5.5 Voluntary Minors

All Faculty of Human Ecology students may declare and complete a Minor from departments and interdisciplinary programs in which a Minor is offered. More information is available in the *Undergraduate Calendar*. Contact a Faculty Academic Advisor for more information and program planning.

6.5.6 The Management Minor

If you are eligible to declare the Management Minor, complete the Minor Declaration form (available in General Office) and forward it to the Faculty Academic Advisor's office. An Academic Advisor or Registration Assistant must input the code for these areas into the registration system. It is not enough to state your intentions when planning your programs in March.

Reserves are obtained in a limited number of Management courses and are kept for students who are *not* in the Management minor.

In order to be enrolled in the Management Minor, you must have a degree GPA of 3.0 or higher in at least 30 credit hours in your program in the Faculty of Human Ecology. Students enrolled in the Management Minor may use the complete Business School timetable to select courses. A description of the Management Minor is found in the current *Undergraduate Calendar* in the Human Ecology chapter. The Management Minor fits into the electives part of your program. In order to be able to register in the courses you are taking in the Minor, the Advisor's office **MUST** enter the CRN for each course. Provide this information **PRIOR** to your registration day so we can enter it into the registration system.

6.5.7 The Family Social Sciences Minor

Human Ecology students who are not in Family Social Sciences may choose to complete the Family Social Sciences minor. Please review the *Undergraduate Calendar* for the requirements for completion of the minor.

6.5.8 The Option in Aging

The Interfaculty Option in Aging is available to students registered in Human Ecology. The option includes required and elective courses for a total of 18 credit hours. The required courses are one of KIN or NURS 2610 and one of HMEC or SWRK or REC 2650.

In 2009-2010 the two required courses will be taught under the following numbers: KIN 2610 and SWRK 2650.

More information on the Option in Aging and a complete list of courses is available in the General Office of Human Ecology. At present, students must monitor their own progress through the Option. When the Option is completed, a "Comment" will be placed on the transcript indicating successful completion. Your practicum instructor must sign a form verifying that you have completed the practical requirement of the Option. Submit the signed form to the Academic Advisor's office to have the comment placed on your transcript.

IMPORTANT:

To search for courses available in the Option in Aging on Aurora: If you know the subject, e.g., PSYC, refine your search by selecting the Option in Aging Attribute that will yield all courses in either Catalogue or Schedule that are applicable to the Option and are taught by that particular department. Use the control key to select several departments, e.g., Family Social Sciences and Nursing and Psychology, and then select the Option in Aging Attribute to refine the search. Or you may use the shift key to select all subjects and refine the search to courses with the Aging Attribute. These two

search options will produce a list of all courses in the selected departments that have the Aging Attribute.

6.5.9 Wrapping Up and Registering

Have you:

- Verified your initial access time?
- Declared your department (program) on Aurora Student if you are registering in Human Ecology for the first time?
- Registered in HMEC 2030 [written English for Human Ecology students] and STAT 1000 [Mathematics] requirement, if not already completed?
- Consulted an Academic Advisor if you have program questions and/or obtained required program approvals?
- Registered for your courses?
- Asked Aurora for a fee assessment after registration is complete?
- Reviewed the registration checklist earlier in this *Guide* for other registration tasks?
- Paid your fees? Your registration is not complete until you pay your fees or make arrangements to have them paid by the fee payment deadline. Do not wait for a fee statement to be mailed to you. See the section on fee payment for payment options.
- Classes commence Thursday, September 3, 2009. All students are expected to be in attendance from the first day of classes. Human Ecology labs begin the first full week of classes in September (Monday, September 7, 2009). Any changes to this information will be provided in lectures during the first week of classes.

SECTION 7: Course Descriptions

7.1 Family Social Sciences

FMLY 1010 Human Development in the Family Cr.Hrs.3 (Formerly 062.101) Introductory survey of key aspects of human development processes within the family context from a life span perspective. Not to be held with NURS 1260 (049.126).

FMLY 1020 Family Issues across the Lifespan Cr.Hrs.3 (Formerly 062.102) Introduction to contemporary issues involving families across the lifespan. Topics include mate selection, marriage, parenthood, divorce, lone-parent families, work-family balance, family violence, families and older persons, and poverty in families. Not to be held with 062.114.

FMLY 1420 Family Management Principles Cr.Hrs.3 (Formerly 062.142) An introductory course that uses an ecosystem perspective to consider resources, decision-making, planning, implementing, evaluating and communication within family contexts. Applications to balancing work and family, individual and family stress, family finance, environmental issues, and the use of time and human resources will be made. Not to be held with the former 062.142.

FMLY 1900 Families, Housing and Community: An Introductory Perspective Cr.Hrs.3 (Formerly 062.190) An introduction to understanding housing and community for individuals and families; shelter outside mainstream; neighbourhoods and communities; links between well being and poverty, housing, and community; some policy and program issues; various approaches used in studying this topic. Opportunity for some field experience. Not to be held with 062.172.

FMLY 2350 Multicultural Family Issues Cr.Hrs.3 (Formerly 062.235) A focus on multicultural issues that affect family interaction in Canada, which is designed to prepare students for professional practice. Emphasizes dominant/minority family relationships, internal family dynamics of minority families, social policies directed toward creating and maintaining multiculturalism and diversity education for future professionals. Manitoba Aboriginal family life is accentuated. *Prerequisite:* FMLY 1020 (062.102) or equivalent.

FMLY 2400 Family Financial Health Cr.Hrs.3 A survey of topics that have an impact on the financial health of Canadian families, including personal money management, mortgage financing, credit and debt, educational and retirement planning, taxation, insurance, savings and investments. The course prepares students to help families maximize resources and increase their financial literacy. *Prerequisite:* FMLY 1420 (062.142). Not to be held with the former FMLY 2070 (062.207).

FMLY 2600 Foundations of Childhood Developmental Health Cr.Hrs.3 (Formerly 062.260) This course examines implications of theory and research in child development for promoting developmental health. Laboratory component focuses on working with children and evaluating effects of developmental progress. *Prerequisite:* Minimum grade of C in FMLY 1010 (062.101). Limited enrolment.

FMLY 2800 Family Violence Cr.Hrs.3 (Formerly 062.280) A survey of the extent and nature of various forms of family violence across the life course. Topics include physical and sexual child abuse, sibling violence, partner violence, and elder abuse. Emphasis is on prevalence, incidence, causes, consequences and solutions. *Prerequisite:* FMLY 1010 (062.101) or FMLY 1020 (062.102) or PSYC 1200 (017.120) or SOC 1200 (077.120).

FMLY 2900 Families, Housing and Community: A Development Perspective Cr.Hrs.3 (Formerly 062.290) Focus is on developmental issues for individuals, fami-

lies and communities. Of particular interest is the interrelationship between facilitating community development and the developmental well being of residents. Social, psychological, cultural and political components are considered. *Prerequisite:* FMLY 1900 (062.190 or 062.172) or consent of instructor.

FMLY 3220 Death and the Family Cr.Hrs.3 (Formerly 062.322) An examination of dying and death of family members throughout the family life cycle. Specific topics included are the meaning of death, the process of dying, caring relationships, grief and bereavement. *Prerequisite:* FMLY 1020 (062.102) or PSYC 1200 (017.120) or SOC 1200 (077.120).

FMLY 3240 Families in Later Years Cr.Hrs.3 (Formerly 062.324) An investigation of family issues in the later years of life, such as housing, intergenerational relations, adjustment to retirement, sibling relations, grandparenting, death. Students may not hold credit for FMLY 3240 (062.324) and the former 062.321. *Prerequisites:* [FMLY 1010 (062.101) and FMLY 1020 (062.102)] or PSYC 1200 (017.120) or SOC 1200 (077.120).

FMLY 3330 Parenting and Developmental Health Cr.Hrs.3 (Formerly 062.333) Examines parenting and its influence on developmental health, with consideration of change across time, the context in which parenting occurs, and the effect of the parent-child relationship on developmental health. *Prerequisites:* FMLY 1020 (062.102) and completion of 54 credit hours. Not to be held with 062.435.

FMLY 3400 Families as Consumers Cr.Hrs.3 An examination of the factors that influence the consumer behaviour of individuals and families across the life course, with particular attention to the situation of vulnerable consumers. Theory, education, policy and practice are related to contemporary consumer issues and the impact of consumption behaviour on the environment. *Prerequisites:* FMLY2400 or FMLY 2070 (062.207) and ECON 1200 (018.120) or ECON 1210 (018.121) or ECON 1220 (018.122). Not to be held with the former FMLY 3450 (062.345).

FMLY 3470 Selected Studies in the Family I Cr.Hrs.3 (Formerly 062.347) The opportunity to carry out an individual study in the area of the family of particular interest to the student. When enrolment warrants, the department may offer selected topics in a regular course format. *Prerequisite:* consent of instructor.

FMLY 3600 Adolescents in Families and Society Cr.Hrs.3 (Formerly 062.360) This course is designed to help students understand the nature of adolescent relationships with their families in communities. The application of theory and research on adolescent relationships to professional practice with families and communities is emphasized. *Prerequisite:* FMLY 2600 (062.260) and completion of 54 credit hours.

FMLY 3610 Developmental Health of Children and Youth Cr.Hrs.3 (Formerly 062.361) Population health gradients are largely set early in life and are affected by the environments in which children live. This course examines current knowledge of the social determinants of child and adolescent health. Consideration is given to policy implications, including directions for program development and evaluation. Not to be held with the former 062.450. *Prerequisite:* FMLY 2600 (062.260). Not to be held with 062.450.

FMLY 3780 Introduction to the Development of Programs for Children and Families Cr.Hrs.3 (Formerly 062.378) An introduction to the theory and practice of program development with special emphasis on programs for children and families. The course will cover techniques for conducting need assessments, as well as the process of planning and implementing programs to address community need. *Prerequisite:* HMEC 2050 (028.205).

FMLY 3790 Introduction to the Evaluation of Programs for Children and Families Cr.Hrs.3 (Formerly 062.379) An introduction to the theory and practice of program evaluation with special emphasis on child and family programs. Considers the purpose of evaluation, types of evaluation, evaluation design and analysis, and the evaluation process. *Prerequisite:* HMEC 2050 (028.205).

FMLY 3800 Conflict Resolution in the Family Cr.Hrs.3 (Formerly 062.380) Students will examine the nature and development of conflict in family relationships throughout the life span. Implications of conflict for the quality of family relationships and individual development will be addressed. *Prerequisite:* FMLY 2800 (062.280) and completion of 54 credit hours.

FMLY 3802 Intimate Partner Violence Cr.Hrs.3 A critical examination of theory and research on violence in intimate relationships. Topics will include violence in dating, common-law, marital, ex-partner and same-sex relationships. *Prerequisite:* FMLY 2800.

FMLY 3804 Violence Against Children in the Family Cr.Hrs.3 An in-depth study of the dynamics and effects of the range of forms of violence against children occurring within families. Approaches to intervention and prevention will be examined. *Prerequisite:* FMLY 2800 (062.280).

FMLY 3900 Families, Housing and Community: A Policy Perspective Cr.Hrs.3 (Formerly 062.390) Examines policy relative to families, housing and community. Primer on public policy process and links to families. Examines housing policies at federal, provincial, and municipal levels and their impact on individuals and families. Opportunity for some field experience. *Prerequisite:* FMLY 1900 (062.190) or consent of instructor. Not to be held with 062.473.

FMLY 4300 Field Experience Cr.Hrs.6 (Formerly 062.430) Provide students with field experience in a supervised setting. The course consists of 120 hours of supervised work in an assigned setting and seminar time with peers and field experience coordinator. Grade is pass/fail. *Prerequisite:* 84 credit hours and consent of instructor. Not to be held with 062.436 or 062.455 or 062.456 or 062.457.

FMLY 4330 Management of Family Stress Cr.Hrs.3 (Formerly 062.433) Theories which influence family behaviour during stress are discussed, and coping/managerial skills to mitigate the effects of the stressors are examined. Stress management advice from agencies and in educational settings is analyzed. *Prerequisite:* FMLY 1020 (062.102).

FMLY 4400 Family Economics: Poverty and Wealth Cr.Hrs.3 Analysis of principles, major problems and trends in the economic welfare of individuals and families in both the Canadian and global economies. Emphasis on families and their relationships to the economy such as income inequality, family economic policy, human capital, poverty and resource distribution within families. *Prerequisites:* [FMLY 2400 or FMLY 2070 or 062.207] and [one of ECON 1200 (018.120) or ECON 1210 (or 018.121) or ECON 1220 (or 018.122)]. Not to be held with the former FMLY 4450 (or 062.445).

FMLY 4460 Family Financial Counselling Cr.Hrs.3 (Formerly 062.446) Theory and practice of financial counselling of debt-burdened families. Debt analysis. Appraisal of alternate solutions and of legal and psycho-social factors in terms of family well-being and financial capacity. *Prerequisite:* FMLY 3400 or 3450 or 062.345.

FMLY 4470 Selected Studies in the Family II Cr.Hrs.3 (Formerly 062.447) The opportunity to carry out advanced study in the area of the family of particular interest to the student. When enrolment warrants, the department may offer selected topics in a regular course format. *Prerequisite:* consent of instructor.

FMLY 4480 Work and Family Issues Cr.Hrs.3 (Formerly 062.448) An exploration of the interface between paid work and unpaid work and families in the Canadian and international contexts. Topics include demographic trends; parenting, child and elder care; management of work-family conflict; development of workplace solutions; and social policy implications. *Prerequisite:* [FMLY 2400 or 2070 or 062.207] and 84 credit hours.

FMLY 4600 Risk and Resilience in Behavioural and Social Development Cr.Hrs.3 (Formerly 062.460) The development of behavioural and social difficulties are examined from a risk and resilience perspective. The interaction of factors at all levels of the human ecological system are considered in terms of their impact on increasing risk and/or building resilience in children and youth. *Prerequisite:* FMLY 2600 or 062.260. Not to be held with 062.437.

FMLY 4602 Family Relationships, Health and Well-being Cr.Hrs.3 This course provides an in depth survey of the interaction between family relationship dynamics, health and well-being across the life course. The influence of family members on health-related behaviours is reviewed and preventive family-based interventions are evaluated. *Prerequisite:* FMLY 3600 (or 062.360).

FMLY 4800 Senior Seminar in Family Violence and Conflict Resolution Cr.Hrs.3 (Formerly 062.480) Advanced study in the areas of family violence and/or conflict resolution. Special emphasis is placed upon current research and/or practice. *Prerequisite:* FMLY 3800 (062.380) and completion of 72 credit hours.

FMLY 4900 Families, Housing and Community: An Action Perspective Cr.Hrs.3 (Formerly 062.490) Examines relationships between families, housing and community; impact of communities on children; best practices for enhancing quality of life in communities; participatory processes for working with communities. Significant on-site learning. Emphasis on inner-city. *Prerequisite:* FMLY 2900 (062.290) or FMLY 3900 (062.390) or consent of instructor.

7.2 Human Ecology Courses

HMEC 2030 Human Ecology: Perspectives and Communication Cr.Hrs.3 (Lab Required)(Formerly 028.203) Theory and practice of written and oral communication set within the context of the subject matter of areas of Human Ecology. Students may not hold credit for HMEC 2030 (028.203W) and 028.103 and 028.204.

HMEC 2050 Introduction to Research in Human Ecology Cr.Hrs.3 (Formerly 028.205) A general introduction to research issues in natural and social sciences and their application in the various subject areas in Human Ecology. *Prerequisites:* [HMEC 2030 (028.203W or 028.103W)] and STAT 1000 (005.100).

HMEC 2650 The Social Aspects of Aging Cr.Hrs.3 (Formerly 028.265) An examination of the social aspects of aging. Emphasis on understanding the aging process as a life transition involving adaptation through interaction with social and physical environments. Students may not hold credit for HMEC 2650 (028.265) with SWRK 2650 (047.265) or REC 2650 (123.265).

HMEC 3100 Communication for Professional Practice Cr.Hrs.3 (Formerly 028.310) Advanced communication skills as applied to professional practice in the fields of Human Ecology. Students may not hold credit for HMEC 3100 (028.310) and 028.204. *Prerequisites:* 39 credit hours in a Human Ecology program and HMEC 2030 (028.203 or 028.103).

HMEC 3500 Developmental Health Cr.Hrs.3 This course examines how social inequalities affect population health across the lifespan. It is guided by the determinants of health with a particular focus on socioeconomic variables. Local, provincial, national and international perspectives provide meaningful insight into the roles of equality and inequality. *Prerequisite:* PSYC 2250 (017.225) or HMEC 2050 (or 028.205).

HMEC 4060 Special Studies in Human Ecology Cr.Hrs.3 (Formerly 028.406) Independent study/and/or directed research within a specialized area. Before approval is granted, the student must submit a detailed proposal of the study. *Prerequisite:* Permission of advisor.

HMEC 4090 Practicum in Human Ecology Cr.Hrs.6 (Formerly 028.409) This is a partnership among the university, field supervisor, and the student. It provides an opportunity for students to work in a supervised setting (e.g., health, social services or business) in which home economists have a professional role and responsibility. Students also have in-class experiences and assignments with an academic instructor. *Prerequisite:* 84 credit hours in the program and consent of instructor.

7.3 Human Nutritional Sciences

HNSC 1200 Food: Facts and Fallacies Cr.Hrs.3 (Formerly 030.120) This course will present facts and fallacies about food from harvest to market forms. Emphasis will be placed on technological development, consumer concerns and factors affecting nutritional quality. Current issues related to food safety and nutritional trends will also be discussed. Not to be held with 030.119.

HNSC 1210 Nutrition for Health and Changing Lifestyles Cr.Hrs.3 (Formerly 030.121) This course addresses the relationship between nutrition and health. The focus is on healthy eating and on strategies for modifying food patterns within the context of lifestyle and culture. Not to be held with 030.117 or 030.323.

HNSC 2130 Nutrition Through the Life Cycle Cr.Hrs.3 (Formerly 030.213) Examination of nutritional needs throughout the life cycle, the nutritional concerns of different age groups and the development of healthy eating practices. Not to be held with 030.304. *Prerequisite:* HNSC 1210 (030.121).

HNSC 2140 Basic Principles of Human Nutrition Cr.Hrs.3 (Formerly 030.214) The scientific principles underlying nutrient function and dietary requirements. *Prerequisites:* A grade of C or higher in [CHEM 2770 or MBIO 2770 (002.277 or 060.277) or CHEM 2360 or MBIO 2360 (002.236 or 060.236)] and [HNSC 1210 (030.121) and HNSC 1200 (030.120)] or [FOOD 2500 (078.250)]. Not to be held with the former 030.325.

HNSC 2150 Composition, Functional and Nutritional Properties of Foods Cr.Hrs.3 (Formerly 030.215) Food composition, food market forms, food composition data for nutritional assessment and labelling. *Prerequisites:* HNSC 1200 (030.120) and HNSC 1210 (030.121) and [CHEM 1320 or CHEM 1310 (002.132 or 002.131)].

HNSC 2160 Principles of Food Preparation and Preservation Cr.Hrs.3 (Lab Required)(Formerly 030.216) Food preparation, preservation, handling and storage; quality and safety implications; scientific basis for culinary practice; use and application of equipment. *Prerequisite:* HNSC 1200 (030.120) and [CHEM 1320 or CHEM 1310 (002.132 or 002.131)]. Not to be held with 030.211 or 030.324.

HNSC 3260 Food Quality Evaluation Cr.Hrs.3 (Formerly 030.326) Discussion of quality concepts and quality assurance principles for food applications, and of methods for evaluation of sensory, chemical and physical aspects of quality. The course will include food industry visits and demonstrations of food testing techniques. *Prerequisites:* [HNSC 2160 (030.216) or FOOD 3010 (078.301)] and STAT 2000 (005.200).

HNSC 3300 Vitamins and Minerals in Human Health Cr.Hrs.3 (Formerly 030.330) The physiological importance of vitamins and minerals in the human body, including factors affecting dietary requirements, metabolism and roles in disease progression and prevention. *Prerequisites:* [CHEM/MBIO 2780 (002.278 or 060.278) or CHEM/MBIO 2370 (002.237 or 060.237)] and [HNSC 2140 (030.214) and BIOL 1412 (ZOO-OL 1330 or 022.133 or 022.254)]. Not to be held with the former 030.426.

HNSC 3310 Macronutrients and Human Health Cr.Hrs.3 (Formerly 030.331) Macronutrient functions and metabolic roles in human health, including the prevention and pathogenesis of various diseases. *Prerequisites:* [CHEM/MBIO 2780 (002.278 or 060.278) or CHEM/MBIO 2370 (002.237 or 060.237)] and [HNSC 2140 (030.214) and BIOL 1412 (ZOO-OL 1330 or 022.133 or 022.254)]. Not to be held with former 030.325.

HNSC 3320 Nutrition Education and Dietary Change Cr.Hrs.3 (Formerly 030.332) Theoretical and practical aspects influencing dietary change at the individual and population level, with emphasis on nutrition education. *Prerequisites:* PSYC 1200 (017.120) or SOC 1200 (077.120) and HNSC 2130 (030.213) and HNSC 2140 (030.214).

HNSC 3330 Ingredient Technology for Designed Foods Cr.Hrs.3 (Formerly 030.333) Chemical and functional properties of ingredients and their application in designed foods: low fat, low calorie, high fibre, high energy and innovative food products. *Prerequisites:* [CHEM/MBIO 2780 (002.278 or 060.278) or CHEM/MBIO 2370 (002.237 or 060.237) and HNSC 2150 (030.215)] or [CHEM 2220 (002.222) and FOOD 2500 (078.250)].

HNSC 3342 Management for Food and Nutrition Professionals Cr.Hrs.3 Management strategies and cost control principles as applied to food and nutrition organizations. Topics include leadership, organizational design, teamwork, human resource management, performance improvement, cost management, and the interpretation of financial statements. Not to be held with HNSC 3340 (030.334). *Prerequisites:* HNSC 1200 (030.120) and [MGMT 2030 (027.203) or MGMT 2070 (027.207) or MGMT 2080 (027.208)].

HNSC 3350 Culture and Food Patterns Cr.Hrs.3 (Lab Required) A study of the cultural, sociological and psychological aspects of food patterns and behaviour. Not to be held with 030.329. *Prerequisites:* [PSYC 1200 (017.120) or SOC 1200 (077.120)] and HNSC 1200 (030.120) and HNSC 1210 (030.121).

HNSC 4120 Senior Thesis Cr.Hrs.3 (Formerly 030.412) The preparation and presentation of a report based on a survey of the literature or on a laboratory investigation

of an approved topic. *Prerequisite:* 84 credit hours in the Human Nutritional Sciences program or the Minor in Human Nutrition and Metabolism. Application required. Enrolment limited.

HNSC 4122 Research Project in Human Nutritional Sciences Cr.Hrs.6 A research project in any aspect of human nutritional sciences, chosen in consultation with the supervising faculty member. A written report and a poster or oral presentation required at the end of the project. Students must be registered in their final year of Human Nutritional Sciences program. Application required. Enrolment limited. May not be held with HNSC 4120 or 030.412.

HNSC 4140 Quantity Food Production and Management Cr.Hrs.3 (Lab Required)(Formerly 030.414) Menu planning. Food costing. Experience in standard methods of institutional food production and service. *Prerequisites:* HNSC 3342 (HNSC 3340 or 030.334) and HNSC 2160 (030.216) or consent of instructor. Additionally, students must complete the Food Handlers Certificate Program and must submit the form to the Department by June 15th in order to be permitted to enter HNSC 4140.

HNSC 4160 Seminar in Foods and Nutrition Cr.Hrs.3 (Formerly 030.416) A critical study of research in the field of foods and nutrition; oral and written reports required. Restricted to 4th year majors in the Department. *Prerequisites:* completion of 84 credit hours in the HNS program and HMEC 3100 (028.310).

HNSC 4250 Selected Topics in Foods Cr.Hrs.3 (Formerly 030.425) Recent developments in food research, both basic and applied. *Prerequisite:* consent of instructor.

HNSC 4260 Selected Topics in Human Nutrition Cr.Hrs.3 (Formerly 030.426) Recent developments in human nutrition research. *Prerequisite:* consent of instructor.

HNSC 4270 Sensory Evaluation of Food Cr.Hrs.3 (Lab Required)(Formerly 030.427) Sensory perception, principles of the sensory analysis of food, requirements for sensory testing, test methods, selection and training of panelists, statistical analysis and interpretation of data. *Prerequisites:* [HNSC 2160 (030.216) or FOOD 3010 (78.301) or HNSC 3240 (030.324)] and STAT 2000 (005.200) or equivalent.

HNSC 4280 Food Product Development Cr.Hrs.3 (Formerly 030.428) This course focuses on food industry product development procedures. Emphasis will be on application of basic knowledge of foods and food processing in designing a new product. *Prerequisites:* MKT 2210 (118.221) and STAT 2000 (005.200) and [one of FOOD 3010 (078.301) or HNSC 3330 (030.333)]. Not to be held with FOOD 4510 (078.451).

HNSC 4290 Food, Nutrition and Health Policies Cr.Hrs.3 (Formerly 030.429) Principles and applications of policies, regulations and legislation in the areas of food and health that address nutrition and health problems of populations. Not to be held with the former 030.328. *Prerequisites:* HMEC 2050 (028.205) and HNSC 2130 (030.213) and HNSC 2150 (030.215) and STAT 2000 (005.200).

HNSC 4300 Community Nutrition Intervention Cr.Hrs.3 (Formerly 030.430) Principles of planning and evaluating nutrition related interventions. Examples of community needs assessments, program planning strategies and types of program evaluation will be examined. Not to be held with 030.411. *Prerequisite:* HNSC 3320 (030.332).

HNSC 4310 Nutrition and the Elderly Cr.Hrs.3 (Formerly 030.431) The role of nutrition in health promotion and disease prevention during aging. *Prerequisites:* HNSC 3310 (030.331) and HNSC 3320 (030.332). *Prerequisite* or corequisite: HNSC 3300 (030.330). Offered in alternate years, opposite HNSC 4340.

HNSC 4320 Nutrition Management of Disease States Cr.Hrs.3 (Lab Required)(Formerly 030.432) Nutritional assessment and dietary management of acute and chronic disease states. *Prerequisite* or corequisite: HNSC 3300 (030.330) and HNSC 3310 (030.331) and HNSC 3320 (030.332). Not to be held with 030.423 or 030.424.

HNSC 4340 Maternal and Child Nutrition Cr.Hrs.3 (Formerly 030.434) The role of nutrition in normal human development from conception through childhood. *Prerequisites:* HNSC 3310 (030.331) and HNSC 3320 (030.332). *Prerequisite* or corequisite: HNSC 3300 (030.330). Offered in alternate years opposite HNSC 4310.

HNSC 4350 Nutrition in Exercise and Sport Cr.Hrs.3 (Formerly 030.435) The application of nutritional regimens to meet exercise requirements and improve athletic performance. Current practices and recommendations for different types of sports will be examined. *Prerequisites:* HNSC 1210 (030.121) and PHED 3430 (057.343) or KIN 3470 or PHED 3470 or BIOL 1412 (ZOO 1330 or 022.133).

HNSC 4362 Nutrition Option Practicum Cr.Hrs.6 Practical applications of nutrition principles in a variety of public service and research applications. *Prerequisites:* completion of 84 credit hours in the Human Nutritional Sciences program with two of the following courses: HNSC 3300, HNSC 3310, HNSC 3320, and HNSC 3330. Application to the department is required. Limited enrolment.

HNSC 4364 Foods Industry Option Practicum Cr.Hrs.6 This course involves supervised application of food quality, safety, and management principles in a commercial or government setting. Requirements include 360 hours of work related to the field experience. *Prerequisites:* Completion of 84 credit hours in Human Nutritional Sciences Food Industry Option including HNSC 3260, HNSC 3330, FOOD 4150 and one of GMGT 2030, GMGT 2070 or GMGT 2080. Application to department is required. Limited enrolment.

HNSC 4540 Functional Foods and Nutraceuticals Cr.Hrs.3 (Formerly 030.454) This course will examine the bioactive components of functional foods and nutraceuticals, their sources, chemistry, process technology, efficacy, safety and regulation. *Prerequisite:* [CHEM 2770 or MBIOL 2770 (002.277 or 060.277) or CHEM 2360 or MBIOL 2360 (002.236 or 060.236)]. Not to be held with FOOD 4540 (078.454).

HNSC 4600 Practice-based Research in Human Nutritional Sciences Cr.Hrs.3 A practice-based research project relevant to dietetic practice. *Prerequisite:* Registration in the 4th year of the Human Nutritional Sciences program and any two of HNSC 3300, HNSC 3320 or HNSC 3330, and instructor permission required. Enrolment limited to students pre-selected by the Manitoba Partnership Dietetic Education Program. Not to be held with HNSC 4120 or HNSC 4122 (or 030.412).

7.5 Indigenous Wellness

WELL 3100 Worldview: Natural Sciences and Research Cr.Hrs.3 Students study the process of understanding the world from more than one world view. Each learning experience about research methods will integrate Indigenous and Western ways of knowing in a series of selected case-studies or learning scenarios. The case-studies and scenarios deal with research that can benefit individual and community health and quality of life. Restricted to students in the Indigenous Wellness program. *Prerequisites:* BIOL 1030 or BIOL 1340; PSYC 1200 or SOC 1200; NATV 1240; HMEC 2050 and STAT 1000 or consent of instructor.

WELL 3200 Worldview: Economics and Business Cr.Hrs.3 Students study the process of understanding economic systems and business from more than one world view. Each learning experience about business, resource allocations and wealth creation will integrate Indigenous and Western ways of knowing in a series of selected case-studies or learning scenarios. The case-studies and scenarios deal with issues of economic growth that can benefit individual and community health and quality of life. Restricted to students in the Indigenous Wellness program. *Prerequisites:* ECON 1210 and ECON 1220 or ECON 1200; NATV 1240; PSYC 1200 or SOC 1200; or consent of instructor.

WELL 3300 Worldview: Family and Community Cr.Hrs.3 Students study the factors that determine the functioning of families and communities from more than one world view. Each learning experience about the family will integrate Indigenous and Western ways of knowing in a series of selected case-studies or learning scenarios. The case-studies and scenarios deal with community functioning as a determinant of health and quality of life. Restricted to students in the Indigenous Wellness program. *Prerequisites:* FMLY 1020; FMLY 1010; NATV 1240; PSYC 1200 or SOC 1200, or consent of instructor.

WELL 3400 Worldview: Political Economy Cr.Hrs.3 Students study political systems from more than one world view. Each learning experience will integrate Indigenous and Western ways of knowing in a series of selected case studies or learning scenarios. The case-studies and scenarios deal with current political issues related to Aboriginal communities. Restricted to students in the Indigenous Wellness program. *Prerequisites:* ECON 1210 and ECON 1220 or ECON 1200; NATV 1240; PSYC 1200 or SOC 1200; or consent of instructor.

7.4 Interdisciplinary Health Degree Program

HEAL 2600 Integration of Health Determinants of Individuals Cr.Hrs.3 Students study, integrate and apply the determinants that affect the health of individuals throughout the life span to selected case or learning scenarios. The case or learning scenarios present a variety of issues in the delivery of health-related services that are intended to benefit individual health. *Prerequisites:* One of CHEM 1300 (002.130) or BIOL 1020 (071.102) or STAT 1000 (005.100); and one of PSYC 1200 (017.120) or SOC 1200 (77.120) or consent of instructor.

HEAL 3600 Integration of Health Determinants for Communities Cr.Hrs.3 Students study, integrate and use community level determinants of population health in selected case or learning scenarios. These cases present a variety of issues in the design of health related services that are intended to benefit population health. *Prerequisites:* A grade of C in HEAL 2600 and 39 credit hours in the Curriculum for Interdisciplinary Health or consent of instructor. Restricted to students in health Sciences and Health Studies.

HEAL 4600 Integration of Health Determinants for Canada and World Cr.Hrs.3 Students use selected case or learning scenarios to study the determinants of population health that depend on decision making in governmental or international agencies. The case scenarios present a variety of issues in the governance and management of population health. *Prerequisites:* A grade of C+ in HEAL 3600 and 57 credit hours in the Curriculum for Interdisciplinary Health or consent of instructor. Restricted to students in Health Sciences and Health Studies.

HEAL 4610 Health Studies Capstone Cr.Hrs.3 Students will explore selected topics from the social sciences to synthesize and evaluate actions that can affect the health of people. The course summarizes the social sciences knowledge that forms the basis for all health related professional work. *Prerequisite:* A grade of C+ in HEAL 3600 and 57 credit hours in the Curriculum for Interdisciplinary Health or consent of instructor. Restricted to students in Health Sciences and Health Studies.

HEAL 4620 Health Sciences Capstone Cr.Hrs.3 Students will explore selected topics from the biological sciences to synthesize and evaluate actions that can affect the health of people. The course summarizes the biological science knowledge that forms the basis for all health related professional work. *Prerequisite:* A grade of C+ in HEAL 3600 and 57 credit hours in the Curriculum for Interdisciplinary Health or consent of instructor. Restricted to students in Health Sciences and Health Studies.

7.5 Textile Sciences

TXSC 1600 Textiles for Living Cr.Hrs.3 (Lab Required)(Formerly 064.160) This course covers the fundamental knowledge of textiles in a product development context. It includes properties of fibres, yarns and fabrics; characteristics of natural and

manufactured fibres; chemical structures of the most commonly used natural and manufactured fibres for apparel and non-apparel end uses; woven, knitted, and non-woven structures; and dyeing and printing. Not to be held with 064.102.

TXSC 1610 Textiles, Product, and Consumers Cr.Hrs.3 (Formerly 064.161) This course covers the structure and characteristics of the natural and manufactured fibre sectors; downstream industries which transform natural or manufactured fibres into intermediate goods; the manufacturing industry which transforms intermediate supplies to final products; and the retailing industry which distributes final textile products to consumers or organizations.

TXSC 2420 History of Textiles Cr.Hrs.3 (Formerly 064.242) Development and diffusion of textile fibres, fabrics, and finishes from prehistoric times to present. May not hold with 064.332.

TXSC 2500 Preparation for Product Development Cr.Hrs.1 Designed for students with little or no background in textile product assembly or for students who require a refresher course. This course provides an orientation to textile product assembly equipment, construction, techniques, and terminology. Students who do not meet the minimum standard in a challenge test must pass this course before they will be permitted to continue in TXSC 2630. For Textile Sciences students only. NOTE: The credit associated with this course will not be counted toward the minimum credit hour requirements of the Textile Sciences degree. (Pass/fail grade).

TXSC 2600 Textiles for Apparel End Uses Cr.Hrs.3 (Formerly 064.260) Theories of product development and their applications to creating textile products for apparel end uses including fashion apparel: apparel for consumers throughout the lifespan, including childhood, young adults, older adults; apparel for consumers with disabilities; apparel for professional sports and recreation; and apparel for the healthcare sector. *Prerequisites:* [064.102] or [a minimum grade of C in TXSC 1600 (064.160) and TXSC 1610 (064.161) and 3 credit hours of 100-level chemistry].

TXSC 2610 Textiles for Non Apparel End Uses Cr.Hrs.3 (Formerly 064.261) Product development theories from engineering and management perspectives to illustrate the development of textile fibres, fabrics, and products for the industrial and healthcare sectors. Industrial uses of textiles include the automotive and the aerospace industries. End uses for the healthcare sector include textiles or textile products for rehabilitation, protection from bacteria, healing of wounds, and implantable textiles. Assessment of selected fabric properties such as strength, flammability, colourfastness and air permeability will be introduced. *Prerequisites:* [064.102] or [a minimum grade of C in TXSC 1600 (064.160) and TXSC 1610 (064.161) and 3 credit hours of 100-level chemistry].

TXSC 2620 Consumer and Organizational Behaviour Toward Textile Products Cr.Hrs.3 (Formerly 064.262) Theories and practices of consumer and organizational decision making with respect to textile products. *Prerequisites:* TXSC 2600 (064.260) or TXSC 2610 (064.261). Not to be held with MKTG 3230 (118.323).

TXSC 2630 Pattern Development in an Industrial Environment Cr.Hrs.3 (Lab Required)(Formerly 064.263) This course covers the process of communicating product design through pattern development. Students will learn the terminologies of pattern development, techniques of pattern development and manipulation, and the importance of anthropometry in creating apparel to suit its end uses. *Prerequisite:* TXSC 2600 (064.260). Additionally, students must complete TXSC 2500. TXSC 2500 is not required if a minimum standard is met on the challenge test. Continuation in TXSC 2630 is dependent on successful completion of TXSC 2500 or the challenge test. Not to be held with the former 064.348.

TXSC 3470 Cr.Hrs.3 (Formerly 064.347) Directed study in a specific area of clothing and/or textiles. *Prerequisite:* consent of instructor and 60 credit hours in the Clothing and Textiles program.

TXSC 3500 Textiles for the Healthcare Sector Cr.Hrs.3 (Formerly 064.350) This course covers the recent developments of a range of technical textiles for the healthcare sector, including implantable textiles, barrier fabrics, and smart textiles. *Prerequisite:* TXSC 2610 (064.261) and [HMEC 2050 (028.205) or any 2000-level or 3000-level research method course] and [CHEM 1000 (or 002.100 or PO13) or CHEM 1300 (002.130 or PO14)]. Not to be held with 064.347 which was offered from September 2004 to September 2005/2006.

TXSC 3600 Global Apparel and Textiles Trade Cr.Hrs.3 (Formerly 064.360) Covers the role of apparel and textiles trade in economic growth and development of industrialized, transitional, and developing nations. It will take into account the evolution of trade relations among apparel and textile producing countries and regions. *Prerequisite:* TXSC 2620 (064.262) and [ECON 1200 (018.120) or ECON 1210 (018.121) and ECON 1220 (018.122)] and HMEC 2050 (028.205). Not to be held with the former 064.340.

TXSC 3610 Product Standards and Specifications Cr.Hrs.3 (Formerly 064.361) Challenge students to apply their knowledge and skills gained in TXSC 2600, TXSC 2610 and TXSC 2620 to develop textiles and textile product standards and specifications for various forms of product development (e.g., private label, national brands, licensed goods) where there are no known precedents. Students will learn the process

of developing product standards by working on case studies. Textile products will include apparel and non-apparel end uses. *Prerequisites:* TXSC 3620 (064.362) and HMEC 2050 (028.205). Not to be held with 064.220 or 064.221 or 064.337.

TXSC 3620 Evaluation of Textile Performance Cr.Hrs.3 (Lab Required)(Formerly 064.362) Covers the serviceability of textile products for apparel and non apparel end uses. Students will learn to carry out commonly used textile testing methods for assessing durability, comfort, aesthetic properties and safety. *Prerequisites:* TXSC 2600 (064.260) and TXSC 2610 (064.261). Not to be held with the former 064.220 or 064.221 or 064.337.

TXSC 3630 Line Planning and Visual Communication Cr.Hrs.3 (Formerly 064.363) Covers the steps in developing a line of textile products for apparel and home furnishings end uses and the techniques of communicating product information to relevant members of the supply chain. Students will learn manual methods and computer aided design solutions to communicate product concepts. *Prerequisite:* TXSC 2630 (064.263). Not to be held with the former 064.225.

TXSC 3640 Pattern Development in a Computer Aided Design Environment Cr.Hrs.3 (Formerly 064.364) This course is a continuation of TXSC 2630. It covers advanced pattern manipulations using an industrial computer aided design system. *Prerequisite:* TXSC 2630 (064.263) and TXSC 3650 (064.365). Not to be held with 064.349.

TXSC 3650 Production of Textile Products Cr.Hrs.3 (Formerly 064.365) Covers the role of production in the product development process. Students will learn the terminology which meets industrial standards, the most commonly used production techniques for apparel and non apparel products, time studies, costing, development of specifications, manufacturing systems, and selected test methods for quality management. *Prerequisites:* TXSC 2630 and HMEC 2050 (028.205). Not to be held with 064.224 and 064.342.

TXSC 4260 Cr.Hrs.3 (Formerly 064.426) Application of marketing in the textile industries. *Prerequisites:* TXSC 3600 (or 064.340) and MKTG 2210 (118.221).

TXSC 4320 Selected Topics in Clothing and Textiles I Cr.Hrs.3 (Formerly 064.432) Directed study in a specific area of clothing and/or textiles. *Prerequisite:* Consent of instructor and 84 credit hours in the Clothing and Textiles program.

TXSC 4500 Advanced Textiles for the Healthcare Sector Cr.Hrs.3 Covers the latest developments in technical textiles for the healthcare sector and the measurement of attributes which are essential to the performance of textiles for medical or healthcare end uses. *Prerequisites:* TXSC 2600 (064.260) and TXSC 2610 (064.261) and TXSC 3620 (064.362) and TXSC 3500 (064.350) with a minimum grade of C; and CHEM 2220 (022.222) and HMEC 2050 (028.205) with a minimum grade of D.

TXSC 4600 The Information Age and the Textiles Supply Chain Cr.Hrs.3 Covers the evolution of the textile complex from a production orientation to a logistics orientation; the role of information technology in creating or enhancing competitive advantage; the range of technologies used by the textile complex to communicate design, production, and management information throughout the supply chain; decision making process executives go through to decide which types of technology to purchase, how to implement them within the firm, the financial implications, the effects on business-to-business communication, and the effects on business-to-consumer communication. *Prerequisite:* TXSC 3600.

TXSC 4610 Integrative Project Cr.Hrs.6 This is a required course in which students are required to demonstrate their ability to integrate the skills and knowledge accumulated in the program. Specifically, students will solve a specific textile or product development problem which may originate from the students' interests, developed in collaboration with academic staff, or community-based. Reserved for 4th year students in Textile Sciences. *Prerequisite:* TXSC 3610 (064.361) and TXSC 3620 (064.362). Not to be held with the former 064.434 or TXSC 4210 (064.421) or TXSC 4310 (064.431).

TXSC 4620 Colour Management Cr.Hrs.3 Covers the basic concepts and principles of colour science, the process of determining seasonal colour palette, colour specification systems, colour notation systems, commercial colour identification systems, the colour approval process in industrial, institutional, and consumer goods settings, colour measurement, and interpretation of colour data. Students will learn the process of preserving colour integrity throughout the supply chain. *Prerequisites:* TXSC 3610 (064.361) and HMEC 2050 (028.205). Not to be held with the former 064.339 or 064.430.

TXSC 4630 Quality Assurance Systems Cr.Hrs.3 Covers the concept of total quality management; the role of total quality management in apparel and textiles; the role of standard setting agencies in developing standards of product and service quality; management systems such as ISO 9000 and case studies of textiles and apparel firms which have adopted these systems. Students will learn by solving a series of problems presented to them in the format of case studies. *Prerequisites:* TXSC 3650 and TXSC 4620. Not to be held with 064.220 or 064.221 or 064.337.

Director Emeritus

MacDiarmid, J.A., B.P.E. (Manitoba), M.P.E. (Minnesota).

Professor Emeritus

Hrenchuk, E., B.P.H.E. (Toronto), M.A. (Minnesota).

Professors

Alexander, M.J.L., B.P.E. (British Columbia), M.Sc. (Washington), Ph.D. (Alberta); **Gardiner, P.F.**, B.P.H.E., M.P.E. (Windsor), Ph.D. (Alberta); **Halas, J.**, B.P.E. (Manitoba), M.Sc. (Ottawa), Ph.D. (Alberta); **Hrycaiko, D.W.**, B.P.E., Cert.Ed. (Manitoba), M.P.E., Ph.D. (Alberta); **Kerr, R.**, B.Sc., M.Sc., Ph.D. (Oregon), Cert. Ed. (Exeter), Dip. P.E. (Saint Luke's College); **MacKay, K.**, B.A. (Acadia), M.Sc. (Texas A and M), Ph.D. (Illinois); **Mactavish, J.**, B.P.E. (British Columbia), M.Sc. (Manitoba), Ph.D. (Minnesota); **Porter, M.**, B.P.H.E. (Laurentian), M.Sc. (Toronto); Ph.D. (Western); **Ready, A.E.**, B.A.(Hons.), M.A. (Western), Ph.D. (Alberta); **Watkinson, E.J.**, B.P.E., B.A. (McMaster), M.A. (Western), Ph.D. (Michigan).

Associate Professors

Butcher, J., B.P.E., Cert. Ed. (Manitoba), M.Sc. (Dalhousie), Ph.D. (Alberta); **Campbell, M.**, B.A., M.A. (Manitoba), Ph.D. (Waterloo).

Assistant Professors

Duhamel, T., B.Sc., M.Sc., Ph.D. (Waterloo); **McGavock, J.**, B.P.E. (Manitoba), M.Sc. (McGill), Ph.D. (Alberta); **Van Winkle, C.**, B.R.S., M.A., (Manitoba), Ph.D. (Clemson).

Instructors

Bentley, K., B.A. (Manitoba); **Bérubé, C.**, B.es A., B.en. Ed. (Manitoba); **Danis, P.**, B.A., B.Ed. (Winnipeg); **Dobie, B.**, B.P.E., Cert. Ed. (Manitoba); **Elliott, J.**, B.P.E., B.Ed., M.Sc. (Manitoba); **Hayward, J.**, B.P.E. (Manitoba), DAT&M (Sheridan College); **Pierre, S.N.**, B.A., B.Comm (Hons) (Manitoba); **Pischke, G.**, B.A. (Manitoba); **Rempel, J.**, B.A., B.R.S. (Manitoba); **Sirant, M.**, B.A., B.R.S. (Manitoba); **Suffield, R.**, Dip.P.E. (McGill), B.A. (Concordia), B.Ed. (Manitoba), M.Ed. (Lakehead); **Turcotte, K.**, B.P.E., M.Sc. (Manitoba).

SECTION 2: Faculty of Kinesiology and Recreation Management

The mission of the faculty is to discover and disseminate knowledge related to physical activity, human movement, sport, and leisure to improve the health, well-being and quality of life of Manitobans, Canadians and citizens of the world.

Academic Program Strategic Goals:

To provide high quality, evidence-based degree programs that prepare students academically and professionally to create and disseminate knowledge in areas related to human movement and leisure.

Undergraduate Program Goals:

To deliver sound undergraduate curricula to students in areas broadly related to physical activity, recreation, and applied health, who by the completion of their undergraduate degrees will:

- have general knowledge and specific knowledge in their fields, including knowledge of current research;

- be able to use critical thinking skills across a broad range of issues in their fields;
- be able to communicate effectively (orally, in writing, and technologically);
- be competent in relevant skills and practices;
- be literate in common information technology;
- be advocates for healthy living;
- respect diversity;
- be prepared for future employment and/or study in their fields.

SECTION 3: Admission to the Faculty of Kinesiology and Recreation Management

3.1 Degrees offered

Bachelor of Physical Education

Minimum time to graduation: Three years (University 1 plus two years).

Bachelor of Kinesiology

Minimum time to graduation: Four years (University 1 plus three years).

Bachelor of Recreation Management and Community Development

Minimum time to graduation: Four years (University 1 plus three years).

Master of Science (Kinesiology) and Master of Arts (Recreation Studies) Ph.D. in Applied Health Sciences

Please see the 2009-2010 Graduate Calendar for further information.

3.2 Course Requirements for Admission:

The following is a summary of the admission requirements. Equivalent academic courses completed at recognized universities elsewhere will be considered. Applicants who are members of traditionally disadvantaged groups (i.e., Aboriginal peoples, persons with disabilities, visible minorities, recent immigrants, etc.) may apply under a Special Consideration Category. Further information on the criteria is available by contacting the faculty. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website in January each year.

NOTE: Entering students who have not completed all of the required University 1 courses must complete them during their program.

Bachelor of Physical Education

Complete a minimum of any 24 credit hours in University 1. However, in order to complete the degree in three years, the following first-year courses are recommended (30 credit hours):

BIOL 1410 Anatomy of the Human Body and BIOL 1412 Physiology of the Human Body (minimum grade of "C") **NOTE:** BPE students who have completed BIOL 1020 and BIOL 1030 will also be required to take BIOL 1412, as BIOL 1412 is a pre-requisite for PHED 3470.

Written English Requirement: ENGL 1XXX English Literature (6 credit hours)

PERS 1500 Foundations of Physical Education & Kinesiology

PSYC 1200 Introduction to Psychology

A course that satisfies the Mathematics requirement from the Mathematics or Statistics department

6 credit hours of Electives (in area of teachable minor)

Bachelor of Kinesiology

Complete a minimum of any 24 credit hours in University 1. However, in order to complete the degree in four years, the following first-year courses are recommended (30 credit hours):

BIOL 1020 Biology 1: Principles and Themes **and** BIOL 1030 Biology 2: Biological Diversity, Function and Interaction (with a minimum grade of "C" in each) **or** BIOL 1000 Biology: Foundations of Life **and** BIOL 1010 Biological Diversity and Interaction (with a minimum average grade of "C+"). Successful completion of BIOL 1020 and BIOL 1030 or BIOL 1000 and BIOL 1010 is required for admission to the Athletic Therapy Program and is strongly recommended for admission to Kinesiology.

PERS 1200 Physical Activity, Health and Wellness

PERS 1400 Concepts of Recreation and Leisure

PERS 1500 Foundations of Physical Education & Kinesiology

PSYC 1200 Introduction to Psychology

STAT 1000 (M) Basic Statistical Analysis 1

3 credit hours to fulfil the Written English Requirement

3 credit hours of Electives

Bachelor of Recreation Management and Community Development

Complete a minimum of any 24 credit hours in University 1. However, in order to complete the degree in four years, the following first-year courses are recommended (30 credit hours):

PERS 1200 Physical Activity, Health and Wellness

PERS 1300 Introduction to Leisure Travel

PERS 1400 Concepts of Recreation and Leisure

PERS 1500 Foundations of Physical Education & Kinesiology

PSYC 1200 Introduction to Psychology

STAT 1000 (M) Basic Statistical Analysis 1

3 credit hours to fulfil the Written English Requirement

6 credit hours of Electives

Other Requirements for Admission

High School Prerequisites:

Math 40S (minimum grade of 50%) is required for all programs and Biology 40S (minimum grade of 50%) is required for BKin and BPE.

Chemistry 40S and Physics 40S are not required but may be helpful for BKin and BPE.

Minimum GPA for consideration: 2.0, but admission is competitive.

A valid CPR (Basic Rescuer Level) and Standard First Aid (Red Cross/St. John Ambulance) certification is required for applicants to the Bachelor of Kinesiology - Athletic Therapy Program.

3.3 Transfer and Second Degree Students

Students admitted to the Faculty of Kinesiology and Recreation Management following the completion of another recognized university degree program may transfer in credit that is deemed equivalent toward the course requirements of a Kinesiology and Recreation Management undergraduate degree program. Students are eligible to transfer a maximum of 50 credit hours to the Bachelor of Physical Education degree and a maximum of 60 credit hours to the Bachelor of Kinesiology and Bachelor of Recreation Management and Community Development programs. Students having more than the maximum hours of transferable credit used toward the first degree are required to enrol in the remaining credits required to complete program.

Students who hold a degree and in addition have completed further courses at the University of Manitoba which are applicable to their program that were not used for credit toward their first degree may receive additional transfer credit for that work.

Equivalent courses completed at other universities or post-secondary institutions will be considered for admission and transfer credit only if the courses have been taken within the last 10 years.

Students are encouraged to contact an Academic Advisor in the faculty office for information on how to optimize their transfer credit and advance standing.

3.4 Visiting Students

Students who are enrolled and pursuing a degree at another institution may apply as visiting students with the Faculty of Kinesiology and Recreation Management. A Letter of Permission from the home institution granting permission to register for courses from the University of Manitoba is required in order for access to be granted to those courses.

3.5 Special Students

After-Degree Special Students

Students who have successfully completed a first degree program who are not seeking another degree and wish to take courses from the Faculty of Kinesiology and Recreation Management are eligible for admission as Special Students.

SECTION 4: Academic Regulations

All students are asked to note that some academic policies and regulations are under review and are subject to change. Please check the Web Calendar at umanitoba.ca for updated information.

The provisions of these chapters from the Undergraduate Calendar (University Policies and General Academic Regulations and Requirements), apply to all students. In addition, the Faculty of Kinesiology and Recreation Management has regulations and requirements, published below, that apply specifically to its students.

Attendance and Withdrawal

Students absent from class for three or more days due to illness are required to present a certificate from a physician. Unexcused absence of more than three hours of class time in a theory course or experiential learning course may result in the student being required to withdraw from the course or may result in an "F" grade being assigned.

Dean's Honour List

Students enrolled in 12 credit hours or more who achieve a Term Grade Point Average of 3.50 or higher will be placed on the Dean's Honour List. The Dean's Honour List will be calculated after each term (i.e. Fall, Winter, and Summer).

The Dean's Honour List designation will appear on the student's transcript.

University Gold Medal and Program Medals

Gold Medal

The Faculty of Kinesiology and Recreation Management will award the University Gold Medal to the graduating student who:

- 1) has achieved the highest grade point average of all graduating students (minimum 3.75) on courses constituting the last two years of an eligible program (and including no transfer courses in the applicable years); and,
- 2) has completed at least 80 percent of what is considered to be the normal full course-load in each of the last two years of the eligible program.

Program Medals

There are two program medals awarded each year in the Faculty of Kinesiology and Recreation Management to the two students with the highest standing (according to the University Gold Medal criteria) in the programs in which the winner of the University Gold Medal in Kinesiology and Recreation Management is not registered (the three programs are Physical Education, Recreation Management & Community Development, and Kinesiology).

Degree with Distinction

Awarded to students who graduate with a cumulative Degree Grade Point Average of 3.8 or higher. The notation of 'Degree with Distinction' will appear on the student's parchment and transcript.

Challenge for Credit

PERS 1500 Foundations of Physical Education and Kinesiology is open to challenge for credit. Students must demonstrate their competence in this course before challenging (e.g., students with significant professional experience and training who may have the necessary knowledge; transfer students who may have completed several related courses at other institutions that are not directly equivalent to PERS 1500). The Academic Schedule in the front section of this Calendar contains the relevant registration deadline dates appropriate to challenge for credit.

Leave of Absence

Students who have not registered for a full academic session will need to reactivate their status by contacting the Faculty General Office and must consult with an Academic Advisor. Students who have been absent from study for more than 5 years or have attended another institution since their last registration (not on a Letter of Permission) will have to re-apply for admission to the university.

Time Limit for Completion of the Degrees

Students admitted to the Bachelor of Physical Education, Bachelor of Kinesiology, or Bachelor of Recreation Management and Community Development degree programs must complete all requirements to graduate within ten years of admission to the program. Students with questions relating to the time limit regulation should consult the Undergraduate Program Administrator.

Academic Integrity

The Faculty of Kinesiology and Recreation Management adheres strictly to the University of Manitoba Student Discipline By-Law and will enforce these regulations. It is the responsibility of the student to know what constitutes academic dishonesty. Plagiarism or any other form of cheating is subject to academic penalty, which could be as serious as suspension or expulsion from the faculty or university. Students are encouraged to avoid academic misconduct by learning more about the University of Manitoba regulations at:
http://umanitoba.ca/student/resource/student_advocacy/index.html

Student Academic Appeals

A student who wishes to appeal an academic regulation or decision should consult the Associate Dean (Academic). The Faculty has an academic appeals process for students who wish to appeal a policy or decision affecting their program of study.

SECTION 5: Faculty Program Requirements

The Faculty introduced a revised curriculum in September 2007. Students entering in September 2007 or later will follow the curriculum in this section. Students admitted prior to September 2007 should contact the Faculty General Office for information on their specific degree and course requirements for graduation.

The following requirements apply to students in all four undergraduate degree programs in the Faculty. The four degree programs have a base of shared introductory core courses, as well as shared upper level courses with a professional focus. Shared core courses are intended to ensure students recognize the interconnections across our Faculty and its related fields of practice, and to facilitate the professional education of students.

Course Prefixes:

- PERS Denotes University 1 courses and core courses common to all undergraduate degree programs
- PHED Denotes required and elective courses in the Physical Education degree program
- KIN Denotes required and elective courses in the Kinesiology degree program
- REC Denotes required and elective courses in the Recreation Management and Community Development degree program

Introductory Core Courses (18-21 credit hours):

- PERS 1400 Concepts of Recreation and Leisure 3
- PERS 1500 Foundations of Physical Education and Kinesiology 3
- PSYC 1200 Introduction to Psychology 6

University Math Requirement:

- STAT 1000 Introduction to Statistical Analysis 1 or (MATH 1XXX Mathematics)* 3

University Written Requirement:

- Any course satisfying Written English Requirement or (ENGL 1XXX English Literature 6)* 3

* BPE students only

Professional Core Courses (12-15 credit hours):

- PERS 2100 Introduction to Professional Practice 3
- PERS 2200 Program Planning Principles 3
- PERS 3100 Inclusive Physical Activity and Leisure 3
- PERS 3460 Sociology of Physical Activity and Leisure 3
- (PSYC 3660 Sport Psychology 3)**
- PERS 4100 Current Issues† 3

**Fulfills social science requirement for Kinesiology-Athletic Therapy students only

†BKin and BRMCD only

Exit Requirement:

Current Basic Rescuer CPR and Standard First Aid

Areas of Emphasis:

Students in the BKin and BRMCD degree programs are encouraged to select an area of emphasis to better utilize electives for their career focus. A

list of suggested courses is available in the Faculty General Office for the following areas of emphasis:

- Aging (BKin and BRMCD)
- Coaching (BKin only)
- Community Development and Wellness (BKin and BRMCD)
- Culture and Diversity (BKin and BRMCD)
- Fitness Professional (BKin only)
- Sport and Event Management (BRMCD only)
- Sustainable Tourism and Recreation (BRMCD only)

SECTION 6: Program Requirements for Bachelor of Physical Education

(Apply to students admitted in September 2007 or later)

6.1 Requirements for Graduation: Bachelor of Physical Education

To graduate with a three-year Bachelor of Physical Education degree, a student must have passed the 102 credit hours of the program outlined below and must have achieved a Degree Grade Point Average (DGPA) of 2.00 as well as a 2.00 Grade Point Average (GPA) in all Physical Education courses. A minimum grade of "C" is required to pass all faculty-required courses. Students will be permitted to repeat a failed faculty-required course only once while in the program. Students who fail the same faculty-required course twice will be required to withdraw from the program.

A maximum of 132 credit hours may be attempted in order to obtain the 102 credit hours required for graduation with the Bachelor of Physical Education degree.

6.2 Scholastic Standards: Bachelor of Physical Education

To remain in Good Standing students must achieve a minimum Term GPA of 2.0. Students with a Term GPA of less than 2.0 will be given an academic warning, and will be reinstated in Good Standing provided their following Term GPA is 2.0 or greater. Students who fail to be reinstated will be placed on Probation. Students on probation will be reinstated to Satisfactory Standing provided their next Term GPA is 2.0 or greater; if their Term GPA is less than 2.0 they will be given a Suspension Warning. Following a Suspension Warning, students may be reinstated to Satisfactory Standing (Term GPA 2.0 or greater) or placed on Suspension (Term GPA less than 2.0).

6.3 Program Requirements: Bachelor of Physical Education

Year 1 – University 1: 30 credit hours

Course No.		Credit Hours
BIOL 1410	Anatomy of the Human Body (former ZOOL 1320)	3
BIOL 1412	Physiology of the Human Body (former ZOOL 1330)	3
ENGL 1200	Representative Literary Works <u>or</u> ENGL 1300 Literature Since 1900 <u>or</u> ENGL 1310 Literary Topics 1 and ENGL 1340 Introduction to Literary Analysis)	6
PERS 1500	Foundations of Physical Education and Kinesiology	3
PSYC 1200	Introduction to Psychology	6
M	Mathematics or Statistics Requirement	3
	Teachable Minor	6

Year 2: 36 credit hours

Course No.		Credit Hours
PERS 1400	Concepts of Recreation and Leisure	3
PERS 2100	Introduction to Professional Practice	3
PERS 2200	Program Planning Principles	3
PHED 2320	Human Anatomy	3
PHED 2330	Biomechanics	3
PHED 2550	Growth and Motor Development	3

Required Experiential Learning Courses:

PHED 2710	Human Movement Principles	3
PHED 2720	Developmental Games and Activities	3
PHED 2730	Gymnastics, Dance and Rhythmic Activities	3
PHED 2740	Fitness Theory and Practice	3
	Teachable Minor	6
Year 3: 36 credit hours		

Course No.		Credit Hours
PERS 3100	Inclusive Physical Activity and Leisure	3
PERS 3460	Sociology of Physical Activity and Leisure	3
PHED 3090	Principles of Fitness Training	3
PHED 3360	Culturally Relevant Physical Education and Health	3
PHED 3450	Motor Learning	3
PHED 3470	Exercise Physiology	3
	Required Experiential Learning Course:	
PHED 3710	Active Health and Human Potential	3

Faculty Electives

9

Must include 2 or 3 of the following 8 Experiential Learning Courses (ELCs):

PHED 3720	Coaching Theory and Practice (3)	
PHED 3730	Advanced Coaching Theory and Practice (3)	
PHED 3740	Resistance Training and Conditioning (3)	
PHED 3750	Lifestyle Activities (3)	
PHED 3760	Diverse Populations Mentorship (3)	
PHED 3770	Aboriginal Games and Activities (3)	
PHED 4710	Outdoor Education (3)	
PHED 4720	Wilderness Adventures (3)	
	Teachable Minor	6

Note: Not all elective ELCs will be offered each year. Year 3 Faculty Elective options are available from an Academic Advisor.

SECTION 7: Program Requirements for Bachelor of Kinesiology

(Apply to students admitted in September 2007 or later)

7.1 Requirements for Graduation: Bachelor of Kinesiology

To graduate with a four-year Bachelor of Kinesiology degree, a student must have passed the 120 credit hours of the program outlined below and must have achieved a Degree Grade Point Average (DGPA) of 2.00 as well as a 2.00 Grade Point Average (GPA) in all faculty-required courses. A minimum grade of "C" is required to pass all faculty-required courses. Students will be permitted to repeat a failed faculty-required course only once while in the program. Students who fail the same faculty-required course twice will be required to withdraw from the program.

A maximum of 158 credit hours may be attempted in order to obtain the 120 credit hours required for graduation with the Bachelor of Kinesiology degree.

Athletic Therapy

To graduate with a four-year Bachelor of Kinesiology degree specializing in Athletic Therapy, a student must have passed the 132 credit hours of the program outlined below and must have achieved a CGPA of 2.00 as well as a 2.00 GPA in all faculty-required courses.

A maximum of 172 credit hours may be attempted in order to obtain the 132 credit hours required for graduation with the Bachelor of Kinesiology (Athletic Therapy).

7.2 Scholastic Standards: Bachelor of Kinesiology

To remain in Good Standing students must achieve a minimum Term GPA of 2.0. Students with a Term GPA of less than 2.0 will be given an academic warning, and will be reinstated in Good Standing provided their following Term GPA is 2.0 or greater. Students who fail to be reinstated will be placed on Probation. Students on probation will be reinstated to Satisfactory Standing provided their next Term GPA is 2.0 or greater; if their Term GPA is less than 2.0 they will be given a Suspension Warning. Following

a Suspension Warning, students may be reinstated to Satisfactory Standing (Term GPA 2.0 or greater) or placed on Suspension (Term GPA less than 2.0).

7.3 Program Requirements: Bachelor of Kinesiology

Year 1 - University 1: 30 credit hours

Course No.		Credit Hours
BIOL 1XXX	BIOL 1020 Biology 1: Principles and Themes and BIOL 1030 Biology 2: Biological Diversity, Function and Interaction (with a minimum grade of "C" in each) or BIOL 1000 Biology: Foundations of Life and BIOL 1010 Biological Diversity and Interaction (with a minimum average grade of "C+")	6
PERS 1200	Physical Activity, Health and Wellness	3
PERS 1400	Concepts of Recreation and Leisure	3
PERS 1500	Foundations of Physical Education and Kinesiology	3
PSYC 1200	Introduction to Psychology	6
W	Written English Requirement	3
STAT 1000	Introduction to Statistical Analysis 1	3
	Electives	3

Year 2: 30 credit hours

Course No.		Credit Hours
ABIZ 1000	Introduction to Agribusiness Management	3
BIOL 2410	Human Physiology 1 (former ZOOL 2530)	3
BIOL 2420	Human Physiology 2 (former ZOOL 2540)	3
PERS 2100	Introduction to Professional Practice	3
PERS 2200	Program Planning Principles	3
KIN 2320	Human Anatomy	3
KIN 2330	Biomechanics	3
	Electives	9

Year 3: 30 credit hours

Course No.		Credit Hours
PERS 3100	Inclusive Physical Activity and Leisure	3
PERS 3460	Sociology of Physical Activity and Leisure	3
KIN 3090	Principles of Fitness Training	3
KIN 3340	Philosophy of Physical Activity and Leisure	3
KIN 3350	Introduction to Research	3
KIN 3470	Exercise Physiology	3
KIN 3740	Resistance Training and Conditioning	3
	Electives	9

Year 4: 30 credit hours

Course No.		Credit Hours
PERS 4100	Current Issues	3
KIN 3450	Motor Learning	3
KIN 4500	Physical Activity and Aging	3
	Electives	21*

* KIN 4630 Supervised Fieldwork Experience is strongly recommended (12 credit hours)

* A maximum of 18 credit hours of electives may be taken from outside the Faculty following Year 1.

7.4 Athletic Therapy Program

Students are expected to progress through the Athletic Therapy program as outlined below. It is strongly recommended that courses be completed in the sequence and year indicated, otherwise an additional year may be required.

For courses recommended in University 1, see Section 3, Admission to Kinesiology and Recreation Management. Successful completion of BIOL 1020 and BIOL 1030, with a minimum grade of "C", **or** BIOL 1000 and BIOL 1010, with a minimum average grade of "C+", is an eligibility requirement for admission to the Athletic Therapy Program.

Valid CPR (Basic Rescuer Level) and Standard First Aid (Red Cross/St. John Ambulance) certification is required before the beginning of each term of registration. Athletic Therapy students must also register as members with both the Manitoba Athletic Therapists Association (MATA) and Canadian Athletic Therapists Association (CATA) each year while in the program.

Athletic Therapy Practicum

(KIN 2910, KIN 3910, & KIN 4910)

Students in the Athletic Therapy Program will be required to complete several hours of clinical and field (sports team) experiences on campus and in the community during each year of their degree. These experiences provide opportunities to apply the knowledge and skills students obtain via their educational curriculum, in a practical hands-on manner, and therefore enhance their preparation for the Canadian Athletic Therapy Association (CATA) examinations. Prior to registering in each practicum (KIN 2910, KIN 3910, KIN 4910) students must have successfully completed, or be registered in, all of that year's courses. Students must successfully complete the previous year's practicum prior to registering in the following year's courses.

Year 1 - University 1: 30 credit hours

Course No.		Credit Hours
BIOL 1XXX	BIOL 1020 Biology 1: Principles and Themes and BIOL 1030 Biology 2: Biological Diversity, Function and Interaction (with a minimum grade of "C" in each) or BIOL 1000 Biology: Foundations of Life and BIOL 1010 Biological Diversity and Interaction (with a minimum average grade of "C+")	6
PERS 1200	Physical Activity, Health and Wellness	3
PERS 1400	Concepts of Recreation and Leisure	3
PERS 1500	Foundations of Physical Education and Kinesiology	3

SECTION 8: Program Requirements: Bachelor of Recreation Management and Community Development

(Apply to students admitted in September 2007 or later)

8.1 Requirements for Graduation: Bachelor of Recreation Management and Community Development

To graduate with a four-year Bachelor of Recreation Management and Community Development degree, a student must have passed the 120 credit hours of the program outlined below and must have achieved a Degree Grade Point Average (DGPA) of 2.00 as well as a 2.00 Grade Point Average (GPA) in all faculty-required courses. A minimum grade of "C" is required to pass all faculty-required courses. Students will be permitted to repeat a failed faculty-required course only once while in the program. Students who fail the same faculty-required course twice will be required to withdraw from the program.

A maximum of 158 credit hours may be attempted in order to obtain the 120 credit hours required for graduation with the Bachelor of Recreation Management and Community Development degree.

8.2 Scholastic Standards: Bachelor of Recreation Management and Community Development

To remain in Good Standing students must achieve a minimum Term GPA of 2.0. Students with a Term GPA of less than 2.0 will be given an academic warning, and will be reinstated in Good Standing provided their following Term GPA is 2.0 or greater. Students who fail to be reinstated will be placed on Probation. Students on probation will be reinstated to Satisfactory Standing provided their next Term GPA is 2.0 or greater; if their Term GPA is less than 2.0 they will be given a Suspension Warning. Following a Suspension Warning, students may be reinstated to Satisfactory Standing (Term GPA 2.0 or greater) or placed on Suspension (Term GPA less than 2.0).

8.3 Program Requirements: Bachelor of Recreation Management and Community Development

Year 1 - University 1: 30 credit hours

Course No.	Credit Hours
PERS 1200 Physical Activity, Health and Wellness	3
PERS 1300 Introduction to Leisure Travel	3
PERS 1400 Concepts of Recreation and Leisure	3
PERS 1500 Foundations of Physical Education and Kinesiology	3
PSYC 1200 Introduction to Psychology	6
W Written English Requirement	3
STAT 1000 Introduction to Statistical Analysis 1	3
Electives	6

Year 2: 33 credit hours

Course No.	Credit Hours
SOC 1200 Introduction to Sociology	6
PERS 2100 Introduction to Professional Practice	3
PERS 2200 Program Planning Principles	3
REC 2400 Management and Marketing of Leisure Services	3
REC 3090 Foundations of Sustainable Nature-Based Tourism	3
REC 3850 The Planning of Recreation Areas and Facilities	3
Electives	9

Year 3: 36 credit hours

Course No.	Credit Hours
PERS 3100 Inclusive Physical Activity and Leisure	3

PERS 3460 Sociology of Physical Activity and Leisure	3
REC 3340 Philosophy of Physical Activity and Leisure	3
REC 3350 Introduction to Research	3
REC 3200 Advanced Program Planning and Research	3
REC 4070 Community Development and the Leisure Delivery System	3
REC 4XXX Advanced Recreation Electives	6
Electives	6
Year 4: 33 credit hours	
Course No.	Credit Hours
PERS 4100 Current Issues	3
REC 4XXX Advanced Recreation Electives	6
Electives	21*

* REC 4630 Supervised Fieldwork Experience is strongly recommended (12 credit hours)

* A maximum of 18 credit hours of electives may be taken from outside the Faculty following Year 1.

Advanced Recreation Elective courses offered change each year. Consult with an Academic Advisor for a list of approved courses that may fulfil this requirement.

SECTION 9: Program Requirements for Students Admitted Prior to 2007

Students admitted between 1999 and 2006 will notice changes to course and program requirements due to the revised curriculum. Students admitted prior to 2007 should contact the Undergraduate Program Administrator or Academic Advisor at the Faculty General Office for information on their specific degree requirements and courses needed for graduation.

SECTION 10: Interfaculty Option in Aging

The Option in Aging is offered by and in the following faculties: Arts, Human Ecology, Nursing, *Kinesiology and Recreation Management*, Social Work and the Clayton H. Riddell Faculty of Environment, Earth, and Resources.

The Option in Aging consists of 18 credit hours of aging-related coursework within a Faculty of Kinesiology and Recreation Management undergraduate degree program.

All Option in Aging students MUST complete the following two courses (6 credit hours):

- KIN 2610/ NURS 2610 Health and Physical Aspects of Aging (alternates between faculties)
- REC 2650/HMEC 2650/SWRK 2650 Social Aspects of Aging (alternates between faculties)

PLUS ONE OF (3 credit hours):

- REC 4250 Leisure and Aging (BRMCD students; not offered every year)
- KIN 4500 Physical Activity and Aging (BKin students)

AND ELECTIVES* (9 credit hours):

- Approved age related courses from Kinesiology and Recreation Management or other faculties. A current list of applicable courses is available at the Faculty General Office.

In order to declare the Option in Aging, students must meet with an Academic Advisor once they have successfully completed the two compulsory courses of KIN 2610/ NURS 2610 and REC 2650/HMEC 2650/SWRK 2650.

Upon graduation, a student who has met all the requirements will have the concentration added to their transcript indicating they have completed the Option in Aging.

Registration Information

Initial Access Times

Students are referred to the chapter "The Registration System: Aurora Student", Section 3.

Students admitted to the B.P.E. program

Year 2 (BPE): 24 to 65 credit hours

Year 3 (BPE): 66+ credit hours
(maximum attempts: 132 credit hours).

Students admitted to the B.Kin. program

Year 2 (KN): 24 to 59 credit hours

Year 3 (KN): 60 to 89 credit hours

Year 4 (KN): 90+ credit hours
(maximum attempts: 158 credit hours).

Students admitted to the B.Kin. program (Athletic Therapy)

Year 2 (KNA): 24 to 62 credit hours

Year 3 (KNA): 63 to 98 credit hours

Year 4 (KNA): 99+ credit hours
(Maximum attempts: 172 credit hours).

Students admitted to the B.R.M.C.D. program

Year 2 (RM): 24 to 59 credit hours

Year 3 (RM): 60 to 89 credit hours

Year 4 (RM): 90+ credit hours
(maximum attempts allowed is 158)

Information for All Students

Degree Requirements and Course Selection

It is the student's responsibility to have read this *Undergraduate Calendar and Registration Guide* carefully, and to know all relevant university and faculty regulations, policies and practices. Completion of degree requirements is the responsibility of the student. Returning students should contact their advisor if they have any questions concerning their curriculum.

Faculty Academic Advisor

If you require further registration information after reading both this *Registration Guide* as well as the current *Undergraduate Calendar*, contact the Kinesiology and Recreation Management staff, 8:30 a.m. - 4:30 p.m. Monday - Friday.

Patti Dickieson, Academic Advisor

103B Frank Kennedy Centre
telephone (204) 474 9748

Linda Eliuk, Advising/Office Assistant

102 Frank Kennedy Centre
telephone (204) 474 9747

Faculty Orientation Sessions:

All new students entering the faculty must attend one of the following faculty Orientation Sessions or they will otherwise be blocked from registration:

Tuesday, July 7, 2009: 6:00 – 8:00 p.m.; 136 Frank Kennedy Building

Thursday, July 9, 2009: 6:00 – 8:00 p.m.; 136 Frank Kennedy Building

At this session students will receive important information regarding their program, registration, and an orientation manual. Upon acceptance into the faculty, students from other provinces will be mailed an orientation manual and should contact an Academic Advisor to discuss registration in advance.

Special Students/Visiting Students

Those registering as Special Students or Visiting Students in the faculty must contact an Academic Advisor in order to register.

Prerequisites and Co-requisites

Several Kinesiology and Recreation Management core courses require successful completion of, or concurrent registration with, another course in order to proceed with adding the course. Please check current and future

catalogue course descriptions of courses in your program to ensure that you achieve what is necessary for enrolment in future terms.

Repeating Courses

When a course is repeated, the *most recent* attempt of that course will be included in the calculation of the degree grade point average; however, *both* grades will appear on a student academic history and official transcript. If a student wishes to repeat a course in which a grade has previously been assigned, they should contact an Academic Advisor for the necessary registration override prior to initial access. Students will be permitted to repeat a failed faculty-required course only once while in the program. Students who fail the same faculty-required course twice will be required to withdraw from the program.

Academic Assessment: Academic Warning, Probation and Suspension

Students whose last assessment was "On Probation" should review the BPE / BKin / BRMCD scholastic standards in the current *Undergraduate Calendar*. Students on Probation will be blocked from registering for the next applicable term until they have contacted an Academic Advisor. A student whose last term assessment was "On Suspension" will be unable to register for one full calendar year. Students who wish to appeal matters concerning their academic status should contact the Faculty of Kinesiology and Recreation Management Dean's Office.

Course Space Reserves

Each degree program requires courses from outside faculties and departments. Specific sections in required courses have spaces reserved for students in the following courses:

Recreation Management and Community Development: There are select reserved sections for STAT 1000.

Kinesiology/AT: There are select reserved sections for BIOL 2410, BIOL 2420, STAT 1000, and ABIZ 1000.

Physical Education: There are select reserved sections for BIOL 1410 and BIOL 1412.

Students with the appropriate program code, major and/or minor will be able to access the reserve section of a required course. These courses can be identified in the Class Schedule as having section codes that appear as R01, R02...during registration initial access.

Minors

Kinesiology and Recreation Management students may choose and declare an external minor offered by the Faculty of Arts, Clayton H. Riddell Faculty of Environment, Earth, and Resources, Faculty of Human Ecology, Faculty of Science, Faculty of Management, Faculty of Music, or School of Art. Completion of a minor is optional. See the applicable Faculty and Department chapters for the requirements of each minor. Minors must be declared with an Academic Advisor at the Faculty General Office.

In order to declare the Management Minor from the I. H. Asper School of Business, Faculty of Kinesiology and Recreation Management students must achieve a 3.0 DGPA (or higher). If a student has successfully completed 18 credit hours of course work from the Faculty of Management, and a 2.0 GPA in the Management course work by the time of graduation, the Minor in Management may also be declared upon completion of the degree program.

Education Teachable Minors

Students who intend to apply for admission to the Faculty of Education after completing their BPE degree should review the information in the current *Undergraduate Calendar* and consult with the Faculty of Education to ensure they are selecting an appropriate teachable minor and courses for their choice of Early, Middle or Senior Years stream.

Recreation Services Membership

If you are registered for courses that require a facility pass, this should be purchased before classes begin. Students report to the Frank Kennedy Customer Service Desk to obtain or renew a facility membership by presenting a current proof of registration. Recreation Services in-

formation and rates can be found at:
<http://umanitoba.ca/faculties/kinrec/bsal/programs>

Field Work Fees

PERS 1500 Foundations of Physical Education and Kinesiology: 47.00
PHED/KIN 2740 Fitness Theory and Practice: 10.00
PHED 2750 Lifestyle Activities: 30.00
REC 3090 Sustainable Nature-Based Tourism: 40.00
KIN 3320 Advanced Human Anatomy: 55.00
REC 4090 Sustainable Nature-Based Planning, Management, and Research: 40.00
KIN/PHED/REC 4710 Outdoor Education: TBA
KIN/PHED/REC 4720 Wilderness Adventures: 50.00

Supervised Fieldwork Experience (KIN/REC 4630)

The supervised fieldwork experience is a professionally supervised experience that provides the student with the opportunity to apply knowledge gained in academic courses, and that provides exposure to a workplace environment in a related field during the latter half of their degree.

Students in the BKin and BRMCD programs are eligible to apply for placements and register for the 12 credit hour course provided they have achieved a minimum Degree Grade Point Average of 2.5 or higher in the third year of their degree. Student placements are scheduled for 13 weeks (working full-time) during the Fall Term (September through December). Information on the application process, deadlines and course details are available at the Faculty General Office.

Canadian Society for Exercise Physiology Certifications (CSEP-CPT & CSEP-CEP)

Upon graduation students may plan to enter the work force as a fitness or exercise professional. The term "personal trainer" is often used to describe the type of work the students might be looking for. Certification is a key component to gaining credibility when entering the work force. There are a number of certifying bodies for personal training in Canada; many of these do not require a post secondary education (either university or college).

Only one recognized Canadian based certification requires a university degree, this is the CSEP-CEP or Certified Exercise Physiologist offered by the Canadian Society for Exercise Physiology (CSEP). CSEP offers two levels of certification, aside from the CSEP-CEP they also offer a Certified Personal Trainer (CSEP-CPT) certification which can be obtained through approximately two years of university course work. The CSEP-CPT is for those individuals who would like to see clients who are apparently healthy and looking for only health related goals (i.e. weight loss, improved general fitness, etc.). KIN 4460 Fitness Appraisal and Lifestyle Counselling is a course designed to prepare students for the CSEP-CPT certification exams, which may be taken at the end of the course.

The CSEP-CEP, Certified Exercise Physiologist designation is designed to take full advantage of a university education as is for individuals would like to work with the full spectrum of clients, from the sedentary individual looking for weight loss to the elite athlete looking for provincial, national and professional accomplishments all the way to the clinical client recovering from a stroke to the worker looking to return from the serious back injury. This broad scope of practice requires a refined educational background and diverse learning opportunities. The Bachelor of Kinesiology program has courses available that can help students prepare for the certification process culminating in a specific preparation course – KIN 4560 Advanced Fitness Appraisal and Lifestyle Counselling. The Fitness Professional 'Area of Emphasis' list of recommended courses is available on the Faculty's web site or at the Faculty General Office for students who wish to pursue CSEP-CEP.

Section 11: Course Descriptions

KIN 2320 Human Anatomy Cr.Hrs.3 (Lab Required) Structure of the skeletal, articular, and muscular systems of the human body. May not be held for credit with PHED 2320 (057.232), REHB 1480 (068.148), REHB 1490 (068.149), or REHB 1500 (068.150). *Prerequisite:* [BIOL 1030 (C)] or [BIOL 1000 and BIOL 1010 (C+)] or equivalent.

KIN 2330 Biomechanics Cr.Hrs.3 (Lab Required) The mechanical and anatomical analysis of human movement. May not hold for credit with PHED 2330 or PHED 2310 (057.231). *Prerequisite:* [KIN 2320 or PHED 2320 (057.232) (C)] or equivalent.

KIN 2610 Health and Physical Aspects of Aging Cr.Hrs.3 An introduction to health, well-being and aging. Emphasis on health as multidimensional including physical, social and mental health. Integration of theory and research in examining selected is-

Courses Available to Students in Other Faculties or Schools

Students from University 1 and other faculties or schools may register for the following courses:

- PERS 1200 Physical Activity, Health and Wellness
- PERS 1300 Introduction to Leisure Travel
- PERS 1400 Concepts of Recreation and Leisure
- PERS 1500 Foundations of Physical Education and Kinesiology
- PERS 2000 Special Topics (Introductory)
- KIN 2610 Health and Physical Aspects of Aging
- REC 2650 Social Aspects of Aging
- REC 4250 Leisure and Aging

The Faculty of Kinesiology and Recreation Management has additional courses available to students registered in faculties or schools that allow external electives toward their degree. For Regular Session, a course list will be made available at the faculty general office in August. Students should check for course prerequisites in the Undergraduate Calendar and the regulations from their own faculty or school with respect to courses that can be applied to their programs. For Summer Session, students from other faculties and schools may access courses that are offered after the initial registration access week. Check the course descriptions in the Class Schedule for the offerings and detailed class information for any restrictions.

Departmental Permission

Students from other faculties who wish to register for courses other than those mentioned above may seek departmental permission by obtaining a form from the Faculty General Office (102 Frank Kennedy Centre) at the end of the initial registration access period of the applicable session.

Recreation Studies Minor (123)

To qualify for and declare the Recreation Studies Minor, students must achieve a grade of "C" or better in the two introductory courses PERS 1300 and PERS 1400. A student must obtain approval and declare the minor with their home faculty for access into advanced REC courses.

Required Core Courses for the minor in Recreation

Studies (12 credit hours):

- PERS 1300 Introduction to Leisure Travel (3 credit hours)
- PERS 1400 Concepts of Recreation and Leisure (3 credit hours)
- REC 2400 Management and Marketing of Leisure Services (3 credit hours)
- REC 3090 Sustainable Nature-Based Tourism (3 credit hours)

Electives (Choose 6 credit hours from the following):

- REC 4090 Sustainable Nature-Based Tourism Planning, Management and Research (3 credit hours)
- REC 4170 Sport Management (3 credit hours)
- REC 4250 Leisure and Aging (3 credit hours)
- REC 4310 Administration of Special Events (3 credit hours)
- REC 4350 Parks and Protected Areas Planning and Management (6 credit hours) (Summer Session Travel Study – Instructor Permission Required)
- PERS 4200 Special Topics (3 credit hours)

****External students may take up to 12 credit hours of these courses without declaring the minor. Students who declare the minor must take the minimum 18 credit hours but will be allowed to take up to 30 hours from the above courses.**

Note: No minor in Physical Education or Kinesiology is offered.

issues related to health and physical aspects of aging. This is an Option in Aging course and may not be held for credit with PHED 2610 (057.261) or NURS 2610 (049.261).

KIN 2740 Fitness Theory and Practice Cr.Hrs.3 Integrates theory and practice necessary to design and lead safe and effective group fitness programs, following performance standards established by the National Fitness Leadership Alliance. Introduces students to Manitoba Curriculum Student Learning Outcomes in "Fitness Management", and prepares them for Manitoba Fitness Council Theory and Group Fitness Specialty exams. May not be held for credit with PHED 2740 or PHED 1640 (057.164) or PHED 2640 (057.264) or PHED 2630 (057.263). **Note:** A field-work fee is attached to the course. Requires a paid facility use pass. *Prerequisite:* [KIN 2320 or PHED 2320 (057.232) (C)].

KIN 2750 Athletic Therapy Skills Cr.Hrs.3 This course will focus upon the theoretical study and practical application of massage therapy (basic and advanced) and sport specific taping, splinting and bracing techniques. The intent of this course is to help prepare students for the profession of athletic therapy. May not be held for credit with PHED 2020 (057.202) or PHED 3180 (057.318). Open to AT students only.

KIN 2910 Athletic Therapy Practicum Cr.Hrs.6 To provide clinical and on-field internship experiences on campus and in the community for prospective Athletic Therapy candidates. May not be held for credit with PHED 2910 (057.291). Evaluated pass-fail. Open to AT students only.

KIN 3090 Principles of Fitness Training Cr.Hrs.3 Theoretical concepts of designing programs employing the principles of overload and adaptation for all components of fitness for all age groups. May not hold with PHED 3090 (057.309). *Prerequisite:* [KIN 3470 or PHED 3470 or PHED 3430 (057.343) (C)].

KIN 3160 Pathology and Sport Medicine Cr.Hrs.3 (Lab Required) Analysis of types of injuries and emergency procedures, and practical experience in first aid, taping and wrapping, massage, and various preventive techniques. May not be held for credit with PHED 3160 or PHED 3060 (057.306). *Prerequisite:* [KIN 2320 or PHED 2320 (057.232) (C)] or equivalent.

KIN 3170 Canadian Sport History Cr.Hrs.3 The course will emphasize the rise of modern sport in Canada and will reflect on the ways in which social change has influenced sport and physical activity. This course provides an overview of issues and topics related to the development of modern sports in Canada. Using the concepts of class, gender, race and ethnic identity as interpretive tools, the course will examine: Physical activities and games of First Nations; sport and recreation in New France and British North America; sports in post-Confederation Canada; and developments in the 20th and 21st centuries. May not be held for credit with PHED 3170 or PHED 3070 (057.307).

KIN 3200 Basic Trauma and Life Support Cr.Hrs.3 Assessment and management of medical emergencies common to sports. Topics will include on-field primary and secondary surveys, airway management, assessment and management of head, spinal, chest, abdominal and extremity trauma. Open only to Athletic Therapy students or with permission of the instructor. May not hold for credit with PHED 3200 (057.320). This course includes a laboratory.

KIN 3300 Functional Assessment and Restoration Cr.Hrs.6 Assessment of acute and chronic musculo-skeletal injuries and rehabilitation techniques to ensure full restoration of function. Open only to Athletic Therapy students. May not hold for credit with PHED 3300 (057.330). *Prerequisite:* [KIN 3320 (C)]. This course includes a laboratory.

KIN 3320 Advanced Human Anatomy Cr.Hrs.3 (Lab Required) This course will concentrate on the structure and function of the human body's various tissues, organs and systems with particular emphasis upon basic histology, function and gross anatomy. This course will help prepare students who are interested in pursuing careers in Athletic Therapy and Kinesiology. **Note:** A fieldwork fee is attached to the course. *Prerequisite:* [KIN 2320 or PHED 2320 (057.232) (C)].

KIN 3340 Philosophy of Physical Activity and Leisure Cr.Hrs.3 Issues in sport, physical education and recreation will be examined from a philosophical perspective. May not be held for credit with REC 3340 or PHED 2340 (057.234). *Prerequisite:* [PERS 2100 (C)].

KIN 3350 Introduction to Research Cr.Hrs.3 Students will become familiar with the basic principles and methods of research in the biological, life and social sciences. Students will have the conceptual foundations and practical skills needed to locate, understand, and evaluate primary research publications. May not hold for credit with REC 2010 (123.201). *Prerequisite:* [STAT 1000 (005.100)].

KIN 3400 Therapeutic Modalities Cr.Hrs.3 (Lab Required) This course will concentrate on the use of therapeutic modalities commonly utilized in the profession of Athletic Therapy. It will introduce the student to various thermal, mechanical, and electromagnetic agents used for therapeutic purposes. May not hold for credit with PT 2720 (167.272). *Prerequisite:* [BIOL 2420 or ZOOL 2540 (022.254)].

KIN 3450 Motor Learning Cr.Hrs.3 Principles underlying human motor performance and motor skill learning. May not hold for credit with PHED 3450 (057.345).

KIN 3470 Exercise Physiology Cr.Hrs.3 (Lab Required) Physiological and functional responses to acute and chronic exercise, focusing on the cardiovascular, respiratory and neuromuscular systems. May not be held for credit with PHED 3470 or PHED 3430 (057.343). *Prerequisite:* [BIOL 2420 or ZOOL 2540 (022.254)].

KIN 3720 Coaching Theory and Practice Cr.Hrs.3 An introduction to the theoretical and practical aspects of coaching at the community and school level, including the examination of topics of philosophical, psychological, ethical and technical significance. The course prepares students for certification from the National Coaching Certification Program (Competition A). May not hold for credit with PHED 3720 or PHED 3050 (057.305). Requires a paid facility use pass.

KIN 3730 Advanced Coaching Theory and Practice Cr.Hrs.3 An analysis of the theoretical and practical aspects of coaching at elite levels, with a particular focus on topics of psychological and technical significance. An emphasis is placed on the sport psychology research literature. The course prepares students for certification from the National Coaching Certification Program (Competition B). May not be held for credit with PHED 3730. Requires a paid facility use pass. *Prerequisites:* [KIN 3720 or PHED 3720 (C)].

KIN 3740 Resistance Training and Conditioning Cr.Hrs.3 Development of theoretical and practical knowledge of strength training and conditioning for programming over the entire healthy population from inactive sedentary individuals to elite athletes. May not hold for credit with PHED 3740 or PHED 2620 (057.262). Requires a paid facility use pass. *Prerequisites:* [KIN 2320 or PHED 2320 (057.232) (C)] and [KIN 3470 or PHED 3470 or PHED 3430 (057.343) (C)].

KIN 3750 Lifestyle Activities Cr.Hrs.3 An introduction to the knowledge, skills, and attitudes that aid in the development of lifelong physically active and healthy lifestyles. May not hold for credit with PHED 3750 or REC 3750. **Note:** A fieldwork fee is attached to the course. Requires a paid facility use pass.

KIN 3830 Wilderness Leadership Cr.Hrs.3 Theoretical aspects of trip planning and administration; leadership development. May not hold for credit with PHED 3830 (057.383) or REC 3830.

KIN 3910 Athletic Therapy Practicum Cr.Hrs.6 To provide clinical and on-field internship experiences on campus and in the community for prospective Athletic Therapy candidates. May not be held for credit with PHED 3910 or (057.391). Evaluated pass-fail. *Prerequisite:* [KIN 2910] and [KIN 2750 (C)] and [KIN 2320 or PHED 2320 (057.232) (C)] and [KIN 3200 (C)].

KIN 4060 Drugs and Ergogenic Aids in Sport Cr.Hrs.3 A multidisciplinary examination of drugs, hormones, dietary supplement and methods used by athletes in attempting to enhance athletic performance. Ethical concerns and mechanisms of action will be examined for steroids, stimulants, masking agents, blood doping, and hormonal and dietary supplements among others. May not hold for credit with PHED 4060 (057.406). BIOL 1412 or BIOL 2420 (or equivalent) are strongly recommended *prerequisites*.

KIN 4160 Advanced Pathology and Sport Medicine Cr.Hrs.3 Basic principles of pathology and clinical manifestations of cardiac, respiratory, and neurologic disorders. Preventative measures, assessments and treatment methods employed in care of patients with these disorders will also be examined. May not be held for credit with PHED 4050 (057.405). *Prerequisite:* [KIN 3160 or PHED 3160 or PHED 3060 (057.306) (C)] and [KIN 3470 or PHED 3470 or PHED 3430 (057.343) (C)] and [KIN 3320 (C)]. *Pending Senate Approval*

KIN 4300 Health and Wellness Practices in Athletic Therapy Cr.Hrs.3 Overview of health and wellness practices in Athletic Therapy with the focus on issues relevant to the development and management of an Athletic Therapy business/clinical practice. May not hold for credit with PHED 4300 (057.430). *Prerequisite:* [PERS 2100 (C)].

KIN 4330 Advanced Biomechanics Cr.Hrs.3 A biomechanical analysis of the skills and techniques of the major sports, games, and exercises. May not be held for credit with PHED 4360 (057.436). *Prerequisite:* [KIN 2330 or PHED 2330 or PHED 2310 (057.231) (C)]. This course includes a laboratory.

KIN 4400 Therapeutic Exercise Rehabilitation Cr.Hrs.3 This course will concentrate on therapeutic exercise for the upper and lower extremities, torso and spine. Content will focus upon using exercise and basic therapy techniques to restore function by addressing deficiencies in range of motion, flexibility, strength, power, endurance, proprioception, coordination, agility and speed. *Prerequisites:* [KIN 3320 (C)] and [KIN 3740 or PHED 3740 (C)].

KIN 4460 Fitness Appraisal and Lifestyle Counselling Cr.Hrs.3 Theoretical knowledge and practical training related to physical activity, fitness and lifestyle appraisal and counselling. **Note:** Prepares students to certify as "Certified Personal Trainer (CPT) (Canadian Society for Exercise Physiology)." B.Kin. students who wish to prepare for the Certified Exercise Physiologist (CEP) (Canadian Society for Exercise Physiology) Certification should consult the Undergraduate Program Administrator for information. May not be held for credit with PHED 4460 (057.446). *Prerequisite:* [KIN 3470 or PHED 3470 or PHED 3430 (057.343) (C)]. *Pre or Corequisites:* [PERS 1200 or PHED 1200 (057.120) (C)] and [KIN 3090 or PHED 3090 (057.309) (C)].

KIN 4470 Advanced Exercise Physiology Cr.Hrs.3 An advanced examination of the physiological factors that affect human performance during physical activity. This will include exposure to related research and the development of techniques for its critical assessment. May not hold for credit with PHED 4410 (057.441). *Prerequisites:* [KIN 3470 or PHED 3470 or PHED 3430 (057.343) (C)].

KIN 4500 Physical Activity and Aging Cr.Hrs.3 The study of the aging processes and the effects of exercise and lifestyle factors on the health and fitness of the aging adult. This is an Option in Aging course. May not be held for credit with PHED 4500 (057.450). *Prerequisite:* [KIN 3090 or PHED 3090 (057.309) (C)] or permission of the instructor.

KIN 4560 Advanced Fitness Appraisal and Lifestyle Counselling Cr.Hrs.3 Advanced theoretical knowledge and experiential learning related to physical activity, fitness and lifestyle assessment, counselling and exercise prescription for apparently healthy and clinical populations. Prepares students for Canadian Society of Exercise Physiology "Certified Exercise Physiologist" (CSEP-CEP) exams. *Prerequisites:* [KIN 4460 or PHED 4460 (057.446) (C)] and [KIN 3740 or PHED 3740 or PHED 2620 (057.262) (C)] and [KIN 3090 or PHED 3090 (057.309) (C)]. This course includes a laboratory.

KIN 4630 Supervised Fieldwork Experience Cr.Hrs.12 The fieldwork practicum is a professionally supervised field experience that provides an opportunity to apply knowledge gained in academic courses and exposure to new concepts of professional practice in the fields of physical activity, health and wellness or leisure. Students are placed for a 13-week period of full time work within a suitable agency. May not be held for credit with PHED 4620 (057.462) or REC 3080 (123.308) or REC 4630. *Prerequisite:* Successful completion of 90 credit hours of course work in the BKin degree program and a minimum DGPA of 2.5.

KIN 4710 Outdoor Education Cr.Hrs.3 To introduce the students to the basic outdoor skills associated with summer/winter backpacking/cross-country skiing/snow shoeing trips. Students will then learn to use a variety of outdoor settings for educational opportunities on a variety of topics and disciplines. May not be held for credit with PHED 4710 or REC 4710. A fieldwork fee is attached to this course.

KIN 4720 Wilderness Adventures Cr.Hrs.3 Students will learn how to plan and participate in one or more wilderness adventure activities such as canoe tripping, sailing, kayaking, climbing, winter camping, etc. Students will also concentrate on conducting these activities safely with clients. It is hoped that this experience will positively affect future life sport and recreation activities. May not be held for credit with PHED

4720 or REC 4720. A field work fee is attached to this course.

KIN 4910 Athletic Therapy Practicum Cr.Hrs.6 To provide clinical and on-field internship experiences on campus and in the community for prospective Athletic Therapy candidates. May not be held for credit with PHED 4910 (057.491). Prerequisite: [KIN 3910] and [KIN 3300 (C)] and [KIN 3400 (C)].

PERS 1200 Physical Activity, Health and Wellness Cr.Hrs.3 An examination of the importance of physical activity for health and wellness, theories and determinants of health promoting behaviours, and strategies for promoting health behaviours. Examination of the benefits of physical activity for health and wellness, the present and recommended levels of physical activity, the factors influencing participation in physical activity, and individual, organizational and national interventions for increasing physical activity. May not be held for credit with PHED 1200 (057.120).

PERS 1300 Introduction to Leisure Travel Cr.Hrs.3 To provide an introduction to tourist behaviour and the tourism system through an overview of: why people travel; the components of tourism; the scope and organization of tourism in Canada; and the interrelationship between recreation and tourism. May not be held for credit with REC 1200 (123.120).

PERS 1400 Concepts of Recreation and Leisure Cr.Hrs.3 The nature and scope of recreation and leisure, the past influences and implications for the future. An overview of the types and roles of various components of the leisure service delivery system. May not be held for credit with REC 1400 (123.140).

PERS 1500 Foundations of Physical Education and Kinesiology Cr.Hrs.3 An introduction to physical education and kinesiology as a profession and a discipline, including an overview of sub-disciplines, resources, and careers; a personal physical assessment; and principles for achieving physical fitness. **Note:** A fieldwork fee is attached to the course. May not be held for credit with PHED 1500 (057.150).

PERS 2000 Special Topics (Introductory) Cr.Hrs.3 An introductory examination of selected topics in the fields of kinesiology, physical education and recreation. Topics will vary depending on faculty expertise and student need.

PERS 2100 Introduction to Professional Practice Cr.Hrs.3 (Seminar/Lab Required) An introduction to professional values and behaviours in the broad fields related to kinesiology, physical education, and recreation management including accountability, commitment, ethical decision making, interpersonal communication, respect for diversity, and service. Prerequisites: [PERS 1200 or PHED 1200 (057.120) (C)] or [PERS 1500 or PHED 1500 (057.150) (C)] and [PERS 1400 or REC 1400 (123.140) (C)].

PERS 2200 Program Planning Principles Cr.Hrs.3 While contexts in practice may vary, program planning is an essential competency for all professionals in recreation, kinesiology, and physical education. To ensure the requisite skill set is acquired, the emphasis in this course will be on principles and processes in effective program planning, implementation, and evaluation. Prerequisites: [PERS 1200 or PHED 1200 (057.120) (C)] or [PERS 1500 or PHED 1500 (057.150) (C)] and [PERS 1400 or REC 1400 (123.140) (C)].

PERS 3100 Inclusive Physical Activity and Leisure Cr.Hrs.3 This course introduces the foundations of inclusive physical activity and leisure and the application of this knowledge to individuals from diverse backgrounds and experiences with a focus on people with various forms of impairment. May not hold for credit with PHED 3390 (057.339) or REC 3060 (123.306). Prerequisite: [PERS 2100 (C)].

PERS 3460 Sociology of Physical Activity and Leisure Cr.Hrs.3 This course examines sociological factors that influence and shape participation in the areas of physical activity, sport and leisure. The exploration of students' own experiences in this field is emphasized, using an analytical model examining experiences as they arise out of the interplay of social structure and individual agency. May not hold for credit with PHED 3460 (057.346).

PERS 4100 Current Issues Cr.Hrs.3 A capstone course examining current issues and strategies for addressing themes in the broad fields related to kinesiology, recreation management and physical education. Prerequisite: Successful completion of 90 credit hours of course work in the BKin or BRMCD degree programs.

PERS 4200 Special Topics Cr.Hrs.3 A theoretical and practical examination of selected topics in the fields of recreation, leisure and kinesiology. Topics will vary depending on faculty expertise and student need. Prerequisites: [PERS 1400 or REC 1400 (123.140)] or [PERS 1500 or PHED 1500 (057.150)] or [PERS 1200 or PHED 1200 (057.120)] or departmental approval.

PERS 4600 Directed Studies Cr.Hrs.3 Completion of an independent study or fieldwork experience, including a major written submission, approved by the department and under the direction of a faculty member.

PHED 2320 Human Anatomy Cr.Hrs.3 (Formerly 057.232) (Lab Required) Structure of the skeletal, articular, and muscular systems of the human body. May not be held for credit with KIN 2320, REHB 1480 (068.148), REHB 1490 (068.149), or REHB 1500 (068.150). Prerequisites: [BIOL 1412 or ZOOL 1330 (022.133) (C)] or [BIOL 1030 (C)] or equivalent.

PHED 2330 Biomechanics Cr.Hrs.3 (Lab Required) The mechanical and anatomical analysis of human movement. May not hold for credit with KIN 2330 or PHED 2310 (057.231). Prerequisite: [PHED 2320 (057.232) or KIN 2320 (C)] or equivalent.

PHED 2550 Growth and Motor Development Cr.Hrs.3 (Formerly 057.255) Detailed study of physical growth and motor development from conception to adolescence, with implications for physical activity programs.

PHED 2710 Human Movement Principles Cr.Hrs.3 An introduction to the principles of inclusive physical education through the integration of theory, practice and guided reflection pertaining to the development of fundamental movement skills and strate-

gies applied to educational games, gymnastics, and dance. May not hold for credit with the former PHED 1420 (057.142). Requires a paid facility use pass.

PHED 2720 Developmental Games and Activities Cr.Hrs.3 Practical and theoretical aspects of designing educational game experiences applicable to early through senior years physical education, to include the design, implementation, and assessment of safe and inclusive physical activities as well as planning, organizational and teaching strategies. Introduces students to Manitoba Curriculum Student Learning Outcomes in "Movement, Safety, Personal and Social Management." May not hold for credit with PHED 2650 (057.265). Requires a paid facility use pass. Prerequisite: [PHED 2710 (C)].

PHED 2730 Gymnastics, Dance and Rhythmic Activities Cr.Hrs.3 Practical and theoretical aspects of designing gymnastics, dance and rhythmic activity experiences applicable to early through senior years physical education, to include the design, implementation, and assessment of safe and inclusive physical activities as well as planning, organizational and teaching strategies. Incorporates Manitoba Curriculum Student Learning Outcomes in "Movement" and "Safety". May not hold for credit with PHED 3410 (057.341) or PHED 3140 (057.314). Requires a paid facility use pass. Prerequisite: [PHED 2710 (C)].

PHED 2740 Fitness Theory and Practice Cr.Hrs.3 Integrates theory and practice necessary to design and lead safe and effective group fitness programs, following performance standards established by the National Fitness Leadership Alliance. Introduces students to Manitoba Curriculum Student Learning Outcomes in "Fitness Management", and prepares them for Manitoba Fitness Council Theory and Group Fitness Specialty exams. May not be held for credit with PHED 1640 (057.164) or PHED 2640 (057.264) or PHED 2630 (057.263) or KIN 2740. **Note:** A fieldwork fee is attached to the course. Requires a paid facility use pass. Prerequisites: [PHED 2320 (057.232) or KIN 2320 (C)].

PHED 3090 Principles of Fitness Training Cr.Hrs.3 (Formerly 057.309) Theoretical concepts of designing programs employing the principles of overload and adaptation for all components of fitness for all age groups. May not hold for credit with KIN 3090. Prerequisite: [PHED 3470 or KIN 3470 or PHED 3430 (057.343) (C)].

PHED 3160 Pathology and Sport Medicine Cr.Hrs.3 (Lab Required) Analysis of types of injuries and emergency procedures, and practical experience in first aid, taping and wrapping, massage, and various preventive techniques. May not be held for credit with KIN 3160 or PHED 3060 (057.306). Prerequisite: [PHED 2320 (057.232) or KIN 2320 (C)].

PHED 3170 Canadian Sport History Cr.Hrs.3 The course will emphasize the rise of modern sport in Canada and will reflect on the ways in which social change has influenced sport and physical activity. This course provides an overview of issues and topics related to the development of modern sports in Canada. Using the concepts of class, gender, race and ethnic identity as interpretive tools, the course will examine: Physical activities and games of First Nations; sport and recreation in New France and British North America; sports in post-Confederation Canada; and developments in the 20th and 21st centuries. May not be held for credit with KIN 3170 or PHED 3070 (057.307).

PHED 3360 Culturally Relevant Physical Education and Health Cr.Hrs.3 An investigation of physical health and education from a critical theorist perspective, that is, one that investigates the different relations of power and privilege (based on ability, gender, race, socio-economic class, sexuality...) experienced within education and physical activity contexts. The physical education experiences of young people from diverse backgrounds will be analyzed from a holistic perspective. May not hold for credit with PHED 3100 (057.310). Prerequisite: [PHED 2720 or PHED 2650 (057.265) (C)].

PHED 3450 Motor Learning Cr.Hrs.3 (Formerly 057.345) Psychological components of human movement; human motor behaviour and the acquisition of motor skills. May not be held for credit with KIN 3450.

PHED 3470 Exercise Physiology Cr.Hrs.3 (Lab Required) Physiological and functional responses to acute and chronic exercise, focusing on the cardiovascular, respiratory and neuromuscular systems. May not be held for credit with KIN 3470 or PHED 3430 (057.343). Prerequisite: [BIOL 1412 or ZOOL 1330 (022.133) (C)].

PHED 3710 Active Health and Human Potential Cr.Hrs.3 An examination of lifestyle behaviours which can enable or constrain human wellness and potential. By integrating theory with practice, current wellness models and motivational theories will guide strategies for wellness planning personal and professional practice. Introduces students to Manitoba Curriculum Student Learning Outcomes in "Personal and Social Management", and "Healthy Lifestyle Practices", as well as curricular connections for the teaching of "active health". May not be held for credit with PHED 3440 (057.344).

PHED 3720 Coaching Theory and Practice Cr.Hrs.3 An introduction to the theoretical and practical aspects of coaching at the community and school level, including the examination of topics of philosophical, psychological, ethical and technical significance. The course prepares students for certification from the National Coaching Certification Program (Competition A). May not hold for credit with KIN 3720 or PHED 3050 (057.305). Requires a paid facility use pass.

PHED 3730 Advanced Coaching Theory and Practice Cr.Hrs.3 An analysis of the theoretical and practical aspects of coaching at elite levels, with a particular focus on topics of psychological and technical significance. An emphasis is placed on the sport psychology research literature. The course prepares students for certification from the National Coaching Certification Program (Competition B). May not be held for credit with KIN 3730. Requires a paid facility use pass. Prerequisite: [PHED 3720 or KIN 3720 (C)].

PHED 3740 Resistance Training and Conditioning Cr.Hrs.3 Development of theoretical and practical knowledge of strength training and conditioning for programming over the entire healthy population from inactive sedentary individuals to elite

athletes. May not hold for credit with KIN 3740 or PHED 2620 (057.262). Requires a paid facility use pass. *Prerequisites:* [PHED 2320 (057.232) or KIN 2320 (C)] and [PHED 3470 or KIN 3470 or PHED 3430 (057.343) (C)].

PHED 3750 Lifestyle Activities Cr.Hrs.3 An introduction to the knowledge, skills, and attitudes that aid in the development of lifelong physically active and healthy lifestyles. May not hold for credit with KIN 3750 or REC 3750. **Note:** A fieldwork fee is attached to the course. Requires a paid facility use pass.

PHED 3760 Diverse Populations Mentorship Cr.Hrs.3 Practical and theoretical aspects of designing physical activity experiences for students from diverse populations, including on site leadership opportunities in a multicultural school context. Evaluated pass-fail.

PHED 3770 Aboriginal Games and Activities Cr.Hrs.3 This course will provide students with a unique opportunity to explore, in theory and practice, traditional and contemporary world views related to historical, cultural, and environmental approaches to Aboriginal games and activities. Requires a paid facility use pass. Evaluated pass-fail.

PHED 3830 Wilderness Leadership Cr.Hrs.3 Theoretical aspects of trip planning and administration; leadership development.

PHED 4710 Outdoor Education Cr.Hrs.3 To introduce the students to the basic outdoor skills associated with summer/winter backpacking/cross-country skiing/snow shoeing trips. Students will then learn to use a variety of outdoor settings for educational opportunities on a variety of topics and disciplines. May not be held for credit with KIN 4710 or REC 4710. A fieldwork fee is attached to this course.

PHED 4720 Wilderness Adventures Cr.Hrs.3 Students will learn how to plan and participate in one or more wilderness adventure activities such as canoe tripping, sailing, kayaking, climbing, winter camping, etc. Students will also concentrate on conducting these activities safely with clients. It is hoped that this experience will positively affect future life sport and recreation activities. May not be held for credit with KIN 4720 or REC 4720. A field work fee is attached to this course.

REC 2400 Management and Marketing of Leisure Services Cr.Hrs.3 Basic management, and marketing principles and practices and their applicability to delivery of leisure services. Topics include financial resources, budgeting, people-centred management, and marketing. *Prerequisites:* [PERS 1400 or REC 1400 (123.140) (C)].

REC 2650 Social Aspects of Aging Cr.Hrs.3 (Formerly 123.265) An examination of the social aspects of aging. Emphasis on understanding the aging process as a life transition involving adaptation through interaction with social and physical environments. This is an Option in Aging course and may not be held for credit with IDES 2650 (051.265) or HMEC 2650 (028.265) or SWRK 2650 (047.265).

REC 3090 Sustainable Nature-Based Tourism Cr.Hrs.3 (Formerly 123.309) Analysis of the growth and development of sustainable nature-based tourism as a global and regional phenomenon. Particular emphasis will be placed upon the fundamental principles of sustainability, natural resource and visitor management for recreation, and the role of outdoor recreation and education in Sustainable Tourism Planning and Management. May not be held with 123.330. **Note:** A fieldwork fee is attached to the course. *Prerequisite:* [PERS 1300 or REC 1200 (123.120) (C)] and [PERS 1400 or REC 1400 (123.140) (C)].

REC 3200 Advanced Program Planning and Leadership Cr.Hrs.3 Consideration and application of program planning principles as they relate to specialized contexts and diverse populations. Foundations of leadership and interpersonal communication for effective and successful program implementation. Also requires a valid recreation facility use pass. May not hold for credit with REC 2540 (123.254) or REC 3870 (123.387). *Prerequisite:* [PERS 2200 (C)].

REC 3340 Philosophy of Physical Activity and Leisure Cr.Hrs.3 Issues in sport, physical education and recreation will be examined from a philosophical perspective. May not be held for credit with KIN 3340 or PHED 2340 (057.234). *Prerequisite:* [PERS 2100 (C)].

REC 3350 Introduction to Research Cr.Hrs.3 Students will become familiar with the basic principles and methods of research in the biological, life and social sciences. Students will have the conceptual foundations and practical skills needed to locate, understand, and evaluate primary research publications. May not hold for credit with REC 2010 (123.201). *Prerequisite:* [STAT 1000 (005.100)].

REC 3750 Lifestyle Activities Cr.Hrs.3 An introduction to the knowledge, skills, and attitudes that aid in the development of lifelong physically active and healthy lifestyles. May not hold for credit with KIN 3750 and or PHED 3750. Requires a paid facility use pass. **Note:** A fieldwork fee is attached to the course.

REC 3830 Wilderness Leadership Cr.Hrs.3 Theoretical aspects of trip planning and administration; leadership development. May not hold for credit with KIN 3830 or PHED 3830 (057.383).

REC 3850 The Planning of Recreation Areas and Facilities Cr.Hrs.3 (Formerly 123.385) The process used to plan both recreational open spaces and facilities. Special consideration is given to the role of the recreation professional in relationship to other planners. *Prerequisite:* [PERS 1400 or REC 1400 (123.140) (C)].

REC 4060 Person Centred Leisure Education Cr.Hrs.3 (Formerly 123.406) A detailed examination of person centred leisure education with an emphasis on both theoretical and practice models and their application to the recreation service delivery system. *Prerequisite:* [PERS 3100 or REC 3060 (123.306) (C)].

REC 4070 Community Development and the Leisure Service Delivery System Cr.Hrs.3 (Formerly 123.407) The nature of community and the unique role that leisure service organizations play in the complex process of community development. May not be held for credit with 123.404. *Prerequisites:* [PERS 2200 or REC 2530 (123.253) (C)] and [REC 2400 (C)].

REC 4090 Sustainable Nature-Based Tourism Planning, Management and Research

Cr.Hrs.3 (Formerly 123.409) Building upon the changes to REC 3090 this course examines planning and management frameworks as they relate to sustainable nature-based tourism. The course examines the expansion of tourism as a global phenomenon and considers sustainable nature-based tourism as a community development process. In addition the role and importance of research in informing the tourism planning and management decision making processes is examined. May not be held for credit with 123.430. **Note:** A fieldwork fee is attached to the course. *Prerequisites:* [REC 3090 (123.309) or (123.330) (C)].

REC 4120 Recreational Travel and Tourism Cr.Hrs.3 (Formerly 123.412) The purpose of this course is to provide students with a better understanding of the travel and tourism industry through an examination of its history, service systems and issues. *Prerequisite:* [PERS 1300 or REC 1200 (123.120) (C)].

REC 4140 Marketing Recreation and Park Services Cr.Hrs.3 (Formerly 123.414) A review of the general principles of marketing and an introduction to strategies for their implementation in public sector and not-for-profit recreation agency programs and services. *Prerequisites:* [REC 2400 or REC 3860 (123.386) (C)] or [MKT 2210 (118.221)] and [PERS 1400 or REC 1400 (123.140) (C)]. *Pending Senate Approval*

REC 4150 Clinical Aspects of Therapeutic Recreation Cr.Hrs.3 (Formerly 123.415) An examination of the current principles of therapeutic recreation in relation to their practical application to individuals in clinical settings such as nursing homes, hospitals and other long-term care facilities. *Prerequisite:* [PERS 3100 or REC 3060 (123.306) (C)].

REC 4170 Sport Management Cr.Hrs.3 (Formerly 123.417) The purpose of this course is to assist students in gaining an in-depth appreciation of national and provincial sport organizations. Topics include structure, policies, programs, marketing, funding and communications as they relate to Fitness and Amateur Sport Canada and governance in the Canadian Sport System. *Prerequisite:* [PERS 1500 or PHED 1500 (057.150) (C)] and [REC 2400 (C)].

REC 4180 Social and Psychological Aspects of Leisure Cr.Hrs.3 (Formerly 123.418) An examination of leisure behaviour and experience of individuals in social and situational contexts, focusing on the role of leisure in the social psychological adjustment of the individual and implications for managing and delivering leisure services. *Prerequisite:* [PERS 1400 or REC 1400 (123.140) (C)].

REC 4250 Leisure and Aging Cr.Hrs.3 The nature of the aging process and its impact on leisure behaviour. The factors influencing leisure among older adults, policy issues, and program and service methods and implications will be examined. This is an Option in Aging course. May not be held for credit with REC 4130 (123.413). *Prerequisite:* [PERS 1400 or REC 1400 (123.140) (C)] and [REC/SWRK/HMEC 2650 (C)] or [PERS 3100 or REC 3060 (123.306) (C)]. *Pending Senate Approval*

REC 4350 Parks and Protected Areas Planning and Management: Field Studies Cr.Hrs.6 The course is taught in two segments, an on-campus component and field study component taking place in Banff National Park. The on-campus component examines the historical development of the concept of parks and protected areas, the role of interpretation, management and research in the parks and emerging issues in the management of parks and protected areas. In addition, during the on-campus component planning for the field will take place. The field segment will focus on a wide variety of management issues with particular attention to Banff National Park. Emerging issues and trends will be examined and past management responses evaluated. There will be opportunities for students to investigate specific management issues of interest to them and to participate in current research being conducted in the park. *Prerequisite:* [Written permission of the instructor required]. Offered with GEOG 4350.

REC 4400 The Administration of Special Events Cr.Hrs.3 Students will examine advanced management and administrative principles and practices applicable to the delivery and management of special events (including but not limited to festivals, sporting events, community and civic events and fundraising events). May not hold for credit with REC 4310 (123.431). *Prerequisite:* [REC 2400 or REC 3860 (123.386) (C)]. *Pending Senate Approval*

REC 4630 Supervised Fieldwork Experience Cr.Hrs.12 The fieldwork practicum is a professionally supervised field experience that provides an opportunity to apply knowledge gained in academic courses and exposure to new concepts of professional practice in the fields of physical activity, health and wellness or leisure. Students are placed for a 13-week period of full time work within a suitable agency. May not be held for credit with REC 3080 (123.308) or PHED 4620 (057.462) or KIN 4630. *Prerequisite:* Successful completion of 90 credit hours of course work in the BRMCD degree program and a minimum DGPA of 2.5.

REC 4710 Outdoor Education Cr.Hrs.3 To introduce the students to the basic outdoor skills associated with summer/winter backpacking/cross-country skiing/snow shoeing trips. Students will then learn to use a variety of outdoor settings for educational opportunities on a variety of topics and disciplines. May not be held for credit with PHED 4710 or KIN 4710. **Note:** A fieldwork fee is attached to this course.

REC 4720 Wilderness Adventures Cr.Hrs.3 Students will learn how to plan and participate in one or more wilderness adventure activities such as canoe tripping, sailing, kayaking, climbing, winter camping, etc. Students will also concentrate on conducting these activities safely with clients. It is hoped that this experience will positively affect future life sport and recreation activities. May not be held for credit with KIN 4720 or PHED 4720. **Note:** A field work fee is attached to this course.

REC 4850 Advanced Planning of Recreation Areas and Facilities Cr.Hrs.3 Advanced planning considerations with opportunity for application of planning process theories. May not be held for credit with REC 4340 (123.434). *Prerequisite:* [REC 3850 (123.385) (C)].

Professor Emeritus

Harvey, D.A.C., Q.C., B.A. (Toronto), LL.B., LL.M. (Osgoode).

Senior Scholars

Braid, E.A., C.M., Q.C., LL.B. (Manitoba), LL.M. (London).

Professors

Axworthy, C., Q.C., B.A. (Hons.) (City of London College-now London-Metropolitan), LL.M. (McGill); **Busby, K., LL.B.** (Manitoba), LL.M. (Columbia); **Deutscher, D.B., B.A., LL.B.** (Manitoba), LL.M. (Harvard); **Esau, A.J., B.A., LL.B.** (Alberta), LL.M. (Harvard); **Guth, D.J., B.A., M.A.** (Creighton), B.A. Status (Clare College, Cambridge), Ph.D. (Pittsburgh); **Irvine, J.C., B.A., M.A., B.C.L.** (Oxford); **McGillivray, A., B.A., LL.B.** (Saskatchewan), LL.M. (Toronto); **Osborne, P.H., LL.B.** (Hons.) (Auckland), LL.M. (McGill);

Penner, R., C.M., Q.C., B.A., LL.B. (Manitoba); **Schwartz, B.P., LL.B.** (Queen's), LL.M., J.S.D. (Yale); **Secter, H.L., B.Comm., LL.B.** (Manitoba), LL.M. (Harvard), LL.D. (Hon.) (Winnipeg).

Associate Professors

Gallant, M.M., B.A. (Prince Edward Island), LL.B. (New Brunswick), LL.M. (British Columbia), Ph.D. (London); **MacPherson, D.L., LL.B.** (Dalhousie), LL.M. (Cambridge); **Parkes, D.L., B.A.** (Trinity Western), LL.B. (British Columbia), LL.M. (Columbia); **Turnbull, L.A., B.A.** (Hons.) (Queen's), LL.B. (Ottawa), LL.M., J.S.D. (Columbia).

Assistant Professors

Heckman, G.P., B.A.Sc. (Laval), M.A.Sc. (Waterloo), LL.B. (Toronto), LL.M. (Queen's), Ph.D. (Osgoode); **Oshionebo, E.A., LL.B.** (Ife, Nigeria), LL.M. (Lagos, Nigeria), LL.M. (Alberta), Ph.D. (Osgoode) 2007; **Schulz, J. L., B.A.** (Gold Medal) and LL.B. (Manitoba), M. Phil. (Cambridge), S.J.D. (Toronto); **Shariff, M.J., B.Sc.** (Winnipeg), LL.B. (Manitoba), LL.M. (Dublin).

Instructor II

Fainstein, L., B.A., LL.B. (Manitoba); **Hilder, V., B.A.** (Winnipeg); LL.B. (Manitoba).

Director of Academic Support Program

Whitecloud, W., B.A., LL.B. (Queens).

Director of Desautels Centre for Private Enterprise & the Law

Pozios, J., B.A. (Hons.) (Western Ontario); LL.B. (Manitoba); M.B.A. (Toronto).

SECTION 2: The Profession and the Faculty of Law

The Faculty of Law is a professional faculty within the university. As the only faculty of law in Manitoba, it is the principal "gatekeeper" to professional practise in this province. However, it is more than merely a trade school for future practitioners. The Faculty of Law is also a university faculty and, as such, it views the study of principles, concepts and the relationship of law with other aspects of our social system to be as integral to a legal education as are the practical training of techniques and mechanics. Accordingly, our program emphasizes a balance between doctrinal, clinical and perspective courses, each of which contributes to an understanding of the law, its application, and its proper role within a civil society.

The University of Manitoba first became involved in legal education in 1884 when it established a three-year program of studies leading to an LL.B. degree. It was a reading program which articulated students could follow concurrently with the course prescribed by the Law Society of Manitoba. In 1914, the university and the Law Society entered into an agreement to jointly sponsor the Manitoba Law School, which offered a three-year program combining lectures with apprenticeship. Upon completion of the program, a successful student received both an LL.B. degree and a call to the Bar. This arrangement lasted until 1966 when the Law School became the Faculty of Law of the University of Manitoba.

The Faculty of Law is located in Robson Hall, which contains the E.K. Williams Law Library, the Moot Court, state of the art computer classrooms, and a remarkable collection of art. The Law library is a resource not only to law students and faculty but also the legal profession of Manitoba, and the general public.

There are truly countless Manitobans who have contributed to legal education in Manitoba over the years. Two names stand out, namely H.A. Robson and E.K. Williams, who were the only two chairs of the Board of Trustees of the Manitoba Law School. Their contribution has been commemorated in the names of the faculty's building and library.

2.1 The Study of Law

Legal education in Canada is divided into two phases: the academic study of law at one of the university law schools and practical training under the auspices of a provincial law society for those who wish to be admitted to practise and called to a Bar. As there is a reciprocal recognition of university law degrees between the common law provinces (all provinces except Quebec), the academic study can be taken in any one of these provinces.

A sound education in law provides a good foundation for a great variety of careers. In the past most law graduates have entered the private practise of law to concentrate on various types of legal work: real estate transactions, commercial contracts, company law, family law, taxation, etc. Contrary to popular belief only a few lawyers concentrate on court work and even fewer specialize in criminal cases. While the tendency to specialize in the practise of law is becoming more prevalent, most lawyers continue to be general practitioners prepared to perform most types of legal work according to the needs of their clients.

Besides the private practice of law, law graduates can join the legal departments which many corporations find it expedient to maintain; others enter the employ of various government departments to serve in a variety of capacities. A few pursue nonlegal vocations in, business, journalism, social work, and law enforcement. At the University of Manitoba consideration is given to the fact that while most students take law to become practising lawyers, some are taking law as an additional discipline to enhance their opportunities in fields other than the practise of law; thus, while the emphasis is on the academic study of substantive law, the study is carried on in a practical context.

2.2 Clinical Learning

The curriculum invites critical assessment of the role of law in society as well as the development of skills relevant to the practice of law. In addition to lectures and seminars, students are given an opportunity to develop, under supervision, some of the research, writing, and forensic skills which will prove useful in the practise of law. In first year, students are acquainted with the various resource materials available in a law library, and they follow a program designed to develop legal research and writing techniques. In second and third years, students participate in moot courts, fictitious trials and appeals, which provide practise in research, examination of witnesses, and courtroom argument. This advocacy training is just one element of the program at Robson Hall that contributes to the excellent reputation of our graduates. In third year students may choose from a range of Clinical Courses or may participate in national competitive moot competitions.

Throughout their legal studies students may serve actual legal clients through volunteer work with the University Law Centre or Pro Bono Students. The University of Manitoba Law Centre commenced operation in 1970 with the two-fold purpose of furthering clinical education by exposing law students to actual legal problems and aiding persons who are unable financially to hire a lawyer or receive legal service through the existing Legal Aid Service Society of Manitoba. The centre, as presently constituted, is the official adjunct of the Legal Aid Service Society of Manitoba and supervised by practising lawyers and members of the Faculty of Law. Second and third year Law students can work at the centre. Pro Bono Students Canada at Robson Hall is part of a national network that facilitates placing law students with not-for-profit organizations in their community to provide free or "pro bono" legal information. Each project is supervised by a practicing lawyer and offers the opportunity for students to apply the skills they learn in classes while at the same time providing a valuable service to traditionally underrepresented groups and not for profit organizations. Students can participate in "pro bono" projects in any year of their program.

2.3 Research and Publications

Research and scholarly writing are integral elements of the mission of the University and the law school. Professors research, write and consult with the larger legal community in their particular area of expertise and students have similar opportunities. Each year students must take a perspective course which provides an opportunity to explore a particular area of law in depth. Perspective courses have limited enrolment and students must research and write a major paper.

Students may also devise a self directed research project under the supervision of an individual faculty member. Other opportunities to participate in scholarly work exist. The Legal Research Institute, created in 1968, coordinates legal research projects initiated within the Faculty of Law and

works also on specific problems referred to it by public and private parties. Under the auspices of the Institute students may work as research assistants to professors during the summer or term. Students also have the opportunity to work as editors of Robson Hall's scholarly publications, including the *Manitoba Law Journal*, the *Asper Review of International Business and Trade Law* and *Underneath the Golden Boy*. It is a great honour to be selected for the editorial boards of these publications and provides academically oriented students with excellent hands-on experience working with renowned scholars.

2.4 Faculty of Law Centres of Excellence

Robson Hall is home to two named research chairs. The Marcel Desautels Chair in Private Enterprise and the Law has a mandate to conduct research and provide education on issues of specific interest to the privately held or family owned businesses that are the engine of the Canadian economy. Whereas many business oriented programs in Law schools are directed towards the needs of larger, publicly traded national or transnational corporations, the Desautel Centre's focus is on the very different needs of smaller more closely held businesses. The Faculty of Law also operates the Kerry Vickar Small Business Law Clinic which is headed by a director who is assisted by volunteer mentors from the practising bar. The purpose of the clinic is to provide experience to second and third year Law students in assessing and analyzing the legal needs of small business owners and in preparing legal information useful to them. This gives the students hands-on experience in this important area of law practice. It also provides "clients" with background material informing them as to their legal needs which helps them in their dealings with their own lawyers. In 1999, the Faculty of Law established the Asper Chair of International Business and Trade Law. The Asper Chair sponsors a variety of research including bi-annual academic conferences in international business and trade law. An internship program allows up to four students a year to work with the Asper Chair and creates opportunities for students to advance their education, while gaining skills necessary to pursue careers in law or business with an international focus. Additionally, students involved in the Asper program have the opportunity to participate in international commercial dispute resolution competitions.

2.5 Student Organizations

All Law students are members of the Manitoba Law Students' Association (MLSA), the student government. Student participation in Faculty governance takes place through the representation of elected members of the MLSA. The association also organizes many extracurricular activities. All Aboriginal Law students and other interested Law students are members of the Aboriginal Law Students' Association through which they address issues of concern to them. In addition students may participate in a variety of other student run extracurricular activities ranging from sports (hockey, curling) to academic (Canadian Lawyers for International Human Rights, Manitoba Association of Women and the Law, Business Law Group, Internet Law Group).

SECTION 3: Admission to Law

3.1 Degrees Offered

Bachelor of Laws

Minimum time to graduation: Five years (University 1, plus one year in any faculty, plus three years in Law).

Under the following heading is a summary of the admission requirements. Equivalent academic courses completed at recognized universities elsewhere will be considered. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website.

Master of Laws

The Master of Laws is a thesis-based program designed for completion in one year. The program consists of participation in the Graduate Legal Theory Seminar, two additional courses and completion of a substantial thesis. Further details are available through the LL.M. website: umanitoba.ca/law/newsite/research.php. Applicants should also consult the Faculty of Graduate Studies website: umanitoba.ca/graduate_studies/.

3.2 Course Requirements for Admission to LL.B. Program

Applicants must complete 60 credit hours, 30 credit hours in University 1 and 30 credit hours in any degree program. Because many students complete an undergraduate degree before applying to Law, it is recommended that students consider these degree requirements when choosing courses.

Other Requirements

The mathematics requirement must be completed in the first 60 credit hours, that is during the two pre-Law years. The LL.B. program fulfils the University's English requirement.

All applicants must write the Law School Admission Test (LSAT).

Minimum GPA for consideration: Very competitive, see applicant information bulletin at the Faculty's website (umanitoba.ca/faculties/law).

Selection criteria: 50% on grades and 50% on the LSAT score.

SECTION 4: Academic Regulations

All students are asked to note that some academic policies and regulations are under review and are subject to change. Please check the Web Calendar at umanitoba.ca for updated information.

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Law has regulations and requirements, published below, that apply specifically to its students.

4.1 Residence requirements for the LL.B. Degree

To obtain the LL.B. degree, ordinarily a student must successfully complete two of the three years of the LL.B. program at the University of Manitoba.

4.2 Licence to Practise Law

Upon graduation from the LL.B. program, all graduates who wish to be admitted to practise and called to the Bar must apply to the Law Society of the province in which they wish to practise. Most, if not all, of the law societies require applicants to complete satisfactorily a bar admission course usually comprising a period of articles of clerkship and, in addition, seminars and courses. It should be noted that although an LL.B. degree qualifies graduates to apply for a licence to practise, it does not entitle them to such a licence, the granting of which is entirely within the purview of the law societies. The Law Society must be satisfied as to the good character and repute of its applicants, as well as their academic competence and qualifications. Inquiries with regard to the Province of Manitoba should be made to the Secretary, or the Director of Education, Law Society of Manitoba, 201 - 219 Kennedy Street, Winnipeg, Manitoba, R3C 1S8.

4.3 Regulations of the Faculty of Law

Regulations of the Faculty of Law, as amended from time to time governing attendance, evaluation, prizes, and progression may be consulted at the Faculty's website (umanitoba.ca/faculties/law).

4.4 Miscellaneous Registration Matters

The dean's office, with the recommendation of a special faculty-based committee if so requested, shall, subject to appeal to the Faculty Council, consider and determine all applications from students admitted to the faculty: 1) for a letter of permission, with conditions, to take part of their law studies for credit at the University of Manitoba, at another university; 2) for permission, with conditions, to defer their law studies for a period of one or more academic years after successfully completing first or second year, and to permit such students to re-register following such an absence; 3) for permission to withdraw before completing the academic year for which they are then registered and to permit, in the case of a student who withdraws from first year under exceptional circumstances, that student to re-register for a subsequent academic year as a supernumerary student, and in the case of a second or third year student, to permit such student to re-register for a subsequent academic year; in all cases with or without conditions; 4) for permission to switch from the full-time program to the half-time program and vice versa.

4.5 Curriculum Requirements

In the event that a student fails to properly select courses and to register within the normal registration period, the dean's office may reject the courses selected by the student and assign courses to that student and such assignments shall ordinarily be final.

In addition to the regular classroom hours, there are seminars and workshops involved in some of the courses. The faculty may limit the enrolment in any optional course.

SECTION 5: Program Requirements

This Section describes the program requirements that are in effect for the 2009-2010 academic year. However, prospective students should be aware that the Faculty of Law regularly reviews its curriculum to ensure that it continues to meet the current needs of our students. As part of that process, courses may be added to, or deleted from, the required program, and the number of credit hours assigned to individual courses may change. Additionally, the number of credit hours required in each year of the program is also subject to change.

5.1 First Year

Each full-time student is required to take all of the following courses:

Course No.	Doctrinal Courses (Compulsory)	Credit Hours
LAW 1100	Contracts	6
LAW 1140	Criminal Law and Procedure	5
LAW 1460	Constitutional Law	5
LAW 1480	Torts and Compensation Systems	5
LAW 1500	Property	5
	<u>Clinical Course</u> (Compulsory)	
LAW 1540	Legal Methods	5
	<u>Perspective Course</u> (Compulsory)	
LAW 1530	Legal System	2
	Total credit hours	33

5.2 Second Year Only

In **Second Year** each student must take:

	Doctrinal Courses (Compulsory)	
LAW 2600	Evidence	4
LAW 3530	Administrative Law	3
LAW 2670	Civil Procedure	2
LAW 2690	Corporations I	3
	<u>Clinical Courses</u> (Compulsory)	
LAW 2650	Introduction to Advocacy	3
LAW 2680	Legal Negotiation	3
	Total Credit Hours	18

5.3 Second Year or Third Year

In **either Second Year or Third Year** each student must take:

	Doctrinal Courses (Compulsory)	
LAW 2490	Trusts	3
LAW 2640	Family Law	3
LAW 2700	Income Tax Law and Policy	3
	Total Credit Hours	9
	<u>Perspective Courses</u>	
	(One Compulsory for each of Second and Third Years; more can be taken)	
LAW 3070	Gender and the Law	3
LAW 3090	Children and the Law	3
LAW 3162	Topics in Dispute Resolution	2
LAW 3190	Law and Literature	3
LAW 3230	Aboriginal Peoples and Land Claims	3
LAW 3280	Limits of Law	3
LAW 3310	Aboriginal Peoples and the Law	3
LAW 3370	The Legislative Process	3
LAW 3380	Issues in Law and Bio Ethics	3
LAW 3410	Canadian Legal History	3
LAW 3490	Research Paper	2
LAW 3550	Crime, Law and Society	3
LAW 3620	Comparative Law	3
LAW 3740	International Law	3

LAW 3760	Jurisprudence	2
LAW 3940	Canadian Charter of Rights and Freedoms	3
LAW 3980	Current Legal Problems B	3
	L01 International Business Law	
	L02 International Trade Law	
	L07 Human Rights Law	
	L10 Poverty Law	
	L11 Philanthropy Law	
	<u>Doctrinal Courses (Optional)</u>	
LAW 2400	Wills and Succession	3
LAW 2510	Problems in Contract and Tort	2
LAW 2530	Debtors' and Creditors' Rights	2
LAW 3010	Agency	2
LAW 3040	Sales and Consumer Law	2
LAW 3050	Commercial Law	3
LAW 3060	Transportation Law	3
LAW 3200	Immigration and Refugee Law	2
LAW 3210	Competitions A *	2
LAW 3220	Competitions B *	3
LAW 3260	Insurance Law	4
LAW 3330	Employment Law	3
LAW 3390	Securities Law	2
LAW 3480	Restitution	2
LAW 3500	Intellectual Property	4
LAW 3590	Charter Issues in Criminal Law	3
LAW 3600	Environmental Law	3
LAW 3610	Landlord and Tenant	2
LAW 3680	Land Titles	3
LAW 3690	Real Estate Transactions	3
LAW 3770	Labour-Management Relations	3
LAW 3822	Scholarly Publication*	2
LAW 3830	Legal Aid Clinic *	2
LAW 3850	Conflict of Laws	3
LAW 3880	Municipal and Planning Law	3
LAW 3970	Current Legal Problems A	3
	L01 Advanced Issues in Intellectual Property	2
LAW 3980	Current Legal Problems B	3
	L04 Corporations II	
	L05 Copyright	
	L06 Law of Homicide	
	L08 Miscarriage of Justice	
	L09 Trade Marks and Patents	

Each student in **Second Year** must take a minimum of 32 credit hours of courses, comprising (i) the courses required to be taken in Second Year Only, above, (ii) any of the courses which may be taken in either Second or Third Years, above, including at least one Perspective Course, subject to pre-requisites and co-requisites. The Third Year Clinical and Doctrinal Courses, below, are not available to Second Year students. The choice of courses is subject to faculty approval.

Each student in **Third Year** is required to take whichever of LAW 2490 Trusts, LAW 2640 Family Law, and LAW 2700 Income Tax Law and Policy was not taken in Second Year, plus a Perspective Course, above, excluding LAW 3490 Research Paper if it was taken in Second Year, plus

Compulsory Course

LAW 3930	The Legal Profession and Professional Responsibility	3
----------	--	---

The rest of a Third Year student's credit hours, comprising a minimum of 32 credit hours, shall be selected from additional Second or Third Year Courses, above, including at least one Perspective Course, plus any of the Doctrinal, and Clinical Courses, below:

Clinical Courses (Optional)

LAW 3140	Clinical Administrative Law	4
LAW 3250	Current Legal Problems D	3
	L01 Clinical Family Law	3
LAW 3270	Clinical Family Law	6
LAW 3300	Clinical Criminal Law	8
LAW 3340	Advanced Advocacy	3
LAW 3862	Business Transactions: The Art of the Deal	6

Doctrinal Courses (Optional)

LAW 3240	Current Legal Problems C	2
	L01 Court of Appeal Clerkship*	
LAW 3360	Advanced Legal Research	3
LAW 3450	Remedies	3
LAW 3510	Corporate Tax	3
LAW 3520	Taxation of Trusts & Estates	3
LAW 3980	Current Legal Problems B	
	L03 Advanced Family Law	3
xxx.xxx	Non-Law University Elective	3

* No more than three of the electives marked with an asterisk can be selected for credit over the course of the second and third year program of studies. Students may elect to take more than three of these electives but no credit will be awarded.

Third Year students may take LAW 3862 Business Transactions: The Art of the Deal plus either LAW 3340 Advanced Advocacy, LAW 3140 Clinical Administrative Law, or LAW 3250 Clinical Family Law. No student can take two of LAW 3340 Advanced Advocacy, LAW 3140 Clinical Administrative Law, LAW 3250 Clinical Family Law. No student can take a second Clinical Elective with either LAW 3270 Clinical Family Law or LAW 3300 Clinical Criminal Law.

Section 6: Registration

First year students in the Faculty of Law are registered by section after the middle of August by staff in the Faculty. Returning Second and Third year students should register themselves through Aurora on the dates set by the Registrar's Office which are anticipated to be in late July or early August. All students should check their Aurora student account on a regular basis to confirm their registrations (it is the student's responsibility to verify that he/she meets Faculty of Law requirements for graduation as posted in the Exam Regulations) and access fee statements. Fall term fees are due by September 9, 2009.

Section 7: Law Course Descriptions

LAW 1100 Contracts Cr.Hrs.6 (Formerly 045.110) This course explores the basic principles of contract law. How is a contract formed? What is an offer? What constitutes acceptance? Are all promises enforceable as a contract? When should parties be allowed to avoid obligations? What happens if one party misrepresents the quality of subject matter of the contract? What if a party makes a mistake about what they buy or sell? What should happen if one party takes advantage of another for a better deal for themselves?

LAW 1140 Criminal Law and Procedure Cr.Hrs.5 (Formerly 045.114) A general introduction to criminal law and procedure dealing with principles of criminal liability, common defenses to criminal charges, selected specific offences, and the basic procedures to be followed in the administration of criminal justice in Canada.

LAW 1460 Constitutional Law Cr.Hrs.5 (Formerly 045.146) An examination of the legal problems arising from the nature of the Canadian political structure and, in particular, the distribution of legislative powers between the federal parliament and the provincial legislatures and an introduction to the impact of the Canadian Charter of Rights and Freedoms.

LAW 1480 Torts and Compensation Systems Cr.Hrs.5 (Formerly 045.148) A general introduction to the law of torts and other compensation systems such as the Workers' Compensation and Criminal Injuries Compensation schemes.

LAW 1500 Property Cr.Hrs.5 (Formerly 045.150) A general introduction to the principles of property with special emphasis on the principles of real property, their historical development and modern application.

LAW 1530 Legal System Cr.Hrs.2 (Formerly 045.153) An introduction to the study of law including initial analysis of various aspects of legal history, the structure of the legal system, legal reasoning, statutory interpretation, dispute resolution and the role of the judiciary. This course is graded pass/fail.

LAW 1540 Legal Methods Cr.Hrs.5 (Formerly 045.154) An introduction to legal research and writing skills and oral advocacy. Grading: Pass/Fail

LAW 2400 Wills and Succession Cr.Hrs.3 (Formerly 045.240) The law of testate and intestate succession, Part IV of The Marital Property Act, and The Dependents' Relief Act.

LAW 2490 Trusts Cr.Hrs.3 (Formerly 045.249) The nature and functions of modern inter vivos and testamentary trusts. The creation of express, private trusts, charitable trusts, resulting trusts, and constructive trusts. The administration of trusts, and real and personal remedies of beneficiaries under trusts.

LAW 2510 Problems in Contract and Tort Cr.Hrs.2 (Formerly 045.251) A detailed study of significant topics in the area of tort and contract at an advanced level. Special attention will be paid to the inter-relationship of the two subject areas.

LAW 2530 Debtors' and Creditors' Rights Cr.Hrs.2 (Formerly 045.253) Remedies of the unsecured creditor, enforcement of judgments, fraudulent conveyances and pref-

erences, general assignments and bankruptcy. Mechanics' liens and special rights arising out of builders' and workers' legislation relating to real estate transactions.

LAW 2600 Evidence Cr.Hrs.4 (Formerly 045.260) A study of the rules relating to the admissibility and weight of evidence in judicial proceedings.

LAW 2640 Family Law Cr.Hrs.3 (Formerly 045.264) An overview of key legal issues regarding family relationships and family breakdown in Canadian society. Topics include cohabitation, marriage, separation, divorce, child custody and access, spousal and child support and property division.

LAW 2650 Introduction to Advocacy Cr.Hrs.3 (Formerly 045.265) A detailed study of the conduct of a case from its inception through to trial. The course requires that students prepare and conduct a trial. Grading: Pass/Fail.

LAW 2670 Civil Procedure Cr.Hrs.2 (Formerly 045.267) An introduction to the rules of civil procedure.

LAW 2680 Legal Negotiation Cr.Hrs.3 (Formerly 045.268) Most legal disputes settle before trial. This course examines how lawyers assist their clients through effective interviewing, counseling, strategic planning and negotiation as well as some of the mechanisms, both judicial and non-judicial, that facilitate pre-trial dispute settlement.

LAW 2690 Corporations I Cr.Hrs.3 (Formerly 045.269) A study of the major legal, practical and policy issues arising out of the formation and operation of business organizations in Canada, with a particular focus on business corporations. Students will examine major principles of Canadian corporate law, including corporate personality, management power, majority rule and minority protection.

LAW 2700 Income Tax Law and Policy Cr.Hrs.3 (Formerly 045.270) The object of this course is to develop a working knowledge of the basic principles and rules of the income tax system as these apply to individuals. A parallel objective is the discovery of the major policy positions that inform the personal income tax system and the development of the ability to use tax policy analysis to evaluate advantages of, and problems with, the current system.

LAW 3010 Agency Cr.Hrs.2 (Formerly 045.301) The course will cover the entire landscape of the law of agency, including the various kinds of authority, the duties of principals and agents, and the legal ramifications for each person when one person acts (purportedly) on behalf of another person.

LAW 3040 Sales and Consumer Law Cr.Hrs.2 (Formerly 045.304) The Sale of Goods Act and related statutes including a study of the duties and remedies of the parties and questions of title. Manitoba Consumer Protection Law in the area of sales and credit.

LAW 3050 Commercial Law Cr.Hrs.3 (Formerly 045.305) A study of secured transactions and negotiable instruments.

LAW 3060 Transportation Law Cr.Hrs.3 (Formerly 045.306) The law applicable to various methods of transportation, various constitutional problems involved, rights and liabilities of transportation authorities and procedure before the appropriate transportation boards.

LAW 3070 Gender and the Law Cr.Hrs.3 (Formerly 045.307) An exploration of ideas about gender differentiation in law, the legal system, legal education and the legal profession. It will offer an introduction to the feminist critique of law and feminist theories about sexual equality and discrimination.

LAW 3090 Children and the Law Cr.Hrs.3 (Formerly 045.309) Relationships between child, family, state and law are examined within an interdisciplinary context, focusing on such issues as rights theories and the public/private distinction; regulation of young offenders, child protection and state intervention; and child victims in the courts.

LAW 3140 Clinical Administrative Law Cr.Hrs.4 (Formerly 045.314) The primary purpose of this course is to train students in lawyering skills. Students will be required to engage in classroom work and participate in simulated exercises. Emphasis will be given to the difference between board and court advocacy. Grading: Pass/Fail.

LAW 3162 Topics in Dispute Resolution Cr.Hrs.2 This course offers a detailed exploration of the theory and practice of dispute resolution focusing on the various approaches, private and court-connected, currently used to resolve conflict. In critically examining selected alternative dispute resolution mechanisms, the course exposes students to issues such as rights-based and interest-based dispute resolution, power, gender and culture in ADR processes and the functions, and skills required of, third party interveners. May not be held with the former LAW 3160 (045.316).

LAW 3190 Law and Literature Cr.Hrs.3 (Formerly 045.319) Law and Literature is the legal analysis of literary texts and the literary analysis of legal texts. By introducing images of law and social control found in literature and popular culture, and exploring legal language and the construction of narrative, the course invites speculation about the nature and impact of law.

LAW 3200 Immigration and Refugee Law Cr.Hrs.2 (Formerly 045.320) An explanation of immigration and refugee law through a study of a representative section of problems.

LAW 3210 Competitions A Cr.Hrs.2 (Formerly 045.321) Credit for selected students who satisfactorily participate in those academic competitions approved by Faculty Council. Grading: Pass/Fail.

LAW 3220 Competitions B Cr.Hrs.3 (Formerly 045.322) Credit for selected students who satisfactorily participate in those academic competitions approved by Faculty Council. Grading: Pass/Fail.

LAW 3230 Aboriginal Peoples and Land Claims Cr.Hrs.3 (Formerly 045.323) The course shall provide an overview of land claims and treaty land entitlement policies in Canada and their impact upon land claims by Aboriginal communities.

LAW 3240 Current Legal Problems C Cr.Hrs.2 (Formerly 045.324) Critical and constructive study, at an advanced level, of a significant major subject or set of topics. Grading: Pass/Fail.

LAW 3250 Current Legal Problems D Cr.Hrs.3 (Formerly 045.325) Critical and con-

structive study, at an advanced level, of a significant major subject or set of topics. Grading: Pass/Fail.

LAW 3260 Insurance Law Cr.Hrs.4 (Formerly 045.326) A general introduction to the basic principles of insurance law. The fundamental elements common to most types of policies will be examined with particular emphasis on property and liability insurance. The terms and provisions of specific insurance policies and coverages such as automobile, property, liability policies will also be covered.

LAW 3270 Clinical Family Law Cr.Hrs.6 (Formerly 045.327) The primary purpose of this offering is to train students in lawyering skills in the Family Law area. To this end instruction is given on an intensive basis in small groups. Students may be required to engage in classroom work; to participate in various forms of simulation exercises and to conduct actual client based cases under the supervision of the instructor. Particular emphasis will be given to questions of professional responsibility and ethics. Grading: Pass/Fail.

LAW 3280 Limits of Law Cr.Hrs.3 (Formerly 045.328) An examination of the role of law as a social control mechanism and discussion of particular ethical and instrumental constraints on law making and enforcement. Topics dealt with include: law and the enforcement of sexual morality, legal paternalism, hate propaganda, and medico-legal topics including mercy killing, surrogate motherhood and maternal-fetal conflict.

LAW 3300 Clinical Criminal Law Cr.Hrs.8 (Formerly 045.330) The primary purpose of this offering is to train students in lawyering skills in the criminal law area. To this end instruction is given on an intensive basis in small groups. Students may be required to engage in classroom work; to participate in various forms of simulation exercises and to conduct actual client based cases under the supervision of the instructor. Particular emphasis will be given to questions of professional responsibility and ethics. Grading: Pass/Fail.

LAW 3310 Aboriginal Peoples and the Law Cr.Hrs.3 (Formerly 045.331) A study of the laws relating to Aboriginal Peoples in North America from the colonial period to the present. Special emphasis will be given to aboriginal rights, hunting and fishing rights, the legal aspects of Indian Treaties and the Indian Act. A more general treatment will be given to a study of Aboriginal Peoples' relationship to civil and criminal law in modern Canadian society.

LAW 3330 Employment Law Cr.Hrs.3 (Formerly 045.333) A detailed study of employment law including employment principles, constructive and wrongful dismissal, just cause, human rights and remedies.

LAW 3340 Advanced Advocacy Cr.Hrs.3 (Formerly 045.334) Advanced topics in trial presentation, procedure and evidence with concentration on jury trials.

LAW 3360 Advanced Legal Research Cr.Hrs.3 (Formerly 045.336) This course will provide students with the wherewithal to conduct legal research across a number of jurisdictions using both print and digital formats. Students are evaluated on a number of research exercises, a midterm examination, a major research pathfinder and a presentation of research results.

LAW 3370 The Legislative Process Cr.Hrs.3 (Formerly 045.337) A study of how statutes and regulations are made in the Province of Manitoba, and how lawyers can effectively represent their clients in the context of lawmaking by politicians, civil servants and regulators.

LAW 3380 Issues in Law and Bio Ethics Cr.Hrs.3 (Formerly 045.338) The course deals with the legal aspects of prevention, creation, alteration, maintenance and termination of life through medical and other scientific means.

LAW 3390 Securities Law Cr.Hrs.2 (Formerly 045.339) A study of the basic concepts and application of the securities regulatory system in Canada.

LAW 3410 Canadian Legal History Cr.Hrs.3 (Formerly 045.341) The historical background of the Canadian legal system.

LAW 3450 Remedies Cr.Hrs.3 (Formerly 045.345) A study of the law relating to damages, specific performance, injunctions, and other equitable remedies.

LAW 3480 Restitution Cr.Hrs.2 (Formerly 045.348) Principles and remedies of the common law and equity capable of preventing unjust enrichment: quasi-contract and constructive trusts.

LAW 3490 Research Paper Cr.Hrs.2 (Formerly 045.349) Details in each case to be worked out with the associate dean.

LAW 3500 Intellectual Property Cr.Hrs.4 (Formerly 045.350) A study of the law of, and issues related to, the major areas of intellectual property, including trademarks, copyright and patent, as well as ancillary doctrines including some or all of industrial design, trade secrets, appropriation of personality and plant breeders' rights.

LAW 3510 Corporate Taxation Cr.Hrs.3 (Formerly 045.351) A study of federal tax laws as they affect corporation income, as well as a discussion of the effects of income tax laws on corporate and other commercial planning.

LAW 3520 Taxation of Trusts and Estates Cr.Hrs.3 (Formerly 045.352) A study of taxation principles as they relate to partnership and trust income and estate planning.

LAW 3530 Administrative Law Cr.Hrs.3 (Formerly 045.353) An introduction to administrative law generally, with concentration on the judicial review of the exercise of statutory authority by administrative entities.

LAW 3550 Crime, Law and Society Cr.Hrs.3 (Formerly 045.355) A study of various social problems in legal and sociological perspectives with emphasis on criminal law and the administration of criminal justice. Topics may include police discretion, preventive detention, plea bargaining, sentencing theory and practise in correction, drug abuse and the mentally ill.

LAW 3590 Charter Issues in Criminal Law Cr.Hrs.3 (Formerly 045.359) The rules of Criminal Procedure and principles underlying and unifying such rules with a particular emphasis on the effect of the Charter of Rights and Freedoms on those rules.

LAW 3600 Environmental Law Cr.Hrs.3 (Formerly 045.360) The balance between

technical development and the life-support capacity of the environment. The acquisition and nature of private rights in natural resources and their control by legislation and common law. Remedies for environmental degradation. Constitutional and international legal issues.

LAW 3610 Landlord and Tenant Cr.Hrs.2 (Formerly 045.361) The law relating to tenancies, residential and commercial, with special attention to remedies, recent legislation, and proposed reforms.

LAW 3620 Comparative Law Cr.Hrs.3 (Formerly 045.362) An introduction to civil law; a brief historical survey, codification, judicial philosophy, detailed study of selected comparative law topics in tort and contract with special reference to the Civil Code of the Province of Quebec. An introduction to Soviet law, detailed study of selected topics in Soviet law.

LAW 3680 Land Titles Cr.Hrs.3 (Formerly 045.368) The law relating to the registration of assurances and titles.

LAW 3690 Real Estate Transactions Cr.Hrs.3 (Formerly 045.369) The law relating to vendors and purchasers of land and to mortgages and other security on land.

LAW 3740 International Law Cr.Hrs.3 (Formerly 045.374) An introduction to the nature, sources, and some of the fundamental concepts of international law.

LAW 3760 Jurisprudence Cr.Hrs.2 (Formerly 045.376) This seminar will cover all the major "schools" of jurisprudential theory, with attention paid to particular areas of legal theory and debate, to the nature and function of law, its relation to morality, and to the analysis of rights and other legal relationships. Efforts will be made to relate these areas of debate to legal issues of current interest and practicality.

LAW 3770 Labour-Management Relations Cr.Hrs.3 (Formerly 045.377) A survey of the development of trade unions; their present status under both federal and provincial legislation regarding the right of association, collective bargaining, and the settlement of disputes.

LAW 3820 Manitoba Law Journal Cr.Hrs.2 (Formerly 045.382) The editor of the Manitoba Law Journal who successfully completes his/her term of office, and all other editors and journal staff who in addition to successfully completing their terms of office satisfactorily complete a written requirement, may opt for the Manitoba Law Journal credit. Grading: Pass/Fail.

LAW 3822 Scholarly Publications Cr.Hrs.2 Senior editors of scholarly publications approved by the Academic Affairs Committee who successfully complete their terms of office and any writing requirements. Grading: Pass/Fail.

LAW 3830 Legal Aid Clinic Cr.Hrs.2 (Formerly 045.383) Students who are selected to act as student supervisors at the University Law Centre during the summer and who continue to actively serve the University Law Centre during their third year may, by successfully completing a written assignment approved by a faculty supervisor, opt for the Legal Aid Clinic. Grading: Pass/Fail.

LAW 3850 Conflict of Laws Cr.Hrs.3 (Formerly 045.385) Sometimes called private international law, it has to do with choosing what place to sue, what law applies when the law of more than one place might apply, and with the enforceability of judgments through foreign courts.

LAW 3862 Business Transactions: The Art of the Deal Cr.Hrs.6 A study, involving practical exercises of certain aspects of solicitors' work, including interviewing, negotiating, counseling and memo writing.

LAW 3880 Municipal and Planning Law Cr.Hrs.3 (Formerly 045.388) A general course in municipal law, including important aspects of land-use control and planning law. Although the course deals generally with the nature, structure, functions, and powers of the various units comprising the local level of government, the focus is primarily on municipal corporations. Topics covered include assessment and taxation, land-use planning and control, tort liability, judicial review of bylaws, qualification and accountability of councillors, and the law relating to expropriation, as well as some discussion of contemporary urban problems.

LAW 3930 The Legal Profession and Professional Responsibility Cr.Hrs.3 (Formerly 045.393) A general introduction to the problems of professional responsibility and the ethics of lawyers individually, as well as the legal profession collectively. Topics dealt with will include ethical problems of the lawyer in the role of advocate and in the role of counsellor (confidentiality, conflict of interest, etc.); professional responsibility in the delivery of legal service (competency, fee determination, specialization regulation, etc.) and the legal profession and the public interest (government of profession, discipline, professional liability, etc.). These problems are to be studied by the critical examination of case law, codes and canons, and other published materials; by classroom discussion and debate on problems; and by workshops and panels which involve practising lawyers.

LAW 3940 Canadian Charter of Rights and Freedoms Cr.Hrs.3 (Formerly 045.394) An in-depth study of the legal, philosophical and historical foundations of the Canadian Charter of Rights and Freedoms. Included is a study of both the American and European experience with Charters of Rights as well as Canadian case law.

LAW 3970 Current Legal Problems A Cr.Hrs.2 (Formerly 045.397) Critical and constructive study, at an advanced level, of a significant major subject or set of topics.

LAW 3980 Current Legal Problems B Cr.Hrs.3 (Formerly 045.398) Critical and constructive study, at an advanced level, of a significant major subject or set of topics.

Deans Emeriti

R. Grandpre, J. Gray, J. Mundie.

Accounting and Finance

Senior Scholars

Hilton, M.W., B.Comm. (Saskatchewan), M.B.A. (Oregon State), F.C.A., CA

Professors

Abeysekera, S., B.A. (Simon Fraser), M.B.A. (Jackson State), Ph.D. (Texas A and M); **Feltham**, G., B.A. (Alberta), B.S., M.B.A. (Montana), L.L.B. (Queen's), Ph.D. (Waterloo), CMA, FCMA; **Gould**, L.I., B.S. (Pennsylvania), M.B.A. (New York), Ph.D. (Toronto); **McCallum**, J.S., B.Sc., B.A. (Montreal), M.B.A. (Queen's), Ph.D. (Toronto); **Mittoo**, U.R., B.A., M.A. (Panjab), M.B.A. (Manitoba), Ph.D. (UBC). **Stangeland**, D.A., B.Comm., Ph.D. (Alberta), CMA.

Associate Professors

Brabston, M., B.A. (Vanderbilt), M.B.A. (Alabama, Birmingham), Ph.D. (Florida State); **Jacoby**, G., B.A., M.A. (Hebrew), Ph.D. (York); **Morrill**, C.K.J., B.A., Ph.D. (Alberta), CGA; **Morrill**, J.B., B.Comm., Ph.D. (Alberta), C.A.; **Mossman**, C.E., B.A.(Hons.) (Royal Military College), M.B.A. (Queen's), Ph.D. (Western Ontario), FCGA.

Assistant Professors

Biscontri, R., B.Comm. (Australia), M.M., Ph.D. (Macquarie), FCPA; **Chen**, F., B.A., M.A. (China), M.S. (Utah), Ph.D. (Arizona); **Paseka**, A., M.Sc. (Moscow), M.Sc. (N. Iowa), Ph.D. (Arizona); **Pazzaglia**, F., B.Comm. (Italy), Ph.D. (Alberta); **Street**, C., B.Sc. (Brandon), MBA (Manitoba), Ph.D. (Queen's); **Travica**, B., B.A. (Belgrade), M. A. (State University of New York), Ph.D. (Syracuse); **Shultz**, W., B.Comm., Ph.D. (Queen's) in progress, C.A.; **Zheng**, X., B.A. (China), M.A. (China), Ph.D. (SUNY).

Business Administration

Professor Emeritus

Bector, C.R., B.A. (Punjab), M.A. (Agra), Ph.D. (Kanpur), F.I.M.A., **Frohlich**, N., B.Sc.(Hons.) (Manitoba), M.S. (Rutgers), Ph.D. (Princeton), **Starke**, F.A., B.A., M.B.A. (Southern Illinois), Ph.D. (Ohio State).

Senior Scholars

Atwell, J.F., B.Comm.(Hons.), M.A. (Manitoba), **Hall**, R.I., B.Sc. (Birmingham), D.I.C. (London), Ph.D. (Washington), C.I.T. (Harvard), **Henderson**, R., B.Sc.(M.E.) (Manitoba), M.B.A. (Harvard), Ph.D. (Western Ontario), P.Eng., **Hercus**, T.F., B.A. (Manitoba), M.B.A. (Toronto), **Mundie**, J.D., B.Comm. (Manitoba), M.B.A. (Ohio State), Ph.D. (Stanford), **Notz**, W.W., B.S.(Hons.) (Colorado), M.B.A. (Denver), Ph.D. (Northwestern), **Willborn**, W., B.Ed., M.A. (Manitoba), Dip.rer.pol. (Hamburg), Dr.rer.soc.oec. (Innsbruck).

Professors

Bartell, M., B.A.(Hons.) (McGill), M.B.A. (Chicago), Ph.D. (Northwestern), **Bruning**, N.S., B.A., M.A. (Arkansas), Ph.D. (Alabama), **Dyck**, B., B.Comm.(Hons.) (Manitoba), Ph.D. (Alberta), **Godard**, J.H., B.Comm.(Hons.), M.B.A. (Manitoba), Ph.D. (Cornell), **Lee**, R.T., B.A., M.S. (San Francisco), Ph.D. (Wayne State).

Associate Professors

Dass, P., B.Sc., M.B.A. (Punjab), Ph.D. (Michigan State), **Turner**, N., B.Comm., B.A., M.Sc. (Queen's), Ph.D. (Sheffield), **Wang**, X., B.Ed., M.Ed. (Northeast Normal), Ph. D. (McGill).

Assistant Professors

Bayavarapu, H., B.E. (Osmania), M.B.A. (Calcutta), Ph.D. (Western Ontario), **Fassina**, N., B.Sc. (Calgary), Ph.D. (Toronto), **Gao**, J., Mathematics (Xinxiang), M.E. (Beijing), Ph.D. (Western Ontario), **Hershcovis**, M.S., B.Comm. (Calgary), M.Sc., Ph.D. (Queen's), **Uggerslev**, K., B.Sc., M.Sc., Ph.D. (Calgary).

Marketing

Professors

Bruning, E.R., B.S. (Arkansas), M.A., Ph.D. (Alabama); **Good**, W.S., B.Sc.F. (Toronto), M.S., M.B.A., Ph.D. (Michigan State); **Litz**, R.A., B.Comm.(Hons.) (Manitoba), M.B.A. (Minnesota), Ph.D. (Pittsburgh).

Associate Professors

Manchanda, R.V., B.Comm., M.B.A. (India), M.Sc. (Illinois), Ph.D. (Illinois); **Sivaramakrishnan**, S., B.Sc. (Madras), M.B.A. (Bharathiar), Ph.D. (Pennsylvania State); **Smith**, M.C., B.Sc.(Hons.), M.B.A. (Queen's), Ph.D. (Oregon).

Assistant Professors

Bhatnagar, N., M.Sc.Mgmt.Studies, M.Sc.(Hons) (India), Ph.D. (North Carolina at Chapel Hill); **Carvalho**, S., B.B.A. (Brazil), MBA (Northeastern), Ph.D. (Baruch CUNY); **Greidanus**, N., B.A. (Alberta), B.Comm. (Calgary), M.B.A. (Calgary), Ph.D. (pending; Calgary), **Main** K., B.A. (Hons.) (Winnipeg), M.A. (Manitoba), Ph.D. (British Columbia), **Wan**, F., B.A. (Wuhan, China), M.A. (Chinese University of Hong Kong), Ph.D. (Minnesota).

Supply Chain Management

Professors

Bhatt, S.K., B.Sc., M.Sc. (Agra), Ph.D. (Kanpur); **Larson**, P.D., B.S.B., M.B.A. (Minnesota), Ph.D. (Oklahoma); **Prentice**, B.E., B.A. (Western), M.Sc. (Guelph), Ph.D. (Manitoba); **Rosenbloom**, E.S., B.Sc. (Hons.), M.Sc. (Math), M.Sc. (Statistics) (Manitoba), Ph.D. (Waterloo); **Tyrchniewicz**, E.W., B.S.A. (Hons.) (Manitoba), M.Sc., Ph.D. (Purdue).

Associate Professors

McLachlin, R.D., B.Sc. (Eng.), M.B.A. (Alberta), Ph.D. (Western Ontario).

Assistant Professors

Earl, P.D., B.A.Sc., M.A.Sc. (Toronto), Ph.D. (Manitoba); **Foroapon**, C., M.Sc., Ph.D. (Paris); **Morris**, M., B.A. (Old Dominion), Ph.D. (Maryland).

Transport Institute

Director of Transport Institute

Larson, P.D., B.S.B., M.B.A. (Minnesota), Ph.D. (Oklahoma).

Professors

Larson, P.D., B.S.B., M.B.A. (Minnesota), Ph.D. (Oklahoma); **Prentice**, B.E., B.A. (Western), M.Sc. (Guelph), Ph.D. (Manitoba); **Tyrchniewicz**, E.W., B.S.A. (Hons.) (Manitoba), M.Sc., Ph.D. (Purdue).

Assistant Professors

Earl, P.D., B.A.Sc., M.A.Sc. (Toronto), Ph.D. (Manitoba); **Morris**, M., B.A. (Old Dominion), Ph.D. (Maryland).

Warren Centre for Actuarial Studies and Research

Warren Chair

Cox, S.H., BA, M.Sc. (Texas Christian), Ph.D. (Louisiana State), F.S.A., C.P.C.U., C.F.A.

Warren Director

Shand, K.J., B.Comm.(Hons.) (Manitoba), Ph.D. Candidate (Heriot-Watt), F.S.A., F.C.I.A.

Associate Professor

Pai, J.S., B.Comm. (Feng Chai), M.S., Ph.D. (Connecticut).

Assistant Professors

Pedersen, H., B.Sc. (Manitoba), M.Sc. (Stanford), Ph.D. (Washington); **Shand**, K.J., B.Comm.(Hons.) (Manitoba), Ph.D. Candidate (Heriot-Watt), F.S.A., F.C.I.A.

SECTION 2: Business Education

The undergraduate degree of the Asper School of Business, the Bachelor of Commerce (Honours), is designed to provide a broad-based general business education with an opportunity to specialize in one or two of the 13 majors available to undergraduate students.

Education for business had its origin at the University of Manitoba during the First World War when a series of short courses were offered in the evening for business people. By 1937, the Department of Commerce was created in the Faculty of Arts and Science, and the first graduates received their Bachelor of Commerce degree in 1940. Since then, the unit has undergone many transitions, changing its status to the School of Commerce in 1950, to the Faculty of Commerce in 1970, to the Faculty of Administrative Studies in 1972, to the Faculty of Management in 1986, and to its current name, the Asper School of Business in 2000.

In 1999, the Asper School of Business received accreditation from AACSB International - The Association to Advance Collegiate Schools of Business.

This prestigious recognition affirms the faculty's commitment to the continuous improvement of its courses and programs. The mission of the Asper School of Business is to provide management education in Manitoba by creating and disseminating leading edge knowledge and developing skills relevant to current and future managers in organizations operating in a global environment.

SECTION 3: Admission to the Asper School of Business

3.1 Degree Offered

Bachelor of Commerce (Honours)

Minimum time to graduation: 4 years (University 1 plus 3 years in the Asper School of Business).

Co-operative Education Option

Minimum time to graduation: 4.33 years (University 1 plus 3.3 years in the Asper School of Business).

3.2 Course Requirements for Admission

The following is a summary of the admission requirements for the Bachelor of Commerce (Honours.). Equivalent courses completed at other universities will be considered for admission and transfer credit only if the courses have been taken within the last 10 years. All admission requirements, as well as application deadline dates and forms, are included in the Applicant Information Bulletin that is available from the Admissions Office, 424 University Centre. This information is also posted on the University of Manitoba's website.

Track 1 with Guaranteed Admission from High School

Students who have a 90% or greater average on qualifying high school courses will be guaranteed admission to the Asper School after University 1 at the University of Manitoba on the condition that (a) the applicant proceeds directly from University 1 to Asper School of Business (b) they have completed all Track 1 qualifying requirements listed below and (c) they are in good academic standing.

Economics ECON 1200
Mathematics MATH 1520 or MATH 1500 and Mathematics MATH 1310 or MATH 1300

Psychology PSYC 1200 or Sociology SOC 1200

A 3 or 6 credit hour course that satisfies the Written English requirement

0-3 credit hours of electives for a total of 24 credit hours

Minimum 24 credit hours completed by April 30. Although 24 credit hours is the minimum requirement for admission, a full year course load would require 30 credit hours; therefore, students only taking 24 credit hours for admission will need to pick up an extra 6 credit hours of course work once in the Asper School of Business.

See Applicant Bulletin for complete details.

*Students must achieve a minimum grade of "C" on each course listed above.

Track 1

Economics ECON 1200
Mathematics MATH 1520 or MATH 1500 and Mathematics MATH 1310 or MATH 1300

Psychology PSYC 1200 or Sociology SOC 1200

A 3 or 6 credit hour course that satisfies the Written English ("W") requirement

0-3 credit hours of electives (depending on the chosen "W" course)

Minimum 24 credit hours completed by April 30. Although 24 credit hours is the minimum requirement for admission, a full year course load would require 30 credit hours; therefore, students only taking 24 credit hours for admission will need to pick up an extra 6 credit hours of course work once in the Asper School of Business.

See Applicant Bulletin for complete details.

*Students must achieve a minimum grade of "C" on each course listed above.

Track 2

Applicants who are missing one or more of the Track 1 course requirements may apply under Track 2 provided they have met the following criteria: completed a minimum of 24 credit hours; achieved a minimum admission GPA of 3.1; and achieved a minimum grade of "C" on each course comprising the 24 credit hours. Track 2 applicants are encouraged to complete all outstanding Track 1 required courses during their first year after admission to the Asper School of Business.

Minimum 24 credit hours completed by April 30. Although 24 credit hours is the minimum requirement for admission, a full year course load would require 30 credit hours; therefore, students only taking 24 credit hours for admission will need to pick up an extra 6 credit hours of course work once in the Asper School of Business.

See Applicant Bulletin for complete details.

Priority for Admission

Admission to the Asper School of Business is limited to an annual quota. The quota will be filled by selecting students from a rank-ordered list of applicants in the following order:

For September 2009:

First Priority – Track 1 applicants with Guaranteed Admission.

Second Priority - Track 1 applicants (who are not already admitted under Guaranteed Admission) with an AGPA of 2.60 or greater in descending order of AGPA. Thirty spaces are reserved for the Track 2 applicants with an AGPA of 3.10 or higher in descending order of AGPA.

Third Priority - Track 2 applicants (who are not already admitted under the Second Priority) with an AGPA of 3.10 or greater in descending order of AGPA.

Fourth Priority - Track 1 applicants with an AGPA of 2.00 - 2.59 in descending order of AGPA.

Both Track 1 applicants (except Guaranteed Admission applicants) and Track 2 applicants may require an AGPA well in excess of the minimum to be successful in the annual competition for admission.

Other requirements

High school prerequisite: Grade 12 Pre-Calculus Mathematics 40S (pre-calculus, with a minimum 60 %)

The Written English and Mathematics requirements are satisfied by Track 1 courses.

Minimum AGPA for consideration: 2.0 for Track 1 applicants; 3.1 for Track 2 applicants.

Admission to the Asper School of Business is limited to an annual quota and is competitive.

Mature students are not admitted directly to the Bachelor of Commerce (Honours) program. All students seeking admission to the Bachelor of Commerce (Honours) program must first complete the Qualifying Year requirements. All students planning to enter the Bachelor of Commerce (Honours) program must obtain a minimum of 60 per cent in Grade 12 Pre-Calculus Mathematics 40S, or equivalent.

Advance Standing: Transfer and Second Degree Students

Students who do not meet the eligibility requirements for admission after their first year of University can spend another year (or more) in another faculty, complete the eligibility requirements, and then apply (or re-apply) for admission. Students who complete additional course credits beyond the qualifying year requirements are eligible to receive applicable advance standing upon admission to the Asper School of Business.

The following regulations apply to students who must (or choose to) take more than one year to qualify for admission to the Asper School of Business.

All transfer and second degree students will be required to:

- Meet the admission requirements of Track 1 or Track 2 in the year of application.

See Applicant Bulletin for detailed information on admission requirements.

- Complete all 126 credit hours required in the B.Comm.(Hons.) program, including the 24 credit hours that comprise the specific qualifying year requirements, the Core requirements, the course requirements for one Ma-

job, Business Options, and Elective courses. After admission to the Asper School, students in Track 2 must complete all outstanding courses listed in the Track 1 requirements and achieve a minimum grade of "C" in each course.

Students who are admitted to the Asper School of Business who have completed more than the minimum 24 credit hours required in the Qualifying Year may be eligible to receive transfer credit for the additional work completed, provided the additional course work is creditable toward the degree requirements of the Bachelor of Commerce (Honours).

Students who are admitted to the Asper School of Business following the completion of another degree program are eligible to receive a maximum of 60 hours of transfer credit for applicable courses completed as part of their first degree. Students who, within their first degree, have more than 60 hours of transferable credits would be required to take substitute courses for credits in excess of the 60 hour limit on transfer.

Students who have a degree and in addition have completed further courses at the University of Manitoba which are applicable to the B. Comm.(Hons.) program that were not used for credit toward their first degree may receive additional transfer credit for that work.

Equivalent courses completed at other universities will be considered for admission and transfer credit only if the courses have been taken within the last 10 years.

Students are encouraged to contact a Undergraduate Program Advisor in the Undergraduate Program Office for information on how to optimize their transfer credit and advance standing.

Admission Requirements: Joint Programs with Manitoba Colleges

The Asper School of Business has established Joint Programs with Red River College, Assiniboine Community College, University College of the North, and École technique et professionnelle. Graduates of the Business Administration Diploma (University Stream) from these four colleges are eligible to apply directly to the Asper School of Business. Successful applicants will receive block transfer credit for their courses completed in the Business Administration Diploma and are required to complete specified courses at the University of Manitoba in order to receive the Bachelor of Commerce (Honours) degree. Requirements for the Joint Programs are listed in Section 7 for Red River College, in Section 8 for Assiniboine Community College, in Section 9 for University College of the North, and in Section 10 for École technique et professionnelle.

Admission to each Joint Program is limited to an annual quota and is competitive. Students must achieve a minimum grade point average of 3.00 on their Business Administration Diploma (University Stream) to be eligible for admission. Students must have graduated from the Diploma program within the last 5 years to be eligible for admission. Applicants are ranked in descending order of their grade point average and are admitted until the annual quota is met.

See Applicant Bulletin for detailed information on admission requirements.

SECTION 4: Asper School of Business Student Services

4.1 Career Development Centre

The Career Development Centre at the Asper School of Business specializes in helping students and alumni plan and manage their careers with assistance on resume writing, interviewing, business networking and professional development.

A rich network of employers and companies across Canada connect with us when looking to fill part time, summer or full time opportunities with energetic and knowledgeable business students and graduates who can make a meaningful contribution to their organization. We can be reached by phone at (204) 474-6596 or email at www.umanitoba.ca/asper/cdc for further information.

4.2 Co-operative Education Centre

Administered through the Career Development Centre, the co-op program enables students to integrate academic studies with 'on the job' experience while meeting the recruiting needs of employers locally, regionally and nationally. Students are employed full time for a minimum period of four months on three work terms, and are actively engaged in productive work

that integrates their field of study in a practical setting. Students receive remuneration and constructive feedback in a facilitative learning environment. Co-op is an experiential learning opportunity that provides students with a unique competitive advantage upon graduation. Please contact us by phone at (204) 474-8521 or email at www.umanitoba.ca/asper/co-op for further information.

4.3 International Exchange Program

All Asper students are eligible for the exchange program. The Asper School works with business schools in Asia, Europe, North America and South America to provide students with exceptional learning opportunities. You will receive instruction in English, earn full transfer credit for all courses taken internationally, you will make friends for life that will be the basis of your global network and help build your resume and differentiate yourself to future employers. Interested students are encouraged to contact the Undergraduate Program Office for application information or to see the web site at umanitoba.ca/asper/exchange.

4.4 Student Organizations

Commerce Students' Association

The Commerce Students' Association (CSA) is comprised of all students in the Asper School of Business. It is regarded as an integral part of the educational activities of Business students. The purpose of the organization is to enhance the quality of student life through social, educational, and informative events; to protect the academic rights of all students in the faculty; and to bring prominent business and government executives into contact with students. Telephone: (204) 474 7363.

The Asper School of Business also has student groups whose activities centre on the different majors or other areas of interest. For further information on these organizations, contact the following groups directly or the CSA offices at 144 Drake Centre; Telephone (204) 474 7363.

AIIESEC: International Association for Commerce, Science, and Economics Students; 127 Drake Centre; www.aiiesec.ca/manitoba.

AIMS: Association of International Management Students.

ASBAA: Asper School of Business Accounting Association; 121 Drake Centre; www.asbaa.ca.

BGS: Beta Gamma Sigma (see below); umanitoba.ca/csa.bgs.

JDC West: Is a conference business students can showcase their individual talents, while uniting their faculty, university and community; 127 Drake Centre; www.jdctoba.ca.

MIMC: Manitoba International Marketing Competition. A marketing competition that culminates when participating teams gather in Winnipeg to make presentations and have their marketing strategies judged by panels of academic and corporate judges; 144 Drake Centre; 474-6598; umanitoba.ca/mimc/contact/html.

MISA: Management Information Systems Association; 125 Drake Centre; www.misamanitoba.ca.

Shinerama: A student group dedicated to raising money for Cystic Fibrosis; umanitoba.ca/shinerama.

Toastmasters: Talking Bison Toastmasters; umanitoba.ca/student/groups/talking_bisons.

UMAC: University of Manitoba Actuarial Club; 123 Drake Centre; umanitoba.ca/actuary_club.

UMEC: University of Manitoba Entrepreneurs' Club; 121 Drake Centre; umanitoba.ca/student/groups/umec.

UMFO: University of Manitoba Finance Organization; 125 Drake Centre; www.umfo.com.

UMHRA: University of Manitoba Human Resource Association; 123 Drake Centre; umanitoba.ca/student/groups/umhra.

UMIG: University of Manitoba Investment Group; 125 Drake Centre; umanitoba.ca/student/groups/uminvestors.

UMMA: University of Manitoba Marketing Association; 123 Drake Centre; umanitoba.ca/student/groups/umma.

UMSC: University of Manitoba Supply Chain Organization

Beta Gamma Sigma

Beta Gamma Sigma is an international honour society recognizing the outstanding academic achievements of students enrolled in collegiate business programs accredited by AACSB – The Association to Advance Collegiate Schools of Business. Students who meet membership requirements are invited to join the University of Manitoba chapter. Selection recognizes academic achievement and expresses confidence in the student's ability and promise in becoming an outstanding business leader of the future. umanitoba.ca/csa/bgs.

4.5 Professional Affiliations

Professional Actuarial Associations

Students in the Actuarial program are encouraged to write professional actuarial examinations related to their program of studies. These professional examinations enable students to meet some of the membership requirements of the Canadian Institute of Actuaries and the Society of Actuaries.

The Society of Management Accountants of Manitoba

Graduates who wish to qualify for the professional designation of CMA (Certified Management Accountant) must meet the requirements established by the society. These requirements include courses of study, practical accounting experience, and examinations. Students should obtain the requirements of the society by contacting the Society of Management Accountants of Manitoba, 815-240 Graham Avenue, Winnipeg, Manitoba R3C 0J7, www.cma-manitoba.com.

The Institute of Chartered Accountants of Manitoba

Graduates who wish to qualify for the professional designation of CA (Chartered Accountant) must meet the requirements established by the institute. These requirements include courses of study, a period of practical experience, and satisfactory performance on examinations set by the institute. Students should obtain the current requirements of the institute by contacting the Institute of Chartered Accountants of Manitoba, 500 – 161 Portage Avenue East, Winnipeg, Manitoba R3B 0Y4, www.icam.mb.ca.

The Certified General Accountants' Association of Manitoba

Graduates wishing to qualify for the professional designation of CGA (Certified General Accountant) must complete the requirements established by the association. These requirements include courses of study, a period of practical experience, and satisfactory performance on examinations set by the association. Students should obtain the current requirements of the association by contacting the Certified General Accountants' Association of Manitoba, 4 Donald Street, Winnipeg, Manitoba R3L 2T7, www.cga-manitoba.org/cga.

SECTION 5: Academic Regulations

All students are asked to note that some academic policies and regulations are under review and are subject to change. Please check the Undergraduate Program Office for updated information.

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Asper School of Business has regulations and requirements, published below, which apply specifically to its students and to non-business students taking business courses.

5.1 Changes in Program Requirements

Once students are admitted to the Asper School and have successfully completed any portion of the program, they will not be required to meet new course requirements subsequently stipulated for that portion of the program, whether the requirements be for the faculty or for an individual major.

5.2 Evening Program

The Asper School of Business does not offer an evening program. Although a limited number of business courses may be offered in evening time slots during both the Regular and Summer Sessions, it is not possible to complete all the course requirements of the Bachelor of Commerce (Honours) program without recourse to daytime attendance.

5.3 Management Minor for Non-Business Students

The Management Minor consists of any 18 hours of credit in courses offered by the Asper School of Business. Entrance requirements and enrol-

ment limits vary with a student's faculty of registration. Students planning to enrol in this minor should consult a student advisor in your home faculty.

5.4 Program Regulations

***The Bachelor of Commerce (Honours) program undergoes changes from time to time. As a result, some changes in program structure, content and regulations may be made for the current and upcoming academic year. Specific program information for the regular program and the co-operative education program option may be obtained from the Undergraduate Program Office.

Student's Responsibility

It is the responsibility of all students to ensure that they follow the program of study as outlined in their chosen Major and that they meet all the requirements as specified by the University of Manitoba and the Asper School of Business.

When you are registering for courses, it is your responsibility to ensure that you have satisfied all prerequisite and concurrent course requirements.

It is your responsibility to ensure you have registered for the correct courses to satisfy the requirements of the Bachelor of Commerce (Honours) degree.

Read course descriptions carefully to make sure you are not registered for a course that "May Not Be Held With" a course you have already taken.

See the Asper School of Business chapter of the *Undergraduate Calendar* to determine the specific requirements of your program.

5.5 Prerequisite Requirements

Prerequisite requirements must be met for entry into and continuance in the faculty.

Students must also meet all individual course prerequisites for further study in the program.

A passing grade is acceptable for prerequisite purposes unless a higher grade is called for in the course description.

5.6 Degree GPA Requirement for Graduation

Students Admitted in 2000 and Thereafter

Students admitted to the Asper School of Business in 2000 and thereafter must achieve a minimum degree GPA of 2.00 on all 126 credit hours required in the B.Comm.(Hons.) degree program. Students must also achieve a passing grade of "D" or better in each course except for the individual courses required in the Track 1 requirements that require a grade of "C" or better in each course.

All qualifying year courses, Core courses, Major courses, Options, and Electives applicable to the B.Comm.(Hons.) degree requirements, as well as the grades achieved in each course, are transferred into the Asper School of Business and are included in the degree GPA.

5.7 Calculation of the Cumulative GPA

The computation of the cumulative GPA is the same as that described in the chapter, General Academic Regulations and Requirements.

5.8 Residence Requirement

All Business students must complete a minimum of 66 credit hours at the University of Manitoba in order to satisfy the residence requirement of the B.Comm.(Hons.) degree.

Students participating in approved International Exchange Programs may be exempt from the 66 credit hour requirement.

Students considering completing course work at another university are referred to the chapter, General Academic Regulations and Policy, and the section on Letter of Permission.

5.9 Time Limit for Completion of the Degree

The maximum period of eight years for completion of degree requirements will be reduced by one year for each block of 15 credit hours of advance standing received at the point of admission. This time limit applies to all students, whether full-time or part-time.

The maximum period for completion of degree requirements for students enrolled in the co-operative education option is currently under faculty review.

A student who does not complete all degree requirements within the time limit permitted will be required to withdraw from the faculty. Students may appeal to the Undergraduate Program Committee for a one year time extension; all appeals must be accompanied by a detailed explanation explaining the student's circumstances and appropriate supporting documentation.

5.10 Maximum Number of Failures

Each student in the Asper School of Business is permitted a maximum of 15 credit hours of failures. Students who exceed their limit of failures will be placed on Academic Suspension. Such students may enter the Reinstatement Program and should contact an Undergraduate Program Advisor in the Undergraduate Program Office for details.

5.11 Repeating and/or Substituting Courses

Maximum Limit Allowed

Each student will be permitted to repeat or substitute a maximum of 12 credit hours of previously passed courses, with a maximum of 6 credit hours per course within the regulations detailed below.

After completion of the approved course repeat or substitution, only the latest of the grades achieved will be included in the computation of the degree GPA.

Required Courses

A student who withdraws from a Core course or who obtains a grade of "F" in such a course should repeat that course during the following Fall or Winter Term. If a student repeats a course for which a grade was recorded, only the latest of the grades achieved will be included in the computation of the degree GPA.

Students may not substitute another course for a Core course.

Students should not subsequently withdraw from a Core course in which they have a previous withdrawal or failure except for those courses taken during Summer Session. If, on repeating the course, the student does not complete the course successfully, a grade of "F" will be recorded for that course on the student's history.

Major Courses

Students who achieve a grade of "F" in a Major course must either repeat that course or substitute another Major course if the Major requirements permit an alternate choice. Upon completion of the Major course, only the latest of the grades achieved will be included in the computation of the degree GPA. When a course is to be substituted, the student must seek the approval of the Undergraduate Program Office in writing prior to enrolling in the new course; failure to do so may result in a denial of the course substitution.

Electives and Options

Students who achieve a grade of "F" in an Elective or Option may either repeat that course or substitute another approved course in its place. Upon completion of the course, only the latest of the grades achieved will be included in the computation of the degree GPA. When a course is substituted for a failed Elective or Option, a student must request approval from the Undergraduate Program Office in writing prior to enrolling in the new course; failure to do so may result in a denial of the course substitution.

Voluntary Repeats

In order to improve their degree GPA, or to meet a prerequisite requirement, students may, with prior approval from the Undergraduate Program Office, voluntarily repeat any course in which a passing grade has been received, subject to any restrictions that may be published in the faculty registration guide and subject to the limits imposed at the point of admission. Students must request approval from the Undergraduate Program Office prior to enrolling in the course; failure to do so may result in a denial of the course substitution.

After completion of the approved course repeat or substitution, only the latest of the grades achieved will be included in the computation of the degree GPA.

5.12 Failure to Meet Requirements and Suspension & Reinstatement

Failure to meet the requirements for graduation within the limits specified above will result in the student being placed on Academic Suspension. Such students may enter the Reinstatement Program and should contact an Undergraduate Program Advisor in the Undergraduate Program Office for details.

Students will be placed on Academic Suspension as soon as it becomes evident that they will be unable to meet the requirements for the degree. Therefore, students in jeopardy should carefully monitor their first term results since they will be withdrawn from all second term Business courses if suspended, regardless of the date of official notification of the suspension.

Students who have been placed on Academic Suspension will only be considered for reinstatement into the Asper School of Business after the specific conditions of reinstatement have been met. Details concerning reinstatement are available from the Undergraduate Program Office.

5.13 Withdrawal from the Bachelor of Commerce (Honours) Program

- A student who does not register for any courses in the first academic year after admission will cease to be a student in the Asper School of Business. Such students must re-apply for admission if that is desired and will have to meet the requirements for admission at the time of the new application.

- A student who registers for course work in the first academic year after admission but subsequently voluntarily withdraws from all course work may be permitted to re-register at any time thereafter, subject to all faculty policies and requirements as they existed at the time of first admission. Such students should be aware of the time limit for completion of the degree.

- A student who applies for transfer to another university program and subsequently registers for courses will cease to be a student in the Asper School of Business. Such a student must re-apply for admission if that is desired and will have to meet the requirements for admission at the time of the new application.

5.14 Withdrawal from Individual Courses

Required Courses

Students in the Asper School of Business may withdraw without academic penalty from a required Core course provided they have not previously failed or withdrawn from that course and that they have met the Voluntary Withdrawal deadlines established by the university (see Deadline for Withdrawals in the Academic Schedule).

Electives and Options

Students may withdraw without academic penalty from an Elective or Option provided they do so before the final date for withdrawal (see Deadline for Withdrawals in the Academic Schedule).

Authorized Withdrawals

Authorized Withdrawals from courses after the registration revision period in each term may be granted on the basis of medical and compassionate grounds. A medical certificate signed by a physician or other appropriate professional must document medical grounds. Appeals based on compassionate reasons and circumstances must be supported by appropriate documentation. Students requesting Authorized Withdrawals should contact the Undergraduate Program Office.

5.15 Maximum Course Load/Minimum Course Load

Students are not permitted to take more than 18 credit hours during an academic term without permission from the Head of the department (and/or the Undergraduate Program Manager) of the student's Major.

Students enrolled in the co-operative education option are not permitted to take more than 3 credit hours during a co-operative work term.

Students enrolled in the co-operative education option are must register in a minimum of 9 credit hours between co-op work terms.

5.16 Course Selection and Requirements

All students are limited to a maximum of six credit hours of IDM 4050 Readings, IDM 4070 Research, and IDM 4080 Research. These courses are considered general Options, rather than as part of any Major.

ACC 3050 Taxation Accounting, ACC 3070 Tax Planning, FIN 3270 Personal Financial Planning, FIN 3420 Security Analysis and FIN 3440 Real Estate Investments are also considered general Options. They are not part of any Major.

5.17 Eligibility Requirements for Awards

To be eligible for the Dean's Honours List a student must complete a minimum of 12 credit hours of courses at the University of Manitoba during one academic term and achieve a term GPA of at least 3.50. Students participating in approved International Exchange Programs may be eligible for the Dean's Honour List.

To be eligible for most awards, a student must complete a minimum of 24 credit hours of courses at the University of Manitoba during an academic year consisting of consecutive fall and winter terms. Co-operative Education students are eligible to apply for most awards; please check the Asper Undergraduate Program web site and/or with the Financial Aid and Awards Office for more information on the eligibility requirements for Co-operative Education students.

The degree "With Distinction" will be awarded to all students graduating with the B.Comm.(Hons.) Degree who attain a degree GPA of 3.80 or better on the following criteria.

Students admitted to the Asper School of Business in 2000 and thereafter will have their degree GPA will be determined on the basis of all courses which form a part of the 126 credit hours required in the four-year degree program.

The University Gold Medal in Business is currently under review – Please check with the Undergraduate Program Office to see if any changes to the below regulations have been approved for the 2009-2010 Academic Year.

The University Gold Medal in Business shall be awarded to the graduating student who has achieved the highest cumulative grade point average (minimum 3.80) based on the last four Regular Session terms of their program. The student must be registered in a minimum 80% course load during the last four Regular Session terms. An 80% course load is considered to be 24 credit hours over a Regular Session consisting of consecutive fall and winter terms. When a student has not taken consecutive fall and winter terms, an 80% course load will be considered to be 12 credit hours in a term. Summer Session courses will not be included in this credit calculation. All courses (including Letter of Permission courses, repeats, substitutions, and special student status courses) are to be used to determine the credit load requirement, but the grade point average will be calculated on University of Manitoba courses only. Students graduating in October, February and May are eligible for the Gold Medal which shall be awarded annually at the May Convocation.

Students interested in bursaries, awards and scholarships should contact the Undergraduate Program Office and Financial Aid and Awards for information.

5.18 Examination Regulations

For the particular examination regulations, including deferred examinations, pertinent to the Faculty, students are referred to the pamphlet, Examination Regulations for the Asper School of Business, available from the Undergraduate Program Office. The faculty does not offer supplemental examinations. Contact the Undergraduate Program Office for information on Challenge for Credit.

5.19 Letter of Permission to Take Courses at Another University

Students wishing to complete courses at another institution for credit at the University of Manitoba will apply for written permission from the Registrar's Office prior to registering at the other institution. Students should apply for the Letter of Permission at least 4-6 weeks in advance. To be eligible to take courses on a Letter of Permission, a Business student must have completed a minimum of 24 credit hours in the Asper School of Business in addition to any transfer credits received upon admission.

Grades achieved in courses taken on a Letter of Permission shall be transferred to the student's academic record and shall be included in the cumulative and degree GPA, but will not be included in a student's term GPA.

For more information on the requirements for appropriate supporting documentation contact the Undergraduate Program Office.

5.20 Plagiarism, Cheating and Personation

The Asper School of Business has adopted the Senate definition and policy on plagiarism, cheating and personation as described in the chapter, General Regulations and Requirements. A student found guilty of participating in any of these activities is subject to serious academic penalty and possible prosecution under the Canadian Criminal Code.

5.21 Student Appeals of Academic Regulations

Except as otherwise noted, student appeals should be directed to the Secretary of the Undergraduate Program Committee in the Undergraduate Program Office. The Committee considers appeals from Asper students who request special consideration in respect to rules and regulations governing their programs of study.

A certificate from an appropriate professional agency, such as the University Counselling Service or a licensed medical practitioner, should support appeals based on compassionate or medical problems.

5.22 Security of Academic Records

The Asper School of Business has adopted supplementary criteria and procedures on access to student academic records to supplement the university policy on Disclosure and Security of Student Academic Records. Copies of these policies are available in the Undergraduate Program Office.

SECTION 6: Program Requirements for the Asper School of Business Bachelor of Commerce (Honours) Program – Track 1 with Guaranteed Admission, Track 1, and Track 2

6.1 General Structure of the Program

The Bachelor of Commerce (Honours) degree is comprised of 126 credit hours and can be divided into the following components:

- The Qualifying Year (Track 1) Course Requirements (24 credit hours completed by April 30)
- The Core (57 credit hours)
- The Major (12 credit hours)
- Business Options (15-18 credit hours)
- Electives (15-18 credit hours)

These components comprise 126 credit hours; their associated limits are defined below.

Based on entry to the faculty with the minimum 24 credit hours completed by April 30. Although 24 credit hours is the minimum requirement for admission, a full year course load would require 30 credit hours; therefore, students only taking 24 credit hours for admission will need to pick up an extra 6 credit hours of course work once in the Asper School of Business.

See Applicant Bulletin for complete details.

Qualifying Year Course Requirements

All students must complete the specified Qualifying Year course requirements. Track 1 and Track 1 with Guaranteed Admission from High School students complete these requirements prior to their admission to the Asper School of Business. Track 2 students have completed 24 credit hours of university course work but are missing one or more of the specific Qualifying Year courses. Track 2 students should complete all outstanding Qualifying Year (Track 1) courses during their first year after admission to the Asper School of Business and must achieve a minimum grade of "C" in each outstanding Qualifying Year course.

The Core

The CORE consists of 57 credit hours of specified mandatory courses from all four departments in this faculty as well as courses taught by the departments of Computer Science, Statistics, Philosophy and Religion. All students are required to complete the Core. The Core presents the essence of a business degree program. The majority of the Core courses are taken in the first two years after admission to the Asper School of Business.

The Major

Each student must complete the course requirements of one MAJOR. Each department and the Dean's Office have developed one or more Majors. Each Major consists of a 12 credit hours of course work specified by the department. Subject to demand and faculty resources, specialized Majors are available in Aboriginal Business Studies, Accounting, Actuarial Mathematics, Entrepreneurship/Small Business, Finance, Generalist, Human Resources Management/Industrial Relations, International Business, Logistics and Supply Chain Management, Management Information Systems, Management of Organizations, Marketing, and Operational Research/Operations Management. A list of the Departments and the Majors they oversee is outlined below.

Students will normally choose a Major at the beginning of the third year of the program, following completion of many of the Core courses, which introduce the areas. Students have an opportunity to transfer from one Major to another, but this opportunity decreases as the student progresses in the program.

Students Wishing to Complete Two Majors

Asper School of Business policy: "Students will not be given any registration priority for a second major." The Asper School of Business cannot guarantee that you will obtain space in the courses you would like for a second major.

Students who have completed all the requirements or who have all the courses in registration for a major are not permitted to formally declare a different major unless there is space in the courses needed to complete the different major. Students are not permitted to declare a different major in order to obtain space in full courses.

Business Options

The third component of the program consists of a required number of Business courses freely selected by the student. These courses are referred to as Business OPTIONS. Students must complete at least 15 and not more than 18 hours of Options. Some students may want to take Options which will supplement their Major, whereas other students may prefer to broaden their educational base by selecting Business courses in another or several other Majors. Students who want to supplement their Majors may take up to 12 hours of their Options from that area. Students may complete a second Major as part of their Options requirements. Such students should consult with staff in the Undergraduate Program Office.

Electives

The fourth component of the program is the ELECTIVE requirement. An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business. Students must complete at least 15 and not more than 18 credit hours of Electives.

The total of Major/Option/Elective courses is 45 credit hours. Therefore each student may choose a 12/15/18 credit hour combination or 12/18/15 credit hour combination (based on entry to the faculty with the minimum 24 credit hours).

6.2 Course Requirements

The tables below list the Core courses that all Business students must complete. The courses are listed by year in a *suggested* sequence. Students normally complete the Core courses in the sequence shown.

To determine which additional courses to take each year (i.e., non-Core courses) students should consult the listing of course requirements for each year of their chosen Major.

YEAR 2 of the 4-Year Program

STAT 1000	3

NOTES:

1) Critical Thinking requirement: One of the following courses: PHIL 1200, PHIL 1290, PHIL 1320, or PHIL 2850. If a six credit hour course is chosen, three credit hours will count as Electives.

2) In addition to 57 credit hours of Core courses all students must take 12 credit hours in one Major, 15 or 18 credit hours of Business Options and 15 or 18 credit hours of Electives (based on entry to the faculty with the minimum 24 credit hours).

3) Ethics requirement: One of the following courses: PHIL 2290, PHIL 2740, PHIL 2750, PHIL 2790, PHIL 2830, PHIL 2840, RLGN 1420, or GMGT 3581. If a six credit hour course is chosen, three credit hours will count as Electives.

4) An additional six credit hours are flexible and must also be completed.

5) Students may register for Electives in any year. Registration in Options and Major courses normally begins in Year 3 of the 4-Year program.

6.3 Asper School of Business Requirements for Majors

All students must complete the Core, one of the Majors listed below, as well as the Option and Elective course components (15-18 hours of Options and 15-18 hours of Electives based on entry to the faculty with the minimum 24 credit hours). Students who intend to complete a second major should note that when a course is applicable to two different majors, that course may be used to satisfy only one set of major requirements.

Aboriginal Business Studies

The Major consists of NATV 4220, IDM 3000 plus six credit hours from ENTR 3100, ENTR 4100, FIN 3250, FIN 3470, GMGT 4150, IDM 4090, NATV 3000 (topic: Aboriginal Wisdom and Spirituality), or NATV 3350.

Accounting

The Major consists of: ACC 2010, ACC 2020, ACC 3040 and ACC 4030. The prerequisite for ACC 2010 is "C+" in ACC 1100 and for ACC 3040 is "C+" in ACC 1110.

Actuarial Mathematics

The Major consists of any 12 hours from ACT 2020, ACT 2120, ACT 2210, ACT 3130, ACT 3230, ACT 3330, ACT 3530, ACT 4140, ACT 4240, and ACT 4340.

Prior to registration, all students enrolled in Actuarial Mathematics should consult the Director or a Undergraduate Program Advisor for program planning advice.

To facilitate entry into and understanding of material covered in some advanced Actuarial courses, students entering the second year of the four-year program are advised to take the following courses: MATH 2720 plus MATH 2730 or MATH 2750 (which satisfies the elective requirement). Students declaring Actuarial Mathematics as their first major may take these courses as either Business Options or non-Business Electives.

Students admitted in Fall 2006 and thereafter are required to attain a minimum grade of "C+" in all Actuarial courses in order to graduate with a Actuarial Mathematics Major.

Entrepreneurship/Small Business

The Major consists of: ENTR 3100, ENTR 4100, FIN 3470 and one of: ACC 3050, FIN 3250, ACC 3530, ACT 4050, ENTR 3102 (not to be held with the former GMGT 3050), ENTR 3104, ENTR 3106, GMGT 3080, MKT 3220, MKT 3310 or MKT 4270.

Finance

The Major consists of: FIN 3410, FIN 3460, FIN 3480, and FIN 4400.

Finance Options are: FIN 3450, FIN 4230, FIN 4260, and FIN 4270. Students in the Finance Major may take all of these courses.

The prerequisite for FIN 3410, FIN 3460 and FIN 3480 is a "C+" in FIN 2220.

Generalist

The Major consists of one course from the list of courses from four different Majors (i.e., Options that are not part of a Major's requirements are not eligible for the Generalist Major).

Human Resources Management/Industrial Relations

The Major consists of: HRIR 3450 plus three of the following: HRIR 4410, HRIR 4420, HRIR 4480, HRIR 4520 OR HRIR 3450 plus two of the following: HRIR 4410, HRIR 4420, HRIR 4480, HRIR 4520, plus one of the following: HRIR 3430, LABR 3010, LABR 3060, LABR 3070, LABR 3130, and LABR 3140.

Students admitted prior to September 2005 may complete the following requirements: HRIR 3450 plus any three of the following: HRIR 3430, HRIR 4410, HRIR 4420, HRIR 4480 or HRIR 4520.

Students entering the second year of the four-year program are advised to take HRIR 2440 since it is a prerequisite to advanced courses in the area.

International Business

The Major consists of: FIN 3450, INTB 2200, HRIR 4520, and MKT 3300.

Students admitted prior to September 2000 may complete the following requirements: INTB 2200; one of either FIN 3450 or MKT 3300; plus two of ACC 3060*, FIN 3450 (if not already chosen), FIN 3460, GMGT 3020*, GMGT 4120, HRIR 4520, MKT 3240*, or MKTG 3300 (if not already chosen). (*Selected topics must be an approved international topic.)

Students majoring in International Business are permitted to take 12 credit hours of a foreign language and/or courses with an international focus from an approved list and have these non-business courses count as Business Options. The list is available in the Undergraduate Program Office.

Logistics and Supply Chain Management

The Major consists of: SCM 2210, SCM 2230, SCM 3360 plus one of the following: SCM 2220, SCM 3230, SCM 4250 (not to be held with the former SCM 4240), OPM 4630.

Students admitted prior to September 2005 may complete the following requirements: SCM 2210, SCM 2220, SCM 3360, OPM 4630.

Recommended Options/Electives in this area include: MIS 3500, MIS 3510, INTB 2200, HRIR 3450, GMGT 3120, GMGT 3160, GMGT 4160, MSCI 3400, IDM 4050, IDM 4070, IDM 4080, MKT 3220, MKT 3320, MKT 3340, MKT 4410, GEOG 3800, ECON 2450, ECON 2460.

Management Information Systems

The Major consists of MIS 3500, MIS 3510, MIS 3520, and MIS 4500.

Students admitted to Asper prior to September 2004 may complete the following requirements: COMP 1010, MIS 3500, MIS 3510, and MIS 4500.

Options available in this area are ACC 3530 and MIS 4250.

Students interested in pursuing the Management Information Systems Major are encouraged to take MIS 2000 in the second year of the four-year program since it is a prerequisite to advanced courses in the area.

Students interested in pursuing the Management Information Systems Major are also encouraged, but not required, to complete COMP 1020.

Management of Organizations

The Major consists of any 12 hours from: GMGT 3010, GMGT 3020, GMGT 3040, GMGT 3160, GMGT 4040, GMGT 4140 and GMGT 4150. Students entering the second year of the four-year program are advised to take GMGT 2070 and GMGT 2080 since they are prerequisites to advanced courses in the area.

Marketing

The Major consists of MKT 3220, MKT 3230, MKT 4210 and 3 hours from MKT 3240, MKT 3250, MKT 3300, MKT 3310, MKT 3320, MKT 3340, MKT 3390, MKTG 4240, MKTG 4270 or MKTG 4410. In addition to the 12 credit hours required for the major, Marketing students may take up to an additional 12 credit hours from the above list.

Operational Research/Operations Management

The Major consists of any 12 hours from MSCI 3400, OPM 3650, OPM 3660, OPM 3670, MSCI 4220, MSCI 4230, OPM 4620, and OPM 4630.

Prior to registration, all students enrolled in Operational Research/Operations Management should consult the Department Head or a Undergraduate Program Advisor for program planning advice.

SECTION 7: Program Requirements for the Asper School of Business/Red River College Joint Program

7.1 General Structure of the Program

Prior to admission to the Asper School of Business/Red River College Joint Program, students must complete the Business Administration Diploma (University Stream) at Red River College with a minimum cumulative grade point average of 3.00. Students must have graduated from the Diploma program within the last 5 years to be eligible for admission. Admission is limited and competitive. Following admission to the Asper School of Business, students in the Joint Program will be required to complete 72 credit hours to earn the Bachelor of Commerce (Honours) degree. The 72 credit hours can be divided into the following components: the Core, the Major, Business Options, and Electives. These components and their associated limits are defined below.

The Core

The CORE comprises 33 credit hours of the 72 required in the Joint Program. It consists of specified mandatory courses from Accounting and Finance, Business Administration, Mathematics, Philosophy and/or Religion, and any department that offers a Written English course. The Qualifying Core courses (12 credit hours) should be taken in the first year at the Asper School. Students must achieve a minimum "C" grade in each Qualifying Core course. The Program Core courses (21 credit hours) may be taken at any point in the program, but the course GMGT 4010 must be taken in the student's final term. Core courses are listed in Section 7.2.

The Major

Each student must complete the course requirements of one MAJOR. Each Major will consist of a 12 credit hour unit of course work. Information on completing a Second Major is listed in Section 6.1. The Majors are listed in Section 6.3.

NOTE: Students in the Asper School of Business/Red River College Joint Program who want to major in Finance will be required to take FIN 2200 as one of their Business Options. Likewise, students who want to major in Management of Organizations must take GMGT 2080 as one of their Business Options.

Students may begin taking courses for their major as soon as prerequisites are met. Students have an opportunity to transfer from one Major to another, but this opportunity decreases as the student progresses in the program.

Business Options

The third component of the program consists of a required number of Business courses freely selected by the student. These courses are referred to as Business OPTIONS. Students must take at least 15 and not more than 18 credit hours of Options. Some students may want to take Options which will supplement their Major, whereas other students may prefer to broaden their educational base by selecting Business courses in another or several other Majors. Students who want to supplement their Majors may take up to 12 credit hours of their Options from that area. Students may complete a second Major as part of their Options requirements. Such students should consult with staff in the Undergraduate Program Office.

Electives

The fourth component of the program is the ELECTIVE requirement. An elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business. Students must take at least nine and not more than 12 credit hours of electives.

The total of Major/Option/Elective courses is 39 credit hours. Therefore each student may choose a 12/15/12 credit hour combination or 12/18/9 credit hour combination.

7.2 Course Requirements

The course requirements for the Asper School of Business/Red River College Joint Program are as follows.

Qualifying Core Courses (12 credit hours)

(Students should register for the qualifying Core courses in their first year at the University of Manitoba and must achieve a minimum "C" grade in each course.)

MATH 1310 or MATH 1300 (see note 1)	3 credit hours
MATH 1520 or MATH 1500 (see note 1)	3 credit hours
Written English Course/Elective (see note 2)	6 credit hours
Program Core Requirements (21 credit hours)	
ACC 1110	3 credit hours
MIS 2000	3 credit hours
GMGT 2120	3 credit hours
OPM 2600	3 credit hours
GMGT 4010 (must be taken in final term)	3 credit hours
Critical Thinking (see note 3)	3-6 credit hours
Ethics (see note 4)	3-6 credit hours

NOTES:

1) The prerequisite for MATH 1310, MATH 1300, MATH 1520, and MATH 1500 is a 60 per cent in Grade 12 Pre-Calculus Mathematics 40S or equivalent or a grade of "C" in the Mathematical Skills course taught by Extended Education. Students who have been admitted into the Asper School of Business/Red River College Joint Program and who successfully complete the Mathematical Skills course may be entitled to an additional three credit hour Elective from their Business Administration diploma.

2) Students may select a six credit hour or a three credit hour course to satisfy the Written English requirement. Students who select a three credit hour Written English course must complete a three credit hour Elective to complete the six credit hour requirement. Courses that satisfy the Written English requirement are listed in the chapter, General Academic Regulations and Policy.

3) All Business students must complete three credit hours of Critical Thinking. Students may fulfil this requirement by completing one of the following courses: PHIL 1200 (6), PHIL 1290 (3), PHIL 1320 (6), or PHIL 2850 (3). If a six credit hour course is chosen, three credit hours will count toward the core Critical Thinking requirement and three credit hours will count as Electives.

4) All Management students must complete three credit hours of Ethics. Students may fulfil this requirement by completing one of the following courses: PHIL 2290 (6), PHIL 2740(3), PHIL 2750 (3), PHIL 2790 (6), PHIL 2830 (3), PHIL 2840(3), RLG 2450 (3), or GMGT 3581 (3). If a six credit hour course is chosen, three credit hours will count toward the core Ethics requirement and three credit hours will count as Electives.

Program Requirements

Qualifying Core Courses	12 credit hours
Program Core Courses	21 credit hours

Major Courses	12 credit hours
Business Options	15 - 18 credit hours
Electives	9-12 credit hours
Total Credit Hours	72

7.3 Requirements for Majors

In addition to the Core requirements, the Options and the Electives, all students must complete the requirements of one of the Majors listed in Section 6.3.

NOTE: Students in the Asper School of Business/Red River College Joint Program who want to major in Finance will be required to take FIN 2200 as one of their Business Options. Likewise, students who want to major in Management of Organizations must take GMGT 2080 as one of their Business Options.

SECTION 8: Program Requirements for the Asper School of Business/ Assiniboine Community College Joint Program

8.1 General Structure of the Program

Prior to admission to the Asper School of Business/Assiniboine Community College Joint Program students must complete the Business Administration Diploma (University Stream) at Assiniboine Community College with a minimum cumulative grade point average of 3.00. Students must have graduated from the Diploma program within the last 5 years to be eligible for admission. Admission is limited and competitive. Following admission to the Asper School of Business, students in the Joint Program will be required to complete 72 credit hours to earn the Bachelor of Commerce (Honours) degree. The 72 credit hours can be divided into the following components: the Core, the Major, Business Options, and Elective courses. These components and their associated limits are defined below.

NOTE: The Joint Program is currently under review; transfer credit details are subject to change.

The Core

The CORE comprises 42 credit hours of the 72 required in the Joint Program. It consists of specified mandatory courses from Accounting and Finance, Business Administration, Mathematics, Philosophy and/or Religion, Psychology or Sociology, and any department that offers a Written English course. The Qualifying Core courses (18 credit hours) should be taken in the first year in the Asper School. Students must achieve a minimum "C" grade in each Qualifying Core course. The Program Core courses (24 credit hours) may be taken at any point in the program, but the course GMGT 4010 must be taken in the student's final term. Core courses are listed in Section 8.2.

The Major

Each student must complete the course requirements of one MAJOR. Each Major will consist of a 12 credit hour unit of course work. Information on completing a Second Major is listed in Section 6.1. The Majors are listed Section 6.3.

NOTE: Students in the Asper School of Business/Assiniboine Community College Joint Program who want to major in Finance will be required to take FIN 2200 as one of their Business options. Likewise, students who want to major in Marketing must take MKT 2210 as one of their Business Options.

Students may begin taking courses for their major as soon as prerequisites are met. Students have an opportunity to transfer from one Major to another, but this opportunity decreases as the student progresses in the program.

Business Options

The third component of the program consists of a required number of Business courses freely selected by the student. These courses are referred to as Business OPTIONS. Students must take at least nine and not more than 12 hours of Options. Some students may want to take Options which will supplement their Major, whereas other students may prefer to broaden their educational base by selecting Business courses in other Majors. Students who want to supplement their Majors may take up to 12 hours of their Options from that area. Students may complete a second Major as part of their Options requirements. Such students should consult with staff in the Undergraduate Program Office.

Electives

The fourth component of the program is the ELECTIVE requirement. An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business. Students must take at least six and not more than nine credit hours of Electives.

The total of Major/Option/Elective courses is 30 credit hours. Therefore each student may choose a 12/9/9 credit hour combination or 12/12/6 credit hour combination.

8.2 Course Requirements

The course requirements for the Asper School of Business/Assiniboine Community College Joint Program are as follows.

Qualifying Core Courses (18 credit hours)

(Students should register for the qualifying Core courses in their first year at the University of Manitoba and must achieve a minimum "C" grade in each course.)

MATH 1310 or MATH 1300 (see note 1)	3 credit hours
MATH 1520 or MATH 1500 (see note 1)	3 credit hours
PSYC 1200 or SOC 1200	6 credit hours
Written English Course/Elective (see Note 2)	6 credit hours

Program Core Requirements (24 credit hours)

MIS 2000	3 credit hours
GMGT 2080	3 credit hours
GMGT 2120	3 credit hours
MSCI 2150	3 credit hours
OPM 2600	3 credit hours
GMGT 4010 (must be taken in final term)	3 credit hours
Critical Thinking (see Note 3)	3-6 credit hours
Ethics (see Note 4)	3-6 credit hours

NOTES:

1) The prerequisite for MATH 1310, MATH 1300, MATH 1520, and MATH 1500 is 60 per cent in Grade 12 Pre-Calculus Mathematics 40S or equivalent or a grade of "C" in the Mathematical Skills course taught by Extended Education. Students who have been admitted into the Asper School of Business/ Assiniboine Community College Joint Program and who successfully complete the Mathematical Skills course may be entitled to an additional three credit hour Elective from their Business Administration diploma.

2) Students may select a six credit hour or a three credit hour course to satisfy the Written English requirement. Students who select a three credit hour Written English course must complete a three credit hour Elective to complete the six credit hour requirement. Courses that satisfy the Written English requirement are listed in the chapter, General Academic Regulations and Policy.

3) All Business students must complete three credit hours of Critical Thinking. Students may fulfil this requirement by completing one of the following courses: PHIL 1200 (6), PHIL 1290 (3), PHIL 1320 (6), or PHIL 2850 (3). If a six credit hour course is chosen, three credit hours will count toward the core Critical Thinking requirement and three credit hours will count as Electives.

4) All Business students must complete three credit hours of Ethics. Students may fulfil this requirement by completing one of the following courses: PHIL 2290 (6), PHIL 2740(3), PHIL 2750 (3), PHIL 2790 (6), PHIL 2830 (3), PHIL 2840(3), RLG 2450 (3), or GMGT 3581 (3). If a six credit hour course is chosen, three credit hours will count toward the core Ethics requirement and three credit hours will count as Electives.

Program Requirements

Qualifying Core Courses	18 credit hours
Program Core Courses	24 credit hours
Major Courses	12 credit hours
Business Options	9 - 12 credit hours
Electives	6 - 9 credit hours
Total credit hours	72 credit hours

8.3 Requirements for Majors

In addition to the Core requirements, the Options and the Electives, all students must complete the requirements for one of the Majors listed in Section 6.3.

NOTE: Students in the Asper School of Business/Assiniboine Community College Joint Program who want to major in Finance will be required to take FIN 2200 as one of their Business options. Likewise, students who want to major in Marketing must take MKT 2210 as one of their Business Options.

SECTION 9: Program Requirements for the Asper School of Business/ University College of the North Joint Program

9.1 General Structure of the Program

Prior to admission to the Asper School of Business/Keewatin Community College Joint Program students must complete the Business Administration Diploma (University Stream) at Keewatin Community College with a minimum cumulative grade point average of 3.00. Students must have graduated from the Diploma program within the last 5 years to be eligible for admission. Admission is limited and competitive. Following admission to the Asper School of Business, students in the Joint Program will be required to complete 87 credit hours to earn the Bachelor of Commerce (Honours) degree. The 87 credit hours can be divided into the following components: the Core, the Major, Business Options, and Electives. These components and their associated limits are defined below.

NOTE: The Joint Program is currently under review; transfer credit details are subject to change.

The Core

The CORE comprises 48 credit hours of the 87 required in the Joint Program. It consists of specified mandatory courses from Accounting and Finance, Business Administration, Computer Science, Mathematics, Philosophy and/or Religion, Psychology or Sociology, Statistics and any department that offers a Written English course. The Qualifying Core courses (18 credit hours) should be taken in the first year in the Asper School. Students must achieve a minimum "C" grade in each Qualifying Core course. The Program Core courses (30 credit hours) may be taken at any point in the program, but the course GMGT 4010 must be taken in the student's final term. Core courses are listed in Section 9.2.

The Major

Each student must complete the course requirements of one MAJOR. Each Major will consist of a 12 credit hour unit of course work. Information on completing a Second Major is listed in Section 6.1. The Majors are listed in Section 6.3.

NOTE: Students in the Asper School of Business/University College of the North Joint Program who want to major in Finance will be required to take FIN 2200 as one of their Business Options. Likewise, students who want to major in Marketing must take MKT 2210 as one of their Business Options.

Students may begin taking courses for their major as soon as prerequisites are met. Students have an opportunity to transfer from one Major to another, but this opportunity decreases as the student progresses in the program.

Business Options

The third component of the program consists of a required number of Business courses freely selected by the student. These courses are referred to as Business OPTIONS. Students must take at least 15 and not more than 18 hours of Options. Some students may want to take Options which will supplement their Major, whereas other students may prefer to broaden their educational base by selecting Business courses in other Majors. Students who want to supplement their Majors may take up to 12 hours of their Options from that area. Students may complete a second Major as part of their Options requirements. Such students should consult with staff in the Undergraduate Program Office.

Electives

The fourth component of the program is the ELECTIVE requirement. An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business. Students must take at least nine and not more than 12 credit hours of Electives.

The total of Major/Option/Elective courses is 39 credit hours. Therefore each student may choose a 12/15/12 credit hour combination or 12/18/9 credit hour combination.

9.2 Course Requirements

The course requirements for the Asper School of Business/University College of the North Joint Program are as follows.

Qualifying Core Courses (18 credit hours)

(Students should register for the Qualifying Core courses in their first year at the University of Manitoba and must achieve a minimum "C" grade in each course.)

MATH 1310 or MATH 1300 (see Note 1)	3 credit hours
MATH 1520 or MATH 1500 (see Note 1)	3 credit hours
PSYC 1200 or SOC 1200	6 credit hours
Written English Course/Elective (see note 2)	6 credit hours

Program Core Requirements (30 credit hours)

STAT 1000	3 credit hours
STAT 2000	3 credit hours
MIS 2000	3 credit hours
GMGT 2120	3 credit hours
MSCI 2150	3 credit hours
OPM 2600	3 credit hours
GMGT 4010 (must be taken in final term)	3 credit hours
COMP 1260	3 credit hours
Critical Thinking (see note 3)	3-6 credit hours
Ethics (see note 4)	3-6 credit hours

NOTES:

1) The prerequisite for MATH 1310, MATH 1300, MATH 1520, and MATH 1500 is a 60 per cent in Grade 12 Pre-Calculus Mathematics 40S or equivalent or a grade of "C" in the Mathematical Skills course taught by Extended Education. Students who have been admitted into the Asper School of Business/University College of the North Joint Program and who successfully complete the Mathematical Skills course may be entitled to an additional three credit hour Elective from their Business Administration diploma.

2) Students may select a six credit hour or a three credit hour course to satisfy the Written English requirement. Students who select a three credit hour Written English course must complete a three credit hour Elective to complete the six credit hour requirement. Courses that satisfy the Written English requirement are listed in the chapter, General Academic Regulations and Policy.

3) All Business students must complete three credit hours of Critical Thinking. Students may fulfil this requirement by completing one of the following courses: PHIL 1200 (6), PHIL 1290 (3), PHIL 1320 (6), or PHIL 2850 (3). If a six credit hour course is chosen, three credit hours will count toward the core Critical Thinking requirement and three credit hours will count as Electives.

4) All Business students must complete three credit hours of Ethics. Students may fulfil this requirement by completing one of the following courses: PHIL 2290 (6), PHIL 2740(3), PHIL 2750 (3), PHIL 2790 (6), PHIL 2830 (3), PHIL 2840(3), RLG 2450 (3), or GMGT 3581 (3). If a six credit hour course is chosen, three credit hours will count toward the core Ethics requirement and three credit hours will count as Electives.

Program Requirements

Qualifying Core Courses	18 credit hours
Program Core Courses	30 credit hours
Major Courses	12 credit hours
Business Options	15 - 18 credit hours
Electives	9 - 12 credit hours
Total Credit Hours	87

9.3 Requirements for Majors

In addition to the Core requirements, the Options, and the Electives, all students must complete the requirements of one of the majors listed in Section 6.3.

NOTE: Students in the Asper School of Business/University College of the North Joint Program who want to major in Finance will be required to take FIN 2200 as one of their Business Options. Likewise, students who want to major in Marketing must take MKT 2210 as one of their Business Options.

SECTION 10: Program Requirements for the Asper School of Business/École technique et professionnelle Joint Program

10.1 General Structure of the Program

Prior to admission to the Asper School of Business/École technique et professionnelle Joint Program students must complete the Business Administration Diploma (University Stream) at École technique et professionnelle with a minimum cumulative grade point average of 3.00. Students must have graduated from the Diploma program within the last 5 years to be eligible for admission. Admission is limited and competitive. Following admission to the Asper School of Business, students in the Joint Program will

be required to complete 72 credit hours to earn the Bachelor of Commerce (Honours) degree. The 72 credit hours can be divided into the following components: the Core, the Major, Business Options, and Electives. These components and their associated limits are defined below.

The Core

The CORE comprises 42 credit hours of the 72 required in the Joint Program. It consists of specified mandatory courses from Accounting and Finance, Business Administration, Mathematics, Philosophy and/or Religion, Psychology or Sociology, Statistics, and any department that offers a Written English course. The Qualifying Core courses (18 credit hours) should be taken in the first year in the Asper School. Students must achieve a minimum "C" grade in each Qualifying Core course. The Program Core courses (24 credit hours) may be taken at any point in the program, but the course GMGT 4010 must be taken in the student's final term. Core courses are listed in Section 10.2.

The Major

Each student must complete the course requirements of one MAJOR. Each Major will consist of a 12 credit hour unit of course work. Information on completing a Second Major is listed in Section 6.1. The Majors are listed in Section 6.3.

NOTE: Students in the Asper School of Business/École technique et professionnelle joint program who want to major in Finance will be required to take FIN 2200 as one of their Business Options. Likewise, students who want to major in Management Information Systems must take MIS 2000 as one of their Business Options.

Students may begin taking courses for their major as soon as prerequisites are met. Students have an opportunity to transfer from one Major to another, but this opportunity decreases as the student progresses in the program.

Business Options

The third component of the program consists of a required number of Business courses freely selected by the student. These courses are referred to as Business OPTIONS. Students must take at least nine and not more than 12 hours of Options. Some students may want to take Options which will supplement their Major, whereas other students may prefer to broaden their educational base by selecting Business courses in other Majors. Students who want to supplement their Majors may take up to 12 hours of their Options from that area. Students may complete a second Major as part of their Options requirements. Such students should consult with staff in the Undergraduate Program Office.

Electives

The fourth component of the program is the ELECTIVE requirement. An Elective is any three or six credit hour course freely chosen by the student from courses taught in the degree programs of other faculties and schools, excluding the Asper School of Business. Students must take at least six and not more than nine credit hours of Electives.

The total of Major/Option/Elective courses is 30 credit hours. Therefore each student may choose a 12/9/9 credit hour combination or 12/12/6 credit hour combination.

10.2 Course Requirements

The course requirements for the Asper School of Business/École technique et professionnelle Joint Program are as follows.

Qualifying Core Courses (18 credit hours)

(Students should register for the Qualifying Core courses in their first year at the University of Manitoba and must achieve a minimum "C" grade in each course.)

MATH 1310 or MATH 1300 (see note 1)	3 credit hours
MATH 1520 or MATH 1500 (see note 1)	3 credit hours
PSYC 1200 or SOC 1200	6 credit hours
Written English Course/Elective (see note 2)	6 credit hours

Program Core Requirements (24 credit hours)

STAT 2000	3 credit hours
MIS 2000	3 credit hours
GMGT 2120	3 credit hours
MSCI 2150	3 credit hours
OPM 2600	3 credit hours
GMGT 4010 (must be taken in final term)	3 credit hours
Critical Thinking (see note 3)	3-6 credit hours
Ethics (see note 4)	3-6 credit hours

NOTES:

1) The prerequisite for MATH 1310, MATH 1300, MATH 1520, and MATH 1500 is a 60 per cent in Grade 12 Pre-Calculus Mathematics 40S or equivalent or a grade of "C" in the Mathematical Skills course taught by Extended Education. Students who have been admitted into the Asper School of Business/École technique et professionnelle Joint Program and who successfully complete the Mathematical Skills course may be entitled to an additional three credit hour Elective from their Business Administration diploma.

2) Students may select a six credit hour or a three credit hour course to satisfy the Written English requirement. Students who select a three credit hour Written English course must complete a three credit hour Elective to complete the six credit hour requirement. Courses that satisfy the Written English requirement are listed in the chapter, General Academic Regulations and Policy.

3) All Business students must complete three credit hours of Critical Thinking. Students may fulfil this requirement by completing one of the following courses: PHIL 1200 (6), PHIL 1290 (3), PHIL 1320 (6), or PHIL 2850 (3). If a six credit hour course is chosen, three credit hours will count toward the core Critical Thinking requirement and three credit hours will count as Electives.

4) All Business students must complete three credit hours of Ethics. Students may fulfil this requirement by completing one of the following courses: PHIL 2290 (6), PHIL 2740(3), PHIL 2750 (3), PHIL 2790 (6), PHIL 2830 (3), PHIL 2840(3), RLGN 2450 (3), or GMGT 3581 (3). If a six credit hour course is chosen, three credit hours will count toward the core Ethics requirement and three credit hours will count as Electives.

Program Requirements

Qualifying Core Courses	18 credit hours
Program Core Courses	24 credit hours
Major Courses	12 credit hours
Business Options	9 - 12 credit hours
Electives	6 - 9 credit hours
Total Credit Hours	72

10.3 Requirements for Majors

In addition to the Core requirements, the Options, and the Elective course components, all students must complete the requirements of one of the Majors in Section 6.3.

NOTE: Students in the Asper School of Business/École technique et professionnelle joint program who want to major in Finance will be required to take FIN 2200 as one of their Business Options. Likewise, students who want to major in Management Information Systems must take MIS 2000 as one of their Business Options.

SECTION 11: Asper School of Business Registration Guide

11.1: Initial Access Times for Business and Non-Business Students

If you are newly admitted to the Asper School of Business for September 2009, DO NOT transit to Arts or Science to find out your registration date. To determine your specific registration date as a student in the Asper School of Business:

1) Pay your \$100 deposit. After the Admissions Office receives your \$100 deposit, they will process your student record to admit you to the "Faculty of Management" (i.e. the Asper School of Business). The Asper School of Business will then assign you a specific registration date as an Asper School student. This process is ongoing throughout the first three weeks of July.

2) Keep checking Aurora Student (the University of Manitoba web registration system) to see if you are listed as a "Faculty of Management" student and if you have been assigned an Asper School registration date. Most Asper School students will be assigned a registration date sometime between mid July to early August.

If you are a returning student in the Asper School of Business, please access the Aurora Student Information System on or after July 6, 2009, to determine your registration date.

Enrolment in courses taught by the Asper School of Business is limited almost entirely to Business students. However, in early August, students from other faculties and schools can register in Business courses, provided space is still available and provided they meet all prerequisite and concurrent course requirements. Student officially enrolled in the Business Minor may register for Business courses at their initial access time, but should contact an advisor in their home faculty prior to registration to determine whether they must register in person for Business courses.

11.2: Registration Assistance

If you have any questions regarding registration, your degree requirements, or your student status, you may contact an Asper School of Business Undergraduate Program Advisor:

Undergraduate Program Advisors Telephone: (204) 474 6388

Undergraduate Program Advisors Office: 268 Drake Centre

Office hours: 8:30 a.m. - 4:30 p.m. Monday - Friday.

11.3: Information Sessions for Students Newly Admitted to the Bachelor of Commerce (Honours) Program

If you are a newly admitted student to the Bachelor of Commerce (Honours) program, you are invited to attend a voluntary information session on Thursday, July 9, 2009 at 7 p.m. or on Wednesday, July 15, 2008 at 7 p.m. in the Drake Centre (students will be notified of the room location at a later date). Topics to be discussed are: what courses to register for, the registration process, and program requirements. Telephone (204) 474 6388 to schedule a session.

11.4: Registration Information

11.4.1 Registering for Business Courses

11.4.1.1 Business Students Registering for Business Courses

All newly admitted and returning Business students are required to register through Aurora Student - the University of Manitoba student registration system - using web access.

The only exceptions are: Students outside North America on the date of their initial access time must contact an Asper School of Business program advisor (telephone (204) 474 6388 for information).

When you are registering for courses, it is your responsibility to ensure that you have satisfied all prerequisite and concurrent course requirements. It is your responsibility to ensure you have registered for the correct courses to satisfy the requirements of the Bachelor of Commerce (Honours) degree. Read course descriptions carefully to make sure you are not registered for a course that "May Not Be Held With" a course you have already taken. See the Asper School of Business chapter of the *Undergraduate Calendar* to determine the specific requirements of your program.

If you have graduated from the Asper School of Business, you must apply for admission to another faculty or school if you wish to take additional courses. Contact the Admissions Office for information.

11.4.1.2 University 1 Students Registering for Business Courses

During the initial registration period, University 1 students may register for one of the following Business courses provided space is available: ACC 1100, GMGT 2030, GMGT 2070, GMGT 2080, or MKT 2210. (Note: GMGT 2030 and GMGT 2080 cannot be held together for credit.)

A University 1 student may choose to take one of the courses from the above list in place of three credit hours of electives in the Qualifying (pre-Business) Program. Such a student will be required to substitute three credit hours of electives for this Business course after admission to the Asper School of Business.

11.4.1.3 Students from Other Faculties Registering for Business Courses

Enrolment in courses taught by the Asper School of Business is limited almost entirely to Business students. However, after the initial registration period, students from other faculties and schools can register in Business courses, provided space is still available and provided they meet prerequisite and concurrent requirements. Such students should contact an advisor in their home faculty to determine whether they must register by web or in person for Business courses.

11.4.2 Major – Declaring and Changing

11.4.2.1 Fulfilling the Requirements of a Major

All students in the Bachelor of Commerce (Honours) program are required to formally declare one major through the Aurora Student registration system and to satisfy the specific course requirements for that major.

When selecting Business options, some students choose to take courses that will fulfil the requirements of a second major. The options component of the B. Comm.(Hons.) degree consists of 15 to 18 credit hours of Business

courses freely selected by the student. Therefore, there is room within the options component of the degree to complete a second major (12 credit hours) plus another 3 to 6 credit hours of Business options.

11.4.2.2. Note for Students Wishing to Complete Two Majors:

Note the following Asper School of Business policy: "Students will not be given any registration priority for a second major." The Asper School of Business cannot guarantee that you will obtain space in the courses you would like for a second major.

Students who have completed all the requirements or who have all the courses in registration for a major are not permitted to formally declare a different major unless there is space in the courses needed to complete the different major. Students are not permitted to declare a different major in order to obtain space in full courses.

11.4.2.3 Majors on Transcripts

After you graduate with your B.Comm.(Hons.) degree, your formally declared major will appear on your University of Manitoba transcript. Your

major will appear on your transcript once you have formally declared it on Aurora. Your major will *not* be listed on the B.Comm.(Hons.) parchment.

If you complete the requirements of a second major within the credit hours required for the B.Comm.(Hons.) degree, you may request that the second major also appear on your transcript after you graduate. See the Undergraduate Program Office in your graduating term to complete a request form.

11.4.2.4 Co-operative Education Option on Transcripts

If you have successfully completed the Co-operative Education Option, it will appear on your University of Manitoba transcript after you graduate with your B.Comm.(Hons.) degree. The Co-operative Education Option will appear on your transcript once you have formally declared it on Aurora. Also, the Co-operative Education Option will *not* appear on the B.Comm.(Hons.) parchment (*currently under review*).

SECTION 12: Asper School of Business Course Descriptions

12.1: Accounting and Finance (ACC, FIN, MIS)

Head: D. Stangeland

General Office: 455 Drake

Telephone: 474 9362

ACC 1100 Introductory Financial Accounting Cr.Hrs.3 (Formerly 009.110) Examination of accounting postulates underlying the preparation and presentation of financial statements.

ACC 1101 Introduction à la comptabilité financière Cr.Hrs.3 (L'ancien 009.110) Analyse des termes, principes et concepts utilisés dans la préparation et la présentation d'états financiers. Donné au Collège de St. Boniface.

ACC 1110 Introductory Managerial Accounting Cr.Hrs.3 (Formerly 009.111) Role of accounting in creation and application of business information used by decision-makers in the management of enterprise. *Prerequisite:* ACC 1100 (or 009.110) (D). *Prerequisite or Concurrent Requirement:* ECON 1200 (or 018.120) (D).

ACC 1111 Introduction à la comptabilité de gestion Cr.Hrs.3 (L'ancien 009.111) L'importance des méthodes comptables dans la gestion de l'information utilisée par la direction d'une entreprise. Donné au Collège de St. Boniface. *Préalable:* ACC 1100 (ou 009.110) (D).

ACC 2010 Intermediate Accounting - Assets Cr.Hrs.3 (Formerly 009.201) Accounting policies and practices dealing with calculation and measurement of assets and related reporting problems. *Prerequisite:* ACC 1100 (or 009.110) (C+).

ACC 2011 Comptabilité intermédiaire-Actifs Cr.Hrs.3 Cadre théorique de la comptabilité relatif aux principes et procédures d'analyse et mesure des actifs. Analyse comptable approfondie des postes de l'actif: encaisse, créances, stocks, placements, immobilisations corporelles et incorporelles et amortissement. *Préalable:* ACC 1101 (ou l'ancien 009.110) avec une note minimal de C+.

ACC 2020 Intermediate Accounting - Equities Cr.Hrs.3 (Formerly 009.202) Consideration of current accounting relating to equities with attention to the accounting treatment of current and long-term liabilities, income tax allocation, share capital, and surplus. Students may not hold credit for both ACC 2020 (or 009.202) and FIN 3250 (or 009.325). *Prerequisite:* ACC 2010 (or 009.201) (D).

ACC 2021 Comptabilité intermédiaire - Capitaux propres et Passifs Cr.Hrs.3 Cadre théorique de la comptabilité relatif aux capitaux propres avec une considération du traitement comptable des passifs à court et à long termes, régimes de retraite, locations impôts sur les bénéfices, actions, droits, etc. Modifications comptables. *Préalable:* ACC 2011 (ou l'ancien 009.201) (D).

ACC 3030 Advanced Accounting Cr.Hrs.3 (Formerly 009.303) Topics include: partnerships, consolidations, mergers, reporting on conglomerates, and fund accounting. Not offered every year. *Prerequisites:* ACC 2010 (or 009.201) (D) and ACC 2020 (or 009.202) (D); or approval of department head.

ACC 3040 Cost Accounting Cr.Hrs.3 (Formerly 009.304) Study of accounting concepts and functions as they relate to product costing, planning, control, and decision-making. *Prerequisite:* ACC 1110 (or 009.111) (C+).

ACC 3041 Compatibilité de coûts Cr.Hrs.3 Utilité de la comptabilité de gestion et prise de décision, concepts de coûts, systèmes de coûts, budgets, contrôle budgétaire, gestion décentralisée, analyse de la performance financière. *Préalable:* ACC 1111 (ou l'ancien 009.111) (C+).

ACC 3050 Taxation Accounting Cr.Hrs.3 (Formerly 009.305) Structure and concepts of the Canadian tax system, emphasis on current tax practices. *Prerequisite:* ACC 1100 (or 009.110) (C+).

ACC 3060 Selected Topics in Accounting Cr.Hrs.3 (Formerly 009.306) An examination of current controversial issues in accounting. Topics will vary from year to year but could include, for example, such issues as: human resource accounting; published forecasts of operations; fund accounting; interim reporting. Not offered every year. *Prerequisites:* ACC 2010 (or 009.201) (D) and ACC 2020 (or 009.202) (D).

ACC 3070 Tax Planning Cr.Hrs.3 (Formerly 009.307) Study of the impact of income

taxes on managerial decision-making. Not offered every year. *Prerequisite:* ACC 3050 (or 009.305) (D).

ACC 3490 Ethics in Financial Reporting Cr.Hrs.3 (Formerly 009.349) Applies ethical theories to resolve ethical dilemmas faced by various parties in the financial reporting process as they carry out their roles and responsibilities. *Prerequisite:* ACC 1100 (or 009.110) (D).

ACC 3530 Accounting Information Systems Cr.Hrs.3 (Formerly 009.353) Role of accounting systems in total management information systems; design and installation of accounting systems. *Prerequisites:* ACC 1110 (or 009.111) (D) and MIS 2000 (or 009.200) (D).

ACC 4010 Auditing Cr.Hrs.3 (Formerly 009.401) Study of philosophy and concepts of auditing, legal and ethical responsibilities of the auditor, basic techniques of auditing including statistical sampling and flowcharting, and the operational audit. *Prerequisites:* ACC 2010 (or 009.201) and ACC 2020 (or 009.202) (D); or approval of department head.

ACC 4030 Accounting Theory Cr.Hrs.3 (Formerly 009.403) Examination of principles and postulates of accounting theory. Coverage of selected topics will vary from year to year depending on interests of course participants. *Prerequisites:* ACC 2010 (or 009.201) (D) and FIN 2200 (or 9.220) (D). *Prerequisite or Concurrent Requirement:* ACC 2020 (or 009.202) (D).

ACC 4031 Théorie comptable Cr.Hrs.3 Évolution de la théorie comptable, processus de normalisation et influence du milieu sur son cheminement, étude des modèles de mesure des bénéfices, théorie d'agence, hypothèse de l'efficacité des marchés de capitaux, etc. *Préalable:* ACC 2011 (ou l'ancien 009.201) (D) et ACC 2021 (ou l'ancien 009.202) (D) ou avec l'approbation du représentant de secteur.

ACC 4040 Advanced Managerial Accounting Cr.Hrs.3 (Formerly 009.404) A critical examination of managerial accounting techniques and the controllership function. *Prerequisite:* ACC 3040 (or 009.304) (D).

ACC 4280 Intermediate Auditing Cr.Hrs.3 (Formerly 009.428) An examination of the external audit process, audit concepts, and applicable professional standards. *Prerequisites:* MIS 2000 (or 009.200) and ACC 4010 (or 009.401) (D).

ACC 4290 Current Issues in Financial Reporting Cr.Hrs.3 (Formerly 009.429) An examination of specific accounting standards and issues not covered in previous courses. Topics may include foreign currency translation, not-for-profit accounting and financial instruments. Case analysis is an important component of this course. *Prerequisite:* ACC 3030 (or 009.303) (D).

FIN 2200 Corporation Finance Cr.Hrs.3 (Formerly 009.220) An introduction to business financial policies regarding the allocation, acquisition and control of funds. *Prerequisite:* ACC 1100 (or 009.110) (D) and ECON 1200 (or 018.120) (D). *Prerequisite or Concurrent Requirement:* STAT 1000 (or 005.100) or equivalent.

FIN 2201 Gestion financière Cr.Hrs.3 (L'ancien 009.220) Introduction aux principes de la gestion financière de l'entreprise en particulier dans le choix du financement, le choix de l'investissement et la gestion des fonds. Donné au Collège de St. Boniface. *Préalable:* ACC 1100 (ou 009.110) (D).

FIN 3250 Financial Statement Analysis Cr.Hrs.3 (Formerly 009.325) A study of the methods and techniques used for interpretation of annual financial reports and the significance of alternative accounting policies on reported income. Students may not hold credit for both FIN 3250 (or 009.325) and ACC 2020 (or 009.202). *Prerequisite:* ACC 1100 (or 009.110) (D).

FIN 3270 Personal Financial Planning Cr.Hrs.3 (Formerly 009.327) An introduction to financial planning techniques used in professional practice. Topics include financial assessment, income tax planning, risk management, insurance, debt and credit management, investments, retirement planning, and estate planning. *Prerequisite:* FIN 2200 (or 009.220) (D).

FIN 3400 Investment Banking Cr.Hrs.3 (Formerly 009.340) The practice and theory of investment banking including valuation, initial public offerings, mergers and acquisitions, and restructuring. *Prerequisite:* FIN 2200 (or 009.220) (C+).

FIN 3410 Investments Cr.Hrs.3 (Formerly 009.341) Study of financial assets and their pricing. An introduction to formal models and methods of portfolio analysis and construction. *Prerequisite:* FIN 2200 (or 009.220) (C+).

FIN 3420 Security Analysis Cr.Hrs.3 (Formerly 009.342) Study of methods for evaluating securities, investment decision-making, and effecting financial transactions. *Prerequisite:* FIN 2200 (or 009.220) (C+).

FIN 3440 Real Estate Investments Cr.Hrs.3 (Formerly 009.344) An introduction to real estate investment and finance. Topics include urban growth, land use patterns, real estate market behaviour and property rights. *Prerequisite:* FIN 2200 (or 009.220) (C+).

FIN 3450 International Finance Cr.Hrs.3 (Formerly 009.345) An introduction to the study of international corporate financial issues and international security markets. *Prerequisite:* FIN 2200 (or 009.220) (C+).

FIN 3451 Finance Internationale Cr.Hrs.3 (Ancien 009.345) Introduction à l'étude des aspects internationaux du financement d'une compagnie et des marchés internationaux de capitaux. *Préalable:* FIN 2201 (ancien 009.220) avec une note minimale de C+.

FIN 3460 Financial Markets and Institutions Cr.Hrs.3 (Formerly 009.346) A study of finance at the macro level. Topics include the monetary and banking systems, flow of funds analysis, interest rates and exchange rates. Students may not hold credit for both FIN 3460 (or 009.346) and ECON 3640 (or 018.364). *Prerequisite:* FIN 2200 (or 009.220) (C+).

FIN 3470 Small Business Finance Cr.Hrs.3 (Formerly 009.347) Study of the financial issues faced by small business enterprises. *Prerequisite:* FIN 2200 (or 009.220) (D).

FIN 3480 Corporate Finance Theory and Practice Cr.Hrs.3 (Formerly 009.348) Capital budgeting theory and techniques. Determination of relevant cost of capital. Implications of capital structure and dividend policy. *Prerequisite:* FIN 2200 (or 009.220) (C+).

FIN 4230 Selected Topics in Finance Cr.Hrs.3 (Formerly 009.423) A study of current issues in finance. Topics considered will depend on the interests and needs of the participants. *Prerequisite:* FIN 2200 (or 009.220) (C+).

FIN 4260 Advanced Finance Theory Cr.Hrs.3 (Formerly 009.426) Theories that provide the foundation for modern corporate finance. Empirical tests of finance theories. Implications for managers. *Prerequisites:* FIN 3410 (or 009.341) (D) and FIN 3480 (or 009.348) (D).

FIN 4270 Options and Futures Cr.Hrs.3 (Formerly 009.427) Derivative securities. Pricing, markets, strategies and implications. *Prerequisite:* FIN 3410 (or 009.341) (D).

FIN 4400 Financial Management Practices Cr.Hrs.3 (Formerly 009.440) Financing capital and current operations of business enterprises. Topics include expansion financing, setting of dividend policies, acquisitions, leasing, mergers, refundings, capitalization and reorganizations. *Prerequisite:* FIN 3480 (or 009.348) (D).

MIS 2000 Information Systems for Management Cr.Hrs.3 (Formerly 009.200) Introduction to information systems in organizations, systems development/acquisition, and management issues concerning information technology in organizations. *Prerequisite:* COMP 1260 (or 074.126) (D).

MIS 2001 Les systèmes d'information de gestion Cr.Hrs.3 (L'ancien 009.200) Introduction aux systèmes d'information dans les organisations, au développement/acquisition des systèmes et à la gestion des systèmes d'information. Donné au Collège de St. Boniface. *Préalable:* [COMP 1260 (ou 074.126) (D)] et [ACC 1100 (ou 009.110) (D)]; ou consentement du professeur ou de la professeure.

MIS 3500 Database Management Systems Cr.Hrs.3 (Formerly 009.350) This course is designed for students who are interested in learning how to design, develop and maintain databases. Students will be introduced to methodologies to design their systems and then implement them using currently popular end user tools. *Prerequisites:* [MIS 3510 (or 009.351) (D)] and [COMP 1010 (or 074.101) (C)].

MIS 3510 Systems Analysis and Design Cr.Hrs.3 (Formerly 009.351) This course is designed for students who are interested in developing information systems. Working in teams, students will learn how to employ methodologies, techniques and popular end user tools to design and implement a functioning business information system. *Prerequisites:* MIS 2000 (or 009.200) (C+).

MIS 3520 Data Communications and Networking Cr.Hrs.3 (Formerly 009.352) A survey of data communications topics, including media and technology, protocols, security, structures, electronic commerce and the Internet, and related management issues. *Prerequisite:* MIS 2000 (or 009.200) (C+).

MIS 4250 Advanced Topics in Management Information Systems Cr.Hrs.3 (Formerly 009.425) A study of current issues in MIS. The topics for this course will vary over time, depending on student interests, faculty interests, and student demand. Not offered every year. *Prerequisite:* consent of instructor.

MIS 4500 Management Information Systems Strategy Cr.Hrs.3 (Formerly 009.450) A survey of the various issues associated with managing information as a resource. Explores MIS planning frameworks and tools, and the linkages between information systems, organizational structure and organizational strategy. *Prerequisites:* at least two of the following: (Formerly 009.450) A survey of the various issues associated with managing information as a resource. Explores MIS planning frameworks and tools, and the linkages between information systems, organizational structure and organizational strategy. *Prerequisites:* at least two of the following: ACC 3530 (or 009.353) (D), MIS 3500 (or 009.350) (D), MIS 3510 (or 009.351) (D), MIS 3520 (or 009.352) (D), MIS 4250 (or 009.425) (D).

12.2: Warren Centre for Actuarial Studies (ACT)

Head: K. Shand

General Office: 430 Drake

Telephone: 474 7426

ACT 2020 Economic and Financial Applications Cr.Hrs.3 (Formerly 010.202) A synthesis of macroeconomic issues, quantitative aspects of finance using interest theory, and insurance economics. *Prerequisite:* ACT 2120 (or 010.212) (C+).

ACT 2120 Interest Theory Cr.Hrs.3 (Formerly 010.212) The application of calculus and probability to discrete and continuous interest functions. Key topics are the measurement of interest, present and accumulated values, and annuities. May not be held with the former 010.232 or ACT 3320 (or 010.332). *Prerequisite:* MATH 1690 (or 136.169) (B) or MATH 1700 or MATH 1701 (or 136.170) (B) or MATH 1710 (or 136.171) (B). *Prerequisite or Concurrent Requirement:* [MATH 2750 (or 136.275) (D) or MATH 2720 (or 136.272 or 136.270) (D) or MATH 2730 (or 136.273 or 136.271) (D)] and STAT 2000 (or 005.200) (D).

ACT 2210 Introduction to Risk Management Cr.Hrs.3 (Formerly 010.221) Mathematical tools for the quantitative assessment of risk and their application to problems encountered in risk management. *Prerequisite:* MATH 1700 (or 136.170) or MATH 1690 (or 136.169) (D). *Prerequisite or Concurrent Requirement:* [MATH 2750 (or 136.275) (D) or MATH 2730 (or 136.273 or 136.271) (D)] and [STAT 2000 or 005.200) (D)]; or consent of instructor.

ACT 2321 Mathématiques financières Cr.Hrs.3 L'étude de l'intérêt composé et des rentes discrètes et continues; équations de valeur, analyse de fonds; détermination de taux de rendement; construction de tables. L'étudiant(e) ne peut se faire créditer à la fois le 010.232 et le 010.332. Donné au Collège de St. Boniface. *Préalable:* MATH 1500 ou MATH 1501 (ou 136.150) (D) ou MATH 1520 (ou 136.152) (D), ou l'équivalent.

ACT 3130 Actuarial Models 1 Cr.Hrs.3 (Formerly 010.313) Elementary concepts respecting the quantification of the financial impact of contingent payments. May not be held with the former 010.347. *Prerequisite:* ACT 2120 (or 010.212) (C+). *Prerequisite or Concurrent Requirement:* STAT 3500 (or 005.350) (D).

ACT 3230 Actuarial Models 2 Cr.Hrs.3 (Formerly 010.323) Intermediate and advanced concepts respecting the quantification of the financial impact of contingent payments. Not to be held with the former 010.348. *Prerequisite:* ACT 3130 (or 010.313) (C+). *Prerequisite or Concurrent Requirement:* STAT 3600 (or 005.360) (D).

ACT 3330 Actuarial Models 3 Cr.Hrs.3 (Formerly 010.333) Frequency and Severity Models, Compound Distribution Models, Ruin Models. May not be held with the former 010.448 Topic Risk Theory. *Prerequisite:* ACT 3130 (or 010.313) (C+). *Prerequisite or Concurrent Requirement:* ACT 3230 (or 10.323) (D).

ACT 3530 Actuarial Models 4 Cr.Hrs.3 (Formerly 010.353) Survival Models, Stochastic Process Models, and Simulation Models. May not be held with the former 010.447. *Prerequisite:* ACT 3130 (or 010.313) (C+). *Prerequisite or Concurrent Requirement:* ACT 3230 (or 10.323) (D).

ACT 4000 Advanced Actuarial Topics Cr.Hrs.3 (Formerly 010.400) A selection of advanced topics of current actuarial interest. *Prerequisite:* ACT 3230 (or 010.323) (D).

ACT 4050 Life Insurance Products and Employee Benefit Plans Cr.Hrs.3 (Formerly 010.405) Design, risk assumption for, and analysis of individual and group insurance products. Exploration of pension, employee benefit and government programs in a Canadian setting. May not hold credit with the former 010.451.

ACT 4060 Actuarial Aspects of Investment Practice Cr.Hrs.3 (Formerly 010.406) This course examines stochastic interest rates and tools and techniques for coping with general product issues in asset/liability management. May not be offered every year. Students may not hold credit for both ACT 4060 (or 010.406) and the former 010.448 Topic Asset/Liability Management. *Prerequisites:* [FIN 2200 (or 009.220) (C+) and [FIN 3410 (or 009.341) (D)]], or consent of instructor.

ACT 4140 Actuarial Modeling Methods 1 Cr.Hrs.3 (Formerly 010.414) Estimation and Fitting of Survival Models. May not hold credit with the former 010.448 Topic Survival Models. *Prerequisite:* ACT 3230 (or 010.323) (D).

ACT 4150 Pension Mathematics Cr.Hrs.3 (Formerly 010.415) Actuarial applications for defined benefit pension plans. Actuarial cost methods, funding levels, operation of pension plans from an actuarial perspective. Students may not hold credit with ACT 7550 (or 010.755). *Prerequisite:* ACT 3230 (or 010.323) (D).

ACT 4240 Actuarial Modeling Methods 2 Cr.Hrs.3 (Formerly 010.424) Estimation and Fitting of Frequency and Severity Models. May not be offered every year. *Prerequisite:* ACT 3330 (or 010.333) (D).

ACT 4340 Actuarial Modeling Methods 3 Cr.Hrs.3 (Formerly 010.434) Classical, Bayesian and Buhlmann Credibility Models. The connection between Credibility Theory and Experience Rating. Underlying assumptions for the different methods. Simulation in Estimating and Fitting Actuarial Models. May not hold credit with the former 010.488 Topic Credibility Theory. May not be offered every year. *Prerequisite:* ACT 4240 (or 010.424) (D).

12.3: Business Administration (GMGT, HRIR, INTB)

Head: N. Fassina

General Office: 418 Drake

Telephone: 474 9434

Service Courses

(for students not pursuing a B.Comm.(Hons.) degree)

GMGT 2030 Administrative Theory Cr.Hrs.3 (Formerly 027.203) Examination of the underlying principles concerning internal management of organizations. Emphasis on the study and analysis of various theoretical approaches to management. This course is not open to students registered in the Asper School of Business. Students may not hold credit for both GMGT 2030 (or 027.203) and GMGT 2080 (or 027.208).

Regular Courses

GMGT 1110 Environment and Functions of Business Cr.Hrs.3 (Formerly 027.111) Study of the institutions and environment of the business community and their development and the interaction of these areas with the functional aspects of business.

GMGT 2000 Introduction to Communications Cr.Hrs.3 (Formerly 027.200) An analysis of oral and written communication. Topics covered include methods of logic, organization, analysis, presentation and mechanics of written and oral communication. The course is designed to improve students' writing and public speaking skills. *Prerequisite:* University approved written English course.

GMGT 2001 Introduction to Communications (3) (Ancien 027.200) An analysis of oral and written communication. Topics covered include methods of logic, organization analysis, presentation and mechanics of written and oral communication. Designed to improve students' writing and public speaking skills.

GMGT 2070 Introduction to Organizational Behaviour Cr.Hrs.3 (Formerly 027.207) Examination of the impact of human behaviour on the formal and informal organization. Topics include leadership, work groups, organizational conflict, and communications.

GMGT 2071 Introduction au comportement organisationnel Cr.Hrs.3 (L'ancien 027.207) Analyse de l'impact du comportement humain sur l'organisation formelle et informelle. Les sujets traités sont le leadership, les groupes de travail, les conflits au sein de l'organisation et la communication. Donné au Collège de St. Boniface.

GMGT 2080 Introduction to Management and Organization Theory Cr.Hrs.3 (Formerly 027.208) Examination of the underlying principles concerning the formation of organizations and their internal management. Emphasis on the study and analysis of various theoretical approaches to organization theory and management. Students may not hold credit for both GMGT 2080 (or 027.208) and GMGT 2030 (or 027.203).

GMGT 2081 Introduction au management et à la théorie de l'organisation Cr.Hrs.3 (L'ancien 027.208) Analyse des principaux concepts régissant la formation d'organisations et leur gestion interne. L'accent est mis sur l'analyse de différentes approches théoriques concernant l'organisation et sa gestion. L'étudiant (e) ne peut se faire créditer à la fois le GMGT 2080 (ou 027.208) et le GMGT 2030 (ou 027.203). Donné au Collège de St. Boniface.

GMGT 2120 Business/Government Relations Cr.Hrs.3 (Formerly 027.212) Analysis of the interaction between business firms and government in the creation, modification, and implementation of government policies that affect business. Study of the ways business can influence government decision-making. *Prerequisite:* ECON 1200 (or 018.120) (D).

GMGT 2121 Les entreprises et le gouvernement Cr.Hrs.3 (L'ancien 027.212) Analyse des rapports entre le gouvernement et les entreprises au niveau de la conception, de la modification et de la mise en place des politiques gouvernementales affectant l'entreprise. Analyse des moyens dont disposent les entreprises pour influencer la prise de décision des gouvernements. Donné au Collège de St. Boniface. *Préalable:* ECON 1200 ou ECON 1201 ou 018.120) (D).

GMGT 2141 Introduction aux communications Cr.Hrs.3 (L'ancien 027.214) Communication orale dans le milieu des affaires. Rédaction de documents écrits venant appuyer les activités d'écoute et de parole. Apprentissage des connaissances grammaticales, syntaxiques et lexicales. Apprendre à s'exprimer en public. Donné au Collège de St. Boniface.

GMGT 3010 Management Decision-Making Cr.Hrs.3 (Formerly 027.301) The decision-making process and factors that enter into making the decisions, including the objectives and approaches to decision-making, the basic type of managerial decisions, and exemplification of decision in operations. *Prerequisites:* [GMGT 2030 (or 027.203) (D) or GMGT 2080 (or 027.208) (D)] and GMGT 2070 (or 027.207) (D).

GMGT 3020 Seminar in Administration Cr.Hrs.3 (Formerly 027.302) Selected problem areas and issues as they relate to administration of complex organizations. *Prerequisites:* [GMGT 2030 (or 027.203) (D) or GMGT 2080 (or 027.208) (D)] and GMGT 2070 (or 027.207) (D), or consent of instructor.

GMGT 3030 Contemporary Social Issues in Business Cr.Hrs.3 (Formerly 027.303) Study of key issues in the relationship of business organizations and society with emphasis on the impact of management. *Prerequisites:* [GMGT 2030 (or 027.203) (D) or GMGT 2080 (or 027.208) (D)] and GMGT 2070 (or 027.207) (D).

GMGT 3040 Organizational Systems Analysis Cr.Hrs.3 (Formerly 027.304) An integrative cross-functional study of organizations, their decision-making processes, and their dynamic interactions with their technical, marketing, and social environments using the concepts of systems analysis. *Prerequisites:* [GMGT 2030 (or 027.203) (D) or GMGT 2080 (or 027.208) (D)] and GMGT 2070 (or 027.207) (D).

GMGT 3080 Issues in Technological Change Cr.Hrs.3 (Formerly 027.308) Analysis of the nature of invention and innovation including human, financial, economic, and legal factors. Social implications of innovation. Public policy towards research, invention, and innovation.

GMGT 3090 Management of Research and Development Cr.Hrs.3 (Formerly 027.309) Organization and management of industrial research and development; specific inventions and their impact on industry.

GMGT 3120 Regulation Cr.Hrs.3 (Formerly 027.312) Study of the rationale and im-

pact of public policies affecting the organization and behaviour of Canadian industry.

GMGT 3130 Management Applications of Forecasting Models Cr.Hrs.3 (Formerly 027.313) An introduction to analytic tools which can be used by management (private, public or non-profit) to predict the impact of general economic developments on a firm or industry. Industry or firm specific examples will be emphasized. *Prerequisite:* ECON 1200 (or 018.120) (D).

GMGT 3160 Managerial Economics Cr.Hrs.3 (Formerly 027.316) Principles and techniques of managerial economics with applications from business and the public sector. *Prerequisite:* ECON 1200 (or 018.120) (D) or equivalent.

GMGT 3170 Administration of the Public Sector Cr.Hrs.3 (Formerly 027.317) Application of contemporary concepts of the administrative process: approaches and problems involved in performing managerial functions in public sector organizations with emphasis on socio-political issues. *Prerequisite:* GMGT 2030 (or 027.203) (D) or GMGT 2080 (or 027.208) (D).

GMGT 3180 Non-Market Decision Making Cr.Hrs.3 (Formerly 027.318) The use of economic methodology to explain government decision-making processes and their impact on business organizations. Focus is on understanding the behaviour of government policy makers and the incentives which motivate them. *Prerequisite:* GMGT 2120 (or 027.212) (D).

GMGT 3300 Commercial Law Cr.Hrs.3 (Formerly 027.330) General history of law, the organization of courts, the Canadian Constitution, federal and provincial legislative functions. Legal concepts and problems relating to business organization, contracts, principal and agent, negotiable instruments, common torts, and bankruptcy proceedings.

GMGT 3301 Droit commercial Cr.Hrs.3 (L'ancien 027.330) Sommaire historique du droit, l'organisation des tribunaux, la constitution du Canada, les attributions législatives du gouvernement fédéral et des assemblées provinciales. Notions juridiques et problèmes attendant à: l'organisation des entreprises, la rédaction des contrats, le mandant et le mandataire, les effets négociables, les débits et les procédures de faillite. Donné au Collège de St. Boniface.

GMGT 3500 Communications: Contextual Applications Cr.Hrs.3 (Formerly 027.350) This course is designed to introduce students to basic linguistically specialized areas of typical business and administrative settings. Course offered at St. Boniface College.

GMGT 3561 Séminaire en management Cr.Hrs.3 (L'ancien 027.356) Analyse de la gestion d'organisation: Réflexion critique sur des sujets d'actualité pertinents. L'étudiant(e) ne peut se faire créditer à la fois le GMGT 3560 (ou 027.356) et le GMGT 3020 (ou 027.302). Donné au Collège de St. Boniface. *Préalable:* GMGT 2080 (ou 027.208) (D) et GMGT 2070 (ou 027.207) (D) ou le consentement du professeur.

GMGT 3581 Ethique et responsabilité sociale Cr.Hrs.3 (L'ancien 027.358) Le rôle social de l'entreprise. L'environnement interne et externe de l'entreprise; les problèmes sociaux et les activités de responsabilité sociale; l'éthique professionnelle du gestionnaire contemporain, la comptabilité sociale; les groupes défavorisés; etc. Donné au Collège de St. Boniface. *Préalable:* GMGT 2070 (ou 027.207) (D).

GMGT 4010 Administrative Policy Cr.Hrs.3 (Formerly 027.401) Studies of policies available to business enterprise; with case studies to focus attention on problems involved in formulating and administering policies with interdisciplinary considerations. Take only in final term of program or with consent of department head. *Prerequisite:* prior to being admitted to GMGT 4010, students must be in Year 4, in the final term prior to graduation in the Asper School and have successfully completed (with a minimum grade of (D) in each course) all 30 credit hours of courses specified in Year 2 of the 4-Year Program. *Prerequisite or Concurrent Requirement:* all remaining core courses specified in Year 3 and 4 of the 4-Year Program (with a minimum grade of (D) in each course).

GMGT 4011 Gestion stratégique des organisations Cr.Hrs.3 (L'ancien 027.401) Étude de la gestion stratégique des organisations. L'étude de cas permettra à l'étudiant(e) à l'étudiant d'intégrer les connaissances acquises tout en mettant l'accent sur les questions qui entourent l'élaboration des stratégies et la gestion des politiques établies. Ce cours ne sera suivi qu'à la fin du programme ou avec l'autorisation écrite du professeur ou de la professeure. Donné au Collège de St. Boniface.

GMGT 4040 Advanced Organization Theory and Behaviour Cr.Hrs.3 (Formerly 027.404) An analysis of the human and structural aspects of organizations and how their interrelationship influences organizational performance. Topics covered include leadership, motivation, conflict, and organizational politics. The influence of technology, size, and the external environment on organizational structure is also examined. *Prerequisite:* [GMGT 2030 (or 027.203) (D) or GMGT 2080 (or 027.208) (D)] and GMGT 2070 (or 027.207) (D).

GMGT 4110 Commercial Law 2 Cr.Hrs.3 (Formerly 027.411) Aspects of the law relating to business units, including a study of the law relating to proprietorships, partnerships and corporations, and secured transactions. Not taught every year. *Prerequisite:* GMGT 3300 (or 027.330) (D).

GMGT 4120 Tariffs, Trade, and Commercial Policy Cr.Hrs.3 (Formerly 027.412) The economics and institutions of international trade, tariffs, and commercial policy, including economics of tariffs, special trading arrangements, the financial aspects of international trade, and trade and commercial policy.

GMGT 4121 Commerce International Cr.Hrs.3 (Ancien 027.412) Étude des échanges internationaux à travers les politiques économiques internationales, les ententes régionales, les tarifs commerciaux, les institutions internationales et le financement des échanges.

GMGT 4140 Evaluation Techniques for Management Cr.Hrs.3 (Formerly 027.414) The development of specific techniques for program evaluation, the design of evaluations, the implementation of an evaluation within an ongoing organizational environment, and the problems associated with applying findings. *Prerequisite:* MIS 2000

(or 009.200) (D).

GMGT 4150 Managing Not-For-Profit Organizations Cr.Hrs.3 (Formerly 027.415) A description and analysis of the management perspective that is unique to organizations operating in the not-for-profit sector of the economy. Examination of both the internal and external environment of management in not-for-profit organizations. *Prerequisites:* [GMGT 2030 (or 027.203) (D) or GMGT 2080 (or 027.208) (D)] and GMGT 2070 (or 027.207) (D).

GMGT 4151 Gestion des organisations sans but lucratif Cr.Hrs.3 (Ancien 027.415) Description et analyse de la dynamique des organismes sans but lucratif (OSBL) : leur environnement spécifique, leur fonctionnement interne et leurs modes d'intervention dans la communauté. Approfondissement de la compréhension de la spécificité du secteur tertiaire, ce qui rend apte à y intervenir efficacement soit en tant que gestionnaires, soit en tant que bénévoles. *Préables :* les GMGT 2081 (ancien 027.208) et GMGT 2071 (ancien 027.207).

GMGT 4160 Seminar in Business-Government Relations Cr.Hrs.3 (Formerly 027.416) Description and analysis of significant, current issues in the business-government relationship at an advanced level. *Prerequisite:* GMGT 2120 (or 027.212) (D).

GMGT 4551 Développement d'habiletés de gestionnaire Cr.Hrs.3 (L'ancien 027.455) Développement de certaines habiletés nécessaires au succès professionnel. Les principaux apprentissages sont : la gestion du stress, la communication orale, la négociation, la recherche d'emploi, les techniques de créativité et d'innovation, la gestion des relations vie privée/vie professionnelle. Donné au Collège de St. Boniface. *Préalable:* GMGT 2070 (ou 027.207) (D).

HRIR 2440 Human Resource Management Cr.Hrs.3 (Formerly 027.244) Introduction to principles and procedures in the management of human resources. Topics include conflict resolution, employment, law, planning, job analysis, performance appraisal, staffing, compensation, union-management relations, and current issues.

HRIR 2441 Gestion des ressources humaines 1 Cr.Hrs.3 (L'ancien 027.244) Introduction au système de gestion des ressources humaines. Les sujets sont : la résolution de conflits, l'embauche, l'encadrement juridique, la planification, l'analyse de postes, l'évaluation, l'acquisition des ressources humaines, le système de relations industrielles et la problématique de la gestion des ressources humaines. Donné au Collège de St. Boniface.

HRIR 3411 Gestion des relations de travail Cr.Hrs.3 (L'ancien 027.341) Analyse des relations de travail et des facteurs économiques, psychologiques et sociologiques. Les sujets traités sont : l'évolution de l'organisation syndicale, les relations intergroupes et la résolution de conflit, les relations patronales-syndicales, la négociation collective, la législation du travail et les problèmes contemporains. Donné au Collège de St. Boniface.

HRIR 3430 Selected Topics in Industrial Relations Cr.Hrs.3 (Formerly 027.343) Analysis of specific topics or issues in the employment relationships in an industrial society. *Prerequisites:* HRIR 2440 (or 027.244) (D)] and [HRIR 3450 (or 027.345 or 027.341) (D); or consent of instructor.

HRIR 3450 Labour and Employment Relations Cr.Hrs.3 (Formerly 027.345) This course is to enhance knowledge and understanding of labour and employment relations in Canada and beyond. It addresses various issues and debates about these relations; their history, structure, and functioning; management employment relations practices; the role of labour unions; collective bargaining; and contemporary developments and alternatives. May not be held with the former 027.341.

HRIR 3451 Relations industrielles Cr.Hrs.(3) (Ancien 027.345) Analyse des relations industrielles et des facteurs historiques, économiques et sociologiques. Les sujets traités sont : l'évolution de l'organisation syndicale, les stratégies patronales et syndicales, les relations intergroupes et la résolution de conflit, les relations patronales-syndicales, la négociation collective, la législation du travail et les problèmes contemporains. Théories et questions pertinentes à cette matière.

HRIR 3511 Gestion des ressources humaines 2 Cr.Hrs.3 (L'ancien 027.351) La planification des tâches, la structuration des rôles et du travail, la coordination et la réalisation des activités feront l'objet d'un apprentissage théorique associé au développement d'habiletés. Donné au Collège de St. Boniface. *Préalable:* HRIR 2440 (ou 027.244) (D).

HRIR 3541 Gestion des équipes de travail Cr.Hrs.3 (L'ancien 027.354) Initiation à la gestion des équipes de travail en mettant l'accent sur les dimensions humaines et administratives du travail en équipe. Donné au Collège de St. Boniface. *Préalable:* GMGT 2070 (ou 027.207) (D).

HRIR 4410 Staffing and Management Development Cr.Hrs.3 (Formerly 027.441) A review of: employment planning; recruitment and selection; internal placement; out placement; performance appraisal; career development. Training needs analysis, methods and evaluation. *Prerequisite:* HRIR 2440 (or 027.244) (D).

HRIR 4411 Dotation et développement des ressources humaines Cr.Hrs.3 (L'ancien 027.441) Le cours est une analyse approfondie et pratique des problèmes de dotation et de développement des ressources humaines au sein des organisations. À travers ce cours, les étudiant(e)s développeront leurs habiletés d'intervention dans des domaines tels que la planification des emplois, le recrutement et la sélection, l'évaluation de la performance, l'analyse des besoins de formation, l'implantation et le contrôle d'un programme de formation, etc. *Préalable:* HRIR 2440 (ou 027.244) (D).

HRIR 4420 Compensation Cr.Hrs.3 (Formerly 027.442) A review of the major concepts and design of compensation systems including: strategy, internal equity, external competitiveness, rewarding individual contributions, performance incentives, employee benefits, government regulations, union role in compensation; budgets and administration. *Prerequisite:* HRIR 2440 (or 027.244) (D).

HRIR 4421 Rémunération Cr.Hrs.3 (L'ancien 027.442) Ce cours est une analyse des

principaux concepts et des systèmes de rémunération incluant: stratégie, équité salariale, compétitivité, reconnaissance des contributions individuelles, incitatifs de performance, avantages sociaux, politiques gouvernementales, rôle des syndicats dans la rémunération, incidences et gestion du processus de rémunération. *Préalable:* HRIR 2440 (ou 027.244) (D).

HRIR 4480 Collective Bargaining and Administration Cr.Hrs.3 (Formerly 027.448) Detailed examination of the elements and issues in contract negotiation and administration and of the legal framework imposed on public and private negotiations. Comparison of Canadian industrial relations system with other national systems. *Prerequisite:* HRIR 3450 (or 027.345 or 027.341) (D).

HRIR 4481 La négociation collective Cr.Hrs.3 (L'ancien 027.448) Ce cours est une analyse des éléments et enjeux de la négociation collective et de la gestion des conventions collectives et une analyse du cadre juridiques des négociations publiques et privées. Le système canadien de relations industrielles est comparé à d'autres systèmes nationaux. *Préalable:* HRIR 3450 (ou 027.345) ou l'ancien 027.341 (D).

HRIR 4511 Gestion de la diversité Cr.Hrs.3 (L'ancien 027.451) La gestion de la diversité du point de vue historique, social, légal et opérationnel. L'influence de la diversité de la main-d'oeuvre sur les politiques, les pratiques et les procédures de l'organisation. Modèle du développement organisationnel pluraliste relié à un ensemble de systèmes sociaux. Donné au Collège de St. Boniface. *Préalable:* HRIR 2440 (ou 027.244) (D).

HRIR 4520 Comparative Industrial Relations and Human Resource Management Cr.Hrs.3 (Formerly 027.452) To provide an international perspective on industrial relations (IR) and human resource management (HRM) through analysis and comparison of IR systems and HRM practice across selected countries and of current developments therein. Also covers theories and issues relevant to these topics. Students are encouraged, but not required, to complete HRIR 3450 (or 027.345 or 027.341) (D) prior to taking this course.

HRIR 4521 Relations industrielles et gestion des ressources humaines Cr.Hrs.3 (Ancien 027.452) Perspective internationale des relations industrielles (RI) et de la gestion des ressources humaines (GRH) par l'analyse et l'étude comparée des systèmes de relations industrielles et des pratiques de gestion des ressources humaines dans certains pays ainsi que des développements actuels. Théories et questions pertinentes à cette matière. *Préalable* recommandé mais non obligatoire : le HRIR 3451 (ancien 027.345) ou l'ancien 027.341.

HRIR 4531 Gestion du changement Cr.Hrs.3 (L'ancien 027.453) Changement et développement organisationnel: processus de changement, agent de changement. Domaines d'intervention: changements dans l'environnement et l'organisation, processus sociaux, culture d'entreprise, techno-structure, qualité devie au travail. Dilemmes et perspectives. Donné au Collège de St. Boniface. *Préalable:* HRIR 2440 (ou 027.244) (D).

HRIR 4541 Innovations en gestion des ressources humaines Cr.Hrs.3 (L'ancien 027.454) Présentation des nouveaux courants en gestion des ressources humaines, en examiner les fondements, en présenter les modèles d'implantation et en faire une analyse critique. Donné au Collège de St. Boniface. *Préalable:* HRIR 2440 (ou 027.244) (D).

INTB 2200 International Management Cr.Hrs.3 (Formerly 027.220) Analysis of the practice of management in an international setting. Examines the cultural, political, and economic environments which influence managerial decision-making in an international context.

INTB 2201 Introduction au management international Cr.Hrs.(3) (Ancien 027.220) Acquisition de connaissances et de savoir-faire relatifs à la gestion, au maintien et au contrôle du flux international de personnes, d'informations, de fonds, de biens ou de services, à des fins commerciales, entrepreneuriales ou caritatives.

INTB 3001 Gestion interculturelle Cr.Hrs.3 Mise en évidence de l'influence de facteurs culturels sur les pratiques de gestion et la vie des entreprises. Présentation des dimensions de la culture de chaque pays étudié (religion, valeurs, normes, histoire, etc.) et développement d'outils pour faciliter l'adaptation des employés étrangers dans ces pays et le développement d'une communication interculturelle efficace avec leurs ressortissants. *Préalable:* GMGT 2071 (ou l'ancien 027.207) Introduction au comportement organisationnel.

INTB 4501 Cultures du monde Cr.Hrs.3 (L'ancien 027.450) Un aperçu des principales cultures du monde. Étude des relations entre la culture d'un peuple et ses rapports économiques internationaux. Donné au Collège de St. Boniface.

INTB 4581 Problems contemporains en gestion internationale Cr.Hrs.3 (Ancien 027.458) Étude des thèmes relatifs aux problèmes et aux défis que pose la gestion dans un contexte international. Le contenu du cours peut varier d'une année à l'autre en fonction de l'actualité, des besoins et des intérêts de la clientèle étudiante. *Préalable:* INTB 2201 (ancien 027.220) ou GMGT 4121 (ancien 027.412) ou l'autorisation écrite de la professeure ou du professeur.

12.4: Interdepartmental Courses (IDM)

IDM 2980 Work Term 1 Cr.Hrs 0. Work assignment in business, industry, or government for students registered in the Asper School of Business Cooperative option. Requires submissions of a written report covering the work completed during the four-month professional assignment. (Pass/Fail).

098.300) Explore the impact of legal, constitutional and governance issues on the internal and operating environment affecting economic development by Aboriginal peoples. Current strategies for successful partnerships between industry and Aboriginal peoples will also be examined. *Prerequisites:* [NATV 1200 (or 032.120) (D)] or [NATV 1220 (or 032.122) (D)] and [NATV 1240 (or 032.124) (D)]; or consent of instructor.

IDM 3980 Work Term 2 Cr.Hrs. 0. Work assignment in business, industry, or government for students registered in the Asper School of Business Cooperative option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail). *Prerequisite:* IDM 2980 (P) and permission from the Cooperative Education Office.

IDM 3981 Stage cooperative 2 Cr.Hrs. 0 Stage en milieu de travail auprès d'entreprises privées, coopératives, sociétés d'État, gouvernements ou organisations sans but lucratif, pour les étudiantes et étudiants inscrits à l'option Education coopérative du baccalauréat en Administration des affaires. Un rapport couvrant les 4 mois de stage est exigé. (Réussite/Échec). *Préalable:* IDM 2981 Stage coopératif 1.

IDM 4050 Readings in Management Cr.Hrs.3 (Formerly 098.405) Supervised readings in one of the areas of Management. Students are limited to a maximum of six hours of readings and research courses. *Prerequisite:* Consent of instructor or program advisor.

IDM 4070 Management Research 1 Cr.Hrs.3 (Formerly 098.407) Individually supervised preparation of a detailed research proposal for an advanced study in one of the areas of Management. Students are limited to a maximum of six hours of readings and research courses. *Prerequisite:* Consent of instructor or program advisor.

IDM 4080 Management Research 2 Cr.Hrs.3 (Formerly 098.408) Individually supervised research and preparation of a paper in one of the areas of Management based on the proposal developed in IDM 4070 (or 098.407). Students are limited to a maximum of six hours of readings and research courses. *Prerequisite:* Consent of instructor or program advisor.

IDM 4090 Aboriginal Business Leadership Cr.Hrs.3 (Formerly 098.409) An analysis of current leadership strengths and challenges facing Aboriginal organizations. Out of this analysis will come understanding of strategies for working effectively or ineffectively with Aboriginal organizations. *Prerequisites:* [NATV 1200 (or 032.120) (D)] or [NATV 1220 (or 032.122) (D)] and NATV 1240 (or 032.124) (D) or consent of instructor.

IDM 4980 Work Term 3 Cr.Hrs. 0. Work assignment in business, industry, or government for students registered in the Asper School of Business Co-operative option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail). *Prerequisite:* IDM 3980 (P) and permission from the Cooperative Education Office.

IDM 4981 Stage cooperative 3 Cr.Hrs. 0 Stage en milieu de travail auprès d'entreprises privées, coopératives, sociétés d'État, gouvernements ou organisations sans but lucratif, pour les étudiantes et étudiants inscrits à l'option Education coopérative du baccalauréat en Administration des affaires. Un rapport couvrant les 4 mois de stage est exigé. (Réussite/Échec). *Préalable:* IDM 3981 Stage coopératif 1.

12.5: Marketing (ENTR, MKT)

Head: S. Carvalho (Acting)

General Office: 450 Drake

Telephone: 474 8851

Service Courses

(for students not pursuing a B.Comm.(Hons.) degree)

ENTR 2010 Managing the Smaller Business Cr.Hrs.3 Small firms dominate the Canadian economic scene and contribute to the nations' economic welfare in a major way but pose different managerial issues and problems for their owner/managers than larger organizations. This course will focus specifically on how to effectively manage and grow the smaller firm. This course is not to be held with ENTR 3100. This course is not open to students registered in the Asper School of Business.

ENTR 2020 Starting a New Business Cr.Hrs.3 This is a course for students in all Faculties who may wish to start a business of their own at some time or assess their potential for such an option. It will cover a broad range of topics to increase your understanding of what it takes to succeed in an entrepreneurial career. This course is not to be held with ENTR 4100. This course is not open to students registered in the Asper School of Business.

Regular Courses

ENTR 3100 Small Business Management Cr.Hrs.3 (Formerly 118.310) An appreciation of the primary issues that should be considered in starting and managing a small business within the Canadian context. *Prerequisites:* [ACC 1100 (or 009.110) (D), and MKT 2210 (or 118.221) (D), and [GMGT 2030 (or 027.203) (D) or GMGT 2080 (or 027.208) (D)].

ENTR 3102 Technological Entrepreneurship Cr.Hrs.3 An overview of the inter-relationship between technology and entrepreneurship. An appreciation of the role of technical entrepreneurship in the economy, how a technology strategy is developed, implemented and defended as well as the societal implications of technological entrepreneurship. *Prerequisite:* MKT 2210 (or 118.221) (D).

ENTR 3104 Selected Topics in Small Business/Entrepreneurship Cr.Hrs.3 A study of selected areas of recent development related to small business/entrepreneurship. Topics may include innovation and creativity, venture financing, opportunity identification and recognition, franchising and entry strategies of new business. *Prerequisite:* MKT 2210 (118.221) (D) and [GMGT 2030 (027.203) (D) or GMGT 2080 (027.208) (D)].

(D)].

ENTR 3106 Family Business Management Cr.Hrs.3 An examination of the unique challenges inherent in the management of a family business. Topics include founder relinquishment, the need for succession planning and firm regeneration, the core actors and their issues, ownership structure and estate planning. *Prerequisite:* GMGT 2030 (027.203) (D) or GMGT 2080 (027.208) (D).

ENTR 4100 New Venture Analysis Cr.Hrs.3 (Formerly 118.410) A project oriented course focusing on the identification and evaluation of viable new venture concepts and their associated risks, problems, and opportunities. *Prerequisites:* MKT 2210 (or 118.221) (D) and ACC 1110 (or 009.111) (D) and [GMGT 2030 (or 027.203) (D) or GMGT 2080 (or 027.208) (D)].

ENTR 4511 Entrepreneurship et création d'entreprises Cr.Hrs.3 (L'ancien 118.451) Ce cours porte sur la création d'entreprise. Lancement d'entreprise; caractéristiques de l'entrepreneur; plan d'entreprise; définition du projet; détermination du marché; fonctions administratives; problèmes particuliers au lancement d'entreprise, aide gouvernementale. On ne pourra se faire créditer ce cours avec le ENTR 4100 (ou 118.410). Donné au Collège de St. Boniface. *Préalable:* ACC 1100 (ou 009.110) (D) et MKT 2210 (ou 118.221) (D), et [GMGT 2030 (ou 027.203) (D) ou GMGT 2080 (ou 027.208) (D)].

MKT 2210 Fundamentals of Marketing Cr.Hrs.3 (Formerly 118.221) Analysis of marketing problems, emphasizing various alternatives available for achieving economic efficiency in the distribution process; public policy with respect to marketing.

MKT 2211 Principes de marketing Cr.Hrs.3 (L'ancien 118.221) Analyse des problèmes précis de marketing, l'accent étant mis sur l'analyse de différentes façons de maximiser les bénéfices dans le processus de la distribution des biens et des services; le marketing et la société. Donné au Collège de St. Boniface.

MKT 3220 Marketing Research Cr.Hrs.3 (Formerly 118.322) Study of marketing research as a tool for decision-making. The ability to use one of the statistical analysis computer packages (SPSS-X, SAS, etc.) is expected. *Prerequisites:* MKT 2210 (or 118.221) (D) and STAT 1000 (or 005.100) (D); or consent of instructor.

MKT 3221 Recherche en marketing Cr.Hrs.3 (Ancien 118.322) Étude de la recherche en marketing comme outil fondamental de la prise de décision. Utilisation d'un logiciel dans l'analyse statistique des données. *Préalables:* le MKT 2211 (ancien 118.221) et le STAT 1001 (ancien 005.100).

MKT 3230 Consumer Behaviour Cr.Hrs.3 (Formerly 118.323) Study of buying behaviour of individuals and organizations as affected by psychological and sociological forces within society. *Prerequisite:* MKT 2210 (or 118.221) (D).

MKT 3231 Comportement du consommateur Cr.Hrs.3 (L'ancien 118.323) Étude de l'influence de l'environnement et de l'influence individuelle sur le comportement du consommateur. Donné au Collège de St. Boniface. *Préalable:* MKT 2210 (ou 118.221) (D).

MKT 3240 Selected Topics in Marketing Cr.Hrs.3 (Formerly 118.324) Analysis of marketing as it relates to specialized fields. *Prerequisite:* MKT 2210 (or 118.221) (D).

MKT 3250 Marketing Strategy Cr.Hrs.3 (Formerly 118.325) Integration of sales and marketing strategies, including planning, formulation, and implementation. Emphasis on the role and importance of marketing strategy in overall corporate growth. *Prerequisite:* MKT 2210 (or 118.221) (D).

MKT 3291 Publicité Cr.Hrs.3 Analyse du rôle et de la gestion de la publicité dans le cadre du plan marketing. Théorie de la communication et la formulation de messages publicitaires, établissement du budget, la sélection des médias et l'analyse de l'efficacité de la publicité. Donné au Collège de St. Boniface. *Préalable:* 18.221 (D).

MKT 3300 International Marketing Cr.Hrs.3 (Formerly 118.330) A study of international similarities and differences in marketing structures, functions and processes as related to the socio-economic and cultural environment and a consideration of the opportunities and problems of international marketing. *Prerequisite:* MKT 2210 (or 118.221) (D).

MKT 3301 Marketing international Cr.Hrs.3 (Ancien 118.330) Analyse comparée des structures, des fonctions et des processus de marketing dans des environnements sociaux, culturels et économiques variés. Diagnostic de l'environnement externe et élaboration des stratégies de marketing mix international. *Préalable:* MKT 2211 (ancien 118.221).

MKT 3310 Retail and Channel Management Cr.Hrs.3 (Formerly 118.331) The study of the functions performed by traditional and e-commerce distributors. Topics include location and competitive analysis, promotion, merchandising, buying, design, selection and historical development. (Formerly 118.331) The study of the functions performed by traditional and e-commerce distributors. Topics include location and competitive analysis, promotion, merchandising, buying, design, selection and historical development. May not be held with the former 118.321. *Prerequisite:* MKT 2210 (or 118.221) (D).

MKT 3320 Competitive Intelligence Cr.Hrs.3 (Formerly 118.332) An examination of the information sources and analytical techniques required by business to develop the competitive intelligence necessary to successfully compete in today's marketplace. *Prerequisites:* ACC 1110 (or 009.111) (D) and MIS 2000 (or 009.200) (D) and MKT 3220 (or 118.322) (D).

MKT 3340 Services Marketing Cr.Hrs.3 (Formerly 118.334) An examination of the differences in the marketing of goods versus services. Topics covered include service process design and management, problem identification and resolution, positioning issues, the importance of human resources, and promotional issues. *Prerequisite:* MKT 2210 (or 118.221) (D).

MKT 3390 Integrated Marketing Communications Cr.Hrs.3 (Formerly 118.339) The process of using promotional tools in a unified way so that a synergistic communications is created. The course examines the roles of advertising, sales promotion, direct

marketing, and the internet within this broader framework. May not hold with the former 118.329. *Prerequisite:* MKT 2210 (or 118.221) (D).

MKT 4210 Marketing Management Cr.Hrs.3 (Formerly 118.421) Study of location and nature of markets, techniques by which firms attempt to affect the demand for their goods and services and the significance of these effects on business and society. Can be taken only in final year of program. *Prerequisites:* MKT 3220 (or 118.322) (D) or MKT 3230 (or 118.323) (D), and one other 3000 or 4999 level Marketing course with a minimum grade of (D).

MKT 4211 Gestion du marketing Cr.Hrs.3 (Ancien 118.421) Étude des marchés et des techniques utilisées par les entreprises pour influencer la demande de leurs produits et services. Impact de cette influence sur les marchés, le milieu des affaires et la société. Ce cours ne sera suivi qu'à la dernière année du programme. *Préalable:* MKT 2211 (ancien 118.221) et deux autres cours de marketing.

MKT 4240 Advanced Seminar in Marketing Cr.Hrs.3 (Formerly 118.424) An in-depth examination of special topics in marketing including marketing theory, and recent developments in marketing philosophy and thought. *Prerequisite:* MKT 2210 (or 118.221) (D), plus at least two other 300 or 400 level marketing courses with a minimum grade of (D).

MKT 4270 Sales Management Cr.Hrs.3 (Formerly 118.427) The study of the management of the personal selling area including an examination of the selling function, the sales manager, and sales management. *Prerequisite:* MKT 2210 (or 118.221) (D).

MKT 4271 Administration des ventes Cr.Hrs.3 (L'ancien 118.427) Analyse de l'administration de la vente personnelle, y compris l'analyse la fonction-vente, la supervision de la force de vente et la gestion des ventes. Donné au Collège de St. Boniface. *Préalable:* MKT 2210 (ou 118.221) (D).

MKT 4410 Business to Business Marketing Cr.Hrs.3 (Formerly 118.441) The study of marketing management and its decision-making implications within the industrial and commercial marketplace. May not hold with the former 118.440. *Prerequisite:* MKT 2210 (or 118.221) (D).

12.6: Supply Chain Management (MSCI, OPM, SCM)

Head: P. Larson

General Office: 631 Drake

Telephone: 474 8377

MSCI 2150 Introduction to Management Sciences Cr.Hrs.3 (Formerly 164.215) An introduction to management science techniques and models. Topics include linear programming, distribution problems, decision theory and queuing models. May not hold with the former 027.215. *Prerequisites:* [MATH 1310 (or 136.131) (D) or MATH 1300 (or 136.130) (D) or equivalent and [MATH 1520 (or 136.152) (D) or MATH 1500 (or 136.150) (D)] or equivalent. *Prerequisite or Concurrent Requirement:* STAT 1000 (005.100) (D) or equivalent] and COMP 1260 (or COMP 1261) (D).

MSCI 2151 Introduction aux sciences de la gestion Cr.Hrs.3 (L'ancien 164.215) Introduction aux techniques et modèles des sciences de la gestion. Les sujets traités incluent la programmation linéaire, les problèmes d'affectation et de transport, la théorie de la décision, les files d'attente. On ne pourra se faire créditer cours avec l'ancien 027.215. *Préalables:* [MATH 1310 (ou 136.131) (D) ou MATH 1300 (ou 136.130) (D)] et [MATH 1520 (ou 136.152) (D) ou MATH 1500 (ou 136.150) (D)]. *Préalable* ou corequis: STAT 1000 (ou STAT 1001) (D) et COMP 1260 (ou COMP 1261) (D) ou consentement du professeur.

MSCI 3400 Intermediate Management Science Cr.Hrs.3 (Formerly 164.340) Operations research models used in the analysis of management problems. Topics include network analysis, deterministic inventory models, dynamic programming and game theory. May not hold with the former 027.340. *Prerequisite:* MSCI 2150 (or 164.215) (D); or consent of instructor.

MSCI 3401 Sciences de la gestion 2 Cr.Hrs.3 (L'ancien 164.340) Modèles de la recherche opérationnelle utilisés dans l'analyse de problèmes de gestion. Les sujets traités incluent les réseaux, les problèmes d'inventaire du point de vue déterministe, la programmation dynamique, la théorie des jeux. On ne pourra se faire créditer cours avec l'ancien 027.340. *Préalables:* MSCI 2150 (ou 164.215) (D); ou le consentement du professeur.

MSCI 4200 Topics in Management Science Cr.Hrs.3 (Formerly 164.420) Topics of current interest in management science. Not taught every year. May not hold with former 027.420. *Prerequisite:* MSCI 2150 (or 164.215) (D).

MSCI 4220 Management Science Models in Business and Industry Cr.Hrs.3 (Formerly 164.422) An applied course providing practical experience in modeling and solving business and industrial problems. Emphasis to be placed upon analysis, formulation, solution and implementation. Not taught every year. May not hold with former 027.422. *Prerequisite or Concurrent Requirement:* one of MSCI 3400 (or 164.340 or 027.340) (D) or MSCI 4200 (or 164.420 or 027.420) (D) or MSCI 4230 (or 164.423 or 027.423) (D).

MSCI 4230 Simulation Models in Management Science Cr.Hrs.3 (Formerly 164.423) Introduction to and use of simulation models and techniques to solve business and industrial problems. Not taught every year. May not hold with former 027.423. Not taught every year. *Prerequisite:* MSCI 2150 (or 164.215) (D).

OPM 2600 Fundamentals of Production and Operations Management Cr.Hrs.3 (Formerly 164.260) Study of production function and management; production systems; system design, analysis and control. *Prerequisite:* must have completed 12 credit hours of Asper School of Business courses. May not hold with former 027.260. *Prerequisite or Concurrent Requirement:* STAT 1000 (or 005.100) (D) or equivalent.

OPM 2601 Principes de gestion des opérations et de la production Cr.Hrs.3 (L'ancien 164.260) Étude des notions de base en gestion des opérations et de la production, systèmes de production, conception de système, analyse et contrôle. Donné au Collège universitaire de Saint-Boniface. On ne pourra se faire créditer cours avec l'ancien 027.260. *Préalable* ou corequis: STAT 1000 (ou 005.100) (D) ou l'équivalent.

OPM 3630 Simulation Models for Operations Management Cr.Hrs.3 (Formerly 164.363) Currently not offered. May not hold with former 027.363.

OPM 3640 Project Planning and Control Cr.Hrs.3 (Formerly 164.364) Currently not offered. May not hold with former 027.364.

OPM 3650 Management of Quality and Reliability Cr.Hrs.3 (Formerly 164.365) This course offers a practical introduction to modern quality assurance and reliability management concepts, methods and practices. It builds upon the relevant subject matter in basic courses in production management and prepares for positions in the field of quality and reliability management. May not hold with former 027.365. *Prerequisite:* OPM 2600 (or 164.260) (D).

OPM 3660 Operations Management in Service Organizations Cr.Hrs.3 (Formerly 164.366) This course explores the applications of operations management concepts to the management of service operations. The characteristics of a service operation, while generally comparable to manufacturing a product, often place a unique demand upon the service manager. These demands, along with the analysis of actual company situations through case study applications, are emphasized. May not hold with former 027.366. *Prerequisite:* OPM 2600 (or 164.260) (D).

OPM 3670 POM Project in Industry Cr.Hrs.3 (Formerly 164.367) An applied course, designed to bridge the gap between theoretical concepts developed in previous POM courses and current industrial practices by means of an industrial project. May not hold with former 027.367. *Prerequisites:* OPM 2600 (or 164.260 or 027.260) (D) or consent of instructor.

OPM 4611 Gestion de projets Cr.Hrs.3 Étude de la gestion de projets. Définition et contexte d'application de la gestion de projets. Techniques, approches et outils de gestion d'un projet en fonction de la structure organisationnelle de l'entreprise et des contraintes de temps, coût et qualité. *Préalable:* GMGT 2081 Introduction au management et à la théorie de l'organisation et OPM 2601 Principes de la gestion des opérations et de la production.

OPM 4620 Production Management Seminar Cr.Hrs.3 (Formerly 164.462) Problems, development, and application of analytical methods in production and operations management with emphasis on planning and control. May not hold with former 027.462. *Prerequisite:* MSCI 2150 (or 164.215) (D) and OPM 2600 (or 164.260) (D).

OPM 4630 Production and Inventory Systems: Planning and Control Cr.Hrs.3 (Formerly 164.463) To develop concepts and understanding about the planning and control system used to guide and coordinate the flow of materials, labor inputs and goods and services through the physical productive system. Topics to be covered include: 1) Independent demand inventory systems, 2) Dependent demand inventory systems, 3) Aggregate planning, 4) Capacity planning and control. May not hold with former 027.463. *Prerequisite:* OPM 2600 (or 164.260) (D).

SCM 2210 Transportation Principles Cr.Hrs.3 (Formerly 164.221) Demand forecasting, cost analysis, regulation of carriers, role of transport in economic development, project appraisal and transport planning. Also offered as ABIZ 2210 by the Department of Agribusiness and Agricultural Economics. May not be held with ABIZ 2210 (or 061.221). *Prerequisite:* ECON 1200 (or 018.120) (D).

SCM 2220 Selected Topics in Logistics and Transportation Cr.Hrs.3 (Formerly 164.222) This course provides coverage on a number of critical topics in Supply Chain Logistics and Transportation. Areas of emphasis are based on current issues confronting managers and regulators/policy makers such as global supply chain logistics and transportation policy.

SCM 2230 Introduction to Supply Chain Management Cr.Hrs.3 (Formerly 164.223) An examination of the management activities that are necessary to ensure an efficient flow of materials, funds, and information among the various organizations in supply chains, from the acquisition of raw materials to the delivery of the finished product to the end user.

SCM 3230 Global Supply Chains Cr.Hrs.3 (Formerly 164.323) The course provides a global orientation to supply chain management, with a particular emphasis on the global linkages between organizations in international supply chains. Supply chain management practices in selected countries are also examined. *Prerequisite:* SCM 2230 (or 164.223) (D) or SCM 3360 (or 164.336 or 118.336) (D); or consent of instructor.

SCM 3360 Supply Chain Logistics Cr.Hrs.3 (Formerly 164.336) The course provides an international/global orientation to logistics and supply chain management. May not be held with the former 118.336 or 118.326. *Prerequisite:* MKT 2210 (or 118.221) (D).

SCM 4250 Beyond Business: Advanced Issues in Supply Chain Management Cr.Hrs.3 The material covered in this course moves beyond a business perspective and analyzes the relationship between supply chain management (SCM) and other parts of society as a whole. It examines the issues that arise as supply chain management interests with government and society. May not be held with the former SCM 4240 (or 164.424). *Prerequisite:* SCM 2230 (D); or the former 164.230 (D); or consent of instructor.

SECTION 1: Academic Staff

Department of Occupational Therapy

Professor Emerita:

Cooper, J.E., Dip. P. and O.T. (Toronto), B.O.T., M.Sc., Ph.D. (Manitoba).

Professor:

Etcheverry, E., Dip.O.T., B.O.T., M.Ed., Ph.D. (Manitoba).

Associate Professors:

Booth, A.D., B.Sc.(O.T.) (Pennsylvania), M.B.A. (Manitoba); **Collins, D.,** Dip.O.T., B.Sc.(O.T.) (Queen's), M.Sc.(Community Health Sciences) (Manitoba); **Wener, P.,** B.M.R.(O.T.), M.Ed. (Manitoba).

Assistant Professors:

Friesen, M., Dip.O.T. (Alberta), B.O.T., M.Ed., Ph.D. (Manitoba); **Giesbrecht, E.,** B.S.W., B.M.R.(O.T.), M.Sc.(Rehab) (Manitoba); **Leclair, L.,** B.A. (Manitoba), B.H.Sc.(O.T.) (McMaster), M.Sc. (Manitoba); **Quanbury, A.,** B.Sc. (Queen's), M.A.Sc. (Toronto); **Restall, G.,** B.M.R.(O.T.) (Manitoba), M.Sc.(O.T.) (Alberta); **Ripat, J.,** B.M.R.(O.T.), M.Sc.(Rehab) (Manitoba); **Sullivan, T.,** B.Sc.(O.T.) (Western Ontario), M.A. (Columbia).

Adjunct Professor:

Edwards, J.M., Dip.O.T., B.M.R.(O.T.) (Manitoba), M.A.(Health Care Admin.) (Minnesota).

Academic Fieldwork Co-ordinator and Instructor 2:

Campbell-Rempel, M., B.Sc. (Brandon), B.M.R.(O.T.) (Manitoba).

Instructor 2:

Mendez, L., B.M.R.(O.T.) (Manitoba).

Instructors:

Bergen, C., B.M.R.(O.T.) (Manitoba), M.A.(Marriage, Family and Child Counselling) (California); **Brown, C.,** B.M.R.(O.T.) (Manitoba); **Davis, E.,** B.A., B.M.R.(O.T.) (Manitoba); **Diamond-Burchuk, L.,** B.M.R.(O.T.) (Manitoba); **Gerard, J.,** B.A., B.M.R.(O.T.) (Manitoba); **Hales, S.,** B.M.R.(O.T.) (Manitoba); **Johnson, L.,** B.H.Sc.(O.T.) (McMaster), M.Sc.(Rehab) (Manitoba); **MacLeod-Schroeder, N.,** B.Sc.(O.T.), M.Sc. (Western Ontario); **Miller, K.,** B.Sc.(O.T.) (Western Ontario); **Smith, K.,** B.M.R.(O.T.) (Manitoba).

Department of Physical Therapy

Associate Professors:

Kriellaars, D., B.P.E. (Manitoba), M.Sc. (Dalhousie), Ph.D. (Manitoba); **MacNeil, B.,** B.Sc.(P.T.) (Dalhousie), Ph.D. (Waterloo); **Shay, B.,** B.M.R.(P.T.), M.Sc., Ph.D. (Manitoba); **Swinamer, J.,** B.P.T. (Manitoba), M.S.A.(Health) (Central Michigan); **Szturm, T.J.,** B.Sc.(Biology), B.Sc.(P.T.) (Western Ontario), Ph.D.(Neurophysiology) (Manitoba).

Assistant Professors:

Lee, C.E., B.Sc.(P.T.) (Alberta), Ph.D. (Texas Woman's).

Senior Instructor:

Pereira, G., Dip.(P.T.) (Saskatchewan), B.P.T. (Manitoba).

Instructor 2:

McMurray, M., B.P.E., B.M.R.(P.T.) (Manitoba).

Instructors:

Barclay-Goddard, R., B.M.R.(P.T.) (Manitoba), M.H.Sc. (McMaster), Ph.D. (Manitoba); **Fricke, M.,** B.M.R.(P.T.), M.Sc. (Manitoba); **Harvey, E.,** B.M.R.(P.T.) (Manitoba), M.H.Sc.(Phy) (Sydney); **Horbal, R.,** B.P.E. (Manitoba), Cert.Ed. (Brandon), B.M.R.(P.T.) (Manitoba); **Lavallee, R.,** B.A., B.M.R.(P.T.) (Manitoba); **Ryan-Arbez, N.,** B.M.R.(P.T.), M.Sc. (Manitoba); **Urban, L.,** B.P.T. (Manitoba); **Walker, M.,** B.M.R.(P.T.), M.Sc. (Manitoba); **Weinberg, L.E.,** B.P.T., M.Sc., Ph.D. (Manitoba).

Academic Co-ordinator of Clinical Education, and Instructor 2:

Garrett, M., B.Phy (Queensland), M.H.A. (New South Wales).

Term Instructors:

Abbott, B., B.M.R.(P.T.) (Manitoba), M.D. (Saskatchewan); **Carswell, J.,** B.M.R.(P.T.), B.P.E. (Manitoba); **Fruehm, C.,** B.M.R.(P.T.) (Manitoba); **Gupta, S.,** B.Sc., B.M.R.(P.T.) (Manitoba); **Kozera, T.,** B.M.R.(P.T.), M.Sc. (Manitoba); **Lightly, E.,** B.M.R.(P.T.) (Manitoba); **McIlrath, J.,** B.P.T. (Saskatchewan); **Nett, C.,** B.M.R.(P.T.) (Manitoba); **Newton, L.,** R.N. (Winnipeg General Hospital), B.A. (Winnipeg), B.S.N. (Victoria), M.N. (Manitoba); **Niebur, R.,** B.M.R.(P.T.) (Manitoba), B.A. (Winnipeg); **Pisclevich, L.,** B.M.R.(P.T.) (Manitoba); **Silk, C.,** B.M.R.(P.T.) (Manitoba); **Webber,**

S., B.M.R.(P.T.), M.Sc. (Manitoba); **Woodard**, T., B.Sc., B.M.R.(P.T.) (Manitoba).

Department of Respiratory Therapy

Associate Professor:

Yachemetz, T., B.A.(Hons.) (Manitoba), R.R.T. (Health Sciences Centre).

Assistant Professor:

Chiu, A., B.Sc., M.D. (Toronto).

Lecturer:

Parker, J., B.Sc. (Calgary), R.T. (Red River College).

Instructor 2:

Wall, B., R.N., R.R.T. (Health Sciences Centre); **West**, A., R.R.T. (New Brunswick Community College), M.App.Sc. (Charles Sturt University).

Instructor 1:

Chambers, K., R.R.T. (Health Sciences Centre); **Haywood**, E., R.R.T. (Health Sciences Centre); **Heese**, R., R.R.T. (Health Sciences Centre); **Kliewer**, K., R.R.T. (Health Sciences Centre).

Sessional and Term Instructors:

Kresta, P., B.Sc. (New Brunswick), M.H.Sc.(P.Eng.) (Toronto); **Mestdagh**, F., R.R.T. (Health Sciences Centre); **Minski**, J., R.R.T. (Health Sciences Centre); **Mortimer**, T., R.R.T. (Health Sciences Centre).

SECTION 2: The Professions of Occupational Therapy, Physical Therapy and Respiratory Therapy

The School of Medical Rehabilitation offers three entry-level professional programs: one in Occupational Therapy, one in Physical Therapy, and one in Respiratory Therapy. Occupational Therapy is a health discipline that endeavours to promote, develop, restore and optimize health and functional ability. Therapists use a holistic approach and work collaboratively with their clients to facilitate their achievement of independence in all aspects of their daily living. Physical Therapy is a discipline directed towards the prevention or alleviation of movement dysfunction. The goal of physical therapy is to assist patients in achieving, or restoring to them, the highest level of movement possible and maximum independence. Respiratory Therapy is a health discipline devoted to the scientific application of technology to assist in the diagnosis, treatment, and promotion of well being of patients with respiratory and associated disorders. Respiratory Therapists work as part of a multidisciplinary health care team in a variety of hospital and alternate care settings as well as the private sector and the community.

The School of Medical Rehabilitation was established in September 1960 as a response by the University of Manitoba to the increasing need for occupational and physical therapists. It was founded as an academic unit within the Faculty of Medicine and was located originally in the Children's Hospital. In 1962 the school moved to the third floor of the newly completed Manitoba Rehabilitation Hospital. Since the incorporation of the Health Sciences Centre in 1972, the school has retained this location but now exists primarily as an integrated part of the Bannatyne Campus. The general office is located at 771 McDermot Avenue on the Bannatyne Campus. The Department of Respiratory Therapy is housed in the Isabel M. Stewart Building, 700 McDermot Avenue. In 1996, the school was given 25,000 square feet of new space in the former Medical Library Building and a major redevelopment plan was completed in 2002.

In 1964 the University Senate approved extensions of the original diploma curricula from two and one-half to three years. Optional fourth-year programs leading to the degrees of Bachelor of Occupational Therapy and Bachelor of Physical Therapy were approved by Senate in 1966.

In February 1976, new undergraduate programs leading to the degrees of Bachelor of Medical Rehabilitation (Occupational Therapy) and Bachelor of Medical Rehabilitation (Physical Therapy) were approved by Senate in recognition of expanding roles of occupational and physical therapy in health care. The diploma programs were discontinued.

Effective September 1989, a revised B.M.R.(O.T.) and a revised B.M.R.(P.T.) program were introduced.

Plans are underway for the development of a graduate entry-level program in Physical Therapy. If approved, this program would replace the current undergraduate program. Students are advised to consult the School of

Medical Rehabilitation web site for current information about the Physical Therapy program.

Effective in 2003, the Occupational Therapy entry-level program became a graduate program leading to a Master of Occupational Therapy degree. There is a Regular program and an Accelerated option. The Regular program is for individuals who do not have a previous degree in occupational therapy. The Accelerated option is for occupational therapists who have a B.M.R.(O.T.) degree or equivalent. Students are advised to consult the University of Manitoba Graduate Calendar and the Master of Occupational Therapy program Supplemental Regulations for further information.

The Bachelor of Respiratory Therapy program was approved by Senate in 2002, modified from the previous diploma program, established at the Health Sciences Centre in 1964. The original diploma program was established as a two-year program, was modified to a three-year program in 1984, and subsequently evolved to require a pre-professional year of study in 1995. The current B.M.R.(R.T.) program has introduced a number of curricular changes to the most recent diploma program, offering a revised four-year program of study leading to a bachelor degree.

In 1989, a thesis-based Masters of Physical Therapy program was approved and in 1992 the program became an M.Sc.(Rehabilitation), in which all other disciplines related to rehabilitation could further their research endeavours.

Accreditation

The Occupational Therapy program maintains accreditation through the Canadian Association of Occupational Therapists. Accreditation was received in 1986, 1989, 1991, 1995, 2000 and 2005.

The Physical Therapy program was awarded ongoing accreditation status until 2008 from the Accreditation Council for Canadian Physiotherapy Academic Programs (ACCPAP).

The Respiratory Therapy program maintains accreditation through the Council on Accreditation of Respiratory Therapy Education (CoARTE). Accreditation was most recently awarded in 2007 for a 5-year term.

SECTION 3: Admission to the School of Medical Rehabilitation

3.1 Degrees offered

Master of Occupational Therapy (M.O.T.)

Regular Program minimum time to graduation: Five years (prior bachelor's degree plus two years)

Accelerated Option minimum time to graduation: Five years (B.M.R.(O.T.) degree and prerequisite year plus one year)

Bachelor of Medical Rehabilitation (Physical Therapy) (B.M.R.(P.T.))

Bachelor of Medical Rehabilitation (Respiratory Therapy) (B.M.R.(R.T.))

Minimum time to graduation: Four years (University 1 plus three years).

The following is a summary of the admission requirements. Equivalent academic courses completed at the University of Manitoba or recognized universities elsewhere will be considered. All admission requirements, as well as application deadline dates and forms, are included in applicant information bulletins that are available from the School of Medical Rehabilitation general office, R106-771 McDermot Avenue, Bannatyne Campus. P.T. and R.T. info can also be obtained from the Admissions Office, Enrolment Services, 424 University Centre. This information is also posted on the university's website.

3.2 Course requirements: Occupational Therapy

Regular Program

Completion of a previous undergraduate degree, minimum B average in last 60 credit hours of study, completion of all program prerequisite courses or approved alternates with no grade in prerequisites below a C. Prerequisite courses include all of the courses listed below or equivalents approved by the M.O.T. Admissions Committee:

SOC 1200 Introduction to Sociology
PSYC 1200 Introduction to Psychology
PSYC 2290 Child Development

PSYC 2370 Developmental Psychology from Adolescence to Old Age
STAT 1000 Basic Statistical Analysis 1
ZOOL 1320 Anatomy of the Human Body
ZOOL 1330 Physiology of the Human Body.

Accelerated Option

Completion of a B.M.R.(O.T.) degree or equivalent, minimum B average in the last 60 credit hours of the degree, completion of an additional 42 credit hours of non-O.T. degree credits, and evidence of having passed the Canadian Association of Occupational Therapists (C.A.O.T.) certification examination and/or eligibility for registration in Manitoba by the College of Occupational Therapists of Manitoba (C.O.T.M.).

3.3 Course requirements: Physical Therapy

Prospective students are advised that a major curriculum change for Physical Therapy is proposed to begin in 2010. There will be no intake of students into the B.M.R.(P.T.) program in 2009 to allow for the phase-in of the proposed new program. Interested students are encouraged to check for updates posted on our website as they become *available at umanitoba.ca/medrehab*.

Both BIOL 1020 and BIOL 1030 Biology 1 & 2, or both BIOL 1000 and BIOL 1010 Biology, or both ZOOL 1320 and ZOOL 1330 Anatomy and Physiology (or ZOOL 2530 and ZOOL 2540 Physiology 1 & 2 in lieu of ZOOL 1330)

SOC 1200 Introduction to Sociology

PSYC 1200 Introduction to Psychology

3 credit hour course to satisfy the written English requirement

6-9 credit hours of electives to total 30 credit hours in University 1

Other requirements: Physical Therapy

Minimum GPA required for consideration: 3.0. Minimum 3.0 in core courses.

The written English requirement must be satisfied in University 1; the mathematics requirement is satisfied after admission to Physical Therapy by the required course, REHB 2460.

Selection criteria: 50% interview and 50% grades. Volunteer experiences are strongly recommended prior to application.

High school prerequisites for Physical Therapy degree only

High school prerequisites: Biology 40S, Chemistry 40S, English 40S, Physics 30S or 40S are strongly recommended.

3.4 Course requirements: Respiratory Therapy

BIOL 1020 and BIOL 1030 Biology 1 & 2, or both BIOL 1000 and BIOL 1010 Biology

SOC 1200 Introduction to Sociology

PSYC 1200 Introduction to Psychology

3 credit hour course to satisfy the written English requirement

9 credit hours of electives to total 30 credit hours in University 1

Other requirements: Respiratory Therapy

Minimum GPA for consideration is 2.5

The mathematics requirement is satisfied after admission to Respiratory Therapy by required course REHB 2460. This is subject to change in 2010 and will be required as a prerequisite course. Alternate courses will also be allowed. Please check with the department for a list of acceptable courses.

The following High School Courses are highly recommended: Biology 40S, English 40S, Mathematics 40S, Chemistry 40S and Physics 40S.

Selection Criteria: 67% Grades and 33% Interview.

Applicants having less than 30 credit hours in a regular winter session will be considered if they have an AGPA of 3.0 or better.

SECTION 4: Academic Regulations

4.1 General

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the School of Medical Rehabilitation has regulations and requirements, published below, that apply specifically to its students.

Policies with regard to admissions, selection, academic progression of the student, compulsory attendance, examination procedures, supplemental examination procedures, and withdrawal dates are in force and are on file in the general office of the School of Medical Rehabilitation.

4.2 Health Requirements

Students in all departments are required to provide a health history and immunization record. A student will not be permitted to attend fieldwork/clinical placements until all health, immunization and CPR requirements are current.

Immunizations

Standard Health Record Form Packages are sent to new students in Occupational Therapy, Physical Therapy and Respiratory Therapy upon acceptance into the programs. New students in Occupational Therapy and Physical Therapy are required to return forms to their respective departments by the dates published yearly in the Health Record Form Packages. New students in Respiratory Therapy are required to return forms by August 31. Returning students in all three programs are required annually to review and update immunizations as necessary.

Cardiopulmonary Resuscitation Certification (Occupational Therapy only)

All students of the Department of Occupational Therapy are required to obtain certification in cardiopulmonary resuscitation. Certification must be at the Basic Rescuer Level. New students in the program must provide proof of certification within the first 2 weeks of classes of the academic year in which they commence classes. This certification must not have an issue date prior to July 1 of the year the student commences classes in the program. Second year students must provide proof of re-certification by October 1 of their second year in the program. This certification must not have an issue date prior to the last week of August of the current year. Certification must remain current for all fieldwork experiences.

Cardiopulmonary Resuscitation Certification (Physical Therapy only)

All students (both new and returning) in the Department of Physical Therapy are required to obtain certification in cardiopulmonary resuscitation annually. Certification must be at the Basic Rescuer Level. Proof of certification must be provided by October 1 and must not have an issue date prior to the last week of August of the current year. This will ensure that the certification remains current until the end of the clinical placement period for each year of the program.

Cardiopulmonary Resuscitation Certification (Respiratory Therapy only)

All students of the Department of Respiratory Therapy are required to obtain certification in cardiopulmonary resuscitation. Certification must be at the Basic Rescuer Level. First and second year students must provide proof of certification before their first fieldwork experience, usually mid-September. Third year students will be certified/re-certified by the program at the beginning of their clinical internship year in preparation for advanced level certification(s) in cardiopulmonary resuscitation.

4.3 Dean's Honour List

Undergraduate Students (Physical Therapy and Respiratory Therapy)

Students carrying a full course load, with a sessional Grade Point Average of 3.7 or higher and have not done resit or supplemental exams, are placed on the Dean's Honour List.

4.4 Attendance

Regular attendance is expected of all students in all courses. Prior permission is required for any anticipated absences. Students absent from class due to illness may be required to present a certificate from a physician. Unexcused absence from an examination may result in a grade of zero for that examination. Make-up examinations may be allowed under special circumstances.

4.5 Criminal Record Check and Child Abuse Registry Check

Students are advised that clinical/fieldwork education sites require that students complete a Criminal Record Check and a Child Abuse Registry Check.

New students in the Master of Occupational Therapy program must provide results of a Child Abuse Registry Check and a Criminal Record Check within the first 2 weeks of classes of the academic year in which they commence classes. Both checks must have an issue date after July 1 of the year the student commences classes in the program. Second year students must provide updated results by October 1 of their second year in the program. Both checks must have an issue date during or after the last week of August of the current year.

All physical therapy students are required to obtain a formal Criminal Record Check and a formal Child Abuse Registry Check by October 1 of each year of the program. Both documents must not have an issue date prior to the last week of August of the current year, to ensure that they remain current until the end of the clinical placement period for each year of the program. Additionally, new students are required to complete a criminal record self-declaration form at the time of application to the program.

All respiratory therapy students are required to produce a Criminal Record Check and a Child Abuse Registry Check by August 15 of the year in which they commence classes. Both the Criminal Record Check and the Child Abuse Registry Check must be completed within a six-month time period prior to commencing the program.

SECTION 5: Program Requirements

5.1 Educational Objectives of Programs

The M.O.T., B.M.R.(P.T.) and B.M.R.(R.T.) programs have been designed so that students successfully completing the required academic, professional, and clinical/fieldwork education programs should be able to:

- Understand the interrelationships between medical, psychosocial, economic, and cultural factors affecting the patient/client;
- Identify the role of the therapist in health care;
- Demonstrate application of ethical and professional responsibilities;
- Demonstrate knowledge, understanding, and use of therapeutic intervention;
- Plan, apply and interpret assessment and/or diagnostic procedures;
- Participate in the decisions of a health care team with respect to the design of a total rehabilitation program or other treatment regime including the initiation, progression and discontinuation of therapy;
- Implement the occupational, physical or respiratory therapy components of a total rehabilitation program or other treatment regime;
- Review and modify therapy according to patient/client response and according to the progression of a total rehabilitation program or other treatment regime.
- Assign appropriate areas of a rehabilitation program or selected work assignments to supervised support personnel;
- Participate in clinical and/or basic science research; and
- Participate in and encourage the improvement of health care in the community.

5.2 Clinical/Fieldwork Education

Occupational Therapy

See University of Manitoba Graduate Calendar for descriptions of courses in the Master of Occupational Therapy (M.O.T.) program.

Physical Therapy

1,200 full-time hours of clinical/practical experience are required. Clinical placements are conducted from March to August of the first, second and third years of the program. Placements occur primarily in locations in Manitoba, Saskatchewan, northwest Ontario and Kivalliq Region of Nunavut. Students are advised to take into account the financial implications of the summer placement requirements of the B.M.R.(P.T.) program. All stu-

dents should be prepared to be placed outside of Winnipeg for a minimum of one placement.

Respiratory Therapy

1,600 full-time hours of clinical/fieldwork experience are required. Clinical placements are integrated throughout the three academic years with the majority of the clinical placements occurring in Year 3, the internship year. Placements during the regular academic year all take place within greater Winnipeg. Placements occur within a variety of hospital, public and private settings. (Refer to start and end dates for all years of the program.)

Clinical/Fieldwork Education Sites (Physical Therapy and Respiratory Therapy)

The university recognizes the following sites which provide clinical therapists, some who may lecture in the academic component of the program and also provide supervision of students in clinical/fieldwork placements:

Winnipeg: Access Physiotherapy; Action PT & Wellness Clinic; Andrea Vinci Physiotherapy; Community Therapy Services of Manitoba; Concordia Hospital; Corydon Physiotherapy Clinic; D'Arcy Bain Physiotherapy & Sports Injury Clinic; Deer Lodge Centre; Donna Sarna PT & Rehabilitation Services; Doug Christie PT & Associates; Elite Performance Sports Injury Centre; Fairview Health & Wellness Clinic; Fitness Physiotherapy Services of Manitoba Ltd.; Fort Richmond PT & Sports Injury Centre; Glen Young PT Sport & Spine Injury Clinic; Grace Hospital; Graham PT; Health Sciences Centre; Heather Howdle P.T. & Consulting; Hunter Physiotherapy; Interhospital Transport Team, WRHA; Manitoba Lung Association; Markham Physiotherapy Clinic; Misericordia Health Centre; Ness Physiotherapy and Sports Injury Centre; Nova Physiotherapy and Sports Fitness Clinic; Pembina PT & Sports Injury Clinic; Pembina Trails School Division CSF; Plessis Physiotherapy - Sports Injury Clinic; RANA Medical Inc.; Rehabilitation Centre for Children; River East Physiotherapy Sports Fitness Clinic; Riverbend PT & Sports Injury Centre; Riverview Health Centre; Rose & Max Rady Community Centre; St. Amant Centre; St. Boniface General Hospital; St. James Rehab PT Centre Ltd.; St. Vital PT & Sports Injury Centre; School Therapy Services; Seven Oaks PT & Sports Injury Clinic; Seven Oaks General Hospital; Society for Manitobans with Disabilities; Sport and Spine Physiotherapy Centre; Transcona Physiotherapy and Sports Injury Clinic; Victoria General Hospital; Vista Place PT & Sports Injury Centre; Wellness Institute; Whyte Ridge P.T. & Sports Injury Clinic; Windsor Park PT; YM-YWCA of Winnipeg.

Outside of Winnipeg: Allied Health Group; Bethesda Health Services, Steinbach; Birds Hill PT; Boundary Trails Health Centre, Winkler; Brandon Regional Health Authority; Central Regional Health Authority; Flin Flon General Hospital; Gimli Physiotherapy Clinic; Manitoba Developmental Centre, Portage la Prairie; Oakbank PT; PT on the Red Sport Injury & Rehab Centre, Selkirk; Parkland Regional Therapy Program; PhysioFirst; Portage District General Hospital; Portage P.T. & Sports Injury Clinic; Quarry P.T. Sports Injury & Rehab Clinic, Ashern; Rankin Inlet Health Centre, Nunavut; Ste. Anne PT Sports Injury Clinic; Selkirk & District General Hospital; Steinbach P.T. Clinic & Sports Injury Centre; Swan River Valley Hospital; The Pas Health Complex; Thompson General Hospital; West Fit P.T. & Sports Injury Clinic; Westman Evaluation & Rehab Centre Inc., Brandon; Yellowhead P.T. & Athletic Centre.

SECTION 6: Registration

Occupational Therapy

See University of Manitoba Graduate Calendar for registration procedures for the Master of Occupational Therapy (M.O.T.) program.

Physical Therapy and Respiratory Therapy

Undergraduate Physical Therapy (P.T.) (Years 2 to 3) and Respiratory Therapy (R.T.) (Years 1 to 3) students are required to register themselves through Aurora Student. Because Aurora Student is available 7 days per week, 24 hours per day (subject to minor scheduled and unscheduled outages in off-peak hours) students will have greater access/flexibility regarding the registration process.

To begin registration, go to the University of Manitoba home page (umanitoba.ca) and click on 'Aurora Student' under the Student Links section. Click on 'Enter Secure Area'. Log in using your student number and PIN (Personal Identification Number) from MyUMInfo. If you have forgotten your PIN number, please contact the Registrar's Office at (204) 474-9420 for assistance. If you do not yet have a PIN number, enter your birth date as instructed (YYMMDD). Follow all prompts to set your security access.

Before continuing, you will be asked to agree to 'Terms of Use'. Once you agree, you will be taken to the 'Main Menu'. Under the 'Personal Information' tab, you can change your PIN, update your address, etc.

Click on 'Enrolment and Academic Records'. Select 'Registration', then 'Add/Drop Classes'. You will be asked to choose a 'Term'. Register in both the Fall and Winter Terms, i.e. listed as 'Fall 2009' and 'Winter 2010'. Ensure that you have chosen the correct term where the course is being offered; if the incorrect term is entered, the Course Reference Number (CRN) for the course that you want to register for will not appear. An e-mail will be sent by D. Weigel to advise students when the Aurora Student system is available to accept Summer Session registrations, i.e. listed as 'Summer Session 2010'. Register for the courses that pertain to the respective year that you are entering into (note that you will only be required to enter the CRN that pertains to each of the courses listed in that specific year of the program; each year, new CRNs are assigned to courses). CRNs will be available via the Department. As soon as the CRNs become available, students will have that info e-mailed to them using their address listed in Aurora. Students are required to "Submit Changes" after completing any Add/Drop transactions. If encountering registration errors when trying to register for several courses during one transaction, please register for one course at a time (saving after each entry). In most cases, this will rectify the problem. To log out of the system, it is important that you click on the 'Exit' button.

After you have registered in all of the courses pertaining to the year in which you will be entering, use Aurora Student to obtain a fee assessment. Pay all fees by the fee payment deadlines published.

Registration Exceptions

Students who have (a) failing grade(s) registered against them and/or have other outstanding academic matters (i.e. deferred or supplemental examinations, modified program, etc.) in regards to the previous academic session will not be allowed to register using Aurora Student until instructed to do so. Students falling into this category should contact Doris Weigel at (204) 789-3248 or dweigel@cc.umanitoba.ca for further information.

PHYSICAL THERAPY

First Year Physical Therapy Student Information Not offered in 2009-2010

The courses in the first year of the program are as follows:

Dept. Name	Dept. Code	Course No.	Credit Hrs.
Medical Rehabilitation	REHB	1200	3
Medical Rehabilitation	REHB	1480	3
Medical Rehabilitation	REHB	1490	2
Physical Therapy	PT	1700	6
Physical Therapy	PT	1730	10
Physical Therapy	PT	1750	6
Physical Therapy	PT	1910	5

Winter Medical Rehabilitation	REHB	1500	3
----------------------------------	------	------	---

*Summer (To Be Announced)
Physical Therapy PT 1740 7
* Students will be advised when the Aurora Student System is available to accept Summer registrations.
Total credit hours for First Year: 45

Second Year Physical Therapy Student Information

The courses in the second year of the program are as follows:

Dept. Name	Dept. Code	Course No.	Credit Hrs.
Medical Rehabilitation	REHB	2410	4
Medical Rehabilitation	REHB	2450	3
** Medical Rehabilitation	REHB	2460	3
Physical Therapy	PT	2720	3
Physical Therapy	PT	2750	2
Physical Therapy	PT	2760	6
Physical Therapy	PT	2770	6
Physical Therapy	PT	2790	8
Physical Therapy	PT	2890	3

*Summer Session 2010 (To Be Announced) Physical Therapy	PT	2780	10
---	----	------	----

* Students will be advised (via e-mail from D. Weigel) when the Aurora Student System is available to accept Summer Session 2010 registrations.
** See section on Transfer of Credit/Advanced Standing prior to registering for this course.
Total credit hours for Second Year: (full course load) 48;
(without REHB 2460) 45

Third Year Physical Therapy Student Information

The courses in the third year of the program are as follows:

Dept. Name	Dept. Code	Course No.	Credit Hrs.
Medical Rehabilitation	REHB	3410	3
Medical Rehabilitation	REHB	3460	3
Medical Rehabilitation	REHB	3930	3
Medical Rehabilitation	REHB	3940	3
Physical Therapy	PT	3730	3
Physical Therapy	PT	3740	3
Physical Therapy	PT	3750	6
Physical Therapy	PT	3760	7

Winter 2010 Physical Therapy	PT	3880	8
---------------------------------	----	------	---

*Summer Session 2010 (To Be Announced) Physical Therapy	PT	3920	8
--	----	------	---

* Students will be advised (via e-mail from D. Weigel) when the Aurora Student System is available to accept Summer Session 2010 registrations.
Total credit hours for Third Year: 47
Total program credit hours: 140

RESPIRATORY THERAPY

First Year Respiratory Therapy Student Information

The courses in the first year of the program are as follows:

Dept. Name	Dept. Code	Course No.	Credit Hrs.
Medical Rehabilitation	REHB	1200	3
* Medical Rehabilitation	REHB	1480	3
* Medical Rehabilitation	REHB	1490	2
Respiratory Therapy	RESP	1280	2
Respiratory Therapy	RESP	1320	3
Respiratory Therapy	RESP	1330	3
Respiratory Therapy	RESP	1360	3
Respiratory Therapy	RESP	1380	4

* Program under review. Refer to Dept. for updated info.

Winter 2010 Respiratory Therapy	RESP	1270	3
Respiratory Therapy	RESP	1290	2
Respiratory Therapy	RESP	1370	6

Total credit hours for First Year: 34

Second Year Respiratory Therapy Student Information

The courses in the second year of the program are as follows:

Dept. Name	Dept. Code	Course No.	Credit Hrs.
Medical Rehabilitation	REHB	2450	3
** Medical Rehabilitation	REHB	2460	3
Respiratory Therapy	RESP	2300	6
Respiratory Therapy	RESP	2310	3
Respiratory Therapy	RESP	2320	6
Respiratory Therapy	RESP	2330	3
Respiratory Therapy	RESP	2350	3
Respiratory Therapy	RESP	2370	3

Winter 2010

Respiratory Therapy	RESP	2340	3
Respiratory Therapy	RESP	2360	3

** See section on Transfer of Credit/Advanced Standing prior to registering for this course.

Total credit hours for Second Year: (full course load) 36;
(without REHB 2460) 33

Third Year Respiratory Therapy Student Information

The courses in the third year of the program are as follows:

Fall 2009

Dept. Name	Dept. Code	Course No.	Credit Hrs.
Medical Rehabilitation	REHB	3460	3
Respiratory Therapy	RESP	3300	3
Respiratory Therapy	RESP	3310	10
Respiratory Therapy	RESP	3320	3
Respiratory Therapy	RESP	3330	4
Respiratory Therapy	RESP	3340	1
Respiratory Therapy	RESP	3350	3
Respiratory Therapy	RESP	3360	3
Respiratory Therapy	RESP	3370	4
Respiratory Therapy	RESP	3380	4

Total credit hours for Third Year: 38

Total program credit hours: 108

Registration Assistance

When registering for courses, if problems are encountered that you cannot resolve on your own, contact Doris Weigel at (204) 789-3248 or dweigel@cc.umanitoba.ca. Your queries will be addressed as soon as possible.

Students on "Hold"

If your records are on "Hold", you are prevented from any registration transaction until you have cleared this status.

Transfer of Credit/Advanced Standing

(Process subject to change in 2010)

A memo will be circulated (in January of each year) to students registered in Year 1 of the Respiratory Therapy undergraduate program. At that time, students will be asked to submit a request for Transfer of Credit/Advanced Standing regarding a course (where passing grade obtained) that was previously taken and is equivalent to REHB 2460, Statistics (taught in second year of the curriculum). At the same time, students will also indicate whether they will be registering for an equivalent course in Summer Session.

The course will be evaluated as to whether it is transferable or whether advanced standing can be granted in lieu of course REHB 2460. If approval is granted, the student will be notified of the decision (memo to be placed in the student's School of Medical Rehabilitation mailbox no later than mid-March) prior to second year registration occurring.

Applying to Graduate

All undergraduate students must declare their intent to graduate through Aurora Student. Refer to the declaration deadline dates published in the Undergraduate Calendar, 2009-2010 Academic Schedule (University Convocation section) found at the front of the calendar. Log in to Aurora Student, select [Enrolment & Academic Records > Declarations > Declare Graduation Date](#). Select your intended graduation month from the drop down menu and press 'submit'. After indicating your expected date of graduation, you will receive a verification letter from the Registrar's Office confirming relevant graduation information such as name, address, degree sought and date of graduation. Amend any errors in the verification and return it to the Registrar's Office immediately to ensure time for correction.

Change of Address

Undergraduate Physical Therapy (Years 2 to 3) and Respiratory Therapy (Years 1 to 3) students are responsible for updating their home/permanent addresses using Aurora Student. So as to keep your School of Medical Rehabilitation personnel file up to date, also provide your address changes to the General Office of School of Medical Rehabilitation and to the Department secretary (if registered in the Department of Respiratory Therapy).

E-mail Accounts

All students are expected to have an e-mail account with the University of Manitoba. As a student in the School of Medical Rehabilitation, you are expected to check your University of Manitoba e-mail regularly.

Section 7: Course Descriptions

OT 1690 Fieldwork Preparation Cr.Hrs.1 This course provides foundational knowledge and skills required to participate effectively in the fieldwork component of the Occupational Therapy Program. Course evaluated on a pass/fail basis.

OT 4130 Re-Entry Fieldwork Cr.Hrs.8 (Formerly 168.413) Self-directed period of fieldwork preparation followed by a seven-week fieldwork education experience under the supervision of a licensed occupational therapist. Course evaluated on a pass/fail basis. *Prerequisites:* an earned degree in occupational therapy, permission of Head of Department of Occupational Therapy.

OT 6100 Human Determinants of Occupational Performance Cr.Hrs.6 (Formerly 168.610) Students study the anatomical, physiological, biomechanical, and psychosocial factors that underlie the physical, cognitive and affective components of human capacities. Content is presented in the context of understanding the relationship between human capacities and occupational performance, the ability to carry out activities and tasks of self-care, productivity and leisure throughout the lifespan.

OT 6110 Theoretical and Philosophical Foundations of Occupational Therapy Cr.Hrs.3 (Formerly 168.611) Students study the theoretical and philosophical foundations of occupational therapy and the relationship between occupation and health and well-being. A case based introduction to the processes and approaches that guide practice with clients of various ages and in a variety of practice settings.

OT 6120 Health and Disability Cr.Hrs.3 (Formerly 168.612) Students study definitions of health, factors influencing health, and systems that relate to health in populations. Students are also introduced to classification of diseases and disorders and impairments and the disablement process.

OT 6130 Occupational Therapy Practice Skills 1 Cr.Hrs.3 (Formerly 168.613) Through instruction, case illustration and practice laboratory sessions students are introduced to practice skills related to the occupational therapy process. Occupational therapy skills and approaches used to identify occupational performance issues are introduced and practiced. Basic assessment of physical, cognitive, and affective performance components are taught. Students participate in problem solving and basic interventions around issues of occupational performance.

OT 6140 Enabling and Professional Development Skills Cr.Hrs.7 (Formerly 168.614) An introduction to the development of personal knowledge, skills and attitudes related to enabling occupation in clients, and to promoting professional behaviours for safe, reliable and ethical practice. Emphasis will be placed on the development of a variety of verbal and written communications skills, and clinical/professional reasoning.

OT 6190 Fieldwork Preparation Cr.Hrs.1 This course provides foundational knowledge and skills required to participate effectively in the fieldwork component of the Occupational Therapy Program. Course evaluated on a pass/fail basis.

OT 6200 Basic Fieldwork Cr.Hrs.4 (Formerly 168.620) Students are placed in practice settings for four weeks of field experience under the supervision of a registered Occupational Therapist. Experiences are offered in a wide variety of Field sites in Manitoba, Saskatchewan and northwestern Ontario. Evaluated at an introductory level. Course evaluated on a pass/fail basis. *Prerequisite:* OT 6190.

OT 6300 Occupational Analysis and Adaptation Cr.Hrs.4 (Formerly 168.630) An in-depth examination of the relationship between components of human performance and engagement in occupations throughout the lifespan. Students analyze self-care, productivity and leisure occupations to identify physical, cognitive and affective components required for function. Principles and methods of adaptation and grading of occupation, task, activity, equipment and environment will be introduced.

OT 6310 The Environment and Occupational Performance Cr.Hrs.4 (Formerly 168.631) An examination of physical, social, cultural and institutional aspects of the environment and their relationship to occupational performance throughout the life span. Students will begin to identify the environment in terms of enablers and obstacles to function for individuals with variable capacities.

OT 6320 Health Conditions and Occupational Performance Cr.Hrs.4 (Formerly 168.632) An introduction to diseases, disorders and impairments as barriers to human occupational performance including an introduction to occupational therapy management approaches to enabling function.

OT 6330 Occupational Therapy Practice Skills 2 Cr.Hrs.4 (Formerly 168.633) This course builds on OT Practice Skills 1. With a focus on practice skills related to the occupational therapy process, students gain further practice in assessment of occupational performance issues and physical, cognitive, and affective performance components. Students are introduced to assessment of environmental factors that influence occupational performance and participate in problem solving and interventions around occupational performance issues.

OT 6350 Research Methods for Evidence Based Practice Cr.Hrs.4 (Formerly 168.635) This course is a theory and practical course designed to provide a basic understanding of research principles and methods, evidence-based practice, outcome measures, program evaluation and their applications in occupational therapy.

OT 6400 Intermediate Fieldwork 1 Cr.Hrs.8 (Formerly 168.640) Students are placed in practice settings for eight weeks of field experience under the supervision of a registered occupational therapist. Experiences are offered in a wide variety of field sites in Manitoba, Saskatchewan and northwestern Ontario. Evaluated at an intermediate I level (pass/fail grade).

OT 7000 Fieldwork Preparation Cr.Hrs.1 This course provides foundational knowledge and skills required to participate effectively in the field work component of the Occupational Therapy Program. Course evaluated on a pass/fail basis.

OT 7540 Advanced Enabling and Professional Development Skills 1 Cr.Hrs.4 (Formerly 168.754) Builds on Enabling and Professional Development 1&2. Emphasis is placed on the integration and consolidation of professional practice knowledge, skills

and attitudes.

OT 7560 Occupational Therapy Process Across the Lifespan 1 Cr.Hrs.6 (Formerly 168.756) Using problem-based learning methods, students study and apply the occupational therapy process as it relates to selected learning scenarios involving children, adolescents, adults and older adults. Students work in small group tutorials exploring and discussing a variety of issues frequently faced by individuals who may benefit from occupational therapy services.

OT 7570 Advanced Practice in OT 1 Cr.Hrs.6 (Formerly 168.757) Building on knowledge and skills learning in Practice Skills 1 and 2, students are introduced to advanced concepts, theories and models that guide client-centered occupational therapy evaluation and intervention. Students learn to apply theory to practice and continue developing required skills for the evaluation and intervention of occupational performance issues across the lifespan.

OT 7600 Intermediate Fieldwork 2 Cr.Hrs.8 (Formerly 168.760) Students are placed in practice settings for eight weeks of field experience under the supervision of a registered occupational therapist. Experiences are offered in a wide variety of field sites. Evaluated at an intermediate 2 level (pass/fail grade).

OT 7740 Advanced Enabling and Professional Development Skills 2 Cr.Hrs.4 (Formerly 168.774) Builds on previous Enabling and Professional Development courses. Emphasis is placed on leadership skills and preparation for entry into the professional community.

OT 7750 Independent Study Cr.Hrs.6 (Formerly 168.775) Students complete an in-depth study of evidence for practice in an area of interest. Students will work with an assigned faculty advisor or clinical research consultant to define and evaluate a particular area of interest in occupational therapy practice.

OT 7760 Occupational Therapy Process Across the Lifespan 2 Cr.Hrs.6 (Formerly 168.776) Using problem-based learning methods and self-directed learning, students study and apply the occupational therapy process as it relates to selected learning scenarios involving children, adolescents, adults and older adults. Students work in small group tutorials exploring and discussing a variety of issues frequently faced by individuals, groups and communities who may benefit from occupational therapy services.

OT 7770 Advanced Practice in OT 2 Cr.Hrs.6 (Formerly 168.777) Building on knowledge, skills and attitudes learned in Advanced Practice in OT 1, students employ and evaluate concepts, theories and models of client-centred occupational therapy. Students develop skills that enable them to select, justify, and interpret appropriate evaluation methods and interventions to address occupational performance issues across the lifespan.

OT 7800 Advanced Fieldwork Cr.Hrs.6 (Formerly 168.780) Students are placed in practice settings for a six week period which can occur in a flexible time frame (i.e. students may initiate this placement at different points in time from July 1 to mid August depending upon availability of placements. Students may participate in part-time experiences over a longer period or other types of flexible arrangements as may arise and are determined to be appropriate learning experiences to meet educational standards). Experiences are offered in a wide variety of field sites. Evaluated at an advanced level (pass/fail grade).

PT 1700 Psychosocial Issues Cr.Hrs.6 (Formerly 167.170) A general course to provide an overview of psychosocial behaviour and the implication for physiotherapy practice. 75 hours.

PT 1730 Physical Therapy Management Cr.Hrs.10 (Formerly 167.173) A theory and practical course on applying physical therapy techniques to patients with cardio and respiratory disorders. 166 hours.

PT 1740 Cardiorespiratory Clinical Education Cr.Hrs.7 (Formerly 167.174) Consists of an introductory period of clinical practice and specific practice related to the management of cardiorespiratory conditions. Course evaluated on a pass/fail basis. 245 hours.

PT 1750 Rehabilitation Exercise 1 Cr.Hrs.6 (Formerly 167.175) Consists of lecture, tutorials, and practical sessions focused on topics of exercise physiology, fitness testing and training and rehabilitation exercise skills related to the healthy adult and selected patient populations. 105 hours.

PT 1910 Pathology and Clinical Manifestations Cr.Hrs.5 (Formerly 167.191) A theory course including the basic principles of pathology and microbiology; the natural history, pathology, clinical manifestations, management and prognosis of patients with disorders of the cardiovascular and respiratory systems. Corequisite: REHB 1200 (or 068.120). 83 hours.

PT 2720 Electro-Physical Agents in Physical Therapy Management Cr.Hrs.3 (Formerly 167.272) Selection and application of electro-physical agents in physical therapy. 45 hours.

PT 2750 Rehabilitation Exercise 2 Cr.Hrs.2 (Formerly 167.275) A lecture and lab based course which focuses on the development of comprehensive rehabilitation, health, and fitness exercise programs for normal subjects, clients with specific conditions/disabilities, and athletes. 34 hours.

PT 2760 Orthopedic Assessment and Management 1 Cr.Hrs.6 (Formerly 167.276) Integrated approach to the orthopedic assessment and management of upper limb, lower limb, and spinal disorders. 113 hours.

PT 2770 Orthopedic Assessment and Management 2 Cr.Hrs.6 (Formerly 167.277) Integrated approach to the physiotherapy assessment and management of upper limb, lower limb, and spinal disorders. Successful completion of PT 2760 (or 167.276) and PT 2770 (or 167.277) equivalent to E2/V2 level of professional classification. 111 hours.

PT 2780 Musculoskeletal Clinical Education Cr.Hrs.10 (Formerly 167.278) Consists of a period of clinical practice related to the management of musculoskeletal conditions. Course evaluated on a pass/fail basis. 375 hours.

PT 2790 Physical Therapy Management of Musculoskeletal Disorders Cr.Hrs.8 (Formerly 167.279) A theory and practical course on physical therapy management of patients with specific disorders. 149 hours.

PT 2890 Rehabilitation Biomechanics Cr.Hrs.3 (Formerly 167.289) Theory and practical application of biomechanics of human movement in relation to rehabilitation. *Prerequisites:* REHB 1480 (or 068.148), REHB 1490 (or 068.149) and REHB 1500 (or 068.150), or equivalent. 40 hours.

PT 3730 Advanced Musculoskeletal Topics Cr.Hrs.3 (Formerly 167.373) A theory, practical and tutorial-based course designed to provide the opportunity for problem-solving through the integration of relevant information, in the areas of orthopedic and sports physiotherapy. 61 hours.

PT 3740 Integrated Tutorials Cr.Hrs.3 (Formerly 167.374) A theory, practical and tutorial-based course designed to provide the opportunity for problem-solving through the integration of relevant information, in the physiotherapy management of geriatric, women's health, and multi-system conditions. 41 hours.

PT 3750 Physical Therapy Neurological Interventions Across the Lifespan 1 Cr.Hrs.6 (Formerly 167.375) A theory and practical course on the basic principles of the application of techniques used in the Physical Therapy management of clients with neurological conditions, with a focus on neurological assessment and the treatment for spinal cord injured clients and clients with certain neurological conditions. 108 hours.

PT 3760 Physical Therapy Neurological Interventions Across the Lifespan 2 Cr.Hrs.7 (Formerly 167.376) A theory and practical course on the basic principles of the application of techniques used in the Physical Therapy management of clients with neurological conditions, with a focus on neurological treatment. 115 hours.

PT 3880 Clinical Education in Neurological Disorders Cr.Hrs.8 (Formerly 167.388) Consists of a period of clinical practice related to the management of neurological conditions. Course evaluated on a pass/fail basis. 300 hours, pass/fail grade.

PT 3920 Summer Internship Cr.Hrs.8 (Formerly 167.392) An eight-week period of clinical/practical experience under the direction and supervision of registered physiotherapists. Course evaluated on a pass/fail basis. 300 hours.

REHB 1200 Basic Clinical Sciences Cr.Hrs.3 (Formerly 068.120) A lecture and tutorial course covering basic physiology related to membrane, muscle, pain and the cardiovascular, respiratory, endocrine, and immune systems. 50 hours.

REHB 1480 Human Anatomy - Systems Cr.Hrs.3 (Formerly 068.148) Lecture and laboratory study of the microscopic and macroscopic structure of the major systems of the human body. Living anatomy of the cardiorespiratory system. 90 hours.

REHB 1490 Musculoskeletal Anatomy 1 Cr.Hrs.2 (Formerly 068.149) Lecture and laboratory study, including living anatomy, of the musculoskeletal structures of the head, neck and trunk. 50 hours.

REHB 1500 Musculoskeletal Anatomy 2 Cr.Hrs.3 (Formerly 068.150) Lecture and laboratory study, including living anatomy, of the musculoskeletal structures of the upper and lower extremities. 80 hours.

REHB 2410 Pathology and Clinical Manifestations Cr.Hrs.4 (Formerly 068.241) A theory course including the basic principles of pathology and clinical manifestations, management and prognosis of patients with musculoskeletal disorders. *Prerequisite:* PT 1910 (or 167.191). 60 hours.

REHB 2450 Research Methodology for Medical Rehabilitation Cr.Hrs.3 (Formerly 068.245) A theory and practical course designed to provide a basic understanding of research principles and their application in Medical Rehabilitation. 45 hours.

REHB 2460 Statistics Cr.Hrs.3 (Formerly 068.246) A theory and practical course designed to provide a basic understanding of statistics with application to Medical Rehabilitation. 45 hours.

REHB 3410 Pathology and Clinical Manifestations of Neurological Conditions Cr.Hrs.3 (Formerly 068.341) Theoretical study of neurological pathology and clinical manifestations of the basic principles of medical management of persons with neurological disorders. *Prerequisite:* REHB 2410 (or 068.241). 38 hours.

REHB 3460 Introduction to Health Care Administration and Management Cr.Hrs.3 (Formerly 068.346) An introduction to professional and administrative issues of current concern to respiratory and physical therapists. Topics to be covered in lecture and seminar format are health care systems, professional ethics, departmental administration, principles of supervision, and medical and legal responsibilities. 39 hours.

REHB 3930 Neuroanatomy Cr.Hrs.3 (Formerly 068.393) The study of neuroanatomy and neurophysiology of the human body. 47 hours.

REHB 3940 Neurosciences Cr.Hrs.3 (Formerly 068.394) The study of neuroanatomy and neurophysiology of the human body. 45 hours.

REHB 7010 Neurosciences Cr.Hrs.3 (Formerly 068.701) To provide the student with a comprehensive understanding of the neurophysiological basis of motor behaviour including: motor control mechanisms, pathophysiological correlates, and clinical manifestations of central nervous system lesions involving motorcentres.

REHB 7050 Ergonomics Cr.Hrs.3 (Formerly 068.705) This course shall examine the basic tenet of ergonomics, "the modification of the environment to meet the needs of the individual," and contrasted to "the adaptation of the individual to meet the constraints of the environment."

REHB 7060 Gerontology Cr.Hrs.3 (Formerly 068.706) Designed to increase knowledge and understanding of geriatric/gerontology research related to the biological, physical, psychological and sociological health and function of older adults in society. A particular focus will be on social cognition and the role of perceived control in the rehabilitation of older adults.

REHB 7070 Exercise Rehabilitation for Persons with Disabilities Cr.Hrs.3 (Formerly 068.707) The student shall acquire a better understanding and increased knowledge of: the application of endurance exercise testing and training principles with disabled

individuals; and the practical application of these skills.

REHB 7080 Pediatrics: Neuro-Development Cr.Hrs.3 (Formerly 068.708) To increase the student's understanding of the developmental factors important in planning interventions with the pediatric neurological patient.

REHB 7130 Advanced Ergonomics Cr.Hrs.3 (Formerly 068.713) This course is designed to enhance the student's understanding and application of ergonomic principles in the clinical setting. The student will choose from a selected list of current ergonomic topics and will research this topic under the guidance of the supervisor. The research will be formally presented at the end of the course.

REHB 7160 Rehabilitation Research Techniques Cr.Hrs.3 (Formerly 068.716) Introduction to techniques used in rehabilitation research including bioelectrical signal recording such as electro-myography, strength assessment using isovelocity dynamometry, acquisition, processing and storage of experimental data.

REHB 7170 Topics in Rehabilitation Cr.Hrs.3 (Formerly 068.717) A readings, tutorial and practical course designed to enhance the student's knowledge of basic science and clinical investigations and to provide experience in the logical development of approach to a problem.

REHB 7180 Readings in Rehabilitation Cr.Hrs.3 (Formerly 068.718) Readings course covering recent advances in an area of rehabilitation related to a student's field of research.

REHB 7190 Structure and Function of the Musculoskeletal System Cr.Hrs.3 (Formerly 068.719) Tutorial and laboratory course providing in-depth study of the structure and function of a specific musculoskeletal region pertinent to rehabilitation. Synthesis of subject material in anatomy, physiology, biomechanics, pathology and rehabilitation. *Prerequisites:* REHB 1450 (or 068.145), REHB 1460 (or 068.146), REHB 1530 (or 068.153) or REHB 2890 (or 068.289), and REHB 3470 (or 068.347) or equivalent courses.

REHB 7200 Dynamometry Cr.Hrs.3 (Formerly 068.720) A comprehensive study of dynamometry and the use of dynamometers for the assessment of strength, endurance and passive properties of soft tissues.

REHB 7210 Dynamics I Cr.Hrs.3 (Formerly 068.721) To understand the relationship between neuro-physiological and biomechanical factors in the production of functional multi-segmented motion in clinical motor disorders encountered in medical rehabilitation.

REHB 7220 Dynamics II Cr.Hrs.3 (Formerly 068.722) This course is designed to enhance the student's understanding and application of biomechanical principles to the clinical setting. The student will choose from a selected list of current kinesiological topics and will research this topic under the guidance of the supervisor. The research will be formally presented at the end of the course. *Prerequisite:* REHB 7210 (or 068.721).

REHB 7230 Independent Study Cr.Hrs.6 (Formerly 068.723) Students complete an in-depth study of evidence for practice in an area of interest. Students will work with an assigned faculty advisor to define and evaluate a particular area of interest in rehabilitation practice, particularly in occupational or physical therapy.

REHB 7240 Theoretical Foundations of Occupational Therapy Cr.Hrs.3 (Formerly 068.724) An in-depth study of the theory base in Occupational Therapy. The focus of the course is models of occupation and their impact on occupational therapy practice. *Prerequisite:* Previous degree in Occupational Therapy.

REHB 7250 Facilitating Client-Centred Processes Cr.Hrs.3 (Formerly 068.725) Theory and practical course designed to develop an advanced understanding of the principles of client-centered practice. The course will focus on the development of the requisite knowledge, skills and attitudes to evaluate and implement client-centered approaches and facilitate environments conducive to client-centered practice. *Prerequisite:* Consent of instructor

REHB 7260 Assistive Technology Cr.Hrs.3 (Formerly 068.726) A theory and practice course designed to develop an advanced understanding of the application of technology for individuals with disabilities as a means to occupation. Particular emphasis will be on evaluating the impact and understanding the theory guiding the use of assistive technology, and developing an understanding of the contexts in which assistive technologies are used.

REHB 7270 Pain and Rehabilitation Cr.Hrs.3 (Formerly 068.727) Designed to enhance the student's knowledge of basic science and clinical investigations related to pain, as well as the clinical relevance of pain transmission and modulation in rehabilitation. The course is delivered in small group tutorial format to facilitate student interaction and exchange of information.

RESP 1270 Respiratory Anatomy and Physiology Cr.Hrs.3 (Formerly 169.127) Principles of pulmonary mechanics, ventilation, diffusion, perfusion, ventilation-perfusion relationships, gas transport, control of ventilation, and acid-base physiology. 60 hours.

RESP 1280 Medical Microbiology and Disease Transmission Cr.Hrs.2 (Formerly 169.128) Introduction to Medical Microbiology with emphasis on common pathogens, disease transmission, principles of asepsis, isolation sterilization and disinfection procedures. 32 hours.

RESP 1290 Cardiopulmonary Pharmacology Cr.Hrs.2 (Formerly 169.129) Pharmacology principles, phases of drug events, factors modifying drug effect, drug preparation, individual pharmacologic agents including: ANS drugs, CNS drugs, cardiac medications, respiratory medications, antibiotics. 36 hours.

RESP 1320 Applied Sciences for Respiratory Therapy Cr.Hrs.3 (Formerly 169.132) Gas laws, unique behaviour of specialty gases, fluid dynamics, fundamental principles of electricity, electronics and electrical safety, concepts of basic and advanced

chemistry not treated in REHB 1200 (or 068.120). 60 hours.

RESP 1330 Technical Aspects of Respiratory Therapy Cr.Hrs.3 (Formerly 169.133) Medical gas and supply systems, flowmetering devices, regulators, medical gas outlets, vacuum systems, regulatory authorities on the supply, production and distribution of medical gases. 45 hours.

RESP 1360 Treatment Administration in Respiratory Care Cr.Hrs.3 (Formerly 169.136) Administration of medical gases, humidity and aerosol therapy, environmental therapy, positive pressure breathing devices, respiratory exercises, incentive spirometry and bedside spirometry. 60 hours.

RESP 1370 Ventilatory Support Principles Cr.Hrs.6 (Formerly 169.137) Physical principles of continuous ventilatory support including: physics of ventilator operation and physiological aspects of ventilatory support. Provides a framework for RESP 2310 (or 169.231) and RESP 2320 (or 169.232). 120 hours.

RESP 1380 Basic Fieldwork 1 Cr.Hrs.4 (Formerly 169.138) A preparatory period followed by four weeks of field experience under supervision of a practicing respiratory therapist at one or more approved clinical sites. 160 hours, pass/fail grade.

RESP 2300 Respiratory Clinical Assessment Cr.Hrs.6 (Formerly 169.230) The correlation of patho-physiological mechanisms with the clinical manifestations of the common respiratory diseases and how rational management evolves from this understanding. 92 hours.

RESP 2310 Clinical Aspects of Ventilatory Management Cr.Hrs.3 (Formerly 169.231) Lecture, seminar and laboratory simulation on adult and pediatric ventilatory management. Estimation of ventilatory requirements, ventilator selection, weaning, ventilatory adjuncts, transport, and long term ventilatory support. 45 hours.

RESP 2320 Ventilatory Support Instrumentation Cr.Hrs.6 (Formerly 169.232) Comprehensive review of the components, operation and use of specified adult, pediatric and neonatal mechanical ventilators. Classroom and laboratory sessions. 180 hours.

RESP 2330 Pulmonary Investigations Cr.Hrs.3 (Formerly 169.233) Lung function testing principles and procedures including: static and dynamic measures, determination of volumes and capacities, exercise physiology. An analysis of lung function changes relative to common disease physiology. 50 hours.

RESP 2340 Physiologic Measurements and Instrumentation Cr.Hrs.3 (Formerly 169.234) Acid base physiology, interpretation of physiologic values, design theory, operation and care of gas analyzing devices, oximetry, capnography. 45 hours.

RESP 2350 Cardiology Cr.Hrs.3 (Formerly 169.235) Aspects of clinical assessment of the cardiovascular system, pathophysiology and selected treatment regimens and modalities. Laboratory on rhythm analysis and aspects of advanced cardiac life support. 60 hours.

RESP 2360 Pediatrics Cr.Hrs.3 (Formerly 169.236) Normal physiology, diseases and treatment, the child in hospital environment, high risk neonates, principles of intensive care, pediatric emergencies and fetal and maternal medicine. 60 hours.

RESP 2370 Anesthesiology Cr.Hrs.3 (Formerly 169.237) Principles of anesthesia, airway management, pain management, anesthetic agents, function of the anesthesia machine, pre- and postoperative assessment, recovery and safety features in the operating room. 45 hours.

RESP 3300 Seminars in Respiratory Care Cr.Hrs.3 (Formerly 169.330) A series of seminars on Respiratory Disease and other clinical topics designed to bring together practical and theoretical aspects of the program. 60 hours.

RESP 3310 Clinical Education in Intensive Care Cr.Hrs.10 (Formerly 169.331) This course consists of 10 weeks of clinical experience in the adult intensive care setting in an approved clinical site. 432 hours, pass/fail grade.

RESP 3320 Clinical Education in Pediatric Respiratory Care Cr.Hrs.3 (Formerly 169.332) Three weeks of clinical experience in the Pediatric Intensive Care Unit at Children's Hospital. Shiftwork and extended shifts may be required. 144 hours, pass/fail grade.

RESP 3330 Clinical Education in Neonatal Respiratory Care Cr.Hrs.4 (Formerly 169.333) Four weeks of clinical experience in the Neonatal Intensive Care Unit at Children's Hospital and/or St. Boniface General Hospital. Shiftwork and extended shifts may be required. 180 hours, pass/fail grade.

RESP 3340 Clinical Education in Maternal/Fetal Health Cr.Hrs.1 (Formerly 169.334) One week of clinical experience in maternal and fetal health at the Women's Centre, Health Sciences Centre. 36 hours, pass/fail grade.

RESP 3350 Clinical Education in Pulmonary Diagnostics Cr.Hrs.3 (Formerly 169.335) Three weeks of clinical experience in the pulmonary diagnostic laboratory of an approved clinical site. 144 hours, pass/fail grade.

RESP 3360 Clinical Education in Anesthesia Cr.Hrs.3 (Formerly 169.336) Three weeks of clinical experience designed to acquaint the student with actual clinical techniques and procedures used in the operating and recovery room. 144 hours, pass/fail grade.

RESP 3370 Clinical Education in Community Care Cr.Hrs.4 (Formerly 169.337) Four weeks of clinical experience in community care settings including: pre-hospital care, health and wellness promotion, interfacility transport, chronic care, home care and community outreach. 180 hours, pass/fail grade.

RESP 3380 Clinical Education in Respiratory Care Cr.Hrs.4 (Formerly 169.338) Four weeks of clinical experience spent in the non-intensive care setting working with a variety of medical and surgical patients. 180 hours, pass/fail grade.

Faculty of Medicine

Undergraduate Medical Education Program

General Office

260 Brodie Centre, 260-727 McDermot Avenue, Winnipeg MB R3E 3P5

Telephone: (204) 789 3557

Fax: (204) 789 3929

E-mail: registrar_med@umanitoba.ca

Website: umanitoba.ca/medicine

Dean: Dean Sandham

Associate Dean (Undergraduate): Bruce Martin

Associate Dean (Medical Education): William Fleisher

Associate Dean (Professionalism): Samia Barakat

Assistant Dean (Student Affairs): Cornelia Van Ineveld

Assistant Deans (Admissions): Fred Aoki and Barbara Ann MacKalski

Director of Operations: Keith McConnell

Administrator, Admissions and Enrolment Services: Beth Jennings

Chapter Contents

MISSION STATEMENT

SECTION 1: Medical Education

SECTION 2: Admission to the Faculty of Medicine

- 2.1 Degree Offered
- 2.2 Course Requirements
- 2.3 Immunization Requirements
- 2.4 Certification in Cardio-Pulmonary Resuscitation
- 2.5 Technical Standards Requirement
- 2.5 Registration with the College of Physicians and Surgeons of Manitoba

SECTION 3: Academic Regulations

- 3.1 Requirements for the Degree of Doctor of Medicine (M.D.)
- 3.2 Requirements for Registration to Practise Medicine

SECTION 4: The Program for the M.D. Degree

- 4.1 Governance
- 4.2 General Statement
- 4.3 The Plan of the Curriculum

SECTION 5: Evaluation

- 5.1 Responsibility
- 5.2 Evaluation of Students in the Pre-Clerkship Program
- 5.3 Evaluation of the Students in the Clerkship Program
 - 5.3.1 Introduction to Clerkship (ITC)
 - 5.3.2 ITC Remediation
 - 5.3.3 The Major Clinical Clerkships
 - 5.3.4 The Comprehensive Clinical Examination (CCE)
 - 5.3.5 The Multi-Specialty Clerkship Rotation
 - 5.3.6 The Community Health Science Paper
 - 5.3.7 The Elective Periods
 - 5.3.8 Failure of a Student in the Clerkship Program
 - 5.3.9 Terms for Failure of the Repeat Clerkship
- 5.4 Regulations for Students Taking Leave from the Clerkship Program
- 5.5 Reviews and Appeals of Failed Rotations and Examinations

SECTION 6: Academic Research in Medical Education

SECTION 7: Advanced Degrees in Medicine

- 7.1 Bachelor of Science in Medicine (B.Sc. (Med.))

7.2 MD/PhD Option

SECTION 8: Registration Information

SECTION 9: Course Descriptions

SECTION 10: Academic Staff

SECTION 1: Medical Education

Mission Statement

The Mission of the Faculty of Medicine is to develop and deliver high quality educational programs for undergraduate and postgraduate students of medicine and medical rehabilitation, for graduates and post-doctoral fellows in the basic medical sciences and for physicians in practice; conduct research and other scholarly inquiry in the basic and applied medical sciences; and, contribute to the improvement of health status in Manitoba and beyond by providing advice, disseminating information to health professionals and the public, and by cooperating in the planning for the development and delivery of health care services.

The Mission of the Undergraduate Medical Education Program is to provide an environment which will assist students to become competent, caring, ethical physicians with the ability to think critically. This experience will prepare students to choose wisely their area of training, to successfully continue their education, and subsequently to meet responsibilities to their patients and society.

Medical education in Manitoba is designed to provide students with the knowledge and experience they need to practise medicine in a profession where new developments in science and the public health policy create an ever-changing environment. In the first two years of the program the subject matter is divided into blocks which cover core concepts in health and medicine, human development and body systems. Clinical Skills, Problem Solving, Medical Humanities, Laboratory and Investigative Medicine, Health Equity, and Survival Tactics are integrated into the six blocks. The final two years, called the "clerkship" are spent in direct contact with patients and doctors in a clinical setting in which students gain experience with increasing responsibility for patient care and management. History of the Faculty

Medical education had its beginnings in 1883 when 13 physicians applied to the local legislature for a charter to form the Manitoba Medical College. The college was chartered as an affiliate of the University of Manitoba. The number of students registered for the first session was 15, and the number in attendance at each session from that date to the present has ranged from 15 to 400. The university came to the aid of the Medical School from time to time by furnishing full-time professors in chemistry, physiology, pathology, bacteriology, and zoology. With the session of 1918-1919 the Manitoba Medical College ceased to exist as a separate institution. It made a gift of all its property and equipment to the University of Manitoba "on condition that the university establish a Faculty of Medicine, and carry on the work of medical education in an efficient manner."

In 1921, a building for the accommodation of the departments of Physiology, Biochemistry, and Bacteriology was erected on the old Medical School property, and a further unit, now occupied by Pathology, was completed in February, 1922. In January, 1956, the new wing of the medical building was officially opened, which included new quarters for the Medical Library. In February, 1965, the Chown Building was opened providing five-stories of administration offices and space for Pharmacology and Therapeutics and the Computer Department for Health Sciences. The Basic Medical Sciences Building, containing undergraduate teaching facilities, opened in 1973. It provides accommodation for anatomy, biochemistry, physiology, medical microbiology and immunology. The Brodie Centre officially opened in the spring of 1996; it provides a library, research and recreational facilities. In 2004, the Office of the Dean and the Education

Offices relocated to new administrative facilities in the Brodie Centre. General teaching facilities are located in the medical buildings, and facilities for clinical instruction are provided in the teaching hospitals affiliated with the University of Manitoba and in related institutions. The varied settings in which medicine is practised in Winnipeg and in rural and northern Manitoba also provide students with the opportunity to study community medicine outside the major teaching institutions.

The Neil John Maclean Health Sciences Library

The Neil John Maclean Health Sciences Library provides access to a wide range of evidence-based medicine resources in print and electronic format. Online resources include core medical textbooks such as *Harrison's Principles of Internal Medicine*, online drug resources such as *Lexi-Comp*, and clinical resources such as *UptoDate*, *First Search*, and *MD-Consult*. The Library also provides online access to over 4,500 health sciences journals which can be linked to from important medical databases such as PubMed.

Students can access nearly all of the online resources from on-campus and from home by using their student ID number and password. The Library's wireless network permits students to access online resources with a laptop. Computers for student use are also available in the Library.

The online resources are supplemented by a full range of print resources which include variety of textbooks, handbooks, and dictionaries. Back issues of many of the key medical journals are available. Special collections in the library include the Aboriginal Health Collection, History of Medicine Collection, and the Ross Mitchell Rare Book Room.

To facilitate student access and use of evidence-based resources, librarians offer training as part of the Faculty of Medicine curriculum. Each semester librarians offer a variety of training sessions open to all students on key medical resources such as PubMed. Librarians are available at the Information Desk in the Library or by appointment to answer any questions or provide individualized training.

Graduate Studies

Graduate Studies information about graduate studies in medicine or related sciences, and information regarding opportunities for medical research may be obtained from: The Assistant Dean (Graduate Studies and Research), Faculty of Medicine, University of Manitoba, A108 Chown Building, 753 McDermot Avenue, Winnipeg, MB, R3E 0W3.

More than 300 graduate students are doing research and pursuing Masters and Doctoral degree programs in the Faculty of Medicine. Their research training programs offer opportunities to conduct research at a number of sites including Bannatyne Campus, the National Virology Lab, St. Boniface Research Centre, and the Institute for Bio-Diagnostics. Graduate programs are available in the Departments of Biochemistry and Medical Genetics, Community Health Sciences, Immunology, Medical Microbiology, Pathology, and Physiology.

Physician Assistant Education Program

The Physician Assistant Education Program is the first graduate-level program for Physician's Assistant education in Canada. Upon completion of the comprehensive two year program, graduates receive a Master of Physician Assistant Studies degree. The program aims to educate outstanding Physician Assistant clinicians, to advance the academic field of the profession, and to foster leaders who will serve their communities and advance the physician assistant profession in Manitoba and Canada

Department of Medical Education

The mandate of the department of Medical Education is to work in a collaborative manner across all programs and schools within the Faculty of Medicine to provide expertise and services related to medical education issues including: curriculum development, faculty development, design of evaluation tools and assessment strategies and the provision of standardized patients. These services are provided by the department through the Office of Educational Development. The second purpose of the department of Medical Education is to engage in research and scholarly activity related to medical education issues and serve as an academic home for faculty with primary appointments within medical education.

Continuing Medical Education

This office is responsible for the Continuing Medical Education programs of the faculty, which are conducted in the Medical School, teaching hospitals, and in urban and rural medical centres. Information regarding programs may be obtained from: The Office of Continuing Medical Education, Faculty of Medicine, University of Manitoba, S203-753 McDermot Avenue, Winnipeg, MB R3E 0W3.

SECTION 2: Admission to the Faculty of Medicine

Please check the Applicant Information Bulletin available in June for current information.

2.1 Degree Offered

Doctor of Medicine (M.D.)

Minimum time to graduation: Four years in the Faculty of Medicine following an undergraduate degree (University 1, plus two or three years).

2.2 Requirements for Admission

The following is a summary of the admission requirements. Equivalent academic courses can be completed at recognized universities elsewhere. For complete admission requirements, as well as application deadline dates and forms, refer to the Applicant Information Bulletin, available at www.umanitoba.ca/medicine.

The Faculty of Medicine restricts enrolment to Canadian citizens and Permanent Residents.

All applicants must have completed a bachelor's degree, and prerequisites in Biochemistry and humanities or social science. At the University of Manitoba these are Biochemistry 2360 and 2370. Applicants should be aware that there are course prerequisites for Biochemistry at University of Manitoba and should obtain this information from their faculty student advisors.

We recommend students consider taking courses in the life sciences, particularly anatomy, microbiology, physiology and genetics.

Other requirements

- All applicants must write the Medical College Admission Test (MCAT). Since the MCAT will test the applicant's knowledge and problem solving skills in Biology, Physical Chemistry, Organic Chemistry and Physics applicants must consider taking these courses during their first two years of university studies.
- Applicants will be assessed in part on their Adjusted Grade Point Average (AGPA).
- A Personal Assessment Score will be based on written information provided by the applicant and referees and an interview.

Transfer into the undergraduate program

The Faculty of Medicine will consider requests for transfer from students who are enrolled in LCME accredited medical schools in Canada and the United States. Student transfers are only considered in exceptional circumstances. Transfers can be considered only when there is a position open, by attrition, in the class into which the applicant requests transfer or to which evaluation shows the student to be qualified. A copy of the transfer policy can be obtained from the Admissions office.

2.3 Immunization Requirements

All students enrolled in the Faculty of Medicine should be immunized against the following diseases: diphtheria/tetanus, polio, rubella, measles, mumps and hepatitis B. Evidence of chickenpox immunity by history, serology or vaccination will be required. Students who cannot be immunized because of allergies or for other reasons must provide a physician's certificate to verify these reasons. Students admitted to first year Medicine will be provided with an immunization package at the time of acceptance into the Faculty and will be required to provide their Immunization Record Form before being allowed to attend classes. Students may not be able to participate in clinical exposures until all immunization requirements are up-to-date. Students are responsible for updating their immunizations as needed.

2.4 Certification in Cardio-Pulmonary Resuscitation (CPR)

Students must have CPR designated as "Health Care Provider Level C" at the time of registration in year one. Students must have annual renewal of their CPR registration acceptable to the standards of the Heart and Stroke Foundation throughout the undergraduate medical education program. Evidence of current renewal must be provided on an annual basis; failure to comply may result in exclusion from the course of study until renewal is obtained.

2.5 Technical Standards Requirement

Please be advised that the Faculty of Medicine has adopted a Technical Standards Policy Document (pending Senate approval) that describes the requisite skills and abilities that must be met in order to participate in the undergraduate medical education program. The policy may be obtained from the Undergraduate Medical Education Office.

2.6 Registration with the College of Physicians and Surgeons of Manitoba

All students must be registered with the College of Physicians and Surgeons of Manitoba throughout their academic program in accordance with the Manitoba Medical Act. As part of the documentation requirements for College registration, students will be required to provide a criminal record check (including a vulnerable sector search) satisfactory to the College.

SECTION 3: Academic Regulations

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. Faculty of Medicine regulations and requirements change from time to time. Detailed information concerning the general regulations governing admissions, evaluation, academic progress and withdrawal for undergraduate medical students may be obtained from the Undergraduate Medical Education Office. These regulations include the following items:

Students will not be allowed to register unless they are in good academic and financial standing from the previous year.

No student may repeat more than one year, and no year may be repeated more than once except by special permission of the Faculty Executive Council or Progress Committee.

Students who withdraw from the Faculty of Medicine without prior written notice will be considered to have terminated their connection with the faculty and will not be eligible for re-admission.

Students who withdraw from the faculty having given due notice of their intention to withdraw are eligible for re-admission. If re-admission is approved they will be required to conform to the rules and regulations, fee schedules, sequence of courses, in effect at the time of such readmission.

Students may, after completion of the work of a full year, be granted a leave of absence for one year subject to certain conditions related to the purpose of the leave of absence and on subsequent registration will be required to conform to the rules and regulations, fee schedules, and sequence of courses in effect at the time of such registration.

Students who have been or expect to be prevented from attending any regular examination by reason of illness or other cause beyond their control should at once notify the Associate Dean Undergraduate Education (UGME) and must give satisfactory documentary evidence of the cause of absence.

The Faculty Executive Council reserves the right to require any student to withdraw from the program for which the student is enrolled when it believes the student to be unsuited, on general considerations of scholarship, or conduct for the profession, or the field within the profession, to which the program of studies normally leads. This right prevails notwithstanding any other provision in the faculty regulations.

Students are required to present the personal and professional appearance, attitudes and behaviours expected of members of the medical profession. The Faculty of Medicine has a process through which lapses in professionalism are reported, investigated, and, when necessary, will result in remedial or punitive actions up to and including dismissal. For additional information please refer to the Curriculum Guide.

The Faculty of Medicine has a Conscientious Objection Policy through which medical students may request exemption from specific medical procedures or services. Requests are evaluated and, if granted, do not absolve students from the following aspects of the procedure or service in question, including: cognitive knowledge (indications, contraindications, benefits and risks); full and nonselective disclosure to support Informed Consent by patients; patient non-abandonment; appropriate patient referral; and non-discrimination. A full list of criteria can be found on the Conscientious Objection application form. A Conscientious Objection cannot limit a student's educational experience such that his or her overall medical education will be compromised and all affected curricular time must be

made up otherwise. For information, contact the Undergraduate Medical Education Office.

Students must complete the undergraduate program for the M.D. degree of the Faculty of Medicine within six years of entry to first-year Medicine, exclusive of those students undertaking additional academic pursuits which are acceptable to the Progress Committee. When a student fails to complete the program the committee will review the academic record of the student. If the student is in good academic standing at that time, the committee may grant one further year for the completion of the program. The reasons for the prolonged duration of the student's program are confidential but must be approved as valid by the Associate Dean UGME.

3.1 Requirements for the Degree of Doctor of Medicine (M.D.)

Every candidate for the degree of Doctor of Medicine must have satisfied the following requirements:

Subsequent to the successful completion of the required university studies, a student must have attended four full sessions of not less than nine months each in this or some other school of medicine approved by this university, the last two years of which must have been spent as a student of the University of Manitoba.

A student must have completed the required work, have fulfilled satisfactorily all special requirements, have received satisfactory grades throughout the entire medical program, and have discharged all indebtedness to the university.

Degrees: All degrees in Medicine will be conferred by the Senate of the university on the recommendation of the Faculty Executive Council at a regular meeting of the University Senate or at a meeting specially called for that purpose.

3.2 Requirements for Registration to Practise Medicine

A university degree in medicine does not in itself confer the right to practise the profession of medicine in Canada. That right is obtained from a provincial registering body in the particular province in which the graduate desires to practise, and follows the successful completion of the Medical Council of Canada's two qualifying examinations.

Federal Registration: The Medical Council of Canada

The Medical Council of Canada was established in 1912 by the Canada Medical Act. Its purpose is to grant a qualification to practise medicine acceptable for licence in every province of Canada. It is not a licensing body, but "anyone who secures the diploma of the Medical Council of Canada by examination is registered on the Canadian Medical Register. This registration entitles one to become licensed to practise medicine in any province in Canada upon payment of the necessary fee and on meeting other provincial requirements."

The Medical Council of Canada examinations are normally taken by undergraduate medical students of the University of Manitoba at the end of the fourth year. There is a fee for this examination. Examinations are held annually in Winnipeg in May and November, and registration for these examinations may be made with: The Registrar, Medical Council of Canada, 2283 St. Laurent Boulevard, Ottawa, ON K1G 5A2. The deadline for application is usually in December; candidates are advised to contact the Medical Council of Canada for current information (www.mcc.ca).

Provincial Registration

The College of Physicians and Surgeons of Manitoba is the regulation body for the physicians in Manitoba. All medical students must be registered with the College of Physicians and Surgeons of Manitoba throughout their academic program. For information on registration in Manitoba contact: The College of Physicians and Surgeons of Manitoba, 1000-1661 Portage Ave., Winnipeg, MB R3G 3T7; telephone: (204) 774 4344.

SECTION 4: The Program for the M.D. Degree

4.1 Governance

The program and its curriculum is the responsibility of the Faculty Executive Council (FEC). The policies, regulations, implementation and modifi-

cations of the educational program for the M.D. degree are determined by the FEC on the recommendation of the Faculty of Medicine Undergraduate Medical Curriculum Committee (UGMCC). The UGMCC consists of the faculty curriculum coordinators appointed by the Dean, two members elected by the Faculty Executive Council, the Associate Dean UGME, the Assistant Dean Student Affairs, the Director of Educational Development and six students. All members are voting members. The UGMCC is responsible for the curriculum, syllabus, teaching, and evaluation in the educational program leading to the M.D. degree.

4.2 General Statement

The program is a continuum over the four years but is divided into the Pre-Clerkship, Years 1 and 2, and the Clerkship, Years 3 and 4, for administrative purposes. The mission and performance expectations of the program are published. They are given to faculty and students and are the guide for the curriculum. The curriculum is based on the view that it is neither necessary nor desirable for the faculty to present all the knowledge, skills and behaviours that are expected of a student by graduation. Instead the students are provided with the core material which lies in the mainstream of medical science. Students are expected to acquire further knowledge and skills for themselves through study, discussion and scholarly development. They are encouraged to take the initiative to approach instructors and colleagues with regard to learning. The program values the search for knowledge, the evaluation of its worth and its application to the analysis and solution of problems as opposed to the simple memorization of information. Students are expected to develop skills to acquire new knowledge and to realize that these skills will be used throughout their professional lives irrespective of their field of medicine. The curriculum encourages an interdisciplinary and integrated approach to medicine. Teaching sessions promote participation and active learning by students. Instructors, whatever their own discipline, ensure that their teaching is relevant to the overall development of students to become undifferentiated graduates of medicine with the potential to enter any postgraduate position for which they have the ability and aptitude. The Faculty of Medicine does not support students' limitation of their studies to only fields and disciplines of personal interest. Nonetheless, students are encouraged to pursue areas of interest and to develop their own education through electives. Our students learn to use information, skills and behaviour from multiple sources of teaching to prevent and solve the problems that face their patients and society. Our students learn that physicians are part of an interdisciplinary team and health care system that provide adequate, accessible, continuous and comprehensive health care. In order to modify and enhance the educational program, the opinions of students and their evaluation of the program and its teachers are formally sought and respected by faculty. This information is used by the UGMCC to improve the program.

4.3 The Plan of the Curriculum

The curriculum may undergo substantive renewal in the near future. It is anticipated that curricular renewal will embrace enhanced programs in a variety of realms including: professionalism; interprofessional education and collaborative practice; quality health care and system innovation; and health equity.

Professionalism

The Professionalism program is an important component of the Undergraduate Medical Education curriculum. The goal of the program is to incorporate the attributes of professionalism into medical learners and emphasize how learners are expected to discuss why certain professionalism characteristics and attributes are necessary for the practice of medicine and for their identity as physicians.

A professionalism charter is being developed to function as a framework for defining and demonstrating medical professionalism.

Pre-Clerkship Program:

Year 1 (Blocks 1-3), and Year 2 (Blocks 4-6)

The Pre-Clerkship program is designed by the course directors and program coordinators in conjunction with department/discipline advisors/representatives and by committees governed by the faculty Pre-Clerkship Curriculum Committee. The curriculum consists of six mandatory programs: Cognitive, Clinical Skills, Problem Solving, Medical Humanities and Laboratory and Investigative Medicine, Health Equity, and one voluntary program: Stress Management. The Problem Solving program attempts to integrate and re-iterate important concepts presented during the Cognitive component, emphasizing a clinical presentation approach to your medical education. The Clinical Skills program (which includes communi-

cation, history taking and physical examination skills), the Medical Humanities program (which includes human values, medical ethics, medical history, law, and palliative care and integrative medicine), the Laboratory and Investigative Medicine program, and Health Equity are integrated with the Cognitive program as much as possible.

The objectives of the curriculum are based on the mission and performance expectations of the undergraduate program as outlined in the Curriculum Guide. The evaluation of student academic progress is based on the student's achievement of the written objectives as provided in the student notes, course of study books, and on the Pre-Clerkship web page. The curriculum is composed of six instructional blocks that address the core concepts of health and medicine, human growth and development and four blocks based on organ-systems. The two-year Pre-Clerkship curriculum brings together teachers from the basic science and clinical departments, from other health related faculties/disciplines as well as the public. All sciences basic to medicine, including anatomy and molecular science, biochemistry, human genetics, immunology, microbiology, physiology contribute to the curriculum as do the clinically applied basic sciences of pathology, pharmacology and community health sciences. Clinical departments including anesthesia, clinical health psychology, family medicine, internal medicine, obstetrics, gynecology, ophthalmology, otolaryngology, pediatrics, psychiatry, surgery are also involved.

The Pre-Clerkship is divided into six blocks, three per year.

Block 1 – Introduction to Medicine: Has two sections:

Population Health and Medicine - introduces the main elements to the understanding of any disease or health problem including definitions of life, health, disease and death; burden of illness or size of the problem; causes or risk factors; the natural history and outcomes; prevention and control; all based on the principles of emphasizing the concept of evidence-based medicine. This section will provide the core concepts of statistical methods in the health sciences, research methods, critical appraisal of the medical literature, and the framework for the determinants of health, an understanding of the role of stress in health and disease, the conceptual basis for making a diagnosis, including treatment, occupational and environmental health and health policy. Students learn the concept of the physician as a member of a multidisciplinary health team both in the hospital and in the community.

Structure and Function and Disease Mechanisms –introduces Anatomy, Physiology, Molecular Biology and Medical Genetics and has an overall goal to provide background knowledge in preparation for the subsequent intensive study of the human body in health and disease in later blocks. The art of medicine can be called an “applied science”, and so it emphasizes the application of these basic sciences to the human organism. A selection of examples to illustrate “foundational concepts” or principles of human biology are covered. Students are given directed readings and references for study of some topics in depth, according to individual needs.

The core concepts of disease processes are illustrated through lectures and tutorials. Building on the previous sections, basic science principles and clinical applications are presented. Contributions are made by the disciplines of Pathology, Pharmacology, Oncology, Hematology, Infectious Diseases and Immunology to present core concepts of disease at both a cellular and patient level. Study of normal anatomy will continue. Students will be encouraged to use clinical examples of disease to appreciate and understand the underlying cellular processes. This material is introductory and the topics will be further expanded and revisited in greater depth in the system subject blocks.

Block 2 - Human Development : This nine week block will cover the stages of development from conception to geriatrics including embryology, child development, nutrition, adulthood, sexuality, and death. Community Health, Genetics, Pediatrics, Psychology, Psychiatry, and Geriatrics will be highlighted. In this block students will be introduced to the principles of physical, psychological, social and behavioural aspects of normal human development at the various life stages from conception to death within populations, families and as individuals. As well they will learn about the physical, psychological, social and behavioural challenges individuals face during the various development stages. Students will learn to appreciate health as a component of life cycle development and to identify principles of community development which impact on the well-being of individuals and families at various life stages.

System Blocks: Each of the following Blocks will cover, in a clinically relevant context, normal anatomy and physiology, followed by pathophysiology of disease.

Block 3 - Involves Cardiovascular, Respiratory, Ear, Nose & Throat. There will also be a few additional structure and function classes.

Block 4 - Medicine II commences with the fourth block consisting of Reproduction, Kidney and Endocrinology & Metabolism.

Block 5 – This block consists of the following systems: Neuroscience, Musculoskeletal and Ophthalmology.

Block 6 – The Pre-Clerkship curriculum ends with the following systems: Gastrointestinal/Liver, Blood & Lymph and Dermatology.

Methods of Teaching

The Cognitive component is delivered by a variety of formats including assigned self-study periods, small group tutorials, traditional didactic lectures, small group activities in entire class format, lab practicals or demonstrations and computer simulated labs. Regular time is scheduled each week to provide students with the opportunity for self-directed and independent learning. Group study is encouraged. Problem solving is emphasised in all small group tutorials as well as in the identified problem solving sessions.

Attendance

Attendance is mandatory at all small group and other active learning sessions and educational rounds. Attendance may also be mandatory at certain lectures. Attendance may be taken at mandatory sessions; unapproved absences are brought to the attention of the Associate Dean UGME.

Clerkship Program: Years 3 And 4

The Clerkship component of the undergraduate program is designed to give medical students didactic instruction, supervised responsibility for patient care and frequent feedback and evaluation. The program is governed by the Clerkship Committee, consisting of a Chair appointed by the Dean, the clerkship directors of the clinical departments, the Director of Educational Development and student representatives. The Clerkship Program consists of the Introduction to Clerkship program, core clerkship rotations, a multiple specialty rotation, and electives. It lasts 20 months. Core clerkships last a minimum of six weeks, multiple specialty clerkships are comprised of shorter individual rotations and electives are offered in units of two weeks or longer.

Introduction to Clerkship (ITC) (5 weeks): The Clerkship Program begins with the ITC that is a preparation for clerkship. It consists of observed clinical encounters with patients in the major disciplines, predominantly arranged to take place in the hospitals. Courses in clinically based laboratory medicine, clinical pharmacology and therapeutics, community health sciences, immunization/infection control, and radiology are given.

Clerkship Phase I:

Core Clerkship Rotations (48 weeks): The primary responsibility of the clerks in the program is the care of patients under the supervision of post-graduate students and faculty. Rotation through all major clinical disciplines is provided and these are supplemented by “elective” periods. Six-week periods are spent in family/community medicine, internal medicine, selectives in medicine and surgery, obstetrics/ gynecology, pediatrics, psychiatry, surgery, multiple specialty rotation of anesthesia, emergency medicine, ophthalmology, otolaryngology and a community health sciences project. Settings for the clerkship experience are varied, including wards and outpatient facilities of the hospitals, doctors' offices, rural and community-based hospitals. Formal teaching and evaluation of the knowledge, skills, attitudes and behaviours pertinent to the discipline are provided during the clerkships.

Clerkship Phase II:

Electives: There are two major elective periods during clerkship. The first period occurs at the end of the core clinical rotations; the second occurs after the CaRMS National Interview Period and is generally restricted to the Province of Manitoba. Throughout the elective periods, students must pursue education in a minimum of three different disciplines with a minimum duration of two weeks each. Electives may be pursued in a setting of the student's own choice, but must be approved by the faculty elective coordinator.

ACLS/ CaRMS Interviews / Floating Elective/Special Curriculum Initiatives: Following the winter holiday break students will participate in a mandatory ACLS course, attend their national CaRMS Interviews and, time permitting, also participate in floating electives and special curriculum initiatives.

MCCQE Part I Refresher course: The clerkship program ends with a short course of half day lectures and time for self study in preparation for the Licensing Examination, Part 1, of the Medical Council of Canada.

SECTION 5: Student Evaluation and Academic Progress

5.1 Responsibility

The policies and procedures for the evaluation of the students in the program for the M.D. degree are the responsibility of the Faculty Executive Council (FEC).

The Progress Committee recommends to FEC the academic standards by which the progress of students are judged and ensures that examiners have followed the policies and procedures set by FEC. The Progress Committee, following the recommendations of the Committees of Evaluation, also:

- Determines which students may proceed to the next stage of the program or to graduation.
- Determines which students should write supplemental examinations, or be required to take remedial study, or be required to repeat all or part of the academic year before promotion to the next stage of the program or graduation.
- Place students on Monitored Academic Status or Probation.
- Ensures that the Committees of Evaluation have followed the policies and regulations of evaluation that have been approved by the FEC.

The Committees of Evaluation (COE): The COE's, Pre-Clerkship (years 1 and 2) and Clerkship (years 3 and 4) conduct the evaluation of the students. The knowledge, clinical and communication skills, attitudes and behaviour of the students are evaluated by examination, assessment of performance and completion of assignments.

The responsibilities of the COE's include:

- Planning and administration of the evaluation of all aspects of student examinations and performance.
- Planning and administration of all supplemental examinations.
- Planning and administration of all other measures of academic performance.
- Planning and administration of remedial training for students with unsatisfactory academic performance.
- The reporting of the results of examinations, supplemental examinations, other academic performance evaluation and remedial training to the Progress Committee.

Procedure for students with non-academic problems that interfere with evaluation

Students who cannot take an examination, attend mandatory sessions, perform satisfactorily or complete assignments because of non-academic problems must inform either the Associate Dean UGME or Assistant Dean Student Affairs as soon as possible. Either of these individuals will decide if the reason is sufficient to postpone or cancel evaluation. This may be applied retroactively. The Associate Dean UGME will then determine how the evaluation will be completed. In the case of illness a confirming certificate from the student's regular physician or a specialist in the field of the illness is expected. In other situations confirmation that problems are affecting the student should be provided from a recognized authority e.g. the University Counselling Services. In all cases the nature of the problem is confidential between the student and the physician or adviser involved. The physician or adviser must confirm in writing that the problem has affected student's performance and evaluation. The student will usually be expected to submit a further confirmation that the problem will not affect performance or evaluations when the student resumes the program.

5.2 Evaluation in the Pre-Clerkship Program

The Committee of Evaluation Pre-Clerkship will be responsible for evaluation of students during the first two years of the program. The COE Pre-Clerkship will be headed by two co-chairs, responsible for first and second year respectively and appointed by the Dean. The members of the COE include the Pre-Clerkship faculty curriculum coordinators, the Associate Dean UGME and representatives of the individual blocks of the program,

the Clinical Skills programs and the Medical Humanities program. Additional members may be added at the discretion of the FEC. The COE Pre-Clerkship is responsible for developing the evaluation process, determining the pass mark of the examinations and ensuring that the examinations of each block are comparable, reliable, valid and fair.

Attendance

Students failing to attend mandatory sessions may be reported to the Associate Dean UGME. Each student will receive a warning from the dean's office. If this warning is ignored then the student's attendance record will be considered by the COE Pre-Clerkship and the student may be failed for unsatisfactory attendance. A suitable remedial period may be provided during the summer. (See section on remediation.) If the student does not perform satisfactorily in the remedial period the year will be failed.

Examinations

The COE will inform the students of the pre-determined pass mark for all examinations at the beginning of their block. The student, however, will be given the overall as well as the actual marks obtained in the different sections of the examination. Students' results will be reported to them as a pass or fail; neither grades nor honours will be given. Grades and relative performance will be recorded in students' evaluation files and each student can view his or her evaluation file in the undergraduate office.

The Faculty of Medicine uses a Pass/Fail system where grades are not reported external to the Faculty of Medicine. Transcripts and Dean's Letters will indicate only whether a student has passed or failed a year or block. However, within the Faculty of Medicine, student grades will be used to help identify students at academic risk and to help select students for distinctions such as awards and specialized programs.

Knowledge: There are written comprehensive examinations based on the objectives at the end of each block i.e. three in first year and three in second year. Except for the first block, all the blocks may include up to 10 per cent of questions from material in the previous block. For each block there is an examination committee that consists of the COE chair, course directors and pertinent departmental representatives for the respective block. The examination committees are responsible to ensure that the taught objectives are tested and the evaluation is fair. Each examination of knowledge may use various methods of evaluation: multiple choice questions, short answer essays, demonstrations etc. There may also be take-home assignments in each course that contribute to the final mark.

Clinical Skills: The student's performance in the Clinical Skills program will be assessed by observation of performance and by examination. There is a Clinical Skills evaluation committee, responsible to the COE Pre-Clerkship, that determines the standards of performance expected of students and develops examinations. There will usually be an examination of Clinical Skills at the end of each year. The format of the examination will normally be an "objective structured clinical examination," (OSCE). The Clinical Skills evaluation committee is responsible to the COE Pre-Clerkship for the planning and administration of the examination. The committee will recommend the pass mark, once the stations have been chosen, for approval to the COE Pre-Clerkship. The format of the examination and the system used to determine the pass mark will be told to the students. The Clinical Skills evaluation committee will inform the COE Pre-Clerkship about those students who fail the clinical skills program. If a preceptor determines that a student's performance is unsatisfactory then the student must be informed and reported to the Clinical Skills evaluation committee. The committee will provide supplemental education to help the student reach the satisfactory standard. The COE Pre-Clerkship will confirm that the student has failed due to poor performance or by examination and will determine the period of remedial work to help the student meet the standard of the program.

Professionalism: Behaviour and attitudes befitting medical professionals is expected of our students in all phases of the curriculum. The Faculty of Medicine looks forward to learn of students who display exceptional professionalism through letters sent to the Associate Dean, UGME. The Faculty of Medicine uses a Professionalism Report by which single egregious or recurrent lapses in student professionalism can be brought to the school's attention. A summary statement will be included on an individual's Medical Student Performance Record if two or more validated reports have been received. The Faculty of Medicine maintains the option to dismiss students on the basis of unprofessionalism, regardless of performance in the curriculum.

Failures of the Evaluation in Pre-Clerkship years 1 and 2

Pass marks: May be revised from time to time but will be declared before the initial and supplementary examinations.

Examinations: Students failing in up to two examinations can write supplementary examinations. Students who fail any supplementary examination in first- or second-year will fail that year.

Students who are granted supplemental privileges are expected to undertake remedial study at a time determined by the Faculty during the summer period. Following the remediation, they will sit a supplemental examination comparable but different to that failed. Students who fail the Clinical Skills program will be granted supplemental privileges and receive a remedial period during the summer vacation that will take into account the areas of weakness revealed by their performance and the examination. The performance of students during the remedial period will be evaluated by a preceptor and will normally include an oral and/or written examination and/or repeated OSCE. Students who fail to reach the standard expected after remediation will fail the year.

Students in first and second year who are successful following remediation will be promoted.

First year students who fail the year must apply for re-admission to medical school before June 1. Students being considered for re-admission will usually be interviewed by the Admissions Committee to determine how they might better approach medical school so that they might succeed on a second attempt. The Admissions Committee will advise the Assistant Dean Admissions who will recommend to the Progress Committee whether the student should be re-admitted.

Students who fail second year will automatically repeat it and are not subject to review by the Admissions Committee.

Remediation of failures: The student will be required to meet with the Director of Remediation to develop a remedial plan. The exact nature of the remediation may vary with the student and will be designed to meet individual learning needs as defined by the student. The student will also be required to meet with the Assistant Dean Student Affairs who may also direct the student to other faculty members or services for students.

5.3 Evaluation of Students in the Clerkship Program

During the clerkship years students will be evaluated on their competence and this will include assessment of their cognitive knowledge and understanding, clinical skills, problem solving and judgement, technical skills, interpersonal attributes and general professional responsibility. Evaluation will be the responsibility of the Committee of Evaluation, Clerkship (COE Clerkship).

The committee will consist of:

- *Voting Members:* The chair; one representative, usually the clerkship director, or delegate, from each department, and the coordinator of ITC Laboratory and Investigative Medicine, the coordinators of ITC, clerkship, electives and comprehensive clinical examination. In the absence of the elected representative the department may send a substitute.
- *Non-Voting Members:* Ex-officio the Associate Dean UGME; the Assistant Dean Student Affairs, and four undergraduate student representatives.

Method of Evaluation (General)

The policy and procedures applicable for evaluation are: Examination Regulations Policy: 1305 of the University of Manitoba; Faculty of Medicine Security of Records policy approved, 1982; Policy on Disclosure and Security of Student Academic Records approved University of Manitoba Board, May, 1989. Examinations and evaluations will use various methods to assess students. These will include mid-point and final evaluation reports (FITEs); written examinations (externally or internally prepared in essay, multiple-choice or other formats); projects; clinical examinations with "traditional" cases, case scenarios, simulated or standardized patients using "traditional" long cases, short station Objective Structured Clinical Examinations (OSCE) or longer Comprehensive Clinical Examination (CCE) formats. Students' performance for evaluation purposes during examination may be recorded by writing, orally, by computer, by audio or by video taping. Whatever form is used, the data generated is subject to the examination regulations of the University of Manitoba and the Faculty of Medicine. Material necessary to generate the mark such as papers, computer records, tapes will be destroyed once the student has passed that evaluation.

tion (such material can be of help to a student needing remediation before the pass).

The Committee of Evaluation Clerkship will monitor examinations and evaluations of students to ensure that they are credible, appropriate, precise, valid and reliable. To achieve this quality assurance the Committee of Evaluation Clerkship may use direct observation or indirect observation by audio and video monitoring. Quality assurance material is subject to the aforementioned regulations of the university and the faculty. Material, such as audio/video tapes which could identify the individual student will not be released to anyone, other than the Dean and Committee of Evaluation Clerkship, without the written consent of the student.

5.3.1 The Introduction to Clerkship (ITC)

The goal of Introduction to Clerkship (ITC) is to prepare the student for clerkship rotations. Students will be assessed for attendance and performance in learning groups. The purpose of student evaluations in ITC is to ensure that students are ready to begin their clerkship rotations.

Readiness for clerkship must be demonstrated in many areas including: basic medical knowledge and its application; clinical skills in evaluating patients; analysis of clinical data; problem identification and diagnosis; planning of investigation; planning of management and therapy; relationships to patients and staff. These attributes will be evaluated in a variety of ways throughout ITC.

Method of Evaluation

Students failing to attend mandatory sessions may be reported to the Associate Dean UGME, who will inform the COE Clerkship. Each student will receive a warning from the Dean's office. If this warning is ignored the student's attendance record and performance will be considered by the COE Clerkship and the student may be failed for the sessions missed. A suitable remedial period may be provided. If the student does not perform satisfactorily in the remedial period the ITC will be failed.

Each department, clinical or laboratory, will determine the criteria for determining the competence of the student during the ITC experience in that department. These standards should be based on the expected requirements for satisfactory preparation for the clerkship of the department. Each preceptor, with significant involvement in clinical or laboratory teaching, will provide a pass/fail decision on each student taught to the ITC supervisor of the department together with a written evaluation of the performance when needed. The preceptor will advise each student during the course if the performance is likely to lead to a failing assessment. Students must be given due opportunity to improve their performance to the expected standard. The departmental supervisor, with the undergraduate committee of the department, will review the evaluations and preceptor pass/fail assessments to determine if the student has achieved an overall pass/fail for the ITC period in that department. The student must be informed of a recommendation for failure within seven working days of the end of the session. The pass/fail decision will be given by the departmental representative to the COE Clerkship. In the case of a failing evaluation the reasons for failure must be documented and submitted to the COE Clerkship.

5.3.2 ITC Remediation

Failure for inadequate attendance

The coordinator of the block of sessions missed may, with approval of the clerkship coordinator, provide the student with a remedial course, of comparable educational experience in that subject and the student will have to attend and perform satisfactorily to pass the ITC.

Failure for poor clinical performance

The COE Clerkship will review the deficiencies of the student and will provide the student with a remedial period prior to the beginning of the Clerkship. The remediation will be designed to improve the clinical deficiencies of the student to meet the standard for a pass and will be assessed by the preceptors.

Failure of the ITC remedial

Failure of the remedial period for non-attendance or poor clinical performance will be recorded as a failure of a major clerkship. But, since a repeat of the ITC would need to be postponed until the core rotations are completed, the student may proceed to the regular clerkship rotations. However, if such a student fails a core/major rotation in addition to the ITC, then the Clerkship Program must be restarted at the next ITC period.

5.3.3 The Major Clinical Clerkships

Method of Evaluation

The evaluation of the students during the clinical clerkship rotations may be assessed by review of clinical performance, written examinations, projects as in community health sciences and a comprehensive clinical examination.

Clinical Performance

The goals and expectations of the Clerkship Program are consistent with the Undergraduate Medical Education Learning Goals and Objectives.

Students must complete a self-evaluation Interim Evaluation Report (ITER) midway through the rotation. The self-evaluation ITER should be discussed by the student and his/her preceptor(s). The clerkship director, or delegate, will collect preceptor assessments throughout the rotation. If a student's performance is likely to lead to a failure, the clerkship director must advise the student of an impending failure by the midway point of the rotation. In such cases, these students must be given help to improve their performance to the expected standard. The clerkship director, or delegate, will use all evaluations to make a final decision on the student's performance at the end of the rotation in that department. A Final In-Training Evaluation Report (FITER) of each student's achievement of these goals will be completed for each rotation.

A failing student must be informed of the failure by the clerkship director, or delegate, preferably before the end of the rotation but not later than seven working days after the end. All results will be submitted to the undergraduate committee of the department, who, for a failure, will review all the evaluations and preceptors' pass/fail assessments and determine the overall, pass/fail standing for the student during the rotation in question.

The pass/fail recommendation, with the FITER and any supporting evidence for that decision, will be submitted by the departmental representative to the COE Clerkship. The pass/fail decision will be reviewed and affirmed if there is a majority vote of the members of COE Clerkship present at the first meeting of the COE Clerkship after the end of the clerkship. In the case of a tie, the chair of COE Clerkship will have the deciding vote, otherwise he or she will not vote.

Major Clerkship Clinical Performance Remediation

The COE Clerkship will provide the student who has failed a clinical rotation an appropriate remedial period with the department in which the rotation was failed. The rotation will be an equivalent educational experience to the clerkship failed, and its goal will be to assist the student to reach the expected standard of clinical competence. A similar process of evaluation will be used, and this may be supplemented by a clinical oral examination if the departmental undergraduate committee deems it necessary. The remedial will be taken during an elective period.

Clerkship Departmental Examinations

Students will take the National Board of Medical Examiners (NBME) subject examinations at the end of the following clerkship periods: obstetrics/gynecology, pediatrics, psychiatry, and surgery. For internal medicine the NBME examination will take place after the internal medicine selective rotation. For surgery the NBME examination will take place following the major surgery rotation. The passing standard for National Board Exams will be the 11th percentile of the entire reference group. Students failing a National Board examination will resit this exam *at the next opportunity as determined by the Associate Dean (UGME) or designate*.

Remediation for NBME Examination Failures

Students failing the National Board exam twice in the same subject will receive a remedial period of training from the department of that subject. The Associate Dean UGME in conjunction with the clerkship director, or delegate, will design the remediation with the purpose of the student achieving at least the 11th percentile in the examination; further clinical experience may be needed to meet that purpose. Such a remedial period will be a maximum of four weeks and will be taken in an elective period and followed by a third attempt at the National Board examination.

5.3.4 The Comprehensive Clinical Examination (CCE)

The goal of the comprehensive clinical examination (CCE) is to objectively evaluate students' clinical competence in generic skills of data collection, interpersonal relationships, along with the content of the case for diagnosis, investigation, and management of common clinical problems. This examination frequently uses standardized patients to test these clinical skills. The CCE committee is a sub-committee of the COE Clerkship and is chaired by the CCE coordinator. The CCE is marked to a standard predeter-

mined by the CCE committee and the results of the examination are submitted to the COE Clerkship.

Remediation for Failure in the CCE

The COE Clerkship will devise an appropriate remedial period which will take into account the areas of weakness demonstrated by the CCE and will be taken during elective time. This remediation will be evaluated by a clinical assessment and may include an oral and/or written exam.

5.3.5 The Multiple Specialty Rotation in Clerkship (MSR)

Method of Evaluation

The evaluation of students during the MSR clerkship rotations includes assessments of attendance, performance and could include faculty prepared examinations. Students will be expected to attend all clinical, small group, and laboratory sessions. If more than 10% of a block of sessions is missed, without an excused absence, then the student may fail that block of sessions. Clinical performance will be judged, where applicable, as in the major clerkships. The clerkship director, or delegate, will obtain the information from the staff of the department as determined necessary to evaluate the student by the undergraduate committee of the department. The clerkship director, or delegate, must advise each student by the mid-way point in the rotation if his or her performance is likely to lead to a failing assessment. Failing students must be given due opportunity to improve their performance to the expected standard. The clerkship director, or delegate, will use all evaluations to make a final decision on the student's performance at the end of all rotations in that department. While a constituent part of the MSR clerkship may be failed, failure may be outweighed by good evaluations in other constituent parts. A failing student must be informed of the failure by the preceptor, clerkship director, or delegate preferably before the end of the rotation but not later than seven working days after the end. All results will be submitted to the undergraduate committee of the department, who, in the case of a failure will review all the evaluations and preceptors' pass/fail assessments to determine the overall, pass/fail standing for the student in that department.

The Community Health Science Project

Each student will complete a paper and presentation in community health sciences during the Multiple Specialty Rotation. The paper will be evaluated by the supervisor to a standard set by the department with approval of the community health science undergraduate clerkship director. If the paper is unsatisfactory then the preceptor will meet with the student to determine an appropriate time for improvement before a failure is recorded. In the case of a failure, the clerkship director, or delegate, will submit the failure to the COE Clerkship and advise upon the remediation needed for the student to produce a satisfactory paper.

Remediation for an MSR Clerkship Failure:

The COE Clerkship will provide the student who has failed a clinical component of the MSR with a remedial period in the department in which the rotation was failed. This period is flexible but can be up to the same length as the failed rotation. Such a remedial rotation will be an equivalent educational experience to that failed and its goal will be for the student to reach the expected standard of clinical performance. A similar process of evaluation will be used and may be supplemented by a clinical oral and/or written examination if the department deems it necessary. The remedial will be taken in an elective period.

5.3.6 The Elective Periods

Method of Evaluation

Electives are evaluated in a similar manner to other clerkship rotations and students are required to obtain a completed elective evaluation form for every elective pursued. These evaluations will be reviewed by the electives coordinator and unsatisfactory assessments will be submitted to the COE Clerkship. If an elective experience is failed, all of the student's elective evaluations will be considered to determine a composite pass/fail for the elective period.

Remediation for an Electives Failure

The COE Clerkship will devise a remedial period of up to four weeks which will take into account the areas of weakness revealed by the student's elective evaluation. This will be taken in the next available free time for the student. The remedial period will be evaluated by clinical assessment and can include an oral exam if the COE Clerkship deems it necessary.

5.3.7 Failure of a Student in the Clerkship Program

The Clerkship Program is a continuum held over third and fourth years. A failure of the Clerkship Program is considered to be a failure of one year, see Section 3 Academic Regulations, above.

Failure of the Clerkship

The student will be determined to have failed the Clerkship Program if:

1. Failure of Clinical Assessments

The student has received failing evaluations in one or more of the following:

- a) Two major clerkships in different disciplines (Internal Medicine including selective, Surgery including selective, Pediatrics, Obstetrics/Gynecology, Psychiatry, and Family Medicine)

OR

- b) One major clerkship and:
 - i) its remedial, or
 - ii) an ITC remedial, or
 - iii) an MSR remedial, or
 - iv) an elective remedial

OR

- c) Remedials in two of the following:
 - i) Anesthesia
 - ii) Emergency Medicine
 - iii) Otolaryngology
 - iv) Ophthalmology
 - v) Elective
 - vi) ITC

2. Failure of Examinations

The student has failures in one or more of the following::

- A National Board examination three times, or
- Three National Board examinations twice, or
- The CCE after remediation, or
- The community health science paper, including its remediation.

3. If the remediation period recommended for a student, for whatever cause, requires more than eight weeks, then the student will be deemed to have failed the Clerkship Program.

5.3.8 Terms for the Repeat Clerkship

A student who fails the Clerkship Program, be it because of failure of clinical assessments, failure of examinations, or failure of remediation (as above), immediately ceases in the program, and will be required to repeat the Clerkship Program. The Repeat Clerkship will consist of the following, at a minimum: Six week rotations in each of Core Internal Medicine, Core Surgery, Pediatrics, Family Medicine, Psychiatry, and Obstetrics/Gynecology, plus 12 – 16 weeks electives. Students in the Repeat Clerkship will also be required to complete the ACLS course (0.5 weeks), and the LMCC refresher course (4.5 weeks). They will also be granted 3 weeks for CaRMs interviews and two weeks for vacation. Furthermore, if the failure occurred prior to the completion of the Medicine Selective, Surgery Selective, Multiple Specialty Rotation (MSR), or Community Health Sciences Project, then these will be required components of the Repeat Clerkship as well. The student must satisfactorily meet all clinical assessments, examinations, the CCE, as well as remedial rotations (as appropriate), regardless of whether they had been passed previously. The Repeat Clerkship will be submitted to the Progress Committee for review and final approval.

5.3.9 Terms for Failure of the Repeat Clerkship

The terms for failure of the Repeat Clerkship are the same as listed above in 5.3.7 "Failure of a Student in the Clerkship Program." A student who has failed the Repeat Clerkship will be required to withdraw from the Faculty of Medicine program.

5.4 Regulations for Students Taking Leave from the Clerkship Program

(under review)

Students may, for health or personal reasons, withdraw from the clinical rotations or take temporary leave. For sudden unexpected reasons, except under extreme circumstances, office of the Associate Dean UGME and the clerkship director, or delegate, and resident must be informed. For planned leave, prior permission must be obtained from the Associate Dean UGME or Assistant Dean Student Affairs, the clerkship director or delegate, and the chief resident of the services involved must be informed. Written documentation of the reason for absence may be required by the Dean. The in-

formation is confidential to the Associate Dean UGME and Assistant Dean Student Affairs.

If, at the time of taking leave, less than one half of that part of the rotation has been completed, the student will have to start the rotation again from the beginning of the rotation at a later date convenient to the schedule.

If, at the time of taking leave, more than one half of that part of the rotation has been completed and if the student's performance to that date has been considered satisfactory, the student will only have to complete the missed time at a later date convenient to the schedule. The final evaluation will be made from the assessments in both parts of the rotation.

Brief periods of leave of up to one day may be taken upon notification and approval by the clerkship director and/or delegate. Leaves of absence may be requested for personal, academic, or compassionate reasons, or to accommodate interviews for postgraduate positions. Permission must be obtained in advance, in accordance with the *Leave of Absence from a Clerkship Rotation Guidelines and Procedures* that is available at the www.umanitoba.ca/medicine website or in hard copy from the Undergraduate Medical Education Office. The normal clerkship is completed in 80 weeks, not counting CaRMS interview time and holiday time. When, because of leaves of absence, a student will take more than 80 weeks, including elective periods, to complete the Clerkship Program then the COE Clerkship will review the student's record (clinical assessments and examinations) during the Clerkship Program to ensure that the time lost has not compromised the overall achievement of the student. Moreover the COE Clerkship must decide if the extended nature of the student's course has resulted in a standard of evaluation for the student that is different from the other students of the year who have had less time. If the COE Clerkship determines that this student has not reached the standard expected of a student completing the regular Clerkship Program, and even if all rotations have been completed, then the COE Clerkship may require a further period of clinical training for students. This will not count as a failure, but as a remedial period to help the student to attain the standard expected in a student completing the Clerkship Program. During this remedial period all regular methods of evaluation, clinical assessments and examinations, will apply although, at the recommendation of the COE Clerkship, certain examinations may be omitted. If this remedial period is failed then the student will be deemed to have failed the Clerkship Program.

Students who miss a statutory holiday because they are on-call that day are entitled to a day off in lieu. This day must be taken in the same rotation. When there is a difference between statutory holidays between the hospitals and the University, Clerkship students are expected to follow the hospital schedule.

5.5 Reviews and Appeals of Failed Rotations and Examinations

A student who disagrees with any evaluation, or recommended remediation, from departmental rotations or by examination, whether externally or internally produced, may ask for it to be reviewed and re-evaluated. The student should consider obtaining the advice of the Student Advocate (telephone (204) 474-9251). Students are required to sign their FITERS but can include a notation about disagreement with the findings.

The request for review should be addressed to the Assistant Dean Student Affairs, who direct the request to the appropriate authorities. The request can be made verbally to the authority but is better in writing; the request should be supported by reasons for the disagreement. Student representatives or the Assistant Dean Student Affairs can put forward the student's request at the undergraduate departmental committees and COE. If the recommendation for failure is upheld by the appropriate committee of evaluation, the same request and its supporting arguments can be submitted to the Progress Committee and presented by either the student representatives, the Assistant Dean Student Affairs, or the Student Advocate. If the Progress Committee upholds the failure, then the student may appeal the result within 28 working days of receipt of the failure by submitting a written appeal to the Progress Committee.

On the receipt of such an appeal the Progress Committee will refer the appeal to the Faculty Executive Council Committee on Student Academic Appeals. The Student Academic Appeals Committee will hear the appeal within 28 days of an appeal being filed. The student will be informed of the decision within 10 working days of the conclusion of the appeal. If necessary, the student may then appeal to the Senate Committee on Student Appeals. It is strongly recommended that the student obtain the advice of the Student Advocate. If a failing evaluation is overturned on appeal then the original pass/fail evaluation must be stricken from the student's record

and the new evaluation inserted -- examination marks and the comments of clinical assessments will be kept, except where they were found to be invalid during the appeal, in which case a correct comment or mark is inserted.

SECTION 6: Academic Research in Medical Education

Part of the educational responsibility of the Faculty of Medicine is to perform research on innovations and effectiveness in medical education. Whenever students are the research subjects, all such research must have approval from the Faculty of Medicine Research Ethics Board. Where students are studied individually their participation will be voluntary. Research findings will not identify individuals.

SECTION 7: Advanced Degrees in Medicine

7.1 Bachelor of Science in Medicine (B.Sc. (Med.))

The Bachelor of Science in Medicine program is offered during the summer months following first and second year of the undergraduate program in Medicine. The B.Sc. (Med) program is designed to provide the undergraduate medical student with the opportunity to gain firsthand experience in medical research. A large variety of basic science and clinical research projects are available for the student to choose from each year.

The program is open to undergraduate students in the Faculty of Medicine. The work for this degree may be carried out in any department of the Faculty of Medicine. This program may not be taken concurrently with any part of the medical curriculum nor by a student carrying any failures or required remediation in his/her medical program.

To enrol in the B.Sc. (Med) program the student must find a supervisor in any field within the Faculty of Medicine. The supervisor must be a member of the Faculty of Medicine. Together, the student and supervisor submit a written project proposal for scrutiny to the B.Sc. (Med) Committee. To engage in the B.Sc. (Med) program, students must register with the university for summer sessions.

An examining committee of three faculty members, one from outside the department in which the research work is carried out, will be established for each student. The supervisor will report upon the student's progress to the B.Sc. (Med) Committee.

Students will be required to produce research and present their findings acceptably in both a written report and at a research forum. Students will be evaluated after the first summer and following the completion of the requirements for the B.Sc. (Med) degree. Students will be required to withdraw from the program if they make unsatisfactory progress, including after the first summer of research.

The B.Sc. (Med) degree will be conferred at the same time as the M.D. degree unless the student, having satisfactorily completed the requirements for the B.Sc. (Med) degree, discontinues the study of medicine in this faculty. In this case, the B.Sc. (Med) degree will not be conferred.

7.2 MD/PhD Option

Purpose

The combined-degree MD/PhD Option in the Faculty of Medicine is designed to produce academic clinician scientists who are interested in a career that combines both research and clinical medicine.

Duration

The minimum program of study is the total required by the Faculty of Medicine for the MD program (4 years) plus the minimum requirements of the Faculty of Graduate Studies (3 years from honours undergraduate degree). Students having obtained advanced/graduate training prior to admission may be granted advanced standing. Students will be considered to be full-time graduate students through the entire period.

Eligibility

Students enrolled in or admitted to Medicine are eligible to apply.

Application process

Students wishing to apply should contact the Director of the Option. Acceptance will minimally require: 1) identification of a supervisor (within a department in the Faculty of Medicine which has an approved PhD program) who has adequate resources for the proposed program of study and whose department recommends acceptance, 2) interview with the Faculty MD/PhD Selection Committee and their recommendation for acceptance, 3) identification of a source of adequate financial support for the student and 4) acceptance by the Faculty of Graduate Studies.

Program fees

The total tuition fees payable are the sum of the fees required for the MD and PhD programs of study. Continuing fees (Graduate Studies) are also applicable.

Administration

The Associate Deans for Research and UGME and Assistant Dean Admissions are advisory to the Option Director (Associate Dean Graduate Studies). They will ensure 1) adequate resources for all aspects of the delivery of the program, 2) liaison with the Department, the Faculty of Medicine (including flexibility re: leaves for research) and Faculty of Graduate Studies, 3) review of advisory committee composition/function and of student progress and satisfaction and 4) the provision of program elements considered important to the success of the Option. Faculty members holding dual MD/PhDs will be requested to provide input as resource persons to the program.

Coursework

The minimum course requirements of the Faculty of Graduate Studies will be applicable in addition to the normal curriculum of medical studies.

Research/Thesis requirements

The quality and quantity of research supporting the thesis shall be consistent with that required for other doctoral candidates in the field.

Additional program elements:

Seminar Series and Research Progress Evaluations

Each student will be required to regularly attend a designated research seminar series organized by the sponsoring research discipline of the student. In addition, mandatory attendance will be required of all MD/PhD students and their supervisory faculty advisors to participate in a quarterly, program-wide, MD/PhD Student Research Forum which will include MD/PhD graduates. These regular research days will provide time for students to present their work to a critical audience (research proposals, work-in-progress, critical reviews in major areas of recent scientific advances, etc.), and will also serve to promote networking within the program. Each student will be required to present a research update at least once a year, and satisfactory performance at this yearly assessment is required for continuation of program support.

Conferment of the Dual Degrees of MD/PhD

The MD and PhD degrees will normally be conferred simultaneously during convocation upon satisfactory completion of the entire option.

SECTION 8: Registration Information

Initial Access Times

Students in the Faculty of Medicine Undergraduate Medical Education Program will be given access time to the registration system (Aurora Student) in July and August. For instructions on how to register online, please refer to the chapter, "Registration Information: Aurora Student". Registration must be complete prior to the first day of classes.

Please note that you are registering in the same course for both the **Fall AND Winter** sessions. Contact Admissions and Enrolment Services at (204) 789-3499 should you encounter difficulties in registering.

Prior to Registration

New Students: All incoming students must complete application to the College of Physicians and Surgeons, certify for BLS for Health Providers and submit immunization records prior to registration. If you are unable to submit these documents by the first day of classes please contact Admissions and Enrolment Services.

Returning Students: All returning students must have active BLS for Health Providers certification on file in the Faculty of Medicine office prior to registration.

Web registration exceptions

Students who have a failing grade/s registered against them and/or have other outstanding academic matters (i.e. deferred or supplemental examinations, modified program, etc.) in regards to the previous academic session will not be allowed to register using the web registration system. Students who fall into this category should contact the office for further information.

Bachelor Science in Medicine and Summer Early Exposure Programs

Students approved to participate in summer enrichment programs will be registered by the Faculty.

Courses for the Undergraduate Medical Education program are:

Program & Year	Faculty/ School Codes		Course Information		
	Terms	Dept. Number & Course Number	Lecture Section	Lab Section	
Medicine I 05	Fall 2009 and Winter 2010	UGME 1000L01			Not Applicable
Medicine II 05	Fall 2009 and Winter 2010	UGME 2000L01			Not Applicable
Medicine III 05	Fall 2009 Winter and Summer 2010	UGME 3000L01			Not Applicable
Medicine IV 05	Fall 2009 and Winter 2010	UGME 4000L01			Not Applicable
		UGME 4990L01			Not Applicable

Section 9: Course Descriptions

Biochemistry and Medical Genetics

BGEN 3020 Introduction to Human Genetics Cr.Hrs.6 (Formerly 137.302) Principles necessary to understand and study genetically influenced malformations, diseases and variation in individuals and in populations. Two terms. Lectures, tutorials and assignments. Not to be held with the former 080.301 or 125.301.

BGEN 4010 Project Course in Human Genetics Cr.Hrs.6 (Formerly 137.401) A research project chosen in consultation with and supervised by a faculty member. A written report is required. The course is available primarily to final year Honours students in the Honours Genetics program. Selection of project and supervision to be arranged prior to September 30 and submitted in writing to department head. Deadline for submission of first draft to supervisor by March 1. Deadline for submission of final draft to supervisor and course coordinator is March 31.

Human Anatomy and Cell Science

ANAT 1030 Human Anatomy Cr.Hrs.3 (Formerly 080.103) To present the essentials of the organization and structure of the human body. Surface, functional and applied anatomy will be taken into consideration. For Pharmacy students only.

Pharmacology

PHAC 2100 Pharmacology Cr.Hrs.6 (Formerly 089.210) General principles of pharmacology including consideration of the pharmacodynamics of important drugs and control and modification of drug action.

PHAC 4020 Pharmacology Basics Cr.Hrs.6 General mechanism of action of the important groups of drugs and factors which control and modify their effects. Overview of the use and side effects of drugs. Not to be held with the former 089.210.

PHAC 4300 Drugs in Human Disease I Cr.Hrs.3 Foundation physiological principles underlying human disease integrated with drug disposition and effects of important drug groups on disorders of the autonomic and central nervous systems, and the cardiovascular system. May not be held with PHAC 4020. Prerequisites: ZOOL 2530 (or 22.253) and ZOOL 2450 (or 22.245).

PHAC 4040 Drugs in Human Disease II Cr.Hrs.3 Foundation physiological principles underlying human disease integrated with drug disposition and effects of important drug groups on endocrine and organ system disorders, allergy and inflammation, infection, and cancer. The course also offers an introduction to basic clinical pharmacology as well as several current specialized topics in pharmacology. May not be held with PHAC 4020. Prerequisites: ZOOL 2530 (or 22.253) and ZOOL 2450 (or 22.245).

Physiology

PHGY 1030 Fundamentals of Medical Physiology Cr.Hrs.6 (Formerly 090.103) The function of the systems and major organs of the human body as they relate to clinical disorders. For Pharmacy students only.

Section 10: Academic Staff

Anesthesia

Professors

Craig, D., B.Sc., M.D., C.M., M.Sc. (McGill), F.R.C.P.C.; **Duke**, P., M.D. (Manitoba), F.R.C.P.C., F.A.C.A.; **Grocott**, H., M.D. (Saskatchewan), F.R.C.P.C.; **Jacobsohn**, E., M.B., Ch.B. (Cape Town), M.H.P.E. (Illinois), F.R.C.P.C.; **Mutch**, A., M.D. (Queen's), F.R.C.P.C.; **Ong**, B., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Thomson**, I., B.Sc.(Hons.), M.D. (Manitoba), F.R.C.P.C.

Associate Professors

Bell, D., B.Sc.(Med.), M.D. (Hons.) (Alberta), F.R.C.P.C.; **Brown**, R., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Bradley**, B., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Beckstead**, J., B.Sc., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Benoit**, A., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Brownell**, L., B.A., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Cannon**, J., M.D. (Manitoba), F.R.C.P.C.; **Graham**, M., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Intrater**, H., M.D. (Manitoba), F.R.C.P.C.; **Kowalski**, S., M.D. (Toronto), F.R.C.P.C.; **Littleford**, J., B.Sc.(Hons.) (Toronto), M.D. (Calgary), F.R.C.P.C.; **Maguire**, D., B.Sc.(Hons.), M.D. (Manitoba), F.R.C.P.C.; **McNeill**, A., B.Sc., M.D. (Saskatchewan), F.R.C.P.C.; **Nugent**, L., B.Sc.(Hons.), M.D. (Manitoba), F.R.C.P.C.; **Patel**, L., M.B., B.S. (Bombay), F.R.C.P.C.; **Ringaert**, K., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Ullyot**, S., B.Sc.(Med.), M.D. (Hons.) (Manitoba), F.R.C.P.C.

Assistant Professors

Amadeo, R., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Aragola**, S., M.B., B.S. (Bangalore), M.D. (Chandigarh), F.R.C.A. (London); **Baker**, C., M.D. (Manitoba), F.R.C.P.C.; **Barc**, J., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Baron**, C., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Baron**, K., M.D. (Manitoba), F.R.C.P.C.; **Botha**, D., M.B., Ch.B. (Johannesburg), M.Med. (Pretoria); **Cameron**, M., M.D. (Manitoba), F.R.C.P.C.; **Cappellani**, R., M.D. (Ottawa), F.R.C.P.C.; **Christodoulou**, C., M.B., Ch.B. (Stellenbosch), F.R.C.P.C.; **Dabrowski**, P., M.D. (Warsaw), F.R.C.P.C.; **DeBrouwere**, R., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Deutscher**, R., M.D. (Manitoba), F.R.C.P.C.; **Di-onne**, C., M.D. (Laval), F.R.C.P.C.; **Doerr**, J., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Eliasson**, T., B.Sc.(Med.), M.D. (Alberta), F.R.C.P.C.; **Enns**, J., B.Sc. (Winnipeg), M.D. (Manitoba), F.R.C.P.C.; **Esmail**, A., M.D. (Makereere), M.D. (Manitoba), F.R.C.P.C.; **Ewert**, F., M.D. (Manitoba), F.R.C.P.C.; **Freedman**, J., B.Sc. (Winnipeg), M.D. (Calgary), F.R.C.P.C.; **Friesen**, J., B.A., M.D. (Manitoba), F.R.C.P.C.; **Funk**, D., B.Sc. (Med), M.D. (Manitoba), F.R.C.P.C.; **Gard**, S., B.Sc. (Alberta), B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Girard**, J., B.Sc.(Hons.), (Winnipeg), M.D. (Manitoba), F.R.C.P.C.; **Godlewski**, W., M.D. (Warsaw), F.R.C.P.C.; **Govender**, P., M.B., Ch.B. (Natal), F.F.A., F.R.C.P.C.; **Haberman**, C., B.Sc. (Brandon), M.D. (Manitoba), F.R.C.P.C.; **Harms**, S., M.B., Ch.B. (Orange Free State), F.R.C.P.C.; **Hawaleshka**, A., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Lambert**, D., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Lee**, T., B.Sc. (British Columbia), B.Sc.(Med.), M.D. (Manitoba), M.R.C.A., F.R.C.P.C.; **Leen**, D., M.B., Ch.B., B.A.O. (Ireland); **Lefevre**, G., M.D. (Saskatchewan), F.R.C.P.C.; **Levy**, S., M.D. (Manitoba), F.R.C.P.C.; **Loiselle**, J., B.Sc., M.D. (Saskatchewan), F.R.C.P.C.; **Lucy**, S., M.D. (Manitoba), F.R.C.P.C.; **MacKenzie**, S., B.A., M.D. (Manitoba), F.R.C.P.C.; **Mathieson**, A., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **McDonald**, H., M.D. (Manitoba), F.R.C.P.C.; **Miller**, T., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Muirhead**, B., M.D. (Manitoba), F.R.C.P.C.; **Nair**, U., M.B., Ch.B. Lecturers

Docking, L., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Lieberman**, D., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Miller**, M., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Mutter**, T., B.Sc.(Med), M.D. (Manitoba), F.R.C.P.C.; **Tsang**, M., B.Sc.(Med), M.D. (Manitoba), F.R.C.P.C.; **Wolfe**, S., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.

Biochemistry and Medical Genetics

Professors Emeriti

Blanchaer, M., B.A.(Hons.), M.D., C.M. (Queen's); **Dakshinamurti**, K., B.Sc. (Madras), M.Sc., Ph.D. (Rajputna), F.R.S.C. (U.K.); **Stevens**, F., Licentiate (Ghent), Ph.D. (California), D.Sc. (Belgium); **Yamada**, E., B.Sc.(Hons.) (Western Ontario), M.Sc. (McGill), Ph.D. (Western Ontario).

Senior Scholar

Jacobs, H., M.D. (Freiburg), Ph.D. (Marburg).

Professors

Arthur, G., B.Sc.(Hons.) (Ghana), Ph.D. (Leeds); **Bhullar**, R., B.Sc. (McMaster), Ph.D. (Manitoba); **Chodirker**, B., M.D., M.Sc. (Manitoba), F.R.C.P.C., F.C.C.M.G.; **Choy**, P., B.Sc. (McGill), M.Sc., Ph.D. (North Dakota); **Chudley**, A., M.D. (Manitoba), F.R.C.P.C., F.C.C.M.G.; **Davie**, J., B.Sc.(Hons.), Ph.D. (British Columbia); **Evans**, J., B.Sc. (Birmingham), Ph.D. (Leicester), F.C.C.M.G.; **Greenberg**, C., B.Sc.(Hons.), M.D., C.M. (McGill), F.R.C.P.C., F.C.C.M.G.; **Hatch**, G., B.Sc. (Winnipeg), M.Sc. (Saskatchewan), Ph.D. (Manitoba); **Mai**, S., B.Sc., M.Sc., M.A. (Cologne), Ph.D. (Karlsruhe); **Mowat**, M., B.Sc. (York), Ph.D. (Alberta); **Murphy**, L., B.Sc.(Hons.), Ph.D. (Sydney); **Reed**, M., B.A., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Simard**, L., B.Sc. (McGill), Ph.D. (Toronto); **Szathmáry**, E., C.M., B.A.(Hons.), Ph.D. (Toronto), LL.D. (Toronto) (hc), D.Sc. (Western Ontario) (hc), D.Litt.S. (St. Michael's College) (hc), LL.D. (York) (hc), LL.D. (McMaster) (hc), F.R.S.C.; **Triggs-Raine**, B., B.Sc., Ph.D. (Manitoba); **Wilkins**, J. B.Sc.(Hons.), M.Sc. (Waterloo), Ph.D. (Manitoba); **Wrogemann**, K., M.D. (Marburg), Ph.D. (Manitoba); **Zelinski**, T., B.Sc., M.Sc., Ph.D. (Manitoba).

Associate Professors

Amara, F., B.Sc.(Hons.), Ph.D. (Ulster); **Dawson**, A., B.Sc.(Hons.), M.Sc. (Queen's), Ph.D. (Western Ontario), F.C.C.M.G.; **Dembinski**, T., B.Sc.(Hons.) (St. Andrews), M.Sc. (Leeds), Ph.D. (Wales); **Eisenstat**, D., M.A. (U.C.S.F.), M.D. (Hons.) (Toronto), F.R.C.P.C., F.A.A.P.; **Gibson**, S., B.Sc. (Carleton), Ph.D. (Toronto); **Gietz**, R., B.Sc. (Guelph), Ph.D. (Alberta); **Hicks**, G., B.Sc., Ph.D. (Manitoba); **Leygue**, E., M.Sc. (Paul Sabatier), D.E.A., Ph.D. (P & M Currie); **MacRae**, A., B.Sc. (Toronto), M.Sc. (Guelph), Ph.D. (London), D. Clin. Chem. (Toronto), F.C.A.C.B.; **Marshall**, A., B.Sc.(Hons.) (Saskatchewan), Ph.D. (Toronto); **Mesaeli**, N., B.Sc., M.Sc. (Kuwait), Ph.D. (Manitoba); **Thorlacius**, L., B.Sc.(Hons.) (Manitoba), Ph.D. (Washington), F.C.A.C.B.; **Valdimarsson**, G., B.Sc., M.Sc. (Manitoba), Ph.D. (Western Ontario); **Wigle**, J., B.Sc.(Hons.) (Queen's), Ph.D. (Ottawa); **Williams**, G., B.Sc.(Hons.), D.P. (Sussex), M.D. (Manitoba), F.R.C.P.C.; **Wirtzfeld**, D., B.A., B.Sc., M.D. (Calgary), F.R.C.S.C., F.A.C.S.

Assistant Professors

Dalton, J., B.Sc.(Hons.), M.Sc., Ph.D. (Manitoba); **Ding**, H., M.D. (Shanghai), Ph.D. (Leuven); **Elliott**, A., B.Sc.(Hons.) (Queen's), M.Sc. (Cincinnati), Ph.D. (Manitoba); **Marles**, S., M.D. (Alberta), F.R.C.P.C., F.C.C.M.G.; **Merz**, D., B.Sc.(Hons.), Ph.D. (McGill); **Mhanni**, A., M.B., Ch.B. (Libya), Ph.D. (Manitoba), F.R.C.P.C., F.C.C.M.G.; **Parry**, D., Ph.D. (Memorial); **Pind**, S., B.Sc.(Hons.) (Queen's), Ph.D. (Toronto); **Rastegar**, M., B.Sc., M.Sc., (Tehran), D.E.A., Ph.D. (Louvain); **Spriggs**, E., B.Sc.(Hons.) (Manitoba), M.Sc., Ph.D. (Calgary).

Lecturers

Chin, S., B.Sc.(Hons.) (Brandon), M.Sc. (Manitoba), C.C.G.C.

Adjunct Professors

Civetta, A., Licenciado (Buenos Aires), Ph.D. (McMaster); **Craig**, D., B.Sc. (Mount Allison), Ph.D. (Dalhousie); **Franck**, J., B.Sc. (Alberta), Ph.D. (Dalhousie); **Frost**, E., B.Sc.(Hons.), Ph.D. (Cambridge); **Kupriyanov**, V., M.Sc., Ph.D., D.Sc. (Moscow); **Rampitsch**, C., B.Sc.(Hons.), M.Sc. (Witwatersrand), Ph.D. (British Columbia); **Vanderwel**, D., B.Sc.(Hons.) (Victoria), Ph.D. (Simon Fraser).

Clinical Health Psychology

Senior Scholar

Martin, R., B.A. (Miami), M.S., Ph.D. (Purdue).

Professors

Arnett, J., B.A. (Rhode Island), M.A. (Michigan), Ph.D. (Manitoba); **McIlwraith, R.**, B.A.(Hons.) (Winnipeg), M.A. (Acadia), Ph.D. (Manitoba); **Roy, R.**, B.A.(Delhi), A.A.P.S.W. (London); **Walker, J.**, B.A.(Hons.), M.A., Ph.D. (Manitoba).

Associate Professors

Bilash, I., B.Sc., M.A. (Manitoba), Ph.D. (Ottawa); **Bow, S.**, B.Sc.(Hons.) (Toronto), M.Sc. (Calgary), Ph.D. (Waterloo); **Dyck, K.**, B.A., M.A. (Manitoba), Ph.D. (South Dakota); **Ellis, E.**, B.A.(Hons.), M.A., Ph.D. (California); **Furer, P.**, B.A.(Hons.), M.A., Ph.D. (Manitoba); **Gill, D.**, B.A.(Hons.), M.A., Ph.D. (Manitoba); **Graff, L.**, B.A.(Hons.), M.A. (Saskatchewan), Ph.D. (Manitoba); **Hiebert-Murphy, D.**, B.S.W., M.A., Ph.D. (Manitoba); **Holms, V.**, B.A.(Hons.), M.A., Ph.D. (Manitoba); **Robertson, R.**, B.A., M.A., Ph.D. (Manitoba); **Sexton, D.**, B.A., M.A., Ph.D. (Manitoba); **Shady, G.**, B.A.(Hons.), M.A. (Windsor), Ph.D. (Manitoba); **Stambrook, M.**, B.A. (Hons.), M.A., Ph.D. (Manitoba); **Vincent, N.**, B.A.(Hons.), M.A., Ph.D. (Manitoba).

Assistant Professors

Adkins, E., B.A., M.A., Ph.D. (Manitoba); **Altman, I.**, B.A. (McGill), M.Ps.Sc. (Pennsylvania), Ph.D. (Manitoba); **Bailly, M.**, B.A. (Minnesota State), M.A., Ph.D. (North Dakota); **Battle, P.**, B.A.(Hons.) (Queens), B.S.W. (McGill), M.A., Ph.D. (Manitoba); **Brown-DeGagne, A.**, B.A.(Hons.), Ph.D. (Dalhousie); **Brousseau, G.**, B.A. (Ottawa), M.A., Ph.D. (Windsor); **Carlson, A.**, M.A., B.A.(Hons.) (Saskatchewan), M.A., Ph.D. (North Dakota); **Cartwright, H.**, B.A.(Hons.) (New Brunswick), M.A., Ph.D. (Lakehead); **Cornock, B.**, B.A. (Hons.) (Brandon), M.A., Ph.D. (Windsor); **Demare, D.**, B.A., M.A., Ph.D. (Manitoba); **Ducharme, D.**, B.A., M.A., Ph.D. (Manitoba); **Ducharme, J.**, B.A.(Hons.) (Manitoba), M.A., Ph.D. (Concordia); **Ediger, J.**, B.A.(Hons.), M.A., Ph.D. (Manitoba); **Ediger, J.**, B.C.S. (Concord College), B.A.(Hons.) (Winnipeg), M.A. (North Dakota), Ph.D. (Manitoba); **El-Khatib, A.**, B.Sc., M.A., Ph.D. (Tanta); **Enns, K.**, B.A.(Hons.), M.A., Ph.D. (York); **Enns, L.**, B.A.(Hons.) (Winnipeg), M.A., Ph.D. (Manitoba); **Feldgaier, S.**, B.A. (McGill), M.A., Ph.D. (Ohio State); **Fergusson, P.**, B.A.(Hons.) (Winnipeg), Ph.D. (Waterloo); **Fisher, G.**, B.A.(Hons.) (McGill), M.A., Ph.D. (Windsor); **Frain, J.**, B.A.(Hons.) (Winnipeg), M.A. (Saskatchewan), Ph.D. (Concordia); **Gibson, G.**, B.A.(Hons.) (Winnipeg), M.A., Ph.D. (North Dakota); **Greenwood, L.**, B.A. (Calgary), M.A., Ph.D. (Manitoba); **Hack, T.**, B.Sc.(Hons.) (Calgary), M.A., Ph.D. (Manitoba); **Haugen, M.**, B.A. (Brandon), M.A., Psy.D. (Hawaii); **Herscovitch, A.**, B.A.(Hons.), M.A., Ph.D. (Manitoba); **Holm, S.**, B.A.(Hons.) (Winnipeg), M.A., Ph.D. (Concordia); **Hutchison, B.**, B.A., M.A. (Manitoba), Ph.D. (Ottawa); **Kaoukis, G.**, B.Sc.(Hons.) (McGill), M.A., Ph.D. (Manitoba); **Kilgour, A.**, B.Sc.(Hons.), M.A., Ph.D. (Queen's); **Koven, L.**, B.A. (Manitoba), M.A., Ph.D. (West Virginia); **Laforce, J.**, B.A.(Hons.) (Alberta), M.A., Ph.D. (Queen's); **Lionberg, C.**, B.A.(Hons.), M.A., Ph.D. (Manitoba); **Miles, J.**, B.A., M.A., Ph.D. (Manitoba); **Millikin, C.**, B.A.(Hons.) (Toronto), M.A., Ph.D. (Windsor); **Mintz, C.**, B.A.(Hons.) (Guelph), M.A., Ph.D. (Manitoba); **Newton, J.**, B.A., B.Ed., M.Ed., Ph.D. (Saskatchewan); **Prober, N.**, B.A. (McGill), M.S.W. Human Anatomy and Cell Science

Professors Emeriti

Cooper, J., D.P. O.T. (Toronto); B.O.T., M.Sc., Ph.D. (Manitoba); Persaud, T., M.D., D.Sc. (Rostock), Ph.D. (West Indies), F.R.C.P., M.R.C.P.

Senior Scholar

Bruni, J., B.Sc. (Prince Edward Island), M.Sc., Ph.D. (Western Ontario); **Paterson**, J., M.Sc., Ph.D. (McGill).

Professors

Anderson, J., B.Sc. (Zoology) (British Columbia), B.Sc.(Med), Ph.D. (Manitoba); **Del Bigio**, M., M.D., Ph.D. (Manitoba), F.R.C.P.C.; **Kardami**, E., D.B. (Athens), Ph.D. (London); **Karim**, A., M.Sc., Ph.D. (McGill); **Klonisch**, T., M.D., Ph.D. (Giessen); **Li**, X.-M., MD, Ph.D. (China), F.R.C.P.C.; **Mai**, S., B.Sc., M.Sc., Ph.D. (Germany); **Scott**, J., B.Sc. (Brandon), M.Sc.; Ph.D. (Manitoba); **Thliveris**, J., B.A. (Colorado), M.S. (Utah), Ph.D. (Oregon); **Vriend**, J., B.A. (Calvin), M.Sc. (Alberta) Ph.D. (San Antonio).

Associate Professors

Bergen, H., B.Sc. (Winnipeg), Ph.D. (British Columbia); **Eisenstat**, D., M.D., M.A., F.R.C.P.C., F.A.A.P.; **Kong**, J., B.Sc. (Luzhou), M.Sc., Ph.D. (Guangzhou); **Krcek**, J., B.A., M.Sc. (Western Ontario), M.D., Ph.D. (Calgary), F.R.C.S.C.; **Lyons**, E., B.Sc., M.D., B.Sc.(Med.), F.R.C.P.C.; **Torchia**, M., M.Sc., Ph.D. (Manitoba); **Vrontakis-Lautatzis**, M., M.D., Ph.D. (Athens).

Assistant Professors

Frost, E., B.Sc.(Hons.), Ph.D. (Anglia Polytechnic); **Hombach-Klonisch**, S., M.D., Ph.D. (Giessen).

Adjunct Professors

Cheng, K., M.D. (China), M.Sc. (Manitoba); **Smith**, I., B.Sc.(Hons.), M.Sc. (Manitoba), Ph.D. (Cambridge).

Immunology

Professor Emeritus

Froese, A., B.Sc. (Western Ontario), Ph.D. (McGill).

Distinguished Professor Emeritus

Sehon, A., B.Sc., M.Sc., Ph.D., D.Sc. (Manchester).

Senior Scholar

Chow, D., B.Sc. (Toronto), Ph.D. (Manitoba).

Professors

Berczi, I., D.V.M. (Budapest), Ph.D. (Manitoba); **Gartner**, J., B.A., M.D., C.M. (McGill); **HayGlass**, K., B.Sc.(Hons.) (Queen's), Ph.D. (Western Ontario); **Moqbel**, R., B.Sc. (Baghdad), M.Sc., Ph.D. (London) F.R.C.Path.; **Nickerson**, P., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Simons**, F., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Warrington**, R., M.B., B.S. (London), Ph.D. (Memorial); **Wilkins**, J., B.Sc.(Hons.), M.Sc. (Waterloo), Ph.D. (Manitoba); **Yang**, X., M.D. (Shangdong), M.Sc. (Shanghai), Ph.D. (Manitoba).

Associate Professors

Gibson, S., B.Sc. (Carleton), Ph.D. (Toronto); **Marshall**, A., B.Sc.(Hons.) (Saskatchewan), Ph.D. (Toronto); **Peng**, Z., M.D., M.Sc. (Shanghai); **Soussi Gounni**, A., M.Sc., B.Sc. (Paul Sabatier), Ph.D. (Institut Pasteur);

Assistant Professors

Becker, A., M.D. (Manitoba), F.R.C.P.C.; **Berry**, J., B.Sc.(Hons.), Ph.D. (Manitoba); **El-Gabalawy**, H., B.Sc., M.D. (Calgary), F.R.C.P.C.; **Kalicsinsky**, C., B.Sc., M.D. (Manitoba); **Kung**, S., B.Sc., M.Sc. (Hong Kong), Ph.D. (Toronto); **Rastegar**, M., B.Sc. (Tehran); D.E.A., M.Sc., Ph.D. (Louvain); **Rempel**, J., B.Sc. (Calgary), Ph.D. (Manitoba); **Uzonna**, J., D.V.M. (Nigeria), Ph.D. (Saskatchewan).

Adjunct Professor

Babiuk, S., B.Sc., Ph.D. (Saskatchewan); **Jones**, S., B.Sc., Ph.D. (Plymouth).

Medical Education

Professors

Dodd, J., B.Sc., M.Sc., Ph.D. (Toronto); **Kirby**, D., B.Sc.(Hons.), D.Ed., Ph.D. (London), M.Ed. (Memorial); **Morris**, M., M.D. (Saskatchewan); **Shefchyk**, S., B.A.(Hons.) (Winnipeg), M.Sc., Ph.D. (Manitoba).

Associate Professors

Brothwell, D., D.M.D., B.Ed. (Saskatchewan), D.D.P.H., M.Sc. (Toronto); **Kristjanson**, C., B.P.E., Cert of Ed., M.A., Ph.D. (Manitoba); MacDonald, L., D.D.H., M.Ed. (Manitoba), B.Sc.D. (Toronto); **Plourde**, P., M.D. (Ottawa), F.R.C.P.C.

Assistant Professors

Hamilton, J., B.Hum.Ec (Manitoba) R.D., C.D.E.; **Schonwetter**, D., D.B.S. (Columbia Bible Institute), B.T. (Canadian Mennonite Bible College), B.A.(Hons.), M.A., Ph.D. (Manitoba); **Torchia**, M., M.Sc., Ph.D. (Manitoba).

Lecturer

MacDiarmid, A., B. Sc.(Hons.) (Queen's), M.D. (Manitoba), F.R.C.P.C.

Post Licensure Communication Skills Coordinator

Toews, I., B.Ed. (Alberta), B.A., M.S., Ph.D. (Indiana).

Senior Instructor

Sullivan, T., B.Sc., O.T. (Western Ontario), M.A. (Columbia).

Instructor II

Ford, M., B.E., M.Ed. (Manitoba).

Instructor I

Harris, H., A.R.C.T. (Toronto), B. Mus (Manitoba), B.A., B. Ed (Winnipeg), M. Ed. (Manitoba).

Medical Microbiology

Professor Emeritus

Ronald, A., O.C., M.D. (Manitoba), F.R.C.P.C., F.A.C.P.

Professors

Alfa, M., B.Sc., M.Sc. (New South Wales), Ph.D. (Alberta); **Aoki, F., M.D.** (Hons.) (Manitoba), F.R.C.P.C.; **Bow, E., B.A.** (Hons.), M.Sc. (McMaster), M.D. (Calgary), F.R.C.P.C.; **Butler-Jones, D., M.H.Sc., M.D.** (Toronto), C.C.F.P., F.R.C.P.C., F.A.C.P.M.; **Coombs, K., B.A.** (Genesio), Ph.D. (Texas); **Embree, J., B.Sc.** (New Brunswick), M.Sc., M.D. (Dalhousie), F.R.C.P.C.; **Hammond, G., B.Sc., M.D., C.M.** (McGill), F.R.C.P.C.; **Harding, G., B.Sc., M.D.** (Manitoba), F.R.C.P.C.; **HayGlass, K., B.Sc.** (Hons.), (Queen's), Ph.D. (Western Ontario); **Hoban, D., B.Sc., M.Sc., Ph.D.** (Manitoba); **Jackson, A., M.D.** (Queen's), F.R.C.P.C.; **Jay, F., B.Sc.** (McGill), M.Sc. (New Brunswick), Ph.D. (Liverpool); **Johnson, W., B.Sc.** (Hons.), Ph.D. (Alberta); **Klonisch, T., M.D., Ph.D.** (Giessen); **Light, R., B.A.** (Saskatchewan), M.D. (Alberta); **McClarty, G., B.Sc.** (Hons.), Ph.D.; **Moses, S., M.D.** (Toronto), M.P.H. (Johns Hopkins); **Nicolle, L., B.Sc., B.Sc.** (Med.), M.D. (Manitoba), F.R.C.P.C.; **Orr, P., M.D.** (Toronto), F.R.C.P.C.; **Peeling, R., B.Sc.** (Toronto), M.Sc., Ph.D. (Manitoba); **Plummer, F., M.D.** (Manitoba), F.R.C.P.C.; **Rubinstein, E., M.D.** (Basel); **Solbrig, M.,** (Albert Einstein College of Medicine); **Zhanel, G., B.Sc., Pharm.D.** (Minnesota), Ph.D. (Manitoba); **Yang, X., M.Sc.** (Shanghai), M.D. (Shandong), Ph.D. (Manitoba).

Associate Professors

Artsob, H., B.Sc., Ph.D. (McGill), M.Sc. (McDonald College); **Blanchard, J., B.Sc., M.D., M.P.H.** (Johns Hopkins); **Elliott, L., M.Sc., M.D.** (Manitoba); **Embil, J., B.Sc.** (Hons.), M.D. (Dalhousie), D.A.B.I.M., F.R.C.P.C.; **Fast, M., B.Sc.** (Med.), M.D. (Manitoba); **Feldmann, H., Ph.D., M.D., M.Sc.** (Giesen); **Fowke, K., B.Sc.** (Hons.), Ph.D. (Manitoba); **Kabani, A., M.B., Ch.B.** (Bristol), F.R.C.P.S., F.A.A.P., F.R.C.P.C.; **Karlowsky, J., B.Sc., Ph.D.** (Manitoba); **Krause, D., Ph.D., M.Sc.** (Illinois), B.Sc. (Stellenbosch); **Kumar, A., M.D.** (Toronto); **Manickam, K., B.Sc., M.Sc., Ph.D.** (Madras), F.C.C.M., D(ABMM), CIC; **Nagelkerke, N., M.Sc.** (Leiden), Ph.D. (Amsterdam); **Plourde, P., M.D.** (Ottawa); **VanCaesele, P., B.Sc., M.D.** (Manitoba), F.R.C.P.C.

Assistant Professors

Avery, L., B.Sc. (Hons.) (McGill), M.D. (Manitoba), M.I.H. (Copenhagen), F.R.C.S.C.; **Becker, M., B.A.** (Winnipeg), M.D. (Manitoba), F.R.C.P.C.; **Crockett, M., B.A., M.D.** (Queen's), M.P.H. (Johns Hopkins), F.R.C.P.C., F.A.A.P., DTM&H; **Dawood, M., B.Sc.** (Alexandria), M.Sc. (Egypt), Ph.D. (Purdue); **Gelmon, L., B.A., M.D.,** (Saskatchewan); **Gin, A., B.Sc.** (Manitoba), Pharm.D. (Buffalo); **Kasper, K., B.Sc., M.D.** (Manitoba), F.R.C.P.C.; **Kimani, J., M.B., Ch.B.** (Nairobi), M.P.H. (Washington); **Lo, E., M.D.** (Toronto); **Mburu, D., B.Vet.Med., M.Sc.** (Nairobi), Ph.D. (Newcastle); **Morris, C., B.Sc., M.D.** (British Columbia), M.Sc. (London), A.B.I.M.; **Mulvey, M., B.Sc., Ph.D.** (Manitoba); **Schweizer, F., Ph.D.** (Alberta); **Severini, A., M.D.** (Parma); **Skinner, S., B.Sc.** (Hons.), M.D. (Saskatchewan), F.R.C.P.C.; **Strong, J., B.Sc., Ph.D., M.D.** (Calgary); **Tipples, G., B.Sc.** (Hons.), Ph.D. (Manitoba); **Wylie, J., B.Sc., M.Sc.** (Ottawa), Ph.D. (Manitoba); **Yao, X., Ph.D.** (Montreal), M.Sc. (Beijing); **Zhong, W., B.E., Ph.D.** (China).

Lecturers

Niazi, W., M.D. (Minsk State Medical Institute); **Nowicki, D., B.Sc.** (Waterloo), M.Sc. (Western Ontario); **Parker, J., B.Sc.** (Calgary), R.T.; **Sharma, M., B.Sc., M.Sc., Ph.D.** (Punjab).

Adjunct Professors

Alimonti, J., B.Sc., Ph.D. (British Columbia); **Andonov, A., M.D.** (Leningrad), Ph.D. (Bulgaria); **Ball, T.B., B.Sc., M.Sc., Ph.D.** (Manitoba); **Bernard, K., M.Sc.** (McGill), B.Sc. (Windsor); **Berry, J., B.Sc.** (Hons.), Ph.D. (Manitoba); **Booth, S., Ph.D.** (Oxford), B.Sc. (London); **Booth, T., Ph.D.** (Thames Polytechnic), B.Sc. (Hons.) (Bath); **Cao, J., B.Sc.** (Beijing), M.Sc., Ph.D. (Surrey); **Carpenter, M., B.Sc.** (Hons.) (Queen's), Ph.D. (Manitoba); **Clark, C., Ph.D.** (Alberta), B.Sc., M.Sc. (Calgary); **Corbett, C., B.Sc., Ph.D.** (Calgary); **Drebot, M., B.Sc.** (Hons.), M.Sc., Ph.D. (Dalhousie); **Gilmour, M., B.Sc., Ph.D.** (Alberta); **Gruwel, M., Ph.D.** (Dalhousie); **He, R., M.D.** (Beijing),

Ph.D. (Dalhousie); **Jones, S., B.Sc.** (Hons.) (Bristol), M.Sc. (Simon Fraser), Ph.D. (Cambridge); **Jones, S., B.Sc.** (Hons.), Ph.D. (Plymouth); **Knox, D., B.Sc., Ph.D.** (Ottawa); **Kobasa, D., B.Sc., Ph.D.** (Alberta); **Kobinger, G., B.Sc.** (Laval), Ph.D. (Montreal); **Li, Y., B.Sc.** (Jilin), Ph.D. (Ottawa); **Nadon, C., B.Sc., M.Sc.** (Manitoba), Ph.D. (Cornell); **Ng, L., B.Sc., M.Sc., Ph.D.** (Alberta); **Osiowy, C., B.Sc., Ph.D., M.Sc.** (Calgary); **Saward, L., B.Sc.** (Hons.) (Guelph), Ph.D. (Manitoba); **Sharma, M., B.Sc., M.Sc.** (Punjab); **Ströher, U., Ph.D.** (Marburg); **Wagener, S., M.Sc., Ph.D.** (Konstanz); **Wang, G., M.D.** (Shandong), M.Sc. (Beijing); **Weingartl, H., R.N.Dr.** (Charles), M.Sc., Ph.D. (Guelph).

Medicine

Distinguished Professors

Anthonisen, N., A.B. (Dartmouth), M.D. (Harvard), Ph.D. (McGill); **Ronald, A., M.D.** (Manitoba), F.R.C.P.C., F.A.C.P.;

Professors Emeriti

Cuddy, T., M.D. (Manitoba), F.R.C.P.C., F.A.C.P.; **MacDonell, J., M.D.** (Manitoba), C.R.C.P.C., F.R.C.P.C.; **Ross, R., M.D.** (London), F.R.C.P.C., F.R.C.P.C.; **Thomson, A., B.A.** (Saskatchewan), M.D., M.Sc., F.R.C.P.C.; **Younes, M., Ph.D., M.B., Ch.B.** (Egypt), F.R.C.P.C.

Professors

Aoki, F., M.D. (Manitoba), F.R.C.P.C.; **Begleiter, A., B.Sc., M.B.A.** (Manitoba), M.Sc. (Massachusetts), Ph.D. (Alberta); **Bernstein, C., M.D.** (Manitoba), D.A.B.I.M., F.R.C.P.C.; **Bernstein, K., M.D.** (Manitoba), F.R.C.P.C.; **Bow, E., B.A., D.B.** (Toronto), M.D. (Calgary), F.R.C.P.C.; **Boustcha, E., B.A.** (Alberta), M.D., C.M. (McGill), F.R.C.P.C.; **Brandes, L., B.Sc., M.D.** (Windsor), F.R.C.P.C.; **Cowden, E., M.B., Ch.B.** (Comm), B.Sc. (Bio Comm) M.D. (Glasgow), F.R.C.P.C.; **Dhalival, D., M.B., Ch.B., M.D.** (Birmingham), F.R.C.P.C.; **El-Gabalawy, H., B.Sc., M.D.** (Calgary), F.R.C.P.C.; **A.M.B.D.; Fine, A., M.B., Ch.B.** (Hons.), B.A.O., M.D. (Dublin), F.R.C.P.C.; **Foerster, J., B.Sc.** (Med.), M.D. (Manitoba), F.R.C.P.C.; **Hammond, G., B.Sc., M.D., C.M.** (McGill), F.R.C.P.C., A.B.I.M.; **Jackson, A., B.A., M.D.** (Queen's), F.R.C.P.C.; **Harding, G., B.Sc.** (Med.), M.D. (Manitoba), F.R.C.P.C., A.B.I.M., F.A.C.P.; **Johnston, J., M.B., Ch.B., B.A.O.** (Dublin), F.R.C.P.C.; **Kaufman, B., B.Sc., M.D.** (Manitoba), F.R.C.P.C.; **Kepron, M., B.Sc.** (Med.), M.D. (Manitoba), F.R.C.P.C.; **Kryger, M., B.Sc., M.D.** (McGill), F.R.C.P.C.; **Leslie, W., B.Sc.** (Dbl. Hons.), M.Sc. (Comp Sci) M.D. (Manitoba), F.R.C.P.C. (Int Med), F.R.C.P.C. (Nuc Med); **Light, B., B.A.** (Saskatchewan), M.D. (Calgary), F.R.C.P.C.; **MacDougall, B., B.Sc., M.D.** (Manitoba), F.R.C.P.C.; **Maksymiuk, A., M.D.** (Saskatchewan), F.R.C.P.C. (Int Med), A.B.I.M. (Int Med), A.B.I.M. (Onc), R.C.P.S.C.; **Mink, S., B.Sc., M.D.** (Pennsylvania); **Minuk, G., M.D.** (Manitoba), F.R.C.P.C.; **Morris, A., B.C.E.** (Cornell), M.D. (Einstein); **Naimark, A., B.Sc.** (Med.), M.D. (Manitoba), M.Sc.M., L.L.D., F.R.C.P.C., F.R.S.C.; **Nicolle, L., B.Sc., B.Sc.** (Med.), M.D. (Manitoba), F.R.C.P.C., C.S.P.C.; **Morris, A., B.C.E.** (Cornell), M.D. (Einstein); **Moses, S., M.D.** (Toronto), M.P.H. (Johns Hopkins); **Kumar, R., M.B., B.S., M.D.** (Maulana Azad), F.R.C.P. (London); **Nickerson, P., B.Sc.** (Med.), M.D. (Manitoba), F.R.C.P.C. (Alexandria), D.O. (London), F.R.C.S.C.; **Mathen**, K., M.B., B.S., B.A.O. (Dublin), F.R.C.S.C.; **Mis**, A., B.Sc.(Med.), M.D. (Manitoba), F.R.C.S.C.; **Nigam**, R., B.Sc.(Med.), M.D. (Manitoba), F.R.C.S.C.; **Rehsia**, D., M.B., B.S. (India), D.A.B.,

F.R.C.S.C.; **Rocha**, G., M.D. (Mexico), F.R.C.S.C.; **Roy**, M., B.Sc.(Med.), M.D. (Manitoba), F.R.C.S.C.; **Sanders**, R., M.D. (Manitoba), F.R.C.S.C.; **Stockl**, F., M.D. (Manitoba), F.R.C.P.C.; **Wiens**, J., M.D. (Saskatchewan) F.R.C.S.C.

Lecturers

Dookeran, R., M.D. (Manitoba), F.R.C.S.C.; **Manusow**, D., M.D. (Manitoba), D.A.B.O., F.R.C.S.C.; **Rahman**, J., B.Sc.H., M.D. (Manitoba), F.R.C.S.C.; **Rao**, K., M.D. (Saskatchewan), F.R.C.S.C.; **van der Zweep**, J., B.Sc.M.E., M.D. (Manitoba) F.R.C.S.C.

Otolaryngology

Professors

Blakley, B., M.D. (Saskatchewan), Ph.D. (Manitoba), F.R.C.S.C.

Associate Professors

Brodovsky, D., M.D. (Manitoba), F.R.C.S.C.; **Kerr**, P., B.Sc.(Med.), M.D. (Manitoba), F.R.C.S.C.; **Mina**, M., M.B., Ch.B. (Alexandria), F.R.C.S.C.

Assistant Professors

Barker, M., M.D. (Manitoba), F.R.C.S.C.; **Chan**, L., M.D. (Manitoba), F.R.C.S.C.; **DuVal**, L., M.D. (Manitoba), F.R.C.S.C.; **Fishman**, L., M.D. (Manitoba), F.R.C.S.C.; **Frohlich**, A., M.D. (Manitoba), F.R.C.S.C.; **Gall**, R., M.D. (Manitoba), F.R.C.S.C.; **Garber**, L., M.D. (Manitoba), F.R.C.S.C.; **Leitao**, D., M.D. (Saskatchewan), F.R.C.S.C.; **Levin**, H., M.D. (Manitoba), F.R.C.S.C.; **Osler**, F., M.D. (Manitoba), F.R.C.S.C.; **Stillwater**, R., M.D. (Manitoba), F.R.C.S.C.; **Sutherland**, D., M.D. (Manitoba), F.R.C.S.C.; **Viallet**, N., M.D. (Manitoba), F.R.C.S.C.

Lecturers

Anid, G., B.M. (Edinburgh), F.R.C.S.C.; **Varma**, A., M.B., Ch.B. (Glasgow), F.R.C.S.C.

Pathology

Professors Emeriti

Adamson, I., B.Sc., Ph.D. (Glasgow); **Bowden**, D., M.B., Ch.B., M.D. (Bristol), F.R.C.P., F.R.C.P.C.; **Carr**, I., M.B., Ch.B., Ph.D. (Glasgow), M.D. (Sheffield), F.R.C.P., F.R.C.P.C.

Professors

Choy, P., B.Sc.(McGill), M.Sc., Ph.D. (North Dakota); **Del Bigio**, M., M.D., Ph.D. (Manitoba), F.R.C.P.C.; **Gartner**, J., M.D. C.M. (McGill), F.R.C.P.C., D.A.B.; **Quinonez**, G., M.D. (El Salvador), M.Sc. (Ohio State), F.R.C.P.C.; **Pettigrew**, N., M.B., Ch.B. (Glasgow), F.R.C.P.; **Ravinsky**, E., B.Sc., M.D., C.M. (McGill), D.A.B., F.R.C.P.C.; **Shojania**, A., M.D. (Tehran); **Watson**, P., B.A., M.A., M.B., Ch.B. (Cambridge), F.R.C.P.C.

Associate Professors

Baker, P., B.Sc., B.M.R.(P.T.), M.D. (Manitoba), F.R.C.P.C.; **Balachandra**, T., M.B., B.S. (Ceylon), F.R.C.P.C., F.A.C.P., D.A.B.; **Gibson**, I., B.Sc., M.B., Ch.B. (Glasgow), F.R.C.P.; **Littman**, C., M.B., Ch.B. (Glasgow), F.R.C.P.C.; **Morales**, C., M.D. (Madrid), M.Sc. (Manitoba), F.R.C.P.C.; **Myal**, Y., B.Sc., M.Sc., Ph.D. (Manitoba); **Williams**, G., B.Sc., D.P. (Sussex), M.D. (Manitoba), F.R.C.P.C.

Assistant Professors

Ahing, S., B.Sc. (Sir George Williams), D.D.S. (McGill), M.S.D. (Indiana); **Ahsanuddin**, A., B.Sc., M.D., M.M.S. (Brown); **Aljada**, I., M.B., B.S. (Jordan), F.R.C.P.C.; **Alomari**, M., M.D. (Jordan); **Buksak**, R., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Curtis**, M., B.Sc. Demonstrator

Cross, H., B.Sc., M.D., M.Sc. (Manitoba).

Pharmacology and Therapeutics

Senior Scholar

Weisman, H., B.Sc., M.Sc., Ph.D. (Manitoba).

Professors

Aoki, F., M.D. (Manitoba), F.R.C.P.C.; **Bose, R.**, B.Sc. (Vikram), Ph.D. (Manitoba); **Burczynski, F.**, B.Sc., M.Sc., Ph.D. (Manitoba); **Fernyhough, P.**, B.Sc.(Essex), Ph.D. (Sheffield); **Glavin, G.**, Ph.D. (Manitoba); **Hatch, G.**, B.Sc. (Winnipeg), M.Sc. (Saskatchewan), Ph.D. (Manitoba); **LaBella, F.**, B.A., M.A. (Wesleyan), Ph.D. (Emory); **Lautt, W.**, M.Sc., Ph.D. (Manitoba); **McNicol, A.**, B.Sc., Ph.D. (Glasgow); **Mink, S.**, B.Sc., (Albright College), M.D. (Temple); **Parkinson, F.**, B.Sc., Ph.D. (Alberta); **Peeling, J.**, B.Sc.(Hons.), Ph.D. (Manitoba); **Li, X.**, M.D., Ph.D. (China); **Penner, S.**, M.D., Ph.D. (Manitoba); **Sitar, D.**, B.Sc., M.Sc., Ph.D. (Manitoba); **Smyth, D.**, B.Sc.(Hons.), Ph.D. (Manitoba); **Tenenbein, M.**, M.D. (Manitoba), F.R.C.P.C.

Associate Professors

Ariano, R., B.Sc., Pharm.D. (Minneapolis); **Glazner**, G., B.Sc. (Southern Colorado), Ph.D. (Colorado State); **Kumar**, A., M.D. (Toronto); **Miller**, D., B.Sc. (Bethel College), M.Sc., Ph.D. (Kansas).

Assistant Professors

Albensi, B., B.Sc.(Oregon), M.A. (Sonoma State), Ph.D. (Utah); **Anderson**, C., B.Sc. (British Columbia), M.Sc., Ph.D. (Manitoba); **Anderson**, H., B.Sc., Ph.D. (Manitoba); **Bras**, A., B.Sc., M.Sc., Ph.D. (Manitoba); **Forté**, P., M.D. (Venezuela), M.Sc. (Aberdeen), Ph.D. (London); **Martin**, M., B.Sc.(Hons.) (Manitoba), M.S., M. Phil., Ph.D. (Yale).

Lecturers

Oleschuk, C., B.Sc., M.Sc., Ph.D. (Manitoba).

Adjunct Professors

Kirshenbaum, L., B.Sc., M.Sc., Ph.D. (Manitoba); **Minuk**, G., M.D. (Manitoba), F.R.C.P.C.

Physiology

Distinguished Professor

Dhalla, N., B.Sc. (Punjab), M.Sc. (Pennsylvania), Ph.D. (Pittsburgh).

Professors Emeriti

Friesen, H., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C., F.R.S.C.

Professors

Cattini, P., B.Sc., Ph.D. (London); **Dixon**, I., B.Sc.(Hons.), M.Sc., Ph.D. (Manitoba); **Dodd**, J., B.Sc., M.Sc., Ph.D. (Toronto); **Gardiner**, P., B.P.H.E., M.P.E., Ph.D. (Alberta); **Hryshko**, L., B.Sc., Ph.D. (Manitoba); **Hughes**, K., B.A., M.A. (Manitoba), Ph.D. (Chicago); **Jordan**, L., B.A., M.A., Ph.D. (Texas); **Kardami**, E., Ph.D. (London); **Kirshenbaum**, L., B.Sc., M.Sc., Ph.D. (Manitoba); **Kroeger**, E., M.Sc., B.Sc. (Wheaton College), Ph.D. (Manitoba); **Mai**, S., Ph.D. (Germany); **McCrea**, D., B.Sc., Ph.D. (Manitoba); **Mowat**, M., B.Sc. (York), Ph.D. (Alberta); **Nagy**, J., B.Sc., Ph.D. (British Columbia); **Naimark**, A., O.C., M.D. (Manitoba), B.Sc.(Med.), LL.D., F.R.C.P.C., F.R.S.C.; **Pierce**, G., B.P.H.E. (Lakehead), M.Sc. (Dalhousie), Ph.D. (Manitoba); **Shefchyk**, S., B.S., M.S., Ph.D. (Manitoba); **Shiu**, R., B.Sc., M.Sc., Ph.D. (McGill); **Singal**, P., B.Sc., M.Sc. (India), Ph.D. (Alberta); **Stephens**, N., B.Sc., M.B., M.D. (Lucknow), F.R.C.P. (London), D.Sc. (Punjab); **Zahradka**, P., B.Sc.(Hons.), Ph.D. (Western Ontario).

Associate Professors

Duckworth, M., B.Sc.(Hons.), M.Sc., Ph.D. (Manitoba); **Fedirchuk**, B., B.Sc.(Hons.), M.Sc., Ph.D. (Manitoba); **Halayko**, A., B.Sc., Ph.D. (Manitoba); **Hicks**, G., B.Sc., M.Sc., Ph.D. (Manitoba); **Myal**, Y., B.Sc., M.Sc., Ph.D. (Manitoba); **O., K.**, M.Sc., Ph.D. (Manitoba).

Assistant Professors

Czubryt, M., B.Sc., Ph.D. (Manitoba); **Mizuno**, T., B.S., M.S., Ph.D. (Japan); **Xie**, J., Ph.D. (Peking Union Medical College).

Adjunct Professors

Arora, R., B.A. (Western Ontario), M.D. (Toronto), Ph.D. (Dalhousie); **Bshouty**, Z., M.D. (Israel), Ph.D. (Manitoba); **Dakshinamurti**, S., B.Sc., M.Sc., M.D. (Manitoba); **Deslauriers**, R., B.Sc. (Laval), Ph.D. (Ottawa); **Fernyhough**, P., Ph.D. (Sheffield); **Freed**, D., M.D., Ph.D. (Manitoba); **Gilchrist**, J., B.Sc., M.Sc., Ph.D. (British Columbia); **Giles**, L., R.N., M.D. (Western Ontario); **Jassal**, D., B.Sc., M.D. (Manitoba); **Kreillaars**, D., Ph.D. (Manitoba), M.Sc. (Dalhousie), Ph.D. (Manitoba); **Malisza**, K., B.Sc., Ph.D. (McMaster); **McGavock**, J., M.A. (McGill), Ph.D. (Alberta); **Mesaeli**, N., B.Sc., M.Sc. (Kuwait) Ph.D. (Manitoba); **Netticadan**, T., B.Sc., M.Sc., Ph.D. (Bombay); **Nyomba**, G., M.D. (National University of Zaire), Ph.D. (Leuven); **Porter**, M., B.P.H.E. (Laurentian), M.Sc. (Toronto), Ph.D. (Western Ontario); **Schmidt**, B., B.Sc.(Med.), M.D. (Manitoba); **Shen**, X., M.Sc. (Shanghai), M.D./Ph.D. (Shanghai); **Siow**, C., B.Sc.(Hons.), Ph.D. (Manitoba); **Tian**, G., M.D., M.Sc. (China), Ph.D. (Ottawa).

Psychiatry

Professors

Barakat, S., M.B., Ch.B. (Cairo), F.R.C.P.C.; **Bebchuk**, W., M.D. (Manitoba), F.R.C.P.C.; **Chochinov**, H., M.D. (Manitoba), F.R.C.P.C.; **Cox**, B., B.A.(Hons.) (Winnipeg), M.A., Ph.D. (York); **Enns**, M., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Fleisher**, W., M.D. (Manitoba), F.R.C.P.C.; **Katz**, P., M.D. (Manitoba), F.R.C.P.C.; **Li**, X.-M., M.D., Ph.D. (Norman Bethune); **Prosen**, H., M.D. (Manitoba), F.R.C.P.C.; **Stein**, M., M.D. (Manitoba), F.R.C.P.C.

Associate Professors

Altman, G., M.D. (Manitoba), F.R.C.P.C.; **Calhoun**, L., B.A., M.D. (Alberta), F.R.C.P.C.; **Campbell**, B., M.D. (Manitoba), F.R.C.P.C.; **Choptiany**, T., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Downs**, C., M.D. (Manitoba), F.R.C.P.C.; **Ducas**, D., B.Sc., M.D. (McGill), F.R.C.P.C.; **Eleff**, M., B.A., M.D. (Manitoba), F.R.C.P.C.; **Etkin**, M., B.A., M.D. (Manitoba), F.R.C.P.C.; **Gill**, D., B.A., M.A., Ph.D. (Manitoba); **Gill**, E., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Globerman**, D., M.D. (Manitoba), F.R.C.P.C.; **Hildahl**, K., B.A., M.D. (Manitoba), F.R.C.P.C.; **Katz**, L., M.D. (Manitoba), F.R.C.P.C.; **Lander**, M., B.Sc. Assistant Professors

Anderson, S., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Andrew**, H., M.D. (Manitoba), D.P., F.R.C.P.C.; **Astorga**, M., M.D. (Santo Tomas), F.R.C.P.C.; **Balachandra**, B., M.B., B.S. (Ceylon), F.R.C.P.C.; **Ballegeer**, T., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Barchet**, P., M.D. (Manitoba), F.R.C.P.C.; **Bolton**, J., B.Sc. (McGill), M.D. (Western Ontario), F.R.C.P.C.; **Boman**, J., B.Sc. (Alberta), M.D. (Manitoba), F.R.C.P.C.; **Bristow**, K., M.D. (Calgary), F.R.C.P.C.; **Campbell**, D., B.A.(Hons.) (Saskatchewan), M.A., Ph.D. (Manitoba); **Coodin**, S., M.D. (Manitoba), F.R.C.P.C.; **de Rocquigny**, A., B.A., M.D. (Manitoba), F.R.C.P.C.; **Edye**, F., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Enyingi**, J., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Fotti**, S., B.Sc.(Biol.) (Winnipeg), M.D. (Manitoba), F.R.C.P.C.; **Gallagher**, K., M.D. (Saskatchewan), F.R.C.P.C.; **Gonzalez-Pino**, F., M.D. (El Salvador), F.R.C.P.C.; **Goossen**, R., M.D. (Manitoba), C.C.F.P., F.R.C.P.C.; **Gordon**, E., B.A., M.S.W. (Manitoba); **Graham**, R., M.D. (Manitoba), F.R.C.P.C.; **Hershberg**, D., B.A., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Hynes**, A., M.B., Ch.B., B.A.O. (Dublin), C.C.F.P., F.R.C.P.C.; **Ingram**, P., M.D. (Manitoba), F.R.C.P.C.; **Jocelyn**, L., M.D. (Manitoba), F.R.C.P.C.; **Karvelas**, L., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Kettler**, J., M.D. (Manitoba), F.R.C.P.C.; **Kettner**, A., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Kirschner**, A., B.Sc. (Winnipeg), B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Klaponksi**, S., M.D. (Belgrade), F.R.C.P.C.; **Koltek**, M., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Koodoo**, S., B.Sc. (Winnipeg), M.D. (Manitoba), F.R.C.P.C.; **Lander**, D., B.Sc. (Winnipeg), M.D. (Manitoba), F.R.C.P.C.; **Lee**, L., M.D. (Manitoba), F.R.C.P.C.; **Levin**, G., M.D. (Brazil), F.R.C.P.C.; **Ludwig**, L., M.D. (Manitoba), F.R.C.P.C.; **MacKay**, M., M.D. (Saskatchewan), F.R.C.P.C.; **Malchy**, B., M.D. (Manitoba), F.R.C.P.C.; **Moody**, J., M.D. (Manitoba), F.R.C.P.C.; **Muhamedajic**, T., M.D. (Sarajevo), F.R.C.P.C.; **O'Keefe**, K., M.D. (Saskatchewan), F.R.C.P.C.; **Omelan**, C., M.D. (Manitoba), F.R.C.P.C.; **Partap**, N., B.Sc. (Winnipeg), M.D. (Manitoba), F.R.C.P.C.; **Penner**, L., M.D. (Manitoba), F.R.C.P.C.; **Posner**, C., B.A., M.S.W. (Manitoba); **Prasad**, B., B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Rolls**, R., M.D. (Manitoba), F.R.C.P.C.; **Rosenthal**, P., M.D., C.M. (McGill), F.R.C.P.C.; **Sala**, T., M.D. (Manitoba), F.R.C.P.C.; **Sam**, D., B.Sc.(Pharm), M.D. (Manitoba), F.R.C.P.C.; **Sawyer**, J., M.D. (Manitoba), F.R.C.P.C.; **Schachter**, M., B.A., M.D. (Manitoba), F.R.C.P.C.; **Schwartz**, L., M.D. (Manitoba), F.R.C.P.C.; **Siemens**, J., M.D. (Manitoba), F.R.C.P.C.; **Skinner**, J., M.D. (Manitoba), F.R.C.P.C.; **Steinberg**, R., M.D. (Manitoba), F.R.C.P.C.; **Sutherland**, K., M.D. (Manitoba), F.R.C.P.C.; **Szelazek**, J., B.Sc. (Winnipeg), M.D. (Manitoba), F.R.C.P.C.; **Tomchuk**, E., M.D. (Manitoba), F.R.C.P.C.; **Trepel**, S., B.Sc.(Zoology/Chem.), M.D. (Manitoba), F.R.C.P.C.; **Vattheuer**, F., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **Wakeman**, S., M.D. (Manitoba), F.R.C.P.C.; **Waldman**, J., B.A. (Winnipeg), M.D. (Queen's), F.R.C.P.C.; **Wilkie**, C., M.D. (Manitoba), F.R.C.P.C.

Lecturer

Ellerby, L., B.A., M.A., Ph.D. (Manitoba).

Radiology

Professors

Butler, J., M.D., C.M. (McGill), F.R.C.P.C.; **Gordon**, R., B.S. (Chicago), Ph.D. (Oregon); **Leslie**, W., B.Sc., M.Sc., M.D. (Manitoba), F.R.C.P.C.; **Levi**, C., B.Sc., M.D. (Manitoba), F.R.C.P.; **Lyons**, E., B.Sc., B.Sc.(Med.), M.D. (Manitoba), F.R.C.P.C.; **McClarty**, B., M.D. (Manitoba), F.R.C.P.C.;

Peeling, W., B.Sc., Ph.D. (Manitoba); **Reed, M.**, B.Sc., M.D. (Manitoba); **Sutherland, J.**, B.Sc., M.Sc., M.D. (Manitoba), F.R.C.P.C.

Associate Professors

Bolinger, L., B.S., Ph.D. (Pennsylvania); **Boult, I.**, M.D. (Manitoba), F.R.C.P.C.; **Cooke, A.**, M.D. (Manitoba), F.R.C.P.C.; **Davidson, M.**, B.Sc., M.D. (Manitoba); **Demeter, S.**, B.Sc. (Saskatchewan), F.R.C.P.C., A.B.P.M.; **Gordon, W.**, B.Sc., M.D. (Manitoba); **Greenberg, H.**, B.A., M.D. (Manitoba), F.R.C.P.C.; **Greenberg, I.**, B.Sc., M.D., C.M. (McGill); **Jones, K.**, M.B., Ch.B. (Wales), F.R.C.S., F.R.C.R.; **Kirkpatrick, I.**, B.Sc., M.D. (Manitoba), F.R.C.P.; **Kroeker, M.**, M.D. (Manitoba); **Lautatzis, M.**, M.D. (Italy), D.M.R.D. (Modena); **Major, P.**, M.D. (Manitoba), F.R.C.P.C.; **Maycher, B.**, M.D. (Manitoba), F.R.C.P.C.; **Peterdy, A.**, M.D. (Manitoba); **Pistorius, S.**, B.Sc., Ph.D. (South Africa), M.Sc. (Stellenbosch); **Sathya, J.**, M.B., D.R.M. (India), R.C.C.P.C., F.R.C.R. (U.K.); **Smith, I.**, B.Sc. (Hons.), M.Sc. (Manitoba), Ph.D. (Cambridge).

Assistant Professors

Ahmed, N., F.Sc., M.B., B.S. (Pakistan), F.M.G.N.S., F.R.C.P.C.; **Ahmed, S.**, F.Sc., M.B., B.S. (Pakistan), V.Q.E., F.R.C.P.C.; **Akra, M.**, M.D. (Lybia), F.R.C.P.C.; **Bews, J.**, M.Sc., B.Sc., M.D., Ph.D. (Manitoba); **Bock, H.**, M.D. (Manitoba); **Butler, J.**, M.D., C.M. (McGill), F.R.C.P.C.; **Bybel, B.**, M.D. (Manitoba), F.R.C.P.C.; **Chowdhury, A.**, M.D., M.B., B.S. (New Delhi), F.F.R.C.S.I.; **Dashefsky, S.**, M.D. (Manitoba), F.R.C.P.; **Dupont, J.**, M.D. (Manitoba); **Elbakri, I.**, B.S., M.S. (Utah), Ph.D. (Michigan); **Fife, I.**, B.Sc. (Hons.), M.Sc., Ph.D. (London); **Goertzen, A.**, B.Sc. (Hons.) (Manitoba), B.S., Ph.D. (California); **Hardy, B.**, B.Sc., M.D. (Manitoba), F.R.C.P.; **Holt, S.**, M.D. (Manitoba), F.R.C.P.; **Iancu-Gontard, D.**, M.D. (Romania); **Karlicki, F.**, M.D. (Manitoba), F.R.C.P.; **Levin, D.**, M.D. (Manitoba), F.R.C.P.C.; **Lindsay, D.**, M.D. (Manitoba), F.R.C.P.C.; **Lindquist, L.**, M.D. (Manitoba), Ph.D. (China); **Lui, J.**, M.Sc. (West China), Ph.D. (Australia), M.D. (China); **Mangera, K.**, B.Sc. (Kenya), M.Sc., Ph.D. (Belgium); **Marantz, J.**, M.D. (Manitoba), F.R.C.P.; **McCurdy, B.**, B.Sc. (Waterloo), M.Sc., Ph.D. (Manitoba); **McGinn, G.**, M.D. (Manitoba); **Menard, S.**, M.D. (Manitoba), F.R.C.P.C.; **Meyers, M.**, M.D. (Manitoba), F.R.C.P.C.; **Pierce, G.**, B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Rickey, D.**, B.Sc. (Manitoba), Ph.D. (Western Ontario); **Rigby, M.**, M.D. (Manitoba), F.R.C.P.C.; **Rusnak, B.**, B.Sc. (Med.), M.D. (Manitoba), F.R.C.P.C.; **Stern, S.**, B.Sc., M.D. (Manitoba); **Szweda, R.**, M.Sc., Ph.D. (Poland); **Sutherland, I.**, M.D. (Manitoba), F.R.C.P.C.; **Vigars, D.**, Ph.D. (Liverpool); **Wilson, M.**, M.D. (Manitoba), F.R.C.P.C.

Lecturers

Bay, T., M.D. (Manitoba); **Berndt, A.**, B.Sc., Ph.D. (Manitoba); **Buist, R.**, Ph.D. (McMaster); **Bunge, M.**, B.Sc., M.B., Ch.B. (South Africa), F.R.C.P.; **Camorlinga, S.**, M.Sc. (Nebraska), B.Sc. (Monterey Inst of Tech, Mexico); **Eaglesham, H.**, B.Sc., M.D. (Saskatchewan); **Hacene, S.**, M.S. (Setif), B.S., M.S., Ph.D. (France); **Henderson, B.**, B.Sc., M.D. (Manitoba), F.R.C.P.; **Higgins, R.**, M.D. (Manitoba), F.R.C.P.; **Kulbisky, G.**, B.Sc. (Manitoba), F.R.C.P.C.; **Lam, W.**, B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Lawrence, P.**, B.Sc., M.D. (Manitoba); **Lewis, J.**, B.Sc. (Chicago), Ph.D. (New Brunswick); **Leylek, A.**, M.D. (Istanbul), F.R.C.P.C.; **Lindquist, L.**, M.D. (Manitoba), F.R.C.P.C.; **Mandelzweig, Y.**, M.Sc., Ph.D. (Moscow); **Martens, D.**, M.D. (Saskatchewan), F.R.C.P.C.; **Paquin, R.**, M.D. (Manitoba); **Mzengeza, S.**, B.Sc., M.Sc. (U.K.), Ph.D. (Queens); **Preachuk, C.**, M.D. (Manitoba), F.R.C.P.C.; **Ryner, L.**, B.Sc., M.Sc. (McGill), Ph.D. (Wisconsin); **Sawka, S.**, M.D. (Manitoba); **Schroeder, G.**, M.D. (Manitoba), F.R.C.P.C.; **Shatsky, M.**, B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Sookhoo, S.**, M.B., B.S. (Jamaica), M.R.C.S. (Scotland), F.R.C.R. (England); **Stoski, R.**, B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Strzelczyk, J.**, M.D. (Toronto), F.R.C.P., **Tsuyuki, S.**, M.D. (Manitoba), F.R.C.P.C.; **Van Amstel, L.**, M.D. (Dalhousie), F.R.C.P.C.; **Venkataraman, S.**, B.Sc., M.Sc., Ph.D. (India); **Vijayaraghavan, K.**, M.B., B.S. (Madras); **Wrogemann, J.**, B.Sc., M.D. (Manitoba), F.R.C.P.C.; **Yeo, L.**, B.Sc. (Manitoba), F.R.C.P.C.; **Yergens, D.**, B.Sc. (Calgary).

Surgery

Professors Emeriti

Barwinsky, J., M.D. (Manitoba), F.R.C.S.C., F.A.C.S., F.A.C.C.P., D.A.B.S., D.A.B.T.S., F.A.C.C., F.R.S.M.; **Blanchard, R.**, B.Sc. (Med.), M.D. (Manitoba), M.Sc. (Surg.) (Minnesota), F.R.C.S.C., F.A.C.S.; **Downs, A.**, M.D., (Manitoba), F.R.C.S.C., F.A.C.S.; **Riese, K.**, M.D. (Manitoba), F.R.C.S.C., F.A.C.S.; **Stranc, M.**, M.D. (Dublin), F.R.C.S., F.R.C.P.I., F.A.C.S., F.R.C.S.C.

Professors

Black, G., B.Sc., M.D. (Dalhousie), F.R.C.S.C.; **Cristante, L.**, M.D., Ph.D. (Giessen); **Danzinger, R.**, B.Sc., M.D. (Manitoba), F.R.C.S.C., F.A.C.S.; **Hosking, D.**, M.D., M.B., Ch.B. (Capetown), F.R.C.S., F.R.C.S.C., F.A.C.S.; **Kirkpatrick, J.**, M.B., Ch.B., (Edinburgh), F.R.C.S., F.R.C.S.C., F.A.C.S.;

MacDonald, P., B.Sc. (Med.), M.D. (Manitoba), F.R.C.S.C.; **Menkis, A.**, D.D.S. (Toronto), M.D. (McMaster), F.A.C.S., F.R.C.S.C.; **Nason, R.**, B.Sc. (Acadia), M.D. (Dalhousie), M.Sc. (Alberta), F.R.C.S.C.; **Oppenheimer, L.**, M.D., Ph.D. (Barcelona), F.R.C.S.C.; **Postuma, R.**, B.Sc. (Med.), M.D. (Manitoba), F.R.C.S.C., F.A.C.S.; **Rennie, W.**, B.Sc., M.D. (Manitoba), F.R.C.S.C.; **Saadia, R.**, M.D. (Grenoble), F.R.C.S.; **Unruh, H.**, M.D. (Manitoba), F.R.C.S.C.; **West, M.**, B.Sc. (Med.), M.D., Ph.D. (Manitoba), F.R.C.S.C.

Associate Professors

Abdoh, A., M.B., Ch.B. (Cairo), Ph.D. (New Orleans); **Boyd, A.**, Ph.D., M.D. (Toronto), F.R.C.S.C.; **Buchel, E.**, B.Sc., B.Sc. (Med.), M.D. (Manitoba), A.B.S., A.B.P.S.; **Dolynchuk, K.**, B.Sc., M.D., Ph.D. (Manitoba), F.R.C.S.C., F.A.C.S.; **Duerksen, F.**, M.D. (Argentina), F.R.C.S.C.; **Fewer, H.**, B.Sc. (Loyola), M.D., C.M. (McGill), F.R.C.S.C.; **Gray, P.**, B.Sc., M.D. (Manitoba), F.R.C.S.C.; **Guzman, R.**, M.D. (Manitoba), F.R.C.S.C., F.A.C.S.; **Hancock, B.**, B.Sc., M.D., M.Sc. (Manitoba), F.R.C.S.C., F.A.C.S.; **Kassum, D.**, B.A., M.B., Ch.B., M.A. (Cambridge), F.R.C.S.C., F.R.C.S.; **Kaufmann, A.**, B.Sc. (Med.), M.D., M.Sc. (Manitoba), F.R.C.S.C.; **Khan, T.**, M.B., B.S. M.Sc. (East Pakistan), F.R.C.S., F.R.C.S.C., F.A.C.S.; **Latosinsky, S.**, B.E.Sc. (Western Ontario), M.D. (Toronto), F.R.C.S.C.; **Lipschitz, J.**, M.B., Ch.B. (Witwatersand), R.C.S., F.C.S., F.R.C.P.C.; **Logsetty, S.**, B.Sc. (Med.); M.D. (Alberta); F.R.C.S.C.; F.A.C.S.; **MacMahon, R.**, M.D., Ch.B., B.A.O. (Ireland), F.R.C.S., F.R.C.S.C.; **Monson, R.**, M.D. (Manitoba), F.R.C.S.C.; **Murray, K.**, B.A., M.D. (Dalhousie), F.R.C.S.C.; **Pascoe, E.**, M.D. (Manitoba), F.R.C.S.C.; **Pathak, A.**, M.S. (Surg); Dip. Nat. Bd., F.R.C.S. (Glasgow), F.R.C.S. (Edinburgh), M.N.A.M.S.; **Sigurdson, L.**, M.D. (Queen's), M.Sc. (Dalhousie), M.B.A. (St. Mary's), F.R.C.S.C.; **Tan, L.**, B.Sc. (Dalhousie), M.D., C.M. (McGill), F.R.C.S.C.; **Thorlakson, T.**, M.D. (Manitoba), F.R.C.S., F.R.C.S.C., F.A.C.S.; **Torchia, M.**, M.Sc., Ph.D. (Manitoba), M.C.I.C., M.A.C.S.; **Vajcner, A.**, M.D. (Manitoba), F.R.C.S.C., F.A.C.S.; **Warrian, K.**, B.Sc. (Med.), M.D. (Manitoba), F.R.C.S.C.; **Wirtzfeld, D.**, M.D. (Alberta), F.R.C.S.C., F.A.C.S.; **Wiseman, N.**, B.Sc. (Med.), M.D. (Manitoba), F.R.C.S.C., F.A.C.S.; **Yaffe, C.**, M.D. (Manitoba), F.R.C.S.C.

Assistant Professors

Andrew, C., B.Sc., M.D. (Manitoba), F.R.C.S.C.; **Arora, R.**, B.A. (Western Ontario), M.D. (Toronto), Ph.D. (Dalhousie), F.R.C.S.C.; **Assuras, G.**, M.D. (Toronto), F.R.C.S.C.; **Bard, R.**, B.Sc., M.D. (Manitoba), F.R.C.S.C.; **Barron, L.**, M.D. (Saskatchewan), F.R.C.S.C.; **Bartlett, L.**, M.D. (Western Ontario), F.R.C.S.C.; **Berrington, N.**, M.B., Ch.B. Dean: Dean Sandham

Associate Dean (Postgraduate Medical Education): Ira Ripstein

Administrator, Postgraduate Medical Education: Laura Kryger

Postgraduate medical education (PGME) at the University of Manitoba is comprised of a variety of training programs. Programs are usually organized to be in one of three categories:

- Programs accredited by the Royal College of Physicians and Surgeons of Canada (RCPSC).
- Programs accredited by the College of Family Physicians of Canada (CFPC).
- Other training and fellowship programs approved by the Faculty of Medicine.

Programs in the first two categories are most likely to be recognized towards obtaining a license to practice medicine. The RCPSC and CFPC provide accreditation for the training program content and evaluative processes. After the successful completion of their training, candidates are eligible to challenge the appropriate national specialty exams for their particular programs. The complete listing of these programs follows in this section under the heading Description of Programs. The specific and detailed national requirements for individual programs may be obtained from the Postgraduate Medical Education Office.

The University of Manitoba is accredited every six years by the RCPSC and the CFPC to administer the training programs, and supports all training programs in a variety of ways.

Several hospitals and healthcare facilities in Winnipeg and rural areas outside of Winnipeg are used as training sites. The main teaching sites include: Health Sciences Centre, St. Boniface General Hospital, Seven Oaks General Hospital, Dauphin General Hospital, and Brandon General Hospital.

General Regulations

Once accepted into a training program the student (now usually referred to as a "resident") must pay a registration fee to the University of Manitoba. Each resident must register every subsequent year of his or her training program in person at the PGME office.

The resident must also register with the College of Physicians and Surgeons of Manitoba so that his or her name is entered onto the Clinical Assistant Register Part 1.

The resident must obtain malpractice insurance, usually from the Canadian Medical Protective Association or its equivalent.

Residents enrolled in postgraduate residency programs are expected to conform to such new requirements as may be adopted from year to year.

Residents must apply directly to either the Royal College of Physicians and Surgeons or the College of Family Physicians of Canada for evaluation of training and for permission to sit the college examinations. Being a resident in a program does not automatically enrol the resident for such examination or certification.

Eligibility

Graduates of Canadian medical schools are eligible for consideration of PGME training, and are required to challenge the Medical Council of Canada Qualifying Examination, Part I prior to commencing their residencies.

Generally, Canadian citizens or landed immigrants are eligible for provincial funding for residency training under the contract established with the Professional Association of Residents and Interns of Manitoba (PARIM).

International medical graduates (IMGs) are eligible to apply for admission after they have challenged the Medical Council of Canada Evaluating Examination. IMGs must be Canadian or permanent residents to be eligible to apply for postgraduate medical training. IMGs may apply for possible residency positions through the CaRMS match (see below).

Visa-trainees represent a special training category for entrance to postgraduate medical training. The visa-trainee applicant must pass the Medical Council of Canada Evaluating Examination and be sponsored by an agency which has entered into a contract with the University of Manitoba for such training.

All residents must receive remuneration from an institution recognized by the Government of Manitoba while registered in a training program in PGME.

Criteria for Selection

Selection for admission to the various training programs will be made primarily on the basis of scholastic, personal and professional attributes as determined by academic records, personal interviews, letters of reference and in-training evaluation reports. The selection process is determined by each particular training program through a set selection process. Admission to the postgraduate training year one (PGY1) for most programs is conducted through the CaRMS PGY1 match outlined below.

University Registration

All postgraduate trainees and fellows (not registered with the Faculty of Graduate Studies for M.Sc. or Ph.D. degrees) must be registered as postgraduate trainees in the Faculty of Medicine. The normal registration period is June 15 to July 1 each year, and is done by the Faculty PGME Office.

Program Administration

The departments which provide PGME training programs in the Faculty of Medicine are: Anesthesia, Community Health Sciences, Family Medicine, Biochemistry and Human Genetics, Emergency Medicine, Internal Medicine, Medical Microbiology, Obstetrics, Gynecology and Reproductive Sciences, Otolaryngology, Pathology, Pediatrics and Child Health, Psychiatry, Radiology and Surgery. Some departments offer more than one program, and may also offer training in sub-specialty areas.

Each program has a Program Director and a Resident Program Committee to administer the training program. There are also program coordinators at each training site. The Program Director of each program reports both to the Department Head and the Associate Dean of PGME.

Beyond the program level, administrative matters pertaining to postgraduate residency training programs are the responsibility of the Associate Dean for PGME and the Faculty PGME Executive Committee and its sub-committees. These committees are responsible for reviewing programs, al-

location of residency positions, hearing resident appeals, and other duties as outlined in the terms of reference for each committee. The committees make recommendations to both the Dean of the faculty and the Faculty Executive Committee.

Description of Programs

Postgraduate medical education will generally follow one of two pathways leading to licensure eligibility as described below.

College of Family Physicians of Canada Accredited Programs

The training program for family physicians offers a two-year basic program in outpatient, in-hospital and community settings. This program is composed of several streams (urban, rural, aboriginal, bilingual and DND) and the program leads to eligibility for certification with the College of Family Physicians of Canada (CFPC).

A small number of positions are also available from time to time for enhanced training within the Family Medicine Training Program for a third year of training in Emergency Medicine, Anesthesia and Palliative Care. Some of these enhanced positions may be associated with a return of service requirement. A six month training program in the Care of the Elderly is also available from time to time.

Royal College of Physicians and Surgeons of Canada Accredited Programs

The Faculty of Medicine offers a wide range of specialty and sub-specialty programs leading to eligibility for certification with the Royal College of Physicians and Surgeons of Canada. Programs vary in length from 2-7 years of medical training.

Primary Specialties:

Anatomical Pathology	Anesthesia
Cardiac Surgery	Community Medicine
Diagnostic Radiology	Emergency Medicine
Internal Medicine	General Surgery
Neurology (Adult)	Medical Genetics
Nuclear Medicine	Neurosurgery
Orthopedic Surgery	Obstetrics and Gynecology
Pediatrics	Otolaryngology
Plastic Surgery	Physical Medicine and Rehabilitation
Radiation Oncology	Psychiatry
Medical Microbiology	Urology

Subspecialty Programs*

(available only with completion in a primary specialty):

Cardiology (Adult)	Clinical Immunology and Allergy (Child & Adult)
Critical Care Medicine	Endocrinology and Metabolism (Adult)
Gastroenterology	Geriatric Medicine
Gynecologic Oncology	Hematology (Child & Adult)
Infectious Diseases (Child & Adult)	Maternal and Fetal Medicine
Medical Oncology	Neonatal-Perinatal Medicine
Nephrology (Child & Adult)	Respiratory Medicine (Child & Adult)
Rheumatology (Adult)	Thoracic Surgery
Vascular Surgery	Emergency Medicine (Child)
Palliative Medicine	Developmental Pediatrics

NOTE: These programs require different primary specialty credits, and may not be offered every year at the University of Manitoba.

Application Procedures:

All applicants for the PGY1 year of programs accredited by the RCPC and CFPC must apply through the Canadian Residency Matching Service

(CaRMS). All graduates of Canadian medical schools and international medical schools who are Canadian citizens or permanent residents and who have had no prior postgraduate medical training in Canada or the United States are eligible for the CaRMS match.

Applications for positions beyond the entry PGY1 year should be made at the PGME Office, 260 Brodie Centre or to Program Director for the specific program. Availability of positions will vary from year to year and are not guaranteed for any program. No resident can be accepted unless a funded position is available.

The Canadian Resident Matching Service (CaRMS)

This matching service is an autonomous, national organization of the Association of Canadian Medical Colleges. It provides an orderly method for students to select where to pursue postgraduate medical education and for program directors to rank the applicants they wish to enroll. A second matching process (the second iteration) by CaRMS is subsequently available (after the 1st CaRMS match) to medical students not matched in the first iteration, and other medical graduates who have already received some prior postgraduate training. All information about registration and matching processes is available on the CaRMS website: www.CaRMS.ca. There are listings of all programs on their website.

Evaluation of Residents in Postgraduate Medical Education Programs

Evaluation at all levels is based primarily on clinical performance in the patient care setting. The Program Director and the Resident Program Committee in each program are responsible for the implementation of the evaluation process in their own program. At the end of each clinical rotation or at other appropriate stages of the program, each trainee is evaluated by an in-training evaluation report appropriate to that program and training level. The evaluator(s) discusses the evaluation with the trainee and the report is forwarded to the program director. The written evaluation report should be signed by the resident to indicate that he or she has seen the report. This ongoing evaluation process may be supplemented by written examinations, oral examinations, supervised history and physical examination and by direct observation of clinical and technical skills.

When a resident receives an unsatisfactory evaluation or examination result, the program director will review the evaluation with the resident. Unsatisfactory evaluations will also be discussed in a confidential manner at the Resident Program Committee meeting. The committee will make recommendations regarding remedial training. If a subsequent remedial period is also evaluated as being unsatisfactory, the program director will contact the Associate Dean for Postgraduate Medical Education and the Probation Protocol and Procedure will be instituted. A failed probation period may result in a resident being discharged from his or her training program.

The Faculty Executive Council reserves the right to require any student to withdraw from the program of enrolment when it believes the student to be unsuited, on general considerations of scholarship, professional fitness or professional conduct for post-graduate medical education. However, the Faculty of Medicine does not have a professional unsuitability by-law. The right to require a student to withdraw on the basis of professional unsuitability may arise through the professional unsuitability by-law of the College of Physicians and Surgeons. This right prevails notwithstanding any other provision in the faculty regulations.

Appeals

A postgraduate trainee who wishes to appeal the results of any aspect of the evaluation procedure must follow the written guidelines established by the PGME Committee and the Faculty of Medicine. These guidelines may be obtained from the PGME Office.

Professors Emeriti

Engbrecht, H., A.R.C.T., B.Mus. (Bethel College), M.Mus. (Southern Methodist); **Turner**, R., B.Mus. (McGill), M.Mus. (Peabody), D.Mus. (McGill).

Senior Scholar Rempel, U., B.Mus., Ed.Cert. (British Columbia), M.A. (California, Santa Barbara).

Professors

Dawe, E., B.Mus., B.Mus.Ed. (Memorial), M.Mus. (Western Ontario), D.M.A. (British Columbia); **Jensen**, K., B.Mus. (Saskatchewan), L.Mus. (Saskatchewan), Recital Dip. (Royal Academy of Music), L.R.A.M., Ph.D. (London); **Matthews**, M., B.Mus. (California State, Northridge), M.A. (California State, Sacramento), Ph.D. (North Texas State).

Associate Professors

Braun, M., B.Mus., M.Mus. (Toronto); **Burleson**, R., B.Mus. (Hartford), M.A. (Washington); **Gillis**, R., B.Mus.Ed. (Saskatchewan), M.Mus., D.M.A. (Michigan); **Horton**, C., B.Mus. (Redlands), M.Mus. (North Carolina); **Kehler Siebert**, J., B.A. (Winnipeg), M.Mus. (Toronto), D.M.A. (Eastman); **Kirby**, S., B.Mus. (Webster), M.Mus. (Manhattan); **Markstrom**, K., B.Mus., M.Mus., M.Lib.Sc. (Alberta), Ph.D. (Toronto); **Moroz**, D., B.Mus., M.Mus. (Juilliard), D.Mus. (Montreal); **Pokhanovski**, O., B.Mus. (Moscow), D.Mus. (Montreal); **Sandred**, O., M.F.A., Diplom i Komposition (Royal College of Music, Stockholm).

Assistant Professors

Chung, M., B.Mus. (Oberlin), M.M. (Northwestern), D.M.A. (Stony Brook); **Fitzell**, G., B.Mus. (Brandon), M.Mus. (Alberta), Ph.D. (British Columbia); **Friesen**, E., B.Mus., B.Ed., M.Mus. (Manitoba); **Gully**, T., B.A. (Houston); **Harrington**, A., B.Mus. (Saskatchewan), M.Mus. (Northwestern); **Linklater**, F., B.Mus. (Brandon), M.Mus. (North Texas), Ph.D. (Michigan); **Linklater**, J., B.Mus. (Brandon), M.Mus. (Michigan); **Loewen**, L., B.Mus. (Brandon), M.Mus. (Montreal), D.M.A. (Minnesota).

Full-time Instructors

Dawe, K., B.Mus., M.Mus. (Western Ontario); **MacLaren**, R., B.A., Ed.Dip. (McGill); **Twaddle**, K., B.Mus. (Toronto), P.G.C.E. Drama (Middlesex).

Sessional Instructors

Anderson, V., B.Mus. (Manitoba), Opera Dip. (Toronto); **Bairstow**, D., Carroll, D., B.Mus., M. Ed., (Manitoba); **Cooper**, J.E., Dip. P. and O.T. (Toronto), B.O.T., M.Sc., Ph.D. (Manitoba); **Dahl**, T., B.Ed. (Manitoba); **Denby**, S., B.Mus., B.Ed. (Manitoba); **Duggleby**, J., B.A.Mus. (St. Francis Xavier); **Dyer**, S., B.Mus. (McGill), M.Mus. (DePaul); **Enns-Braun**, C., B.ChurchMus. (CM-BC), B.Mus. (Manitoba), M.A. (Western Ontario); **Evans**, P., Licentiate Dip. (McGill); **Fletcher**, D., B.Mus. (Manitoba), M.Mus. (Toronto); **Gilliam**, J., B.S. (Butler), M.M. (Cleveland); **Gold**, K., B.F.A. (Concordia), Mus.Ed Cert. (McGill), M.Mus. (Brandon); **Gomon**, N., M.Mus. (Moscow); **Green**, P., B.A./Mus. (Southern Illinois); **Guise**, P., B.Mus. (Queens), M.Mus. (Alberta), M.B.A. (Heriot-Watt), Ph.D. (Kansas); **Haley**, R., B.Mus., B.Ed. (Manitoba); **Heilbrunn**, M.; **Helmer**, J., B.Mus. (British Columbia); **Huisman**, M., B.Ed. (Manitoba), Opera Dip. (Toronto); **Husband**, J., B.Mus. (Brandon); **Jeffrey**, P., B.Mus. (Curtis), M.Mus. (Cleveland), Artist Dip. (Vancouver Academy); **Kirby**, A.; **Kocman**, J., B.Mus.Ed., M.M. (Indiana); **Kula**, J., B.Mus., B.Ed. (Manitoba); **Lee**, C., B.Mus. (McGill), M.M. (Indiana); **MacDonald**, K., **McIntyre**, J., B.Mus. (Toronto); **Pokhanovski**, M., Artist Dip. (St. Louis); **Pollard**, G., B.Mus.Ed. (Bemidji), M.Mus.Ed. (Bemidji); **Ridd**, L.; **Robbins**, C., B.Mus. (Manitoba), M.Mus. (Toronto); **Roy**, L.; **Scholz**, D., B.Mus.Ed. (Regina); **Schultz**, R., B.Ed., M.Ed. (Manitoba); **Smith**, S., B.Mus.Ed. (Saskatchewan), M.M. (Northwestern); **Sykora**, B., B.Mus. (Cleveland); **Turner**, C., B.Sc. (Valley City), M.M.Ed. (North Dakota); **Tyborowski**, R., M.F.A. (Wroclaw); **van der Hooff**, R., B.Mus. (Manitoba), M.Mus. (McGill);

SECTION 2: History of the Marcel A. Desautels Faculty of Music

The educational objectives of the Faculty are best presented in its mission and vision statements. Mission: "to provide a broad range of opportunity for music study and to produce creative and scholarship work which is of local, national and international significance, and to inspire a love of music and a recognition of its importance in defining and ennobling human experience" Vision: "The Marcel A. Desautels Faculty of Music is a provincial, national and international centre of excellence in academic programs, music performance and for commitment to community involvement." The Department of Music began in 1944 when classes in music theory and history were given as electives for Arts and Science students. Then, in the early 1960's the Senate of the university approved a series of courses leading to a Bachelor of Music degree. This was followed in 1964 with the establishment of the School of Music. The first students enrolled in that year for a three-year general Bachelor of Music degree. A new music building was completed during 1965. Since then, the school has seen rapid growth and development, the establishment of a four-year Bachelor of Music program (which began in the fall of 1974), the Integrated Bachelor of Music/Bachelor of Education degrees (from 1984), Bachelor of Jazz Studies (2008), Post-Baccalaureate Diploma in Performance (2004), and Graduate degree, in performance, conducting and composition (2001). In January 2005, the School of Music was established as a full-fledged Faculty of Music. In May 2008, the Faculty was renamed after its benefactor Marcel A. Desautels. The Faculty is housed in its own building which contains teaching studios and classrooms with specialized equipment, practice studios, lounges, storage facilities, a listening room and an acoustically superior 228-seat recital hall with full recording facilities. The Music Library is also in the Music Building and contains volumes, bound periodicals and scores, performance editions, and audio recordings. Performance tapes of concerts held at the Faculty also form an important part of the Music Library. The collection is primarily devoted to the European classical tradition but there are special collections of jazz, ethnic music from around the world, collected works of certain local and Canadian composers, and a thoroughly representative cross-section of the entire tradition of music history. In addition to Bosendorfer, Yamaha and Kawai concert grand pianos, many practice pianos and an increasingly superior collection of orchestral instruments, the Faculty is equipped with a Casavant organ, harpsichords by Denzilwraight and Ritchey, Sperrhake spinet, Dolmetsch clavichord, an electronic keyboard lab equipped with 10 Roland MIDI keyboards, 1784 Beyer fortepiano, 1876 Steinway square piano, troubadour and pedal harps, chest of viols, Renaissance recorders, krummhorns, various Renaissance wind instruments, Orff instruments, and an electronic synthesizer. The Casavant organ in St. John's Chapel is also available for practice. There is also an Electronic music and research facility.

SECTION 3: Admission To Music

3.1 Degrees Offered

Bachelor of Music

Bachelor of Music (Composition)

Bachelor of Music (History)

Bachelor of Music (Performance)

Bachelor of Jazz Studies

Minimum time to graduation: Four years if admission is directly from high school and five years if admission is via University 1.

Bachelor of Music/Bachelor of Education

An integrated degree that combines Music with Education; minimum time to graduation: five years in Music and Education if admission is directly from high school and six years if admission is via University 1. The following is a summary of the admission requirements. Equivalent academic courses completed at recognized universities elsewhere would be considered. All admission requirements, as well as application deadline dates and forms, are available from the Faculty of Music general office, 206 Music building, or Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website.

3.2 Course Requirements for Admission from High School

Admission to the Faculty is directly from high school, although admission from University 1 is an option.

Other requirements

High school prerequisites: Music 40S is strongly recommended, while a second 40S language is recommended. Formal instruction in music theory and keyboard is recommended, but not required. All applicants are required to audition. Minimum level of practical ability for the Bachelor of Music is Conservatory Canada or Royal Conservatory Grade 8 piano or strings; Grade 7 singing or winds; Grade 6 Organ. All auditions include a theory exam and may include a sight-reading component. Advanced Standing in Music: Students claiming advanced standing in music may be asked to undergo placement tests to substantiate such claims. Standing will not be accorded automatically. The above privilege applies only to courses in Music and has no bearing upon the number of non-Music courses required by the Bachelor of Music and Bachelor of Jazz Studies programs. Advance standing examinations cannot be taken in courses previously failed at the Faculty.

SECTION 4: Academic Regulations

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty has regulations and requirements, published below, which apply specifically to its students. Detailed information regarding regulations is available in the general office of the Faculty. The aim of the Bachelor of Music and Bachelor of Jazz Studies programs is to provide a basic framework of knowledge and ability; both theoretical and practical, from which either professional activities or graduate specialization can start. The Bachelor of Music four-year program contains concentrations in specified areas in the third and fourth years. After their first two years, students select the area in which their interests and abilities are strongest. The faculty offers four-year programs leading to the degree of either Bachelor of Music, with the following concentrations: Performance, Composition, Music History, and General Music and the five-year Integrated Bachelor of Music/Bachelor of Education or Bachelor of Jazz Studies degrees. Practical study may be in piano, organ, harp, harpsichord, classical guitar, lute, recorder, voice, or any standard orchestral instrument: strings, woodwinds, brass, and percussion, and all the traditional jazz instruments. Ensemble work is included in all years of the program. Music courses are available to students in other faculties and schools. Consult section 7.0 or the appropriate section of this Calendar for regulations.

4.1 Written English and Mathematics Requirement

All students are required to complete the university's written English and mathematics requirement within the first 60 credit hours of their program. This requirement is described in the chapter, General Academic Regulations and Requirements. Students in the Bachelor of Music and Bachelor of Jazz Studies programs meet the written English requirement through a required three credit hours of English. English ENGL 1310, or equivalent may satisfy the written English requirement. It is possible that a student may wish to take a six credit hour English course which meets this requirement; if so, three credit hours will count toward meeting the written English requirement and three credit hours toward the requirement for additional non-music electives in the second and later years of the Bachelor of Music or Bachelor of Jazz Studies programs. Students meet the mathematics requirement through course MUSC 3230 Acoustics of Music (3 credit hours). These courses are listed as requirements to complete the first year of all Bachelor of Music programs and Bachelor of Jazz Studies.

4.2 Electives (Non-Music)

Students are required to take one course in a subject other than music for each year of the Bachelor of Music and Bachelor of Jazz Studies program to a total of 24 credit hours (18 for the Integrated B.Mus./B.Ed.). With the exception of the first-year requirement of English, the student is free to choose any subject but is advised to seek the advice of faculty.

4.3 Ensembles

The Faculty offers a wide variety of opportunities for participation in ensembles such as the Women's Choir, Bison Men's Chorus, University Concert Band, University Singers, University Symphony Orchestra, University

Wind Ensemble, University Jazz Orchestra, Jazz Ensembles, Collegium Musicum, Opera Theatre, Chamber Ensemble, Percussion Ensemble, Musical Theatre, New Music Ensemble, Classical Guitar Ensemble and other wind, string and keyboard combinations. Bachelor of Music students are required to participate in one large ensemble (Women's Choir, Bison Men's Chorus, Concert Band, University Singers, Wind Ensemble, Jazz Orchestra, University Orchestra or Jazz Ensemble) each year for four years, and to participate in a total of eight ensembles during that time. Bachelor of Jazz Studies students are required to participate in one ensemble each year for four years. The ensemble committee determines placement in credit ensembles; such participation will normally be in ensembles directly relevant to the student's major practical study area. Students from other faculties, and non-university musicians are welcome to participate as space and instrumental balance allow, but all participation is at the discretion of the conductor or coach of the ensemble. Some ensembles are offered for credit in other faculties.

4.4 Scholarships

Entrance and continuing scholarships are available for Faculty students. Details may be obtained from Financial Aid and Awards or the Marcel A. Desautels Faculty of Music.

4.5 Scholastic Progress

Within the first week of the term, students will be informed of the organization of materials, the nature and timing of testing, and the proportionate weighting of marks that contribute to the final grade in all academic courses at the Faculty of Music. Regulations regarding the grading of all practical courses at the Faculty are contained in the Student Handbook; special attention is called to the Recital and Master Class Attendance Policy which is an integral part of the grading system for Major Practical Study in each year of the program. A grade of "C" or better is required in each Music course throughout the Bachelor of Music and Bachelor of Jazz Studies programs, except where the Faculty Student Handbook states otherwise. Students who take Music elective courses and fail to achieve a minimum grade of "C" in them should repeat these courses. Due to the system of rotating electives, this may not be possible and in such a case another approved Music elective may be substituted. Supplemental examinations are not normally given in the Faculty, with the following exception: where a jury mark of "D" has been assigned in Major Practical Study, the juried examination may be reheard prior to the next registration. A term Grade Point Average of less than 2.0 or failure to achieve a grade of "C" or better in two Music courses will result in a student being placed on probation. A student failing to equal or exceed the minimum academic level by the end of the next term following probationary assignment will be placed on academic suspension. Each student is permitted a maximum 21 credit hours of failed Music courses in the Bachelor of Music and Bachelor of Jazz Studies programs. Students will not be permitted to register for a required music course more than twice without the permission of the Dean.

4.6 Dean's Honour List

B.Mus. students who achieve a term Grade Point Average of 3.55 and are registered in a minimum of nine credit hours per term will be eligible for the Dean's Honour List. Students who are granted incomplete or deferred status will not be eligible.

4.7 Attendance

Regular attendance is expected of all students in all courses. Any unexcused absences from ensemble or practical study courses or three unexcused absences from any other music course may result in the student being required to withdraw from the course or ensemble, or may result in a failing grade being assigned. Students absent from a class for three or more consecutive meetings due to illness may be required to present a certificate from a physician. Prior approval for extended absences from class for reasons other than illness must be obtained from the instructor and the director. Unexcused absence from a class test may result in a grade of zero for the test. Make-up tests may be allowed in special circumstances.

SECTION 5: Program Requirements

These programs are in effect for students admitted since 1997-98. Students who entered in previous years should consult earlier calendars.

Course No. **Credit Hours**

5.1 First Year

Bachelor of Music

MUSC 2190 Ensemble	2
MUSC 2380 Basic Musical Skills 3	2
MUSC 2390 Basic Musical Skills 4	2

MUSC 2400	Major Practical Study	6
MUSC 2460	Conducting	3
Teachable Minor* see(**)		6
Total Credit Hours	35	

NOTE: Apply to Integrated Program during Year 2. Deadline to apply is February 1.

*For listing of teachable minors, see Senior Years teachable major/minor chart in section 4 in the Education section of the calendar.**Only those students admitted into their 3rd year in the Faculty of Education for September 2008 and earlier are permitted a 2nd music specialization. Prior to beginning Year 5 students must have completed the Aboriginal Education Requirement and the Special Education/Diversity Requirement which is defined as 3 credit hours Aboriginal Education (EDUA 1500 Aboriginal Education or EDUB 1840 Aboriginal Perspectives and the Curriculum) and 3 credit hours Special Education/Diversity (EDUA 1540 Cross Cultural Education, EDUB 1620 Principles and Procedures of Second Language Teaching, or EDUB 1820 Language and Content Instruction of ESL/Bilingual Students).

5.3 Third Year

Bachelor of Music - Performance

MUSC 3180	Ensemble	2
MUSC 3190	Ensemble	2
MUSC 3470	Major Practical Study	6
MUSC 3550	Recital 1	3
MUSC 3960	Music of the 20th Century 1	3
MUSC 3970	Music of the 20th Century 2	3
	Music electives	6
	Non-Music elective	6

Total Credit Hours 31

NOTE: A grade of "B" is required in 3550 to continue in the Performance Concentration.

Bachelor of Music - History

MUSC 3050	Research Methods	3
MUSC 3180	Ensemble	2
MUSC 3190	Ensemble	2
MUSC 3470	Major Practical Study	6
MUSC 3960	Music of the 20th Century 1	3
MUSC 3970	Music of the 20th Century 2	3
	Music History elective	3
	Music Theory elective	3
	Non-Music electives	6

Total Credit Hours 31

Bachelor of Music Composition

MUSC 2460	Conducting	3
MUSC 3150	Orchestration	3
MUSC 3180	Ensemble	2
MUSC 3190	Ensemble	2
MUSC 3300	Composition Study	6
MUSC 3650	Electroacoustic Music	3
MUSC 3960	Music of the 20th Century 1	3
MUSC 3970	Music of the 20th Century 2	3
	Non-Music electives	6

Total Credit Hours 31

Bachelor of Music General

MUSC 3180	Ensemble	2
MUSC 3190	Ensemble	2
MUSC 3470	Major Practical Study	6
MUSC 3960	Music of the 20th Century 1	3
MUSC 3970	Music of the 20th Century 2	3
	Music History elective	3
	Music Theory elective	3
	Music or non-music elective	3
	Non-Music electives	6

Total Credit Hours 31

Bachelor of Jazz Studies

MUSC 3112	Jazz Composition and Arranging 1	3
MUSC 3182	Jazz Ensemble 3	2
MUSC 3192	Jazz Improvisation 2	2
MUSC 3272	Jazz Performance Skills	3
MUSC 3442	Jazz Pedagogy 1	3

MUSC 3470	Major Practical Study	6
MUSC 3552	Jazz Recital 1	6
Non-Music electives		6
Total Credit Hours 31		

NOTE: A grade of at least "B" is required in 3552 for graduation with the Bachelor of Jazz Studies.

Integrated Bachelor of Music (Music Education)/ Bachelor of Education Program

MUSC 3180	Ensemble	2
MUSC 3190	Ensemble	2

EDUB 2500	Themes in Senior Years Education (for Early/Middle Years specialization, students may take a 3 credit hour Education complementary course)	3	MUSC 4390	Piano Chamber Music Literature Seminar	3
EDUB 2510	Language and Literacy Across the Curriculum (for Early/Middle Years specialization, students may take a 3 credit hour Education complementary course)	3	MUSC 4430	Pedagogy and Repertoire	3
EDUB 1XXX	Students with a Music teachable minor take an Education Complementary Course. (admitted to Faculty of Education September 2008 or earlier). Students admitted September 2009 and beyond take a Year 1 Curriculum & Instruction Course in their minor area.	3	MUSC 4440	Vocal Pedagogy (Required course for voice majors in Performance and General Concentrations)	3

Total Credit Hours 30

Further information about the integrated program is in the chapter for the Faculty of Education.

5.6 Electives: Third and Fourth Years

All Concentrations

MUSC 3020	History and Performance of Jazz	3	MUSC 4480	Minor Practical Study	3
MUSC 3030	History of Music in Worship	3	MUSC 4490	Piano Pedagogy (Required course for piano and organ majors in Performance and General Concentrations)	3
MUSC 3050	Research Methods (History Concentration requirement)	3	MUSC 4520	Coaching Skills	3
MUSC 3090	Introduction to Ethnomusicology	3	MUSC 4530	Operatic Piano	3
MUSC 3100	Opera Repertoire	3	MUSC 4630	20th to 21st Century Piano Repertoire	3

General Notes Regarding Electives

Most electives are not offered every year; some are offered every other year and some are offered less frequently. The listing of a subject as an elective does not guarantee that it will always be available or that it will be possible to fit it into all of the many varied timetable combinations of full- and part-time students. There may be a maximum limit set on the number of students permitted to take an elective in a particular session. Similarly, there will be a minimum limit. If registration is below the minimum, the elective will be cancelled for the session, and those registered will be required to transfer to another elective before the course change deadline date. Students are urged to discuss their elective program with members of the faculty toward the end of their second and third years to obtain advice concerning the best choice of electives for their needs. Each year, second-year and third-year students will be asked to complete a questionnaire concerning their choice of electives for the following year.

SECTION 6: Post-Baccalaureate Diploma in Performance

The Marcel A. Desautels Faculty of Music offers a Post-Baccalaureate Diploma in Performance designed for musicians who wish to further their performance skills in preparation for further study or professional activity. The unique features of the PBDP program are that students can design their own program of study and tailor it to their own areas of interest. They may take courses at the Faculty as well as in other faculties and schools at the University of Manitoba. In addition, courses taken while a student in the PBDP program may be transferred into the Master's program where the appropriate standard has been met and requirements have been satisfied.

6.1 Admission Requirements

Applicants for Admission must submit the completed application form and fee, and must possess a Bachelor of Music degree or a Conservatory Diploma taken in residence. They must also pass an entrance audition, which requires the performance of three works of contrasting styles and/or historical periods appropriate to the audition medium. This audition would normally be held in person, but video auditions may be accepted where distance is a prohibitive factor. Application materials, which misrepresent the level of performance ability, will be treated as fraudulent, resulting in dismissal from the program. Admission may not be possible for all qualified applicants, as it is dependent on number of spaces available, the major practical study area, and instructor availability. Applicants who hold the Post-Baccalaureate Diploma in Performance from the University of Manitoba (or an equivalent Post-Baccalaureate one-year program from another institution) may apply for a second PBDP if studying a different applied instrument than that of their first PBDP in their Major Practical Study, and Recital courses, and if the remaining course credits taken do not duplicate those of the first PBDP.

6.2 Admission Procedures

Application forms may be obtained from the Faculty. Completed application forms must be received by March 1st to begin study in September, or June 15th for a January start date.

6.3 Program Requirements

Reminder: While Faculty staff and faculty are available to clarify Faculty and university regulations and degree requirements, it is the student's responsibility to ensure that diploma and program requirements are met. The Post-Baccalaureate Diploma in Performance requires the successful completion of 30 credit hours of coursework, subject to the following regulations: a) A minimum of 18 credit hours must be taken in the Marcel A. Desautels Faculty of Music (although all 30 may be taken within the Faculty). b) Required Courses:

- a. MUSC 5400 Major Practical Study, 6 credit hours, 1 hr. instruction/week or the equivalent.
- b. MUSC 5560 Recital, 6 credit hours, 1 hr. instruction/week
- c. MUSC 5180 Ensemble, 3 credit hours
- c) Electives will be chosen from available 3000 and 4000 level courses recommended by the advisor and approved by the Faculty.

6.4 Academic Standing

Regulations for the Post-Baccalaureate Diploma program regarding academic standing, scholastic progress, attendance, required GPA, probation and suspension will follow those governing the Bachelor of Music and Bachelor of Jazz Studies programs as outlined in the Faculty Student Handbook.

6.5 Maximum Time Limits

Expected time to complete program: 1 year. The maximum time allowed for completing the Post-Baccalaureate Diploma program is 3 years. Students will not be permitted to transfer for credit any course completed more than five years prior to the completion date of the diploma.

6.6 Courses Available

Undergraduate 3000 and 4000 level courses approved by the may be used as electives in designing the program of study. Students will register for their courses after their program has been determined in consultation with their major practical study teacher who will act as academic advisor during the Post-Baccalaureate Diploma program. Students may not count toward the PBDP any courses that counted for credit in a previous degree.

6.7 Credit Transfer

The Faculty's Registrar will process transfer of credits into the PBDP program. A maximum of 12 credit hours of courses may be transferred into the PBDP program provided that they have not counted toward any previous degree. A minimum of 18 credit hours must be taken within the Faculty, although up to the full 30 credit hours of the diploma program may be taken within the Faculty. Transfer of credits from the PBDP program into the M.Mus. is processed through the Faculty of Graduate Studies. Courses may not be counted for more than one degree, and may be transferred from the PBDP to the M.Mus. only if they have not been counted toward the PBDP or more than the minimum credit hours have been taken.

6.8 Completion of the Program

Minimum: 1 year, Maximum: 3 years. The Dean for medical or compassionate reasons may grant extensions. Medical: A letter from the student's physician stating the diagnosis and treatment with projected recovery. Compassionate: A letter from the student outlining the reasons for the extension showing that extenuating circumstances beyond the student's control have contributed to the need for an extension.

6.9 Assessment

Student Assessment: Type of evaluation: Academic freedom dictates that there will be variation between classes according to the professor's preferred systems, approaches, materials, readings, and assignments. However, the University of Manitoba regulations as outlined in the General Calendar state that within the first week of lectures, instructors must inform the class of the method of evaluation to be used in each course. Minimum Grade Requirements: In the Faculty students must attain a grade of "C" or higher for a course to count toward a degree, except in the case of Recital where a minimum of "B" is required. The PBDP program will be governed by these regulations, as outlined in the Student Handbook. Should the student transfer to another faculty in the university, that faculty's regulations would apply relating to transfer of credit. Successful completion of the program will be achieved by receiving a "C" or higher in 30 credit hours. Teacher Assessment: The SEEQ course evaluations will be used in the PBDP program for academic courses, and the Faculty's specialized forms will be used for the performance-related courses.

Section 7: Offerings for non-music students

7.1 Courses Offered in the B.Mus. Program for Students in Other Faculties

Some courses are offered outside the B.Mus. program for students in other faculties.

7.2. Music Minor for Students in the Faculty of Engineering, the Faculty of Arts, and the Faculty of Science

A Minor in Music is available to students in the Faculty of Engineering, the Faculty of Arts, and the Faculty of Science. The requirements for a Minor in Music for Engineering students can be found in the Faculty of Engineering section of this calendar, the requirements for a Minor in Music for Arts students can be found in the Faculty of Arts section of this calendar. The requirements for a Minor in Music for Science students are as follows:

MUSIC MINOR FOR SCIENCE (033) Minor 18 Credit Hours

Minor Option 1

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
MUSC 1280 and MUSC 1290 (At most, 12 credit hours numbered at the 1000 level may be used toward the minor)	12 credit hours of Music courses from List A (Students who elect ensemble courses from List A are required to complete all three courses)		

Minor Option 2

MUSC 1110 and MUSC 1120 (At most, 12 credit hours numbered at the 1000 level may be used toward the minor)	12 credit hours of Music courses from List A (Students who elect ensemble courses from List A are required to complete all three courses)		
---	---	--	--

NOTE: Unless otherwise noted, these courses are available to all students in the Faculty of Science who have completed the required prerequisites. Courses in list B are not available to students completing the minor. Ensemble courses (MUSC 2180, MUSC 3180, and MUSC 4180) are acceptable for credit towards a degree in Science only when applied to the minor. They are not acceptable for credit as options.

Minor Program

For entry to the minor, the prerequisite is a grade of "C" or better in each of MUSC 1280 and MUSC 1290 or a grade of "C" or better in each of MUSC 1110 and MUSC 1120. A maximum of 12 credit hours numbered at the 1000 level may be used towards 18 credit hours for a minor.

Registration Information

Initial Access Times

Students are referred to the chapter, "The Registration System: Aurora Student", Section 3.

Registration Information

All students in the Faculty register through Aurora Student. Students should consult the Marcel A. Desautels Faculty of Music chapter in the Undergraduate Calendar and be sure that they are taking all of the courses required for their program. The most current course schedule may be found in Aurora Student under Course Calendar – Class Schedule. If there is need for assistance contact the Registrar either in person, email sleeson@cc.umanitoba.ca, or by phone at (204) 474-9133. The Faculty office, room 206, is open from 8:30-4:30 Monday through Friday.

New Students

Orientation for all new students is September 8 and 9. Specifics will be given in a letter that will be sent to you. All new students are urged to attend.

First Year Students

All students admitted in the 2000-2001 Regular Session and later are required to complete, within the first 60 credit hours of their programs, a minimum of a course of at least three credit hours with significant content in written English, and a minimum of a three credit hour course with significant content in Mathematics. See the chapter, General Academic Regulations and Requirements of the Undergraduate Calendar. Individual programs may have designated specific written English and Mathematics courses to fulfill this requirement. Courses and/or specific course sections which satisfy the written English or Mathematics requirement are identified by the letter "W" for written English and the letter "M" for mathematics courses in the Undergraduate Calendar and this Guide. Music students fulfill the "M" requirement with MUSC 3230. The first year in the Bachelor of Music program consists of MUSC 1070, MUSC 1080, MUSC 1110, MUSC 1120, MUSC 1180, MUSC 1190, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 3230 and ENGL 1310 (or another course that satisfies the English requirement). The first year in the Bachelor of Jazz Studies consists of MUSC 1110, MUSC 1120, MUSC 1182, MUSC 1192, MUSC 1280, MUSC 1290, MUSC 1380, MUSC 1390, MUSC 1400, MUSC 3230 and ENGL 1310 (or another course that satisfies the English requirement).

Transfer Students

Transfer students should be sure to have a thorough transcript evaluation and should discuss their course selection with the Registrar prior to registration to insure that they will be meeting the requirements of their program.

Returning Students

Returning students must register by Aurora Student. Students must be sure that the proper courses are selected to fulfill degree requirements.

Masterclasses

Weekly Masterclasses are offered in Composition, Piano, Strings, Voice, Woodwind, Brass, Guitar, Percussion and Jazz.

Scheduled are:

Composition	Monday and Wednesday 2:30 - 4:30
Voice Thursday 3:30 - 5:00	
Piano	Friday 2:30 – 4:00
Strings	TBA
Woodwind, Brass, and Percussion	TBA
Guitar	Tuesday afternoon
Jazz	Friday afternoon

Ensemble Schedule

Women's Choir	Monday and Wednesday 2:30 – 4:00
University Concert Band	Tuesday 7:00 – 9:00 and Thursday 4:00 – 5:00
University Jazz Orchestra	Monday and Wednesday, 2:30 - 4:30
University Singers	Tuesday and Thursday, 1:00- 3:15
University Symphony Orchestra	Monday 5:00-7:00 and Wednesday 7:00-9:00
University Wind Ensemble	Tuesday and Thursday, 1:15 – 3:30
Bison Men's Chorus	Tuesday, 5:00 - 7:00
Cantata Singers	Thursday 1:00 – 2:15
Jazz Ensembles	TBA
Accompanying 1	Tuesday 11:30 – 12:45
Accompanying 2	Tuesday 11:30 – 12:45
Brass Choir	Tuesday and Thursday 11:30 – 12:45
Chamber Music	M, T, W, Th, F 1:30 – 2:30

Opera Theatre Tuesday and Thursday, 11:30 - 12:45
 Musical Theatre Tuesday and Thursday, 11:30 - 12:45
 Collegium Thursday 7:00 – 9:00
 Saxophone TBA
 Percussion TBA
 XIE (Experimental Improv Ensemble)
 Friday 2:30 – 4:30

SECTION 8: COURSE DESCRIPTIONS

8.1 Undergraduate

MUSC 1050 The Well-Tempered Concert-Goer Cr.Hrs.3 (Formerly 033.105) This course is an introduction to the art of music with the listening component based on attendance at ten live performances by Winnipeg's superior performing ensembles. Topics include instruments of the orchestra, musical materials, forms and structures, historical periods and biographical information on composers.

MUSC 1070 Introduction to the History of Music Cr.Hrs.3 (Formerly 033.107) Introduction to the study of music history with emphasis on historical and stylistic developments of the Middle Ages and Renaissance.

MUSC 1080 History of Music 2 Cr.Hrs.3 (Formerly 033.108) A study of the development of style, idiom and performance practise in the music of the 17th and early 18th centuries. *Prerequisite:* MUSC 1070 (or 033.107) or equivalent, or consent of the Faculty.

MUSC 1110 Music Theory 1 Cr.Hrs.3 (Formerly 033.111) This course is designed to develop fluency in the writing and recognition of the elements of music: melodic and harmonic intervals, modes and scales, rhythm and metre, triads and inversions, and the principles of melodic and homophonic design. *Prerequisite:* Knowledge of music rudiments as demonstrated by a Placement Test given during the first week of classes, or by completing MUSC 1930 (or 033.193) with a mark of "C" or better.

MUSC 1120 Music Theory 2 Cr.Hrs.3 (Formerly 033.112) An examination of the idioms of vocal melody through the writing and analysis of duple paraphrase, duple- and syncopated-rhythm counter-point in two parts, and tonal homophony leading to the Chorale phrase and Bar form. *Prerequisite:* a grade of "C" or better in MUSC 1110 (or 033.111).

MUSC 1180 Ensemble Cr.Hrs.2 (Formerly 033.118) Participation in University Symphony Orchestra, University Wind Ensemble, Women's Choir, Bison Men's Chorus, University Jazz Orchestra, University Concert Band or University Singers, as is appropriate to the student's background and/or major applied area (placement to be determined by ensemble committee).

MUSC 1182 Jazz Ensemble 1 Cr.Hrs.2 Participation in jazz ensemble(s) as assigned by the ensemble committee.

MUSC 1190 Ensemble Cr.Hrs.2 (Formerly 033.119) Participation in a Faculty Ensemble other than the one designated in MUSC 1180 (or 033.118) (to be chosen in consultation with the Faculty).

MUSC 1192 Jazz Rhythm Performance Techniques Cr.Hrs.2 A practical approach to rhythmic proficiency in jazz, including emphasis on rhythmic and harmonic etudes, standard song form interpretation, interaction, call and response language for jazz performance.

MUSC 1280 Musical Style and Structure 1 Cr.Hrs.3 (Formerly 033.128) An integrated study of the history and theory of Western music to 1750. *Prerequisite:* Canadian Conservatory Grade 4 or RCT Grade 2 Theory or consent of the Faculty. Continuation in the Music Major or Minor requires a grade of C or better in this course.

MUSC 1290 Musical Style and Structure 2 Cr.Hrs.3 (Formerly 033.129) An integrated study of the history and theory of Western music from 1750 to the present. *Prerequisite:* MUSC 1280 (or 033.128) . Continuation in the Music Major or Minor requires a grade of "C" or better in this course.

MUSC 1380 Basic Music Skills 1 Cr.Hrs.2 (Formerly 033.138) A practical approach to the cultivation of critical aural perception: specifically, to develop the student's sight-singing, transcription and keyboard skills.

MUSC 1390 Basic Music Skills 2 Cr.Hrs.2 (Formerly 033.139) A continuation of MUSC 1380. *Prerequisite:* MUSC 1380 (or 033.138).

MUSC 1400 Major Practical Study Cr.Hrs.6 (Formerly 033.140) Individual instruction in one of the following: any of the standard orchestral instruments (strings, woodwinds, brasses, percussion), classical guitar, harp, harpsichord, lute, organ, piano, recorder composition or voice. An important constituent of the grading procedure for this course is performance in, and attendance at, the recitals/concerts of the Faculty. For Music students only.

MUSC 1460 Minor Practical Study Cr.Hrs.3 (Formerly 033.146) Individual instruction in an area other than that selected for MUSC 1400 (or 033.140) or in composition by special permission. Written consent of the director is required prior to registration.

MUSC 1930 Rudiments of Music Cr.Hrs.3 (Formerly 033.193) An introduction to fundamental aspects of music such as sound generation, notation, melodic and harmonic construction, with emphasis on an aural approach.

MUSC 2070 History of Music 3 Cr.Hrs.3 (Formerly 033.207) A study of music in the eighteenth century from the Rococo and pre-Classical repertoire through the works of Haydn and Mozart. *Prerequisites:* MUSC 1070 (or 033.107) and MUSC 1080 (or 033.108) or equivalents, or consent of the Faculty.

MUSC 2072 Jazz History 1 Cr.Hrs.3 A broad survey of the development of jazz and early popular styles of the 20th Century up until the early 1950s. This course is designed to reveal the origins of modern jazz and conventional jazz performance practices.

MUSC 2080 History of Music 4 Cr.Hrs.3 (Formerly 033.208) A study of the changing styles, forms and contexts of music from the late 18th century to 1915. *Prerequisite:* MUSC 2070 (or 033.207) and MUSC 2110 (or 033.211) or consent of the Faculty. First offering in the 1998-99 academic year.

MUSC 2082 Jazz History 2 Cr.Hrs.3 A broad survey of jazz styles from 1950 to the present, with an emphasis on the development of contemporary performance practices. *Prerequisite:* MUSC 2072 or consent of the Faculty.

MUSC 2110 Music Theory 3 Cr.Hrs.3 (Formerly 033.211) An examination of the idioms of instrumental melody through the writing and analysis of triple paraphrase, triple- and quadruple-rhythm counterpoint in two parts, and chromatic homophony leading to the Minuet and binary form. *Prerequisite:* MUSC 1120 (or 033.112) or the consent of the Faculty.

MUSC 2112 Jazz Theory 1 Cr.Hrs.3 This course is designed to develop fluency in the writing and recognition of the elements of jazz: melodic and harmonic intervals, modes and scales, rhythm and meter, harmonic structure, and the principles of melodic and homophonic design. *Prerequisite:* MUSC 1120 (or 033.112) or consent of the Faculty.

MUSC 2120 Music Theory 4 Cr.Hrs.3 (Formerly 033.212) An examination of the diffusion of tonality in instrumental textures through the writing and analysis of chromatic paraphrase, florid counterpoint in two parts and chromatically-extended homophony leading to the Cavatina and ternary form. *Prerequisite:* MUSC 2110 (or 033.211) or consent of the Faculty.

MUSC 2122 Jazz Theory 2 Cr.Hrs.3 A continuation of Jazz Theory 1. New topics will include transcription analysis, transposition of lead sheets, modal and substitute harmony. *Prerequisite:* MUSC 2112 or consent of the Faculty.

MUSC 2180 Ensemble Cr.Hrs.2 (Formerly 033.218) Participation in University Symphony Orchestra, University Wind Ensemble, Women's Choir, Bison Men's Chorus, University Jazz Orchestra, University Concert Band or University Singers, as is appropriate to the student's background and/or major applied area (placement to be determined by the ensemble committee).

MUSC 2182 Jazz Ensemble 2 Cr.Hrs.2 Participation in jazz ensemble(s) as assigned by the ensemble committee. *Prerequisite:* MUSC 1182 or consent of the Faculty.

MUSC 2190 Ensemble Cr.Hrs.2 (Formerly 033.219) Participation in a Faculty Ensemble other than the one designated as appropriate to the student's background and/or major applied area (to be chosen in consultation with the Faculty).

MUSC 2192 Jazz Improvisation 1 Cr.Hrs.2 A course designed to give the student practical application of rhythmic devices, rhythmic modes, melodic and harmonic devices, scales, chords, and substitutions in the context of song forms, song fragments, repertoire. The student will be required to keep a journal of melodic devices and original jazz compositions. *Prerequisite:* MUSC 1120 (or 033.112) or consent of the Faculty.

MUSC 2360 Keyboard Skills 2 Cr.Hrs.3 (Formerly 033.236) A continuation of the previously required MUSC 1360, with emphasis on stylistic melody accompaniment, modulation and transposition. Score reading and figured bass playing are included. For Keyboard Majors. *Prerequisites:* MUSC 1120 (or 033.112) or consent of the Faculty.

MUSC 2380 Basic Music Skills 3 Cr.Hrs.2 (Formerly 033.238) A continuation of MUSC 1390.

MUSC 2390 Basic Music Skills 4 Cr.Hrs.2 (Formerly 033.239) A continuation of MUSC 2380. *Prerequisite:* MUSC 2380 (or 033.238).

MUSC 2400 Major Practical Study Cr.Hrs.6 (Formerly 033.240) Individual instruction, normally in the area chosen in MUSC 1400 (or 033.140). An important constituent of the grading procedure for this course is performance in and attendance at the recitals/concerts of the Faculty. For Music students only.

MUSC 2460 Conducting Cr.Hrs.3 (Formerly 033.246) The principles and development of baton technique and expressive gestures. Fundamentals of vocal and instrumental score reading, preparation and interpretation. *Prerequisites:* MUSC 1120 (or 033.112) or equivalent, or consent of the Faculty.

MUSC 2480 Minor Practical Study Cr.Hrs.3 (Formerly 033.248) Individual instruction in an area other than that selected for MUSC 2400. Normally a continuation of MUSC 1460. Written consent of the director is required to register.

MUSC 3020 History and Performance of Jazz Cr.Hrs.3 (Formerly 033.302) A course on the nature and processes of jazz in terms of its historical background and development in the United States.

MUSC 3030 History of Music in Worship Cr.Hrs.3 (Formerly 033.303) A consideration of the various modes of worship within the Judeo-Christian tradition, together with the music associated with these modes, historically and at present.

MUSC 3050 Research Methods Cr.Hrs.3 (Formerly 033.305) Techniques of bibliography and expository writing in music. Minor research projects in selected areas; the use of primary and secondary sources.

MUSC 3090 Introduction to Ethnomusicology Cr.Hrs.3 (Formerly 033.309) A study of style, performance methods and social role of selected non-Western and indigenous Western music, with particular emphasis on native Canadian music, through readings in field studies and methodology.

MUSC 3100 Opera Repertoire Cr.Hrs.3 (Formerly 033.310) The nature of the opera, its beginnings and development to modern times.

MUSC 3110 Chamber Music Repertoire Cr.Hrs.3 (Formerly 033.311) A survey of the mainstream of chamber music, from Purcell to the present.

MUSC 3112 Jazz Composition and Arranging 1 Cr.Hrs.3 A study of the fundamentals of part writing such as instrumental range and transposition, various styles of unison writing, simple harmonic writing, melodic, harmonic and rhythmic devices along with standard and non-standard song structures. Course will culminate in a recital of student compositions and arrangements. *Prerequisite:* MUSC 2112 or consent of the Faculty.

MUSC 3130 Music for Children 1 Cr.Hrs.6 (Formerly 033.313) The philosophy, techniques and materials in Orff-Schulwerk, including practical activities in the areas of Basic Orff, creative movement, recorder, aural skills and choral techniques. Applicants should have a knowledge of music rudiments. *Prerequisite:* a grade of "C" or better in MUSC 1930 (or 033.193) or equivalent preparation (CC grade 4 theory: RCT grade 2 theory; an introductory Orff-Schulwerk course) or consent of the Faculty.

MUSC 3140 Music for Children 2 Cr.Hrs.6 (Formerly 033.314) Further study of the Orff-Schulwerk approach to music education, including the areas of Basic Orff, creative movement, recorder, aural skills, improvisation and choral techniques. *Prerequisite:* a grade of "C+" or better in MUSC 3130 (or 033.313) or equivalent preparation, plus consent of the Faculty.

MUSC 3150 Orchestration Cr.Hrs.3 (Formerly 033.315) A study of the technical capabilities and tonal characteristics of orchestral instruments, as well as practical scoring and arranging for various groups, from chamber to full orchestra and band. *Prerequisite:* MUSC 2120 (or 033.212) or consent of the Faculty. Required course for Composition majors.

MUSC 3180 Ensemble Cr.Hrs.2 (Formerly 033.318) Participation in University Symphony Orchestra, University Wind Ensemble, Women's Choir, Bison Men's Chorus, University Jazz Orchestra, University Concert Band or University Singers, as is appropriate to the student's background and/or major applied area (placement to be determined by ensemble committee).

MUSC 3182 Jazz Ensemble 3 Cr.Hrs.2 Participation in jazz ensemble(s) as assigned by the ensemble committee. *Prerequisite:* MUSC 2182 or consent of the Faculty.

MUSC 3190 Ensemble Cr.Hrs.2 (Formerly 033.319) Participation in a Faculty Ensemble other than the one designated as appropriate to MUSC 3180 (or 033.318) (to be chosen in consultation with the Faculty).

MUSC 3192 Jazz Improvisation 2 Cr.Hrs.2 A continuation of Jazz Improvisation 1. Rhythmic devices, rhythmic modes, melodic and harmonic devices, scales, chords and substitutions in the context of song form, song fragments, repertoire. The student will be required to keep a journal of melodic devices and original jazz compositions. *Prerequisite:* MUSC 2192 or consent of the Faculty.

MUSC 3230 Acoustics of Music Cr.Hrs.3 (Formerly 033.323) A study of the physical basis of music; consideration of the nature of musical sound, tone production of typical musical instruments, scales, and temperaments, and architectural acoustics. Experiments and projects.

MUSC 3270 Performance Skills Cr.Hrs.3 (Formerly 033.327) For performance majors in the Faculty. Provides training in performance-related skills of the music profession, including such topics as acting, body awareness, self-promotion, career management, master classes, concert organizing, concert promotion and participation.

MUSC 3272 Jazz Performance Skills Cr.Hrs.3 A course designed to equip the student with the techniques necessary to rehearse, interact and perform effectively with an ensemble in various situations.

MUSC 3300 Composition Study Cr.Hrs.6 (Formerly 033.330) Individual instruction in composition. For Music students only.

MUSC 3360 Topics in Music Education Cr.Hrs.3 (Formerly 033.336) This course may vary from year to year depending on the needs and interests of instructors and students.

MUSC 3370 Topics in Music Education Cr.Hrs.3 (Formerly 033.337) This course may vary from year to year depending on the needs and interests of instructors and students.

MUSC 3380 From Rock to Rap and Beyond: A History of Popular Music in the Later 20th Century Cr.Hrs.3 (Formerly 033.338) A survey of popular music in North America and Britain from the mid-sixties to the present, beginning with the two foremost bands of the British Invasion, the Beatles and Stones, and the development of folk rock and psychedelic rock. Coverage of the seventies consists of a survey of the various genres of mainstream and album oriented rock while coverage of the eighties juxtaposes the superstars of MTV with radical developments in rap/hip hop and punk/new wave. The nineties focuses on the continual mainstreaming of music on the edge of rap, alternative and world beat.

MUSC 3390 From Ragtime to Rock'n'Roll: A History of Popular Music in the 20th Century Cr.Hrs.3 (Formerly 033.339) A survey of popular music in North America

from the ragtime craze and Tin Pan Alley tradition, through the development of blues and country to the emergence of Rhythm and Blues and Rock'n'Roll to the beginnings of the British Invasion.

MUSC 3442 Jazz Pedagogy 1 Cr.Hrs.3 A course designed to instruct jazz musicians on procedure and methodology for teaching jazz song form, rhythmic concepts, repertoire and history to K-8 students. Class members will teach and perform with students from the Faculty Preparatory Division.

MUSC 3470 Major Practical Study Cr.Hrs.6 (Formerly 033.347) Individual instruction, normally in the area chosen in MUSC 2400 (or 033.240). An important constituent of the grading procedure for this course is performance in and attendance at the recitals/concerts of the Faculty. For Music students only.

MUSC 3480 Minor Practical Study Cr.Hrs.3 (Formerly 033.348) Individual instruction in an area other than that selected for Major Practical Study. Normally a continuation of MUSC 2480. Written consent from the Faculty is required prior to registration.

MUSC 3550 Recital 1 Cr.Hrs.3 (Formerly 033.355) *Prerequisite:* consent of the instructor and the director required.

MUSC 3552 Jazz Recital 1 Cr.Hrs.6 A performance of works written by the student in Jazz Improvisation and Jazz Composition and Arranging, along with repertoire from Jazz Ensemble classes.

MUSC 3600 Conducting Cr.Hrs.3 (Formerly 033.360) Development of the conducting craft including the use of the baton, effective verbal and non-verbal rehearsal skills and practise in score preparation.

MUSC 3620 Independent Study 1 Cr.Hrs.3 (Formerly 033.362) Individual project designed by the student and a supervising faculty member. This study may be in an academic or applied area. Approval from the Faculty is required.

MUSC 3650 Electroacoustic Music Cr.Hrs.3 An introduction to electroacoustic music composition with the focus on acousmatic music. The course covers sound aesthetics, historical perspective of electro-acoustic music, repertoire and basic studio techniques such as sound editing, digital signal processing, multi channel techniques and sound mixing.

MUSC 3690 Percussion Techniques Cr.Hrs.3 (Formerly 033.369) Class instruction in percussion instruments. Development of basic playing techniques and examination of materials and procedures for individual and group instruction.

MUSC 3730 Early Music Development Cr.Hrs.3 (Formerly 033.373) Procedures and materials for the development of musicality in children through listening activities, movement, creativity, singing and classroom instruments.

MUSC 3770 Vocal Techniques Cr.Hrs.3 (Formerly 033.377) Class instruction in vocal technique. Development of good vocal and choral sound and examination of materials and procedures for individual and group instruction.

MUSC 3780 Woodwind Techniques Cr.Hrs.3 (Formerly 033.378) Class instruction in woodwind instruments. Development of music playing techniques and examination of materials and procedures for individual and group instruction.

MUSC 3790 Brass Techniques Cr.Hrs.3 (Formerly 033.379) Class instruction in brass instruments. Development of basic playing techniques and examination of materials and procedures for individual and group instruction.

MUSC 3800 String Techniques Cr.Hrs.3 (Formerly 033.380) Class instruction in string instruments. Development of basic playing techniques and examination of materials and procedures for individual and group instruction.

MUSC 3820 Topics in Music Cr.Hrs.3 (Formerly 033.382) This course may vary from year to year depending on the needs and interests of instructors and students.

MUSC 3830 Topics in Music Cr.Hrs.3 (Formerly 033.383) This course may vary from year to year depending on the needs and interests of instructors and students.

MUSC 3840 Topics in Music Cr.Hrs.3 (Formerly 033.384) This course may vary from year to year depending on the needs and interests of instructors and students.

MUSC 3850 Topics in Music Cr.Hrs.3 (Formerly 033.385) This course may vary from year to year depending on the needs and interests of instructors and students.

MUSC 3880 Jazz Ensemble Techniques Cr.Hrs.3 (Formerly 033.388) Procedures for organizing, rehearsing, and directing small and large group jazz ensembles. Study of repertoire and performance materials, with emphasis on personal understanding of jazz improvisation and style. *Prerequisite:* enrollment in the B.Mus./B.Ed. integrated program or consent of the Faculty.

MUSC 3960 Music of the Twentieth Century 1 Cr.Hrs.3 (Formerly 033.396) An introduction to music written between 1900 and 1945. Works will be examined from both a compositional/theoretical perspective and in terms of their historical/social/philosophical contexts. *Prerequisites:* MUSC 2120 (or 033.212) and MUSC 2070 (or 033.207) and MUSC 2080 (or 033.208).

MUSC 3970 Music of the Twentieth Century 2 Cr.Hrs.3 (Formerly 033.397) A continuation of MUSC 3960, examining works from 1945 to the present. *Prerequisites:* MUSC 3960 (or 033.396) and MUSC 2120 (or 033.212) or consent of the instructor.

MUSC 4010 French Diction and Repertoire Cr.Hrs.3 (Formerly 033.401) Specialized instruction in French diction, translation and transcription using the International Phonetic Alphabet, with direct application to performance activities in French vocal repertoire. This course will be rotated on a three-year cycle with MUSC 4020 (or 033.402) and MUSC 4030 (or 033.403).

MUSC 4020 Italian Diction and Repertoire Cr.Hrs.3 (Formerly 033.402) Specialized instruction in Italian diction, translation and transcription using the International Phonetic Alphabet, with direct application to performance activities in Italian vocal repertoire. This course will be rotated on a three-year cycle with MUSC 4010 (or 033.401) and MUSC 4030 (or 033.403).

MUSC 4030 German Diction and Repertoire Cr.Hrs.3 (Formerly 033.403) Special-

ized instruction in German diction, translation and transcription using the International Phonetic Alphabet, with direct application to performance activities in German vocal repertoire. This course will be rotated on a three-year cycle with MUSC 4010 (or 033.401) and MUSC 4020 (or 033.402).

MUSC 4060 History of Music 6 Cr.Hrs.3 (Formerly 033.406) A study of European music from the Greek Aesthetic and practical roots to the Trecento. *Prerequisites:* MUSC 2120 (or 033.212) and MUSC 3970 (or 033.397), or consent of the Faculty.

MUSC 4070 History of Music 7 Cr.Hrs.3 (Formerly 033.407) A study of European music from the Ars nova to 1600. *Prerequisites:* MUSC 2120 (or 033.212) and MUSC 3170 (or 033.317), or consent of the Faculty.

MUSC 4110 Special Area Paper Cr.Hrs.3 (Formerly 033.411) The student will select a particular area of special interest or significance, work under supervision of a faculty member, and present results in an extended paper. *Prerequisites:* MUSC 2120 (or 033.212) and MUSC 2070 (or 033.207), or consent of the Faculty.

MUSC 4112 Jazz Composition and Arranging 2 Cr.Hrs.3 A continuation of Jazz Composition and Arranging 1. The student will write for larger ensembles, including jazz orchestra. Course will culminate in a recital of student compositions and arrangements. *Prerequisite:* MUSC 3112 or consent of the Faculty.

MUSC 4130 History of Women in Music Cr.Hrs.3 (Formerly 033.413) A study of the female contribution to the art of music from the Middle Ages to the present; emphasis on the changing roles of, and attitudes towards, women as composers and performers.

MUSC 4150 Choral Repertoire Cr.Hrs.3 (Formerly 033.415) A study and examination of choral repertoire suitable for community and church choir.

MUSC 4160 Major Practical Study Cr.Hrs.3 (Formerly 033.416) Individual instruction, normally in the area chosen in MUSC 3470 (or 033.347). An important constituent of the grading procedure for this course is performance in and attendance at the recitals/concerts of the Faculty. For Music students only.

MUSC 4180 Ensemble Cr.Hrs.2 (Formerly 033.418) Participation in University Symphony Orchestra, University Wind Ensemble, Women's Choir, Bison Men's Chorus, University Jazz Orchestra, University Concert Band or University Singers, as is appropriate to the student's background and/or major applied area (placement to be determined by ensemble committee).

MUSC 4182 Jazz Ensemble 4 Cr.Hrs.2 Participation in jazz ensemble(s) as assigned by the ensemble committee. *Prerequisite:* MUSC 3182 or consent of the Faculty.

MUSC 4190 Ensemble Cr.Hrs.2 (Formerly 033.419) Participation in a Faculty Ensemble other than the one designated as appropriate in MUSC 4180 (or 033.418) (to be chosen in consultation with the Faculty).

MUSC 4192 Jazz Improvisation 3 Cr.Hrs.2 A continuation of Jazz Improvisation 1 and 2. Rhythmic devices, rhythmic modes, melodic and harmonic devices, scales, intervallic devices, chords, and substitutions in the context of song forms, song fragments, repertoire. The student will be required to keep a journal of melodic devices and original jazz compositions. *Prerequisite:* MUSC 3192 or consent of the Faculty.

MUSC 4260 Composition Seminar Cr.Hrs.6 (Formerly 033.426) Consideration of various stylistic, formal and aesthetic problems of particular concern to the composer. Experimental and research projects: topics vary from year to year. May be repeated for credit with different subject matter. *Prerequisites:* MUSC 2120 (or 033.212), or consent of the Faculty.

MUSC 4300 Composition Study Cr.Hrs.6 (Formerly 033.430) A continuation of MUSC 3300; under the instructor's supervision, the student will compose a major work intended for performance at the conclusion of the course. For Music students only.

MUSC 4350 Music for Children 3 Cr.Hrs.6 (Formerly 033.435) Advanced study of the Orff-Schulwerk approach to music education. *Prerequisite:* a grade of "B" or better in MUSC 3140 (or 033.314), plus consent of the instructor.

MUSC 4360 Wind Repertoire Cr.Hrs.3 (Formerly 033.436) A selected survey of wind literature from 1500 to the present. *Prerequisite:* MUSC 4770 (033.477) and MUSC 4780 (033.478), or consent of the Faculty.

MUSC 4370 Wind Conducting Techniques Cr.Hrs.3 (Formerly 033.437) A study of the psychological, philosophical and practical aspects of conducting wind ensembles at all levels. (entry to professional). *Prerequisite:* MUSC 4770 (033.477) and MUSC 4780 (033.478), or consent of the Faculty.

MUSC 4380 Piano Repertoire Cr.Hrs.3 (Formerly 033.438) A comprehensive survey of major composers and their compositions for solo Piano. (Required course for piano Performance majors)

MUSC 4390 Piano Chamber Music Literature Seminar Cr.Hrs.3 (Formerly 033.439) A selected survey of piano chamber music.

MUSC 4430 Pedagogy and Repertoire Cr.Hrs.3 (Formerly 033.443) A consideration of approaches to the teaching of style and technique, through an examination of the repertoire for the student's major practical study.

MUSC 4440 Vocal Pedagogy Cr.Hrs.3 (Formerly 033.444) An exploration of the foundations of the singer's art and craft, including the physical nature of the singing

voice, stages of development, and various national, historical and individual pedagogical approaches to the teaching of singing. Required course for voice majors in Performance and General concentrations.

MUSC 4442 Jazz Pedagogy 2 Cr.Hrs.3 A continuation of Jazz Pedagogy 1, with a focus on high school students. Class members will teach and perform with students from the Faculty Preparatory Division. *Prerequisite:* MUSC 3442 or consent of the Faculty.

MUSC 4470 Major Practical Study Cr.Hrs.6 (Formerly 033.447) Individual instruction, normally in the area chosen in MUSC 3470 (or 033.347). An important constituent of the grading procedure for this course is performance in and attendance at the recitals/concerts of the Faculty of Music. For Music students only.

MUSC 4480 Minor Practical Study Cr.Hrs.3 (Formerly 033.448) Individual instruction in an area other than that selected for Major Practical Study. Normally a continuation of MUSC 3480. Written consent of the director is required prior to registration.

MUSC 4490 Piano Pedagogy Cr.Hrs.3 (Formerly 033.449) An introduction to teaching of styles and techniques through an examination of piano repertoire. (Required course for piano and organ majors in Performance and General Concentrations.)

MUSC 4520 Coaching Skills Cr.Hrs.3 (Formerly 033.452) Introduction to and training in philosophies and techniques of vocal coaching including both song and operatic repertoire.

MUSC 4530 Operatic Piano Cr.Hrs.3 (Formerly 033.453) Development of skills required of an operatic pianist, including standard arias, operatic scores, working with conductors and developing an orchestral sound. May include participation in community opera events. (by audition only)

MUSC 4560 Recital 2 Cr.Hrs.6 (Formerly 033.456) Preparation and performance of a public, full-length graduation recital. The program, which must be approved by the applied instructor and the director, will normally include a major chamber music work.

MUSC 4562 Jazz Recital 2 Cr.Hrs.6 A performance of works written by the student in Jazz Improvisation and Jazz Composition and Arranging, along with repertoire from Jazz Ensemble classes.

MUSC 4630 20th to 21st Century Piano Repertoire Cr.Hrs.3 (Formerly 033.463) Piano repertoire from 1900 to the present.

MUSC 4650 Interactive Computer Music Cr.Hrs.3 An introduction to interactive computer music composition. The course covers different techniques for interaction between performers and a computer. Experiments will be done using major software for live MIDI and audio processing. The course also covers sound synthesis. Possibilities are given to write with either projects involving performers or multi-disciplinary projects (for example, installation including visual elements).

MUSC 4660 Computer Assisted Composition Cr.Hrs.3 An introduction to Computer Assisted Composition. The course covers a variety of mathematical models for structuring musical parameters, such as probability, iterative functions, spectral pitch organization, rule-based systems and morphological models. Different environments using the Lisp language are used as a base for experiments.

MUSC 4750 Choral Techniques 1 Cr.Hrs.3 (Formerly 033.475) Procedures for organizing, rehearsing and conducting various types of choral ensembles. Examination of performance materials.

MUSC 4760 Choral Techniques 2 Cr.Hrs.3 (Formerly 033.476) Continued study in rehearsing and conducting standard choral ensembles. Study of repertoire and related literature. *Prerequisite:* MUSC 4750 (or 033.475).

MUSC 4770 Band and Orchestral Techniques 1 Cr.Hrs.3 (Formerly 033.477) The historical development and present instrumentation of standard instrumental ensembles. Procedures for organizing, rehearsing and conducting bands and orchestras. Examination of performance and instructional materials.

MUSC 4780 Band and Orchestral Techniques 2 Cr.Hrs.3 (Formerly 033.478) Continued study in rehearsing and conducting standard instrumental ensembles. Study of repertoire and related literature. *Prerequisite:* MUSC 4770 (or 033.477).

8.2 Post-Baccalaureate

MUSC 5180 Ensemble Cr.Hrs.3 (Formerly 033.518) Participation in a Faculty ensemble as is appropriate to the student's background and/or major applied area. (To be decided by the Major Practical Study Teacher in consultation with the ensemble committee).

MUSC 5400 Major Practical Study Cr.Hrs.6 (Formerly 033.540) Individual instruction in the instrument area of study at the Post-Baccalaureate level.

MUSC 5560 Recital Cr.Hrs.6 (Formerly 033.556) Preparation and performance of a public, full-length recital at the Post-Baccalaureate level. The program, must be approved by the applied instructor and the jury committee judging the recital. It should include an appropriate balance of solo and chamber repertoire.

Beaton, J.I., B.N. (Manitoba), M.A. (Washington), Ph.D. (Texas).

Professor Emeritus

Glass, H., B.Sc., M.A., M.Ed., Ed. D. (Columbia), L.L.D. (Memorial), L.L.D. (Western Ontario), L.L.D. (St. Francis Xavier), L.L.D. (Montreal), D.Sc. (McGill).

Senior Scholars

Cameron, C., B.A. (Queen's), M.S. (Boston), Ph.D. (Wayne State); **Gupton, A.**, B.S. (California), M.N., Ph.D. (Manitoba).

Professors

Crooks, D., B.Sc.N (Toronto), M.Sc.N (Western Ontario), D.NSc (New York); **Degner, L.F.**, B.N. (Manitoba), M.A. (Washington), Ph.D. (Michigan).

Associate Professors

Ateah, C.A., B.N. (Manitoba), M.Ed. (Alberta), Ph.D. (Manitoba); **Care, W.D.**, B.N., M.Ed. (Manitoba), Ed.D. (Nova Southeastern); **Chernomas, W.**, B.Sc. (Bridgeport), M.A. (New York), Ph.D. (Maryland); **Clarke, D.**, B.Sc., B.N., M.N., Ph.D. (Manitoba); **Diehl-Jones, W.**, B.Sc. (Brandon), M.Sc., Ph.D. (Manitoba), B.Sc.N. (Western Ontario); **Guse, L.W.**, B.N., M.N., Ph.D. (Manitoba); **Hack, T.**, B.Comm. (Saskatchewan), B.Sc., M.A., Ph.D. (Manitoba); **Hawranik, P.**, B.N., M.N., Ph.D. (Manitoba); **Heaman, M.I.**, B.N., M.N., Ph.D. (Manitoba); **McClement, S.**, B.Sc.N. (Victoria), M.N., Ph.D. (Manitoba); **McMillan, D.**, B.A., B.Sc.N. (Queen's), M.N. (Manitoba), Ph.D. (Washington); **Naimark, B.**, B.N., M.Sc., Ph.D. (Manitoba); **Park, C.**, B.N. (Manitoba), M.Ed., Ph.D. (Alberta); **Sawatzky, J.V.**, B.N., M.N., Ph.D. (Manitoba); **Scanlan, J.**, B.N., M.Ed., Ph.D. (Manitoba); **Woodgate, R.**, B.N., M.N., Ph.D. (Manitoba).

Assistant Professors

Cohen, B., B.A. (Carleton), B.N.S. (Ottawa), M.Sc., Ph.D. (Manitoba); **Currie, J.**, B.N. (Manitoba), M.S.A. (Central Mich); **Edwards, M.**, B.Sc., (Waterloo), B.N., M.N. (Manitoba), Ph.D. (Toronto); **Katz, A.**, B.N., M.N., Ph.D. (Manitoba); **Lobchuk, M.**, B.N., M.N., Ph.D. (Manitoba); **Mordoch, E.**, B.N., M.N. (Manitoba), Ph.D. (UBC); **Schultz, A.**, B.S.N. (Victoria), M.N. (Victoria), Ph.D. (BC); **Scruby, L.S.**, B.N. (McGill), M.S. (Minnesota), Ph.D. (Manitoba); **Temple, B.**, B.N. (Brandon), M.N. (Manitoba), Ph.D. (UBC); **Wall, K.**, B.Sc.N., (McMaster), M.N. (Manitoba).

Lecturers

Lahaie, U., B.N., M.N. (Manitoba).

Instructors

Allan, L., B.Sc.N. (Brandon); **Allard, M.**, B.N. (Manitoba); **Allman-Anderson, P.**, B.Sc. (Andrews), M.Sc. (Aston); **Al-Omran, H. K.**, B.S.N. (Jordan), M.S.N. (Georgetown), Ph.D. (Wayne State); **Anderson, S.**, B.N. (Manitoba); **Anderson, S. L.**, B.Sc.N. (St. Francois Xavier); **Ashcroft, T.**, B.N., M.N. (Manitoba); **Barbeau, S. J.**, B.N. (Manitoba); **Brown, A.**, B.Sc. (Ryerson); **Bowser, T.**, B.N. (Manitoba); **Brown, S. J.**, B.Sc., B.N., M.N. (Manitoba); **Browning, J. P.**, B.Sc.N. (Brandon); **Currie, L. M.**, B.N. (Manitoba); **Davis, P.**, B.Sc.N. (Saskatchewan), M.Ed. (Manitoba); **Dean, R.A.**, B.N. (Manitoba), M.Sc. (Minnesota), Ph.D. (Manitoba); **Driedger, M.**, B.N. (Manitoba); **Duff, E.**, B.Sc.N. (Brandon); **Dyna, A. M.**, B.A. (Winnipeg); **Enns, C. L.**, B.N., M.N. (Manitoba); **Enns, M.**, B.N., (Manitoba); **Fallis, W.**, B.Sc.N. (Windsor), M.N. (Manitoba), Ph.D. (Washington); **Ferguson, L.**, B.N. (Manitoba); **Fletcher, K.**, B.A., B.N. (Manitoba), M.A. (California Institute), M.N. (Manitoba); **Gessler, S.**, R.N., B.A., M.P.A. (Manitoba/Winnipeg); **Gierys, K. L.**, B.N. (Manitoba); **Goodwin, B.**, B.A., B.N., M.N. (Manitoba); **Griffith, P.**, B.N. (Manitoba), M.P.A. (Winnipeg); **Hamelin, K. J.**, B.A. (Winnipeg), M.N. (Manitoba); **Harder, N.**, B.N., M.P.A. (Manitoba); **Harwood, R.**, B.N. (Manitoba), M.N. (Providence); **Hrabowych, E.**, B.N. (Manitoba); **Hughes, L.**, B.A., B.Sc.N. (Saskatchewan), M. Public Admin (Manitoba); **Jensen, F.**, B.N. (Queens), M.N.Sc. (Pittsburgh); **Johnson, L. K.**, B.N., M.N. (Manitoba); **Johnston, P. D.**, B.Sc.N. (Victoria), M.N. (Manitoba); **Klimczak, M.**, B.N., M.N. (Manitoba); **Kluka, S.M.**, B.N., M.N. (Manitoba), Ph.D. (UBC); **Kozun, D.**, B.N. (Manitoba); **Kroeker, L. D.**, B.N. (Manitoba); **Leferink, E.**, B.S.N. (Saskatchewan), M.N. (Manitoba); **Lewthwaite, B. J.**, B.N., M.N. (Manitoba); **Maillard, C.J.**, B.Sc.N. (Brandon), M.N. (Athabasca); **Mairs, S. G.**, B.Sc.N. (Ottawa), M.H.Sc.N. (Clarks Stuart Australia); **May, S.**, B.N., M.N. (Manitoba); **Maynard, H. J.**, B.N., M.N. (Manitoba); **McKay, M.L.**, B.N., M.N., M.A., Ph.D. (Manitoba); **Mertin, S. L.**, B.N., M.N. (Manitoba); **Mossman Sims, R. J.**, B.N. (Manitoba); **Mugweni, L.**, B.N. (Manitoba); **Neufeld, R.**, B.N., M.N. (Manitoba); **Neufeld, K. R.**, B.N., M.N. (Manitoba); **Nordick, C.**, B.Sc., B.N. (Manitoba); **O'Leary, S. A.**, B.Sc. (Dalhousie), M.Sc. (North Dakota); **Pangman, V.C.**, B.A., M.Ed., M.N. (Manitoba); **Peters-Watral, B.**, B.N. M.N. (Manitoba); **Plouffe, J.**, B.Sc.N. (Alberta), M.N. (Manitoba); **Rauliuk, M.**, B.Sc.N. (Victoria), M.N. (Manitoba); **Rush, J. P.**, B.Sc.N., M.H.S.N. (McMaster), Ph.D. (Toronto); **Sawatzky-Dickson, D. M.**, B.N., M.N. (Manitoba); **Schnell-Hoehn, K.**, B.N., M.N. (Manitoba); **Secco, L.**, B.Sc.N. (St. Francis Xavier), M.N., Ph.D. (Manitoba); **Seguire, M.**, B.N. (Saskatchewan), M.N. (Manitoba); **Shapiro, C.**, B.N., M.N. (Manitoba); **Shuster, S.**, B.N. (Manitoba), M.N. (British Columbia); **Sidloski, T.**, B.N. (Manitoba); **Stutsky, B.**, B.N. (Manitoba), M.Sc.N. (Western Ontario); **Sword, W. A.**, B.Sc.N., M.Sc., (McMaster), Ph.D. (Guelph); **Taylor-Mendes, C.**, B.A., M.Ed. (Manitoba); **Toth, J.**, B.A., M.N. (Manitoba); **Tretiak, R. E.**, B.Sc.N. (Saskatchewan), M.Sc.A. (Central Michigan); **Venkatesh, P.**, B.Sc.N. (Windsor), M.N. (Manitoba); **Wallis, B.**, B.N., M.N. (Manitoba); **Wheeler, B. J.**, B.N., M.N. (Manitoba); **Whittaker, C.**, B.N., M.N. (Manitoba); **Wiebe, K. A.**, B.N., B.Theological (CMC), B.A. (Manitoba); **Woloshyn, K. A.**, B.N. (Manitoba); **Wotton, D.**, B.N. (Manitoba); **Yaworski, H.**, B.N., M.N. (Manitoba); **Zeran, V.**, B.Sc.N. (McMaster), Ms.C. (Portland).

SECTION 2: Nursing Education

The mission of the Faculty of Nursing of the University of Manitoba is to advance, communicate, and preserve nursing knowledge and to prepare individuals for the practice of professional nursing, thereby contributing to the health and well-being of individuals, groups and communities.

Nursing as a profession is an art and a science, placing its focus on the health care of the person, the family, and the community. The nurse is a sustaining force in promoting and maintaining health, and provides care when health is threatened by illness or disability. The professional nurse views people in their entirety in providing a service essential to community health and welfare.

The undergraduate programs have been planned in the belief that the professional nurse is able to give nursing care in a variety of health care settings including the skills to function in primary health care; to use basic communication skills competently in organizing, planning, and directing the work of others; to collaborate with allied professional and citizen

groups for the improvement of health services; to maintain personal identity; to attain individual satisfaction in daily life and, at the same time, to serve the community. These responsibilities are accepted as contributing to nursing research, as upholding the ideals of the nursing profession, and as working toward the profession's continued improvement and growth.

The first Nursing program at the University of Manitoba was offered in 1943. One-year certificate courses prepared registered nurses either for teaching and supervision or for public health nursing.

As the demand for nurses with preparation beyond the one-year certificate courses grew critical, two program sequences leading to the degree of Bachelor of Nursing were designed. In 1962, the program sequence for registered nurses was offered, and in 1963 the program sequence for students from high school or other faculties in the university was established. A new program for applicants with a bachelor's degree in another field and for registered nurses was established in 1971. These programs were replaced by a four-year curriculum instituted in 1975 for all applicants to the School of Nursing. A Master of Nursing program was introduced at the Faculty of Nursing in 1979. Modification to the existing program for registered nurses was implemented in 1982, and in 1986, a revised two-year Baccalaureate Nursing Program for Registered Nurses was approved. A two-year Northern Bachelor of Nursing Program (NBNP) for registered nurses in The Pas was offered from 1990-1995. In 2002, the current Baccalaureate Program for Registered Nurses was further revised.

The Four-Year Baccalaureate Nursing Program was revised and first offered as the revised Baccalaureate Nursing Program (Four-Year) in 1990. A collaborative undergraduate program between the University of Manitoba and Health Sciences Centre commenced 1991. In 1992, the School of Nursing attained faculty status. In 1992, the collaborative undergraduate program between the University of Manitoba and St. Boniface General Hospital was initiated. These collaborative programs ceased in 1998.

In 1995, collaboration with Brandon General Hospital began. The Four-Year Baccalaureate nursing program offered through the University of Manitoba, Brandon site, was gradually phased into the School of Health Studies at Brandon University. The University of Manitoba program physically relocated to the new School of Health Studies building in the summer of 2003. Brandon University admitted its first class in September 2004. The University of Manitoba offered the final year of its program with Brandon in 2005-2006.

In 1996, under the auspices of the Manitoba Nursing Education Strategy (MNES), the Faculty of Nursing extended its Four-Year undergraduate program to include urban, rural and northern sites. New partnerships with Red River College and Keewatin Community College (renamed University College of the North) resulted, as well as a redefinition of the previous hospital collaborations as these hospitals assumed different roles in nursing education, practice and research. As part of the northern sites initiative, the Four-Year Baccalaureate Nursing Program began in Norway House in 1996. Commencing in 2003, only the first year Nursing and general studies courses have been offered in Norway House. Upon completion of entrance requirements, eligible students may apply for admission to one of the Faculty of Nursing sites.

In addition to the Bachelor of Nursing and Master of Nursing programs, the Faculty offers courses and programs designed to provide health care professionals with the opportunity to upgrade skills and education. In partnership with the Manitoba Keewatinowik Okimakanak (MKO), primary care skills courses were first offered in 1997 for nurses practising in northern Manitoba and rural settings to address the scope of practice required of nurses employed by the First Nations and Inuit Health Branch and First Nations communities in expanded nursing care and public health. The primary care skills courses permit nurses to meet the scope of practice for nurses working in nursing stations and rural settings. Community health nursing courses are offered for non-baccalaureate nurses employed in health centres and nursing stations. In partnership with the Health Sciences Centre and the St. Boniface General Hospital, the faculty offers adult intensive care nursing courses to prepare highly skilled registered nurses who are able to care for critically ill patients.

The curriculum of the Four-Year Baccalaureate Nursing Program was further revised and implemented commencing in 2006-2007.

SECTION 3: Admission to the Faculty of Nursing

3.1 Degree Offered

Bachelor of Nursing

Four-Year Baccalaureate Nursing Program: The program consists of 90 credit hours of Nursing courses and 39 credit hours of Arts and Science courses. Normally, it takes four years to complete the program, including University 1. A student has ten years to complete the Four-Year undergraduate program.

Baccalaureate Program for Registered Nurses: This program is specifically designed for active practicing Registered Nurses. It consists of 33 credit hours of Nursing courses and 12 credit hours of courses from Arts, Science, or a professional faculty. A student has seven years to complete the Baccalaureate Program for Registered Nurses.

3.2 Admission Requirements: Four-Year Baccalaureate Nursing Program

The following is a summary of the admission requirements. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the Admissions Office, Enrolment Services, 424 University Centre; and the university's website.

Courses completed at recognized universities other than the University of Manitoba must be assessed as exact equivalents in order to meet the specific course requirements. Note: It may not be possible to establish equivalency of courses completed over 10 years prior to application. In those situations, required courses may have to be repeated. Only courses completed within 10 years prior to the date of admission to the Faculty of Nursing will be considered for transfer credit; however, all courses (regardless of age) within the most recent 60 credit hours of university level course work will be included in the calculation of adjusted grade point average (AGPA).

Course requirements for admission: Four-Year Baccalaureate Nursing Program

Students must meet the entrance requirements under Option 1 or Option 2, and complete the University written English requirement to be eligible for admission (see Note 1). All required courses must be at a 1000 level or higher. "0900" level courses (e.g. ENGL 0930) are not accepted for admission or transfer credit. Preference will be given to Option 1 applicants. The lowest AGPA accepted in 2008 was 2.925 for Option 1, and 3.305 for Option 2.

The AGPA for admission will be calculated on the most recent 60 credit hours of university level course work. If an applicant has less than 60 credit hours, the AGPA will reflect all credit hours completed (i.e.: a minimum of 30 credit hours to a maximum of 60 credit hours).

The minimum AGPA of applicants admitted under Option 2 may be significantly higher than for Option 1 applicants. An AGPA higher than the minimum is recommended as admission may be competitive.

Note 1: According to University policy, students who have a completed undergraduate degree are exempt from the written English and math requirements (see appropriate section in Calendar for University policy on written English requirement).

Option 1

The above general requirements for admission, and:

All applicants must complete a minimum of 30 credit hours in the following identified courses (or their equivalent) with a minimum grade of "C" in each course before entering the Faculty of Nursing. The University written English requirement must be met. The minimum adjusted GPA for admission to the Faculty of Nursing under Option 1 is 2.5. The Faculty of Nursing may admit students from Option 1 with a GPA of 2.0-2.49 (in descending AGPA order) when space is available.

BIOL 1410 Anatomy of the Human Body (formerly ZOO 1320)
BIOL 1412 Physiology of the Human Body (formerly ZOO 1330)
NURS 1260 Human Growth & Development
NURS 1280 Introduction to Nursing
MBO 1220 Essentials of Microbiology (see Note 6)

3 credit hours of Humanities electives (see Note 2)
6 credit hours of Social Science courses (see Note 3)
6 credit hours of courses offered by the Faculty of Science
(see Notes 4, 5, and 6)

Note 2: Humanities: English, Philosophy, History, Religion, Languages, Classics, Native Studies, etc. Humanities information is found in the chapter for the Faculty of Arts, Additional Faculty Regulations and Policies section, 5.1.1. "0900" level courses are not accepted.

Note 3: Select from: Introduction to Psychology PSYC 1200 (6), or Introduction to Sociology SOC 1200 (6), or Human Origins and Antiquity ANTH 1210 (3) and Cultural Anthropology ANTH 1220 (3).

Note 4: With the exception of Geological Sciences (GEOL 1XX0), courses under the Clayton H. Riddell Faculty of Environment, Earth, and Resources do not meet the Science elective requirement if taken in 2003-2004 and later. 1000 level introductory Geological Sciences courses (GEOL 1XX0) now offered under the Clayton H. Riddell Faculty of Environment, Earth, and Resources, will be accepted as Science courses if taken prior to September 1, 2006.

Note 5: BIOL 1110 [Health and Health Professions] may not be used as a Science elective.

Note 6: Science Prerequisites. Students must meet the current Science prerequisites before registration for Science courses. See the chapter for the Faculty of Science for the current prerequisites. It is preferred that the above prerequisites have been completed within the last five years. Math 40S is a prerequisite for Microbiology and Statistics.

Option 2

The general requirements for admission, and:

All applicants must have completed at least 30 credit hours. The University written English requirement must be met (see Note 1). A minimum adjusted grade point average of 2.5 is required. A minimum grade of C is required in each of the following courses (or a minimum of 60% in the high school courses). Completed courses must include:

1000 level English (3 credit hours)

1000 level Science (3 credit hours)

Students who do not have these subjects in their university coursework must have completed the senior high school equivalent in English (40S – 2 credits) and Science (40S – 1 credit) with a minimum grade of 60% in each course.

Applicants from Diploma and Degree Nursing Programs Category

Applicants who have attended a nursing diploma or degree program, the completion of which would result in the graduate's eligibility to write the Canadian Registered Nurse Examination (or equivalent) in order to qualify for registration to practice as a Registered Nurse, must meet the admission requirements outlined below.

1. Meet admission requirements under Option 1 or Option 2, including the competitive AGPA in the year of application.

2. Submit, in writing, the reason for leaving the previous or current program and for applying to the Four-Year Baccalaureate Nursing Program at the University of Manitoba.

3. The Director, Dean, Coordinator, or Head of the Nursing program in which the student was previously or is currently registered will be contacted by the Faculty of Nursing for information about the student's status in the previous or current nursing program (including matters pending) with regard to failures, probation, suspension, determination of professional unsuitability, disciplinary action, or other related matters.

The Admissions Committee reserves the right to deny admission to the University of Manitoba Nursing program based on any of the supplementary information.

Appeals of decision are limited to the question of procedural regularity only. The merits of the decision are not subject to review.

Special Consideration Category

The Special Consideration Category will consider applicants to the Fort Garry Site from Aboriginal populations of Canada. Applicants in this category must meet the minimum entrance requirements of Option 1 including a minimum AGPA of 2.5; however, they do not have to meet the competitive grade point average of admitted students in the admission year. Applicants must complete a supplementary application form that is sent by the Admissions Office following submission of the regular application. The Supplementary Application and following information are due no later than June 1:

1. A typed personal statement that identifies the reasons for selecting Nursing as a career choice; describes their education, employment, and volunteer experience; relates the significance of these experiences to their choice of Nursing as a career; and provides their reasons for applying in the Special Consideration category.

2. Three professional letters of reference that address the applicant's suitability for Nursing and potential for success. Examples of suitable references include a teacher, employer, clergy, and health professional, and not friends or family.

Selection is determined by the Admissions Committee.

In considering applications in this category, less weight will be given to background academic performance.

Up to five percent of admission spaces may be offered to Special Consideration Category applicants. The allocation of available spaces is entirely at the discretion of the Faculty of Nursing.

The Admissions Committee shall not be bound to admit the maximum percentage of applicants in the Special Consideration category in any given year.

The Admissions Committee reserves the right to consider the applicant who has applied for Special Consideration under the regular admission category, if it benefits the applicant.

Appeals of decisions are limited to the question of procedural regularity only. The merits of the decision are not subject to review.

Criminal Record Check/Child Abuse Registry Check

The College of Registered Nurses of Manitoba (CRNM), as well as many clinical agencies where Nursing students are placed for clinical practice, requires that all graduates of an approved nursing education program who wish to practice nursing in this province disclose information about any conviction for an offence under the Criminal Code (Canada), the Controlled Drugs and Substances Act (Canada), or the Food and Drugs Act (Canada) in order to be considered for eligibility for registration with the College. The review process by the Faculty of Nursing is independent of the review process conducted by the CRNM.

Accordingly, all successful applicants must provide a self-declaration of a criminal record and Child Abuse Registry listing following provisional admission to the Faculty of Nursing. Successful applicants are also required to submit an official Criminal Record Check, including a vulnerable persons search, and Child Abuse Registry check before being allowed to register for courses. Failure to disclose any adult criminal record or listing on the Child Abuse Registry will invalidate an applicant's application and shall result in automatic expulsion from the Faculty of Nursing if the applicant has been admitted. Any applicant on the Child Abuse Registry will be denied admission. A criminal conviction will not necessarily result in denial of admission to the Faculty of Nursing. However, criminal offences will be reviewed by a sub-committee of the Nursing Admissions Committee for the implications of the conviction in view of the professional mandate to protect the public.

Information on the self-declaration of a criminal record and Child Abuse Registry listing is provided in the Application Information Bulletin, available from Enrolment Services at 424 University Centre.

Advance Standing/Transfer Credit

Advance standing will be considered for courses completed at the University of Manitoba. Courses completed at other recognized institutions will be considered if completed within the past 10 years. Credit for previously completed nursing courses is not given if there has been a lapse of five years or more since last attendance in the program. Nursing courses from other universities will be considered for credit only if they have been completed within five years prior to admission to the Faculty of Nursing.

Norway House Site Admission Requirements

First year Nursing and general studies courses are offered in Norway House. Upon completion, eligible students may apply for admission to one of the Faculty of Nursing sites.

Advance Placement Option: LPN

Applicants who graduated from the Licensed Practical Nursing (LPN) Program from Assiniboine Community College within five years of admission to the Faculty of Nursing may be eligible for transfer credit. Applicants must meet admission requirements.

Advance Placement Option: RPN

Registered Psychiatric Nurses may be eligible for advanced standing in the Four-Year Baccalaureate Nursing Program. Applicants should inform the Faculty of their RPN status.

Professional Registration

A graduate of the Four-Year Baccalaureate Nursing Program must write the Canadian Registered Nurse Examination to become eligible to practice nursing. For information on registration in Manitoba, contact: The Registrar, College of Registered Nurses of Manitoba (CRNM), 890 Pembina Highway, Winnipeg, MB R3M 2M8.

Applicants for registration with the College of Registered Nurses of Manitoba (CRNM) are required to report any conviction for an offence under the Criminal Code (Canada), the Controlled Drugs and Substances Act (Canada) or the Food and Drugs Act (Canada). Please contact the CRNM for more information.

3.3 Admission Requirements: Baccalaureate Program for Registered Nurses

All admission requirements for applicants who are already Registered Nurses are described in detail in an applicant information bulletin that includes application deadline dates and application forms. This material is also available from Enrolment Services, 424 University Centre, and is posted on the university website.

Admission Requirements

- 1) Graduation from an approved diploma of nursing education program;
- 2) Current active practicing membership in a provincial, territorial, state, or national nursing association/college of registered nurses; and
- 3) A minimum of 1125 hours of nursing experience will normally be required for selection.

The selection of students is based upon academic standing and professional experience. If applications exceed the number of spaces available, the best qualified candidates will be selected.

Proof of Professional Registration

Active practicing membership must be maintained throughout the program in the jurisdiction under which the student is a practicing RN. Verification will be obtained annually from the College of Registered Nurses of Manitoba by the Faculty for returning Manitoba students.

Students from outside of Manitoba must submit proof of registration annually from the registering body to the Faculty of Nursing.

After admission and at any time prior to completing the program, students with any changes to their active practicing status with the College of Registered Nurses of Manitoba, (e.g., conditions placed on a registration or ineligibility for active practicing status), are required to report this information to the Associate Dean, Undergraduate Programs, Faculty of Nursing. Such changes will be reviewed on a case by case basis. Failure to report a change in status may result in disciplinary action.

Transfer of Credit

University credits earned outside of nursing diploma programs or earned as part of an incomplete degree may be considered for transfer of credit. If a required course in the baccalaureate program was earned as part of a nursing diploma program or as part of another degree, an alternative course must be substituted. Transfer of credit will be considered for university level nursing courses completed within the five years prior to admission. Credit for previous nursing courses is not given if there is a lapse of five years or more from the last date of attendance in the program. Credit for courses taken at other universities over 10 years prior to admission will not be granted credit.

Graduates of the Red River College Diploma Nursing Accelerated Program (DNAP) (est. 2000) will receive advanced standing in the Baccalaureate Program for Registered Nurses (BPRN) for the following courses, provided a minimum grade of C+ was achieved in each course for transfer: NURS 3210 Research Methods, NURS 4220 Law and Ethics, and non-nursing electives (6). The Nursing courses must have been completed within five years, and the non-Nursing courses completed within 10 years, prior to admission to the Faculty of Nursing. All remaining courses for the BPRN must be completed at the University of Manitoba in order to meet the residency requirement for the BPRN.

Transfer of Credit for Advanced Certificate Programs

No credit will be given for these certificates in the Baccalaureate Program for Registered Nurses.

SECTION 4: Academic Regulations

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Nursing has regulations and requirements, published below, that apply specifically to its students.

4.1 Regulations Applicable to the Four-Year Baccalaureate Nursing Program

Scholastic Progress

Students entering second, third, and fourth years of the Four-Year Baccalaureate Nursing Program must have a minimum Degree GPA of 2.5 to proceed in the program and a minimum Program GPA of 2.5 to be eligible for graduation. For further information, refer to: Academic Probation - Four-Year Baccalaureate Nursing Program.

Until the final disposition of a disciplinary appeal, students in the Four-Year Baccalaureate Nursing Program will not be permitted to attend clinical practice or the nursing skills laboratory. At the discretion of the Associate Dean, Undergraduate Programs, Faculty of Nursing, students may be granted permission to attend the lecture component only of a nursing course(s) while awaiting a final disposition of an appeal currently in progress.

Failures in Nursing Courses

Students will be permitted to repeat a non-clinical nursing course only once following a failure. Withdrawal from the program will be required following a second failure in the same nursing course.

A student who fails a clinical course will be permitted to repeat the course once. A subsequent failure in any clinical course (including the one being repeated) will normally require the student to withdraw from the program.

Students who fail the same Nursing course twice, prior to applying to the Faculty of Nursing, are ineligible for admission to the Faculty of Nursing. Students who fail a Nursing course twice and are required to withdraw from the Faculty of Nursing are ineligible for re-admission to the Faculty of Nursing.

Criminal Record Check/Child Abuse Registry Check

All successful applicants are required to provide a self-declaration of a criminal record and Child Abuse Registry listing following provisional admission, and are required to provide to the Faculty of Nursing an official Criminal Record Search and Child Abuse Registry check prior to registration. See Section 3.2. At any time prior to completing the program (regardless of admission date), students charged with or convicted of a criminal offence or listed on the Child Abuse Registry are required to report this information to the Associate Dean, Undergraduate Programs, Faculty of Nursing. Failure to report a criminal offence may result in dismissal from the program. Criminal offences will be reviewed by the Faculty of Nursing for the implications of the conviction in view of the professional mandate to protect the public. A listing on the Child Abuse Registry or failure to report the listing will result in dismissal.

Students admitted prior to September 2004 are advised that some clinical practice sites require that students complete a Criminal Record search and/or a Child Abuse Registry check.

Residence Requirements

See the chapter, General Academic Regulations and Requirements in this *Calendar*.

University Mathematics and Written English Requirement

The written English requirement may be satisfied by a course also chosen to meet the Humanities requirement. Students should refer to the General Academic Regulations and Requirements in this *Calendar*. The mathematics requirement will be met in Year 2 of Nursing by Statistics STAT 1000.

4.2 Regulations Applicable to the Baccalaureate Program for Registered Nurses

Scholastic Progress

Students in the Baccalaureate Program for Registered Nurses must have a minimum Degree GPA of 2.5 to proceed in the program and a minimum

Program GPA of 2.5 to be eligible for graduation. For further information, refer to: Academic Probation - Baccalaureate Nursing Program for Registered Nurses.

Residence Requirements

Students in the Baccalaureate Program for Registered Nurses are required to complete, with the minimum grade of "C" in each course, at least 32 credit hours of University of Manitoba courses. Of these courses, a minimum of 20 credit hours must be from among those offered by the Faculty of Nursing.

Failures in Nursing Courses

Students will be permitted to repeat a nursing course only once following a failure. Withdrawal from the program will be required following a second failure in the same nursing course.

Students who fail the same Nursing course twice, prior to applying to the Faculty of Nursing, are ineligible for admission to the Faculty of Nursing. Students who fail a Nursing course twice and are required to withdraw from the Faculty of Nursing are ineligible for re-admission to the Faculty of Nursing.

Criminal Record Search/Child Abuse Registry Check

Students in the BPRN are required to hold active registration with the CRNM which further requires a yearly self-declaration of any criminal charges or convictions. In addition, at any time prior to completing the BPRN (regardless of admission date), students charged with, or convicted of, a criminal offence or listed on the Child Abuse Registry are required to report this information to the Associate Dean, Undergraduate Programs, Faculty of Nursing. Failure to report a criminal offence may result in dismissal from the program. Criminal offences will be reviewed by the Faculty of Nursing for the implications of the conviction in view of the professional mandate to protect the public. A listing on the Child Abuse Registry or failure to report the listing will result in dismissal. In addition, please note that some clinical practice sites require that students complete a Criminal Record search and/or a Child Abuse Registry check.

Proof of Professional Registration

Verification of registration of returning students will be obtained by the Faculty annually from the College of Registered Nurses of Manitoba. Students not registered with the College of Registered Nurses of Manitoba (CRNM) and continuing in the program must submit proof annually of active practicing status in the jurisdiction in which they hold membership.

After admission and at any time prior to completing the program, students with any changes to their active practicing status with the College of Registered Nurses of Manitoba, (e.g., conditions placed on a registration or ineligibility for active practicing status), are required to report this information to the Associate Dean, Undergraduate Programs, Faculty of Nursing. Such changes will be reviewed on a case by case basis. Failure to report a change in status may result in disciplinary action.

4.3 Regulations for All Students

Students are reminded of their obligation to be familiar with all regulations governing their continued progress in the program.

Students who do not register for any courses in one academic year must apply in writing to the Associate Dean, Undergraduate Programs, for permission to continue. Refer to section on Leave of Absence for further information.

Orientation Sessions

Optional orientation sessions will be held for students upon admission to the Faculty of Nursing, **prior to** registration. New students at the Fort Garry Campus will receive an orientation package in the mail, and may attend an optional orientation session. Several sessions will take place in June and July.

Degree with Distinction

Four-Year Baccalaureate Nursing Program: Students who obtain a Degree GPA of 3.8 and above based on the last 67 credit hours of course work will be eligible for a Degree with Distinction.

Baccalaureate Program for Registered Nurses: Students who obtain a Degree GPA of 3.8 and above in their program of studies will be eligible for a Degree with Distinction.

Dean's Honour List

Students who achieve a minimum Term GPA of 3.5, including courses taken on a Letter of Permission, and who are registered for a minimum of 12 credit hours, will be placed on the Dean's Honour list. Note: The Dean's Honour list will be determined after each term of study.

Uniforms

Students are expected to obtain uniforms and other equipment for Nursing courses and practice, as specified by the Faculty of Nursing. All students, including those in the Baccalaureate Program for Registered Nurses, are required to wear name tags during clinical courses. Students should contact the Nursing Students' Association Council uniform representative for information. Name tags and crests are ordered through the clinical course leader during the clinical course orientation.

Health Requirements and Immunization Regulations

Immunizations are a requirement mandated by the Regional Health Authorities. Students who do not meet the immunization requirement will not be able to complete the clinical portion of the program.

Students are required annually to review and update immunization against communicable diseases. Annual physical and dental examinations are recommended.

Immunization forms are sent to students upon acceptance into the program. Additional forms are available upon request. New students enrolling in the Faculty of Nursing must provide proof of current immunizations by August 1st. Thereafter, returning students must provide proof of immunizations that require updating annually by June 1st or December 1st respectively. See "Penalty for Non-Compliance of Immunization and CPR" section. Students should keep a copy of their immunization records, and retrieve their immunization records from their files upon graduation.

Cardiopulmonary Resuscitation Certification (CPR)

All students are required to obtain certification in CPR at the Health Care Provider Level (C). Newly admitted students must provide proof of certification by August 1st. Thereafter, returning students in the Four-Year Baccalaureate Nursing Program, including students who are certified at the Instructor level, must provide proof of re-certification annually by June 1st to the Student Services Assistant or designate. Certification must be valid for the entire academic year; therefore, all nursing students must recertify in April/May.

All students in the Baccalaureate Program for Registered Nurses must be certified at the Health Care Provider Level (C). Newly admitted students must submit proof of certification to the Student Services Assistant or designate by August 1st. Thereafter, registered nurses are to maintain current certification at the required level.

Penalty for Non-Compliance of Immunization and CPR

Students who do not comply with the deadlines for proof of current CPR and/or immunizations will be placed on hold status which blocks the student from the registration system. Students on hold status will be permitted to register after the initial registration period (mid-August) after all documentation has been received. Hold status also prevents receipt of refunds or histories/transcripts from the Registrar's Office, attending clinical practice and graduation. Note that course offerings will be limited for students who register after the initial registration period.

Scholastic Progress Requirements Applicable to All Students

Students will be required to obtain a minimum of "C" grade (2.0) in every course, and a program GPA of 2.5 in order to graduate. A final grade of "D" in any course taken to complete the degree requirement is considered a failure and is not accepted in the faculty.

Supplemental Examinations

The Faculty of Nursing does not permit supplemental examinations.

"0900" Level Courses

Although students may register for "0900" level courses, credit will not be given for these courses.

Prerequisite Deficiency

Students who enrol in courses provisionally pending satisfactory completion of pre- or co-requisites must, if unsuccessful, withdraw or amend their registration accordingly. The Faculty of Nursing reserves the right to not send reminders of the requirement to withdraw.

Challenge for Credit

Students wishing to challenge a course for credit should contact a student advisor.

Academic Probation

Four-Year Baccalaureate Nursing Program

Students enrolled in the Four-Year Baccalaureate Nursing program will be assessed after the Winter Term upon completion of a minimum of 24 credit hours. Students failing to achieve the minimum Degree GPA of 2.5 will be placed on probationary status.

Probationary students will be assessed at the end of the Winter Term after completion of a minimum of 15 credit hours. Students failing to achieve the minimum Degree GPA of 2.5 will be placed on academic suspension.

With special permission of the Associate Dean, Undergraduate Programs, Faculty of Nursing, a student on probation can request an early review of academic progress based on completion of less than 15 credit hours.

Students on probation are expected to meet with a Student Advisor at least twice, with a minimum of once per term, for academic advisement.

Baccalaureate Program for Registered Nurses

Students enrolled in the Baccalaureate Program for Registered Nurses will be assessed after the Winter Term upon completion of a minimum of 18 credit hours. Students failing to achieve the minimum Degree GPA of 2.5 will be placed on probationary status.

Probationary students will be assessed at the end of the Winter Term after completion of a minimum of 15 credit hours. Students failing to achieve the minimum Degree GPA of 2.5 will be placed on academic suspension.

Academic Suspension

A probationary student who does not achieve the minimum academic standing is required to withdraw from the Faculty of Nursing with the status "academic suspension." While suspended indefinitely, after one year's suspension the student may apply for reinstatement on academic probation.

To request reinstatement following academic suspension, the student should submit a written request before May 1 to the Chair, Student Appeals Committee, Faculty of Nursing.

Security of Academic Records

The university's policies regarding the security of student academic records is found in the chapter, University Policies, of this *Calendar*.

Professional Unsuitability By-Law

The Senate of the University has approved a by-law granting authority to the Faculty to require a student to withdraw for reasons of professional unsuitability. A student may be required to withdraw from the Faculty when, at any time, the Faculty Council, through the Professional Unsuitability By-Law, believes the student to be unsuited for the profession of nursing, on general considerations of scholarship, professional fitness or professional conduct.

Copies of this by-law may be obtained from the Faculty of Nursing website. See chapter, General Academic Regulations and Requirements.

Attendance

Regular attendance at class is expected of all students in all courses. Attendance in on-line courses will be interpreted as regular and consistent participation in the course. Attendance in the clinical practice/laboratory portions of nursing courses is mandatory to enable the student to satisfy the evaluative criteria of the theoretical and practical components of courses. Students absent from class or practice due to illness may be required to present a certificate of illness. This certificate must be signed by a recognized health care provider. Absence for compassionate reasons is considered on an individual basis. Where absence is involved, make-up time may be required.

A course leader may initiate procedures to debar a student from attending classes and from final examinations and/or from receiving credit where unexcused absences exceed those permitted by faculty regulations.

Voluntary Withdrawal

Students admitted in September, 2004 and later are allowed only one voluntary withdrawal per nursing course in the Faculty of Nursing.

Students who voluntarily withdraw from a nursing course a subsequent time will have their withdrawal reversed and will be expected to complete the course. Any financial implications will be the responsibility of the stu-

dent. Students planning to withdraw from any course are advised to speak with a student advisor regarding the implications of this decision.

Clinical Practice

Four-Year Baccalaureate Nursing Program students enrolled in nursing courses with clinical practice components may not register for any other course during those designated clinical days. Nursing clinical practice may be scheduled during the morning, afternoon or evening. Weekends are also used for some sections in clinical courses. Transportation costs to clinical practice settings are the responsibility of the student.

All students must be registered in all clinical courses for both terms by the specified deadline. Failure to register by this date may prevent accommodation in a clinical course. Current deadlines are published in the *Registration Information* section of this *Calendar*.

Personal Health Information Act (PHIA)

Students must abide by the policies and procedures established at clinical practice sites. Within Winnipeg, this includes: attending a Winnipeg Regional Health Authority (WRHA) orientation session regarding the Personal Health Information Act (PHIA), signing the PHIA pledge, and obtaining a PHIA card. Students attending clinical practice at institutions outside the jurisdiction of the WRHA, such as hospital or community health programs in rural health authorities, may be required to attend a separate orientation and obtain a PHIA card appropriate for the health institution or region. PHIA card(s) and attendance at the PHIA orientation(s) are required for clinical practice and will be checked at clinical sites.

Unsafe Clinical Practice Policy

The debarment policy will be invoked when a student demonstrates unsafe clinical practice. Unsafe clinical practice is behaviour which places the client or staff in either physical or emotional jeopardy. Physical jeopardy is the risk of causing physical harm. Emotional jeopardy means that the student creates an environment of anxiety or distress which puts the client or family at risk for emotional or psychological harm. Unsafe clinical practice is an occurrence or a pattern of behaviour involving unacceptable risk.

Debarment Policy

A student may be debarred from class, clinical practice, laboratories, and examinations by action of the Associate Dean, Undergraduate Programs for persistent non-attendance, unsafe clinical practice, and/or failure to produce assignments to the satisfaction of the instructor. Once the debarment process has been initiated, the student will not be able to voluntarily withdraw from the course that is presently under investigation. Students so debarred will have failed that course.

Failures in Clinical Course Rotations

Students who fail a rotation of a clinical course in which there are multiple rotations will be withdrawn from the course immediately following that rotation and will receive a final grade of "F". These students will not be permitted to voluntarily withdraw from the course following receipt of the failed grade.

Clinical Absence

Four-Year Baccalaureate Nursing Program students returning following one year or more absence from clinical courses must complete a mandatory demonstration of psychomotor skills competency in the skills lab. Competency must be demonstrated prior to clinical attendance. Students should consult with a student advisor for instructions. Testing must be completed prior to July 1st.

Leave of Absence

Students wishing to interrupt their studies must have completed a minimum of three credit hours of course work in the regular academic session. Students must submit a written leave of absence request to the Associate Dean, Undergraduate Programs, Faculty of Nursing. Leave of absence status does not extend the program time limit outlined in the Faculty of Nursing regulations. To maintain leave of absence status at the University of Manitoba, students may not attend any other university during the period in which the leave of absence is in effect. See "Transfer of Credit" under section 3.2.

Reinstatement

Students who have withdrawn from the Faculty of Nursing (interrupted their studies without requesting a leave of absence) must submit a written request for reinstatement to the Associate Dean, Undergraduate Programs. The student advisor will inform the student of the appropriate procedure and advance standing, if any, that the student may receive. Note: 1) the student who does not attend another faculty or institution and requests, within

five years of voluntary withdrawal, to re-enter the Faculty of Nursing will be advised to forward such a request to the Associate Dean, Undergraduate Programs; 2) the student who requests to return to the Faculty of Nursing more than five years after withdrawal must re-apply through Admissions; 3) the student who has attended another faculty or institution following withdrawal from Nursing must re-apply through Admissions. See "Transfer of Credit" under section 3.2.

SECTION 5: Program Requirements: Four-Year Baccalaureate Nursing Program

5.1 Four-Year Baccalaureate Nursing Program – Curriculum

The program can be done by part-time and full-time study.

Note: All courses from any given year are to be completed before proceeding to the next year.

Course No.

University 1		30 credit hours
BIOL 1410	Anatomy of the Human Body (see Note 1) (formerly ZOO 1320)	3
BIOL 1412	Physiology of the Human Body (see Note 1) (formerly ZOO 1330)	3
NURS 1260	Human Growth and Development	3
NURS 1280	Introduction to Nursing	3
MBIO 1220	Essentials of Microbiology (see Note 1)	3
	Social Science (6 credits - see Note 1)	6
PSYC 1200	Introduction to Psychology (6)	
	or	
SOC 1200	Introduction to Sociology (6)	
	or	
ANTH 1210	Human Origins and Antiquity (3)	
	and	
ANTH 1220	Cultural Anthropology (3)	
	Science (6 credits from the Faculty of Science, see Notes 1, 3, 4 & 5)	6
	Humanities Elective (see Notes 1,2 & 6)	3

Note 1: All courses can be completed in University 1, or an equivalent program, if students do not wish to extend their program of study.

Note 2: Humanities. English, Philosophy, History, Religion, Languages, Classics, Native Studies, etc. Humanities information is found in the chapter for the Faculty of Arts, Additional Faculty Regulations and Policies section, 5.1.1. "0900" level courses are not accepted.

Note 3: Science Prerequisites. Students must meet the current Science prerequisites before registration for Science courses. See the chapter for the Faculty of Science for the current prerequisites. It is preferred that the above prerequisites have been completed within the last five years.

Note 4: With the exception of Geological Sciences (GEOL 1XX0), courses under the Clayton H. Riddell Faculty of Environment, Earth, and Resources do not meet the Science elective requirement if taken in 2003-2004 and later. 1000 level introductory Geological Sciences courses (GEOL 1XX0) now offered under the Clayton H. Riddell Faculty of Environment, will be accepted as Science courses if taken prior to September 1, 2006.

Note 5: The course, BIOL 1110 Health and Health Professions, may not be used as a Science elective. It may, however, be used as an elective from year 4, provided that the level requirements of all electives are met.

Note 6: Six credits of the twelve credits of electives including the Native Studies and the Humanities electives, must be at the 2000 level or above. Students should check for pre-requisites for 2000 and 3000 level Native Studies courses.

Year 2 31 credit hours

STAT 1000	Basic Statistical Analysis 1	3
NURS 2120	Nursing Health Assessment	4
NURS 2130	Nursing Skills Laboratory	2
NURS 2180	Clinical Nursing Practice 1	3
NURS 2190	Clinical Nursing Practice 2	3
NURS 2220	Pharmacology in Nursing Practice	3
NURS 2230	Health Promotion of Older Adults and Their Families	4
NURS 2240	Health Promotion of Child Bearing and Child Rearing Families	6
HNSC 1210	Nutrition for Health and Changing Lifestyles	3

Year 3	29 credit hours	
NURS 3210	Nursing Research Methods	3
NURS 3280	Nursing Skills Laboratory	2
NURS 3290	Health Restoration in Nursing	6
NURS 3300	Clinical Nursing Practice 3	3
NURS 3310	Health Maintenance in Nursing	6
NURS 3320	Clinical Nursing Practice 4	3

NATV 1240	Native Peoples of Canada, Part II (3) or	
NATV 2020	Metis of Canada (3) or	
NATV 2220	Native Societies and the Political Process (3) or	
NATV 2450	Images of Indian People in North American Society (3) or	
NATV 3240	Native Medicine and Health (3)	
Year 4	29 + 10 credit hours	
	TERM A (16 credit hours)	
NURS 4250	Palliative Nursing Care	3
NURS 4260	Nursing Care in Mental Health and Illness	3
NURS 4270	Clinical Nursing Practice 5	4
	Electives (see Note 6)	6
	TERM B (13 credit hours)	
NURS 4310	Nursing Leadership: Issues & Practices	4
NURS 4420	Health Promotion in the Community	3
NURS 4430	Clinical Nursing Practice 6	3
NURS 4440	Prevention of Illness	3
	TERM C (10 credit hours)	
NURS 4290	Clinical Practicum (12 weeks)	10

Reminder: It is the responsibility of the student to ensure that degree requirements are met. In order to be eligible to work as a graduate nurse and/or write the Canadian Registered Nurse Examinations, students must meet all program requirements. It is the responsibility of students to ensure all program requirements have been met before working as a graduate nurse and/or writing the qualifying exams to become a Registered Nurse.

NURS 4290 Clinical Practicum

All courses in the curriculum must be successfully completed and the grade posted prior to starting NURS 4290.

Any costs incurred in completing this course are the responsibility of the student. Proposals must meet the approval of the Faculty of Nursing and must have academic merit. A student's chosen area for completion of practicum experience must be approved by the Faculty of Nursing. The location of the practicum must meet the approval of the University of Manitoba. The location of the practicum is subject to change in the event approval is not received. There may be organizations which require contractual arrangements with the student and/or University of Manitoba prior to permitting the student to enter into the practicum experience. There is no guarantee the University of Manitoba will enter into such contractual arrangements to permit the student to carry out practice at a particular agency or site. In such cases, the student should be prepared to choose an alternate agency or site.

5.2 Courses Which May be Used as Electives

Electives are to be taken from Arts, Science, professional faculties or the Inter-Faculty Option in Aging (18 credit hours). (See section 7). Of the total credit hours of electives, at least 6 credit hours must be at the 2000 level or higher. Electives offered by the Faculty of Nursing are:

Course No.	Topics in Aging	Credit Hours
NURS 2200	Topics in Aging	3

NURS 3330	Women and Health	3
NURS 3340	Providing Care in a Culturally Diverse Society	3
NURS 3350	Counselling Skills for Nurses	3
NURS 3400	Men's Health: Concerns, Issues and Myths	3

These "NURS" courses may be taken as electives only, and are not an alternative for a required nursing course. Note: Each course is normally offered every second year.

Inter-Faculty Option in Aging – See Section 7

SECTION 6: Program Requirements: Baccalaureate Program for Registered Nurses (BPRN)

The Faculty of Nursing BPRN was developed to recognize and value the knowledge and experience of practicing Registered Nurses. The learner-centred, process curriculum is designed to further the capacity of Registered Nurse practice in an ever-changing and increasingly complex health care system.

The curriculum consists of a minimum of 33 credit hours in Nursing, and 12 credit hours from Arts, Science or a professional faculty (for a total of 45 credit hours).

Students may elect full-time or part-time study. A variety of community settings are utilized for clinical experience. Courses may be offered in late afternoons or evenings, during summer session and through distance education (correspondence) or internet-based study.

Students graduating with the minimum of 45 credit hours of coursework will be considered on an individual basis for admission to the graduate program in Nursing (Master of Nursing). For further information, contact the Faculty of Nursing, 474-7452.

6.1 Special Student Status in Nursing

Students who are not admitted to the Baccalaureate Program for Registered Nurses may be eligible to apply to the Faculty of Nursing as a special student. Once admitted, students may register in University of Manitoba courses. Following are the guidelines for special student status:

- Special Students are allowed to register for a maximum of 15 credit hours.
- Special Students must obtain a minimum of "C" grade in a course in order to transfer credit into the Baccalaureate Program for Registered Nurses.
- A nursing course completed as a special student may be accepted subsequently for credit in the Baccalaureate Program for Registered Nurses up to five years from the date of completion.

Prior to registering for a nursing course, all special students must obtain written permission from a Faculty of Nursing student advisor and present a photocopy of their current Active Practising Membership with the College of Registered Nurses of Manitoba or other jurisdiction.

Completion of courses as a special student does not guarantee admission into the Baccalaureate Program for Registered Nurses. All students must complete the application forms and submit required information by April 1 annually, unless otherwise indicated at the time of application.

The Faculty of Nursing will allow Registered Nurses admitted to another faculty at the University of Manitoba or another university to register for a maximum of 15 credit hours of nursing courses prior to being admitted to the Faculty of Nursing. Written permission must be obtained from a student advisor and does not guarantee space in the course.

6.2 BPRN - Curriculum

Note: Nursing electives may not be offered every year.

Course No.	Core Courses:	
NURS 3430	Seminar in Professional Nursing Foundations (see Note 1)	2
STAT 1000	Basic Statistical Analysis 1	3
NURS 3210	Nursing Research Methods	3
NURS 3220	Community Health Nursing 1 (see Notes 2 and 6) or	4
NURS 3360	Assessing the Health of Communities (see Notes 2 and 6)	4
NURS 4200	The Teaching-Learning Process in Nursing Practice	3

NURS 4210	Independent Study in Nursing Practice	4
NURS 4220	Law and Ethics in Nursing Practice	3
NURS 4310	Nursing Leadership: Issues and Practices	4
	Nursing Electives (see Note 3)	10
	Non-Nursing Electives (see Note 4)	9

Nursing Electives

10 credit hours of acceptable Nursing electives are to be chosen from the following list – at least one course chosen must be a 4 credit hour course.

NURS 2110	Health Assessment of Individuals (3)
NURS 2200	Topics in Aging (3)
NURS 3200	Nursing of Individuals and Families with Long-Term Illness and Disability (4)
NURS 3230	Perspectives on Mental Health Nursing (4)
NURS 3330	Women and Health (3)
NURS 3340	Providing Care in a Culturally Diverse Society (3)
NURS 3350	Counselling Skills for Nurses (3)
NURS 3390	Nursing in Rural Environments (4)
NURS 3400	Men's Health: Concerns, Issues and Myths (3)
NURS 4160	Community Health Nursing 2 (4)
NURS 4250	Palliative Nursing Care (BPRN specific section only) (3)
NURS 4300	Promoting the Health of Communities (4)

In addition, the following courses from the Inter-Faculty Option in Aging are acceptable as Nursing electives:

NURS 2610 / KIN 2610	Health and Physical Aspects of Aging (3)
SWRK 2650/ IDES 2650/ HMEC 2650/ REC 2650	The Social Aspects of Aging (3)

NOTES:

- 1) NURS 3430 should be taken in the first 12 credit hours of the program. Students who have credit for the previous NURS 3190 may substitute this course for NURS 3430.
- 2) Students may select either NURS 3220 or NURS 3360 as their core community clinical course.
- 3) Nursing electives may be used to customize a student's program. Electives may be used to expand on a number of different areas of nursing or may be used to focus on a particular area of nursing practice.
- 4) Of the 9 credit hours of non-Nursing electives, no more than 6 credit hours may be at the 1000 (introductory) level. See section 6.5 for suggestions re: Non-Nursing Electives for the BPRN. Students may not take courses for credit for which it is assumed that the content was covered in the diploma nursing program (i.e., Anatomy, Physiology, Microbiology, Pharmacology, Psychology, Sociology, etc.).
- 5) Graduates of the DNA program at Red River College are required to substitute a 4 credit hour Nursing clinical course for NURS 3220 and NURS 3360.

6.3 Clinical Courses and NURS 4210 for the BPRN

Review section 4.3 Regulations for All Students which contains information regarding the Personal Health Information Act (PHIA), immunization and CPR regulations, and other information specific to clinical practice.

A clinical project course (normally designated by the fact that it is a 4 credit hour project based course) involves a heavier workload and time commitment than a 3 credit hour course. For most of these courses, clinical placements/assignments will be arranged between the course leader and student at or prior to the start of a term. However, for courses NURS 3200 and NURS 4210, students must contact the course leader at least **three months prior to the start of classes** to state their intention to register for these courses and to discuss preference of clinical sites. Placement sites will be arranged as requested by the student on a first-come, first-served basis according to the availability of the agency.

NURS 4210 Independent Study in Nursing

The student is responsible for choosing an area for completion of the practicum experience. The choice of subject, the proposed plan for completion of the study, and the faculty advisor selected by the student must all be approved by the Faculty of Nursing. In addition, the location of any practicum component must be approved by the Faculty of Nursing.

There may be organizations which require contractual arrangements with the student and/or the University of Manitoba prior to permitting the student to enter the practicum experience. There is no guarantee that the University of Manitoba will enter into a particular agreement and, if an agreement is not approved, the student would have to select an alternate

practicum site. Any costs incurred in completing this course are the responsibility of the student.

Information sessions for NURS 4210 are held twice yearly, in October and in March. Refer to the BPRN News website for dates. **Any student who is unable to attend the information session should contact the Course Leader at least 3 months prior to the start of the term in which the course is offered in order to discuss the proposal.**

Note: the prerequisite for this course is 35 credit hours of completed study in the program.

6.4 Courses Which May be Used as Non-Nursing Electives in the BPRN

Courses may be selected from any faculty or school of the University, subject to faculty/department regulations and subject to the student's meeting any prerequisite requirements. See Note 4 under 6.2 BPRN Curriculum. Some suggestions follow:

- Faculty of Arts courses - e.g. anthropology, native studies, psychology, sociology, religion
- Faculty of Human Ecology - e.g. foods and nutrition, family social sciences
- Asper School of Business (Management) - e.g. courses in business administration, management, organizational behaviour
- Faculty of Kinesiology and Recreation Management
- Faculty of Science - e.g. biology, chemistry, computer science, microbiology, zoology
- Faculty of Social Work - e.g. courses in social welfare policy, communication skills

SECTION 7: Inter-Faculty Option in Aging

Inter-Faculty Option in Aging courses are offered by the following faculties: Clayton H. Riddell Faculty of Environment, Earth, and Resources; Arts; Human Ecology; Nursing; Kinesiology and Recreation Management; and Social Work. To complete the Inter-Faculty Option in Aging, students will complete a total of 18 credit hours including each of the following:

- Required Courses (six credits). See the Registration Guide for the current course number being offered.
- a) IDES 2650 /HMEC 2650/REC 2650/SWRK 2650 The Social Aspects of Aging (3 credit hours)
 - b) NURS 2610/KIN 2610 Health and Physical Aspects of Aging (3 credit hours)
- Electives (12 credit hours).
- a) At least three credits of professional/discipline-specific applied work on aging within the student's faculty of registration; and
 - b) An additional nine credit hours in aging electives from the participating faculties. Students can take nine credit hours from their own faculty but are encouraged to select offerings from other faculties. Lists of eligible elective courses are available from the student advisors.

- The nursing option in aging elective is NURS 2200 Topics in Aging.

Upon completion of these requirements, the "Option in Aging" comment will be recorded on the student's transcript. Information on the Inter-Faculty Option in Aging is available from a student advisor.

SECTION 8: Courses Available to Students in Other Faculties

Students registered in faculties other than Nursing may take the following Nursing courses without Faculty permission:

NURS 1260	Human Growth & Development
NURS 1280	Introduction to Nursing
NURS 2200	Selected Topics in Aging and Health (see note 1)
NURS 3330	Women and Health (see note 1)
NURS 3400	Men's Health: Concerns, Issues and Myths (see note 1)

NOTES:

- 1) These courses are not intended for first year students.

SECTION 9: Registration Information

9.1 Initial Access Times

Students are referred to the chapter, "Registration Information: Aurora Student, Section 3."

9.2 Information and Policies Applicable to All Newly Admitted Nursing Students

Information for nursing students is posted in two places:

- 1) web site umanitoba.ca/faculties/nursing - check student area.
- 2) bulletin board outside HG260

All students should ensure their addresses (snail and U of M email) and phone numbers are current to ensure receipt of pertinent information.

Information Sessions For Students Newly Admitted to the Faculty

! Registration for new students is blocked until AFTER their deposit is submitted and official Criminal Record Check and Child Abuse Registry documents are received by the Faculty of Nursing. Students will receive an orientation package and are encouraged to attend an optional information session.

Four Year Baccalaureate Program Students

To reserve space in your optional orientation session, phone (204) 474-6655.

Baccalaureate Program for Registered Nurses

To reserve your optional information space, call (204) 474 6655.

Students registering as special students need not attend an orientation session.

Information Dates Four Year BN Students

Dates will be scheduled in June, July and August and will be included in the student's Certificate of Acceptance package.

Please call to book your orientation time AFTER you have received your Certificate of Acceptance and accepted your seat by submitting your deposit and read the written orientation material. **The orientation package is available on the web at:**

<http://umanitoba.ca/faculties/nursing/studentarea/233.htm>

BPRN Information Dates

Dates will be scheduled in June, and/or July and will be included in the student's Certificate of Acceptance.

9.3 Information and Policies for All Nursing Students

Returning Students

Contact a student advisor if any of the following apply:

- On probation
- Repeating a failed course
- Requesting to challenge for credit
- Requesting to audit a course
- Four Year BN students who have not taken clinical or skills courses for one year or more
- Did not register for any courses the previous year
- Considering withdrawing from a course
- At the end of April examinations, missing program requirements for the year you have just attended.

Advisors are available by appointment (call 474 6655 or their direct phone number listed below). Booking an appointment will ensure an advisor will be available.

Student Advisors

Karla Blackwell: (204) 474 6733;

Martin Speight: (204) 474 6217;

Terri Tauffenbach: (204) 474 6734.
Toll free in Manitoba: 1(800) 432 1960
Extensions: 6217, 6733, or 6734.
Fax: (204) 474 7682.

Faculty Registrar

Catherine Johnston: (204) 474 9955
Toll free in Manitoba: 1(800) 432 1960, extension 9955
Fax: (204) 474-7682

The faculty registrar may be contacted for:

- ! Registration difficulties
- ! Registration timetable layout concerns
- ! Registration following absence or non-registration the previous year
- ! Registration difficulties
- ! Repeating any course previously withdrawn or failed
- ! CPR and/or immunization concerns
- ! Instructor approvals
- ! Lab exemptions
- ! Registration for HSC re security
- ! Holds

Student Services Assistant

Eva Brasko: (204) 474-6655

The student services assistant may be contacted regarding:

- ! CPR and/or immunization concerns
- ! Holds
- ! Book appointments with a student advisor
- ! Criminal record check and child abuse registry document submissions.

Student Responsibilities

Refer to the current University of Manitoba *Undergraduate Calendar* for program regulations and details related to registration and payment for courses. These documents can also be accessed at website: umanitoba.ca/faculties/nursing/

Students are reminded A0900® level courses are not acceptable for credit in the Nursing program.

NOTE: Students are advised to review the current University of Manitoba *Undergraduate Calendar* carefully to ensure compliance with degree program requirements. Final completion of degree requirements is the responsibility of the student.

Criminal Record and Child Abuse Registry Check

Refer to the *Undergraduate Calendar*.

Note: students may be required to submit current Criminal Record / Child Abuse Registry Checks periodically throughout the program. Any associated costs will be the student's responsibility.

Personal Health Information Act Policies (PHIA)

Refer to the *Undergraduate Calendar*.

Electronic Patient Record Training and Mask-Fit Testing

Electronic Patient Record training and Mask-Fit Testing will be required by nursing students in select clinical settings. Any associated costs will be the student's responsibility.

Immunizations

Immunizations are a requirement mandated by the Winnipeg Regional Health Authority and apply to ALL students registered in the Faculty of Nursing. Students who do not meet the immunization requirement will not be able to complete the clinical portion of the program.

It is the student's responsibility to submit copies of immunization documents. Students should retain copies of ALL documents submitted to the faculty.

Returning students are required to provide updated immunizations as necessary **by June 1st annually** to the Student Services Assistant or the Registrar. Refer to AHold Status® Note: Students are advised to check with the UMSU Health and Dental Plan Office regarding reimbursement of immunization costs.

Reminder: Space will not be reserved for students with immunization and/or CPR deficiencies or those who submit documents after the June 1 deadline.

CPR (Cardio-Pulmonary Resuscitation)

Returning students in the Four Year Program are required to provide proof of Health Care Provider AC® CPR re-certification **by June 1st** annually to the Student Services Assistant or the Registrar. Refer to AHold status" and "CPR". **Reminder: Space will not be reserved for students with immunization and/or CPR deficiencies or those who submit their documents after the June 1 deadline.**

NOTE: It is the students responsibility to ensure all documentation has been received by the Faculty of Nursing.

Scholastic Progress

All courses from any given year must be completed before proceeding to the next year. Rearrangement of course work will be considered on an individual basis **ONLY** upon receipt of a written request. Students should note that both Statistics (STAT 1000) and Nutrition for Health and Changing Lifestyles (HNSC 1210) are second year requirements.

Ongoing Sequencing of Coursework (Fort Garry Site)

Students are required to complete one year before proceeding to Nursing courses in the following year. However, students who have successfully completed all non-Nursing courses and specific required Nursing courses may receive permission to work ahead on select courses in the following year.

Students should note that if they have been given permission to Awork ahead® on courses, and subsequently withdraw from or fail a course in their current year of Nursing, the permission for the Awork ahead® course(s) may be revoked.

Where special permission is required, students are requested to meet with a Nursing Student Advisor. Approval will be subject to curricular requirements, space in the courses, and students-meeting the applicable criteria. A minimum GPA may also be required for some of the courses.

Second Year Courses

Second year courses are normally done in the following sequence:

Fall term:

- NURS 2120 Nursing Health Assessment must be completed in Fall term and must be completed in fall term if students wish to take a second year clinical.
- NURS 2130 Nursing Skills Laboratory spans both fall and winter terms and must be started in fall term if students wish to take a second year clinical course.
- **EITHER** NURS 2230 Health Promotion of Older Adults and NURS 2190 Clinical Nursing Practice II or NURS 2240 Health Promotion of Child Bearing and NURS 2180 Clinical Nursing Practice I

Winter term:

- NURS 2130 continues in winter term.
- **EITHER** NURS 2230 Health Promotion of Older Adults and NURS 2190 Clinical Nursing Practice II or NURS 2240 Health Promotion of Child Bearing and NURS 2180 Clinical Nursing Practice I

Fall or Winter term

- NURS 2220 Pharmacology, HNSC 1210 Nutrition for Health and Changing Lifestyles, STAT 1000 Basic Statistical Analysis I.

Third Year Courses

Third year courses are normally done in the following sequence:

Fall term:

- NURS 3280 Nursing Skills Laboratory spans both fall and winter terms and must be started in fall term if students wish to take a third year clinical course.
- **EITHER** NURS 3310 Health Maintenance in Nursing **AND** NURS 3320 Clinical Nursing Practice 4; **OR** NURS 3290 Health Restoration in Nursing **AND** NURS 3300 Clinical Nursing Practice 3.

Winter term:

- NURS 3280 continues in winter term.

- **EITHER** NURS 3290 Health Restoration in Nursing **AND** NURS 3300 Clinical Nursing Practice 3 **OR** NURS 3310 Health Maintenance in Nursing **AND** NURS 3320 Clinical Nursing Practice 4.

Fall or Winter term

- NURS 3210 Nursing Research Methods (Statistics, STAT 1000 is a recommended pre- or co-requisite)
- NURS 3450 Introduction to Legal and Ethical Foundations of Nursing Practice.
- Native Studies Requirement

Fourth Year Courses

Students will do one of the following rotations in Fall Term and the other rotation in Winter Term:

Rotation a) NURS 4250 Palliative Nursing Care and NURS 4260 Mental Health and NURS 4270 Clinical Nursing Practice 5 OR

Rotation b) NURS 4310 Nursing Leadership and NURS 4420 Health Promotion in Communities and NURS 4430 Clinical Nursing Practice 6 and NURS 4440 Prevention of Illness.

Fall or Winter Term – Electives.

Failing or withdrawing from required course(s)

Students-usual progression through the program may be delayed by failing (grade of "D" or "F") or withdrawing from a required course. **Note Although Aurora Student defaults to "minimum met" assessment for a grade of D, this is a failure and the course must be repeated or replaced.** Students should note that if they have been given permission to Awork ahead® on courses, and then withdraw from or fail a course in their current year of Nursing, the permission for the Awork ahead® course(s) may be revoked.

Students who fail a course are expected to repeat that course during the next session, and are not normally permitted to proceed to the subsequent year of the program until the course has been successfully completed.

Refer to the University of Manitoba *Undergraduate Calendar* for the nursing voluntary withdrawal and failure policies.

Continuance Following Interrupted Registration

Students who discontinue registration in the Faculty of Nursing (interrupting their studies without formally requesting a leave of absence) and request continuance must consult a student advisor. The advisor will inform the student of the procedure.

Students who formally withdraw from the Faculty of Nursing and who do not attend another faculty or institution and request, within five years of withdrawal i.e. non-activity in the Faculty of Nursing, to re-enter the Faculty of Nursing will be advised to forward such request to the Associate Dean, Undergraduate Programs. The student will be advised of advanced standing, if any, that will be received. Course requirements for degree completion will be determined upon the students re-entry to the faculty. Students who request to return to the Faculty of Nursing more than five years after withdrawal (i.e. non-activity in the Faculty of Nursing) or students who attend another faculty or institution must re-apply through Admissions. Note the policy in the *Undergraduate Calendar* re transfer of credit.

Distance Delivery

Registration for Distance Delivery courses is done through Aurora Student. Independent study refers to course delivery by correspondence; group-based refers to studying independently as well as having scheduled audio-conference sessions; and net-based study refers to course delivery through the World Wide Web. **Nursing courses available by Independent Study through Distance Delivery are restricted to Registered Nurses.** To obtain an Extended Education Program Guide, phone (204) 474 8011/8012 or (204) 474 8997.

On-Line Delivery

Course fees must be paid and processed for students to access their on-line course. Access to on-line courses begins on the first day of the term. Students registering in on-line delivery courses must ensure they claim UM id at <https://pasweb.cc.umanitoba.ca/webapp/gu/claimid/> well before the start of class. Necessary course information may be forwarded to you by the course leader via email. Therefore, it is imperative that your current UM email address is on Aurora Student and that you check the email regularly. Questions related to technical support, such as hardware / software related issues, can be directed to: angel@cc.umanitoba.ca or UM Angel

474 6992. Course leaders can be contacted for course related matters such as content, assignments. Registration by August 15 for fall term and November 15 for winter term will ensure receipt of the course information from the professor by the course start date. When a student is placed on hold, access to web based courses is interrupted.

To access an on-line course, go to the University of Manitoba website: umanitoba.ca. Under "current students," click on Angel or JUMP on the drop down menu and follow instructions.

Course Section Numbers

Read the timetable carefully and ensure you are registered in the correct section. When more than one section of a nursing course is listed (e.g. A01, A20), it may indicate different programs or delivery sites or delivery mode.

NOTE: Normally A20/21 sections are restricted to BPRN students; A41/A42 are restricted to UCN Joint Program students; A50 is restricted to RRC/UM Joint Program students.

Attend the Correct Section

Students are required to attend the section of the course in which they are registered. Each year a number of students are assigned AF@grades in courses in which they have actually attained a passing grade. In most cases, this is because they have registered in one particular section and attended another section of the same course. To prevent this:

! Double check the lecture section.

! Check to ensure you are in the right section.

! If your name does not appear on the instructor's computerized class list, you are not registered in that section. **Changes MUST be finalized by the student before the end of the revision period.**

Students registered for a section or a course in which they are not entitled to space may be removed without notice. Any resulting fees incurred are the responsibility of the student. It is the student's responsibility to attain space in the correct section or course.

Inter-Faculty Option in Aging

The Inter-Faculty Option in Aging is available to all students registered in Nursing at the Winnipeg site.

The Inter-Faculty Option in Aging includes required and elective courses for a total of 18 credit hours. Please note this option can be completed as part of program requirements. Refer to the current *Undergraduate Calendar* Faculty of Nursing chapter for information.

Required Courses: 6 credit hours

KIN 2610 Health and Physical Aspects of Aging. This course will be offered in fall term, Tuesday evening 6:00 to 9:00 p.m. This course may also be offered as NURS 2610.

SWRK 2650 Social Aspects of Aging. This course will be offered in winter term, Tuesday evening 6:00 to 9:00 p.m. This course may also be offered as REC 2650 or IDES 2650 or HMEC 2650.

Elective courses: 12 credit hours

Students select 12 credit hours of aging-related courses: at least 3 credit hours of these must be from those offered within Nursing (not including NURS 2610). Students are encouraged to select elective courses from the other participating units in the Inter-faculty Option in Aging: Arts, Clayton H. Riddell Faculty of Environment, Earth and Resources, Human Ecology, Physical Education and Recreation Studies, and Social Work. Space is reserved for students in the participating faculties during the initial access period. Students in University 1 will have access to these courses at the end of initial registration.

Students will monitor their own progress through the Inter-faculty Option in Aging. Consult a nursing student advisor as you complete each option in aging course to ensure your file is updated and you are meeting the requirements of the option. Students who complete the Inter-faculty Option in Aging will have a comment placed on their transcript indicating successful completion. Contact a student advisor for information.

Reserve/Service Courses

The Faculty of Nursing has reserved spaces in some Arts and/or Science courses required for nursing. These courses are listed in the timetable under AService/Reserved Courses, following the Nursing courses. SECTION 3: Baccalaureate Nursing Program Information

Baccalaureate Nursing Program

The Faculty of Nursing does not guarantee students will obtain space in courses in desired sections. Please read your timetable carefully.

Fort Garry Campus Year 2 Orientations

- **Year 2 students registered in NURS 2180 Clinical Nursing Practice I** (Tuesday/Wednesday clinical) must attend a mandatory orientation September 1, 2009; which continues September 8, 2009. Clinical rotation will begin September 15, 2009.

- Year 2 students registered in NURS 2180 Clinical Nursing Practice I (Thursday/Friday clinical) must attend a mandatory orientation September 2, 2009; which continues September 9, 2009. Clinical rotation will begin September 17, 2009.

- Year 2 students registered in NURS 2190 Clinical Nursing Practice II (Tuesday/Wednesday) must attend a mandatory orientation September 1, 2009; which continues September 8, 2009. Clinical rotation will begin September 15, 2009.

- Year 2 students registered in NURS 2190 Clinical Nursing Practice II (Thursday/Friday clinical) must attend a mandatory orientation September 2, 2009; which continues September 9, 2009. **Clinical rotation will begin September 17, 2009.**

First Week of Classes

The Faculty of Nursing reserves the right to revise student's registration as necessary to fully utilize clinical and/or lab space.

Note: Health Assessment NURS 2120, Nursing Skills NURS 2130 and NURS 3280 do not start until the week of September 14, 2009. Clinical orientation information and locations are posted on the web and on the bulletin board across from Helen Glass 260 for details. Students must attend clinical orientations as they are mandatory.

- Classes commence Thursday, September 10, 2009.
- Reminder: lectures and labs in NURS 2120 – Health Assessment, and NURS 2130, NURS 3280 Nursing Skills labs will start the week of September 14, 2009. Check the website and bulletin boards for details.

- First year students attend classes as scheduled.

- **Year 2 students in theory courses ONLY should attend classes as scheduled.** Students should attend the orientation for the year in which they are doing clinical.

- Year 3 and 4 students are required to be in attendance for the first week of classes for orientation daily from 8:30 a.m. to 4:30 p.m.

Students registered in NURS 3300 Clinical Practice III (Restoration) or NURS 3320 Clinical Practice IV Tuesday/ Wednesday in fall term will attend scheduled NURS 3280 orientation and NURS 3290 or NURS 3310 lectures on September 15 to 23, 2009 where initial discussion regarding the clinical will be held. Details will be posted outside HG 260 and/or on the web. **Note: there are additional lectures in NURS 3290 and NURS 3310 September 15, 16, 22 & 23, 2009.**

Students registered in NURS 3300 Clinical Practice III (Restoration) or NURS 3320 Clinical Practice IV (Maintenance) Thursday/Friday in fall term will attend scheduled NURS 3280 orientation and NURS 3310 or NURS 3290 lectures September 10 to 25, 2009, where initial discussion regarding the clinical will be held. Details will be posted outside HG 260 and/or on the web. **Note there are additional lectures in NURS 3290 and NURS 3310 September 10, 11, 17, 18, 24, & 25, 2009.**

Students registered in NURS 4270 Clinical Practice V in fall term should attend orientation (for Senior Practicum in Winter 2010 term) September 10, 2009 and theory lectures on September 11, 2009. Details will be posted outside HG 260 and/or on the web. **Note – the site selection form can be found on the web and must be returned to the Senior Practicum course leader.**

Students registered in NURS 4430 Clinical Practice 6 (Communities Rotation) in fall term should check the Faculty of Nursing website and the bulletin board across from HG260 for current orientation information.

Other fourth year students should attend scheduled classes.

CPR & Immunizations

Students admitted in 2009/2010 who are deficient in immunization and/or CPR on August 1st will NOT be allowed to attend classes.

Thereafter, students (including those who are CPR certified Instructors) must re-certify their CPR at the Health Care Provider (C) level (CPR HCP-C) in **April or May annually** as all CPR must be valid throughout the entire academic year - September 1 to April 30th.

All returning students in the four year program must submit CPR documentation to the Student Services Assistant or the Nursing Registrar **by June 1**. Students deficient in immunization and/or CPR documentation as of June 2 will be **blocked** from registering and will be permitted to register **after** the initial access period **after** all documentation has been received. **Reminder: Space will not be reserved during initial registration period for students with documentation deficiencies as of June 2. Note: Sections below on "Hold Status" and "Clinical Practice".**

All returning students in the Baccalaureate Program for Registered Nurses are responsible for maintaining current CPR (HCP-CP) re-certification. They are not required to submit documentation to the Faculty of Nursing.

Hold Status

Students deficient in CPR and/or immunization documentation will be placed on **hold** and will not be permitted to attend classes until documentation is submitted. **Space will not be reserved in the initial registration period if documentation is not submitted by the deadline date.**

Consult the current University of Manitoba Undergraduate Calendar for information regarding "hold status".

Clinical Practice

NOTE: Students must be registered in all clinical courses (for both fall term and winter term) **no later than August 23, 2009**. Every effort will be made to accommodate eligible students who register for clinical courses by the specified deadline. However, available clinical space is agency dependent and therefore space cannot be guaranteed. In order to register for clinical, students- CPR and/or Immunizations must be current, and proof thereof must have been submitted to the Faculty of Nursing. **No space will be reserved for students in the initial registration period in any course if documentation is not submitted by the deadline date.**

Students are required to keep the full day (i.e. 7 a.m. to 10 p.m.) available on the days clinical practice is scheduled. **Therefore, students may not take a course that has lectures on a clinical day or evening. Preparation for clinical practice may be expected the day prior to clinical. Students should keep a few hours free the evening before clinical to do preparation for the following day.** This is especially important in years 3 and 4.

Clinical times may vary depending on the clinical setting. Students must keep the evening BEFORE clinical available for clinical preparation and/or visit.

Students returning after one year or more of absence from clinical or nursing skills courses are required to complete a demonstration of psychomotor skills competency in the skills lab. Competency must be demonstrated *prior* to clinical attendance. The demonstration must be completed by July 1 for fall term and by November 1 for winter term.

Clinical Locations

Students are expected to travel for clinical rotations located in Winnipeg and surrounding towns and should be available for evening or weekend practice. The Faculty uses evening and weekend hours for some clinical groups. Travel to clinical agencies is expected and is the responsibility of the student.

NURS 4290 SENIOR PRACTICUM

All students registering for NURS 4290 should be aware there are information sessions for this course scheduled **in the term prior to the term you are taking this course**. Note: students cannot withdraw from this course via Aurora Student and must contact the Nursing Registrar or Student Advisors after contacting the course leader in the event they are not completing this course.

As indicated in the *Undergraduate Calendar* all courses in the program are prerequisite to Clinical Practicum NURS 4290; therefore, students will not be permitted to take courses concurrent with NURS 4290.

If you require clarification on how this may affect your progress through the program, please make an appointment with a Faculty of Nursing student advisor.

International students require a work permit to complete NURS 4290 and should allow sufficient time prior to the start of the senior practicum.

All students should ensure to add their grad date on Aurora Student when you register for your senior practicum (NURS 4290).

September-November Section

Students taking the September-November section of NURS 4290 will register for this course in the initial registration period. These students should expect to attend information sessions for NURS 4290 in summer term and should watch the bulletin board across from HG260 for scheduled sessions. These students will be graduates as of February, 2010. They will attend convocation in May 2010.

January-March Section

Students taking the January-March section of NURS 4290 will register for this course in the initial registration period. These students should expect to attend orientation sessions for NURS 4290 in fall term (Sept 10, 2009) and should watch the bulletin board across from HG260 for scheduled sessions. These students will convocate in May, 2010.

May-July Section

Students completing their senior practicum NURS 4290 during the May-July session will register for this course in March 2010. This course is registered as Summer Session 2010. Orientation/information sessions will be held in January/ February 2010. These students will convocate in October, 2010.

Upon completion of ALL program requirements, students should retrieve their immunization records from the student services assistant in HG 262. These documents will be shredded after the student's graduation.

9.4 Baccalaureate Program for Registered Nurses Information and Policies

Early registration is encouraged to avoid disappointment and/or course cancellation due to low enrolment. Students in the Baccalaureate Program for Registered Nurses should register in *both* fall term and winter term courses during the initial registration period. Fees for fall term courses ONLY are due in September.

Policies regarding immunization, CPR, and CRNM registration apply to **all** Registered Nurses in the program. See Immunization, Section 2. Nurses must maintain active practising membership with the College of Registered Nurses of Manitoba as a requirement of the Baccalaureate Program for Registered Nurses. The Faculty of Nursing will verify membership status directly with the College of Registered Nurses of Manitoba (CRNM) by January 15 annually.

Those students who are outside the province of Manitoba must provide the Student Services Assistant or the Registrar with proof of current registration annually.

NURS 2110 Health Assessment of Individuals by Independent Study: Although this course is by independent study, students are required to attend three workshops and a practical examination at Fort Garry Campus or another designated site. Alternative arrangements can be made for those studying at a distance.

NURS 3200 Nursing Individuals and Families with Long Term Illness and Disability and/or NURS 3230 Perspectives on Mental Health Nursing: It is recommended students do not register for NURS 3200 and/or NURS 3230 concurrently due to the heavy time commitment for the clinical practice component.

NURS 4210 Independent Study In Nursing Practice: Students registering for NURS 4210 must have attended an information session on the objectives for this course or must contact the course leader at least 3 months prior to the start of the term in which the course is offered to discuss their proposal.

Information Sessions: Information sessions are held approximately 3 months prior to the start of the course. Students should check the BPRN News section of the Faculty of Nursing web page for dates of upcoming information sessions: umanitoba.ca/faculties/nursing/programs/bprn or contact a Student Advisor.

Clinical Practice in Course NURS 3200

Clinical experience for this course must be arranged by May 1, 2009 for fall term and by September 30, 2009 for winter term. Contact the placement officer at 474 6734 to discuss opportunities for clinical experience.

Registration for these courses WILL BE CLOSED by:

- ! August 23, 2009 for courses beginning September 2009.
- ! November 1, 2009 for courses beginning January 2010.
- ! January 31, 2010 for courses beginning May 2010.

9.5 Registration Information

All newly admitted U of M students must access Aurora Student after July 2, 2009 to determine their exact access time. (Refer to the Registration Information section at the front of this *guide* for further direction.)

Initial Registration Period

Students are referred to the chapter, "Registration Information: Aurora Student".

Registration for returning students is scheduled by declining Degree GPA, starting with the highest. Therefore, students who have the opportunity to register early will have a greater choice of timetable patterns than those whose time ticket is later in the registration period when course selection is limited.

Students must register for courses within one specific timetable layout. Students who deviate from the timetable layout by registering for courses among a number of timetable layouts, will be moved into one specific layout without notice in order that all lab and/or clinical space can be utilized. Example – if you are registered in NURS 2120 A01/B01, you must also register in NURS 2130 A01.

Four Year Program Timetable Layouts will be posted at

:<http://umanitoba.ca/faculties/nursing/studentarea/108.htm>

BPRN Course Timetable will be posted at:

<http://umanitoba.ca/faculties/nursing/studentarea/108.htm>

9.6 Helpful Hints

Registration

Nursing students should register for **all** their courses (i.e. fall term and winter term) during the Initial Access Period.

Prior to registration period: Students requiring help with their PIN number should contact Registrar's Office at (204) 474 9420 or toll free in North America at 1 (877) 474-9420 for assistance.

Read through the steps outlined in the Registration Section of this Guide carefully at least once so you understand the system.

It is recommended that you register during your initial access time to facilitate space in preferred courses and/or sections.

It is strongly recommended after every Adrop® or Aadd™, you check your courses, to ensure the transactions you intended did occur.

The Nursing Registrar is unable to enrol you in courses which are full.

NOTE: Because the system is Aon-line®, as students revise their registration, space may become available at a later date. You may access the system several times to check for space.

Special Students May Register Nursing Courses with Written Permission as Follows:

Space in nursing theory courses is available only to Registered Nurses in other faculties as follows:

Fall Term Courses:

Teleconference sections: During the Initial Access Period.

Independent Study sections: Beginning July 24, 2009.

On site sections: Beginning August 23, 2009.

Winter Term Courses:

Teleconference sections: During the Initial Access Period

Independent Study sections: Beginning October 1, 2009.

On site sections: Beginning November 1, 2009.

Required Courses (Summer Session)

Students are urged to register for required courses during the fall and winter terms. There is no guarantee required courses will be offered during summer session.

Voluntary Withdrawal

Students are encouraged to discuss their plans with a student advisor or nursing registrar before withdrawing from required courses. Students should familiarize themselves with the Faculty of Nursing voluntary withdrawal policy.

Voluntary withdrawal dates are listed in the Academic Schedule of the current *Undergraduate Calendar* and in the Fee Refund Section of this *Guide*. Students registered in courses with irregular dates should pay attention to their specific voluntary withdrawal/refund schedule.

The dates for Voluntary Withdrawal and the Refund Schedule are two different things. Consult the appropriate sections of this guide for details and dates.

Letters of Permission

Students who wish to take a course at an institution other than U of M must request a Letter of Permission. The request and payment should be made through the Registrar's Office. Approval is required at least one month prior to the commencement of classes at the other institution. The application for a Letter of Permission form must be processed by Registrar's Office and forwarded to Faculty of Nursing for approval before the actual Letter of Permission is produced. The Letter of Permission is then sent to the other institution providing the basis for admission. Allow ample time for processing. Refer to the regulations in the current *Undergraduate Calendar*.

Students are responsible for ensuring that a transcript of the course(s) taken on a Letter of Permission is submitted to the Registrar's Office. Students registered through a Letter of Permission with Registrar's Office must advise the Registrar's Office if they do not complete the course. If students do not advise the Registrar's Office, an AF® will be recorded on their transcript.

Final Examinations

You must be available for final examinations.

Refer to examination information in the current Undergraduate Calendar.

Both preliminary and final examination timetables are available at website: umanitoba.ca.

Since some examinations are scheduled and/or arranged by the instructor, please ensure you obtain the correct date, time, and location from the instructor. **Double check the information carefully!**

Deferred Examinations

If you are unable to write your final examination because of illness or other disability:

! You must inform your instructor.

! You may apply for a deferred examination through a Faculty of Nursing Student Advisor, no later than seven days after your final scheduled examination.

! Either a medical statement signed by a doctor or other appropriately signed statement attesting to your inability to write the final examination on the scheduled date is required.

! Permission to write a deferred final examination is granted or denied by the Associate Dean, Undergraduate Programs, Student Affairs, Faculty of Nursing.

Lab exemptions

If you are repeating a course with a required lab which was successfully completed in a previous session, consult the teaching department/faculty to see if a lab exemption is available.

Obtain the required form from the teaching department/faculty and forward it to the registrar or a student advisor, Faculty of Nursing.

When registering for the course, enter B98 for fall term lab section and B99 for winter term lab section.

Changes in the Course Offerings

Course offerings are available on Aurora Student. The faculty reserves the right to make changes without notice, including cancellation and/or addition of courses and/or sections.

Dean Emeritus

Steele, J.W., B.Sc. (Pharm.), A.R.S.C., Ph.D., (Glasgow).

Professors Emeriti

Briggs, C.J., B.Pharm., Ph.D. (London), F.R.Pharm.S.; **Templeton, J.F.,** B.Sc.(Hons.), MSc. (Memorial), D.I.C. (Imperial College), Ph.D., D.Sc., (London), F.R.S.C., C.Chem., (UK).

Professors

Burczynski, F.J., B.Sc. (Pharm.), M.Sc., Ph.D. (Manitoba); **Collins, D.M.,** Dipl. Pharm. (New Zealand), M.Sc., Ph.D. (Minnesota); **Gong, Y.,** B.M. (Beijing), M.Sc., (China), Ph.D., (Manitoba); **Grymonpre, R.,** B.Sc. (Pharm.) (Manitoba), Pharm.D., (Minnesota); **Hasinoff, B.,** B.Sc.(Hons.), Ph.D. (Alberta); **Leslie, W.,** B.Sc. (Hons.), M.Sc., M.D. (Manitoba); **Moghadasian, M.,** D.V.M. (Iran), M.Sc., Ph.D. (British Columbia); **Pierce, G.,** B.P.H.E. (Lakehead), M.Sc., (Dalhousie), Ph.D., (Manitoba); **Simons, K.J.,** B.Sc. (Pharm.), M.Sc. (Manitoba), Ph.D. (Washington); **Sitar, D.,** B.Sc.(Pharm.),

M.Sc., Ph.D., (Manitoba); **Zelenitsky, S.,** B.Sc. (Pharm.) (Manitoba), Pharm.D. (SUNY Buffalo).

Associate Professors

Ariano, R., B.Sc.(Pharm.), (Manitoba), Pharm.D., (Minnesota); **Chee, L.,** B.Sc. (Pharm.), M.Sc., (Manitoba); **Gu, X.,** B.Sc. (Pharm.), M.Sc., Ph.D., (Nanjing); **McIntosh, A.R.,** B.Sc. (Chem.) (Calgary), Ph.D. (Queen's); **Metge, C.,** B.Sc. (Pharm.) (Alberta), Ph.D. (Maryland); **Vercaigne, L.,** B.Sc. (Pharm.), (Manitoba), Pharm.D. (Toronto).

Assistant Professors

Alessi-Severini, S., (B.Sc.), (Parma), Ph.D., (Alberta); **Anderson, H.,** B.Sc., Ph.D., (Manitoba); **Bras, A.,** B.Sc. (Chem.), Ph.D., (Manitoba); **Bugden, S.,** B.Sc. (Pharm.), M.Sc., (Manitoba); **Davis, C.,** B.Sc. (Pharm.) (Manitoba), Pharm.D. (British Columbia); **Friesen, M.,** B.Sc. (Pharm.), M.Sc. (Pharm.) (Manitoba), Pharm.D. (Toronto); **Fusee, R.,** B.Sc. (Pharm.) (Manitoba); **Gin, A.,** B.Sc. (Pharm.) (Manitoba), Pharm. D. (SUNY Buffalo); **Honcharik, N.,** B.Sc. (Pharm.), Pharm.D. (SUNY Buffalo); **Honcharik, P.,** B.Sc. (Pharm.) (Manitoba), Pharm.D. (SUNY Buffalo); **MacNair, K.,** B.Sc. (Pharm.) (Manitoba); **Namaka, M.,** B.Sc., (Pharm.), M.Sc., Ph.D., (Manitoba); **Raymond, C.,** B.Sc. (Pharm.) (Alberta), PharmD. (British Columbia); **Thomson, P.,** B.Sc. (Pharm.) (British Columbia), Pharm.D. (Wayne State); **Thurmeier, R.,** B.Sc., (Pharm.) (Manitoba); **Trozzo, P.,** B.Sc.(Pharm.), (Manitoba); **Watrall, W.,** B.Sc. (Pharm) (Manitoba), PharmD, (Minnesota); **Wazny, L,** B.Sc. (Pharm.) (Manitoba), PharmD. (Minnesota); **Woloschuk, D.,** B.Sc.(Pharm.) (Saskatchewan), Pharm.D., (Cincinnati).

Lecturers

Wong, D., B.Sc. (Pharm.) (Manitoba).

Instructors

Ayotte, J., B.Sc. (Pharm.) (Manitoba), CAE; **Brink, K.,** B.Sc. (Pharm.) (Manitoba); **Cote, D.,** B.Sc., Ph.D. (Pharm.), M.Sc. (Manitoba); **Kleiman, N.,** B.S.P. (Pharm.), (Saskatchewan), MBA, (Athabasca); **Kural, B.,** B.Sc. (Pharm.) (Manitoba); **Louizos, C.,** B.Sc. (Pharm.) (Manitoba); **Petrasko, K.,** B.Sc. (Pharm.) (Manitoba).

Sessional Instructors

Boyd, D., B.Sc. (Pharm.) (Manitoba); **Forsyth, R.,** B.Sc. (Pharm.) (Manitoba); **Guse, R.,** B.Sc. (Pharm.) (Manitoba); **Lessard-Friesen, S.,** B.Sc. (Pharm.) (Manitoba); **Norrie, O.,** B.Sc. (Pharm.), M.Sc. (Manitoba); **Treacy, S.,** B.S.P, M.Sc. (Saskatchewan).

Adjunct Professors

Friesen, A., B.Sc., M.Sc., Ph.D. (Manitoba); **Mang'era, K.,** B.Sc. (Pharm.) (Kenya), M.Sc., Ph.D. (Belgium); **Van Domselaar, G.,** B.Sc.(Chem), Ph.D. (Pharmacy/Pharmaceutical Sciences) (Alberta).

SECTION 2: Pharmacy Education

Pharmacists are specialists in drug therapy and provision of pharmaceutical care. This involves not only the traditional function of preparing and dispensing medications but includes designing and monitoring drug therapy plans to optimize patient care. The Faculty of Pharmacy has been educating pharmacists for over one hundred years. It has dynamic faculty members characterized by their teaching expertise, research programs and practice partnerships in the health sciences field. Members of the Faculty are internationally recognized through their participation in research and various committees and agencies. Their research is funded through a variety of sources including, CIHR, NSERC, CRC, various other government agencies, and the pharmaceutical industry.

The undergraduate pharmacy program is meant to prepare students for entry-level practice in the profession of pharmacy by providing them with a solid foundation in the basic, pharmaceutical and clinical sciences which is applied to the concept of pharmaceutical care. In addition, the program is designed to provide students with a broad experience in patient care

through the nineteen weeks of practical experience in health orientated health care settings and hospital and community pharmacies. The experience is further enhanced with an open elective program in the final year of studies.

SECTION 3: Admission to Pharmacy

3.1 Degree Offered

Bachelor of Science in Pharmacy

Minimum time to graduation: Five years (University 1 plus four years).

All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website.

3.2 Course requirements (University of Manitoba)

Chemistry CHEM 1300 and CHEM 1310

Biology BIOL 1020 & BIOL 1030

Mathematics MATH 1500, or MATH 1510 or MATH 1520, or MATH 1530
6 credit hours of Arts electives (of which 3 hours satisfy the University Written English requirement): 0900 courses such as ENGL 0940 are NOT acceptable.

9 credit hours of open electives: 0900 courses such as ENGL 0930 are NOT acceptable.

Other requirements

High school prerequisites: Math 40S (pre-calculus) with minimum grade of 60%, Chemistry 40S with minimum grade of 50%, Biology 40S with minimum grade of 50%.

Minimum GPA for consideration: 3.5. (Please refer to the Faculty of Pharmacy Applicant Info Bulletin for more details).

The admission process includes a written essay/problem solving exercise.

Selection criteria: 70% AGPA, 30% written essay/problem solving exercise. Only students with an essay score of five or more (out of a possible ten) will be ranked for admission.

Criminal Record Check/Child Abuse Registry Check

Many health care agencies where Pharmacy students are placed require a criminal record and/or child abuse registry check. As a result all successful applicants to the Faculty of Pharmacy are now required to provide a self-declaration of a Criminal Record and Child Abuse Registry listing following provisional admission, as well as an official Criminal Record Search and Child Abuse Registry Check. All documents must be submitted to the Faculty of Pharmacy Dean's Office by the first day of classes. Any applicant on the Child Abuse Registry will be denied admission. A criminal conviction will not necessarily result in denial of admission to the Faculty of Pharmacy. Criminal offences will be reviewed by a sub-committee of the Pharmacy Admissions Committee for the implications of the conviction in view of the professional mandate to protect the public. Failure to disclose any adult criminal record or listing on the Child Abuse Registry will invalidate an application and shall result in automatic expulsion from the Faculty of Pharmacy if the applicant has been admitted. In addition, the Manitoba Pharmaceutical Association requires that all graduates of the Faculty of Pharmacy who wish to obtain a license to practice pharmacy in this province, must disclose information about any conviction for an offence under the Criminal Code (Canada), the Controlled Drugs and Substances Act (Canada), or the Food and Drugs Act (Canada) in order to be considered for eligibility for registration with the Manitoba Pharmaceutical Association. The review process conducted by the Faculty of Pharmacy is independent of the review process conducted by the Manitoba Pharmaceutical Association.

Professional Registration

Manitoba Pharmaceutical Association

Students who are accepted for admission to the Faculty of Pharmacy and have commenced classes in the Faculty shall, before October 31 in the year in which they are admitted to the Faculty, file an application for registration as a student of the Manitoba Pharmaceutical Association. Application forms are obtainable from The Registrar, Manitoba Pharmaceutical Association, 187 St. Mary's Road, Winnipeg, Manitoba R2H 1J2; telephone, (204) 233-1411 or are also available in the Faculty of Pharmacy

Dean's Office. The necessary documents which must accompany the application are indicated on the form.

Full information on the requirements for licensure in the Province of Manitoba is available from the registrar of the Manitoba Pharmaceutical Association.

Pharmacy Examining Board of Canada

All applicants for licensure must pass the qualifying examinations of the Pharmacy Examining Board of Canada. The board requires proof of language proficiency. Applicants who did not attend primary and secondary educational institutions where English or French was the principal language of instruction must provide evidence of successful completion of designated language proficiency tests before sitting for the qualifying examinations. Full information is available at the Faculty of Pharmacy Dean's Office.

Immunization

All students enrolled in the Faculty of Pharmacy must be immunized against the following diseases: diphtheria/tetanus, polio, rubella, measles, mumps, chickenpox, Mantoux/Tuberculosis and hepatitis B. The influenza vaccination is recommended but not required. Students admitted to first year Pharmacy will be provided with an Immunization package at the time of acceptance into the Faculty. Students have the option to complete their immunizations with their own healthcare provider or participate in the Bannatyne Immune Status Program on campus. Students will be required to complete their Immunization Record Form by the end of their first year. Students will not be able to attend clinical rotations until all immunization requirements are up-to-date. Students are responsible for updating their immunizations as needed. Completion of the immunization schedule is required for course progression in Pharmacy.

SECTION 4: Academic Regulations

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Pharmacy has regulations and requirements, published below, that apply specifically to its students.

4.1 Scholastic Progress

For course progression in the Faculty of Pharmacy students must achieve a minimum combined fall and winter term GPA of 2.0, and attain the minimum passing grade of "C" in each course.

A student in any of the first three years of the pharmacy program who records no more than two grades of "D" during the academic year, and who achieves a minimum combined fall and winter term GPA of 2.00, may at the discretion of the dean be permitted to apply for a supplementary examination in those courses.

A student in the fourth year of the pharmacy program who records no more than one grade of "D" during the academic year, and who achieves a minimum combined fall and winter term GPA of 2.00, may at the discretion of the dean be permitted to apply for a supplementary examination in that course.

Application forms for supplementary examinations are available in the Faculty of Pharmacy Dean's Office, and the examination is subject to a prescribed fee. Supplementary exams will normally take place in the following mid-summer examination session each year.

A student who has failed to record a minimum grade of "C" in more than two courses within years one to three of the pharmacy program, or in more than one course in the fourth year of the pharmacy program, or who records a grade of "F" during the academic year at any stage during their program may not be granted supplementary examinations unless the dean by reason of special circumstances applicable to the student's case otherwise decides.

A candidate who has been allowed to sit for a supplementary examination may not be awarded a grade higher than "C" in that course. Grade calculations for any course following supplementary examination will be inclusive of on-course assessment. Grades achieved following supplementary examination will replace those grades originally recorded on the student's academic record.

A student who fails to achieve a passing grade of "C" in one course, following supplementary examination if that option is offered, and who achieves a minimum combined fall and winter term GPA of 2.00, will be required

to repeat that course and may at the discretion of the dean be required to repeat all, or a number of courses in that year.

A student whose combined fall and winter term GPA falls below 2.0, or who fails to achieve a minimum passing grade of "C" in two courses, following supplementary examination if that option is offered, and whose combined fall and winter term GPA remains above 1.75, will be considered to have failed that year, and will be required to repeat all subjects in the following academic year.

The records of all students who fail a year, and the disposition of the cases, shall be reported to Faculty Council for information, but not for debate. Students who have cause to disagree with the disposition may file an appeal against the decision.

A student who fails more than one year in the program, or who fails the same year twice, shall be required to withdraw from the Pharmacy program.

A student who fails to achieve a passing grade in more than two courses in the academic session, or whose combined fall and winter term GPA falls below 1.75, or who fails to achieve a passing grade in a repeated year, will be required to withdraw from the Pharmacy program.

4.2 Appeals Concerning Scholastic Progress

Should a student wish to appeal against any decision concerning scholastic progress, the following procedure should be followed:

The problem should be discussed with the Associate Dean (Academic) of Pharmacy, who will supply information about the appeals procedure, academic regulations and related matters.

Students who still wish to proceed with an appeal should consult the Student Advocate for advice and assistance, and a letter of appeal must be sent to the dean within 21 days of receiving notification of the decision. The letter should state the nature of the decision being appealed and the alternative that is being requested.

The Dean will respond in writing to notify the appellant of the date and time the student should attend a meeting of the Faculty Appeals Committee.

The Appeals Committee will comprise: the Dean of the Faculty (or designate) as chair; one senior support staff member as secretary; three members of the full-time faculty appointed by the full-time faculty; a representative of the profession appointed by the Manitoba Pharmaceutical Association; one student member of Faculty Council appointed by the Faculty Council. The chair and senior support staff member are non-voting members.

Appellants have the right to attend the hearing of their appeal and may have a representative to assist them at the appeal hearing. This representative may be the Student Advocate or a fellow student or other full-time member of the university community not receiving payment for appearing, or working for Legal Aid. In addition, if the student wishes, one member of his or her immediate family, and also if desired a lawyer, may be present, but as observers who do not participate. The decision of the Appeals Committee will be conveyed to the student as soon as possible after the hearing.

If the appellant is still dissatisfied they may wish to discuss the issue further with the Student Advocate and/or the university Ombudsman. Student appellants should not expect a favourable decision when their appeal is based on grounds related to external factors such as employment, sports, or hobbies.

4.3 Transfer of Credit Earned Elsewhere

Pharmacy students transferring credit from any faculty or school in the University of Manitoba or from other universities or colleges will have each course acceptable for transfer purposes noted on the student record with the course classification of "TR" (transfer). The relevance of courses completed to the student's educational objective at the University of Manitoba and the quality of academic achievement as evidenced by the student's grades will be determining factors in assessing acceptability of credits earned elsewhere. No transfer of credit will be given for courses taken ten years or more prior to application date. No transfer of credit will be permitted for courses where a "D" grade (or its percentage equivalent) has been awarded.

4.4 Residence Requirements

A minimum of two years attendance at the university within the Faculty is required for the Bachelor of Science in Pharmacy, except with the permission of the Faculty.

4.5 Attendance at Class

Regular attendance is required of all students in all courses. Students who are absent from class for a period of three days or more due to illness must present a certificate from a physician to the office of the dean upon their return. An instructor may initiate procedures to debar a student from attending classes and from final examinations where unexcused absences exceed three continuous sessions. Students must obtain prior approval from the dean for an absence exceeding one day for reasons other than illness.

4.6 Voluntary Withdrawals

Any student seeking to withdraw from a portion of, or all of their courses must provide written notification to the Dean's Office of the reasons for this request. Re-entry to Pharmacy by students who voluntarily withdraw, will be dependent on the availability of space and external rotation facilities. Any student who has voluntarily withdrawn from a portion of, or all of their courses in Pharmacy on more than one occasion will not be permitted re-entry into the program. Withdrawals for medical or compassionate reasons will not contribute toward this maximum. Students who, for medical reasons, withdraw from the program may not re-register until they have established, through proper medical consultation, their fitness to resume studies.

4.7 Deferred Examinations

Students may file an application for a deferred final examination with the Dean for reasons of illness or other disability, or for compassionate reasons, setting out the reasons for the deferral. The application must be filed within seven working days of the end of the examination series in which the examination was scheduled to be written and must be accompanied by a medical certificate or otherwise appropriate documentation certifying the reason for the deferral, the inability of the student to write the examination at the regular scheduled time and, where possible, indicating the period of disability. Based on the evidence provided, the Dean shall decide whether the application is approved. Students who, for medical reasons receive deferred examination privileges for all final examination series may not re-register until they have established, through proper medical consultation, their fitness to resume studies. Any students requesting a deferred examination on the grounds that they are participating in an inter-university, provincial, inter-provincial, national or international scholastic or athletic event shall be granted said deferral, provided an application is filed with the Dean of the Faculty well in advance (normally 20 working days) of the scheduled examination; and that the Dean is satisfied, based on the evidence provided, that the application should be approved and that an appropriate time, and acceptable invigilator is not otherwise available to the student. Any student requesting deferred examination(s) will be required to sign an undertaking that the student has not discussed, reviewed, had access to, or otherwise become aware of the contents of the deferred examination except as expressly authorized by the instructor or professor for the course in which the deferred examination is being undertaken.

4.8 Incompletes

A student who is unable to complete the term work prescribed in a course may apply to the instructor prior to the end of lectures for consideration of a grade classification of 'Incomplete.' Should an 'incomplete' be granted the student will still be required to write the final examination, if one is scheduled for the course, and a temporary grade of 'IF' will be submitted. In addition to the grade, the recommendation for an 'incomplete' should indicate the reason(s) for consideration being given, a description of the outstanding work to be completed, and the date by which the work must be submitted. If a final grade is not reported by the above maximum extension deadlines, the letter 'I' will be dropped and the grade of 'F' will remain as awarded, unless where specific circumstances warrant, the Associate Dean (Academic) extends the date by which an Incomplete must be cleared. Instructors must formally request such an extension prior to the elapse of the maximum deadline date. In addition, the Registrar's Office must be notified of the extension.

4.9 Eligibility for Medals, Scholarships, Awards and Prizes

Eligible students who achieve a combined fall and winter sessional GPA of 4.0 or higher will be placed on the Dean's Honour List. Eligible students must have completed a minimum of 12.5 credit hours in each of the fall and winter terms. The Dean's Honour List designation is not applied until the end of the winter term.

4.10 Academic Self-Declaration

All students accepted into the Faculty of Pharmacy will be required to complete a Self-Declaration of Records Form which declares current or previous academic suspensions and expulsions. The disclosure contained therein must be satisfactory to the Faculty of Pharmacy.

4.11 Experiential Training (Structured Practical

Experiential Program [SPEP])

Approved Placement Sites are limited, and the University cannot warrant that it will be able to find sufficient suitable placement sites in convenient locations, in a timely manner or at all. Students are responsible for all costs associated with SPEP, including travel and living expenses where placements are outside Winnipeg.

4.12 Academic Honesty

Many courses in the Faculty of Pharmacy require group projects and students should be aware that these are subject to the same rules regarding academic honesty as individual projects. Because of the unique nature of group work, all members of the group should exercise special care to insure that work completed does not violate academic integrity. Should a violation occur, group members will be held jointly accountable unless the violation can be attributed to a specified individual, or group of individuals.

In the Faculty of Pharmacy all suspected cases of academic dishonesty will be passed to the Dean's Office for evaluation.

4.13 Professional Unsuitability By-Law

The Senate has approved a by-law granting authority to the Faculty to require a student to withdraw for reasons of professional unsuitability. Copies of this by-law may be obtained from the Faculty of Pharmacy Dean's Office.

4.14 Completion of the Bachelor Program

The maximum time allowable for completion of the Bachelor of Science, Pharmacy degree is seven years. Students must successfully complete all of the course work associated with a year in the program prior to being allowed to register for courses in the next year. In certain cases, the dean may grant exceptions to this requirement.

SECTION 5: Program Requirements

Course No.		Credit Hours
First Year		
CHEM 2210	Organic Chemistry	3
CHEM 2360	Intermediate Biochemistry	3
CHEM 2370	Intermediate Biochemistry	3
PHRM 1000	Introduction to Pharmacy	1
PHRM 1100	Pharmacy Skills Laboratory (PSL-1)	5
PHRM 1300	Fundamentals of Pharmaceutics	2
PHRM 1430	Applied Pathophysiology for Pharmacy Students	3
PHRM 1700	Structured Practical Experiential Program 1 (SPEP-1)	1
MBIO 2100	General Microbiology	3
ANAT 1030	Human Anatomy	3
PHGY 1030	Fundamentals of Medical Physiology	6
Total credit hours		33
Second Year		
PHRM 2100	Pharmacy Skills Lab 2 (PSL-2)	3
PHRM 2220	Medicinal Chemistry 1	6
PHRM 2270	Pharmaceutics/Biopharmaceutics	6
PHRM 2280	Pharmacokinetics	3
PHRM 2310	Clinical Pharmacy 1	4
PHRM 2420	Applied Nutrition for Health Professionals	3
PHRM 2700	Structured Practical Experiential Program 2	2
MBIO 3010	Microbiology	3

PHAC 2100	Pharmacology	6
Total credit hours		36
Third year		
PHRM 3100	Pharmacy Skills Lab 3 (PSL- 3)	2
PHRM 3210	Principles of Professional Practice	3
PHRM 3220	Medicinal Chemistry 2	3
PHRM 3310	Clinical Pharmacy 2	10
PHRM 3320	Pharmaceutical Analysis Lab	3
PHRM 3430	Natural Products	3
PHRM 3500	Clinical Pharmacokinetics	4
PHRM 3510	Principles of Scientific Literature	2
PHRM 3640	Principles of Biotechnology	3
PHRM 3700	Structured Practical Experiential Program 3	4
Total credit hours		37
Fourth Year		
PHRM 4230	Pharmacy Practice Management	4
PHRM 4310	Clinical Pharmacy 3	4
PHRM 4450	Toxicology	3
PHRM 4470	Current Topics	3
PHRM 4700	SPEP - 4	10
PHRM 4800	Electives Program	10
Total Credit Hours		34
Total credit hours in all four years:		140

NOTES:

Students may not obtain any grade lower than "C" in all required courses.

A decision will be made annually on whether these courses will be taught in first or second term, or both.

INITIAL ACCESS TIMES

Students are referred to the chapter, Registration Information: Aurora Student, Section 4.

SECTION 6: Registration and General Information

1st Year Orientation

A formal orientation session will be held on Wednesday, September 9, 2009 for 1st Year Pharmacy Students. More information on the orientation session will be mailed out in August to all 1st year students.

Student Responsibility

Students are advised to carefully review the Faculty of Pharmacy chapter of the *Undergraduate Calendar* to ensure compliance with degree program requirements.

It is your responsibility to know all relevant regulations, policies and practices that affect you.

Final completion of degree requirements is the responsibility of the student.

The University of Manitoba Registration System is not a degree audit system and the onus is on students to make sure they are selecting courses appropriate to their academic program.

Registration Assistance

If you have questions or problems with your registration you can contact the Aurora Student Help Line at (204) 474-9420, or call the Faculty of Pharmacy Dean's Office at (204) 474-9306.

Course Start and End Dates

For lectures, labs and experiential rotations, please check under your Year, below.

First Year Students

It is important that you register at your initial access time to guarantee that you get space in the required Science courses. All Pharmacy reserved space in Science will only be held until mid August.

When registering for Chemistry & Microbiology please register in the correct lecture & lab sections that have been reserved for Pharmacy Students.

The Criminal Record Check and Child Abuse Registry documentation must be submitted to the Faculty of Pharmacy Dean's Office by the first day of classes.

Note: Fall Term classes commence on Thursday, September 10, 2009. Attend all lectures/laboratories scheduled for that day.

Winter Term classes commence on Tuesday, January 5, 2010. Attend all lectures/laboratories scheduled for that day.

The courses in the first year of the program are as follows:

Dept. Name	Dept. Code	Course No.	Credit hours
Pharmacy	PHRM	1000	1
Pharmacy	PHRM	1100	5
Pharmacy	PHRM	1300	2
Pharmacy	PHRM	1430	3
Pharmacy	PHRM	1700	1
Anatomy	ANAT	1030	3
Physiology	PHGY	1030	6
Microbiology	MBIO	2100	3
Chemistry	CHEM	2210	3
Chemistry	CHEM	2360	3
Chemistry	CHEM	2370	3
Total Credit hours for First Year:			33

Second Year Students

It is important that you register at your initial access time to guarantee that you get space in the required Science courses. All Pharmacy reserved space in Science will only be held until mid August.

When registering for Microbiology please register in the correct lecture section that has been reserved for Pharmacy Students.

PHRM 2700 – This course falls under the Spring/Summer session guidelines. The Faculty of Pharmacy Dean's Office will register you for this course in March. Fees for PHRM 2700 will be assessed in March 2010.

Note: Fall Term classes commence on Thursday, September 10, 2009. Attend all lectures/laboratories scheduled for that day.

Winter Term classes commence on Tuesday, January 5, 2010. Attend all lectures/laboratories scheduled for that day.

Second year rotation will take place May 3 – May 14, 2010 with a debriefing session to be held on Monday, May 17, 2010.

The courses in the second year of the program are as follows:

Dept. Name	Dept. Code	Course No.	Credit hours
Pharmacy	PHRM	2100	3
Pharmacy	PHRM	2220	6
Pharmacy	PHRM	2270	6
Pharmacy	PHRM	2280	3
Pharmacy	PHRM	2310	4
Pharmacy	PHRM	2240	3
Pharmacology	PHAC	2100	6
Microbiology	MBIO	3010	3
(Lect: M-W-F 1:30-2:20)			
Pharmacy	PHRM	2700	2
Total Credit hours for Second Year:			36

Third Year Students

Register at your initial access time.

Note: Fall Term classes commence on Thursday, September 10, 2009. Attend all lectures/laboratories scheduled for that day.

Winter Term classes commence on Tuesday, January 5, 2010. Attend all lectures/laboratories scheduled for that day.

Third year rotation will take place April 5 – April 30, 2010 with a debriefing session to be held on Monday, May 3, 2010.

PHRM 3700 – This course falls under the Spring/Summer session guidelines. The Faculty of Pharmacy Dean's Office will register you for this course in March. Fees for PHRM 3700 will be assessed in March 2010.

The courses in the third year of the program are as follows:

Dept. Name	Dept. Code	Course No.	Credit hours
Pharmacy	PHRM	3100	2
Pharmacy	PHRM	3210	3
Pharmacy	PHRM	3220	3
Pharmacy	PHRM	3310	10

Pharmacy	PHRM	3320	3
Pharmacy	PHRM	3430	3
Pharmacy	PHRM	3500	4
Pharmacy	PHRM	3510	2
Pharmacy	PHRM	3640	3
Pharmacy	PHRM	3700	4
Total Credit hours for Third Year:			37

Fourth Year Students

Register at your initial access time.

Note: Classes commence on Tuesday, September 8, 2009. Attend all lectures scheduled for that day. Note the following important dates.

Classes End: Monday, November 2, 2009

Exams: November 3 - November 4, 2009

SPEP: Block 1 November 9 - December 18,
Block 2 January 4 – February 12, 2010
Block 3 February 22 – April 2, 2010

Electives: Block 1 November 5 - December 23,
Block 2 January 4 – February 19, 2010
Block 3 February 22 – April 9, 2010

The courses in the fourth year of the program are as follows:

Dept. Name	Dept. Code	Course No.	Credit hours
Pharmacy	PHRM	4230	4
Pharmacy	PHRM	4310	4
Pharmacy	PHRM	4450	3
Pharmacy	PHRM	4470	3
Pharmacy	PHRM	4700	10
Pharmacy	PHRM	4800	10
Total Credit hours for Fourth Year:			34
Total program credit hours:			140

SECTION 7: Course Descriptions

PHRM 1000 Introduction to Pharmacy Cr.Hrs.1 (Formerly 046.100) This course provides an orientation to Pharmacy and to the application of medicines within the context of today's dynamic medical care system. It has been designed to highlight professionalism early in the Pharmacy curriculum and will provide the opportunity for students to interact with Pharmacy professionals "at the cutting edge" of pharmacy practice.

PHRM 1100 Pharmacy Skills Laboratory 1 Cr.Hrs.5 (Formerly 046.110) This is a multifaceted course using an integrated skills laboratory format to develop essential skills that students require for pharmacy practice. These skills primarily involve communication, problem solving and critical thinking that form the foundation for life-long learning. Exploring ethical principles and professionalism are also essential components of this course.

PHRM 1300 Fundamentals of Pharmaceutics Cr.Hrs.2 (Formerly 046.130) In a classroom and laboratory setting, this course provides an introduction to the compounding of pharmaceutical products and the physiochemical basis of product formulation. Practical aspects of formulation and an introduction to the dispensing function are also explored.

PHRM 1302 Fundamentals of Pharmaceutics Cr.Hrs.2 In the classroom and laboratory setting, this course provides an introduction to the compounding of pharmaceutical products and the physiochemical basis of product formulation. Practical aspects of formulation and an introduction to the dispensing function are also explored.

PHRM 1430 Applied Pathophysiology for Pharmacy Students Cr.Hrs.3 (Formerly 046.143) A comprehensive theoretical foundation of the phenomena that produce alterations in human physiology function across the lifespan. Course content will prepare the student for subsequent courses related to diagnosis and management of disease processes associated with pathophysiologic dysfunction/alterations.

PHRM 1700 Structured Practical Experiential Program 1 Cr.Hrs.1 (Formerly 046.170) This course is a service-learning experience, providing students the opportunity to work in community-based patient/client-centred settings. This course also includes two half day job shadowing experiential rotations in a variety of pharmacy practice settings (eg. community pharmacy practice, institutional pharmacy practice) under the supervision of pharmacist preceptors consistent with the Manitoba Pharmacy Act. It serves to familiarize students with the health care setting and the pharmacist's role. Students will be graded on a pass/fail basis.

PHRM 2100 Pharmacy Skills Lab 2 Cr.Hrs.3 (Formerly 046.210) This course develops essential skills required for pharmacy practice. Focus is on drug distribution, pharmacy law, communication with "standardized patients" and drug information.

PHRM 2220 Medicinal Chemistry 1 Cr.Hrs.6 (Formerly 046.222) This course explores the physicochemical aspects of drug structure in absorption, distribution, me-

tabolism, excretion and receptor interaction as they relate to the biochemical, pharmacological, and therapeutics actions of medicinal compounds.

PHRM 2270 Pharmaceutics/Biopharmaceutics Cr.Hrs.6 (Formerly 046.227) This course introduces principles of formulation and good pharmaceutical manufacturing practice, including aspects of product development and assessment, stability testing, and quality control. It also explores the application of dosage forms to clinical situations.

PHRM 2280 Pharmacokinetics Cr.Hrs.3 (Formerly 046.228) This course introduces principles of pharmacokinetics to predict how drugs will be absorbed, distributed, metabolized and excreted from the body. Practical application of concepts and calculations will be emphasized.

PHRM 2310 Clinical Pharmacy 1 Cr.Hrs.4 (Formerly 046.231) This course introduces principles of drug therapy to manage uncomplicated disease states. Aspects of drug therapy including efficacy, dosage requirements, adverse effects, compliance, drug interactions, and follow-up monitoring will be emphasized. The course also introduces principles of using "over the counter (OTC)" medications as therapeutic alternatives.

PHRM 2420 Applied Nutrition for Health Care Professionals Cr.Hrs.3 (Formerly 046.242) The application of the scientific principles underlying nutrient function and dietary requirements to questions of health.

PHRM 2700 Structured Practical Experiential Program 2 Cr.Hrs.2 (Formerly 046.270) This course offers experiential learning in a variety of pharmacy practice settings (eg. community pharmacy practice, institutional pharmacy practice) It consists of 2 one week rotations at the end of the second year of the program. This course builds on skills learned in SPEP 1 and focuses on the practice of drug preparation and distribution, non-prescription medication counseling, and jurisprudent under the supervision of pharmacist preceptors consistent with the Manitoba Pharmacy Act. Students will be graded on a pass/fail basis.

PHRM 3100 Pharmacy Skills Lab 3 Cr.Hrs.2 (Formerly 046.310) The course develops essential skills required for pharmacy practice. The focus is on interaction with patients and other health care professionals and the application of essential knowledge, skills and values required for the provision of pharmaceutical care.

PHRM 3210 Principles of Professional Practice Cr.Hrs.3 (Formerly 046.321) This course offers the opportunity to explore professionalism, ethics and socio-economic aspects of the health care system.

PHRM 3220 Medicinal Chemistry 2 Cr.Hrs.3 (Formerly 046.322) This course builds on Medicinal Chemistry 1, exploring the detailed interactions between drugs and their receptors which give rise to specific biochemical and therapeutic responses.

PHRM 3310 Clinical Pharmacy 2 Cr.Hrs.10 (Formerly 046.331) This course builds on principles of drug therapy introduced in Clinical Pharmacy 1. Aspects of providing direct patient care are emphasized to identify, solve and prevent actual or potential drug-related problems. The course also expands knowledge of "Over the Counter (OTC)" medications as therapeutic alternatives and introduces home diagnostic testing

PHRM 3320 Pharmaceutical Analysis Lab Cr.Hrs.3 (Formerly 046.332) This course offers the opportunity to prepare pharmaceutical dosage forms and perform analytical testing on the products. Qualitative and quantitative instrumental assay techniques are introduced.

PHRM 3430 Natural Products Cr.Hrs.3 (Formerly 046.343) Medicinal products of natural origin; introduction to systems of complementary medicine. Therapeutic aspects and products are emphasized

PHRM 3500 Clinical Pharmacokinetics Cr.Hrs.4 (Formerly 046.350) This course explores the practical application of pharmacokinetic concepts, calculations, and patient factors which effect pharmacokinetics in the clinical setting. Emphasis is on selected medications that require closer monitoring to ensure efficacy and patient safety.

PHRM 3510 Principles of Scientific Literature Evaluation Cr.Hrs.2 (Formerly 046.351) Primary literature is critically analyzed. Discussion of how study results impact on treatment strategies are emphasized.

PHRM 3640 Principles of Biotechnology Cr.Hrs.3 (Formerly 046.364). Introduction of biotechnology in pharmaceutical science and pharmacy. Students will be introduced to concepts from molecular biology, immunology, biotechnology and pharmacogenomics.

PHRM 3700 Structural Practical Experiential Program 3 Cr.Hrs.4 (Formerly 046.370) This course offers experiential learning in a variety of pharmacy practice settings (e.g. community pharmacy practice, institutional pharmacy practice) It consists of 2 two week rotations at the end of the third year of the program. This course builds on skills learned in SPEP 1 and SPEP 2 and focuses on the introduction of applying pharmaceutical care to patients under the supervision of pharmacist preceptors consistent with the Manitoba Pharmacy Act. Students will be graded on a pass/fail basis.

PHRM 4230 Pharmacy Practice Management Cr.Hrs.4 (Formerly 046.460) An Introduction to administrative and behavioural sciences as they relate to planning, organization and operation of pharmacy practice and to the control of human and financial resources.

PHRM 4310 Clinical Pharmacy 3 Cr.Hrs.4 (Formerly 046.444) A problem-based therapeutics course that builds on PHRM 3310. The emphasis is on the provision of pharmaceutical care to enhance students' ability to identify, resolve and prevent drug-related problems in given clinical scenarios.

PHRM 4450 Toxicology Cr.Hrs.3 (Formerly 046.445) Toxicology of prescription and non-prescription medications and drugs of abuse. The emphasis is on the study of emergency treatments of the overdosed patient. Forensic aspects of common poisonings and drug overdoses are also discussed

PHRM 4470 Current Topics Cr.Hrs.3 (Formerly 046.447) A discussion of topics of immediate interest to the profession. Subject to satisfactory completion of required projects and presentations. Attendance of 80% is mandatory. Students will be graded pass/fail.

PHRM 4700 Structural Practical Experiential Program 4 Cr.Hrs.10 (Formerly 046.461) This course offers experiential learning in a variety of pharmacy practice settings (e.g. community pharmacy practice, institutional pharmacy practice) It consists of 2 six week rotations. This course builds on skills learned in SPEP 1, SPEP 2 and SPEP 3 and focuses on practicing advanced pharmaceutical care and further developing therapeutic and disease knowledge under the supervision of pharmacist preceptors consistent with the Manitoba Pharmacy Act. Students will be graded on a pass/fail basis.

PHRM 4800 Cr.Hrs.10 This program offers students the opportunity to explore areas in research and professional practice that are not part of the required undergraduate courses. Students have the option of applying to conduct projects at sites pre-approved by the Faculty or to propose alternative avenues for self-directed learning. All project proposals need to obtain final approval from the Faculty of Pharmacy which facilitates students' placement. Assessment will be based on written reports submitted by individual students to the Faculty of Pharmacy. Students will be graded on a pass/fail basis.

SECTION 1: Preface

1.1 History of the Faculty of Science

The first four members of the Science faculty were appointed in 1904. In 1921, a combined Faculty of Arts and Science was formed and at that time provided instruction in undergraduate courses in both Arts and Science and, to a limited extent, in graduate studies.

The Faculty of Science became a separate faculty in 1970 and at present includes the departments of Biological Sciences, Chemistry, Computer Science, Mathematics, Microbiology, Physics and Astronomy, Statistics, and interdisciplinary programs in Biochemistry, Biotechnology, Genetics, Psychology and Actuarial Mathematics. With the creation of the Clayton H. Riddell Faculty of Environment, Earth, and Resources in September 2003, programs in Environmental Science and Geological Sciences are no longer offered by the Faculty of Science.

SECTION 2: Admission to the Faculty of Science

2.1 Entrance to Science from University 1

To enter the Faculty of Science a student must have completed a minimum of 24 credit hours of courses and have achieved a cumulative grade point average of at least 2.00. Students who do not meet this minimum may appeal to be considered for admission on the recommendation of the Dean. Please see a Science Student Advisor for information. For further information please refer to the Faculty of Science applicant information brochure.

Students entering the Faculty of Science are placed in the three year General Degree program, unless they have applied to enter a specific four year Major or Honours program. Entrance to a four year Major or Honours program requires that students successfully complete the specific courses for the intended program, and that an application be approved by the department or program coordinator and a Faculty of Science student advisor prior to registration. See Section 3, below, Degree Programs in the Faculty of Science. Students intending to enter a specific four year Major or Honours program should refer to the program charts in Section 5, Programs and Courses Offered by the Faculty of Science, for courses required for entry into each program. Completion of these courses in University 1 will ensure that a student may complete a four year Major or Honours program in four calendar years.

2.2 Transfer Students

Students who wish to transfer to the Faculty of Science must have completed a minimum of 24 credit hours of post-secondary courses and have achieved a minimum cumulative grade point average of at least 2.00 to be eligible for consideration. Students who do not meet this minimum may appeal to be considered for admission on the recommendation of the Dean. Please see a Science Student Advisor for information. External transfer students with 24 credit hours or more of transfer credit are assessed upon admission to the Faculty of Science.

Students who have completed less than 24 credit hours may be admitted to University 1 or the Extended Education Division.

Students on academic suspension as a result of work completed at another post-secondary institution will not normally be considered for admission to the University of Manitoba until the suspension has been served.

Transfer of Credit

External: See Admissions section at the front of this *Calendar*. Courses completed at an external institution ten years prior to registration in the Faculty of Science are not considered for transfer credit. Students should contact a Science student advisor regarding departmental transfer credit policies. **All courses acceptable to the Faculty of Science must be transferred.**

2.3 Special Students

After Degree Special Students

Students who have successfully completed a first degree from a recognized university program with a Cumulative Grade Point Average of 2.00 or better are eligible for admission as Special Students.

2.4 Second Degree Students

Students possessing a first degree from a recognized university program and who have a minimum Cumulative Grade Point Average of 2.00 (or a 2.30 adjusted grade point average – see applicant information bulletin for details on AGPA) on all previous university work are eligible for admission as Second Degree students.

The Second Degree requirements may be shortened by up to 60 credit hours, and once admitted to a Second Degree Program, students will be expected to conform to all continuation, residency and graduation requirements as described in Section 3 below.

Specific information on requirements for a Bachelor of Science degree following the completion of a degree in another faculty or school, or at another university, is available in the general office.

2.5 Auditing Students

Students who wish to audit courses must have written permission from the instructor of the desired course before they can register. Auditing students must register in person in the Faculty of Science general office. The Faculty of Arts will prohibit auditors from registering in their courses until after the initial access period for registration.

SECTION 3: Degree Programs in the Faculty of Science

Degrees Offered

Bachelor of Science

Minimum time to graduation: Three years (University 1, plus two years – 90 credit hours). This degree is also called the General program.

Bachelor of Science (Major)

Minimum time to graduation: Four years (University 1, plus three years – 120 credit hours). This degree is also called the four year Major.

Bachelor of Science (Honours)

Minimum time to graduation: Four years (University 1, plus three years – 120 or more credit hours).

Bachelor of Computer Science (Honours)

Minimum time to graduation: Four years (University 1, plus three years – 120 credit hours).

Cooperative options are available to students in Biological Sciences (Honours and Major) Biochemistry (Honours and Major), Biotechnology, Chemistry (Honours and Major), Computer Science (Honours and Major), Genetics (Honours), and Microbiology (Honours and Major).

All students are urged to examine their interests and future goals carefully to make a proper choice of program. Consultation with departments and with student advisors in the general office is encouraged.

Reminder

It is the student's responsibility to ensure that degree and program requirements are met. Science student advisors are available to clarify faculty and university regulations and degree requirements. A final and thorough program check is done after students have registered for their final year or course. The Faculty of Science is not responsible for those students who do not satisfy degree requirements.

3.1 Regulations Applicable to All Programs

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Science has regulations and requirements, published below that apply specifically to its students.

The **Cumulative Grade Point Average (CGPA)** is calculated on all courses on the student's University of Manitoba record. While all attempts of repeated courses will appear on the student's record, only the grade achieved from the last attempt will be used for all calculations of Grade Point Average.

The **Degree Grade Point Average (DGPA)** is calculated on all courses acceptable for credit in a given degree program. As with the CGPA, all attempts of repeated courses will appear on the student's record, but only the grade achieved from the last attempt will be used for all calculations of Grade Point Average.

The **Term Grade Point Average (TGPA)** is calculated on all courses taken in a given term.

University Written English and Mathematics Requirement

Students are required to complete the University written English and Mathematics requirements as outlined in the Chapter, General Academic Regulations and Requirements, of this *Calendar*. The list of courses which satisfy the written English and Mathematics requirements appears in Appendix A of that chapter.

Prerequisite, Concurrent, Corequisite, and Recommended Courses: Definitions

Prerequisite: If a first course is prerequisite for a second course, a student must have credit in the first course before attempting the second course. A minimum grade of "C" is normally required in a prerequisite course in order to register for the following course.

Prerequisite or Concurrent requirement: A course that may be successfully completed prior to registration in a second course, or may be taken concurrently.

Corequisite: If a first course is a corequisite for a second course, the first course **MUST** be taken concurrently with the second course.

Recommended: If a course is strongly recommended as a pre- or corequisite, a student is advised to take it. The final decision as to whether or not to take the course rests with the student. Students are advised to consult with the department for specific instructions.

NOTES:

Students who are allowed to enrol in courses or programs provisionally pending satisfactory completion of a pre- or corequisite must, if unsuccessful, withdraw or amend their registration accordingly within the stipulated deadline for adding courses. Those who do not may be withdrawn automatically and may relinquish the opportunity to add appropriate courses. The Faculty of Science reserves the right not to send reminders of the requirement to withdraw.

Any prerequisite, concurrent requirement or corequisite may be waived with written consent of the department.

Supplemental Examinations

There are no supplemental examinations in the Faculty of Science.

Repeating a Course

Science students are subject to the University of Manitoba regulations (see General Academic Regulations and Policy, Repeating a Course) and the Faculty of Science degree regulations regarding eligibility to repeat a course.

Repeating a course will **not** result in the removal of the first attempt and grade in that course from the student's record. The course will appear on the transcript as many times as it has been repeated. Only the grade from

the last attempt will be included in the GPA calculations relating to a student's program of study.

There is a limit on the number of 'F' grades permitted in any degree.

Students who wish to repeat a course must contact the Faculty of Science for approval prior to registration.

NOTE: In most cases, professional Faculties and Schools have specific rules governing the way repeated courses are treated in their admission process. Check the applicant information bulletin of the appropriate Faculty or School, or the Admissions Office (424 University Centre), or a Science student advisor for information regarding how different professional programs treat repeated courses in determining admission.

Voluntary Withdrawals

The responsibility for initiating withdrawals rests solely with the student. When eligible to do so, Voluntary Withdrawals must be done through Aurora Student, otherwise withdrawals must be authorized first by the Science general office and then through the Registrar's Office. No withdrawals will be permitted after the deadlines posted in the Academic Schedule.

There is no longer a limit on the number of Voluntary Withdrawal hours a student can accumulate (effective September 2006).

In exceptional circumstances, Authorized Withdrawals may be permitted on presentation of appropriate documentation. See the chapter, General Academic Regulations and Policy, section Voluntary Withdrawal from Programs and Courses or consult a Science student advisor for information.

Letter of Permission to Take Courses at another University

Students wishing to complete courses at another institution for credit at this university must obtain written permission from the Registrar's Office prior to registering at the other institution or no credit will be permitted. Any grades earned are transferred in and form part of the Grade Point Average. Students who register for courses elsewhere without a Letter of Permission must reapply to the Faculty of Science before the published deadlines.

Students who are serving an academic suspension may not take courses at another institution to be used toward a Science degree at this university.

Students in an Honours program may not normally complete courses at another institution for credit at this university. Individual exceptions must be referred both to the Honours department concerned and the general office for consideration.

Attendance at Other Institutions

Students who attend other post-secondary institutions without a Letter of Permission must reapply for admission to the Faculty of Science before the application deadline and be academically competitive for admission. Similarly, students registered in Science here may not be registered at another academic institution at the same time unless they are registered elsewhere on a Letter of Permission. The penalty for unauthorized or undisclosed attendance may be disciplinary withdrawal or academic suspension.

Dean's Honour List

Students enrolled in 12 credit hours or more who achieve a Term Grade Point Average of 3.80 or higher will be placed on the Dean's Honour List. The Dean's Honour List will be calculated after each term.

The Dean's Honour List designation will appear on the student's transcript of marks.

Academic Dishonesty

Academic dishonesty is intentional cheating, fabrication, impersonation, or plagiarism. It is also knowingly helping or attempting to help others to be dishonest. Academic dishonesty lowers scholastic quality and defrauds others who will eventually depend on their own knowledge and integrity.

Plagiarism or any other form of cheating on examinations, term tests, or assignments is subject to academic penalty as serious as suspension or expulsion from the faculty or university.

Students who are unsure of what constitutes academic dishonesty should refer to the regulations in General Academic Regulations and Policy, Plagiarism and Cheating, and consult with a Science student advisor or a faculty member. Information about academic penalties for academic dishonesty is available on the Faculty of Science website (www.umanitoba.ca/science)

Term work and Debarment

A student is responsible for the completion of laboratory work, assignments, tests and other class work as prescribed by departments. A student who does not meet term work requirements to the satisfaction of a department will receive a warning to this effect from the department or the general office. If this warning is ignored, a student may be debarred from the course. Any student debarred from a course receives an automatic grade of "F" in that course.

Deferred Examinations

A student, who is unable to write a final examination because of illness, disability, or for compassionate reasons, must file an application in the faculty general office for a deferred examination. The application must be filed within seven working days of the last examination in that series. Appropriate documentation must be provided that verifies that the incapacity existed at the time the examination was to be written.

A deferred examination is offered in a manner prescribed by the head of the department concerned. This would normally be written within 30 working days of the last examination in that series. Any other consideration would be determined by the department head.

Students requesting deferred examinations on the grounds that the examinations conflict with vacation or holiday plans shall not be granted deferrals.

A deferred examination is not normally granted to a student who has written the final examination.

Requests for retroactive deferred examinations, deferred examinations that need to be re-deferred, and / or requests where a student is seeking a deferral in a third examination series (i.e. Fall 2008, Winter 2009, Winter 2010 – any course) must be approved by the Faculty of Science Committee on Student Standing. Students must appeal, in writing, to the Committee on Student Standing and provide precise documentation that outlines why a deferral request should be granted in their case.

Challenge for Credit

Any student wishing to challenge a course for credit should contact the Science General Office. Challenge for credit is not normally permitted if a student has previously registered for a similar course.

Appeals Involving Academic Regulations

The Committee on Student Standing in Science considers appeals from students who request special consideration in respect of rules and regulations governing their programs of study and qualification for graduation.

Appeals should be addressed to: The Secretary, Committee on Student Standing, General Office, Faculty of Science, 239 Machray Hall.

Incidental Fees

Incidental fees are assessed for some courses. Refer to department offices and the *Registration Guide* section of this publication for details.

3.2 Three Year General Degree:

B.Sc. (General)

The three year General program is intended to provide diversified training in Science. The design of the program is such that a student is exposed to several areas of science at an introductory level together with a requirement for more advanced study in at least two Science areas. These requirements will ensure that a student's program of study will have elements of breadth and depth.

This program is not intended for students who desire to practise in some field of specialization in the Sciences. Students with that intent are recommended to the Honours or the four year Major program. However, the three year General program is flexible enough in most departments to allow a student to choose courses that would facilitate transferring to the four year Major program should that become desirable.

B.Sc. (General): Academic Regulations

A student must complete 90 credit hours with passing grades ("D" or better) in each course. A student must obtain a grade point average of 2.00 on the 90 credit hours which constitute the degree to qualify for the degree of Bachelor of Science (General).

There is no limit on the number of courses that can be taken within the B.Sc. (General). Students may not exceed 36 credit hours of failures.

Introductory Level Science courses (24 credit hours): Twenty four (24) credit hours must be chosen from the following list of introductory Science courses, with at least six credit hours from each of four of the following subject areas:

- Astronomy: six credit hours chosen from PHYS 1810, PHYS 1820, PHYS 1830
- Biology: BIOL 1020 and BIOL 1030
- Chemistry: CHEM 1300 and CHEM 1310
- Computer Science: COMP 1010 and COMP 1020
- Mathematics: six credit hours chosen from MATH 1200, MATH 1300, MATH 1310, MATH 1500, MATH 1510, MATH 1520, MATH 1690 (6), MATH 1700, MATH 1710.
- Physics: PHYS 1020 or PHYS 1050; and PHYS 1030 or PHYS 1070
- Statistics: STAT 1000 and STAT 2000

Advanced Level Science Courses (36 credit hours): Effective for students entering Science September 2008 or later², to satisfy the advanced level requirements of the 3-year General Degree program, eighteen (18) credit hours at the 2000, 3000, and (or) 4000 level must be chosen from each of **two** of the following Science departments: Biological Sciences, Chemistry, Computer Science, Mathematics, Microbiology, Physics and Astronomy, and (or) Statistics.

Of the 36 credit hours (total) from the advanced areas of study, at least 6 credit hours must be chosen from 3000 or 4000 level courses. Students should note prerequisite requirements for upper level courses when planning their program. Appropriate courses and combinations of courses are detailed in each department's section of this chapter. Substitute courses from a department may be taken by obtaining written authorization from the chosen department.

New Regulation for Fall Term 2009: Because of the newly formed Department of Biological Sciences, effective September 2009, students required to complete 36 credit hours of advanced level credit² may elect to choose all 36 credit hours of the advanced level course requirements from the Department of Biological Sciences (formerly Botany and Zoology) provided they follow the specified course selections prescribed in section 5.3.3.5 (Biological Sciences General Degree chart).

Other Faculty Courses (12 credit hours): a minimum of 12 credit hours must be taken from outside the Faculty of Science, of which at least six credit hours must be from the Faculty of Arts. A maximum of 30 credit hours may be taken from outside the Faculty of Science for use in the General Degree program.

Elective Courses (18 credit hours): 18 credit hours of the B.Sc. General Degree are open electives.

NOTES:

1. Students having difficulty with the interpretation of these regulations or the way in which they are applied, are urged to contact a Science student advisor in the general office. Students are responsible for their own degree progress and completion.

2. Students admitted to the Faculty of Science prior to September 2008 should consult with a Science Student Advisor about degree requirements.

B.Sc. (General): Performance Regulations

Minimum Performance Level

To remain in good academic standing the student must maintain a minimum Cumulative Grade Point Average (CGPA) of 2.00 (DGPA of 2.00 for Second Degree students and Start Afresh students) at each point of assessment after entrance to the Faculty of Science. Assessment will take place after Fall, Winter, and Summer Terms. If a student's CGPA falls below 2.00 (DGPA of 2.00 for Second Degree students and Start Afresh students) at any point of assessment, the student will receive an **Academic Warning** which will appear on their transcript. The student will remain on Academic Warning until Good Academic Standing is achieved. Students on Academic Warning will be individually advised regarding their status and of how to improve.

Students cannot accumulate more than 36 credit hours of failures (F grades) in courses acceptable for credit in the Faculty of Science on their academic history, regardless of the origin of the grade (i.e. courses taken while in University 1, courses that are transferred from other programs or other institutions will be included) and regardless of whether the course has been repeated. If the 36 credit hour limit of F grades is exceeded, the student will be placed on Academic Suspension for **two calendar years**.

Upon completion of the two-year suspension, the student will be permitted to return to Science and start their degree afresh. At this point, while a CGPA will be automatically calculated for the student, the DGPA will be used for academic assessment. Students may appeal to transfer up to 30 credit hours of previously completed coursework in which a minimum grade of "C" was achieved.

A student placed on academic suspension is not permitted to register in the Faculty of Science during the term of the suspension. Students wishing to return to the Faculty of Science are required to achieve certain academic standards upon their return. For information regarding these standards, consult a Science Student Advisor.

Residence Requirements for General Students

There are two ways in which the student may fulfill the minimum requirement of credit hours that must be taken at the University of Manitoba: by taking at least 48 credit hours at the University of Manitoba; or by taking at least the final 30 credit hours at the University of Manitoba. The courses used to satisfy the residence requirement must be acceptable for credit in the Faculty of Science. Residency requirements apply to both first and second degree students.

Recognition of Academic Merit

Dean's Honour List

Students enrolled in 12 credit hours or more who achieve a Term Grade Point Average of 3.80 or higher will be placed on the Dean's Honour List. The Dean's Honour List will be calculated after each term.

Degree with Distinction

To obtain a Degree with Distinction, a student must achieve a final minimum Degree Grade Point Average of 3.80. The term "Degree with Distinction" will appear on a student's parchment and on a student's transcript of marks.

3.3 Four Year Major Degree:

B.Sc. (Major)

The four year Major program provides in-depth study of a subject or subject areas and enables graduates to function competently in a career in their chosen subject area.

While this program is not intended for students who wish to pursue graduate study, most programs allow students to do so with a minimum of difficulty.

The four year Major program may be pursued on a part-time basis, although it must be recognized that under those conditions students would require more than four years to complete degree requirements.

To be eligible for any award granted exclusively on the basis of academic performance, a student normally must be enrolled in 100% of a full program as defined by the department.

Prior to entry to the four year Major or Honours program, a student is subject to the performance regulations of the B.Sc. (General) program.

B.Sc. (Major): Academic Regulations

To qualify for the degree Bachelor of Science (Major), a student must complete 120 credit hours or more, with minimum grades of "C" on Major Program Specific courses (as specified by the department), passing grades ("D" or better) on the remaining courses, and a minimum grade point average of 2.00 on the 120 credit hours which contribute to the degree.

Program Specific courses are those identified by the department as being core to the given degree. See the Calendar entry for these departments for clarification.

Students must complete the university written English and Mathematics requirements as described in the chapter, General Academic Regulations and Policy, of this *Calendar*.

At least six credit hours **must** be taken from outside the Faculty of Science. As of the 1999-2000 regular session, students admitted to a Major program must complete six credit hours of courses from the Faculty of Arts. Students may take a maximum of 36 credit hours from outside the Faculty of Science.

The course requirements of each department are listed under that department's heading.

Entrance to the Four Year Major

To enter a four year Major program, a student must normally have achieved a minimum grade of "C+" in at least one introductory course designated by the department(s). In addition, to enter a four year Major program a student shall normally have completed at least 30 credit hours, although a student may enter on the recommendation of the department with only 24 credit hours completed.

Any student who, prior to being admitted to a four year Major program, has completed more than 30 credit hours will be allowed to apply those excess credit hours which meet the specifications of the program to the four year Major program.

Students must attain a Cumulative Grade Point Average of at least 2.00 (DGPA of 2.00 for Second Degree students and Start Afresh students) regardless of the point of entry, and must meet continuation requirements as outlined below.

Continuation in the Four Year Major

To continue in the program, a student must maintain a Cumulative Grade Point Average of 2.00 (DGPA of 2.00 for Second Degree students and Start Afresh students) at each point of assessment. Students who do not meet this minimum will be required to withdraw from the Major program.

There is no minimum term course load requirement for the Major program.

Failed courses: Any student who exceeds 18 credit hours of failing grades after entering a Major program will be required to withdraw from that program.

A student will be required to repeat those failed courses specified as required courses for the program; however, with the approval of the department the student may be allowed to substitute a new course for any elective course failed.

Program Approval: The department must approve a student's Major program prior to registration for courses in each session. Students must also obtain departmental approval for any and all revisions to their program.

Major students reverting to the General program must fulfil all academic requirements of that degree.

Residence Requirement for Four Year Major Students

To satisfy the Faculty of Science residency requirements, a student must successfully complete at least 60 credit hours at the University of Manitoba. The courses used to satisfy the requirement must be acceptable for credit in the Faculty of Science. Residency requirements apply to both first and second degree students.

Recognition of Academic Merit

Dean's Honour List

Students enrolled in 12 credit hours or more who achieve a Term Grade Point Average of 3.80 or higher will be placed on the Dean's Honour List. The Dean's Honour List will be calculated after each term.

Degree with Distinction

To obtain a Degree with Distinction a student must achieve a final minimum Degree Grade Point Average of 3.80. The term "Degree with Distinction" will appear on the student's parchment and the student's transcript of marks.

3.4 B.Sc. (Major) Cooperative Option

The Major programs that offer a Cooperative Option are: Biochemistry, Biological Sciences, Chemistry, Computer Science, and Microbiology.

A cooperative education program is an arrangement whereby a student spends alternating periods in university and employment. There are several advantages to cooperative education programs for students. One benefit is that students are able to acquire both theoretical knowledge and practical experience. This experience assists them in selecting areas of specialization for their senior courses. During an employment period students can also typically earn enough to defray the cost of their university education. The contacts developed with potential employers are also valuable to graduating students.

All regulations governing regular Major programs apply to the Cooperative Option. In addition, the following variations apply:

Entrance

To enter the Cooperative Option a student must be eligible to enter the Major program offered by the department.

The normal point of entry to a Major Cooperative Option is following the completion of second year in the Faculty of Science.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option in those departments where the demand for places exceeds the number of places available. In such situations the department reserves the right to determine and select the best qualified applicants.

Structure and Sequencing

The Cooperative Option consists of both academic terms and employment terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Major department.

Each employment term can be either four months in duration or eight months in duration, as designated by the Major department.

Each academic term and each employment term will commence in January, May or September.

The sequence of academic terms and employment terms is variable to suit the needs of each department, and is designated by each department.

Students are expected to follow the academic/employment term sequence defined by their department from admission through to graduation.

Employment Term Requirements

All Cooperative Options will include at least 12 months spent in employment terms with a department-approved employer. Normally, each employment term will be completed with one employer.

Students are required to register in the appropriate employment term course and pay the fee prior to starting their employment term. Cooperative Option students are required to submit three written employment reports on their employment term activities. These reports are due at times designated by the Major department. Each Major department will provide students with instructions regarding the content and format requirements of the employment reports.

Indications of unsatisfactory performance by a student on an employment term will be thoroughly investigated by the Major department. As a result of the investigation, if benefits from further professional training are questionable, the student may be required to withdraw from the Cooperative Option. The student would then be eligible to enter the regular four year Major program or the General program.

While on an employment term, a Cooperative Option student is not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Cooperative Option are equivalent to the coursework requirements of the four year Major program with the exception of the Microbiology and Biological Sciences programs.

Cooperative Option students are expected (but are not required) to maintain a full-time course load while registered for an academic term. The "normal full load" per four-month term is three half courses (9 credit hours).

To continue in a four year Major Cooperative Option a student must attain a minimum Cumulative Grade Point Average of 2.00 at each point of assessment. Departments may designate courses within the four year Major Cooperative Option in which students are required to attain a grade above 'C'.

A student who receives failing grades in more than 18 credit hours following admission to the four year Major program will be required to withdraw from the Major program.

A student who does not meet the academic requirements for continuation in a four year Major Cooperative Option will be required to withdraw from it.

Continuation in a four year Major Cooperative Option is contingent upon satisfactory performance in employment terms.

Four year Major Cooperative Option students who are required to revert or voluntarily revert to an alternative degree program must fulfil all academic requirements of that degree.

Recognition of Academic Merit

Dean's Honour List

A student's eligibility for the Dean's Honour List designation is evaluated at the end of each academic term.

Students enrolled in 12 credit hours or more who achieve a Term Grade Point Average of 3.80 or higher will be placed on the Dean's Honour List. The Dean's Honour List will be calculated after each term.

Degree with Distinction

To obtain a Degree with Distinction the student must achieve a final minimum Degree Grade Point Average of 3.80. The term "Degree with Distinction" will appear on the student's parchment and on the student's transcript of marks.

3.5 Four Year Honours Degree:

B.Sc. (Honours) and B.C.Sc. (Honours)

The Honours programs in the Faculty of Science are the most heavily concentrated programs offered. These programs lead most directly to graduate study and are in most cases prescribed extensively by the departments. A student is required to pursue this degree full-time and may be required to achieve higher grade standards than in other degree programs. The programs are regarded as professional training.

Students graduating from the Honours program in Computer Science receive the degree designation Bachelor of Computer Science (Honours), also noted as B.C.Sc. (Honours).

A student electing an Honours program will normally begin Honours work in second year and must meet the entrance requirements set out below. Honours work will consist of three years of study in prescribed courses beyond the first year and will lead to the B.Sc. (Honours) or the B.C.Sc. (Honours).

To be eligible for any award granted exclusively on the basis of academic performance, a student normally must be enrolled in 100% of a full program as defined by the department.

See below for additional regulations of the Honours Cooperative Option.

Students must complete the university written English and Mathematics requirements as described in the chapter, General Academic Regulations and Policy, of this *Calendar*.

As of the 1999-2000 Regular Session, students admitted to Honours programs must complete six credit hours from the Faculty of Arts. Because many Honours programs in the Faculty of Science do not have room for electives in Years 2, 3 and 4 of the programs, these six credit hours, including the three credit hours of written English, should be completed in University 1.

Entrance to Honours

To enter an Honours degree program in Year 2, a student must have a grade of "B" or better in at least one introductory course designated by the department(s), and a Degree Grade Point Average of not less than 2.50 on all courses completed at the end of Year 1 (minimum 24 credit hours).

Another way to gain entry to the many Faculty of Science Honours programs is through the **Second Year Entry Route**. If a student finds himself/herself ineligible to enter a desired Honours program following his/her first or second year, eligibility to enter Honours via the second year entry route can be established by taking a minimum of 18 credit hours over consecutive Fall and Winter Terms (formerly called a Regular Session) with a minimum of 9 credit hours in each term. The 18 credit hours chosen must be applicable to the program the student wishes to enter, and the student must achieve at least a "B" average on those 18 credit hours. If a student chooses to attempt more than 18 credit hours over the consecutive Fall and Winter terms, the best applicable 18 credit hours will be used to calculate whether or not the "B" average has been achieved for the purpose of assessing eligibility for entrance to the Honours program of choice. Note: It must be mathematically possible for the student to remain in Honours at the point of the first academic assessment after entering Honours, to be eligible for entry to Honours (i.e. a student must be able to reach the minimum GPA required to continue in the specific Honours program by the end of their

first term in the Honours program – see the section regarding "Continuation in Honours" below).

Continuation in Honours

A minimum Degree Grade Point Average of 3.00 is required at each point of assessment. Departments may designate courses within the Honours program in which students are required to obtain a grade above "C+".

Students must complete a minimum of 9 credit hours in each Fall and Winter Term (or equivalent for students in the Co-operative option) to remain in Good Academic standing in the Honours program. Students failing to do so will be required to withdraw from the Honours program and may be eligible to pursue the B. Sc. Major program or the B. Sc. General degree program.

Students who do not meet the minimum requirement will be required to withdraw from the Honours program.

Students who accumulate more than 15 credit hours of failed courses after entering the Honours degree program (regardless of the origin of the grade or if the course has been repeated) will be required to withdraw from the program. Students required to withdraw from the Honours program may be eligible to pursue the B. Sc. Major program or the B. Sc. General degree program.

To qualify for the degree, Bachelor of Science (Honours), a student must complete a minimum of 120 credit hours or more, with minimum grades of "C+" on Honours Program Specific courses (as specified by the department) and grades of "C" or better on the remaining courses with a minimum grade point average of 3.00 on the 120 credit hours which contribute to the degree.

Program Specific courses are those identified by the department as being core to the given degree. See the specific departmental Calendar entries for clarification.

Program Approval

The department must approve a student's Honours program prior to registration for each session. Students must also obtain departmental approval for any and all revisions to their program.

Residence Requirement for Honours Students

A student must successfully complete a minimum of 60 credit hours at the University of Manitoba. The courses used to satisfy the requirement must be acceptable for credit in the Faculty of Science. Residency requirements apply to both first and second degree students.

Withdrawal from Honours

To remain in any Honours program, all Honours students must register in and complete a minimum of nine (9) credit hours during each Fall term and Winter term unless otherwise specified by the department. See the departmental sections in this chapter for all applicable regulations.

Honours students reverting to an alternate degree program must fulfil all academic requirements of that degree.

Recognition of Academic Merit

Dean's Honour List

Students enrolled in 12 credit hours or more who achieve a Term Grade Point Average of 3.80 or higher will be placed on the Dean's Honour List. The Dean's Honour List will be calculated after each term.

First Class Honours

To graduate with First Class Honours the student must achieve a final minimum Degree Grade Point Average of 3.80. The term "First Class Honours" will appear on the student's parchment and on the student's transcript of marks.

Double Honours Programs

Double Honours programs may be available as specified under departmental headings. Other programs may be arranged in consultation with the departments concerned.

3.6 B.Sc. (Honours) and B.C.Sc. (Honours): Cooperative Option

The Honours programs which offer a Cooperative Option are Biochemistry, Biological Sciences, Biotechnology, Chemistry, Computer Science, Genetics, Microbiology, and the Joint Computer Science-Mathematics Honours program.

A cooperative education program is an arrangement whereby a student spends alternating periods in university and employment. There are several advantages to cooperative education programs for students. One benefit is that students are able to acquire both theoretical knowledge and practical experience. This experience assists them in selecting areas of specialization for their senior courses. During an employment period students can also typically earn enough to defray the cost of their university education. The contacts developed with potential employers are also valuable to graduating students. The Honours Cooperative Option therefore offers valuable work experience and simultaneously ensures an academic program of Honours calibre.

All regulations governing regular Honours programs apply to the Cooperative Option. In addition, the following variations apply:

Entrance

To enter the Cooperative Option a student must be eligible to enter the Honours program offered by the department.

The normal point of entry to an Honours Cooperative Option is following the completion of second year in the Faculty of Science. Following that point of entry all requirements of the Cooperative Option must normally be completed in no more than four years (48 months).

Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option in those departments where the demand for placements exceeds the number of places available. In such situations the department reserves the right to determine and select the best qualified applicants.

Structure and Sequencing

The Cooperative Option consists of both academic terms and employment terms.

Each academic term can be either four months in duration or eight months in duration, as designated by the Honours department.

Each employment term can be either four months in duration or eight months in duration, as designated by the Honours department.

Each academic term and each employment term will commence in January, May or September.

The sequence of academic terms and employment terms is variable to suit the needs of each department, and is designated by each department.

Students are expected to follow the academic/employment term sequence defined by their department from admission through to graduation.

Employment Term Requirements

All Cooperative Options will include at least 12 months spent in employment terms with a department-approved employer. Normally, each employment term will be completed with one employer.

Cooperative Option students are required to submit at least three written employment reports on their employment term activities. These reports are due at times designated by the Honours department. Each Honours department will provide students with instructions regarding the content and format requirements of the employment reports.

Indications of unsatisfactory performance by a student on an employment term will be thoroughly investigated by the Honours department. As a result of the investigation, if benefits from further professional training are questionable, the student may be required to withdraw from the Cooperative Option. The student would then be eligible to enter the regular Honours program, the four year Major program or the General program.

While on an employment term, a Cooperative Option student is not permitted to take more than six hours of academic credit, and may not take more than one course at a time.

Academic Term Requirements

Coursework requirements of the Cooperative Option are equivalent to the coursework requirements of the Honours program with the exception of the Biochemistry, Genetics and Microbiology programs.

Cooperative Option students must maintain a full-time course load while registered for an academic term. The "normal full load" per four-month term is three half courses (9 credit hours).

To continue in an Honours Cooperative Option a student must attain a Degree Grade Point Average of 3.00 or higher at each point of assessment. A student's performance will be evaluated following each academic term. In addition, the student must meet all individual course prerequisites for further study and departmental continuation and graduation requirements. Departments may designate courses within the Honours Cooperative Option in which students are required to attain a grade above "C+" (Honours Program Specific courses). A grade of "C" is required on all remaining courses which contribute to the degree.

Continuation in an Honours Cooperative Option is contingent upon satisfactory performance on Employment Terms.

Honours Cooperative Option students who are required to revert or voluntarily revert to an alternative degree program must fulfill all academic requirements of that degree.

Recognition of Academic Merit

Dean's Honour List

Students enrolled in 12 credit hours or more who achieve a Term Grade Point Average of 3.80 or higher will be placed on the Dean's Honour List. The Dean's Honour List will be calculated after each term.

First Class Honours

To graduate with First Class Honours the student must achieve a final minimum Degree Grade Point Average of 3.80. The term "First Class Honours" will appear on the student's parchment and on the student's transcript of marks.

3.7 Minor

Students in B.Sc. Major and Honours programs may, if they wish, declare and complete a Minor from any department or interdisciplinary program at the University of Manitoba which offers a listed Minor. In the Faculty of Science Minors are listed in the program charts for each department and interdisciplinary program. Other available Minor requirements can be found within the appropriate sections of the departmental/school/faculty offerings. Completion of a Minor in a B.Sc. Major or Honours program is entirely optional. Students may not, however, declare both their Major and Minor from the same department/interdisciplinary program. It should be noted that for Honours students any consideration of completing a Minor should be made early due to restricted opportunities in later years of their programs. Completion of a Minor may, in fact, require that a student take more than the minimum number of credit hours required for graduation.

The Minor is not available to students in the General degree program.

A Minor will normally consist of a minimum of 18 credit hours, with a minimum of 12 credit hours being at the 2000, 3000 and 4000 level (although there are some exceptions). It should be noted that no course can be used as part of a prescribed Honours or Major program and also be part of a prescribed Minor. An alternate course will have to be selected to satisfy the Minor requirement. For example: if a course in Economics is part of a student's Major or Honours program in Statistics, then that course may **not** be used as part of a Minor in Economics.

Important Course Selection Information

The courses required to complete the Honours, Major, General and Minor programs are listed in program charts in the department and program sections of this chapter.

Not all courses included in the course description sections are offered. The course schedule for the current academic year is available through AUORA Student at www.umanitoba.ca.

3.8 School of Optometry, University of Waterloo

The pre-optometry program may be taken at the University of Manitoba. Interested students should refer to the Faculty of Science website (www.umanitoba.ca/science) or the University of Waterloo's Optometry website (<http://www.optometry.uwaterloo.ca/>) for information on course selection and entrance requirements.

Section 4: Registration

4.1 University 1 Students Transiting to Science for Fall Term 2009

"Transiting" is simply the AURORA STUDENT procedure that changes your faculty of registration to Science from University 1. There is no charge for transiting.

Your ability to transit from U1 depends on the number of credit hours you have completed as well as your performance in those courses. Please refer to the Faculty of Science Applicant Information brochure or a Science Student Advisor for further details.

4.2 Have You Been Away for a While?

Students who have been away from Science for more than a year cannot use AURORA STUDENT until they have consulted a Science Student Advisor. The advisor will determine academic progress, registration date and time, and discuss degree plans. Students are strongly urged to contact an Advisor well in advance of the start of registration.

Students who have graduated must re-apply (July 1 for Fall Term – Other deadlines may be found at umanitoba.ca/admissions) for, and be academically competitive for admission.

Students who have attended elsewhere since their last registration in Science must normally re-apply for admission and be academically competitive for admission on all of their previous academic work. July 1 is the application deadline for Fall term.

4.3 Registration Dates and Reminders

• Before Mid-July

Review your program requirements as outlined in the following sections of the *Undergraduate Calendar*, and see a Science Student Advisor if you have any questions. For information on finding your registration time, see the chapter "Registration Information: Aurora Student", Section 4.

Obtain written approvals, including Major and Honours forms, prerequisite waivers, course and term overloads, etc., from your department(s) or program and deliver them to the Science General Office to ensure that they are programmed into your academic record. You may be required to see a Science advisor for final approval, so take note of advisor availability.

Know your registration time. Note dates that may affect you; e.g., your initial access date and time, when reserved spaces are returned for common use, fee payment deadlines, etc.

• Mid-July Onwards

Register through AURORA STUDENT during your initial access time.

List your courses and finalize fees after every transaction.

Pay all fees due by the fee payment deadline - September 9, 2009

Classes start September 10, 2009

Fall Term and Spanned (Fall/Winter) course changes permitted until September 23, 2009 - Determine fees due after each transaction and pay any that are outstanding. Fall Term and Spanned (Fall/Winter) courses may be subject to a late registration fee if added after September 9, 2009.

Final Voluntary Withdrawal (VW) deadline for Fall Term courses. – November 18, 2009.

Last day to pay for Winter Term courses and second instalment on Spanned (Fall/Winter) courses – January 7, 2010.

Last date to register for Winter Term courses – January 19, 2010.

Last date to VW from Spanned (Fall/Winter) and Winter Term courses. – March 19, 2010.

For refund information, see the dates published in the chapter: Fees, Payments, and Refunds.

4.4 Science Student Advisor Hours and Availability:

4.4.1 Contact Information

Science General Office, 239 Machray Hall

Telephone: (204) 474 8256 or

Manitoba Toll-Free 1 800 432 1960, extension 8256

E-mail: Science_Advisor@UManitoba.CA

Website: www.umanitoba.ca/science

4.4.2 Advisor availability during registration

4.4.2.1. June 2008

Drop in basis: 8:30 a.m. - 4 p.m., Monday to Friday

The Faculty of Science reserves the right to limit intake if demand exceeds time available.

4.4.2.2 July and August 2008

Daily, drop in basis: 8:30 a.m. – 4:00 p.m.

NOTE: Normally, the maximum number of students that can be seen in any one day is 40, so students are advised to come early. The Faculty of Science reserves the right to limit intake if demand exceeds time available.

4.4.2.3 Evening appointments:

Monday, July 6, 5:30 - 8 p.m.

Wednesday, July 15, 5:30 - 8 p.m.

Tuesday, July 21, 5:30 - 8 p.m.

Thursday, July 23, 5:30 - 8 p.m.

Monday, July 27, 5:30 - 8 p.m.

Call (204) 474-8256 to arrange an appointment.

4.5 Science Program Info Applicable to all Science Students

4.5.1 Student Responsibility

You must ensure that you are selecting the correct courses that will enable you to satisfy your degree requirements. Specific degree requirements are listed in the program charts found in the departmental/program sections of this chapter. Final completion of specific degree requirements is the student's responsibility. Student Advisors are available to answer any questions regarding a student's academic progress.

NOTE: AURORA Student will not prevent a student from registering in two (or more) courses that are designated as not to be held for credit with one another. It is the student's responsibility to ensure that they are not registered for courses that are ineligible to be held for credit with one another. Read the course descriptions carefully. If you are unsure about a course you have selected, check with a Science Advisor prior to the revision deadline. No academic concessions will be granted in this regard.

4.5.2 General Program

All students are admitted to, and registered in, the General degree program unless they indicate otherwise to a Science Student Advisor.

Students in the General program are not required to contact a Science Student Advisor before registration; however, they are strongly advised to do so. A Science Student Advisor can answer any questions about degree progress and entry to professional faculties that may affect registration.

Students reverting from the Major or Honours program to the General program must consult a Science Student Advisor prior to registration, so that their university records may be changed.

Science Student Advisors may check your degree progress periodically. These checks are completed after registration. **Reminder: It is the student's responsibility to know and satisfy all degree requirements.**

4.5.3 Major, Honours, and Cooperative Options

Students must obtain departmental approval and deliver it to the Science General Office prior to accessing AURORA STUDENT. Honours students are required to register in a minimum of 9 credit hours during each Fall and Winter Term. Prior to declaring graduation, Honours, Major, and Co-op students must have their program checked by a Science Student Advisor.

Students entering or changing a program must also see a Science Student Advisor so that eligibility can be checked and university records updated.

Departments may not be able to provide advice by telephone. Also, not all departments have departmental advisors available during all working hours. Contact your department to determine hours of availability.

4.5.4 Continuing Second Degree Students

Students continuing in a second degree program will register according to their cumulative grade point average (CGPA) at the end of the 2009 Winter Term. Access the AURORA Student Registration system to obtain your precise initial access time.

4.5.5 Visiting Students

You must have a Letter of Permission from your home university before you can register. Present this letter to the Science General Office to gain access to AURORA STUDENT. For your initial registration access time, access AURORA STUDENT

4.5.6 Students in Special Academic Situations

4.5.6.1 Academic Suspension

Students returning from either a one or a two year suspension must contact a Science Student Advisor prior to registration. A Science Student Advisor will outline the required academic performance to remain in good academic standing in the Faculty of Science.

4.5.6.2 Academic Warning

If your last assessment was "Academic Warning" you **must** see a Science Student Advisor prior to registration so that you can be advised about your status.

4.5.6.3 Required to Withdraw

If your last assessment was "Required to withdraw from the Honours or the Major program," you must consult a Science Student Advisor prior to registration. An advisor will review new degree plans, determine eligibility for a desired program, and update any effected university records.

4.5.6.4 Students on "Hold"

If your records are on "Hold", you are prevented from any registration transaction (including Voluntary Withdrawals) until you have cleared this status. Contact a Science Student Advisor if you wish to drop a course while on "Hold".

4.6 Important Information Applicable to All Students

4.6.1 Space Availability and Allocation

Most space in Science and Arts courses except that which is reserved for other faculties and schools is available on AURORA STUDENT from the beginning of the registration period; i.e., space is not filtered in on a daily basis.

Space allocation: AURORA STUDENT will confirm that you have been successfully registered and will assign space for you. It will not allow you to register in a section that is full or unavailable. *Students should take note of the responses AURORA Student provides to ensure that the transaction attempted has been successfully completed.*

4.6.2 Repeated courses

Permission to repeat any course must be obtained from the Faculty of Science general office prior to registration.

4.6.3 Courses offered by other faculties and schools acceptable for credit in Science

Students are reminded that in most cases a maximum of 30 credit hours (General Degree) or 36 credit hours (Major and Honours Degrees) from outside Science can contribute to degree credit.

Refer to the other faculties' class schedules in AURORA STUDENT for course offerings. Any course offered for university level credit at the University of Manitoba is acceptable for credit in the Faculty of Science (excluding Pass/Fail courses).

4.6.4 College Students

Students who are members of St. John's or St. Paul's College must contact their college to determine the status of their membership.

4.6.5 The AURORA Student Registration System WILL NOT do the following:

AURORA STUDENT will not check degree requirements. You are responsible for knowing the requirements of your degree. Consult with a Science Student Advisor for advice and assistance if your degree requirements are unclear.

You cannot add or change a course classification through AURORA STUDENT. Therefore, if you are an undergraduate student and wish to take a course as a Special Student in your degree, as an Auditor or as a Challenge for Credit, you must add this course in person in the Science General Office within the normal deadlines for such activity.

AURORA Student will not prevent a student from registering in two (or more) courses that are designated not to be held for credit with one another. It is the student's responsibility to ensure that they are not registered for courses that are ineligible to be held for credit with one another. **Read the course descriptions carefully.** If you are unsure about a course you have selected, check with a Science Advisor prior to the revision deadline. No academic concessions will be granted in this regard.

Students are not able to change a section without first completely dropping the course they are in, and then adding the desired section.

4.7 Laboratory

4.7.1 Registration:

If a course requires registration in both a lecture and a separate appropriate laboratory section, AURORA STUDENT will not permit you to register in that course unless you register for both.

4.7.2 Exemptions:

If you think you are eligible for a laboratory exemption, you must check with the department offering the course to obtain formal consent of this. Once received, deliver the written permission it to your faculty or school office, as an override may be required on your academic record. You must register for the laboratory exempt section.

It is your responsibility to ensure that you are eligible for a laboratory exemption. If you register for one of these courses and it is subsequently determined that you are not entitled to exemption, you will be required to register for a laboratory section. If no space remains available in the laboratory, you will be required to withdraw from the course.

The Department of Chemistry has instituted the following regulations for laboratory exemption:

- valid for two calendar years only
- lab exemption given only one time per course
- laboratory marks are carried forward to the next course attempt
- students are responsible for laboratory questions on tests and examinations
- students must earn a minimum of 60% on the laboratory to be eligible for an exemption.

The Department of Microbiology requires that all students obtain a written laboratory exemption and deliver it to their faculty office prior to registration.

4.7.3 Laboratory release:

Certain Chemistry and Microbiology courses require that you check out of the laboratory before you withdraw or change lab sections. It is your responsibility to check with the departmental office prior to making any changes to your laboratory registration. Failure to check out of your laboratory may result in your academic records being placed on HOLD.

4.8 Appeals

4.8.1 Authorized Withdrawal:

Students who have valid and documented reasons for withdrawal, such as medical illness or compassionate circumstances, may be authorized to withdraw without penalty. Requests for authorized withdrawals must be submitted to a Faculty of Science Student Advisor. The Office of Student Advocacy located at 519 University Centre (474-7423, student_advocacy@umanitoba.ca) is also available to provide information and assistance.

4.8.2 Other academic appeals:

Students who believe they have grounds for academic concessions based on their personal circumstances should consult with a Science Student Advisor. The Office of Student Advocacy located at 519 University Centre (474-7423, student_advocacy@umanitoba.ca) is also available to provide information and assistance.

4.9 Registration Revisions Using AURORA Student

All students (except Auditors) must revise their registration through AURORA STUDENT, except for the addition of courses taken as a special student, as an auditing student or as challenge for credit within a degree program.

Your department must approve any changes to your Major or Honours program.

4.9.1 Major, Honours, and Co-operative Option Students

You may revise your registration prior to obtaining departmental approval, but you should obtain departmental approval of these changes before classes start. Failure to obtain departmental approval may make you ineligible to graduate. Prior to declaring graduation, your program must be approved by a Science Student Advisor.

4.9.2 In Person

Only those students who cannot revise their registration through AURORA STUDENT may process revisions in person in the Science General Office, 239 Machray Hall.

4.10 Departmental Office Information

Biological Sciences	Z320 Duff Roblin Building	474 9245
Chemistry	360 Parker Building	474 9321

Some departments have established hours when advisors are available. Contact the department to determine when advisors are available.

SECTION 5: Programs and Courses Offered by the Faculty of Science

NOTE:

The letter "M" PRIOR TO the course number indicates that the course may be used to satisfy the university's mathematics requirement.

The letter "W" PRIOR to the course number indicates that the course may be used to satisfy the university's written English requirement.

A course number ENDING IN THE NUMBER "1" indicates that the course is taught at Collège universitaire de Saint-Boniface. See the CuSB calendar and timetable for information. These courses are equivalent to the English versions of the courses and may be used for prerequisite purposes and (or) to satisfy degree/program requirements.

EXAMPLE:

M STAT 1000 Basic Statistical Analysis 1 CR.HRS.3

M STAT 1001 Analyse statistique de base 1 CR.HRS.3 (Labo requis)

IMMEDIATELY FOLLOWING THE COURSE TITLE, YOU WILL FIND THE CREDIT HOUR WEIGHT.

EXAMPLE:

M STAT 1000 Basic Statistical Analysis 1 CR.HRS.3 This course may be used to meet the university's mathematics requirement. This course has been assigned a three credit hour weight. There is no laboratory requirement on the Fort Garry Campus.

BIOL 1020 Biology 1: Principles and Themes CR.HRS.3L (Lab Required)

This course has been assigned a three credit hour weight. There is also laboratory work required.

NOTE:

Students should note that space in Honours and Major courses may be reserved for students in those programs.

Any prerequisite may be waived with written consent of the department

5.1 Actuarial Mathematics Program

Program Director: Kevin Shand

General Office: 631 Drake Centre

Telephone: 204 474 7426

Website: www.umanitoba.ca/actuarial

Email: Kevin_Shand@umanitoba.ca

5.1.1 Program Information

This is an interdisciplinary program leading to a Bachelor of Science (Honours) degree in Actuarial Mathematics offered in collaboration with the Warren Centre for Actuarial Studies and Research of the I.H. Asper School of Business. The program covers mathematical, statistical, financial and economic concepts required to develop skills in the modelling and management of financial risk and contingent events. In the Faculty of Science the program has a greater emphasis on the mathematical and statistical courses than does the Actuarial Mathematics program offered by the I.H. Asper School of Business.

The Warren Centre, with the department of Statistics, offers a joint Honours program (see Section 5.13).

To enter the program, a student must have at least three (3) credit hours in an approved Written English course, ECON 1200 (6), STAT 1000, STAT 2000, MATH 1500 and MATH 1700 (or MATH 1690) and MATH 1300 or any equivalent with a grade of at least "B" in all of the above courses and have satisfied the Faculty of Science requirements for entry to the Honours program. It is strongly recommended by the Warren Centre for Actuarial Studies that students complete a minimum of 24 credit hours over the Fall and Winter Terms.

To continue in the Honours program, i.e., to proceed from Year 2 to Year 3 and from Year 3 to Year 4, and to successfully complete Year 4 of the Honours program and to graduate with the Honours degree, a student must have a Degree Grade Point Average of 3.00 or better, and a grade of "C+" in each Actuarial Mathematics course in the program.

To graduate with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and a minimum grade of either "B" or "C+" (as indicated) in each of the Honours Program Specific courses (see below), and a minimum grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree.

Honours Program Specific Courses

Students must achieve a minimum grade of "B" in each of the following:

ECON 1200, University "W" course, MATH 1690 (or MATH 1500 and MATH 1700, or equivalents), MATH 1300 (or equivalent), STAT 1000, STAT 2000, STAT 3470, STAT 3490.

Students must achieve a minimum grade of "C+" in each of the following:

ACT 2020, ACT 2120, ACT 3130, ACT 3230, ACT 3530, ACT 4000, ACT 4140, ACT 4150, ACT 4240, ACT 4340

The department must approve a student's Honours program each session. Students must also obtain departmental approval for any and all revisions to their program.

5.1.2 Actuarial Mathematics

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
HONOURS ACTUARIAL² 120 CREDIT (comprising courses listed in chart below, and electives)			
ECON 1200 (B), MATH 1690 (B), (or MATH 1500 ¹ and MATH 1700 ¹ (B)), MATH 1300 ¹ (B), STAT 1000 (B), STAT 2000 (B), and re-quired 'W' course (B) Plus 3 credit hours from the Faculty of Arts if a 3 credit hour 'W' course is taken Plus 3 credit hours of electives	ACT 2120, ACT 2020, STAT 2400, STAT 3400, ACC 1100 ³ (B) FIN 2200 ³ (B) MATH 2750 (or MATH 2720 and MATH 2730), MATH 2300 ⁵ Plus 3 credit hours of approved electives	ACT 3130, ACT 3230, ACT 3530, STAT 3050, STAT 3800, STAT 3470 (B), COMP 1260 ⁶ and MSCI 2150 ⁶ Plus 6 credit hours of approved electives	ACT 4140, ACT 4150, ACT 4240 ACT 4000, ACT 4340, STAT 3490 ⁴ (B) Plus 12 credit hours of approved electives
30 Hours	30 Hours	30 Hours	30 Hours

JOINT STATISTICS - ACTUARIAL MATHEMATICS HONOURS: See Section 5.13, Statistics

NOTES:

¹ MATH 1510 or MATH 1520 may be taken instead of MATH 1500; MATH 1310 may be taken instead of MATH 1300; MATH 1710 may be taken instead of MATH 1700.

² The courses required in this program will satisfy the university mathematics requirement.

³ ACC 1100 and FIN 2200 may be taken in Year 2, 3 or 4; however, it is strongly recommended that these two courses be taken in Year 2 or 3. Note that ACC 1100 is a prerequisite for FIN 2200.

⁴ STAT 3490 may be taken in Year 3 or 4.

⁵ MATH 2300 may be taken in Year 2, 3 or 4.

⁶ COMP 1260 and MSCI 2150 may be taken in Year 2, 3 or 4. Note that COMP 1260 is a prerequisite for MSCI 2150.

(Letters in brackets indicate minimum prerequisite grades for further study.)

The electives in Year 3 and Year 4 are to be chosen from Actuarial Mathematics, approved Business courses, Computer Science, Economics, Mathematics (3000 or 4000 level) and Statistics (4000 level courses). Other electives may be selected through consultation with the program director.

Recommended Electives

University 1: Psychology 1200 or Sociology 1200

Year 2: Business Administration GMGT 2000

Year 3: Accounting and Finance FIN 3410, Statistics STAT 3480

Year 4: Accounting and Finance FIN 3270, Actuarial Mathematics ACT 4050, ACT 4060; Statistics STAT 4100, STAT 4520, STAT 4530, STAT 4630.

5.2 Biochemistry

Program Coordinators:

Peter Loewen, Head, Department of Microbiology;

Norman R. Hunter, Head, Department of Chemistry

Program Office: 418 Buller Building / 360 Parker Building

Telephone: 204 474 9372 / 204 474 9321

Website: <http://umanitoba.ca/faculties/science/departments/microbiology/>
<http://www.umanitoba.ca/chemistry>

E-mail: peter_loewen@umanitoba.ca

hunter@ms.umanitoba.ca

5.2.1 Program Information

The program coordinators must approve a student's Honours or Major program each session. Students must also obtain approval for any and all revisions to their program.

Biochemistry Honours Degree Requirements

The requirements for entry to the joint Honours program are a minimum of "B" in each of CHEM 1300 and CHEM 1310, and a minimum of "C+" in BIOL 1030; or a minimum of "C+" in each of CHEM 1300 and CHEM 1310, and a minimum of "B" in BIOL 1030. Also, standing in PHYS 1070 or PHYS 1030, and MATH 1500 plus one of MATH 1200, MATH 1300 or MATH 1700 or equivalent is required. In addition, students must satisfy the general faculty requirements for entry to Honours programs. In order to satisfy prerequisite requirements for courses taken in Year 2 and subsequent years, students must take the courses indicated below in University 1.

To continue in the Honours program, i.e., to proceed from Year 2 to Year 3 and from Year 3 to Year 4, and to successfully complete Year 4 of the Honours program, a student must have Degree Grade Point Average of 3.00, and in addition, must have a 3.00 grade point average on all Chemistry and Microbiology courses during that session. Students must complete at least 9 credit hours during each Fall and Winter Term.

To graduate with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00, a minimum grade of "C+" in each of the Honours Program Specific courses (see below), and a minimum grade of "C" on all remaining courses that contribute to the 123 credit hours of the degree.

Honours Program Specific Courses

CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370), MBIO 2100, MBIO 2110, CHEM 2380, CHEM 2470, MBIO 3450, MBIO 3460, CHEM 4360, CHEM 4370, CHEM 4620, CHEM 4630, CHEM 4700, and MBIO 4540.

In Years 3 and 4, the optional 33 credit hours will be chosen from the lists of courses below in the following way: a minimum of 24 credit hours from the departments of Chemistry and Microbiology combined, with not less than six of these 24 credit hours from each department. The remaining optional nine credit hours may be chosen from any of the options listed. Other suitable optional courses may be selected through consultation with the heads of the departments of Chemistry and Microbiology.

Biochemistry Honours Cooperative Option

Students interested in alternating academic terms and terms of paid employment as part of their Honours Biochemistry program may enter the Cooperative Option in their third year. The five year program provides students with minimum 12 months of paid employment by the time they graduate. It enables them to obtain work experience in research and industry with participating firms, government agencies and University units.

The course and grade requirements for entry and continuation in the Cooperative Option are the same as that for regular Honours program. Each academic term in the third and subsequent years must comprise nine (9) credit hours. Students are required to complete the first and second year requirements of the program and MBIO 3410 before they begin their first employment term. Students should refer to the general faculty regulations for B. Sc. (Honours) Cooperative Options in Section 3.6.

To graduate with the B. Sc. Honours (Cooperative Option) degree, a student must achieve a minimum DGPA of 3.00, a minimum grade of "C+" in each of the Honours Program Specific courses (see below), and a minimum grade of "C" on all remaining courses that contribute to the 123 credit hours of the degree.

Honours Program Specific Courses

CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370), MBIO 2100, MBIO 2110, CHEM 2380, CHEM 2470, MBIO 3410, MBIO 3450, MBIO 3460, CHEM 4360, CHEM 4370, CHEM 4620, CHEM 4630, CHEM 4700, and MBIO 4540.

Students will apply for openings in the Cooperative Option in September of their third year in the Biochemistry Honours program. They will be notified of their provisional acceptance in the program by October. Acceptance into the program is dependent upon the student receiving an employment placement. Employment term positions available to the students will be approved by the department, and the employers will select the students they wish to employ. The first work term can be taken in January or May. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

Students are required to register in and pay fees for each employment term prior to the commencement of each employment term. Students will be required to submit an employment report upon the completion of each employment term.

Biochemistry Four Year Major Requirements

The requirements for entry to the joint four year Major program are a minimum of "C+" in each of CHEM 1300 and CHEM 1310, and a minimum of "C" in BIOL 1030; or a minimum of "C+" in BIOL 1030 and a minimum of "C" in each of CHEM 1300 and CHEM 1310; plus standing in PHYS 1070 or PHYS 1030, MATH 1500 plus one of MATH 1200, MATH 1300, MATH 1700 or equivalent. In addition, students must satisfy the general faculty requirements for entry to four year Major programs.

To qualify for the degree Bachelor of Science (Major), a student must complete 120 credit hours or more, with minimum grades of "C" on Major Program Specific courses (see below), passing grades ("D" or better) on the remaining courses, and a minimum grade point average of 2.00 on the 120 credit hours which contribute to the degree.

Major Program Specific Courses

CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370), MBIO 2100, MBIO 2110, CHEM 2380, CHEM 2470, MBIO 3450, MBIO 3460; two of CHEM 4360, CHEM 4370, CHEM 4620, CHEM 4630

Students in this program should note the following:

Students must satisfy any course prerequisites and corequisites for courses selected. Care should be taken to select courses in their proper sequence, e.g., CHEM 2370 (MBIO 2370) should be taken in Year 2 as it is prerequisite to a number of subsequent required or optional courses.

Normally 4000 level courses are available only to students in their fourth year. MBIO 4530 and MBIO 4570 are not available to Major students.

Students are encouraged to elect other courses pertinent to the study of biochemistry although this is not required for completion of the degree. The departments of Microbiology and Chemistry will be glad to suggest such supplementary courses upon request.

Students who may wish to transfer to the Honours program in Biochemistry following Year 2 should be sure to complete all courses recommended in Year 2 (see chart below).

Biochemistry Major Cooperative Option

Students interested in alternating academic terms and terms of paid employment as part of their program may enter the Major Biochemistry Cooperative Option in their third year. The five year program provides students with a minimum 12 months of paid employment by the time they graduate. It enables them to obtain work experience in research and industry with participating firms, government agencies and University units.

The course and grade requirements for entry and continuation in the Cooperative Option are the same as those required for the regular Major program. Students are encouraged, but not required, to take 15 credit hours in each academic term in the third and subsequent years. Students are required to complete the first and second year requirements of the program and MBIO 3410 before they begin their first employment term. Students should refer to the general faculty regulations for B. Sc. (Major) Cooperative Options in Section 3.4.

To qualify for the degree Bachelor of Science (Major Cooperative Option), a student must complete the equivalent of 120 credit hours or more, with minimum grades of "C" on Major Program Specific courses (see below), passing grades ("D" or better) on the remaining courses, and a minimum grade point average of 2.00 on the 120 credit hours which contribute to the degree.

Major Program Specific Courses

CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370), MBIO 2100, MBIO 2110, CHEM 2380, CHEM 2470, MBIO 3410, MBIO 3450, MBIO 3460; two of CHEM 4360, CHEM 4370, CHEM 4620, CHEM 4630

Students will apply for openings in the Cooperative Option in September of their third year in the Biochemistry Major program. They will be notified of their provisional acceptance in the program by October. Acceptance into the program is dependent upon the student receiving an employment placement. Employment term positions available to the students will be approved by the department and the employers will select the students they wish to employ. The first work term can be taken in January or May. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

Students are required to register in and pay fees for each employment term prior to the commencement of each employment term. Students will be required to submit an employment report upon the completion of each employment term.

Optional Courses:

Chemistry: CHEM 3360, CHEM 3370, CHEM 3380, CHEM 3390, CHEM 3590, CHEM 3490, CHEM 3580, CHEM 4570, CHEM 4580, CHEM 4590, CHEM 4600, CHEM 4640, CHEM 4650, CHEM 4670, CHEM 4680, CHEM 4690, CHEM 4700¹, CHEM 4710¹.

Microbiology: MBIO 2280, MBIO 3010⁴, MBIO 3410⁴, MBIO 3430, MBIO 3440, MBIO 3470, MBIO 3480, MBIO 4010, MBIO 4020², MBIO 4320, MBIO 4410, MBIO 4470, MBIO 4510, MBIO 4530¹, MBIO 4540³, MBIO 4670 (or the former MBIO 4570), MBIO 4672 (or the former MBIO 4580)², MBIO 4600, MBIO 4610.

Other departments: BIOL 2500 (BOTN 2460), BIOL 2520 (ZOO 2280), BIOL 3452 (BOTN 3010), BIOL 3460 (ZOO 3530), BIOL 3462 (ZOO 3540), BIOL 4430 (BOTN 4120), BIOL 4480 (ZOO 4600), BIOL 4540 (ZOO 4150), BIOL 4542 (ZOO 4270), STAT 1000, STAT 2000, PHYS 2200, PHYS 2270, PHYS 2280, COMP 1010, COMP 1020, COMP 1260, COMP 1270, MATH 2720, MATH 2730, MATH 2800, MATH 3820.

Other courses can be considered with the approval of the department.

¹Not available in the Honours and Major Cooperative Options

²Available only for Major and Major Cooperative Options

³Required in the Honours and Honours Cooperative Options

⁴Required in the Honours Cooperative and Major Cooperative Options

5.2.2 Biochemistry – Joint Chemistry-Microbiology Programs

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
--------------	--------	--------	--------

JOINT HONOURS⁵ 123 CREDIT HOURS (comprising courses listed in chart below, and electives)

CHEM 1300, CHEM 1310, BIOL 1020, BIOL 1030, PHYS 1050 and PHYS 1070 (or PHYS 1020 and 1030), MATH 1500 ¹ Plus one of: MATH 1200, MATH 1300 ¹ , MATH 1700 ¹	CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370), MBIO 2100, MBIO 2110, and whichever two of MATH 1200, MATH 1300 ¹ , MATH 1700 ¹ not yet taken ²	CHEM 2380, CHEM 2470, MBIO 3450, MBIO 3460 Plus 18 credit hours from option list above	CHEM 4360, CHEM 4370, CHEM 4620, CHEM 4630, CHEM 4700, MBIO 4540 Plus 15 credit hours from option list above
--	--	---	---

In University 1 or Year 2 the following must be completed:

6 credit hours from the Faculty of Arts, which should include the required "W" course⁴

The 33 credit hours of options must include 24 credit hours from Chemistry and Microbiology with at least 6 hours from each department. The remaining 9 credit hours may be from any of the options listed.

30 Hours

30 Hours

30 Hours

33 Hours

JOINT HONOURS COOPERATIVE OPTION^{5,6} 123 CREDIT HOURS (comprising courses listed in chart below, and electives)

CHEM 1300, CHEM 1310, BIOL 1020, BIOL 1030, PHYS 1050 and PHYS 1070, (or PHYS 1020 and 1030), MATH 1500 ¹ Plus one of: MATH 1200, MATH 1300 ¹ , MATH 1700 ¹	CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370), MBIO 2100, MBIO 2110, and whichever two of MATH 1200, MATH 1300 ¹ , MATH 1700 ¹ not yet taken ²	CHEM 2380, CHEM 2470, MBIO 3410, MBIO 3450, MBIO 3460	CHEM 4360, CHEM 4370, CHEM 4620, CHEM 4630, MBIO 4540
---	--	---	---

In University 1 or Year 2 the following must be completed:

6 credit hours from the Faculty of Arts, which should include the required "W" course⁴

MBIO 3980, MBIO 3990, MBIO 4980 and/or MBIO 4990

Plus 30 credit hours from option list above which must include 21 credit hours from Chemistry and Microbiology with at least 6 hours from each department. The remaining 12 credit hours may be from any of the options listed.

30 Hours

30 Hours

30 Hours

33 Hours

JOINT FOUR YEAR MAJOR^{5,7} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

CHEM 1300, CHEM 1310, BIOL 1020, BIOL 1030, PHYS 1050 and PHYS 1070 (or PHYS 1020 and PHYS 1030), MATH 1500 ¹ Plus one of: MATH 1200, MATH 1300 ¹ , MATH 1700 ¹	CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370), MBIO 2100, MBIO 2110, and whichever two of MATH 1200, MATH 1300 ¹ , MATH 1700 ¹ not yet taken ²	CHEM 2380, CHEM 2470, MBIO 3450, MBIO 3460	Two of CHEM 4360, CHEM 4370, CHEM 4620, CHEM 4630 ³
---	--	--	--

In University 1 or Year 2 the following must be completed:

6 credit hours from the Faculty of Arts, which should include the required "W" course⁴

Plus 24 credit hours of Chemistry and Microbiology courses. The 24 credit hours must include 12 credit hours at the 4000 level and at least 6 credit hours from each of Chemistry and Microbiology.

JOINT FOUR YEAR MAJOR COOPERATIVE OPTION^{5,6,7} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

CHEM 1300, CHEM 1310, BIOL 1020, BIOL 1030, PHYS 1050 and PHYS 1070 (or PHYS 1020 and PHYS 1030), MATH 1500 ¹ Plus one of: MATH 1200, MATH 1300 ¹ , MATH 1700 ¹	CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370), MBIO 2100, MBIO 2110, and whichever two of MATH 1200, MATH 1300 ¹ , MATH 1700 ¹ not yet taken ²	CHEM 2380, CHEM 2470, MBIO 3410, MBIO 3450, MBIO 3460	Two or more of CHEM 4360, CHEM 4370, CHEM 4620, CHEM 4630
---	--	---	---

In University 1 or Year 2 the following must be completed:

6 credit hours from the Faculty of Arts, which should include the required "W" course⁴

MBIO 3980, MBIO 3990, MBIO 4980 and/or MBIO 4990

Plus 21 credit hours of Chemistry and Microbiology courses. The 21 credit hours must include 12 credit hours at the 4000 level and at least 6 credit hours from each of Chemistry and Microbiology.

NOTES:

¹ MATH 1310 may be taken in place of MATH 1300; MATH 1510, or MATH 1520 may be taken in place of MATH 1500; MATH 1710 may be taken in place of MATH 1700; MATH 1690 may be taken in place of MATH 1500 and MATH 1700.

² Other combinations of mathematics courses may be acceptable with the approval of the department heads.

³ Only two of CHEM 4360, CHEM 4370, CHEM 4620 and CHEM 4630 are required, but all may be taken.

⁴ As there are no electives in Year 2 of the program, students should complete the university written English requirement in University 1. If not completed in University 1, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.

⁵ The courses required in this program satisfy the University mathematics requirement.

⁶ IMPORTANT: Students in the cooperative programs must ensure that they are able to satisfy the prerequisites for all 3000 and 4000 level courses they plan to take.

⁷ The four year Major program need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

(Letters in brackets indicate minimum prerequisite standing for further study.)

Associate Professors

Anderson, W. G. B.Sc.(Hons), Ph.D. (St. Andrews); **Campbell, K.L.,** B.Sc. (Hons), Ph.D. (Manitoba); **Gillis, D.M.,** B.Sc. (Dalhousie), M.Sc. (McGill), Ph.D. (Simon Fraser); **Goldsbrough, L.G.,** B.Sc., Ph.D. (Manitoba); **Graham, L.C.,** B.Sc.(Hons.), M.Sc. (Alberta), Ph.D. (Tulane); **Markham, J.H.,** B.Sc.(Hons.) (Guelph), B.Ed. (Dalhousie), Ph.D. (UBC); **Piercey-Normore, M. D.,** B.Sc. (Gen.), B.Sc. (Hons.), M.Sc., Ph.D. (Memorial); **Renault, S.,** B.Sc., M.Sc., Ph.D. (Poitiers); **Sumner, M.J.,** B.Sc.(Hons.), M.Sc. (Alberta), Ph.D. (Manitoba); **Valdimarsson, G.,** B.Sc., M.Sc. (Manitoba), Ph.D. (Western).

Assistant Professors

Davoren, G.K., B.Sc., M.Sc. (Victoria), Ph.D. (Memorial); **Docker, M.F.,** B.Sc., Ph.D. (Guelph); **Fry, W.M.,** B.Sc.(Hons), Ph.D. (Memorial); **Schroeder, D. F.,** B. Sc. (Simon Fraser), Ph.D. (Calgary); **Worley, A.C.,** B.Sc. (Victoria), M.Sc. (Calgary), Ph.D. (Toronto); **Whyard, B.Sc.(Hons),** Ph.D. (Queen's); **Wehrauch, D.,** B.Sc., Diplom, Ph.D. (Hamburg).

Cross-Appointees

Diehl-Jones, W.L., B.Sc. (Nursing), M.Sc. (Zool.), Ph.D. (Manitoba), Associate Professor

Instructors:

McLeese, J.M., B.Sc., M.Sc. (Guelph), Ph.D. (Ottawa) (Senior Instructor); **Narayansingh, T.G.,** B.Sc., M.Sc. (Manitoba), (Senior Instructor); **Scott, K.G.-E.,** B.Sc.(Hons.) (Calgary), Ph.D. (Calgary) (Instructor II); **Shaw, M.,** B.Sc., M.Sc. (Manitoba), (Senior Instructor); **Stacey, J.,** B.Sc. (Hons), M.Sc. (Memorial), (Instructor I); **Waters, I.,** B.A., B.Sc.(Ag.), M.Sc.(Ag.), Ph.D. (Manitoba) (Senior Instructor).

Biological Sciences

Biology is one of the most rapidly evolving and diverse sciences in the modern world, exploring all aspects of life from biomolecules to ecosystems. The Department of Biological Sciences is committed to advancing our understanding of biological structure and function, and developing new tools and technologies to address current and emerging problems facing all living organisms. Connections will be forged between molecules, cells, tissues, organs, organisms, populations, communities, and ecosystems, highlighting the need to explore all levels of biological interactions. Programs emphasize the organism as the key element in studies of the development and evolution of form and function, and the role in adaptations to the environment. Based on a core of fundamental biological principles, our programs explore diverse areas such as organismal biology, environmental biology, genetics, cell biology and development, physiology, ecology, behaviour, and systematics and evolution. The Department focuses on the integration of research and teaching expertise to create opportunities for growth and novel synergisms in the training of future leaders in the field.

Honours

The Honours program is designed for students planning a professional career in Biological Sciences at the graduate level. Such students are strongly advised to enter the Honours program at the beginning of second year.

Appropriate courses will be arranged in consultation with the Program Advisor who may be contacted through the Biological Sciences Office, Z320 Duff Roblin. Students are encouraged to select a specific theme area of study as part of their Biological Sciences program. Should a student not opt for one of the five theme groups, they may design their own program by completing the core course requirements plus 30 credit hours of 3000 and/or 4000 level Biological Sciences courses. See the information below outlining the different theme areas offered by the Department of Biological Sciences.

To enter the Biological Sciences Honours program a student must have a "B" in either BIOL 1030 or CHEM 1310 and not less than a "C+" in the other course. In addition, a student is required to have a Degree Grade Point Average of 2.50 on all courses completed at the end of Year 1 in order to enter Honours in Year 2. STAT 1000 and the 3 credit hours of specified Mathematics, Physics or Statistics courses can be completed in University 1 or Year 2.

To continue in the Honours program, i.e., to proceed from Year 2 to Year 3 and Year 3 to Year 4, a student must have a Degree Grade Point Average of 3.00, and in addition, must have a 3.00 average on all Biology courses during each session and a grade of "C+" or better in each Biology course.

In order to graduate with an Honours degree, a student must obtain a Degree Grade Point Average of 3.00 or better, a grade of "C+" or better in all Biology courses, and a grade of "C" or better on all remaining courses that contribute to the degree.

Four Year Honours Cooperative Option

Students interested in alternating academic terms and terms of paid employment as part of their Honours Biological Sciences program may enter the Cooperative Option after completion of their second year in Honours Biological Sciences. This program provides students with 12 months of paid employment by the time they graduate. It enables them to obtain work experience with participating firms, government agencies and University units.

There are several themes offered within the Biological Sciences Program and the Cooperative Option can be completed within any of these areas of study. See below for a description of the different themes and the course

requirements of those themes offered by the Department of Biological Sciences.

Students may apply for openings in the Biological Sciences Honours Cooperative Option after completing at least two years (60 credit hours) in the Honours program, usually in the fall of their third year. Before the first employment term begins, the prerequisite courses listed below must be completed. Acceptance and continuation in the program is dependent upon the student receiving employment placements.

Prerequisite courses to be completed before employment terms begin: BIOL 1020 and BIOL 1030, CHEM 1300, CHEM 1310, STAT 1000, 3 credit hours of specified Mathematics or Physics, **BIOL 2300, BIOL 2500, BIOL 2520, and BIOL 3100** *. **In addition, students must complete 9 credit hours from program core courses as follows: students must select one course from Group A (BIOL 2200, BIOL 2210), plus one course from Group B (BIOL 2240, BIOL 2242, BIOL 2260), plus one additional course from either Group A or Group B.** [* A Pre-Coop Workshop may be substituted for **BIOL 3100** only to permit an employment term in September of Year 3, but **BIOL 3100** must still be taken.]

Students should note that the course and grade requirements for the Biological Sciences Honours Cooperative Option are the same as those for the regular Honours program, with the addition of the Work Term courses (see above). To continue in the Biological Sciences Honours Cooperative program, a student must have a Degree Grade Point Average of 3.00, and in addition, must have a 3.00 Grade Point Average on all Biological Sciences courses during that term, a grade of "C+" or better in each Biological Sciences course, and a pass on all work term courses.

Students should refer to the general faculty regulations for B. Sc. (Honours) Cooperative Options in Section 3.6.

Employment term positions available to the students will be approved by the department and may include positions within Biological Sciences, other University departments or positions with employers outside the University. Employers will select the students they wish to employ. The first employment term will preferably be taken in January or May of the third year, but may under exceptional circumstances begin in the preceding September. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

The program will include three employment terms, each of 4-months duration, two of which may be consecutive. A fourth work term is optional. Students are required to register in and pay fees for each employment term prior to its commencement. Students will be required to submit an employment report upon the completion of each employment term. In order to stay in the Cooperative program, a student must obtain a grade of "pass" for each work term report.

Four Year Major

The four year Major program is also designed for students planning a professional career in the Biological Sciences, but who may not be considering graduate training. It will provide intensive training in all areas of Biology comparable to that of the Honours program, but has less demanding performance requirements. Students who so wish, and have appropriate standing and course selection, may transfer to the Honours program at any time up to the commencement of Year 4.

Appropriate courses will be arranged in consultation with the Program Advisor who may be contacted through the Biological Sciences Office, Z320 Duff Roblin. Students are encouraged to select a specific theme area of study as part of their Biological Sciences program. See the information below outlining the different theme areas offered by the Department of Biological Sciences.

Course BIOL 4100 is not available to students in this program.

To enter the Biological Sciences four-year Major program a student must have a "C+" in either BIOL 1030 or CHEM 1310 and not less than a "C" in the other course, and have satisfied the faculty requirements for entry to the four year Major program. STAT 1000 and the 3 credit hours of specified Mathematics, Physics or Statistics courses can be completed in University 1 or Year 2.

Four Year Major Cooperative Option

Students interested in alternating academic terms and terms of paid employment as part of their Major Biological Sciences program may enter the Cooperative Option after completion of their second year in the Biological

Sciences Major. This program provides students with 12 months of paid employment by the time they graduate. It enables them to obtain work experience with participating firms, government agencies and University units.

There are several themes offered within the Biological Sciences Program and the Cooperative Option can be completed within any of these areas of study. See below for a description of the different themes and the course requirements of those themes offered by the Department of Biological Sciences.

Students may apply for openings in the Biological Sciences Major Cooperative Option after completing at least two years (60 credit hours) in the Major program, usually in the fall of their third year. Before the first employment term begins, the prerequisite courses listed below must be completed. Acceptance and continuation in the program is dependent upon the student receiving employment placements.

Prerequisite courses to be completed before employment terms begin: BIOL 1020 and BIOL 1030, CHEM 1300, CHEM 1310, STAT 1000, 3 credit hours of specified Mathematics or Physics, **BIOL 2300, BIOL 2500, BIOL 2520 and BIOL 3100** *. **In addition, students must complete 9 credit hours from program core courses as follows: students must select one course from Group A (BIOL 2200, BIOL 2210), plus one course from Group B (BIOL 2240, BIOL 2242, BIOL 2260), plus one additional course from either Group A or Group B.** [* A Pre-Coop Workshop may be substituted for **BIOL 3100** only to permit an employment term in September of Year 3, but **BIOL 3100** must still be taken.]

Students should note that the course and grade requirements for the Biological Sciences Major Cooperative Option are the same as those for the regular Major program (see above), **with the addition of BIOL 3100** and the Work Term courses. To continue in the Biological Sciences Major Cooperative program, a student must have a Cumulative Grade Point Average of 2.00, a grade of "C" or better in each Biological Sciences course required in the program, and a pass on all work term courses.

Students should also refer to the general faculty regulations for B. Sc. (Major) Cooperative Options in Section 3.4.

Employment term positions available to the students will be approved by the department and may include positions within Biological Sciences, other University departments or positions with employers outside the University. Employers will select the students they wish to employ. The first employment term will preferably be taken in January or May of the third year, but may under exceptional circumstances begin in the preceding September. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

The program will include three employment terms, each of 4-months duration, two of which may be consecutive. A fourth work term is optional. Students are required to register in and pay fees for each employment term prior to its commencement. Students will be required to submit an employment report upon the completion of each employment term. In order to stay in the Cooperative program, a student must obtain a grade of "pass" for each work term report.

BIOLOGICAL SCIENCES THEME AREAS

I. Cell, Molecular and Developmental Biology: Students in the Department of Biological Sciences with an interest in the exciting field of cell and developmental biology can select the Cell, Molecular, and Developmental Biology theme for focus. This theme will provide students a selection of courses that highlight fundamental principles and many important advances in this rapidly growing area of contemporary biology. Students can concentrate on aspects that deal with the molecular structures and processes of cellular life and their roles in the function, reproduction, and development of living organisms. The theme is structured such that students can choose from a broad range of disciplines, including biochemistry, molecular biology, morphology, genetics, cell biology, and developmental biology. The organisms under study in this theme are equally diverse, ranging from microbes through to invertebrates, vertebrates, plants, and fungi. The Department collaborates with many other life sciences departments and this theme allows student to develop a highly flexible course portfolio that includes courses from the Departments of Biological Sciences, Chemistry, Microbiology, or Plant Science.

Specific courses required for the Cell, Molecular, and Developmental Biology Theme in addition to the core course requirements: BIOL 2540

(ZOOL 2150) Developmental Biology (3); *Plus a minimum of 6 Credit hours of Biochemistry*: CHEM 2770 (Mbio 2770) and CHEM 2780 (Mbio 2780); or CHEM 2210 and CHEM 2360 (Mbio 2360) and CHEM 2370 (Mbio 2370).

II. Ecology and Environmental Biology: Ecology is the study of interactions between organisms and their environment, both in natural settings and human-influenced habitats. In our society ecology and environmental biology provide a scientific link to the living world. Ecologists study the lives of many organisms including animals, plants, fungi, protists, and bacteria. Interactions among these organisms are investigated at many scales ranging from the microscopic to the global. At the individual level, ecology investigates the impact of environmental factors on organisms through their physiology and behaviour. Ultimately, ecologists link these factors to survival and reproduction in variable environments. At the population level, ecology examines the causes of fluctuations in numbers and changes in distribution of a single species. This work is often the focus of agencies concerned with exploitation, extinction, and rehabilitation of both commercially and esthetically important species. At the community and ecosystem level, ecology considers many coexisting species. It examines the interactions between species within the communities (competition, predation, parasitism, mutualism, etc.) as well as broader investigations of community structure and composition. Ultimately, the skills developed within this theme prepare students for future careers in academia, government agencies, private consulting companies, or NGOs whose mandates encompass ecological and environmental concerns.

Specific courses required for the Ecology and Environmental Biology Theme in addition to the core course requirements: BIOL 3310 (ZOOL 3680) Foundations of Population Ecology (3); BIOL 3312 (BOTN 3540) Community Ecology (3); BIOL 3314 (BOTN 3420/ZOOL 3460) Field Ecology (3); STAT 2000 Basic Statistical Analysis 2 (3).

III. Environmental and Integrative Physiology: The Environmental and Integrative Physiology theme will be of interest to a wide array of students interested in pursuing employment opportunities in the Environmental, Consulting, Pharmaceutical, Healthcare, and Professional job markets. Based on the suggested courses and sub themes within this program students will be able to graduate with an all inclusive degree or specialize in particular disciplines ranging from molecular physiology to whole organism physiology and eco/environmental physiology, a subject area that is at the interface between ecology and physiology. Students will be exposed to modern research techniques in lab classes and will be taught by instructors and faculty with active research programs within the Department of Biological Sciences.

Specific courses required for the Environmental and Integrative Physiology Theme in addition to the core course requirements: *6 Credit hours of Biochemistry* CHEM 2770 (Mbio 2770) and CHEM 2780 (Mbio 2780); or CHEM 2210 and CHEM 2360 (Mbio 2360) and CHEM 2370 (Mbio 2370); *Plus: two of the following courses (one of which is already required in the four-year Biological Sciences Degree programs):* BIOL 3460 (ZOOL 3530) Environmental Physiology of Animals 1 (3), BIOL 3462 (ZOOL 3540) Environmental Physiology of Animals 2 (3), BIOL 3450 (BOTN 2020) Plant Physiology (3), BIOL 3452 (BOTN 3010) Environmental Physiology of Plants (3).

IV. Evolution and Biodiversity: Evolution is broadly defined as “descent with modification” and is the process that generates the earth’s biodiversity. The theory of evolution provides a unifying framework for biology because all organisms are descended from a common ancestor. As a result, evolutionary principles permeate research and teaching throughout biology.

Evolutionary biology addresses two overarching questions. (1) What was the history of life? (2) What processes account for adaptation and diversification? Systematics reconstructs the history of life by studying relationships among species, and involves comparisons of physical appearance, development, biochemistry, genetics, behaviour, ecology and biogeography. Evolutionary Genetics investigates how processes such as natural selection, mutation, and migration interact to cause evolutionary change within populations. Evolutionary history, genetics, and ecological context are required to fully understand the evolution of traits, for example body size, wing shape or leaf structure. Thus evolution integrates knowledge from a wide spectrum of sub-disciplines within biology.

Evolutionary biology has wide-ranging practical applications. Principles of evolution are required to understand: the evolution of pathogens such as HIV and avian influenza; domestication of wild species and consequences of genetic modifications; the identification of natural products; long-term responses to environmental change; and human biology. Courses from this theme will prepare students for academia, medicine, and government agencies or NGO’s that emphasize the cataloguing and conservation of biological diversity.

There are no specific additional course requirements in the Evolution and Biodiversity theme; however courses emphasizing evolution and biodiversity should be selected from a given set of courses offered by the department.

V. Integrative Biology: The Integrative Biology theme will be of interest to students planning to pursue careers in the various biology sub disciplines and who wish an undergraduate degree that is “interdisciplinary” within the life science departments that cuts across the traditional boundaries. This program will suit students who are interested in the “after degree” program in Education or who are intending to apply to a professional program (e.g. Medicine, Dentistry, Pharmacy, Medical Rehabilitation) and who would like a broad background in the Life Sciences. With the appropriate choice of Biological Science courses it would be possible to indicate the Integrative Biology theme along with a second theme from the department.

Specific courses required for the Integrative Biology Theme in addition to the core course requirements: *All five of the following (three of which are already designated as core courses in the four-year Biological Sciences Degree programs):* BIOL 2200 The Invertebrates (3), BIOL 2210 The Chordates (3), BIOL 2240 The Flowering Plants 1 (3), BIOL 2242 The Non-Flowering Plants (3), Mbio 2100 General Microbiology A (3); *One of the following (one of which is already required in the four-year Biological Sciences Degree programs):* BIOL 3450 Plant Physiology (3), BIOL 3460 Environmental Physiology of Animals; *Plus:* 18 credit hours in Biological Sciences (3000/4000 level courses) and 12 credit hours in Microbiology (3000/4000 level courses).

Note: a maximum of 15 credits of Biological Sciences and Microbiology courses at the 2000 level are permitted in year 3 and 4. For the Integrative Biology theme only, these 15 credit hours of 2000 level course may be used toward the 3000/4000 level requirements of the degree.

Three Year General

Courses taken as part of a General degree program provide an introduction to the major fields of study in the Biological Sciences. Commencing in Fall Term 2009, students will have two options for the General Degree under the Department of Biological Sciences.

Option A: 18 credit hours of 2000, 3000, and (or) 4000 level Biological Sciences courses (subject to the Faculty requirement that of the 36 credit hours in the two chosen advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level);

Option B: Students may choose 36 credit hours from the Biological Sciences provided they select the following courses: each of BIOL 2300, BIOL 2500, BIOL 2520; one of BIOL 2200 or BIOL 2210; one of BIOL 2240, BIOL 2242, or BIOL 2260; plus 21 additional credit hours from the Biological Sciences including at least 6 credit hours at the 3000 or 4000 level.

Students anticipating a transfer to either the four year Major or Honours program at the end of their second or third year should consult with the Departmental Program Advisor before registering.

5.3.3.1 Biological Sciences

UNIVERSITY 1

YEAR 2

YEAR 3

YEAR 4

HONOURS: Cell, Molecular and Developmental Biology Theme (incl. Co-op) 120 CREDIT HOURS^{2,7}

BIOL 1020, BIOL 1030, CHEM 1300, CHEM 1310, STAT 1000

BIOL 2300, BIOL 2500, BIOL 2520

BIOL 3100, BIOL 3300

BIOL 4100 (6)

Choose one course from each of:

Group A: BIOL 2200, BIOL 2210

Group B: BIOL 2240, BIOL 2242, BIOL 2260

One additional course from either Group A or Group B

Either both of CHEM 2770 and CHEM 2780; or all three of CHEM 2210, CHEM 2360, and CHEM 2370 (theme courses)

BIOL 2540 (theme course)

Choose one of the following:

BIOL 3450, BIOL 3460, BIOL 3462

Co-op requirements (if enrolled):

BIOL 3980, BIOL 3990

Co-op requirements (if enrolled):

BIOL 4980, BIOL 4990 (if necessary)

In University 1 or Year 2 the following must be completed:

3 credit hours from Mathematics or Physics from: MATH 1200, MATH 1300¹ or MATH 1500¹, PHYS 1020 or PHYS 1050

Plus 6 credit hours from the Faculty of Arts, which should include the required "W" course

In addition to the core courses, students require 30 credit hours of 3000 or 4000 level Biology courses⁶ to graduate. Courses from outside Biology may be approved by the department.

Students completing the above prescribed courses will satisfy the Cell, Molecular and Developmental Biology Theme.

HONOURS: Ecology and Environmental Biology Theme (incl. Co-op) 120 CREDIT HOURS^{2,7}

BIOL 1020, BIOL 1030, CHEM 1300, CHEM 1310, STAT 1000

BIOL 2300, BIOL 2500, BIOL 2520

BIOL 3100, BIOL 3300

BIOL 4100 (6)

STAT 2000 (theme course)

Choose one course from each of:

Group A: BIOL 2200, BIOL 2210

Group B: BIOL 2240, BIOL 2242, BIOL 2260

One additional course from either Group A or Group B

BIOL 3310, BIOL 3312, BIOL 3314 (theme courses).

Choose one of the following:

BIOL 3450, BIOL 3460, BIOL 3462

Co-op requirements (if enrolled):

BIOL 3980, BIOL 3990

Co-op requirements (if enrolled):

BIOL 4980, BIOL 4990 (if necessary)

In University 1 or Year 2 the following must be completed:

3 credit hours from Mathematics or Physics from: MATH 1200, MATH 1300¹ or MATH 1500¹, PHYS 1020 or PHYS 1050

Plus 6 credit hours from the Faculty of Arts, which should include the required "W" course

In addition to the core courses, students require 21 credit hours of 3000 or 4000 level Biology courses⁶ to graduate. Courses from outside Biology may be approved by the department.

Students completing the above prescribed courses will satisfy the Ecology and Environmental Biology Theme.

4-YEAR MAJOR: Environmental and Integrative Physiology Theme (incl. Co-op) 120 CREDIT HOURS^{2,7}

BIOL 1020, BIOL 1030, CHEM 1300, CHEM 1310, STAT 1000

BIOL 2300, BIOL 2500, BIOL 2520

Choose one course from each of:

Group A: BIOL 2200, BIOL 2210

Group B: BIOL 2240, BIOL 2242, BIOL 2260

One additional course from either Group A or Group B

Either both of CHEM 2770 and CHEM 2780; or all three of CHEM 2210, CHEM 2360, and CHEM 2370 (theme courses)

BIOL 3300

Choose one of the following:

BIOL 3450, BIOL 3460, BIOL 3462

Choose two of: BIOL 3450, BIOL 3460, BIOL 3462 (if not already taken), or BIOL 3420 (theme courses).

Co-op requirements (if enrolled):

BIOL 3100, BIOL 3980, BIOL 3990

The remaining 3000/4000 level Biological Sciences requirements⁶; plus any elective courses required to total 120 credit hours for the program.

Co-op requirements (if enrolled):

BIOL 4980, BIOL 4990 (if necessary)

In University 1 or Year 2 the following must be completed:

3 credit hours from Mathematics or Physics from: MATH 1200, MATH 1300¹ or MATH 1500¹, PHYS 1020 or PHYS 1050

Plus 6 credit hours from the Faculty of Arts, which should include the required "W" course

In addition to the core and theme courses, students require 24 credit hours of 3000 or 4000 level Biology courses⁶ to graduate.

Students completing the above prescribed courses will satisfy the Environmental and Integrative Physiology Theme.

---	--	--	---

In University 1 or Year 2 the following must be completed:

3 credit hours from Mathematics or Physics from: MATH 1200, MATH 1300¹ or MATH 1500¹, PHYS 1020 or PHYS 1050

Plus 6 credit hours from the Faculty of Arts, which should include the required "W" course

In addition to the core courses, students require 30 credit hours of 3000 or 4000 level Biology courses to graduate⁶.

THREE YEAR GENERAL

18 credit hours of 2000, 3000, and (or) 4000 level Biological Sciences courses (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level.);

or

Students may choose 36 credit hours from the Department of Biological Sciences provided they select courses as prescribed below:

Each of BIOL 2300, BIOL 2500, BIOL 2520; one of BIOL 2200 or BIOL 2210; one of BIOL 2242, BIOL 2240 or BIOL 2260; plus 21 additional credit hours from the Biological Sciences including at least 6 credit hours at the 3000 or 4000 level⁵.

MINOR

BIOL 1020 and BIOL 1030

12 credit hours from 2000, 3000, and/or 4000 level Biology courses.

NOTES:

1. MATH 1510, MATH 1520, or MATH 1690 may be taken in place of MATH 1500; MATH 1310 may be taken in place of MATH 1300.

2. The courses in this program will satisfy the university mathematics requirement.

3. **IMPORTANT:** The Honours and Major programs need not be completed in the manner prescribed in the chart above. The charts indicate one possible arrangement of the required courses and are meant to be a guide around which students can plan their programs with a view to satisfying the prerequisites of the required courses.

4. For the Integrative Biology Theme only, a maximum of 15 credit hours of 2000 level Microbiology and Biological Sciences courses may be used towards the 30 hours of 3000/4000 level requirements.

5. Students should confirm the new regulations of the B.Sc. General Degree with a Faculty of Science Student Advisor if they wish to choose 36 hours of advanced level study from the Department of Biological Sciences.

6. Courses from other departments or faculties may be acceptable for use towards the 30 credit hours of 3000/4000 level Biological Sciences courses required in the Honours and Major Degree programs. Please consult with the department for permission to use alternate courses.

7. The Four-year programs in Biological Sciences require students to complete 120 credit hours. These hours are a combination of the courses outlined in the charts above and elective courses chosen by the student in consultation with the program advisors.

5.3.7 Biological Sciences Course Descriptions

NOTE: To fulfill prerequisite requirements, a minimum grade of "C" must be achieved in any Biological Science course stipulated as a prerequisite to a further course in Biological Sciences, unless otherwise posted.

BIOL 1000 Biology: Foundations of Life Cr.Hrs.3 (Formerly 071.100) A course in unifying principles of biology including cell biology, bioenergetics, cell division, genetics and evolution. May not be used for credit in a Major or Honours program in the Biological Sciences. Not to be held with BIOL 1001, BIOL 1020, BIOL 1021, the former 071.125, or 071.201. *Prerequisite:* Any grade 12 or 40S Mathematics course (50%), or equivalent.

BIOL 1010 Biology: Biological Diversity and Interaction Cr.Hrs.3 (Formerly 071.101) An introduction to biological diversity including prokaryotes, protists, fungi, plants and animals; the form and function of plants and animals and basic concepts of ecology. May not be used for credit in a Major or Honours program in the Biological Sciences. Not to be held with BIOL 1011, BIOL 1030, BIOL 1031, the former 071.125, or 071.201. *Prerequisite:* Any grade 12 or 40S Mathematics course (50%), or equivalent.

BIOL 1020 Biology 1: Principles and Themes Cr.Hrs.3 (Lab Required) A laboratory-based course in unifying principles of biology including cell biology, bioenergetics, cell division, genetics and evolution. This course is intended for major and honours students in the Biological Sciences. Not to be held with BIOL 1021, BIOL 1000, BIOL 1001 (071.100), BIOE 2590 (034.259), or the former 071.125, 071.123 or 071.201. *Prerequisite:* Biology 40S (or equivalent) or BIOL 1000 (C); and any 40S Mathematics. (Starting in Fall 2010, students will require 40S Biology, 40S Mathematics, and one of 40S Chemistry or 40S Physics). Students who complete BIOL 1000 as the prerequisite for BIOL 1020 will not be allowed to use both BIOL 1000 and BIOL 1020 towards their degree program as the two courses may not be held for credit with one another.

BIOL 1030 Biology 2: Biological Diversity, Function and Interactions Cr.Hrs.3 (Lab Required) A laboratory-based course introducing biological diversity including prokaryotes, protists, fungi, plants and animals; the form and function of plants and animals and basic concepts of ecology. This course is intended for major and honours students in the Biological Sciences. Not to be held with BIOL 1031, BIOL 1010 or BIOL 1011 (071.101), BIOE 2590 (034.259), or the former 071.125, 071.123 or 071.201. *Prerequisite:* BIOL 1020 or BIOL 1021 (C).

NOTE: BIOL 1030 is a *prerequisite* to further courses in Microbiology and to most courses in Biological Sciences. It is also intended for students proceeding to Agricultural and Food Sciences, Dentistry, Human Ecology, Medicine, Optometry, Pharmacy, Veterinary Science, Physical Education and Science.

BIOL 1110 Health and Health Professions Cr.Hrs.3 (Formerly 071.111) Students discuss the inter-relationship between health, health determinants, and the impact that science, health-science, behavioural-social sciences, and technology, have on health care and the health professions. Participants will consider their own role as health care consumers. Open only to students who have completed less than six credit hours. For further information contact University 1.

BIOL 1300 Economic Plants Cr.Hrs.3 (Formerly BOTN 1010, 001.101) A survey of economically important plants and their products. The history of plant use, plants in folklore and medicine, fermentation and viticulture, domestication of plants, and forestry are the major topics covered. Chemical, structural, and nutritional aspects of plant products are also discussed. Not to be held with the former 001.206 or 001.233.

BIOL 1340 The State of the Earth's Environment: Contemporary Issues Cr.Hrs.3 (Formerly 071.134) A presentation of contemporary environmental issues focusing on the scientific basis of problems caused by the growth of human population, use and depletion of resources, pollution, and damage to the environment. The current state of our knowledge bases will be discussed, along with improvements in them that may be necessary. The course will consider needs for action, priorities, and opportunities. May not be used to meet a program requirement of an Honours or Major program in the Biological Sciences. Not to be held with ENVR 1000 (128.100).

BIOL 1410 Anatomy of the Human Body Cr.Hrs.3 (Lab Required) (Formerly ZOO 1320, 022.132) Microanatomy and gross anatomy discussed including changes occurring from conception to old age. Although this course may be used as an elective in an Arts or Science program, it may not be used to meet a program requirement of an Honours or Major program in the Biological Sciences. No *prerequisite*. High school Biology strongly recommended.

BIOL 1412 Physiology of the Human Body Cr.Hrs.3 (Lab Required) (Formerly ZOO 1330, 022.133) Function of all systems discussed with homeostatic regulatory mechanisms as foundation themes. Although this course may be used as an elective in an Arts or Science program, it may not be used to meet a program requirement of an Honours or Major program in the Biological Sciences. Not available to students who have previously obtained credit in, or are currently registered in both of BIOL 2410 (or equivalent - ZOO 2530, ZOO 2531, 022.253) and BIOL 2420 (or equivalent - ZOO 2540, ZOO 2541, 022.254). *Prerequisite:* BIOL 1410 (ZOO 1320, 022.132) (C); or one of BIOL 1030, BIOL 1031, or the former 071.125 (C). This *prerequisite* is waived for students in the Baccalaureate Program for Registered Nurses.

BIOL 2200 The Invertebrates Cr.Hrs.3 (Lab Required) (Formerly ZOO 2600, 022.260) Biology and phylogeny of invertebrates. Emphasis on common taxa and on those groups of particular phylogenetic significance. Not to be held with ZOO 2601. *Prerequisite:* one of BIOL 1030, BIOL 1031, or the former 071.125 (C).

BIOL 2210 The Chordates Cr.Hrs.3 (Lab Required) (Formerly ZOO 2320, 022.232) A study of the origin, evolutionary history and structure of the major groups of Chordates. Provides the foundation for more specialized courses such as Biology of Fishes, Ornithology, and Systematics and Biogeography of Fishes. Not to be held with ZOO 2501 (022.250). *Prerequisite:* one of BIOL 1030, BIOL 1031, or the former 071.125 (C).

BIOL 2240 The Non-Flowering Plants Cr.Hrs.3 (Formerly BOTN 2110, 001.211) An introduction to the mosses and liverworts, ferns and their allies, and conifers, specifically treating their structure, reproduction, identification and ecological significance. Not to be held with the former 001.210. *Prerequisite:* one of BIOL 1030, BIOL 1031, or the former 071.125 (C).

BIOL 2242 The Flowering Plants Cr.Hrs.3 (Lab Required) (Formerly BOTN 2010, 001.201) A study of the structure and function of the flowering plants. Part 1 will focus on vegetative organs at the cellular and tissue levels. Seed germination and seedling physiology will be included. Not to be held with the former 001.230. *Prerequisite:* one of BIOL 1010 (071.101) (B), BIOL 1011 (B), BIOL 1030 (C), BIOL 1031 (C), or the former 071.125 (C).

BIOL 2260 Biology of Fungi and Lichens Cr.Hrs.3 (Lab Required) (Formerly BOTN 2210, 001.221) An introduction to the fungi, both free living and lichenized, with emphasis on the major taxonomic groupings, their organization and structure, their life histories, identification and general economic significance. Not to be held with the former 001.321. *Prerequisite:* one of BIOL 1010 (071.101) (B), BIOL 1011 (B), the former 071.123 (B), BIOL 1030 (C), BIOL 1031 (C), or the former 071.125 (C).

BIOL 2300 Principles of Ecology Cr.Hrs.3 (Lab Required) (Formerly BOTN 2370, 001.237, ZOO 2370, 022.237) Principles of ecology at the individual, population, community, and ecosystems levels. This course is also offered as AGE 2370. It is the normal *prerequisite* to other courses in ecology. Not to be held with BIOL 2390 (BOTN 2280, 001.228, ZOO 2290, 022.229), AGE 2370 (065.237), BOTN 2371, or ZOO 2371. *Prerequisite:* one of BIOL 1030, BIOL 1031, or the former 071.125 (C). *Prerequisite* or concurrent requirement: STAT 1000 or STAT 1001 (005.100) (D).

BIOL 2380 Introductory Toxicology Cr.Hrs.3 (Formerly BOTN 2180, 001.218, ZOO 2180, 022.218) A survey of general principles underlying the effects of toxic substances on biological systems, including consideration of the history, scope and applications of toxicology, the mechanisms of toxic action, and some major types of toxicants. This course is also taught in Environmental Science as ENVR 2180 (128.218), and in Agriculture as AGRI 2180 (065.218). Not to be held with BIOL 2382 (BOTN 2190, ZOO 2190, 001.219, 022.219), ENVR 2190 (128.219), or AGRI 2190 (065.219). *Prerequisites:* one of BIOL 1030, BIOL 1031, or the former 071.125 (C); and one of CHEM 1310, CHEM 1311 (002.131), or CHEM 1320 (002.132) (C).

BIOL 2382 Toxicological Principles Cr.Hrs.1.5 (Formerly BOTN 2190, 001.219, ZOO 2190, 022.219) A survey of general principles underlying the effects of toxic substances on biological systems, including consideration of the history, scope and applications of toxicology, and the mechanisms of toxic action. This course is also taught in Environmental Science as ENVR 2190, and in Agriculture as AGRI 2190. Not to be held with BIOL 2380 (BOTN 2180, 001.218, ZOO 2180, 022.218), ENVR 2180 (128.218), or AGRI 2180 (065.218). *Prerequisites:* one of BIOL 1030, BIOL 1031 or the former 071.125 (C); and one of CHEM 1310, CHEM 1311 (002.131), or CHEM 1320 (002.132) (C).

BIOL 2390 Introductory Ecology Cr.Hrs.3 (Formerly BOTN 2280, 001.228, ZOO 2290, 022.229) The course involves a study of the interrelationships of living organisms (including human) with each other and with their environment. It is not normally acceptable as a *prerequisite* to other courses in ecology. Not to be held with BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371, ZOO 2371, or AGE 2370 (065.237). *Prerequisite:* one of BIOL 1030, BIOL 1031, or the former 071.125 (C).

BIOL 2410 Human Physiology 1 Cr.Hrs.3 (Formerly ZOO 2530, 022.253) The mechanisms of action of the body's major control systems (nervous and endocrine) and of the muscular and reproductive systems are examined. Not to be held with BIOL 3460 (ZOO 3530, 022.353) or ZOO 2531. *Prerequisite:* a "C" or better in one of BIOL 1030, BIOL 1031, the former 071.125, or BIOL 1412 (ZOO 1330, 022.133); or a "C+" or better in both BIOL 1000 (or equivalent - BIOL 1001, 071.100) and BIOL 1010 (or equivalent - BIOL 1011, 071.101).

BIOL 2420 Human Physiology 2 Cr.Hrs.3 (Formerly ZOO 2540, 022.254) An examination of homeostatic regulation by the body's major effector organ systems (cardiovascular, respiratory, digestive, renal, and immune). Not to be held with ZOO 2541. *Prerequisite:* Completion of BIOL 2410 (ZOO 2530, 022.253) (D), or ZOO 2531, or BIOL 3460 (ZOO 3530, 022.353) (D); or consent of department.

BIOL 2440 Human Reproductive Physiology Cr.Hrs.3 (Formerly ZOO 2140, 022.214) This course provides an in-depth understanding of human reproduction with particular emphasis on intrinsic control mechanisms and extrinsic methods of regulation of reproduction. This course also provides the basis for the understanding of alterations from normal mechanisms of reproductive processes. *Prerequisites:* BIOL 1410 (ZOO 1320, 022.132) (C) and BIOL 1412 (ZOO 1330, 022.133) (C); or consent of Department. Check with the Department of Biological Sciences for course availability.

BIOL 2500 Genetics 1 Cr.Hrs.3 (Lab Required) (Formerly BOTN 2460, 001.246) Principles of heredity, gametogenesis and the cytological basis of inheritance in plants and animals. The concepts of dominance and genetic interaction, sex and inheritance, linkage, chromosomal variations, quantitative and population genetics, the genetic code. Not to be held with BOTN 2461, or PLNT 2520 (039.252). *Prerequisite:* one of BIOL 1030, BIOL 1031, or the former 071.125 (C).

BIOL 2520 Cell Biology Cr.Hrs.3 (Formerly ZOO 2280, 022.228) The microscopic and submicroscopic aspects of cellular structure and function are considered with emphasis on the living cell as a dynamic system. Not to be held with ZOO 2281. *Prerequisite:* one of BIOL 1030, BIOL 1031, or the former 071.125 (C).

BIOL 2540 Developmental Biology Cr.Hrs.3 (Formerly ZOO 2150, 022.215) Principles and concepts of developmental biology including gametogenesis, fertilization, early and late development. Cellular, tissue and molecular aspects will be presented utilizing both invertebrate and vertebrate examples. *Prerequisite:* one of BIOL 1030, BIOL 1031, or the former 071.125 (C).

BIOL 3100 Skills in Biological Sciences Cr.Hrs.3 This course will introduce students to the concepts and skills necessary to succeed in a Biology-based career, including: communication skills (scientific writing and oral presentations), critical thinking, strategies for employment and graduate training, familiarization with the range of biological research, and exposure to a variety of Biology-based careers. This course may not be held with the former BOTN 3570 (001.357) or ZOO 3750 (022.375). *Prerequisite:* This course is restricted to Honours and Major students in the Biological Sciences.

BIOL 3200 Advanced Invertebrate Biology Cr.Hrs.3 (Lab Required) (Formerly ZOO 3610, 022.361) Topics of current interest to be presented in lecture series given by staff. Students may undertake approved projects and may present reports and seminars. *Prerequisite:* BIOL 2200 (ZOO 2600, 022.260) or ZOO 2601 (C).

BIOL 3240 Biodiversity: Mosses Cr.Hrs.3 (Lab Required) (Formerly "Bryology" - BOTN 3260, 001.326) The biology, ecology, and evolution of bryophytes. Laboratory will consist of an examination of the diversity of bryophytes using morphological and molecular characters. Check with department for course availability. *Prerequisite:* BIOL 2240 (BOTN 2110, 001.211) (C).

BIOL 3242 Biodiversity: Vascular Flora of Manitoba Cr.Hrs.3 (Lab Required) (Formerly BOTN 3070, 001.307) A survey of the vascular plants of Manitoba emphasizing identification, nomenclature and classification, and including brief accounts of

the distribution and post-glacial history of the main floristic associations within the province. Students must submit a collection of at least 20 different vascular plants identified to species. A guide to the collection should be obtained from the Botany department office in the Spring/Summer prior to commencing the course. *Prerequisite*: BIOL 1010 (or equivalent - BIOL 1011, 071.101) (B); or one of BIOL 1030, BIOL 1031 or the former 071.125 (C).

BIOL 3260 Biology of Algae Cr.Hrs.3 (Lab Required) (Formerly BOTN 2290, 001.229) Lectures and laboratories dealing with the cellular features of major groups of algae and their phylogenetic and adaptive significance. The basics of algal taxonomy are also covered. Not to be held with the former 001.323 or 001.341. *Prerequisite*: one of BIOL 1030, BIOL 1031, or the former 071.125 (C).

BIOL 3270 Introductory Parasitology Cr.Hrs.3 (Lab Required) (Formerly ZOO 3460, 022.346) General course covering major parasitic phyla: namely, Protozoa, Platyhelminthes, Aschelminthes, Acanthocephala, and Arthropoda. Emphasis will be on principles of parasitology. *Prerequisite* or concurrent requirement: BIOL 2200 (ZOO 2600, 022.260) (C), or ZOO 2601, or consent of department.

BIOL 3280 Forest Botany Cr.Hrs.3 (Formerly BOTN 3270, 001.327) An examination of the structure and dynamics of plant communities in forested ecosystems. Topics include forest type classification, physiological and anatomical responses of representative forest species, decomposition and nutrient cycling, disturbance and forest succession. Not to be held with the former 001.402. *Prerequisites*: BIOL 2242 (BOTN 2010, 001.201) (C); and one of BIOL 2300 (BOTN 2370, 001.237, ZOO 2370, 022.237), BOTN 2371, ZOO 2371, or AGE 2370 (065.237) (C); or consent of the department.

BIOL 3290 Medicinal and Hallucinogenic Plants Cr.Hrs.3 (Formerly BOTN 3280, 001.328) A botanical and historical survey of medicinal, hallucinogenic and poisonous plants used in various cultures. *Prerequisite*: a minimum of 30 hours of university credit, or consent of department.

BIOL 3300 Evolutionary Biology Cr.Hrs.3 (Lab Required) (Formerly BOTN 3000, ZOO 3000) Evolution is the ultimate cause of biological diversity. This course introduces the major questions and research methods in evolutionary biology. Topics include evolutionary genetics, adaptation, speciation, and the reconstruction of evolutionary history. Not to be held with the former 022.400. *Prerequisites*: a "C" or better in one of BIOL 2500 (BOTN 2460, 001.246), BOTN 2461, or PLNT 2520 (039.252); and any one of the following with a minimum grade of "C": BIOL 2200 (ZOO 2600, 022.260), BIOL 2210 (ZOO 2320, 022.232), ZOO 2501 (022.250F), BIOL 2240 (BOTN 2110, 001.211), BIOL 2260 (BOTN 2210, 001.221), BIOL 3260 (BOTN 2290, 001.229); or consent of department.

BIOL 3310 Foundations of Population Ecology Cr.Hrs.3 (Lab Required) (Formerly ZOO 3680) The study of living populations, through experimentation and theory, will be examined. Topics investigated will include population regulation, competition, predation, disease, harvest, nonlinear and spatial dynamics and individual based models. Concepts and methods are reinforced through tutorials and evaluated by assignments and examinations. Not to be held with the former 022.348. *Prerequisites*: a "C" or better in one of BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371, ZOO 2371, or AGE 2370 (065.237); and STAT 2000 or STAT 2001 (005.200) (C); or consent of department.

BIOL 3312 Community Ecology Cr.Hrs.3 (Formerly BOTN 3540, 001.354) Lectures and laboratories emphasizing the structure and function of terrestrial biotic communities with emphasis upon selected Manitoba situations. *Prerequisite*: a "C" or better in one of BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371, ZOO 2371, or AGE 2370 (065.237); or consent of department.

BIOL 3314 Field Ecology Cr.Hrs.3 (Formerly BOTN 3420, 001.342, ZOO 3450, 022.345) Problems, techniques and assumptions involved in measuring parameters of biological populations and environmental variables. A field trip will be held prior to the start of classes. Students must register in the department office by August 5. *Prerequisites*: a "C" or better in one of one of BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371, ZOO 2371, or AGE 2370 (065.237); and STAT 2000 or STAT 2001 (005.200) (D).

BIOL 3318 Boreal Ecology Cr.Hrs.3 (Formerly ZOO 3380, 022.338) A survey of ecological factors in the formation, evolution, and survival of northern biota including northern peoples. There will be optional weekend field trips. *Prerequisite*: a "C" or better in one of BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371, ZOO 2371, or AGE 2370 (065.237); or BIOL 2390 (ZOO 2290, 022.229, BOTN 2280, 001.228) (C); or consent of department.

BIOL 3330 Fungal Ecology Cr.Hrs.3 (Lab Required) (Formerly BOTN 3250, 001.325) A description of fungal lifestyles, distribution and distributional dynamics in natural environments. Saprotrophic, biotrophic, and necrotrophic substratum exploitation and the role of fungi in nutrient cycling in various environments are discussed along with the fungal, plant and animal interactions. Topics in applied fungal ecology include: fungi and ecologically disturbed sites, poisonous and hallucinogenic fungi, food and fungi, and medical mycology. *Prerequisite*: BIOL 2260 (BOTN 2210, 001.221) (C) or consent of department.

BIOL 3360 Animal Behaviour Cr.Hrs.3 (Lab Required) (Formerly ZOO 3100, 022.310) An introduction to the study of animal behaviour including key concepts from the parent disciplines of ethology and comparative psychology, the genetic and physiological bases of behaviours, and evolutionary aspects introducing optimality and game theoretical models characteristic of modern behavioural ecology. Laboratory work involves the design and execution of a behavioural project at the Assiniboine Park Zoo. Not to be held with the former 022.343. *Prerequisites*: a "C" or better in one of BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371,

ZOO 2371, or AGE 2370 (065.237); and BIOL 2210 (ZOO 2320, 022.232) (C); or consent of department.

BIOL 3370 Limnology Cr.Hrs.3 (Lab Required) (Formerly ZOO 3500, 022.350) Lectures and laboratories providing an introduction to the physics, chemistry and biology of lakes. *Prerequisite*: a "C" or better in one of BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371, ZOO 2371, or AGE 2370 (065.237).

BIOL 3372 Wetland Ecology Cr.Hrs.3 (Formerly BOTN 3580, 001.358, ZOO 3580, 022.358) Lectures and field exercises examine the biotic (algae, macrophytes, invertebrates, and vertebrates) and abiotic (hydrology, nutrient cycling) properties of Delta Marsh, a prairie lakeshore wetland. Other wetland types, including peatlands, will also be considered in lectures and field trips. The course is offered in Summer Session at the university Field Station (Delta Marsh). *Prerequisite*: a "C" or better in one of BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371, ZOO 2371, or AGE 2370 (065.237); or consent of department.

BIOL 3450 Plant Physiology Cr.Hrs.3 (Lab Required) (Formerly BOTN 2020, 001.202) A study of the structure and function of the flowering plants. Part 2 will focus on photosynthesis, reproduction, and the role of hormonal and extrinsic factors in the regulation of plant development. Not to be held with the former 001.230. *Prerequisite*: BIOL 2242 (BOTN 2010, 001.201) (C).

BIOL 3452 Environmental Plant Physiology Cr.Hrs.3 (Lab Required) (Formerly BOTN 3010, 001.301) An integrated study of the major physiological processes in higher plants, and how these processes influence growth and development of plants in natural ecosystems. Stress responses of plants to water, light and nutrients will be emphasized. Not to be held with PLNT 3500 (039.350), 001.317, or 001.467. *Prerequisite*: BIOL 3450 (BOTN 2020, 001.202) (C); and CHEM 1310 or CHEM 1311 (002.131) (C).

BIOL 3460 Environmental Physiology of Animals I Cr.Hrs.3 (Lab Required) (Formerly ZOO 3530, 022.353) The mechanisms of action of the human body's major control systems (nervous and endocrine) and of the muscular and reproductive systems are presented in lectures. Laboratories explore related subjects in various animals. Not to be held with BIOL 2410 (ZOO 2530, 022.253), ZOO 2531, or the former 022.352. *Prerequisite*: a "C" or better in one of BIOL 1030, BIOL 1031, the former 071.125, or BIOL 1412 (ZOO 1330, 022.133); or a "C+" or better in both BIOL 1000 (or equivalent - BIOL 1001, 071.100) and BIOL 1010 (or equivalent BIOL 1011 - 071.101).

BIOL 3462 Environmental Physiology of Animals II Cr.Hrs.3 (Lab Required) (Formerly ZOO 3540, 022.354) An examination of the environmental challenges confronting animals in aquatic and terrestrial habitats, and the various ways these problems are solved at the cellular and organ system levels. *Prerequisite*: BIOL 2210 (or equivalent - ZOO 2320, 022.232, ZOO 2501) (C) and BIOL 2200 (or equivalent ZOO 2600, 022.260, ZOO 2601) (C); or BIOL 1412 (ZOO 1330, 022.133) or the former 022.123 (C); or BIOL 2410 (or equivalent - ZOO 2530, 022.253, ZOO 2531) (C); or BIOL 3460 (ZOO 3530, 022.353) (C); or consent of department.

BIOL 3500 Genetics 2 Cr.Hrs.3 (Lab Required) (Formerly BOTN 3460, 001.346) The course complements introductory genetics BIOL 2500 (or equivalent - BOTN 2460, 001.246, BOTN 2461) and deals with various aspects of linkage and crossing over, gene function, allelism, mutation and repair, the use of bacteria and viruses as genetic tools, basics of developmental genetics and extra-nuclear inheritance. *Prerequisite*: BIOL 2500 (BOTN 2460, 001.246) (C), or BOTN 2461, or PLNT 2520 (039.252 or 039.209) (C). *Prerequisite* or concurrent requirement: One of CHEM 2370, CHEM 2371 (002.237), MBO 2370, MBO 2371 (060.237), CHEM 2780 (002.278), or MBO 2780 (060.278); or consent of department.

BIOL 3540 Advanced Developmental and Cellular Biology Cr.Hrs.3 (Lab Required) (Formerly ZOO 3070, 022.307) The course focuses on contemporary concepts and approaches in developmental biology, including theoretical and practical aspects. The emphasis is on the laboratory component. *Prerequisite*: BIOL 2540 (ZOO 2150, 022.215) (C); or consent of department.

BIOL 3550 Plant Anatomy Cr.Hrs.3 (Lab Required) (Formerly BOTN 3190, 001.319) A study of the anatomical aspects of the growth and development of plants cells, tissues and organs. Laboratory exercises will complement material. Not to be held with the former 001.316 or 001.403. *Prerequisite*: BIOL 2242 (BOTN 2010, 001.201) (C).

BIOL 3560 Comparative Animal Histology Cr.Hrs.3 (Lab Required) (Formerly ZOO 3060, 022.306) This course focuses on the cell and tissue organization of animals. Cell morphology and specialization, tissue types and a survey of the cellular and tissue organization of all organ systems are covered. The primary focus is on mammals but comparative aspects of other animal groups are also included. Not to be held with the former 022.347. *Prerequisite*: One of BIOL 1030, BIOL 1031, or the former 071.125 (C). Recommended *prerequisite*: one of BIOL 2210 (ZOO 2320, 022.232), ZOO 2501 (022.250), BIOL 2520 (ZOO 2280, 022.228), or ZOO 2281.

BIOL 3980 Work Term 1 Cr.Hrs.0 (Formerly 022.398, 001.398) Work assignment in business, industry, or government for students registered in the Biological Sciences Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

BIOL 3990 Work Term 2 Cr.Hrs.0 (Formerly 022.399, 001.399) Work assignment in business, industry, or government for students registered in the Biological Sciences Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

BIOL 4100 Honours Thesis Cr.Hrs.6 (Formerly BOTN 4600, 001.460, ZOO 4110, 022.411) The student will conduct a research project, chosen in consultation with a

Biological Sciences faculty member acting as an advisor, and produce a thesis in which the project, the results and conclusions are presented. The student will defend the thesis at an oral examination held on completion of the thesis. This course is restricted to final year Honours Biological Science students. Not to be taken concurrently with BIOL 4880 (ZOO 4880, 022.488, BOTN 4880, 001.488).

BIOL 4210 Biology of Fishes Cr.Hrs.3 (Lab Required) (Formerly ZOO 4170, 022.417) Lectures survey organ systems, life history, and the population biology of fishes. The ecological analysis of fish communities is addressed through a field trip and a series of workshops on the analysis of field data. Evaluation is based upon work related to the field trip and examinations based upon the lecture material. Not to be held with the former 022.467. *Prerequisite:* BIOL 2210 (ZOO 2320, 022.232) (C) or ZOO 2501 (022.250) (C).

BIOL 4212 Systematics and Biogeography of Fishes Cr.Hrs.3 (Lab Required) (Formerly ZOO 4220, 022.422) A study of the evolutionary history, interrelationships and distribution patterns of the fish-like vertebrates. Laboratories will cover the identification of the major groups of fish-like vertebrates. Not to be held with the former 022.418 or 022.467. *Prerequisite:* BIOL 2210 (ZOO 2320, 022.232) (C) or ZOO 2501 (022.250) (C); or consent of department.

BIOL 4214 Biology of Amphibians and Reptiles Cr.Hrs.3 (Lab Required) (Formerly ZOO 4230, 022.423) Lectures consider the evolution, biology and adaptations of amphibians and reptiles. Laboratories and student presentations will deal with classification, structure, identification, and methods of field and laboratory study of these animals. Not to be held with the former 022.476. *Prerequisite:* BIOL 2210 (ZOO 2320, 022.232) (C) or ZOO 2501 (022.250) (C); or consent of department.

BIOL 4216 Biology of Birds Cr.Hrs.3 (Lab Required) (Formerly ZOO 4240, 022.424) Biology of birds including: morphology, systematics, evolution, life histories and breeding biology, ecology, migration, and distribution of birds. Not to be held with the former 022.468. *Prerequisite:* BIOL 2210 (ZOO 2320, 022.232) (C) or ZOO 2501 (022.250) (C). *Prerequisite* or concurrent requirement: BIOL 3360 (ZOO 3100).

BIOL 4218 Biology of Mammals Cr.Hrs.3 (Lab Required) (Formerly ZOO 4250, 022.425) Structure, classification, evolution, life histories and distribution of mammals and their relation to human cultures. Techniques of studying mammals. Identification of the mammals of Manitoba. Offered in 2009-2010 and alternate years thereafter. *Prerequisites:* BIOL 2210 (ZOO 2320, 022.232) (C) or ZOO 2501 (022.250) (C); and one of BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371, ZOO 2371, or AGEC 2370 (065.237) (C); or consent of department.

BIOL 4220 Marine Biodiversity Cr.Hrs.3 (Lab Required) (Formerly ZOO 4260) Examines key ecological principles governing the maintenance of marine biodiversity, particularly in northern ecosystems. Topics include the definitions and global patterns of biodiversity and the ecological mechanisms influencing changes in these patterns in the context of applied population, community and ecosystem ecology. The course will also emphasize practical solutions, including fisheries' harvest models and marine protected areas. *Prerequisites:* a "C" or better in one of BIOL 2300 (BOTN 2370, ZOO 2370, 022.237, 001.237), BOTN 2371, ZOO 2371, AGEC 2370 (065.237), or BIOL 2390 (BOTN 2280, ZOO 2290, 001.228, 022.229); or consent of department.

BIOL 4240 Advanced Plant Systematics Cr.Hrs.3 (Lab Required) (Formerly BOTN 4040, 001.404) An examination of biosystematic principles and methods as they relate to all groups of plants. *Prerequisite:* BIOL 3242 (BOTN 3070, 001.307) (C).

BIOL 4242 The Evolution of Plant Structures and Systems Cr.Hrs.3 (Lab Required) (Formerly BOTN 4130, 001.413) A comparative study of the morphological and anatomical characteristics of extant and extinct plants in the context of current evolutionary theory. *Prerequisite:* BIOL 2242 (BOTN 2010, 001.201) (C) or consent of department.

BIOL 4244 Advanced Mycology Cr.Hrs.3 (Lab Required) (Formerly BOTN 4160, 001.416) Emphasis is placed on the taxonomy, morphology and life histories of fungi, especially those that are important as pathogens. Other current topics in mycology will also be examined. *Prerequisite:* BIOL 2260 (BOTN 2210, 001.221) (C); or consent of the department.

BIOL 4246 Lichen Symbioses Cr.Hrs.3 (Lab Required) (Formerly BOTN 4050, 001.405) The biology, diversity, systematics and evaluation of lichens including the molecular biology and coevolution of the algal and fungal symbionts. *Prerequisite:* BIOL 2260 (BOTN 2210, 001.221) (C) or consent of department.

BIOL 4250 Principles of Plant Pathology Cr.Hrs.3 (Lab Required) (Formerly BOTN 4210, 001.421) A study of the interactions of causal agents, environment, and host plants in the development of disease. Special attention will be given to diseases of local and regional significance. Laboratory exercises will illustrate the basic techniques of plant pathology. *Prerequisites:* BIOL 3450 (BOTN 2020, 001.202) (C) and BIOL 2260 (BOTN 2210, 001.221) (C); or consent of department.

BIOL 4260 Experimental Parasitology Cr.Hrs.3 (Lab Required) (Formerly ZOO 4730, 022.473) Principles of parasitology including immunology, ecology, biochemistry, and physiology. Students must carry out an experimental study. *Prerequisite:* BIOL 3270 (ZOO 3460, 022.346) (C).

BIOL 4262 Wildlife and Fisheries Parasitology Cr.Hrs.3 (Lab Required) (Formerly ZOO 4720, 022.472) Parasites of major vertebrate groups of economic importance in temperate regions. Emphasis on: identification, means of control, and how to evaluate the impact of parasites on animal populations. A major project is required. *Prerequisite:* BIOL 3270 (ZOO 3460, 022.346) (C).

BIOL 4310 Applications of Population Ecology in Fisheries and Wildlife Cr.Hrs.3 (Lab Required) (Formerly ZOO 4850) The material introduced in BIOL 3310 (ZOO 3680, 022.348) is developed into the quantitative analyses of field data to form a basis for conservation and management. Topics covered include: surplus harvest models, virtual population analysis, spatial population modeling, bioeconomics, and quantitative adaptive management. Concepts are reinforced through tutorials. *Prerequisite:* BIOL 3310 (ZOO 3680, 022.348).

BIOL 4312 Analysis of Biological Communities Cr.Hrs.3 (Formerly BOTN 4650, 001.465) Methods and approaches to the analysis of biological communities are reviewed. Emphasis is placed on planning the steps of a biological investigation. *Prerequisites:* a "C" or better in one of BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371, ZOO 2371, or AGEC 2370 (065.237); and STAT 2000 or STAT 2001 (005.200) (C).

BIOL 4320 Ecological Methods Cr.Hrs.3 (Lab Required) (Formerly ZOO 4200, 022.420) Methods of collection and analysis of biological and environmental data for estimation of abundance, life history parameters and spatial pattern in single species populations: population dynamics and life history strategies. Not to be held with the former 022.477. *Prerequisites:* BIOL 3310 (ZOO 3680, 022.348) (C); and STAT 2000 or STAT 2001 (005.200) (D); or consent of department.

BIOL 4330 Plant Interactions Cr.Hrs.3 (Formerly BOTN 4150, 001.415) This course examines the ecology of interactions between plants and their biotic environment - other plants, animals and soil microbes. Emphasis is placed on the ecology and evolution of individual and population responses. *Prerequisite:* a "C" or better in one of BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371, ZOO 2371, or AGEC 2370 (065.237).

BIOL 4340 Aquaculture Cr.Hrs.3 (Lab Required) (Formerly ZOO 4820, 022.482) Biology and methods of commercial culture of fish and other aquatic animals. Emphasis on: physiological, nutritional, genetic, pathological and economic aspects and on current and new technologies. *Prerequisite:* STAT 2000 or STAT 2001 (005.200) (D); and consent of instructor.

BIOL 4360 Models for Behavioural Ecology Cr.Hrs.3 (Formerly ZOO 4210, 022.421) Applications of optimization theory and game theory to the understanding of inter- and intraspecific interactions of animals. Models involving foraging, territoriality, animal spatial distributions, and mixed behavioural strategies will be considered. Not to be held with the former 022.487. *Prerequisites:* BIOL 3360 (ZOO 3100, 022.310) or the former 022.343 (C) and BIOL 3310 (ZOO 3680, 022.348) (C); and STAT 2000 or STAT 2001 (005.200) (D) or consent of department.

BIOL 4362 Behavioural Ecology and Cognitive Ethology Cr.Hrs.3 (Lab Required) (Formerly ZOO 4280, 022.428) Examines proximate and ultimate questions relating to mating and parental behaviour, communication, social parasitism and animal intellect to provide insight into the intimate relationship between behavioural evolution and the environment. Laboratory and field exercises complement major topics considered in lectures. Not to be held with the former 022.448. *Prerequisite:* BIOL 3360 (ZOO 3100, 022.310), or the former 022.343 (C); or consent of department.

BIOL 4374 Aquatic Botany Cr.Hrs.3 (Formerly BOTN 4010, 001.401) This course examines the relationship between algae, fungi and macrophytes, and the physical, chemical and biological properties of the aquatic environment. Specific adaptations to life in water, and patterns of distribution and succession in rivers, lakes and wetlands will be covered. *Prerequisite:* a "C" or better in one of BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371, ZOO 2371 or AGEC 2370 (065.237); or consent of department.

BIOL 4380 Environmental Toxicology Cr.Hrs.3 (Lab Required) (Formerly ZOO 4840, 022.484) A survey of the principles governing the dynamics of chemicals in the environment, with emphasis on the biological systems, using case histories of known pollution problems. *Prerequisites:* a "C" or better in one of CHEM 2370, CHEM 2371 (002.237), MBIO 2370, MBIO 2371 (060.237), CHEM 2780 (002.278), or MBIO 2780 (060.278); plus a "C" or better in one of BIOL 2300 (BOTN 2370, ZOO 2370, 001.237, 022.237), BOTN 2371, ZOO 2371, or AGEC 2370 (065.237); plus a "C" or better in one of BIOL 2410 (ZOO 2530, 22.253), ZOO 2531, or BIOL 3460 (ZOO 3530, 022.353); and BIOL 3462 (ZOO 3540, 022.354, or 22.352) (C); or consent of department.

BIOL 4390 Principles of Wildlife Management Cr.Hrs.3 (Lab Required) (Formerly ZOO 4710, 022.471) Introduction to the biological and socioeconomic goals of wildlife management and to the basic techniques of wildlife management in terms of these goals. There will be four or five field trips. Some weekend field trips may be required. *Prerequisite:* BIOL 3310 (ZOO 3680, 022.348) (C); or consent of department.

BIOL 4430 Advanced Plant Stress Physiology Cr.Hrs.3 (Lab Required) (Formerly BOTN 4120, 001.412) Selected topics on plant responses to environmental stress at the physiological and biochemical levels. Laboratory will consist of supervised projects in the above areas. *Prerequisites:* one of BIOL 3452 (BOTN 3010, 001.301), the former 001.317 (C), or PLNT 3500 (039.350); and CHEM 2210 or CHEM 2211 (002.221) (C); and one of CHEM 2370, CHEM 2371 (002.237), MBIO 2370, MBIO 2371 (060.237) (C), CHEM 2780 (002.278), or MBIO 2780 (060.278) (C).

BIOL 4460 Comparative Animal Energetics Cr.Hrs.3 (Lab Required) (Formerly ZOO 4830, 022.483) Energetic strategies of animals living in ecologically diverse environments. Integration of physiological, morphological and behavioural adaptations with an emphasis on vertebrate species. *Prerequisites:* BIOL 2210 (ZOO 2320, 022.232) (C) or ZOO 2501 (022.250) (C); and one of BIOL 2410 (ZOO 2530, 022.253) (C), ZOO 2531, BIOL 3460 (ZOO 3530, 022.353) (C), or BIOL 3462 (ZOO 3540, 022.354) (C); or consent of department.

BIOL 4470 Sensory-Motor Physiology Cr.Hrs.3 (Lab Required) (Formerly ZOO 4160, 022.416) Information flow in the nervous system and the control of behaviour. The diverse roles that ion channels and synaptic circuitry play in sensory reception, neuronal integration and motor control are emphasized. *Prerequisite:* a "C" or better in one of BIOL 2410 (ZOO 2530, 022.253, ZOO 2531), BIOL 3460 (ZOO 3530, 022.353), the former 022.245, 022.337, or 022.352; or consent of department.

BIOL 4480 Comparative Endocrinology Cr.Hrs.3 (Lab Required) (Formerly ZOO 4600, 022.460) The structure, control, and function of vertebrate endocrine systems. BIOL 2520 (or equivalent - ZOO 2280, 022.228, ZOO 2281), and one of BIOL 2410 (or equivalent - ZOO 2530, 022.253, ZOO 2531), BIOL 3460 (ZOO 3530, 022.353) or the former 022.245 or 022.352, and a course in biochemistry are strongly recommended as prerequisites. *Prerequisite:* one of BIOL 1030, BIOL 1031, or the former 071.125 (C).

BIOL 4500 Molecular Genetics of Plant Development Cr.Hrs.3 (Formerly BOTN 4180, 001.418) Analysis of plant development at the molecular level. Recent advances in model system genetics will be highlighted including seedling, root, shoot, and flower development as well as environmental responses. *Prerequisite:* BIOL 2500 (BOTN 2460, 001.246) or BOTN 2461 (C).

BIOL 4540 Developmental Molecular Biology Cr.Hrs.3 (Lab Required) (Formerly ZOO 4150, 022.415) An examination of early development with emphasis on the molecular events. Sex determination, gametogenesis and early embryogenesis will be discussed. *Prerequisite:* BIOL 2540 (ZOO 2150, 022.215) (C); or consent of department.

BIOL 4542 Genes and Development Cr.Hrs.3 (Formerly ZOO 4270, 022.427) An in depth examination of selected topics in embryonic development, emphasizing the genetic control of the cell and molecular mechanisms that direct embryogenesis. The course will focus primarily on vertebrate development, but insights provided by studies on invertebrates will also be covered. *Prerequisites:* BIOL 2520 (ZOO 2280, 022.228) or ZOO 2281(C); and BIOL 2540 (ZOO 2150, 022.215) (C); or consent of department.

BIOL 4550 Molecular Biology for Plants and Fungi Cr.Hrs.3 (Lab Required) (Formerly BOTN 4460) Basic molecular biology techniques for the collection, preservation, and analysis of DNA and RNA in a wide variety of organisms with an emphasis on plants and fungi. Extraction, amplification, diagnostic, recombinant DNA theory, bioinformatics, and interpretation of biological data focusing on trouble-shooting and hands-on experience in the laboratory. Not to be held with BOTN 7460 (001.742 or 001.746). Restricted to Honours students or with consent of department.

BIOL 4560 Microtechnique Cr.Hrs.3 (Lab Required) (Formerly ZOO 4140, 022.414) This course deals with a spectrum of animal tissue preparation techniques and microscopy. These span a survey of all types of microscopes, live cell and tissue methods, fixation and tissue processing for paraffin and plastic tissue embedding, histo- and immunocyto-chemistry, electron microscopy, video and image processing microscopy. This is a practical course with a major emphasis on the laboratory portion. *Prerequisite:* One of BIOL 1030, BIOL 1031, or the former 071.125 (C).

BIOL 4610 The Business of Biotechnology Cr.Hrs.3 A critical examination of Biotechnology development and marketing. Lectures, tutorials and workshops providing in-depth study of topics including the legal, business, marketing, industrial and governmental, and scientific and ethical aspects of the biotechnology industry and, "for profit" science. *Prerequisites:* PLNT 2530 (C+), MBIO 3000 (C+), and MBIO 3410 (or equivalent - MBIO 3411) (C+). BIOL 2500 (or equivalent - BOTN 2460, BOTN 2461, 001.246), BIOL 2520 (or equivalent - ZOO 2280, ZOO 2281, 022.228) and CHEM 3590 (002.359) are highly recommended.

BIOL 4800 Special Topics in Field Biology Cr.Hrs.3 (Formerly BOTN 4800, 001.480, ZOO 4800, 022.480) Lectures, field studies and research projects on a selected topic. Course content to vary from year to year depending on instructor. Usually offered during the summer months. *Prerequisite:* Consent of Department.

BIOL 4880 Analysis of Ecological Problems Cr.Hrs.3 (Formerly BOTN 4880, 001.488, ZOO 4880, 022.488) Teams of students will analyze emerging regional ecological problems and present results or solutions in a written report and oral presentation. Due to advance preparation necessary for this course, students will not be permitted to register after October 31. Not to be taken concurrently with BIOL 4100 (BOTN 4600 or ZOO 4110). *Prerequisites:* BIOL 3314 (BOTN 3420, 001.342, ZOO 3450, 022.345) (C); and BIOL 3312 (BOTN 3540, 001.354) (C); and BIOL 3310 (ZOO 3680) or the former 022.348 (C); and BIOL 3100 (BOTN 3570, 001.357, ZOO 3750, 022.375) (C); and eligibility for graduation in the current academic year.

BIOL 4890 Special Topics in Biology Cr.Hrs.3 (Formerly BOTN 4890, 001.489, ZOO 4890, 022.489) Biology encompasses a broad array of ideas and special topic areas. In this course, students can pursue a specific topic in detail through lectures, seminars and research projects. Normally restricted to third and fourth year Honours and Major students. *Prerequisite:* Consent of department.

BIOL 4980 Work Term 3 Cr.Hrs.0 (Formerly BOTN 4980, 001.498, ZOO 4980, 022.498) Work assignment in business, industry, or government for students registered in the Biological Sciences Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only)

BIOL 4990 Work Term 4 Cr.Hrs.0 (Formerly BOTN 4990, 001.499, ZOO 4990, 022.499) Work assignment in business, industry, or government for students registered in the Biological Sciences Cooperative Option. Requires submission of a written

report covering the work completed during the four-month professional assignment. (Pass/Fail grade only)

5.4.1 Program Information

Biotechnology Honours Degree Requirements

The requirements for entry to the joint Honours program are a Degree GPA (DGPA) of not less than 2.5 on all courses completed at the end of Year 1 (minimum 24 credit hours). Also students must have a minimum grade of B in BIOL 1030 and CHEM 1310 and a minimum grade of C+ in BIOL 1020, CHEM 1300, MATH 1500, PHYS 1020 (or PHYS 1050), and STAT 1000. Six credit hours of Arts electives, including the written English course should also be taken in Year 1.

Students will select one stream (Analytical, Environmental/Biosystems or Molecular Biotechnology). Students are also encouraged to select a Minor in a complementary area. There are enough free electives to cover the 18 credit hours required for a Minor. All students must complete a Common Core of required courses plus required Stream Specific courses. The remaining courses can be selected from the list of Recommended Electives. This list is meant to give students some idea of appropriate electives; however, students have the option to choose courses not on the list in consultation with the Program Advisors.

To continue in the Honours program, i.e., to proceed from Year 2 to Year 3 and from Year 3 to Year 4, and to successfully complete Year 4 of the Honours program, a student must maintain a minimum DGPA of 3.00 and a achieve a minimum grade of "B" on all Common Core Courses, a minimum grade of "C+" on all Stream Specific Courses, and a minimum grade of C on all electives courses. Students must complete a minimum of nine credit hours per term to continue in Honours. No more than 15 credit hours of F grades may be accumulated, regardless of whether any course has been repeated and a higher grade achieved. Research Project in Biotechnology (BTEC 4000) must be taken in the final year of the program. A minimum DGPA of 3.00 on a minimum of 120 credit hours is required for graduation. Students who do not meet these minimum requirements will be required to withdraw from the program and will normally be eligible to enter the 3 Year General B. Sc Program or the 4 year Biotechnology Major Program (pending COPSE approval). Depending on course selection students may also be eligible to enter other Major Programs (e.g. Biochemistry, Biological Sciences, Chemistry, or Microbiology).

Honours Program Common Core Courses

BIOL 2500 (BOTN 2460), BIOL 2520 (ZOO 2280), CHEM 2210, CHEM 2220, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370), MBIO 2100, CHEM 2470, PLNT 2530, MBIO 3000, MBIO 3410, CHEM 3590, BIOL 4610, BTEC 4000 (6), BIOL 4560 (ZOO 4140), CHEM 4630, MBIO 4510, PLNT 4610

Stream Specific Courses

Analytical Biotechnology Stream Specific Courses:

MATH 1700, CHEM 4370, CHEM 4590, CHEM 4670, CHEM 4700

Environmental (Biosystems) Biotechnology Stream Specific Courses:

MATH 1700, BIOE 3530, BIOE 3200, BIOE 4510, MBIO 4672

Molecular Biotechnology Stream Specific Courses:

MBIO 2110, BIOL 4550 (BOTN 4460), MBIO 4600, MBIO 4672, MBIO 4610

Note: In some instances pre-requisites will be waived upon approval by the appropriate department.

Complementary Existing Minors that could satisfy the Recommended Electives (Minors require 18 cr hrs of prescribed courses):

Management, Animal Systems, Food Science, Plant Biotechnology, or Human Nutrition and Metabolism

Recommended General Electives if not required in Program stream:

All courses in above described Minors.

Appropriate pre-requisites must also be taken for all Electives.

BIOE 3200, BIOE 3530, BIOE 4510, BIOL 1300 (BOTN 1010), BIOL 2242 (BOTN 2010), BIOL 2380 (BOTN/ZOOL 2180), BIOL 2260 (BOTN 2210), BIOL 2300 (BOTN/ZOOL 2370), BIOL 3550 (BOTN 3190), BIOL 3290 (BOTN 3280), BIOL 3500 (BOTN 3460), BIOL 4500 (BOTN 4180), BIOL 4550 (BOTN 4460), BIOL 2540 (ZOO 2150), BIOL 3540 (ZOO 3070), BIOL 4540 (ZOO 4150), CHEM 4360, CHEM 4370, CHEM 4590, CHEM 4620, CHEM 4670, CHEM 4700, COMP 1010, COMP 1020, COMP 1260, COMP 1270, ENG 1420, ENTR 2020, MATH 1700, MBI 2110,

MBIO 2280, MBIO 3010, MBIO 3430, MBIO 3440, MBIO 3450, MBIO 3460, MBIO 3470, MBIO 3480, MBIO 4010, MBIO 4410, MBIO 4470, MBIO 4510, MBIO 4600, MBIO 4610, MBIO 4672, PHAC 4030, PHAC 4040, PHIL 2740, PHIL 2830, PLNT 3140, PLNT 3500, PLNT 3520, PLNT 3570, PLNT 4330, PLNT 4540, PLNT 4550, PLNT 4560, PLNT 4570, PLNT 4580, PLNT 4590, PLNT 4600, STAT 2000

Other suitable courses may be selected through consultation with the department heads.

5.4.2 Biotechnology - Joint Microbiology – Chemistry Programs

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
JOINT HONOURS 120 credit hours (comprising courses listed in chart below, and electives)

NOTES:

MATH 1510 or 1520 may be used in place of MATH 1500; MATH 1710 may be used in place of MATH 1700.
Program stream courses requirements can be found below.

Program Stream courses:

Analytical Biotechnology

MATH 1700, CHEM 4370, CHEM 4590, CHEM 4670, CHEM 4700

Environmental Biotechnology

MATH 1700, BIOE 3200, BIOE 3530, BIOE 4510, MBIO 4672

Molecular Biotechnology

MBIO 2110, BIOL 4550 (BOTN 4460), MBIO 4600, MBIO 4610, MBIO 4672

5.4.3 Biotechnology Course Descriptions

BTEC 4000 Research Project in Biotechnology Cr.Hrs. 6 (Lab Required) Students can carry out independent biotechnology based research in their area of interest under the supervision of a faculty member or an approved external biotechnology professional. Results will be presented as an interim oral report and a written journal style paper. Registration restricted to Year 4 Honours Biotechnology students. Not to be held with any other Research Project courses such as MBIO 4530 or CHEM 4710.

BTEC 3980 Work Term 1 Cr. Hrs. 0 Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

BTEC 3990 Work Term 2 Cr. Hrs. 0 Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

BTEC 4980 Work Term 3 Cr.Hrs.0 Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

BTEC 4990 Work Term 4 Cr.Hrs.0 Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

5.5.1 Academic Staff

Professors Emeriti

Gesser, H.D., B.Sc. (Loyola), Ph.D. (McGill); **Jamieson**, J.C., B.Sc. (Heriot Watt), Ph.D. (Aberdeen).

Senior Scholars

Chow, A., B.Sc., M.A., Ph.D. (Toronto); **Hruska**, F.E., B.Sc.(Hons.), M.Sc., Ph.D. (Manitoba); **Kruczynski**, L., B.Sc. (Hons.), Ph.D. (Manitoba); **Queen**, A., B.Sc. (Hons.), M.Sc., Ph.D. (Durham); **Westmore**, J.B., B.Sc.(Hons.), Ph.D. (London).

Professors

Duckworth, H.W., B.Sc. (Hons.) (McMaster), Ph.D. (Yale); **Freund**, M.S., B.S. (Florida Atlantic), Ph.D. (Florida), *Canada Research Chair in Conducting Polymers and Electronic Materials*; **Gough**, K.M., B.Sc. (Hons.) (Loyola), M.Sc., Ph.D. (Manitoba); **Hultin**, P.G., A.B. (Dartmouth), M.Sc., Ph.D. (Toronto); **Hunter**, N.R., B.Sc., M.Sc. (Carleton), Ph.D. (New Brunswick); **O'Neil**, J.D.J., B.Sc., Ph.D. (Toronto); **Perreault**, H., B.Sc., M.Sc. (Montreal), Ph.D. (Dalhousie), *Canada Research Chair in Bioanalytical Mass Spectrometry*.

Associate Professors

Bieringer, M., Dipl.-Chem. (Duisburg), Ph.D. (McMaster); **Budzelaar**, P., B.Sc., M.Sc., Ph.D. (Utrecht); **Cullen**, J.M., B.Sc., M.Sc. (Windsor), M.Sc., Ph.D. (Guelph); **Hegmann**, T., M.Sc., Ph.D. (Martin-Luther-University); **Kroeker**, S., B.Sc. (Winnipeg), M.Sc. (Manitoba), Ph.D. (Dalhousie); **Schreckenbach**, H.G., Dipl.-Phys. (Technische Universität Dresden), Ph.D. (Calgary); **Schweizer**, F., Dipl.-Chem. (Freiburg), Ph.D. (Alberta); **Stetefeld**, J. Dipl.-Chem. (Leipzig), Ph.D. (Max-Planck-Institut) *Canada Research Chair in Structural Biology*; **Wang**, F., B.S. (Wuhan), Ph.D. (Peking).

Assistant Professors

Khajepour, M., B.Sc. (Sharif), Ph.D. (Missouri); **McKenna**, S.A., B.Sc. (Queen's), Ph.D. (Alberta); **Sorensen**, J.L., B.Sc., M.Sc. (Saskatchewan), Ph.D. (Alberta); **van Wijngaarden**, J.A., B.Sc. (Hons.), (Western), Ph.D. (Alberta).

Instructors

Bartels, C., B.Sc. (McGill), Ph.D. (Simon Fraser) (Instructor II); **Gauvin**, F., B.Sc. (Sherbrooke), M.Sc. (Laval), Ph.D. (McGill) (Instructor II); **Koczanski**, K., B.Sc. (Winnipeg), M.Sc. (Manitoba) (Instructor II); **Luong**, H., B.Sc. (Hons. Dalhousie), Ph.D. (Victoria) (Instructor II); **Scoot**, A., B.Sc.(Hons.) (Newcastle, UK), M.Sc., Ph.D. (Saskatchewan) (Senior Instructor); **Smirnova**, E., Ph.D. (Moscow State) (Senior Instructor); **Xidos**, J., B.Sc., Ph.D. (Memorial) (Instructor II).

5.5.2 Program Information

Chemistry is the science concerned with the properties of atoms and molecules, of which all matter is composed. Chemistry is important for all aspects of the material world - food production; the manufacture of medicines, textiles, and plastics; energy production; identifying environmental problems and remedies; and understanding the workings of living organisms. The department offers study in analytical, inorganic, organic and physical chemistry, and in biochemistry.

Chemistry Club: The Chemistry Club is the University of Manitoba Student Chapter of the Chemical Institute of Canada. The aim of the organization is to advance interest in chemistry. All students engaged in chemical studies are eligible for membership in the chapter and are encouraged to apply. Regular meetings, tours, publications, etc., are planned by each year's membership.

Scholarships and Awards: Several scholarships and awards are granted each year to Honours and Major students in Chemistry, Biochemistry, and Biotechnology on the basis of outstanding academic performance. To be eligible for these awards for any regular session, students are normally required to have completed a full program with a minimum of 18 credit hours of Chemistry in that session. They must also be registered for a full program with a minimum of 18 credit hours of Chemistry in the next reg-

ular session. Additional information is available from the Chemistry general office.

The department must approve a student's Honour or Major program each session. Students must also obtain departmental approval for any and all revisions to their program.

Honours Requirements

To enter the Honours program in Chemistry, students must have CHEM 1300 (B) and CHEM 1310 (B); PHYS 1050 (C) or PHYS 1020 (C+); MATH 1500 (C) and MATH 1700 or any equivalent with a grade of "C"; and have satisfied all faculty requirements for entry to the Honours program. If not taken prior to entrance, PHYS 1070 must be taken at the first opportunity after entering the program.

To continue in and graduate from the Honours program, i.e., to proceed from Year 2 to Year 3 and from Year 3 to Year 4 and successfully complete Year 4 of the Honours program, a student must have a Degree Grade Point Average of 3.00 and in addition, must have a 3.00 average on all Chemistry courses during that term, and a grade of "C+" or better in each Chemistry course. Students must complete 9 credit hours in each Fall and Winter Term. To graduate with the Honours degree, a student must also have a minimum grade of "C" in all remaining courses that contribute to the degree.

Honours Cooperative Option

Students interested in alternating academic terms and terms of paid employment as part of their Honours Chemistry program may enter the Cooperative Option in their third year in Honours Chemistry. This program provides students with a minimum of 12 months of paid employment by the time they graduate. It enables them to obtain work experience in research and industry with participating firms, government agencies and university units.

The course and grade requirements for entry to this option are the same as those required for entry to the regular Honours program, as indicated in the chart. Students are required to complete 24 credit hours of Chemistry (including CHEM 2470 and either CHEM 2280 or CHEM 2290) before they begin their first employment term. Students should refer to the general faculty regulations for B.Sc. (Honours) Cooperative Options in Section 3.6.

Students should note that the grade requirements for the Cooperative Option are the same as that for the regular Honours program. To continue in and graduate from the Honours Cooperative program (e.g. to proceed from Year 2 to Year 3), a student must have a Degree Grade Point Average of 3.00 and in addition, must have a 3.00 average on all Chemistry courses during that session and a grade of "C+" or better in each Chemistry course. Each academic term in the third and subsequent years must comprise a minimum of 9 credit hours. To graduate with the Honours degree (Cooperative Option), a student must also have a minimum grade of "C" in all remaining courses that contribute to the degree.

Students will apply for openings in the Cooperative Option in September of their third year in the Honours program. They will be notified of their provisional acceptance in the program by October. Acceptance into the program is dependent upon the student receiving an employment placement. Employment term positions available to the students will be approved by the department, and the employers will select the students they wish to employ. The first work term can be taken in January or May. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

Students are required to register in and pay fees for each employment term prior to the commencement of each employment term. Students will be required to submit an employment report upon the completion of each employment term.

Four Year Major Requirements

To enter the four year Major in Chemistry, students must have CHEM 1300 (C+) and CHEM 1310 (C+); PHYS 1050(C) or PHYS 1020 (B); MATH 1500 and MATH 1700 or any equivalent and have satisfied all faculty requirements for entry to the four year Major program. If not taken prior to entrance, PHYS 1070 must be completed at the first opportunity after entering the program.

To continue in the Major program, a student must have a Cumulative Grade Point Average of 2.00 at each point of assessment. To graduate with the Major degree, students must present a grade of "C" or better on the 54

credit hours of Chemistry required in the degree and a Degree Grade Point Average of 2.00.

Students who, at the end of University 1, are undecided between the four year Major and Honours programs should note that the prescription for Honours Year 2 satisfies both the Honours and Major programs.

Major Cooperative Option

Students interested in alternating employment terms and academic terms as part of their Major Chemistry program may enter the Cooperative Option in their third year in Chemistry. This program provides students with a minimum of 12 months of paid employment by the time they graduate. It enables them to obtain work experience in research and industry with participating firms, government agencies and University units.

The course and grade requirements for entry to this option are the same as those required for entry to the regular Major program. Students are required to complete 24 credit hours of Chemistry (including CHEM 2470 and either CHEM 2280 or CHEM 2290) before they begin their first employment term. To continue in the Major program, a student must have a Cumulative Grade Point Average of 2.00 at each point of assessment. To graduate with the Major degree (Cooperative Option), students must present a grade of "C" or better on the 54 credit hours of Chemistry required in the degree and a Degree Grade Point Average of 2.00. See the general faculty regulations for B.Sc. (Major) Cooperative Option in Section 3.4.

Students will apply for openings in the Cooperative Option in September of their third year in the Major program. They will be notified of their provisional acceptance in the program by October. Acceptance into the program is dependent upon the student receiving an employment placement. Employment term positions available to the students will be approved by the department, and the employers will select the students they wish to employ. The first work term can be taken in January or May. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

Students are required to register in and pay fees for each employment term prior to the commencement of each employment term. Students will be required to submit an employment report upon the completion of each employment term.

Chemistry Program Focus Areas

Students may elect to take courses that, in combination, make up a Chemistry focus area. Currently, there are four Chemistry focus areas. They are: Biopharmaceutical Chemistry, Environmental Chemistry, Bioanalytical Chemistry, and Materials Science. Each focus area has specific course requirements that students must satisfy in order to graduate and receive the focus area notation on their transcripts. Other focus areas may be selected with approval from the Department Head. Students must consult with the Department of Chemistry and/or a Faculty of Science Student Advisor for information about the specific course requirements for each of the different focus areas.

Three Year General Requirements

As prescribed with all other faculty regulations in Section 3.2, students in this program must select 18 credit hours of 2000, 3000, and (or) 4000 level courses from each of **two** Science areas. To satisfy the requirement in the area of Chemistry, students must select a minimum of 18 credit hours from the following list of advanced level courses: CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2360, CHEM 2370, CHEM 2380, CHEM 2470, CHEM 3360, CHEM 3370, CHEM 3380, CHEM 3390, CHEM 3580, CHEM 3590, CHEM 4360, CHEM 4370, CHEM 4570, CHEM 4580, CHEM 4590, CHEM 4620, CHEM 4630, CHEM 4640, CHEM 4670, CHEM 4680, CHEM 4690 (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level.).

Courses **not allowed** for use as advanced level courses in the 3-Year General Degree are: CHEM 2240, CHEM 2550, CHEM 2560, CHEM 2770, CHEM 2780, CHEM 2860, CHEM 4550, CHEM 4600, CHEM 4650, CHEM 4700, and CHEM 4710.

Biochemistry and Biotechnology Programs

The Department of Chemistry, in conjunction with the Department of Microbiology, offers a Joint Honours program, a Joint Honours Cooperative Option, a Joint four year Major program and a Joint four year Major Cooperative Option program in Biochemistry. See Section 5.2 *Biochemistry Program* for full details. The two departments also offer a Joint Honours program in Biotechnology. See Section 5.4 *Biotechnology Program* for full details.

5.5.3 Chemistry

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
HONOURS^{2,4} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)			
CHEM 1300(B), CHEM 1310(B), PHYS 1050(C) (or PHYS 1020(C+)) and PHYS 1070(C), MATH 1500 ¹ (C), MATH 1700(C) ¹	CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2380, CHEM 2470, CHEM 2860 (CHEM 2360) Plus 3 credit hours from Mathematics, Statistics or Computer Science courses ³	CHEM 3380, CHEM 3590	CHEM 4600 and CHEM 4710 (6)
In University 1 or Year 2 the following must be completed: 6 credit hours from the Faculty of Arts, which should include the required "W" course.		Sufficient credit hours (18) from the 2000, 3000 and 4000 level Chemistry ⁴ courses not yet taken to total a minimum of 60 credit hours. These credit hours may make up part of a focus area. Plus a maximum of 9 credit hours of non-Chemistry courses which are part of a designated focus area ⁴ . If no Focus Area is selected, students must choose 9 credit hours of Chemistry courses.	
30 Hours	30 Hours	30 Hours	30 Hours
HONOURS COOPERATIVE OPTION^{2,4} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)			
CHEM 1300(B), CHEM 1310(B), PHYS 1050(C) (or PHYS 1020(C+)) and PHYS 1070(C) MATH 1500 ¹ (C), MATH 1700(C) ^{1,2} Plus 6 credit hours of electives	CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2380, CHEM 2470, CHEM 2860 (CHEM 2360) Plus 3 credit hours from Mathematics, Statistics or Computer Science courses ³	CHEM 3380, CHEM 3590 CHEM 3980, CHEM 3990	CHEM 4600, CHEM 4710 CHEM 4980 and/or CHEM 4990

In University 1 or Year 2 the following must be completed:
6 credit hours from the Faculty of Arts, which should include the required "W" course.

Sufficient credit hours (18) from the 2000, 3000 and 4000 level Chemistry⁴ courses not yet taken to total a minimum of 60 credit hours. These credit hours may make up part of a focus area.

Plus a maximum of 9 credit hours of non-Chemistry courses which are part of a designated focus area⁴. If no Focus Area is selected, students must choose 9 credit hours of Chemistry courses.

30 Hours

30 Hours

30 Hours

30 Hours

MAJOR^{2,4,5} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

CHEM 1300(C+), CHEM 1310(C+), PHYS 1050 (or PHYS 1020) and PHYS 1070, MATH 1500¹, MATH 1700¹

CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2380, CHEM 2470, CHEM 2860 (CHEM 2360)

CHEM 3380, CHEM 3590

CHEM 4600

Plus 3 credit hours from Mathematics, Statistics or Computer Science courses³

In University 1 or Year 2 the following must be completed:
6 credit hours from the Faculty of Arts, which should include the required "W" course.

Sufficient credit hours (18) from the 2000, 3000 and 4000 level Chemistry⁴ courses not yet taken to total a minimum of 54 credit hours. These credit hours may make up part of a focus area.

Plus a maximum of 9 credit hours of non-Chemistry courses which are part of a designated focus area⁴. If no Focus Area is selected, students must choose 9 credit hours of Chemistry courses.

MAJOR COOPERATIVE OPTION^{2,4,5} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

CHEM 1300(C+), CHEM 1310(C+), PHYS 1050 (or PHYS 1020) and PHYS 1070, MATH 1500¹, MATH 1700¹

CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2380, CHEM 2470, CHEM 2860 (CHEM 2360)

CHEM 3380, CHEM 3590

CHEM 4600

CHEM 3980, CHEM 3990

CHEM 4980 and/or CHEM 4990

Plus 3 credit hours from Mathematics, Statistics or Computer Science courses³

In University 1 or Year 2 the following must be completed:
6 credit hours from the Faculty of Arts, which should include the required "W" course.

Sufficient credit hours (18) from the 2000, 3000 and 4000 level Chemistry⁴ courses not yet taken to total a minimum of 54 credit hours. These credit hours may make up part of a focus area.

Plus a maximum of 9 credit hours of non-Chemistry courses which are part of a designated focus area⁴. If no Focus Area is selected, students must choose 9 credit hours of Chemistry courses.

THREE YEAR GENERAL

CHEM 1300(C) and CHEM 1310(C)

a minimum of 18 credit hours from the following list of advanced level courses: CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2360, CHEM 2370, CHEM 2380, CHEM 2470, CHEM 3360, CHEM 3370, CHEM 3380, CHEM 3390, CHEM 3580, CHEM 3590, CHEM 4360, CHEM 4370, CHEM 4570, CHEM 4580, CHEM 4590, CHEM 4620, CHEM 4630, CHEM 4640, CHEM 4670, CHEM 4680, CHEM 4690 (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level.).

MINOR

CHEM 1300(C) and CHEM 1310(C)

Normally CHEM 2210 and CHEM 2220, plus an additional 6 credit hours

Biochemistry - Joint Microbiology-Chemistry Programs: See Section 5.2 Biochemistry Program

Biotechnology - Joint Microbiology-Chemistry Program: See Section 5.4 Biotechnology Program

5.5.4 Chemistry - Physics Joint Honours Program

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
JOINT HONOURS² 120 CREDIT HOURS (comprising courses listed in chart below, and electives)			
CHEM 1300(B), CHEM 1310(B), PHYS 1050(B) (or PHYS 1020(B+)) and PHYS 1070(B), MATH 1500 ¹ (B), MATH 1700 ¹ (B) Plus 6 credit hours of electives Plus 6 credit hours from the Faculty of Arts, which should include the required "W" course	CHEM 2210, CHEM 2220, CHEM 2280, CHEM 2290, CHEM 2380 or CHEM 2470, PHYS 2390, PHYS 2380, PHYS 2490, PHYS 2600, PHYS 2650	12 credit hours from whichever of CHEM 2380 or 2470 not taken and any of CHEM 2860 (CHEM 2360 / MBO 2360), CHEM 2370 (MBO 2370) or 3000 or 4000 level Chemistry courses PHYS 2260, PHYS 2610, PHYS 3380, PHYS 3630, PHYS 3670, PHYS 3680	CHEM 4600 CHEM 4710 or both PHYS 4672 and PHYS 4674 PHYS 4390 Plus 6 credit hours from 3000 or 4000 level Physics courses Plus 3 credit hours from 3000 or 4000 level Chemistry courses Plus 9 credit hours of electives
30 Hours	30 Hours	30 Hours	30 Hours

NOTES:

¹ MATH 1510 or MATH 1520 may be taken in place of MATH 1500; MATH 1310 may be taken in place of MATH 1300; MATH 1710 may be taken in place of MATH 1700; MATH 1690 may be taken in place of MATH 1500 and MATH 1700.

² The courses required in this program will satisfy the university mathematics requirement

³ MATH 1010, MATH 1020, MATH 1190, MATH 1191, COMP 1260 and COMP 1270 may not be used to satisfy this requirement.

⁴ Students may elect to complete the requirements set out in one of the Chemistry focus areas. If a student opts for one of the focus areas, they should consult with the Department of Chemistry and a Science Student Advisor for information regarding specific course requirements for each focus area.

⁵ IMPORTANT: The four year Major program need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

(Letters in brackets indicate minimum prerequisite standing for further study.)

5.5.5 Chemistry Course Descriptions

NOTE: To fulfil prerequisite requirements, a grade of "C" must be achieved, unless otherwise stated, in any Chemistry course stipulated as a prerequisite to a further course in Chemistry.

CHEM 0900 Preparatory Chemistry Cr.Hrs.0 (Formerly 002.090) A course designed for students with little, or no, background in chemistry who wish to achieve the prerequisites for advanced courses, or for students who require a refresher course in basic chemistry. Concurrent registration in CHEM 0900 and any of CHEM 1300, CHEM 1301, CHEM 1311 or CHEM 1320 is not permitted. (Pass/Fail grade only). *Prerequisite or Concurrent Requirement:* Any grade 12 or 40S Mathematics course or equivalent.

CHEM 1000 Understanding the World through Chemistry Cr.Hrs.3 (Formerly 002.100) This course introduces students to the principles of chemistry necessary for an understanding of contemporary issues in agriculture, the environment, industry, medicine, and the economy. High school chemistry is not required. May be used as a *prerequisite* (minimum grade "B") for CHEM 1300 or CHEM 1301 (Developmental section). Not to be held with CHEM 1001 or the former 002.125. May not be used to fulfill chemistry requirements in a Chemistry Honours, Major, General or Minor program. Not available to students who have previously obtained credit in, or are concurrently registered in, any 2000 level university Chemistry course.

CHEM 1030 Carbon Chemistry in Nature and Society Cr.Hrs.3 (Formerly 002.103) This course introduces organic molecules and illustrates the principles of organic chemistry with topics from cosmetics and personal care products, the petroleum industry, food preparation chemistry, polymers and plastics, poisons and biological toxins, and risk assessment. May not be used to fulfill chemistry requirements in a Chemistry Honours, Major, General or Minor program. Not available to students who have previously obtained credit in, or are concurrently registered in, any 2000 level university Chemistry course. Not to be held with CHEM 1031 or the former 002.125. *Prerequisite:* One of CHEM 1000, CHEM 1001 (002.100) (C), CHEM 1300, CHEM 1301 (002.130) (C), Chemistry 40S (or equivalent), or CHEM 0900 (002.090).

CHEM 1300 University 1 Chemistry: Structure and Modelling in Chemistry Cr.Hrs.3 (Lab Required) (Formerly 002.130) Atomic and molecular models and their applications to chemistry, including a discussion of solid, liquid, and gaseous states, and of mixtures. Not to be held with CHEM 1301. *Prerequisites:* Applied Mathematics 40S or Pre-calculus Mathematics 40S, or the former Mathematics 40S (300); and Chemistry 40S (or equivalent) or CHEM 0900 (002.090) (P), or a minimum grade of "B" in CHEM 1000 or CHEM 1001 (002.100).

CHEM 1310 University 1 Chemistry: An Introduction to Physical Chemistry Cr.Hrs.3 (Lab Required) (Formerly 002.131) Thermochemistry, chemical thermodynamics, and chemical kinetics. *Prerequisite:* CHEM 1300 or CHEM 1301 (002.130) (C).

CHEM 1320 University 1 Chemistry: An Introduction to Organic Chemistry Cr.Hrs.3 (Lab Required) (Formerly 002.132) Structures, properties and reactions of or-

ganic molecules. Not to be held with CHEM 2210 or CHEM 2211 (002.221) *Prerequisite:* CHEM 1300 or CHEM 1301 (002.130) (C).

CHEM 2210 Introductory Organic Chemistry 1: Structure and Function Cr.Hrs.3 (Lab Required) (Formerly 002.221) An introduction to the concepts of organic reactivity and bonding in organic molecules. Preparation and properties of functionalized organic molecules. Not to be held with CHEM 1320 (002.132) or CHEM 2211. *Prerequisite:* CHEM 1310 or CHEM 1311 (002.131) (C).

CHEM 2220 Introductory Organic Chemistry 2: Reactivity and Synthesis Cr.Hrs.3 (Lab Required) (Formerly 002.222) An introduction to the reactivity of organic compounds and organic spectroscopy. The application of functional group interconversions to syntheses. Not to be held with CHEM 2221. *Prerequisite:* CHEM 2210 or CHEM 2211 (002.221) (C).

CHEM 2240 Applied Chemistry for Engineers Cr.Hrs.3 (Formerly 002.224) Bonding, surface chemistry, phase rule, electrochemistry, materials and descriptive inorganic chemistry of selected elements. *Prerequisite:* CHEM 1300 or CHEM 1301 (002.130) (C).

CHEM 2280 Physical Chemistry: Microscopic Descriptions of Matter Cr.Hrs.3 (Lab Required) (Formerly 002.228) Molecular based approach to understanding physical behaviour of matter. Introduction to principles of quantum mechanics, electronic structure and bonding, molecular spectroscopy. Not to be held with CHEM 2281. *Prerequisites:* CHEM 1310 or CHEM 1311 (002.131) (C); PHYS 1030 or PHYS 1031 (016.103) (C) or PHYS 1070 or PHYS 1071 (016.107) (C); plus six credit hours of 1000 level mathematics (preferably calculus) with the exception of the former 136.100, MATH 1010 (136.101), MATH 1190, MATH 1191 (136.119), FA 1020 (054.102), or MATH 1020 (136.102).

CHEM 2290 Chemical Energetics and Dynamics: Macroscopic Descriptions Cr.Hrs.3 (Lab Required) (Formerly 002.229) Chemical energetics, entropy and the second law of thermodynamics, chemical dynamics. Not to be held with CHEM 2291. *Prerequisites:* CHEM 1310 or CHEM 1311 (002.131) (C); PHYS 1030 or PHYS 1031 (016.103) (C) or PHYS 1070 or PHYS 1071 (016.107) (C); plus six credit hours of 1000 level mathematics (preferably calculus) with the exception of the former 136.100, MATH 1010 (136.101), MATH 1190, MATH 1191 (136.119), MATH 1020 (136.102), or FA 1020 (054.102).

CHEM 2360 Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy Cr.Hrs.3 (Lab Required) (Formerly 002.236) An introductory course dealing with kinds of molecules encountered in biochemistry, and the concept of metabolic energy as a product of catabolism and a requirement for biosynthesis. This course is also given in Microbiology as MBO 2360. Not to be held with CHEM 2361, CHEM 2770 (002.277), MBO 2360, MBO 2361 (060.236), or MBO 2770 (060.277). *Prerequisites:* CHEM 1310 or CHEM 1311 (002.131) (C); and one of BIOL 1030, BIOL 1031, or the former 071.125 (C). NOTE: Students may hold this course for credit in the B.Sc. General Degree program, but may not use it to fulfill the minimum requirement of 12 credit hours in 2000 level Chemistry (pre-September 2008 regulations). Those students following the new General Degree regulations (effective 2008-09) are able to

use this course as part of the 18 credit hours of advanced level Chemistry or Microbiology.

CHEM 2370 Biochemistry 2: Catabolism, Synthesis, and Information Pathways Cr.Hrs.3 (Lab Required) (Formerly 002.237) An introductory course dealing with the basic metabolic processes that occur in living cells, including the production and use of metabolic energy, the breakdown and synthesis of biomolecules; the synthesis of DNA, RNA and proteins; and the regulation of these processes. This course is also given in Microbiology as MBIO 2370. Not to be held with CHEM 2371, CHEM 2780 (002.278), MBIO 2370, MBIO 2371 (060.237), or MBIO 2780 (060.278). *Prerequisites:* one of CHEM 2360, CHEM 2361 (002.236), MBIO 2360, or MBIO 2361 (060.236); and CHEM 2210 or CHEM 2211(002.221), both courses with a minimum grade of "C". NOTE: Students may hold this course for credit in the B.Sc. General Degree program, but may not use it to fulfill the minimum requirement of 12 credit hours in 2000 level Chemistry (pre-September 2008 regulations). Those students following the new General Degree regulations (effective 2008-09) are able to use this course as part of the 18 credit hours of advanced level Chemistry or Microbiology.

CHEM 2380 Chemistry of the Main Group Elements Cr.Hrs.3 (Lab Required) (Formerly 002.238) Descriptive chemistry of the main group elements including explanation of their chemical and physical properties using current theories of structure and bonding. Not to be held with CHEM 2381. *Prerequisite:* CHEM 1310 or CHEM 1311 (002.131) (C).

CHEM 2470 Introductory Analytical Chemistry Cr.Hrs.3 (Lab Required) (Formerly 002.247) An introduction to common laboratory techniques of chemical analysis including gravimetric, volumetric and selected instrumental methods. Not to be held with CHEM 2471. *Prerequisites:* CHEM 1310 or CHEM 1311 (002.131) (C); and three credit hours of mathematics with the exception of the former 136.100, MATH 1010, MATH 1190, MATH 1191, MATH 1020, or FA 1020.

CHEM 2550 Environmental Chemistry Cr.Hrs.3 (Lab Required) (Formerly 002.255) An introduction to the chemistry of the environment. Emphasis will be on the composition of the natural environment and the processes of natural and human-introduced chemical species that take place within it. The course will provide students with the chemical basis for understanding the environment and environmental problems. This course is also taught in Environmental Science as ENVR 2550. *Prerequisite:* CHEM 1310 or CHEM 1311 (002.131) (C).

CHEM 2560 Water Quality Analysis for Engineers Cr.Hrs.3 (Lab Required) Principles and applications of chemical and instrumental methods for the analysis of water quality. This course is restricted to students in Civil Engineering.

CHEM 2770 Elements of Biochemistry 1 Cr.Hrs.3 (Lab Required) (Formerly 002.277) Basic concepts of biochemistry including the properties of biomolecules (amino acids and proteins, enzymes, carbohydrates, lipids, and nucleic acids) and aspects of energy production in cells. For students in Agricultural and Food Sciences, Human Ecology, and four-year Biological Sciences programs in Science. May not be used as part of an Honours, Major, General, or Minor program in Chemistry or in Microbiology. This course is also given in Microbiology as MBIO 2770. Not to be held with CHEM 2360, CHEM 2361 (002.236), MBIO 2360, MBIO 2361 (060.236), CHEM 2860 (002.286), or MBIO 2770 (060.277). *Prerequisites:* one of CHEM 1310, CHEM 1311 (002.131) (C), or CHEM 1320 (002.132) (C); plus six credit hours of university level biological sciences.

CHEM 2780 Elements of Biochemistry 2 Cr.Hrs.3 (Lab Required) (Formerly 002.278) The continuation of CHEM 2770 or MBIO 2770, dealing with nitrogen and lipid metabolism, representative biosynthetic pathways, and synthesis and importance of DNA, RNA and proteins. For students in Agricultural and Food Sciences, Human Ecology, and four-year Biological Science programs in Science. May not be used as part of an Honours, Major, General, or Minor program in Chemistry or Microbiology. This course is also given in Microbiology as MBIO 2780. Not to be held with CHEM 2370, CHEM 2371 (002.237), MBIO 2370, MBIO 2371 (060.237), MBIO 2780 (060.278) or the former courses 002.235, 002.240, 060.235, 060.240. *Prerequisites:* one of CHEM 2770 (002.277), MBIO 2770 (060.277) (C), CHEM 2360, CHEM 2361 (002.236), MBIO 2360, or MBIO 2361(060.236) (C).

CHEM 2860 Chemistry of Biomolecules Cr.Hrs.3 (Lab Required) (Formerly 002.286) The chemistry of molecules encountered in biochemistry, including their structures, reactions, and physical properties. The concept of metabolic energy in biochemistry. Not to be held with CHEM 2360, CHEM 2361 (002.236), CHEM 2770 (002.277), MBIO 2360, MBIO 2361 (060.236), MBIO 2770 (060.277), or the former courses 002.240 060.240, 002.235 or 060.235. *Prerequisite:* one of CHEM 1310, CHEM 1311 (002.131), or the former 002.128 with a minimum grade of "C". This course is available only to students registered in the Chemistry Honours or Four Year Major program.

CHEM 3360 Elementary Quantum Chemistry and Molecular Bonding Cr.Hrs.3 (Lab Required)(Formerly 002.336) Elementary quantum chemistry and its applications to structure and bonding in molecules and solids. *Prerequisite:* CHEM 2280 (002.228) or CHEM 2281 or the former 002.230 (C).

CHEM 3370 Symmetry, Spectroscopy and Structure Cr.Hrs.3 (Lab Required) (Formerly 002.337) Applications of symmetry in chemistry; molecular spectroscopy; structure of solids. *Prerequisite:* CHEM 2280 or CHEM 2281 (002.228) or the former 002.230 (C).

CHEM 3380 Inorganic Chemistry Cr.Hrs.3 (Lab Required) (Formerly 002.338) A continuation of the chemistry of the elements, with emphasis on the transition metals. The laboratory will include preparation of inorganic compounds and their characterization by spectroscopic and chemical means. *Prerequisite:* CHEM 2380 or CHEM 2381 (002.238) (C).

CHEM 3390 Structural Transformations in Organic Chemistry Cr.Hrs.3 (Lab Required) (Formerly 002.339) An intermediate course dealing with the reactions of organic chemistry involving functional group transformations and carbon - carbon bond forming reactions. *Prerequisite:* one of CHEM 2220, CHEM 2221 (002.222), or the former 002.220 (C). CHEM 2290 or CHEM 2291(002.229) is recommended.

CHEM 3490 Introduction of Polymers Cr.Hrs.3 (Formerly 002.349) An introduction to the formation, structure, physical properties, and degradation of polymers. *Prerequisites:* one of CHEM 2220, CHEM 2221 (002.222) or the former 002.220 (C); and CHEM 2290 or CHEM 2291 (002.229), or the former 002.230 (C).

CHEM 3580 Methods in Physical Organic Chemistry Cr.Hrs.3 (Lab Required) (Formerly 002.358) A course dealing with the application of physical chemical principles to organic reaction mechanisms. *Prerequisite:* one of CHEM 2220, CHEM 2221 (002.222) or the former 002.220 (C). *Prerequisite* or concurrent registration: CHEM 2290 or CHEM 2291(002.229).

CHEM 3590 Instrumental Analysis Cr.Hrs.3 (Lab Required) A course dealing with the theory and use of standard instruments used for chemical and biochemical analyses. An introduction to the interpretation of data obtained from such analyses. This course is designed to follow a classical analytical chemistry course. Not to be held with ENVR 3550 (128.355) or the former 002.347 or the former 002.355. *Prerequisite:* CHEM 2470 (002.247) (C).

CHEM 3980 Work Term 1 Cr.Hrs. 0 Work assignments in business, industry or government for students registered in the Chemistry Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

CHEM 3990 Work Term 2 Cr.Hrs. 0 Work assignments in business, industry or government for students registered in the Chemistry Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

CHEM 4360 Signalling and Regulation of Gene Expression Cr.Hrs.3 (Formerly 002.436) The biochemistry of cell response to external stimuli, with emphasis on animals. Cell surface receptors and ligands; signalling to the nucleus; phosphorylation and proteolysis; transcription; gradients in cell patterning. Not to be held with CHEM 4361. *Prerequisite:* a "C" or better in one of CHEM 2370, CHEM 2371 (002.237), MBIO 2370, MBIO 2371(060.237), the former 002.235, or the former 060.235.

CHEM 4370 Glycobiology and Protein Activation Cr.Hrs.3 (Formerly 002.437) The role of carbohydrate containing biomolecules in biochemistry and their importance for understanding some genetic diseases. The importance of limited proteolysis in activation of biomolecules. Not to be held with CHEM 4371 or the former 002.449. *Prerequisite:* a "C" or better in one of CHEM 2370, CHEM 2371 (002.237), MBIO 2370, MBIO 2371(060.237), the former 002.235, or the former 060.235.

CHEM 4550 Aquatic Chemistry Cr.Hrs.3 (Formerly 002.455) An examination of biogeochemical processes affecting the distribution, speciation and bioavailability of chemical substances in the aquatic environment. The theoretical basis for the chemical behaviour of natural water systems is discussed, as well as the description of processes involved in wastewater treatment. This course is also taught in Environmental Science as ENVR 4550 (128.455). *Prerequisite:* A grade of "C" or better in one of CHEM 3590, the former 002.347, the former 002.355, or ENVR 3550 (128.355); or permission of the department.

CHEM 4570 Topics in Inorganic Chemistry Cr.Hrs.3 (Formerly 002.457) A variety of topics from recent literature. *Prerequisite:* CHEM 3380 (002.338) (C).

CHEM 4580 Topics in Organic Chemistry Cr.Hrs.3 (Formerly 002.458) Selected topics dealing with the structure and reactivity of organic compounds. *Prerequisite:* CHEM 3390 (002.339) (C) or CHEM 3580 (002.358) (C).

CHEM 4590 Bioanalytical Methods Cr.Hrs.3 (Lab Required) This course introduces different methods used currently for the analysis of biological materials. Qualitative and quantitative aspects are explored. Instrumentation is described and practical methods are designed. Not to be held with the former 002.347. *Prerequisite:* a grade of "C" or better in CHEM 3590, or ENVR 3550 (128.355), or the former 002.355.

CHEM 4600 Advanced Chemical Techniques Cr.Hrs.3 (Formerly 002.460) (Lab required) A workshop course consisting of lectures, problem solving, and advanced instrumental techniques. The course is designed to train potential research students in techniques like NMR, mass spectroscopy, and chromatography. This course is required of all final year Honours students in Chemistry. *Prerequisite:* one of CHEM 3360 (002.336) (C), CHEM 3380 (002.338) (C), CHEM 3390 (002.339) (C), or CHEM 3580 (002.358) (C).

CHEM 4620 Biochemistry of Nucleic Acids Cr.Hrs.3 (Formerly 002.462) The structure of nucleic acids; synthesis and sequence determination; interaction with drugs and protein. Not to be held with CHEM 4621. *Prerequisite:* a "C" or better in one of CHEM 2370, CHEM 2371 (002.237), MBIO 2370, MBIO 2371 (060.237), the former 002.235, or the former 060.235.

CHEM 4630 Biochemistry of Proteins Cr.Hrs.3 (Formerly 002.463) The structure and function of proteins, their physical and chemical properties and methods for studying them. Not to be held with CHEM 4631. *Prerequisite:* a "C" or better in one of CHEM 2370, CHEM 2371 (002.237), MBIO 2370, MBIO 2371 (060.237), the former 002.235, or the former 060.235.

CHEM 4640 Spectroscopy, Relaxation and Structure Cr.Hrs.3 (Formerly 002.464) A course dealing with quantum mechanical manipulations and illustrations from mag-

netic resonance and other spectroscopies; relaxation and polarization phenomena. *Prerequisite:* CHEM 3370 (002.337) (C) or permission of the Instructor.

CHEM 4650 Molecular States and Processes Cr.Hrs.3 (Formerly 002.465) A course dealing with various aspects of molecular states and processes including student selected topics. *Prerequisite:* CHEM 3370 (002.337) (C).

CHEM 4670 Drug Design and Drug Discovery Cr.Hrs.3 An understanding of the design, synthesis and interactions of drug molecules. Emphasis will be on novel drug-like molecules in the early stages of drug discovery with special focus on brain diseases and infectious diseases. *Prerequisites:* CHEM 2220 (C); and a "C" or better in one of CHEM 2360, CHEM 2361 (002.236), MBI0 2360, MBI0 2361 (060.236) or CHEM 2860.

CHEM 4680 Organometallic Chemistry Cr.Hrs.3 (Formerly 002.468) Chemistry of organometallic compounds of the transition metals and representative elements. *Prerequisite:* CHEM 3380 (002.338) (C), or CHEM 3390 (002.339) (C).

CHEM 4690 Specific Methods in Organic Synthesis Cr.Hrs.3 (Formerly 002.469) Advanced methods and principles of organic synthesis of complex molecules. *Prerequisite:* CHEM 3390 (002.339) (C).

CHEM 4700 Advanced Biochemistry Laboratory Cr.Hrs.3 (Formerly 002.470) (Lab required) A laboratory and workshop consisting of lectures, problem solving, and ad-

vanced instrumental techniques such as magnetic resonance spectroscopy, mass spectrometry, circular dichroism, x-ray crystallography, fluorescence spectroscopy and computer analysis of protein sequences. This course is required for all final year Honours students in Biochemistry. *Prerequisite or concurrent requirement:* CHEM 4620 or CHEM 4621; and CHEM 4630 or CHEM 4631.

CHEM 4710 Research Project in Chemistry or Biochemistry Cr.Hrs.6 (Formerly 002.471) (Lab required) A research project in any aspect of chemistry or biochemistry, chosen in consultation with the course administrator and an appropriate supervising faculty member. Written reports and oral presentation at the end of the project will be required. The course is normally available only to final year students in chemistry programs. Not to be held with CHEM 4711 or MBI0 4530 (060.453). *Prerequisite:* Permission of the course administrator.

CHEM 4980 Work Term 3 Cr.Hrs. 0 Work assignments in business, industry or government for students registered in the Chemistry Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

CHEM 4990 Work Term 4 Cr.Hrs. 0 Work assignments in business, industry or government for students registered in the Chemistry Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

5.6.1 Academic Staff

Professor Emeritus

King, P.R., B.Sc., Ph.D. (Nottingham), I.S.P.

Distinguished Professor

Stanton, R.G., B.A.(Hons.) (Western), M.A., Ph.D. (Toronto), Cert.Ling.Port. (Rio de Janeiro), Hon.D.Sc. (Newcastle, NSW), F.S.S., F.I.M.A., Killam Laureate, Hon.D.Sc. (Queensland), Hon.D.Sc. (Natal), Hon.D.Math. (Waterloo).

Professors

Arnason, A.N., B.Sc., M.Math. (Waterloo), Ph.D. (Edinburgh); **Baltes, H., B.Sc., Ph.D.** (Calgary); **Hoskins, J.A., B.E.S., M.Sc., Ph.D.** (Manitoba); **Kocay, W.L., B.Sc.(Hons.)** (Manitoba), M.Math., Ph.D. (Waterloo); **Meek, D.S., B.Math.** (Waterloo), M.Sc. (Toronto), Ph.D. (Manitoba); **Scuse, D.H., B.A. (York), M.Sc., Ph.D.** (Manitoba); **van Rees, G.H.J., B.Math., M.Math., Ph.D.** (Waterloo); **Walton, D.J., B.Sc.(Hons.)** (South Africa), M.S.Math (Illinois), M.Sc., Ph.D. (Manitoba).

Associate Professors

Anderson, J.E., B.Sc.(Hons.), M.Sc., Ph.D. (Manitoba); **Bate, J.A., B.Sc.(Hons.), M.Sc., Ph.D.** (Manitoba); **Cameron, H.A., B.Sc., M.Sc.** (Manitoba), Ph.D. (Waterloo); **Eskicioglu, M.R., B.Sc.** (Istanbul Technical), M.Sc. (Middle East Technical), Ph.D. (Alberta); **Graham, P., B.C.Sc.(Hons.), M.Sc., Ph.D.** (Manitoba); **Irani, P. B.Sc., Ph.D.** (New Brunswick); **Leung, K.S., B. Sc.(Hons.), M.Sc., Ph.D.** (British Columbia); **Li, P.C., B.Sc.(Hons.), M.Sc., Ph.D.** (Manitoba); **Misic, J., BSEE, MSEE, Ph.D.** (Belgrade); **Misic, V., B.Sc., M.Phil., Ph.D.** (Belgrade); **Thulasiram, R., B.Sc., M.Sc.** (Madursi-Kamaraj), M.Sc., Ph.D. (Indian Inst. Of Science); **Thulasiraman, P., B.Eng., M.A.Sc.** (Concordia), Ph.D. (Delaware);.

Assistant Professors

Bunt, A., B.Sc. (Queen's), M.Sc., Ph.D. (UBC); **Domaratzki, M., B.Math(Hons), M.Math(Waterloo), PhD** (Queen's); **Durocher, S., B.Sc.** (Toronto), M.Sc., Ph.D. (UBC); **Jin, D., BA, B.Sc.(Hons.), M.Sc., Ph.D.** (Queen's); **Liu, Y., B. Eng.** (Beijing U of Posts & Telecommunications), M. Math., Ph.D. (Waterloo).

Instructors

Andres, T. B.Sc (Hon), MSc. (Manitoba) (Instructor II), **Boyer, G., B.Sc.(Hons.), M.Sc.** (Manitoba) (Instructor II); **Braico, J., B.Sc., M.Sc.** (Manitoba) (Instructor II); **Marshall, A., B.C.Sc.(Hons.)** (Manitoba), B.Ed. (Winnipeg) (Instructor II); **Penner, C., B.Sc.** (Manitoba) (Instructor II); **Zapp, M. B.Sc., M.Sc.** (Manitoba) (Instructor II).

5.6.2 Program Information

Computer technology continues to advance and computer applications are found in all fields and disciplines. As new applications proliferate, opportunities for careers in computing will continue to be strong. Both the Major

and the Honours programs offer a co-op option so students may combine education with employment experience.

The department must approve a student's Honour or Major program prior to registration for each session. Students must also obtain departmental approval for any and all revisions to their program.

The Computer Science Honours and Major programs, including the Coop programs, and the Software Engineering area of specialization, are accredited by the Computer Science Accreditation Council.

Honours

The Honours program in Computer Science at the University of Manitoba was the first Honours program in Canada to be given professional accreditation by the Canadian Information Processing Society. The program provides an opportunity to study the subject in greater depth than the other programs in Computer Science and leads to an Honours Bachelor of Computer Science degree (B.C.Sc.). In addition, this program gives professional preparation for careers in areas such as software engineering, system design or project management.

An outline of the Honours program is provided below. MATH 1700 or equivalent is strongly recommended as an option. Optional courses are selected in consultation with the department advisor.

To enter the Computer Science Honours program, a student must have a "B" in COMP 1020 and a "C" average in Mathematics MATH 1300 and MATH 1500 or any equivalent. In addition, a student is required to have a Grade Point Average of 2.50 on all courses completed at the end of Year 1. To continue in the Honours program, the student must, by the end of second year, receive a grade of "C" or better in STAT 1000. Students ineligible to enter after Year 1 can establish eligibility in Year 2, see Section 3.5 Entrance to Honours. For additional information on the second year entry route contact a program advisor.

To continue in the Honours program, i.e., to proceed from Year 2 to Year 3 and from Year 3 to Year 4, and to complete Year 4 of the Honours program successfully, a student must have a 3.00 Degree Grade Point Average at each point of assessment. Students must complete 9 credit hours each Fall and Winter Term.

To graduate with the Honours degree, a student must present a minimum grade of "C" in each course which contributes to the degree and a DGPA of 3.00.

Students can take at most 90 credit hours of computer science, statistics and mathematics courses. Outside of computer science and mathematics courses, students are encouraged to select courses such that their programmes include at least 15 credit hours of study in science, engineering, or business, and at least 9 credit hours of study in the humanities or social sciences.

Honours Cooperative Option

The first class of students graduated from the Cooperative program in October 1983. This program provides students with a total of 12 months of paid employment by the time they graduate. It enables them to obtain work experience with participating firms in Winnipeg as well as other parts of

Canada. For example, students have, in the past, found employment in Calgary, Edmonton, Toronto, Vancouver and Ottawa, and they have found the program an invaluable preparation for their working lives.

Students interested in alternating employment terms and academic terms as part of their Honours Computer Science program may apply to enter the Cooperative Option in their second year in Honours Computer Science. The course and grade requirements for entry to this option are the same as those required for entry to the regular Honours program, as indicated in the chart below.

Students should refer to the general faculty regulations for Cooperative Options in Section 3.6, especially for information on performance requirements.

Students should note that the course and grade requirements for the Cooperative Option are the same as that of the regular Honours program. REMINDER: Students must complete at least nine (9) credit hours per each Fall and Winter Term (or equivalent for cooperative students) to remain in the Honours program.

To graduate with the Honours degree, a student must present a minimum grade of "C" in each course which contributes to the degree and a DGPA of 3.00.

Students can take at most 90 credit hours of computer science, statistics and mathematics courses. Outside of computer science and mathematics courses, students are encouraged to select courses such that their programmes include at least 15 credit hours of study in science, engineering, or business, and at least nine (9) credit hours of study in the humanities or social sciences.

Students in this program will normally graduate following the completion of the Year 4 academic requirements in December, will receive their degree in February, and will be eligible to attend the May Convocation.

Employment term positions available to the students will be approved by the department, and the employers will select the students they wish to employ. Students will apply for openings in the Cooperative Option in April of their second year in the Honours program. They will be notified of their provisional acceptance in the program in September. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

The employment terms will be designed to provide students with the opportunity to acquire practical experience in a computer installation site and to acquire insight into areas of specialization within the computing field. Students can also typically earn enough to defray the cost of their university education.

Students are required to register in and pay fees for each employment term prior to the commencement of each employment term. Students will be required to submit an employment report upon the completion of each of their three employment terms.

Four Year Major

Refer to the chart below for entrance requirements to this program.

To continue in the Major program a student must have a minimum Cumulative Grade Point Average of 2.00 (2.00 DGPA for Second Degree and Start Afresh students) at each point of assessment. To graduate with the Major degree, a student must present a minimum grade of "C" in each of STAT 1000, COMP 2080, COMP 2130, COMP 2140, COMP 2150, COMP 2160, COMP 2280, COMP 3350, COMP 3370, COMP 3430 and in each of the 21 credit hours of 3000 and 4000 level Computer Science courses that apply to the Computer Science component of their degree program.

This program is suitable for those students interested in combining a fairly extensive program in Computer Science with broad coverage of another subject or subjects of their choice (Science or non-Science). The program offers greater scheduling flexibility, more relaxed entrance requirements, and a wider range for the inclusion of electives from other disciplines than the Honours program, but it is not considered to offer the same professional training as the Honours program. Admission to graduate programs may be conditional upon completion of additional courses. Students intending to proceed to a master's degree from the four year Major program must consult with the department at the beginning of their second year of undergraduate study and in each subsequent year.

The student will be able to transfer to the Honours program at the end of the second year, provided that departmental and faculty requirements for the Honours program at that stage are satisfied.

Students, who at the end of University 1 are undecided between the four year Major program and the Honours program, should note that the required courses in Year 2 Honours satisfy the requirements for both the Honours and Major programs. It is suggested that students with the necessary prerequisite standing in University 1 may wish to register in the courses listed for Year 2 of the Honours program, and thus keep both options open.

Students can take at most 90 credit hours of computer science, statistics and mathematics courses. Outside of computer science and mathematics courses, students are encouraged to select courses such that their programmes include at least 15 credit hours of study in science, engineering, or business, and at least nine (9) credit hours of study in the humanities or social sciences. Students may be allowed to take up to 48 credit hours of courses outside the Faculty of Science with departmental permission, despite the faculty maximum of 36 credit hours. The permission would typically be granted if a student is completing a minor outside of Science and may have completed a variety of electives outside the Faculty prior to declaring a minor in one department.

Four Year Major Cooperative Option

To continue in the Major program a student must have a Cumulative Grade Point Average of 2.00 at each point of assessment. To graduate with the Major degree, a student must present a minimum grade of "C" in each of STAT 1000, COMP 2080, COMP 2130, COMP 2140, COMP 2150, COMP 2160, COMP 2280, COMP 3350, COMP 3370, COMP 3430 and in each of the 21 credit hours of 3000 and 4000 level Computer Science courses that apply to the Computer Science component of their degree program.

Students can take at most 90 credit hours of computer science, statistics and mathematics courses. Outside of computer science and mathematics courses, students are encouraged to select courses such that their programmes include at least 15 credit hours of study in science, engineering, or business, and at least 9 credit hours of study in the humanities or social sciences. Students may be allowed to take up to 48 credit hours of courses outside the Faculty of Science with departmental permission, despite the faculty maximum of 36 credit hours. The permission would typically be granted if a student is completing a minor outside of Science and may have completed a variety of electives outside the Faculty prior to declaring a minor in one department.

This program provides students with a minimum of 12 months of paid employment by the time they graduate. It enables them to obtain work experience with participating firms in Winnipeg as well as other parts of Canada.

Students interested in alternating employment terms and academic terms as part of their four year Major program in Computer Science may apply to enter the Cooperative Option in their third year of the four year Major program in Computer Science. The course and grade requirements for entry to this option are the same as those required for entry to the regular four year Major program, as indicated in the chart above. Students should refer to the general faculty regulations for Cooperative Options in Section 3.4.

Students should note that the course and grade requirements for the Cooperative Option are the same as that for the regular Major program. Students in this program will normally graduate following the completion of the Year 4 academic requirements in December, will receive their degree in February, and will be eligible to attend the May Convocation.

Employment term positions available to the students will be approved by the department, and the employers will select the students they wish to employ. Students will apply for openings in the Cooperative Option in April of their second year in the Major program. They will be notified of their provisional acceptance in the program in September. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

The employment terms will be designed to provide students with the opportunity to acquire practical experience and insight into areas of specialization within the computing field. Students can also typically earn enough to defray the cost of their university education.

Students are required to register in, and pay fees for, each employment term prior to the commencement of each employment term. Students will be required to submit an employment report upon the completion of each of their three employment terms.

Three Year General

As prescribed with all other faculty regulations in Section 3.2, students in this program must select 18 credit hours of 2000, 3000, and (or) 4000 level

courses from each of **two** Science areas. To satisfy the requirement in the area of Computer Science, students must select a minimum of 18 credit hours from the 2000, 3000, and (or) 4000 level courses offered by the department (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level.).

Area Specializations

Students who obtain a grade of "C" or better in the courses listed for an area of specialization will receive a notation on their transcript stating that they have met the requirements of that specialization. Students may obtain such a notation for more than one area.

Theoretical Computer Science

Requires: COMP 3170, COMP 3030, and COMP 4420; and two of COMP 4340, 4140, and/or COMP 4510.

Networks and Security

Requires: COMP 3720, COMP 4140, COMP 4580, and COMP 4720.

Artificial Intelligence

Requires: COMP 3190; and two of COMP 4190, COMP 4200, and/or COMP 4360.

Human-Computer Interaction and Computer Graphics

Requires: COMP 2190, COMP 3020, and COMP 3490; one of COMP 4020 or COMP 4490.

Databases

Requires: COMP 3380 and COMP 4380; and one of COMP 4710 or COMP 4740.

Software Engineering

Requires: COMP 3010, COMP 3020, COMP 3040, COMP 3380, COMP 3620, COMP 4050, and COMP 4350.

Computer Systems

Requires: One of COMP 3010, COMP 3090, or COMP 3290; and two of COMP 4290, COMP 4430, COMP 4550, COMP 4510, and/or COMP 4690.

5.6.3 Computer Science

UNIVERSITY 1

YEAR 2

YEAR 3

YEAR 4

HONOURS ^{4,5,7} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

COMP 1010 and COMP 1020 (B)
Plus MATH 1300¹ and MATH 1500¹, with a (C) average

COMP 2080, COMP 2130, COMP 2140, COMP 2150, COMP 2160, COMP 2280

COMP 3030, COMP 3170, COMP 3350, COMP 3370, COMP 3430
Plus 3 credit hours of 3000 level Computer Science courses

21 credit hours of 4000 level Computer Science courses

In University 1 or Year 2 the following must be completed:

STAT 1000 (C)²

6 credit hours from the Faculty of Arts, which should include the required 3 credit hour "W" course.

HONOURS COOPERATIVE OPTION ^{3,4,5,7} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

COMP 1010 and COMP 1020(B)
MATH 1300¹ and MATH 1500¹,
with a (C) average

COMP 2080, COMP 2130, COMP 2140, COMP 2150, COMP 2160, COMP 2280

COMP 3030, COMP 3170, COMP 3350, COMP 3370, COMP 3430
Plus 3 credit hours of 3000 level Computer Science courses

21 credit hours of 4000 level Computer Science courses

In University 1 or Year 2 the following must be completed:

STAT 1000 (C)²

6 credit hours from the Faculty of Arts, which should include the required 3 credit hour "W" course.

COMP 2980, COMP 3980, COMP 4980 must be completed prior to the last academic term

30 Hours

30 Hours

30 Hours

30 Hours

FOUR YEAR MAJOR ^{4,5,6,7} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

COMP 1010 and COMP 1020(C+)
MATH 1300¹ and MATH 1500¹, with a (C) average

COMP 2080, COMP 2130, COMP 2140, COMP 2150, COMP 2160, COMP 2280

COMP 3350, COMP 3370, COMP 3430
Plus 21 credit hours of 3000 or 4000 level Computer Science courses of which 6 credit hours must be at the 4000 level
Plus 9 credit hours approved by the department⁷

In University 1 or Year 2 the following must be completed: STAT 1000(C).

6 credit hours from the Faculty of Arts, which should include the required 3 credit hour "W" course.

MAJOR COOPERATIVE OPTION ^{3,4,5,6,7} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

COMP 1010 and COMP 1020(C+)	COMP 2080, COMP 2130, COMP 2140, COMP 2150, COMP 2160, COMP 2280	COMP 3350, COMP 3370, COMP 3430 Plus 21 credit hours of 3000 or 4000 level Computer Science courses of which 6 credit hours must be at the 4000 level COMP 2980, COMP 3980, COMP 4980 must be completed prior to the last academic term Plus 9 credit hours approved by the department ⁷
-----------------------------	--	--

In University 1 or Year 2 the following must be completed: STAT 1000 (C).

6 credit hours from the Faculty of Arts, which should include the required 3 credit hour "W" course.

THREE YEAR GENERAL

COMP 1010 and COMP 1020	18 credit hours of 2000, 3000, and (or) 4000 level Computer Science courses (subject to the Faculty requirement that of the 36 credit hours to in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level.)
-------------------------	--

MINOR

COMP 1010 and COMP 1020	COMP 2140 Plus a minimum of 9 credit hours from 2000 and (or) 3000 level Computer Science courses.
-------------------------	---

NOTES:

¹ MATH 1210 or MATH 1310 may be taken in place of MATH 1300; MATH 1510, MATH 1520, or MATH 1690 may be taken in place of MATH 1500.

² It is recommended that STAT 2000 be taken as an elective.

³ Entry to the Honours Cooperative Option and four year Major Cooperative Option is at the end of second year. Employment terms follow 3A (September-December), 3B (May-August) and 4A (January-April). Students in the Cooperative Option must complete three employment terms and receive a passing grade in COMP 2980, COMP 3980 and COMP 4980 prior to the last academic term.

⁴ The courses required in this program will satisfy the university mathematics requirement.

⁵ Additional information on how students may select their courses can be found at the beginning of this section.

⁶ IMPORTANT: The four year Major need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program. Students in the Cooperative Option should be aware that while other arrangements are possible, they may jeopardize their chances of obtaining employment by selecting such arrangements. Students should discuss their planned sequence of courses with the department prior to making adjustments to the sequence above.

⁷ IMPORTANT: a maximum of 90 credit hours of computer science, statistics and mathematics courses can be included in a majors or honours program.

5.6.4 Computer Science - Mathematics Joint Honours Program

The departments of Computer Science and Mathematics offer a joint Honours program for in-depth study in both Computer Science and Mathematics.

Honours Requirements

To enter the Joint Honours Computer Science-Mathematics program, the student must have a minimum grade of "B" in each of COMP 1020, MATH 1300 and MATH 1700 (or any equivalent), and have satisfied the Faculty of Science requirements for entry to the honours program. It is recommended that STAT 2000 be completed in University 1 as an elective.

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4

30 Hours	30 Hours	30 Hours	30 Hours
NOTES:			
¹ MATH 1510 or MATH 1520 may be taken in place of MATH 1500; MATH 1310 may be taken in place of MATH 1300; MATH 1710 may be taken in place of MATH 1700.			
² The courses required in this program will satisfy the university mathematics requirement.			
³ As there are no electives in Year 2 of the program, students should complete the written English requirement in University 1. If not completed in University 1, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.			
⁴ Students in this program will not take COMP 2130 or COMP 3130. COMP 2130 is waived as a prerequisite for students in this program.			
⁵ The work terms COMP 2980, COMP 3980 and COMP 4980 will be completed in the summers following Year 2, Year 3 and Year 4, respectively. (Letters in brackets indicate minimum prerequisite standing for further study.)			

5.6.5 Computer Science -

Physics & Astronomy Joint Honours Program

The departments of Computer Science and Physics & Astronomy offer a joint Honours program for in-depth study in both Computer Science and Physics & Astronomy.

To enter the Joint Honours Computer Science-Physics program, the student must have a minimum grade of "B" in each of PHYS 1050 (or "B+" in PHYS 1020), PHYS 1070, MATH 1300, MATH 1500, MATH 1700 (or any

equivalent), COMP 1010 and COMP 1020. Students must complete a minimum of 9 credit hours per team in each of the Fall and Winter terms.

To graduate with the Honours degree, a student must present a minimum grade of "C" in each course that contributes to the degree

The department must approve a student's Honour or Major program each session. Students must also obtain departmental approval for any and all revisions to their program.

Computer Science - Physics & Astronomy Joint Honours Program			
UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
JOINT HONOURS¹ 120 CREDIT HOURS (comprising courses listed in chart below, and electives)			
PHYS 1050 (B) (or PHYS 1020 (B+)) and PHYS 1070 ² (B), MATH 1300 ³ (B), MATH 1500 ³ (B), MATH 1700 ³ (B), COMP 1010, COMP 1020 (B) Plus 6 credit hours from the Faculty of Arts, which must include the re- quired 3 credit hour "W" course ⁴ Plus 3 credit hours of electives	PHYS 2260, PHYS 2380, PHYS 2390, PHYS 2490, PHYS 2650 ⁵ , COMP 2080, COMP 2130, COMP 2140, COMP 2160, COMP 2280	PHYS 2600, PHYS 2610, PHYS 3380, PHYS 3670, PHYS 3680, COMP 2190, COMP 3170, COMP 3430 Plus 6 credit hours of 3000 and 4000 level courses from Compu- ter Science	15 credit hours of 3000 and 4000 level Honours Physics courses, with at least 6 credit hours at the 4000 level Plus 12 credit hours of 3000 or 4000 level courses from Computer Sci- ence, with at least 9 credit hours at the 4000 level by the end of Year 4 Plus 3 credit hours of electives
30 Hours	30 Hours	30 Hours	30 Hours

NOTES:			
¹ The courses required in this program will satisfy the University mathematics requirement.			
² PHYS 1030 is not suitable for entry to the Honours and four year Major program. Students must also take PHYS 1070 if they have already taken PHYS 1030. Students can hold credit for both PHYS 1030 and PHYS 1070.			
³ MATH 1310 may be taken in place of MATH 1300; MATH 1510 or MATH 1520 may be taken in place of MATH 1500; MATH 1710 may be taken in place of MATH 1700; MATH 1690 may be taken in place of MATH 1500 and MATH 1700.			
⁴ As there are no electives in Year 2 of the program, students should complete the University written English requirement in University 1. If not completed in University 1, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.			
⁵ The corequisite of MATH 2720 is waived for students in this program.			

5.6.6 Computer Science Course Descriptions

Note: To fulfill prerequisite requirements, a grade of "C" must be achieved for any course stipulated as a prerequisite to a further course in Computer

Science. Course numbers ending in "1" are those courses offered in French by St. Boniface College. The descriptions for those courses can be found in the CuSB section 5.14.

COMP 1010 Introductory Computer Science I Cr.Hrs.3 (Lab Required) (Formerly 074.101) An introduction to computer programming using a procedural high level language. Not to be held with COMP 1011 or the former 074.112, 074.121, 074.123, or 074.125. *Prerequisite:* any grade 12 or 40S Mathematics, or equivalent.

COMP 1020 Introductory Computer Science II Cr.Hrs.3 (Lab Required) (Formerly 074.102) More features of a procedural language, elements of programming. Not to be held with COMP 1021 or the former 074.121, 074.123 or 074.125. *Prerequisite:* COMP 1010 or COMP 1011 (074.101) (C); or High School Computer Science 40S (75%) and any grade 12 or 40S Mathematics, or equivalent.

COMP 1260 Introductory Computer Usage 1 Cr.Hrs.3 (Formerly 074.126) This course offers an introduction to modern computer services. Areas covered will include word processing, spreadsheets, data management systems and graphics. No prior computer knowledge is necessary. May not hold with COMP 1261. May not be taken within the Computer Science Honours or Major program.

COMP 1270 Introductory Computer Usage II Cr.Hrs.3 (Formerly 074.127) Using advanced tools to design web pages. Students will also learn how to make effective presentations, work in other operating system environments, use file transfer tools, apply simple script programming to web page designs, and understand current issues relating to technology in society. May not hold with COMP 1271. May not be taken within the Computer Science Honours or Major program. Recommended *Prerequisite:* COMP 1260, COMP 1261 (074.126), or equivalent knowledge is strongly recommended.

COMP 2080 Analysis of Algorithms Cr.Hrs.3 (Formerly 074.208) Methods of analyzing the time and space requirements of algorithms. Average case and worst case analysis. Models of computation. *Prerequisites:* COMP 2130 (074.213) (C); and one of COMP 2140 (074.214), the former 074.206, or COMP 2061 (C). STAT 1000 or STAT 1001 is strongly recommended.

COMP 2130 Discrete Mathematics for Computer Science Cr.Hrs.3 (Formerly 074.213) An introduction to the set theory, logic, integers, combinatorics and functions for today's computer scientists. *Prerequisites:* COMP 1020 or COMP 1021 (C); and a "C" average in one of: MATH 1210, MATH 1300, MATH 1301 (136.130), MATH 1310 (136.131), 010.114, or 013.146; and one of: MATH 1500, MATH 1501(136.150), MATH 1510 (136.151), MATH 1520 (136.152), the former 136.153, or MATH 1690 (136.169).

COMP 2140 Data Structures and Algorithms Cr.Hrs.3 (Lab Required) (Formerly 074.214) Introduction to the representation and manipulation of data structures. Topics will include lists, stacks, queues, trees, and graphs. Not to be held with COMP 2061 or 074.206. *Prerequisites:* one of COMP 1020, COMP 1021 (074.102), or the former 074.123 (C).

COMP 2150 Object Orientation Cr.Hrs.3 (Formerly 074.215) Design and development of object-oriented software. Topics will include inheritance, polymorphism, data abstraction and encapsulation. Examples will be drawn from several programming languages. Not to be held with the former 074.215 or 074.227. *Prerequisite:* COMP 2160 (074.216); and one of COMP 2140 (074.214), the former 074.206, or COMP 2061(C).

COMP 2160 Programming Practices Cr.Hrs.3 (Lab Required) (Formerly 074.216) Introduction to issues involved in real-world computing. Topics will include memory management, debugging, compilation, performance, and good programming practices. Not to be held with the former 074.225. *Prerequisite:* COMP 1020 or COMP 1021 (074.102) (C).

COMP 2190 Introduction to Scientific Computing Cr.Hrs.3 (Formerly 074.219) An applied computational course introducing topics such as approximation by polynomials, solution of non-linear equations, linear systems, simulation and computational geometry. May not hold with COMP 2191. *Prerequisites:* COMP 1020 or COMP 1021 (074.102) (C); and one of MATH 1500, MATH 1501 (136.150) (C), MATH 1510 (136.151) (C), MATH 1520 (136.152) (C), the former 136.153 (C), or MATH 1690 (136.169) (C). *Prerequisite or concurrent registration:* One of MATH 1300, MATH 1301, or MATH 1310.

COMP 2280 Introduction to Computer Systems Cr.Hrs.3 (Lab Required) (Formerly 074.228) Data representation and manipulation, machine-level representation of programs, assembly language programming, and basic computer architecture. Not to be held with the former 074.222 or 074.240; also not available to students who have previously completed both ECE 3610 and ECE 3680. *Prerequisites:* COMP 2140 (074.214) (C), COMP 2160 (074.216) (C), and COMP 2130 (074.213) (C).

COMP 2980 Workterm 1 Cr.Hrs.0 (Formerly 074.298) Work assignment in business, industry, or government for students registered in the Computer Science Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail)

COMP 3010 Distributed Computing Cr.Hrs.3 (Formerly 074.301) Introduction to distributed computing. Topics include task models, server-side computing, database connectivity, information sharing. *Prerequisite:* one of COMP 2140 (074.214), the former 074.206, or COMP 2061(C); and COMP 2150 (074.215).

COMP 3020 Human-Computer Interaction 1 Cr.Hrs.3 (Formerly 074.302) Human-computer interaction: human factors and usability, user-centered design, prototyping, usability evaluation. Not to be held with the former 074.371. *Prerequisite:* one of COMP 2140 (074.214), the former 074.206, or COMP 2061 (C). A course in cognitive psychology, such as PSYC 2480 (017.248), is recommended.

COMP 3030 Automata Theory and Formal Languages Cr.Hrs.3 (Formerly 074.303) An introduction to automata theory, grammars, formal languages and their applica-

tions. Topics: finite automata, regular expressions and their properties; context-free grammars, pushdown automata and properties of context-free languages; turing machines. Applications: lexical analysis, text editing, machine design, syntax analysis, parser generation. *Prerequisites:* one of COMP 2140 (074.214), the former 074.206, or COMP 2061(C); and COMP 2080 (074.208) (C).

COMP 3040 Technical Communication in Computer Science Cr.Hrs.3 (Formerly 074.304) This course is designed to help students become more effective and confident writers in the context of the computing profession. Students will be introduced to a broad range of written and oral presentation styles used in the computing workplace. *Prerequisite:* Students must be enrolled in third year (or higher) of a majors or honours programme in the Department of Computer Science.

COMP 3090 Digital Logic 2 Cr.Hrs.3 (Formerly 074.309) Design and implementation of digital circuits. Minimization and state reduction, asynchronous circuits, arithmetic circuits, implementation using modern hardware techniques. Not to be held with ECE 2200, or the former 074.342, 074.447 or 074.422. *Prerequisite:* COMP 2280 (074.228) (C); or both of the former 074.222 and 074.223(C).

COMP 3120 Computational Linear Algebra Cr.Hrs.3 (Formerly 074.312) Methods of computational linear algebra such as linear spaces, determinants, algorithms for bases, algorithms for eigenvalues and eigenvectors. Not to be held with the former 074.389. *Prerequisite:* COMP 2130 (074.213) (C).

COMP 3130 Discrete Math 2 Cr.Hrs.3 (Formerly 074.313) A study of various mathematical structures of importance to computer scientists. Topics include: permutations, groups, rings, fields, and some coding theory. Stress will be placed on algorithmic and computational methods. *Prerequisite:* COMP 2130 (074.213) (C).

COMP 3140 Numerical Analysis Cr.Hrs.3 (Formerly 074.314) Numerical methods for a selection of topics such as interpolation, optimization, integration, non-linear systems, differential equations. *Prerequisite:* COMP 2190 or COMP 2191 (074.219) (C).

COMP 3170 Analysis of Algorithms and Data Structures Cr.Hrs.3 (Formerly 074.317) Fundamental algorithms for sorting, searching, storage management, graphs, databases and computational geometry. Correctness and analysis of those algorithms using specific data structures. An introduction to lower bounds and intractability. *Prerequisites:* one of COMP 2140 (074.214), the former 074.206, or COMP 2061(C); and COMP 2080 (074.208) (C).

COMP 3190 Introduction to Artificial Intelligence Cr.Hrs.3 (Formerly 074.319) Principles of artificial intelligence: problem solving, knowledge representation and manipulation; the application of these principles to the solution of 'hard' problems. *Prerequisite:* one of COMP 2140 (074.214), the former 074.206, or COMP 2061(C).

COMP 3290 Introduction to Compiler Construction Cr.Hrs.3 (Formerly 074.329) Introduction to the standard compiler phases: scanning, parsing, symbol-table management, code generation, and code optimization. The emphasis is on the simpler techniques for compiler construction such as recursive descent. *Prerequisites:* one of COMP 2140 (074.214), the former 074.206, or COMP 2061(C); and COMP 2280 (074.228) or the former 074.222 (C); or both of ECE 3610 (C) and ECE 3680 (C). COMP 2160 (074.216) is recommended.

COMP 3350 Software Engineering 1 Cr.Hrs.3 (Formerly 074.335) Introduction to software engineering. Software life cycle models, system and software requirements analysis, specifications, software design, testing and maintenance, software quality. *Prerequisites:* COMP 2150 (074.215) (C), or COMP 2061(074.206) (C).

COMP 3370 Computer Organization Cr.Hrs.3 (Formerly 074.337) Principles of computer systems architecture, organization and design. Performance, instruction sets, processors, input/output, memory hierarchies. *Prerequisite:* COMP 2280 (074.228) or the former 074.222 (C); or both of ECE 3610 (C) and ECE 3680 (C).

COMP 3380 Databases Concepts and Usage Cr.Hrs.3 (Formerly 074.338) An introduction to database systems including the relational, hierarchical, network and entity-relationship models with emphasis on the relational model and SQL. *Prerequisite:* one of COMP 2140 (074.214), the former 074.206, or COMP 2061(C).

COMP 3430 Operating Systems Cr.Hrs.3 (Lab Required) (Formerly 074.343) Operating systems, their design, implementation, and usage. Not to be held with the former 074.450 or 074.460. *Prerequisites:* one of COMP 2140 (074.214), the former 074.206, or COMP 2061(C); and COMP 2280 (074.228) (C); or both of ECE 3610 (C) and ECE 3680 (C). COMP 2160 (074.216) is recommended.

COMP 3440 Programming Language Concepts Cr.Hrs.3 (Formerly 074.344) An introduction to major concepts involved in the design of modern programming languages. The imperative, functional, and logical families and differences between them. Facilities for high level data and control structures, modular programming, data typing, and other topics will be covered. Not to be held with the former 074.310 or 074.348. *Prerequisite:* one of COMP 2140 (074.214), the former 074.206, or COMP 2061(C).

COMP 3490 Computer Graphics 1 Cr.Hrs.3 (Formerly 074.349) An introductory course in computer graphics including topics such as raster graphics, two and three dimensional transforms, and simple rendering. *Prerequisite:* one of COMP 2190, COMP 2191 (074.219) (C), or a calculus or algebra course at the 2000 level or higher (C).

COMP 3620 Professional Practice in Computer Science Cr.Hrs.3 (Formerly 074.362) Ethical, moral, and legal issues in the development and use of computer systems: standards of practice; implications of advanced computer systems. *Prerequisite:* one of COMP 2140 (074.214), the former 074.206, or COMP 2061(C).

COMP 3720 Computer Networks 1 Cr.Hrs.3 (Lab Required) (Formerly 074.372) This course examines the principles of computer networks, including network architectures, algorithms, and performance. Not to be held with ECE 3700 or the former 074.430. *Prerequisites:* COMP 2140 (074.214) (C) and COMP 2280 (074.228) (C).

COMP 3820 Introduction to Bioinformatics Algorithms Cr.Hrs.3 An introduction to problems in molecular biology and computational solutions. Focus on design and analysis of efficient algorithms. *Prerequisites:* COMP 2080 (074.208) and MBIO 2410 (C); or permission of instructor. Suggested concurrent requirement: COMP 3170.

COMP 3980 Workterm 2 Cr.Hrs.0 (Formerly 074.398) Work assignment in business, industry, or government for students registered in the Computer Science Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail). *Prerequisite:* COMP 2980 (074.298) (P).

COMP 4020 Human-Computer Interaction 2 Cr.Hrs.3 (Formerly 074.402) Advanced issues in the field of human-computer interaction. Topics will be selected from current research and development issues in the field of HCI. *Prerequisite:* COMP 3020 (074.302) (C). A course in cognitive psychology such as PSYC 2480 (017.248) is recommended.

COMP 4050 Project Management Cr.Hrs.3 (Formerly 074.405) Introduction to the issues involved in managing large, complex software projects. *Prerequisite:* COMP 3350 (074.335) (C).

COMP 4060 Topics in Computer Science Cr.Hrs.3 (Formerly 074.406) This course will examine topics of interest at the fourth-year level. Specific topics will vary from year to year. Topics will be selected from current research in computer science. *Prerequisite:* Departmental permission.

COMP 4140 Introduction to Cryptography and Cryptosystems Cr.Hrs.3 (Formerly 074.414) Description and analysis of cryptographic methods used in the authentication and protection of data. Classical cryptosystems and cryptanalysis, the Advanced Data Encryption Standard (ADES) and Public-key cryptosystems. *Prerequisite:* COMP 2130 (074.213) (C). Students must be registered in fourth year of a Major or Honours programme in the Department of Computer Science.

COMP 4180 Intelligent Mobile Robotics Cr.Hrs.3. Topics include artificial intelligence, computer vision, human-robot interaction, and multi-robot systems. These abstract components are grounded in the problem of developing a team of intelligent mobile robots. All topics are covered with specific emphasis on applied problems, e.g. real-time performance. Not to be held with the former COMP 4060 – “Mobile Robotics”. *Prerequisites:* COMP 2160 (074.216) and COMP 3190 (074.319) (C).

COMP 4190 Artificial Intelligence Cr.Hrs.3 (Formerly 074.419) Reasoning with temporal knowledge; causal reasoning; plausible reasoning; nonmonotonic reasoning; abductive reasoning. *Prerequisite:* COMP 3190 (074.319) (C).

COMP 4200 Expert Systems Cr.Hrs.3 (Formerly 074.420) Organization of expert systems; knowledge representation in expert systems; inference; knowledge engineering; tools for building expert systems; limitations of expert systems. *Prerequisite:* COMP 3190 (074.319) (C).

COMP 4220 Graph Theory Algorithms 2 Cr.Hrs.3 (Formerly 074.422) Maximum bipartite and non-bipartite matching, selection and analysis of efficient data structures, network flows, connectivity, edge-colourings, Hamilton cycles, NP-completeness. *Prerequisite:* COMP 3120 (074.312) (C) and COMP 4340 (074.434) (C).

COMP 4290 Compiler Construction 2 Cr.Hrs.3 (Formerly 074.429) A detailed examination of compiler construction techniques for modern imperative languages. Symbol tables, scanners, parsers, type checking, code generation, procedure linkage, diagnostics, code optimization. Includes the actual implementation of a useful subset of a modern language as a course project. *Prerequisites:* COMP 2150 (074.215) (C) and COMP 3290 (074.329) (C). COMP 2160 (074.216) is recommended.

COMP 4310 Computability Theory Cr.Hrs.3 (Formerly 074.431) Introduction to theory of computable functions. Turing machines and transducers, undecidability, universal Turing machines, recursive function theory, Turing machines with oracles, reducibility, and arithmetic hierarchy. Introduction to complexity theory. *Prerequisites:* COMP 2080 (074.208) (C); and COMP 3030 (074.303) or the former 074.327 (C). *Prerequisite* or concurrent requirement: COMP 3170 (074.317).

COMP 4340 Graph Theory Algorithms 1 Cr.Hrs.3 (Formerly 074.434) Spanning trees, connectivity, planar graphs, directed graphs, networks, colouring problems and tours are studied and their applications to computer science will be highlighted. *Prerequisite:* COMP 3170 (074.317) (C).

COMP 4350 Software Engineering 2 Cr.Hrs.3 (Formerly 074.435) Advanced treatment of software development methods. Topics will be selected from requirements gathering, design methodologies, prototyping, software verification and validation. *Prerequisite:* COMP 3350 (074.335) (C).

COMP 4360 Machine Learning Cr.Hrs.3 (Formerly 074.436) Learning strategies; evaluation of learning; learning in symbolic systems; neural networks, genetic algorithms. *Prerequisite:* COMP 3190 (074.319) (C).

COMP 4380 Database Implementation Cr.Hrs.3 (Formerly 074.438) Implementation of modern database systems including query modification/optimization, recovery, concurrency, integrity, and distribution. *Prerequisite:* COMP 3380 (074.338) (C).

COMP 4420 Advanced Design and Analysis of Algorithms Cr.Hrs.3 (Formerly 074.442) Algorithm design with emphasis on formal techniques in analysis and proof of correctness. Computational geometry, pattern matching, scheduling, numeric algorithms, probabilistic algorithms, approximation algorithms and other topics. *Prerequisites:* COMP 3170 (074.317) (C); and STAT 1000 or STAT 1001 (005.100) (C).

COMP 4430 Operating Systems 2 Cr.Hrs.3 (Formerly 074.443) Design and implementation of modern operating systems. Detailed analysis of an open source modern operating system and hands-on experience with its kernel and major components. *Prerequisites:* COMP 2160 (074.216) (C) and COMP 3430 (074.343) (C).

COMP 4490 Computer Graphics 2 Cr.Hrs.3 (Formerly 074.449) Methods in computer graphics including topics such as representation of curves and surfaces, viewing in three dimensions, and colour models. *Prerequisite:* COMP 3490 (074.349) (C).

COMP 4510 Introduction to Parallel Computation Cr.Hrs.3 (Formerly 074.451) An overview of the architectures of current parallel processors and the techniques used to program them. Not to be held with ECE 4530 or the former 024.446. *Prerequisites:* COMP 3370 (074.337) (C) and COMP 3430 (074.343) (C).

COMP 4520 Undergraduate Honours Project Cr.Hrs.3 (Formerly 074.452) A research based project on a specific area of computer science. Students must find a faculty supervisor and write a proposal in their penultimate term. If acceptable, the defined research is to be carried out in the student's final term. Permission to take the course is given on an individual basis. Available to 4th Year students only. *Prerequisite:* departmental permission.

COMP 4530 Introduction to Simulation and Model Building Cr.Hrs.3 (Formerly 074.453) Representation of systems by deterministic and stochastic models. Algorithms, data structures, and high-level languages for model manipulation and performance measurement. Methods for random number and variate generation. Not to be held with the former 024.447. *Prerequisites:* one of COMP 2140 (074.214), the former 074.206, or COMP 2061 (C); and STAT 1000 or STAT 1001 (005.100) (C); and one of MATH 1690 (136.169) (C), MATH 1700, MATH 1701 (136.170) (C), MATH 1710 (136.171) (C), or the former 136.173 (C).

COMP 4550 Real-Time Systems Cr.Hrs.3 (Formerly 074.455) An introduction to the theory and practice of real-time systems. Topics include the design of real-time systems, scheduling, event based processing, and real-time control. This course may not be held for credit if a student has previously completed both of ECE 4240 and ECE 3760. *Prerequisites:* COMP 3430 (074.343) (C) and COMP 3370 (074.337) (C).

COMP 4560 Industrial Project Cr.Hrs.3 (Formerly 074.456) Students will work in teams on an industrial project. Projects are supplied by the Department. *Prerequisites:* COMP 3350 (074.335) (C) and departmental permission.

COMP 4580 Computer Security Cr.Hrs.3 (Lab Required) (Formerly 074.458) Computer security and information management. This course will examine state-of-the-art knowledge about the issues relevant to data and computer security. *Prerequisite:* COMP 3430 (074.343) (C); and COMP 3720 (074.372) or the former 074.430 (C).

COMP 4690 Computer Systems and Architecture Cr.Hrs.3 (Formerly 074.469) Investigation of today's modern computer architecture and system design concepts, including requirements, specifications, and implementation. Instruction sets, instruction-level parallelism, speculative execution, multi-threaded architectures, memory hierarchy, multiprocessors, storage design and implementation, and interconnection networks. *Prerequisite:* COMP 3370 (074.337) (C).

COMP 4710 Introduction to Data Mining Cr.Hrs.3 Introduction to data mining concepts and their applications. *Prerequisite:* COMP 3380 (074.338) or consent of department.

COMP 4720 Computer Networks 2 Cr.Hrs.3 (Formerly 074.472) This course examines advanced topics in computer networks, including network security, network management, performance, and multimedia networking. *Prerequisite:* COMP 3720 (074.372) or the former 074.430 (C). Corequisite: COMP 3430 (074.343) (C).

COMP 4740 Advanced Databases Cr.Hrs.3 (Formerly 074.474) Parallel, distributed, object-oriented, object-relational, and XML databases; other emerging database technologies. *Prerequisite:* COMP 3380 (074.338) (C).

COMP 4980 Workterm 3 Cr.Hrs.0 (Formerly 074.498) Work assignment in business, industry, or government for students registered in the Computer Science Cooperative Option. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail). *Prerequisite:* COMP 3980 (074.398) (P).

5.7 Interdisciplinary Course in Forensic Science

FORS 2000 Introductory Forensic Science Cr.Hrs.3 Survey course which introduces forensic science via a series of guest lectures provided by experts from within the university and from the community (e.g., Winnipeg Police, RCMP, Chief Medical Examiner, etc.). Multidisciplinary topics will be covered including how a case is studied, use of scientific techniques in investigations, collection of evidence, the role of the

expert witness, and presentation of evidence in court. *Prerequisites:* BIOL 1030 (C+), CHEM 1310 (C+), and MATH 1500 (C+).

Note: The course FORS 2000 satisfies the University's "W" written English requirement.

5.8 Genetics Program

Program Coordinator: Lane Graham

Program Office: Z320 Duff Roblin

Telephone: 204 474 9245

Website: umanitoba.ca/science/biological_sciences

E-mail: lcgrahm@cc.umanitoba.ca

5.8.1 Program Information

The Faculty of Science offers an interdisciplinary program leading to a B.Sc. (Honours) degree in Genetics. Genetics is the science of heredity dealing with the mechanisms of inheritance and has generated concepts basic to modern biology. Three areas are represented in this program: classical genetics, population genetics, and molecular genetics. Courses from Arts, Agricultural and Food Sciences, and Medicine are included in this program.

Genetics Entry Requirements and Optional Courses

The requirements for entry to the Genetics Honours program are a "B" in each of CHEM 1300* and CHEM 1310, and not less than a "C+" in BIOL 1030*; or a "B" in BIOL 1030* and a "C+" in each of CHEM 1300* and CHEM 1310; plus a grade of "C" in STAT 1000 and standing in MATH 1500 and one of MATH 1200, MATH 1300, MATH 1700 or any equivalent. In addition, students must satisfy the general faculty requirements for entry to Honours programs. The Genetics Program Coordinator must approve a student's Honours program each session. Students must also obtain approval for any and all revisions to their program.

* Students interested in studying Genetics should note that Grade 12 mathematics and chemistry are prerequisite to CHEM 1300. Effective 2009-2010, students will also require Biology 40S (or equivalent) and any Grade 12 mathematics course (or equivalent) for entry to BIOL 1020 (the required prerequisite for BIOL 1030).

To proceed from Year 2 to Year 3, and Year 3 to Year 4, students must maintain a minimum Degree Grade Point Average of 3.00, and complete a minimum of 9 credit hours during each Fall and Winter Term. To graduate with the B. Sc. Honours degree, a student must maintain a minimum 3.00 DGPA, achieve a minimum grade of "C+" in each of the Honours Program Specific courses (see below), and achieve a minimum grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree.

Honours Program Specific Courses

BIOL 3500 (BOTN 3460), PLNT 3140, MBIO 3410, ANTH 2890, BGEN 3020, and either MBIO 4530* or BGEN 4010* (if selected).

Honours Cooperative Option

Students interested in alternating academic terms and terms of paid employment as part of their Honours Genetics program may enter the Cooperative Option in their third year in Genetics Honours. This five year program provides students with minimum 12 months of paid employment by the time they graduate. It enables them to obtain work experience in research and industry with participating firms, government agencies and University units.

The course and grade requirements for entry and continuation in the Cooperative Option are the same as that for regular Honours program (see above). Students are required to complete the first and second year requirements of the program and MBIO 3410 before they begin their first employment term. Each academic term in the third and subsequent years must comprise nine (9) credit hours. Students should refer to the general faculty regulations for B. Sc. (Honours) Cooperative Options in Section 3.6.

Students will apply for openings in the Cooperative Option in September of their third year in the Genetics Honours program. They will be notified of their provisional acceptance in the program by October. Acceptance into the program is dependent upon the students receiving an employment placement. Employment term positions available to the students will be approved by the department, and the employers will select the students they wish to employ. The first work term can be taken in January or May. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

Students are required to register in and pay fees for each employment term prior to the commencement of each employment term. Students will be required to submit an employment report upon the completion of each 4-month employment term.

5.8.2 Genetics

UNIVERSITY 1

YEAR 2

YEAR 3

YEAR 4

HONOURS¹ 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

CHEM 1300, CHEM 1310, BIOL 1020, BIOL 1030, STAT 1000,

MATH 1500²

Plus either MATH 1200, MATH 1300², or MATH 1700²

6 credit hours of electives or from the list of optional courses

BIOL 2500 (BOTN 2460), CHEM 2210, CHEM 2220, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370), STAT 2000, BIOL 2520 (ZOOL 2280), MBIO 2100, MBIO 2110

BIOL 3500 (BOTN 3460), PLNT 3140, MBIO 3410, ANTH 2890, BGEN 3020(6)

Plus 42 credit hours from list of optional courses, a minimum of 18 of which must be at the 4000 level

In University 1 or Year 2:

6 credit hours from the Faculty of Arts, which should include the required "W" course³.

30 Hours

30 Hours

30 Hours

30 Hours

HONOURS COOPERATIVE OPTION^{1,5} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

CHEM 1300, CHEM 1310, BIOL 1020, BIOL 1030, STAT 1000,

MATH 1500²

Plus either MATH 1200, MATH 1300² or MATH 1700² and 6 credit hours of electives or from the list of optional courses

BIOL 2500 (BOTN 2460), CHEM 2210, CHEM 2220, CHEM 2360 (MBIO 2360), CHEM 2370 (MBIO 2370), STAT 2000, BIOL 2520 (ZOOL 2280), MBIO 2100, MBIO 2110

BIOL 3500 (BOTN 3460), PLNT 3140, MBIO 3410, ANTH 2890, BGEN 3020⁴

MBIO 3980, MBIO 3990, MBIO 4980 and/or MBIO 4990

Plus 42 credit hours from list of optional courses, a minimum of 18 of which must be at the 4000 level

In University 1 or Year 2:

6 credit hours from the Faculty of Arts, which should include the required "W" course³.

30 Hours

30 Hours

30 Hours

30 Hours

NOTES:

¹ The courses in this program will satisfy the university mathematics requirement.

² MATH 1310 may be taken in place of MATH 1300; MATH 1510, or MATH 1520 may be taken in place of MATH 1500; MATH 1710 may be taken in place of MATH 1700; MATH 1690 may be taken in place of MATH 1500 and MATH 1700.

³ As there are no electives in Year 2 of the program, students should complete the University written English requirement in University 1. If not completed in University 1, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.

⁴ Students that begin their first work term in May must take BGEN 3020 in Year 3, while students that begin their first work term in January must take BGEN 3020 in Year 4.

⁵ IMPORTANT: Students in the cooperative program are advised to ensure that they are able to satisfy the prerequisites for all 3000 and 4000 level courses they plan to take.

The optional courses are:

Biological Sciences: BIOL 2410 (ZOOL 2530), BIOL 2420 (ZOOL 2540), BIOL 2540 (ZOOL 2150), BIOL 3300 (BOTN 3000, ZOOL 3000), BIOL 3560 (ZOOL 3060), BIOL 4500 (BOTN 4180), BIOL 4540 (ZOOL 4150), BIOL 4542 (ZOOL 4270), BIOL 4560 (ZOOL 4140).

Chemistry: CHEM 2280, CHEM 2290, CHEM 4360, CHEM 4370, CHEM 4620, CHEM 4630

Microbiology: MBIO 3010, MBIO 3430, MBIO 3440, MBIO 3450, MBIO 3460, MBIO 4010, MBIO 4410, MBIO 4530*, MBIO 4540, MBIO 4670 (or the former MBIO 4570), MBIO 4600, MBIO 4610.

Computer Science: COMP 1010, COMP 1020, COMP 1260, COMP 1270
Physics: PHYS 1020, PHYS 1030, PHYS 1050, PHYS 1070

Animal Science: ANSC 3500, ANSC 4280

Plant Science: PLNT 2530, PLNT 3500, PLNT 3520, PLNT 4330

Human Genetics: BGEN 4010*

By an appropriate selection of courses from this list, students can obtain particular program emphasis in either plant, human or molecular genetics.

All programs must contain a minimum of 18 credit hours of 4000 level courses as options in Years 3 and 4.

Other suitable optional courses may be arranged through consultation with the Genetics program committee.

*NOTE: MBIO 4530 is a project course. A research project is chosen in consultation with the Microbiology department and the Genetics program committee, and is supervised by a staff member. Only one of MBIO 4530 or BGEN 4010 may be elected in this program. MBIO 4530 and BGEN 4010 are not available to students in the Cooperative Option.

5.9.1 Academic Staff

Distinguished Professors Emeriti

Cohen, H., B.Sc. (Hons.) (Manitoba), M.Sc. (Brown), Ph.D. (Minnesota), P.Eng. F.A.A.M.

Distinguished Professors

Gratzer, G., B.Sc. (Eötvös), Ph.D. (Hungarian Academy of Sciences), Dr. Rerum Naturalis (Eötvös), D.Sc. (Hungarian Academy of Sciences), F.R.S.C.; **Gupta, C.K.**, B.A. (Kashmir), M.A. (Aligarh), M.A.(Hons.), Ph.D. (Australian National), F.R.S.C.

Professor Emeritus

Woods, R.G., B.Sc. (Hons.), M.Sc. (Manitoba), Ph.D. (McGill).

Senior Scholars

Aitchison, P.W., B.Sc.(Hons.) (London), M.A. (Colorado), Ph.D. (Australian National); **Clutton-Brock, M.**, B.A. (Cambridge), M.Sc. (Victoria), Ph.D. (Washington); **Dowling, R.J.**, B.Sc.(Hons.) (Manitoba), M.A. (Minnesota); **Gerhard, J.A.**, B.Sc., M.Sc., Ph.D. (McMaster); **Finlayson, H.C.**, B.Sc., M.Sc. (Alberta), Ph.D. (Minnesota); **Holens, T.F.**, B.Sc.(Hons.), M.Sc. (Manitoba); **Lakser, H.**, B.Sc.(Hons.) (Manitoba), A.M. (Princeton), Ph.D. (Manitoba); **Losey, N.E.**, B.A.(Hons.) (Toronto), M.Sc., Ph.D. (Wisconsin), S.U.A.C.; **McClure, J.P.**, B.Sc., M.A. (Waterloo), Ph.D. (Newcastle, UK); **Parameswaran, M.R.**, B.A., Dip. Ger. (Madras), B.Sc.(Hons.), M.A., M.Sc.,

D.Sc. (Annamalai), M.A. (Manitoba); **Quackenbush, R.W.**, B.S. (M.I.T.), M.S., Ph.D. (Stevens Institute of Technology); **Rayburn, M.C.**, B.A. (Evansville), M.S. (Auburn), Ph.D. (Kentucky); **Venkataraman, R.**, B.A.(Hons.) (Loyola, India), Dip. French, M.Sc., Ph.D. (Madras).

Professors

Berry, T.G., B.Math.(Hons.), M.Math, Ph.D. (Waterloo); **Doob, M.**, A.B. (Columbia), M.A., Ph.D. (CUNY); **Ghahramani, F.**, B.Sc.(Hons.) (Tehran), M.Sc. (Tehran Teacher Training), Ph.D. (Edinburgh); **Gumel, A.B.**, B.Sc. (Bayero), Ph.D. (Brunel); **Guo, B.**, B.Sc. (Fudan), M.Sc., Ph.D. (Maryland); **Kelly, D.**, B.A.Sc. (UBC), Ph.D. (Queen's); **Kopotun, K.**, M.Sc. (Kiev), Ph.D. (Alberta); **Krause, G.R.**, Dipl. Math., Dr. Phil. Nat. (Frankfurt); **Padmanabhan, R.**, B.Sc., M.Sc. (Madras), Ph.D. (Madurai); **Platt, C.R.**, B.Sc., M.Sc. (Iowa State), Ph.D. (Pennsylvania State); **Shivakumar, P.N.**, B.Sc. (Mysore), M.Sc. (Banaras) (London), Ph.D., D.Sc. (London), C.Math., F.I.M.A.; **Sichler, J.J.**, M.Sc., R.N.Dr., Ph.D. (Charles, Prague); **Thomas, R.S.D.**, B.Sc.(Hons.) (Toronto), M.A. (Waterloo), Ph.D. (Southampton), C.Math., F.I.M.A.; **Trim, D.W.**, B.Sc.(Hons.), M.Sc., Ph.D. (Waterloo); **Williams, J.J.**, B.Sc.(Hons.), M.Sc., Ph.D. (Toronto); **Zorboska, N.**, B.S., M.S. (Skopje), Ph.D. (Toronto).

Associate Professors

Chipalkatti, J., B.Tech (IIT Bombay), M.Sc. Ph.D. (Purdue); **Craigen, R.**, B.Sc. (UBC), M.Math, Ph.D. (Waterloo); **Kucera, T.G.**, B.Sc.(Hons.), M.Sc. (Manitoba), Ph.D. (McGill); **Lui, S.H.**, B.Sc., M.Sc. (Toronto), Ph.D. (CA Inst. of Technology); **Schippers, E. D.**, B.Sc., M.Sc., Ph.D. (Toronto); **Zhang, Y.**, M.Sc. (Shandong), Ph.D. (Manitoba).

Assistant Professors

Arino, J. B.Sc. (Paris 5), M.Sc. (Paris 6), Ph.D. (Grenoble 1); **Gunderson, D.** B.Sc., M.Sc. (Calgary), Ph.D. (Emory); **Lukács, G.**, B.Sc., M.Sc. (Technion - Israel Inst. of Technology), Ph.D. (York); **Portet, S.** B.Sc., M.Sc., Ph.D. (Paris); **Prymak, A.**, B.Math, M.Sc., Ph.D. (Kyiv National Taras Shevchenko); **Zhang, Y.**, B.Sc. (Henan), M.Sc., Ph.D. (Jilin), Ph.D. (Western Ontario).

Instructors

Iraghi Moghaddam, G., B.Sc., M.Sc. (Mashad, Iran), Ph.D. (Manitoba) (Instructor II); **Kalajdziewska, D.**, B.Sc. (Manitoba), M.Math (Alberta) (Instructor I); **Kalajdziewski, S.**, B.Sc., M.S. (Cyril and Methodius), Ph.D. (Toronto) (Senior Instructor); **Penner, P.**, B.Sc. (Hons.), M.Sc., Ph.D. (Manitoba) (Senior Instructor).

Adjunct Professors

Roddy, S., B.Sc. (Lakehead), M.Sc., Ph.D. (McMaster); **Shevchuk, I.A.**, B.Sc. (Kyiv State), Ph.D., Doctor of Science (Physics and Mathematics) (Institute of Mathematics, National Academy of Sciences of Ukraine); **Stokke, A.**, B.Sc. (Brandon), M.Sc. (Manitoba), Ph.D. (Alberta); **Stokke, R.**, B.Sc.(Hons.), M.Sc. (Manitoba), Ph.D. (Alberta).

5.9.2 Program Information

Mathematics provides the language, reasoning and analytic tools that many other disciplines use to investigate their areas. These include all the physical sciences, computer and engineering sciences, social sciences, and the biological and health sciences. A wide range of business, industrial, and government programs rely on mathematics to provide insight and analysis. Students may specialize in mathematics alone or in combinations with physics, computer science, economics, or statistics.

The department must approve a student's Honour or Major program each session. Students must also obtain approval for any and all revisions to their program.

NOTE: Students entering either the Faculty of Arts or Science, and intending to take courses from the department, are strongly advised to speak to a Science student advisor or a faculty advisor in the department concerning an appropriate choice of mathematics courses. They may also consult the Department of Mathematics website at umanitoba.ca/science/mathematics.

Honours Requirements

To enter the Honours program in Mathematics a student must have a minimum grade of "B" in MATH 1300 and either MATH 1700 or MATH 1690 or any equivalent. In addition, students must have satisfied the Faculty requirements for entry to the Honours program. Students must complete a minimum of nine (9) credit hours each Fall and Winter Term.

To graduate with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and a minimum grade of "C+" in each of the Honours Program Specific courses (see below), and a minimum grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree.

Honours Program Specific Courses

MATH 3230, MATH 3300, MATH 3350, MATH 3400, MATH 3700, MATH 3710, MATH 3760 and MATH 3800.

The program for students who elect Honours in Mathematics is as follows:

Year 2 Mathematics courses as indicated in the chart below and nine (9) credit hours from such fields as physics, chemistry, actuarial mathematics, computer science, statistics, philosophy, or economics. Other fields may be elected with the approval of the department.

Year 3 Mathematics courses as indicated in the chart below and electives to be chosen from the subject fields below or a third or fourth year Mathematics course not already elected. Students performing satisfactorily in Year 2 may obtain permission to take an additional course.

Year 4 Mathematics courses as indicated in the chart below and electives to be chosen from the subject fields below or a third or fourth year Mathematics course not already elected. Students performing satisfactorily in Year 3 may obtain permission to take an additional course.

Electives normally allowed are:

Statistics: STAT 2000, STAT 2400, the former STAT 3180, STAT 3470, STAT 3480, STAT 3400 (STAT 3500), STAT 3800 (STAT 3600), STAT 4100 (STAT 4140), STAT 4520, STAT 4530, STAT 4580, STAT 4590, STAT 4600, STAT 4620, STAT 4630, STAT 4690.

Physics: PHYS 2380, PHYS 2600, PHYS 2610, PHYS 2650, PHYS 3670, PHYS 3680, PHYS 3650, PHYS 3660, PHYS 3630, PHYS 3640, PHYS 3380, PHYS 4390, PHYS 4620, PHYS 4640, PHYS 4650.

Chemistry: CHEM 2280, CHEM 2290, CHEM 3360, CHEM 3370, CHEM 4640, CHEM 4650.

Economics: ECON 2530, ECON 2700, ECON 3700, ECON 3730, ECON 4120, ECON 4130.

Mechanical Engineering: MECH 3490.

Other courses may be elected with permission of the department. Students are required to obtain the approval of the department concerning their choice of electives.

A student may elect Honours in Mathematics and one other field, subject to the approval of both departments. The Mathematics prescription for a Double Honours program is as indicated in the table below.

Honours programs must be approved each year by the department.

Four Year Major Requirements

To enter the four year Major in Mathematics, a student must have a "C+" in either MATH 1690 or in two of MATH 1300, MATH 1500 and MATH 1700 or any equivalent and have satisfied all Faculty requirements for entry to the program.

To graduate with the B. Sc. Major degree, a student must achieve a minimum DGPA of 2.00 and a minimum grade of "C" in each of the Major Program Specific courses (see below).

Major Program Specific Courses

MATH 1300, MATH 1500, MATH 1700, (or MATH 1690 in place of MATH 1500 and MATH 1700), MATH 2202, MATH 2352, MATH 2600, MATH 2750, MATH 2800, MATH 3300, MATH 3350, MATH 3400, MATH 3700, MATH 3710, MATH 3740, MATH 3760, and MATH 3800.

It is suggested that among their electives, students might choose courses in which mathematics is extensively used, for example, courses in physics, chemistry and certain courses in economics. For advice on this point students should talk to a faculty member in the department.

Four Year Major in Applied Mathematics with Option (Computer Science, Economics, Statistics)

These programs provide a sound general knowledge of applied mathematics together with a significant number of courses in the option area. Courses in the Computer Science option provide training in aspects of computer science which are most useful to the practicing mathematician. Courses in the Computer Sciences, Economics, and Statistics options are fundamental to each area and provide a strong, mathematical basis for further study.

To enter the four year Major in Applied Mathematics with one of the above four options, a student must have a "C+" in either MATH 1690 or two of MATH 1200, MATH 1300, MATH 1500, or MATH 1700, one of which must be either MATH 1500, or MATH 1700, and have satisfied all faculty requirements for entry to the program.

To graduate with the B. Sc. Major degree, a student must achieve a minimum DGPA of 2.00 and a minimum grade of "C" in each of the Major Program Specific courses (see below).

Major Program Specific Courses

MATH 1200, MATH 1300, MATH 1500, MATH 1700 (or MATH 1690 in place of MATH 1500 and MATH 1700), MATH 2300, MATH 2400, MATH 2600, MATH 2720, MATH 2730, MATH 2800, MATH 3500, MATH 3600, MATH 3700, MATH 3740, MATH 3800, MATH 3810, and MATH 3820.

It is recommended that students take all 12 credit hours of 1000 level mathematics courses in their initial 30 credit hours; however, students should take at least MATH 1300, MATH 1500 and MATH 1700. See the individual charts below for additional requirements for each option.

Options List: MATH 2450, MATH 2500, MATH 2552, the former MATH 2550, or any 3rd or 4th year Mathematics course.

Three Year General

As prescribed with all other faculty regulations in Section 3.2, students in this program must select 18 credit hours of 2000, 3000, and (or) 4000 level courses from each of **two** Science areas. To satisfy the requirement in the area of Mathematics, students must select a minimum of 18 credit hours of 2000, 3000, and (or) 4000 level Mathematics courses (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level).

See a Science Student Advisor or a Faculty Advisor in the department for information regarding entry to or completion of any of the programs outlined below.

5.9.3 Mathematics

UNIVERSITY 1

YEAR 2

YEAR 3

YEAR 4

MATHEMATICS HONOURS⁴ 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

MATH 1300¹ (B), MATH 1690 (B), (or MATH 1500¹ and MATH 1700¹ (B)), STAT 1000², COMP 1010²

Plus 6 credit hours from the Faculty of Arts, which should include the required "W" course

MATH 2202, MATH 2352, MATH 2600, MATH 2750, MATH 2800

48 credit hours³ of 3000 and 4000 level Mathematics⁵ courses, which must include MATH 3230, MATH 3400, MATH 3760, MATH 3800 and one of two of the concentrations listed below:

Applied and Computational Mathematics Concentration:

MATH 3300 or MATH 3350; MATH 3700 or MATH 3710; and at least 12 credit hours from MATH 3510, MATH 3600, MATH 3810, MATH 3820, MATH 4310, MATH 4610, MATH 4800 or MATH 4810

Pure Mathematics Concentration:

MATH 3350, MATH 3710 and at least 12 credit hours from MATH 3240, MATH 4200, MATH 4350, MATH 4410 or MATH 4420, MATH 4710, MATH 4750

30 Hours

30 Hours

30 Hours

30 Hours

MATHEMATICS HONOURS DOUBLE⁴ MINIMUM 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

MATH 1300¹(B), MATH 1690 (B) (or MATH 1500¹ and MATH 1700¹ (B)), STAT 1000², COMP 1010²

Plus 6 credit hours from the Faculty of Arts, which should include the required "W" course

MATH 2202, MATH 2352, MATH 2600, MATH 2750, MATH 2800

MATH 3230, MATH 3350, MATH 3710, MATH 3760

MATH 3800

Plus 12 credit hours from MATH 4200, MATH 4210, MATH 4350, MATH 4710, MATH 4720, MATH 4750³

Plus at least an additional 3 credit hours from among the above and MATH 3220, MATH 3240, MATH 3400, MATH 3430, MATH 3450, MATH 4250, MATH 4400, MATH 4410, MATH 4420, MATH 4430, MATH 4800, MATH 4920, MATH 4960

MATHEMATICS JOINT HONOURS COMPUTER SCIENCE-MATHEMATICS⁴ See Section 5.6 Computer Science

MATHEMATICS JOINT HONOURS STATISTICS-MATHEMATICS⁴ See Section 5.13 Statistics

MATHEMATICS FOUR YEAR MAJOR^{4,6} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

MATH 1300¹, MATH 1500¹ and MATH 1700¹ (or MATH 1690), STAT 1000², COMP 1010²

Plus 6 credit hours from the Faculty of Arts, which should include the required "W" course

MATH 2202, MATH 2352, MATH 2600, MATH 2750, MATH 2800

MATH 3300 or MATH 3350, MATH 3400, MATH 3700 or MATH 3710, MATH 3740 or MATH 3760, MATH 3800 and enough courses from MATH 2400, MATH 2500, STAT 2000 and all third and fourth year Mathematics courses to make 48 credit hours

APPLIED MATHEMATICS FOUR YEAR MAJOR with COMPUTER SCIENCE OPTION^{4,6} 120 CREDIT HOURS

MATH 1200, MATH 1300¹, MATH 1500¹ and MATH 1700¹ (or MATH 1690), COMP 1010, COMP 1020

Plus 6 credit hours from the Faculty of Arts, which should include the required "W" course

MATH 2300, MATH 2600, MATH 2720, MATH 2730, MATH 2800, COMP 2140

MATH 2400, MATH 3600, MATH 3700, MATH 3740, MATH 3800, MATH 3810, MATH 3820

Plus STAT 1000 and STAT 2000; plus an additional 6 credit hours from options list; plus one of the following patterns:

Graphics: COMP 2190, COMP 3490, COMP 4490;

or Software: COMP 2150, COMP 3440, and one of COMP 2160, COMP 3380, or COMP 3020;

or Theoretical Computer Science: COMP 2080, COMP 2130, COMP 3170 or COMP 4530;

or Hardware: COMP 2160, COMP 2280, COMP 3370 or COMP 3430;

or Artificial Intelligence: COMP 3190, two of: COMP 4190, COMP 4200, COMP 4360

APPLIED MATHEMATICS FOUR YEAR MAJOR with ECONOMICS OPTION^{4,6} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

MATH 1200, MATH 1310 ¹ , MATH 1500 ¹ and MATH 1700 ¹ (or MATH 1690), ECON 1200 (or both ECON 1210 and ECON 1220)	MATH 2300, MATH 2600, MATH 2720, MATH 2730, MATH 2800	MATH 2400, MATH 3600, MATH 3700, MATH 3740, MATH 3800, MATH 3810, MATH 3820, MATH 4310
---	---	---

Plus STAT 1000 and STAT 2000; COMP 1010; plus an additional 3 credit hours from options list; plus ECON 2530 and ECON 3730, and at least two of ECON 2450, ECON 2460, ECON 2470 and ECON 2480

A "W" course must be taken in University 1 or Year 2

APPLIED MATHEMATICS FOUR YEAR MAJOR with STATISTICS OPTION^{4,6} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

MATH 1200, MATH 1300 ¹ , MATH 1500 ¹ and MATH 1700 ¹ (or MATH 1690), STAT 1000	STAT 2000, MATH 2300, MATH 2600, MATH 2720, MATH 2730, MATH 2800	MATH 2400, MATH 3600, MATH 3700, MATH 3740, MATH 3800, MATH 3810, MATH 3820, STAT 2400, STAT 3470, STAT 3480, STAT 3500, STAT 3600
---	--	--

Plus 6 credit hours from the Faculty of Arts, which should include the required "W" course

COMP 1010, plus an additional 6 credit hours from the options list, plus 6 credit hours of 3000 or 4000 level Statistics courses

THREE YEAR GENERAL

18 credit hours of 2000, 3000, and (or) 4000 level Mathematics courses (subject to the Faculty requirement that of the 36 credit hours to be completed in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level.)"

MINOR

MATH 1300¹, MATH 1500¹ and MATH 1700¹ (or MATH 1690) plus a minimum of 9 credit hours from MATH 1200 and 2000 and (or) 3000 level Mathematics courses

NOTES:

¹ MATH 1510 or MATH 1520 may be taken in place of MATH 1500; MATH 1310 may be taken in place of MATH 1300; MATH 1710 may be taken in place of MATH 1700.

² STAT 1000 and COMP 1010 do not have to be taken in University 1, but they have to be taken by the end of Year 2.

³ Students considering graduate work in pure mathematics should note that many graduate schools may require a student to rectify any deficiencies in MATH 4200, MATH 4210, MATH 4350, MATH 4710, MATH 4720 and MATH 4750.

⁴ The courses required in this program will satisfy the University mathematics requirement.

⁵ MATH 3200, MATH 3210, MATH 3740 and MATH 3910 cannot be used in an Honours program.

⁶ **IMPORTANT:** The four year Major programs need not be completed in the manner prescribed in the charts above. Each chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their programs with a view to satisfying the prerequisites of the required courses. Please refer to the text above for the minimum requirements for entry to a four year Major.

(Letters in brackets indicate minimum prerequisite standing for further study.)

5.9.4 Mathematics – Physics and Astronomy Joint Honours Program

The Departments of Mathematics and Physics and Astronomy offer a joint Honours program for students wishing in-depth study in both Mathematics and Physics.

Honours Requirements

To enter the Joint Honours Mathematics – Physics Honours program the student must have a minimum grade of "B" in MATH 1300¹, MATH 1510¹ and MATH 1710¹ (or MATH 1690), PHYS 1050 (or "B+" in PHYS 1020) and PHYS 1070.

To graduate with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and a minimum grade of "C+" in each of the Honours Program Specific courses, and a minimum grade of "C" on all remaining courses that contribute to the 129 credit hours of the degree. See the Calendar entry for each of the Department of Mathematics and the Department of Physics and Astronomy for the Honours Program Specific courses.

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
JOINT HONOURS⁴ 129 CREDIT HOURS (comprising courses listed in chart below, and electives)			
MATH 1300 ¹ (B), MATH 1510 ¹ (B) and MATH 1710 ¹ (B) (or MATH 1690 (B)), PHYS 1050 (B) (or PHYS 1020 (B+)) ² and PHYS 1070 (B), STAT 1000, COMP 1010	PHYS 2260, PHYS 2380, PHYS 2600, PHYS 2610, PHYS 2650 ³ , MATH 2202, MATH 2352, MATH 2750, MATH 2800	MATH 3230, MATH 3350 (or MATH 3300 and MATH 3310), MATH 3700 or MATH 3710, MATH 3760, PHYS 3670, PHYS 3680, PHYS 3650, PHYS 3630, PHYS 3640 ⁶ , PHYS 3380	MATH 3800, MATH 4810 ⁷ Plus 9 credit hours of 3000 or 4000 level Mathematics courses, of which 3 credit hours must be at the 4000 level PHYS 3430, PHYS 3660, PHYS 4390
Plus 6 credit hours from the Faculty of Arts, which should include the required "W" course ⁵			Plus 6 credit hours from 3000 and 4000 level Physics Honours courses
27 Hours	33 Hours	36 Hours	33 Hours

NOTES:

- ¹ MATH 1310 may be taken in place of MATH 1300; MATH 1500, or MATH 1520 may be taken in place of MATH 1510; MATH 1700 may be taken in place of MATH 1710.
- ² PHYS 1030 is not suitable for entry to the program. Students must also take PHYS 1070 if they have already taken PHYS 1030. Students can hold credit for both PHYS 1030 and PHYS 1070.
- ³ The corequisite of PHYS 2490 is waived. It is recommended that students audit PHYS 2390 and PHYS 2490 in second year.
- ⁴ The courses required in this program will satisfy the University mathematics requirement.
- ⁵ As there are no electives in Year 2 of the program, students should complete the university written English requirement in University I. If not completed in University I, a "W" course must be completed prior to Year 3 in addition to the required Year 2 courses.
- ⁶ The prerequisite of PHYS 2490 is waived.
- ⁷ The prerequisite of MATH 3810 has been waived for students who have completed PHYS 3630, PHYS 3640 and PHYS 3380.
(Letters in brackets indicate minimum prerequisite standing for further study.)

5.9.5 Mathematics – Economics Joint Honours Program

The Department of Mathematics along with the Department of Economics (Faculty of Arts) offer a joint Honours program for students wishing in depth study in Mathematics and Economics. For Economics course listings, refer to the Faculty of Arts chapter in the Calendar.

To enter the Joint Honours Mathematics - Economics program, the student must have a minimum grade of "B" in ECON 1200 (or ECON 1210 and ECON 1220), MATH 1300¹, MATH 1700¹ and have satisfied the Faculty of Science requirements for entry to the honours program.

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
JOINT HONOURS 120 CREDIT HOURS (comprising courses listed in chart below, and electives)			
ECON 1200, (or ECON 1210 and ECON 1220) MATH 1300 ¹ , MATH 1500 ^{1,2} , MATH 1700 ^{1,2} , STAT 1000 ³ , COMP 1010 ³ Plus 9 credit hours of electives ⁶ , which should include the required "W" course	ECON 2700, ECON 2800, MATH 2202, MATH 2352, MATH 2750, MATH 2800 Plus 6 credit hours of approved electives ⁶	ECON 3700, ECON 3800, ECON 3180 ⁷ (or STAT 2000) ³ , MATH 2600 ³ , MATH 3230, MATH 3300 ⁵ , MATH 3400, MATH 3700 (or MATH 3710), MATH 3740 (or MATH 3760) Plus 24 credit hours of approved Economics courses ⁴ Plus 6 credit hours of Mathematics courses at the 3000 or 4000 level, which must include at least one of MATH 3510, MATH 3600, MATH 3810, MATH 3820, MATH 4310, or any Mathematics course at the 4000 level.	
30 Hours	30 Hours	30 Hours	30 Hours

NOTES:

- ¹ MATH 1310 may be taken in place of MATH 1300; MATH 1510, or MATH 1520 may be taken in place of MATH 1500; MATH 1710 may be taken in place MATH 1700.
- ² The combination of MATH 1500¹ and MATH 1700¹ may be replaced by MATH 1690.
- ³ Some courses may be taken in a different year than indicated; STAT 1000, COMP 1010, MATH 2600 and ECON 3180 (or STAT 2000) may be taken in Year 2.
- ⁴ Of the 24 credit hours of electives in Economics in Years 3 and 4, no more than 6 credit hours may be at the 2000 level (with the exception of ECON 2530) and at least 6 credit hours must be at the 4000 level.
- ⁵ MATH 3300, plus 3 of the 6 unallocated credit hours in Mathematics in Years 3 and 4, may be replaced by MATH 3350.
- ⁶ Students are encouraged to consider useful courses in Computer Science and Statistics as electives.
- ⁷ The prerequisite of ECON 3170 is waived for students in this program.

5.9.6 Mathematics Course Descriptions

Note: Unless otherwise specified, a minimum grade of "C" must be achieved for any course stipulated as prerequisite to a further course in Mathematics.

MATH 0500 Preparing for University Mathematics Cr.Hrs.0 A voluntary non-credit mathematics course for students, holding credit in Pre-Calculus 40S or Applied Mathematics 40S or equivalent, who would benefit from improving their knowledge and skills concerning topics included in the Manitoba secondary school mathematics curriculum. This course may be taken prior to or concurrently with MATH 1200, 1210, 1300, 1310, 1500, 1510, 1520, 1700, 1710 or 1690. Students participating in this course should purchase the set of notes "Preparing for University Mathematics" from the University of Manitoba Bookstore. *Prerequisite:* a grade of 60% in Pre-Calculus 40S, 70% in Applied Mathematics 40S or a grade of 60% or better in the Math Skills course offered by Extended Education.

MATH 1010 Applied Finite Mathematics Cr.Hrs.3 (Lab Required) (Formerly 136.101) For students needing to fill the requirement of a university level mathematics course. Introduces students to modern applications of discrete mathematics. Topics include: mathematics of finance, linear programming, graph theory, and game theory. This is a terminal course and may not be used as a prerequisite for other Mathematics courses. This course cannot be used as part of an Honours, Major, General or Minor program in the mathematical sciences. Not available to any student already holding a grade of "C" or better in any Mathematics course with the exception of MATH 1020 (136.102), FA 1020 (054.102), MATH 1190, MATH 1191 (136.119). Not to be taken concurrently with any other Mathematics course with the exception of MATH 1020, FA 1020, MATH 1190, or MATH 1191. No *prerequisite*.

MATH 1020 Mathematics in Art Cr.Hrs.3 (Formerly 136.102) Specific theory, structuring systems, and mathematical methods and principles used in works of art from various historical periods and contexts will be explored in relation to Euclidean and non-Euclidean geometries. Topics include: linear perspective; shapes, patterns, balance and symmetry; ratio, proportion and harmony; and order, dynamics, and chaos. The course will be one half art and one half mathematics, team-taught by faculty from the School of Art and the Department of Mathematics. This course is also given in the School of Art as FA 1020. This is a terminal course and may not be used as a preq-

uisite for other Mathematics courses. This course cannot be used as part of an Honours, Major, General or Minor program in the mathematical sciences. Not available to any student already holding a grade of "C" or better in any Mathematics course with the exception of MATH 1010 (136.101), MATH 1190, MATH 1191 (136.119). Not to be taken concurrently with any other Mathematics course with the exception of MATH 1010, MATH 1190, or MATH 1191. Not to be held with FA 1020 (054.102). No *prerequisite*.

MATH 1190 Topics in Mathematics Cr.Hrs.6 (Formerly 136.119) This course is designed to give students in various faculties a measure of insight into modern mathematics. Topics are taken from number systems, geometry, and combinatorics. This is a terminal course and may not be used as a prerequisite for other Mathematics courses. May not hold with MATH 1191. This course cannot be used as part of an Honours, Major, General or Minor program in the mathematical sciences. Not available to any student already holding a grade of "C" or better in any Mathematics course with the exception of MATH 1010 (136.101), MATH 1020 (136.102), or FA 1020 (054.102). Not to be taken concurrently with any other Mathematics course with the exception of MATH 1010, MATH 1020, or FA 1020. No *prerequisite*.

MATH 1200 Elements of Discrete Mathematics Cr.Hrs.3 (Lab Required) (Formerly 136.120) Sequences and series, trigonometry, complex numbers, algebra of polynomials, approximation of zeros of functions, linear difference equations. Not to be held with MATH 1210, or MATH 1201. Not available to any student holding credit in any Mathematics course numbered 2000 or higher, unless MATH 1200 is a required course in a student's program. *Prerequisite:* a minimum grade of 60% in Pre-calculus 40S or the former Mathematics 40S (300), or a grade of 60% or better in the Mathematical Skills course taught by Extended Education.

MATH 1210 Techniques of Classical and Linear Algebra Cr.Hrs.3 (Lab Required) To introduce a variety of practical algebraic concepts and skills necessary for the study of calculus and advanced engineering mathematics. The emphasis of this course is in the development of methodology and algebraic skill necessary for successful completion of subsequent engineering mathematics courses. This course is intended for Engineering and Geophysics students only. Not to be held with MATH 1200 (136.120), MATH 1201, MATH 1300 (136.130), MATH 1301, or MATH 1310 (136.131). *Prerequisites:* a minimum grade of 60% in Pre-calculus Mathematics 40S or the former

Mathematics 40S (300), or a grade of 60% or better in the Mathematical Skills course taught by Extended Education.

MATH 1300 Vector Geometry and Linear Algebra Cr.Hrs.3 (Lab Required) (Formerly 136.130) An introduction to vectors, matrices, systems of linear equations and three-dimensional geometry. Not to be held for credit with MATH 1210, MATH 1301, MATH 1310 (136.131), or the former MATH 1680 (136.168). *Prerequisite:* a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or a grade of 60% or better in the Mathematical Skills course taught by Extended Education. NOTE: A minimum grade of 70% in Applied Mathematics 40S may be used as a *prerequisite* to this course.

MATH 1310 Matrices for Management and Social Sciences Cr.Hrs.3 (Lab Required) (Formerly 136.131) Matrix methods with examples relevant to the Management and Social Sciences. Topics include vectors, matrices, systems of linear equations, and determinants; applications include economic models, the simplex method for linear programming, Markov chains, and game theory. Not to be held with MATH 1210, MATH 1300 (136.130), MATH 1301, or the former MATH 1680 (136.168). *Prerequisite:* a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or a grade of 60% or better in the Mathematical Skills course taught by Extended Education. NOTE: A minimum grade of 70% in Applied Mathematics 40S may be used as a *prerequisite* to this course.

MATH 1500 Introduction to Calculus Cr.Hrs.3 (Lab Required) (Formerly 136.150) Differentiation and integration of elementary functions, with applications to maxima and minima, rates of change, area, and volume. Not to be held with MATH 1501, MATH 1510 (136.151), MATH 1520 (136.152), the former 136.153, the former MATH 1680 (136.168), or MATH 1690 (136.169). *Prerequisite:* a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or a grade of 60% or better in the Mathematical Skills course taught by Extended Education.

MATH 1510 Applied Calculus 1 Cr.Hrs.3 (Lab Required) (Formerly 136.151) Functions and graphs; limits and continuity; differentiation of functions defined explicitly, implicitly and parametrically; applications of derivatives to velocity and acceleration, related rates, maxima and minima; differentials, indefinite and definite integrals, application of integration to area. Physical applications in this course make it especially suitable for students intending to take programs in engineering. Not to be held with MATH 1500, MATH 1501 (136.150), MATH 1520 (136.152), the former 136.153, the former MATH 1680 (136.168), or MATH 1690 (136.169). *Prerequisite:* a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or a grade of 60% or better in the Mathematical Skills course taught by Extended Education; and Physics 40S (300) or a "P" in PHYS 0900 (016.090).

MATH 1520 Introductory Calculus for Management and Social Sciences Cr.Hrs.3 (Lab Required) (Formerly 136.152) Differentiation and integration of functions of one variable and partial differentiation of functions of several variables. Emphasizes applications in the areas of management and social science. Not to be held with MATH 1500, MATH 1501 (136.150), MATH 1510 (136.151), the former 136.153, the former MATH 1680 (136.168), or MATH 1690 (136.169). *Prerequisite:* a minimum grade of 60% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300), or a minimum grade of 60% in the Mathematical Skills course taught by Extended Education.

MATH 1690 Calculus Cr.Hrs.6 (Lab Required) (Formerly 136.169) An introduction to the calculus of functions of one variable. This course covers the same material as MATH 1500 (136.150) and MATH 1700 (136.170) together, but in greater depth. Exposure to high school calculus (45S) is desirable, but not essential. This course is mathematically challenging and is intended for students planning to enter an Honours or 4 year Major program in Mathematics. Not to be held with MATH 1500, MATH 1501 (136.150), MATH 1510 (136.151), MATH 1520 (136.152), the former 136.153, the former MATH 1680 (136.168), MATH 1700, MATH 1701 (136.170), MATH 1710 (136.171), or the former 136.173. *Prerequisite:* a minimum grade of 80% in Pre-calculus Mathematics 40S or the former Mathematics 40S (300).

MATH 1700 Calculus 2 Cr.Hrs.3 (Lab Required) (Formerly 136.170) Theory and techniques of integration, curve sketching, volume, arc length, surface area and partial derivatives. Not to be held with MATH 1690 (136.169), MATH 1701, MATH 1710 (136.171), or the former 136.173. *Prerequisite:* A grade of "C" or better in one of MATH 1500, MATH 1501 (136.150), MATH 1510 (136.151), MATH 1520 (136.152), the former 136.153, or the former MATH 1680 (136.168).

MATH 1710 Applied Calculus 2 Cr.Hrs.3 (Lab Required) (Formerly 136.171) Applications of integration to volumes, centres of mass, moments of inertia, work and fluid pressure; differentiation of trigonometric, inverse trigonometric, exponential, and logarithmic functions; techniques of integration; polar coordinates. Physical applications in this course make it especially suitable for students intending to take programs in engineering. Not to be held with MATH 1690 (136.169), MATH 1700 (136.170), MATH 1701, or the former 136.173. *Prerequisite:* A grade of "C" or better in one of MATH 1500 (136.150), MATH 1501, MATH 1510 (136.151), MATH 1520 (136.152), the former 136.153, or the former MATH 1680 (136.168). *Prerequisite or concurrent Requirement:* PHYS 1050 or PHYS 1051.

MATH 2120 Introductory Numerical Methods for Engineers Cr.Hrs.4 (Lab Required) (Formerly 136.212) Numerical methods applied to problems in engineering; roots of nonlinear equations and systems of linear equations, numerical differentiation and integration, initial-value problems. For Engineering and Geophysics students only. Not to be held with MATH 2600 (136.260) or MATH 2601. *Prerequisites:* one of COMP 1010, COMP 1011 (074.101), the former 074.111, or the former 074.112 (C); and MATH 2132 or the former MATH 2100 (136.210) (C).

MATH 2130 Engineering Mathematical Analysis 1 Cr.Hrs.3 (Lab required) Multivariable differential and integral calculus up to and including multiple integrals in cylindrical and spherical coordinates. For Engineering and Geophysics students only. This course may not be held for credit with MATH 2720 (136.272, 136.270), MATH 2750 (136.275), or the former MATH 2110 (136.211). *Prerequisites:* MATH 1210 and MATH 1710 (136.171) (C).

MATH 2132 Engineering Mathematical Analysis 2 Cr.Hrs.3 (Lab required) Infinite series, Taylor and Maclaurin Series; ordinary differential equations including Laplace transforms. For Engineering and Geophysics students only. This course may not be held for credit with MATH 2800 (136.280), MATH 2730 (136.273, 136.271), or the former MATH 2100 (136.210). *Prerequisites:* MATH 1210 (C) and MATH 1710 (136.171) (C).

MATH 2202 Fundamentals of Mathematical Analysis Cr.Hrs.3 (Formerly MATH 2200) The language of mathematics: logic, methods of proof, elementary set theory. Foundations of calculus: the real numbers, continuity. This course is mathematically challenging and is intended primarily for students registered in Honours, Joint Honours or the Four-Year Major program. Registration for this course requires approval of the department. Not to be held with the former MATH 2200 (136.220). *Prerequisites:* a grade of C+ or better in one of MATH 1300, MATH 1301 (136.130), or MATH 1310 (136.131); and a grade of C+ or better in one of MATH 1690 (136.169), MATH 1700, MATH 1701 (136.170), or MATH 1710 (136.171).

MATH 2300 Linear Algebra 2 Cr.Hrs.3 (Formerly 136.230) A continuation of MATH 1300 or MATH 1310. Finite dimensional vector spaces; linear transformation and matrices; eigenvalues and eigenvectors; diagonalization and applications; inner product spaces. Not to be held with MATH 2301, MATH 2352, the former MATH 2350 (136.235), or MATH 3130 (136.313). *Prerequisites:* a grade of "C" or better in one of MATH 1300, MATH 1301 (136.130), or MATH 1310 (136.131); and a grade of "C" or better in one of MATH 1500, MATH 1501 (136.150), MATH 1510 (136.151), MATH 1520 (136.152), the former 136.153, or MATH 1690 (136.169).

MATH 2352 Advanced Linear Algebra Cr.Hrs.6 (Formerly MATH 2350 or 136.235) Vector spaces, linear transformations, inner product spaces, eigenvalues and eigenvectors, orthogonal and Hermitian matrices, and applications. This course is mathematically challenging and is intended primarily for students registered in Honours, Joint Honours or the Four-Year Major program. Registration in this course requires approval of the department. Not to be held with MATH 2300, MATH 2301 (136.230), the former MATH 2350 (136.235), or MATH 3130 (136.313). *Prerequisites:* a grade of "C+" or better in one of MATH 1300, MATH 1301 (136.130), or MATH 1310 (136.131); and a grade of "C+" or better in one of MATH 1690 (136.169), MATH 1700, MATH 1701 (136.170), MATH 1710 (136.171), or the former 136.173.

MATH 2400 Applied Graph Theory Cr.Hrs.3 (Formerly 136.240) Graphs, planar graphs, directed graphs. Applications such as scheduling, assignments, timetabling, tournaments, networks with algorithms. *Prerequisite:* one of MATH 1300 (C), MATH 1301(136.130) (C) or MATH 1310 (136.131) (C). Not available to students already holding credit for, or are currently registered in COMP 4340 (074.434).

MATH 2450 Combinatorial Mathematics Cr.Hrs.6 (Formerly 136.245) An introduction to several areas of current interest in combinatorial mathematics, including techniques of enumeration, graphs, block designs and generalizations, linear recursions. This course is not normally offered every year. May not hold with MATH 2451. *Prerequisite:* An average of "C" or better in six credit hours of Year 1 Mathematics courses with the exception of the former 136.100, MATH 1010 (136.101), MATH 1020 (136.102), FA 1020 (054.102), MATH 1190 (136.119), or MATH 1191; or consent of department.

MATH 2500 Introduction to Number Theory Cr.Hrs.3 (Formerly 136.250) Topics may include divisibility, unique factorization, linear and quadratic congruences, Fermat's theorem. This course may not be held with MATH 2501. *Prerequisite:* An average of "C" or better in six credit hours of Year 1 Mathematics courses with the exception of the former 136.100, MATH 1010 (136.101), MATH 1020 (136.102), FA 1020 (054.102), MATH 1190 (136.119) and MATH 1191; or consent of department.

MATH 2552 Geometry of the Plane Cr.Hrs.6 A modern approach to geometry through the use of geometric transformations. Topics may include isometries, symmetries, similarities, circular inversion and groups. Not to be held with the former MATH 2550, MATH 2551 (136.255). *Prerequisites:* MATH 1690 (136.169) (C); or a grade of "C" or better in one of MATH 1500 (136.150), MATH 1501, MATH 1510 (136.151), MATH 1520 (136.152), or the former 136.153, and a grade of "C" or better one of MATH 1300 (136.130), MATH 1301, MATH 1310 (136.131), MATH 1700 (136.170), MATH 1701, MATH 1710 (136.171), or the former 136.173.

MATH 2600 Numerical Mathematics 1 Cr.Hrs.3 (Formerly 136.260) Elementary techniques of numerical solution of mathematical problems: solution of equations, finite differences, interpolation, systems of equations, numerical differentiation and integration. This course may not be held for credit with MATH 2120 (136.212) or MATH 2601. *Prerequisites:* One of MATH 1300 (136.130), MATH 1301, or MATH 1310 (136.131) (C); and one of MATH 1690 (136.169), MATH 1700 (136.170), MATH 1701, MATH 1710 (136.171), or the former 136.173 (C); and COMP 1010 (074.101) or COMP 1011 (C); or consent of instructor.

MATH 2720 Multivariable Calculus Cr.Hrs.3 (Formerly 136.272) Calculus of several variables. Not to be held with MATH 2721 (136.272, 136.270), MATH 2750 (136.275), the former MATH 2110 (136.211), or MATH 2130. *Prerequisites:* A grade of "C" or better in one of MATH 1300 (136.130), MATH 1301, or MATH 1310 (136.131) (C); and a grade of "C" or better in one of MATH 1690 (136.169), MATH 1700 (136.170), MATH 1701, MATH 1710 (136.171), or the former 136.173.

MATH 2730 Sequences and Series Cr.Hrs.3 (Formerly 136.273) Introductory analysis, sequences and series. Not to be held with MATH 2132, the former MATH 2100 (136.210), MATH 2731 (136.273, 136.271), MATH 2750 (136.275). *Prerequisite:* a grade of "C" or better in one of MATH 1690 (136.169), MATH 1700, MATH 1701 (136.170), MATH 1710 (136.171) or the former 136.173. *Prerequisite or concurrent requirement:* one of MATH 1300 (136.130), MATH 1301, or MATH 1310 (136.131).

MATH 2750 Intermediate Calculus Cr.Hrs.6 (Formerly 136.275) Sequences, series and power series. Differentiation and integration of real-valued functions of several real variables. Not to be held with MATH 2130, MATH 2132, the former MATH 2100 (136.210), the former MATH 2110 (136.211), MATH 2720, MATH 2721 (136.272, 136.270), MATH 2730, MATH 2731 (136.273, 136.271). This course is mathematically challenging and is intended primarily for students registered in an Honours, Joint Honours or Four-Year Major program. Registration in this course requires approval of the department. *Prerequisites:* a grade of "C+" or better in one of MATH 1300, MATH 1301 (136.130), or MATH 1310 (136.131); and a grade of "C+" or better in one of MATH 1690 (136.169), MATH 1700, MATH 1701 (136.170), MATH 1710 (136.171), or the former 136.173.

MATH 2800 Ordinary Differential Equations with Applications 1 Cr.Hrs.3 (Formerly 136.280) An introduction to the theory of ordinary differential equations, and practical techniques of solution, principally relating to first order and linear higher order equations; linear systems. Applications to problems in science and other selected areas. Not to be held with MATH 2801 (136.280), MATH 2132, or the former MATH 2100 (136.210). *Prerequisite:* a grade of "C" or better in MATH 1300, MATH 1301 (136.130), or MATH 1310 (136.131) (C). *Prerequisite or concurrent requirement:* one of MATH 2720 or MATH 2721; or MATH 2750.

MATH 3120 Applied Discrete Mathematics Cr.Hrs.3 (Lab Required) (Formerly 136.312) Sets, groups, graphs, and Boolean algebra. For Engineering students only. Not to be held with COMP 2130 (074.213), or the former 074.212. *Prerequisites:* MATH 2120 (136.212) (C).

MATH 3130 Linear Spaces for Physicists Cr.Hrs.3 (Formerly 136.313) A course intended for honours/major students in Physics. Review of linear algebra (MATH 1300) vector spaces; linear transformations; eigenvalues and eigenvectors; inner product spaces; additional topics as time permits. Not to be held with MATH 2300, MATH 2301 (136.230), MATH 2352, or the former MATH 2350 (136.235). *Prerequisites:* MATH 2750 (136.275) (C); or both of MATH 2720 (or equivalent - MATH 2721, 136.270, 136.272) (C) and PHYS 2490 (or the former 016.237) (C).

MATH 3132 Engineering Mathematical Analysis 3 Cr.Hrs.3 Vector integral calculus; series of Ordinary differential equations; Fourier series and Partial differential equations. For Engineering and Geophysics students only. Not to be held with MATH 3740 (136.374), MATH 3800 (136.380), or the former MATH 3100 (136.310). *Prerequisites:* MATH 2130 (C) and MATH 2132 (C).

MATH 3142 Engineering Mathematical Analysis 4 Cr.Hrs.3 Introduction to discrete mathematics; systems of linear differential equations; complex function theory and applications. For Engineering and Geophysics students only. Not to be held with MATH 3110 (136.311), MATH 3700 (136.370), MATH 3710 (136.371), or MATH 3800 (136.380). *Prerequisites:* MATH 2130 (C); and MATH 2132 or the former MATH 2110 (136.211) (C). NOTE: MATH 3132 is highly recommended.

MATH 3200 Set Theory and Logic Cr.Hrs.3 (Formerly 136.320) An introduction to set theory, relations and functions, arguments and proofs; the axiomatic nature of mathematics. May not be used in an Honours program. *Prerequisite:* 12 credit hours of 2000 level mathematics courses or consent of department.

MATH 3210 Topology Cr.Hrs.3 (Formerly 136.321) An introduction to topology. Topological spaces, metric spaces; compactness, connectedness; continuity of mappings. May not be used in an Honours program. Not to be held with MATH 3240 (136.324) or MATH 3230 (136.323). *Prerequisite:* MATH 3200 (136.320) (C) or consent of department.

MATH 3220 Set Theory Cr.Hrs.3 (Formerly 136.322) Axiom systems, cardinal and ordinal numbers, models of set theory, the axiom of choice, the generalized continuum hypothesis, etc. Not currently offered. *Prerequisite:* MATH 2202 or the former MATH 2200 (136.220) (C); or consent of department.

MATH 3230 Metric Spaces Cr.Hrs.3 (Formerly 136.323) Definition of metric spaces; examples. Compactness, connectedness and continuity in metric spaces. Applications to analysis. Not to be held with MATH 3210 (136.321) *Prerequisites:* MATH 2750 (136.275) (C); and MATH 2202 or the former MATH 2200 (136.220) (C); or consent of department.

MATH 3240 Topology 1 Cr.Hrs.3 (Formerly 136.324) Topics include topologies, continuity, connectedness, compactness, and separation properties. Not to be held with MATH 3210 (136.321). *Prerequisite:* MATH 3230 (136.323) (C) or consent of department.

MATH 3300 Modern Algebra 1 Cr.Hrs.3 (Formerly 136.330) Introduction to the concepts and structures of modern algebra, including groups, rings and fields; substructure, isomorphism, quotients. Not to be held with MATH 3350 (136.335). *Prerequisites:* one of MATH 2300 (C), MATH 2301 (136.230) (C), MATH 2352 (C), or the former MATH 2350 (136.235) (C); and an additional 6 credit hours of 2000 level mathematics courses; or consent of department.

MATH 3310 Modern Algebra 2 Cr.Hrs.3 (Formerly 136.331) Continuation of MATH 3300. Further study of rings and fields: integral domains, polynomial rings; ideals and quotient rings; rational function fields. Lattices and Boolean algebras may be included.

ed. Not to be held with MATH 3350 (136.335). *Prerequisite:* MATH 3300 (136.330) (C).

MATH 3350 Advanced Algebra Cr.Hrs.6 (Formerly 136.335) An introduction to abstract algebra with topics taken from among the theories of groups, rings, modules, fields and lattices. This course is taught at an Honours/Major level. Not to be held with MATH 3300 (136.330) or MATH 3310 (136.331). *Prerequisites:* MATH 2352 or the former MATH 2350 (136.235) (C); and MATH 2202 or the former MATH 2200 (136.220) (C); or consent of department.

MATH 3400 Combinatorics 1 Cr.Hrs.3 (Formerly 136.340) Basic counting principles, pigeon-hole principle, recursion, graphs. This course is taught at an Honours/Major level. *Prerequisites:* MATH 2202 or the former MATH 2200 (136.220) (C); and MATH 2352 or the former MATH 2350 (136.235) (C); or consent of department.

MATH 3430 Modern Geometry Cr.Hrs.3 (Formerly 136.343) Topics in modern euclidean geometry, affine and projective geometry, inversive geometry, etc. This course is taught at an Honours/Major level. *Prerequisites:* MATH 2750 (136.275) (C); and MATH 2352 or the former MATH 2350 (136.235) (C); or consent of department.

MATH 3450 Theory of Numbers Cr.Hrs.6 (Formerly 136.345) Divisibility, congruences; quadratic residues and reciprocity; introduction to analytic and algebraic number theory. *Prerequisites:* MATH 2750 (136.275) (C); and MATH 2202 or the former MATH 2200 (136.220) (C); or consent of department.

MATH 3530 Mathematical Problems in the Biological Sciences Cr.Hrs.3 (Formerly 136.353) Circulatory system, flow of blood. Enzyme kinetics. Cell populations. Diffusion in biology. Some ecological systems. *Prerequisites:* MATH 2300 or MATH 2301 (136.230) (C); and MATH 2730 (136.273) (C); and MATH 3800 (136.380) (C); or consent of department.

MATH 3540 Techniques of Applied Analysis Cr.Hrs.3 (Formerly 136.354) Applied mathematical topics such as asymptotics, transform theory and special functions. *Prerequisites:* MATH 3700 (136.370) (C) and MATH 3800 (136.380) (C); or consent of department. *Prerequisite or concurrent requirement:* MATH 3740 (136.375).

MATH 3600 Numerical Mathematics 2 Cr.Hrs.3 (Formerly 136.360) Numerical differentiation and Gaussian quadrature; curve-fitting by splines; numerical methods for initial-value problems, boundary-value problems, and transforms; problems involving large, sparse or ill-conditioned linear systems. Not to be held with MATH 3601 (136.360). *Prerequisites:* MATH 2600 or MATH 2601 (136.260) (C); MATH 2800 or MATH 2801 (136.280) (C); MATH 2720 or MATH 2721 (136.272, 136.270) (C) and MATH 2730 (MATH 2731, 136.273, 136.271) (C), or MATH 2750 (136.275) (C); and either COMP 1010 or COMP 1011 (074.101) (C); or consent of department.

MATH 3700 Applied Complex Analysis Cr.Hrs.3 (Formerly 136.370) Concepts and techniques of complex variable theory in the context of applied mathematics. Not to be held with MATH 3142, the former MATH 3110 (136.311), or MATH 3710 (136.371). *Prerequisites:* MATH 2720 or MATH 2721 (136.272, 136.270) (C); and one of MATH 2730, MATH 2731 (136.273, 136.271) (C), MATH 2750 (136.275) (C), or PHYS 2490 (016.237) (C); or consent of department.

MATH 3710 Complex Analysis 1 Cr.Hrs.3 (Formerly 136.371) The geometry of the complex plane, analytic functions, contour integration. Cauchy's theorem and formula, the residue theorem, etc. Not to be held with MATH 3142, the former MATH 3110 (136.311), or MATH 3700 (136.370) *Prerequisite:* MATH 3230 (136.323).

MATH 3740 Methods of Advanced Calculus Cr.Hrs.6 (Formerly 136.374) Uniform convergence of series and integrals. Transformations, inverse and implicit function theorems. Vector analysis including Green's and Stokes theorems. Not to be held with MATH 3760 (136.376). *Prerequisites:* MATH 2300 or MATH 2301 (136.230) (C); MATH 2720 or MATH 2721 (136.272, 136.270) (C); MATH 2730 or MATH 2731 (136.273, 136.271) (C); or consent of department.

MATH 3760 Advanced Calculus Cr.Hrs.6 (Formerly 136.376) Vector analysis; The Riemann and Riemann-Stieltjes integral, uniform convergence of series and integrals, power series and Fourier series. This course is taught at an Honours/Major level. Not to be held with MATH 3740 (136.375). *Prerequisites:* MATH 2750 (136.275) (C); and MATH 2352 or the former MATH 2350 (136.235) (C); and MATH 2202 or the former MATH 2200 (136.220) (C); or consent of department.

MATH 3800 Ordinary Differential Equations with Applications 2 Cr.Hrs.3 (Formerly 136.380) Laplace transforms, series solutions of ODEs, systems of linear ODEs, applications, introduction to dynamical systems. *Prerequisite:* MATH 2800 or MATH 2801 (136.280) (C); and one of MATH 2730 (136.273, 136.271), MATH 2731, or MATH 2750 (136.275) (C).

MATH 3810 Partial Differential Equations 1 Cr.Hrs.3 (Formerly 136.381) Fourier series and introductory Sturm-Liouville theory. Derivation of wave, diffusion and Laplace equations. Solution by separation of variables. *Prerequisites:* MATH 2720 or MATH 2721 (136.272, 136.270) (C) and MATH 2730 or MATH 2731 (136.273, 136.271) (C), or MATH 2750 (136.275) (C); and MATH 3800 (136.380) (C); or consent of department.

MATH 3820 Introduction to Mathematical Modelling Cr.Hrs.3 (Formerly 136.382) An introduction to the principles and techniques involved in the design, development, solution, testing and revision of mathematical models of "real-world" phenomena illustrated through the discussion of case studies. *Prerequisites:* MATH 2600 or MATH 2601 (136.260) (C); and MATH 2800 or MATH 2801 (136.280) (C). *Prerequisite or concurrent requirement:* STAT 1000 or STAT 1001.

MATH 3900 Problem Solving Seminar Cr.Hrs.3 (Formerly 136.390) Classical problem solving methods and heuristics; Polya's method; assorted problems in geometry,

algebra, combinatorics, analysis and logic; proof technique and presentation of mathematics. Students will be required to: i) participate in mathematical competitions; ii) present solutions to problems in class; iii) give in-class presentations about material based on readings. *Prerequisite* or concurrent requirement: MATH 1700 or MATH 1701; and MATH 1300 or MATH 1301.

MATH 3910 Topics in General Mathematics Cr.Hrs.3 (Formerly 136.391) Topics of general interest in Mathematics or Applied Mathematics that will vary depending upon the interest and requirements of students and faculty, and may include specialized topics not available in regular course offerings. May not be used in an Honours program. *Prerequisite*: consent of department.

MATH 4200 Topology 2 Cr.Hrs.3 (Formerly 136.420) Topics include Tychonoff spaces, ordered spaces, arbitrary products, the Stone-Cech compactification, various types of disconnectedness, generalizations of compactness, paracompactness, and introductory homotopy theory. *Prerequisite*: MATH 3240 (136.324) (C).

MATH 4210 Topology 3 Cr.Hrs.3 (Formerly 136.421) A selection of intermediate and advanced topics in general topology. These may include: an introduction to geometric topology, an introduction to independence results in set-theoretic topology, Stone duality, metrization, compactification theory, uniformities, absolutes and perfect maps, and realcompactness. *Prerequisite*: MATH 4200 (136.420) (C).

MATH 4230 Algebraic Topology Cr.Hrs.3 (Formerly 136.423) An introduction to Algebraic Topology. Topics include basic homotopy theory, fundamental groups of topological spaces, free groups and group presentations, classification of low dimensional manifolds, Seifert-Van Kampen theorem, covering spaces and homology theory. *Prerequisite*: MATH 3240 (136.324) (this course may be taken concurrently with the consent of the department) (C); and MATH 3300 (136.330) (or MATH 3350 may be taken concurrently in place of MATH 3300) (C).

MATH 4250 Mathematical Logic Cr.Hrs.6 (Formerly 136.425) The mathematical study of propositional and predicate logic; proof theory. Introduction to model theory (completeness, compactness, Lowenheim-Skolem theorems). Recursion theory, undecidability, incompleteness. *Prerequisite*: MATH 3350 (136.335) (C) or consent of department.

MATH 4310 Applied Matrix Analysis Cr.Hrs.3 Vector and matrix norms; LU, QR, Schur, and singular value decompositions; projections; least squares; Gerschgorin theorem, perturbation theory; positive definite systems; quadratic forms; pseudoinverse; diagonalization; canonical forms; function of matrices; minimal polynomials; Perron-Frobenius theory; and applications. Not to be held with MATH 3500 (136.350). *Prerequisite*: A grade of "C" or better in one of MATH 2300, MATH 2301 (136.230), MATH 2352, or the former MATH 2350 (136.235).

MATH 4350 Modern Algebra Cr.Hrs.6 (Formerly 136.435) A continuation of the topics of MATH 3350, and an introduction to such further topics as category theory, universal algebra, multilinear algebra, and homological algebra. *Prerequisite*: MATH 3350 (136.335) (C).

MATH 4400 Combinatorics 2 Cr.Hrs.3 (Formerly 136.440) Generating functions, combinatorial geometry, symbolic dynamics, forbidden configurations, topics from combinatorial matrix theory. *Prerequisites*: MATH 2750 (136.275) (C), MATH 3400 (136.340) (C), and MATH 3350 (136.335) (C).

MATH 4410 Graphs, Codes and Designs Cr.Hrs.3 (Formerly 136.441) Graph decompositions, colourings, and applications, adjacency matrices, triple systems and generalizations, BIBD's, orthogonal designs, linear codes, Hamming codes, error-correction codes, public key cryptography, secret sharing. *Prerequisites*: MATH 3400 (136.340) (C) and MATH 3350 (136.335) (C).

MATH 4420 Finite Geometry Cr.Hrs.3 (Formerly 136.442) Finite fields, finite affine and projective planes, partial geometries and related configurations. *Prerequisite*: MATH 3350 (136.335) (C) and MATH 3400 (136.340) (C).

MATH 4430 Introduction to Elliptic Curves Cr.Hrs.3 (Formerly 136.443) Homogeneous coordinates, non-singular cubic curves, cubic curves of finite fields. *Prerequisites*: MATH 2500 or MATH 2501 (136.250) (C); and MATH 2352 or the former MATH 2350 (136.235) (C); and either MATH 3300 (136.330) (C) and MATH 3310 (136.331) (C), or MATH 3350 (136.335) (C).

MATH 4600 Topics in Numerical Analysis Cr.Hrs.3 (Formerly 136.460) Mathematical approach to an in-depth study of two of the following topics: computational methods of linear algebra, numerical solution of ordinary differential equations, numerical solution of partial differential equations, numerical solution of integral equations, spline functions with applications, finite elements. *Prerequisite*: MATH 3600 (136.360) (C) or consent of department.

MATH 4610 Introduction to Finite Elements and Boundary Elements Cr.Hrs.3 (Formerly 136.461) Introduction to finite element and boundary element techniques for solving partial differential equations. *Prerequisites*: MATH 3600 (136.360) (C); and either MATH 3740 (136.375) (C) or MATH 3760 (136.376) (C).

MATH 4700 Applied Functional Analysis Cr.Hrs.3 (Formerly 136.470) Elements of metric, normed and inner product spaces; operators and inverses; applications in analysis and numerical analysis. *Prerequisite*: MATH 3740 (136.375) or MATH 3760 (136.376) (C).

MATH 4710 Complex Analysis 2 Cr.Hrs.3 (Formerly 136.471) Conformal mappings, space of analytic functions, space of meromorphic functions, harmonic functions. *Prerequisites*: MATH 3240 (136.324) (C), MATH 3710 (136.371) (C), and MATH 3760 (136.376) (C).

MATH 4720 Complex Analysis 3 Cr.Hrs.3 (Formerly 136.472) Subharmonic functions, infinite products, entire functions, analytic continuation. *Prerequisite*: MATH 4710 (136.471) (C).

MATH 4730 Tensor and Variational Calculus Cr.Hrs.3 (Formerly 136.473) An introduction to tensor calculus, differential forms, and variational principles on differentiable and Riemannian manifolds. *Prerequisites*: six credit hours of 2000 level calculus; and MATH 2800 or MATH 2801 (136.280) (C); or consent of department. *Prerequisite* or concurrent requirement: MATH 3740 (136.375) or MATH 3760 (136.376).

MATH 4750 Real Variables Cr.Hrs.6 (Formerly 136.475) Measure and integration on the real line and on abstract spaces. Classical Banach spaces of functions, and basic functional analysis. *Prerequisites*: MATH 2352 or the former MATH 2350 (136.235) (C); and MATH 3230 (136.323) (C); and MATH 3760 (136.376) (C); or consent of department.

MATH 4800 Dynamical Systems: Theory and Applications Cr.Hrs.3 (Formerly 136.480) Systems of differential equations, linear systems, applied dynamics, phase space, stability, introduction to chaos. *Prerequisites*: MATH 3600 (136.360) or MATH 3601 (C); and MATH 3800 (136.380) (C).

MATH 4810 Partial Differential Equations 2 Cr.Hrs.3 (Formerly 136.481) Partial differential equations and their classification. Special functions and generalized Eigen function expansions. Solution by separation of variables, and transform methods. *Prerequisite*: MATH 3810 (136.381) (C).

MATH 4820 Advanced Mathematical Modelling Cr.Hrs.3 (Formerly 136.482) Interactive development of mathematical models for real life situations using more advanced mathematics; topics and methods used will vary from year to year. *Prerequisite*: MATH 3820 (136.382) (C) and consent of department.

MATH 4900 Project Course in Applied Mathematics 1 Cr.Hrs.3 (Formerly 136.490) A research project chosen by the student in consultation with the department head and an appropriate supervising Faculty member. A written report will be required, to be submitted by the end of the term. An oral examination may be required. This course is restricted to students in fourth year of the Honours program in Mathematics. *Prerequisite*: MATH 3820 (136.382) (C).

MATH 4920 Topics in Mathematics 1 Cr.Hrs.3 (Formerly 136.492) Topics of current interest in Mathematics or Applied Mathematics upon the interests and requirements of students and faculty, and will include specialized topics not available in regular course offerings. *Prerequisite*: consent of department.

MATH 4950 Project Course in Applied Mathematics 2 Cr.Hrs.6 (Formerly 136.495) A research project chosen by the student in consultation with the department head and an appropriate supervising Faculty member. A written report will be required, to be submitted by March 31. An oral examination may be required. This course is restricted to students in fourth year of the Honours program in Mathematics. *Prerequisite*: MATH 3820 (136.382) (C).

MATH 4960 Topics in Mathematics 2 Cr.Hrs.6 (Formerly 136.496) Topics will vary depending upon the interests and requirements of students and faculty, and will include specialized topics not available in regular course offerings. *Prerequisite*: consent of department.

5.10 Department of Microbiology

Head: Peter Loewen

General Office: 418 Buller Building

Telephone: 204 474 9372

Website: umanitoba.ca/faculties/science/departments/microbiology/

E-mail: peter_loewen@umanitoba.ca

5.10.1 Academic Staff

Distinguished Professor

Butler, M., B.Sc. (Birmingham), M.Sc. (Waterloo), Ph.D. (King's College).

Professor Emeritus

Suzuki, I., B.Sc. (Tokyo), Ph.D. (Iowa).

Senior Scholar

Reid, J., B.Sc. (Hons.), M.Sc. (McMaster), Ph.D. (Toronto).

Professors

Loewen, P.C., B.Sc., Ph.D. (Alberta), Canada Research Chair in Protein Chemistry.

Associate Professors

Court, D.A., B.Sc. (Hons.) (Regina), Ph.D. (Guelph); **de Kievit, T.**, B.Sc. (Waterloo), B.Sc. Specialized Hons., Ph.D. (Guelph); **Dibrov, P.**, M.Sc., Ph.D. (Moscow State); **Hausner, G.**, B.Sc. (Winnipeg), M.Sc., Ph.D. (Manitoba); **Oresnik, I.J.**, B.Sc., M.Sc., (McMaster), Ph.D. (Queen's); **Sparling, R.R.M.**, B.Sc. (McGill), Ph.D. (Iowa); **Worobec, E.A.**, B.Sc. (Winnipeg), Ph.D. (Alberta); **Yurkov, V.**, M.Sc. (Moscow State), Ph.D. (Moscow Academy of Sciences).

Assistant Professors

Brassinga, A.K., B.Sc., Ph.D. (McGill); **Cardona**, S.T., B.Sc. (Buenos Aires), Ph.D. (Chile); **Mark**, B., B.Sc. (Winnipeg), M.Sc. (Manitoba), Ph.D. (Alberta).

Instructors

Cameron, L.E., B.Sc., Ph.D. (Manitoba) (Senior Instructor); **Rathgeber**, C., B.Sc., Ph.D. (Manitoba) (Instructor II).

5.10.2 Program Information

Microbiology is the study of microorganisms such as bacteria, viruses, fungi, protozoa, and algae, and their interactions with the environment. It is also an area of study that plays a pivotal role in understanding other life science disciplines, such as medicine, agriculture, ecology, and pharmacy. Studies in cloning, recombinant DNA technology, and gene sequencing are part of the program. The departments of Microbiology and Chemistry offer a joint Honours program and a joint Four Year Major program in biochemistry and a joint Honours program in biotechnology (See Sections 5.2 and 5.4).

The department must approve a student's Honour or Major program prior to registration in each session. Students must also obtain approval for any and all revisions to their program.

Microbiology Prerequisite Information

Students are advised to take courses in the year suggested in the charts below; otherwise difficulties may arise with timetabling and prerequisite requirements. Students are responsible for all prerequisites and corequisites of the courses required or selected in all programs below. Since Chemistry courses form an integral part of all Microbiology programs, students should note that Grade 12 mathematics and chemistry are prerequisite to CHEM 1300.

Honours Requirements and Options

To enter Honours Microbiology, students must have a minimum grade of "B" in each of CHEM 1300* and CHEM 1310, and a minimum of "C+" in BIOL 1030*; or a minimum of "C+" in each of CHEM 1300* and CHEM 1310, and a minimum of "B" in BIOL 1030*. Statistics STAT 1000 and the 3 credit hours of specified Mathematics or Physics courses can be completed in University 1 or Year 2.

* Students interested in studying Microbiology should note that Grade 12 mathematics and chemistry are prerequisite to CHEM 1300. Effective 2009-2010, students will also require Biology 40S (or equivalent) and any Grade 12 mathematics course (or equivalent) for entry to BIOL 1020 (the required prerequisite for BIOL 1030).

To proceed from Year 2 to Year 3 and Year 3 to Year 4 and to complete Year 4 of the Honours program successfully, a student must have a minimum Degree Grade Point Average of 3.00 and in addition, must have a 3.00 Grade Point Average on all Microbiology courses during that term. Students must complete 9 credit hours each Fall and Winter Term. To graduate with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and a minimum grade of "C+" in each Microbiology course and a minimum grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree.

Students who wish to elect CHEM 2280, CHEM 2290 or CHEM 2470 as options should note the prerequisites in making a choice of mathematics courses.

By careful choice of electives, programs may be selected giving emphasis to various areas of Microbiology, e.g., Biochemistry and Molecular Biology or Environmental and Ecological Microbiology. In choosing optional courses, students should be aware of any prerequisite requirements.

Honours Cooperative Option

Students interested in alternating academic terms and terms of paid employment as part of their Honours Microbiology program may enter the Cooperative Option in their third year in Honours Microbiology. This program provides students with a minimum of 12 months of paid employment by the time they graduate. It enables them to obtain work experience in research and industry with participating firms, government agencies and university units.

The course and grade requirements for entry to this option are the same as those required for entry to the regular Honours program (see above), as indicated in the chart. Students are required to complete the first and second year requirements of the program; and MBIO 3010 and MBIO 3410 before

they begin their first employment term. Students should refer to the general faculty regulations for B.Sc. (Honours) Cooperative Options in Section 3.6.

Students should note that the grade requirements for the Cooperative Option are the same as that for the regular Honours program (see above). To continue in the Honours Cooperative program, i.e., to proceed from Year 2 to Year 3 and from one academic term to the next and to complete the Honours Cooperative program successfully, a student must have a Degree Grade Point Average of 3.00, and in addition, must have a 3.00 Grade Point Average on all Microbiology courses during that term. Each academic term in the third and subsequent years must comprise 9 credit hours.

Students will apply for openings in the Cooperative Option in September of their third year in the Honours program. They will be notified of their provisional acceptance in the program by October. Acceptance into the program is dependent upon the student receiving an employment placement. Employment term positions available to the students will be approved by the department, and the employers will select the students they wish to employ. The first work term can be taken in January or May. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

Students are required to register in and pay fees for each employment term prior to the commencement of each employment term. Students will be required to submit an employment report upon the completion of each employment term.

Four Year Major

The requirements for entry to the four year Major program in Microbiology are a minimum of "C+" in each of CHEM 1300* and CHEM 1310, and a minimum of "C" in BIOL 1030*; or a minimum of "C+" in BIOL 1030* and a minimum of "C" in each of CHEM 1300* and CHEM 1310. Statistics STAT 1000 and the 3 credit hours of specified Mathematics or Physics can be completed in University 1 and Year 2. In addition, the faculty requirements for entry to the four year Major program must be satisfied.

* Students interested in studying Microbiology should note that Grade 12 mathematics and chemistry are prerequisite to CHEM 1300. Effective 2009-2010, students will also require Biology 40S (or equivalent) and any Grade 12 mathematics course (or equivalent) for entry to BIOL 1020 (the required prerequisite for BIOL 1030).

Potential entrants to this program should also note the following:

Students who wish to elect CHEM 2280, CHEM 2290 or CHEM 2470 as options should note the prerequisites in making a choice of mathematics courses.

Chemistry CHEM 2210 must be taken before MBIO 2370 (CHEM 2370). Courses MBIO 2360 and CHEM 2360, and MBIO 2370 and CHEM 2370 are the same and credit cannot be held for both. Microbiology students will normally register in MBIO 2360 and MBIO 2370, but CHEM 2360 and CHEM 2370 will be regarded as its equivalent in the four year Major program.

Students intending to apply for transfer to the Honours program after Year 2 should register for MBIO 2280 in Year 2.

Students must note course and grade prerequisites when selecting 3000 and 4000 level Microbiology courses.

Microbiology MBIO 4530 is not available in this program.

By careful choice of electives, programs may be selected giving emphasis to various areas of Microbiology, e.g., Biochemistry and Molecular Biology or Environmental and Ecological Microbiology. In choosing optional courses, students should be aware of any prerequisite requirements.

The listed requirements are minimum requirements. Students are reminded that should they wish to take further courses in Microbiology, they are at liberty to do so within the degree regulations.

Four Year Major Cooperative Option

Students interested in alternating employment terms and academic terms as part of their Major program in Microbiology may enter the Cooperative Option in their third year in Microbiology. This program provides students with a minimum of 12 months of paid employment by the time they graduate. It enables them to obtain work experience in research and industry with participating firms, government agencies and University units.

The course and grade requirements for entry to this option are the same as those required for entry to the regular Major program. In this program, MBI0 3010 and MBI0 3410 are required in Year 3. Students are required to complete the first and second year requirements of the program and MBI0 3410 before they begin their first employment term. See the general faculty regulations for B.Sc. (Major) Cooperative Option in Section 3.4.

Students will apply for openings in the Cooperative Option in September of their third year in the Major program. They will be notified of their provisional acceptance in the program by October. Acceptance into the program is dependent upon the student receiving an employment placement. Employment term positions available to the students will be approved by the department, and the employers will select the students they wish to employ. The first work term can be taken in January or May. Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Option if the demand for places exceeds the number of places available. The department reserves the right to determine and select the best qualified applicants.

Students are required to register in and pay fees for each employment term prior to the commencement of each employment term. Students will be required to submit an employment report upon the completion of each employment term.

Option List* for All Microbiology Programs:

Biological Sciences:

BIOL 2242 (BOTN 2010), BIOL 2260 (BOTN 2210), BIOL 2300 (BOTN 2370, ZOOL 2370), BIOL 2380 (BOTN 2180, ZOOL 2180), BIOL 2410 (ZOOL 2530), BIOL 2420 (ZOOL 2540), BIOL 2540 (ZOOL 2150), BIOL 3260 (BOTN 2290), BIOL 3290 (BOTN 3280), BIOL 3330 (BOTN 3250), BIOL 3370 (ZOOL 3500), BIOL 3450 (BOTN 2020), BIOL 3452 (BOTN 3010), BIOL 3460 (ZOOL 3530), BIOL 3462 (ZOOL 3540), BIOL 3500 (BOTN 3460), BIOL 3540 (ZOOL 3070), BIOL 3560 (ZOOL 3060), BIOL 4242 (BOTN 4130), BIOL 4244 (BOTN 4160), BIOL 4246 (BOTN 4050), BIOL 4250 (BOTN 4210), BIOL 4430 (BOTN 4120), BIOL 4480 (ZOOL 4600), BIOL 4540 (ZOOL 4150), BIOL 4542 (ZOOL 4270), BIOL 4560 (ZOOL 4140)

Chemistry:

CHEM 2280, CHEM 2290, CHEM 2380, CHEM 2470, CHEM 3390, CHEM 3590, CHEM 4590, CHEM 4360, CHEM 4370, CHEM 4620, CHEM 4630 CHEM 4670

Environmental Science: ENVR 2180

Food Sciences: FOOD 4150, FOOD 4280

General Agriculture: AGEC 2180, AGEC 2370

Mathematics: MATH 2010

NOTE: * Other suitable options may be selected with permission of the department.

Three Year General

As prescribed with all other faculty regulations in Section 3.2, students in this program must select 18 credit hours of 2000, 3000 and (or) 4000 level courses from each of **two** Science areas. To satisfy the requirement in the area of Microbiology, students must take a minimum of 18 credit hours of Microbiology courses as prescribed in the chart below (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level.).

Students wishing to elect courses in Microbiology in fulfilment of the requirements for the B.Sc. (General) degree should note the following:

Students must have successfully completed BIOL 1020 and 1030 (C), and CHEM 1300 and CHEM 1310.

Students are encouraged to elect additional Microbiology courses above the required minimum.

Microbiology MBI0 2770 and MBI0 2780 (CHEM 2770 and CHEM 2780) are not available in this program.

Minor

Students must complete 12 credit hours at the 2000 and (or) 3000 level. Note that BIOL 1030 (C) and CHEM 1310 or CHEM 1320 are prerequisites to MBI0 2100.

Biochemistry and Biotechnology Programs

The Department of Chemistry, in conjunction with the Department of Microbiology, offers a Joint Honours program, a Joint Honours Cooperative Option, a Joint four year Major program and a Joint four year Major Cooperative Option program in Biochemistry. See Section 5.2 *Biochemistry Program* for full details. They also offer a Joint Honours program in Biotechnology. See Section 5.4 for full details.

5.10.3 Microbiology			
UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
HONOURS³ 120 CREDIT HOURS (comprising courses listed in chart below, and electives)			
BIOL 1020, BIOL 1030, CHEM 1300, CHEM 1310	MBIO 2100, MBIO 2110, MBIO 2280, MBIO 2360 (CHEM 2360), MBIO 2370 (CHEM 2370), BIOL 2500 (BOTN 2460), BIOL 2520 (ZOOL 2280), CHEM 2210, CHEM 2220,	MBIO 3010, MBIO 3410, MBIO 3440, MBIO 3470, MBIO 3480	MBIO 4010, MBIO 4470, MBIO 4530(6), MBIO 4600, MBIO 4610
In University 1 or Year 2 the following must be completed: 3 credit hours of Mathematics or Physics from MATH 1200, MATH 1300 ¹ , MATH 1500 ¹ , PHYS 1020 or PHYS 1050 STAT 1000 6 credit hours from the Faculty of Arts, which should include the required "W" course.		Plus 15 credit hours of Microbiology courses ⁴ and 12 credit hours chosen from Microbiology courses ⁴ or from the option list (see above)

30 Hours

FOUR YEAR MAJOR^{3,5} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

BIOL 1020, BIOL 1030, CHEM 1300, CHEM 1310

MBIO 2100, MBIO 2110, MBIO 2360 (CHEM 2360), MBIO 2370 (CHEM 2370), BIOL 2500 (BOTN 2460), BIOL 2520 (ZOOL 2280), CHEM 2210, CHEM 2220,

33 credit hours of Microbiology courses² including 15 credit hours at the 4000 level²

Plus 9 credit hours from Microbiology courses² or from the option list (see above)

In University 1 or Year 2 the following must be completed:

3 credit hours of Mathematics or Physics from MATH 1200, MATH 1300¹, MATH 1500¹, PHYS 1020 or PHYS 1050

STAT 1000

6 credit hours from the Faculty of Arts, which should include the required "W" course.

MAJOR COOPERATIVE OPTION^{3,5} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

BIOL 1020, BIOL 1030, CHEM 1300, CHEM 1310

MBIO 2100, MBIO 2110, MBIO 2360 (CHEM 2360), MBIO 2370 (CHEM 2370), BIOL 2500 (BOTN 2460), BIOL 2520 (ZOOL 2280), CHEM 2210, CHEM 2220

MBIO 3010, MBIO 3410

27 credit hours of Microbiology courses² including 15 credit hours at the 4000 level

Plus 9 credit hours from Microbiology courses² or from the option list (see above)

In University 1 or Year 2 the following must be completed:

3 credit hours of Mathematics or Physics from MATH 1200, MATH 1300¹, MATH 1500¹, PHYS 1020 or PHYS 1050

STAT 1000

6 credit hours from the Faculty of Arts, which should include the required "W" course.

MBIO 3980, MBIO 3990, MBIO 4980 and/or MBIO 4990

THREE YEAR GENERAL

18 credit hours of 2000, 3000, and (or) 4000 level Microbiology courses (subject to the Faculty requirement that of the 36 credit hours in the two advanced level Science areas, at least 6 credit hours must be at the 3000/4000 level.)

MINOR

CHEM 1300, CHEM 1310, BIOL 1020, BIOL 1030 (C)

12 credit hours of Microbiology at the 2000 and (or) 3000 level

BIOCHEMISTRY - Joint Microbiology and Chemistry Programs: See Section 5.2 Biochemistry

BIOTECHNOLOGY – Joint Microbiology and Chemistry Program: See Section 5.4 Biotechnology

NOTES:

¹ MATH 1310 may be taken in place of MATH 1300; MATH 1510, MATH 1520 or MATH 1690 may be taken in place of MATH 1500.

² MBIO 4010, MBIO 4530 and MBIO 4670 may be selected only by special permission.

³ The courses in this program will satisfy the University mathematics requirement.

⁴ MBIO 4020 and MBIO 4580 cannot be selected.

⁵ IMPORTANT: The four year Major program need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program. (Letters in brackets indicate minimum prerequisite standing for further study.)

Microbiology Course Descriptions

Note: A grade of "C" or better in BIOL 1030 is a prerequisite for General, Major, and Honours courses in Microbiology, with the exceptions of MBIO 1220 and MBIO 2410. To fulfill prerequisite requirements, unless otherwise specified, a minimum grade of "C" must be achieved in any Microbiology course stipulated as a prerequisite to a further course in Microbiology.

MBIO 1220 Essentials of Microbiology Cr.Hrs.3 (Formerly 060.122) A review of the essential principles of microbiology including immunity, with emphasis on microbial disease. Not available to students who have previously obtained credit in or are currently enrolled in MBIO 3010 or MBIO 3011 (060.301). *Prerequisite:* any grade 12 or 40S Mathematics, or equivalent. This *prerequisite* is waived for students in the Baccalaureate Program for Registered Nurses. NOTE: MBIO 1220 is intended for students planning to enter the Faculty of Nursing or other health care or related programs, but

may be used as an elective in an Arts or Science program. It may also be used to meet a program requirement for the Honours and Major programs in Microbiology.

MBIO 2100 General Microbiology A Cr.Hrs.3 (Lab Required) (Formerly 060.210) Fundamental principles of and methods used in microbiology. An introduction to the major groups of micro-organisms, their structure and function, growth, metabolism, physiology and regulatory systems. Not to be held with MBIO 2101. *Prerequisite:* one of BIOL 1030, BIOL 1031, or the former 071.125 (C); and one of CHEM 1310, CHEM 1311 (002.131) (C), or CHEM 1320 (002.132) (C).

MBIO 2110 General Microbiology B Cr.Hrs.3 (Lab Required) (Formerly 060.211) Microbial synthesis of nucleic acids and proteins, introductions to bacterial and animal viruses, mutation, and bacterial genetics. Not to be held with MBIO 2111. *Prerequisite:* MBIO 2100 or MBIO 2101 (060.210) (C).

MBIO 2230 Introductory Biogeochemistry Cr.Hrs.3 (Formerly 060.223) The roles and interactions of biological, chemical and geological reactions in determining the composition of the environment. Microorganisms as major agents of biogeochemical change and their roles in the element cycles will be especially emphasized. *Prerequisite:* one of BIOL 1030, BIOL 1031 or the former 071.125(C); and CHEM 1310 or CHEM 1311 (002.131) (C). It is recommended that 3 credit hours of 1000 level Geological Sciences be taken concurrently with or prior to MBIO 2230 (060.223). Not available to students who have previously obtained credit in, or are currently registered in MBIO 4320 (060.432).

MBIO 2280 Microbial Ecology Cr.Hrs.3 (Lab Required) (Formerly 060.228) A survey of methods used to study microbial associations and their behaviour. Not to be held with the former 060.226. *Prerequisite:* MBIO 2100 or MBIO 2101 (060.210) (C).

MBIO 2360 Biochemistry 1: Biomolecules and an Introduction to Metabolic Energy Cr.Hrs.3 (Lab Required) (Formerly 060.236) An introductory course dealing with kinds of molecules encountered in biochemistry, and the concept of metabolic energy as a product of catabolism and a requirement for biosynthesis. This course is also given in Chemistry as CHEM 2360. Not to be held with MBIO 2770 (060.277), MBIO 2361, CHEM 2360, CHEM 2361 (002.236), CHEM 2860 (002.286), or CHEM 2770 (002.277) *Prerequisites:* CHEM 1310 or CHEM 1311 (002.131); and one of BIOL 1030, BIOL 1031, or the former 071.125, both courses with a minimum grade of "C". NOTE: Students may hold this course for credit in the B.Sc. General Degree program, but may not use it to fulfill the minimum requirement of 12 credit hours in 2000 level Chemistry (pre-September 2008 regulations). Those students following the new B.Sc. General Degree regulations (effective 2008-09) are able to use this course as advanced level credit in both Microbiology and Chemistry.

MBIO 2370 Biochemistry 2: Catabolism, Synthesis, and Information Pathways Cr.Hrs.3 (Lab Required) (Formerly 060.237) An introductory course dealing with the basic metabolic processes that occur in living cells, including the production and use of metabolic energy, the breakdown and synthesis of biomolecules; the synthesis of DNA, RNA and proteins; and the regulation of these processes. This course is also given in Chemistry as CHEM 2370. Not to be held with MBIO 2780 (060.278), MBIO 2371, CHEM 2370, CHEM 2371 (002.237), or CHEM 2780 (002.278). *Prerequisites:* CHEM 2210 (002.221) (C); and one of MBIO 2360 (060.236), MBIO 2361, CHEM 2360 (002.236), or CHEM 2361 (C). NOTE: Students may hold this course for credit in the B.Sc. General Degree program, but may not use it to fulfill the minimum requirement of 12 credit hours in 2000 level Chemistry (pre-September 2008 regulations). Those students following the new B.Sc. General Degree regulations (effective 2008-09) are able to use this course as advanced level credit in both Microbiology and Chemistry.

MBIO 2410 Essentials of Molecular Biology Cr.Hrs. 3 An introduction to the mechanisms, themes and patterns that are present in the molecular biology of both eukaryotic and prokaryotic organisms. The applications of molecular biology to disciplines such as genomics, applied bioinformatics and medical microbiology will be discussed. Not available to students who have previously obtained credit in, or are currently enrolled in MBIO 3410 or MBIO 3411 (060.341). *Prerequisite:* one of grade 12 Biology, grade 12 Chemistry, BIOL 1000, CHEM 1000, or any higher level Chemistry or Biology course; or consent of department. NOTE: MBIO 2410 is intended for students outside of Microbiology and Biological Sciences who require an introduction to molecular biology, such as those with interests in bioinformatics, biophysics, or bioengineering. It may be used to fulfill Microbiology Major or Honours program course requirements if completed prior to MBIO 3410, and it may serve as Advanced Level Microbiology in the three-year general degree program.

MBIO 2770 Elements of Biochemistry 1 Cr.Hrs.3 (Lab Required) (Formerly 060.277) Basic concepts of biochemistry including the properties of biomolecules (amino acids and proteins, enzymes, carbohydrates, lipids, and nucleic acids) and aspects of energy production in cells. For students in Agricultural and Food Sciences, Human Ecology, and Botany or Zoology programs in Science. May not be used as part of an Honours, Major, General, or Minor program in Chemistry or in Microbiology. This course is also given in Chemistry as CHEM 2770. Not to be held with CHEM 2770 (002.277), MBIO 2360, MBIO 2361 (060.236), CHEM 2360, CHEM 2361 (002.236), or CHEM 2860 (002.286). *Prerequisites:* CHEM 1310 or CHEM 1311 (002.131) (C) or CHEM 1320 (or 002.132) (C), plus six credit hours of university level biological sciences.

MBIO 2780 Elements of Biochemistry 2 Cr.Hrs.3 (Lab Required) (Formerly 060.278) The continuation of MBIO 2770 (CHEM 2770), dealing with nitrogen and lipid metabolism, representative biosynthetic pathways, and synthesis and importance of DNA, RNA and proteins. For students in Agricultural and Food Sciences, Human Ecology, and Botany or Zoology programs in Science. May not be used as part of an Honours, Major, General, or Minor program in Chemistry or Microbiology. This course is also given in Chemistry as CHEM 2780. Not to be held with CHEM 2780

(002.278), MBIO 2370, MBIO 2371 (060.237), CHEM 2370, or CHEM 2371 (002.237). *Prerequisite:* A grade of "C" or better in one of MBIO 2770 (060.277), CHEM 2770 (002.277), MBIO 2360, MBIO 2361 (060.236), CHEM 2360, or CHEM 2361 (002.236).

MBIO 3000 Applied Biological Safety Cr.Hrs.3 A comprehensive overview of (i) applied biological safety in research and industrial environments and (ii) the disease-causing features of relevant infectious agents and considerations for their containment. The course consists of lectures and demonstration components. *Prerequisite:* MBIO 2100 or MBIO 2101 (060.210) (C); or permission of instructor. Check with department for availability.

MBIO 3010 Mechanisms of Microbial Disease Cr.Hrs.3 (Formerly 060.301) A consideration of host-parasite relationships, an introduction to the immune response, microbial pathogenesis, viral diseases, clinical microbiology and public health, and an introduction to antimicrobial agents. Not to be held with MBIO 3011. *Prerequisites:* MBIO 2100 or MBIO 2101 (060.210) (C); and one of MBIO 2370, MBIO 2371(060.237), CHEM 2370, or CHEM 2371 (002.237) (C).

MBIO 3410 Molecular Biology Cr.Hrs.3 (Formerly 060.341) A rigorous treatment of the foundations of modern day molecular biology as it pertains to molecular disease, gene and cell manipulation, and cellular controls. Not to be held with MBIO 3411. *Prerequisites:* One of MBIO 2370, MBIO 2371 (060.237), CHEM 2370, CHEM 2371 (002.237), MBIO 2780 (060.278), or CHEM 2780 (002.278) (C); and one of MBIO 2110, MBIO 2111 (060.211) (C), BIOL 2520 (ZOO 2280, ZOO 2281, or 002.228) (C), or BIOL 2500 (BOTN 2460, BOTN 2461, or 001.246).

MBIO 3430 Molecular Evolution Cr.Hrs.3 (Formerly 060.343) An analysis starting with prebiotic evolution, progressing through the elaboration of macromolecules and examining their adaptation to their function as cellular components. Proteins, carbohydrates, and nucleic acids as structural, catalytic, and genetic elements in evolution of living systems. *Prerequisite:* MBIO 2110 or MBIO 2111 (060.211) (C); or BIOL 2520 (ZOO 2280, ZOO 2281, or 022.228); or BIOL 2500 (BOTN 2460, BOTN 2461, or 001.246); or one of MBIO 2370, MBIO 2371 (060.237), CHEM 2370, CHEM 2371 (002.237), MBIO 2780 (060.278), or CHEM 2780 (002.278).

MBIO 3440 Microbial Physiology Cr.Hrs.3 (Lab Required) (Formerly 060.344) Physiology of microbial growth, metabolism development and differentiation. *Prerequisites:* MBIO 2110 or MBIO 2111 (060.211) (C); and one of MBIO 2370, MBIO 2371 (060.237), CHEM 2370, CHEM 2371 (002.237) (C).

MBIO 3450 Regulation of Biochemical Processes Cr.Hrs.3 (Formerly 060.345) Mechanisms of regulation of enzyme activity, including allostery, control of selected biosynthetic and degradative pathways and regulation of gene expression. Contact department regarding availability. Not to be held with MBIO 3451. *Prerequisites:* One of MBIO 2110, MBIO 2111 (060.211) (C), or consent of the department; and one of MBIO 2370, MBIO 2371 (060.237), CHEM 2370, or CHEM 2371 (002.237) (C).

MBIO 3460 Membrane and Cellular Biochemistry Cr.Hrs.3 (Lab Required) (Formerly 060.346) Isolation, fractionation, structure and function of cellular membranes and subcellular components. The central role of these elements in the biochemistry of cellular processes will be stressed. Not to be held with MBIO 3461. *Prerequisites:* One of MBIO 2110, MBIO 2111 (060.211) (C), or consent of the department; and one of MBIO 2370, MBIO 2371 (060.237), CHEM 2370, or CHEM 2371 (002.237) (C).

MBIO 3470 Microbial Systematics Cr.Hrs.3 (Lab Required) (Formerly 060.347) Characterization and classification of the major group of micro-organisms. Bases for divisions and the relatedness among organisms will be studied. Laboratory work involves the identification of representative species. *Prerequisite:* MBIO 2110 or MBIO 2111 (060.211) (C).

MBIO 3480 Microbial Diversity Cr.Hrs.3 (Lab Required) (Formerly 060.348) Study of selected groups of micro-organisms that exhibit distinctive properties such as phototrophy, nitrogen fixation, parasitism. *Prerequisite:* MBIO 2110 or MBIO 2111 (060.211) (C).

MBIO 3980 Work Term 1 Cr.Hrs.0 (Formerly 060.398) Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

MBIO 3990 Work Term 2 Cr.Hrs.0 (Formerly 060.399) Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

MBIO 4010 Immunology H Cr.Hrs.3 (Lab Required) (Formerly 060.401) Topics will include antigens, antibodies, antigen-antibody reactions, immunogenetics, regulation of immune reactions, complement, hypersensitivities, autoimmunity, immunodeficiencies, transplantation and tumour immunology. Priority will be given to fourth year Science Honours students. Not to be held with MBIO 4011, MBIO 4020 (060.402), or the former 060.444. *Prerequisite:* MBIO 3010 or MBIO 3011 (060.301) (C).

MBIO 4020 Immunology Cr.Hrs.3 (Formerly 060.402) Topics will include antigens, antibodies, antigen-antibody reactions, immunogenetics, regulation of immune reactions, complement, hypersensitivities, autoimmunity, immunodeficiencies, transplantation and tumour immunology. Not to be held with MBIO 4010, MBIO 4011 (060.401). *Prerequisite:* MBIO 3010 or MBIO 3011 (060.301) (C).

MBIO 4320 Environmental Microbiology Cr.Hrs.3 (Lab Required) (Formerly 060.432) Applications of microbial ecology and biogeochemistry to environmental concerns, including bioremediation, water treatment, and the terrestrial subsurface. *Prerequisite:* MBIO 2280 (060.228) (C), MBIO 2230 (060.223) and MBIO 3480 (060.348) are recommended.

MBIO 4410 Virology Cr.Hrs.3 (Formerly 060.441) A comprehensive examination of fundamental properties of viruses, virus taxonomy, and the different ways in which viruses replicate. The ways viruses cause disease and experimental methods used in virology also will be examined. Not to be held with MBIO 4411, or for credit by students who have already taken MMIC 7010 (097.701). *Prerequisites:* MBIO 3010 or MBIO 3011 (060.301) (C); and MBIO 3410 or MBIO 3411(060.341) (C).

MBIO 4470 Fermentations Cr.Hrs.3 (Lab Required) (Formerly 060.447) Biochemical and enzymatic mechanisms of microbial reactions in anaerobic fermentations and methods of their investigation. *Prerequisites:* MBIO 2110 or MBIO 2111 (060.211) (C); and one of MBIO 2370, MBIO 2371 (060.237), CHEM 2370, or CHEM 2371 (002.237) (C).

MBIO 4510 Industrial Microbiology Cr.Hrs.3 (Lab Required) (Formerly 060.451) A survey of microbial reactions used in industry. Fermentations, such as the production of amino acids and antibiotics, will be discussed. *Prerequisites:* MBIO 2110 or MBIO 2111 (060.211) (C); and one of MBIO 2370, MBIO 2371 (060.237), CHEM 2370, or CHEM 2371 (002.237) (C).

MBIO 4530 Project in Microbiology Cr.Hrs.6 (Lab Required) (Formerly 060.453) A research project chosen in consultation with the department head, and supervised by a staff member. A written report is normally required. The course is available only to final year Honours students in Microbiology, the Joint Microbiology-Chemistry programs, or the Genetics program. Not to be held with CHEM 4710 (002.471).

MBIO 4540 Biological Energy Transduction Cr.Hrs.3 (Formerly 060.454) Biochemistry of biological processes involving interconversion of different forms of energy such as oxidative phosphorylation, membrane transport and contractile processes. Not to be held with MBIO 4541. *Prerequisite:* MBIO 2110 or MBIO 2111 (060.211) (C); and one of MBIO 2370, MBIO 2371 (060.237), CHEM 2370, or CHEM 2371 (002.237) (C); or consent of the department.

MBIO 4600 Molecular Genetics of Prokaryotes Cr.Hrs.3 (Lab Required) (Formerly 060.460) A detailed examination of replication, expression, mutability, repair and transposition of DNA in bacteria and their viruses. Priority will be given to Science

Honours students. Not to be held with MBIO 4601 or the former 060.452 or 060.456. *Prerequisites:* MBIO 2110 or MBIO 2111 (060.211) (C); and one of MBIO 2370, MBIO 2371 (060.237), CHEM 2370, or CHEM 2371 (002.237) (C). BIOL 2500 (BOTN 2460, 001.246) is recommended.

MBIO 4610 Molecular Genetics of Eukaryotes Cr.Hrs.3 (Lab Required) (Formerly 060.461) A comprehensive study dealing with replication and expression of DNA, genome structure, and the involvement of genes in AIDS and cancer. Check with the department for availability. Not to be held with the former 060.452 or 060.455. *Prerequisites:* MBIO 2110 or MBIO 2111 (060.211) (C); and one of MBIO 2370, MBIO 2371 (060.237), CHEM 2370, or CHEM 2371 (002.237) (C). BIOL 2500 (BOTN 2460, 001.246) is recommended.

MBIO 4670 Applied Molecular Biology H Cr.Hrs.3 (Lab Required) The overall objective of this course is to introduce and describe current molecular techniques and their application to biological problems. These include, but are not limited to basic gene cloning, mutagenesis, and over-expression. Priority will be given to Science Honours students. Not to be held with MBIO 4672, or the former MBIO 4570 (60.457), MBIO 4581, or the former MBIO 4580 (60.458). *Prerequisites:* MBIO 3410 or MBIO 3411 (60.341) (C).

MBIO 4672 Applied Molecular Biology Cr.Hrs.3 The overall objective of this course is to introduce and describe the current molecular techniques and their application to biological problems. These include, but are not limited to, basic gene cloning, mutagenesis and over-expression. Not to be held with MBIO 4670, the former MBIO 4570 (060.457), MBIO 4581, or the former MBIO 4580 (060.458). *Prerequisite:* MBIO 3410 or MBIO 3411 (060.341) (C).

MBIO 4980 Work Term 3 Cr.Hrs.0 (Formerly 060.498) Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

MBIO 4990 Work Term 4 Cr.Hrs.0 (Formerly 060.499) Work assignments in business, industry or government for students registered in the Microbiology Honours or Major Cooperative program. Requires submission of a written report covering the work completed during the four-month professional assignment. (Pass/Fail grade only).

5.11 Department of Physics and Astronomy

Head: Peter Blunden

General Office: 301 Allen Building

Telephone: 204 474 9817

Websites: www.physics.umanitoba.ca

www.umanitoba.ca/science/astronomy

E-mail: physics@umanitoba.ca

5.11.1 Academic Staff

Distinguished Professors/Emeriti:

Morrish, A.H., B.Sc.(Hons.) (Manitoba), M.A. (Toronto), Ph.D. (Chicago), F.R.S.C.; **van Oers**, W.T.H., Ph.D. (Amsterdam).

Distinguished Professor

Page, J.H., B.Sc.(Hons.)(Dalhousie), D.Phil. (Oxford).

Professors Emeriti:

Barber, R.C., B.Sc.(Hons.), Ph.D. (McMaster); **Connor**, R.D., B.Sc., Ph.D. (Edinburgh); **Duckworth**, H.E., B.A. (Manitoba), B.Sc., Ph.D. (Chicago), F.R.S.C.; **McKee**, J.S.C., B.Sc., Ph.D. (Queen's, Belfast), D.Sc. (Birmingham); **Standing**, K.G., B.Sc.(Hons.) (Manitoba), A.M., Ph.D. (Princeton).

Senior Scholars:

Bhakar, B.S., B.Sc. (Agra), M.Sc. (Aligarh), Ph.D. (Delhi); **Bochonko**, R., B.Sc.(Hons.) (Manitoba), M.S., C. Phil., Ph.D. (Michigan); **Falk**, W., B.Sc., M.Sc. (Saskatchewan), Ph.D. (UBC); **Jovanovich**, J., B.Sc. (Belgrade), M.Sc. (Manitoba), Ph.D. (Washington); **Loly**, P.D., B.Sc., Ph.D. (London), D.I.C. (Imperial College); **Svening**, J.P., B.Sc. (Toronto), Ph.D. (M.I.T.); **Tabisz**, G.C., B.A.Sc., M.A., Ph.D. (Toronto); **Vail**, J.M., B.Sc. (Hons), M.Sc. (Manitoba), Ph.D. (Brandeis);

Professors:

Birchall, J., B.Sc.(Hons.), Ph.D. (Birmingham); **Blunden**, P.G., B.Math. (Waterloo), Ph.D. (Queen's); **Cadogan**, J.M., B.Sc.(Hons.)(Monash), Ph.D. (U.N.S.W), Canada Research Chair; **Chakraborty**, T., Ph.D. (Dibrugarh, India), Docent (Oulu, Finland), Ph.D. (h.c.)(Oulu, Finland), Canada Research Chair; **Ens**, E.W., B.Sc. (Winnipeg), Ph.D. (Manitoba); **Osborn**, T.A., B.Sc. (Cornell), Ph.D. (Stanford); **Page**, S.A., B.Sc.(Hons.), Ph.D. (Queen's); **Roshko**, R.M., B.Sc. (Winnipeg), M.Sc., Ph.D. (Manitoba); **Sharma**, K.S., B.Sc.(Hons.), M.Sc., Ph.D. (Manitoba); **Southern**, B.W., B.Sc. (York),

M.Sc., Ph.D. (McMaster); **Whitmore**, M.D., B.Sc., M.Sc., Ph.D. (McMaster); **Williams**, G., B.Sc.(Hons.) (Bristol), Ph.D. (London), D.I.C. (Imperial College); **Zetner**, P.W., B.Sc.(Hons.), M.Sc., Ph.D. (Windsor).

Associate Professors:

English, J., A.O.C.A. (Ont. Coll. of Art), B.Sc. (Toronto), Ph.D. (Australian National Univ.); **Gwinner**, G., Vordiplom (Heidelberg), M.A., Ph.D. (S.U.N.Y.); **Hu**, C-M., B.Sc. (Fudan), Ph.D. (Würtzburg); **Safi-Harb**, S., B.Sc. (American Univ. of Beirut), M.S., Ph.D. (Wisconsin), Canada Research Chair; **Shamseddine**, K., B.S. (American Univ. of Beirut), M.S., Ph.D. (Michigan State Univ.).

Assistant Professors:

Fiege, J., B.Sc., M.Sc. (Queen's), Ph.D. (McMaster); **Gericke**, M., B.S. (Arkansas, Little Rock), M.S., Ph.D. (Indiana, Bloomington); **Lin**, F., B.S. (Beijing), M.S. (California State University), Ph.D. (California, Irvine); **van Lierop**, J., B.Sc.(Hons) (Concordia), M.Sc. (Queen's), Ph.D. (McGill).

5.11.2 Program Information

Physics is the discipline that by experiment and logical analysis examines the laws of nature that form the basis for all relationships and interactions between matter and energy. Knowledge of physics is also essential in other natural sciences, such as chemistry and geology, and to professions such as engineering, medicine and dentistry. Astronomy, the other focus of this department, examines the universe, the earth and the planets, as well as phenomena such as quasars, pulsars, comets, and asteroids; a planetarium and an astronomical observatory are part of this program. In both Physics and Astronomy mathematical skills are developed simultaneously.

The department must approve a student's Honour or Major program prior to registration in each session. Students must also obtain approval for any and all revisions to their program.

Honours

To enter the Honours program in Physics and Astronomy, a student must have a "B" in PHYS 1050 and PHYS 1070, or a "B+" in PHYS 1020 and a "B" in PHYS 1070, standing in MATH 1500, a "B" in MATH 1700 and a "B" in MATH 1300 or any equivalents. In addition, a student must satisfy the faculty requirements for entry to the Honours program.

To continue in the Honours program, i.e., to proceed from Year 2 to Year 3 and Year 3 to Year 4, students must achieve a minimum DGPA of 3.00 and a grade of "C" in all Honours Physics and Astronomy courses which are either required in the program or required as prerequisites to other Physics and Astronomy courses taken in the Honours program.

To graduate with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and minimum grade of "C" in each course that contributes to the 120 credit hours of the degree.

There are a number of awards — the Coish, the C.P. Loewen, the Neamtan, the Roulston, and the Sen Scholarships — available in this program.

Joint Honours

The Department of Physics and Astronomy offers joint honours programs in conjunction with the Departments of Mathematics, Computer Science, and Chemistry.

To enter the Joint Honours Mathematics-Physics program the student must have a minimum grade of "B" in MATH 1300, MATH 1510 and MATH 1710 (or MATH 1690), PHYS 1050 (or "B+" in PHYS 1020) and PHYS 1070.

To enter the Joint Honours Computer Science-Physics program, the student must have a minimum grade of "B" in PHYS 1050 (or "B+" in PHYS 1020), PHYS 1070, MATH 1300, MATH 1500 (or equivalent), MATH 1700 (or equivalent), and COMP 1020.

To enter the Joint Honours Chemistry-Physics program, the student must have a minimum grade of "B" in PHYS 1050 (or "B+" in PHYS 1020), PHYS 1070, CHEM 1300, CHEM 1310, MATH 1500 and MATH 1700.

Double Honours

The Department of Physics and Astronomy offers a double honours degree in conjunction with the Biochemistry program.

Four Year Major

The goal of this program is to provide an excellent physics education for a student with broad interests. It provides more control over the degree program, permitting significantly more electives and scheduling flexibility.

To enter the four year Major program in Physics and Astronomy, a student must have PHYS 1050 (C+) or PHYS 1020 (B), and PHYS 1070 (C+), MATH 1500³ and MATH 1700³ with a minimum grade of "C" and an average of "C+" on these two courses. In addition, students must have satisfied the faculty requirements for entry to the four year Major program.

Three Year General

As prescribed with all other faculty regulations in Section 3.2, students in this program must select 36 credit hours of 2000 and (or) 3000 level courses from **two** Science departments. To satisfy the requirement in the Department of Physics and Astronomy, students must select a minimum of 18 credit hours from the list in the chart below.

Variations in any of the programs listed above may be possible, but must be approved by the head of the department and the Science general office.

5.11.3 Physics and Astronomy			
UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
HONOURS Option A: Astronomy¹ 120 CREDIT HOURS (comprising courses listed in chart below.)			
PHYS 1050(B) (or PHYS 1020 B+), PHYS 1070 ² , MATH 1300, MATH 1500, MATH 1700 6 credit hours of ARTS including the "W" requirement. 9 credit hours of open electives (PHYS 1810 and PHYS 1820 are highly rec- ommended for this program).	PHYS 2070(6), PHYS 2260, PHYS 2380, PHYS 2390, PHYS 2490, PHYS 2600, PHYS 2610, PHYS 2650 3 credit hours of open electives ⁴ .	PHYS 3180, PHYS 3380, PHYS 3430(6), PHYS 3630, PHYS 3650, PHYS 3670, plus 6 additional credit hours of 3000 Level Physics and As- tronomy courses 3 credit hours of open electives ⁴ .	PHYS 3680, PHYS 3640, PHYS 4230, PHYS 4240 (6), PHYS 4390, MATH 3130, plus 6 additional credit hours of 4000 level Phys- ics and Astronomy courses 3 credit hours of open electives ⁴ .
HONOURS Option B: Physics¹ 120 CREDIT HOURS (comprising courses listed in chart below.)			
PHYS 1050(B) (or PHYS 1020 B+), PHYS 1070 ² , MATH 1300, MATH 1500, MATH 1700 6 credit hours of ARTS including the "W" requirement. 9 credit hours of open electives	PHYS 2260, PHYS 2380, PHYS 2390, PHYS 2490, PHYS 2600, PHYS 2610, PHYS 2650 9 credit hours of open electives ⁴ .	PHYS 3380, PHYS 3430(6), PHYS 3650, PHYS 3670, PHYS 3680, PHYS 3630, PHYS 3640, PHYS 3660 Plus 3 credit hours of open electives ⁴	PHYS 4250, PHYS 4390, PHYS 4510, PHYS 4520, PHYS 4672, PHYS 4674, PHYS 4590, PHYS 4600, PHYS 4620, MATH 3130
HONOURS Option C: Medical and Biological¹ 120 CREDIT HOURS (comprising courses listed in chart below.)			
PHYS 1050(B) (or PHYS 1020 B+), PHYS 1070 ² , MATH 1300, MATH 1500, MATH 1700 BIOL 1410 (ZOOL 1320), BIOL 1412 (ZOOL 1330) 6 credit hours of ARTS including the "W" requirement ⁵ 3 credit hours of open electives. ⁵	PHYS 2260, PHYS 2380, PHYS 2390, PHYS 2490, PHYS 2600, PHYS 2610, PHYS 2650, 9 credit hours of open elec- tives. ⁴ BIOL 2520 (ZOOL 2280) is recommended as an elective in this program. ⁵	PHYS 3380, PHYS 3430(6),PHYS 3650, PHYS 3670, PHYS 3680, PHYS 3630, PHYS 3640, PHYS 3220 Plus 3 credit hours of open elec- tives. ⁴	PHYS 4250, PHYS 4560, PHYS 4672, PHYS 4674, PHYS 4360, PHYS 4400, ECE 3780, MATH 3130 Plus 6 credit hours of open elec- tives. ⁴
30 Hours	30 Hours	30 Hours	30 Hours

FOUR YEAR MAJOR 120 CREDIT HOURS (comprising courses listed in chart below.)

PHYS 1050(C+) (or PHYS 1020 B), PHYS 1070 ² (C+), MATH 1300, MATH 1500, MATH 1700 Plus 6 credit hours from the Faculty of Arts, which should include the re- quired "W" course Plus 9 credit hours of open electives.	PHYS 2260, PHYS 2380, PHYS 2390, PHYS 2490, PHYS 2600, MATH 1200 Plus 12 credit hours of open electives ⁴	PHYS 2610, PHYS 2650, PHYS 3380, PHYS 3670, PHYS 3680, plus an ad- ditional 3 credit hours of 3000 level Physics and Astronomy. Plus 12 credit hours of open electives ⁴ .	PHYS 3630, PHYS 3640, PHYS 3430 (6), PHYS 3650, MATH 3130, plus an additional 3 hours of 4000 level Physics and Astron- omy. Plus 9 credit hours of open electives ⁴ .
30 Hours	30 Hours	30 Hours	30 Hours

THREE YEAR GENERAL

A minimum of 18 credit hours must be chosen from this list: PHYS 2070, PHYS 2200, PHYS 2250, PHYS 2260, PHYS 2270, PHYS 2280, PHYS 2350, PHYS 2380, PHYS 2700, PHYS 2710, PHYS 3180, PHYS 3380, PHYS 3800, PHYS 4230. (Subject to the Faculty requirement that of the 36 hours of advanced level courses, at least 6 credit hours must be chosen from the 3000 and (or) 4000 level.)

MINOR

PHYS 1050 (C) and PHYS 1070 (C) (or PHYS 1020 (C+) and PHYS 1030 (C+))	A minimum of 12 credit hours from PHYS 2070, PHYS 2200, PHYS 2250, PHYS 2260, PHYS 2270, PHYS 2280, PHYS 2350, PHYS 2380, PHYS 2700, PHYS 2710, PHYS 3180, PHYS 3380, PHYS 3800.
---	--

NOTES:

¹ Students must achieve a minimum grade of "C" in all Physics and Astronomy courses that are either required in the program or required as prerequisites to other Physics and Astronomy courses taken in the Honours program.

² PHYS 1030 is neither suitable for entry to the Honours program nor is it suitable for use to enter the Four Year Major program. Students must also take PHYS 1070 if they have already taken PHYS 1030. Students can hold credit for both PHYS 1030 and PHYS 1070.

³ MATH 1310 may be taken in place of MATH 1300; MATH 1510 or MATH 1520 may be taken in place of MATH 1500; MATH 1710 may be taken in place of MATH 1700; MATH 1690 may be taken in place of MATH 1500 and MATH 1700. MATH 2750 may be taken as a recommended course in lieu of MATH 2720 and MATH 2730.

⁴ Although they are not required courses in the Physics programs, MATH 2720, MATH 2730, MATH 2800, and MATH 3700 are highly recommended electives for the Physics Honours and Four Year Major degrees, and should be taken when possible.

⁵ BIOL 2520 (ZOOL 2280) is a recommended course in Physics Honours – Option C: Medical and Biological. If a student plans to take BIOL 2520 (ZOOL 2280), BIOL 1020 and BIOL 1030 should be taken in year one of the program as prerequisites. This will push either the "W" course or the ARTS elective from year one, to year two or three.

IMPORTANT: The four year Major program need not be completed in the manner prescribed in the chart above. The chart indicates the recommended arrangement of the required courses and is meant to be a guide around which students can plan their program (Letters in brackets refer to minimum prerequisite standing required for further study.)

5.11.4 Physics and Astronomy Course Descriptions

Note: Students failing to obtain a minimum grade of "C" in any course stipulated as a prerequisite to a further course in Physics and Astronomy are not allowed to proceed without written consent from the instructor.

PHYS 0900 Preparing for University Physics Cr.Hrs.0 (Formerly 016.090) A review of elementary physics, emphasizing the laws of mechanics, for students considering enrolling in a first-year university physics course. Mathematical techniques used in solving physics problems and the relevance of physics to everyday life will be stressed. Although this course may be used as part of the *prerequisite* requirements for first-year Physics courses, students are encouraged to take Physics 40S whenever possible.

PHYS 1020 General Physics 1 Cr.Hrs.3 (Lab Required) (Formerly 016.102) A non-calculus survey course in Physics covering topics in mechanics and thermodynamics, with illustrations drawn from the life and physical sciences. This course, together with the sequel PHYS 1030 (or 016.103), is recommended for students seeking either a single, comprehensive course in Physics or entry into health science programs. It may also be used for entry into the Honours Physics program ("B+" or better) or the Major Physics program ("B" or better). Not to be held with PHYS 1021, PHYS 1050, PHYS 1051 (016.105), PHYS 1410 (016.141), PHYS 1420 (016.142), or the former 016.127. *Prerequisites:* Either Physics 40S, PHYS 0900 (016.090) (P), or equivalent; and either Pre-calculus Mathematics 40S, Applied Mathematics 40S (with 70% or better), or equivalent. It is strongly recommended that students attain a minimum of 70% as the average of their marks in Physics 40S and Pre-calculus Mathematics 40S.

PHYS 1030 General Physics 2 Cr.Hrs.3 (Lab Required) (Formerly 016.103) A non-calculus survey in Physics covering topics in electricity, magnetism, optics, and modern physics, with illustrations drawn from the life and physical sciences. This course, together with its *prerequisite* PHYS 1020 (016.102), is recommended for students seeking either a single comprehensive course in Physics, or entry into health science programs. Not suitable for entry to Major or Honours in Physics. This course may not be held with PHYS 1031, PHYS 1410 (016.141), PHYS 1420 (016.142), or the former 016.120. *Prerequisite:* One of PHYS 1020, PHYS 1021 (016.102) (C), PHYS 1050, or PHYS 1051 (016.105) (C).

PHYS 1050 Physics 1: Mechanics Cr.Hrs.3 (Lab Required) (Formerly 016.105) A calculus-based introduction to classical mechanics which includes vectors, translational kinematics and dynamics, work and energy, linear momentum and collisions, rotational kinematics and dynamics, and oscillatory motion. This course is intended for students considering a program of study in engineering or the physical sciences. Not to be held with PHYS 1020, PHYS 1021 (016.102), PHYS 1051, PHYS 1410 (016.141), PHYS 1420 (016.142), or the former courses 016.118, 016.120, or 016.127. *Prerequisites:* Pre-calculus Mathematics 40S (300) (or equivalent) and Physics 40S (300) (or equivalent); or PHYS 0900 (016.090) (Pass). It is strongly recommended that students attain a minimum of 80 per cent as the average of their marks in Physics 40S (300) and Pre-calculus Mathematics 40S (300). *Prerequisite or concurrent requirement:* One of MATH 1500, MATH 1501, MATH 1510, MATH 1520, the former 136.153 or MATH 1690.

PHYS 1070 Physics 2: Waves and Modern Physics Cr.Hrs.3 (Lab Required) (Formerly 016.107) A calculus based introduction to waves and modern physics which includes: oscillations, waves, superposition, interference, relativity, photoelectric effect, quantisation, Rutherford atom, Bohr model, atomic spectra, deBroglie waves, Heisenberg's uncertainty principle, nuclear reactions, fission, fusion, subatomic particles. This course, like Physics 1 (PHYS 1050), is intended for students considering a program in the physical sciences. Not to be held for credit with PHYS 1071, PHYS 1410 (016.141), PHYS 1420 (016.142). *Prerequisites:* PHYS 1050 (or equivalent - PHYS 1051, 016.105, 016.118) (C) or PHYS 1020 (or equivalent - PHYS 1021, 016.102) (B); and "C" or better in one of MATH 1500, MATH 1501 (136.150), MATH 1510 (136.151), MATH 1520 (136.152), or the former 136.153. *Prerequisite or concurrent requirement:* one of MATH 1700, MATH 1701, MATH 1690, MATH 1710, or the former 136.173.

PHYS 1300 Energy and the Environment Cr.Hrs.6 (Formerly 016.130) This course provides a broad physical outlook on the environment in which we live. Emphasis will be placed on topics of current interest such as the atmosphere, outer space, the fundamental structure of energy and matter, energy sources, the application of physical principles in modern technology, etc. The lectures will include films and demonstrations: student participation will be encouraged in discussions and in the choice of topics. The course is designed for students of all faculties and a prior knowledge of mathematics and physics is not a requirement. Not to be held with PHYS 1301. This course cannot be used as a part of a Major or Minor in Physics.

PHYS 1410 The New Physics Cr.Hrs.3 (Formerly 016.141) This is the first of two half courses designed to achieve "physics literacy" through the presentation of the "Great Ideas." Features include developing intuition, connections with technology and the environment, social and philosophical issues, profiles of scientists and science in the media. The course will draw on high school math for simple numerical calculations with core formulae. Students should expect to draw diagrams and to be introduced to some new concepts, but should not expect the "math problem" solving associated with the foundation courses PHYS 1020, PHYS 1030, PHYS 1050, and PHYS 1070.

Discussed in this course: scientific method, mathematics as the language of science, regularities in the universe, mechanical universe, energy, thermodynamics, electromagnetism, waves and electromagnetic radiation, atomic physics, quantum mechanics (wave-particle duality and Heisenberg's uncertainty principle), clusters of atoms, mind and matter (the physicist Pauli and the psychologist Jung). This course is intended for students pursuing a liberal arts program and may not be held for credit with PHYS 1020, PHYS 1021 (016.102), PHYS 1030, PHYS 1031 (016.103), PHYS 1050, PHYS 1051 (016.105), PHYS 1070, or PHYS 1071 (016.107).

PHYS 1420 More New Physics Cr.Hrs.3 (Formerly 016.142) This is the second of two half courses designed to achieve "physics literacy" through the presentation of the "Great Ideas." Features include developing intuition, connections with technology and the environment, social and philosophical issues, profiles of scientists and science in the media. The course will draw on high school math for simple numerical calculations with core formulae. Students should expect to draw diagrams and to be introduced to some new concepts, but should not expect the "math problem" solving associated with the foundation courses PHYS 1020, PHYS 1030, PHYS 1050 and PHYS 1070. Discussed in this course: materials, nuclear physics, elementary particles, relativity, planetary physics, astrophysics, cosmology, geometry of the universe, (Plato to Banchoff), computers and physics (cellular automata and Conway's "Game of Life," chaos, fractals...). This course is intended for students pursuing a liberal arts program and may not be held for credit with PHYS 1020, PHYS 1021 (016.102), PHYS 1030, PHYS 1031 (016.103), PHYS 1050, PHYS 1051 (016.105), PHYS 1070, or PHYS 1071 (016.107). *Prerequisite:* PHYS 1410 (016.141) (C); or consent of department.

PHYS 1810 General Astronomy 1 Cr.Hrs.3 (Lab Required) (Formerly 016.181) The topics covered in this course outline the properties of stars and planets that can be observed and the physics necessary to interpret these observations. It includes a brief introduction to galaxies and cosmology. Using lectures and laboratory sections, it provides an astronomy background and introduction to the scientific method. It ranges from introductory physical background to considering current research problems. This course is mainly descriptive, taught at a qualitative level, with simple arithmetic and trigonometry used frequently. Not to be held with the former 016.180.

PHYS 1820 General Astronomy 2: Exotic Stars, Galaxies and Cosmology Cr.Hrs.3 (Lab Required) (Formerly 016.182) This course extends the material from General Astronomy 1, increasing the student's physical understanding of topics like black holes, galaxies, and the expanding universe. Topics range from the Big Bang to the formation of neutron stars. A significant amount of simple arithmetic and trigonometry is used to provide the insights into physical background and to illuminate current research problems. Labs and observing sessions are used to teach scientific method. Not to be held with the former 016.180. *Prerequisites:* Pre-calculus Mathematics 40S or equivalent, or consent of department.

PHYS 1830 Perspective on the Universe Cr.Hrs.3 (Lab Required) (Formerly 016.183) This general interest course is a qualitative course on the concepts and discoveries in astronomy. Topics may vary from year to year and could include Life on Other Worlds or Astronomy in the News. These themes are used to give the student a qualitative astronomy background ranging from planets and stars to galaxies and cosmology. A few special sessions at Glenlea Observatory and the Lockhart Planetarium introduce the student to scientific method. Although simple arithmetic and trigonometry will be used occasionally, this is a descriptive course.

PHYS 2060 Fundamentals of Physics in Radiation Therapy Cr.Hrs.3 (Lab Required) (Formerly 016.206) Provides the student with a fundamental understanding of the physical nature of photons and electrons and the manner in which they interact with an absorbing scattering medium. The concepts presented in this series will enhance the student's ability to make decisions regarding clinical radiation therapy treatments. Also taught by Allied Heath as RTT 2060. Restricted to students in the Radiation Therapy program. *Prerequisite:* PHYS 1030 or PHYS 1031 (016.103) (C). *Prerequisite or concurrent requirements:* RTT 2040 and RTT 2080.

PHYS 2070 Observational Astronomy Cr.Hrs.6 (Lab Required) (Formerly 016.207) Students will undertake a project on galaxies or nebulae using the University of Manitoba's Astronomical Observatory at Glenlea. *Prerequisite:* PHYS 1030 or PHYS 1031 (016.103) (B); or PHYS 1070 or PHYS 1071 (016.107) (C); or one of PHYS 1810 (016.181) (C) or PHYS 1830 (016.183) (C).

PHYS 2090 Radiation Protection in Radiation Therapy Cr.Hrs.3 (Formerly 016.209) Previews fundamental concepts used to minimize the risk when working with radiation, with emphasis on radiation therapy. Includes types and sources of radiation, radiation quantities and units, biological effect and potential risks, basic principles of protection, regulation and dose limits, methods of dose monitoring, and applications in radiation therapy. Also taught by Allied Heath as RTT 2090. Restricted to students in the Radiation Therapy program. *Prerequisites:* RTT 2100 (163.210) (C), RTT 2060 (163.206) (C).

PHYS 2150 Radiation Biology Cr.Hrs.3 (Formerly 016.215) This course deals with the fundamentals of radiation biology and focuses on the effects of radiation at a cellular and molecular level. Also taught by Allied Heath as RTT 2150. Restricted to students in the Radiation Therapy program. *Prerequisite:* PHYS 1030 or PHYS 1031 (016.103) (C).

PHYS 2152 Modern Physics for Engineers Cr.Hrs.3 (Lab Required) An overview of topics in modern physics including wave particle duality, atomic structure and quantum mechanics. Elementary classical electromagnetic theory and wave theory are reviewed as an introduction to the modern physics concepts. For Engineering students only. Not to be held with PHYS 1070 or PHYS 1071 (016.107). *Prerequisites:* a "C" or better in one of PHYS 1050, PHYS 1051 (016.105), or the former 016.118; or a "B" or better in PHYS 1020 or PHYS 1021 (016.102); and a "C" or better in one of MATH

1500, MATH 1501 (136.150), MATH 1510 (136.151), MATH 1520 (136.152), or the former courses 136.153, 006.125, or 013.139; and a "C" or better in one of MATH 1700, MATH 1701 (136.170), MATH 1710 (136.171), the former 136.173, or MATH 1690 (136.169). *Prerequisite or concurrent requirement:* MATH 2130.

PHYS 2200 Electricity and Magnetism Cr.Hrs.6 (Lab Required) (Formerly 016.220) Electric field, electric potential, Gauss' law, capacitors, dielectric materials, magnetic fields, Ampere's law, magnetic induction, magnetic materials, displacement current, integral form of Maxwell's equations, Ohm's law, Kirchhoff's laws, DC circuit analysis, equivalent circuits, AC circuit analysis, complex impedance, RLC circuits, magnetic coupling, transformers, diodes and diode circuits. Not to be held with PHYS 2201, PHYS 2600 (016.260) or PHYS 2610 (016.261). *Prerequisites:* a "C" or better in PHYS 1070 (or equivalent - PHYS 1071, 016.107, 016.106, 016.120), or a "C+" or better in both of PHYS 1020 (or equivalent - PHYS 1021, 016.102) and PHYS 1030 (or equivalent - PHYS 1031, 016.103); and a "C" or better in one of MATH 1500, MATH 1501 (136.150), MATH 1510 (136.151), MATH 1520 (136.152), the former 136.153, or MATH 1690 (136.169). *Prerequisite or concurrent requirements:* MATH 1200 or MATH 1201; and one of MATH 1690, MATH 1700, MATH 1701, MATH 1710, or the former 136.173.

PHYS 2250 Introductory Modern Physics Cr.Hrs.3 (Formerly 016.225) An introductory course on atomic and nuclear physics. Kinetic theory of gases, special theory of relativity, quantum effects and atomic physics, nuclear physics. Not available to students who have previously obtained credit in, or are currently registered in PHYS 2251, PHYS 2380 (016.238) or the former 016.250. Not available to students in Honours or Major programs in Physics. *Prerequisites:* a "C" or better in PHYS 1070 (or equivalent - PHYS 1071, 016.107, 016.127), or a "C+" or better in both of PHYS 1020 (or equivalent - PHYS 1021, 016.102) and PHYS 1030 (or equivalent - PHYS 1031, 016.103); and a "C" or better in one of MATH 1500, MATH 1501 (136.150), MATH 1510 (136.151), MATH 1520 (136.152), the former 136.153, or MATH 1690 (136.169). *Prerequisite or concurrent requirements:* MATH 1200 or MATH 1201; and one of MATH 1690, MATH 1700, MATH 1701, MATH 1710 or the former 136.173 (D).

PHYS 2260 Optics Cr.Hrs.3 (Lab Required) (Formerly 016.226) A survey of refraction, reflection, simple lens systems and optical systems, dispersion, achromatism and an elementary treatment of diffraction, interference, and polarization. Not to be held with PHYS 2261. *Prerequisites:* A "C" or better in PHYS 1070 (or equivalent - PHYS 1071, 016.107), or a "C+" or better in both of PHYS 1020 (or equivalent - PHYS 1021, 016.102) and PHYS 1030 (or equivalent - PHYS 1031, 016.103); and a "C" or better in one of MATH 1500, MATH 1501 (136.150), MATH 1510 (136.151), MATH 1520 (136.152), the former 136.153, or MATH 1690 (136.169). *Prerequisite or concurrent requirements:* One of MATH 1300, MATH 1301 (136.130), or MATH 1310 (136.131); and one of MATH 1690, MATH 1700, MATH 1701 (136.170), MATH 1710 (136.171), or the former 136.173.

PHYS 2270 Physical Topics for Biologists A Cr.Hrs.3 (Formerly 016.227) Physical topics with a relation to biology are discussed. Radiative transfer of energy, boundary layers, heat conduction, diffusion, mass transport, and the use of radioactive materials in biology are considered. Not to be held with PHYS 2271. *Prerequisite:* a grade of "C" or better in one of PHYS 1050, PHYS 1051 (016.105), PHYS 1020, or PHYS 1021 (016.102); or consent of department.

PHYS 2280 Physical Topics for Biologists B Cr.Hrs.3 (Formerly 016.228) Physical properties of solids, liquids, and gases including diffusion and membranes; radiation and radioactivity. Aspects of particular interest to the biological sciences are stressed. Not to be held with PHYS 2281. *Prerequisite:* a grade of "C" or better in one of PHYS 1070, PHYS 1071 (016.107), PHYS 1030, or PHYS 1031 (016.103); or consent of department.

PHYS 2350 Energy Sources: Physical Aspects Cr.Hrs.3 (Formerly 016.235) A detailed investigation of the physical aspects of energy production and utilization. Critical comparison of the various energy sources including solar, nuclear, fossil, and wind will be emphasized. The physics of energy collection, production, storage, and distribution will be discussed in the context of thermodynamics, radiation, solid state and nuclear physics. *Prerequisite:* a grade of "C" or better in one of PHYS 1070, PHYS 1071 (016.107), PHYS 1030, or PHYS 1031 (016.103); or consent of department.

PHYS 2380 Quantum Physics 1 Cr.Hrs.3 (Formerly 016.238) The first in a sequence of three courses on Quantum Physics. This course introduces the basic principles of quantum theory including cavity radiation and Planck's postulate, wave-particle duality, the Bohr model, and the Schrodinger theory of quantum mechanics. Special emphasis is placed on the derivation of the time independent Schrodinger equation and its solutions in one dimension. Not to be held with the former 016.250. *Prerequisites:* PHYS 1070 or PHYS 1071 (016.107) (C); and one of MATH 1690 (136.169) (C), MATH 1700, MATH 1701 (136.170) (C), MATH 1710 (136.171) (C), or the former 136.173 (C).

PHYS 2390 Theoretical Physics 1 Cr.Hrs.3 This course provides an introduction to the mathematics required for both the Honours and Major programs in Physics and Astronomy. Topics include series expansions, partial derivatives, vector calculus and integral theorems. Not to be held with the former 016.237. *Prerequisites:* PHYS 1070 or PHYS 1071 (016.107) (C); and a grade of "C" or better in one of MATH 1690 (136.169), MATH 1700, MATH 1701 (136.170), MATH 1710 (136.171), or the former 136.173.

PHYS 2490 Theoretical Physics 2 Cr.Hrs.3 This course provides a continuation of the introduction to the mathematics required for both the Honours and Major programs in Physics and Astronomy. Topics include Fourier series, differential equations, special functions, boundary value problems and transform methods. Not to be held with the former 016.237. *Prerequisite:* PHYS 2390.

PHYS 2600 Electromagnetic Field Theory Cr.Hrs.3 (Formerly 016.260) Electric field, electric potential, Gauss' law, capacitors, dielectric materials, magnetic fields, Ampere's law, magnetic induction, magnetic materials, displacement current, integral form of Maxwell's equations. Not to be held with PHYS 2200 or PHYS 2201 (016.220). *Prerequisites:* a "C" or better in one of PHYS 1070, PHYS 1071 (016.107), the former 016.106, or the former 016.120; and a "C" or better in one of MATH 1690 (136.169), MATH 1700, MATH 1701 (136.170), MATH 1710 (136.171) or the former 136.173.

PHYS 2610 Circuit Theory and Introductory Electronics Cr.Hrs.3 (Lab Required) (Formerly 016.261) Ohm's law, Kirchhoff's laws, DC circuit analysis, equivalent circuits, AC circuit analysis, complex impedance, RLC circuits, magnetic coupling, transformers, diodes and diode circuits. Not to be held with PHYS 2200 or PHYS 2201 (016.220). *Prerequisite:* PHYS 2600 (016.260) (C).

PHYS 2650 Classical Mechanics 1 Cr.Hrs.3 (Formerly 016.265) The first in a sequence of three courses on intermediate to advanced level mechanics. Topics include dynamics of a particle, conservation theorems, rotation, rolling motion, oscillations, gravitation and central force motion, and associated mathematical methods. *Prerequisite:* one of PHYS 1070, PHYS 1071 (016.107), or the former 016.106 (C). *Prerequisite or concurrent requirements:* PHYS 2490; and one of MATH 2720, MATH 2130, or MATH 2750.

PHYS 2700 Concepts of Physical Science to 1900 Cr.Hrs.3 (Formerly 016.270) The evolution of scientific thought is traced through three major historical periods, namely the early Greeks, the scientific revolution of the 16th and 17th centuries and the modern period up to 1900. The course is designed to present the key ideas of scientific inquiry into the nature of heat, light, matter and celestial mechanics within their historical context. Not to be held with the former 016.131. This course is not to be held for credit in a Major or Honours program in Physics and Astronomy.

PHYS 2710 Concepts of Physical Science from 1900 Cr.Hrs.3 (Formerly 016.271) This course deals with the concepts of modern physics which arose near the turn of the twentieth century and revolutionized our view of the physical world. Einstein's Theory of Relativity, the Bohr-Rutherford atom and wave-particle duality are discussed. The impact of these ideas on modern society is explored. N.B. This course should be preceded by PHYS 2700 (016.270) or the former 016.131. Not to be held with the former 016.132. This course is not to be held for credit in a Major or Honours program in Physics and Astronomy.

PHYS 3180 Stars Cr.Hrs.3 (Formerly 016.318) This course is an application of physics to the structure of stars, their formation and evolution; theoretical models and observations; comparisons of main sequence stars like our Sun, binary star systems, post-main sequence evolution, and the final stages of stellar evolution such as the formation of white dwarfs, neutron stars and black holes. *Prerequisite:* PHYS 1070 or PHYS 1071 (016.107) (C).

PHYS 3220 Medical Physics and Physiological Measurement Cr.Hrs.3 (Formerly 016.322) This course will introduce the core subject areas of Medical Physics, in particular the physics of physiology and of radiology. The mechanics of body systems and the theory, medical applications and safety issues relating to the production, use, detection and measurements of electromagnetic radiation (both ionizing and non-ionizing) will be included. It will also cover Medical imaging (Ultrasound, CT and MRI) and will provide the student with an understanding of the physics underlying neurological, audiological, respiratory and vascular function and measurements. Also taught by Allied Health as RTT 3320. *Prerequisite:* PHYS 2600 (016.260) (C) or PHYS 2200 (016.220) (C), or consent of the department.

PHYS 3360 Intermediate Modern Physics Cr.Hrs.6 (Formerly 016.336) Introduction to wave mechanics and its applications in atomic, molecular, and solid state physics. A survey of nuclear and particle physics phenomena. An introduction to astrophysics. *Prerequisite:* PHYS 2250 or PHYS 2251 (016.225) (C).

PHYS 3380 Quantum Physics 2 Cr.Hrs.3 (Formerly 016.338) This course is the sequel to PHYS 2380 (016.238). It focuses on solutions of the three-dimensional Schrödinger equation with special emphasis on one-electron atoms, multi-electron atoms, and single molecules. Not to be held with PHYS 4640 (016.464), PHYS 4650 (016.465), the former 016.358, or the former 016.370. *Prerequisite:* PHYS 2380 (016.238), or the former 016.250 (C).

PHYS 3430 Honours Physics Laboratory Cr.Hrs.6 (Lab Required) (Formerly 016.343) Six hours per week. *Prerequisites:* PHYS 2260 or PHYS 2261 (016.226) (C); and one of PHYS 2610 (016.261) or the former 016.269 (C); or consent of department.

PHYS 3570 Physics of Materials 1 Cr.Hrs.3 (Formerly 016.357) Introduction to the physics of materials. Solids within the elastic limit: stress and strain tensors, elastic constants. Liquids: continuity equation, Bernoulli, Euler and Navier-Stokes equations. Recommended *prerequisite or concurrent requirement:* PHYS 3680.

PHYS 3630 Electro - and Magnetostatic Theory Cr.Hrs.3 Material covered will include electrostatics (i.e. Gauss' Law, Laplace and Poisson equations) and magnetostatics (Lorentz force, Maxwell equations) as well as the properties of electrostatic fields in matter and magnetism in materials. Not to be held with the former 016.369. *Prerequisites:* PHYS 2600 (016.260) (C); and PHYS 2490 or the former 016.237(C); or consent of department.

PHYS 3640 Electro - and Magnetodynamics and Special Relativity Cr.Hrs.3 Topics covered will include time dependent Maxwell's equations, Ohm's and Faraday's Law, electromagnetic waves, potential and fields, radiation, and special relativity including the Lorentz transformations. Not to be held with the former 016.369. *Prerequisite:* PHYS 3630 (C).

PHYS 3650 Classical Mechanics 2 Cr.Hrs.3 (Formerly 016.365) The second in a sequence of three courses on intermediate to advanced level mechanics. Topics include dynamics of a system of particles, noninertial reference frames, dynamics of rigid bodies, calculus of variations, Lagrangian and Hamiltonian dynamics. Not to be held with the former 016.233. *Prerequisite:* PHYS 2650 (016.265) (C).

PHYS 3660 Classical Mechanics 3 Cr.Hrs.3 (Formerly 016.366) The third in a sequence of three courses on intermediate to advanced level mechanics. Topics include nonlinear oscillations and chaos, coupled oscillations, the wave equation in continuous media, special relativity. Not to be held with the former 016.356. *Prerequisite:* PHYS 3650 (016.365) (C).

PHYS 3670 Classical Thermodynamics Cr.Hrs.3 An introduction to the laws of classical equilibrium thermodynamics and their applications. Not to be held with the former 016.341. *Prerequisite:* PHYS 2490 or the former 016.237(C).

PHYS 3680 Statistical Mechanics Cr.Hrs.3 An introduction to the principles of classical and quantum statistical mechanics and their applications. Not to be held with the former 016.341. *Prerequisites:* PHYS 2380 (016.238) (C) and PHYS 3670 (C).

PHYS 3800 Topics in Astronomy Cr.Hrs.6 (Lab Required) (Formerly 016.380) An assignment and conference course to be taken only through consultation with the head of the department. The topics will vary depending upon student needs and interests, and will include specialized topics not available in regular course offerings.

PHYS 4230 The Phenomenology of Galaxies Cr.Hrs.3 (Formerly 016.423) This course describes the phenomenology of galaxies as determined by recent observational data. Topics include the characteristics and distribution of stars; radiation from the interstellar medium (hydrogen, molecular gas and dust); the kinematics of the stellar and gaseous components of the Milky Way; the formation and evolution of galaxies and clusters of galaxies. *Prerequisite:* PHYS 3180 (016.318) (C).

PHYS 4240 Astronomy Project Cr.Hrs.6 (Formerly 016.424) A research oriented course involving processing, analysis, and interpretations of astrophysical data. Available topics include neutron stars, supernova remnants, astrophysical jet sources, the interstellar medium, and galactic structure. *Prerequisites:* PHYS 2070 (016.207) (C) and PHYS 3180 (016.318) (C). *Prerequisite or concurrent requirement:* PHYS 4230.

PHYS 4250 Computational Physics Cr.Hrs.3 (Formerly 016.425) Application of numerical methods and programming skills to model a variety of physics problems on a computer. Topics include differential equations, boundary value and eigenvalue problems, special functions, and Monte Carlo methods, with examples from classical, quantum, and statistical mechanics. *Prerequisites:* PHYS 2490 or the former 016.237 (C); or consent of department.

PHYS 4300 Topics in Physics Cr.Hrs.3 (Formerly 016.430) Topics will vary depending upon student needs and interests, and will include specialized topics not available in regular course offerings. *Prerequisite:* a "C" or better in one of PHYS 3380 (016.338), the former 016.370, or the former 016.358; or consent of department.

PHYS 4360 Medical Radiation Physics Cr.Hrs.3 The relevant physics of the production and interaction of radiation beams used in both diagnostic and therapeutic medicine will be covered. Such beams included X- and gamma-rays, particle beams, visible and I.R. radiation, microwaves, and ultrasound. *Prerequisite:* PHYS 4560 (016.456) or consent of instructor.

PHYS 4390 Quantum Physics 3 Cr.Hrs.3 Sequel to PHYS 3380 (016.338). Hilbert space formalism, symmetry and conservation laws, angular momentum, stationary state perturbation theory, variational methods. Not to be held with the former 016.438. *Prerequisites:* PHYS 2490 or the former 016.237 (C); and PHYS 3380 (016.338) (C).

PHYS 4400 Medical Imaging Cr.Hrs.3 Fundamental principles of image formation, analysis of the characteristics of medical images, parametric description of image quality; application to transmission radiography. *Prerequisite:* Consent of instructor.

PHYS 4510 Introduction to Nuclear Physics Cr.Hrs.3 (Formerly 016.451) Nuclear properties, the nuclear two-body problem; the deuteron and nucleon-nucleon scattering, nuclear models, nuclear disintegration; alpha-decay, gamma transitions, and beta-decay nuclear reactions; elementary particles. *Prerequisite:* a "C" or better in one of PHYS 3380 (016.338), the former 016.370, or the former 016.358.

PHYS 4520 Introduction to Solid State Physics Cr.Hrs.3 (Formerly 016.452) An introduction to the following topics as they relate to the properties of solids: crystal structure and lattice energy; lattice vibrations and specific heat; free-electron theory and band theory-metals, semiconductors and insulators; vacancies, diffusion, dislocations, and simple alloys. *Prerequisite:* a "C" or better in one of PHYS 3380 (016.338), the former 016.370, or the former 016.358.

PHYS 4560 Applied Nuclear Science Cr.Hrs.3 (Formerly 016.456) Review of nuclear physics, radioactive decay, nuclear reactions, interaction of radiation with matter, stopping powers, radiation dosimetry, radiation hazards; applications of nuclear science in medicine, nuclear reactors, chain reaction, moderators, neutron transport theory, nuclear fusion. *Prerequisite:* PHYS 4510 (016.451) (C).

PHYS 4590 Advanced Optics Cr.Hrs.3 Light as a classical electromagnetic wave, optical fields in media, interference by wavefront and amplitude splitting, diffraction, diffraction theory of image formation, spatial filtering and image processing, coherence theory. Not to be held with the former 016.458. *Prerequisites:* PHYS 2260 (016.226) (C); and PHYS 3640 or the former 016.369 (C).

PHYS 4600 Lasers and Applications Cr.Hrs.3 Light and atoms: semi-classical theory, principles of laser operation and properties of laser light, polarization optics, Gaus-

sian beam optics, laser spectroscopy. Not to be held with the former 016.458. *Prerequisites:* PHYS 2260 (016.226) and PHYS 3380 (016.338) (C).

PHYS 4620 Advanced Classical Mechanics Cr.Hrs.3 (Formerly 016.462) Canonical invariants and Lagrange and Poisson brackets. Hamilton-Jacobi theory, action-angle variables, normal modes of vibration. *Prerequisite:* PHYS 3660 (016.366) or the former 016.356 (C).

PHYS 4630 Physics of Materials 2 Cr.Hrs.3 (Formerly 016.463) Physics of materials beyond the elastic limit, emphasizing atomistic features. Structural aspects, crystal defects, plastic deformation, radiation damage, diffusion and dislocations. *Prerequisite:* PHYS 3570 (016.357) (C).

PHYS 4640 Introduction to Quantum Mechanics for Advanced Students 1 Cr.Hrs.3 (Formerly 016.464) An introduction to the fundamentals of quantum mechanics for students of engineering and sciences other than Physics, in the context of modern materials. Postulates of quantum mechanics, harmonic oscillator, angular momentum, one-electron many-electron systems. Not to be held with PHYS 3380 (016.338), the former 016.358, PHYS 4390, the former 016.370, the former 016.437, or the former 016.438. *Prerequisites:* a "C" or better in one of PHYS 1070, PHYS 1071 (016.107), or the former 016.106; and a "C" or better in one of MATH 1300, MATH 1301 (136.130), or MATH 1310 (136.131); and a "C" or better in one of MATH 1700, MATH 1701 (136.170), MATH 1710 (136.171), or the former 136.173.

PHYS 4650 Introduction to Quantum Mechanics for Advanced Students 2 Cr.Hrs.3 (Formerly 016.465) A continuation of PHYS 4640. Electron spin, approximation methods for stationary states, time-dependent perturbation theory, term project. Not to be held with PHYS 3380 (016.338), the former 016.358, PHYS 4390, the former 016.370, the former 016.437, or the former 016.438. *Prerequisite:* PHYS 4640 (016.464) (C).

5.12 Psychology Program

Head: H. Keselman

Program Office: P404 Duff Roblin Building

Telephone: 204 474 6378

Website: umanitoba.ca/psychology/

Undergraduate Advisor email: psychugadvisor@umanitoba.ca

Associate Head (Undergraduate) email: psychughead@umanitoba.ca

5.12.1 Program Information

Psychology is the scientific study of behaviour and mental processes, including the biological bases of behaviour and cognitive processes, and behavioural and cognitive neuroscience. The Honours and Major programs combine courses in Psychology with related courses in Science. Courses from the Faculty of Arts are included in this program. The Faculty of Science offers programs leading to a B.Sc. (Honours) degree in Psychology and a B.Sc. (Major) degree in Psychology.

Honours

To enter the Honours program, students must have obtained a grade of "B+" or better in PSYC 1200 (or in both PSYC 1211 and PSYC 1221) and a grade of "B" in six credit hours in courses offered by the Faculty of Science. In addition, students must have obtained a Grade Point Average of 3.25 or better on their first 24-30 credit hours and have no failed courses. Introductory courses in Biology, Chemistry, Computer Science, Mathematics, Statistics or Zoology are highly recommended.

To continue in the Honours program, a student must register in a minimum of 9 credit hours in each Fall and Winter Term and must meet all of the continuation criteria of the Faculty of Science. In addition, students must maintain a minimum Degree Grade Point Average of 3.25 based on all courses in the program. Students who do not meet the minimum continuation requirement will be required to withdraw from the Honours program.

The department must approve a student's Honours program for each session. All revisions to the program must also have prior approval from the Associate Head (Undergraduate) or the Undergraduate Advisor.

To graduate, a student must obtain 120 credit hours of courses with grades of "C" or better in each course and with a minimum grade point average of 3.25 on the 120 credit hours that contribute to the degree. In addition, students must complete the program of study in the chart below.

Four Year Major

To enter the Major program, students must normally have obtained a grade of C+ or better in PSYC 1200 (or in both PSYC 1211 and PSYC 1221) and in six credit hours in courses offered by the Faculty of Science and meet

PHYS 4672 Physics Laboratory A Cr.Hrs.3 (Lab Required) For students in term 1 of their final year in Honours. Experiments are available in nuclear physics, solid state physics, and optics. All are open ended, permitting the student to pursue the investigation of a phenomenon as far as desired. First part of a two course series. Not to be held with the former PHYS 4670, 016.444 or PHYS 4570 (016.457). *Prerequisites:* PHYS 3430 (016.343) (C) or consent of department.

PHYS 4674 Physics Laboratory B Cr.Hrs.3 (Lab Required) For students in term 2 of their final year in Honours. Experiments are available in nuclear physics, solid state physics, and optics. All are open ended, permitting the student to pursue the investigation of a phenomenon as far as desired. Second part of a two course series. Not to be held with the former PHYS 4670, 016.444 or PHYS 4570 (016.457). *Prerequisites:* PHYS 3430 (016.343) (C); and one of PHYS 4672 (C) or PHYS 4676 (C).

PHYS 4676 Honours Thesis - Proposal and Preparation Cr.Hrs.3 For students in term 1 of their final year in Honours. The student will prepare a proposal for the undergraduate thesis and demonstrate the feasibility of the project under the supervision of a faculty member. The results of the study will be presented (in written and oral form) to an examining committee during the term. Both experimental and theoretical topics are acceptable. A grade of C (based on the presentations) is required to proceed to the next course which forms the final stage of the honours thesis. Not to be held with the former PHYS 4670, the former 016.444, the former PHYS 4570 (016.457), or PHYS 4672. *Prerequisites:* PHYS 3430 (016.343) (C) and consent of department.

PHYS 4678 Honours Thesis – Project and Presentation Cr.Hrs.3 For students in term 2 of their final year in Honours. The student will complete the work needed and produce an undergraduate thesis under the supervision of a faculty member. The grade will be based on the examining committee's evaluation of a progress report (presented mid-term) and an evaluation of the thesis manuscript and oral presentation at the end of term. Both experimental and theoretical topics are acceptable. Not to be held with the former PHYS 4670 (016.444), PHYS 4570 (016.457), PHYS 4672, or PHYS 4674.

the Faculty of Science requirements for entry to the Major program. Introductory courses in Biology, Chemistry, Computer Science, Mathematics, Statistics or Zoology are highly recommended.

To continue in the Major program, a student must meet all of the continuation criteria of the Faculty of Science. This includes maintaining a minimum Cumulative Grade Point Average of 2.00 at each point of assessment (2.00 DGPA for Second Degree and Start Afresh students), and no more than 18 credit hours of failing grades after entry to the program. Students who do not meet the minimum continuation requirement will be required to withdraw from the Major program. The department must approve a student's Major program for each session. All program revisions must also have prior approval.

To qualify for the degree of Bachelor of Science (Major), a student must offer 120 credit hours of courses with passing grades (D or better) in each course and with a minimum Degree Grade Point Average of 2.00. In addition, the student must complete the program of study as listed in the program chart below.

NOTE: Psychology cannot be used to fulfill either the introductory or advanced level Science requirements in the 3-year B.Sc. General Degree.

5.12.2 Psychology

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
HONOURS⁹ 120 CREDIT HOURS (comprising courses listed in chart below, and electives)			
PSYC 1200 (B+) (or PSYC 1211 (B+) and PSYC 1221 (B+)) 6 credit hours Science ¹ (B)	PSYC 2300 M ² 6 credit hours 2000 or 3000 level ³ Psychology 15 credit hours Science ⁶ 3 credit hours options ⁷	3 credit hours from PSYC 3630, PSYC 3340 PSYC 3200 15 credit hours Psychology ⁴ 9 credit hours Science ⁶	PSYC 4520 18 credit hours Psychology ⁵ 6 credit hours Science ⁶

FOUR YEAR MAJOR^{9,10} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

PSYC 1200 (C+)(or PSYC 1211 (C+) and PSYC 1221(C+)) 6 credit hours Science1(C+)	PSYC 2250, PSYC 2260M 6 credit hours 2000 or 3000 level Psychology ⁸	18 credit hours 2000 or 3000 level Psychology ⁸	18 credit hours 2000 or 3000 level Psychology ⁸
Plus 30 credit hours of courses from departments in the Faculty of Science, including a minimum of 18 credit hours at the 2000 level or above.			

A "W" course must be taken in University 1 or Year 2

MINOR

PSYC 1200 or (PSYC 1211 and PSYC 1221)	12 credit hours in Psychology courses numbered at the 2000 or 3000 level
--	--

NOTES:

¹ Introductory courses in Biological Sciences, Chemistry, Computer Science, Mathematics, or Statistics are highly recommended.

² PSYC 2250 and PSYC 2260 are required when PSYC 2300 is not offered.

³ These 6 credit hours must include 3 credit hours from each of two different lettered categories of Psychology courses below.

⁴ These 15 credit hours must include 3 credit hours from each of two different lettered categories of Psychology courses below and not sampled in Year 2.

⁵ These 18 credit hours must include 6 credit hours at the 4000 level; and 6 credit hours at any level including any remaining lettered category below.

⁶ The Science courses that are chosen must be approved by the Department of Psychology and must include a minimum of 18 credit hours at the 2000 level or above.

⁷ Free options are to be chosen from courses that are acceptable for credit in the Faculty of Science and must be approved by the Department of Psychology.

⁸ During Years 2 to 4 a total of 42 credit hours of 2000 or 3000 level Psychology courses must be completed, including a minimum of 3 credit hours from each of four of the five lettered categories of courses below.

⁹ The courses required in this program satisfy the university mathematics requirement.

¹⁰ IMPORTANT: The four year Major program need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

(Letters in brackets indicated minimum prerequisite standing required for further study.)

Categories of Psychology Courses

Category A: Personality/Social PSYC 2410, PSYC 2420, PSYC 3450, PSYC 3460

Category B: Developmental PSYC 2290, PSYC 2310, PSYC 2370

Category C: Learning PSYC 2440, PSYC 2470, PSYC 3420

Category D: Cognitive PSYC 2480, PSYC 3160, PSYC 3170, PSYC 3441, PSYC 3580, PSYC 3610,

Category E: Biological PSYC 2360, PSYC 3350, PSYC 3430

Psychology Courses

All Psychology courses are available to Science students. For a complete course listing, see the Faculty of Arts section.

Psychology courses taught at the College universitaire de Saint-Boniface can be used to satisfy degree requirements

5.13 Department of Statistics

Department Head: John Brewster

General Office: 338 Machray Hall

Telephone: 204 474 9826

Website: www.umanitoba.ca/statistics/

E-mail: Stats_Dept@umanitoba.ca

5.13.1 Academic Staff

Professors

Brewster, J.F., B.Sc.(Hons.) (UBC), M.Sc. (Toronto), Ph.D. (UBC); **Cheng**, S.W., B.Sc. (Taiwan), M.A., Ph.D. (Western); **Thavaneswaran**, A., B.Sc.(Hons.) (Sri Lanka), M.Math, Ph.D. (Waterloo); **Wang**, L., B.Sc. (Northern Jiaotong), M.Sc. (Beijing Normal), Ph.D. (Vienna Univ. Tech.); **Wang**, X., B.Sc. (Central China Normal Univ.), M.Sc., Ph.D. (Saskatchewan).

Associate Professors

Mandal, S., B.Sc., M.Sc. (India), Ph.D. (Glasgow).

Assistant Professors

Davies, K., B.Sc.(Hons), M.Sc. (McMaster), Ph.D. (Western); **Johnson**, B., B.Sc., M.Sc. (Manitoba), M.Sc., Ph.D. (Purdue); **Leblanc**, A., B.Sc., M.Sc., Ph.D. (Montreal).

Instructors

Loewen, D., B.Sc., M.Sc. (Manitoba) (Instructor II); **Mateo**, Z., B. Sc. (City of Manila), M.S. (Philippines), Ph.D. (Okayama) (Instructor II); **Morris**, A., B.Sc., M.Sc. (Manitoba) (Instructor I).

5.13.2 Program Information

Statistics is a discipline grounded in mathematics that has practical applications in many other areas. Statistics is an analytical discipline that helps other disciplines carry out research projects and studies that involve measurement, comparison, and interpretation. Statistics is a useful ancillary sub-

ject to other sciences, the social sciences, and many of the professional programs. The department offers joint programs with Mathematics, Economics and Actuarial Mathematics.

Honours Requirements

Students will normally take STAT 2000 and STAT 2400 in Year 2 and enter Honours in Year 3.

To enter the Honours program students must have a “B” or better in STAT 2000 and STAT 2400 and either: an average grade of “B” or better with a minimum grade of “C+” in each of MATH 1500² and MATH 1700²; or a minimum grade of “C+” in MATH 1690.

To continue in the Honours program a student must achieve a Degree Grade Point Average of 3.00 or better at each point of assessment. A student must have either a grade of “C+” or better in MATH 2750 or a grade of “C+” or better in each of MATH 2720 and MATH 2730. Students must complete 9 credit hours each Fall and Winter Term.

To graduate with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and a minimum grade of “C+” in each of the Honours Program Specific courses (see below), and a minimum grade of “C” on all remaining courses that contribute to the 120 credit hours of the degree.

Honours Program Specific courses

All courses specified in the program charts below (excluding the required optional courses and electives).

The department must approve a student’s Honours program each session. Students must obtain departmental approval for any and all revisions to their programs.

Four Year Major Requirements

Students will normally take STAT 2000 and STAT 2400 in Year 2 and enter the four year Major in Year 3.

To enter the four year Major program in Statistics, students must have a “C+” or better in STAT 2000 and STAT 2400 and either: an average grade of “C+” or better with a minimum grade of “C” in each of MATH 1500² and MATH 1700²; or a minimum grade of “C” in MATH 1690. In addition,

students must have satisfied the faculty requirements for entry to the four year Major.

To continue in the four year Major program a student must achieve a 2.00 Cumulative Grade Point Average at each point of assessment.

To graduate from the four year Major program a student must have a minimum 2.00 Degree Grade Point Average and a minimum grade of “C” in each of the Major Program Specific courses (see below).

Major Program Specific courses

All courses specified in the program charts below (excluding the required optional courses and electives).

The department must approve a student’s four year Major program each session. Students must obtain departmental approval for any and all revisions to their programs.

In order to improve their academic backgrounds as well as job opportunities, students should carefully elect the optional courses in this program. They should particularly consider the following sequence of courses in Economics and Computer Science.

Economics: ECON 1200, ECON 2450, ECON 2460, ECON 2470, ECON 2480, ECON 3170, ECON 3180, ECON 3730, ECON 4120, ECON 4130.

Computer Science (Software and Artificial Intelligence): COMP 1260, COMP 1270, COMP 1010, COMP 1020, COMP 2080, COMP 2130, COMP 2140, COMP 3380, COMP 3440, COMP 4200, COMP 4380.

Computer Science (Numerical Analysis and Graphics): COMP 1260, COMP 1270, COMP 1010, COMP 1020, COMP 2080, COMP 2130, COMP 2140, COMP 2190, COMP 3140 or COMP 3490.

Three Year General

As prescribed with all other faculty regulations in Section 3.2, students in this program must select 18 credit hours of 2000, 3000, or 4000 level courses from each of **two** Science areas. To satisfy the requirement in the area of Statistics, students must take a minimum of 18 credit hours of 2000, 3000 and (or) 4000 level Statistics courses.

5.13.3 Statistics			
UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4

HONOURS DOUBLE MINIMUM 120 CREDIT HOURS By arrangement with the departments concerned			
FOUR YEAR MAJOR^{1,6} 120 CREDIT HOURS (comprising courses listed in chart below, and electives)			
STAT 1000, MATH 1690 (or MATH 1500 ² and MATH 1700 ²), MATH 1300 ²	STAT 2400, MATH 2300, MATH 2720, MATH 2730	STAT 3050, STAT 3400 ⁵ , STAT 3470, STAT 3480, STAT 3800 ⁵	STAT 4100, STAT 4200, STAT 4520, STAT 4530

The following courses must be taken in University 1 or Year 2

COMP 1010, STAT 2000 (C+), MATH 1200

6 credit hours from the Faculty of Arts, which should include the required "W" course

Plus 21 credit hours of elective courses including courses from a chosen area of application outline in note 4 below.

Plus 15 credit hours from STAT 3170, STAT 3380, STAT 3490, STAT 4170, STAT 4580, STAT 4590, STAT 4600, STAT 4630, STAT 4690, STAT 4700

Plus 6 credit hours from MATH 2202, MATH 2600, MATH 2800, MATH 3230, MATH 3540, MATH 3600, MATH 3700, MATH 3740, MATH 3800, MATH 3810

Plus 12 credit hours of elective courses including courses required for the chosen area of application outlined in note 4 below.⁴

THREE YEAR GENERAL¹

STAT 1000 and STAT 2000

Plus a minimum of 18 credit hours of 2000, 3000, and (or) 4000 level Statistics courses (in addition to STAT 2000)⁵.

MINOR¹

STAT 1000

STAT 2000

STAT 3000

Plus 9 additional credit hours of 2000, 3000, or 4000 level Statistics courses⁵

NOTES:

¹ The courses required in this program satisfy the University Mathematics requirement.

² MATH 1310 may be taken in place of MATH 1300; MATH 1510, or MATH 1520 may be taken in place of MATH 1500; MATH 1710 may be taken in place of MATH 1700.

³ Of the electives required in Years 2, 3 and 4, 18 credit hours are to be selected from one department which represents a field of application such as: Actuarial Mathematics, Biological Sciences, Microbiology, Economics, Psychology or Sociology. (Mathematics and Computer Science are excluded from this list.) In consultation with the department, combinations of courses from a coherent area of studies may be selected.

⁴ 15 credit hours are to be taken from either, Computer Science and Mathematics, or from one of the following departments: Actuarial Mathematics, Biological Sciences, Microbiology, Economics, Psychology, or Sociology.

⁵ STAT 3400 and STAT 3800 have corequisites of MATH 2720 and MATH 2730. Therefore students who wish to take STAT 3400 and STAT 3800 should consider taking MATH 1300, MATH 1500 and MATH 1700 in University 1 or Year 2, as they are prerequisite to MATH 2720 and MATH 2730.

⁶ IMPORTANT: The four year Major program need not be completed in the manner prescribed in the chart above. The chart indicates one possible arrangement of the required courses and is meant to be a guide around which students can plan their program.

5.13.4 Statistics - Actuarial Mathematics Joint Honours Program

The Department of Statistics and the Warren Centre for Actuarial Studies and Research offer a joint Honours program for students wishing in depth study in Statistics and Actuarial Mathematics.

Entry Requirements:

To enter the Honours program students must have satisfied the Faculty of Science requirements for entry to the program, and have completed at least 3 credit hours in an approved Written English course, ECON 1200, STAT 1000, STAT 2000, MATH 1300 and either MATH 1690, or MATH 1500 and MATH 1700 or any equivalent with a minimum grade of "B" in all of the above courses.

To graduate with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and a minimum grade of either "B" or "C+" (as indicated) in each of the Honours Program Specific courses, and a minimum grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree. See the Calendar entry for each of the Actuarial Mathematics program and the Department of Statistics for the Honours Program Specific courses.

Recommended Electives:

ACT 4050, ACT 4060; FIN 3410; COMP 1010; STAT 4630

UNIVERSITY 1

YEAR 2

YEAR 3²

YEAR 4⁶

JOINT HONOURS³ 120 CREDIT HOURS (comprising courses listed in chart below, and electives)

ECON 1200 (B) MATH 1690(B) (or MATH 1500¹ and MATH 1700¹(B)), MATH 1300¹ (B), STAT 1000 (B), STAT 2000 (B) and required 'W' course (B)

Plus 3 credit hours from the Faculty of Arts if a 3 credit hour 'W' is taken

Plus 3 credit hours of electives

ACT 2120, ACT 2020, STAT 2400, STAT 3400, ACC 1100⁴ (B) FIN 2200⁴ (B) MATH 2750 (or MATH 2720 and MATH 2730), MATH 2300⁵

Plus 3 credit hours of approved electives

STAT 3050, STAT 3470 (B), STAT 3480, STAT 3800, ACT 3130, ACT 3230, ACT 3530, COMP 1260⁷ and MSCI 2150⁷

Plus 3 credit hours of approved electives

STAT 3490 (B), STAT 4100, STAT 4520, STAT 4530, ACT 4140, ACT 4150, ACT 4240, ACT 4000, ACT 4340

Plus 3 credit hours of approved electives

30 Hours

30 Hours

30 Hours

30 Hours

NOTES:

¹ MATH 1310 may be taken in place of MATH 1300; MATH 1510, or MATH 1520 may be taken in place of MATH 1500; MATH 1710 may be taken in place of MATH 1700.

² It is strongly recommended that students take a minimum of 21 credit hours in YEAR 3

³ The courses required in this program satisfy the university mathematics requirement.

⁴ ACC 1100 and FIN 2200 may be taken in Year 2, 3 or 4; however, it is strongly recommended that these two courses be taken in Year 2 or 3. Note that ACC 1100 is a prerequisite for FIN 2200.

⁵ MATH 2352 may be taken in place of MATH 2300 and may be taken in Year 2, 3 or 4

⁶ It is strongly recommended that students take a minimum of 27 credit hours in Year 4

⁷ COMP 1260 and MSCI 2150 may be taken in Year 2, 3 or 4. Note that COMP 1260 is a prerequisite for MSCI 2150.

(Letters in brackets indicate minimum prerequisite standing for further study.)

5.13.5 Statistics - Mathematics Joint Honours Program

The departments of Statistics and Mathematics offer a joint Honours program for students wishing in depth study in Statistics and Mathematics.

Entry Requirements: To enter the Honours program students must have satisfied the Faculty of Science requirements for entry to the program, and have completed STAT 1000, MATH 1300 and either MATH 1690, or MATH 1500 and MATH 1700 or any equivalent with a minimum grade of "B" in each of STAT 1000 and MATH 1690 (or a "B" average in MATH 1500 and MATH 1700).

To graduate with the B. Sc. Honours degree, a student must achieve a minimum DGPA of 3.00 and a minimum grade of "C+" in each of the Honours Program Specific courses, and a minimum grade of "C" on all remaining courses that contribute to the 120 credit hours of the degree. See the Calendar entry for each of the Department of Statistics and the Department of Mathematics for the Honours Program Specific courses.

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
JOINT HONOURS⁴ 120 CREDIT HOURS (comprising courses listed in chart below, and electives)			
MATH 1300 ^{1(B)} , MATH 1690(B) (or MATH 1500 ¹ and MATH 1700 ^{1(B)}), Plus 9 credit hours	STAT 2000 ³ , STAT 2400, MATH 2202, MATH 2352 ² , MATH 2600, MATH 2750 ² , MATH 2800 Plus 3 approved credit hours	STAT 3050, STAT 3470, STAT 3480, STAT 3400, STAT 3800 Plus 3 approved credit hours	STAT 4100, STAT 4520, STAT 4530 Plus 3 approved credit hours
The following courses must be taken in University 1 or Year 2: COMP 1010 ² , STAT 1000 (B) 6 credit hours from the Faculty of Arts, which should include the required "W" course		Plus a total of 30 credit hours from MATH 2400 and any 3000 and 4000 level Mathematics courses, which must include at least 3 credit hours at the 4000 level and must also include MATH 3230, MATH 3740 (or MATH 3760), MATH 3350 (or MATH 3300), MATH 3700 (or MATH 3710), MATH 3400 and MATH 3800	
30 Hours	30 Hours	30 Hours	30 Hours

NOTES:

¹ MATH 1310 may be taken in place of MATH 1300; MATH 1510, or MATH 1520 may be taken in place of MATH 1500; MATH 1710 may be taken in place of MATH 1700.

² 6 Credit Hour courses

³ STAT 2000 may be taken in University 1.

⁴ The courses required in this program satisfy the university mathematics requirement.

(Letters in brackets indicate minimum prerequisite standing for further study.)

5.13.6 Statistics - Economics Joint Honours Program

The Department of Statistics along with the Department of Economics (Faculty of Arts) offer a Joint Honours program for students wishing in depth study in Statistics and Economics. For Economics course listings, refer to the Faculty of Arts chapter in the Calendar.

Students will normally take STAT 2000 and STAT 2400 in second year and enter Honours in Year 3. To enter the Joint Honours Statistics Economics program, the student must have a minimum grade of "B" in ECON 1200 (or ECON 1210 and ECON 1220), STAT 2000 and STAT 2400, and an average grade of "B" or better with a minimum grade of "C+" in each of MATH 1500 and MATH 1700 or any equivalents and have satisfied the Faculty of Science requirements for entry to the honours program.

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
JOINT HONOURS⁴ 120 CREDIT HOURS (comprising courses listed in chart below, and electives)			
ECON 1200 (or ECON 1210 and ECON 1220), MATH 1300 ¹ , MATH 1500 ^{1,2} , MATH 1700 ^{1,2} , STAT 1000, COMP 1010 Plus 9 credit hours of electives which should include the required "W" course	STAT 2000, STAT 2400, ECON 2700, ECON 2800, MATH 2202, MATH 2352, MATH 2750 Plus 3 credit hours of approved Economics electives ³	ECON 3700, ECON 3800, MATH 3740 or MATH 3760, STAT 3470, STAT 3480, STAT 3490, STAT 3400, STAT 3800 Plus 3 credit hours of approved Economics electives ³	ECON 4120, ECON 4130, STAT 4100, STAT 4520, STAT 4530, STAT 4580 Plus 12 credit hours of approved Economics electives ³
30 Hours	30 Hours	30 Hours	30 Hours

NOTES:

¹ MATH 1310 may be taken in place of MATH 1300; MATH 1510, or MATH 1520 may be taken in place of MATH 1500; MATH 1710 may be taken in place of MATH 1700.

² The combination of MATH 1500¹ and MATH 1700¹ may be replaced by MATH 1690.

³ Of the 18 credit hours in Economics electives in Years 2, 3 and 4, no more than 6 credit hours may be at the 2000 level or below: ECON 2530 and ECON 3180 are recommended in Year 2 or 3. The normal prerequisite for ECON 3180 is ECON 3170, which will be waived for students in this program who have completed Year 1.

⁴ The courses required in this program satisfy the University Mathematics requirement.

(Letters in brackets indicate minimum prerequisite standing for further study.)

5.13.7 Statistics Course Descriptions

Note: Unless otherwise specified, a minimum grade of “C” must be attained in any course stipulated as a prerequisite to a further course in Statistics.

STAT 1000 Basic Statistical Analysis I Cr.Hrs.3 (Formerly 005.100) An introduction to the basic principles of statistics and procedures used for data analysis. Topics to be covered include: gathering data, displaying and summarizing data, examining relationships between variables, sampling distributions, estimation and significance tests, inference for means. Not to be held with STAT 1001, STAT 2220 (005.222). *Prerequisite:* Any grade 12 or 40S Mathematics, or equivalent.

STAT 2000 Basic Statistical Analysis II Cr.Hrs.3 (Formerly 005.200) The study of estimation and hypothesis testing procedures for means and proportions in one, two and multiple sample situations, introduction to the analysis of variance; regression and correlation analysis; optional topics may include nonparametric procedures, design of experiments, probability models. Not to be held with STAT 2001. *Prerequisite:* STAT 1000 (005.100) (C), or STAT 1001 (C).

STAT 2220 Contemporary Statistics for Engineers Cr.Hrs.3 (Lab Required) (Formerly 005.222) Descriptive statistics, basic probability concepts, special statistical distributions, statistical inference-estimation and hypothesis testing, regression, reliability, statistical process control. Not to be held with STAT 1000, STAT 1001, or 005.100. *Prerequisite:* a “C” or better in one of MATH 1690 (136.169), the former MATH 1680 (136.168), MATH 1700, MATH 1701 (136.170), MATH 1710 (136.171), or the former 136.173.

STAT 2400 Introduction to Probability I Cr.Hrs.3 (Lab Required) Basic probability, discrete distributions including binomial, hypergeometric, geometric and Poisson, joint distributions, continuous distributions, statistical inference and applications involving discrete random variables. This course is not available to any student who has previously obtained credit for STAT 3500. *Prerequisites:* STAT 1000 or STAT 1001 (005.100) (C); and one of MATH 1700, MATH 1701 (136.170), or MATH 1690 (136.169) (C).

STAT 3000 Applied Linear Statistical Models Cr.Hrs.3 Applied Linear regression and analysis of variance for designed experiments. This course is not for use in the Honours or Major degree programs in Statistics. Not to be held with STAT 3470 (005.347), STAT 3480 (005.348), the former STAT 3120 (005.312) or the former STAT 3130 (005.313). *Prerequisite:* STAT 2000 (005.200) or STAT 2001 (005.201) (C).

STAT 3050 Introduction to Probability Theory and Its Applications Cr.Hrs.3 (Formerly 005.305) Development of the basic concepts of probability theory and application in areas of biostatistics, actuarial science, reliability theory, queuing theory. *Prerequisites:* STAT 3400 or the former STAT 3500 (005.350) (C); and MATH 2720 or MATH 2721(136.272, 136.270) (C); and MATH 2730 or MATH 2731 (136.273, 136.271) (C).

STAT 3170 Statistical Quality Control Cr.Hrs.3 (Formerly 005.317) Techniques for quality improvement through the use of statistical process control. Topics will include acceptance sampling, Pareto diagrams, boxplots, normal probability plots, control charts (EWMA and CUSUM), measurements of process capability and process performance. *Prerequisite:* STAT 2000 or STAT 2001 (005.200) (C).

STAT 3380 An Introduction to Nonparametric Statistics Cr.Hrs.3 (Formerly 005.338) Parametric versus nonparametric inference; inference using ranks and order statistics; tolerance intervals; contingency tables; goodness-of-fit tests; examples from the social and physical sciences. *Prerequisite:* STAT 2000 or STAT 2001 (005.200) (C).

STAT 3400 Introduction to Probability II Cr.Hrs.3 (Lab Required) Continuation of STAT 2400. Continuous distributions, properties of common distributions, distributions of functions of random variables. Not to be held with the former STAT 3500 (005.350). *Prerequisite:* STAT 2400(C). *Prerequisite or Concurrent requirement:* one of MATH 2720, MATH 2721, MATH 2730, or MATH 2731.

STAT 3470 Statistical Methods for Research Workers I Cr.Hrs.3 (Formerly 005.347) Linear regression, multiple regression, correlation analysis, introduction to one way analysis of variance, some related topics. Not to be held with STAT 3000 or the former STAT 3120 (005.312). *Prerequisite:* STAT 2000 or STAT 2001 (005.200) (C). *Prerequisite or Concurrent Requirement:* STAT 3400 or the former STAT 3500 (005.350).

STAT 3480 Statistical Methods for Research Workers II Cr.Hrs.3 (Formerly 005.348) Analysis of variance, randomized block design, nested and Latin square experiments, analysis of covariance. Not to be held with STAT 3000 or the former STAT 3130 (005.313). *Prerequisite:* STAT 3470 (005.347) (C).

STAT 3490 Time Series Analysis Cr.Hrs.3 (Formerly 005.349) Trend and seasonal components, exponential smoothing by the multiple regression method, the Box-Jenkins Methodology, analysis of seasonal data. *Prerequisite:* STAT 3470 (005.347) (C) or the former STAT 3120 (005.312) (C).

STAT 3800 Mathematical Statistics Cr.Hrs.3 (Lab required) Multivariate distributions and transformations, order statistics, sampling distributions, convergence, introduction to statistical inference. Not to be held with the former STAT 3600 (005.360). *Prerequisite:* STAT 3400 or the former STAT 3500 (005.350) (C). *Prerequisite or Concurrent requirement:* Whichever of MATH 2720 (MATH 2721) or MATH 2730 (MATH 2731) not yet taken.

STAT 4100 Statistical Inference I Cr.Hrs.3 Introduction to methods of estimation, including asymptotic and Bayesian methods. Not to be held with the former STAT 4140 (005.414). *Prerequisite:* STAT 3800 or the former STAT 3600 (005.360).

STAT 4170 Lifetime Data Analysis Cr.Hrs.3 (Formerly 005.417) An introduction to basic principles and techniques for lifetime data analysis in biostatistics and reliability, with emphasis on theory and applications. Topics to be covered include: censoring, truncation, survival and hazard functions, parametric and nonparametric methods, proportional hazards regression. *Prerequisites:* STAT 3480 (005.348) (C); and either STAT 3800 or the former STAT 3600 (005.360) (C); or consent of department.

STAT 4200 Statistical Inference II Cr.Hrs.3 Introduction to methods of hypothesis testing, including asymptotic and Bayesian methods. Not to be held with the former STAT 4140 (005.414). *Prerequisite:* STAT 4100.

STAT 4520 Sampling Techniques I Cr.Hrs.3 (Formerly 005.452) A development of sampling theory for use in sample survey problems, in regression estimates, in systematic sampling, sources of errors in surveys. *Prerequisites:* STAT 3800 or the former STAT 3600 (005.360) (C); and STAT 3480 (005.348); or consent of department.

STAT 4530 Design of Experiments I Cr.Hrs.3 (Formerly 005.453) Objectives in designing experiments; designs commonly used in research including analysis and an introduction to the construction of designs. *Prerequisites:* STAT 3800 or the former STAT 3600 (005.360) (C); and STAT 3480 (005.348) (C); or consent of department.

STAT 4580 Sampling Techniques II Cr.Hrs.3 (Formerly 005.458) A mathematical treatment of some advanced topics in sampling theory. Multistage sampling plans and other selected topics. *Prerequisite:* STAT 4520 (005.452) (C) or consent of department.

STAT 4590 Design of Experiments II Cr.Hrs.3 (Formerly 005.459) The theory and analysis of experimental designs treated in STAT 4530 (005.453) and more advanced designs; construction of designs. *Prerequisite:* STAT 4530 (005.453) (C) or consent of department.

STAT 4600 Statistics Topics Cr.Hrs.3 (Formerly 005.460) Topics of current interest in Statistics that will vary with the needs and interests of students and Faculty. *Prerequisite:* STAT 3800 or the former STAT 3600 (005.360) (C); or consent of department.

STAT 4630 Stochastic Processes Cr.Hrs.3 (Formerly 005.463) An introduction to stochastic processes. *Prerequisite:* STAT 3050 (005.305) (C); and STAT 3800 or the former STAT 3600 (005.360) (C); or consent of department.

STAT 4690 Applied Multivariate Analysis Cr.Hrs.3 (Formerly 005.469) The course will emphasize applications of various techniques in multivariate analysis and gaining familiarity with the relevant programs in statistical packages, i.e., SAS, BMDP. *Prerequisites:* STAT 3480 (005.348) (C); and a “C” or better in one of MATH 2300 (136.230), MATH 2301, MATH 2352, or the former MATH 2350 (136.235); or consent of instructor.

STAT 4700 Statistical Consulting Cr.Hrs.3 (Formerly 005.470) The role of a Statistics Consultant. Practical consulting experience. This course is normally open to fourth year and graduate students in Statistics. *Prerequisites:* STAT 3800 or the former STAT 3600 (005.360) (C); and STAT 3480 (005.348); or consent of department. *Prerequisites or concurrent requirements:* STAT 4520 and STAT 4530.

5.14 Donné seulement au Collège universitaire de Saint-Boniface

BIOL 1001 Biologie: Les fondements de la vie Cr.Hrs.3 (L'ancien 071.100) Ce cours étudiera certains principes unificateurs de la vie. On portera une attention particulière à la biologie cellulaire, la bioénergétique, la division cellulaire, la génétique et l'évolution. Ne peut être utilisé dans un programme de majeure ou de spécialisation. On ne peut se faire créditer à la fois le BIOL 1000 (ou 071.100) et les BIOL 1020 ou BIOL 1021 ou BIOL 1030 ou BIOL 1031 ou l'ancien 071.125, ou l'ancien 071.123, ou l'ancien 071.201. *Préalables:* Un cours de mathématiques de 12e année ou l'équivalent avec une note minimale de 50%. Donné seulement au Collège universitaire de Saint-Boniface.

BIOL 1011 Biologie: La diversité biologique et ses interactions Cr.Hrs.3 (l'ancien 071.101) Une introduction à la diversité (les procaryotes, les protistes, les champignons, les plantes et les animaux), à la forme et à la fonction des plantes et des animaux ainsi qu'aux principaux concepts de l'écologie. Ne peut être utilisé dans un programme de majeure ou de spécialisation. On ne peut se faire créditer à la fois le

BIOL 1010 (ou 071.101) et les BIOL 1020 ou BIOL 1021 ou BIOL 1030 ou BIOL 1031 ou l'ancien 071.125, ou 071.201 ou l'ancien 071.123. *Préalables*: Un cours de mathématiques de 12e année ou l'équivalent avec une note minimale de 50%. Donné seulement au Collège universitaire de Saint-Boniface.

BIOL 1021 Biologie I: Thèmes et Principes Cr.Hrs.3 (Labo requis) Présentation des principes communs à la base de la biologie dont la biologie cellulaire, la bioénergétique, la division cellulaire, la génétique et l'évolution. Préparation à un programme de sciences biologiques avec majeure ou spécialisation. Ne peut se faire créditer en même temps que le BIOL 1000 ou BIOL 1001 (ou 071.100), BIOE 2590 (ou 034.259), ou les anciens 71.123, 071.125, et 071.201. *Préalables*: Biologie 40S ou BIOL 1000 avec une note minimale de C et un cours de mathématiques de 12e année ou l'équivalent avec une note minimale de 50%. Si le BIOL 1001 sert de préalable au BIOL 1021, on ne peut se faire créditer le BIOL 1001 et le BIOL 1021 dans le cadre du programme de majeure.

BIOL 1031 Biologie II: Diversité Biologique, Fonction et Interaction Cr.Hrs.3 (labo requis) Cours et laboratoire. Introduction à la biodiversité dont les procaryotes, les protistes, les champignons, les plantes et les animaux, la forme et la fonction des plantes et des animaux et les principes de base de l'écologie. Destiné aux étudiants qui veulent suivre un programme de sciences biologiques avec majeure ou spécialisation. On ne peut se faire créditer le BIOL 1030 et le BIOL 1011 ou BIOL 1010 (l'ancien 071.101), BIOE 2590 (l'ancien 034.259), ou les anciens 71.125, 071.123 ou 071.201. *Préalable*: BIOL 1021(C) ou BIOL 1020(C).

Note: Le BIOL 1031 est *préalable* aux cours plus avancés de microbiologie, et à la plupart des cours de botanique et de zoologie. Il prépare aussi aux études en agriculture, en science alimentaire, en dentisterie, en écologie humaine, en médecine, en optométrie, en pharmacie, en sciences vétérinaires, en éducation physique et en sciences.

BOTN 2371 Principes d'écologie Cr.Hrs.3 (Labo Requis) (L'ancien, 001.237) Principes d'écologie au niveau de l'individu, la population, la communauté et l'écosystème. Ce cours est également offert sous le numéro ZOOL 2371 et dans la Faculté de sciences de l'agriculture et de nutrition sous le numéro AGECE 2370. On ne peut se faire créditer à la fois le ZOOL 2371, BIOL 2300 (BOTN 2370, 001.237, ZOOL 2370, 022.237), AGECE 2370 (ou 065.237) et le ou BIOL 2390 (ZOOL 2290, 022.229, BOTN 2280, 001.228). *Préalable*: BIOL 1030 ou BIOL 1031 ou l'ancien 071.125 (C). *Pré-ou concomitant*: STAT 1000 ou STAT 1001 (ou 005.100) (D). Donné seulement au Collège universitaire de Saint-Boniface.

BOTN 2461 Génétique I Cr.Hrs.3 (Labo requis) (L'ancien 001.246) Les principes de l'hérédité, de la gamétogénèse et des fondements cytologiques de la transmission héréditaire chez les plantes et animaux. Les concepts de dominance et d'interaction génétique, de détermination du sexe, de la transmission des caractères liés au sexe et des gènes liés, les variations chromosomiques, la génétique des populations et le code génétique feront l'objet du cours. L'étudiant ou l'étudiante ne peut se faire créditer à la fois le BIOL 2500 (BOTN 2460, 001.246) et le PLNT 2520 (ou 039.252). *Préalable*: BIOL 1030 ou BIOL 1031 (ou l'ancien 071.125) (C). Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 1001 Comprendre le monde par le biais de la chimie Cr.Hrs.3 (L'ancien 002.100) Ce cours présente à l'étudiante et à l'étudiant les principaux principes de la chimie nécessaires pour comprendre les problèmes contemporains de l'agriculture, l'environnement, l'industrie, la médecine et l'économie. La chimie du secondaire n'est pas requise. Peut être utilisé comme prérequis au CHEM 1300 ou CHEM 1301 (ou 002.130) (note minimale de "B"). Ne peut être utilisé dans un programme général, de spécialisation, de majeure ou de mineure en chimie. Une personne ayant déjà des crédits ou qui est présentement inscrite à un cours de chimie de niveau 2000 n'est pas admissible à ce cours. On ne peut se faire créditer à la fois le CHEM 1000 (ou 002.100) et l'ancien 002.125. Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 1031 La chimie du carbone dans la nature et la société Cr.Hrs.3 (L'ancien 002.103) Ce cours présente certains principes de la chimie organique au moyen de molécules choisies dans différents domaines tels que l'industrie des cosmétiques et des produits des soins personnels, l'industrie pétrochimie, la préparation des produits alimentaires, les polymères et les plastiques, les poisons, les toxines biologiques, et la terminaison de leur facteur de risque. Ne peut être utilisé dans un programme général, de spécialisation, ou de majeure ou de mineure en chimie. Une personne ayant déjà des crédits ou qui est présentement inscrite à un cours de chimie de niveau 2000 n'est pas admissible à ce cours. On ne peut se faire créditer à la fois le CHEM 1030 (ou 002.103). *Préalables*: CHEM 1000 ou CHEM 1001 (ou 002.100) (C) ou CHEM 1300 ou CHEM 1301 (ou 002.130) (C) ou Chimie 40S (ou son équivalent) ou CHEM 0900 (002.090) Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 1301 Université I Chimie : La structure et la modélisation chimique Cr.Hrs.3 (Labo requis) (L'ancien 002.130) La structure et les modèles atomiques, leurs applications à la chimie incluant une étude des états solide, liquide et gazeux des substances chimiques et des mélanges. On ne peut se faire créditer à la fois le CHEM 1300 (ou 002.130). *Préalables*: Mathématiques appliquée 40S ou Mathématiques 40S (pré-calcul), ou les anciens Mathématiques 40S (300), chimie 40S (ou son équivalent) ou le CHEM 0900 (ou 002.090) ou le CHEM 1000 ou CHEM 1001 (ou 002.100) (avec la note minimale de "B"). Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 1311 Université I Chimie : Une introduction à la chimie physique Cr.Hrs.3 (Labo requis) (L'ancien 002.131) La thermochimie, la thermodynamique chimique, la cinétique chimique. On ne peut se faire créditer à la fois le CHEM 1310 (ou 002.131)

Préalable: CHEM 1300 ou CHEM 1301 (ou 002.130) (C). Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 2211 Introduction à la chimie organique I: Structure et fonction Cr.Hrs.3 (Labo requis)(l'ancien 002.221) Une introduction aux concepts de réactivité organique et de liaison chez les molécules organiques. Préparation et propriétés de molécules organiques renfermant un groupe fonctionnel. On ne peut se faire créditer à la fois le CHEM 2210 (ou 002.221) et le CHEM 1320 (ou 002.132) ou l'ancien 002.220. *Préalable*: CHEM 1310, CHEM 1311 (ou 002.131), ou l'ancien 002.128 (C). Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 2221 Introduction à la chimie organique II : Réactivité et synthèse Cr.Hrs.3 (Labo requis) (L'ancien 002.222) Une introduction à la réactivité des composés organiques et à la spectroscopie organique. L'application de l'interchangeabilité des groupes fonctionnels dans les synthèses de composés. On ne peut se faire créditer à la fois le CHEM 2220 (ou 002.222) et l'ancien 002.220. *Préalable*: CHEM 2210 ou CHEM 2211 (ou 002.221) (C). Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 2281 Chimie physique : Étude microscopique de la matière Cr.Hrs.3 (Labo requis) (L'ancien 002.228) Une approche basée sur le plan moléculaire pour comprendre les propriétés physiques de la matière. Une introduction aux principes de la mécanique quantique, de la structure électronique et de la liaison, de la spectroscopie moléculaire. On ne peut se faire créditer à la fois le CHEM 2280 (ou 002.228). *Préalables*: CHEM 1310 ou 1311 (ou 002.131) (C), plus PHYS 1030 ou PHYS 1031 (ou 016.103) (C) ou PHYS 1070 ou PHYS 1071 (ou 016.107) (C), et 6 heures-crédits de niveau 1000 en mathématiques (de préférence Calcul) exceptés l'ancien 136.100, MATH 1010 (ou 136.101), MATH 1190 ou MATH 1191 (ou 136.119), ou MATH 1020 (ou 136.102) ou le FA 1020 (ou 054.102). Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 2291 L'énergétique et la dynamique chimique : Description macroscopique Cr.Hrs.3 (Labo requis) (L'ancien 002.229) L'énergétique chimique, l'entropie et la deuxième loi de la thermodynamique, la dynamique chimique. On ne peut se faire créditer à la fois le CHEM 2290 (ou 002.229). *Préalables*: CHEM 1310 ou CHEM 1311 (ou 002.131) (C), plus PHYS 1030 ou PHYS 1031 (ou 016.103) (C) ou PHYS 1070 ou PHYS 1071 (ou 016.107) (C), et 6 heures-crédits de niveau 1000 en mathématiques (de préférence Calcul) exceptés l'ancien 136.100, MATH 1010 (ou 136.101), MATH 1190 ou MATH 1191 (ou 136.119), et MATH 1020 (ou 136.102) ou FA 1020 (ou 054.102)). Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 2361 Biochimie I: Les molécules biochimiques et une introduction à l'énergie métabolique Cr.Hrs.3 (Labo requis) (L'ancien 002.236) Une introduction aux différents types moléculaires rencontrés en biochimie ainsi qu'au concept d'énergie métabolique comme produit du catabolisme nécessaire à la biosynthèse. Ce cours est aussi offert par le Département de microbiologie sous la cote MBI0 2361. On ne peut se faire créditer à la fois les CHEM 2360 ou CHEM 2770 (ou 002.277), ou le MBI0 2360 ou MBI0 2361 (ou 060.236), ou le MBI0 2770 (ou 060.277). *Préalables*: une note de "C" dans le CHEM 1310 ou CHEM 1311 (ou 002.131) et le BIOL 1030 ou BIOL 1031 ou l'ancien 071.125. NOTE: On peut utiliser ce cours dans son Baccalauréat sciences général. Par contre, ce cours ne peut pas être utilisé pour satisfaire les exigences de 12 heures-crédits aux niveaux 2000 et 3000 en chimie (règlements avant septembre 2008). Pour ceux et celles qui suivent les nouveaux règlements du baccalauréat général (2008-2009), ce cours peut faire partie des 18 crédits de chimie ou de microbiologie de niveau avancé. Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 2371 Biochimie II: Catabolisme, synthèse et les voies d'information Cr.Hrs.3 (Labo requis) (L'ancien 002.237) Une introduction aux processus métaboliques cellulaires de base incluant la production et l'utilisation de l'énergie métabolique, la gradation et la synthèse des molécules biochimiques, la synthèse de l'ADN, de l'ARN et des protéines et la régulation de ces processus. Ce cours est aussi offert par le Département de microbiologie sous la cote MBI0 2371. On ne peut se faire créditer à la fois le CHEM 2370 ou CHEM 2780 (ou 002.278), ou le MBI0 2370 MBI0 2371 (ou 060.237), ou le MBI0 2780 (ou 060.278). *Préalables*: une note de "C" dans le CHEM 2360 ou CHEM 2361 (ou 002.236) ou le MBI0 2360 ou MBI0 2361 (ou 060.236)) et le CHEM 2210 ou CHEM 2211 (ou 002.221) NOTE: On peut utiliser ce cours dans son Baccalauréat sciences général. Par contre, ce cours ne peut pas être utilisé pour satisfaire les exigences de 12 heures-crédits aux niveaux 2000 et 3000 en chimie (règlements avant septembre 2008). Pour ceux et celles qui suivent les nouveaux règlements du baccalauréat général (2008-2009), ce cours peut faire partie des 18 crédits de chimie ou de microbiologie de niveau avancé. Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 2381 Chimie des éléments représentatifs Cr.Hrs.3 (Labo requis) (L'ancien 002.238) Chimie descriptive des éléments représentatifs et interprétation de leurs propriétés physiques et chimiques d'après les théories habituelles de structure et de liaison. On ne peut se faire créditer à la fois le CHEM 2380 (002.238). *Préalable*: CHEM 1310 ou CHEM 1311 (ou 002.131) (C). Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 2471 Introduction à la chimie analytique Cr.Hrs.3 (Labo requis) (L'ancien 002.247) Une introduction aux techniques courantes de laboratoire en analyse chimique comprenant les méthodes gravimétries, volumétriques et quelques autres méthodes instrumentales. On ne peut se faire créditer à la fois le CHEM 2470

(002.247). *Préalables*: CHEM 1311 ou CHEM 1310 (002.131) et un cours de 3 crédits en mathématiques de niveau 1000 exceptés l'ancien 136.100, MATH 1010, MATH 1191, MATH 1190, MATH 1020, or FA 1020. Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 4361 Signalisation et régulation de l'expression génétique Cr.Hrs.3 (L'ancien 002.436) La biochimie de la réponse cellulaire aux stimuli externes, en mettant l'accent sur les animaux. Les récepteurs à la surface des cellules ainsi que les ligands, la signalisation au noyau, la phosphorylation et la protéolyse; la transcription; les gradients dans le typage cellulaire. On ne peut se faire créditer à la fois le CHEM 4360. *Préalable*: CHEM 2370 ou CHEM 2371 (ou 002.237) ou MBIO 2370 ou MBIO 2371 (ou 060.237), (ou l'ancien 002.235 ou 060.235) (C). Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 4371 Glycobiologie et activation des protéines Cr.Hrs.3 (L'ancien 002.437) Le rôle des biomolécules contenant des glucides en biochimie et leur importance dans la connaissance des maladies génétiques. L'importance de la protéolyse limitée dans l'activation des biomolécules. On ne peut se faire créditer à la fois le CHEM 4370 et l'ancien 002.449. *Préalable*: CHEM 2370 ou CHEM 2371 (ou 002.237) ou MBIO 2370 ou MBIO 2371 (ou 060.237) (ou l'ancien 002.235 ou 060.235)(C). Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 4621 Biochimie des acides nucléiques Cr.Hrs.3 (L'ancien 002.462) La structure des acides nucléiques; synthèse et détermination des séquences; interactions avec les protéines et les médicaments. On ne peut se faire créditer à la fois le CHEM 4620. *Préalable*: CHEM 2370 ou CHEM 2371 (ou 002.237) ou MBIO 2371 ou MBIO 2370 (ou 060.237) (ou l'ancien 002.235 ou 060.235) (C). Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 4631 Biochimie des protéines Cr.Hrs.3 (L'ancien 002.463) Les structures et fonctions des protéines, leurs propriétés physiques et chimiques et les méthodes utilisées pour les étudier. On ne peut se faire créditer à la fois le CHEM 4630. *Préalable*: CHEM 2370 ou CHEM 2371 (ou 002.237) ou MBIO 2371, ou MBIO 2370 (ou 060.237) ou l'ancien 002.235 ou 060.235) (C). Donné seulement au Collège universitaire de Saint-Boniface.

CHEM 4711 Projet de recherche en chimie ou biochimie Cr.Hrs.6 Un projet de recherche dans n'importe quel aspect de la chimie ou de la biochimie, choisi en consultation avec l'administrateur de cours ou un superviseur approprié de la faculté. Des rapports écrits et des présentations orales à la fin du projet seront nécessaires. Ce cours est normalement offert aux étudiant(e)s seulement lors de leur dernière année du programme de chimie. On ne peut se faire créditer à la fois le CHEM 4710. *Préalable*: Permission de l'administrateur du cours. Donné seulement au Collège universitaire de Saint-Boniface.

COMP 1011 Introduction à l'informatique I Cr.Hrs.3 (Labo requis) (L'ancien 074.101) Introduction à la programmation par un langage procédural évolué. On ne peut se faire créditer plus d'un cours parmi les suivants: le COMP 1010 et les anciens 074.112, 074.121, 074.123 ou 074.125. Donné seulement au Collège universitaire de Saint-Boniface. *Préalable*: N'importe quel cours de mathématiques de 12e année ou de niveau 40S, ou l'équivalent.

COMP 1021 Introduction à l'informatique II Cr.Hrs.3 (Labo requis) (L'ancien 074.102) Introduction à la programmation orientée objet, aux structures de données informatiques et à l'algorithme. On ne peut se faire créditer à la fois le COMP 1020 (074.102). *Préalable*: COMP 1010 ou COMP 1011; ou Informatique 40S (avec une note minimale de 75%) et n'importe quel cours de mathématiques de la 12^{ième} année ou du niveau 40S, ou l'équivalent.

COMP 1261 Introduction aux services informatiques modernes I Cr.Hrs.3 (L'ancien 074.126) Entre autres, l'accent est mis sur le traitement de texte, les chiffriers, les systèmes pour la gestion de données et le traitement graphique. Ce cours ne demande aucune connaissance *préalable* en informatique. On inscrit(e) à un programme de majeure ou de spécialisation en informatique ne peut s'inscrire à ce cours. On ne peut se faire créditer à la fois le COMP 1260. Donné seulement au Collège universitaire de Saint-Boniface.

COMP 1271 Introduction aux services informatiques modernes II Cr.Hrs.3 (L'ancien 074.127) Utilisation de nouveaux outils pour la création de pages WEB, apprendre les techniques de présentations efficaces, se familiariser avec d'autres systèmes d'exploitation, utiliser les outils de transfert de fichiers, programmer des scripts de base lors de la conception de pages WEB, comprendre les questions actuelles liées à la technologie dans la société. On ne peut se faire créditer à la fois le COMP 1270 (074.127). *Préalable*: COMP 1260 ou COMP 1261 (ou connaissances équivalentes) fortement recommandé. Donné seulement au Collège universitaire de Saint-Boniface.

COMP 2061 Structures discrètes et programmation Cr.Hrs.6 (Labo requis) (L'ancien 074.206F) Introduction aux éléments de la représentation, de l'organisation et de la manipulation des données dans les systèmes informatisés. Méthodes permettant de concevoir et d'utiliser des logiciels d'envergure. On ne peut se faire créditer à la fois le 074.206 et le COMP 2140 (074.214). *Préalables*: COMP 1021 or COMP 1020 (074.102) (ou l'ancien 074.123), un de MATH 1301 ou MATH 1300 (ou 136.130) (C) ou MATH 1310 (ou 136.131) (ou les anciens 010.114 ou 013.146), et un de MATH 1501 ou MATH 1500 (ou 136.150), MATH 1510 (ou 136.151), l'ancien 136.153, ou MATH 1690 (ou 136.169) (C). Donné seulement au Collège universitaire de Saint-Boniface.

COMP 2191 Introduction au calcul scientifique Cr.Hrs.3 (L'ancien 074.219) Un cours en informatique appliquée introduisant des concepts tels que l'approximation par polynômes, la résolution d'équations non linéaires, les systèmes linéaires, la sim-

ulation et la géométrie analytique. On ne peut se faire créditer à la fois le COMP 2190. *Préalables*: COMP 1020 ou COMP 1021 (ou 074.102) (C), et un de MATH 1500 ou MATH 1501 (ou 136.150) (C), MATH 1510 (ou 136.151) (C), MATH 1520 (ou 136.152) (C), l'ancien 136.153 (C) ou MATH 1690 (ou 136.169) (C). *Préalable ou concomitant*: Un de MATH 1300, MATH 1301, ou MATH 1310. Donné seulement au Collège universitaire de Saint-Boniface.

COMP 2261 Concepts appliqués en informatique Cr.Hrs.3 (L'ancien 074.226) Une discussion de plusieurs applications importantes des ordinateurs. Entre autres, l'attention sera portée à l'édition assistée par ordinateur, les réseaux et la communication. Ce cours n'est pas disponible aux étudiants qui auraient préalablement obtenu des crédits ou qui sont concurrentement inscrits dans un des cours suivants: COMP 1010 ou COMP 1011 (ou 074.101), COMP 1020 ou COMP 1021 (ou 074.102). *Préalable*: COMP 1260 ou COMP 1261 (ou 074.126) (C) ou le consentement du département. Donné seulement au Collège universitaire de Saint-Boniface.

MATH 1191 Sujets choisis en mathématiques Cr.Hrs.6 (Ancien 136.119) Ce cours offre aux étudiants de diverses facultés un aperçu des mathématiques modernes. Les sujets étudiés sont tirés des systèmes de nombres, de la géométrie et de la combinatoire. Ce cours est terminal et ne peut être reconnu comme préalable à aucun autre cours universitaire en mathématiques. Ce cours ne peut pas être reconnu aux fins d'un programme spécialisé ou général, majeure ou mineure en sciences mathématiques. L'inscription est interdite à tout étudiant ayant obtenu une note de C ou mieux dans un quelconque cours de mathématiques, à l'exception des cours MATH 1010 (136.101) ou MATH 1020 (FA 1020, 136.102, 054.102). Ce cours ne peut pas être suivi en même temps qu'un autre cours de mathématiques, à l'exception des cours MATH 1010 ou MATH 1020 (FA 1020). Aucun préalable. Donné seulement au Collège universitaire de Saint-Boniface.

MATH 1201 Éléments de mathématiques discrètes Cr.Hrs.3 (Labo requis) (Ancien 136.120) Suites et séries, trigonométrie, nombres complexes, algèbre de polynômes, approximation des zéros de fonctions, équations aux différences. On ne peut se faire créditer le MATH 1201 et le MATH 1200 ou MATH 1210. L'inscription est interdite à tout étudiant ayant obtenu des crédits de niveau 2000 ou plus en mathématiques, à moins que le cours MATH 1201 soit obligatoire dans le programme de l'étudiant. *Préalable*: Mathématiques 40S (précalcul) ou l'ancien Mathématiques 40S (300) avec une note minimale de 60 %, ou une note minimale de C dans le l'ancien 136.100 ou le cours Mathematical Skills offert par Extended Education de l'Université du Manitoba, ou le cours Habiletés mathématiques offert au Collège universitaire de Saint-Boniface. Donné seulement au Collège universitaire de Saint-Boniface.

MATH 1301 Géométrie vectorielle et algèbre linéaire Cr.Hrs.3 (Labo requis) (Ancien 136.130) Introduction aux vecteurs, aux matrices, aux systèmes d'équations linéaires et à la géométrie à trois dimensions. On ne peut se faire créditer le MATH 1301 et les MATH 1310 (ancien 136.131), MATH 1680 (ancien 136.168), MATH 1210. *Préalable*: Mathématiques 40S (précalcul) ou l'ancien Mathématiques 40S (300) avec une note minimale de 60 %, ou une note minimale de C dans le l'ancien 136.100 ou le cours Mathematical Skills offert par Extended Education de l'Université du Manitoba, ou le cours Habiletés mathématiques offert au Collège universitaire de Saint-Boniface. Donné seulement au Collège universitaire de Saint-Boniface.

MATH 1501 Introduction au calcul Cr.Hrs.3 (labo requis) (Ancien 136.150) Différentiation et intégration des fonctions élémentaires avec application à la théorie des extrêmes, aux taux de changements ainsi qu'aux aires et aux volumes. On ne peut se faire créditer le MATH 1501 (ancien 136.150) et les MATH 1510 (ancien 136.151), MATH 1520 (ancien 136.152), l'ancien 136.153, MATH 1680 (ancien 136.168), MATH 1690 (ancien 136.169). *Préalable*: Mathématiques 40S (précalcul) ou l'ancien Mathématiques 40S (300) avec une note minimale de 60 %, ou une note minimale de C dans l'ancien 136.100 ou le cours Mathematical Skills offert par Extended Education de l'Université du Manitoba, ou le cours Habiletés mathématiques offert au Collège universitaire de Saint-Boniface. Donné seulement au Collège universitaire de Saint-Boniface.

MATH 1701 Calcul II Cr.Hrs.3 (Labo Requis) (Ancien 136.170) Théories et techniques d'intégration, tracés de courbes, calculs de volume, de longueur d'arc, d'aires et des dérivées partielles. On ne peut se faire créditer le MATH 1701 (ancien 136.170) et les MATH 1690 (ancien 136.169), MATH 1700, MATH 1710 (ancien 136.171), ancien 136.173. *Préalable*: MATH 1501 (ancien 136.150), MATH 1510 (ancien 136.151), MATH 1520 (ancien 136.152), l'ancien 136.153 ou l'ancien MATH 1680 (ancien 136.168). Donné seulement au Collège universitaire de Saint-Boniface.

MATH 2301 Algèbre linéaire II Cr.Hrs.3 (Ancien 136.230) Suite du MATH 1301 (ancien 136.131 ou 013.146). Espaces vectoriels à dimensions finies, transformations linéaires et matrices; vecteurs réels et valeurs réelles. La diagonalisation et ses applications. Espaces avec produits scalaires. On ne peut se faire créditer le MATH 2301 et les MATH 2300, MATH 2352, ancien MATH 2350 (136.235), MATH 3130. *Préalables*: MATH 1301 ou MATH 1300 (ancien 136.130), MATH 1310 (ancien 136.131), et un de MATH 1501 ou MATH 1500 (ancien 136.150), MATH 1510 (ancien 136.151), MATH 1520 (ancien 136.152), l'ancien 136.153 ou MATH 1690 (ancien 136.169). Donné seulement au Collège universitaire de Saint-Boniface.

MATH 2451 Mathématiques combinatoires Cr.Hrs.6 (L'ancien 136.245) Une introduction à certains sujets d'intérêt courant en mathématiques combinatoires, c'est-à-dire les techniques d'énumération, les graphes, les dessins de blocs et les généralisations, les récursions linéaires. On ne peut se faire créditer le MATH 2451 (ou MATH 2450) à la fois avec l'ancien 136.245. *Préalable*: une moyenne de "C" ou plus dans un cours d'introduction en sciences mathématiques à l'exception l'ancien 136.100, MATH 1010 (ou 136.101), MATH 1020 (ou 136.102), FA 1020 (ou 054.102) et

MATH 1190 ou MATH 1191 (ou 136.119) (ou un cours de Mathématiques de l'ancien niveau 1000), ou consentement du département. Donné seulement au Collège universitaire de Saint-Boniface.

MATH 2501 Introduction à la théorie des nombres Cr.Hrs.3 (Ancien 136.250) Étude de la divisibilité, de la factorisation unique, des congruences linéaire et quadratique et du théorème de Fermat. On ne peut se faire créditer le MATH 2501 et le MATH 2500. *Préalable* : une note minimale de C dans un cours d'introduction en sciences mathématiques à l'exception de l'ancien 136.100, MATH 1010 (ancien 136.101), MATH 1020 (ancien 136.102) FA 1020 (ancien 054.102) et MATH 1191 ou MATH 1190 (ancien 136.119) ou l'autorisation écrite du département de mathématiques. Donné seulement au Collège universitaire de Saint-Boniface.

MATH 2551 Géométrie moderne Cr.Hrs.6 (Ancien 136.255) Approche moderne à la géométrie à l'aide de transformations géométriques. Sujets variés, tels isométries, symétries, similarités, inversion circulaire et groupes. On ne peut se faire créditer le MATH 2551 et l'ancien MATH 2550. *Préalables* : MATH 1690 (ancien 136.169) ou un de MATH 1501, MATH 1500 (ancien 136.150), MATH 1510 (ancien 136.151), MATH 1520 (ancien 136.152), ancien 136.153; aussi, un de MATH 1301 (ancien 136.130), MATH 1310 (ancien 136.131), MATH 1701 ou MATH 1700 (ancien 136.170), MATH 1710 (ancien 136.171), ancien 136.173. Donné seulement au Collège universitaire de Saint-Boniface.

MATH 2601 Mathématiques numériques I Cr.Hrs.3 (Ancien 136.260) Techniques élémentaires de solution numérique de problèmes mathématiques : solution d'équation; différences finies; interpolation, systèmes d'équations; différentiation numérique; intégration numérique. On ne peut se faire créditer le MATH 2601 et le MATH 2600, MATH 2120. *Préalables* : MATH 1301 ou MATH 1300 (ancien 136.130) ou MATH 1310 (ancien 136.131), MATH 1690 (ancien 136.169), MATH 1701 ou MATH 1700 (ancien 136.170), MATH 1710 (ancien 136.171) ou ancien 136.173, et COMP 1011 ou COMP 1010 (ancien 074.101) ou son équivalent, ou l'autorisation écrite du professeur. Donné seulement au Collège universitaire de Saint-Boniface.

MATH 2721 Calcul à plusieurs variables Cr.Hrs.3 (Ancien 136.270) Calcul différentiel et intégral à plusieurs variables. On ne peut se faire créditer le MATH 2721 et le MATH 2720 ou le MATH 2751 (ancien 136.275) ou le 136.270 ou le MATH 2110 (ancien 136.211) ou le MATH 2130. *Préalables* : le MATH 1301, MATH 1300 (ancien 136.130) ou MATH 1311 (ancien 136.131) (ou l'ancien 013.146) et un de MATH 1691 (ancien 136.169), MATH 1701, MATH 1700 (ancien 136.170), MATH 1711 (ancien 136.171) ou l'ancien 136.173. Donné seulement au Collège universitaire de Saint-Boniface.

MATH 2731 Suites et séries Cr.Hrs.3 (Ancien 136.271) Analyse, suites et séries. On ne peut se faire créditer le MATH 2731 et le MATH 2730 ou le MATH 2750 (ancien 136.275), ou le 136.271 ou le MATH 2132 ou le MATH 2100 (ancien 136.210). *Préalables* : un de MATH 1690 (ancien 136.169), MATH 1701, MATH 1700 (ancien 136.170), MATH 1711 (ancien 136.171) ou l'ancien 136.173. Concomitant : le MATH 1301, MATH 1300 (ancien 136.130) ou le MATH 1311 (ancien 136.131). Donné seulement au Collège universitaire de Saint-Boniface.

MATH 2801 Équations différentielles ordinaires et leurs applications I Cr.Hrs.3 (Ancien 136.280) Introduction à la théorie des équations différentielles ordinaires. Techniques pratiques de solution, principalement en ce qui a trait aux équations du premier ordre et aux équations linéaires d'ordre plus élevé. Systèmes linéaires. Applications à des problèmes en sciences ou à d'autres domaines. On ne peut se faire créditer le MATH 2801 et le MATH 2800 ou le MATH 2132 ou le MATH 2100 (ancien 136.210). *Préalable* : MATH 1301 ou MATH 1300 (ancien 136.130) ou MATH 1310 (ancien 136.131). Concomitant : MATH 2721, MATH 2720 ou MATH 2750. Donné seulement au Collège universitaire de Saint-Boniface.

MATH 3601 Mathématiques numériques II Cr.Hrs.3 (L'ancien 136.360) Différentiation numérique: quadrature Gaussienne; lissage à l'aide de splines; méthodes numériques pour les problèmes à valeurs initiales et problèmes aux frontières; transformations: problèmes où interviennent les systèmes de grade taille, pars ou mal conditionnés. On ne peut se faire créditer à la fois avec le MATH 3600 (ou 136.360). *Préalables*: MATH 2600 ou MATH 2601 (ou 136.260) (C); MATH 2800 ou MATH 2801 (ou 136.280) (C); MATH 2720 ou MATH 2721 (ou 136.272) (C) et MATH 2730 ou MATH 2731 (ou 136.271) (C), ou MATH 2750 (ou 136.275) (C); et le COMP 1010 ou COMP 1011 (ou 074.101) (C); ou le consentement du professeur. Donné seulement au Collège universitaire de Saint-Boniface.

MBIO 2101 Microbiologie générale A Cr.Hrs.3 (Labo requis) (L'ancien 060.210) Principes fondamentaux de la microbiologie. Un cours d'introduction qui étudie les structures et leurs fonctions, la croissance, le métabolisme, la physiologie et les systèmes régulateurs des principaux groupes de microorganismes. On ne peut se faire créditer à la fois avec les MBIO 2100. *Préalables*: CHEM 1310 ou CHEM 1311 (ou 002.131) (C) ou CHEM 1320 (ou 002.132) (C) et le BIOL 1030 ou BIOL 1031 (ou l'ancien 071.125) (C). Donné seulement au Collège universitaire de Saint-Boniface.

MBIO 2111 Microbiologie générale B Cr.Hrs.3 (Labo requis) (L'ancien 060.211) Cours d'introduction aux bactéries, aux virus des animaux, aux mutations, à la génétique bactérienne, à la pathogénicité microbienne, à la résistance de l'hôte en y incluant le système immunitaire. On ne peut se faire créditer à la fois avec les MBIO 2110. *Préalable*: MBIO 2100 ou MBIO 2101 (ou 060.210) (C). Donné seulement au Collège universitaire de Saint-Boniface.

MBIO 2361 Biochimie I: Les molécules biochimiques et une introduction à l'énergie métabolique Cr.Hrs.3 (Labo requis) (L'ancien 060.236) Une introduction aux dif-

férents types moléculaires rencontrés en biochimie ainsi qu'au concept d'énergie métabolique comme produit du catabolisme nécessaire à la biosynthèse. Ce cours est aussi offert par le Département de chimie sous la cote CHEM 2361. On ne peut se faire créditer à la fois avec les MBIO 2360 (ou 060.236), MBIO 2770 (ou 060.277) ou le CHEM 2360 ou CHEM 2361 (ou 002.236), le CHEM 2860 (ou 002.286) ou le CHEM 2770 (ou 002.277). *Préalables*: une note de "C" dans le CHEM 1310 ou CHEM 1311 (ou 002.131) et le BIOL 1030 ou BIOL 1031 (ou l'ancien 071.125). NOTE: On peut utiliser ce cours dans son Baccalauréat ès sciences général. Par contre, ce cours ne peut pas être utilisé pour satisfaire les exigences de 12 heures-crédits aux niveaux 2000 et 3000 en chimie (règlements avant septembre 2008). Pour ceux et celles qui suivent les nouveaux règlements du baccalauréat général (2008-2009), ce cours peut faire partie des 18 crédits de chimie ou de microbiologie de niveau avancé. Donné seulement au Collège universitaire de Saint-Boniface.

MBIO 2371 Biochimie II: Catabolisme, synthèse et les voies d'information Cr.Hrs.3 (Labo requis) (L'ancien 060.237) Une introduction aux processus métaboliques cellulaires de base incluant la production et l'utilisation de l'énergie métabolique, la dégradation et la synthèse des molécules biochimiques, la synthèse de l'ADN, de l'ARN et des protéines et la régulation de ces processus. Ce cours est aussi offert par le Département de chimie sous la cote CHEM 2371. On ne peut se faire créditer à la fois les MBIO 2370 (ou 060.237), MBIO 2780 (ou 060.278), ou le CHEM 2370 ou CHEM 2371 (ou 002.237), ou le CHEM 2780 (ou 002.278). *Préalables*: une note de "C" dans le MBIO 2360 ou MBIO 2361 (ou 060.236) ou le CHEM 2360 ou CHEM 2361 (ou 002.236) et le CHEM 2210 ou CHEM 2211 (ou 002.221) NOTE: On peut utiliser ce cours dans son Baccalauréat ès sciences général. Par contre, ce cours ne peut pas être utilisé pour satisfaire les exigences de 12 heures-crédits aux niveaux 2000 et 3000 en chimie (règlements avant septembre 2008). Pour ceux et celles qui suivent les nouveaux règlements du baccalauréat général (2008-2009), ce cours peut faire partie des 18 crédits de chimie ou de microbiologie de niveau avancé. Donné seulement au Collège universitaire de Saint-Boniface.

MBIO 3011 Mécanismes des maladies microbiennes Cr.Hrs.3 (L'ancien 060.301) Ce cours a pour objet l'étude des éléments suivants: les relations hôtes-parasites, une introduction à la réponse immunitaire, la pathogénie microbienne, les maladies virales, la microbiologie clinique et la santé publique, ainsi qu'une introduction aux agents antimicrobiens. On ne peut se faire créditer à la fois avec les MBIO 3010. *Préalables*: MBIO 2100 ou MBIO 2101 (ou 060.210) (C) et MBIO 2370 ou MBIO 2371 (ou 060.237) ou CHEM 2371 ou CHEM 2370 (ou 002.237) (C). Donné seulement au Collège universitaire de Saint-Boniface.

MBIO 3411 Biologie moléculaire Cr.Hrs.3 (L'ancien 060.341) Un traitement rigoureux des bases de la biologie moléculaire moderne reliées à la maladie moléculaire, aux manipulations génétiques et cellulaires, ainsi qu'aux contrôles cellulaires. On ne peut se faire créditer à la fois avec les MBIO 3410. *Préalables*: MBIO 2370 ou MBIO 2371 (ou 060.237) ou CHEM 2370 ou CHEM 2371 (ou 002.237) ou MBIO 2780 (060.278) ou CHEM 2780 (ou 002.278) (C) et un de: MBIO 2110 ou MBIO 2111 (ou 060.211), BIOL 2520 (ZOO 2280, 022.228), ou ZOO 2281, ou BIOL 2500 (BOTN 2460, 001.246) ou BOTN 2461(C). Donné seulement au Collège universitaire de Saint-Boniface.

MBIO 3451 Régulation des processus biochimiques Cr.Hrs.3 (L'ancien 060.345) Mécanismes de régulation de l'activité enzymatique, incluant l'allostérie, le contrôle de certaines routes biosynthétiques ou dégradatives sélectionnées, ainsi que la régulation de l'expression génétique. On ne peut se faire créditer à la fois avec les MBIO 3450. *Préalables*: MBIO 2110 ou MBIO 2111 (ou 060.211) (C) ou le consentement du département, et MBIO 2370 ou MBIO 2371 (ou 060.237) ou CHEM 2371 CHEM 2370 (ou 002.237) (C). Donné seulement au Collège universitaire de Saint-Boniface.

MBIO 3461 Biochimie membranaire et cellulaire Cr.Hrs.3 (Labo requis) (L'ancien 060.346) Isolement, fractionnement, structure et fonction des membranes cellulaires et des composés subcellulaires. Le rôle central joué par ces éléments dans la biochimie des processus cellulaires sera mis en évidence. On ne peut se faire créditer à la fois avec les MBIO 3460. *Préalables*: MBIO 2110 ou MBIO 2111 (ou 060.211) (C) ou le consentement du département, et MBIO 2370 ou MBIO 2371 (ou 060.237) ou CHEM 2371 CHEM 2370 (ou 002.237) (C). Donné seulement au Collège universitaire de Saint-Boniface.

MBIO 4011 Immunologie Cr.Hrs.3 (Labo requis) (L'ancien 060.401) Les sujets abordés seront les antigènes, les anticorps, les réactions antigènes-anticorps, l'immunogénétique, la régulation de la réponse du système immunitaire, le complément, les réactions d'hypersensibilités, l'auto-immunité, les déficiences immunitaires, l'immunologie des greffes et des tumeurs. On ne peut se faire créditer à la fois le MBIO 4010 (ou 060.401) et MBIO 4020 (ou 060.402) et l'ancien 060.444. *Préalable*: MBIO 3010 ou MBIO 3011 (ou 060.301) (C). Donné seulement au Collège universitaire de Saint-Boniface.

MBIO 4411 Virologie Cr.Hrs.3 Une analyse compréhensive des propriétés fondamentales des virus, de la taxonomie virale ainsi que les façons dans lesquelles les virus se reproduisent. Les méthodes expérimentales utilisées en virologie et les façons que les virus provoquent des maladies seront examinées aussi. On ne peut pas se faire créditer à la fois MBIO 4410 (ancien 060.441) et MMIC 7010 (ancien 097.701). *Préalables*: MBIO 3010, MBIO 3011 (ancien 060.301) et MBIO 3410, MBIO 3411 (ancien 060.341). Donné seulement au Collège universitaire de Saint-Boniface.

MBIO 4541 Transduction de l'énergie biologique Cr.Hrs.3 (L'ancien 060.454) Biochimie des processus biologiques comportant l'interconversion des différentes formes d'énergie comme la phosphorylation oxydative, le transport dans les membranes et les processus de contractions. On ne peut se faire créditer à la fois avec les MBIO 4540. *Préalable*: MBIO 2110 ou MBIO 2111 (ou 060.211) (C) et MBIO 2370 ou MBIO 2371 (ou 060.237) ou CHEM 2370 ou CHEM 2371 (ou 002.237) (C) ou le

consentement du département. Donnée seulement au Collège universitaire de Saint-Boniface.

MBIO 4581 Technologie de l'ADN recombinant Cr.Hrs.3 (L'ancien 060.458) Techniques d'isolement de plasmides, la digestion de l'ADN par les enzymes (endonucléases) de restriction, le clonage, détermination de la séquence des nucléotides dans l'ADN, transformation de l'ADN, transfert de gènes. On ne peut se faire créditer à la fois le MBIO 4580 (ou 060.458) et le MBIO 4570 (ou 060.457). *Préalable*: MBIO 3410 ou MBIO 3411 (ou 060.341) (C). Donnée seulement au Collège universitaire de Saint-Boniface.

MBIO 4601 Génétique moléculaire des procaryotes Cr.Hrs.3 (Labo requis) (L'ancien 060.460) Une étude détaillée de la réplication, de l'expression, de la mutagenèse de la réparation de l'ADN ainsi que des éléments génétiques transposables des bactéries et des virus. On ne peut se faire créditer à la fois le MBIO 4600 (ou 060.460) et les anciens 060.452 ou 060.456. *Préalables*: le MBIO 2110 ou MBIO 2111 (ou 060.211) (C) et MBIO 2370 ou MBIO 2371 (ou 060.237) ou CHEM 2370 (ou 002.237) (C). Le BOTN 2461 ou BIOL 2500 (BOTN 2460, 001.246) est recommandé. Donnée seulement au Collège universitaire de Saint-Boniface.

PHYS 1021 Physique générale I Cr.Hrs.3 (Labo requis) (L'ancien 016.102) Ce cours d'initiation à la physique ne requiert pas de calcul et traite de certains thèmes tirés de la mécanique et de la thermodynamique avec des exemples tirés des sciences biologiques et physiques. Ce cours, de même que le PHYS 1030 (ou 016.103), est particulièrement conseillé aux étudiants désireux d'avoir une vue d'ensemble de la physique ou qui ont l'intention d'entreprendre des études dans les sciences de la santé. Il peut aussi servir comme cours de base pour un programme de spécialisation en physique ("B+" ou mieux) ou de majeure en physique ("B" ou mieux). On ne peut se faire créditer à la fois le PHYS 1020 (ou 016.102) avec le PHYS 1050 ou PHYS 1051 (ou 016.105), le PHYS 1410 (ou 016.141), ou le PHYS 1420 (ou 016.142). *Préalables*: Soit Physique 40S, PHYS 0900 (ou 016.090) (avec Pass) ou l'équivalent, et soit le cours de Mathématiques précalcul 40S, ou une note de 70% dans les cours de Mathématiques appliquées 40S, ou l'équivalent. Il est fortement recommandé aux étudiants d'obtenir une note de 70% dans les cours de Mathématiques précalcul 40S et de Physique 40S. Donnée seulement au Collège universitaire de Saint-Boniface.

PHYS 1031 Physique générale II Cr.Hrs.3 (Labo requis) (L'ancien 016.103) Ce cours d'initiation à la physique ne requiert pas de calcul et traite de certains thèmes tirés de l'électricité, du magnétisme, de l'optique et de la physique moderne et appuyé d'exemples pris des sciences biologiques et physiques. Ce cours, de même que le PHYS 1020 (ou 016.102), est particulièrement conseillé aux étudiants désireux d'avoir une vue d'ensemble de la physique ou qui ont l'intention d'entreprendre des études des sciences de la santé. Il ne peut servir aux programmes de majeure ou de spécialisation en physique. On ne peut se faire créditer à la fois le PHYS 1030 (ou 016.103) et le PHYS 1410 (ou 016.141) ou le PHYS 1420 (ou 016.142) ou les anciens 016.120. *Préalable*: PHYS 1020 ou PHYS 1021 (ou 016.102) (C) ou PHYS 1050 ou PHYS 1051 (ou 016.105) (C). Donnée seulement au Collège universitaire de Saint-Boniface.

PHYS 1051 Physique I: La mécanique Cr.Hrs.3 (Labo requis) (L'ancien 016.105) Une introduction, basée sur le calcul, à la mécanique classique. Les sujets suivants seront traités: les vecteurs, la dynamique et la cinématique du mouvement de translation. La cinématique de la rotation, l'énergie, le travail, le moment linéaire, les collisions, le mouvement oscillatoire. Ce cours est destiné particulièrement aux étudiants qui voudraient poursuivre leur programme d'études dans les sciences physiques ou en ingénierie. On ne peut se faire créditer à la fois le PHYS 1050 (ou 016.105) et le PHYS 1020 ou PHYS 1021 (ou 016.102) ou PHYS 1410 (ou 016.141) ou le PHYS 1420 (ou 016.142) (et les anciens 016.118, 016.120 ou 016.127). *Préalables*: Mathématiques pré-calcul 40S (ou l'équivalent) et Physique 40S (ou l'équivalent) ou le PHYS 0900 (ou 016.090) (avec "Pass"). Il est fortement recommandé que l'étudiant obtienne une moyenne de 80% dans les Préalables de mathématiques précalcul 40S et de Physiques 40S. *Préalables ou concomitants*: Un de MATH 1500 ou MATH 1501, MATH 1510, MATH 1520, l'ancien 136.153 ou MATH 1690. Donnée seulement au Collège universitaire de Saint-Boniface.

PHYS 1071 Physique II: La physique des ondes et la physique moderne Cr.Hrs.3 (Labo requis) (L'ancien 016.107) Une introduction, basée sur le calcul, à la physique des ondes et à la physique moderne. Les sujets suivants seront traités: les oscillations: les ondes, la superposition, l'interférence, la relativité, l'effet photoélectrique, le modèle quantique, l'atome de Rutherford, le modèle de Bohr, les spectres atomiques, la théorie de deBroglie, le principe d'incertitude de Heisenberg, les réactions nucléaires, la fission, la fusion, les particules sous-atomiques. Ce cours, tout comme le PHYS 1050 (ou 016.105) Physique, est destiné aux étudiantes et aux étudiants qui veulent suivre un programme d'études en sciences physiques. On ne peut se faire créditer à la fois le PHYS 1070 (ou 016.107) avec le PHYS 1410 (ou 016.141), ou le PHYS 1420 (ou 016.142). *Préalables*: PHYS 1050 ou PHYS 1051 (ou 016.105) (ou l'ancien 016.118) (C) ou PHYS 1020 ou PHYS 1021 (ou 016.102) (B), et MATH 1500 ou MATH 1501 (ou 136.150) ou MATH 1510 (ou 136.151), MATH 136.152 (ou 136.152), ou l'ancien 136.153 (C). *Préalables ou concomitants*: MATH 1700 ou MATH 1701 ou MATH 1690 ou MATH 1710. Donnée seulement au Collège universitaire de Saint-Boniface.

PHYS 1301 Énergie et environnement Cr.Hrs.6 (L'ancien 016.130) Ce cours présente les particularités physiques générales de notre environnement. On insistera sur certains problèmes d'actualité, à savoir l'atmosphère, le cosmos, la structure de la matière et de l'énergie, les sources d'énergie, l'application des principes de la physique à la technologie moderne, etc. Le cours comportera des projections de films et des démonstrations. La participation aux discussions et aux choix des sujets à traiter est encouragée. Ce cours est conçu pour les étudiants de toutes les facultés et n'exige au-

cune connaissance des mathématiques ou de la physique. Il ne peut faire partie des programmes de Mineure ou de Majeure en Physique. On ne peut se faire créditer à la fois le PHYS 1300. Donnée seulement au Collège universitaire de Saint-Boniface.

PHYS 2201 Électricité et magnétisme Cr.Hrs.6 (Labo requis) (L'ancien 016.220) Champs électrostatique, potentiel électrostatique, loi de Gauss, capacitance, matériaux diélectriques, champs magnétiques, loi d'Ampère, induction magnétique, matériaux magnétiques, courant de déplacement, forme intégrale des équations de Maxwell, loi d'Ohm, lois de Kirchoff, analyse de circuits en courant continu, circuits équivalents, analyse de circuits en courant alternatif, impédance complexe, circuits RLC, couplage magnétique, transformateurs, diodes et circuits avec diodes. On ne peut se faire créditer à la fois le PHYS 2200 (ou 016.220) et le PHYS 2600 (ou 016.260) ou le PHYS 2610 (ou 016.261). *Préalables*: Un de PHYS 1070 ou PHYS 1071 (ou 016.107) (ou les anciens 016.106 ou 016.120) (C), ou PHYS 1020 ou PHYS 1021 (ou 016.102) (C+) et PHYS 1030 ou PHYS 1031 (ou 016.103) (C+) (C); et un de MATH 1500 ou MATH 1501 (ou 136.150) (C), MATH 1510 (ou 136.151) (C), MATH 1520 (ou 136.152) (C), l'ancien 136.153 (C) ou MATH 1690 (ou 136.169) (C). *Préalables ou concomitants*: MATH 1200 ou MATH 1201 et un de MATH 1690, MATH 1700 ou MATH 1701, MATH 1710 ou l'ancien 136.173. Donnée seulement au Collège universitaire de Saint-Boniface.

PHYS 2251 Introduction à la physique moderne Cr.Hrs.3 (L'ancien 016.225) Un cours d'introduction en physique atomique et nucléaire. Théorie cinétique des gaz, théorie de la relativité, effets de quantum, physique atomique, physique nucléaire. Ce cours n'est pas disponible aux étudiants qui auraient préalablement obtenu des crédits ou qui sont concurremment inscrits dans le cours PHYS 2380 (ou 016.238) (ou les anciens 016.250 ou 016.230). Ce cours n'est pas disponible aux étudiants dans les programmes de spécialisation ou de majeure en Physique. On ne peut se faire créditer à la fois le PHYS 2250. *Préalables*: Un de: PHYS 1070 ou PHYS 1071 (ou 016.107) (C), ou PHYS 1020 ou PHYS 1021 (ou 016.102) (C+) et PHYS 1030 ou PHYS 1031 (ou 016.103) (C+) (ou l'ancien 016.121) (C+), (ou les anciens 016.127 (C); et un de MATH 1500 ou MATH 1501 (ou 136.150) (C), MATH 1510 (ou 136.151) (C), MATH 1520 (ou 136.152) (C), l'ancien 136.153 (C) ou MATH 1690 (ou 136.169) (C). *Préalables ou concomitants*: MATH 1200 ou MATH 1201 et un de MATH 1690, MATH 1700 ou MATH 1701, MATH 1710 ou l'ancien 136.173. Donnée seulement au Collège universitaire de Saint-Boniface.

PHYS 2261 Optique Cr.Hrs.3 (Labo requis) (L'ancien 016.226) Étude de la réfraction, réflexion, des systèmes de lentilles simples et des systèmes optiques, dispersion, achromatisme et vue lémentaire de la diffraction, interférence et polarisation. On ne peut se faire créditer à la fois le PHYS 2260. *Préalables*: Un de: PHYS 1070 ou PHYS 1071 (ou 016.107) (C), ou PHYS 1020 ou PHYS 1021 (ou 016.102) (C+) et PHYS 1030 ou PHYS 1031 (ou 016.103) (C+); et un de MATH 1500 ou MATH 1501 (ou 136.150) (C), MATH 1510 (ou 136.151) (C), MATH 1520 (ou 136.152) (C), l'ancien 136.153 (C) ou MATH 1690 (ou 136.169) (C). *Préalables ou concomitants*: MATH 1200 ou MATH 1201 et un de MATH 1690, MATH 1700 ou MATH 1701, MATH 1710 ou l'ancien 136.173. Donnée seulement au Collège universitaire de Saint-Boniface.

PHYS 2271 Éléments de physique pour les sciences biologiques A Cr.Hrs.3 (L'ancien 016.227) Ce cours introduit les éléments de physique ayant un rapport direct avec les sciences biologiques. En particulier, le transfert d'énergie par rayonnement, les effets de surface, la conduction thermique, les phénomènes de diffusion, les phénomènes de transport ainsi que l'utilisation de matériaux radioactifs. On ne peut se faire créditer à la fois le PHYS 2270. *Préalable*: PHYS 1070 ou PHYS 1071 (ou 016.107) (C) ou PHYS 1030 ou PHYS 1031 (ou 016.103) (C) ou le consentement du département. Donnée seulement au Collège universitaire de Saint-Boniface.

PHYS 2281 Éléments de physique pour les sciences biologiques B Cr.Hrs.3 (L'ancien 016.228) Ce cours traite des propriétés physiques des solides, des liquides et des gaz ainsi que des phénomènes de radiation et de la radioactivité. L'accent sera mis sur les aspects ayant un rapport direct avec les sciences biologiques. On ne peut se faire créditer à la fois le PHYS 2280. *Préalable*: PHYS 1070 ou PHYS 1071 (ou 016.107) (C) ou PHYS 1030 ou PHYS 1031 (ou 016.103) (C) ou le consentement du département. Donnée seulement au Collège universitaire de Saint-Boniface.

STAT 1001 Analyse statistique de base I Cr.Hrs.3 (L'ancien 005.100) Une introduction aux principes fondamentaux de la statistique et aux procédures utilisées en analyse de données. Les sujets traités incluent: la cueillette des données, l'affichage et l'élagage des données, les relations entre variables, les distributions échantillonnables, l'estimation et les tests de signification, l'inférence pour les moyennes. On ne peut se faire créditer à la fois le STAT 1000 (005.100) et le STAT 2220 (005.222). *Préalable*: Un cours de mathématiques 40S ou l'équivalent. Donnée seulement au Collège universitaire de Saint-Boniface.

STAT 2001 Analyse statistique de base II Cr.Hrs.3 (L'ancien 005.200) L'étude des procédures d'estimation et de tests d'hypothèses pour les moyennes et les proportions dans les contextes d'échantillonnage à une, deux ou plusieurs variables; introduction à l'analyse de variance: régression et corrélation; les sujets optionnels peuvent inclure les méthodes nonparamétriques, la conception d'expériences, les modèles probabilistes. On ne peut se faire créditer à la fois le STAT 2000. *Préalable*: STAT 1000 ou STAT 1001 (ou 005.100) (C). Donnée seulement au Collège universitaire de Saint-Boniface.

ZOOL 2281 Biologie cellulaire Cr.Hrs. 3 (L'ancien 022.228) La fonction des organites cellulaires sera étudiée conjointement avec leur structure microscopique ou leur ultrastructure en insistant sur l'ensemble de la vie cellulaire en tant que système dynamique. On ne peut se faire créditer à la fois le BIOL 2520 (ZOOL 2280, 022.228).

Préalable: BIOL 1030 ou BIOL 1031 (ou l'ancien 071.125) (C). Donné seulement au Collège universitaire de Saint-Boniface.

ZOOL 2371 Principes d'écologie Cr.Hrs.3 (Labo Requis) (L'ancien 022.237) Principes d'écologie au niveau de l'individu, la population, la communauté et l'ac-costèmes. Ce cours est également offert sous le numéro BOTN 2371 et dans la Faculté de sciences de l'agriculture et de nutrition sous le numéro AGECE 2370. On ne peut se faire créditer à la fois le BOTN 2371, BIOL 2300 (ZOOL 2370, 022.237, BOTN 2370, 001.237), et le AGECE 2370 (ou 065.237) ou BIOL 2390 (ZOOL 2290, 022.229, BOTN 2280, 001.228). *Préalable:* BIOL 1030 ou BIOL 1031 (ou l'ancien 071.125) (C). *Préalable* ou concomitant: STAT 1000 ou STAT 1001 (ou 005.100) (D). Donné seulement au Collège universitaire de Saint-Boniface.

ZOOL 2501 L'évolution et la structure morphologique des cordés Cr.Hrs.6 (Labo Requis)(L'ancien 022.250) Une étude de l'histoire évolutive de la structure et des adaptations des cordés basées sur les animaux fossilisés et sur les animaux vivants. Ce cours établit les bases pour l'étude des groupes majeurs de cordés. On ne peut se faire créditer à la fois le ZOOL 2501 (022.250) et le BIOL 2210 (ZOOL 2320, 022.232) et l'ancien 022.227. *Préalable:* BIOL 1030 ou BIOL 1031 ou l'ancien 071.125 (C). Donné seulement au Collège universitaire de Saint-Boniface.

ZOOL 2531 Physiologie du corps humain I Cr.Hrs.3 (L'ancien 022.253) Dans ce cours, les principaux mécanismes de contrôle du corps (systèmes nerveux et endocrinien) ainsi les systèmes musculaire et reproducteur seront étudiés. On ne peut se faire créditer à la fois le BIOL 2410 (ZOOL 2530, 022.253) et le BIOL 3460 (ZOOL 3530, 022.353). *Préalable:* note de "C" dans le BIOL 1030 ou BIOL 1031 (ou l'ancien 071.125) ou une moyenne minimale de "C+" dans les deux cours BIOL 1001 (ou BIOL 1000 ou 071.100) et BIOL 1011(ou BIOL 1010 ou 071.101), ou le BIOL 1412 (ZOOL 1330, 022.133). Donné seulement au Collège universitaire de Saint-Boniface.

ZOOL 2541 Physiologie du corps humain II Cr.Hrs.3 (L'ancien 022.254) Une étude de la régulation homéostatique par les systèmes effecteurs du corps (cardiovasculaire, respiratoire, digestif, rénal et immunitaire). *Préalable:* avoir complété le ZOOL 2531, BIOL 2410 (ZOOL 2530, 022.253) (D) ou le BIOL 3460 (ZOOL 3530, 022.353) (D) ou consentement du professeur. Donné seulement au Collège universitaire de Saint-Boniface.

ZOOL 2601 Introduction à la zoologie des invertébrés Cr.Hrs.3 (Labo Requis) (L'ancien 022.260) Une étude phylogénétique et biologique des invertébrés appuyant sur les taxa et sur les groupes qui ont une importance phylogénétique particulière. On ne peut se faire créditer à la fois le BIOL 2200 (ZOOL 2600, 022.260). *Préalable:* BIOL 1030 ou BIOL 1031 (ou l'ancien 071.125) (C). Donné seulement au Collège universitaire de Saint-Boniface.

ZOOL 3001 Biologie évolutive Cr.Hrs.3 (labo requis) L'évolution est la cause ultime de la diversité biologique. Ce cours donne une introduction aux sujets principaux et aux méthodes de recherche en biologie évolutive. Les sujets incluent: génétique évolutive, adaptation, spéciation et reconstruction de l'histoire de l'évolution. On ne peut se faire créditer le ZOOL 3001 et le BIOL 3300 (ZOOL 3000, BOTN 3000) ou l'ancien 022.400. *Préalables:* BOTN 2461 ou BIOL 2500 (BOTN 2460, 001.246) et un cours parmi les suivants: BIOL 2240 (BOTN 2110, 001.211), BIOL 2260 (BOTN 2210, 001.221), BIOL 3260 (BOTN 2290, 001.229), BIOL 2210 (ZOOL 2320, 022.232), ZOOL 2501 (ou 022.250F), ZOOL 2601 ou BIOL 2200 (ZOOL 2600,

022.260) ou consentement du professeur. Donné seulement au Collège universitaire de Saint-Boniface.

ZOOL 3061 Histologie animale comparée Cr.Hrs.3 (Labo Requis) (L'ancien ZOOL 022.306) Ce cours a pour objet l'étude de l'organisation cellulaire et tissulaire des animaux. La morphologie cellulaire ainsi que la spécialisation, les types de tissus, l'organisation cellulaire et tissulaire de tous les systèmes seront abordés. On mettra l'accent sur les mammifères, mais des études comparatives avec d'autres groupes animaux seront aussi incluses. On ne peut se faire créditer à la fois le BIOL 3560 (ZOOL 3060, 022.306), ou l'ancien 022.347. *Préalable:* BIOL 1030 ou BIOL 1031 (ou l'ancien 071.125) (C). *Préalable* conseillé: BIOL 2210 (ZOOL 2320, 022.232) ou ZOOL 2501 (ou 022.250) ou BIOL 2520 (ZOOL 2280, 022.228) ou ZOOL 2281. Donné seulement au Collège universitaire de Saint-Boniface.

5.15 Courses Offered in Other Faculties and Schools Acceptable for Credit in the Faculty of Science

All courses acceptable for credit in any degree program at the University of Manitoba are acceptable for credit in Science (excludes Pass/Fail courses) subject to overall degree requirements. All courses will be included on admission to the Faculty and will be applied toward the elective requirement in all degree programs offered in Science. For course descriptions, including any prerequisites and/or restrictions, see the chapter entitled Course Descriptions in this Calendar.

5.16 Minors from Departments and Faculties Outside of Science

Students wishing to complete a minor from a Faculty or School other than the Faculty of Science as part of their 4-year degree should refer to the specific departmental/school/faculty section of the General Calendar for a listing of courses required to fulfill the specific Minor.

Minors can be selected from the following list. For further information about courses required for the completion of a specific Minor, please refer to the section of the calendar that relates to the chosen area.

Animal Systems, Entomology, Food Science, Plant Biotechnology, Soil Science, Art History*, Anthropology, Asian Studies, Canadian Studies, Catholic Studies, Central and East European Studies, Classics, Greek, Latin, Economics, English, Film Studies, Theatre, French, Spanish, Italian, German, Russian, Ukrainian, Polish, History, Icelandic, Labour Studies, Linguistics, Medieval Studies, Native Studies, Native Languages, Near Eastern and Judaic Studies, Philosophy, Political Studies, Psychology, Religion, Sociology, Ukrainian Canadian Heritage Studies, Women's and Gender Studies, Geography, Geological Sciences, Physical Geography, Environmental Science, Environmental Studies, Human Nutrition and Metabolism, Family Social Sciences, Management*, and Music*.

*Faculty of Management/Asper School of Business

For entry to the Minor, the prerequisite is a grade of "C" or better in the first 6 hours of Business courses. The Management Minor will consist of any 18 hours of credit in courses offered by the Asper School of Business. Enrol-

ment in this program will be limited to 20 students annually. Students planning to enrol in this minor must consult a Faculty of Science student advisor.

*Faculty of Music

Students claiming advance standing, for any reason, will be asked to undergo placement tests to substantiate their claims.

MUSIC MINOR (033) Minor 18 Credit Hours

Minor Option 1

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
MUSC 1280 and MUSC 1290 (At most, 12 credit hours numbered at the 1000 level may be used toward the minor)	12 credit hours of Music courses from List A (Students who elect ensemble courses from List A are required to complete all three courses)		

Minor Option 2

MUSC 1110 and MUSC 1120 12 credit hours of Music courses from List A (Students who elect ensemble courses from List A are required to complete all three courses)
(At most, 12 credit hours numbered at the 1000 level may be used toward the minor)

NOTE: Unless otherwise noted, these courses are available to all students in the Faculty of Science who have completed the required prerequisites. Courses in list B are not available to students completing the minor. Ensemble courses (MUSC 2180, MUSC 3180, and MUSC 4180) are acceptable for credit towards a degree in Science only when applied to the minor. They are not acceptable for credit as options.

Minor Program

For entry to the minor, the prerequisite is a grade of "C" or better in each of MUSC 1280 and MUSC 1290 or a grade of "C" or better in each of MUSC 1110 and MUSC 1120. A maximum of 12 credit hours numbered at the 1000 level may be used towards 18 credit hours for a minor.

List A

Students are responsible for ensuring that all prerequisites have been met.

MUSC 1050 The Well-Tempered Concert-Goer (3)
MUSC 1070 Introduction to the History of Music (3)
MUSC 1080 History of Music 2 (3)
MUSC 1110 Music Theory 1 (3)
MUSC 1120 Music Theory 2 (3)
MUSC 1280 Musical Style and Structure 1 (3)
MUSC 1290 Musical Style and Structure 2 (3)
MUSC 2070 History of Music 3 (3)
MUSC 2080 History of Music 4 (3)
MUSC 2110 Music Theory 2 (3)
MUSC 2120 Music Theory 4 (3)
MUSC 2180** Ensemble (2)
MUSC 2460 Conducting (3)
MUSC 3020 History and Performance of Jazz (3)
MUSC 3030 History of Music in Worship (3)
MUSC 3050 Research Methods (3)
MUSC 3090 Introduction to Ethnomusicology (3)
MUSC 3100 Opera Repertoire (3)

MUSC 3110 Chamber Music Repertoire (3)
MUSC 3150 Orchestration (3)
MUSC 3180** Ensemble (2)
MUSC 3230 Acoustics of Music (3)
MUSC 3600 Conducting (3)
MUSC 3820 Topics in Music (3)
MUSC 3830 Topics in Music (3)
MUSC 3840 Topics in Music (3)
MUSC 3850 Topics in Music (3)
MUSC 3960 Music of the 20th Century 1 (3)
MUSC 3970 Music of the 20th Century 2 (3)
MUSC 4060 History of Music 6 (3)
MUSC 4070 History of Music 7 (3)
MUSC 4130 History of Women in Music (3)
MUSC 4150 Choral Repertoire (3)
MUSC 4180** Ensemble (2)

** Acceptable for credit in Science only to those graduating students with a declared Minor in Music.

List B

MUSC 1930 Rudiments of Music (3)

***School of Art**

ART HISTORY MINOR (054A) 18 CREDIT HOURS

UNIVERSITY 1	YEAR 2	YEAR 3	YEAR 4
6 credit hours from FAAH 1030, FAAH 1040, FAAH 1050 or FAAH 1060	FA 1990 12 credit hours from either List A or List B		

NOTE: Unless otherwise noted, these courses are available to all students in the Faculty of Science who have completed the required prerequisites.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in 6 credit hours from FAAH 1030, FAAH 1040, FAAH 1050, FAAH 1060.

LIST A

Classics
CLAS 2670 Greek Art and Archaeology (3)
CLAS 2680 Roman Art and Archaeology (3)
Art History
FAAH 2060 Medieval to Early Renaissance Art and Architecture (3)
FAAH 2070 Renaissance to Baroque Art and Architecture (3)
FAAH 2080 Modern to Contemporary Art (3)
FAAH 2090 Art of the North American Aboriginal Peoples (3)
FAAH 2100 Survey of Asian Art (3)
FAAH 210 Women and Art (3)

LIST B

FA 2620 Writing About Art (3)
FAAH 2910 Field Studies in Art History 1 (3)
FAAH 2920 Field Studies in Art History 2 (3)
FAAH 3130 Topics in Medieval Art and Architecture (3)
FAAH 3140 Topics in Renaissance and Baroque Art and Architecture (3)
FAAH 3150 Topics in 18th and 19th Century Art (3)
FAAH 3160 Topics in 20th Century Art (3)
FAAH 3170 Contemporary Art (3)
FAAH 3180 History of Photography (3)
FAAH 3190 History of Ceramics (3)
FAAH 3200 Art in New Media (3)
FAAH 3210 Introduction to the Theory and Criticism of Art (3)
FAAH 3220 Topics in Aboriginal Art (3)
FAAH 3230 Chinese Art and Architecture (3)
FAAH 3240 Japanese Art and Architecture (3)
FAAH 3250 Topics in Art History (3)

FAAH 3260 Canadian Art and Architecture to World War II (3)
FAAH 3270 Canadian Art Since World War II (3)
FAAH 3280 Early Byzantine Art and Architecture (3)
FAAH 3290 Later Byzantine Art and Architecture (3)
FAAH 3430 Inuit Art (3)
FAAH 3440 Field Trip (0)
FAAH 3590 Islamic Art and Architecture (3)
FAAH 3780 Twentieth Century American Art Until 1950 (3)
FAAH 3910 Field Studies in Art History 3 (3)
FAAH 3920 Field Studies in Art History 4 (3)
FAAH 4060 Seminar on the Theory and Criticism of Art (3)+
FAAH 4070 Seminar in Art History 1 (3)
FAAH 4080 Seminar in Art History 2 (3)
FAAH 4090 Seminar on Contemporary Issues in Art (3)
FAAH 4710 Directed Study 1 (3)
FAAH 4720 Directed Study 2 (3)

Coordinator of Student Services and Admissions/Advising Office: Anita Nowak

Student Advisors: TBA (Fort Garry Campus), Louise Sabourin (DD), Debra DiUbaldo (ICSWP), Linda Paziuk (Northern)

Chapter Contents

SECTION 1: Academic Staff

SECTION 2: Social Work Education

SECTION 3: Admission to Social Work

- 3.1 Degree Offered
- 3.2 Fort Garry Campus
- 3.3 Inner City Social Work Program
- 3.4 Northern Social Work Program at Thompson
- 3.5 Distance Delivery of the Bachelor of Social Work Program
- 3.6 The Collège universitaire de Saint-Boniface
- 3.7 Special Student Admission

SECTION 4: Academic Regulations

- 4.1 Prerequisite and Corequisite Policy
- 4.2 Residence Requirements for a Degree Program
- 4.3 Scholastic Progress
- 4.4 Professional Unsuitability Bylaw
- 4.5 Dean's Honour List
- 4.6 Appeal of Grades

SECTION 5: Program Requirements

- 5.1 Curriculum Outline
- 5.2 Specialization in Child and Family Services
- 5.3 Interfaculty Option in Aging
- 5.4 Field Instruction
- 5.5 Distance Courses Open to Fort Garry Campus and Inner City Social Work Students
- 5.6 Courses Open to Challenge for Credit
- 5.7 Credit for Social Work Courses Taken at Other Universities

SECTION 6: Course Descriptions

SECTION 1: Academic Staff

Professor Emeritus

Jehu, D., B.A. (Reading), Dip.Soc.Sc., Dip.App.Soc.Studies (Liverpool), F.B.Ps.S. (London).

Senior Scholars

Grosser, S.J., B.A., M.S.W. (Manitoba); **Hudson, P.**, B.A. (London), M.S.W. (Toronto); **Hutton, M.**, B.Sc., B.S.W., M.S.W., Ed.D. (Toronto); **Kaminski, L.E.**, B.A., M.S.W. (Manitoba); **Mullaly, R.P.**, B.A. (New Brunswick), M.S.W. (Dalhousie), Ph.D. (Toronto); **Penner, A.G.**, B.A., B.S.W. (Manitoba); **Reid, J.G.W.**, B.A. (Regina), M.S.W. (Toronto), Ph.D. (Manitoba); **Ryant, J.C.**, B.Comm., M.A., M.S.W., Ph.D. (McGill); **Spearman, L.B.**, B.A., M.S.W. (Nebraska), D.S.W. (Washington).

Professors

Frankel, H., B.S.W. (Manitoba), M.S.W. (McGill), Ph.D. (Berkeley); **Fuchs, D.M.**, B.A. (Regina), M.S.W. (Calgary), Ph.D. (Toronto); **Heinonen, T.**, B.A. (Alberta), B.S.W. (Calgary), M.S.W. (McGill), D.Phil. (Sussex); **McKenzie, B.**, B.A. (Saskatchewan), M.S.W. (Manitoba), Ph.D. (Arizona State); **Roy, R.**, F.R.S.C., B.A. (Delhi), A.A.P.S.W. (London), Adv. Dip. S.W. (Toronto).

Associate Professors

Bacon, B.L., B.S.W. (Regina), M.S.W. (Toronto), Ph.D. (Texas); **Bonnycastle, C.R.**, Dip. Ren Res. (Saskatchewan), B.H.J., M.S.W. (Regina); **Bracken, D.C.**, B.A. (Holy Cross College), M.A. (Toronto), Ph.D. (London); **Cheung, M.**, B.Soc.Sc., M.Soc.Sc. (Hong Kong), Ph.D. (Wilfrid Laurier); **Clare, K.A.**, B.S.W. (Manitoba), M.S.W. (Carleton); **Deane, L.J.**, B.S.W., M.S.W., Ph.D. (Manitoba); **Ferguson, E.B.**, B.A., M.S.W. (Manitoba), Ph.D. (Toronto); **Frankel, S.I.**, B.S.W., M.S.W. (Manitoba), Ph.D. (Berkeley); **Hiebert-Murphy, D.**, B.S.W., M.A., Ph.D. (Manitoba); **Milliken, E.J.**, B.S.W. (Manitoba), M.S.W. (Calgary), Ph.D. (Memorial); **Pompana, Y.**, B.A. Adv., M.S.W. (Manitoba), Ph.D. (Trent); **Taylor, L.**, B.A. (McMaster), M.S.W. (Wilfrid Laurier), Ph.D. (Toronto); **Taylor-Henley, S.**, B.A. (St. Thomas), M.S.W. (Dalhousie), Ph.D. (Minnesota); **Wright, A.** B.A. (Collège universitaire de St. Boniface), B.S.W., M.S.W. (Manitoba), Ph.D. (Glasgow).

Assistant Professors

Bâ, O., B.S.W. (Senegal), M.S.W. (Laval), Ph.D. (Laval); **Baffoe, M.**, B.A. (Ghana), B.S.W. (McGill), M.S.W. (McGill); **Hart, M.**, B.S.W., M.S.W. (Manitoba), Ph.D. (Manitoba); **Hughes, J.**, B.S.W. (St. Thomas), M.S.W., Ph.D. (Toronto); **Levine, K.**, B.S.W. (Manitoba), M.S.W. (Carleton), Ph.D. (Manitoba); **Nixon, K.**, B.A. (Western Ontario), B.S.W. (King's College), M.S.W., Ph.D. (Calgary).

Instructors

Brady, J. I., B.A. (Concordia), B.S.W. (Regina), M.S.W. (Carleton); **Casey, J.**, B.A. (Western), M.A. (Manitoba); **Cook, G.**, B.S.W., M.S.W. (Manitoba); **Fidler, G.**, B.S.W. (Manitoba), M.A. (Victoria); **Gosek, G.**, B.A., B.S.W., M.S.W. (Manitoba); **Halonen, D.**, B.A., B.S.W., M.S.W. (Lakehead); **Lesperance, D.K.**, B.S.W., M.S.W. (Manitoba); **Morrissette, V.**, B.S.W. (Manitoba); **Oberdorfer, L.**, B.H.Ec. (Manitoba), M.A. (Victoria); **Paziuk, L.J.**, B.Ed. (Brandon), M.Ad.Ed. (St. Francis Xavier); **Smith, D.**, B.S.W. (Manitoba).

SECTION 2: Social Work

The great complexity of life in our time has made it difficult for many people, families, and population groups to achieve self-realization without professional assistance. It has also created the need for services that help social institutions respond to these personal needs. The focus of social work is on the well being of people and the forces and conditions that undermine their dignity. In its professional practice, social work is involved in psychosocial treatment and social change.

The undergraduate program leads to a B.S.W. degree and provides basic professional preparation for practice. The degree is accepted as such by the Canadian Association of Social Workers. The Bachelor of Social Work program combines a liberal and professional education. The faculty offers the undergraduate program at the Fort Garry Campus, the William Norrie Centre, and in Thompson. Students from these campuses graduate with a Bachelor of Social Work (B.S.W.) degree from the University of Manitoba. The

Bachelor of Social Work Program by Distance Delivery is available for people living and working outside Winnipeg. The BSW program is also offered in French at Collège universitaire de Saint-Boniface.

The faculty is a charter member of the Canadian Association for Social Work Education. Both the B.S.W. and the graduate degree, Master of Social Work, are accredited by the Canadian Association for Social Work Education, which is also recognized by the Council on Post Secondary Education in the U.S.

The mission of the Faculty of Social Work is to contribute knowledge, and educational programs for the social development of the Province of Manitoba, Canada and the world.

SECTION 3: Admission to Social Work

3.1 Degree Offered

Bachelor of Social Work

Minimum time to graduation: Normally four years (University 1 plus three years in Social Work), or two years if the concentrated study program is chosen following 51 credit hours of prior university study.

All students complete a total of 123 credit hours of university study. Full time or part-time study is offered.

The following is a summary of the admission requirements. Equivalent academic courses completed at recognized universities elsewhere will be considered. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website.

3.2 Admission to the BSW Program on the Fort Garry Campus

Admission Requirements

Completion of 30 credit hours of any university level courses which are acceptable to the University of Manitoba.

The written English and mathematics requirements are recommended to be completed as part of University 1. If these requirements are not met in University 1 (i.e. the first 30 credit hours) they must be completed prior to graduation.

Minimum GPA for consideration for all applicants (including Educational Equity applicants): 2.5

A Criminal Record Statement and a Child Abuse Registry (CAR) check (for a record of those registered as an offender) must be completed following selection.

Selection criteria: Two applicant pools are created, with 60% of all spaces allocated to applicants with highest grades and 40% of all spaces allocated to applicants in the Education Equity Initiative.

Concentrated Program

All applicants wishing to complete the program in two years of full-time study must have completed a minimum of 51 credit hours of university study (which are acceptable to the University of Manitoba) prior to admission to the B.S.W. program. Of the 51 credit hours of university study, 21 credit hours must not be older than ten years to qualify for the two year concentrated program. Applicants wishing to complete the degree through the two year concentrated program must have an Adjusted Grade Point Average of 3.00 from all previous university study. In the event that three credit hours in each of written English and mathematics have not been completed as part of the 51 credit hours of previous university study, they must be completed within the first year of the two-year program.

The Selection Process

The selection process is designed to accomplish three objectives — to treat applicants fairly and equitably, to provide the diversity of practitioners required by the profession, and to provide for an efficient admissions process. The faculty selects applicants to the Fort Garry Campus B.S.W. program through two categories as described below.

Academic Achievement Category: 60% of all available positions will be awarded on the basis of highest Adjusted Grade Point Average.

Educational Equity Category: 40% of all available positions will be allocated to those eligible for inclusion in one or more of the Educational Equity Priority Groups.

The purpose of the Educational Equity Initiative is to achieve equality in professional education so that no person shall be denied educational opportunities or benefits for reasons unrelated to ability. In the fulfilment of this goal, the aim is to correct the conditions of disadvantage in professional education experienced by Aboriginal peoples, persons with disabilities, gender and sexual minorities, immigrants and refugees to Canada, and persons who are, because of their race or colour, a visible minority in Canada. Giving effect to the principle of educational equity means more than treating persons in the same way; it also requires special measures and the accommodation of difference. Details of the Educational Equity Initiative are provided in the application information bulletin.

3.3 Admission to the Inner City Social Work Program

The Inner City Social Work (B.S.W.) ACCESS Program at the William Norrie Centre is an inner-city extension of the Faculty of Social Work. Students admitted to the centre are accepted directly into a four-year B.S.W. program, and do not require prior university study.

The objective of this program is to enhance the accessibility of the B.S.W. program by preparing as social workers those mature students who have had inner-city or similar social service experience, but who lack the normal university entrance requirements. Special academic and social support is provided to students admitted to the program. Staff assists candidates in arranging funding resources.

All students complete a total of 123 credit hours of university study. Full time or part-time study is offered.

Admission to the centre is limited. Applicants to the full-time program must be 21 years old, low income and residents of Winnipeg at the time of application. The deadline date for submitting applications is early February.

A part-time B.S.W. Access program is offered to individuals who meet the above criteria, work for a Winnipeg or Aboriginal agency and/or have two years employment in human service fields. Deadline for applications for part-time studies is mid January.

Students at the centre must meet the same graduation requirements as students in the B.S.W. program on the Fort Garry Campus. For further information, contact: Inner City Social Work Program, 485 Selkirk Avenue, Winnipeg, Manitoba, R2W 2M6; telephone: (204) 668 8160 or the Selection Coordinator, 790-7218.

3.4 Admission to the Northern Social Work Program

The Northern Bachelor of Social Work (B.S.W.) program, based in Thompson, Manitoba, is an extension of the Fort Garry Faculty of Social Work. Students are admitted directly into a four-year B.S.W. program and do not require prior university study.

All students complete a total of 123 credit hours of university study. Full time or part-time study is offered.

The objective of this program is to enhance the accessibility of the B.S.W. program by preparing as social workers mature students who, without the support of the program, would be unable to successfully complete a university degree due to lack of financial resources, lack of academic qualifications, remote location, and cultural barriers. Special academic and personal support is provided to students admitted to the program, as well as some assistance in arranging funding resources.

Students who have completed 30 credit hours of university level courses and have a minimum GPA of 2.5 may apply as External Students.

Admission to the Northern Social Work program is limited. Applicants must meet specified northern residency requirements. The deadline date for submitting applications is March 1 (classes begin in September).

Students in the Northern Social Work program must meet the same graduation requirements as students in the B.S.W. program on the Fort Garry Campus. For further information, contact the Director, Faculty of Social Work at Thompson, 3 Station Road, Thompson, Manitoba, R8N 0N3; telephone: (204) 677 1450.

3.5 Distance Delivery of the Bachelor of Social Work Program

The Faculty of Social Work remains committed to the accessibility of social work education. The faculty has extended the concept of accessibility to include geographical accessibility through the delivery of the B.S.W. based on two approaches: (1) to individuals by means of an independent study program and (2) to community-based groups using the cohort method.

The Distance Delivery B.S.W. program is intended to target individuals who are employed in the social services and living outside of Winnipeg, but who may not have had the opportunity to pursue professional social work education.

All students complete a total of 123 credit hours of university study. Full time or part-time study is offered.

Delivery methods for the independent study component of the program include a combination of audioconference sessions and online independent study manuals. Access to high speed internet is required.

All course examinations are scheduled and arranged by the university's Registrar's Office to take place in the student's community.

Delivery of the program to the community-based cohorts utilizes the face-to-face delivery with the option of a combination of face-to-face and independent study.

Applicants to the Distance Delivery B.S.W. program must meet all three of the following requirements to be admitted into the program:

- A minimum of two years of social service related work experience, within the last five years;
- Residency outside of Winnipeg;
- The university admission requirements for either a regular student or a mature student.

Complete and detailed admissions information is available on our web site at umanitoba.ca/faculties/social_work or by calling the Faculty of Social Work Distance Delivery BSW Student Advisor at (204) 474-6070.

The deadline for submission of applications in March 1st (for September start date).

Students in the Distance Delivery B.S.W. program must meet the same graduation requirements as students in the B.S.W. program on the Fort Garry Campus.

3.6 The Collège universitaire de Saint-Boniface

The Collège universitaire de Saint-Boniface, in conjunction with the University of Manitoba, now offers a French language Bachelor of Social Work program. Please contact Florette Giasson (Program Coordinator) at 237-1818 ext. 447 for more information.

3.7 Special Student Admission

A Special Student in Social Work is one who wishes to take undergraduate Social Work courses with no intentions of proceeding to a B.S.W. degree at the present time. In addition, the student is not currently registered at any other university. Students seeking admission as Special Students may request information from the Faculty of Social Work, 521 Tier Building; telephone (204) 474 7050. Criteria for admission are:

- Successful completion of a minimum of 30 credit hours of university level courses which are acceptable to the University of Manitoba;
- and
- Adjusted Grade Point Average of 2.5 (C+).

Students are reminded they must submit an official transcript (one bearing the university seal) to the BSW Student Advisor along with the application form on their appointment day (University of Manitoba students need only provide a student history). There is a \$95 application fee. Once admitted as a Special Student, students will:

- Be limited to completion of nine credit hours of required social work courses plus SWRK 1310 and SWRK 2080.

- Be prohibited from adding courses in the Faculty of Social Work until August (refer to the *Registration Guide* for specific dates).

- Have all courses classified as "SS," which means that courses will not generate a Grade Point Average.

Students Enrolled in other Faculties/Schools

Students currently enrolled in other faculties or schools at the University of Manitoba may register for Social Work courses provided they have completed a minimum of 30 credit hours of university study and achieved a minimum Cumulative Grade Point Average of 2.5. These students will also be limited to completion of nine credit hours of required social work courses plus SWRK 1310 and SWRK 2080.

Courses available to Special Students and students enrolled in other faculties and schools at the University of Manitoba:

Required Social Work Courses:

SWRK 1310	Introduction to Social Welfare Policy Analysis
SWRK 2080	Interpersonal Communication Skills
SWRK 2090	Human Behaviour and Social Work Practice
SWRK 2110	Emergence of the Canadian Welfare State
SWRK 2120	Britain: Poor Laws to the Welfare State
SWRK 2130	Comparative Social Welfare Systems
SWRK 3130	Contemporary Canadian Social Welfare
SWRK 3100	Systematic Inquiry in Social Work

Elective Social Work Courses:

SWRK 2050	Community & Organizational Theory
SWRK 2070	Small Group Dynamics
SWRK 2100	Perspectives on the Individual & Life Transitions
SWRK 3110	Perspectives on Deviancy

NOTE: Special and non-Social Work students are required to abide by the same pre-/corequisite policy that applies to B.S.W. students.

SECTION 4: Academic Regulations

All students are asked to note that some academic policies and regulations are under review and are subject to change. Please check the Web Calendar at umanitoba.ca after July 1, 2009 for updated information.

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Social Work has regulations and requirements, published below, that apply specifically to its students.

4.1 Prerequisite and Corequisite Policy

The faculty has established a set of pre-/ corequisite requirements to assist students in planning their program of study.

All students must abide by the pre- and corequisite requirements for all courses.

Any exceptions to the pre- and corequisite policy MUST be approved by the Committee on Academic Standings prior to course registration. Should a student violate the pre- and corequisite policy, credit(s) for the course(s) will be deleted from the student's academic record. For detailed information, please refer to the B.S.W. Student Handbook.

4.2 Residence Requirements for a Degree Program

The general university residence requirement applies to the Faculty of Social Work. See Section 2, in the chapter, General Academic Regulations and Requirements.

4.3 Scholastic Progress

Except in circumstances covered in the official regulations referred to below, clear standing in the faculty requires both the Degree Grade Point Average and Subject Grade Point Average of 2.5 (C+) at the end of each academic session. A minimum grade of 2.0 (C) is required for all Social Work courses. The passing grades for electives taken in other faculties or schools are those required by the faculties or schools concerned. Complete statements of the regulations governing scholastic progress in the Faculty of Social Work are published in the B.S.W. Student Handbook. Students wishing to do so may consult the policy governing scholastic progress as written in the B.S.W. Student Handbook with the Chair of the Committee on Academic Standings, or the Dean. In the event of any question or dis-

pute, this set of regulations shall be considered the official version. Directors of off-campus programs and the Student Services and Admissions/Advising Office at Fort Garry Campus will advise students on issues concerning scholastic progress.

4.4 Professional Unsuitability Bylaw

The Senate has approved a bylaw granting authority to the faculty to require a student to withdraw for reasons of professional unsuitability (see the chapter, General Academic Regulations and Requirements, Section 6.2.3.). The bylaw is published in the B.S.W. Student Handbook. Students are reminded of their obligation to be familiar with all regulations governing their continued progress in the program.

4.5 Dean's Honour List

BSW student eligibility for the Dean's Honour List is considered on a term by term basis. To qualify for the Dean's Honour List a student must:

Have completed a minimum of 9 credit hours in the term under consideration

and

Have achieved a minimum Term GPA of 3.6

Pass/Fail courses will be included in the credit hour count.

4.6 Appeal of Grades

The general university policy for appeal of assigned grades applies to the Faculty of Social Work. As well, the Faculty Council has approved a Social Work policy on the appeal of assigned grades and term work. The policy is outlined in the B.S.W. Student Handbook. The Faculty Council has established the Academic Standing Appeals Committee to deal with these matters.

SECTION 5: Program Requirements

When planning your workload, allow approximately two hours of study/reading time for each hour of class time. It is also advisable to schedule time to use the library. The faculty will offer as many evening courses as possible each year.

5.1 Curriculum Outline

A) Three-Year Plan

This plan allows a Fort Garry Campus student who has completed 30-50 credit hours of general university study prior to admission, to combine Social Work professional courses with other university courses. It requires three years of full-time study, after admission to the faculty, to complete the requirements for the B.S.W. degree. A student who has already completed the 51 credit hours of general university study which are acceptable to the University of Manitoba may also register for this program ignoring the elective requirements.

Three-Year Plan Example

Course No.	Course Name	Credit Hours	Year
SWRK 1310	Introduction to Social Welfare Policy Analysis	3	1
SWRK 2080	Interpersonal Communication Skills	3	1
SWRK 2090	Human Behaviour and Social Work Practice	6	1
SWRK 3140	Introduction to Social Work Practice	3	1
SWRK 3150	Field Instruction 1	12	2
SWRK 4200	Field Focus of Social Work Practice 1	6	2
SWRK 4120	Field Instruction 2	12	3
SWRK 4300	Field Focus of Social Work Practice 2	6	3
SWRK 2110	Emergence of the Canadian Welfare State	3	1
	or		
SWRK 2120	Britain: Poor Laws to the Welfare State	3	1
	or		
SWRK 2130	Comparative Social Welfare Systems	3	1
SWRK 3100	Systematic Inquiry in Social Work	3	1
SWRK 3130	Contemporary Canadian Social Welfare	3	2
SWRK 4210	Feminist Perspectives on Social Work Practice	6	2 or 3
SWRK 4220	Aboriginal People and Social Work Practice	6	2 or 3

NOTES:

1) SWRK 1310 and SWRK 2080 are open to University 1 students,

2) All students must take the foundation courses (see 6.7) very early in the program. Failure to do so may restrict progression through the program.

3) See course descriptions (Section 6) for a complete list of pre- /corequisites.

4) Students must take SWRK 1310 before proceeding to SWRK 2110, SWRK 2120, SWRK 2130, and SWRK 3130. In addition, SWRK 1310, SWRK 2080 and SWRK 2090 are pre- or corequisite to SWRK 3140.

4) All foundation courses are pre-requisite to SWRK 4200, SWRK 4300, SWRK 4210, 047.4220, SWRK 3150 and SWRK 4120. In addition, SWRK 3150 Field Instruction 1 is pre-requisite to SWRK 4120 Field Instruction 2.

6) See *Registration Guide* for a list and description of SWRK 4200 and SWRK 4300 courses.

7) Students must take one section of SWRK 4200 and one section of SWRK 4300. Each section is anchored in a different field or focus of social work practice. It is recommended that students take SWRK 4200 and SWRK 4300 courses that corresponds with their field placement area of practice.

8) Students must take SWRK 4200 concurrently with SWRK 3150 and SWRK 4300 concurrently with SWRK 4120. If a student withdraws from SWRK 4200, he/she must also withdraw from SWRK 3150 and if a student withdraws from SWRK 4300, he/she must also withdraw from SWRK 4120. As well, if a student withdraws from SWRK 3150 he/she must withdraw from SWRK 4200 and if a student withdraws from SWRK 4120 he/she must withdraw from SWRK 4300. Students, who fail to withdraw from the corequisite course, will be withdrawn.

9) Student admitted after '97-'98 must complete 3 credit hours of written English and 3 credit hours of mathematics as part of first 30 credit hours (unless completed prior to admission).

10) This plan assumes that students do not take courses in the summer.

Year 1 = 21 Credit hours social work courses 6 Credit hours electives

Year 2 = 27 Credit hours social work courses 6 Credit hours electives

Year 3 = 24 Credit hours social work courses 9 Credit hours electives

Planning Chart for Elective Courses for Three-Year Program

Required Electives	Credit Hours	Year
Admitted on basis of	30	1
Unallocated transfer		
Electives to be completed		
Written English (W)		1
Mathematics (M)		1

B) Two-Year Plan (Concentrated Program)

Fort Garry Campus students who have completed 51 credit hours of general university study which are acceptable to the University of Manitoba (equivalent to 8 1/2 full courses) prior to admission to the B.S.W. program, and have maintained a minimum Adjusted Grade Point Average of 3.00, are eligible for the two year plan (concentrated program). If a student has completed the 51 credit hours of general university study which are acceptable to the University of Manitoba, but does not have the required 3.00 A.G.P.A., or prefers a more extended time period, that student can register for either the three-year plan or the part-time plan. In both instances the "elective" requirements would be ignored, except where applicants have not completed three credit hours in each of written English and mathematics prior to admission. In this instance, students enrolled in the concentrated program must complete the coursework in the first year. Students eligible to register for the concentrated program may choose to do so at point of initial registration following admission only. Students planning on completing their program in two years must follow the structure outlined below (which includes completing 12 credit hours, i.e. two full courses during the summer).

Year 1

Course No.	Course Name	Credit Hours
SWRK 1310	Introduction to Social Welfare Policy Analysis	3
SWRK 2080	Interpersonal Communication Skills	3
SWRK 2090	Human Behaviour and Social Work Practice	6
SWRK 2110	Emergence of the Canadian Welfare State or	3
SWRK 2120	Britain: Poor Laws to the Welfare State or	3
SWRK 2130	Comparative Social Welfare Systems	3
SWRK 3100	Systematic Inquiry in Social Work	3
SWRK 3130	Contemporary Canadian Social Welfare	3
SWRK 3140	Introduction to Social Work Practice Summer Session	3
SWRK 4210	Feminist Perspectives on Social Work Practice	6
SWRK 4220	Aboriginal People and Social Work Practice Year 2	6
SWRK 3150	Field Instruction 1	12
SWRK 4200	Field Focus of Social Work Practice 1	6
SWRK 4120	Field Instruction 2	12
SWRK 4300	Field Focus of Social Work Practice 2	6
	Total credit hours	72

Note: See course descriptions (Section 6) for a complete list of pre/co requisites.

C) The Part-Time Plan

Please note that it is possible to pursue the Bachelor of Social Work degree through a program of part-time study. Part-time students must complete all the required social work and elective courses within nine years of their admission to the faculty.

5.2 Specialization in Child and Family Services

Currently under review. For more information please contact Coordinator of Student Services and Admissions/Advising Office, Anita Nowak at nowakaj@ms.umanitoba.ca.

5.3 Interfaculty Option in Aging

The Interfaculty Option in Aging is offered by the following faculties: Arts, Human Ecology, Nursing, Kinesiology and Recreation Management, Clayton H. Riddell Faculty of Environment, Earth and Resources, and Social Work. To complete the option, students will complete each of the following requirements: a) KIN 2610* Health and Physical Aspects of Aging; b) SWRK 2650* The Social Aspects of Aging; c) one field placement SWRK 3150 or SWRK 4120 in aging d) one Field Focus of Social Work Practice course (SWRK 4200 or SWRK 4300) in aging. Students are encouraged to take courses from the participating units other than Social Work.

NOTE: *These courses are offered on a rotational basis by participating units.

Upon completion of these requirements, a notation will be added to the student's transcript. Further information on the Interfaculty Option in Aging is available from the General Office of the Faculty of Social Work.

5.4 Field Instruction

Students are expected to register for two courses in field, SWRK 3150 and SWRK 4120. Courses are taken when students have completed the prerequisites and are in the appropriate year of their degree plan. Field courses each have a corequisite, which is SWRK 4200 Field Focus of Social Work Practice 1 for SWRK 3150 Field Instruction 1 and SWRK 4300 Field Focus of Social Work Practice 2 for SWRK 4120 Field Instruction 2. The Field Focus course selected should correspond with the field placement area of practice. Students wishing to divert from their degree plan should consult the Coordinator of Student Services and Admissions/Advising Office before February 1. Forms requesting confirmation of student plans to take field instruction in the following year will be distributed in the winter term. Students must request a field placement by completing a field section form at least 75 calendar days prior to the term that they will commence field. Students requesting a summer field placement must request the field placement at least 40 calendar days prior to summer field start. Students who do not meet the deadline cannot be guaranteed a field placement in that term.

Field Instruction in both SWRK 3150 and SWRK 4120 consists of participation in the field placement two days per week, both terms (16 hours per week). Field Instruction in the concentrated program constitutes four days per week (32 hours) in both terms at one placement. Students contemplating switching to a concentrated field placement are required to make themselves aware of eligibility requirements for this program and contact the Coordinator of Student Services and Admissions/Advising Office for confirmation of their eligibility no later than February 1. Only when this is resolved are they eligible to select this field option.

The Field Instruction program will provide the student with opportunities to learn first hand how to provide professional practice in a variety of social service agencies. The program provides an educationally focused experience in delivering progressively more demanding and complex professional social work interventions.

Field Instruction will be provided by university-appointed field instructors who may be agency-based or university-based, and who have knowledge, skills, and expertise in generic principles that can be applied to a wide range of fields of practice. The method of instruction will include individual and may include group seminars designed to assist the student to integrate theory with practice. This instruction is provided on a weekly basis. Field liaisons are available for student support, if necessary.

Active participation by the student is expected in all phases of Field Instruction including orientation conducted in their individual agency placements at the beginning of the academic year. Students absent due to illness or other reasons must contact the Field Instructor or Field Coordinator.

Students may be placed in a variety of agencies or departments. These include: school, probation, child and family services, health and mental health settings, occupational social work, those with a disability focus, and ethnically specific services. These settings provide experience in using a variety of intervention skills with individuals, families, groups, communities and policy initiatives. Every effort will be made to place students registering in SWRK 4120 (the final year of their field program) in a setting related to their field of interest. Final authority for field placement location, however, rests with the Field Coordinator. Decisions may be based on availability of agency openings, as well as on the educational needs of students. Students are expected to assume responsibility for any transportation expenses required for travel to and from the agency sites in which they are taking their Field Instruction course.

5.5 Distance Courses Open to Fort Garry Campus and Inner City Social Work Students

B.S.W. students who are enrolled in the Fort Garry Campus or Inner City Social Work programs may take up to six credit hours of selected social work courses through Distance Delivery. The following courses are excluded: SWRK 2080, SWRK 3100, SWRK 3140, SWRK 4200 and SWRK 4300. If any Fort Garry Campus or Inner City Social Work program students are enrolled in the above mentioned practice courses they will be withdrawn.

5.6 Courses Open to Challenge for Credit

The Faculty of Social Work accommodates those students who are qualified and who can demonstrate acceptable knowledge and skill, by allowing them to challenge certain Social Work courses. They are:

SWRK 2080	Interpersonal Communication Skills
SWRK 3100	Systematic Inquiry in Social Work
SWRK 3130	Contemporary Canadian Social Welfare

Information on the procedures for challenge is available in the B.S.W. Student Handbook. The dates at which courses may be challenged are given in the academic schedule of the Undergraduate Calendar.

5.7 Credit for Social Work Courses Taken at Other Universities

The Faculty of Social Work supports the principle of granting credit for social work courses taken within the last nine years in accredited programs leading to professional social work qualification. Information on granting credits for social work courses is available in the B.S.W. Student Handbook.

The Faculty of Social Work has articulated agreements with specific diploma and certificate programs. Please consult the B.S.W. Student Handbook for detailed information.

SECTION 6: Registration Information

Initial Access Times

Students are referred to the chapter: The Registration System: Aurora Student, Section 4.

6.1 Information for All Students

All B.S.W. Fort Garry and Distance Delivery students in the Faculty of Social Work are required to register online through Aurora Student.

Students enrolled in the Northern Social Work Program at Thompson and the Inner City Social Work Program do not register through Aurora Student.

Student Responsibilities

See the Social Work chapter of the *Undergraduate Calendar* in this book. It is your responsibility to be familiar with all the requirements for your degree, to ensure compliance with degree program requirements, including prerequisite requirements, and to understand all relevant regulations, policies and practices that affect you. The final completion of degree requirements is your responsibility.

Registration and Web Access

Information about how to register through Aurora Student may be found in the chapter: The Registration System: Aurora Student.

Aurora Student checks for course conflicts. However, it does not check student's course selection to ensure that degree requirements are satisfied. Students should refer to the Social Work chapter of the *Undergraduate Calendar*, to determine if their degree requirements are satisfied. Should any inconsistencies occur between the Calendar and this Registration Guide, the Calendar shall prevail.

Students Blocked from Registration Include:

Required to Withdraw: If the Committee on Academic Standings assessed you as "Required to Withdraw," you must consult the Social Work Student Advisor.

Students on "Hold": Students who are on "hold" are prohibited from any registration until they have cleared this status with the department concerned (e.g. library, parking tickets, etc.). The Social Work Student Advisor cannot bypass your "hold" status to permit registration.

Voluntary Withdrawal

Courses dropped during the registration revision period shall not be regarded as VW's and shall not be recorded on an official transcript or student history.

It is not sufficient to merely stop attending the classes. Students who cease attending classes must drop the course through Aurora Student (or in writing for those who were required to register in writing). If you do not withdraw from a course in an appropriate way, a failing grade will be the result.

Students are allowed one voluntary withdrawal from the course SWRK 3150 Field Instruction 1 and one voluntary withdrawal from the course SWRK 4120 Field Instruction 2. If a student withdraws from SWRK 3150 he/she must withdraw from SWRK 4200 and if a student withdraws from SWRK 4120 he/she must withdraw from SWRK 4300. Students, who fail to withdraw from the corequisite course(s), will be withdrawn.

Authorized Withdrawal

Students who are unable to continue in courses for medical or compassionate reasons may apply for an Authorized Withdrawal (AW). Students may request an AW by submitting a written request along with supporting documentation to the Committee on Academic Standings of the Faculty of Social Work.

Registration Revisions

All revisions must be made through Aurora Student.

Students are encouraged to complete any registration revisions (i.e. additions, deletions and section changes) prior to the commencement of classes in either term. If you voluntarily withdraw from a course at any time throughout the registration and revision period that space will be made available to other students.

Changing Sections

Students are required to attend the section of the course in which they are registered. Failure to do so may result in a failing grade being recorded in the course section in which the student is actually registered.

What If the Course I Want to Take Is Full?

Your Student Advisor will not be able to register you in courses which are full unless you present written permission from the instructor.

Physical space issues many times prevent an instructor from increasing class size. In this event, a student may check with Aurora Student at regular intervals to see if a space has been released by other students who have dropped the course.

Social Work Electives

SWRK 4050 Selected Topics in Social Work: Before you are eligible to register for this course as an elective you must obtain written permission from the instructor and forward it to the Student Advisor at least five working days before your access day to register through Aurora Student.

Registration Assistance

If after reading all the instructions, you require assistance with registration, please contact the Student Advisor in your program delivery site for assistance.

Regulation Governing Student Progress

Faculty of Social Work regulations governing student progress are detailed in the Scholastic Progress statement found in the B.S.W. Student Handbook. Handbooks are available for perusal in the Social Work General Office or on the Faculty of Social Work website umanitoba.ca/faculties/social_work.

6.2 Requirements for Graduation

Eligibility for graduation is contingent upon:

The successful completion of 72 credit hours of required Social Work courses; successful completion means attaining a minimum grade of "C" in all Social Work courses and a minimum Subject Grade Point Average of 2.50 (C+).

The successful completion of 51 credit hours of electives. Students admitted after 1997/98, are required to successfully complete three credit hours of written English and three credit hours of Mathematics. The passing grades for electives taken in other faculties or schools are those required by the faculties or schools concerned. A minimum of "C" must be attained in Social Work electives. The minimum Degree Grade Point Average required for graduation is also 2.50 (C+).

Total credit hours required for a B.S.W. are 123 (51 credit hours of electives + 72 credit hours of required Social Work courses). It is the student's responsibility to ensure that all the B.S.W. program requirements are met.

6.3 Field Work Instruction Classes: Starting Dates

Students must request a field placement by completing a field selection form at least 75 calendar days prior to the term that they will commence field. Students requesting a summer field placement must request the field placement at least 40 calendar days prior to summer field start. Students who do not meet the deadline cannot be guaranteed a field placement in that term.

All students registered in Field Instruction courses (SWRK 3150 and SWRK 4120) are required to attend Field orientation on Tuesday, September 8, 2009 and Wednesday, September 9, 2009. As attendance at Field orientation is mandatory, Field students are not required to attend classes on the 8th and 9th. Information regarding Field orientation will be mailed to each Field student in late August. If more information is required, contact the Field Coordinator at (204) 474-8300.

BSW Student orientation will be held on Wednesday, September 9, 2009. It is strongly recommended that all newly admitted BSW students attend this event as important information is provided.

6.4 Field Instruction and Field Focus of Social Work Practice Courses

Second and Third Year Students Registering for Field Instruction and Field Focus of Social Work Practice Courses

First Field Placement – Regular and Part-time Students

Students registering for SWRK 4200 Field Focus of Social Work Practice 1 and SWRK 3150 Field Instruction 1 must add SWRK 4200 Field Focus of Social Work Practice 1 before adding SWRK 3150 Field Instruction 1.

The registration must be done in the following manner:

add SWRK 4200 (T01, or T02, or T03, or T04, etc).

add SWRK 3150 A02

Second Field Placement – Regular and Part-time Students

- Students registering for SWRK 4300 Field Focus of Social Work Practice 2 and SWRK 4120 Field Instruction 2 must add SWRK 4300 Field Focus of Social Work Practice 2 before adding SWRK 4120 Field Instruction 2.
- The registration must be done in the following manner:
add SWRK 4300 (T01, or T02, or T03, or T04, etc).

add SWRK 4120 A02

Concentrated Students

Students registering for their second year of the Concentrated Program (two-year program) must register for one section of SWRK 4200 Field Focus of Social Work Practice 1 and one sections of SWRK 4300 Field Focus of Social Work Practice 2 in addition to SWRK 3150 Field Instruction 1 and SWRK 4120 Field Instruction 2. The registration must be done in the following manner:

add SWRK 4200 (T01, or T02, or T03, or T04, etc).

add SWRK 3150 A01

add SWRK 4300 (T01, or T02, or T03, or T04, etc).

add SWRK 4120 A01

A student cannot register for the same topic of Field Focus of Social Work Practice twice. In other words, each SWRK 4200 and SWRK 4300 course must be on a different topic (ie. SWRK 4200 T02 Aging and SWRK 4300 T09 Mental Health, or SWRK 4200 T10 School Social Work and SWRK 4300 T06 Family Violence).

Students cannot withdraw from Field Focus of Social Work Practice courses (SWRK 4200 and/or SWRK 4300) without withdrawing from Field Instruction courses (SWRK 3150 and/or SWRK 4120). Should a student violate this pre- and corequisite policy, credit(s) for the course(s) will be deleted from the student's academic record.

Field Focus of Social Work Practice Topics and Description

Students are encouraged to register for SWRK 4200 Field Focus of Social Work Practice 1 and SWRK 4300 Field Focus of Social Work Practice 2 that corresponds with their field placement area of practice.

Aboriginal Child and Family Services: This course examines policy and practice with Canada's Aboriginal People in the area of Child & Family Services.

Aging: This course will address issues facing Canada's aging population. It will examine policy, programs and services in community and institutional settings, clinical practice with elderly, their families and groups.

Child and Family Services: An examination of the child welfare social service system from an historical and ecological perspective. Course will provide opportunities to study and analyze social policy, legislation, services, delivery structures and Social Work practice in child welfare.

Criminal Justice and Corrections: This course will examine issues relating to people involved in the criminal justice system. The system will be defined broadly, as to permit consideration of both adult and juvenile offenders (male/female) as well as victims of crime.

Disability/FASD: This course will examine practice and policy issues in the field of disabilities. Historical perspectives and and current trends in policy, practice and research, technological and economic implications will be presented. Issues relevant to persons with visible and invisible disabilities, including FASD, issues across the life-span and issues for families and caregivers will be addressed.

Family Violence: This course will provide knowledge of policy and practice issues related to wife abuse, child abuse and elder abuse. It acknowledges that violence in families occurs in a context and examines the impact of economic conditions, historical factors, values and beliefs, culture and gender.

Health: This course expresses a holistic view of health and well-being and offers opportunities to learn about social activities in situations of ill health and in health care facilities/environments. This course examines current trends and concepts in health, the realities of health Social Work and selected practice issues and challenges.

Immigrants, Refugees & Visible Minorities: This course will explore ethnic, racial and cultural dynamics in Social Work practice. Culture extends beyond ethnic and cultural heritage to include values, beliefs, norms and behaviours determined by gender, class, generation, geography, religion, skin colour, sexual orientation, etc.

Mental Health: This course examines mental health programming and policy and focuses on Social Work practice anchored in mental health settings. Course concentrates on how to work in a team environment.

School Social Work: A course about Social Work practice and social policy in primary and secondary schools. The connection between home-school partnerships and student success is well established, and social work has traditionally played a key role in facilitating home-school connections. However, there is emerging recognition of the critical importance of the school as an integral part of the community, which has created some opportunities to develop new models of integrated health and social services delivery within a public school setting.

Opting Into Field and Practices of the Two-Year Plan

Students may apply for "opt-in" by fulfilling the following conditions:

Consult with and submit written request for "Opt-in" to the Coordinator of Student Services and Admission/Advising Office and Field Coordinator no later than February 1.

Successful completion of all required Social Work courses except for SWRK 4200 Field Focus of Social Work Practice 1, SWRK 4300 Field Focus of Social Work Practice 2, SWRK 3150 Field Instruction 1 and SWRK 4120 Field Instruction 2 and successful completion of all electives (including written English and mathematics requirements) prior to opt-in year.

Achieved a minimum Degree Grade Point Average of 3.00 at point of opting in.

Achieved a minimum Subject Social Work Grade Point Average of 3.00 at point of opting in.

Final approval to opt-in is also based on faculty resources: space availability in SWRK 4210 Feminist Perspectives on Social Work Practice and SWRK 4220 Aboriginal People and Social Work Practice during Summer Session; space availability in SWRK 4200 Field Focus of Social Work Practice 1 and SWRK 4300 Field Focus of Social Work Practice 2 courses in Fall and Winter terms; and the availability of concentrated field placements.

6.5 Distance Delivery Courses

Some Distance Delivery courses are open to Fort Garry Campus and Inner City Social Work program students. The following courses are excluded: SWRK 2080, SWRK 3100, SWRK 3140, SWRK 4200 and SWRK 4300. If any Fort Garry Campus or Inner City Social Work Program students are enrolled in the above mentioned practice courses they will be withdrawn.

6.6 Option in Aging

The interdisciplinary Option in Aging is made available to students registered in Social Work. Students are requested to fill out a form, available from the Faculty of Social Work, 521 Tier Building during the first week of fall classes. The Option requires the following courses:

KIN 2610: Health and Physical Aspects of Aging * (3 credit hours) offered in Fall 2009 term,

Plus

SWRK 2650: The Social Aspects of Aging * (3 credit hours) offered in Winter 2010 term,

Plus

SWRK 4200 Field Focus of Social Work Practice 1: Aging (6 credit hours), or SWRK 4300 Field Focus of Social Work Practice 2: Aging (6 credit hours)

Plus:

One field placement, SWRK 3150 (12 credit hours) or SWRK 4120 (12 credit hours) in the area of Gerontology. Students are encouraged to take additional elective courses from other participating units.

NOTE: *These courses are offered on a rotational basis by participating units.

* Students must obtain and complete a Letter of Permission Form (available in the General Office) signed both by the instructor and the student to be considered as a written permission and submit it to the Student Advisor five days prior to their registration access date.

6.8 Important Information for Special Students and Students Enrolled in Other Faculties/Schools at the University of Manitoba

Special Students

A Special Student in Social Work is one who wishes to take undergraduate Social Work courses with no intention of proceeding to a B.S.W. degree at the present time. In addition, the student is not currently registered at any other University. Information is available from the Faculty of Social Work General Office.

Students seeking admission as a Special Student must meet the following requirements:

- Be limited to completion of nine credit hours of Social Work courses plus SWRK 1310 and SWRK 2080.
- Be prohibited from adding courses in the Faculty of Social Work until August, 2009.
- Have all courses classified as "SS" and this means that courses will not generate a Grade Point Average.

Section 6: Course Descriptions

SWRK 1310 Introduction to Social Welfare Policy Analysis Cr.Hrs.3 (Formerly 047.131) Examination of social welfare policy as the end product of ideologies. Introduction of elements of ideology and the comparison of competing ideological systems. The relationship of economic, political and ethical views of society and their manifestations in societal responses to human need and social services. Students may not hold credit for both SWRK 1310 (or 047.131) and the former 047.130.

SWRK 1311 Introduction à l'analyse de la politique de bien-être social Cr.Hrs.3 Étude de la politique de bien-être social en tant que produit fini d'idéologies. Introduc-

Students Enrolled in Other Faculties/Schools at the University of Manitoba

Students currently enrolled in other faculties/schools at the University of Manitoba may register for Social Work courses provided they have completed a minimum of 30 credit hours of university study and achieved a minimum Cumulative Grade Point Average of 2.50. These students will:

- Be limited to completion of nine credit hours of required Social Work courses plus SWRK 1310 and SWRK 2080.
- Be prohibited from adding courses in the Faculty of Social Work until August, 2009.

Courses available to Special Students and students enrolled in other faculties/schools at the University of Manitoba are:

Required Social Work Courses:

SWRK 1310	Introduction to Social Welfare Policy Analysis
SWRK 2110	Emergence of the Canadian Welfare State
SWRK 2120	Britain: Poor Laws to the Welfare State
SWRK 2130	Comparative Social Welfare Systems
SWRK 3130	Contemporary Canadian Social Welfare
SWRK 2090	Human Behaviour and Social Work Practice
SWRK 2080	Interpersonal Communication Skills
SWRK 3100	Systematic Inquiry in Social Work

Elective Social Work Courses:

SWRK 2050	Community & Organizational Theory
SWRK 2070	Small Group Dynamics
SWRK 2100	Perspectives on the Individual & Life Transitions
SWRK 3110	Perspectives on Deviancy

NOTE:

Special and non-Social Work students are required to abide by the same pre-/corequisite policy that applies to B.S.W. students.

6.9 Social Work 2009/2010 Undergraduate Timetable

The online timetable shows the times and locations for all Social Work undergraduate courses. Students wishing to take courses offered by other faculties and schools should refer to the appropriate chapter of this *Guide*. Students must register in-person for courses not available by web access. See courses offered by other faculties and schools for in-person registration instructions.

After reading the B.S.W. registration guidelines and reviewing your degree plan, make a tentative timetable based on the required courses for which you are eligible and for desired electives.

It is important that you pre-plan and select alternate choices should your first choice be full, so you can go to your next choice while on Aurora Student. The following notations are used in the Social Work undergraduate timetable:

TBA: To be announced.

Example - A time period which occurs, Monday from 1:30 p.m. to 4:30 p.m. is referred to as M 1:30 – 4:20.

NOTE: The Faculty reserves the right to make changes without notice, including cancellations and additions of courses and/or sections. Also, the list of instructors is as complete and firm as possible; however, some changes may be necessary.

If a Social Work course or section you have registered for is subsequently cancelled, the Faculty of Social Work will make every attempt to contact you. You will then choose a course and/or section to replace the cancelled one.

Note:

* Courses may be cancelled due to low enrolment.

tion à quelques éléments de l'idéologie et comparaison des systèmes idéologiques concurrents. Analyse de l'interaction des visions économiques, politiques et ethniques de la société et de leurs manifestations en tant que réponses sociétales aux besoins humains et aux services sociaux. On ne peut se faire créditer le SWRK 1310 (ou 047.131) et (ancien 047.130).

SWRK 1614 Unallocated Credit Cr.Hrs.3 Campus Manitoba course.

SWRK 2050 Community and Organizational Theory Cr.Hrs.3 (Formerly 047.205)

Deals with concepts such as conflict and power which relate social work practice to the nature of secondary human relationships. These are applied to the dynamics within and between communities and organizations.

SWRK 2070 Small Group Dynamics Cr.Hrs.3 (Formerly 047.207) Group norms, values, and goal as they relate to decision-making and communication patterns in groups. Membership roles and leadership styles are related to group development and group functioning.

SWRK 2080 Interpersonal Communication Skills Cr.Hrs.3 (Formerly 047.208) A basic core of interpersonal skills for communicating effectively and for establishing and maintaining relationships in one-to-one and group situations. Emphasis is on experiential learning using a variety of techniques.

SWRK 2081 Habiletés en communication interpersonnelle Cr.Hrs.3 Acquisition d'une gamme essentielle d'habiletés interpersonnelles pour communiquer efficacement et pour établir et maintenir des relations tant dans des situations individuelles que de groupe. Accent sur l'apprentissage expérientiel utilisant une variété de techniques.

SWRK 2090 Human Behaviour and Social Work Practice Cr.Hrs.6 (Formerly 047.209) Students are introduced to a broad range of theories and will develop an understanding of how people and environments reciprocally affect each other. Particular emphasis is placed on understanding how gender, race, ethnicity, socioeconomic factors, age, ability, and sexual orientation contribute to and influence human behaviour throughout the lifespan.

SWRK 2091 Comportement humain et pratique du travail social Cr.Hrs.6 Application d'une théorie générale des systèmes à l'étude de la situation de la personne dans une famille et dans son environnement avec examen subséquent des implications pour la pratique du travail social. Critique de modèles variés du développement humain. Sessions d'information sur des dimensions du comportement qui s'avèrent critiques par rapport à la pratique du travail social.

SWRK 2100 Perspectives on the Individual and Life Transitions Cr.Hrs.3 (Formerly 047.210) This course examines the impact of life course transitions on the psycho-social well-being of individuals. Focuses on crises and problematic issues that arise at turning points and their implications for social work intervention. Prerequisite: first half of SWRK 2090 (or 047.209). Students may not hold credit for both SWRK 2100 (or 047.210) and the former 047.206.

SWRK 2110 Emergence of the Canadian Social Welfare State Cr.Hrs.3 (Formerly 047.211) An examination of the emergence of the Canadian welfare state from its various colonial inheritances to the Canada Assistance Plan. Social, political, economic, religious, geographical, demographic and cataclysmic factors influencing the development of the welfare state are examined and analyzed. Prerequisite: SWRK 1310 (or 047.131). Students may not hold credit for both SWRK 2110 (or 047.211) and the former 047.130.

SWRK 2111 Émergence de l'État-providence canadien de bien-être social Cr.Hrs.3 Examen et comparaison des systèmes de bien-être social de trois sociétés modernes. Analyse des facteurs économiques, politiques, sociaux, religieux, géographiques, démographiques et cataclysmiques influençant les modèles variés de la prestation sociale quant à leur signification par rapport au système canadien de bien-être social. On ne peut se faire créditer le SWRK 2110 (ou 047.211) et (ancien 047.130). Préalable : SWRK 1311

SWRK 2120 Britain: Poor Laws to the Welfare State Cr.Hrs.3 (Formerly 047.212) An examination of the emergence of the British welfare state from its origins in the 14th century. Social, political, economic, religious, demographic and cataclysmic factors influencing the development of parochial and state provision for human needs are examined and analyzed. Prerequisite: SWRK 1310 (or 047.131). Students may not hold credit for both SWRK 2120 (or 047.212) and the former 047.130.

SWRK 2130 Comparative Social Welfare Systems Cr.Hrs.3 (Formerly 047.213) The welfare systems of three modern societies are examined and compared. Economic, political, social, religious, geographical, demographic and cataclysmic factors influencing the development of the various models of social provision are analyzed for their significance to the Canadian welfare system. Prerequisite: SWRK 1310 (or 047.131). Students may not hold credit for both SWRK 2130 (or 047.213) and the former 047.130.

SWRK 2650 The Social Aspects of Aging Cr.Hrs.3 (Formerly 047.265) An examination of the social aspects of aging. Emphasis on understanding the aging process as a life transition involving adaptation through interaction with social and physical environments. Students may not hold credit for REC 2650 (or 123.265) and IDES 2650 (or 051.265) or HMEC 2650 (or 028.265) or SWRK 2650 (or 047.265). (A required Option in Aging course)

SWRK 2651 Aspects sociaux du vieillissement Cr.Hrs.3 Examen des aspects sociaux du vieillissement. Accent sur la compréhension du processus de vieillissement dans toute transition de vie impliquant une adaptation à l'interaction entre l'environnement social et l'environnement physique. On ne peut se faire créditer le SWRK 2651 et le REC 2650 (or 123.265) ou IDES 2650 (or 051.265) ou HMEC 2650 ou REC 2650 (047.265).

SWRK 3100 Systematic Inquiry in Social Work Cr.Hrs.3 (Formerly 047.310) Relates systematic methods of scientific inquiry to social work practice: theory building for practice; information collection; descriptive data for decision-making, understanding technical research material, introduction to issues of research design.

SWRK 3101 L'enquête systématique en travail social Cr.Hrs.3 Lien entre les méthodes systématiques de recherche scientifique et la pratique du travail social, la construction théorique pour la pratique, la collecte d'information et de données descriptives pour le processus décisionnel pour la compréhension des matériaux techniques de la recherche et introduction aux enjeux et aux défis de sdevis de recherche. On ne peut se faire créditer le SWRK 3100 (ancien 047.310)

SWRK 3110 Perspectives on Deviancy Cr.Hrs.3 (Formerly 047.311) Examines hu-

man problems using several analytical models commonly applied in social work practice.

SWRK 3130 Contemporary Canadian Social Welfare Cr.Hrs.3 (Formerly 047.313) An examination of social welfare in Canadian society, leading to an evaluation of present approaches in the light of changing economic and social conditions and changing needs. Prerequisite: SWRK 1310 (or 047.131). Students may not hold credit for both SWRK 3130 (or 047.313) and the former 047.301.

SWRK 3131 L'État canadien contemporain du bien-être social Cr.Hrs.3 Étude du bien-être social dans la société canadienne menant à une évaluation des approches actuelles à la lumière des transformations des conditions économiques et sociales et des besoins mouvants. On ne peut se faire créditer le SWRK 3131 et l'ancien 047.301. Préalable : SWRK 1311.

SWRK 3140 Introduction to Social Work Practice Cr.Hrs.3 (Formerly 047.314) Introduces students to ecological and other generalist based practice frameworks and the role of professional social workers. Course emphasizes values and knowledge in context of a rational approach to problem solving which includes problem definition, assessment, contracting, intervention and evaluation. Pre- or corequisite SWRK 1310 (or 047.131), SWRK 2080 (or 047.208) and SWRK 2090 (or 047.209).

SWRK 3141 Introduction à la pratique du travail social Cr.Hrs.3 Introduction à la perspective écologique ou à d'autres approches généralistes sur lesquelles se fondent les cadres opératoires de la pratique du travail social et le rôle des travailleuses sociales et des travailleurs sociaux professionnels. Accent mis sur les valeurs et les connaissances dans le contexte d'une approche rationnelle de résolution de problème incluant ainsi la définition même du problème, la consultation, le contrat, l'intervention et l'évaluation. On ne peut se faire créditer le SWRK 3140 (ancien 047.314). Préalable ou concomitant : SWRK 1311 ou SWRK 1310 (ou 047.131), SWRK 2081 ou SWRK 2080 (ou 047.208) et SWRK 2091 ou SWRK 2090 (ou 047.209).

SWRK 3150 Field Instruction 1 Cr.Hrs.12 (Formerly 047.315) A first educationally directed field experience in which the student will have the opportunity to assume responsibility for social work engagement, assessment, planning, intervention and evaluation, integrating theory from class. The required hours are calculated as 28 weeks x 2 days per week x 8 hours or 450 hours. This time commitment includes involvement with the agency in planning for, and engaging in, practice activity, and evaluation of performance. It also includes educational contact time with the field instructor in individual and/or group sessions. Subject to satisfactory completion and reports, students will be graded on a pass/fail basis. Prerequisites: SWRK 1310 (or 047.131), SWRK 2080 (or 047.208), SWRK 2090 (or 047.209), and SWRK 3140 (or 047.314). Corequisite: 6 credit hours of SWRK 4200 (or 047.420).

SWRK 3151 Formation à la pratique du terrain Cr.Hrs.12 Première expérience de formation pratique sur le terrain au cours de laquelle l'étudiant ou l'étudiante aura l'occasion d'assumer une responsabilité dans son engagement pour le travail social, la consultation, la planification, l'intervention, l'évaluation et l'application concrète de la théorie apprise en classe. Les heures requises sont calculées sur une base de 28 semaines, 2 jours par semaine, 8 heures par jour pour un total de 450 heures. Ces heures comprennent la participation aux activités de stage et l'évaluation de la performance. Ces heures incluent aussi les réunions et les entrevues formatives avec la personne qui supervise le stage sur une base individuelle ou en groupe de sessions. Préalables : SWRK 1311 ou SWRK 1310, SWRK 2081 ou SWRK 2080, SWRK 2091 ou SWRK 2090 et SWRK 3141 ou SWRK 3140. Concomitant : 6 crédits de SWRK 4201 ou SWRK 4200.

SWRK 4050 Selected Topics in Social Work Cr.Hrs.3 (Formerly 047.405) Directed readings or concentrated study in some aspect of social service which is of interest to the student. Students must contract with an instructor prior to registration. Prerequisite: written consent of instructor.

SWRK 4070 Social Problem and Social Work Practice Seminar Cr.Hrs.3 (Formerly 047.407) In-depth study of the problem area, exploration of the ways other disciplines relate to the problem, and strengthening of interventive abilities of the student. Prerequisite: SWRK 3040 (or 047.304) / SWRK 3120 (or 047.312), SWRK 4200 (or 047.420) / SWRK 3150 (or 047.315) or written consent of instructor.

SWRK 4080 Current Issues in Social Welfare Cr.Hrs.3 (Formerly 047.408) Study of a particular area of social welfare to improve policies and practices. Students may select one seminar from several which are offered. These may vary from year to year.

SWRK 4120 Field Instruction 2 Cr.Hrs.12 (Formerly 047.412) A second educationally directed practice experience building on SWRK 3150 (or 047.315) in which the student will have the opportunity to carry a sustained professional role in situations which require the integration of values, knowledge, and skill at the level of a beginning professional practitioner. The required hours are calculated as 28 weeks x 2 days per week x 8 hours or 450 hours. This time commitment includes involvement with the agency in planning for, and engaging in, practice activity, and evaluation of performance. It also includes educational contact time with the field instructor in individual and/or group sessions. Subject to satisfactory completion and reports, students will be graded on a pass/fail basis. Prerequisites: 6 credit hours of SWRK 4200 (or 047.420), and SWRK 3150 (or 047.315). Corequisite: 6 credit hours. of SWRK 4200 (or 047.420).

SWRK 4130 Advanced Interpersonal Communication Skills Cr.Hrs.3 (Formerly 047.413) An experiential course for self-understanding and self-awareness to produce a disciplined and conscious use of self in professional communication and relationships. Prerequisites: SWRK 2080 (or 047.208) and written consent of instructor.

SWRK 4200 Field Focus of Social Work Practice Cr.Hrs.6 (Formerly 047.420) A seminar for the critical examination of social work theory, values, policy and skills in the context of a field or focus of practice. The course integrates policy with practice at micro, meso and macro levels. Course seminar topics may vary from year to year and are organized to cover various fields or focus of practice. Prerequisite: SWRK 1310 (or 047.131), SWRK 2080 (or 047.208), SWRK 2090 (or 047.209), and SWRK

3140 (or 047.314). Prerequisites: SWRK 1310 (or 047.131), SWRK 2080 (or 047.208), SWRK 2090 (or 047.209), and SWRK 3140 (or 047.314). Corequisite: SWRK 3150 (047.315). Students cannot hold credit for both SWRK 4150 (or 047.415) and SWRK 4200 (or 047.420).

SWRK 4201 Chamos d'intervention et de pratique du travail social Cr.Hrs.6 Séminaire d'enseignements des habiletés requises dans la pratique du travail social soit en contexte de stage ou d'intervention pratique. Insistance sur la pratique en termes de planification des changements (le système client), les politiques et les réseaux d'interrelations (le système services). Les séminaires peuvent varier d'une année à l'autre et sont organisés pour couvrir une variété de terrains ou de cadres d'interventions pratiques. Préalables : SWRK 1311 ou SWRK 1310, SWRK 2081 ou SWRK 2080, SWRK 2091 ou SWRK 2090 et SWRK 3141 ou SWRK 3140. Concomitant : SWRK 3151.

SWRK 4210 Feminist Perspectives on Social Work Practice and Social Welfare Policy Cr.Hrs.6 (Formerly 047.421) An analysis of social work practice and welfare policy from a feminist perspective. Course emphasizes the integration of social work intervention with policy in the social welfare context and overlays concepts such as empowerment, ecological practice, oppression, and practice in context of cultural diversity. Prerequisites: SWRK 1310 (or 047.131), SWRK 2080 (or 047.208), SWRK 2090 (or 047.209), and SWRK 3140 (or 047.314). Students may not hold credit for both SWRK 4210 (or 047.421) and SWRK 4170 (or 047.417) or SWRK 4210 (or 047.421) and SWRK 4190 (or 047.419).

SWRK 4211 Les perspectives féministes de la pratique du travail social et de la politique du bien-être social Cr.Hrs.6 Analyse de la pratique du travail social et de la

politique de bien-être social selon la perspective féministe. Accent mis sur l'imbrication synergique de l'intervention sociale avec les politiques dans le contexte du bien-être social et avec des concepts superposés tels que : potentialisation, pratique écologique, oppression et pratique en contexte de diversité culturelle. On ne peut se faire créditer le SWRK 4211 (ou 047.421) et SWRK 4171 (ou 047.417) ou SWRK 4211 (ou 047.421) et SWRK 4191 (ou 047.419). Préalables : SWRK 1311, SWRK 2081, SWRK 2091 et SWRK 3141.

SWRK 4220 Aboriginal People and Social Work Practice Cr.Hrs.6 (Formerly 047.422) An analysis of social work practice and welfare policy from an aboriginal perspective. The course emphasizes the linkage between practice and policy and overlays concepts such as colonization, decolonization, and approaches to practices which include cross culture, structure, and anti-oppression in the context of Aboriginal world views, experience and helping practices. Prerequisites: SWRK 1310 (or 047.131), SWRK 2080 (or 047.208), SWRK 2090 (or 047.209), and SWRK 3140 (or 047.314). Students may not hold credit for both SWRK 4220 (or 047.422) and SWRK 4160 (or 047.416) or SWRK 4220 (or 047.422) and SWRK 4180 (or 047.418).

SWRK 4300 Field Focus of Social Work Practice 2 Cr.Hrs.6 A seminar for the critical examination of social work theory, values, policy and skills in the context of a field or focus of practice. The course integrates policy with practice at micro, meso and macro levels. Course seminar topics may vary from year to year and are organized to cover various fields or focus of practice. For students admitted after 1993-1994. Prerequisite: SWRK 4200 (Or 047.420), SWRK 3150 (or 047.315). Corequisite: SWRK 4120.
