Important Notice

The University of Manitoba reserves the right to make changes in the information contained in the *Undergraduate Calendar* and the *Graduate Calendar* without prior notice. The University of Manitoba web site, umanitoba.ca is a source for updated information.

Not every course listed in the *Undergraduate Calendar* or the *Graduate Calendar* will be offered in this academic year.

It is the responsibility of all students

! To familiarize themselves each year with the university's academic regulations and policy in general;

! To familiarize themselves with the regulations and policies applying specifically to their faculty, school, or program;

! To familiarize themselves with the specific graduation requirements of the degree, diploma, or certificate they are seeking; and

! To ensure that the courses they have selected are appropriate to their programs.

In the event of an inconsistency between the general academic regulations and policies published in the *Undergraduate Calendar* and the *Graduate Calendar*, and such regulations and policies established by Senate and the councils of the faculties and schools, the version established by Senate and the councils of the faculties and schools shall prevail.

The regulations and policies contained in this year's editions of the *Undergraduate Calendar* and the *Graduate Calendar* apply, subject to change, only for the academic year indicated on the cover page of each publication.

The material in the current editions of the *Undergraduate Calendar* and the *Graduate Calendar* was submitted by the academic and administrative units concerned. The university neither represents nor warrants that all general information and course references used in these publications is accurate although reasonable efforts have been used to check the accuracy of the information.

Students also agree by the act of registration to be bound by the regulations, policies, and bylaws of the University of Manitoba that are in effect at the time of registration, including any amendments which may be enacted during the period of their registration. Students agree by the act of registration to be bound by the regulations, policies, and bylaws of the faculty or program in which they have registered, including any amendments which may be made during the period of their registration. Students also acknowledge that such amendments may have retroactive application.

No liability shall be incurred by the University of Manitoba for any loss or damage suffered or incurred by any student, or any party claiming through or under any student, as a result of delays in, or termination of, services, courses or classes by acts of God, fires, floods, riots, wars, strikes or lock-outs, damage to university property, financial exigency, or any occurrence beyond the reasonable control of the university. Further, the University of Manitoba shall not be liable for any losses or damage suffered by a student who discloses his/her personal identification number (PIN) to anyone other than a university employee in the course of registration.

The Freedom of Information and Protection of Privacy Act (FIPPA)

Personal information is collected under the authority of *The University of Manitoba Act*. It is used for the purposes of admission, registration, provision of education to the student including assessment of academic status, and communication with the student. It may be used for administrative research in support of provision of education and general administration of the University. It may be disclosed to other educational institutions, government departments, and co-sponsoring organizations, and, for those students who are members of UMSU, it will be disclosed to the University of Manitoba Students' Union. Upon graduation, the student's name and address, together with information on degrees, diplomas, and certificates earned, will be given to and maintained by the alumni records department in order to assist the University's advancement and development efforts. Information on graduation and awards may be made public. Personal information will not be used or disclosed for other purposes, unless permitted by *The Freedom of Information and Protection of Privacy Act*. Personal information is protected under the Protection of Privacy provisions of *The Freedom of Information and Protection of Privacy Act*. If you have any questions about the collection of your personal information, contact the Access & Privacy Office (204-474-9462 or 204-474-8339), 230 Elizabeth Dafoe Library, University of Manitoba, Winnipeg, Manitoba, Canada, R3T 2N2.

Disclosure of Personal Information to Statistics Canada

Statistics Canada is the national statistical agency. As such, Statistics Canada carries out hundreds of surveys each year on a wide range of matters, including education.

It is essential to follow students across time and institutions to understand, for example, the factors affecting enrolment demand at post-secondary institutions. The increased emphasis on accountability for public investment means that it is also important to understand 'outcomes'. In order to carry out such studies, Statistics Canada asks all colleges and universities to provide data on students and graduates. Institutions collect and provide to Statistics Canada student identification information (student's name, student ID number, Social Insurance Number), student contact information (address and telephone number), student demographic characteristics, enrolment information, previous education, and labour force activity.

Under the Federal *Privacy Act*, individuals can request access to their own, individual information held in federal information banks, including those held by Statistics Canada.

The Federal *Statistics Act* provides the legal authority for Statistics Canada to obtain access to personal information held by educational institutions. The information may be used only for statistical purposes, and the confidentiality provisions of the *Statistics Act* prevent the information from being released in any way that would identify the student.

Students who do not wish to have their information used are able to ask Statistics Canada to remove their identifying information from the national database.

Further information on the use of this information can be obtained from Statistics Canada's web site: <http://www.statcan.ca> or by writing to the Post-Secondary Section, Centre for Education Statistics, 17th Floor, R.H. Coats Building, Tunney's Pasture, Ottawa, Canada, K1A 0T6.

The University of Manitoba

As Manitoba's largest post-secondary institution, the only one that is research-intensive, and the only one that offers medical and doctoral degrees, the University of Manitoba plays an unrivaled role in contributing to the vitality of this province. It educates the majority of the province's professionals – whether they be nurses, architects, lawyers, pharmacists, teachers, engineers, dentists, or doctors. It also educates most of the province's community, political and business leaders.

More than 27,000 students, and 6,700 teaching and support staff combine to make the University of Manitoba a vibrant community committed to teaching, learning, and the search for new knowledge.

The location of the Fort Garry campus, nestled inside a loop of the Red River, is as unique a setting as that of any university in Canada. This campus is the location of most of the university's faculties and schools. There is also the Bannatyne Campus, adjacent to the Health Sciences Centre in central Winnipeg, where the faculties of Dentistry and Medicine are located. Other places where the University of Manitoba is visible include the Winnipeg Education Centre, the location for social work education for inner city residents; agricultural research farms at Glenlea and Carman; field stations at Delta Marsh on Lake Manitoba, Star Lake in the Whiteshell, and Wallace Lake in eastern Manitoba. In addition, a number of distance education programs provide a province-wide presence for the university throughout Manitoba.

The University of Manitoba is a coeducational, nondenominational, government-supported institution. It is a member of the Association of Commonwealth Universities and of the Association of Universities and Colleges of Canada.

The University of Manitoba was established in 1877 to confer degrees on students graduating from its three founding colleges: St. Boniface College, St. John's College, and Manitoba College. It was the first university to be established in western Canada.

In 1900 the Manitoba legislature amended the University of Manitoba Act so that it could begin teaching in its own right. In 1904 a building in downtown Winnipeg became the first teaching facility with a staff of six professors, all scientists. The U of M moved to its present permanent location in Fort Garry following the transfer of the Manitoba Agricultural College to the university.

In its early years the University of Manitoba expanded through the addition of colleges to its corporate and associative body. In 1882 the Manitoba Medical College, originally founded by physicians and surgeons in the province, became a part of the university. Other affiliations followed: the Methodist church's Wesley College joined in 1888; the Manitoba College of Pharmacy in 1902; the Manitoba Agricultural College in 1906; St. Paul's College in 1931; and Brandon College in 1938. St. Andrew's College, initially an associated college in 1964, became an affiliated college in 1981.

In 1967 two of the colleges of the University of Manitoba were given university status by the provincial government. United College, which was formed by the merging of Wesley College and Manitoba College, became the University of Winnipeg, and Brandon College became Brandon University.

St. Boniface College, now called Collège universitaire de Saint-Boniface, and St. John's College, two of the original founding colleges, are still part of the University of Manitoba.

St. Boniface, a Roman Catholic institution which traces its beginnings to 1818 and the earliest days of the Red River settlement, is the university's only French-speaking college.

St. John's College, which dates to 1820 and founded by the Anglican church, is situated on the Fort Garry campus and is committed to fostering a sense of community and belonging among its faculty, students and staff.

St. Paul's College was founded in 1926 by the Archdiocese of Winnipeg and became part of the University of Manitoba in 1931. In 1933 the Jesuit order assumed responsibility for the college and organized the college's academic program in accordance with its internationally recognized educational principles. The college moved into its Fort Garry Campus premises in 1958.

St. Andrew's College was established in 1946 by the Ukrainian Orthodox Church of Canada and moved to the Fort Garry Campus in 1964. It offers programs in Ukrainian Canadian heritage studies and, in addition, prepares candidates for the ordained ministry and lay leadership in the Ukrainian Orthodox church and other Orthodox churches.

The Mission and Vision of the University of Manitoba

Universities serve society by contributing to: the development of an educated and enlightened population, capable of informed judgment and responsible citizenship; the availability of persons who have the knowledge, skills and adaptability required by public and private enterprise, or by individuals seeking professional service; and the advancement of knowledge, skill and human creativity. It is within this context that the University of Manitoba has articulated the following statement concerning its mission, goals, distinctive role and accountability.

Mission

The mission of the University of Manitoba is to create, preserve and communicate knowledge and, thereby, contribute to the cultural, social and economic well-being of the people of Manitoba, Canada and the world.

Goals

In fulfilling its mission, the University of Manitoba seeks to:

- Provide the highest possible quality of undergraduate and graduate university teaching in the humanities, social sciences, natural and applied sciences, the fine and performing arts and the professions;
- Enhance student success by fostering an environment conducive to intellectual and personal growth;
- Conduct original scholarship and basic and applied research, and produce creative works of highest quality as judged by international standards;
- Serve the community directly by making its expertise available to individuals and institutions, and by providing as much access to the university's intellectual, cultural, artistic and physical resources as its primary teaching and research responsibilities permit;
- Preserve and protect academic freedom and intellectual independence, and provide a forum for critical inquiry and debate; and,
- Promote equity in access and employment and in the conduct of the university's affairs.

Role

The University of Manitoba as the largest and most comprehensive institution of higher learning in Manitoba plays a distinctive role within the province. In addition to offering undergraduate liberal education in arts, science and education, the University of Manitoba provides programs in a broad range of professional studies, applied sciences and fine and performing arts and is responsible for the vast majority of graduate education and research in Manitoba. The University of Manitoba serves all parts of the province, including inner city and suburban areas, rural and northern regions and attracts students from all population groups and from all walks of life.

It manages and delivers a comprehensive array of both degree and non-degree credit courses not only on its campuses but also by correspondence and other distance education modalities both throughout the province and beyond the province, thereby significantly increasing accessibility to university education.

The University of Manitoba is also distinctive among post-secondary institutions in the province by virtue of the multi-disciplinary activity within the university and through its participation in multi-institutional consortia and networks. It seeks to advance its traditional role in teaching and learning, research and community service through the establishment of new linkages with business, industry, arts organizations, social agencies, non-profit organizations and governments designed to contribute directly to the economic life of Manitobans and to provide lifelong learning opportunities for them. Through residential educational programs for seniors, Mini-Univers-

sity for youngsters, the summer ballet school, the music preparatory program, public lectures, concerts, recitals, theatrical productions, art exhibits, library and archival services, athletic and recreational programs and in many other ways, the university seeks to reinforce its role as an important part of the culture and heritage of Manitoba.

The university is an active contributor to national and international development by conducting educational programs and research under contract. It also contributes to international development through the opportunities provided to students and visiting scholars from other countries to study at the University of Manitoba. Recognizing that many of the intellectual and practical challenges facing society require an integrated disciplinary approach, the university has established a variety of centres, institutes and specialized research groups designed to tackle important problems in a number of areas.

Accountability

In recognition of its mission, goals and role, the University of Manitoba is accountable for:

- Facilitating access to its programs for as many students as meet its admission requirements and as can be accommodated and effectively educated within the available resources;
- Providing programs that meet accepted and appropriate standards for admission, evaluation and graduation of students and for curriculum content and teaching effectiveness;
- Facilitating research, scholarship and creative works that are of high quality as judged by international standards;
- Providing an exemplary environment for work and study with particular attention to policies and procedures designed to foster equity; and,
- Exhibiting responsible management of physical and human resources.

Vision

The following vision statement was articulated in Building on Strengths, the report of the Task Force on strategic planning in 1998:

We believe that the University of Manitoba will be a leader among Canadian universities as it becomes known for meeting challenges while it advances knowledge and understanding. We will not only be the oldest of western Canada's universities we will also be among the best of Canada's universities. We will be respected for our knowledge of the world and for our understanding of the complexities of our Prairie region in its cultural, socioeconomic and scientific dimensions, which we will articulate according to international standards of science and scholarship. We will be recognized for our centrality in the development of Manitoba's knowledge-based society in a knowledge-based global economy.

We will attain our vision by:

- Providing outstanding education in undergraduate and selected professional and graduate areas;
- Producing research, scholarship and creative work that is recognized internationally, nationally, and locally;
- Providing an equitable environment focused on learning; and
- Enhancing a strong tradition of community and professional service.

SECTION 1: Welcome

You are joining a vibrant community of nearly 27,000 students and over 5,000 academic and support staff members that emphasizes excellence in teaching, learning, and research.

The University of Manitoba is a community of people who study, teach, conduct research, and create music and art, and whose ideas and accomplishments have an impact on our society and culture both here in Manitoba and in the wider world.

The University of Manitoba is the province's largest university and the first to be established in western Canada. In 2009 The University of Manitoba celebrates its 132nd birthday.

The majority of new University of Manitoba students will enter University 1, an innovative program that was specially designed to provide choice and flexibility. University 1 gives you the opportunity to begin your university studies with a year of personal and academic exploration. Advisors are available to provide academic advice and assistance. During the University 1 Orientation that begins your first academic year, you will be introduced to the wide range of campus support services that can help you with all aspects of student life.

If you are joining the University of Manitoba after completing some college or university courses at another institution, you are equally welcome as you continue your studies.

This book, the *Undergraduate Calendar and Registration Guide*, provides the basic information you require to apply, register, and complete your programs. More specific information on admission requirements and the application process can be found in the applications themselves and their accompanying guides and/or bulletins. These can be downloaded from our website at umanitoba.ca/admissions. In addition, there are advisors in the general offices of all academic units who are ready to answer your questions and to help you understand policies and regulations that affect you.

Again, welcome to the University of Manitoba. You are joining a large community of students and scholars, and when you graduate you will be joining an even larger community of graduates.

SECTION 2: An Overview of Undergraduate Admission

Students are admitted to the University of Manitoba on the basis of high school standing or on the basis of previous studies at other universities or colleges. Applicants who do not meet the normal academic requirements of the University of Manitoba may qualify for admission with mature student status. Students may also apply as Special, Visiting, or Auditing students. (See Section 5, Other Admission Categories.)

Most students applying to the University of Manitoba on the basis of high school standing will be admitted to University 1, a first year program designed to provide a foundation for studies in Arts, Science, and the professional disciplines. Exceptions to the University 1 pathway exist for applicants to the Faculty of Engineering, the diploma program of the Faculty of Agricultural and Food Science, the School of Art (Studio programs), the Marcel A. Desautels Faculty of Music and General Studies (Extended Education).

Mature status students who meet the criteria outlined in Section 5.1 and who plan to complete degree programs at the University of Manitoba will be admitted to University 1.

Students who have completed 24 credit hours or more of university level courses in University 1, or at other institutions, and students who have completed at least one year at recognized community or technical colleges, may apply directly to the faculty or school of their choice.

Students who have completed less than 24 credit hours of course work at another institution will normally apply for admission to University 1 based on high school standing.

Enrolment Limitations

Most faculties and schools in the University of Manitoba have enrolment limitations, and a process of selection is applied by the university. The main criterion for admission is the scholastic achievement of the student. In instances such as the Marcel A. Desautels Faculty of Music and the School of Art, additional criteria designed to assess the student's suitability for education are applied. These criteria are summarized in the chapters of this *Calendar* of each faculty and school, and are described in detail in applicant information bulletins available from the Admissions Office.

In some programs the number of students applying for admission greatly exceeds the number which the university is able to admit. Selection, therefore, is based upon scholastic achievement and suitability for the discipline. In some faculties and schools first consideration is given to residents of Manitoba who are Canadian Citizens or Permanent Residents. A limited number of places may be assigned to Canadian Citizens or Permanent Residents who are resident outside Manitoba or to those who are not Canadian Citizens/Permanent Residents. The William and Catherine Booth College (approved teaching centre) and Collège universitaire de Saint-Boniface (an affiliated college) are not limited in their enrolment, and interested students are directed to those colleges for information.

SECTION 3: Admission from High School

All candidates for admission must meet both the general entrance requirements of the University of Manitoba and the specific subject and performance requirements of University 1 or the faculty/school of their choice.

For information about admission to University 1, or to a specific faculty or school, refer to its chapter in this *Calendar*.

3.1 General Entrance Requirements for Manitoba High School Students Effective for 2009-2010

To meet the General Entrance Requirements of the University, candidates must present Manitoba high school graduation, with five full credits at the Grade 12 level, in courses designated S (Specialized), G (General), or U (Dual Credit – University), and with a minimum of three of these credits in S or U courses.

Certificates usually accepted as equivalent to Manitoba high school graduation are listed in Section 3.2.

Candidates must also meet **Specific Subject and Performance Requirements** as set out by the faculty or school to which they are seeking admission. These specific subject and performance requirements may be found in the chapter for each faculty and school in this *Calendar*.

Average for Selection

Manitoba and northwest Ontario (Thunder Bay and west) high school students will be selected on the basis of an average calculated on three courses specified by each faculty or school. Although the remaining courses offered will not be used in the computation of the average, each must bear at least a passing grade. Applicants presenting high school records from other provinces or countries will be selected on the basis of an average calculated from the complete record in their graduating year, or as specified under the following section, 'Certificates Equivalent to Manitoba High School Standing'.

3.2 Certificates Equivalent to Manitoba High School Standing

Applications on the basis of certificates from outside the province of Manitoba will be considered on their merits. In general, students must meet:

- The minimum requirements for admission to the university in their own locality; and
- The academic requirements of the faculty or school to which they are seeking admission at the University of Manitoba.

The following certificates are usually accepted as equivalent to Manitoba high school standing and will, therefore, meet the university's general entrance requirements for students from that region. Students must also meet any specific subject requirements of the faculty or school of application.

3.2.1 Other Provinces and Territories in Canada

Alberta: High school graduation with a minimum overall average of 60 percent on five acceptable Grade 12 credits.

British Columbia: High school graduation with a minimum average of 60 percent or better over four acceptable Grade 12 credits.

New Brunswick: High school graduation with a minimum average of 60 percent over six acceptable Grade 12 credits.

Newfoundland: High school graduation with a minimum average of 60 percent over ten acceptable Grade 12 credits.

Northwest Territories: High school graduation with a minimum average of 60 percent over five acceptable Grade 12 credits.

Nova Scotia: High school graduation with a minimum average of 60 percent over five acceptable Grade 12 credits.

Nunavut: High school graduation with a minimum average of 60 percent over five acceptable Grade 12 credits.

Ontario: High school graduation with a minimum average of 60 percent over six Grade 12 U or M courses.

Prince Edward Island: High school graduation with a minimum average of 60 percent in a university entrance program.

Quebec: First-year CEGEP with satisfactory standing (normally a GPA of 2.0 or better or 65 percent or better).

Saskatchewan: High school graduation with a minimum average of 65 percent on seven acceptable Grade 12 credits.

Yukon Territory: High school graduation with a minimum average of 60 percent or better over four acceptable Grade 12 credits.

3.2.2 International Baccalaureate

Three courses at the Higher Level and three courses at the Standard Level, with a minimum score in each subject of four and an overall minimum score of 24. Credit may be granted for selected Higher and/or Standard Level courses with minimum scores of four in specific subject areas; see section 3.3 Advanced Standing for High School Students.

3.2.3 Countries and Regions outside Canada

The academic qualifications acceptable for admission to a direct entry faculty such as University 1 are listed below:

British-patterned education: (United Kingdom and most Commonwealth countries except as noted separately below) General Certificate of Education, with two subjects at Advanced Level and three at Ordinary Level, or three subjects at Advanced Level and one at the Ordinary Level, with a C overall average; no subject accepted below a D grade. Acceptable alternative: U.K. Higher National Diploma or Certificate.

French-patterned education: (Algeria, Cote d'Ivoire, Cambodia, France, French Guinea, Haiti, Laos, Morocco) Diplôme de Bachelier de l'Enseignement du Second Degré (Baccalaureate Parts I and II)

Latin America: (Costa Rica, Guatemala, Honduras, Nicaragua, Peru, Venezuela: all others see individual listings below) first year at a recognized university in the same country

Middle East: (Bahrain, Iran, Iraq, Jordan, Kuwait, Libya, Oman, Qatar, Saudi Arabia, Syria, Sudan, United Arab Emirates, Yemen): all others see individual listing below: national secondary school certificate

Russian-patterned education: (Armenia, Azerbaijan, Belarus, Kazakhstan, Kyrgyzstan, Russia, Tajikistan, Turkmenistan, Uzbekistan) Maturity Certificate

Yugoslavian-patterned education: (Bosnia-Herzegovina, Croatia, Macedonia, Serbia, Slovenia, Yugoslavia) Matura/Secondary School Leaving Diploma

International Baccalaureate: three courses at the Higher Level and three courses at the Standard Level with a minimum score in each subject of four and an overall minimum score of 24. Advanced credit may be granted for selected Higher and Standard Level courses with minimum scores of four in specific subject areas.

Argentina: Bachillerato or Bachillerato Especializada with a minimum 6 average or the examination Ciclo Basico Comun with a 5 average

Australia: matriculation as defined by the home state university

Bangladesh: Higher Secondary Certificate (HSC) in at least the second division

Brazil: Certificado de Conclusão de Grau or a Diploma de Técnico de Nível Médio with a minimum 6.5 average or the examination Concurso Vestibular with a minimum 5 average

China: Senior Middle School Diploma

Czech Republic: Maturitní Zkouška (Maturita)

El Salvador: Bachillerato in the academic specializations only with a minimum 6.5

Ethiopia: first year standing at a recognized university in the same country

Germany: Reifezeugnis

Greece: Apolytirion

Hong Kong: General Certificate of Education as described above (see British-patterned education) or the University of Hong Kong Matriculation Certificate assessed as the G.C.E.

India: second division or higher in one of: All-Indian Senior School Certificate, Higher Secondary Certificate (Pre-Degree, Pre-Professional or Pre-University), Intermediate Certificate, Higher Secondary Certificate Part 2

Indonesia: Sekolah Menengah Uman (S.M.U.)

Ireland: (Republic of) Leaving Certificate

Israel: Bagrut Certificate

Italy: Maturita Classica Diploma or Maturita Scientifica Diploma

Japan: Upper Secondary School Diploma

Kenya: Kenya Certificate of Secondary Education (KCSE)

Malaysia: Sijil Tinggi Persekolahan Malaysia (STPM) or MICSS Unified Examination Certificate (UEC)

Mexico: Bachillerato certificate with a minimum 7.0 average

Nigeria: Senior School Certificate with a maximum 5.0 average

Pakistan: Higher Secondary School Certificate (HSC) in at least the second division

Philippines: second year standing at a recognized institution of higher learning

Poland: Maturity/Swiadectwo Dojrzalosci Certificate

Portugal: first year standing at a recognized university in the same country

Singapore: Government Higher School Certificate (Chinese) with two subjects at the Principal Level and three subjects at the Subsidiary Level

Slovak Republic: Maturity Certificate (Maturitnej Skuske)

Somalia: First year university standing

South Korea: Academic Upper Secondary School Certificate (Immungye Kodung Hakkyo Choeupchang)

South Africa: Matriculation Certificate of the Joint Matriculation Board in the first or second class with a minimum standing of C or one of the following certificates in the first or second class providing that exemption from the Matriculation Examination of the Joint Matriculation Examination of the Joint Matriculation Board has been granted: Cape Senior Certificate of the Department of Public Education, Natal Senior Certificate of the Department of Education, Orange Free State School Leaving Certificate of the Department of Education

Spain: Titulo de Bachillerato or University Orientation Year

Taiwan: Senior High School Leaving Certificate

Thailand: Mathayom /Maw 6

Ukraine: Atestat pro Povnu Zagalnu Sersdniu Osvitu (Grade 12)

United States of America (and Puerto Rico): complete Grade 12 with a minimum average of C or better on a minimum of five academic Grade 12 subjects

Not Acceptable: The following qualifications by themselves are not acceptable as a basis of admission: GCE (O) levels only; West African School Certificate; Hong Kong Certificate of Education; Ordinary Diploma and Technician Diploma; Malaysian Technical Diploma; U.K. City and Guilds Certificate; U.K. College of Preceptors Licentiate; U.K. Ordinary National Certificate or Diploma; West Indies CXC.

Admission requirements for applicants from countries not included above can be obtained from the Admissions Office.

Graduates from international schools overseas will be considered for admission only if they are eligible for admission to a major university of their country of citizenship; or they have successfully completed an internationally examined curriculum such as the GCE or IB diploma, or they have successfully completed the formal graduation requirements of a Canadian provincial ministry of education in an approved institution. (See above for minimum requirements.)

3.3 Advanced Standing for High School Students

Students who have completed courses in the *Advanced Placement* program (selected Advanced Placement College Board examinations with a minimum score of four in specific areas) or the *International Baccalaureate* program (selected Higher and Standard Level courses with minimum scores of 4 in specific subject areas), or who have completed university level courses while in high school (including Challenge for Credit), may apply for transfer of credit to the program they are entering. Students should consult the Admissions Office for information.

Students admitted on the basis of high school graduation may be denied transfer of credit for any university studies completed between the filing of the application and subsequent registration at the University of Manitoba.

SECTION 4: Applicants with Prior University/College Study

4.1 Faculty and School Requirements and Performance Levels

Each faculty and school has its own admission requirements. With a few exceptions, the first year of most faculty and school programs will be completed in University 1. The introductory section of each faculty or school chapter provides information on the minimum courses required for admission, as well as prescribing a "focused approach" for degree completion in the shortest possible time.

Following University 1 (or the equivalent from another program or at another university or college), students seek admission to a faculty or school program.

The minimum performance requirement for entry to a post-University 1 level program at any faculty or school at the University of Manitoba is a cumulative grade point average (CGPA) of 2.0 (C). Students who do not meet this requirement may be considered for admission if they have achieved a minimum grade point average (GPA) of 2.0 (C) on all courses acceptable for credit in the faculty or school to which application is made. In this case, students must have at least 24 credit hours acceptable for credit. In addition to this university minimum performance requirement, students must meet any additional entrance requirements, performance levels, and selection criteria stipulated for the faculty or school of application.

Students are advised that selection processes are competitive and in many cases applicants must present adjusted grade point averages greater than the minimum level stated. Applicants who satisfy the minimum requirements are also advised that while they are eligible for consideration, selection will be based on the program specific criteria. Additional specific information regarding the selection process is available from the general offices of all faculties or schools, or from the Admissions Office.

4.2 Readmission, Continuing and Returning Students

All students who were admitted and who did not follow through with registration must apply to the Admissions Office for re-admission.

Students who voluntarily withdraw from their first-year of studies must re-apply for admission. The only exceptions are students in Agricultural and Food Science, Arts, Human Ecology, Social Work, and University 1 who are permitted to reregister without reapplying for admission.

Former students who have attended other institutions since their last registration at the University of Manitoba must apply to the Admissions Office, for re-admission, unless the other institution was attended on a letter of permission.

Students whose past registration was in the following faculties, but who have not been in attendance for one or more years, should seek formal permission to re-register from the office of the dean or director of the faculty or school concerned, to ensure that work previously completed complies with current program requirements: Agricultural and Food Sciences; Arts; General Studies (Extended Education); Engineering; Clayton H. Riddell Faculty of Environment, Earth, and Resources; Human Ecology; Science; Social Work; or University 1.

All students who were admitted to the Asper School of Business, Dental Hygiene, Education, Environmental Design, School of Art, Nursing, Music, or Kinesiology & Recreation Management, where there is limited enrolment, and who have not been in attendance for one year or more, must make formal application to re-register to the office of the dean or director before June 1. Their acceptance back into the program will be subject to quota restrictions and compliance with existing program requirements.

Students who wish to change to a different faculty or school, or who are no longer eligible to continue in one program of studies at the University of Manitoba, may apply for admission to another faculty or school by the deadline date indicated in the academic schedule, and must meet the entrance requirements of the faculty of choice (see Section 4.1).

Students wishing to return to their program of studies after serving a period of academic or disciplinary suspension, must make a formal request for re-registration to the Dean's or Director's office of their faculty or school. Students who attend another post-secondary institution or another faculty or school at the university after being placed on suspension, must submit an application through the Admissions Office to be considered for readmission to the faculty or school of suspension.

Graduates who wish to take further courses in their own faculty, but not towards a degree, must apply for readmission as a "special student."

4.3 Transit to Arts or Science from University 1

University 1 students in good academic standing (see the University 1 section of this *Calendar*) intending to transit to the Faculty of Arts or Science may do so prior to their next regular term of registration subject to the following conditions:

- Students in good academic standing who have completed at least 24 credit hours may choose to transit to the Faculty of Arts or Science.
- Students in good academic standing who have completed 30 credit hours or more in University 1 must choose to transit to Arts or Science, if not admitted to another faculty or school, prior to the next regular term of registration. Students will not normally transit for Summer Session.
- Students whose last assessment in University 1 was On Probation may be considered for entry to the Faculty of Arts or the Faculty of Science if a minimum GPA of 2.0 has been achieved on all courses acceptable for credit in the Faculty they intend to enter. In this case, students must have at least 24 credit hours acceptable for credit. Students requesting entry in this category must contact the Faculty of Arts or Science for further information.
- Students who are currently on academic suspension from University 1 will not be eligible for transit to Arts or Science until the period of suspension has been completed.
- Upon transit to the Faculty of Arts or Science, a student's next assessment of academic performance will be according to the standards required in Arts and Science. See the chapters for the Faculties of Arts or Science in this *Calendar* for further details.

4.4 Applying to All Other Faculties or Schools from University 1 or Another Program

All applicants seeking admission to professional or selective faculties or schools where enrolment is limited must obtain the applicant information bulletin for that program from the Admissions Office before completing their application. The faculty or school bulletin is the only document

which describes all the specific prerequisites for eligibility and selection that exist beyond the University's minimum performance requirement as noted in Section 4.1 above.

Students currently on suspension from a faculty or school at the University of Manitoba will not normally be eligible for consideration for admission to another faculty or school.

4.5 Students Applying from Other Post-Secondary Institutions

Including community colleges, technical colleges, Bible colleges* and other accredited college study.

- a. Applicants who have completed less than 24 credit hours of course work and who do not meet either the general university entrance requirements or mature student status will not be considered for admission.
- b. Applicants who have completed at least 24 credit hours of course work will be considered for admission and transfer credit.
- c. Applicants who have completed less than 24 credit hours of course work but who meet either the general university entrance requirements or mature student status will be considered for admission and transfer credit for Direct Entry programs: University 1; Engineering; Music; Fine Arts (Studio); Agriculture Diploma; and General Studies (Extended Education).
- d. Transfer credit for each individual course will be evaluated by the appropriate University of Manitoba department and transfer credit will be granted subject to program applicability.

Students who are currently on suspension at another post-secondary institution will not normally be considered for admission to the University of Manitoba.

*Students who have attended a Bible college will be considered for admission/transfer credit, providing that:

- The Canadian Bible college is a member institution of the Association of Universities and Colleges of Canada (AUCC) or is affiliated with an AUCC member institution (other than as an approved teaching centre), or is accredited by the Association for Biblical Higher Education (ABHE).
- The U.S. Bible college holds regional accreditation in the U.S., or is accredited by ABHE.

Degrees from Bible Colleges will not qualify students for admission to second degree or after degree programs.

4.6 Advanced Standing for Transfer Students

Advanced standing may be granted in compliance with the residence requirements, provided the work completed is part of the requirements of the degree program in which the student wishes to enrol. Some faculties and schools may consider only courses completed within ten (or fewer) years. Credit will be granted only for courses taken at a recognized institution. Standing cannot be determined until official transcripts and complete course descriptions have been received. Since it takes considerable time to have courses evaluated for transfer credit, students are urged to submit their results and course descriptions as early as possible in order that the evaluation process can be completed in time for registration. Students who do not have evaluations completed prior to registration should consult their faculty or school for guidance in selecting courses.

Further information on transfer of credit and residence requirement is found in the chapter, General Academic Regulations and Requirements.

Some faculties and schools may have limitations on possible credit taken beyond a specified period, this information is described in their chapters or in the applicant information bulletin.

4.7 Graduates of Diploma Schools of Nursing (R.N.)

Graduates of diploma schools of nursing may be considered admissible as regular students to the University of Manitoba. Admission to specific faculties and schools will be with the consent of the dean or director and will be conditional upon the presence of specific subject fields within the program completed. Applicants in this category may be granted advance standing not exceeding the residency policy of the faculty concerned (grades of "C+" or equivalent in individual courses have the potential for credit in a degree program).

4.8 Graduates of Diploma Schools of Psychiatric Nursing (R.P.N.)

Diploma programs in Manitoba may receive credit transfer for professional work completed.

4.9 Canadian Coast Guard College

Graduates of the Canadian Coast Guard College diploma programs with a minimum 2.5 ("C+") average will be considered for admission as regular students to the University of Manitoba, and may be granted up to one year of advance standing, as appropriate to faculties and schools.

4.10 Graduates of Extended Education Certificate Programs

Graduates of certificate programs offered under the auspices of the Extended Education Division of the University of Manitoba which require a minimum of 180 contact hours, may be eligible to receive credit towards an undergraduate degree providing they have been admitted to a faculty or school in which transfer of credit is appropriate. A minimum overall average of 2.5 or better must have been achieved to qualify for consideration. The maximum amount of credit which may be transferred will be determined by Extended Education in consultation with the relevant faculty or school.

SECTION 5: Other Admission Categories

5.1 Mature Student Status

Mature student status is granted to one who:

- Does not meet the normal entrance requirements;
- Is at least 21 years of age (before May 1 for admission to classes beginning in May ; before July 1 for classes beginning in July; before September 30 for the Fall term; and before January 31 for the Winter term, and,
- Is either a Canadian citizen, or a permanent resident of Canada.

Applicants who have completed 24 credit hours or more of course work at another post-secondary institution are not normally eligible for mature student status admission.

Applicants who do not qualify for consideration for admission under the mature status requirements must meet the regular entrance requirements applicable to their chosen faculty or school.

A student with mature student status whose primary language is other than English must satisfy the English proficiency requirement.

Applicants seeking admission under mature student status are advised to seek further information from the Admissions Office.

5.2 Special Students

Special students are those who wish to enrol in a degree credit course for professional or personal interest and who are not seeking to complete a degree. These students apply to General Studies (Extended Education) or to the faculty or school offering the course.

5.3 Visiting Students

Visiting students are students who are registered at another institution who are taking one or more courses at the University of Manitoba on a Letter of Permission from their home university. These students generally apply for admission to General Studies (Extended Education).

5.4 Auditing Students

Auditing students are those admitted for the purpose of attending one or more courses for personal or professional interest, and not for any academic credit. No documentation other than the information requested in the application form is required for admission. Auditing students are not entitled to examination or other evaluation privileges, and in no instance may credit standing be obtained for a course which has been audited. Once admitted, the written consent of the instructor of the course(s) which the student wishes to audit must be presented at the time of registration for approval by the faculty or school. (Students admitted in a category other

than auditor may audit courses with the approval of the dean or director, provided written permission of the instructor is presented at registration.)

SECTION 6: English Language Proficiency

6.1 English Language Proficiency Requirement

English is the language of instruction and communication at the University of Manitoba. Accordingly, an applicant whose primary language is not English, or whose previous education was in another language, must demonstrate a command of English sufficient to meet the demands of classroom instruction, written assignments, and participation in tutorials and discussions.

Canadian Citizens, Permanent Residents and others whose primary language is English are deemed to be proficient in English by virtue of having lived and been educated in a country where English is the primary language (country as determined by the Admissions Office).

Canadian Citizens and Permanent Residents and International (study permit) applicants whose primary language is NOT English must provide evidence of proficiency in English by meeting the University of Manitoba standards as outlined in the following section.

6.2 English Language Proficiency Options

Any applicant who is asked to demonstrate proficiency in the English language may do so by meeting any one of the following options:*

- Achieve a minimum total score of 80 with a recommended minimum of 19 in each component score on the internet-based Test of English as a Foreign Language (TOEFL).
 - Achieve a minimum score of 550 with no less than 50 (unscaled) in each of the component scores on the paper-based TOEFL.
 - Achieve a minimum total score of 213 with no less than 17 (unscaled) in each component score in the computer-based TOEFL.
 - Achieve minimum scores of 4.5 in Reading, 4.5 in Listening and 4.0 in Writing on the Canadian Test of English for Scholars and Trainees (CAN-TEST).
 - Achieve a minimum score of 6.5 based upon the academic module A, or module B, on the International English Language Testing System (IELTS).
 - Achieve a minimum score of 80 on the Michigan English Language Assessment Battery (MELAB).
 - Achieve a grade of C or higher on the University of Cambridge Certificate of Proficiency in English.
 - Achieve a score of 60 or more in the Canadian Academic English Language Assessment (CAEL).
 - Achieve a minimum of 65% in the direct-entry English program, also known as the Academic English Program for University and College Entrance (AEPUCE), as taught by the English Language Centre at the University of Manitoba.
- * Some Faculties may require a specific test or test scores higher than those indicated above.

6.3 English Language Proficiency Waiver

An English language proficiency waiver may be granted to anyone who is a Permanent Resident, Naturalized Canadian, or who is in Canada on a study permit.

Students seeking this exemption must provide supporting documentation and have the information assessed as satisfactorily meeting one of the following:

- Ten consecutive years of residency in Canada, which may include years of study.
- Successful completion of a three-year secondary (high school) program in Canada, or three years of post-secondary education in Canada, or any combination of three years of successful secondary and post-secondary education in Canada.

- Graduation from a Manitoba high school with five credits at the Grade 12 level which include two credits of English at the 40S or U level with an average grade of 75 per cent.
- Achieve a grade of four or better on the International Baccalaureate Higher Level English course, or a grade of four or better on the Advanced Placement English Composition: Literature and Composition.
- Verify conditions equivalent to the above in a country where English is the primary language.

Requests for waivers from individuals who do not meet any of the above criteria but whose command of the English language is apparent will be considered on an individual basis.

Information and application forms for the waiver of English language proficiency are available from the Admissions Office.

SECTION 7: Application Procedure

7.1 Application Forms, Deadlines and Documents

Application forms are available at umanitoba.ca/admissions. Copies are also available at the Admissions Office 424 University Centre; telephone (204) 474 8808, or from the general office of the faculty or school to which application is made. Students are encouraged to submit their applications as early as possible to the Admissions Office. Students cannot register until a favourable admission decision has been made. Generally faculties and schools do not consider nor issue acceptances to students awaiting supplemental or summer session results. In those faculties and schools which do, applications must be filed in time to meet the deadline date. An admission decision will only be made upon receipt of final examination results.

Application to live in a campus residence is made separately (see the Student Affairs chapter).

Transfer student applicants are required to submit official transcripts of all previous work completed. Transcripts should be submitted at the time of application, or as soon as final results are available, but no later than the deadline date for submission of documents.

Transfer student applicants who register for further university/college courses subsequent to their application to the University of Manitoba (unless on a Letter of Permission from the University of Manitoba) *must* submit an official transcript of final grades. Admission status will be reassessed, and unless prior permission has been obtained from the Admissions Office, transfer of credit may be denied.

Information on the entrance requirements, application procedure, selection criteria, application fee and required documentation for a specific faculty or school, is available from the Admissions Office, and is also part of the applicant information bulletin that accompanies the application. This material is also available on the university website.

7.2 Appeals of Admission Decisions

Individuals who wish to have their applications reconsidered should direct their request in writing within ten days of mailing of the notification of denial of admission to the chair of the faculty/school selection committee; or in the case of Agricultural and Food Sciences, Arts, Human Ecology, Engineering, Education, Fine Arts, Science, and University 1 to the respective general office. Additional information on appeals is available from these general offices. Advice on appeals is available from the Office of Student Advocacy, 519 University Centre, telephone (204) 474 7423.

If applicants wish to appeal the reconsidered decision of the selection committee, they should direct their request to the Office of the University Secretary for transmission to the Senate Admission Appeals Committee, within ten days following the mailing of the results of the selection committee's reconsideration. All appeals shall be filed on the approved form.

Information and appeal forms for the Senate Admission Appeals Committee are available from the Admissions Office or the Office of the University Secretary (312 Administration Building).

7.3 Application Fraud or Misconduct

Application fraud or misconduct includes:

- Failure to declare attendance at another post-secondary institution;
- Presenting falsified academic documentation or causing or encouraging another person to falsify records through translation or data changes;
- Presenting falsified personal documentation, e.g. using a false name, date of birth, country of origin, etc.;
- Presenting falsified or fictitious reference documentation;
- Cheating on, or having another person write, a standardized entry exam such as, TOEFL, MCAT, LSAT, DAT or GMAT;
- Presenting another person's standardized test score as one's own to falsify a test result; and
- Failure to report suspensions from another post-secondary institution.

Declaration

All persons seeking admission to the University of Manitoba must sign the following declaration on the application for admission form: "I hereby certify that I have read and understood the instructions and information sheet accompanying any part of this application form and that all statements made in connection with this application are true and complete."

The commission of applicant fraud or misconduct may result in acceptance and registration being withdrawn and the applicant disqualified from consideration, not only in the year of application, but in subsequent sessions. If discovered in a subsequent session it may result in dismissal from the university.

PART ONE:

SECTION 1: Policy on the Responsibilities of Academic Staff with Regard to Students

1.1. Objectives

The objectives of this policy are to identify the responsibilities of academic staff with regard to students; to promote harmonious relations between academic staff and students; and to promote fair and equitable treatment of students.

1.2 Definitions

For purposes of this document, the following terms shall be defined as provided by this article:

A. Academic staff shall include all individuals holding full- or part-time appointments at the rank of Instructor I, Instructor II, senior instructor, lecturer, assistant professor, associate professor or professor. The term shall include also academic administrators, academic librarians, counsellors, adjunct professors, professional associates, research associates, research assistants, student research assistants, and student teaching assistants, insofar as such persons perform duties within the ambit of the policy.

B. Student shall mean any person who is registered as a student in the university. The current terms of reference of the Office of Student Advocacy follows this section.

1.3 Statement of Responsibilities

Some of the responsibilities of academic staff with regard to students rest with the individual staff member, while others are collective responsibilities, to be exercised through the actions of department and faculty/school administrators and councils.

A. Individual Responsibilities

The individual responsibilities of academic staff members with regard to students are primarily instructional and scholarly, and secondarily administrative. They may include:

1. Undergraduate, graduate, and continuing education instruction, including the organization, preparation and delivery of course material, the evaluation of student academic progress, the reporting of such evaluation in accordance with approved policies and schedules, consultation with students out of class or laboratory hours, and supervision of student research and thesis preparation;

2. Scholarly attainment through personal study and research, including study for purposes of academic self-improvement or course improvement, keeping abreast of new developments, and research that leads to a useful or original contribution toward the advancement of knowledge and understanding; and,

3. Administrative work as required for instructional and scholarly activities, including committee work at various levels departmental, faculty, university as it pertains directly or indirectly to students.

B. Collective Responsibilities

The collective responsibilities of the academic staff belonging to an academic unit are to provide an effective learning environment and to endeavour to ensure fair and consistent treatment of students. They include:

1. Periodically reviewing and updating all courses and programs;

2. Ensuring that academic regulations and policies provide fair and consistent treatment of students; and,

3. Providing for convenient student access to information on policies, regulations and procedures that may affect their academic progress, including the provision of names of instructors assigned to teach particular courses and sections at the earliest possible opportunity.

1.4 Discharge of Responsibilities

A. Individual Responsibilities

1. Academic staff members shall discharge their instructional responsibilities with academic integrity, scholarly competence, and pedagogic effectiveness.

2. Academic staff members shall maintain their familiarity with current university faculty/school and/or department policies regarding plagiarism and cheating, examination impersonations, student access to final examination scripts, student discipline, grade appeals, and the university policy regarding sexual harassment.

3. In discharging their instructional responsibilities, academic staff members shall adhere to regulations pertaining to the format, content and con-

duct of courses and laboratories, including regulations pertaining to examinations, term work, grades, and related matters.

4. A course outline or syllabus shall be provided in each course section, within the first week of classes:

4.1 The academic staff member responsible for that section shall provide in writing to every member of the class: name of instructor; office number and telephone number; a list of textbooks, materials and readings that the student is required to obtain including the appropriate referencing style guide(s) acceptable to the instructor and/or discipline in courses where it is relevant; an outline of the topics to be covered; a description of the evaluation procedure to be used, including the weighting of the components that will contribute to the final grade and whether evaluative feedback will be given to the student prior to the voluntary withdrawal date (see note); an indication of instructor availability for individual student consultation; a tentative schedule of term assignments and tests; and a statement of the practice to be following regarding late submission of assignments.

NOTE: It is understood that the provision of this information is not intended to affect the question of equity in multi-sectioned courses in any way.

4.2 The academic staff member shall provide in writing to every member of the class information regarding academic integrity which shall include: a reference to statements on academic dishonesty including "plagiarism and cheating" and "examination impersonation" found in the *Calendar*; and, where appropriate, a reference to specific course requirements for individual work and group work. Students should be made aware that a group project adheres to the principles of academic integrity. Students should also be made aware of any specific instructions concerning study groups and individual assignments. The limits of collaboration on assignments should be defined as explicitly as possible.

5. Academic staff members shall teach their courses with due regard to *Calendar* descriptions.

6. It is the responsibility of academic staff members to specify textbooks and materials in accordance with announced purchasing deadlines.

7. In their dealings with students, academic staff shall:

7.1 not deny registration for instruction in those courses for which the permission of the instructor is required, except where the student lacks appropriate qualifications or where an approved policy on limited enrolment is in effect;

7.2 comply with existing human rights legislation, and refrain from differential treatment of individual students on the basis of their actual or presumed membership in, or association with, some class or group of persons;

7.3 not accept money or other goods or services from students for assistance with any course offered by the university. This clause, however, shall not prevent student teaching assistants or other part-time instructors from accepting payment for tutoring in courses/sections which do not fall within the scope of their university employment;

7.4 be available for a reasonable amount of time, on a known and posted basis, for individual consultation with students registered in their courses or laboratories;

7.5 evaluate student academic performance in a fair and reasonable manner, and by means of appropriate academic criteria only;

7.6 where appropriate, provide written evaluative feedback prior to the voluntary withdrawal deadlines specified in the *Calendar*;

7.7 foster a free exchange of ideas between themselves and their students in the classroom and allow students the freedom to take legitimate exception to the data, views, or methods presented;

7.8 respect the confidentiality of documentary information about students;

7.9 keep confidential any information about the academic performance of a student, unless release is authorized by the student, required by the instructional team, or requested by an administrative officer in accordance with the university policy on the release of information;

7.10 explicitly acknowledge in written or oral presentations any indebtedness to student research or assistance;

7.11 not obtain any improper personal advantage from a student or student work; and,

7.12 academic staff members shall not retaliate against a student who has filed a complaint, whether the complaint was substantiated or unsubstantiated.

8. Academic staff members shall not cancel, miss, terminate or shorten scheduled instruction except for good reason. Whenever a scheduled period of instruction is cancelled, the academic staff member shall:

8.1 inform the class at the earliest possible time;

8.2 inform the administrative head of the academic unit; and,

8.3 where possible, ensure that appropriate substitution or make-up instruction is provided.

9. Academic staff members who provide instruction shall comply with the schedules and formats for reporting student grades, as established by departments and the Registrar's Office. Where such grades are reviewed by departmental committees, instructors should be available for the duration of the committees' work. An instructor who learns of an error, which if corrected would raise an assigned grade, should correct it without requiring the student affected to appeal the grade.

10. Academic staff members shall adhere to the relevant university, faculty/school, and/or departmental policy regarding professor-course evaluation.

B. Collective Responsibility

1. Through their faculty/school and department councils, academic staff members should review program and course descriptions periodically to ensure that the material to be presented is current and appropriate and that the *Calendar* information is clear and accurate.

2. The following material must be kept on file in faculty/school or departmental general offices and made available to students:

2.1 University, faculty/school or departmental regulations regarding class attendance and penalties, if any, for noncompliance;

2.2 The information described in Section 4.A.4, that is provided in writing to the class by the academic staff member for each course section;

2.3 University, faculty/school, and/or departmental regulations and procedures, if any, regarding the evaluation of professors and courses by students;

2.4 University, faculty/school, and/or departmental policy regarding student access to final examination scripts;

2.5 University bylaw on student discipline;

2.6 University, faculty/school, and departmental procedures regarding grade appeals;

2.7 University policy on the responsibilities of academic staff with regard to students; and,

2.8 University policy regarding sexual harassment.

3. Where necessitated by large class sizes or other circumstances, academic units shall ensure that course instructors and/or designated substitutes are available for individual consultation with students for a reasonable amount of time on a known and posted basis.

1.5 Cautionary Notice

Students are reminded that complaints that are frivolous or made for improper use may result in disciplinary action being taken against them by the university.

SECTION 2: Policy on Respectful Work and Learning Environment

Approved by: Board of Governors: June 2004

2.1 Reason for Policy

To support a climate of respect in the workplace and in the learning environment where individuals or groups of individuals are free from harassment and discrimination.

2.2 Policy Statement

1. The University of Manitoba supports equity, diversity and the dignity of all people. The University promotes equity in our learning programs and employment and in the conduct of the University's affairs.

2. The University recognizes the following:

(a) a richly diverse society in Manitoba, as well as beyond;

(b) a duty to act in a manner consistent with existing legislation regarding human rights;

(c) a commitment to academic freedom and freedom of thought, inquiry, and expression among its members which may result in respectful disagreements regarding beliefs or principles.

3. Each individual has the right to participate, learn, and work in an environment that promotes equal opportunities and prohibits discriminatory practices.

4. The University of Manitoba does not condone behaviour that is likely to undermine the dignity, self-esteem or productivity of any of its members and prohibits any form of discrimination or harassment whether it occurs on University property or in conjunction with University-related activities. Therefore, the University of Manitoba is committed to an inclusive and respectful work and learning environment, free from:

(a) human rights discrimination or harassment;

(b) sexual harassment; and

(c) personal harassment.

5. These types of discrimination or harassment are defined in the Procedures document which relates to this Policy.

6. The University of Manitoba and all members of the University community, particularly those in leadership roles, share the responsibility of establishing and maintaining a climate of respect within this community and to address any situations in which respect is lacking.

7. Harassment and discrimination violate an individual's human rights and run contrary to the University's fundamental values. The University of Manitoba will act promptly and efficiently to deal with these behaviours. It will endeavour to ensure that individuals who believe that they have been subjected to harassment or discrimination are able to express concerns and register complaints without fear of retaliation or reprisal. The University will exercise care to protect and respect the rights of both the complainant and the respondent.

8. The University of Manitoba will establish mechanisms to give effect to the Policy including:

(a) the appointment of an equity services advisor whose duties shall include the investigation of informal complaints and the provision of advice and assistance to staff members, students and administrative officers in connection with concerns and complaints;

(b) the appointment of an investigation officer whose duties shall include the investigation of formal complaints and the provision of advice and assistance to staff members, students and administrative officers in connection with concerns and complaints;

(c) training for staff related to harassment and discrimination;

(d) the University of Manitoba will establish and implement educational programs designed to enhance awareness of the Respectful Work and Learning Environment Policy and procedures relating to it.

9. Each year a report will be prepared by Equity Services and made available to the University community concerning the number, type and disposition of cases and on educational and other activities related to the Policy.

10. While the University of Manitoba supports the informal resolution of problems associated with such behaviour, it considers harassment and discrimination in all its forms to be serious offences. Normally the President shall delegate authority to the Vice-President (Administration) to take disciplinary action, where appropriate, against individuals who have violated this Policy.

11. Discipline may range from a reprimand to dismissal or expulsion. Where Collective Agreement provisions require that the President obtain the approval of the Board of Governors for a suspension or dismissal, the

finding of the Vice-President (Administration) shall be referred to the President in the form of a recommendation for action.

2.3 This Policy supersedes:

(a) all previous Board/Senate Policies and resolutions on the subject matter herein;

(b) all previous Administrative Policies and directives on the subject matter contained herein;

(c) Respectful Work and Learning Environment Policy (June 22, 2004)

The Respectful Work and Learning Environment procedure is available online at:

http://umanitoba.ca/admin/governance/governing_documents/community/230.htm

SECTION 3: Accessibility Policy for Students with Disabilities

The University of Manitoba is committed to reasonable accommodation of the needs of persons with documented disabilities by making efforts to create a barrier-free campus and provide other supports and services within the limits of available resources. The University will endeavour to meet the identified needs of each student by adapting services, courses, and programs as feasible and as resources allow, while maintaining appropriate academic standards. The University expects that the responsibility for making reasonable accommodations will be shared by the students, instructors and support staff.

In applying the accessibility policy for students with disabilities, the University of Manitoba will use reasonable efforts to:

Ensure that students with disabilities are considered for admission to programs for which they are academically qualified;

Make appropriate disability-related accommodations for students with disabilities to assist these students in meeting the academic requirements of their programs of study, while maintaining a commitment to appropriate academic standards;

Make facilities safe and accessible for such students;

Foster a supportive university community by working to remove attitudinal barriers and to inform and educate community members;

Implement delivery structures within the limits of available resources.

Copies of this policy are available online at: http://www.umanitoba.ca/admin/governance/governing_documents/students/281.htm .

SECTION 4: Disclosure and Security of Student Academic Records

The University and its constituent units have a clear obligation to the student and to society concerning the disclosure and security of information about a student's academic record.

The Student's Academic Record - A Definition

For the purposes of this document, the student's academic record refers to the information accumulated on a student in relation to the student's admission to and registration and academic activity at The University of Manitoba. (The student's academic record also may be referred to as the student's academic file or simply the student's file.)

The student record described in this document does not ordinarily include detailed information held by University Health Services, Counselling Services or the University Discipline Committee. Separate records are maintained by each of these units which have developed their own set of guidelines on security and disclosure. A general statement from a physician or counsellor which is relevant to the student's academic performance and which has been furnished at the request or with the consent of the student may be included in the student's file. Similarly if a student is suspended or expelled for disciplinary reasons, only the fact of the suspension or expulsion shall ordinarily be entered on the student's academic record and only for as long as specified in accordance with the Student Discipline By-Law.

It is recognized that throughout the course of a student's academic career there are many types of records kept on the student within the University. The student's academic record or versions of it may be in the form of hard-copy files, in the form of information recorded on a computerized database, or other forms such as microfiche or microfilm. Files on an individual student are often kept in a variety of locations, e.g., Admissions, Registrar's, Faculty and Departmental Offices.

NOTE: This policy is currently undergoing revision to comply with *The Freedom of Information and Protection of Privacy Act* (FIPPA). Students who have any questions about the status of Policy 423 should contact the Office of the University Secretary, 312 Administration Building.

SECTION 5: Language Usage Guidelines

The University of Manitoba, as an institution of higher learning, has a commitment to high standards in all communications, both written and oral as well as a prominent role in promoting desirable social change. As an employer, it is especially sensitive to the fair treatment of individuals and groups. The University of Manitoba therefore follows guidelines which are designed to avoid communicating in a manner that reinforces questionable attitudes and assumptions about people and sex roles. Often the problem is one of word choices which may be interpreted as biased, discriminatory, or demeaning, even though they were not intended to be. These guidelines will assist administrators in choosing words which are accurate, clear, and free from bias.

Guidelines

Sexism in communications may be divided into two conceptually different categories:

- Problems of designation, and
- Problems of evaluation.

Problems of Designation

In the case of sexism, long-established cultural practice can exert a powerful, insidious influence over even the most conscientious person. Nouns, pronouns, and adjectives that designate persons can be chosen to eliminate, or at least to minimize, the possibility of ambiguity in sex identity or sex role. In the following examples, problems of designation are divided into two sub-categories: ambiguity of referent, where it is unclear whether the communicator means one or both sexes, and stereotyping, where the communication conveys unsupported or biased connotations about sex roles and identity.

Problems of Evaluation

By definition, communications should be free of implied or irrelevant evaluation of the sexes.

Difficulties may derive from the habitual use of clichés or familiar expressions such as "man and wife." The use of "man and wife" together implies differences in the freedom and activities of each. "Husband and wife" are parallel, "man and wife" are not. In the examples that follow, problems of evaluation, like problems of designation, are divided into ambiguity of referent and stereotyping.

Problems of Designation

Ambiguity of Referent:

Example: The student is usually the best judge of the value of his counselling. Options might include deleting the referent "his," changing to a plural subject (Students are...value of the counselling service they receive), or rephrase (The best judge of the value of counselling is usually the student).

Example: Man or mankind (people, human beings, etc.) the average man (average person, people in general), manpower (workforce, personnel, human resources).

Stereotyping:

Example: Research scientists often neglect their wives and children. Solution: Acknowledge that women as well as men are research scientists (Research scientists often...neglect their families).

Example: Mothering. Solution: substitute - parenting, nurturing.

Example: Woman doctor, male nurse, lady lawyer. Solutions delete sex description unless necessary to the discussion, then use female doctor, female lawyer.

Problems of Evaluation

Ambiguity of Referent:

Example: The authors acknowledge the assistance of Mrs. John Smith. Solution: Use given names in acknowledgements, e.g., Ms., Miss or Mrs. Jane Smith.

Stereotyping

Example: men and girls. Solution: Use parallel terms - men and women, girls and boys, unless specifically wishing to denote adult and child relationship).

Example: woman driver. Solution: Specify only if necessary and then use female driver.

Example: Staff members and their wives. Solution: Staff members and their spouses/friends/guests.

Example: The girls in the office. Solution: Substitute - secretaries, staff, office assistants).

A more detailed list of examples of the sexist use of language can be obtained by contacting the Office of the President and the University of Manitoba Policy and Procedure Manual (Policy 231) on the website at www.umanitoba.ca

SECTION 6: Conflict of Interest Between Evaluators and Students Due to Close Personal Relationships

The purpose of this policy is to ensure that the relationship between an evaluator and the person being evaluated is and is seen to be impartial.

An evaluator includes any person who participates, whether at first instance or on appeal, in the process of admitting or selecting a student to a course or program, determination of a student's progress or academic standing, or the receipt by a student of a prize, award or university financial support.

A conflict of interest means a close personal relationship between an evaluator and a student or applicant or between evaluators, that gives rise to a reasonable apprehension of bias and, in any event, such relationships shall include that of: parent/child, spouses, grandparent/grandchild; siblings, in-laws or persons living in the same dwelling unit.

A complete copy of this policy is available online at: http://www.umanitoba.ca/admin/governance/governing_documents/students/277.htm .

SECTION 7: Other Policies of Interest to Students

8.1 Campus Alcohol Policy

The purpose of this policy is to explicitly establish the general means by which alcohol abuse on the University of Manitoba campuses can be reduced or perhaps eliminated.

The University shall meet the policy's objective by: offering an alcohol education and awareness program within the scope of programs offered by or through Student Affairs; maintaining University guidelines with respect to the serving and consumption of alcohol on campus; requiring that events and facilities at which alcohol is served on campus be managed effectively and in accordance with the University guidelines and Manitoba Liquor Control Commission regulations; and monitoring the application and effectiveness of the policy and guidelines through an Alcohol Beverage Committee, which also will provide to the Vice-President (Administration) on relevant problems and on proposed changes to the policy and guidelines.

This policy applies broadly, and covers all activities, events, locales and facilities on the University of Manitoba campuses at which alcohol is served or is available.

A complete copy of this policy is available online at: http://www.umanitoba.ca/admin/governance/governing_documents/community/253.htm .

8.2 Parking Regulations

All members of the University community and persons attending on property, owned and occupied or under the charge or control of the University, including roadways (the "University property") are required to familiarize themselves and comply with the Regulations.

The Regulations are in addition to any by-laws of the City of Winnipeg and any legislation and regulations of the Province of Manitoba regulating the operation or use of motor vehicles or regulating the crossing of or walking upon roadways by pedestrians.

A complete copy of the University Parking Regulations is available online at: http://www.umanitoba.ca/admin/governance/governing_documents/community/255.htm .

PART TWO:

Students are expected to conduct themselves responsibly with due regard for the rights of others and to maintain a high level of personal and academic integrity. Students who transgress these standards, whether expressed in policy or implied in generally accepted codes of conduct, can expect disciplinary action. Penalties arising from disciplinary actions may include fines, withholding of student privileges, suspension or expulsion from programs, or some other action specific to the situation. Penalties may also affect student eligibility to continue in their programs or to graduate.

The following are some of the policies and regulations relating to student discipline and behaviour.

SECTION 1: Student Discipline Bylaw

A primary responsibility of the University is to provide its students with the opportunity for inquiry and freedom to discuss and express views openly and freely without fear of retaliation, or abuse of person or property. These attributes are the foundation of good citizenship.

To this end, students have an obligation to act in a fair and reasonable manner towards their peers, the faculty, staff, administration and the physical property of the university. Academic integrity and Appropriate Behaviour, both on-campus and off-campus, are critical elements in achieving these goals. Violations of university regulations which have been adopted to protect the university community will be subject to disciplinary action. This may include, but is not limited to, violations of regulations governing plagiarism, cheating, examination impersonation, academic fraud and acts of personal behaviour such as sexual harassment, violation of human rights, vandalism and substance abuse. The Student Discipline Bylaw provides guidance to those individuals charged with administering disciplinary action while, at the same time outlining the protection to be afforded students through their right of appeal. Disciplinary authorities are encouraged, whenever possible and appropriate, to settle findings of violation by informal resolution.

Students may request information from their faculty or school offices, the Office of Student Advocacy, or the Office of the University Secretary. The bylaw is available online at: http://umanitoba.ca/admin/governance/governing_documents/students/868.htm

SECTION 2: Inappropriate and Disruptive Student Behaviour

Although this policy is directed to dealing with students who exhibit inappropriate or disruptive behaviour, there are some general statements which should be made:

1. The vast majority of students will complete their academic life at the University acting appropriately and without causing disruption to their fellow students or to the University.

This policy is not directed towards individual students who have a mental illness provided their behaviour is neither inappropriate or disruptive.

A staff member may notice that an individual student is exhibiting stress, even though he/she is not acting disruptively. In that case, the observation

should be addressed with the student and, if appropriate, the student should be referred for voluntary counselling.

2. "In appropriate or disruptive behaviour is behaviour which persistently interferes with the academic or administrative activities of the University (and/or) which inhibits the ability of other students to learn and of instructors to teach" -- Amanda G. "Dealing with the Disruptive College Student: Some Theoretical and Practical Considerations," *College Health*, April 1986.

Such behaviours would include, but are not limited to the following: threats to the physical safety of the individual or others; verbal threats or abuse of students or University personnel; recurring and wilful damage of University property; and actions which habitually interfere with the learning environment or requires the inordinate time and attention of faculty and staff.

The majority of students engaging in such behaviour will accept personal responsibility and appropriate referral for voluntary counselling. Additional action is detailed in the policy.

A complete copy of this policy is available online at: http://www.umanitoba.ca/admin/governance/governing_documents/students/279.htm .

VIOLENT AND THREATENING BEHAVIOUR

The University of Manitoba is committed to creating and maintaining a safe, positive and productive learning and working environment. Therefore, the University will not tolerate threats, intimidation or violence. Individuals who are found to have engaged in such activities will be subject to disciplinary action which may result in termination of employment, expulsion from educational programs and a ban from university property.

A complete copy of this policy is available online at: http://umanitoba.ca/admin/governance/governing_documents/community/669.htm

SECTION 3: Hold Status

Students will be placed on "Hold Status" if they incur any type of outstanding obligation (either financial or otherwise) to the university or its associated faculties, schools, colleges or administrative units.

Some typical reasons for holds are:

- Outstanding fees or other unpaid university fees
- Outstanding library books and/or fines
- Parking fines
- Outstanding transcripts or documents required from other institutions
- Students records pending disciplinary action.

No administrative or academic services will be provided to students on Hold Status until the specific obligations have been met.

Students who have not cleared their Hold Status from previous registrations will not be permitted to register again until the hold has been cleared or permission to register has been obtained from the Office of the Vice-President (Administration).

APPENDIX A: List of Approved Written English and Mathematics Courses

APPENDIX B: Course Identification

SECTION 1: Introduction

This chapter contains the regulations and requirements that apply to all students, regardless of their faculty or school.

Each faculty and school has its own supplementary regulations and requirements. These are published in the faculty or school chapters of this *Calendar*. Some faculties and schools also have additional regulations and requirements governing their programs; these are available from their general offices.

It is the responsibility of each student to be familiar with the academic regulations and requirements of the University of Manitoba in general and of the specific academic regulations and requirements of their faculty or school of registration. Accordingly, students are asked to seek the advice of advisors in faculty and school general offices whenever there is any question concerning how specific regulations apply to their situations.

SECTION 2: Residence and Written English and Mathematics Requirements

2.1 Residence Requirements for Graduation

Each faculty and school recommends to the Senate the number of credit hours each student must complete in order to graduate from its programs. Senate also requires each student to complete a minimum number of credit hours at the University of Manitoba -- this is called the "residence requirement."

Unless otherwise stated in faculty and school chapters, the minimum residence requirement of the University of Manitoba is the work normally associated with one year in the case of programs of three years' duration, and two years for programs of four years' duration. Some faculties and schools may have additional residence requirements specified in their program regulations. However, in all cases, the residence requirement is assessed following an appraisal of the educational record of the student applying to transfer credits from another institution or applying to earn credits elsewhere on a letter of permission. The residence requirement is not reduced for students whose "challenge for credit" results in a passing grade.

2.2 University Written English and Mathematics Requirement for Undergraduate Students

All students are required to complete, within the first 60 credit hours of their programs, a minimum of one three credit hour course with significant content in written English, and a minimum of one three credit hour course with significant content in mathematics. See Appendix A in this chapter for lists of courses that satisfy these requirements.

Some degree programs have designated specific Written English and mathematics courses to fulfil this requirement. See the program descriptions in the faculty and school chapters of this *Calendar* for details.

Courses, and sections of courses, that satisfy the Written English requirement and the Mathematics requirement are listed in Appendix A at the end of this chapter. (On the web, students may search Course Attributes for courses that satisfy the written English and Mathematics requirements).

Exemptions to the Written English and Mathematics Requirement:

- All students with completed baccalaureate degrees and who transfer into any program to which these requirements apply.
- Registered Nurses entering the Bachelor of Nursing Program for Registered Nurses.
- Students admitted before the 1997-98 Regular Session.
- Written English exemption only: Students transferring from Collège universitaire de Saint-Boniface who have completed a written French requirement (at the college before transferring to the University of Manitoba shall be deemed to have met the written English requirement).

SECTION 3: Grades and Grade Point Average Calculation

Final grades in most courses are expressed as letters, ranging from D, the lowest passing grade, to A+ the highest. Each letter grade has an assigned numerical value which is used to calculate grade point averages.

Some courses are graded on a pass/fail basis and because no numerical value is assigned to these courses, they do not affect grade point averages. Courses graded in this way are clearly identified in course descriptions and program outlines.

3.1 The Letter Grade System

Letter Grade	Grade Point Value	
A+	4.5	Exceptional
A	4.0	Excellent
B+	3.5	Very Good
B	3.0	Good
C+	2.5	Satisfactory
C	2.0	Adequate
D	1.0	Marginal
F	0	Failure
P		Pass
S		Standing

The grade of "D" is regarded as marginal in most courses by all faculties and schools. It contributes to decreasing a term, degree or cumulative Grade Point Average to less than 2.0. The course in which "D" standing is obtained need not be repeated except by probationary students in certain faculties or where a minimum grade of "C" is required in a prerequisite subject. Courses graded "D" may be repeated for the purpose of improving a GPA. Students in doubt as to the status of their record should consult an advisor in their faculty or school.

For minimum grade levels, especially as they affect progression requirements, see the faculty or school regulations or consult an advisor.

3.2 Calculation of Grade Point Average

Quality Points

The quality points for a course are the product of the credit hours for the course and the grade point obtained by the student; e.g., 3 credit hours with a grade of "B" (3.0 points) = 3 credit hours x 3.0 = 9.0 quality points.

Quality Point Total

The quality point total is the sum of quality points accumulated as students proceed through their program of studies.

Grade Point Average (GPA)

The grade point average (GPA) is the quality point total divided by the total number of credit hours.

Cumulative Grade Point Average

The Cumulative GPA is the quality point total divided by the total number of credit hours attempted at the University of Manitoba and courses transferred from other institutions.

Degree Grade Point Average

The Degree grade point average is the Quality Point total divided by the total number of credit hours attempted at the University of Manitoba and courses transferred from other institutions for courses that are acceptable for credit in the current faculty or school.

Term Grade Point Average

The Term GPA is calculated on the basis of all final grades received in the term (eg. Fall, Winter, or Summer terms).

Repeated Courses

When a course has been repeated, the last grade achieved is that which will be used in the calculation of the GPA. (Students are normally permitted to repeat the same or equivalent course once).

NOTE: Information on credit hours, courses, prerequisites and corequisites, is found in Appendix B of this chapter, entitled Course Identification.

3.3 Academic Honours

Students qualify for the Dean's Honour List when they achieve qualifying grade point averages as specified in the faculty and school chapters of this *Calendar* or in program regulations.

In addition, outstanding academic achievement will qualify students for other honours and awards. These include the University Gold Medal which is awarded at graduation in each faculty or school to the student with the most outstanding academic record; program medals which are awarded by faculties and schools to the best student graduating from a specific program; graduation "with distinction," which is recorded on the transcripts of all students who attain a qualifying grade point average; and other medals and prizes that are specific to programs or disciplines.

SECTION 4: Academic Evaluation

4.1 Methods of Evaluation

Within the first week of lectures, instructors must inform the class of the method of evaluation to be used in each course. See the Responsibilities of Academic Staff to Students Policy, in the chapter University Policies. In departments where a course is offered in more than one section, the department offering the course endeavours to provide instruction so that all sections cover similar topics and that all students achieve a similar level of competency in the topic. However, there will be differences in evaluation as well as in teaching style, readings and assignments from one section to another. Students may contact the department for additional information before registration.

4.1.1 Credit for Term Work

In subjects involving written examinations, laboratories, and term assignments, a student may be required to pass each component separately. If no final examination is scheduled in a course, the student's final grade will be determined on the basis of the method of evaluation as announced in the first week of lectures.

If credit is not given for term work, the student's final grade will be determined entirely by the results of the final written examination. Where the final grade is determined from the results of both term work and final examinations, the method of computing the final grade will be as announced within the first week of classes. Should a student write a deferred examination, term grades earned will normally be taken into account as set out in the immediately preceding paragraph.

4.1.2 Incomplete term work

A student who is unable to complete the term work prescribed in a course may apply to the instructor prior to the end of lectures for an incomplete grade and time extension for work completion. It is understood that the student is to write the final examination if one is scheduled for the course.

Taking into account the results of the final examination, the value of the term work completed, and the extent of the incomplete term work, the instructor shall calculate the temporary grade using a zero value for incomplete work. In no case will the satisfaction of the incomplete requirements cause a grade to be lowered.

The following maximum time extensions are allowed: August 1, for courses terminated in April; December 1, for courses terminated between May and August; April 1, for courses terminated in December. If a final grade is not reported within one month of the extension deadline, the letter "I" will be dropped, and the grade will remain as awarded. The student's opportunity to improve the grade will have lapsed.

4.1.3 Repeating a Course

Subject to faculty or school regulations, required courses graded "F" or "D" must be repeated, usually at the next opportunity. Elective courses graded "F" may either be repeated or another elective substituted. All electives in a program must be approved by the faculty or school.

When a course has been repeated, the last grade achieved is that which will be calculated in the GPA.

4.1.4 Probation and Academic Suspension

Failure to meet minimum levels of performance as specified in the regulations of the faculty or school will result in a student being placed either on probation or academic suspension in accordance with the faculty or school regulations.

A student's status is determined, following final examinations, at the end of each term (Fall, Winter or Summer terms) or at the end of an academic session as specified in faculty regulations. A student placed on probation is advised to discuss his/her program prior to the next registration with a representative of the dean or director to determine which courses, if any, should be repeated.

A student placed on academic suspension will normally be permitted to apply for re-entry to the faculty or school after one year has elapsed, but reinstatement is not automatic and individual faculty or school regulations must always be consulted.

While on suspension, students are not normally admissible to another faculty or school.

4.2 Examinations

4.2.1 Examination General Regulations

Any test(s) which have an aggregate value of more than 20% of the total value of the course may not be scheduled to take place during the 14 calendar days ending with the last day of classes in the term during the Regular Sessions as defined in the *Calendar*, or during the last two classes of Summer Evening and the last three classes of Summer terms.

No project or assignment may be announced during the periods outlined above, unless contained in the information required to be provided to all students during the first week of classes (See the Responsibilities of Academic Staff to Students in the chapter on Policies and Guidelines of the University).

4.2.2 Final Examinations

No final examinations or term or take home examinations shall be scheduled to occur prior to the examination periods as described in the *Calendar* except with the expressed consent of the deans and directors involved.

The weight of each question shall be clearly indicated on the examination paper.

The name of the instructor or the examination committee shall be clearly indicated on the examination paper

Students (with the exception of students auditing courses) are required to write all final examinations. Those who absent themselves without an acceptable reason will receive a grade classification of "NP" accompanied by a letter grade based on term work completed for the course using a zero value for incomplete term work and for the final examination. If no credit for term work is involved, a grade of "F" will be assigned. Under certain conditions a student may apply for a deferred examination; see Deferred Examinations.

Examinations are scheduled at the end of each term of registration.

Students are not permitted to leave an examination within the first 30 minutes and any student arriving more than 30 minutes after the commencement, but before the end, of a final examination scheduled by the Registrar's Office, might not be permitted to write that examination on the authority of the chief invigilator of the examination room.

Provided fairness is guaranteed beforehand, miniature electronic calculators shall be allowed during examinations, with the consent of the department.

Students are not permitted to bring in any unauthorized materials to an examination. This includes, but is not limited to, calculators, books, notes, or any electronic device capable of wireless communication and/or storing information (e.g. translator, cell phone, pager, PDA, MP3 units, etc.). However, students may bring in such material or devices when permission has been given by the instructor and/or the department or faculty.

The use of audio visual supports (including, but not limited to overhead or slide projectors, and audio/visual tape players) to display examination or test questions shall be prohibited except where arrangements have been made to display all questions simultaneously for the entire examination/test period or in courses where time limited identification is a legitimate and specified part of the examination/test process.

Answers to examination questions shall not be posted prior to the conclusion of the examination.

Final grades must be posted by faculties and schools (identifying students by student number only) as soon as the grades have been approved by the faculty/school/department (as appropriate) and have been submitted to the Registrar's Office. (This policy is under review).

4.2.3 Student Access to Final Examinations

In order to allow proper feedback, each student shall have an opportunity to read his/her own final examination script and any comments on it, but only in the presence of the instructor or a department-appointed staff member. Such access will be permitted normally upon reasonable notice from the day following the deadline for formal appeal or from the date of the resolution of an appeal, whichever is later, until the date on which scripts are, by these regulations, to be destroyed. Informal consultation, provided both instructor and student are available and willing, may take place during the period in which access to the scripts is not required.

Notwithstanding the above, there is no obligation upon departments to make machine-scored answer sheets available for consultation by students. It is expected that departments will provide appropriate means of feedback to students in such circumstances and, where appropriate, will encourage instructors to discuss selected questions and answers.

Access to answer scripts of external examinations are governed by the regulations of the institution whose examination has been written.

4.2.4 Special Examination - Religious Reasons

A student who, because of religious obligations, is unable to write a final examination when scheduled, shall be given an opportunity to write a special examination. The student is required to give reasonable notice (approximately three weeks) to the head of the department concerned prior to the examination series and to present evidence concerning the religious obligations involved.

4.2.5 Deferred Examinations

A student may file an application for a deferred examination with the dean of the faculty or the director of the school of registration, for reasons of illness or other disability, or for compassionate reasons, setting out the reasons for deferral. The application must normally be filed within seven working days of the end of the examination series in which the examination was scheduled to be written and must be accompanied by a medical certificate or other appropriate documentation certifying the reason for the deferral, the inability of the student to write the examination at the regular scheduled time and, where possible, indicating the period of disability. Based on the evidence, the dean or director shall decide whether the application is approved.

A student requesting a deferred examination on the grounds of participation in an inter-university, inter-provincial, national or international scholastic or athletic event(s) shall be granted a deferral provided an application and appropriate documentation is filed with the dean or director of the faculty or school or registration well in advance (normally 20 days) of the scheduled examination, and that the dean or director is satisfied, based on the evidence, that the application should be granted.

No deferred examinations shall be granted on the basis of conflict(s) with vacation or holiday plans.

Any student leaving an examination early for reasons of illness, or other disability, or for compassionate reasons must notify the chief invigilator before leaving the room. The chief invigilator must report all such notifications. Students leaving an examination early in compliance with this section are eligible to apply for deferred examinations.

No faculty or school shall have regulations that compel students to accept deferral for any or all examinations in any examination series.

When an application for a deferred examination is approved by the faculty or school office, the head of the department in which the course is offered, in consultation with the instructor, shall schedule the deferred examination to take place normally within 30 working days from the end of the examination series from which the examination was deferred. The foregoing does not limit the ability for heads of departments, instructors and students from reaching mutually satisfactory arrangements for the scheduling of a deferred examination.

In the event that a student is unable to write the examination as outlined above, they shall write the deferred examination at the next scheduled examination series in which the course is offered, unless the head of the department, in consultation with the instructor concerned, chooses to assign a grade without examination. In such cases the grade(s) shall be assigned on the basis of term work following procedures established by faculty or school councils.

If the progression rules of a faculty or school require the successful completion of an entire academic year before a student is eligible to proceed into the next academic year, the deferred examination must be written within a time frame that enables the examination to be written and graded, and, if necessary, a supplemental examination to be written and graded, before the start of the next academic year.

A student who accepts standing in a course without examination may not, at a later date, request permission to write a deferred examination.

A student who, for medical reasons, withdraws from a program or receives deferred examination for all final examination series shall be informed by the faculty or school that re-registration will not be possible until it has established, through proper medical consultation, fitness to resume studies.

4.2.6 Supplemental Examinations

A limited number of faculties and schools permit a supplemental examination when a student has failed a course or failed to achieve a satisfactory result. Please refer to the section of the Calendar for your faculty or school for its policy on supplemental examinations. Where a faculty's or school's regulations permit supplemental examinations, students are normally notified of this privilege on their grade statements or by their faculty or school following publication of the grades. Students who are granted supplemental privileges are normally required to sit the examination within 30 working days from the end of the examination series in which the supplemental grade was received unless the progression rules of a faculty or school require the successful completion of an entire academic year before a student is eligible to proceed into the next. In this case, students are obliged to sit the examination at the next ensuing examination period.

The passing grade in supplementals must be at least "C." Students are normally required to carry a full-time program in order to be eligible. Accordingly, students who are granted incomplete or deferred status may not be eligible. A student may only write a supplemental once in any course; otherwise the course must be repeated.

Students are advised to check with faculty or school offices or consult an advisor as to specific regulations that may apply.

To write a supplemental examination an application must be made to the office of the dean or director and the appropriate fee paid. The application form will be forwarded to the Registrar's Office and the supplemental grade will be submitted following completion of the examination.

4.2.7 Special Supervision of Off-Campus Examinations:

Students who have been given permission to write deferred or supplemental examinations off-campus may apply to the Registrar's Office to write at an approved centre outside of Winnipeg.

4.2.8 Examinations: Personations

A student who arranges for another individual to undertake or write any nature of examination for and on his/her behalf, as well as the individual who undertakes or writes the examination, will be subject to discipline under the university's Student Discipline Bylaw, which could lead to suspension or expulsion from the university. In addition, the Canadian Criminal Code treats the personation of a candidate at a competitive or qualifying examination held at a university as an offence punishable by summary conviction. Section 362 of the code provides:

Personation at Examination

362. Every one who falsely, with intent to gain advantage for him/herself or some other person, personates a candidate at a competitive or qualifying examination held under the authority of law or in connection with a university, college or school or who knowingly avails him/herself of the results of such personation is guilty of an offence punishable on summary conviction. 1953- 54,c.51, s.347.

Both the personator and the individual who avails him/herself of the personation could be found guilty. Summary conviction could result in a fine being levied or up to two years of imprisonment.

4.3 Other Forms of Earning Degree Credit

4.3.1 Letter of Permission for Transfer of Credit

Students in degree programs at this university may take courses at other recognized colleges or universities for transfer of credit provided such courses are approved at least one month prior to the commencement of classes at the other institution by the faculty or school in which they are currently registered. The approval is subject to individual faculty/school regulations and is granted in the form of a Letter of Permission. The student must obtain a Letter of Permission whether or not the course/s being taken are for transfer of credit to the University of Manitoba. Failure to obtain a Letter of Permission may have serious academic implications.

To obtain a Letter of Permission, application must be made to the Registrar's Office as early as possible and at least one month prior to when required at the other institution.

Each application must be accompanied by the appropriate fee. The fees are for each application and a separate application is required for each session and institution regardless of the number of courses being considered. Students planning to seek permission to take courses elsewhere for transfer of credit to the University of Manitoba are cautioned to check the current *Cal-*

endar for the residence and degree requirements of the degree programs in which they are enrolled.

Transferred courses will be given assigned credit hour values and grades. The transferred grade will be included in the student's degree and cumulative GPA.

4.3.2 Challenge for Credit

The purpose of Challenge for Credit is to provide students of the university with some means of obtaining academic credit in University of Manitoba courses (not otherwise obtainable as a transfer of credit from other institutions) for practical training and experience, or reading and study previously completed. Students who have registered to challenge would normally not attend classes or laboratories. Courses which have previously been taken at the University of Manitoba may not be challenged for credit.

To be eligible to challenge for credit a student must first be admitted to a faculty or school of the University of Manitoba. Eligible students will be required to demonstrate their competence in the courses which they are challenging for credit. Where formal, written examinations are required, these will be generally scheduled during the regular examination sessions in April/May, June, August, or December.

For information regarding requirements, procedures, applications and fees a student should contact the office of the faculty or school in which the student is enrolled, or in the case of new students, the faculty or school to which the new student has been admitted.

4.3.3 Transfer of Credit Between Programs Within the University of Manitoba

When students transfer credits into their programs from another faculty or school within the University of Manitoba, the credit hour value used by the faculty or school offering the course is used. That is, there can only be one credit weight designated for a course with a particular course number.

All students are asked to note that this procedure is under review and is subject to change. Please check the Web Calendar at umanitoba.ca after July 1, 2007 for updated information.

SECTION 5: Appeals of Grades

5.1 Appeals of Grades Received for Term Work

The appeal of term work returned or made available to students before the last day of classes shall be subject to the policies and procedures established by faculty or school councils.

Students may formally appeal a grade received for term work provided that the matter has been discussed with the instructor in the first instance in an attempt to resolve the issue without the need of formal appeal. Term work grades normally may be appealed up to ten working days after the grades for the term work have been made available to the student.

Students may obtain the form "Application for Appealing a Grade Given for Term Work" from the general office of the department which offered the course. The fee which is charged for each appealed term work grade will be refunded for any grade which is changed as a result of the appeal.

5.2 Appeal of Final Grades

If a student has good reason to believe a mistake has been made in the assessment of the original grade, an appeal of the assigned grade may be made. A student may enter an appeal, through the Registrar's Office, for assessment of one or more grades following the posting of grades by the faculty/school/department. Grades are released by the Registrar's Office as they are received from faculties and schools. A student wishing to make a final grade appeal on a first term course grade must do so within 15 working days of the first day of classes for second term. For second term courses and full courses, the appeal must be made 15 working days following the Victoria Day Holiday.

The fee which is charged for each appealed grade will be refunded for any grade which is changed. It should be noted that an appealed grade may not be lowered. Appeal forms may be obtained from the Registrar's Office. Students should note that the deadline for appeal of assigned grades will not be extended for students who are on "hold status" nor will official grades be released by the Registrar's Office until the "hold" has been cleared. (This policy is under review).

5.3 Academic Appeals

With the exception of decisions on admissions or disciplinary matters, all academic appeals from decisions of faculty or school appeals committees at the University of Manitoba or by the Comité d'appels at Collège universitaire de Saint-Boniface shall be heard by the Senate Appeals Committee regardless of the institute of registration of the student concerned.

The complete terms of reference for the Senate Committee on Appeals as well as an Appeal Form may be obtained from the Office of the University Secretary, 312 Administration Building or Student Advocacy/Student Resource Services, 519 University Centre.

SECTION 6: Attendance and Withdrawal

6.1 Attendance at Class and Debarment

Regular attendance is expected of all students in all courses.

An instructor may initiate procedures to debar a student from attending classes and from final examinations and/or from receiving credit where unexcused absences exceed those permitted by the faculty or school regulations.

A student may be debarred from class, laboratories, and examinations by action of the dean/director for persistent non-attendance, failure to produce assignments to the satisfaction of the instructor, and/or unsafe clinical practice or practicum. Students so debarred will have failed that course.

6.2 Withdrawal from Courses and Programs

6.2.1 Voluntary Withdrawal

The registration revision period extends two weeks from the first day of classes in both Fall and Winter terms. Courses dropped during this period shall not be regarded as withdrawals and shall not be recorded on official transcripts or student histories. The revision period is prorated for Summer terms and for parts of term.

After the registration revision period ends, voluntary withdrawals (VWs) will be recorded on official transcripts and student histories.

The following dates are deadlines for voluntary withdrawals:

- The Voluntary Withdrawal deadline shall be the 48th teaching day in both Fall and Winter term for those half-courses taught over the whole of each term;
- The Voluntary Withdrawal deadline for full-courses taught over both Fall and Winter term shall be the 48th teaching day of the Winter term; and
- The Voluntary Withdrawal deadline for full-and-half courses taught during Summer terms or during some other special schedule shall be calculated in a similar manner using a pro-rated number of teaching days.

The exact Voluntary Withdrawal dates that apply to courses offered in the current academic session are published in the Academic Schedule at the front of this *Calendar*.

6.2.2 Authorized Withdrawal

Subject to the provision of satisfactory documentation to the faculty of registration, Authorized Withdrawals (AWs) may be permitted on medical or compassionate grounds.

6.2.3 Required Withdrawal from Professional Programs

Senate, at the request of some faculties and schools, has approved bylaws granting them the authority to require a student to withdraw on the basis of unsuitability for the practice of the profession to which the program of study leads.

This right may be exercised at any time throughout the academic year or following the results of examinations at the end of every year.

This right to require a student to withdraw prevails notwithstanding any other provisions in the academic regulations of the particular faculty or school regarding eligibility to proceed or repeat.

Where Senate has approved such a bylaw, that fact is indicated in the *Calendar* chapter for that faculty or school. A copy of the professional unsuit-

ability bylaw may be obtained from the general office of the faculty or school.

SECTION 7: Academic Integrity

7.1 Plagiarism and Cheating

Plagiarism or any other form of cheating in examinations, term tests or academic work is subject to serious academic penalty (e.g. suspension or expulsion from the faculty or university). Cheating in examinations or tests may take the form of copying from another student or bringing unauthorized materials into the exam room (e.g., crib notes, pagers or cell phones). Exam cheating can also include exam impersonation. (Please see Section 4.2.8 on Exam Impersonation). A student found guilty of contributing to cheating in examinations or term assignments is also subject to serious academic penalty.

To plagiarize is to take ideas or words of another person and pass them off as one's own. In short, it is stealing something intangible rather than an object. Plagiarism applies to any written work, in traditional or electronic format, as well as orally or verbally presented work. Obviously it is not necessary to state the source of well known or easily verifiable facts, but students are expected to appropriately acknowledge the sources of ideas and expressions they use in their written work, whether quoted directly or paraphrased. This applies to diagrams, statistical tables and the like, as well as to written material, and materials or information from Internet sources.

To provide adequate and correct documentation is not only an indication of academic honesty but is also a courtesy which enables the reader to consult these sources with ease. Failure to provide appropriate citations constitutes plagiarism. It will also be considered plagiarism and/or cheating if a student submits a term paper written in whole or in part by someone other than him/herself, or copies the answer or answers of another student in any test, examination, or take-home assignment.

Working with other students on assignments, laboratory work, take-home tests, or on-line tests, when this is not permitted by the instructor, can constitute Inappropriate Collaboration and may be subject to penalty under the Student Discipline By-Law.

An assignment which is prepared and submitted for one course should not be used for a different course. This is called "duplicate submission" and represents a form of cheating because course requirements are expected to be fulfilled through original work for each course.

When in doubt about any practice, ask your professor or instructor.

The Student Advocacy Office, 519 University Centre, 474-7423, is a resource available to students dealing with Academic Integrity matters.

7.2 Personation at Examinations

See section 4.2.8, Personation: Examinations

SECTION 8: Graduation and Convocation

8.1 Graduation

Students may graduate from the University of Manitoba in May, October, and February of each year.

Students are eligible to graduate when they have completed all of the requirements for their degree program in accordance with the regulations described in the *Undergraduate Calendar* and the regulations available from the general offices of their faculties and schools.

It is the responsibility of each student to be familiar with the graduation requirements of the program in which they are enrolled. Consultation with academic advisors is advised to ensure that graduation requirements are met.

8.2 Application for Graduation

Every candidate for a degree, diploma or certificate must make formal application at the beginning of the session in which the student expects to complete graduation requirements.

Application is to be made through the registration system. See *Registration Guide* for details.

Please be sure that you have claimed a University of Manitoba computer account, as most of our correspondence with you in regard to graduation, Convocation and the convocation ceremonies will be sent to you at your University of Manitoba email address.

8.3 Convocation

Convocation ceremonies are held in May and October of each year. Correspondence with students who declare intention to graduate will be by email. Please be sure you have claimed your University of Manitoba computer account.

February graduates are included in the May ceremonies.

Graduating students are encouraged to attend with their families and friends because it is the one ceremonial occasion that marks the successful conclusion of their program of studies.

All prospective graduating students who apply for graduation will be asked to confirm by email their intention to attend Convocation.

Complete details of the time, location, and ceremony arrangements will be included in the material sent by email from the Convocation Office in the Office of Registrar.

Students who, for any reason, do not attend Convocation will receive their degrees in absentia.

The Registrar's Office will hold unclaimed parchments for a maximum of twelve months after graduation when any unclaimed parchments will be destroyed. These will include those not given at Convocation, those that were to be picked up in person but not claimed, those that were mailed but returned to the Registrar's Office by the postal outlet or courier depot, those that were not issued due to a financial hold on a student's records, and those that were reprinted immediately after convocation due to corrections.

It is critical that you update your address, phone number and email through Aurora whenever changes occur. Note that any changes made with the Alumni Association are not reflected in your University of Manitoba student records.

If you do not receive your parchment, it is your responsibility to follow up with the Registrar's Office within a twelve-month period. Any requests for parchments after this time will be processed as replacements; there is a fee charged for replacement parchments.

8.3.1 Academic Dress

Academic gowns, hoods, and caps are provided by the university as part of the Convocation arrangements.

8.3.2 Convocation Information

Information on Convocation may be obtained from the Registrar's Office, 400 University Centre.

APPENDIX B: Course Identification

Credit Hours (Cr.Hrs.)

Each faculty and school develops courses for its degree credit programs, subject to Senate approval, and assigns a credit hour value to each course.

The credit hours for a course are expressed as a number associated with the course which indicates its relative weight. There is a correlation between class hours and credit hours (i.e., full course: 6 credit hours = 3 hours a week, both terms; and half course: 3 credit hours = 3 hours a week, one term).

For the purposes of registration, full courses have been divided into two parts. Students registering for a full course will receive one grade for the course and only when the second part is completed. Check the *Registration Guide* for registration instructions.

Prerequisite and Corequisite Courses

Prerequisite: If a course is prerequisite for a second course, the prerequisite must be met in order to begin the second course. To determine whether or not a course has a prerequisite, see the course descriptions in this *Calendar*. Normally, a minimum grade of "C" is required in all courses listed as prerequisites, except as otherwise noted in the course descriptions.

For some courses, the prerequisite may be completed before registering for the second course or may be taken concurrently with the second course. To determine if a course may be taken concurrently, see the course descriptions in this *Calendar*.

Corequisite: If a first course is a corequisite for a second course, the first course **must** be completed in the same term as the second course. To determine if a course has a corequisite, see the course descriptions in this *Calendar*.

Where the sequence in which courses are taken is important, one course is stipulated as being prerequisite to another (e.g., Mathematics 1 may be prerequisite to Mathematics 2). Unless otherwise specified in the regulations of any faculty or school, the prerequisite requirement is met if at least a passing grade (D) is earned in the course. If the course is failed, permission *may* be granted to repeat it concurrently with the course for which it is prerequisite. Some prerequisite courses may be taken concurrently. Check the course description for specific information.

Where a course is specified as a corequisite course, it must be taken at the same time as (or prior) to the course requiring it as a corequisite.

Course Numbers

First Two to Four Characters

The two, three or four characters in every course number are a shortened version of the subject of the course.

Last Four Digits

At the University of Manitoba the last four digits of the course number reflect the level of contact with the subject.

For example:

ECON 1200 Principles of Economics Cr.Hrs. 6

ECON is the code for Economics.

1200 indicates that it is a introductory or entry level course.

If the course requires a laboratory, this will be shown following the credit hours immediately following the title.

For example:

BIOL 3242 Biodiversity: Vascular Flora of Manitoba Cr.Hrs. 3 (Lab Required)

The 2000, 3000, 4000 course numbers indicate the second, third, and fourth levels of university contact with a subject.

Numbers in the 5000 range are normally associated with pre-Master's work or courses in the Faculty of Education, e.g., Post Baccalaureate Diploma and the Post-Graduate Medical Education program.

Courses numbered 6000-8000 are graduate courses of the Faculty of Graduate Studies.

Course numbers in the 9000 series are used to identify courses taken at the University of Winnipeg by students in the University of Manitoba/University of Winnipeg Joint Master's Programs. The 9000 numbers do not indicate the level of the course taken (see *Graduate Calendar* or *University of Winnipeg Calendar*).

In most cases, some correlation exists between the course number and a student's year of study; that is, students in the third year of a program will generally carry course loads comprised primarily of 3000-level courses.

Other Course Information

Courses with numbers that end in 0 or an even number are taught in English usually on the Fort Garry or Bannatyne campuses.

Courses with numbers that end in odd numbers are taught in French at College Universitaire de Saint-Boniface.

SECTION 1: Steps to Registration

STEP 1 Consult your Faculty/School/University 1 chapter of this Calendar.

STEP 2 Obtain, where necessary, approval for your courses or program from the dean, director, or other faculty/school representative.

STEP 3 Prepare your timetable.

STEP 4 Use Aurora Student to register in the courses you have selected; or follow procedures outlined for you in the faculty/school section of this book. On the University home page (umanitoba.ca) choose Aurora Student, then Enrolment and Academic Records, and then Registration. (Students in the Faculty of Law; Northern Nursing program; Northern Social Work program; Inner City Social Work program; and English Language Centre program should contact their faculty or program office for registration instructions).

STEP 5 Use Aurora Student to obtain a fee assessment.

STEP 6 Pay your fees.

STEP 7 Obtain a student photo identification card.

STEP 8 Obtain your internet account.

Information on all the above registration components can be found in this book.

New editions of the *Undergraduate Calendar* and the *Graduate Calendar* are distributed on campus to current students in April. Course offerings and schedules are available at that time on the web at umanitoba.ca. The *Undergraduate Calendar* and the *Graduate Calendar* are also available on our website.

SECTION 2: Eligibility and Classification of Students

2.1 Registration Eligibility

Students are eligible to register if:

- they have been admitted to the University;
- unless new to the University, they have registered at least once in the last three terms (approximately one calendar year);

- unless new to the University, they must be in good Academic Standing;
- they do not have a current hold on their record;
- their time-ticket is valid (Note: some units register their students manually).

Students who have not attended in the past three terms may have to apply for re-admission. See Admissions section 4.2, Re-Admission, Continuing and Returning students.

In most faculties and colleges, academic advising is mandatory for some groups of students (e.g. honours program students) before they are eligible to register.

Registration is based on space availability-first-come, first-served once the eligible student's time-ticket is valid. Students are required to monitor space availability in class.

2.2 Health Requirements

While health examinations are not required for registration at the University of Manitoba, students registering in the following are advised to undergo a health examination with their physicians or the University Health Service: Nursing, Kinesiology and Recreation Management, as well as all students who are participating in organized intercollegiate or intramural sports.

Immunizations are considered essential in health science programs and information on specific requirements is included in the chapter pertaining to the program and is also available from the faculty or school general office.

All Canadian students must carry health insurance through their home provinces. All international students not covered by a provincial plan must purchase the medical insurance plan provided by the University of Manitoba. It is also recommended that international students undergo a health examination prior to their arrival in Canada.

Health and immunization services required for occupational or educational institutions are not covered under provincial insurance plans and will be provided on a fee for service basis either by the student's own physician or the University Health Service.

2.3 Student Authorization to Enter Canada

All international students must obtain a Student Authorization before entering Canada. The application for a student authorization must be processed through the nearest Canadian embassy or consulate. The following documents are required: valid passport; Certificate of Acceptance to the University of Manitoba; evidence of adequate financial support to live and study in Canada; and a letter from a relevant sponsoring agency if applicable.

2.4 Classification of Students

The classification of a student at the University of Manitoba is determined on admission. See the chapter, Admission to the University of Manitoba.

Undergraduate Students

Undergraduate students are those who are enrolled in University 1, or in a degree, diploma, or certificate program other than those offered by the Faculty of Graduate Studies or the Extended Education Division.

Special Student Registration

Special students are those who are admitted to a faculty or school with the permission of that dean or director to take one or more courses which are not to be included as credit toward a degree, diploma, or certificate. At the discretion of the dean or director, courses completed by a special student may subsequently be accepted as credit toward a degree program. Special students are allowed to register in courses the dean and/or director approves. The fee charged to each special student will be the fee normally associated with the course(s) when such course(s) is/are taken as a portion of a program by undergraduate students. Special students will be bound by the examination regulations and the withdrawal dates of the faculty or school in which they are registered. (Students admitted to the university in a category other than special, may with the permission of the dean or director take courses as a special student depending upon faculty/school regulations.)

Visiting Student Registration

Visiting students are those who enrol in one or more courses at the University of Manitoba with the purpose of having credit transferred to their home university.

Prior to being admitted for the first time, visiting students must present a Letter of Permission from the registrar, or appropriate dean, of their home university granting permission for enrolment in the specific course(s) desired. The Letter of Permission must be submitted to the Admissions Office along with their application to the University of Manitoba. Registration is not permitted until the Admissions Office has recorded the specific course permission and finalized the admission.

Once registered as a visiting student at the University of Manitoba, such students are eligible to reregister in subsequent sessions without reapplying through the Admissions Office provided: they have not changed their home university since their last registration at the University of Manitoba; they are registering in the same faculty/school at the University of Manitoba; and they have the Letter of Permission from their home university indicating the specific course(s) desired. If all of these requirements are met, visiting students must merely present their Letter of Permission along with their latest student history from the University of Manitoba, to the appropriate faculty/school representative prior to registration.

Auditing Student Registration

Students auditing course(s) are doing so for personal interest and not for academic credit and, as such, are not entitled to examination or other evaluation privileges. In no instance may degree credit be obtained for a course which has been audited. Students auditing any course must register and will be charged a fee equal to one half of the fee normally associated with that course when taken for credit purposes. See chapter, Admission to the University of Manitoba.

2.5 Student Status: Full-time and Part-time

Registered students fall into one of two categories based upon their credit hour course load. Full-time and part-time status is determined on a term basis.

Full-time students are those students registered in at least 60 per cent of the credit hours of the full term program for their faculty or school.

Part time students are students who are registered in less than 60 per cent of the credit hours of the full term program for their faculty or school.

Students who begin the term as full-time students and who in the course of the session withdraw from courses such that their credit hour level falls below 60 per cent of the full term program will automatically be classified as part-time students.

Eligibility

To be eligible for participation in Canadian Interuniversity Sport (CIS) competition, a student must be registered in at least 60 per cent of the credit hours of a normal full term's program in the term of competition.

Different criteria apply to Graduate students. For information, please consult the University of Manitoba Graduate Calendar.

SECTION 3: Getting Started

3.1 Students Registering at the University for the First Time

For students new to university as well as students transferring from other universities and visiting students, your Certificate of Acceptance will indicate the Faculty or School into which you will register. If you have not received your Certificate of Acceptance by mid-July, contact the Admissions Office at (204) 474-4408.

3.2 Your Student Number

Your student number is recorded on your Certificate of Acceptance. If you are a returning student and are either continuing in your program or transferring to a new program, you will continue to use the student number assigned to you at admission.

3.3 Your Personal Identification Number (PIN)

New Students

When you contact Aurora Student, you will be asked for your PIN — your Personal Identification Number.

When you first access Aurora Student, your temporary PIN is your date of birth. When prompted, enter your date of birth numerically as YYMMDD

(year, month, day). For example, if your birthday is February 8, 1986, you enter 860208 as your first PIN.

You will immediately be required to change your PIN to another sequence of numbers. This new PIN must be a sequence of six numbers different from your date of birth. Choose a sequence of six numbers that cannot be easily guessed by others, and remember to memorize your PIN. Also, keep your PIN number confidential. You are responsible for changes made to your registration using your Student Number and PIN.

You can change your PIN again, and as often as you wish, through Aurora Student.

Returning Students

If you are a returning student, use the same PIN that you used the last time you contacted Aurora Student.

If you have forgotten your Aurora Student PIN, you can still login by answering your security question. Enter your student number in the user ID box as usual, but click on the box labelled "Forgot PIN?" The system will prompt you to answer your security question, which when answered properly will allow you access to your account. Please note that you will need to set a new PIN immediately after accessing the system. This new PIN may not be your birthday or your previous PIN.

If you have difficulty with your PIN, call the Registrar's Office at (204) 474 9420 for help.

3.4 Transfer to Faculties and Schools

Following University 1

Entry to every faculty and school requires a formal application to Enrolment Services. Application forms, together with a detailed Applicant Information Bulletin, are available at Enrolment Services, 424 University Centre. Application deadline dates are available from Enrolment Services and are listed on the website at umanitoba.ca. Some faculties and schools admitting students from University 1 have application deadlines as early as February 1.

Target faculties and schools that students may enter after University 1 have established minimum admission requirements. It is strongly advised that students pay attention to these requirements when choosing their courses in University 1. Many target faculties and schools have also established a *Focused Approach* for choosing courses in University 1 that will allow students to complete their degree in the shortest possible time.

Target faculties and schools that admit students directly from University 1 require, for admission, the completion of either 24 or 30 credit hours, depending on the program. There are often alternative courses that will fulfil admission requirements and, with careful planning, the University 1 course selection can qualify students for admission to more than one program. The basic course requirements for admission to faculties and programs after University 1 are summarized in each faculty or school section in this calendar and in the University 1 *STARTbook*. Detailed information on admission requirements can be found in the *Applicant Information Bulletin* available for each program from the Admissions Office, 424 University Centre.

Students who have completed 30 credit hours or more with a cumulative Grade Point Average (GPA) of 2.0 must exit University 1 before registering in the next Fall/Winter terms. Students with 30 credit hours or more who have not met specific academic requirements will be required to remain in University 1 until those requirements are met.

Students who have completed 24 credit hours or more with a minimum cumulative GPA of 2.0 may apply for admission to another faculty or school to which they may be eligible. See the admission requirements section in each faculty or school chapter in this Calendar and the *STARTbook*. Student who have completed 24 to 29 credit hours with a cumulative GPA of 2.0 may elect to remain in University 1 and may register for a full course load.

Students who have completed 24 or more credit hours with a cumulative GPA of 1.99 or less may be required to remain in University 1. Students should refer to University 1's academic standards as outlined in Section 4.9 of this chapter.

Note: School of Art (Studio programs), the Faculty of Music, the School of Agriculture (the Agriculture Diploma program), and the Faculty of Engineering continue to admit students directly from high school, providing specific entrance requirements are met. Students may also apply for admis-

sion to these programs from University 1. See the chapters of these faculties and schools in this *Calendar* for program information.

3.5 College Membership

For information about membership, services and academic programs in one of the following colleges, consult the chapter on College Membership and/or contact the college office at:

St. Andrew's College (204) 474-8896

St. John's College (204) 474-8531

St. Paul's College (204) 474-8575

University College (204) 474-9751

You may declare a college membership through Aurora Student. Access "Enrolment & Academic Records," then "Declarations." Select "Declare College Membership," verify current information and select "Add."

3.6 Definitions and Terms

Faculty, School, College and Subject Codes

A complete list of faculty, school, college and subject codes appears in the chapter, "University Codes" at the front of this book.

Academic sessions

The academic year is divided into two sessions: Fall/Winter Session and Summer Session. Fall/Winter Session is comprised of Fall Term and Winter Terms. All faculties and schools offer courses during Fall and Winter Terms, and some faculties and school offer courses in Summer Session.

A special twelve month Bannatyne Undergraduate term is used for programs offered in the Post Graduate Medical Education program.

A limited number of courses are also offered by distance education. Distance Education is an option for students whose personal circumstances make it difficult to attend classes on campus. Distance Education Courses are offered in Fall, Winter and Summer Terms.

Information on Summer Session and Distance Education courses is available from the Extended Education Division, 188 Extended Education Complex; telephone (204) 474 9921.

Course Sections

Courses with sections beginning with an "A" (e.g., A01, A02) are the lecture or seminar sections. Courses with sections beginning with a "B" (e.g., B01, B02) are laboratory sections. If a course has a lab requirement, you must register for a laboratory section. Courses that begin with a "D" (e.g., D01, D02) are taught through Distance Education. Courses with "R" sections have enrolment restricted, usually to a specific faculty or program. Courses with "K" section numbers have field work fees in addition to normal tuition. Courses with "T" section numbers are Topics Courses where the course content changes from year to year.

Course Registration Numbers

Each section of each course is assigned a Course Registration Number (CRN). This is the number you will use for registering in a specific section of a specific course. Instructions for using the CRNs may be found on the website as you register.

Class Days

M = Monday

T = Tuesday

W = Wednesday

R = Thursday

F = Friday

S = Saturday

Time Between Classes

The 10- or 15-minute break between classes provides time to move from one class to another. As you prepare your timetable, refer to the campus maps at the end of this book. Consider the locations of your classes and the distances between them.

3.7 Declaring Your Major and Minor

If you are registering in one of the faculties of Agriculture and Food Sciences, Arts (General), Management or Human Ecology, you may declare your major and/or minor through Aurora Student. Access the University of

SECTION 4: Your Registration Time

Find your registration time on-line through Aurora.

Students will normally enrol in courses on line using the University of Manitoba Registration System (Aurora Student). Access to registration through Aurora Student begins in June of each year and continues throughout the summer. At the time of the printing of this Calendar, the following are registration periods.

June 15, 2009	Students in the following Faculties/Schools: Medical Rehabilitation (including Occupational Therapy), Medicine, Dentistry, Dental Hygiene and Pharmacy
July 8, 2009	Students with Disabilities, Athletes and President's Scholars
July 9, 2009	First Year Engineering Students
July 13-16, 2009	New University 1 Students, Direct Entry School of Art, Faculty of Music Students, Year 4 Faculty of Management Students, Faculty of Human Ecology Students, and Faculty of Nursing Students
July 20-July 31, 2009	Returning Students and Transfer Students
August 6, 2009	Special Students, Visiting Students, Extended Education Students, Post Baccalaureate Diploma in Education Students

Each student will be assigned a Registration Time according to his/her program and the criteria established by the faculty or school. The Registration Time given is the first instance when you will be allowed to register.

On July 6, 2009, (except those students beginning registering June 15) you may find your personal initial access time by accessing [Aurora Student](#), then [Enrolment and Academic Records](#), then [Registration](#), and then [Registration Status](#).

Exceptions to Aurora Student Registration

Students registering in the following programs will not register through Aurora Student: Year 1 Law; MBA; PGME; PHD Management; Northern Nursing program; Northern Social Work program; Inner City Social Work program; and English Language Centre programs. Students will receive registration information from the faculty or school. Please consult the appropriate faculty or school chapter of this Calendar for specific information.

Other Courses for credit that are offered to University of Manitoba students at the **Canadian Mennonite University**, **William and Catherine Booth College**, and **Collège universitaire de Saint-Boniface**, are not available through Aurora Student. If you are interested in taking a University of Manitoba credit course at any of these colleges, contact your faculty or school as well as the college directly.

SECTION 5: Written English and Mathematics Requirement

All students admitted since 1997-98 must complete a minimum of three credit hours with significant content in written English, and a minimum of three credit hours with significant content in mathematics, within the first 60 credit hours (or first two years) of their programs.

Courses with attributes of "Written English" and "Mathematics" may be found in Appendix A of the chapter, General Academic Regulations and Requirements. Course attributes may also be found on the web.

Each faculty and school chapter of the *Undergraduate Calendar* describes how to satisfy the written English and mathematics requirements.

SECTION 6: Access to and Withdrawal from Courses

6.1 Prerequisites and Corequisites

Prerequisite: If a course is prerequisite for a second course, the prerequisite must be met in order to begin the second course. To determine whether or not a course has a prerequisite, see the course descriptions in this *Calendar*. Normally, a minimum grade of "C" is required in all courses listed as prerequisites, except as otherwise noted in the course descriptions.

Some prerequisite courses may be taken concurrently. In this instance, the course description will indicate that a specific course is a pre- or corequisite for the course in which you wish to register. If you have not previously taken the course, you may register for it in the same term.

Corequisite: If a first course is a corequisite for a second course, the first course **must** be completed in the same term as the second course. To determine if a course has a corequisite, see the course descriptions in this *Calendar*.

6.2 Challenge for Credit

Some courses may be "challenged for credit." This is a method of establishing university credit based on previous, non-University of Manitoba experiences. See the faculty or school chapters in the Undergraduate Calendar and this Registration Guide for information on the regulations specific to each program. Challenge for Credit courses cannot be added through Aurora Student. To challenge a course for credit you must receive written permission from the department offering the course, and provide it to the University 1 Student Help Centre if you are a new student, or to your faculty or school office if a returning student.

6.3 Repeating Courses

Students are normally permitted to repeat a course only once. Students who wish to repeat a course for which they previously have earned a grade must contact their faculty or school for assistance.

6.4 Laboratory Exemptions

If you wish to repeat a course for which you have passed the laboratory, see the general office of the department offering the course to be sure that you are eligible for a laboratory exemption. Only certain courses (usually courses in the Faculty of Science) offer laboratory exemptions.

6.5 Registering for Courses in Other Faculties or Schools

University 1 students are referred to the course list in the University 1 chapter.

Students registered in faculties or schools wanting to register in a course or courses in another faculty or school should check the regulations in the chapter of their own faculty or school with respect to courses that can be applied to their programs. Also, such students should check the regulations of the other faculty or school to determine their eligibility and the availability of space.

6.6 Letters of Permission

Students who wish to take courses at another university do so on a Letter of Permission.

University of Manitoba students wishing to take a course or courses at another university may obtain a Letter of Permission form from the Registrar's Office, 400 University Centre. The course(s) you wish to take will be evaluated by your home faculty or school, and a determination will be made as to whether or not the course(s) may be used to complete your program.

Students from another university coming to the University of Manitoba on a Letter of Permission will be admitted as a Visiting Student, and may register as would any other University of Manitoba student.

6.7 Auditing Courses

Sometimes, a student will have an interest in the content of a course which he/she will not apply to any degree program now or in the future. In effect, then, the student "sits in" on a course without completing assignments or examinations. This is called "auditing" a course. A student wishing to audit a course should seek permission from his/her home faculty or school.

SECTION 7: Choosing Courses and Planning a Timetable

The courses you choose will be a combination of “required” courses and “elective” courses. Each faculty and school outlines the basic requirements in its chapter within this *Undergraduate Calendar*. Course descriptions may be found in the last chapter of this book.

Course descriptions and class schedules may be found in Aurora Student on the website at umanitoba.ca.

Not all courses are offered every year. Most faculties and schools rotate their more advanced level courses over several years so they are available to you at least once during your academic career.

If you need more information about planning a timetable, registering for courses and/or fee assessment, please refer to our website at umanitoba.ca/registrar.

SECTION 8: Other Registration Information

8.1 Applying to Graduate

Please ensure that you declare your intention to graduate at the time you register for the term in which you expect to graduate. Use the Declarations function on Aurora Student to declare your intent to graduate. The deadline date for declaring your intention for May graduation is January 31; for October graduation, August 1; and for February graduation, September 30. After indicating your expected date of graduation, you will receive a verification letter from the Registrar’s Office.

If you need to change your graduation date after declaration is made you must contact the General Office of your faculty or school.

For more information about graduating and Convocation, please see Section 8 of the chapter, General Academic Regulations and Requirements.

8.2 Voluntary Withdrawal (VW) from Courses

When considering whether or not to drop a course, note that not all your fees are refunded, and the actual refundable amount is based on when you withdraw. (See the chart on the inside front cover of this book for withdrawal and fee refund dates and deadlines). In addition, courses dropped after the revision period will appear on your academic record as VW. To withdraw from any course, or an entire program of studies, you must use Aurora Student if you are eligible to do so.

You do not “drop” or voluntarily withdraw from a course by simply not attending class, or not paying your fees. You must complete the voluntary withdrawal procedures.

If you are registered in a faculty/school that does not register through Aurora Student, you must initiate your withdrawal action in person, or in writing, through the general office of your faculty or school.

Students who registered using Aurora Student must withdraw through Aurora Student.

If you are a student with a scholarship, bursary, or student loan, a voluntary withdrawal may affect your eligibility for that financial support. Before withdrawing, consult Financial Aid and Awards, 422 University Centre Phone: (204) 474-8197 for information on the impact voluntary withdrawal may have on your financial assistance.

8.3 Authorized Withdrawal (AW) from Courses

Students with valid and documented reasons for withdrawal, such as medical illness or compassionate circumstances, may be authorized to withdraw from a course or courses without academic penalty. Should you wish to apply for an authorized withdrawal, see a student advisor in your faculty or school or at the University 1 Student Help Centre as may be applicable. Receipt of an Authorized Withdrawal does not necessarily result in a tuition refund.

SECTION 1: Fee Assessment

1.1 Obtaining your Fee Assessment

When you have finished registering for your courses, you must request a fee assessment through Aurora Student. **To view your fee account, go to the Enrolment and Academic Records section where total amount due, balance due by term, and payment deadline dates are provided.** -

Please Note: Fee statements will not be mailed to students. Payments received after published fee deadline dates will be considered late. A late payment fee will be assessed on all overdue accounts. Your account may also be placed on Hold which will restrict access to University services.

1.2 Registration Revisions and Fee Payment

You can add, change, or drop courses up to the start of classes and within the Registration Revision period. However, to avoid late fees or deregistration for non-payment, you must pay your fees by the fee payment deadlines even if you are still planning to make changes to your program. Additional fees resulting from changes made after the fee payment deadline are due immediately.

If after registering for courses, you decide not to attend, it is your responsibility to withdraw.

1.3 Appeal of Fee Assessment

To appeal your academic fees on medical or compassionate grounds, you must do so in writing on a Fee Appeal Form. Appeals are considered by the Registrar's Committee on Fee Appeals. (Appeals dating back more than one academic year will not be considered). Where the amount in question exceeds \$500, you may re-appeal an unfavourable decision to a University fee appeals committee. See the Registrar's Office for information.

1.4 Property Damage Assessment

The university may levy an assessment against a student or students for damage to, or loss of, university property, equipment, or materials.

1.5 Provisionally Registered Students

Students whose registration is cancelled after being allowed to register provisionally pending receipt of documentation or clarification of their academic status are responsible for academic fees for the period during which they were provisionally registered.

1.6 Age Exemption

Academic fees will be waived for Canadian citizens or permanent residents who reach age 65 by September 1 for the Fall and Winter Terms, or May 1 for the Summer Terms, provided they have been admitted and are eligible for registration. Proof of age and citizenship status may be required.

1.7 Student Organization Fees

Student organization fees, with the exception of the fee for the University of Manitoba Students' Union Student Accident Plan, are assessed dependent upon the faculty/school, the program, and the course load of the individual student.

1.8 International Student Differential Fee

All Undergraduate international students will pay a 180% international student differential fee for the courses in which they register. A 100% differential fee is assessed to Graduate Studies international students. Refer to the 2009-2010 fee information on the website: umanitoba.ca after July 10, 2009. Prior to this time, you may consult the 2008-2009 fee information.

1.9 Late Registration with Late Fees

You may use Aurora Student to register during the registration revision periods. (See inside front cover for dates.) If you wait to make your initial registration after classes start, you will be assessed late registration fees in addition to the normal fees.

Fees must be paid immediately following your late registration. **No Fee Statement will be mailed to you.**

1.10 Your Tax Receipt (Form T2202A)

All T2202A forms will be issued on line. Once you have accessed Aurora Student, select Enrolment and Academic Records, then Canadian Tax Forms.

You should check the information provided on the screen, print out the form and include it with your tax return. Students without internet access may use University computer labs to print their T2202A. Off-campus students without internet access should call 474-9420. Errors or omissions may be reported to the Registrar's Office, 400 University Centre.

Tax receipts will be available through Aurora Student before the end of February.

SECTION 2: Fee Payment

Please Note: All correspondence with students regarding late payment and deregistration is based on address information found in Aurora Student. It is the student's responsibility to ensure that address information including email is current and valid.

2.1 Payment Deadlines

Payment deadlines are posted on Aurora Student. Please check your student account to confirm deadline information

Fall Term fees must be paid by 4:00 pm Wednesday September 9, 2009. Winter Term fees must be paid by 4:00 pm Thursday January 7, 2010.

If you **revise** your registration after these dates, any increased amount is due immediately. **Any credit balance arising from** a revision may be eligible for refund. See Section 3 for Refund information.

2.2 Methods of Fee Payment

For additional information regarding Fee Payment please visit our website at:

umanitoba.ca/feepayment or see **Fee Payment link on University web page.**

or follow the links from the Registrar's Office home page for "fee information."

PLEASE NOTE: Tuition fees can not be paid by credit card.

Web/Phone Banking

Payments can be made using **on-line or telephone** banking. Both of these methods make paying your tuition easier than ever, as payments can be made 24 hours a day, seven days a week, from anywhere in the world.

There is no additional charge for using this service. If you are not already using On-line or telephone banking, sign up **now** by contacting your **personal** financial institution or visit <http://umanitoba.ca/feepayment> for links.

When using this service you will be asked for an "account number." **This** is your seven-digit student number. It is your responsibility to ensure that this student number is **entered correctly**. Using an incorrect student number could result in your payment being misapplied or delayed. For assistance, call 474 9433 or contact your financial institution. Please allow **at least 48 business hours** for your payment to be received by the **University and processed to your student account. Late fees will apply if the payment date provided by the bank is after the deadline.**

Tel-Pay

You may also pay your fees by telephone if you are a member of Tel-Pay, a computerized telephone bill payment service. Call Tel-Pay at (204) 947-9300 for details. Please allow **at least 48 business hours** for your payment to be received by the **University and processed to your student account.**

By Mail

Cheques, money orders and bank drafts, payable to the University of Manitoba, can be mailed to:

Cashiers' Office
The University of Manitoba
138 University Centre
Winnipeg, Manitoba R3T 2N2

Please write your student number and telephone number on the back of your cheque, money order or bank draft. Do not send cash.

Payments received after the deadline date will be assessed a late payment fee regardless of when they were mailed. We recommend that you allow sufficient time for the payment to arrive at the University of Manitoba before the deadline date.

In Person

You can pay your fees at the following Cash Office locations:

Fort Garry Campus	Bannatyne Campus
138 University Centre	P001 Pathology Building
8:30 a.m. to 4:00 p.m.	8:30 a.m. to 4:00 p.m.

These offices will accept cash, cheques, certified cheques, debit cards (Interac), bank drafts or money orders payable to the University of Manitoba. Remember that in-person payment can involve long line-ups. If paying by **debit card** (Interac), please ensure that you know your daily **withdrawal** limit before visiting the cash office.

You may also drop your payment (cheque, certified cheque, or money order only) into the **express drop box** located outside 138 University Centre (Fort Garry Campus) or Room P001 Pathology Building (Bannatyne Campus). Cheques must have a current date (if dated for after the fee deadline, applicable late fees will be assessed); be signed; have matching written and numerical amounts; include a student number and phone number, and be payable to the University of Manitoba. A \$30 administration fee, plus applicable late fees, will apply to all returned cheques.

Payments dropped into the express drop box after 4:30 p.m. on the deadline date will be considered "late" and you will be assessed a late payment fee.

2.3 Late Payment and Non-Payment of Fees

Where payment is not received before the payment deadline, a late payment fee will be assessed and your account may be placed on Hold..

Student **accounts** with outstanding balances at the end of the revision period will be assessed a reinstatement fee of \$40.00 and may **be subject to deregistration from their courses.**

Student accounts that remain outstanding at the end of the academic session will be sent on collection.

Students placed on Hold status are denied access to most academic and administrative services until full payment is received.

Deregistered students must apply for reinstatement as soon as possible; reinstatement will not be granted following the voluntary withdrawal deadline in each term. Reinstatement, if granted, applies to **ALL** courses on your record at the date of cancellation. Payment in full must be received before reinstatement is complete. Acceptable methods of payment are: cash, debit card (Interac), certified cheque, or Money Order

2.4 Sponsored Students

If your fees are to be paid by an outside agency or sponsor, the sponsor must submit a Tuition Sponsorship Application form .

Applications must be received prior to the fee deadline for each term to avoid late payment penalties and holds on ~~your~~ student accounts. Sponsorship applications will not be accepted after September 23, 2009 for Fall term or January 19, 2010 for Winter term. After this date students are responsible to seek reimbursement directly from their sponsor. **NOTE: The University of Manitoba will not be responsible for reinstating a student's registration where deregistration has occurred due to late receipt of a sponsorship application form.**

Invoices to third parties are mailed out at the end of the revision period in each term. Late receipt of sponsor payments may result in Holds on student accounts.

Payment due dates, Tuition Sponsorship Application forms and other information for Sponsors is available at <http://umanitoba.ca/fee> payment.

2.5 Appeal of Late Payment

To appeal late payment fees or reinstatement fees, obtain an Appeal for Waiver Penalties form from the Cashiers Office, 138 University Centre. For more information or to download a form, please visit our web site at umanitoba.ca/fee payment

SECTION 3: Refund Schedule

You must withdraw using Aurora Student. Aurora Student is accessible to students 24 hours a day, seven days per week including holidays.

The amount eligible for refunds is calculated based on the full cost of the course (not including field trip fees and late registration **fees**). Refunds will first be applied to outstanding balances (including unpaid **future term balances**). Refund cheques are normally mailed within four to six weeks and only if there are no balances owing to the University or to a provincial and/or federal loan funding body. **Where tuition was paid by a third party sponsor , the refund will normally be issued to the sponsoring agency.** For information on requesting a refund please see the following website:

umanitoba.ca/feepayment.

The University is currently reviewing the policy regarding fee refunds. Please check the web site after July 1, 2009 for applicable refund dates.

3.1 Withdrawal and Course Change Warning

It can be expensive to withdraw from courses, or change courses, after the end of the course revision period. Before you take any action of this type, familiarize yourself with the refund policies and determine the implications for your program. Check the web site after July 1, 2009 for 2009-2010 refund dates.

3.2 Withdrawal and Fee Refund Dates

Most faculties and schools have courses with start and end dates as shown on the inside front cover of this book in a chart, "Important Dates." Other faculties and schools have irregular start and end dates.

If your course or courses have start and/or end dates different from those in "Important Dates," please check with your faculty or school office for appropriate voluntary withdrawal dates.

3.3 Non-Refundable Fees

The following fees are not refunded when you withdraw from your program or any courses in it:

- Application for Admission
- Admission Acceptance Deposit
- Examination Fees
- Field Work Fees
- Graduate Continuing Fee
- Incidental Fees
- Late Registration Charges
- Letter of Permission Fee
- Other Compulsory Fees
- Reinstatement Fee
- Late Payment Fee

SECTION 4: 2009-2010 Fees

4.1 How to Find Academic Fee Schedules on the Website

A complete schedule of Undergraduate and Graduate 2009-2010 fees including tuition, student organization, endowment, health insurance and field trip fees will be available on our website: umanitoba.ca/registrar after July 10. Should you wish to have some indication of the costs involved in your chosen program, 2008-2009 fees may be accessed on the web prior to July 10.

4.2 Application and Other Fees

Many faculties and schools have additional fees assessed on courses (such as Kinesiology and Recreation Management activity fees) or assessed on program registration (such as technology fees and fees for the rental of dental equipment). Please check the website in mid-July to determine the fees you will be required to pay.

Field Work Fees

Some courses include extra activities and will require a field work fee. Please check the website in mid-July to determine any field work fees you will be assessed.

Application Fees

Application Fees are charged as indicated below for all undergraduate programs. Such fees are assessed by session of application for all categories of applicants, **including internal transfers**. The application fees are non-refundable and will **not** be credited against any university fees.

\$60.00 Application Fee:

University 1

\$75.00 Application Fee:

Agricultural and Food Sciences (degree and diploma); Arts; Aboriginal Focus and General Studies (Extended Education); Engineering (direct entry from high school); Environment, Earth and Resources; Fine Arts (degree and diploma); Human Ecology; Music (including the Post Baccalaureate Certificate in Performance); Nursing (off-campus and joint programs only); Post Baccalaureate Diploma in Education; Science; Social Work [off campus programs only – Northern (Thompson), William Norrie Centre; Cohort sites; Social Work Distance Education].

\$90.00 Application Fee:

Dental Hygiene; Dentistry; Education; Engineering (transfer students); Environmental Design; Law; Management; Medical Rehabilitation; Medicine; Nursing; Pharmacy; Kinesiology and Recreation Management; Social Work [Fort Garry Campus and Thompson (External)].

\$100.00 Application Fee:

All faculties and schools from international students.

Acceptance Deposits

Acceptance deposits are required in some programs from students when they indicate that they will be accepting the admission offer. The amount varies by program. The amount and the deadline for payment of the acceptance deposit will be included in the acceptance letter sent to successful applicants. The amount of the deposit is credited towards tuition fees.

Certification of Oral Proficiency

A Certificate of Oral Proficiency is awarded for demonstrated proficiency in a language other than English. The test is offered to anyone wishing to have their oral ability in a second language appraised. Cost: \$55.

The tests are conducted through the various language departments of the University of Manitoba and consist of language comprehension and conversation. A certificate is awarded only to those who are successful in the test. Grades of either **A** or **B** are given. Tests are offered by the following departments: French and Spanish, German and Slavic Studies, Icelandic, Native Studies, Near Eastern and Judaic Studies. Application should be made through the Registrar's Office, 400 University Centre.

Registrar's Office Service Fees

The Registrar's Office charges nominal fees for services such as:

- Certificates of Enrolment
- Replacement of lost Photo ID cards
- Parchment replacement including replacement with name changes)
- Duplicate tax receipts
- Documentation searches

The amount of these fees for the current session are available at umanitoba.ca/registrar.

Examination Fees

An Off-Campus exam is any exam for which application is made to write at a time or place which differs from the official university/departamental exam timetable. It does not include approved deferred exams.

Special examination fee (per exam paper):

\$60, plus invigilation and courier costs

Supplemental examination fee (per exam paper): \$75

Special examination fee (per exam paper): \$75

Grade Appeal Fee

A \$30 fee is charged per examination grade appealed and is refunded if appeal is granted – wrong amount

Health and Dental Insurance

All full-time undergraduate and graduate students are members of the UMSU Health and Dental Plan and are automatically assessed a fee for this insurance on their tuition statements. (For 2008-2009, the fee was \$226.55. The fee for 2009-2010 will be available on the web in July).

Students who are already covered under an extended health plan and/or a dental plan may choose to opt out of the UMSU plan. Application to opt out must be done online. .

Information on the UMSU Insurance Plan is available from the UMSU Health and Dental Office, Room 110, University Centre (Phone: 474-6666) on the web at www.umsu.ca.

In addition, International students are required to have basic health insurance. Please see the chapter, Other Important Things to Do and Know, Section 7: Information for International Students.

Letter of Permission Fee

All Letters of Permission: \$52

Locker Fee

Lockers may be made available to students in the building of their faculty or school (usually from their student council or association) with a fee receipt from Financial Services to certify payment of academic fees. The university reserves the right to allot one locker to more than one student. Locker fee rates are the responsibility of the student association.

Recreation Facility Use Pass

The Faculty of Kinesiology and Recreation Management charges a fee for a pass to its facilities. Please consult our web site at: umanitoba.ca/rec_services, for rates, schedules, and other information pertinent to facility use. Information is also available from the Equipment Desk, Frank Kennedy Physical Education Centre. Students must present their Student Photo ID card when purchasing this pass.

Transcript Fee

Each official transcript: \$10.50

Audit Courses

Graduate students auditing courses must register for the course(s) and will be charged a fee equal to one half of the fee normally associated with that course.

Distance Education Courses

Independent Study courses are covered by the Graduate Program Fees if they are approved as part of the student's current program.

Extra Courses

Courses taken by graduate students in addition to those approved for their degree programs, are classified as OS (occasional) under "Course Category." For these courses, students are assessed the appropriate undergraduate fee based on teaching department for all courses taken. Fees paid for such courses are not transferable to a degree program at a later date.

4.3 Occasional Students

All occasional students are assessed the appropriate Undergraduate fees based on teaching department for all courses taken.

Fees paid by a student while registered as an occasional student are not transferable to a degree program at a later date.

Other Important Things To Do and Know

SECTION 1: Personal Information and Identification

1.1 Photo Identification Cards

Your student photo identification (Photo ID) card is your access key to all student services.

You should carry your Photo ID card with you at all times. It is issued when you first register and is permanent throughout your attendance at the University of Manitoba.

The Photo ID Card is your library card. You will also be asked to show it when you sit for examinations, and you will need it if you pay the athletic facility use fee, purchase a food service meal plan or purchase a discounted bus pass.

ID Cards for New Students

Once you have been admitted, you can obtain your Photo ID starting April 1. You will need to present a piece of photo identification (e.g. Manitoba Driver's License) or two pieces of other identification.

You are encouraged to obtain your card during the summer when waiting times are shorter. A fee payment receipt to indicate that you have registered is not required, but some form of current photo identification is.

ID Cards for Returning Students

The Photo ID Card you received the first time you registered is valid for your use as long as you are a student. Your registration is checked by computer when your card is passed through an ID Card reader, so it is not necessary to renew or reactivate your ID card each year.

ID Centre Location and Hours

For most of the year, the ID Centre is in the Registrar's Office, 400 University Centre and is open from 8:30 a.m. to 4:15 p.m. On September 2 and 3 the I.D. Centre in the Registrar's Office will be closed. During these two days, a special I.D. Centre will be operating in the Sundown Room, 1st Floor, University Centre from 9:00 a.m. to 4:00 p.m.

Replacement Cards

If your Photo ID card is lost or stolen, or you change your name, you should get a new ID card at the ID Centre, Registrar's Office, 400 University Centre.

There is a \$15 fee for a replacement card regardless of the reason for loss, except in cases where the loss was reported to the Winnipeg police and a police report number is provided to the ID Centre. Cards that have been damaged as a result of a defect in materials will be replaced free of charge.

ID Card and Photo Copy Service

The magnetic coding on your Photo ID card can be "loaded" with a sum of money so that you can use the card at library photocopying machines or at library microform machines.

Your Photo ID card can be encoded with a cash amount at the cash card manager units in the Elizabeth Dafoe Library, the Albert D. Cohen Management Library, the D.S. Woods Education Library, the Sciences and Technology Library, and the Neil John Maclean Health Sciences Library.

If you have an old ID card with only one magnetic strip, you may exchange it at the ID Centre for a dual striped card at no cost.

1.2 Campus Parking

Beginning in May, detailed instructions on how and when to apply for your student parking permit will be available through the Parking and Shuttle Services website (umanitoba.ca/parking). The sale of student parking permits is available through our Online Application System only.

1.3 Changes of Personal Information

You may make changes to your personal information by accessing Aurora Student and then selecting Personal Information.

Mailing Address

In order to receive University mail, it is essential that you provide the Registrar's Office with your current address. All mail will be directed to the address you provide.

Change of Name

If you have changed your name since you first registered, official evidence of the name change (such as a marriage certificate) must be submitted to the Registrar's Office. If you are unable to submit your name change documentation before registration, register under your former name, and then submit your name change information to the Registrar's Office after registration.

The University of Manitoba uses your full legal name on its records, transcripts, and on graduation documents. Abbreviated or anglicized names should not be used unless they have been legalized with documentation.

SECTION 2: Attendance at Class

Attendance at class is expected, but enforcement is at the discretion of your instructor. Students are responsible for all information given in class, including the important announcement of due dates, etc. In many classes, the information discussed in class is in addition to textbook information. Some classes assign marks for class participation.

As some faculties and schools have specific rules about attendance, students are asked to review the academic regulations section of their home faculty or school in the *Undergraduate Calendar*.

SECTION 3: Examinations

3.1 Examination Schedules

For most faculties/schools, final examinations are conducted in December for Fall Term courses; and in April/May for Winter Term and Fall/Winter Term courses. The Academic Schedule of the University, located at the front of this book, should be consulted for the exact time periods. A Preliminary Examination Timetable is posted approximately one month after the beginning of the term. The Final Examination Timetable, which contains the exact times and locations for each course and section, is posted by the Registrar's Office approximately six to eight weeks prior to each examination period. The examination timetable is available on the Registrar's Office Website (umanitoba.ca/registrar). **Students must remain available until all examination and test obligations have been fulfilled.**

3.2 Missed and Deferred Examinations

If you miss a final examination for medical or compassionate reasons, you may be granted a deferred examination. Travel plans are not an acceptable reason to miss examinations. University 1 or your home faculty/school, as appropriate, can arrange a deferred examination for you. To make this arrangement, you must report to University 1 or your home faculty or school, normally, no later than seven working days after the end of the examination series in which the examination was scheduled, and provide written proof (such as a medical certificate) supporting your reason for the missed examination. The dates of your illness or affliction must correspond to the dates of the examination. If your request is approved, you will, in most cases, be offered the opportunity to write another examination within 30 working days from the end of the examination series from which the examination was deferred. More information about this may be found in the General Academic Regulations and Requirements chapter of the *Undergraduate Calendar*.

If you miss a mid-term examination for personal or medical reasons, you must report to your instructor as soon as possible and provide written proof supporting your absence from the test or mid-term examination.

Missing an examination is serious. There are many ways your instructor can accommodate you and the options are up to the instructor and the department. Writing a make-up test at your convenience may not be one of these options.

SECTION 4: Release of Grades

Grades will be posted on the Aurora Student website when received. This may be a few days after classes for some courses and up to a few weeks after final examinations for others.

Students may access their grades through Aurora Student. Click on [Enrolment and Academic Records](#), [Student Records](#), [Final Grades](#).

Appeal of Grades

Students wishing to appeal grades should contact the Registrar's Office to make application. The deadlines for grade appeals fall 15 working days from the first day of second term courses and 15 working days from the Victoria Day Holiday. For 2007-08 these dates are as follows:

Appeal of Fall Term Courses: on or before January 26, 2010

Appeal of Winter Term and Full Courses: on or before June 7, 2010

For more information, including fees, please consult umanitoba.ca/registrar.

SECTION 5: Graduation and Convocation

5.1 Graduation

Students may elect to graduate from the University of Manitoba in February, May, or October. Note that convocation ceremonies are held in May and October only (see 8.3 Convocation).

Students are eligible to graduate when they have completed all of the requirements for their degree programs in accordance with the regulations described in the *Undergraduate Calendar* and the regulations available from the general offices of their faculties and schools.

It is the student's responsibility to be familiar with the graduation requirements of his or her program. Consultation with an academic advisor is recommended to ensure that graduation requirements will be met.

Please refer to the Registrar's Office website (umanitoba.ca/registrar; click on Graduation and Convocation) for answers to frequently asked questions about Graduation.

5.2 Application for Graduation

Every candidate for a degree, diploma, or certificate must declare his or her intention to graduate at the beginning of the academic term in which s/he expects to complete graduation requirements.

All students, regardless of their faculty, make this declaration of graduation on-line through Aurora Student. Login; click [Enrolment and Academic Records](#), then [Declarations](#), then [Declare Graduation Date](#).

The deadline date for declaring your intention for February graduation is the last day for registration revision for fall term (in September); for May graduation it is the last day for registration revision for winter term (in January); and for October graduation it is the last day for registration revision for summer session (in July). Please refer to the *Academic Schedule Section 9 University Convocation* to find the specific deadline dates for declaration.

If you need to change your graduation date after you have made your declaration, you must contact the general office of your faculty or school as soon as possible.

After you have declared your graduation, you will be sent a series of e-mails requesting you to verify your full legal name, asking you about your attendance at convocation, providing convocation information, and so on. **It is imperative that you activate your University of Manitoba e-mail account and check it regularly.**

5.3 Convocation

Convocation ceremonies are held in May/June (for February and May/June graduates) and in October (for October graduates only) of each year.

Graduating students are encouraged to participate in Convocation and to invite their family and friends to celebrate the successful completion of their programs of study. Prospective graduates will receive correspondence from the Registrar's Office about Convocation and are expected to respond to these communications as requested. Please refer to the

Registrar's Office website (umanitoba.ca/registrar; click on Graduation and Convocation) for answers to frequently asked questions about Convocation.

Students who are unable to attend Convocation will receive their degrees in absentia, and their parchments will be mailed to the student's current address as it appears in Aurora.

The Registrar's Office will hold unclaimed parchments for a maximum of twelve months after graduation, at which time any unclaimed parchments will be destroyed. These will include those not given at Convocation, those that were to be picked up in person but not claimed, those that were mailed but returned to the Registrar's Office by the postal outlet or courier depot, those that were not issued due to a financial hold on a student's records, and those that were reprinted immediately after convocation due to corrections but were unclaimed.

It is critical that you update your address, phone number, and e-mail through Aurora whenever changes occur. Note that any changes made with the Alumni Association are not reflected in your University of Manitoba student records.

If you do not receive your parchment, it is your responsibility to follow up with the Registrar's Office within a twelve-month period. Any requests for parchments after this time will be processed as replacements; there is a fee charged for replacement parchments.

5.3.1 Academic Dress

Academic gowns, hoods, and caps are provided by the university as part of the Convocation arrangements.

5.3.2 Convocation Information

Information about Convocation may be obtained from the Registrar's Office, 400 University Centre.

Please also refer to the Registrar's Office website (umanitoba.ca/registrar; click on Graduation and Convocation). There you will find answers to frequently asked questions about convocation, upcoming convocation dates, and other information pertinent to Convocation.

SECTION 6: Financial Aid

Financial Aid and Awards, 422 University Centre, provides assistance and advice on all matters relating to student aid and university awards.

6.1 Student Loans

For Manitoba residents, the Manitoba Student Aid Branch is your contact when applying for federal and provincial loans, grants and bursaries. Assistance is based on an assessment of financial need and is provided primarily in the form of repayable Canada and Manitoba Student Loans. Non-repayable grants and bursaries are also available.

You should apply well in advance of your program start date. You can obtain information about student financial assistance and apply on-line at: studentaid.gov.mb.ca. With the interactive on-line application, you will receive an estimate of Canada Student Loan and Manitoba Student Loan assistance within minutes of submitting your application. You will receive a letter notifying you of the actual assistance within two weeks. You can also obtain a paper application at Financial Aid and Awards, 422 University Centre. Applications for the 2005-2006 academic year are available in early June 2005.

Manitoba Student Loans and Canada Student Loans are interest-free and payment-free while you are in full-time studies. For Canada Student Loans, interest begins to accumulate once you cease to be a full-time student and the first payment is due six months after your end of study date.

Manitoba Student Aid has two offices to serve you:

In Winnipeg at 409-1181 Portage Avenue, call (204) 945-6321

In Brandon on the 3rd floor, 340-9th Street, call (204) 726-6592

If you are not a Manitoba resident, your application for financial assistance must be made through your home province or country.

6.2 Scholarships and Bursaries

If you have qualified for a scholarship from a program administered by the University of Manitoba, you will be notified by letter. This letter will also provide information on the award you have received. Prior to your appli-

cation, you must have been a Manitoba resident for at least the previous twelve months.

To apply for a bursary, which is a need-based financial award, you must complete a separate bursary application. These application forms are available in September from Financial Aid and Awards, 422 University Centre. The application deadline is October 1.

6.3 Registration Requires Fee Payment

Application for a Canada Student Loan does not exempt you from late payment of fee penalties, late registration charges, or cancellation of your registration for non-payment. If you have applied for student assistance by June 30, but are unable to pay your fees by the fee payment deadline date, you must make arrangements for deferred payment at the general office of Financial Aid and Awards, 422 University Centre.

Similarly, if you are expecting financial support from another government student loans source or agency, you are not exempt from late payment penalties, late registration charges, or cancellation of your registration for non-payment. If you are unable to pay your fees by the fee payment deadline date, you must make arrangements for deferred payment at the general office of Financial Aid and Awards by June 30.

6.4 Voluntary Withdrawals and Student Aid

If you voluntarily withdraw from courses, your decision may affect your eligibility for your scholarship, bursary, or loan. Financial Aid and Awards should be consulted when making a withdrawal decision.

Section 7: Information for Students with Disabilities

If you are a student with a disability, you should contact Disability Services, 155 University Centre; telephone 204 474 6213 (or 204 474 9790 for TTY).

This office will provide elevator service keys where necessary; arrange for your access to on-campus transportation if you have a mobility disability; and facilitate arrangements for registration assistance and for accommodations during tests and examinations.

In addition, Disability Services will provide information with regard to campus parking, purchasing your books and supplies in the Book Store, and the use of library facilities and services. Staff in the Parking Office, the Book Store, and the libraries are also prepared to help you.

For financial assistance for expenditures that are not covered under the regular student aid program, you may contact: Student Financial Assistance, Manitoba Education and Training, 409 - 1181 Portage Avenue, Winnipeg, R3G 0T3; telephone (204) 945 6321; or Education Support/Student Assistance Branch, Human Resources Development Canada, Box 2090, Station D, Ottawa, K1P 6C6, telephone (819) 994 1844 or (819) 994 1218 for TTY service.

SECTION 8: Information for International Students

8.1 Study Permit to Study in Canada

All international students must obtain a Study Permit before entering Canada. For some countries the Canadian government also requires that students obtain a temporary resident visa in addition to the Study Permit.

8.2 International Centre for Students

The International Centre for Students welcomes you to the university and to the city. As soon as you know that you will be studying at the University of Manitoba contact the centre's staff to inform them when you will be arriving.

Write to: International Centre for Students, University of Manitoba, 541 University Centre, Winnipeg, Manitoba, Canada, R3T 2N2; telephone (204) 474 8501; e-mail messages to ics@cc.umanitoba.ca. Further information on the centre is available on its website: unmanitoba.ca/student/ics.

8.3 Health Insurance for International Students

All international students must purchase the health insurance plan the university has arranged for non-Canadian students. This plan is the only insurance coverage the university will accept. The plan is comparable to coverage provided by the Manitoba Health Services Commission for residents of Manitoba. It does not provide dental or eye care coverage.

Cost from September 1, 2007 to December 31, 2007: \$140 Single; \$432 Family.

Cost from January 1, 2008 to August 31, 2008: \$280 Single; \$864 Family.

The fees for 2008-09 fees will be available at the time of registration.

Information and application forms are available from the International Centre for Students, 541 University Centre, or Registrar's Office, 400 University Centre.

Students are automatically enrolled in the plan on registration, and would only need an application form if adding family members. An application would also be needed in the case where a student has previously opted out and now requires health insurance. ICS doesn't have application or claim forms. Students are referred to the Registrar's Office to obtain forms or information about membership. MISHIP cards are no longer mailed to students. To obtain a MISHIP card, please go to the Registrar's Office.

The international student insurance cost for "single" coverage will be included automatically on your fee assessment the first time you register. You must provide a current address so that your insurance card can be mailed to you.

The insurance plan for international students is administered by the AON Consulting Inc., 1800 - One Lombard Place, Winnipeg, Manitoba, Canada, R3B 2A3, telephone (204) 982-9000.

Exceptions to International Insurance Coverage

You may be exempted from purchasing the university's health insurance plan for international students if:

- You are a student sponsored by the Canadian International Development Agency (CIDA) and your health insurance coverage is included in the agency's support;
- You are the holder of a scholarship which provides complete health insurance coverage;
- You are an international student who qualifies for coverage from the Manitoba Health Services Commission (MHSC) because you have a valid Work Permit of at least 12 months duration; or
- You are an international student currently covered by another Canadian provincial health plan.

To qualify for the exemption, you must present documentation of your health insurance coverage to the Registrar's Office.

8.4 Work Permit for Study Purposes

International students who are registering for courses or programs that require work placement must obtain a valid Work Permit, in addition to maintaining a valid Study Permit. Work placement includes, but is not limited to, any paid or unpaid practicum, internships, work experience, field placement, and co-op programs that are a required component for the completion of their degree, diploma or certificate. Please contact your program advisor or the International Centre for Students for further information.

SECTION 9: Essential Computing Resources: Obtaining University of Manitoba Email, Internet, JUMP, and Computer Lab Accounts

Accounts required: UMnetID and INS

The University requests that you claim your UMnetID for a University of Manitoba (U of M) email address to facilitate official communication. Even if you already have an external email and Internet account, instructors may require correspondence and assignments to be submitted from an official U of M email address.

The INS account provides login access to the PCs in the Academic Computing and Networking (ACN) computer labs on campus which includes **instructional applications, disk space, and printing.**

The UMnetID services include **email, personal homepage, internet access, jump portal, laptop ports, wireless network access, Unix login and software, disk space, printing, and angel.**

If you have questions regarding accounts, please contact the Computer Accounts Office at (204) 474-9788, or the Support Desk at (204) 474-8600.

9.1 How to Claim Your Accounts

Claimid is available on the web at: umanitoba.ca/claimid

or in the ACN campus computer labs, where students can login to any Windows PC with username: *claimid* (no password required). A document describes *claimid* in detail at: umanitoba.ca/ist/accounts/claimid.html

Claimid automatically assigns students both a UMnetID and an INS account. Initially both are given the same password. Be ready to write down your userids and passwords before clicking on "Finish."

Your UMnetID account will normally be ready for use within half an hour during the day. Your INS account is normally available immediately upon completing *claimid*.

Keep your passwords private. If anyone sees your password, change it immediately. Do not set applications to "remember" them.

When to Claim Your Computer Accounts

You may claim your computer accounts as early as a month prior to the start of classes provided you are registered. Your accounts will remain active as long as you are registered. If you are registered during the winter term, your accounts will remain active during the summer.

9.2 Using Your Email Account

Your UMnetID begins with um, followed by part of your surname, e.g. ummist9. Your email address would be ummist9@cc.umanitoba.ca.

All email delivered to your U of M email address is filtered for viruses and bulk mail (spam). You should check your filtered bulk mail each week to exclude (whitelist) any legitimate sender of bulk mail. We recommend that you subscribe to a weekly mailout of your bulk mail summary:

mail.cc.umanitoba.ca/mailman/listinfo/bulkmail-summary

Reading your mail: You can read your U of M email with any mail program or on the web from any computer at: umanitoba.ca/webmail or from umanitoba.ca/jump

Check or forward your CC email: Be sure to check your email regularly or forward that mail to an address you read. You can forward your U of M email by logging in to "BASIC" on the mail management page at: mail.cc.umanitoba.ca

9.3 Other Services

Using your UMnetID, you can download software from Software Express, including a free anti-virus application, Trend:umanitoba.ca/software

For other services and information, please refer to the Information Services & Technology website at:umanitoba.ca/ist

9.4 Your Responsibilities

Your computer account is a privilege that carries responsibilities. You are expected to use your account and University computing facilities in accordance with the policies and procedures of the University of Manitoba and to be respectful of the rights and privileges of others.

For applicable policies, see:umanitoba.ca/ist/guidelines

9.5 Computer Security

The University requires that any computer connecting to its network be protected against viruses by maintaining an adequately patched operating system and current antivirus software. See:umanitoba.ca/ist/security/antivirus.html

For Windows home computers the University licenses antivirus software from Trend and offers it to U of M students at no charge.

9.6 Privacy Information

When you claim a UMnetID account, your name, faculty and email address will automatically be listed in the University's "People" directory which is searchable from umanitoba.ca. This enables other students and professors to find you easily. The addresses are protected from harvesting by spammers. If you prefer not to be listed, you can opt out at any time by de-selecting the box "public email address book" in umanitoba.ca/claimid.

9.7 Computer Labs on Campus

There are Academic Computing and Networking labs on campus (including one at the Bannatyne Campus) for the use of all University of Manitoba students in all faculties. Some departments or faculties provide additional labs only for use by their students.

Information on the ACN labs is at:umanitoba.ca/ist/labs

9.8 Connection Basics

- Domain name server (DNS): 130.179.16.67
- Alternate DNS: 130.179.16.11
- POP/IMAP/SMTP: mail.cc.umanitoba.ca

SECTION 10: *JUMP* - Your U of M Portal

JUMP - umanitoba.ca/jump

JUMP is your University of Manitoba portal that you can customize to completely reflect your personal interests and University experience. Login using your UMnetID, and customize JUMP by adding and removing information to make it work for you.

Content includes essential University of Manitoba information that will help you in your academic career, as well as provide access to your personal information including courses, grades, booklists, fees, course schedules, tax forms, and more. JUMP tools include email, online calendar, courses, and group use. Subscribe to news channels and keep yourself informed.

Website: umanitoba.ca/student

Vice Provost (Student Affairs): David Morphy

The mission of Student Affairs is to create opportunities for student success by engaging students and other members of the University of Manitoba

community in a student-centred process of integrated learning and development.

Student Affairs coordinates the functions of the Registrar's Office, Enrolment Services, Student Services, and Housing and Student Life. Enrolment Services includes Admissions, the English Language Centre, Financial Aid and Awards, and Student Recruitment. Student Services includes the Aboriginal Student Centre, the International Centre for Students, Student Advocacy and Resource Services (Student Advocacy, Chaplains, Disability Services and PlayCare), the Student Counselling and Career Centre, and University Health Service.

The Vice-Provost (Student Affairs) works in liaison with all student groups and academic and administrative units that provide services and functions that affect students. The office provides an important link for students with the total university community. Students are encouraged to contact the office with issues or concerns, or positive initiatives of a general nature that affect the quality of student life at the university.

2.2 English Language Centre

520 University Centre

Telephone: (204) 474 9251

Email: elc@umanitoba.ca **Website:** umanitoba.ca/elc

Director: Garry Dyck

The English Language Centre provides English language instruction for international students enrolled at the University of Manitoba and for individuals preparing to study at the university. The focus of all the courses is on the English required in an academic setting at both graduate and undergraduate levels. ELC courses are offered in fall, winter, and summer sessions. The Centre provides the following:

Homestay Program

The Centre offers Homestay, allowing students to practice English and learn about Canadian culture.

Intensive Academic English

The Intensive Academic English Program (IAEP) is a 14-week session beginning in September, January, and May. The IAEP has five levels with Level 5 (also known as the Academic English Program for University and College Entrance or AEPUCE) meeting the language requirement for both undergraduate and graduate admissions. In order to study in the IAEP Level 5, students must have achieved a TOEFL 500 (173 Computer Based; 64 iBT with a minimum score of 15 in each area), IELTS 5, 5, CanTEST band 3.5, or equivalent. Students in Levels 1 to 4 will complete a CanTEST at the end of the program. These test results may be used to meet the English language requirements of the University of Manitoba.

NOTE: In addition to providing courses, the centre is an official testing site for the Canadian Test of English for Scholars and Trainees (CanTEST), an English proficiency test, the results of which are recognized by the University of Manitoba.

Part-Time Courses

The English Language Centre offers part-time courses four times a year for University of Manitoba students and potential students.

Courses include:

- Oral English for Academic Purposes: Conversation and discussion; seminars and presentations; pronunciation.
- Academic Writing Courses: Complex sentences and paragraphs; critical reading and summary writing; essay writing.
- For Graduate Students only: Research writing.

541 University Centre

Telephone: (204) 474 8501 **Fax:** (204) 474 7562

Website: umanitoba.ca/student/ics

Director: Tony Rogge

The International Centre for Students (ICS) facilitates international learning experiences and enables all University of Manitoba students to succeed in their intellectual, personal, and career growth.

MISSION STATEMENT

The mission of ICS is to participate in the internationalization of the university by:

- supporting international students,
- facilitating student exchanges and internships, and
- delivering cross-cultural programs.

PROGRAMS AND SUPPORTS FOR INTERNATIONAL STUDENTS

ICS programs and services are designed to help international students adapt to Canadian culture, succeed academically in a Canadian university

environment, share their international perspectives, and make the most out of their time at the University of Manitoba.

Programs and Services for International Students include

Pre-Arrival Information: to help new students prepare for life in Winnipeg.

Orientation Sessions: offered at the start of each term to provide new students with information and skills to help them successfully adjust to life in Canada and to their new academic environment.

Welcome Family Program: free short-term accommodation (3-5 days) for new international students.

Intercultural Retreat Day: a chance for new international students to connect with experienced Canadian and international students in a beautiful rural setting.

Campus Buddy Program: matches new international students with experienced students.

Student Advising: confidential student advising services relating to university regulations, cultural adjustment and personal matters, immigration regulations and procedures relating to studying and working in Canada, and much more.

Workshops and Information Sessions: relating to intercultural communication, cultural adjustment, leadership development, and skills for academic success.

Volunteer English Practice Program (VEPP): informal conversational English groups with volunteer instructors.

ICS Website and Weekly Electronic Newsletter: providing current information about immigration policies, ICS and University of Manitoba programs, student group activities, community events, and international opportunities.

Assistance with Canadian Income Tax Returns

Off-Campus Work Permit Program: the Designated Institutional Representative for the Off-Campus Work Permit program at the University of Manitoba is housed within the ICS office.

PROGRAMS AND SUPPORTS FOR ALL STUDENTS

Exchange Programs: The ICS office administers student exchange programs with partner universities around the world, including Australia, Mexico, Japan, and Denmark. Exchange programs provide students with an affordable opportunity to study abroad and experience life in another country while paying tuition at the University of Manitoba and working toward degree completion. Students from all faculties are eligible to apply for exchange programs and scholarships through the ICS office.

World W.I.S.E. Resource Centre (Work, Internship, Study, Exchange): The World W.I.S.E. Resource Centre, located within the ICS office, provides the University of Manitoba Community with information about work, internship, study, and exchange opportunities throughout the world. The Centre houses a variety of print and electronic resources and offers programs and services throughout the year, including World Opportunities Week (WOW) held each fall, an international photo contest, the (be) World W.I.S.E. Newsletter, presentations throughout the campus highlighting international opportunities for students, and hosts occasional speakers on international topics.

Social and Recreation Events: Throughout the year, ICS organizes sporting events, artistic and cultural outings, barbecues, trips to various attractions in and around Winnipeg, and other recreational activities. ICS events offer opportunities for international and Canadian students to meet outside of the classroom in relaxed, social environments.

ICS Lounge: The ICS Lounge and outdoor patio are popular spots for students to relax, eat lunch, study, and meet people. The lounge is open during office hours throughout the year, while the outdoor patio is open seasonally.

Telephone: (204) 474 7423

Fax: (204) 474 7567

Email: student_advocacy@umanitoba.ca

Website: umanitoba.ca/student/advocacy

The mission of the Student Advocacy office is to ensure that students are treated fairly in their dealings with the University. The Student Advocacy office is dedicated to educating the University community concerning student rights and responsibilities and assisting students in the resolution of conflicts arising from actions or decisions taken by the University.

While serving the University, Student Advocates maintain a student focus by providing information, investigating complaints, resolving conflict through alternative and formal systems, representing students at hearings, and reviewing policies and recommending change.

The following services are provided by the director, student advocates, and peer advocates:

Resolution of Student Concerns:

- Information, advice, consultation, mediation and referrals.
- Assistance with request and appeal letters and communications with faculty and administrative staff.
- Preparation of and appearance with students at meetings and hearings.
- Follow-up with students and administrative staff about request and appeal outcomes.

Advocacy services are available for students at the Fort Garry, Bannatyne and St. Boniface campuses.

Education:

Student Advocacy offers workshops and orientations to students, staff, and faculty on a number of student matters.

Resources:

Material available from the office includes: final grade appeal; term work grade appeal; cheating; plagiarism and fraud and student conduct inappropriate collaboration.

Student Advocacy also maintains resources on a number of student topics including academic dishonesty and incivility. The office is also responsible for filing an annual Report to Senate

Mission Statement: Disability Services creates equal access for students with disabilities at the University of Manitoba. Disability Services provides support and advocacy for students with disabilities of all kinds: hearing, learning, injury-related, mental health, medica, physical or visual. Students with temporary disabilities such as sprains and breaks are also eligible to use our services. Disability Services acts as a liaison between students and the faculty and staff of the University of Manitoba as well as support agencies within the province of Manitoba.

Disability Services offers on-campus, in-class and test/exam accommodations. The most common accommodations are: on campus transportation, American Sign Language/English interpretation, note-takers, extended time for tests/exams and email notification to instructors about accommodations. Because accommodations are tailored to each individual, student must first meet with an Accessibility Advisor to determine appropriate accommodations while at the University of Manitoba.

Students are strongly encouraged to register at Disability Services as early as possible to avoid a delay in service. First year students should register upon receiving acceptance to the University of Manitoba.

Director: Dr. Don Stewart

The Student Counselling and Career Centre (SCCC) consists of two units – Counselling Services and Career Services – dedicated to providing a wide range of services and programs to help students achieve personal, career, and academic success.

4.4.1 Counselling Services

Our Service offerings include group programs, individual counselling, crisis management, outreach workshops, consultation, and assessment. We help students deal more effectively with a wide variety of issues affecting academic performance, including anxiety, stress, adjustment to life transitions, depression, loss, family issues, relationship difficulties, abuse, self-confidence, motivation and procrastination, and finding meaning or direction in life. We are also part of the campus emergency response network and assist in dealing with traumatic events affecting students on campus.

Our staff includes professionals from Clinical Psychology, counselling, and Social Work. We are also a training site for students in Counselling, Psychology, and Social Work.

Fort Garry Campus

Students interested in seeing a counsellor at the Fort Garry Campus may drop in for a brief introductory meeting between 9:30 – 11:00 a.m. or 1:30 – 3:00 p.m., Monday to Friday (hours may be reduced during the summer months – please call for summer hours). Students are usually seen on a first come, first served basis. Following a case review, referral is made to a counsellor, group program, or career service within the Student Counselling and Career Centre, or to services elsewhere.

Bannatyne Campus

The Bannatyne counselling team is available for noon-hour, late afternoon, and early evening appointments Monday, Wednesday, and Thursday (hours may be reduced during the summer months or in response to staffing changes; please call for updated information). Appointments may be booked through the SCCC receptionist at (204) 474 8592. Drop-in contacts are possible between 12:00 and 5:00 p.m. subject to counsellor availability. Students making their first contact with us at Bannatyne are encouraged to schedule appointments through our receptionist.

Group Programs

A variety of group programs are offered throughout the academic year. Ongoing group programs are available for anxiety, depression, procrastination, stress management, women's issues, and exam anxiety. Additional group programs are also offered throughout the year. Group program information is posted regularly throughout the University and on the web.

Referral and Consultation:

Counsellors are able to provide confidential referral and consultation services to the university community.

4.4.2 Career Services

Coordinator: Prof. David Ness

474 University Centre

Telephone: (204) 474 9456

Website: umanitoba.ca/student/employment

We offer a wide variety of programs to help students strategize for career success. Our career service professionals (including career advisors, employment advisors, and counsellors) assist with career decision making, identifying occupational options, connecting with employers, job search and preparation strategies, and mastering challenging career situations. Whether you're trying to decide on your future career path, looking to promote your career success in your chosen field, or seeking help with other career questions, we can help.

Career Services Centre

The starting point for most students seeking help with career questions is the Career services Centre. Career Advisors in our Career services Centre will meet with you to provide career information, advice, and support, and they can guide you through all of our career services. In addition, the Career services Centre serves as our career resource library with occupational and educational information. Exploring occupational options? Searching for educational alternatives? Planning a comprehensive job search? Thinking of starting your own business? If you need career information, stop by the Centre. Career Advisors are available to help you, Monday- Friday, 8:30 a.m. – 4:30 p.m. No appointment is necessary – students are seen on a first-come, first-served basis. Visit us on-line at umanitoba.ca/student/counselling/resources.

Career Counselling

For students uncertain about how to identify possible career options, the best starting point is the Career Planning Workshop. This two session workshop is facilitated by a career counsellor and consists of interactive activities and discussions. During Session 1, students will discuss career planning strategies, career planning beliefs and myths, and individual career planning needs. Students will also begin the process of career self-assessment. In Session 2, students will use self-assessment information to identify and evaluate potential career options. An overview of career resources will be included. Upon completion of Session 2, interested students can receive up to three individual career counselling sessions. As well, students completing the workshop may choose to pursue career testing using the Myers-Briggs Type Indicator (personality instrument) and the Strong Interest Inventory (interest instrument).

Career Planning Workshops are held throughout the year with a new session starting each week during the regular academic year. Students should pre-register at the Student Counselling and Career Centre. Prospective students may also be eligible for this service. Please call our office for details.

Career Mentor Program

Students are invited to explore the world of work and develop network connections through the Career Mentor Program. Hundreds of mentors, many of them University of Manitoba alumni, are eager to meet with students for informational interviews and workplace tours. A short orientation is provided to ensure that students are prepared for the visit.

Visit us on-line at umanitoba.ca/student/counselling/mentor

Employment Advising

Consult with an Employment Advisor on resume writing, interview techniques, job search strategies, and more to facilitate your successful career plan. Drop-in meetings are available along with scheduled appointments. Check our website for times at umanitoba.ca/student/employment. Employment Advisors can also assist with preparation for educational program interviews, identification of volunteer opportunities, and networking with employers.

Job Postings

Career Services posts permanent, part-time, and summer job openings, as well as internships and volunteer positions, on the workopolisCampus.com website. Complete postings, including job descriptions and duties, are input daily and are available 24 hours a day, 7 days a week. Students can link to workopolisCampus.com through the Career Services website, but first they must obtain the access code (from 474 University Centre), which allows them to register and take advantage of the many options. Registering with workopolisCampus.com will help you learn about all of the career possibilities currently open to our students.

Employer Information Sessions and Career Fairs

Connect with employers from various sectors and learn about organizations and occupations. These excellent networking opportunities occur throughout the year and are free to students. Register on workopolisCampus.com to be notified of upcoming employer information sessions and Career Fairs.

Specialty Career Programs

Career Services develops and facilitates a number of focused career programs throughout the year including Disorientation (helping students plan for life following graduation), Revision Decisions (helping students make course revisions at the beginning of each regular session academic term), Getting on Track (career planning for incoming University 1 students), and International Student Career Planning (helping international students plan for career success). Check our website for more information on these and other programs.

Co-operative Education and Internship at the University of Manitoba

There are five faculties offering 29 Co-op Education/Internship programs at the University of Manitoba. Career Services can help students prepare to apply for and participate in these programs. Career Services also provides support to academic departments with co-op and internship programs by promoting these programs to employers. Check our website to find the contact person for each Co-op Education program at the University of Manitoba.

4.5 University Health Service

104 University Centre

Telephone: (204) 474 8411; **Fax:** (204) 474 7573

Website: umanitoba.ca/student/health

Director: Dr. Ken Hahlweg

University Health Service (UHS) is accessible to all currently registered University of Manitoba students. To assist students in maintaining a high level of personal, family, and community health, UHS is available for episodic and continuing primary health care during regular university hours. UHS staffing includes a visiting consultant psychiatrist to assist in the collaborative provision of mental health services. Physicians also provide an after hours on-call telephone service for urgent matters. On-site laboratory services are also available.

All Canadian students must carry health insurance through their home province. All international students not covered by a provincial health plan must purchase insurance through the special plan provided for by the university (see the *Registration Information* section for specific details).

Health examinations are not required for registration at the University of Manitoba. However, students registering in the following programs are advised to undergo a health examination with their family physician or at University Health Service:

- All students registered in the health sciences (Nursing, Medicine, Dentistry and Pharmacy).
- All students registered in the Bachelor of Physical Education degree program.
- All students who are participating in intercollegiate and/or organized intramural sports competition programs.
- All students from countries other than Canada.

Immunizations are considered essential in some faculties or schools (e.g. Faculty of Nursing). Students are advised to contact their own faculties or schools for specific regulations and immunization schedules.

Services required for occupational and educational institutions are not covered under provincial health insurance plans and will be provided on a fee for service basis.

The University Health Service provides travel health advice and required immunizations to students of the University of Manitoba on a fee for service basis.

5.1 Housing

Residence (On-Campus Accommodation)

The six residences on the University's Fort Garry campus (Arthur V. Mauro Student Residence, Mary Speechly Hall, Tache Hall, University College, St. John's College, and St. Andrew's College) provide accommodation for 1260 students. Each residence has its own unique personality and living options. Living on-campus can be an important part of being a student.

Four of these residences are managed by the Housing and Student Life offices of Student Affairs. These are Arthur V. Mauro Student Residence, Mary Speechly Hall, Tache Hall, and University College. For information about these residences, contact the Residence Office as outlined above. For information regarding the residences affiliated with St. John's College and St. Andrew's College, contact their offices as follows.

Arthur V. Mauro Student Residence

For students in their 2nd year of University or higher, the Arthur V. Mauro Student Residence offers an alternative to traditional residence living. This residence accommodates 310 students in 2-bedroom suites. Each suite includes two furnished bedrooms with cable television and high speed Internet connections. It also includes a kitchenette and its own washroom.

Facilities in the building include a games room, fitness centre, laundry, and storage. Meal plans for residents of Arthur V. Mauro Student Residence are optional.

Mary Speechly Hall and Tache Hall Residences

Speechly/Tache is characterized by a commitment to unity and diversity. Though the Speechly and Tache residences are administered jointly, each building retains its own character. Tache Hall boasts antique oak trim, open fireplaces and expansive stairwells; Speechly Hall, with bright rooms and friendly lounges, provides a modern complement to Tache's old world charm. Together, they house almost 600 students in a choice of single and double rooms on both non-co-ed and co-ed floors.

In addition, Speechly/Tache offers a number of residence life options for needs and interests of specific student groups, offering programs and activities tailored to suit a particular lifestyle.

Residents' meals are served in Pembina Hall, a large dining hall. Enclosed walkways from residence halls to the dining hall provide protection from the weather.

Residents of Speechly/Tache also enjoy easy access to: an in-house computer lab; piano practice areas; comfortably furnished lounges with fireplaces; furnished study/hospitality lounges on most floors; two gymnasiums (with stationary bicycles, rowing and weight machines); large multipurpose areas (for social, cultural or recreational events); student-run coffee shop (with a large screen TV, video games, board games, a pool table and refreshments); and kitchen for use on special occasions when Food Service is not in operation (i.e., during holiday periods).

The Resident Student Association Council (RSAC) works with residence administration to provide the students with many exciting programs, activities, and services. In order to ensure that residents are able to maintain a balance between social and academic activity, evening quiet hours are scheduled.

University College Residence

University College is a constituent college of the University of Manitoba. Its residence offers a smaller more personal atmosphere where students, both day and residence, can interact with each other and with academics in an informal setting. The residence accommodates 250 men and women in mostly single rooms. Tunnels connect the college residence to most buildings on campus. The residence package includes a "declining balance" meal card which can be used at any food service outlet.

University College provides comfortable accommodation with a central lounge on each floor with a TV, a VCR, and a microwave. Each floor has separate wings for men and women, connected by the lounge. Special interests are served by the Scholars' and Professional/Graduate student floors. The residence also houses recreation areas (with fitness equipment, pool table, and grand piano), a study hall, computer lab, and laundry room.

The student government organizes residence social activities throughout the year including intramural sports, as well as on-campus and off-campus activities. In addition to personal development and academic success programs which are provided by the on-site student staff, the college offers guest speakers to enable students to expand their knowledge outside the classroom. Courtesy hours are in effect during exam preparation and writing periods.

St. John's College Residence

St. John's College was founded in 1849, but its origins date back to the early days of the Red River settlement. In 1877 St. John's, together with St. Boniface and Manitoba colleges, founded the University of Manitoba. This record is evidence of St. John's historical commitment to higher education.

St. John's College Residence embodies a unique blend of the social and the academic. Residence provides opportunities for students to participate in college and residence social and athletic programs, to take advantage of both formal and informal tutorial and study sessions, and to live and study in the context of a small, personal community. Other events provide students opportunities to socialize and meet with college professors outside of the confines of the classroom. In addition, a regular schedule of study hours ensure residents of the quiet necessary for academic work.

Located in the centre of the Fort Garry Campus, St. John's Residence provides accommodation for 100 men and women. Residence student affairs are governed through the Residence Student Association, which works in close cooperation with the four student Dons and the Dean of Residence. St. John's Residence includes the following features: single occupancy, fully furnished, carpeted rooms (14' x 8') with storage space; excellent buffet style full meal plan of 19 meals per week, plus complimentary snack on Sunday night and during exam periods; newly renovated dining hall; housekeeping service including cleaning, vacuuming, dusting, and garbage removal; one big TV lounge with big screen TV and a smaller TV lounge; large residence study room; games room with table tennis and foosball table; "The Buttery," a fully equipped student kitchen; laundry room with state of the art washers and dryers; two fully furnished, 2-bedroom suites for graduate or senior students; one fully furnished single bedroom suite for graduate or senior students; regular schedule of quiet/study hours; and ongoing social and educational programs. All residents become members of the College and have access to all College facilities and services: St. John's University Library, Daily Bread Café Restaurant, computer lab, Chapel and Chaplaincy services, student lounges, study carol room, lockers, storage room for residents, and College classrooms that are available for late night study sessions. In addition to what is offered by the University, residents may apply for over \$60,000 in scholarships, bursaries, awards, and prizes.

St. Andrew's College Residence

St. Andrew's College, an affiliated college, was established in 1964 on the University of Manitoba campus. It presently houses the Centre for Ukrainian Canadian Studies and the Theology Faculty of the Ukrainian Orthodox Church of Canada. Students in any faculty, however, may live in residence as long as they hold membership in St. Andrew's College.

Residence is available for 38 women and men in small single, large single, and double rooms. Special facilities include a library, TV lounge area, multipurpose room, seminar rooms, dining hall and storage space. St. Andrew's College also has a Ukrainian Orthodox Chapel. The kitchen provides 19 meals per week which are characterized by home style cooking, including Ukrainian cuisine.

The residence is administered by the residence supervisor and residence assistants along with an active Residents' Council. An attractive feature of the residence life is the rich Ukrainian cultural program whereby the students have the opportunity to participate in choral music, folk dance, and theatre. In addition, St. Andrew's students participate in an interuniversity exchange program each year.

For information, contact:

Residence and Property Supervisor, St. Andrew's College,
29 Dysart Road, Winnipeg, Manitoba R3T 2M7

Telephone: (204) 474 8895 **Fax:** (204) 474 7624

Off-Campus Accommodation

The University of Manitoba maintains lists of accommodation available in all areas of Winnipeg. Students may consult these listings 24 hours a day at www.rentingspaces.ca and www.homes4students.ca. Please contact UMSU Living at (204) 474 9717.

Living arrangements listed include room and board, rooms with kitchen privileges, suites, apartments, houses, and townhouses. The university does not approve, license, or inspect off-campus housing; it lists accommodation for referral only. Landlords are required to offer their accommodation in accordance with existing housing legislation and on the same basis as the university offers its facilities (i.e., without regard to race, colour, re-

ligion, nationality, sex, age, marital status, ethnic origin, or source of income).

Student Life

The Office of Student Life is responsible for the ongoing training and development of student leaders in the campus and residence community. Some of the programs, events, and services are highlighted below.

The Parents Orientation is an opportunity for parents of first year students to connect with the campus and understand the first year experience from a developmental perspective. This annual event is coordinated taking into consideration the latest developments in Student Development Theory and communicated to a diverse population of parents. Ongoing support is provided for these parents through the Parents Program Info Line, *Parents Program Newsletter*, and *Parents Program Handbook*. Student leaders volunteer throughout the Orientation weekend.

Service Study Tours are an international component to the ongoing Praxis program. Each year, students will be selected on an application basis to participate in an international Service Study Tour. Students are involved in a pre-departure orientation (a semester-long learning commitment), in-country orientation, and program debrief.

Praxis Service Learning Program includes bi-weekly meetings with a volunteer group of 40 students. Students actively engage in community projects within the Winnipeg community such as United Way Days of Caring, projects with Siloam Mission, Breakfast Programs with Winnipeg School Division #1, the Reading Buddies Program, and various programs with Career Trek, Winnipeg Harvest and Big Brothers and Big Sisters of Winnipeg, and volunteer recruitment for special events. Research and discussion of social issues are reflected in active programming. Program debriefs are required components following service learning projects.

Alternative February Break programming includes service learning opportunities such as awareness, community building, and social justice issues within Aboriginal communities in Manitoba and in foreign countries such as El Salvador. These are organized and facilitated on a yearly basis and include collaboration with communities, campus partners such as Career Trek and the Aboriginal Student Centre, and students. This program includes selection of program participants (10-15 students and 2 staff), pre-departure orientation, in-community orientation and post-program debrief.

Student Affairs Fall Orientation requires the partnership between U1, all Student Affairs departments, International Centre for Students, and the University of Manitoba Students' Union. Student volunteers are invited to participate in the implementation of the event.

To learn more about how students can get involved with Student Life, please contact the Student Life Program Coordinator, 110 Pembina Hall, 26 MacLean Crescent., Winnipeg, MB R3T 2N1 or call (204) 474-6637.

OTHER SERVICES FOR STUDENTS

SECTION 1: Book Store

The Book Store is owned and operated by the University of Manitoba. The university Book Store has two locations: the main Book Store in University Centre on the Fort Garry Campus and a health sciences book store in the Brodie Centre on the Bannatyne Campus. Both locations provide services in textbooks, reference books, special orders, computers and software, art supplies, stationery, crested clothing, and giftware.

Computers on Campus, located at both stores, offers educational prices on computer hardware and software and is an authorized Apple repair centre.

Lists of required textbooks and course materials are available in August so that course materials may be purchased before classes begin. The Book Store also "buys back" reconfirmed textbooks for cash.

Mail order service is also provided by writing, phoning, or faxing the Book Store, University of Manitoba, Winnipeg, Manitoba, R3T 2N2. Payment can be made by credit card or ordered COD within Canada. Total charges will include COD fees, postage and handling.

Textbooks can be ordered on-line at umanitoba.ca/bookstore.

Welcome Centre, 423 University Crescent

Telephone: (204) 474 9483 **Fax:** (204) 261 8884

Website: umanitoba.ca/parking

Approximately 3000 parking spaces are available for purchase by students. These spaces are situated in lots around the campus and assigned to students for long-term parking. The parkade, meters, pay and display and ticket-dispenser areas supply an additional 1,500 spaces for short-term or casual parking. Motorcycles are accommodated in two convenient locations.

Parking permits go on sale through our Online Application System. Detailed instructions will be located on our web site.

On weekends, holidays, and after 4:30 p.m. on weekdays, free parking is available in most parking lots, except 24-hour reserved areas, areas designated for accessible parking, the Parkade, and other restricted areas. Fines are levied for parking violations. Operation is subject to change.

For information regarding parking, contact Parking and Shuttle Services.

For complete text of the Parking Regulations as authorized by the University of Manitoba, see the Parking and Shuttle Services website listed above.

SECTION 4: Food Services

General office: 207 Pembina Hall

Telephone: (204) 474 9916 **Fax:** (204) 474 7538

Food Services is operated by ARAMARK Canada, which is responsible for providing the food requirements for students and staff as well as catering. Cafeterias, canteens and national branded franchises are located throughout the Fort Garry Campus.

Flexible meal plans are available to both residence and non-residence students. These plans provide regular meals at economical prices.

Information on food service locations and meal plans is available from the Food Services office.

Facilities

To encourage recreation on campus, the university has a wide variety of recreation facilities. On the Fort Garry campus, the Frank Kennedy Physical Education Centre, the Max Bell Centre, and the Investors Group Athletic Centre contain indoor jogging tracks, a swimming pool, indoor and outdoor tennis courts, weight and fitness areas, a combatives room, a dance studio, gymnasium for basketball and volleyball, squash and racquetball courts, and an international-size year round ice arena. The Joe Doupe Recreation Centre (in the Brodie Centre, Bannatyne Campus), provides recreation facilities and programs to students and staff. Access to these facilities requires a membership available from the customer service desks in Frank Kennedy, Max Bell, and Joe Doupe locations.

Intramurals and Sports Clubs

Intramural sports give students and staff an opportunity to participate and compete in recreational activities of their choice. There are men's, women's, and co-ed divisions. Basketball, ice hockey, floor hockey, soccer, ultimate frisbee, and volleyball are examples of the sports available. In addition, more than a dozen sport clubs give opportunity to get more involved in a particular sport. Some examples include squash, kayaking, wall climbing, ringette, figure skating, synchro skate, and badminton.

Adult Recreation Instructional Programs

Recreation Services offers instruction on a fee per course; some examples include the martial arts, dance, weight training, outdoor recreation, relaxation, kayaking, CPR, and first aid.

Fitness

Recreation Services is a provincial leader in fitness assessment and counselling, fitness programming, and fitness leadership development. Fitness is currently divided into two operational units.

Fitness Assessment and Counselling: Fitness assessment and counselling services range from general fitness assessment to body composition analysis, sport training to nutrition counselling. Staff are prepared to help set up a fitness program tailored to individual needs, interests, and goals.

Fitness Programs: There are more than 35 classes weekly in such activities as bench stepping, tae box, aquafitness, and low impact. Access to all regular fitness classes is included with a membership. Specialty classes include older adult classes.

Children's Camps

The year-round program includes sport, skill and fitness development, creative dance, Mini University, and computer camps for children 3-16 years of age. University students can gain practical work experience conducting these camps or assisting in coaching clinics. Call (204) 474 6100 for information.

Joe Doupe Recreation Centre, Bannatyne Campus

Located in the lower level of the Brodie Centre, the Joe Doupe Recreation centre provides a full sized gymnasium with an elevated walking/running track, weight training and aerobic exercise equipment and an aerobics studio. For information, call the Customer Service Desk at (204)789-3858, or visit the centre on the lower level. For more detailed program information please visit the web site at www.bisonactiveliving.ca.

Section 6: Answers Information

General Office: 1st floor University Centre

Telephone: (204) 474 8211

If you have a question, there's no better place to go than Answers. Answers can provide you with information on nearly everything on campus, from registration to directions to anywhere you could possibly want to go. Answers also sells tickets to most campus and off-campus events, as a Ticketmaster outlet. It is also the place to go for Transit post-secondary discounted bus passes, as well as any other transit tickets and information you require. Add in free phones, sales of long distance phone cards, campus lost and found, and staff that will even give out change, and you've got the campus service to beat all others.

Section 7: University of Manitoba Students' Union (UMSU)

Location: 101 University Centre

Tel: (204) 474-6822

What is UMSU?

Representing and advancing the diverse needs of over 23,000 undergraduate student members, the University of Manitoba Students' Union is the largest students' association in the province. In addition to advocating on behalf of students to the University administration and to all levels of government, UMSU provides a number of important services for students, offers funding and support for student groups, and organizes many informational and entertaining events on our campuses. UMSU's student-owned and operated businesses include the *Digital Copy Centre*, *Answers Information Booth*, *GPA's Convenience Store*, *Archives Used Bookstore*, *IO's Cafe and Billiards*, and *Degrees Restaurant*. UMSU is also Local 103 of the Canadian Federation of Students (CFS), a provincial and national organization that provides representation and cost-saving services for its members. You can find out more about CFS at www.cfs-fcee.ca.

UMSU Structure

As a member of your students' union, you have a say in how it is run. UMSU is governed by an elected Council, composed of representatives from each faculty, school, college and residence, as well as five elected community representatives. Council meetings are held every two weeks, and students are encouraged to attend the meetings to find out what their representatives are up to and to provide input. Students have full speaking rights at Council meetings. There are a number of committees that guide policy and procedure for UMSU on a yearly basis, including the Policy & Bylaws, Campaigns and Government Relations and Finance committees.

The Executive consists of a President and four Vice-Presidents who are elected during the UMSU general elections held in early March of each year. A list of portfolios and reports for each executive member can be found on the UMSU website. To find out more information about your students' union, feel free to drop by the UMSU offices or contact the UMSU President directly at 474-6519 or pres@umsu.ca.

Representation within the University

One of UMSU's fundamental roles is representing students to the University. The President and Vice-President Advocacy of UMSU, along with 28 student senators elected from each faculty, sit on the University Senate. The University Senate looks after all matters of an academic nature, such as hearing appeals from decisions of faculty and school councils, making rules and regulations respecting academic awards, and determining all matters relating to teaching, examinations and conferring of degrees. A list of your student Senate representatives can be found on the UMSU website at www.umsu.ca.

UMSU also has a voice on the University Board of Governors, which deals with the administrative and business affairs of the University, such as approving the annual budget, buying or selling University property, and appointing and monitoring the performance of the President and Vice-Chancellor.

The Student Lobby

UMSU represents students' interests to the municipal, provincial and federal governments, as well as to the administration of the University of Manitoba. As members of the Canadian Federation of Students, the elected Executive works with a number of other students' associations in the province and across the country to lobby for a higher quality, accessible post-secondary education system as well as other goals and policies set by the union and its members.

UMSU tackles a number of important issues, including the restoration of federal funding for education, alleviating student debt, discounted transit fares, improved safety and security on campus, and academic issues such as advanced exam schedules and online professor/course evaluations.

RESEARCH

UMSU has a full-time research coordinator in the UMSU office that researches issues and collects data to be incorporated into campaigns. We also use data and fact sheets compiled by the Canadian Federation of Students. This information and background is invaluable in assisting UMSU when discussing our concerns and objectives with officials of the administration or government.

LOBBYING

Regular contact with elected and non-elected officials is how UMSU lobbies the government. We meet with administrators on a regular basis, as

well as MLAs and Manitoba MPs from all political parties. Our meetings with government officials are organized through the Canadian Federation of Students and we attend meetings with students from all member locals in Manitoba. Working together, we provide a stronger, united voice for students.

Action

Of course, regular meetings with government and the very best research will have little impact unless the government believes a message has widespread support. UMSU demonstrates this support through the active participation of its members and the general public in activities ranging from petition drives to mass mobilizations. These campaigns raise public awareness of the issues, and correspondingly affect the decisions and policies of government.

UMSU Programming

In addition to the advocacy work done by the Union, UMSU strives to provide students at the University of Manitoba outstanding cultural, social, political and academic events throughout the year. The UMSU Vice-President Student Services is responsible for overseeing these events at both the Fort Garry and Bannatyne campuses in conjunction with the many students' associations and groups across campus. Past UMSU events have featured David Suzuki, the Weakerthans, Buffy Sainte-Marie, and SUM 41. UMSU is always looking for volunteers to help put on the many events that happen during the year. UMSU Services

Annual Daytimer

UMSU provides all students with a free daytimer during the first week of fall orientation. The daytimer contains a yearly calendar, information about UMSU including its businesses and services, important phone numbers, and brief information from all student councils and recognized UMSU student groups. Stop by the UMSU Office to pick up yours!

Bison Grocery Run

The *Bison Grocery Run* is a service offered to students who require groceries. A van runs between University Centre and Superstore each Saturday and Sunday during regular session, and students can just show up between the designated times and hop a ride to get groceries and return to campus. Contact the UMSU office at (204) 474-6822 or umsu@umsu.ca to find out times of operation.

Bison Patrol

On those cold days or dark nights, look for the *Bison Patrol* to transport you safely to your vehicle. UMSU provides a safe, warm method of getting around the campus in a minivan that shuttles around campus in the evening. Regular routes throughout the U of M will help you get from point A to point B. For route information, see www.umsu.ca.

Carpool Registry

Looking for a carpool? Want to save money and be environmentally friendly? The *UMSU Carpool Registry* connects you with other University of Manitoba students in your area to provide alternative methods of transportation to and from university. It is available for both the Fort Garry and Bannatyne campuses. Join free of charge at www.umsu.ca.

Food Bank

UMSU provides a student food bank in partnership with the University of Manitoba. Students who are in need of food can drop into the Financial Aid and Awards Office (422 University Centre) where they will be treated with respect and confidentiality. Students and groups who are able are asked to support the *Food Bank* by donating non-perishable food products at the UMSU office or at any UMSU programming event.

Gallery of Student Art (GOSA)

The *Gallery of Student Art* is a student-run and student-funded gallery space centrally located in University Centre. The gallery's mandate is to promote student art and design work at the University of Manitoba. The gallery is run by a coordinator and a committee which oversees the Gallery. Proposals for shows are encouraged for submission from any student or group of students. The Gallery Coordinator can be reached through the UMSU office at (204) 474 9600; gallery@umsu.ca; or visit the *GOSA* website at <http://gosa.umsu.ca>

Health and Dental Plan

110 University Centre, Telephone: (204) 474 6666

UMSU provides its members with a health and dental benefits plan, which was approved by referendum in January 2002. The plan is a group benefit, providing many services and benefits to students without coverage, and is mandatory for full-time students unless there is proof of an existing plan for health and/or dental. The plan costs \$226.55 per year (for 12 months of coverage), although students may add their family (spouse and dependants) for an additional fee. Details of the plan and opt-out deadlines are available online at www.umsu.ca.

Peers: Students Helping Students

Peers are dedicated student volunteers and trained listeners who can provide referral to both on and off-campus resources. Whether your problems are of a personal or an academic nature, *Peers* are there to help you get through them. They are available in room 150 University Centre, or by calling (204) 474 6696.

Student Advocacy

If you ever run into academic difficulties and are in need of support, the UMSU Vice-President Advocacy is the student advocate for the students' union. If you have a problem with a grade or a professor, please do not hesitate to contact us. UMSU will take up your case with the University and defend your right to fair treatment.

Tax Office

Every tax season UMSU offers a FREE tax service office for students. Students can drop by, ask questions, and get help filling out their tax return, while using the free online tax filing system at Ufile.ca.

Tutor Registry

Each year UMSU accepts submissions from students who wish to become a tutor in a specific field of study and provides these contacts to students in need of additional help with a tough course. These names are readily available by accessing our online tutor registry at www.umsu.ca.

UMSU Student Fees

UMSU Student Fees are separate from your tuition fees, and are also known as your Students' Union Fees. For a full listing of UMSU Student Fees, please visit www.umsu.ca

Get Involved with UMSU!

Getting involved with your students' union is a great way to meet people and shape your time at school. As those involved can attest, your education goes beyond just the classroom. Below are examples of a few ways to get involved on campus. Please contact the UMSU Office for more information.

Volunteering

If you are new to the University or not, the quickest way to get involved is to volunteer for one of the many events or campaigns the students' union runs. These opportunities can range from putting up posters to helping run parties or planning events. Another popular way to get involved on campus is by volunteering at UMSU events such as Orientation Week and Celebration Week. Contact any one of the UMSU Executive or just stop by the UMSU office in University Centre at any time to learn more!

UMSU Committees & Council

If you want to get more involved with UMSU, join an UMSU committee or working group. Committees work with the UMSU executive and council, with meetings often occurring once or twice a month depending on the committee, and discuss issues such as policy for the students' union and environmental initiatives. And of course, to participate in the governing process, you can also attend UMSU Council meetings.

Student Groups & Services

If you want to get involved with a particular issue or activity, there is bound to be a student group to meet your interests! Most groups meet regularly and plan activities throughout the year. Visit www.umsu.ca to see a listing of all UMSU recognized student groups at the University of Manitoba.

SECTION 8: Office of the Ombudsman

Ombudsman: Evelyn Bernstein

406 University Centre

Telephone: (204) 474 8439 **Fax:** (204) 474 7526

Website: umanitoba.ca/staff/ombudsman

The Ombudsman is a designated neutral person who provides confidential and informal assistance for resolving university-related concerns, especially those that are not being adequately addressed through usual procedures. The Ombudsman is independent of the University's formal administrative structure and will consider all sides of an issue in an impartial and objective manner. The Ombudsman cannot impose solutions, but will identify options and strategies for resolution. The Ombudsman also has the power to conduct investigations, and to make recommendations with regard to policies, procedures, or other systemic issues.

When should you go to the Ombudsman?

When you have a situation requiring help in communication or negotiation with faculty, staff, or others.

When you are unsure which policies, procedures, or regulations apply in your situation.

When you feel a policy, procedure, or regulation has been unfairly or erroneously applied to you.

When you have a complaint about an office or a service at the University of Manitoba.

When you want to discuss a sensitive issue in confidence.

When you are uncertain of where to go or what options are available to you.

SECTION 3: University Libraries - Resources
and Locations

SECTION 1: Introduction

The Libraries, as an essential partner in the mission of the University of Manitoba, provides access to knowledge in support of the university's teaching, research, and community service programs. Its vision is to be recognized as an essential resource of information within the University and the Province of Manitoba, providing a learning environment which fosters scholarship, creativity, and skill-based learning.

The Libraries' collections have been intertwined with the history of the university since its beginning. The first gift of 4,958 books to the University of Manitoba came in 1883 from Alexander Kennedy Isbister. Over one hundred years later, the Libraries' system continues to maintain and preserve noteworthy collections. It offers students, faculty, staff, and Manitobans access to more than two million books and bound periodicals, a rapidly expanding system of networked databases and full text electronic resources, and a variety of other materials such as audiotapes, videotapes, phonorecords, slides, product catalogues, sheet maps, and microforms.

The University of Manitoba Libraries consists of nine unit libraries and ten satellite information centres located on the Fort Garry and Bannatyne Campuses and at the Concordia, Grace General, Seven Oaks General, St. Boniface General and Victoria General Hospitals, the J.W. Crane Memorial Library, Misericordia Health Centre Library, and the Riverview Health Centre Virtual Library.

SECTION 2: Using the Libraries

The Libraries online catalogue called BISON is accessible through public computers in the libraries, work stations at any of the Academic Computing and Networking's computing areas, or through personal computers for those who can connect to the campus network. In the Libraries' BISON catalogue, all books, journals, microforms, government publications, and special collections are integrated into a single database. Users can determine whether the libraries have specific books or journals, what materials they have in particular subjects, and whether or not the materials on loan, and if so, "holds" can be placed.

Electronic resources, including e-journals, databases, and e-books are also accessible by clicking on the E-Library link on the Libraries' home page umanitoba.ca/libraries. Access is provided to over 43,579 electronic journals, 203,880 electronic books and over 414 bibliographic and full-text databases.

Computerized bibliographic search services and CD-ROM databases are available in most library units. Access to equipment and services for students with disabilities is also available.

Distance Education students are provided with document delivery services and other library services primarily through the Elizabeth Dafoe Library and the Neil John Maclean Health Sciences Library.

Students are bound by the Libraries' policies, copies of which are available at the circulation desks in all unit libraries.

Library Cards

The Photo ID card issued by Registrar's Office to students is required for library privileges, and the cards are **not** transferable. Students are responsible for all items charged to the Photo ID. Adult residents of Manitoba may become borrowers for an annual fee of \$50. The fee for university Alumni is \$25.

Library Notices and Fines

Loan periods and the number of items that may be borrowed will vary depending on the library used. Fines are imposed on overdue material and

charges are levied for damaged or lost items. Library notices regarding overdue items and holds are sent *only by e-mail*. The Libraries will endeavour to telephone borrowers when an item has been recalled and the due date has been changed.

Library Security and Damage

An electronic security system is in operation at all library exits to detect material that is not properly charged out to a borrower. The turnstile will lock and sound an alarm when it detects material that has not been charged out and will remain so until the reason for the alarm has been determined and remedied. The university reserves the right to examine an individual's personal possessions and record the individual's name and student ID number in such an instance.

The university considers mutilation or theft of library materials to be a serious offence and offenders will be subject to penalties sanctioned by the director of Libraries and the president of the university. Although book return bins are provided for the convenience of borrowers when libraries are closed, the Libraries assumes no responsibility for loss or mutilation of any library material returned through the book bins.

Reciprocal Borrowing Privileges

The Libraries takes part in reciprocal borrowing programs that provide borrowing privileges at other academic libraries for students and faculty. For information, contact the Libraries – Director's office at (204) 474 9881.

Document Delivery

The Libraries will attempt to obtain articles or request interlibrary loans for books and scholarly materials not held in its own collections. The service is free, thanks to federal funding through an Indirect Costs of Research grant. Orders by fax, e-mail or Web forms are preferred. Information on these services is available at all circulation desks.

Photocopying

Photocopy machines, which take coins or vendacards, are available in all libraries. Vendacards can be purchased at most libraries.

Laser Printing

At a charge of 10 cents per page, laser printing is available in all libraries on the Fort Garry and Bannatyne campuses, and the library at St. Boniface General Hospital. Colour printing is available at \$1.00 per page at the Technology Resource Centre in the Elizabeth Dafoe Library. Word processing and laser printing for theses, resumes, term papers, graphs, and spread sheets are offered from computer labs in the following libraries: Elizabeth Dafoe, E.K. Williams Law, William R. Newman Agriculture, Neil John Maclean Health Sciences, and Sciences and Technology.

Copyright Warning

! Duplication of copyrighted material is governed by the *Copyright Act*, (RSC 1985, c.C-42 as amended), and by the terms of a license between the University of Manitoba and the Canadian Copyright Licensing Agency (Access Copyright). Unless prior written permission has been obtained from the copyright owner, the use of photocopy machines to make any copy which contravenes *The Canadian Copyright Act*, or the provisions of the license between the university and Access Copyright, is strictly forbidden.

! Access Photocopy has granted the university a license which permits making copies of published works for use by students, and academic and administrative staff, provided:

! the published work is not on the Access Copyright exclusions list (see circulation desk of libraries, general offices of faculties/schools, UMinfo online);

and

! the following copying limits are observed:

! Copying shall not exceed 10 per cent of a published work (15 per cent where the copies are made for the purpose of resale) or the following, whichever is greater:

- an entire newspaper article or page;
- an entire single short story, play, poem, essay or article from a book or periodical issue containing the works;
- an entire single item of print music from a book or periodical issue containing other kinds of work;

-- an entire entry from an encyclopedia, dictionary, annotated bibliography or similar reference work;

-- an entire reproduction of an artistic work (including drawing, sculpture, painting, prints, architectural works or art, or works of artistic craftsmanship) from a book or periodical issue containing other works;

-- an entire chapter which is 20 percent or less of a book.

If there is doubt as to the copyright status of the material to be copied, further information is available from the brochure *Copying Right*, available at all circulation desks, or by calling the university's copyright information number at (204) 474 7499. Copyright information is also available online from UMinfo.

1.1 The History of St Andrew's College

St. Andrew's College in Winnipeg, affiliated with the University of Manitoba, is a Ukrainian Canadian academic institution sponsored by the Ukrainian Orthodox Church of Canada. The College in Winnipeg traces its beginnings to the Ukrainian Greek Orthodox Seminary which was established in Winnipeg in 1932. Previously, pastoral courses in Theology had been conducted in Saskatoon and Regina since 1918.

The concrete plan for the establishment of a College, a higher institution of learning, was presented to and approved by the Clergy Conference of the Ukrainian Greek-Orthodox Church of Canada on June 25, 1943. Subsequently, St. Andrew's College was incorporated under its charter in September 1946 on the premises of the former St. John's College (Anglican) on Church Avenue in Winnipeg.

In 1960, negotiations were initiated with the University of Manitoba, culminating on June 14, 1962 when St. Andrew's College became an associated College with the University. Construction of the building was completed in the spring of 1964.

1.2 Religious Affiliation

St Andrew's College welcomes all qualified students who are attracted to the setting of a small college with special emphasis on the Ukrainian Canadian heritage and the Orthodox Christian faith.

1.3 College Membership

Students who are registered at the University of Manitoba in any faculty (Arts, Engineering, etc.), or any program of studies both undergraduate and graduate have the option of joining a college and being a college member. On the University registration form to become a member of St. Andrew's College, the student simply selects code 08 as the college of membership. Our students who live in residence are required to be code 08 students, but both day students and residents can be members of St. Andrew's College. Membership is not restricted to residence students. There is no additional cost involved.

1.4 Benefits of Membership

St. Andrew's College is a small warm community which provides a Ukrainian Orthodox environment. Our students have an opportunity to learn about their Ukrainian heritage, worship in our chapel, deepen their faith and participate in our Ukrainian cultural program. All students have access to our chaplain and participation in a full cycle of Ukrainian Orthodox liturgical services throughout the academic year.

St. Andrew's College is home to the Centre for Ukrainian Canadian Studies. The Centre provides undergraduate courses and interdisciplinary programs of study in areas relating to Ukraine and to the life of Ukrainians in Canada. The Centre also encourages and promotes research and scholarship in all areas relating to Ukrainian Canadian Heritage Studies.

St. Andrew's College offers programs of study in the Faculty of Theology which, along with the Centre for Ukrainian Canadian studies, constitute the heart of the Institution's endeavours.

The College Library has over 40,000 volumes in its collection. Through the acquisition of the late Metropolitan Harion (Dr. Ivan Ohienko) Library in 1971, the collection is unique in the field of Ukrainian Studies. It is also well provided in the area of Eastern Christianity. The library offers exceptional resources to both Theology and Arts students.

The College Chapel is the liturgical centre for the Orthodox students on campus. Guests are always cordially welcomed. The Chapel is always open for both personal prayer and individual meditation.

1.5 Academic Programs

The College's academic pursuits entail two areas of study. First, the Faculty of Theology exercises a unique responsibility for the academic preparation of candidates for the priesthood and lay leadership of the Ukrainian Orthodox Church of Canada and other countries and churches. Second, the Centre for Ukrainian Canadian Studies offers programs with a major or minor at the undergraduate level in Ukrainian Canadian Heritage Studies.

1.6 Residence Information

St. Andrew's College also offers residence accommodation for approximately forty students, male and female, enrolled in its programs as well as those of the University of Manitoba. For more information about the Residence, please contact the Housing Officer of St. Andrew's College at (204) 474-8895.

1.7 Contact Information

For more information on the benefits of membership, or on how to register, please contact the General Office.

2.1 The History of St John's College

St John's College is the oldest Anglophone institution of higher learning in Western Canada and is a founding and affiliated college of the University of Manitoba. The College has its roots in the early days of Manitoba's Red River Settlement and its origins can be traced to the 1820s. The College was officially founded on November 1, 1866 by Bishop Robert Machray to provide instruction in higher education and training for the ministry in the Anglican tradition. In 1877, St John's joined with St Boniface College and Manitoba College to found the University of Manitoba. In 1958, St John's moved to its present location on the U of M Fort Garry Campus.

2.2 Religious Affiliation

St John's College is affiliated with the Anglican Church of Canada. Students

need not be Anglican to join and religious participation is not a necessary requirement of membership. All are welcome to participate in weekly Chapel services and to find spiritual and secular support in the work of the College Chaplain.

2.3 College Membership

St John's College membership is open to all University of Manitoba students.

The College has a yearly membership of approximately 500 students, 100 of whom live in residence, representing a wide variety of faculties and schools, both at the undergraduate and graduate levels.

At St John's, our goal is to create a small community atmosphere in a large university setting. We make the transition into university as comfortable as possible for first-year students and work hard to make university a positive experience for each of our members.

2.4 Benefits of Membership

After you have registered as a member, bring your student card to the General Office for your yearly membership sticker. You can use the sticker to get a 10% discount at the Daily Bread Café, to book empty classrooms in the College, and to get your free lunch at the opening and end of term barbecues.

St John's College offers members the opportunity to participate in a small community on campus, made up of students, Fellows (faculty members), and staff. Members are encouraged to participate in events such as an orientation for new members at the end of August, intramurals, barbecues, socials, formal banquets, and a graduation dinner.

Scholarships and Bursaries: St John's offers its members more than 50 scholarships, bursaries, and prizes totalling over \$75,000 (in 2004). Information on awards, including entrance scholarships, is posted on our website.

Facilities: College facilities include the Daily Bread Café, a Chapel, computer lab, library, classrooms, and a student lounge. Members can rent study carrels and lockers from the student council

2.5 Academic Programs

Students can meet the requirements for University 1 by selecting University of Manitoba courses timetabled at the College and identified in course timetables by the entry "S John" as the location. St John's College has organized several timetables for popular combinations of Arts and Science courses that are scheduled at the College. One of these is for students interested in applying to professional faculties such as Medicine, Dentistry, or Pharmacy. Contact the College Registrar for more information on these timetables by calling (204) 474-8520.

Students can often select many of their upper-level degree requirements from courses offered within the College.

St John's College is home to the Canadian Studies program at the University, supporting conferences, public lectures, and the Canadian Studies reading room. Many of the courses in the Canadian Studies option are available through the College.

St John's College students who have identified themselves to Aurora Student will have special access to St John's College sections.

2.6 Registering as a Member

You can apply to become a member of St John's College on the University of Manitoba application form, or through the Aurora Student registration system.

A mailout will be sent to new members in the summer, but if you register later in the year, you may not receive it. Please stop by the General Office any time to get a copy of the information.

Unless you change it yourself, the registration system will normally retain your membership until you graduate. However, if you change faculties or make other significant changes to your program, the registration system may remove your membership. Please check at the beginning of each school year to make sure you are still registered.

2.7 Membership Fees

The cost of membership is minimal and is based on your faculty and course load. This fee is assessed at the time of registration and will appear on your fee statement along with your tuition. Fall Term tuition fees are due in September. You can pay the fees at the Cashier's Office in University Centre (or wherever you pay your tuition fees). You cannot pay the fee directly to the College.

2.8 Residence Information

If you are looking for on-campus housing, consider St John's College Residence. Our residence has single rooms for 100 men and women, an excellent meal plan, and very reasonable rates. We pride ourselves on an excellent residence program and an active student body, while maintaining a quiet atmosphere in which to study and live. All residence students are required to be members of St John's College. Visit the College website for more detailed information or to download an application form.

2.9 Contact Information

For more information on the benefits of membership, or on how to register, please contact our General Office.

3.1 The History of St. Paul's College

St. Paul's College on the University of Manitoba campus is the major Catholic institution of higher education in the Province of Manitoba. In 1926 Archbishop Sinnott helped initiate and open St. Paul's College as the first English Catholic High School for boys in the Province of Manitoba. In 1933, the College became affiliated with the University of Manitoba. At this same time, the Jesuits took direction of the College and in 1958 moved St. Paul's College to the Fort Garry campus where it became co-educational. By 1970, the College's academic programs became fully integrated into

the University of Manitoba Curriculum. Presently St. Paul's College is under the direction of the St. Paul's College Corporation and an 18-person board of Governors. The Archbishop of Winnipeg is the College Chancellor and the College continues to value its commitment to be a College in the Ignatian tradition.

3.2 Religious Affiliation

St. Paul's College is a Catholic College in the Ignatian Tradition. Students of all faiths and cultures are encouraged to join and participate in St. Paul's College. All members of our community are welcome to take part in our Sunday/weekday liturgies, and our spiritual, outreach, social, and secular activities sponsored by the College, the Student Council, and the Chaplaincy program.

3.3 College Membership

St. Paul's College membership is open to all University of Manitoba students.

The College has a yearly membership of approximately 1000 students, representing a wide diversity of faculties and schools, at both the undergraduate and graduate levels.

The College serves as a comfortable home base for students as they explore

the multitude of opportunities and resources available within both the College and the University of Manitoba. St. Paul's College strives to promote academic excellence, to form mature and responsible citizens, and to represent the Catholic heritage and ideals within the university setting.

3.4 Benefits of Membership

Members of St. Paul's College are offered a variety of services, organized by the College, the Student Council, and the Chaplaincy team. Benefits range from a multitude of services and activities, including support for the spiritual life of the College, student retreats, social events, film and speaker series, intramural sports activities, student day timers, free lockers for members, free courtesy phone in the cafeteria, free student lounge, free BBO's and pancake breakfasts, graduation dinners, and a small community to get involved in.

Scholarship and Bursaries: St. Paul's College offers its members more than 70 scholarships, bursaries, prizes, and awards totalling over \$65,000 in 2003 for both undergraduate and graduate students. Please visit St. Paul's College or our website for more information www.umanitoba.ca/stpauls

Facilities: College facilities include a cafeteria, SPCSA Student Lounge, computer lab, library, chapel, study carrel rooms, locker area, arcade room, and classrooms.

3.5 Academic Programs

Students of the University of Manitoba can take University courses at the College, in which some space is reserved for College members.

St. Paul's College is also home to the B.A. Minor in Catholic Studies and is

developing a Ph.D. program in Peace and Conflict Resolution in its Arthur V. Mauro Centre for Peace and Justice.

3.6 Registering as a Member

Membership at St. Paul's College is open to all students of the University of Manitoba regardless of their chosen field of study or religious persuasion.

To become a member, you select St. Paul's College (Code 04) as your college membership on the University of Manitoba Application for Undergraduate or Graduate Admission or on the Aurora Student registration system. There is a small fee for membership which will be assessed along with your University fees.

Students can become members at any time of the year. A reminder, if you change faculties or make other significant changes to your program, the registration system may unintentionally remove your membership. Please check at the beginning of each school year to make sure you are still registered.

4.1 What is University College?

University College is a non-denominational constituent college of the University of Manitoba without religious, ethnic and/or linguistic affiliations or requirements.

Founded in 1964, University College provides a small, friendly environment for study within the larger university setting. The mission of University College, now, as when it was founded, is to provide students from a wide variety of backgrounds a home in which they can grow intellectually as well as socially, by participating with other College members in interesting academic and social pursuits that maximize the benefit they receive as students of the University of Manitoba.

University College is a lively place to meet people and exchange ideas. The College hosts a number of lectures and talks every year, including the Morton Distinguished Lecture. The Black Hole Theatre produces a number of plays throughout the academic year -- in the evenings as well as during the day at its Lunch Bagg presentations.

University College also promotes community responsibility through several volunteering programs, including the University College Giving Tree Community Outreach Project which provides Christmas gifts to underprivileged children in the Winnipeg area.

4.2 College Membership

Approximately 500 students are members of University College, including both residence and dayside students.

Membership in University College is free of charge and can be obtained at any time during the year. Students who wish to join can do so on the University of Manitoba application form or through the Aurora Student registration system.

4.2 Benefits of Membership

University College has a residence wing which provides comfortable ac-

commodations for 250 students and which is known for its strong sense of community. Application for rooms may be made through the Housing and Student Life office.

The academic wing of the College includes 16 classrooms and over 60 faculty offices as well as offices for about forty graduate students and organizations. Faculty members from a number of departments and faculties across campus have their offices and offer a number of their courses in the College. Additionally, Classics, Philosophy, Film Studies, Theatre and Drama, Labour and Workplace Studies and Icelandic Studies have their departmental offices in the building.

University College is also home to a number of research centres including the Centre for Defence and Security Studies, the Centre for Professional and Applied Ethics, the Centre for Hellenic Civilization and the Arctic Research Lab.

There is a general purpose Microcomputer Centre with Internet access and printing facilities for student papers. The Department of English also has the Multimedia Lab in the building.

If you are enrolled in astronomy courses, you will be studying at University College's Lockhart Planetarium.

The Junior Common Room is a well-stocked, food service centre with hot and cold meals and a congenial eating area.

The Concourse Lounge is where extracurricular lectures and colloquia are regularly held; students also gather here to talk and relax.

University College hosts the English Language Studies (ELS) which offers instruction in Canadian culture and oral and written English to students from Asia, Europe and South America.

The Playcare Centre, with both indoor and outdoor facilities, provides full day care for pre-school children.

Lockers are provided free of charge to College members.

University College is connected by tunnels to most other buildings on campus.

4.3 Student Assistance

University College offers a number of scholarships and bursaries to College members, including the Irene Anderson and Endowment Fund Scholarships. A number of these provide \$1,000 per award.

4.4 Contact Information

If you require more information, please contact our office by phone, fax or

e-mail (numbers are listed at the beginning of this section), or visit or write to University College at 203-220 Dysart Road, Winnipeg, MB R3T 2M8

5.1 About St. Boniface College

St. Boniface College holds the distinction of being the first university established in Western Canada, incorporated in 1871. The College is easily accessible from downtown Winnipeg, and is situated in the heart of Old St. Boniface.

The College is a francophone institution with all programs and services offered in French.

5.2 Study at the College

The admission procedure to the College is separate from that of the University of Manitoba. Students wishing to complete a program, taught in French, at the College must apply directly to the College. Information about procedures may be found on the website listed above.

A student, admitted to the University of Manitoba, who wishes to take one or more courses at St. Boniface College, will not need a Letter of Permission, but will need to contact a student advisor in his/her home faculty or school as well as the Registrar's Office at the College before registration will be permitted.

5.3 Academic Programs

The College offers degrees in Arts, Business Administration, Science, Education and Translation.

5.4 Services and Facilities

St. Boniface College has a full range of university services including lecture halls, laboratories, a fitness centre, multi-media centre, counselling and support services, cafeteria, library and student council.

5.5 Residence Information

APPENDIX: University 1 Course List

SECTION 1: University 1 Overview

1.1 Transition to University

The concept of “student success” is one of the highest priorities of the University of Manitoba, and University 1 is one of the main contributors to the fulfilment of this objective. Its three main pillars are academic advising, academic support and academic orientation. But University 1 is also much more. Built on the premise of “the freedom to choose”, it helps smooth out the normally difficult transition from high school to university. In short, University 1 is designed to give entering students the opportunity to adjust to university life and its academic demands, explore options, and gain experience before they make definitive decisions on their academic and career goals. Through one-on-one and group academic advising and programming, University 1 provides entering students with the opportunity and information to make informed choices.

1.2 The Freedom to Choose

University 1 is an approach to first year university education that provides students with choice and flexibility within an environment that allows them to achieve their educational objectives. University 1 students can take courses required for admission to one or more faculty or school and, at the same time, sample courses related to several disciplines or programs. At the end of University 1, students should be eligible to apply for admission to their faculty, school or professional program of choice.

Three Approaches to Course Selection

Students with clear academic and career choices can base University 1 course choices on the *Focused Approach*, a full course load that allows students to complete their programs in the shortest time. Students trying to decide between two or more programs may base their University 1 course choices on the *Balanced Approach*, where entrance requirements to more than one faculty can be completed at the same time. The widest exploration of options is found in the *Sampling Approach*, in which students select University 1 courses according to individual interests. Students following this approach may require additional courses to qualify for admission to the target faculty that they choose.

Detailed information on the University 1 course selection approaches is available in the University 1 *Start Book*. The University 1 Student Help Centre will begin mailing the *Start Book* to admitted students in May. Returning University 1 students can access the *Start Book* online at umanitoba.ca/u1.

University 1 offers Start@U1 and Academic Orientation to help students make a successful transition to university and make more informed program choices. Completion of Start@U1 is required for all new students prior to registration. Start@U1 is available via an online tutorial. The tutorial guides students through the process of course selection and registration. University 1 Academic Orientation is the first two days of the Fall Term. Academic Orientation is also offered at the beginning of the Winter Term for students admitted for the Winter Term. University 1 Academic Orientation highlights the range of university services available to new students, and offers workshops to help students make the transition to university. Information concerning Start@U1 and University 1 Academic Orientation will be sent to all University 1 students as appropriate.

1.3 The Student Help Centre

The Advisors at University 1 help students become actively responsible for their education. Students are expected, among other things, to choose courses according to program requirements, build a timetable, register using Aurora Student, attend classes, complete assignments on time, be aware of deadlines and participate in social activities. Should difficulties arise in any area that would affect academic success the advisors at the University 1 Student Help Centre are there to help ease the transition.

Academic Advisors are available to assist students with program planning, registration difficulties, personal issues or concerns, and to connect them to other campus resources. Newly admitted students should complete Start@U1 (see Section 3.4 in this chapter) prior to consulting with a University 1 Academic Advisor.

The Student Help Centre is located in 205 Tier Building. Hours of operation are normally Monday, Thursday and Friday 8:30 a.m. to 4:30 p.m. and Tuesdays and Wednesdays 9:30 a.m. to 4:30 p.m. Academic Advisors are available throughout the year (see Note). Advisors can assist students:

- In-person on a drop-in basis.
- By appointment on a limited basis. See our website at umanitoba.ca/u1 for information.
- On the University 1 telephone information system at (204) 474 6209 (Toll Free in Manitoba: 1 800 432 1960, ask for extension 6209).
- By e-mail at university_1@umanitoba.ca.
- Information is also available on our website at umanitoba.ca/U1.

Note: From time to time, Advisor availability may be reduced due to other commitments. If this should occur, students will be given as much advance notice as possible on the web (umanitoba.ca/U1), by automated voicemail (204-474-6209), and through notices posted outside 205 Tier Building. During peak registration times (particularly July and August; September Revision, January Revision and Voluntary Withdrawal deadlines), there may be significant wait times to see an Advisor.

1.4 The Learning Assistance Centre

201 Tier Building

Telephone: (204) 480 1481

Website: umanitoba.ca/U1/lac

The Learning Assistance Centre (LAC) offers academic support to University of Manitoba students to facilitate learning and improve writing skills. Areas of support include time management, goal setting, textbook reading, note taking, preparing for multiple choice and essay exams, motivation, memory and concentration as well as writing papers.

Workshops

Free study skills and writing workshops are offered in September on a variety of topics. View the updated schedule and brief descriptions on the LAC website.

One-to-One

Drop by to meet with a learning specialist or peer writing tutor for help with writing or study skills, learning, memory, and reading issues. Our staff is available Monday to Friday by appointment and drop-in. Tutors are available in 201 Tier and in Elizabeth Dafoe Library. See the LAC website for current hours.

Web Resources

The LAC website is continually growing. In addition to updated information about LAC hours, the writing tutor program, and workshops, you can access:

- Handouts on writing, learning, and studying
- Links to related websites including University of Manitoba resources and other university links providing useful help with time management, test anxiety, writing various types of papers, grammar etc.
- Online writing tutors who respond in writing to writing submitted via email.
- Instant message program that links to writing tutors who can answer specific questions on style, format and grammar.

SECTION 2: Admission to University 1

2.1 First Year Study in University 1

University 1 is the first 30 credit hours of most University of Manitoba programs, and depending on choice of target faculty, may be completed

through either full-time or part-time study. High school graduates, mature students, and transfer students with less than 24 credit hours of post-secondary education are admitted to University 1. Exceptions are students admitted to the School of Art (Studio programs), the Marcel A. Desautels Faculty of Music, the School of Agriculture (the Agriculture Diploma program), and students who qualify for direct entry to the Faculty of Engineering. The courses taken in University 1 are introductory university level courses that may qualify students to enter the target faculty of their choice. When students have completed 30 credit hours in University 1 and have a minimum cumulative Grade Point Average (GPA) of 2.0, they must transit to the Faculty of Arts or the Faculty of Science or apply to another faculty or school where they complete its program requirements in order to graduate (see Section 3.2 in this chapter for exceptions).

2.2 Admission Based on Manitoba High School

Manitoba high school applicants must have high school graduation with five full credits at the Grade 12 level, in courses designated S (Specialized), G (General), or U (Dual Credit – University), with a minimum of three of these credits in S or U courses. In addition, students must complete one of the following sets (A, B or C) of requirements:

Set A:

One credit of Grade 12 S or U English with a minimum grade of 60 per cent, and a minimum average of 70 per cent over three Grade 12 S or U credits.

or

Set B: (Limited Admission)

One credit of Grade 12 S or U English, with a minimum grade of 60 per cent, and a minimum average of 63-69.9 per cent over three Grade 12 S or U credits.

or

Set C: (Limited Admission)

A minimum average of 70 per cent over three Grade 12 S or U credits, but lacking the Grade 12 S or U English requirement or final grade less than 60 per cent.

Note: Admission under Set B or C is considered a limited admission to University 1. Some registration restrictions apply, and additional academic supports and services are provided.

2.3 Admission Based on High School in Other Canadian Provinces

All applicants applying with credentials from other Canadian provinces must meet the general entrance requirements as listed in Section 3.2.1, in the Admissions chapter of this Calendar. To qualify for University 1 they must complete one of the following sets:

Set A:

A minimum average of 70 per cent over the top three Grade 12 university preparatory courses and a minimum final grade of 60 per cent in Grade 12 university preparatory English.

or

Set B: (Limited Admission)

A minimum average of 63 per cent to 69.9 per cent over the top three Grade 12 university preparatory courses and a minimum final grade of 60 per cent in Grade 12 university preparatory English.

or

Set C: (Limited Admission)

A minimum average of 70 per cent over the top three Grade 12 university preparatory courses, but lacking the Grade 12 university preparatory English or final grade less than 60 per cent.

Note: Admission under Set B or C is considered a limited admission to University 1. Some registration restrictions apply, and additional academic supports and services are provided.

2.4 Admission Based on International High School

All applicants applying with credentials from outside Canada must meet the equivalent of the general entrance requirements as listed in Section 3.2.3 in the Admissions chapter in this Calendar, plus either one of the following options outlined below. All applicants whose primary language is

not English must provide evidence of proficiency in English as outlined in section 6.2 in the Admissions chapter in this *Calendar*.

Option 1: Senior-level English (minimum 60%) and a minimum 70% (B) overall average.

Option 2: (Limited Admission) A minimum of 70% (B) average but lacking Senior-level English.

Note: Admission under Option 2 is considered a limited admission to University 1. Some registration restrictions apply, and additional academic supports and services are provided.

2.5 Additional Information for High School Applicants

The courses listed in Section 2.2, 2.3 and 2.4 of this chapter are required for admission to University 1. Some introductory university courses require specific high school courses as prerequisites, which are specified in the course descriptions of this *Calendar*.

Courses completed in Advanced Placement and International Baccalaureate programs are considered as Grade 12 level courses for admission and selection purposes and may be eligible for transfer credit. See Section 3.3 of the Admissions chapter of this *Calendar* for more details.

Manitoba and Northwest Ontario (Thunder Bay and west) students will be selected on the basis of an average calculated over the best three different Grade 12 S or U credits. Although the remaining required courses will not be used in the computation of the average, each must bear at least a passing grade.

Applicants presenting academic records from other provinces or countries will be selected on the basis of an average calculated from their entire high school graduating year, or as specified under the section Certificates Equivalent to Manitoba High School Standing in Section 3.2 in the Admissions chapter in this *Calendar*.

2.6 Mature Students

Students who do not meet the high school or transfer requirements, and are Canadian citizens or permanent residents of Canada, may qualify for admission as mature students. To qualify for mature status, students must be at least 21 years of age before September 30 for admission to Fall Term; and before January 31 for admission to Winter Term; and before May 1 for admission to Summer Term (students who turn 21 before July 1 may take Summer Term courses beginning in July). Although students admitted in this category are not required to have specific courses for admission, they must meet normal course prerequisites, which are listed in the course descriptions in this *Calendar*. See Section 5.1 in the Admissions chapter in this *Calendar* for more details on Mature Student Status.

2.7 Transfer Students

Students who have completed less than 24 credit hours of studies at a post-secondary institution will normally be assessed on the basis of their high school record for admission to University 1, and must meet the high school requirements or the mature student requirements listed in Sections 2.2 to 2.6 of this chapter. Students who have completed 24 credit hours or more at a recognized post-secondary institution may apply directly to a faculty or school. See Section 4 of the Admissions chapter in this *Calendar* for more details.

SECTION 3: University 1 Course Requirements

3.1 Course Requirements

The University 1 curriculum includes a breadth requirement to ensure that students are exposed to a representative sample of courses. To that end University 1 students are governed by the following regulation: students are required to take 6 credit hours of courses from the Faculty of Arts, 6 credit hours of courses from the Faculty of Science, and 6 credit hours of courses from the Faculty of Arts or the Faculty of Science or the Clayton H. Riddell Faculty of Environment, Earth, and Resources and 12 further credit hours of courses from the University 1 course list in the Appendix at the end of this chapter. This curriculum will normally be fulfilled through the completion of courses that are required for admission to faculties and schools. Students who are admitted to faculties and schools after Universi-

ty 1 and who have not completed the University 1 curriculum will complete the remaining requirements as part of their degree program. Additionally, students may be eligible to move to a faculty or school program once they have completed 24 credit hours, but must complete remaining University 1 coursework in their intended degree program (see Section 3.2 in this chapter). Students with less than 24 credit hours remain in University 1 for their next registration and may register for a full course load.

The list of courses available to University 1 students is available in the Appendix at the end of this chapter. With special permission, students may register for courses not on this list.

The University 1 Start Book describes in detail the courses and course selection options available to University 1 students (See Section 3.4 of this chapter).

3.2 Transfer to Faculties and Schools Following University 1

Target faculties and schools that students may enter after University 1 have established minimum admission requirements. It is strongly advised that students pay attention to these requirements when choosing their courses in University 1. Many target faculties and schools have also established a Focused Approach for choosing courses in University 1 that will allow students to complete their degree in the shortest possible time.

Target faculties and schools that admit students directly from University 1 require for admission, the completion of either 24 or 30 credit hours, depending on the program. There are often alternative courses that will fulfil admission requirements and, with careful planning, the University 1 course selection can qualify students for admission to more than one program. The basic course requirements for admission to faculties and programs after University 1 are summarized in each faculty or school section in this *Calendar* and in the University 1 Start Book. Detailed information on admission requirements can be found in the Applicant Information Bulletin available for each program from the Enrolment Services Office, 424 University Centre.

Students who have completed 30 credit hours or more with a cumulative Grade Point Average (GPA) of 2.0 must exit University 1 before registering in the next Fall/Winter Terms. Students with 30 credit hours or more who have not met specific academic standards are normally required to remain in University 1 until those standards are met. See Section 4.9 of this chapter for an explanation of University 1's academic standards.

Students who have completed 24 credit hours or more with a minimum cumulative GPA of 2.0 may be eligible to apply for admission to another faculty or school. See the admission requirements section in each faculty or school chapter in this *Calendar* and the Start Book. Alternatively, students who have completed 24 to 29 credit hours with a cumulative GPA of 2.0 may elect to remain in University 1 and register for a full course load.

Students who have completed 24 credit hours or more with a cumulative GPA of 1.99 or less may not be eligible for admission to a target faculty or school and would remain in University 1. Students should refer to University 1's academic standards as outlined in Section 4.9 of this chapter.

Note: School of Art (Studio programs), the Marcel A. Desautels Faculty of Music, the School of Agriculture (the Agriculture Diploma program), and the Faculty of Engineering continue to admit students directly from high school, providing specific entrance requirements are met. Students may also apply for admission to these programs from University 1. See the chapters of these faculties and schools in this *Calendar* for program information.

3.3 University Written English and Mathematics Requirement

All students admitted to the University of Manitoba are required to successfully complete, within the first 60 credit hours of their programs, a minimum of one three credit hour course with significant content in written English, and a minimum of one three credit hour course with significant content in mathematics.

Some target faculties and schools require that the written English and mathematics requirements be completed within University 1. Other target faculties and schools may have designated specific written English and mathematics courses in Year 2 of their programs that fulfil this requirement. Students should refer to the admission requirements outlined by individual target faculties in this *Calendar* and in the University 1 Start Book for further information.

A complete list of all courses that satisfy the university written English and mathematics requirements is provided in Appendix A in the General Academic Regulations and Requirements chapter in this Calendar. University 1 courses which satisfy the written English and mathematics requirements are also identified with a "W" and "M" on the University 1 course list in the Start Book.

3.4 Guide to Course Selection

New University 1 students are required to complete the Start@U1 Online Tutorial and quiz before registering for courses. The Start@U1 Online Tutorial will teach students to choose courses, determine a course load, build a timetable and use the Aurora Student registration system. Other registration related concerns, such as fee payments and photo identification cards, will also be addressed.

Course selection information for University 1 students is found in the University 1 Start Book.

Start@U1 details and the University 1 Start Book will be mailed beginning in May and throughout the summer for students newly admitted to University 1 for September 2009; in the Fall for students admitted for January 2010; and in the Spring to students admitted for Summer 2010. Detailed information will also be available online at umanitoba.ca/u1.

Returning University 1 students may view the Start Book online at umanitoba.ca/u1.

Refer to Section 3.1 in this chapter for course requirements in University 1. Students should choose courses that are appropriate for entry to their desired target faculties or schools. Information about course requirements for each target faculty or school can be found in the admission section in the chapter pertaining to each faculty or school in this Calendar, the Start Book, and in the Applicant Information Bulletin available from the Enrollment Services Office, 424 University Centre.

3.5 Prerequisites, Concurrent Requirements and Co-requisites

Prerequisite: If a course is prerequisite for a second course, the prerequisite must be completed in order to begin the second course. To determine a course's prerequisite, see the course descriptions in this Calendar. Normally, a minimum grade of "C" is required in all courses listed as prerequisites, except as otherwise noted in the course descriptions.

Concurrent Requirement: If a course is a concurrent requirement for a second course, it may be taken either prior to or in the same term as the second course. To determine if a course has a concurrent requirement, see the course descriptions in this Calendar.

Co-requisite: If a first course is a co-requisite for a second course, the first course must be completed in the same term as the second course. To determine if a course has a co-requisite, see the course descriptions in this Calendar.

3.6 Courses Available to University 1 Students

The complete list of courses available to University 1 students is found in the Appendix at the end of this chapter. The University 1 course list includes all introductory courses offered by the Faculty of Arts and the Faculty of Science, as well as introductory level courses offered by many other faculties and schools. All courses required for entry to target faculties and schools are included as well as courses that may be taken as electives. The course list may also be found in the University 1 Start Book however this list includes only those courses being taught during the Fall 2009 and Winter 2010 Terms.

Courses appearing on the University 1 course list are approved for credit in University 1 and are acceptable for credit in all target faculties and schools, with the exceptions of English: ENGL 0930 and ENGL 0940, which are not acceptable for credit in Engineering, Nursing, or Pharmacy; and Interdisciplinary: ARTS 1110 and Mathematics: MATH 1520, which are not acceptable for credit in Engineering. Biology: BIOL 1110 may not be used as a Science course (for admission purposes) for the Faculty of Nursing.

Students may seek permission to take courses that do not appear on the University 1 course list. Courses that are not on the University 1 course list may not be acceptable for credit in all faculties. This means that, although a grade is awarded in the course and it appears on the student's academic record, it might not be used for degree credit by the faculty or school to

which the student is admitted. The granting of credit for courses not on the University 1 course list is at the discretion of each faculty or school. Consult the University 1 Student Help Centre for information about specific courses.

Returning University 1 students may be able to structure their course selection so that they can complete the admission requirements for their target faculty or school and begin to work on Year 2 degree requirements. See the target faculty's chapter in this Calendar or the Academic Advisors at the U1 Student Help Centre for help with course selection. Students may also be referred to the advising office of the target faculty.

3.6.1 Introduction to University: ARTS 1110

Introduction to University (ARTS 1110) is a three credit hour course that satisfies the written English requirement. It is designed to help students make the transition from high school, college or work-place to university. ARTS 1110 may help students adjust to university life more quickly, offering a unique combination of educational principles, practical skills, regular assignments, and the support of a group of fellow students. Features of ARTS 1110 include: strategies for academic success; introduction to libraries and research methods; instruction and extensive practice in effective writing, from first draft to finished work; and exercises in critical thinking. ARTS 1110 is normally only available to students who have completed fewer than 12 credit hours of university level courses prior to the Fall 2009 and Winter 2010 Terms.

SECTION 4: University 1 Regulations

• The provisions of the General Academic Regulations and Requirements chapter, and the University Policies chapter in this Calendar, apply to all students. In addition, University 1 and the faculties and schools offering University 1 courses have regulations and requirements that apply specifically to its students.

4.1 Maximum Course Load

University 1 students are normally restricted to a maximum of 30 credit hours during the Fall/Winter terms, with a maximum of five courses in each term. Students admitted under the Limited Admission programs will be restricted to a maximum of 24 credit hours during the Fall/Winter terms, with a maximum of four courses in each term. In each case, a credit hour overload may be considered for Winter Term based on Fall Term performance. Contact the University 1 Student Help Centre to discuss course overload requests.

4.2 Withdrawal from Courses

See Section 6.2 in the General Academic Regulations and Requirements chapter in this Calendar.

Voluntary Withdrawals (VWs) are incurred when students drop courses after the normal registration revision period. Students are strongly encouraged to speak to a University 1 Academic Advisor prior to dropping a course to discuss the consequences of the VW decision and to create a recovery plan. Dropping a course may adversely affect eligibility to transfer to a target faculty.

VW deadline dates can be found inside the front cover of this Calendar. VW deadlines are final. Students may not withdraw from a class after the deadline, except as described under the heading 'Authorized Withdrawal'. Students enrolled after the deadline must complete the remaining term work and write the final exam. Students who do not will receive a grade classification of "NP" (No Paper) accompanied by a letter grade based on term work completed for the course using a zero value for any incomplete work and for the final examination.

Authorized Withdrawal: Students with valid and documented reasons for withdrawal, such as medical illness or compassionate circumstances, may be authorized to withdraw from a course(s) without academic penalty. These "authorized withdrawals" (AWs) may only be approved by the University 1 Student Help Centre. AWs do not automatically result in a fee refund. Students seeking a refund of tuition fees must submit a fee appeal to the Registrar's Office. For more information on AWs see Section 6.2.2 in the General Academic Regulations and Requirements chapter in this Calendar.

4.3 Incomplete Term Work

Students who are unable to complete the term work prescribed in a course may apply to the instructor prior to the end of lectures for an incomplete

grade and time extension for work completion. The student is expected to write the final examination if one is scheduled for the course. See Section 4.1.2 in the General Academic Regulations and Requirements chapter in this Calendar.

4.4 Final Examinations

See Section 4.2 in the General Academic Regulations and Requirements chapter in this Calendar.

Students (with the exception of those auditing a course) are required to write all final examinations. Those who are absent without acceptable reason will receive a grade classification of "NP" (No Paper) accompanied by a letter grade based on term work completed for the course using a zero value for incomplete term work and for the final examination. If no credit for term work is involved, a grade of "F" will be assigned. Under certain conditions a student may apply for a deferred examination (see Section 4.5 in this chapter).

It is each student's responsibility to remain available during the entire examination period. Travel is not accepted as a reason for a deferred examination.

The Academic Schedule published at the front of this Calendar indicates the examination period for each academic term. The time, date, and location of examinations are available, about half way through the term, online at umanitoba.ca/student/records/, as well as on a master timetable that is available in the University 1 Student Help Centre.

4.5 Missed Examinations

University 1 students who miss a final examination for medical or compassionate reasons may be granted a deferred examination. Travel plans are not an acceptable reason to miss examinations. The University 1 Student Help Centre is the only place that can arrange a deferred examination for University 1 students who miss a final exam scheduled by the Registrar's Office. To make this arrangement, University 1 students must report to the Student Help Centre, normally no later than seven working days after the end of the examination series in which the examination was scheduled to be written, and provide written proof (such as a medical certificate) supporting the reason for missing an examination. The dates of the illness or affliction must correspond to the dates of the examination. If the request for a deferred examination is approved, the student will, in most cases, be offered the opportunity to write another examination within 30 working days from the end of the examination series in which the examination was deferred. More information about deferred exams may be found in Section 4.2.5 in the General Academic Regulations and Requirements chapter in this Calendar.

If a University 1 student misses a mid-term examination or a final examination, not scheduled by the Registrar's Office, for personal or medical reasons, the student must report to the instructor as soon as possible and provide written proof supporting the absence. Missing an examination is serious. There are many ways that the instructor can accommodate the student, and these options are up to the instructor and the department. Writing a makeup test at the student's convenience may not be an option.

4.6 Grade Appeals

University 1 students who do not agree with a grade assigned to term work (lab assignments, essays, term tests, etc.) or their final grade should discuss this with their instructor and attempt to resolve the issue without the need to submit a formal appeal. If an agreement is reached, an appeal is not necessary. If an agreement is not reached, the student may submit a formal appeal for either term grades or final grades.

A formal appeal of a grade assigned for term work (lab assignments, essays, term tests) normally must be submitted within 10 working days after the grade has been made available. Students may obtain the form "Application for Appealing a Grade Given for Term Work" from the general office of the department that offered the course.

A formal appeal of the final grade assigned will only result in the re-marking of the student's final exam. Final grade appeal applications are available from the Registrar's Office. Students have 21 days after the release of final grades by the Registrar's Office to submit a grade appeal application.

For more information on grade appeals, see Section 5 in the General Academic Regulations and Requirements chapter in this Calendar.

4.7 Repeating Courses

University 1 students may repeat a course they have previously taken, but they are not required to do so because of a low grade or a VW, unless it is a course required for admission or required once in their target faculty. University 1 students who wish to repeat a course in which they have a final grade must consult with a University 1 Academic Advisor prior to registration. Students may be eligible for a laboratory exemption in classes they are repeating with a laboratory component (see Section 4.8 in this chapter).

For courses that have been repeated (i.e. 2nd attempt) only the last grade achieved will be counted towards the students' cumulative Grade Point Average. However, the official transcript will reflect the grades of all courses attempted. In most cases, students will only be given one opportunity to repeat a course in which they have received a final grade. This includes taking a course considered to be equivalent to the course originally attempted.

Students must refer to their target faculty or school's Applicant Information Bulletin to determine how repeating a course may affect admission eligibility.

4.8 Laboratory Exemptions

University 1 students who are repeating a course with a laboratory component may qualify for a laboratory exemption. Laboratory exemptions are only granted if the lab portion of the course was passed. Only certain courses (usually courses in the Faculty of Science) offer laboratory exemptions. Students should see the general office of the department offering the course to determine if they are eligible for a laboratory exemption. Students who are eligible for a laboratory exemption should bring written permission from the department offering the course to the University 1 Student Help Centre prior to registration.

4.9 Academic Performance

Grades obtained in University 1 become a part of the student's permanent record and will appear on the student's official transcript. See Section 3 of the General Academic Regulations and Requirements chapter of this Calendar for a description of how Grade Point Averages (GPAs) are calculated. Grades earned while in University 1 will determine admission to most target faculties or schools.

Performance Level

University 1 students who have completed 12 credit hours or more will have their academic performance assessed informally as part of an Early Warning Program. Students with a cumulative GPA of less than 2.00 qualify for the Early Warning Program which is designed to assist students at the earliest sign of academic difficulty by providing academic advising, support services, and strategic referrals with the goal of returning the student to good standing. Formal academic assessments are performed following each term for all University 1 students who have completed 24 credit hours or more. As a result of this assessment students will be determined to be minimum met, on probation, or on academic suspension.

Minimum Met

University 1 students who have completed 24 credit hours or more must achieve a cumulative GPA of 2.00 or greater at each point of assessment in order to have met the minimum requirements of University 1. Students considered to be minimum met may be eligible to enter their target faculty and are encouraged to contact their target faculty or a University 1 Academic Advisor for admission information.

Probation

Students who do not achieve a cumulative GPA of 2.00 on a minimum of 24 credit hours will be placed on probation. The notation "On Probation" will be recorded on the student's transcript. Once on probation, a student will be allowed to register for another term. At each point of assessment (at the end of each term), students on probation must achieve a term GPA of 2.00 to be able to continue registering on probation. To clear probationary status the student's cumulative GPA must be 2.00 or higher. Once a student's cumulative GPA reaches 2.00 or higher they will have returned to good standing and will be able to register without restrictions.

While on probation, support services and referrals may be suggested in order to improve academic performance. Some restrictions on course load may apply. If the student does not achieve a term GPA of 2.00 in each term the student registers while on probation, he/she will be placed on academic suspension for one calendar year (see below).

Please note students who are registered in spanned courses will be assessed at the end of each term in which they are registered. It is possible for a student to be placed on probation prior to completing a spanned course; however an assessment of academic suspension will not occur while a student is registered in a spanned course. Students on probation who are registered in spanned courses will continue on probation until the spanned course is complete, and may be placed on academic suspension at the end of the term in which the spanned course is complete if their term GPA is below 2.00.

Academic Suspension

A student will be placed on academic suspension after failing to achieve a minimum term GPA of 2.00 while on probation. A student placed on academic suspension in University 1 is normally not permitted to register in any other faculty or school at the University of Manitoba or to attend any other post-secondary institution for a period of one calendar year. Students must reapply to University 1 once the term of the suspension has been served.

4.10 University 1 Honour List

Students who achieve a term GPA of 3.50 or higher on a minimum of 12 credit hours will be placed on the University 1 Honour List. The University 1 Honour List will be calculated after each term (i.e. Fall, Winter, Summer).

The University 1 Honour List designation will appear on the student's transcript.

4.11 Challenge for Credit

Challenge for credit is a method of establishing university credit based on previous non-U of M experiences. The faculty that offers the course will determine whether the student is eligible to challenge for credit. See the faculty or school chapters in this Calendar for information specific to each faculty. University 1 students who wish to challenge a course for credit must consult with a University 1 Academic Advisor prior to registration. For additional information on challenging a course for credit see Section 4.3.2 in the General Academic Regulations and Requirements chapter in this Calendar.

4.12 Taking Courses at Another University

Students wishing to complete courses at another institution for credit at the University of Manitoba must obtain written permission i.e., a Letter of Permission, from the Registrar's Office prior to registering at the other institution or the transfer of credit will not be permitted. All courses completed on a Letter of Permission, along with the grades obtained, will be transferred and become part of the student's permanent record at the University of Manitoba. Students with questions regarding the transfer credit should consult with a University 1 Academic Advisor.

Students who attend other post-secondary institutions without a Letter of Permission must reapply for admission to the University of Manitoba before the application deadline. The penalty for unauthorized or undisclosed attendance may be disciplinary withdrawal.

See Section 4.3.1 in the General Academic Regulations and Requirements chapter in this Calendar.

SECTION 5: Registration

5.1 New Students

Registration times for University 1 students

All students are given an initial access time in which to register. This initial access time is the earliest date and time students will be able to register for courses. Registration begins in July and concludes in September for three credit hour (Fall Term) courses and six credit hour (Fall/Winter Term) courses. For three credit hour (Winter Term) courses, registration begins in July and ends in January.

New University 1 students are the first students to be able to register, followed by returning students. It is important for new University 1 students to take advantage of this opportunity in order to get space in selected courses. Registration times for newly admitted University 1 students begin in July. All new University 1 students are required to successfully complete Start@U1 before registering for courses. Start@U1 is available via an on-

line tutorial. See Section 3.4 in this chapter for more information about Start@U1.

Specific registration information and dates are available on Aurora Student; please refer to The Registration System: Aurora Student chapter of this Calendar.

Registration time:

Students must access Aurora Student to find their specific registration time. To find the registration time, access Aurora Student, then Enrolment and Academic Records, then Registration, and then Registration Status. Please refer to The Registration System: Aurora Student chapter of this Calendar for more details.

5.2 Returning Students

Before registering for courses returning students must determine whether to register in University 1, transit to the Faculty of Arts or the Faculty of Science, or apply for admission to another faculty or school. See Section 3.2 in this chapter for more information about transferring to faculties and schools.

5.2.1 Remaining in University 1

Students who are continuing their studies in University 1 may register for a full course load (30 credit hours or 24 credit hours for those in the Limited Admission program) in Fall 2009 and Winter 2010. When choosing courses, students are advised to review their target faculty or school's chapter in this Calendar or refer to the 2009 - 2010 Start Book for any changes in admission requirements since starting University 1. The Start Book is online at umanitoba.ca/u1. See Section 3.4 in this chapter for more information. See Section 5.1 in this chapter for information on determining registration time.

5.2.2 Transiting to the Faculty of Arts or the Faculty of Science

Transiting to the Faculty of Arts or the Faculty of Science is processed through Aurora Student. To transit, access Aurora Student, then Enrolment and Academic Records, then Declarations, then Transit from University 1.

Transits to the Faculty of Arts or the Faculty of Science may be completed up to the day of registration. To transit after registering students must contact the University 1 Student Help Centre or the intended faculty for assistance. Students may not transit after the end of the Registration Revision Period if they have registered for courses in Fall 2009 or Winter 2010. Students planning to begin classes in Winter 2010 may transit to the Faculty of Arts or Science after the end of the September Registration Revision Period with the assistance of a University 1 Academic Advisor or an advisor in the intended faculty.

5.2.3 Transferring to Other Faculties or Schools

Entry to every faculty and school, other than Arts or Science, requires a formal application to Enrolment Services. Application forms, deadline dates and a detailed Applicant Information Bulletin are available at Enrolment Services, 424 University Centre. Some faculties and schools admitting students from University 1 have application deadlines as early as February 1.

5.3 Building a Timetable

Information on building timetables is covered in the Start@U1 tutorial and in the Registration Information: Aurora Student chapter of this Calendar.

When building a timetable (i.e. deciding when to take courses), students can determine when individual courses are offered by using the online catalogue in Aurora Student.

5.4 Registering for Courses with Aurora Student

All registration functions are available using Aurora Student. Instructions on how to use Aurora Student are described in the Registration Information: Aurora Student chapter of this Calendar and the use of Aurora Student will be described in detail in the Start@U1 tutorial.

Aurora Student will not allow students to: (1) repeat a course in which a grade has previously been received; (2) register for Challenge for Credit courses; (3) register for a laboratory exemption; (4) take courses that are not on the University 1 course list. Students wishing to register in any of these categories must contact the University 1 Student Help Centre for registration assistance.

5.5 Fee Payment

Each Aurora Student session should be ended with a request for a fee assessment (for instructions see the Fees, Payments and Refunds chapter of this Calendar). Fee statements will not be sent to students in the mail.

Registration is not complete until fees are paid. Students who drop, add or change courses after their initial registration must request an updated fee assessment on Aurora Student.

For complete information, including fee payment deadlines, see the Fees, Payments and Refunds chapter of this Calendar.

5.6 University 1 Academic Orientation 2009: Tuesday, September 8 and Wednesday, September 9

Information about University 1 Academic Orientation 2009 will be mailed to new students in August. University 1 Academic Orientation is designed to help students succeed at university. It is an excellent way to become acquainted with the university community and to make some new friends. University 1 Academic Orientation is the first two official days of classes, therefore all new University 1 students are required to attend.

5.7 Attendance in Classes

Attendance in class is expected, but enforcement is at the discretion of each instructor. Students are responsible for all information given in class, including the important announcement of due dates, etc. In many classes the information discussed in class is in addition to textbook information. Some classes assign marks for class participation.

5.7.1 Attendance in the wrong class or section

Students are expected to attend the section and class in which they are registered. Attending the wrong section or class may result in the student receiving a failing grade. In addition, students must make sure they are attending courses in the correct term. Students are financially accountable for registration related errors.

5.8 Registration Revision Period

The first two weeks of each Fall and Winter Term is known as the Registration Revision Period. During the revision period students can add courses, drop courses, or change sections without academic or financial penalty. All revisions can be done using Aurora Student. The Registration Revision Period is an opportunity for students to test out courses and ensure that they are enrolled in the right ones.

The Registration Revision Period for three credit hour Fall Term and six credit hour Fall/Winter Term courses is in September and for three credit hour Winter Term courses is in January. For the revision dates, see the inside front cover of this Calendar.

5.9 Summer Courses

Summer is a good time to get a head start on intended degree programs or to take missing requirements. Preliminary information about courses offered in the Summer Term is normally available in December, with the final Guide, which includes registration information, available in March. Registration in summer courses normally begins at the end of March. Students should check the faculty or school chapters in this Calendar or in the Start Book to ensure that their intended degree program allows them to work ahead by taking summer courses.

5.10 College Membership

For information about membership, services and academic programs in one of the following colleges, consult the chapter on College Membership in this Calendar or contact the college office at:

St. Andrew's College	(204) 474 8896
St. John's College	(204) 474 8531
St. Paul's College	(204) 474 8575
University College	(204) 474 9751

For instructions on how to designate college membership see the Registration Information: Aurora Student chapter of this Calendar.

5.10.1 University 1 course offerings at St. John's College
Students can meet the requirements for University 1 by selecting first year courses offered at the College. St. John's College (SJC) students who have

declared themselves as SJC members using Aurora Student will have access to special advance registration for all courses held in SJC, as well as corresponding lab sections held outside of the College. Students intending to enter a professional faculty (e.g., Medicine, Dentistry, Pharmacy) can meet their first year pre-professional requirements by registering in the courses offered in SJC. Contact the SJC Registrar for more information on the timetable. For instructions on how to designate college membership see the Registration Information: Aurora Student chapter of this Calendar.

5.11 Registration Reminders

Things to do before classes start:

- Complete the Start@U1 Online Tutorial and quiz (for new U1 students).
- Determine the registration time (see Section 5.1 of this chapter).
- Create a timetable.
- Use Aurora Student to register for courses. See the Registration Information: Aurora Student chapter of this *Calendar*.
- Request a fee assessment from Aurora Student. See the Fees, Payments and Refunds chapter of this *Calendar*.
- Confirm schedule and get a booklist on Aurora Student. See the Registration Information: Aurora Student chapter of this *Calendar*.
- Pay fees. See the Fees, Payments and Refunds chapter of this *Calendar*.
- Obtain a Photo Identification card. See the Other Important Things To Do and Know chapter of this *Calendar*.
- Attend U1 Academic Orientation, September 8 and 9.
- Obtain a UserID and computer account. See the Other Important Things To Do and Know chapter of this *Calendar*.

Registration is not complete until fees are paid or arrangements are made to have them paid by the September fee payment deadline. For payment options and deadlines see the Fees, Payments and Refunds chapter of this Calendar.

APPENDIX: University 1 Course List

Refer to Section 3 in this chapter for information about choosing courses in University 1. To find a description of the courses on this list, go to the chapter for the faculty or school that is offering the course. The chapters are in alphabetical order, and departments are listed alphabetically within each faculty or school chapter. Courses are listed in the department sections and sorted in numerical order.

Note that not all courses listed in this section are offered every year. To determine which courses are offered in the Fall 2009 and Winter 2010 Terms refer to umanitoba.ca/calendar and the University 1 Start Book. Students may be permitted to take courses not on this list with permission of the teaching faculty or school and University 1.

For a list of courses available at Collège universitaire de Saint-Boniface see a University 1 Academic Advisor or refer to umanitoba.ca/calendar.

SECTION 2: Introduction to Agricultural and Food Sciences

The degree programs in the faculty are designed to prepare graduates for service in professions concerned with the production, processing and marketing of food. Professional agriculturists hold positions in extension, resource management and conservation, teaching, research and business. Professional food science graduates hold similar positions related to food manufacturing and processing. Graduates from the faculty have important contributions to make in the economy of Canada and the well-being of its citizens. Other graduates accept international responsibilities, particularly in the developing countries. Programs of study in the faculty include courses in physical and biological sciences, mathematics, social sciences, and humanities. With these courses as background, major studies may be taken in areas represented by programs in the faculty.

2.1 Professional Designations

Graduates of the B.Sc. (Agriculture), B.Sc. (Agribusiness), B.Sc. (Agroecology) and B.Sc. (Food Science) degrees are eligible to practice agrology as members of the Manitoba Institute of Agrologists. An agrologist is a "person who is qualified to teach or to practice the science and art of agriculture or to conduct scientific experiments and research in relation thereto." The motto of the profession is *Ciba ad Omnes* (Food for All). B.Sc. (Food Science) graduates are eligible to become members of the Canadian Institute of Food Science and Technology (CIFST), a professional society associated with the manufacturing, processing and packaging of food.

2.2 Faculty Overview

The oldest college of its kind in western Canada had its beginning in Winnipeg in 1906. The Faculty of Agriculture and Home Economics was founded in Tuxedo and the first class entered the former Manitoba Agricultural College that year. The first agricultural diplomas were conferred in 1908 and the first agricultural degrees in 1911.

Home Economics students began enrolling in the faculty in 1910, but several years elapsed before degrees were conferred. It wasn't until eight years later, in 1918, that the first graduates of the degree program were recognized.

In 1913, the Manitoba Agricultural College moved to a site in Fort Garry that later became the campus of the University of Manitoba. The administration of the Manitoba Agricultural College was transferred to the University of Manitoba in 1924 and instructional work was taken over by the Faculty of Agriculture and Home Economics.

Agriculture and Home Economics became separate faculties in 1970 and, in July 1991, the name was changed from Faculty of Agriculture to the Faculty of Agricultural and Food Sciences.

SECTION 3: Admission to the Faculty of Agricultural and Food Sciences

3.1 Degrees and Diploma offered

Bachelor of Science in Agriculture

Bachelor of Science in Agribusiness

Bachelor of Science in Agroecology

Bachelor of Science in Food Science

Minimum time to graduation: Four years (University 1 plus three years).

Diploma in Agriculture

Minimum time to graduation: Two years with admission directly from high school.

Pre-Veterinary Program: A two-year program beyond senior matriculation providing prerequisite subjects for entrance to the Western College of Veterinary Medicine, University of Saskatchewan and the Ontario Veterinary College, University of Guelph.

The following is a summary of the admission requirements. Equivalent academic courses completed at recognized universities elsewhere will be considered. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website.

3.1.1 Minors in the Faculty

The Faculty of Agricultural and Food Sciences currently offers minors in Animal Systems, Entomology, Food Science, Plant Biotechnology and Soil Science. Other minors may be available; contact the Student Services Office for details.

3.2 Admission and Course Requirements:

All Agriculture degree programs

The requirement for admission to the Faculty of Agricultural and Food Sciences is a minimum cumulative grade point average of 2.00 on a minimum of 24 credit hours.

It is recommended that students take the following courses in University 1 to allow completion of the degrees in the minimum amount of time.

B.Sc. (Agribusiness)

- Economics (6 credit hrs)
ECON 1200 or (ECON 1210 and ECON 1220)
- Mathematics (6 credit hrs)
MATH 1520 or MATH 1500 and MATH 1310 or MATH 1300
- Agriculture (9 credit hrs)
ABIZ 1000
AGRI 1500
AGRI 1510
- Biology (6 credit hrs)
BIOL 1020
BIOL 1030
- Open Electives (3 credit hrs)

B.Sc. (Agriculture), B.Sc. (Agroecology), B.Sc. (Food Science)

- Chemistry (6 credit hrs)
CHEM 1300 and CHEM 1310 or CHEM 1320
- Economics (6 credit hrs)
ECON 1200 or (ECON 1210 and ECON 1220)
- Mathematics (6 credit hrs)
MATH 1520 or MATH 1500 and MATH 1310 or MATH 1300 (See Note 1)
- Biology (6 credit hrs)
BIOL 1020
BIOL 1030
- Agriculture (6 credit hrs)
AGRI 1500
AGRI 1510
- Open Electives (nil)

Note:

1) MATH 1300 and MATH 1500 are recommended for the B.Sc.(Agroecology) and the B.Sc.(Food Science) programs.

Other requirements:

High school requirements include Math 40S (Pre-Calculus) (60%) and Biology 40S (50%) for all degree programs, Chemistry 40S (50%) for B.Sc. (Agriculture), B.Sc. (Agroecology) and B.Sc. (Food Science) students; pre-veterinary students should include Physics 40S.

Students are required to take three credit hours of Philosophy in their degree.

The written English and mathematics requirement are met by completing the required courses in Agriculture.

Applicants who do not meet the above-mentioned course requirements may be eligible for admission. Please contact the Student Advisor, Faculty of Agricultural and Food Sciences at (204) 474-8269, for further information.

First Year Agriculture: Brandon University

Brandon University offers the first year of the Agriculture degree program of the Faculty of Agricultural and Food Sciences. Under arrangements between the two universities, students who complete the first-year Agriculture program at Brandon University may apply for admission with full credit into the second year programs of the University of Manitoba.

Transfers of Credit

School of Agriculture graduates who have obtained a GPA of 3.0 in the Agriculture Diploma program are eligible for 60 credit hours of transfer into the following degree programs: Bachelor of Science (Agribusiness), Bachelor of Science (Agroecology), Bachelor of Science (Agriculture) – Agronomy or Animal Systems, when transferring into the same stream. If students

choose to change streams it *may* not be possible to transfer the entire 60 credit hours due to program requirements; students should contact the Student Services Office for details. Grade will be transferred for those courses considered on a one-to-one basis (see below); the remaining credit hours will be transferred without grades. This transfer articulation is applicable to diploma graduates who have entered the degree program as of September 2005.

Students wishing to enter a degree program without the above qualifications will be evaluated on a course-by-course basis (below).

The Bachelor of Science (Agriculture), Plant Biotechnology, and the Bachelor of Science (Food Science) are not part of this articulation. Students should contact the Student Services Office for details on transfer into these programs.

Transfers of Credit (currently under review)

Some courses taken within the Diploma in Agriculture of the Faculty of Agricultural and Food Sciences qualify for credit towards the undergraduate degree program. These courses are outlined in the table below. Students should have a cumulative grade point average of 2.50 and a C+ or better in courses for which transfer is being considered.

Transfer of Credits Diploma/Degree

Courses taken outside the Faculty of Agricultural and Food Sciences or outside of the University of Manitoba may also qualify for credit towards the degree if the course content and the student's performance are deemed appropriate by the department concerned.

SECTION 4: Academic Regulations

All students are asked to note that some academic policies and regulations are under review and are subject to change. Please check the Web Calendar at umanitoba.ca after July 1, 2008 for updated information.

The B.Sc. (Agriculture), B.Sc. (Agribusiness), B.Sc. (Agroecology) and B.Sc. (Food Science) degree programs have the triple objectives of vocational, professional and cultural education. To fulfil the objectives, the degrees are offered in a program of study. Most courses in first year, which are taken in University 1 and some in second year, are prescribed. The remainder of second year courses and all courses in third and fourth years are determined by the program of study, and by the student's selection of elective courses.

It is **strongly recommended** that all students plan their coursework for third and fourth years before the end of their second academic year.

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Agricultural and Food Sciences has regulations and requirements, published below, that apply specifically to its students. Supplementary academic regulations are on file in the general office. Admission information can be found in the Admissions chapter of this *Calendar*.

Scholastic Requirements

To obtain a B.Sc. (Agriculture), B.Sc. (Agribusiness), B.Sc. (Agroecology) or B.Sc. (Food Science) degree, a student must pass 120 credit hours normally comprised of 30 hours from University 1 and 90 hours in the Faculty of Agricultural and Food Sciences (i.e., a total of 20 full-courses or the equivalent).

A maximum of 144 credit hours (24 full-courses or the equivalent) may be attempted to obtain the 120 credit hours.

A minimum passing grade of "D" in prescribed courses is required of all students in the faculty.

Elective courses in which passing grades were not obtained need not be repeated.

A student's Grade Point Average (GPA) will be determined from the number of "effective" courses which apply at a particular stage. The effective courses consist of all courses passed in addition to all failures which have not been cleared or substituted for in the student's record.

In order to graduate, students must obtain a minimum GPA of 2.0 calculated over the final 120 credit hours before graduation.

Residence Requirements of Degree Program

The residence requirements for the degrees offered by the Faculty of Agricultural and Food Sciences, can be found in the chapter, General Academic Regulations and Policy.

Time Limits and Lapse of Credit

The normal maximum time allowed for the completion of the Agriculture degree programs is ten years from the date of first registration. A candidate for a degree will not be permitted to count toward that degree any courses taken more than ten years prior to the date of awarding the degree.

Probational Standards

Effective Courses to Date	Minimum GPA
1-5	(6-30 credits) 1.80
5 1/2-10	(33-60 credits) 1.85
10 1/2- 15	(63-90 credits) 1.90
15 1/2- 20	(93-120 credits) 1.95
20+	(120+ credits) 2.00

Academic Suspension Regulations

A student is placed on academic suspension when one of the following occurs:

- When a student fails to obtain 12 Weighted Grade Points in the first year program; or
- When a student fails to meet the probational standards after attempting a minimum of 24 credit hours while on probation; or
- When a student accumulates failures in excess of 24 credit hours.

Re-entry Regulations

A student must remain out of faculty for a period of one year and then apply for re-entry.

The student must complete at least 12 credit hours with a minimum Grade Point Average of 2.50 in courses approved by the faculty in the academic term or session in which reinstatement is being attempted.

The student loses credit for all courses in which a grade of "D" was obtained prior to being reinstated.

The student is given credit for courses in which grades of "C" or better were obtained, as well as the courses attempted for reinstatement.

The student is reinstated and placed in the category of "good academic standing."

A student who is placed on academic suspension for the second time, will not be permitted reinstatement in the faculty.

Appeals

Appeals of academic assessment of students must be submitted to the general office of the Faculty of Agricultural and Food Sciences within 21 days of the date of notification of the action sent to the student.

Graduation With Distinction: Degree Programs

The B.Sc. (Agriculture), B.Sc. (Agribusiness), B.Sc. (Agroecology) and B.Sc. (Food Science), degrees with distinction will be awarded to students who:

•The B.Sc. (Agriculture), B.Sc. (Agribusiness), B.Sc. (Agroecology), and the B.Sc. (Food Science) degrees with distinction will be awarded to students who have achieved a minimum degree GPA of 3.75 upon graduation.

Dean's Honour Roll

Students who have completed a minimum of 12 credit hours of study in either the Fall or Winter terms and who achieved a Term GPA of 3.50 or higher will be placed on the Dean's Honour Roll.

Course Load Limits

A normal "course load" is 30 credit hours during the regular session, with 15 credit hours normally taken in each academic term. A student may attempt a maximum of 39 credit hours during the regular session, with not more than 21 credit hours in an academic term, provided the student is in a good academic standing and has completed at least 24 credit hours in the previous regular session.

University Written English and Mathematics Requirements

All students are required to complete the university written English and mathematics requirement within the first 60 credit hours of their program. This requirement is described in the chapter, General Academic Regulations and Requirements of this *Calendar*.

For the degree program in Agriculture, the university written English requirement can be met by AGRI 2030 Technical Communications, or by ENGL 1200, or ENGL 1300. (NOTE: Technical Communications cannot be taken in University 1). The mathematics requirement can be met by completing MATH 1300 or MATH 1310 and MATH 1500 or MATH 1520, or STAT 1000.

SECTION 5: Program Requirements

In order to fulfil the requirements for a degree in the Faculty of Agricultural and Food Sciences, students must complete five components:

- Faculty Core
- Degree Core
- Program Core
- Restricted Electives
- Free Electives

These requirements are outlined for all four degrees in the sections which follow.

5.1 Faculty Core

Course No.		Credit Hours
CHEM 1300	University 1 Chemistry: Structure and Modelling in Chemistry (see Notes 1&2) and one of the following two courses:	3
CHEM 1310	University 1 Chemistry: An Introduction to Physical Chemistry (see Notes 1&2)	3
	Or	
CHEM 1320	University 1 Chemistry: An Introduction to Organic Chemistry (see Notes 1&2)	3
STAT 1000	Basic Statistical Analysis 1	3
MATH 1300	Vector Geometry and Linear Algebra (See Note 3)	6
	Or	
MATH 1310	Matrices for Management and Social Sciences	
	And	
MATH 1500	Introduction to Calculus (See Note 3)	
	Or	
MATH 1520	Introductory to Calculus for Management and Social Sciences	
ECON 1200	Principles of Economics or ECON 1210 and ECON 1220	6
ABIZ 1000	Introduction to Agribusiness Management (see Note 4)	3
AGRI 1500	Natural Resources and Primary Agricultural Production	3
AGRI 1510	Production, Distribution and Utilization of Agricultural Products	3
AGRI 2030	Technical Communications	3
BIOL 1020	Biology 1: Principles and Themes	3
BIOL 1030	Biology 2: Biological Diversity, Function and Interactions	3
	Three credit hours from the following:	
PHIL 1290	Critical Thinking (3)	
PHIL 2740	Ethics and Biomedicine (3)	
PHIL 2750	Ethics and the Environment (3)	
PHIL 2830	Business Ethics (3)	3
	Total credit hours	36-42

NOTES:

- 1) Students planning to enter into the B.Sc. (Agribusiness) degree program are not required to take chemistry at the university level.
- 2) Both CHEM 1310 and CHEM 1320 are required for the B.Sc. (Food Science) program.
- 3) MATH 1300 Vector Geometry and Linear Algebra and MATH 1500 Introduction to Calculus are recommended for the B.Sc.(Agroecology) and the B.Sc.(Food Science) programs.
- 4) MKT 2210 Fundamentals of Marketing should be substituted for ABIZ 1000 in the B.Sc. (Food Science) degree program.

5.2 Bachelor of Science (Agriculture)

The four year program (one year in University 1 and three years in the Faculty of Agricultural and Food Sciences) leading to the B.Sc. (Agriculture) is a professional program which prepares graduates for careers in the public and private sectors related to the production and distribution of agricultural commodities. Graduates will also be prepared to enter directly into a program of graduate studies. In addition to the faculty core courses, all students are required to take the following B.Sc. (Agriculture) degree core requirements and the respective program core courses.

B.Sc. (Agriculture) Degree Core

Course No.		Credit Hours
CHEM 2770	Elements of Biochemistry 1 (MBIO 2770)	3
PLNT 2520	Genetics	3
AGEC 2370	Principles of Ecology (BOTN 2370)	3
	or	
ZOOL 2370)		
	Total credit hours	9

Agromony Core

BOTN 2010	Plant Structure and Function 1	3
ANSC 2500	Animal Production	3
PLNT 2500	Crop Production	3
PLNT 3500	Plant Physiology (Not required for students who have taken the former 001.230)	3
PLNT 3510	Cropping Systems	3

PLNT 4590	Physiology of Crop Plants	3	Restricted and/or Free Electives	12	
SOIL 3600	Soils and Landscapes in Our Environment	3	Total credit hours	30

Within the B.Sc. (Agriculture) students will elect one of three programs of study or specialities -- Agronomy, Animal Systems or Plant Biotechnology. Students will normally begin the program of study of their choice in second year. A description of each program and their requirements follows.

5.2.1 Agronomy Program

Chair: P. Bullock
Office: 313 Ellis Building
Telephone: (204) 474-8666

The Agronomy program, which students enter into after completing University 1, will provide an integrated and comprehensive study of the factors and processes associated with the science of crop production and the management and use of land and water resources. The program emphasizes land management and the sustainability of agronomic and horticultural crop systems.

5.2.2 Animal Systems Program

Chair: M. L. Connor
Office: 201 Animal Science Building
Telephone: (204) 474-9219

The Animal Systems program, which students enter after completing University 1, will provide an integrated and comprehensive study of the factors and processes associated with the science of animal production. The program will be based on a strong foundation in the scientific disciplines underlying growth and reproduction in animals and how they respond to a range of environmental systems and constraints.

The Faculty also offers a minor in Animal Systems. Refer to Section 5.9.1 for details.

5.2.3 Plant Biotechnology Program

Chair: G. M. Ballance

Office: 326 Agriculture Building

Telephone: (204) 474-6086

The Plant Biotechnology Program which students enter after University 1 will provide an integrated and comprehensive study of genetic, physiological and pathological factors and modern technological processes associated with the sciences of plant improvement, production, protection, and utilization. The program will provide an understanding of the biological principles that determine the heredity, growth, and responses of plants and plant pathogens to cultural and environmental factors.

The faculty also offers a minor in Plant Biotechnology. Refer to section 5.9.4 for details.

5.3 Bachelor of Science (Agribusiness)

Chair: B. Oleson

Office: 356 Agriculture Building

Telephone: (204) 474-9384

Program Advisor: G. Johnson

Office: 379 Agriculture Building

Telephone: (204) 474-9795

Agribusiness students specialize in the people component of agriculture. This begins with the consumer, ends with the producer and involves all those along the food chain. Food production and distribution is undertaken in a business environment and agribusiness is the study of decision-making within this setting. Graduates gain insight into the agribusiness environment through mastering concepts in economics, finance, marketing and management. In addition to the faculty core courses, all students are required to take the B.Sc. (Agribusiness) degree core requirements. Students in Agribusiness are not required to take University 1 Chemistry as part of the Faculty Core requirement.

Through the choice of restricted electives, students will specialize in either agricultural economics, agribusiness management or international agribusiness. The respective agricultural economics, agribusiness management or international agribusiness options involve selecting restricted electives from courses offered by either the Department of Economics, or the Faculty of Management, or the Faculty of Arts through their cross-disciplinary programs.

Students selecting an option in agricultural economics can declare a minor in economics, and by meeting the additional requirements can qualify for a major in economics as well.

The international agribusiness option involves taking a minor in one of the cross disciplinary programs in the Faculty of Arts. International agribusiness requires knowledge of languages, cultures, and international political history, in addition to the other business skills required by the B.Sc. (Agribusiness) degree.

5.4 Bachelor of Science (Agroecology)

Chair: B. Amiro

Office: 364 Ellis Building

Telephone: (204) 474-9155

Program Advisor: N. Holliday

Office: 214A Animal Science Building

Telephone: (204) 474-6020

The Agroecology program, which students enter after completing University 1, provides students with an understanding of the natural processes in the agroecosystem and the impact of agricultural practices on these processes. The program emphasizes three areas: ecological sciences, agricultural production, and the social and economic implications of environmental management. Students will develop an understanding of how to manage

natural and agricultural resources in a manner that enhances economic production while maintaining the integrity of natural and agricultural environments. An undergraduate research project is completed during third and fourth years as part of AGECE 3510 and AGECE 4540. Graduates are prepared for careers at the technical and management levels in government and non-government agencies involved in planning and management of natural and agricultural resources. By appropriate choice of free elective courses, students can prepare for graduate studies.

In addition to the courses prescribed in the faculty core for all students in the Faculty of Agricultural and Food Sciences, the following courses are prescribed for students in the program leading to the B.Sc. Agroecology.

5.5 Bachelor of Science (Food Science)

Chair: S. Arntfield

Office: 201 Ellis Building

Telephone: (204) 474-9866

The B.Sc. degree program in Food Science, which students enter into after completing University 1, provides the academic foundation of knowledge and skills for the wide range of activities in food science and technology. The principal areas covered are food processing, chemistry, analysis and safety. The degree program is structured in course offerings and content to enhance the competence of graduating students by providing greater emphasis in communications, critical thinking, computer literacy and statistics which are basic requirements of a modern professional environment.

The faculty also offers a minor in Food Science. Refer to section 5.9.3 for details.

The Food Science program specifies ten required and a minimum of three restricted elective courses in Food Science. As well, students must select a minimum of three credit hours from a prescribed list of courses in critical thinking and ethics. Twenty-one credit hours of free electives are available and can be selected in Food Science. This will ensure a strong academic base in Food Science and accommodate a satisfactory level of Food Science specialization.

In addition to the courses required for the faculty core for all students in the Faculty of Agricultural and Food Sciences the following courses are prescribed for the program leading to a B.Sc. in Food Science.

Suggested Progression of Program:

5.6 Biosystems Engineering

Head: Q. Zhang

Office: E2-376 EITC (Engineering Building)

Telephone: (204) 474-6033

Students in the Bachelor of Science degree in Biosystems Engineering must be admitted to the Faculty of Engineering. The Biosystems Engineering program is outlined in the Faculty of Engineering chapter of this *Calendar*.

The courses below are for students studying in the various majors in Agricultural and Food Sciences and for non-Agriculture students with a special interest in the subjects.

Course No.		Credit Hours
BIOE 2050	Metalworking Methods	3
BIOE 2090	Machinery for Agricultural Production	4
BIOE 3530	Engineering Fundamentals	3
BIOE 4500	Water Management	3

BIOE 4520	Crop Preservation and Handling	3

5.7 Cooperative Education Program

Cooperative Education is a process of learning, which formally integrates the student's academic study with work experience in employer organizations. Work-related experience is found in industry, government and the farming profession. The work terms provide the students with practical experience, help to finance their education and provide guidance for further career specialization. All regulations governing regular Faculty of Agricultural and Food Sciences degree programs apply to the Cooperative Education Program. In addition, the following variations apply:

Admission: To be considered for admission in the Cooperative Education Program, an undergraduate degree student must have a minimum GPA of 2.5, have completed at least 75 credit hours of study by the end of the academic year of application but still need to complete 21 credit hours in their last year of academic study.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Education Program. Acceptance into the program is dependant upon the student receiving a job placement through the Cooperative Education Office.

Employment Term Requirements: The Cooperative Education Program is a five year program in which 12 months are spent in three-four month work terms with a faculty approved employer. The student will receive three credits for completing the Cooperative Education Program (one credit for each completed term). Students are required to register in the appropriate employment term course and pay the fee prior to starting the employment term. Normally each employment term will be completed with a different employer. While on a work term, a cooperative education student is not permitted to take more than six hours of academic credit and may not take more than one course at a time.

Academic Term Requirements: Once having been accepted into the Cooperative Education Program there are three requirements for each work term completed. Failure to do any of them in a timely fashion will result in a failing grade.

Part way through the work term, the Cooperative Education Coordinator will contact the student for a work site evaluation. During the evaluation both the student and employer will be interviewed and the work assessed. The student will need to make him/herself available for the interview.

Two weeks after the end of the work term, a work term report is due and must be submitted to the Cooperative Education Coordinator. Both content and format will be marked. (Details as to format and what is required in the report can be found in "Guidelines for Cooperative Education Work Term Report" which can be obtained from the Cooperative Education Coordinator.)

Also, two weeks after the end of the work term, a post employment review is required to be submitted to the Cooperative Education Coordinator. The appropriate department head, in consultation with the student's program chair, will assign each participating student a faculty advisor. The faculty advisor will be responsible for evaluating the student's work term report and assigning the student a grade based on the report, the employer's evaluation and Cooperative Education Coordinator's site evaluation. Grades of "Pass" or "Fail" will be assigned for each work term. Degree students successfully completing three work terms will have their "Cooperative Education Option" acknowledged on their graduation parchment.

5.8 Pre-Veterinary Program

A pre-veterinary program is offered to students who plan to take the degree Doctor of Veterinary Medicine. Pre-veterinary students whose academic standing is acceptable may be admitted to the Western College of Veterinary Medicine (WCVM), University of Saskatchewan. Acceptance into the Western College of Veterinary Medicine from the pre-veterinary program at the University of Manitoba is normally restricted to residents of Manitoba. Students from outside Manitoba may be accepted as residents of their own province or country. Students entering the pre-veterinary program are responsible for establishing their residence status.

Western College of Veterinary Medicine, Saskatoon

Two full years of university training are required for admission comprised of 30 hours from University 1 and 30 hours in the Faculty of Agricultural and Food Sciences, during which credit must be secured in the number of courses considered a standard load in the curriculum in which they are obtained. The deadline for applications is December.

The program of Pre-Veterinary study must include one full course in each of: English*, Physics, Biochemistry, Mathematics or Statistics; one half course in Microbiology, one and a half full courses in Biology or Zoology (including genetics), Chemistry (including organic chemistry); plus electives sufficient to complete two full years. (*This requirement can also be met by taking AGRI 2030 Technical Communications, and one half course in philosophy.)

The following program is designed to meet the above requirements within the constraints of present course offerings*. Some modifications may be possible.

*The courses outlined here relate to the entrance requirements for WCVM. Students intending to apply to the Ontario Veterinary College (OVC) should consult an OVC advisor or the Animal Systems Advisor.

5.9 Minors

As part of the electives portion of their programs, students may declare and complete a Minor from departments in which a Minor is offered. Course requirements are outlined in sections below. Minors are also available in the Faculties of Arts, Environment, Human Ecology, and Science and can be found within the departmental sections of each of these faculties. A Management Minor is offered by the Asper School of Business; Agriculture, Agroecology and Food Science students may complete this minor (this minor is not available to Agribusiness students). The Minor consists of 18 credit hours of Management courses. Students must meet prerequisites for all courses. Completion of a Minor is optional. All program minors must be declared before 90 credit hours of study have been completed. All 2nd program majors must be declared before 75 credit hours of study have been completed.

Minors in the Faculty of Agricultural and Food Sciences

5.9.1 Animal Systems

Students may obtain a minor in Animal Systems (18 credit hours) by completing ANSC 2500 Animal Production plus an additional 15 credit hours in Animal Science courses.

5.9.2 Entomology

Students may obtain a minor in Entomology (18 credit hours) by completing ENTM 2050 Introductory Entomology plus an additional 15 credit hours from the following list of courses: ENTM 1000 World of Bugs, ENTM 3160 Veterinary and Wildlife Entomology, ENTM 3170 Crop Protection Entomology, ENTM 3162 Manitoba's Insect Fauna, ENTM 4000 Topics in Entomology; ENTM 4280 Aquatic Entomology, ENTM 4320 Pollination Biology, ENTM 4500 Insect Taxonomy and Morphology, ENTM 4520 Physiological Ecology of Insects. Many courses are offered in alternating years, so students should consult the Department Head of Entomology to plan their program.

5.9.3 Food Science

Students may obtain a minor in Food Science (18 credit hours) by completing FOOD 1000 Food Safety Today and Tomorrow and FOOD 2500 Food Chemistry plus an additional 12 credit hours in FOOD courses excluding FOOD 4230 Food Research and FOOD 4120 Food Science Seminar.

5.9.4 Plant Biotechnology

Students may obtain a minor in Plant Biotechnology (18 credit hours) by completing PLNT 2530 Plant Biotechnology plus an additional 15 credit hours from the following list of courses: PLNT 3140 Introductory Cytogenetics, PLNT 3520 Principles of Plant Improvement, PLNT 3570 Fundamentals of Plant Pathology, PLNT 4330 Intermediate Plant Genetics, PLNT 4540 Plant Genomics, PLNT 4550 Developmental Plant Biology, PLNT 4560 Secondary Plant Metabolism, PLNT 4570 Research Methods in Plant Pathology, PLNT 4580 Molecular Plant-Microbe Interactions, PLNT 4590 Physiology of Crop Plants, PLNT 4600 Issues in Agricultural Biotechnology.

5.9.5 Soil Science

Students may obtain a minor in Soil Science (18 credit hours) by completing SOIL 3600 Soils and Landscapes in our Environment plus an additional 15 credit hours from the following list of courses: SOIL 3060 Introduction to Agrometeorology, SOIL 3520 Pesticides: Environment, Economics and Ethics, SOIL 3160 Field Methods in Land Resource Science, SOIL 4060 Physical Properties of Soils, SOIL 4130 Soil Chemistry and Mineralogy, SOIL 4400 Soil Ecology, SOIL 4500 Remediation of Contaminated Land, SOIL 4510 Soil and Water Management, SOIL 4520 Soil Fertility, SOIL 4530 Land Use and Environment.

SECTION 6: Course Descriptions

6.1 Agribusiness and Agricultural Economics

ABIZ 1000 Introduction to Agribusiness Management Cr.Hrs.3 (Formerly 061.100) Introduction to management principles applied to agribusiness. Topics covered will include cooperative and corporate organizations, financial analysis, marketing and planning. All students will prepare a business plan. Students will use spreadsheet skills with respect to processing information and preparing forecasts. Not to be held with the former 061.100 or 061.250.

ABIZ 1010 Economics of World Issues and Policies Cr.Hrs.3 (Formerly 061.101) Determinants of global food consumption, production and the factors underpinning food security and malnutrition. The importance of international trade in balancing countries' supply and demand for food, examination of trade barriers and institutions facilitating trade. Not to be held with the former 061.210.

ABIZ 2120 World Agribusiness Study Tour Cr.Hrs.3 (Formerly 061.212) Provides an understanding of world agribusiness, including areas such as agri-marketing, agricultural trade, agri-finance, agricultural policy, risk management, and economics of the environment and resources through an international study trip. A particular region of the world will be visited each time the course is offered. Offered at the discretion of the Department of Agribusiness. *Prerequisite:* Approval of instructor.

ABIZ 2210 Transportation Principles Cr.Hrs.3 (Formerly 061.221) Demand forecasting, cost analysis, regulation of carriers, role of transport in economic development, project appraisal, and transport planning. Not to be held with the former 061.351 or 018.354. Also offered as SCM 2210 by the Department of Supply Chain Management.

ABIZ 2390 Introduction to Environmental Economics Cr.Hrs.3 (Formerly 061.239) Economics of management of water, air and land resources quality, and conservation. Economic implications of current issues in environmental standards, licensing criteria and pollution charges. Also offered as ECON 2390 by the Department of Economics. Students may not hold credit for both ABIZ 2390 and ECON 2390 (or 018.239) *Prerequisite:* ECON 1200 (or 018.120).

ABIZ 2510 Introduction to Agricultural and Food Marketing Cr.Hrs.3 (Formerly 061.251) Economic principles and institutions involved in the Canadian agricultural and food marketing system. Farm and Agribusiness applications. Pre or co requisite: ECON 1200 (or 018.120).

ABIZ 2520 Introduction to Management Sciences Cr.Hrs.3 (Formerly 061.252) An introduction to management science techniques and models. Topics include linear programming, distribution problems, decision theory and queuing models. Students may not hold credit for ABIZ 2520 and SCM 2150 (or 164.215 or 027.215) or 061.414. *Prerequisites:* MATH 1680 (or 136.168), or MATH 1300 (or 136.130 or 136.131) and MATH 1500 (or 136.150 or 136.152). Pre-Co requisite STAT 1000 (or 005.100) or equivalent.

ABIZ 3080 Introduction to Econometrics Cr.Hrs.3 (Formerly 061.308) The application of statistical tools, especially regression analysis for estimating economic relationships and testing economic hypotheses through the use of spreadsheets and data sets. Students may not hold credit for both ABIZ 3080 and the former 018.344. *Prerequisite:* STAT 2000 (or 005.200) or equivalent, or a grade of "C" in ECON 3170 (or 018.317). Also offered as ECON 3180 by the Department of Economics.

ABIZ 3120 Commodity Futures Markets Cr.Hrs.3 (Formerly 061.312) Theory and economic functions of commodity markets including futures and options markets. The roles of the various participants; the determination of inter-temporal prices and various aspects of hedging will be studied. *Prerequisites:* ECON 1200 (or 018.120) and STAT 2000 (or 005.200)

ABIZ 3500 Agricultural and Food Policy Cr.Hrs.3 (Formerly 061.350) Economics of market intervention; trade policy analysis, and agricultural protection, exports, subsidies, tariffs, quotas; intermediate versus final goods; currency exchange rates and agricultural trade policy; trade agreements. Not to be held with the former 061.418. *Prerequisites:* ECON 2450 (or 018.245) and ECON 2470 (or 018.247).

ABIZ 3520 Food Distribution and International Merchandising Cr.Hrs.3 (Formerly 061.352) An introduction to logistics management concepts and their application to domestic and international merchandising. *Prerequisites:* ABIZ 1000 (or 061.100) or 061.250, and ABIZ 2510 (or 061.251) or MKT 2210 (or 118.221).

ABIZ 3530 Farm Management Cr.Hrs.3 (Formerly 061.353) Management decisions and business planning as they relate to farm production, marketing and financing activities. Identifying potential markets; comparative advantage analysis; organizational form and contractual requirements; alternative marketing and production strategies; financing production and marketing activities; develop farm business plan. *Prerequisite:* ABIZ 1000 (or 061.100) or 061.250.

ABIZ 3540 Financial Risk Management Cr.Hrs.3 (Formerly 061.354) Risk expected returns and valuation of capital; capital budgeting and dealing with risk; derivative securities and financial risk management; agricultural production and management of risk; agricultural risk management and public policy. *Prerequisites:* STAT 1000 (or 005.100) and ACC 1100 (or 009.110) and ABIZ 1000 (or 061.100) or 061.250 or ABIZ 2510 (or 061.251).

ABIZ 3550 Environmental Policy Cr.Hrs.3 (Formerly 061.355) Environmental policy development and enactment in Canada: federal and provincial review processes; socio-political aspects of policy development; chemical and pesticide licensing procedures and environmental effects monitoring; environmental policy and sustainability; case studies; discussion of various policies; ethics of development, preservation and conservation; environmental risk management. *Prerequisite:* ABIZ 2390 (or 061.239) or ECON 2390 (or 018.239).

ABIZ 3560 Agribusiness Portfolio Management Cr.Hrs.3 (Formerly 061.356) The

application of portfolio management to agribusiness, including asset allocation, portfolio construction and analysis, and operation of investment instruments and capital markets. Includes Canadian Securities Course. *Prerequisite:* Major in Agribusiness or Accounting and Finance, with 60 credit hours, ACC 1100 (or 009.110) and ECON 1200 (or 018.120), or permission from instructor. Recommended G.P.A. of 2.80 or higher.

ABIZ 4120 Intermediate Econometrics Cr.Hrs.3 (Formerly 061.412) A course in applied econometrics that explores the regression model and how it may be applied. Special emphasis is placed on violations to the assumptions of least squares, specification error, and applying the model to production, marketing, forecasting and other applications. *Prerequisite:* Written consent of instructor; this course assumes students have had a sound background in economic theory (e.g. micro and macro), as well as single variable calculus, linear algebra, and basic statistics. ABIZ 3080 (or 061.308) or ECON 3180 (or 018.318) is highly recommended. Also offered as ECON 4120 by the Department of Economics.

ABIZ 4240 Agricultural Economics Special Project Cr.Hrs.3 (Formerly 061.424) Students will undertake a project to analyze an applied problem and present results in a research and/or extension paper. A list of relevant readings will be assigned. Permission of the Department Head required.

ABIZ 4250 Commodity Market Analysis Cr.Hrs.3 (Formerly 061.425) Theory and methods of price analysis, commodity markets and the demand and supply factors that underpin seasonal, cyclical and secular changes in commodity prices. *Prerequisites:* ECON 2450 (or 018.245 or 018.270) and ABIZ 3080 (or 061.308) or ECON 3180 (or 018.318). Not to be held with the former 061.404.

ABIZ 4500 Agribusiness Strategies Seminar Cr.Hrs.3 (Formerly 061.450) This course will provide participants with insights into management strategies and decision-making, as well as the responsibilities, tensions and pressures encountered by agribusiness senior management. Some classes may be given by senior management followed by a debriefing session. Students must have completed 90 credit hours towards a degree in Agribusiness, or permission of the Department.

6.2 Agriculture

AGRI 1500 Natural Resources and Primary Agricultural Production Cr.Hrs.3 (Formerly 065.150) Introduces students to natural resources and climate, primary production of crops and livestock, production and resource economics and rural society. A model of the entire agri-food system will be used to show interrelationships among disciplines, processes, etc.

AGRI 1510 Production, Distribution and Utilization of Agricultural Products Cr.Hrs.3 (Formerly 065.151) Introduction to the aspects of agriculture that follow primary production and includes confined animal production and a presentation of a model of the entire agrifood system. Special emphasis on processing, marketing, transportation and food safety. Laboratory sessions will use small groups to examine problem based case studies.

AGRI 2030 Technical Communications Cr.Hrs.3 (Formerly 065.203) Lectures and workshops to develop written and oral communication skills for preparing and presenting scientific and technical reports. Basic composition skills, communication graphics and job interview techniques are included. *Prerequisite:* 24 credit hours of University.

AGRI 2180 Introductory Toxicology Cr.Hrs.3 (Formerly 065.218) A survey of general principles underlying the effects of toxic substances on biological systems, including history, scope and applications of toxicology, the mechanisms of toxic action, and some major types of toxicants. Not to be held with BOTN 2180 (or 001.218), BOTN 2190 (or 001.219), ENVR 2180 (or 128.218), ENVR 2190 (or 128.219), ZOOL 2180 (or 022.218), ZOOL 2190 (or 022.219), and the former 001.337. *Prerequisite:* BIOL 1020 (C) and BIOL 1030 (C) or the former 071.125 (C) and CHEM 1310 (or 002.131 or 002.128) or CHEM 1320 (or 002.132).

AGRI 2190 Toxicology Principles Cr.Hrs.2 (Formerly 065.219) A survey of general principles underlying the effects of toxic substances on biological systems, including the history, scope and applications of toxicology, the mechanisms of toxic action. Not to be held with BOTN 2180 (or 001.218), BOTN 2190 (or 001.219), ENVR 2180 (or 128.218), ENVR 2190 (or 128.219), ZOOL 2180 (or 022.218), ZOOL 2190 (or 022.219), AGRI 2180 (or 065.218) and the former 001.337. *Prerequisite:* BIOL 1020 (C) and BIOL 1030 (C) or the former 071.125 (C) and CHEM 1310 (or 002.131 or 002.128) or CHEM 1320 (or 002.132).

AGRI 2200 Principles of Plant and Animal Physiology for Engineers Cr.Hrs.4 (Formerly 065.220) Plant and animal physiology as affected by environment for use in the design of agricultural machines, structures and food processes for biological products; models of simulation of plant and animal growth. *Prerequisite:* BIOE 2590 (or 034.259) or the former 071.201.

AGRI 3030 Modern Topics in Agriculture 1 Cr.Hrs.3 (Formerly 065.303) An interdisciplinary course including topical national and international issues in agriculture. The course will vary from year to year to provide material of current interest in a wide variety of subject areas. Student participation by means of seminars will be encouraged.

AGRI 3040 Modern Topics in Agriculture 2 Cr.Hrs.3 (Formerly 065.304) Similar to AGRI 3030 (or 065.303).

AGRI 4550 Agriculture Cooperative Education Work Term 1 Cr.Hrs.1 (Formerly 065.455) Special four-month work assignment in business, industry, government or research for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment.

AGRI 4560 Agriculture Cooperative Education Work Term 2 Cr.Hrs.1 (Formerly 065.456) Special four-month work assignment in business, industry, government or research for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment.

AGRI 4570 Agriculture Cooperative Education Work Term 3 Cr.Hrs.1 (Formerly 065.457) Special four-month work assignment in business, industry, government or research for cooperative education students. Requires submission of a written report covering the work completed during the four-month professional assignment.

6.3 Agroecology

AGEC 2370 Principles of Ecology Cr.Hrs.3 (Formerly 065.237) Principles of ecology at the individual, population, community, and ecosystem levels. This course is also given in the Faculty of Science as BOTN 2370 or ZOOL 2370. It is the normal *prerequisite* to other courses in ecology. Not to be held with BOTN 2280 (or 001.228) or ZOOL 2290 or BOTN 2291 (or 022.229), or BOTN 2370 or BOTN 2371 (or 001.237), or ZOOL 2370 or ZOOL 2371 (or 022.237). *Prerequisite:* A grade of "C" in BIOL 1020 or BIOL 1021 and BIOL 1030 or BIOL 1031 or the former 071.125. *Pre- or co-requisite:* STAT 1000 or STAT 1001.

AGEC 2500 Population Genetics Cr.Hrs.3 (Formerly 065.250) Principles of population genetics as they apply to plants and animals in both natural and managed systems. *Prerequisites:* A grade of "C" in BIOL 1020 and BIOL 1030 or the former 071.125; AGEC 2370 (or 065.237) or BOTN 2370 (or 001.237) or ZOOL 2370 (or 022.237).

AGEC 3510 Agroecology Cr.Hrs.3 (Formerly 065.351) Examination of how ecological principles and processes apply to, and function in, managed ecosystems, with emphasis on agricultural ecosystems. Influence of agricultural practices on populations and ecosystem function. Ecological concepts as tools in managing systems. *Prerequisite:* AGEC 2370 (or 065.237) or BOTN 2370 (or 001.237) or ZOOL 2370 (or 022.237).

AGEC 4510 Applications in Agroecology Cr.Hrs.3 (Formerly 065.451) Integration of information on ecological principles, agricultural production technology and environmental and socio-economic issues through in-depth studies of issues and problems in agro ecology. *Prerequisite:* AGEC 3510 (or 065.351).

AGEC 4540 Agroecology Research Project Cr.Hrs.3 (Formerly 065.454) Completion of independent research project for which preliminary work was done in AGEC 3510 (or 065.351). Students perform research and meet regularly with supervisors beginning in September. Progress reports are required, and final results will be presented in written and verbal reports in April. *Prerequisite:* AGEC 3510 (or 065.351)

6.4 Animal Science

ANSC 2500 Animal Production Cr.Hrs.3 (Formerly 035.250) Built on concepts introduced in AGRI 1500 and AGRI 1510, by elaborating on the basic essentials of animal production. *Prerequisites:* AGRI 1500 (or 065.150) and AGRI 1510 (or 065.151).

ANSC 2510 Anatomy and Physiology 1: Control Systems Cr.Hrs.3 (Formerly 035.251) Will deal with the structure, functions and interactions of the coordinating/regulatory systems in the animal body; including the nervous, muscular, cardiovascular, respiratory, renal and endocrine systems. Co requisite: CHEM 2770 (or 002.277) or MBIO 2770 (or 060.277) or CHEM 2360 (or 002.236) or MBIO 2360 (or 060.236).

ANSC 2520 Anatomy and Physiology 2: Nutrient Utilization Cr.Hrs.3 (Formerly 035.252) The digestion, absorption and utilization of nutrients by farmed species. Basic characteristics of the digestive system, aspects of regulation of feed intake and rates of passage, intermediary metabolism of nutrients, growth and development, health and other factors influencing nutrient utilization. *Prerequisite:* ANSC 2510 (or 035.251). Co requisite: CHEM 2780 (or 002.278) or MBIO 2780 (or 060.278), or CHEM 2370 (or 002.237) or MBIO 2370 (or 060.237).

ANSC 2530 Nutritional Toxicology Cr.Hrs.2 (Formerly 035.253) The Science of dietary toxins and their interrelationships with nutrition: mode of action and metabolism of toxic chemicals that occur in food and animal feedstuffs. *Prerequisite:* AGRI 2190 (or 065.219)

ANSC 3500 Principles of Animal Genetics Cr.Hrs.3 (Formerly 035.350) Topics discussed will include population genetics, quantitative variation, selection and mating systems with particular reference to domestic species. *Prerequisite:* PLNT 2520 (or 039.252).

ANSC 3510 Feeds and Feeding Cr.Hrs.3 (Formerly 035.351) A detailed discussion of feedstuffs used for domestic animals, animal nutrient requirements, ration balancing, feedstuff processing and feed safety. *Prerequisite:* ANSC 2520 (or 035.252).

ANSC 3520 Animal Reproduction Cr.Hrs.3 (Formerly 035.352) The comparative anatomy and physiology of reproduction of farmed animals will be emphasized. Focus will be on the natural synchronization of reproductive processes and the potential to regulate and improve reproductive efficiency. *Prerequisite:* ANSC 2510 (or 035.251).

ANSC 3530 The Animal and Its Environment Cr.Hrs.3 (Formerly 035.353) Deals with how the animal is influenced by its environment to affect health, welfare and performances. Principles of farmed animal behavior, welfare and behavioral management, health, and facility design and modification will be considered in the context of animal/environment interactions. Co requisite: ANSC 2520 (or 035.252).

ANSC 4090 Livestock Problems Cr.Hrs.3 (Formerly 035.409) A minor thesis on livestock problems, prepared by the student under direction. (For Animal Systems Majors only). *Prerequisite:* Consent of department head.

ANSC 4220 Animal Science Investigations Cr.Hrs.6 (Formerly 035.422) Minor research on some problem in animal science. Instruction and supervision in setting up the project, in collecting and processing data, and in writing the report. (For fourth-year students in Animal Systems Major only.) *Prerequisite:* Consent of Department Head.

ANSC 4280 Applied Animal Genetics Cr.Hrs.3 (Formerly 035.428) Application of principles of animal breeding. Modern methods, techniques, and programs for genetic improvement of cattle, sheep, and swine. *Prerequisite:* ANSC 3500 (or 035.350).

ANSC 4410 Grassland Agriculture: Plant, Animal and Environment Cr.Hrs.3 (Formerly 035.441) Inter-relationships between the biological components of grassland agriculture as they relate to forage production on the Canadian Prairies. Topics include utilization by wild and domestic animals, plant community relationships and role of forages in multiple land use planning. This course also given in Plant Science as PLNT 4410.

ANSC 4500 Animal Health Cr.Hrs.3 (Formerly 035.450) Responses of basic animal functions to challenge by potentially pathogenic organisms, genetic or metabolic disorders, and toxicants will be discussed. Strategies for prevention and treatment will be outlined. Offered in 2009-2010 and alternate years thereafter. *Prerequisite:* ANSC 2520 (or 035.252).

ANSC 4510 Domesticated Animal Behaviour Cr.Hrs.3 (Formerly 035.451) An awareness and understanding of normal behaviors of animals will be emphasized. Relationships between behavior, welfare and management will be explored. Emphasis will be on farmed animals but companion animals, wild animals and laboratory species will also be discussed. *Prerequisite:* ANSC 2520 (or 035.252) or consent of the instructor. Offered in 2008-09 and alternate years thereafter.

ANSC 4520 Ruminant Production Systems-Meat Cr.Hrs.3 (Formerly 035.452) To provide an appreciation of the industry in terms of size, complexity and relationship to the economy and give an understanding of the breeding, feeding, management and marketing strategies for modern ruminant production systems. Open only to students holding at least 60 credit hours. *Prerequisite:* ANSC 2500 (or 035.250).

ANSC 4530 Ruminant Production Systems-Milk Cr.Hrs.3 (Formerly 035.453) Will describe the industry in terms of size, complexity and relationship to the economy and give an understanding of the breeding, feeding, management and marketing practices in a modern system for milk production. Open only to students holding at least 60 credit hours. *Prerequisite:* ANSC 2500 (or 035.250).

ANSC 4540 Monogastric Production Systems Cr.Hrs.3 (Formerly 035.454) Describes the swine industry in terms of size, complexity and relationship to the economy and gives an understanding of the breeding, feeding, management and marketing practices in a modern production unit. Outlines other monogastric production systems of relevance to the agriculture industry. Open only to students holding at least 60 credit hours. *Prerequisite:* ANSC 2500 (or 035.250).

ANSC 4550 Avian Production Systems Cr.Hrs.3 (Formerly 035.455) Describes the various avian systems in terms of size, complexity, and relationship to the economy and gives an understanding of the management and marketing practices in the usual poultry systems. Open only to students holding at least 60 credit hours. *Prerequisite:* ANSC 2500 (or 035.250).

ANSC 4560 Issues in Animal Agriculture Cr.Hrs.3 (Formerly 035.456) Through a combination of lectures and independent group learning activities students will develop an appreciation of the scope and complexities of current issues facing the animal industry and integrate knowledge accumulated through the Animal Systems Program using case study problems and group project work.

ANSC 4570 Advanced Applied Animal Nutrition Cr.Hrs.3 (Formerly 035.457) An advanced study of theoretical and applied aspects of monogastric and ruminant nutrition. A laboratory component will provide training in current techniques in feed analyses and computer modeling. Offered in 2009-2010 and alternate years thereafter. *Prerequisite:* ANSC 3510 (or 035.351)

6.5 Biosystems Engineering

AGRICULTURE COURSES

BIOE 2050 Metalworking Methods Cr.Hrs.3 (Formerly 034.205) Principles of operation of the lathe, milling machine, shaper, planer, drill, and grinding machine. Laboratory project requiring the use of the above machines. Limited practice in gas and electric welding.

BIOE 2080 Agricultural Survey Systems Cr.Hrs.3 (Formerly 034.208) Survey systems and techniques applicable to agriculture. Use of level, transit and tape. Theory of errors and error adjustment; mapping.

BIOE 2090 Machinery for Agricultural Production Cr.Hrs.4 (Formerly 034.209) Farm machinery selection. Machine performance. Ownership and operating costs. Analysis of machine functions for safety and efficiency.

BIOE 3530 Engineering Fundamentals Cr.Hrs.3 (Formerly 034.353) Principles of heat transfer, steam, psychometrics, fluid mechanics, material balances, electricity and refrigeration. Cannot be held for credit in the Faculty of Engineering. Not to be held with the former 034.329. *Prerequisite:* MATH 1680(136.168M) or the former 013.129 or 013.128.

BIOE 4340 Animal Production Environment Cr.Hrs.3 (Formerly 034.434) Aspects of temperature, humidity, light, space, manure and feed handling components of controlled environments for domestic animals.

BIOE 4450 Radiation Processing of Food and Other Agricultural Commodities Cr.Hrs.4 (Formerly 034.445) An introduction to the scientific principles underlying the radiation processing of food and other agricultural commodities; its development and implementation within the context of societal needs and concerns. *Prerequisites:* BIOE 2590 (or 034.259) or 071.201 or BIOL 1020 and BIOL 1030 or the former 071.125 (C) and CHEM 1300 (or 002.130) or the former 002.123 or 002.127.

BIOE 4500 Water Management Cr.Hrs.3 (Formerly 034.450) Introduction to the design of irrigation and drainage systems. Topics in irrigation include sprinklers, laterals, mainline and pumps. Drainage topics cover both the surface and subsurface systems. Analysis of precipitation and runoff. Environmental impacts of water management.

BIOE 4510 Agricultural Waste Management Cr.Hrs.3 (Formerly 034.451) Characteristics of waste, design of systems for collection, storage and land application, alter-

nate treatment/conversion systems, impacts on air, soil and water quality. *Prerequisite:* ANSC 3530 (035.353) or consent of instructor.

BIOE 4520 Crop Preservation and Handling Cr.Hrs.3 (Formerly 034.452) Interaction of biological and physical factors related to methods of preserving, storing, and handling cereals, oilseeds, and other agricultural crops.

ENGINEERING COURSES

BIOE 2110 Transport Phenomena Cr.Hrs.3 (Formerly 034.211) Principles of heat transfer, solar radiation, psychometrics, molecular diffusion, mass transfer and refrigeration and their application to biosystems. *Prerequisite:* ENG 1120 (or 130.112).

BIOE 2580 Biosystems Engineering Design Trilogy 1 Cr.Hrs.4 (Formerly 034.258) Biosystems Engineering and its place in the professions of engineering and agrology. Design concepts, with an emphasis on team building and technical communication skills. Philosophy of project planning. Preparation of a conceptual design by teams in response to design assignment submitted by industry. Written report presented orally. *Prerequisite:* ENG 1400 (or 130.140). Not to be held with the former 034.214.

BIOE 2590 Biology for Engineers Cr.Hrs.3 (Formerly 034.259) Provide theories and principles of Biology to engineering students and present applications of biological principles to engineering problems. Fundamental theories involved in cell structure and function, metabolism, genetics and heredity, bacteria and virus structure and function, plant and animal structure and function are covered. An introduction to animal and plant physiology is also provided. Laboratory sessions and term assignments focus on the engineering applications of these basic theories and principles to provide a good understanding of the role of Biology in Engineering. *Prerequisite:* CHEM 1300 (or 002.130). Not to be held with the former 071.201.

BIOE 3270 Instrumentation and Measurement for Biosystems Cr.Hrs.4 (Formerly 034.327) Basic instrumentation for measuring electrical and non-electrical quantities associated with biosystems engineering and industry; transducers for automatic control. *Prerequisites:* 006.261 or MATH 2110 (or 136.211), ENG 1180 (or 130.118).

BIOE 3320 Engineering Properties of Biological Materials Cr.Hrs.4 (Formerly 034.332) Engineering properties of biological and interacting materials within the system. Relationship between composition, structure, and properties of plant, animal, and human tissues. Definition and measurement of mechanical, thermal, electromagnetic, chemical and biological properties and their variability. Use of these properties in engineering calculations. *Prerequisites:* MATH 2100 (or 136.210 or 006.260), CIVL 2800 (or 023.280) or MECH 2220 (or 025.222), BIOE 2580 (or 034.258 or 034.214). Not to be held with the former 034.323.

BIOE 3550 Cooperative Work Study 1 Cr.Hrs.1 BIOE 3550 Cooperative Work Study 1 Cr.Hrs.1 (Formerly 034.355) Work assignment in business, industry, or government for Cooperative education students in Biosystems Engineering. Requires a written report covering the work completed during a minimum 25-week work period. Available from January to August. (Pass/Fail grade only)

BIOE 3580 Biosystems Engineering Design Trilogy 2 Cr.Hrs.4 BIOE 3580 Biosystems Engineering Design Trilogy 2 Cr.Hrs.4 (Formerly 034.358) Advanced design concepts associated with Biosystems Engineering, with emphasis on the principles of safety and human factors engineering. Theory of project planning. Preparation of a preliminary design by design teams in response to a design assignment submitted by industry. Written report with engineering drawings presented orally. *Prerequisites:* BIOE 2580 (or 034.258 or 034.214). Not to be held with the former 034.326.

BIOE 3590 Mechanics of Materials in Biosystems Cr.Hrs.4 BIOE 3590 Mechanics of Materials in Biosystems Cr.Hrs.4 (Formerly 034.359) In this course students will be exposed to both the theory and physical behaviour of materials when subjected to loads. The course will be delivered using a combination of lectures and hands-on labs. The materials presented include a wide range of design biosystems engineers may be involved with, including plastics, bone, wood, concrete, steel, other biological materials and composites. *Prerequisite:* CIVL 2800 (or 023.280), or consent of instructor. Not to be with the former 034.324

BIOE 4240 Graduation Project Cr.Hrs.3 (Formerly 034.424) Either an independent or a directed study including at least one of: a comprehensive literature review, an experimental research project, or an engineering design problem. The project is to be concluded by a formal report or thesis. *Prerequisites:* BIOE 3580 (034.358) or approval of department. (Pass/Fail grade only).

BIOE 4390 Unit Operations 1 Cr.Hrs.4 (Formerly 034.439) Equipment and systems used in handling, mixing, size reduction, separation and size enlargement of value-added food products. *Prerequisites:* CIVL 2790 (or 023.279) or MECH 2260 (or 025.226), BIOE 3270 (or 034.327). *Corequisites:* BIOE 3320 (or 034.332 or 034.323), BIOE 3580 (or 034.358 or 034.326).

BIOE 4400 Unit Operations 2 Cr.Hrs.4 (Formerly 034.440) Physical and mechanical operations for process and equipment design for handling, processing, and distribution of foods and food products. *Prerequisites:* BIOE 2110 (or 034.211), BIOE 3320 (or 034.332 or 034.323). Not offered in 2005-2006.

BIOE 4412 Design of Light-Frame Building Systems Cr.Hrs.4 Light-frame buildings as a structural and environmental system; structural loads in building systems; energy (heat), moisture and air contaminants in building systems; built-environment for building occupants. Hands-on labs of constructing small-scale structures for students to gain an understanding of building construction techniques. *Prerequisites:* BIOE 2110 (or 034.211) and BIOE 3590 (034.359).

BIOE 4414 Imaging and Spectroscopy for Biosystems Cr.Hrs.4 The purpose of this course is to familiarize senior Biosystems Engineering students with the fundamentals of imaging and spectroscopy for biosystems. Techniques of image acquisition, storage, processing, and pattern recognition will be taught. Various spectroscopy techniques and their applicability to biological materials will be discussed. Analysis of data using statistical, artificial neural networks and chemometric methods will be cov-

ered. Offered in alternate years. *Prerequisite:* BIOE 3270 (034.327)

BIOE 4416 Topics in Biosystems Engineering Cr.Hrs.3 This course will cover contemporary topics in Biosystems Engineering. The specific topics and a detailed outline will be available at the time of registration. *Prerequisite:* Permission of the department.

BIOE 4420 Crop Preservation Cr.Hrs.4 (Formerly 034.442) Biological and physical deterioration during storage. Methods of preserving and storing cereals, oilseeds, and other agricultural crops. *Prerequisite:* BIOE 2110 (or 034.211).

BIOE 4460 Air Pollution Assessment and Management Cr.Hrs.4 (Formerly 034.446) Air pollutant sources and characteristics, their impact on the environment, their behaviour in the atmosphere. Methods of sampling and measurement and the basic technological alternatives available for separation/removal and control. Particular problems of regional interest are discussed. *Corequisites:* CIVL 2790 (or 023.279) or CIVL 3610 (023.361) or MECH 2260 (or 025.226).

BIOE 4480 Environmental Impact Assessment Cr.Hrs.4 (Formerly 034.448) Basic methodologies for conducting impact assessments, including physical, chemical and ecological impacts. *Prerequisites:* approval of department. Not offered in 2005-2006.

BIOE 4530 Analysis and Design of Biomachinery Cr.Hrs.4 (Formerly 034.453) Design of machines for bioprocessing; traction mechanics and tractor chassis mechanics; power transmission components; functional requirements for field and process machines; fluid power hydraulics. *Prerequisite:* BIOE 3580 (or 034.358) or 034.326. Offered in alternate years.

BIOE 4550 Cooperative Work Study 2 Cr.Hrs.1 (Formerly 034.455) Work assignment in business, industry, or government for Cooperative education students in Biosystems Engineering. Requires a written report covering the work completed during a minimum 25 week work period. Available from May to December. (Pass-Fail grade only)

BIOE 4560 Structural Design in Wood Cr.Hrs.4 (Formerly 034.456) Design using wood as a structural material in light-frame buildings. Consideration of design constraints associated with sawn Lumber as well as based composite materials. Emphasis on use of computer based design aids. *Prerequisites:* CIVL 3770 (or 023.377) or BIOE 3590 (034.359) or 034.324.

BIOE 4580 Biosystems Engineering Design Trilogy 3 Cr.Hrs.4 (Formerly 034.458) Advanced design concepts, with emphasis on the principle of quality control. Application of project planning techniques. Principles of owning and operating an engineering consulting company. Preparation of a final design by design teams in response to a design assignment submitted by industry. Written report with cost of services rendered, presented orally. *Prerequisite:* BIOE 3580 (or 034.358) or 034.326. Not to be held with the former 034.413.

BIOE 4590 Management of By-Products from Animal Production Cr.Hrs.4 (Formerly 034.459) Topics covered include solid and liquid manure, manure characteristics, manure collection, storage, land application and utilization, biological treatment, design of equipment and facilities for manure handling. Environment issues, such as odour and water pollution associated with manure management will also be discussed. *Prerequisites:* CIVL 2790 (or 023.279) or MECH 2260 (or 025.226). Offered in alternate years.

BIOE 4600 Design of Water Management Systems Cr.Hrs.4 (Formerly 034.460) To introduce the basic theoretical principles in the design of irrigation and drainage systems. Topics covered include the determination of irrigation depth and interval, evapotranspiration, measurement and analysis of precipitation, design of sprinkler and drip irrigation systems, selection of pumps, surface and subsurface drainage design, water quality issues, salinity management, and the environmental impact of water management practices. *Corequisite:* SOIL 4060 (or 040.406) or CIVL 3730 (or 023.373) or consent of instructor. Not to be held with the former 034.412 or 034.418. Offered in alternate years.

BIOE 4610 Design of Assistive Technology Devices Cr.Hrs.4 (Formerly 034.461) Application and design of technology for individuals with disabilities; emphasizing the development of the requisite knowledge, skills, and attitudes to evaluate, design, and implement client-centred assistive technology. A multi-disciplinary approach to learning and applying knowledge will be emphasized with engineering and medical rehabilitation students collaborating on a design project. *Prerequisite:* ZOO 1330 or 022.133.

BIOE 4620 Remediation Engineering Cr.Hrs.4 (Formerly 034.462) The theoretical basis for the engineering design of different remediation technologies to treat contaminated soil and groundwater will be introduced. Methods for site characterization, monitoring of progress in remediation, and modeling of the remediation process will be presented. Different methods such as soil washing, air sparging, bioremediation, phytoremediation, constructed wetlands, electrokinetic remediation, reactive barriers will be discussed. *Prerequisite:* CIVL 2790 (or 023.279) or MECH 2260 (or 025.226).

BIOE 4630 Pollution Prevention Practices Cr.Hrs.4 (Formerly 034.463) To give students an understanding of pollution prevention as it relates to solids and hazardous waste management, air and water pollution, energy usage, and resource depletion. To evaluate practices on improved manufacturing operations, present fundamentals of pollution prevention economics, examine waste minimization incentives, design improvements to existing systems, and investigate overall sustainability of industrial practices. *Prerequisite:* CIVL 2790 (or 023.279) or MECH 2260 (or 025.226).

BIOE 4640 Bioengineering Applications in Medicine Cr.Hrs.4 This course surveys bioengineering applications and medicine from a clinical engineering perspective. Topics include: clinical engineering practice; device development legislation; biomedical sensors; biosensors; biomaterials and biocompatibility; as well as the principles of and design for medical imaging equipment. *Prerequisites:* ZOO 1320 (022.132) and ZOO 1330 (022.133) and BIOE 3320 (034.332).

6.6 Entomology

ENTM 1000 World of Bugs Cr.Hrs.3 A survey of insect biology and life styles with emphasis on insect diversity and human-insect interactions.

ENTM 2050 Introductory Entomology Cr.Hrs.3 (Formerly 038.205) A basic course for students requiring a foundation in entomology. The anatomy, life history, identification, adaptations, and relations of insects to humans are examined along with methods of collecting and preserving insect specimens. Students may not hold credit in ENTM 2050 (or 038.205) and the former 038.315 or 022.349.

ENTM 3160 Veterinary and Wildlife Entomology Cr.Hrs.3 (Formerly 038.316) An introduction to the insects and their relatives that affect domestic animals, pets and wildlife. Special consideration is given to life histories, insect/host interaction, evolutionary relationships, impact on host vertebrates and pest management. Offered in 2008-2009 and alternate years thereafter.

ENTM 3162 Manitoba's Insect Fauna Cr.Hrs.3 A collection of insects is required. Emphasis is placed on collecting techniques, specimen preparation, diversity of species collected, organization and curatorial skills, and accuracy of identification. Students should contact instructors in April preceding registration in this course. *Prerequisite:* ENTM 2050.

ENTM 3170 Crop Protection Entomology Cr.Hrs.3 (Formerly 038.317) A course for students requiring a foundation in entomology and knowledge of major insect pest groups in Western Canada. The pests and principles for their control (chemical, cultural, mechanical, physical and biological methods) are explored with emphasis on the entire ecosystem. Students may not hold credit in ENTM 3170 and 038.413 or 038.431.

ENTM 4250 Pesticide Toxicology Cr.Hrs.3 (Formerly 038.425) Action, behaviour, and fate of pesticides in target and non-target species and in the environment. Past, present, and future chemical control agents will be discussed on the basis of chemical and biochemical knowledge. *Prerequisite:* A course in biochemistry. Not offered 2008-2009.

ENTM 4280 Aquatic Entomology Cr.Hrs.3 (Formerly 038.428) Adaptations and significance of insects to aquatic habitats, with emphasis on identification. Aquatic insects as indicator species of pollution and their response to chemical pesticide application. A collection of aquatic insects is required. *Prerequisites:* ENTM 2050 (or 038.205); AGEC 2370 (or 065.237) or ZOOL 2370 (or 022.237) or BOTN 2370 (or 001.237); or consent of instructor. Offered in 2008-2009 and alternate years thereafter.

ENTM 4320 Pollination Biology Cr.Hrs.3 (Formerly 038.432) The biology, ecology of social, semisocial and solitary insect pollinators and their ecological interactions with entomophilous plants. Offered 2009-2010 and alternate years thereafter.

ENTM 4500 Insect Taxonomy and Morphology Cr.Hrs.3 (Formerly 038.450) Study of insect structure combined with evolution of insect orders. Modern concepts of sub-species, species and higher taxa. Collection required (contact instructor for details in April/May of preceding year.) Students may not hold credit for ENTM 4500 (or 038.450) and the former 038.412. *Prerequisite:* ENTM 2050 (or 038.205) or consent of instructor.

ENTM 4520 Physiological Ecology of Insects Cr.Hrs.3 (Formerly 038.452) The effect of environmental factors such as temperature, moisture, light and other organisms on the physiology and ecology of insects. *Prerequisite:* ENTM 2050 (or 038.205) or consent of instructor. Offered 2009-2010 and alternate years thereafter.

6.7 Food Science

FOOD 1000 Food Safety Today and Tomorrow Cr.Hrs.3 (Formerly 078.100) A contemporary examination of the safety of the food supply - where, how and why problems may rise and what is and can be done to consistently achieve high quality, safe food. Controversial issues (residues, organic, biotechnology, irradiation) will be discussed in a balanced manner, and prospects for the future presented.

FOOD 2500 Food Chemistry Cr.Hrs.3 (Formerly 078.250) The chemical components of food. Chemical problems and chemical changes which exist uniquely in foods. *Prerequisite:* CHEM 2770 (or 002.277) or MBIO 2770 (or 060.277) or CHEM 2360 (or 002.236) or MBIO 2360 (or 060.236). Not to be held with the former 078.422.

FOOD 3010 Food Process 1 Cr.Hrs.3 (Formerly 078.301) The principles of food processing and preservation are covered with emphasis on drying, evaporating, separating, thermal processing, mixing and packaging. Also, preservation by salting, smoking, microwave, radiation and chemical techniques is presented. Co requisite: FOOD 3210 (or 078.321).

FOOD 3160 Frozen Dairy Products Cr.Hrs.3 (Formerly 078.316) Technology of frozen dairy products, including selection and processing of materials and handling of products. Standards and quality control programs for major dairy products will be covered. Offered in 2008-09 and alternate years thereafter.

FOOD 3170 Cheese and Fermented Milk Products Cr.Hrs.3 (Formerly 078.317) Selection and evaluation of raw materials and lactic cultures are covered. Processing, packaging and distribution of cheddar and cottage cheese, cultured milk, cream and yogurt are studied. Offered in 2009-2010 and alternate years thereafter.

FOOD 3200 Baking Science and Technology Cr.Hrs.3 (Formerly 078.320) The science and technology of transforming wheat into quality baked foods. Focus will be on the biophysical and biochemical basis for the functionality of intrinsic wheat constituents, e.g. starch, and gluten proteins, and extrinsic ingredients, e.g. yeast, chemical leaveners, fats, oxidants, enzymes and other improvers. Principles of product formulations and modern processing techniques used to add value to wheat as diverse foods will also be covered. *Prerequisite:* CHEM 2770 (or 002.277) or MBIO

2770 (or 060.277).

FOOD 3210 Food Engineering Fundamentals Cr.Hrs.3 (Formerly 078.321) Applications of engineering fundamentals to unit operations on the food industry. *Prerequisite:* BIOE 3530 (or 034.353).

FOOD 3500 Processing of Animal Food Products Cr.Hrs.3 (Formerly 078.350) Processing of materials of animal origin will be studied with emphasis on product quality and safety. Impact of initial characteristics as well as processing technologies will be discussed in relation to nutritive value, convenience, functionality, aesthetic factors and food safety. *Prerequisite:* CHEM 2770 (or 002.277) or MBIO 2770 (or 060.277) or CHEM 2360 (or 002.236) or MBIO 2360 (or 060.236). Offered in 2008-2009 and alternate years thereafter.

FOOD 4010 Food Process 2 Cr.Hrs.3 (Formerly 078.401) The processing of specific food groups is covered. The functions and changes in the primary chemical components (carbohydrates, proteins and lipids) of the commodities receive special consideration. New technologies including thermal/nonthermal processing, radiation, extrusion, minimal processing and other advance processing methods will be studied. *Prerequisite:* FOOD 3010 (or 078.301).

FOOD 4120 Food Science Seminar Cr.Hrs.3 (Formerly 078.412) Written and verbal presentations of selected topics of current interest in the food science area. Should be taken in fourth year.

FOOD 4150 Food Microbiology 1 Cr.Hrs.3 (Formerly 078.415) Relationships of microorganisms to processing and spoilage of food.

FOOD 4160 Food Analysis 1 Cr.Hrs.3 (Formerly 078.416) This course exposes students to the principles, methods, and techniques of qualitative and quantitative physical, chemical and biological analyses of foods. Major emphasis is placed on understanding the basic principles of classical and instrumental methods of analysis. Criteria for the choice of various analytical methods, methods for treating data and sampling techniques will be studied. *Prerequisite:* FOOD 2500 (or 078.250).

FOOD 4200 Quality Control in Foods Cr.Hrs.3 (Formerly 078.420) Fundamentals of quality control and their industrial application through physical, chemical, microbiological, statistical and sensory methods will be studied. Statistical process control (SPC) will be mainly covered; required background knowledge of statistics will be reviewed briefly. *Prerequisite:* FOOD 3010 (or 078.301).

FOOD 4230 Food Research Cr.Hrs.3 (Formerly 078.423) Research interests and aptitudes of students are developed through specific project assignments related to the food industry. *Prerequisite:* Permission of Department Head required.

FOOD 4240 Analysis of Water and Wastes Cr.Hrs.3 FOOD 4240 Analysis of Water and Wastes Cr.Hrs.3 (Formerly 078.424) Introduction to the principles and application of the standard methods employed in the analysis of water and wastes in the food processing industry.

FOOD 4250 Food Analysis 2 Cr.Hrs.3 (Formerly 078.425) Advanced techniques employed in the physico-chemical analysis of food products as preparation for research, development, and inspection roles in government and in industry. *Prerequisite:* FOOD 4160 (or 078.416).

FOOD 4280 Food Microbiology 2 Cr.Hrs.3 (Formerly 078.428) In depth study of the microbiological problems encountered in different segments of the food industry, including the cereal, confectionery, fruit, vegetables, meat, poultry, fish, dairy and beverage industries. *Prerequisite:* FOOD 4150 (or 078.415).

FOOD 4300 Food Toxicants Cr.Hrs.3 (Formerly 078.430) An introduction to the principles of toxicology and the application of these principles to toxicological testing of food products. Food toxicants to be discussed include those of natural origin and those which are either intentional or accidental additives. *Prerequisite:* CHEM 2770 (or 002.277) or MBIO 2770 (or 060.277) or CHEM 2360 (or 002.236) or MBIO 2360 (or 060.236).

FOOD 4310 Introduction to HACCP Cr.Hrs.3 (Formerly 078.431) This course will cover the principles related to hazard analysis and critical control points (HACCP), a food safety and self-inspection system that is widely endorsed internationally by industry, consumer and regulatory groups. HACCP examines chemical, physical and biological hazards and identifies critical control points involved in producing, manufacturing and processing food products. *Prerequisite* or co requisite: FOOD 4150 (or 078.415) or consent of instructor.

FOOD 4500 Food Safety and Regulations Cr.Hrs.3 (Formerly 078.450) Current food safety issues; government, industry and consumers' role in organizing a safe food supply system; food laws and regulations in Canada and internationally. Preventative measures to increase food safety and sanitation will also be covered. Offered in 2005-2006 and alternate years thereafter. *Prerequisites:* FOOD 4150 (or 078.415) or FOOD 4300 (or 078.430).

FOOD 4510 Food Product Development Cr.Hrs.3 (Formerly 078.451) This course will allow the student to gain an understanding of the product development procedure as it relates to the food industry. Emphasis will be on application of basic knowledge of foods and food processing in designing a new product. *Prerequisites:* MKT 2210 (or 118.221), STAT 2000 (or 005.200) or equivalent, FOOD 3010 (or 078.301). Cannot be held with HNSC 4280 (or 030.428).

FOOD 4520 The Packaging of Food Cr.Hrs.3 (Formerly 078.452) Introduction to the physical principles and technology of packaging for the food industry with emphasis on the consequences to food stability and quality. *Prerequisite:* FOOD 3010 (or 078.301).

FOOD 4540 Functional Foods and Nutraceuticals Cr.Hrs.3 (Formerly 078.454) The course will examine the bioactive components of functional foods and nutraceuticals, their sources, chemistry, process technology, efficacy, safety and regulation. *Prerequisite:* CHEM 2770 (or 002.277) or MIBO 2770 (or 060.277) or MBIO 2360 (or 060.236) or CHEM 2360 (or 002.236).

6.8 Plant Science

PLNT 2500 Crop Production Cr.Hrs.3 (Formerly 039.250) An introduction to the principles and practices of crop production in Canada. Topics will include physiological processes and factors affecting plant yield, plant improvement, seed production, and production of the major cereal, oilseed, forage and special crops. *Prerequisite:* AGRI 1500 (or 065.150).

PLNT 2510 Fundamentals of Horticulture Cr.Hrs.3 (Formerly 039.251) Principles of the culture, marketing, and utilization of fruits, vegetables, and ornamentals, their contribution to the economy and well-being of consumers, and impact of horticultural activities on the environment. *Prerequisites:* BIOL 1020 and BIOL 1030 or the former 071.125; AGRI 1500 (or 065.150); or consent of instructor.

PLNT 2520 Genetics Cr.Hrs.3 (Formerly 039.252) Basic principles of genetics and their practical application in the areas of DNA structure and function, genome organization and genetic analysis. Laboratory sessions provide practical experience in solving genetic problems and conducting genetic investigations. Not to be held with BOTN 2460 (or 001.246). *Prerequisites:* a minimum grade of "C" in BIOL 1020 and BIOL 1030 or the former 071.125.

PLNT 2530 Plant Biotechnology Cr.Hrs.3 (Formerly 039.253) An introduction to current biotechnological techniques, including recombinant DNA, plant tissue culture, plant transformation and regeneration. A background to the techniques as well as a discussion of their applications in current biology and crop production will be examined. A laboratory will provide first hand experience with many of the techniques. Not to be held with the former 039.450. *Prerequisites:* CHEM 2770 (or 002.277) or MBIOL 2770 (or 060.277) and PLNT 2520 (or 039.252) or BOTN 2460 (or 001.246).

PLNT 3140 Introductory Cytogenetics Cr.Hrs.3 (Formerly 039.314) An introduction to the structure and function of eukaryotic genomes, from the gene to the chromosome. Topics include the cell cycle, meiosis, chromatin, chromosome and genome organization, karyotyping, changes in chromosome number and structure, physical mapping and chromosome evolution. Labs cover use of the microscope, meiosis, chromosome staining and banding, and bioinformatic analysis of chromosomes. *Prerequisite:* PLNT 2520 (or 039.252) or BOTN 2460 (or 001.246).

PLNT 3370 Environmental Horticulture Cr.Hrs.3 (Formerly 039.337) Management principles involved in the production of ornamental perennial plants in the nursery and their establishment and maintenance in the urban environment with an emphasis on arboriculture. Includes a number of tutorials to allow for guest speakers, discussions and tour. Not offered in 2008-2009.

PLNT 3500 Plant Physiology Cr.Hrs.3 (Formerly 039.350) An integrative view of major physiological processes in plants, spanning the biochemical, cellular, tissue, organ and whole plant levels of organization and addressing the effects of environmental conditions on these processes. Topics covered: photosynthesis and respiration, water relations, plant nutrition, assimilate partitioning, and regulation of growth. Not to be held with BOTN 3010 (or 001.301) or the former 1.317. *Prerequisites:* BIOL 1020 and BIOL 1030 or the former 071.125; CHEM 2770 (or 002.277) or MBIOL 2770 (or 060.277) or CHEM 2360 (or 002.236) or MBIOL 2360 (or 060.236); BOTN 2010 (or 001.201) or the former 001.230 or consent of instructor.

PLNT 3510 Cropping Systems Cr.Hrs.3 (Formerly 039.351) Examination and analysis of sustainable prairie cropping systems. Emphasis will be placed on integrated systems that optimize the benefits of crop rotation, and conserve soil, water and wildlife resources. Conventional, traditional and alternative crop production systems will be discussed. Includes a limited number of tutorials to allow for field tours and guest speakers. *Prerequisite:* PLNT 2500 (or 039.250).

PLNT 3520 Principles of Plant Improvement Cr.Hrs.3 (Formerly 039.352) Basic objectives, principles, and methods of plant genetic improvement. Traditional and modern plant breeding, genetic resources, selection, and applications of tissue culture, genetic engineering and molecular markers to plant improvement. *Prerequisite:* PLNT 2520 (or 039.252) or BOTN 2460 (or 001.246).

PLNT 3530 Horticultural Food Crops Cr.Hrs.3 (Formerly 039.353) Management practices, environmental considerations, and physiological factors involved in the production, marketing, and handling of the major vegetable and fruit crops. Pre- or co requisite: PLNT 2510 (or 039.251) or consent of instructor.

PLNT 3540 Weed Science Cr.Hrs.3 (Formerly 039.354) Identification, biology and ecology of weeds of agricultural importance in western Canada, including principles of cultural, mechanical, biological and chemical control. Topics include weed interference, effects of rotational and management practices on weed species composition, herbicide selectivity and mechanism of action, and emerging control technologies. *Prerequisites:* BIOL 1020 and BIOL 1030 or the former 071.125; AGRI 1500 (or 065.150); or consent of instructor.

PLNT 3560 Organic Crop Production on the Prairies Cr.Hrs.3 (Formerly 039.356) Management principles and practices involved in the production of organic field and forage crops with a focus on the Canadian Prairie region. Also available in online delivered format. *Prerequisites:* PLNT 2500 (or 039.250) and SOIL 3600 (or 040.360) or the former 040.351 or consent of instructor.

PLNT 3570 Fundamentals of Plant Pathology Cr.Hrs.3 (Formerly 039.357) An introduction to the science of plant pathology. Topics include causal agents of diseases, symptoms and diagnoses, modes of infections and spread, mechanisms in disease and control, effects of the environment on disease development, and methods of disease control. This course is a *prerequisite* for more advanced courses in plant pathology. *Prerequisite:* BOTN 2210 (or 001.221)

PLNT 4270 Plant Disease Control Cr.Hrs.3 (Formerly 039.427) Diseases attacking field crops and horticultural plants: recognition of symptoms, methods of prevention, alleviation, and control. *Prerequisite:* PLNT 2500 (or 039.250) or consent of instructor.

PLNT 4310 Introductory Plant Genomics Cr.Hrs.3 An introduction to plant genomics including mapping and sequencing genomes, gene expression and transcriptome, comparative, functional and integrative genomics; also covers gene constructs and plant transformation and a wide ranging consideration of transgenic crop issues. Theory and practice of genomics will be examined. A laboratory will provide hands on experience with several genomic techniques. Not to be held with the former PLNT 4540 (or 039.454). *Prerequisites:* PLNT 2520 (or 039.252) or BOTN 2460 (or 001.246) and PLNT 2530 (or 039.253) or consent of instructor.

PLNT 4330 Intermediate Plant Genetics Cr.Hrs.3 (Formerly 039.433) A study of gene behaviour as related to genetic analyses of data from plant populations; multiple allelic systems and polygenic inheritance of quantitative traits; extra-chromosomal inheritance and the significance of cytoplasmic influence. Examples will be drawn from experimental data where available. *Prerequisite:* PLNT 2520 (or 039.252) or BOTN 2460 (or 001.246).

PLNT 4380 Plant Science Thesis Cr.Hrs.6 (Formerly 039.438) An independent research project under the supervision of a staff member. A thesis including a literature review, methods, results and discussion is required. Enrollment limited. Open only to students in their 4th year. Not to be held with SOIL 4080 (or 040.408). *Prerequisite:* Consent of department head.

PLNT 4410 Grassland Agriculture: Plant, Animal and Environment Cr.Hrs.3 (Formerly 039.441) Inter-relationships between the biological components of grassland agriculture as they relate to forage production on the Canadian Prairies. Topics include utilization by wild and domestic animals, plant community relationships and role of forages in multiple land use planning. This course also offered in Animal Science as ANSC 4410.

PLNT 4530 Woody Plants in the Prairie Landscape Cr.Hrs.3 (Formerly 039.453) Classification, identification, ecological characteristics, landscape characteristics and use of native and introduced woody plants found in the prairie landscape. The course will include the preparation of a landscape plan incorporating a selection of the plants studied. Not offered in 2008-2009.

PLNT 4550 Developmental Plant Biology Cr.Hrs.3 (Formerly 039.455) An introduction to mechanisms regulating morphogenesis and plant growth and development. Emphasis will be on experimental approaches used to investigate pattern formation at sub cellular, cellular, tissue and organ levels. A heavy tissue culture component in the lab will implement the lecture topics and will provide new insights into ways to study plant development *in vitro*. *Prerequisite:* PLNT 3500 (or 039.350)

PLNT 4560 Secondary Plant Metabolism Cr.Hrs.3 (Formerly 039.456) An examination of secondary plant metabolism at the biochemical and molecular levels covering chlorophylls and haems, lipids, amino acids, phenolics, terpenes, and alkaloids. Biosynthesis, structure, and function of these metabolites will be put in context of their roles as hormones, plant defense compounds, pharmaceuticals, mitigators of environmental stresses, and regulators of cellular and organ physiology. *Prerequisite:* PLNT 3500 (or 039.350) or consent of instructor.

PLNT 4570 Research Methods in Plant Pathology Cr.Hrs.3 (Formerly 039.457) Course will provide practical training in plant pathology and will cover plant disease diagnosis, pathogen isolation, identification, inoculation, and storage. Molecular techniques currently used in the study of plant pathogens will be covered. The laboratory component aims at preparing students for a professional career in plant protection and research in plant pathology. *Prerequisite:* PLNT 3570 (or 039.357) or consent of instructor.

PLNT 4580 Molecular Plant-Microbe Interactions Cr.Hrs.3 (Formerly 039.458) Course will cover general principles and mechanisms related to plant-pathogen interactions, such as in gene-to-gene and toxin models. Emphasis will be on biochemical/molecular mechanisms of plant-microbe recognition, pathogenesis, and plant reactions to infections. Both beneficial and deleterious associations will be covered. *Prerequisite:* PLNT 3570 (or 039.357).

PLNT 4590 Physiology of Crop Plants Cr.Hrs.3 Concepts dealing with the physiological response of crop plants to the environment from the time of seed germination through to reproduction. Students may not hold credit for PLNT 4590 and the former 039.452. *Prerequisites:* CHEM 2770 (or 002.277) (MBIOL 2770 (or 060.277)) or CHEM 2360 (or 002.236) (MBIOL 2360 (or 060.236)); PLNT 3500 (or 039.350) or BOTN 2010 (or 001.201) and BOTN 2020 (or 001.202) or the former 001.230 (PLNT 3500 (or 039.350) recommended).

PLNT 4600 Issues in Agricultural Biotechnology Cr.Hrs.3 PLNT 4600 Issues in Agricultural Biotechnology Cr.Hrs.3 By lecture, group discussion, individual/group projects selected topics related to the introduction and application of modern biotechnologies in agriculture will be examined. Acquiring a critical appreciation of the multidimensional issues associated with the application of biotechnology will be the goal. Students must have completed 84 credit hours towards a degree, or permission of instructor. *Prerequisite:* PLNT 2530 (or 039.253).

6.9 Soil Science

SOIL 3060 Introduction to Agrometeorology Cr.Hrs.3 (Formerly 040.306) Basic description and discussion of properties of the atmosphere, radiation, temperature, effect of temperature on plant growth, climate and animal response, water, evapotranspiration, insect adaptation, activity in relation to climate, climatic data.

SOIL 3520 Pesticides: Environment, Economics and Ethics Cr.Hrs.3 (Formerly 040.352) A comprehensive examination of the benefits and risks of pesticide use. Topics include: Characteristics of pesticide products and formulations used in Western Canada; History, practice, successes and failures in the use of pesticides in agriculture; Pesticide use for protecting human health; Pesticide fate processes in air, soil and aquatic environments; Economical and environmental impact of pesticide application drift; Atmospheric pesticide contamination; Pesticide surface and groundwater contamination; Pesticide toxicity to organisms, including humans; Pesticide residues

in food; Pesticide regulations; Pesticide risk indicators; Alternatives to pesticides. Not to be held with 040.411, 038.454 or 040.454.

SOIL 3600 Soils and Landscapes in Our Environment Cr.Hrs.3 (Formerly 040.360) Discover why soil is an essential resource. Explore the roles of soils and landscapes within natural and agricultural ecosystems by learning the fundamental biological, chemical and physical properties and processes; soil and landscape classification and evaluation. Not to be held with 040.350 or 040.351.

SOIL 4060 Physical Properties of Soils Cr.Hrs.3 (Formerly 040.406) Physical properties of soils and their relation to plant growth. Topics discussed include particle size distribution, soil water, soil structure, soil temperature, and soil aeration. *Prerequisite:* SOIL 3600 (or 040.360) or 040.350 or 040.351 or consent of instructor.

SOIL 4080 Soils Thesis Cr.Hrs.6 (Formerly 040.408) The student will prepare a thesis on a problem in soil science. Each student will give two seminars: the first will be a review of literature pertinent to his/her problem; the second, a presentation and interpretation of results of his/her research. Not to be held with PLNT 4380 (or 039.438). *Prerequisite:* Consent of department head.

SOIL 4130 Soil Chemistry and Mineralogy Cr.Hrs.3 (Formerly 040.413) Composition of soil materials. Reactions of nutrients and contaminants with soil organic matter, silicate clays, oxides and other soil constituents which affect their mobility and bioavailability. *Prerequisite:* SOIL 3600 (or 040.360) or 040.350 or 040.351 or consent of instructor.

SOIL 4400 Soil Ecology Cr.Hrs.3 Explore the application of soil biology to diversity in agro ecosystems, response of soil organisms to management, mediation of important environmental issues, and promotion of human health. Appreciate the vast array of soil organisms and their functions in soil ecosystems, understand cycling of nutrients by soil organisms, and discover quantitative methodology in determining soil biochemical processes. The laboratory provides hands-on experience in observing, quantifying and isolating soil organisms and the biochemical processes they conduct. *Prerequisite:* SOIL 3600 (040.360). Not to be held with SOIL 4120 (or 040.412).

SOIL 4500 Remediation of Contaminated Land Cr.Hrs.3 (Formerly 040.450) Physical, chemical and biological approaches to remediation of land including: nature of contaminants, procedures for assessing the extent of the impact, consequences to the environment, approaches to remediation and case studies of contaminant remediation. *Prerequisite:* SOIL 3600 (or 040.360) or 040.350 or 040.351 or consent of the instructor.

SOIL 4510 Soil and Water Management Cr.Hrs.3 (Formerly 040.451) Topics include: capability of land for agriculture; storage, movement and use of water; saline and alkaline soils; soil conservation including erosion; sustainability of soil organic matter; effect and fate of soil amendments. *Prerequisite:* SOIL 3600 (or 040.360) or 040.350 or 040.351.

SOIL 4520 Soil Fertility Cr.Hrs.3 (Formerly 040.452) Forms and behaviour of plant nutrients in soil: soil fertility evaluation and management, including fertilizer sources and practices. *Prerequisite:* SOIL 3600 (or 040.360) or 040.350 or 040.351.

SOIL 4530 Land Use and Environment Cr.Hrs.3 (Formerly 040.453) Biophysical land classification and management tools; land ratings; effect of land use on environment; policy and legislation effects in land management. *Prerequisite:* SOIL 3600 (or 040.360) or 040.350 or 040.351.

SECTION 7: School of Agriculture: Diploma Program

General Office: 248 Agriculture Building

Telephone: (204) 474-9391

Director: M.K. Pritchard

Student Advisor: W. Kramer

7.1 Preface

The two-year Agriculture Diploma program offers a practical education for persons interested in operating a farm or working in an agricultural business. Although many diploma graduates return to family farms after graduating, an increasing number of graduates can be found working for farm supply companies, feed companies, financial institutions and grain handling companies, as well as doing technical work for various government agencies.

The Agriculture Diploma program covers a wide range of agricultural subjects, from production through to marketing and business management. Communication and leadership skills also receive considerable emphasis. The program culminates in assignments and a major project that relate directly to the student's individual farm or business interests. The program extends over two winters. Classes begin in late September and end in early April to accommodate students with obligations to plant and harvest crops.

7.2 Core Learning Objectives

Upon completion of this program, students will be expected to demonstrate proficiency in each of the following areas:

- 1. Technical knowledge and competence:** A balanced approach between principles and practices, and between proven concepts and emerging ideas and technologies will provide students with the opportunity to develop skills in diverse areas.
- 2. Critical thinking ability:** The ability to analyze information will be developed through research, problem-solving and decision-making assignments, and through exercises where students will defend their ideas and opinions.
- 3. Awareness of diverse perspectives:** The program will broaden the student's perception of the scope of the agricultural industry beyond primary production to include the many facets of agribusiness in today's world both on local and international scales.
- 4. Personal development:** The emphasis on developing both verbal and written communication skills, team-building, and career initiative allows students to meet the challenge of attaining their best, both academically and professionally.

7.3 Admission to the Diploma In Agriculture

Diploma students enter directly to the Agriculture diploma program from high school; University 1 is not required.

Applicants must be high school graduates with Senior 4 standing in English, Mathematics, and one Science course -- normally either Biology, Chemistry or Physics.

Students without a suitable high school standing may be admitted upon the recommendation of the Diploma Selection Committee. The committee will review each application and interview the applicant. The maturity, scholastic ability and agricultural experience of the applicant will be considered.

7.4 Academic Regulations for the Diploma In Agriculture

All students are asked to note that some academic policies and regulations are under review and are subject to change. Please check the Web Calendar at umanitoba.ca after July 1, 2008 for updated information.

Requirements for Graduation

To qualify for the Diploma in Agriculture a student must have attained a cumulative GPA of at least 2.00 with a minimum grade of "D" in courses totalling 93 credit hours including all those on the prescribed list. Elective courses in which failures were obtained may be substituted for and need not be repeated, except to help meet the requirements of the scholastic standards described previously.

Part-Time vs. Full-Time Status for Students

A student is considered to be equivalent to full-time if at least 60 per cent of the normal full-time course load is attempted in the academic term or session. (A normal full-time course load is usually 48-52 credit hours during the regular session.) A student will be allowed to take a partial course load with the permission of the Director of the School of Agriculture and the payment of pro-rated fees.

Transfers of Credit From Other Programs

Courses taken within the undergraduate degree programs of the Faculty of Agricultural and Food Sciences can qualify for credit towards the Agricultural Diploma program. See Academic Regulations in the Degree section. Courses taken outside the Faculty of Agricultural and Food Sciences or outside of the University of Manitoba can qualify for credit towards the Agriculture Diploma program if the course content and the student's performance are deemed appropriate by the department concerned.

Students who desire to receive such credit should contact the Student Advisor of the School of Agriculture.

Scholastic Standards

To maintain good academic standing a student must maintain a Cumulative GPA that meets or exceeds the minimum academic standards described in the table below. The standards are based on the total number of credit hours accumulated while in the Agriculture Diploma program, including courses taken during the term in question. A student who fails to meet the standard is placed on probation or on academic suspension.

Cumulative Credit Hours	Cumulative Grade Point Average	
	Probation	Suspension
0 -- 17	---	1.00
18 -- 24	1.80	1.60
25 -- 48	1.90	1.70
Over 48	2.00	1.85

NOTES:

- 1) Cumulative Credit Hours includes courses passed and failures not removed by supplemental exams or successful reattempts.
- 2) When both a final and supplemental exam are written the higher grade obtained will be used to determine Grade Point Averages.
- 3) A minimum of 18 credit hours must be attempted between successive determinations of standing. The minimum does not apply to students who graduate before completing an additional 18 credit hours.

Probational Standards and Academic Suspension Regulations

Students on probation must improve their academic performance and regain good academic standing to avoid being suspended. Specifically, after an attempt of a minimum of 18 additional credit hours, students on probation are required to equal or exceed the probation standard in order to regain good academic standing, otherwise they will be placed on academic suspension.

A student on academic suspension is not allowed to register for the subsequent term of the regular academic session (a student suspended in January may not be reinstated until the following September; a student suspended in April may not be reinstated until the following January). Reinstatement requires the approval of the Director. Students should contact the Student Advisor for further instructions. If reinstatement is granted, all courses from the student's previous attempt will be transferred, except those with a grade of "D" or "F" from their last term (the term during which the student was placed on suspension).

Appeals

Appeals of academic assessment of students must be submitted to the general office of the School of Agriculture within 21 days of the date of notification of the action sent to the student.

Supplemental Exams

Any student in good academic standing (i.e., not on probation or suspension; see previous table of Scholastic Standards) is eligible to write one supplemental exam during each academic session in a course in which an "F" was received. The student must have written the final exam. The supplemental exam shall be considered as a replacement for the final exam only, not for term work. The passing grade in supplementals must be at least "C" (2.0). Students are normally required to carry a full-term program in order to be eligible. Accordingly, students who are granted incomplete or deferred status may not be eligible. When both a final and supplemental exam are written the higher grade obtained will be used to determine the final grade.

Supplementals will be held in January for courses taken in the first term and in June for courses in the second term.

Time Limits and Lapse of Credit

The normal maximum time allowed for the completion of the Agriculture Diploma is five years from the date of first registration. A candidate for a Diploma in Agriculture will not be permitted to count toward that diploma any courses taken more than five years prior to the date of awarding the diploma.

Students who desire an exemption from this maximum must apply, in writing, to the Director.

Dean's Honour Roll

Students registered in at least 36 credit hours and who obtain a sessional GPA of 3.50 or higher will be placed on the Dean's Honour roll.

Graduation with Distinction

The Diploma in Agriculture with Distinction will be awarded to Diploma students who obtain a cumulative GPA of 3.75 or better with 75 per cent of the courses taken within the Diploma in Agriculture.

7.5 Program Requirements

The core curriculum of prescribed courses, common to all students, provides a broad yet integrated education in the production, management and marketing of agricultural products and the principles of managing a business. Students are taught to use this knowledge to evaluate the technical and economic feasibility of a variety of alternative agricultural practices.

Within the program, students are able to specialize in areas of interest. Options are available in Business Management, Agricultural Finance, Crop Management, Livestock Management and General Agriculture. These options are chosen by the student during the first term, first year. The Agricultural Finance option has an increased focus on the business of financial institutions and credit departments within companies. Those students

choosing the Agricultural Finance option do so when registering for their first term as seen in Section 7.5.2.

Total credit hours of free electives	17-23
Total credit hours for Agriculture Diploma	93

NOTE:

*These additional courses will consist of those required within an option plus free electives, in accordance with the four options described below:

Options

In order to accommodate a modest level of specialization, the students will be required to elect one of four options by the end of first term, first year. Each of these four options has a series of required courses. However, within each option there are also unrestricted electives available to the student who wishes to blend training available in two or more option areas to increase the degree of specialization.

Business Management Option

This option offers a more in-depth education in business management to those people who intend to manage farms or work as employees, managers and/or business owners in the agricultural service sector (agricultural lending, fertilizer, feed and chemical sales, etc.).

Prescribed Courses for Business Management Option

Course No.	Credit Hours
ABIZ 0680 Agribusiness Management	4
ABIZ 0690 Agricultural Finance and Credit	4
ABIZ 0720 Farm Business Management	4
Plus at least one of the following:	
ABIZ 0700 Merchandising and Sales	3
ABIZ 0710 Agricultural Policy	3
ABIZ 0730 Financial Risk Management	3
Plus one Biosystems Engineering course:	
BIOE 0400 Farm Power	4

BIOE 0690 Water Management	4
BIOE 0700 Agricultural Buildings and Environments	4
Total prescribed credit hours, within option.	18-19
Plus 22-23 credit hours of electives, to complete 93 credit hours within the program.	

Crop Management Option

This option emphasizes soil and crop management. It is designed for people who plan to manage farms where crops are the primary farm enterprise or for those who are interested in careers in industries or businesses that provide services to these types of farms (e.g. crop supply businesses).

7.6 Cooperative Education Program

Cooperative Education is a process of learning, which formally integrates the student's academic study with work experience in employer organizations. Work-related experience is found in industry, government and the farming profession. The work term provides the students with practical experience, helps to finance their education and provides guidance for further career specialization. All regulations governing the regular Faculty of Agricultural and Food Sciences diploma program apply to the Cooperative Education Program; in addition the following variations apply:

Admission: To be considered for admission in the Cooperative Education Program, a first year diploma student must have a minimum GPA of 2.5, and have completed at least 47 credit hour of studies by the end of the academic year of application.

Students are advised that satisfying the entrance requirements does not guarantee a place in the Cooperative Education Program. Acceptance into the program is dependant upon the student receiving a job placement through the Cooperative Education Office.

Employment Term Requirements: The Cooperative Education Program is a five month program between the first and second year with a faculty-approved employer. The student will receive two credits for completing the Cooperative Education Program. Students are required to register in the employment term course and pay the fee prior to starting the employment term.

Academic Term Requirements: Once having been accepted into the Cooperative Education program there are three requirements for completion of the Work Term. Failure to do any of them in a timely fashion will result in a failing grade.

Part way through the work term, the Cooperative Education Coordinator will contact the student for a work site evaluation. During the evaluation both the student and employer will be interviewed and the work assessed. The student will need to make him/herself available for the interview.

Two weeks after the end of the work term, a work term report is due and must be submitted to the Cooperative Education Coordinator. Both content and format will be marked. (Details as to format and what is required in the report can be found in "Guidelines for Cooperative Education Work Term Report" which can be obtained from the Cooperative Education Coordinator.)

Also, two weeks after the end of the work term, a post employment review is required to be submitted to the Cooperative Education Coordinator. The Director of the School of Agriculture, in consultation with the student advisor, will assign each participating student a faculty advisor. The faculty advisor will be responsible for evaluating the student's work term report and assigning the student a grade based on the report, the employer's evaluation and Cooperative Education Coordinator's site evaluation. Grades of "Pass" or "Fail" will be assigned. Diploma students successfully completing the work term will have their "Cooperative Education Option" acknowledged on their graduation parchment.

SECTION 8: Course Descriptions

8.1 Agribusiness and Agricultural Economics

ABIZ 0440 Agricultural Economics & Marketing 1 Cr.Hrs.4 (Formerly 061.044) Introduction to key economic concepts and business principles and their application to Canadian agribusiness.

ABIZ 0450 Agricultural Economics & Marketing 2 Cr.Hrs.4 (Formerly 061.045) The application of economic analysis in the study of marketing: concepts, policy, practices and institutions. *Prerequisite:* ABIZ 0440 (or 061.044).

ABIZ 0460 Financial Management 1 Cr.Hrs.4 (Formerly 061.046) Study of accounting principles and financial information for the preparation and presentation of financial statements to facilitate the management of farms and agricultural businesses.

ABIZ 0470 Financial Management 2 Cr.Hrs.4 (Formerly 061.047) Study of analysis of financial statements and financial information by decision makers managing the finances of farms and agricultural businesses. *Prerequisite:* ABIZ 0460 (or 061.046).

ABIZ 0680 Agribusiness Management Cr.Hrs.4 (Formerly 061.068) The application of economic, accounting and management principles to organizing, operating and

managing an agribusiness

ABIZ 0690 Agricultural Finance and Credit Cr.Hrs.4 (Formerly 061.069) Application of financial management concepts in evaluating investment options and risk in farm and agribusiness decision-making. *Prerequisite:* ABIZ 0460 (or 061.046).

ABIZ 0700 Merchandising and Sales Cr.Hrs.3 (Formerly 061.070) Analyzing food consumption, farm input usage and marketing trends and translating these into effective selling and distribution programs. Examination of the selling function and sales management.

ABIZ 0710 Agricultural Policy Cr.Hrs.3 (Formerly 061.071) Review of agriculture, international trade and food safety policies affecting the production and distribution of agricultural commodities and food products.

ABIZ 0720 Farm Business Management Cr.Hrs.4 (Formerly 061.072) Application of decision making principles in terms of farm production, finance, and marketing. *Prerequisites:* ABIZ 0470 (or 061.047).

ABIZ 0730 Financial Risk Management Cr.Hrs.3 (Formerly 061.073) Various approaches to managing market risk will be studied. This includes forward pricing, hedging and options along with insurance, diversification and technology to manage production risk. *Prerequisites:* ABIZ 0470 (or 061.047) or 061.047); or Pre- or Corequisite: ABIZ 0450 (061.045).

ABIZ 0740 Special Topics in Business Management Cr.Hrs.3 (Formerly 061.074) Selected topics of current interest in Business Management. *Prerequisite:* written consent of Director of the School of Agriculture.

8.2 Agriculture

DAGR 0410 Communication and Learning Skills Cr.Hrs.4 (Formerly 065.041) A course designed to improve learning skills and abilities in written and oral communication.

DAGR 0420 Introductory Soils and Crops Cr.Hrs.4 (Formerly 065.042) Topics covered will include soil forming factors; soil characteristics, climate, nutrient supply and crop production, biology of crop plants, crop establishment and protection, harvest management, farming systems and crop rotations.

DAGR 0610 Advanced Communication and Rural Leadership Cr.Hrs.3 (Formerly 065.061) A course designed to improve leadership potential and understanding of the rural community.

DAGR 0630 Special Project Cr.Hrs.3 (Formerly 065.063) This project allows a student to make practical application of scientific knowledge acquired during the first year and/or to intensify the study of a topic of particular interest. A satisfactory report is required to qualify for credit. Students who intend to register for this course must obtain approval from the Director before the end of their first year.

DAGR 0660 Special Topics in General Agriculture Cr.Hrs.3 (Formerly 065.066) Selected topics of current interest in General Agriculture. *Prerequisite:* Written consent of Director of the School of Agriculture.

DAGR 0680 Management Planning Project 1 Cr.Hrs.3 (Formerly 065.068) Development of an objectives-driven plan that deals with production, personnel, marketing and financial management of a farm or off-farm business. Students may not hold credit for DAGR 0680 (or 065.068) and the former 065.064.

DAGR 0690 Management Planning Project 2 Cr.Hrs.5 (Formerly 065.069) Refinement of the plan developed in Management Planning Project 1 with emphasis on generating and analyzing a complete set of financial statements for a farm or off-farm business. Presentation of the management plan, in both written and verbal form. On-site visits will be used to illustrate and reinforce management principles and practices and address issues raised in class. Students may not hold credit for DAGR 0690 (or 065.069) and the former 065.065. *Prerequisite:* DAGR 0680 (or 065.068).

DAGR 0700 Environmental Farm Plans and On-Farm Food Safety Cr.Hrs.3 (Formerly 065.070) This course examines environmental and food safety concerns and regulations as they relate to farming. Students will develop a Manure Management Plan, an Environmental Farm Plan and will understand HACCP principles.

DAGR 0710 Agricultural Enterprise Cr.Hrs.3 (Formerly 041.071) On-site visits to various agricultural operations to illustrate and reinforce management principles and practices. Guest lectures will cover topics pertinent to the agricultural industry. Students may not hold credit for DAGR 0710 and DAGR 0690 (or 065.069) or the former 065.065.

DAGR 0720 Agricultural Industry Cr.Hrs.3 (Formerly 041.072) This course provides students with the opportunity to increase their awareness of agriculture and the agribusiness sector. The following will be emphasized: agriculture in other parts of the world, humane livestock practices, marketing of agricultural products, production of agricultural products for niche markets, and trade show. Students may not hold credit for DAGR 0720 and DAGR 0690 (or 065.069) or the former 065.065.

DAGR 0730 Case Studies in Institutional Lending 1 Cr.Hrs.4 (Formerly 041.073) Case studies will provide a primary look at assessing loan applications and determining financial need, production feasibility and repayment. Students will analyze lending portfolios and the management of various enterprises. *Prerequisite:* ABIZ 0470 (or 061.047). Pre- or Co requisite: ABIZ 0450 (or 061.045).

DAGR 0740 Case Studies in Institutional Lending 2 Cr.Hrs.4 (Formerly 041.074) This course is a continuation of Case Studies in Institutional Lending 1, and will examine and analyze more applications and financial statements of agricultural operations. *Prerequisite:* DAGR 0730 (or 041.073).

DAGR 0750 Money and Banking Cr.Hrs.3 (Formerly 041.075) Introduction to various financial institutions and the services they provide. Also, students will study interest rate determination, the Bank Act and money markets. This course is designed to provide an overview of the program of study in the Agricultural Finance option.

DAGR 0760 Agricultural Law Cr.Hrs.3 (Formerly 041.076) Discussion of the com-

plexity of the agriculture industry and the laws affecting it. The course will illustrate laws critical for effective planning and the making of sound management decisions respecting the farm operations and agribusinesses. Topics include the Manitoba and Canadian legal systems, major laws affecting agriculture, and resolution of issues in Canadian agriculture. Offered in 2005-2006 and alternate years thereafter.

DAGR 0770 Tax Cr.Hrs.2 (Formerly 041.077) Examination of specific farm and agribusiness tax laws and filing procedures. Tax management strategies will also be discussed.

DAGR 0780 Succession and Estate Planning Cr.Hrs.2 (Formerly 041.078) An in-depth look at the legal requirements necessary for asset transfer and farm continuity. Topics include wills, asset divisions, tax planning, savings and opportunities.

DAGR 0790 Asset Appraisal Cr.Hrs.3 (Formerly 041.079) To learn the principles and concepts as they relate to the valuation of farm property, specifically, the process for various methods of appraisal of farm assets.

DAGR 0800 Intercultural Communications Cr.Hrs.2 (Formerly 041.080) A course designed to introduce written and verbal communication in a multicultural environment. Offered in 2006-2007 and alternate years thereafter.

DAGR 0810 Public Relations Cr.Hrs.2 (Formerly 041.081) Identification of and interaction with various public within an organization or business. Enhanced written and verbal communications. Offered in 2006-2007 and alternate years thereafter.

DAGR 0820 Business Writing Cr.Hrs.2 (Formerly 041.082) A course designed to enhance written business communications skills. *Prerequisite:* DAGR 0410 (or 065.041).

DAGR 0830 Agriculture Cooperative Education Work Term Cr.Hrs.2 Special five-month work assignment in business, industry, government or research for cooperative education students in the diploma program. Requires submission of a written report covering the work completed during the professional assignment.

8.3 Animal Science

ANSC 0420 Animal Biology and Nutrition Cr.Hrs.4 (Formerly 035.042) An introduction to animal structure and function. Genetics, growth and reproduction will be related to animal production. Further, the digestive systems of various livestock species will be studied and related to types of feedstuffs that each species can utilize. The general function of nutrients within animals will also be discussed. Nutrient content of feedstuffs and application to nutrient requirements will be discussed.

ANSC 0600 Animal Health and Welfare Cr.Hrs.3 (Formerly 035.060) This course will discuss the common livestock and poultry diseases of the prairie provinces. Emphasis will be placed on prevention through management and health programs but treatment of specific diseases will be addressed. Animal welfare as it relates to commercial animal production will be discussed. *Prerequisite:* ANSC 0420 (or 035.042) or equivalent.

ANSC 0670 Beef Cattle Production and Management Cr.Hrs.4 (Formerly 035.067) Beef cattle industry; the types of beef cattle enterprises and factors affecting profitability of production. Application of principles of nutrition, genetics and physiology in the management of beef cattle enterprises. *Prerequisite:* ANSC 0420 (or 035.042) or equivalent.

ANSC 0680 Dairy Cattle Production and Management Cr.Hrs.4 (Formerly 035.068) A study of current production practices in Canada's dairy industry with focus on nutrition, reproduction, genetics, health, replacement rearing and marketing. *Prerequisite:* ANSC 0420 (or 035.042) or equivalent.

ANSC 0690 Swine Production and Management Cr.Hrs.4 (Formerly 035.069) Swine industry; the types of swine enterprises and factors affecting profitability of production. Application of principles of nutrition, genetics and physiology in the management of swine. *Prerequisite:* ANSC 0420 (or 035.042) or equivalent.

ANSC 0700 Poultry Production and Management Cr.Hrs.4 (Formerly 035.070) The poultry industry; marketing system, breeding, hatchery practices, management and feeding of large scale turkey and chicken enterprises. *Prerequisite:* ANSC 0420 (or 035.042) or equivalent.

ANSC 0720 Special Topics in Livestock Management Cr.Hrs.3 (Formerly 035.072) Selected topics of current interest in livestock management. *Prerequisite:* Written consent of Director of the School of Agriculture.

ANSC 0730 Horse Production and Management Cr.Hrs.3 (Formerly 035.073) Principles of horse production, including genetics and breeding, reproductive management, nutrition and health. Applications to major sections of the horse industry. *Prerequisite:* ANSC 0420 (or 035.042) or equivalent.

8.4 Biosystems Engineering

BIOE 0400 Farm Power Cr.Hrs.4 (Formerly 034.040) Basic operating principles of electric motors and gasoline, diesel, and LPG engines with emphasis on fuels, fuel systems, ignition systems, lubrication, and power transmission. Dynamometer tests for efficiency, traction, tractor testing, and power cost estimating.

BIOE 0600 Farm Machinery Cr.Hrs.4 (Formerly 034.060) Operating principles of basic farm implements with emphasis on seed cleaning, seeding, tillage, haying, and harvest machines including their selection, adjustment, efficiency, and cost of operation with respect to test data.

BIOE 0680 Shop Methods Cr.Hrs.4 (Formerly 034.068) Principles of operation of lathes, mills, drills, grinders and saws. Intensive instruction in the use of precision measuring tools. Laboratory project requiring the use of the above machines and tools.

BIOE 0690 Water Management Cr.Hrs.4 (Formerly 034.069) Surveying including use of the level instrument and steel tape, agricultural drainage, dugouts and wells for

farm water supply, irrigation, pump selection, the Water Rights Act.

BIOE 0700 Agricultural Buildings and Environments Cr.Hrs.4 (Formerly 034.070) Factors that impact the practicality of farm buildings. Components of buildings, including materials and construction techniques. Techniques of maintaining building environments to facilitate production and/or storage.

BIOE 0710 Materials Handling and Electrical Controls Cr.Hrs.3 Fundamental concepts and systems approach to storing, conditioning, moving, processing, and metering of agricultural produce. Principles and practices of fans, grain drying, dust control, and electrical supply. Students may not hold credit for BIOE 0710 and the former 034.066.

8.5 Entomology

ENTM 0610 Beekeeping Cr.Hrs.2 (Formerly 038.061) Introduction to beekeeping that includes economics and marketing of honey and beeswax, equipment and its construction, pollen and nectar plants, pollination, management systems, diseases and pests, honey handling, package bees, wintering of bees, etc.

ENTM 0620 Pest Management and Farm Insects Cr.Hrs.4 (Formerly 038.062) Characteristics, damage, and identification; insecticide use and safety; life histories and control of common Manitoba livestock, field and farmyard insects. General principles of pest management in agriculture will also be discussed.

8.6 Plant Science

PLNT 0410 Cereal and Oilseed Production Practices Cr.Hrs.4 (Formerly 039.041) Production practices for wheat (spring and winter), barley, oats, rye, triticale, canola and flax will be discussed, including tillage, seeding, fertility, pest control, harvesting, rotation and utilization. *Prerequisite:* DAGR 0420 (or 065.042).

PLNT 0660 Plant Propagation Cr.Hrs.4 (Formerly 039.066) Basic principles and practices in the propagation of plants by sexual and asexual methods. Special emphasis will be placed on regionally important horticultural crops. Equivalent course offered through the Prairie Horticulture Certificate Program; contact the Director of the School of Agriculture.

PLNT 0670 Landscape Plants Cr.Hrs.3 (Formerly 039.067) Classification, identification and quality characteristics of woody and herbaceous plants, and their value and use in the landscape. Equivalent course offered through the Prairie Horticulture Certificate program; contact the Director of the School of Agriculture.

PLNT 0680 Landscape Design Cr.Hrs.3 (Formerly 039.068) A study of landscape design principles and processes including contracting, construction, and establishment of plants in the environment. Equivalent course offered through the Prairie Horticulture Certificate program; contact the Director of the School of Agriculture.

PLNT 0690 Landscape Maintenance Cr.Hrs.3 (Formerly 039.069) Establishment and maintenance of trees, shrubs, herbaceous plants and turf grass in the landscape environment. Equivalent course offered through the Prairie Horticulture Certificate program; contact the Director of the School of Agriculture.

PLNT 0700 Nursery Management Cr.Hrs.3 (Formerly 039.070) A study of nursery methods of propagation and growing as they relate to bare root, container and caliper tree production in Manitoba. Equivalent course offered through the Prairie Horticulture Certificate program; contact the Director of the School of Agriculture.

PLNT 0710 Greenhouse Crop Production Cr.Hrs.3 (Formerly 039.071) A study of greenhouse construction, environmental control, growth regulation and special problems relating to cut flowers, pot and foliage plants, bedding plants, vegetables and woody plants. Equivalent course offered through the Prairie Horticulture Certificate program; contact the Director of the School of Agriculture.

PLNT 0730 Commercial Vegetable Production Cr.Hrs.3 (Formerly 039.073) Production problems and practices, environmental considerations, and the storage and marketing of the major vegetable crops. Equivalent course offered through the Prairie Horticulture Certificate program; contact the Director of the School of Agriculture.

PLNT 0740 Commercial Fruit Production Cr.Hrs.3 (Formerly 039.074) Cultural steps involved in the commercial production of tree fruits and small fruits with specific reference to Manitoba conditions. Equivalent course offered through the Prairie Horticulture Certificate program; contact the Director of the School of Agriculture.

PLNT 0750 Forage and Pasture Management Cr.Hrs.4 (Formerly 039.075) For forage crops and the continuum of improved and unimproved pasture land a discussion of production practices including: choice of species and cultivars of forage crops, cultural management including tillage practices, pest control, forage harvesting, grazing management and seed production. *Prerequisite:* DAGR 0420 (or 065.042).

PLNT 0760 Special Crops Cr.Hrs.4 (Formerly 039.076) Production practices of special crops for Manitoba including: quality and grade, crop and cultivar selection, cultural requirements including tillage, pest control, fertility requirements, harvesting, rotation and utilization. *Prerequisite:* DAGR 0420 (or 065.042).

PLNT 0770 Weed Management Cr.Hrs.4 (Formerly 039.077) General principles of pest management and pesticide use safety as they relate to weed control. Economic importance, principles of cultural, biological and chemical weed control, weed identification, introduction to herbicides and factors influencing their use and selectivity. *Prerequisite:* DAGR 0420 (or 065.042).

PLNT 0780 Plant Disease Management Cr.Hrs.4 (Formerly 039.078) General principles of pest management and pesticide use safety as they relate to plant disease control. Discussion of diseases attacking field and horticultural crops in the prairies including: disease symptoms, cycles, prevention and control. *Prerequisite:* DAGR 0420 (or 065.042).

PLNT 0790 Landscape Horticulture Cr.Hrs.4 (Formerly 039.079) Principles of the production and use of horticultural plants in the rural and urban landscape including the establishment and value of shelterbelts. Topics include basic plant propagation,

the principles of choosing and establishing ornamental trees, shrubs, herbaceous perennials, annuals, lawns, and multi-use fruit-bearing plants in the landscape, and development of a landscape plan.

PLNT 0800 Diversification with Horticultural Crops Cr.Hrs.4 (Formerly 039.080) Principles of the production and unique characteristics of horticultural crops including potato, vegetable, fruit, herb, spice, and nutraceutical. The potential for diversifying into and adding value to these alternate crops is examined.

PLNT 0810 Special Topics in Crop Management Cr.Hrs.3 (Formerly 039.081) Selected topics of current interest in Crop Management. *Prerequisite:* written consent of the Director of the School of Agriculture.

PLNT 0820 Organic Crop Production on the Prairies Cr.Hrs.3 (Formerly 039.082) Management principles and practices involved in the production of organic field and forage crops with a focus on the Canadian Prairie Region. *Prerequisites:* DAGR 0420 (or 065.042), PLNT 0410 (or 039.041), SOIL 0420 (or 040.042), and ENTM 0620 (or 038.062) or consent of the instructor.

8.7 Soil Science

SOIL 0420 Soil Productivity and Land Use Cr.Hrs.4 (Formerly 040.042) Soil classification systems; soils of Manitoba and their properties; soil productivity and its maintenance; soil fertility and testing, fertilizer recommendations; environmental concerns. *Prerequisite:* DAGR 0420 (or 065.042).

SOIL 0620 Soil Conservation and Management Cr.Hrs.4 (Formerly 040.062) Land capability for agriculture; storage, use of water and water use efficiency; saline and alkaline soils; soil acidity; soil erosion and conservation; tillage, cropping systems and rotations; fate of biosolids, pesticides. *Prerequisite:* SOIL 0420 (or 040.042).

SOIL 0630 Soil Fertility Cr.Hrs.4 (Formerly 040.063) Soil nutrients and their behavior: evaluation of soil fertility including soil testing for precision agriculture; crop response to fertilizers; manufacture, properties, reactions and applications of fertilizer. *Prerequisite:* SOIL 0420 (or 040.042).

SECTION 9: Registration Information: Faculty of Agricultural and Food Sciences

9.1 Access Times

Students are referred to the chapter "Registration Information: Aurora Student."

9.2 Registration Assistance

Students should contact the Student Advisor at 474-8269 or the Student Services Office at 474-9295 room 160 Agriculture Building for registration assistance.

Program Advisors

Contact the following Program Advisors for assistance in selecting courses:

Agribusiness:	Dr. Gary Johnson	(204) 474-9795
Agronomy:	Dr. Paul Bullock	(204) 474-8666
Agroecology:	Dr. Neil Holliday	(204) 474-6020
	Dr. Brian Amiro	(204) 474-9155
Animal Systems/Pre-Vet:	Dr. Jim House	(204) 474-9523
	Dr. Loreen Onis chuk	(204) 474-9174
Food Science:	Dr. Sue Arntfield	(204) 474-9866
Plant Biotechnology:	Dr. Murray Ballance	(204) 474-6086

9.3 Registration and Choosing Your Courses

All students in Faculty of Agricultural and Food Sciences degree programs must register through the website. Students are referred to the chapter "Registration Information: Aurora Student." *It is critical that you select the correct courses to satisfy your degree requirements. Be certain that you carefully review the appropriate sections of the Undergraduate Calendar to ensure compliance with degree program requirements.*

You are responsible for knowing degree requirements and may consult a Program Advisor, or the Student Advisor in the Student Services office for advice and assistance if the degree requirements are unclear. The final completion of degree requirements is your responsibility.

9.4 Second-Year Students

Students transiting from University 1

Students entering the Faculty of Agricultural and Food Sciences from University 1 are required to see a Program Advisor (see list above) before registration. This should be completed between April and June but not later than June 20th. When your second-year program is approved, the Program Advisor will forward written authorization to the Student Advisor in the Student Services Office, who will then "unblock" your access to the registration system.

Once a student has selected a program, he/she should consult the *Undergraduate Calendar* to determine the required second year courses, plus any other courses that pertain to the program. Timetable information is available at umanitoba.ca. Questions about course selection should be directed to the Student Advisor in the Student Services office at (204) 474-9295, or a Program Advisor (as listed above).

9.5 Third-Year Students

Third year students must obtain approval of their third-year program from a Program Advisor. This should be completed between April and June but not later than June 20th. It is also strongly recommended that you provide a fourth-year plan for approval at the same time.

When your third-year program is approved, the Program Advisor will forward written authorization to the Student Advisor in the Student Services Office, who will then “unblock” your access to the registration system.

9.6 Fourth-year Students

Fourth-year students who have selected the courses they require to meet their degree requirements are allowed to register. If you have questions about your program, you should contact the Program Advisor or the Student Advisor in the Student Services Office.

9.7 Students on Probation or Attempting Reinstatement

Before registering, you must have your course selection approved no later than June 20th, by the Student Advisor in 160 Agriculture Building, (204) 474-8269.

9.8 University Written English and Mathematics Requirement

If the written English or Mathematics requirement is not satisfied in University 1, you must include the courses in your first year in the faculty.

Please refer to the chapter in the *Undergraduate Calendar* section of this publication, “General Academic Regulations and Requirements”.

9.9 Helpful Hints

Have you:

- Verified your access time?
- Chosen courses to satisfy the written English or mathematics requirement, if not already completed?
- Consulted a student advisor and/or obtained required program approvals?
- Registered for your courses through the website?
- Asked for a fee assessment?
- Paid your fees?

Your registration is not complete until you pay your fees or make arrangements to have them paid by the fee payment deadline. Do not wait for a fee statement to be mailed to you. See the Section on fee payment for payment options.

9.10 Additional Information

Prerequisites

You will not be allowed to register for any course for which you do not have the exact prerequisites as stated in the *Undergraduate Calendar*. Students who fail to satisfy the prerequisites either between Summer Session and Regular Session, or between first and second term, must withdraw and make alternate course selections prior to the deadline date for registration revisions.

Where the *Undergraduate Calendar* states a prerequisite and/or consent of Instructor or consent of Department Head and you do not have the prerequisite, you must obtain written permission from the Instructor or the Department Head and then deliver or forward a copy of the permission form to the Student Advisor, Student Services Office, 160 Agriculture Building. The prerequisite “block” for the particular course will then be removed and you will be able to register for this course.

Limited Access

Faculty of Agricultural and Food Sciences are not Limited Access courses.

Students who take courses in other faculties are governed by their limited access policies.

Term Load

Students are allowed to register for a normal course load of 30 credit hours during Regular Session.

Newly Admitted Transfer Students from other Colleges, Universities and Technical Institutes:

Students should contact the web registration system for information on registration access times.

If you are in one of the categories listed immediately above, you must see the Student Advisor in the Student Services Office after receiving your acceptance into the faculty, to have your course selection approved. Appointments can be made with the Student Advisor by calling (204) 474-9295.

Visiting students must have a “Letter of Permission” from their home university for acceptance into the faculty.

Auditing students should obtain written permission, from the instructor who is teaching the course, they wish to audit.

SECTION 10: Registration Information

Agriculture Diploma

10.1 Access Times

Students are referred to the chapter “Registration Information: Aurora Student”.

10.2 Registration Assistance

Students should contact the Student Advisor at 474-6066 or the Student Services Office at 474-9295 room 160 Agriculture Building for registration assistance.

10.3 Orientation

In preparation for the transition to university, all students newly admitted to the Agriculture Diploma program are required to attend a one day orientation on Friday, September 12, 2008. Information regarding timetables, fees, course requirements and services will be distributed at that time. Further details about orientation will be mailed out in late August.

10.4 Registration and Choosing Your Courses

Agriculture Diploma students enter directly into the program and are not required to take University 1. All Agriculture Diploma students are required to register using Aurora Student. Refer to the chapter “The Registration System: Aurora Student:”.

10.5 First Year Course Registration Package

There is a course registration package for newly admitted, full-time, first-year students. This package will register you in all of the required courses for first-year (both first and second term). You will be able to revise your second-term course registrations in November following the information sessions on the program's options. There are two packages available: one for students entering the Agricultural Finance option, the other for those entering one of the other options. Refer to section 7.5 for further information on the options available.

Specific information on how to register for the course package will be mailed directly to students and will also be available at umanitoba.ca/afs/school

10.6 Transfer Students

Transfer students will be blocked from registering for courses until their course selection has been approved by the Student Advisor from the School of Agriculture. Call the School to make an appointment with the advisor before your access time.

10.7 Returning Students

10.7.1 Full-Time Students

Returning students should review the instructions in the chapter "The Registration System: Aurora Student:".

10.7.2 Part-Time Students

Part-time students will be blocked from registering for courses until their course selection has been approved by the Student Advisor from the School of Agriculture. Call the School to make an appointment with the advisor before your access time for registration.

10.7.3 Students on Probation or Reinstated from Academic Suspension

You will be blocked from registering for courses until your course selection has been approved by the Student Advisor from the School of Agriculture. Call the School before your access time for registration.

10.8 Special Students

Special Students (those not seeking a diploma) must make an appointment with the Student Advisor in the School of Agriculture before September 1, 2008 to register in person.

10.9 Choosing an Option

Agriculture Diploma students have a choice of five options in the program. Those wishing to enter the Agriculture Finance option do so by choosing the Ag Finance package. Those wishing to enter the options of: Crop Management, Livestock Management, Business Management or General Agriculture should choose the other package. These packages are different so

it is important to register for the correct one. Contact the School of Agriculture at (204) 474-9391 if you require further information.

10.10 Helpful Hints

Have you:

- Verified your access time?
- Consulted a student advisor and/or obtained required program approvals?
- Registered for your courses?
- Asked for a fee assessment?
- Paid your fees?

Your registration is not complete until you pay your fees or make arrangements to have them paid by the fee payment deadline. Do not wait for a fee statement to be mailed to you. See the section on fee payment for payment options.

10.11 Additional Information

Your Responsibility

It is critical that you select the courses that will enable you to satisfy the requirements for your diploma. Carefully review the sections dealing with Academic Regulations and Program Requirements in the *Undergraduate Calendar* section of this publication.

Graduation Requirements

It is your responsibility to ensure that you have met graduation requirements. See the *Undergraduate Calendar* for information on graduation requirements. Contact the Student Advisor if you require further clarification.

SECTION 2: Introduction to the Environmental Design Program in the Faculty of Architecture

The teaching of architecture began in 1913 as a four-year degree program within the Faculty of Arts. In 1920 the program became a part of the newly established Faculty of Engineering and Architecture. In 1938 a three year diploma program in interior decoration was established. In 1945 the departments of Architecture and Interior Decoration were combined in the School of Architecture and Fine Arts. In 1948 the entire school was reorganized as the School of Architecture. The professional architecture degree became a five year program; and a new four year Bachelor of Interior Design degree was also introduced. In 1949 a one year graduate program in Community Planning was established. In 1957 the Manitoba Legislature approved a grant for the construction of a building for the School of Architecture, the first in Canada to be designed exclusively for architecture education. In 1963 the school was reconstituted as the Faculty of Architecture and a two-year graduate program leading to the degree, Master of City Planning, was introduced.

In 1966 the curriculum in Architecture was reorganized so that the degree, Bachelor of Environmental Studies, became the prerequisite for the professional programs in Architecture and Landscape Architecture. This was followed in 1970 with a new curriculum leading to the professional degree, Master of Architecture, and two years later with new curriculum leading to a Master of Landscape Architecture. In 1990 an admissions year of 30 credit hours of Arts and Sciences courses became a prerequisite for entry into Environmental Design.

In 1998 the Bachelor of Environmental Design (B.Env.D.) became an undergraduate program consisting of two years of shared design studies followed by a third year in one of the 'professional options'. These options included Architecture, City Planning, Interior Design, and Landscape Architecture. University 1 was introduced as a prerequisite for admission to the Environmental Design Program. In 2006 the Faculty of Architecture began to reform the Environmental Design Program to create a four year un-

dergraduate design program by including University 1 in its curriculum offerings. In 2007 the Faculty of Architecture introduced a four year design program consisting of two years of common 'Foundation Studies' (ED1/U1 and ED2) followed by two years of pre-professional 'Intermediate Studies' years (ED3 and ED4). The third and fourth years are referred to as the 'Option Years' and include Architecture, Interior Environments and Landscape and Urbanism (a shared option between City Planning and Landscape Architecture).

The B.Env.D. program is envisioned as a strong multidisciplinary undergraduate degree in its own right and provides a solid base of design education for students intending to pursue careers and/or graduate studies in a wide variety of disciplines, including the Faculty's master's degrees in Architecture, City Planning, Interior Design and Landscape Architecture, and at other institutions globally.

SECTION 3: Admission to the Faculty of Architecture – Degrees Offered

3.1 Bachelor of Environmental Design [B.Env.D]

Minimum time to graduation: Four years (ED1/University 1 plus ED2, ED3, ED4).

Within the Faculty of Architecture, the Environmental Design Program is a design degree program leading to graduate studies in Architecture, City Planning, Interior Design and Landscape Architecture, at The University of Manitoba and beyond.

3.2 Bachelor of Environmental Design After Degree [B.Env.D.AD]

Minimum time to graduation: Two years (ED3 and ED4)

Within the Faculty of Architecture, the Environmental Design After Degree Program is a design degree leading to graduate studies at the University of Manitoba and beyond. Currently, and subject to UM Senate approval, the After Degree will be offered to students seeking graduate studies in the Department of Architecture only. Please see below and refer to the website for further information with reference to 'Applicant Information Bulletin for Admission to the Faculty of Architecture Environmental Design After Degree Program: Architecture Pre-Master Option'.

SECTION 4: Bachelor of Environmental Design

4.1 Admission Requirements

To be considered for into the Bachelor of Environmental Design Program an applicant must have completed 30 credit hours of university-level coursework with an overall minimum adjusted grade point average of 2.50. For a detailed outline of the admission requirements please see our web site at www.umanitoba.ca/architecture.

4.2 Undergraduate Scholastic Standards

A Grade Point Average (GPA) of 2.00 is required as an acceptable standard of performance.

A minimum grade of 'C' is required to pass all courses offered by the Environmental Design Program and by the Departments within the Faculty. All courses offered by the Environmental Design Program stipulate a grade of "C" in the prerequisite course(s).

Environmental Design students must clear all conditions of Year 2 to be eligible to register for Year 4.

To be eligible for the degree of Bachelor of Environmental Design a student is required to complete a minimum of two full academic years of studies in the Environmental Design Program including Years 3 and 4.

4.3 Supplementary Regulations

Special regulations governing admission, attendance, withdrawals, examinations, grading procedures and curriculum requirements are on file in the

general office of the Environmental Design Program, Faculty of Architecture.

4.4 Dean's Honour List

Students who achieve a term GPA of 4.0 or better, while registered in 80 per cent of a full course load will be included in the Dean's Honour List for the Faculty of Architecture.

4.5 Enrollment Quotas

Effective September 2008, the Bachelor of Environmental Design Degree Program has been reformed to require students to declare a specific program Option after the second year of studies [ED2] in the Environmental Design Program. These Options include Architecture; Interior Environments; Landscape + Urbanism.

Of the approximately 100 students moving into the third year of studies [ED3], admission into these Options will be divided equally. Students will be required to rank their program options in order of preference [1st, 2nd, 3rd choice]. The selection of students into these Options will be based on the GPA, a Portfolio, and Statement of Intent.

Students entering the program should be aware that entry into the Options will be assigned on a competitive basis, and that not all students may be successfully placed in their first option

4.6 Program Requirements

The Bachelor of Environmental Design Degree is a four year program of studies consisting of two years of common 'Foundation Studies' (ED1/U1 and ED2) followed by two years of 'pre-professional 'Intermediate Studies' (ED3 and ED4). The third and fourth years are referred to as the 'Option Years' and include Architecture, Interior Environments and Landscape and Urbanism (a shared option between City Planning and Landscape Architecture). Typically students entering the Environmental Design Program are admitted after completion of the admission requirements.

	Foundation Studies		
Apply to University 1	ED1 / U1		
Apply to Environmental Design Program	ED2		
	Intermediate Studies (Option Years)		
Apply to Option ED 3 Arch Option	or ED 3 IE Option	or ED 3 L and U Option	
ED 4 Arch Option	or ED 4 IE Option	or ED 4 L and U Option	

The Foundation Studies of the Environmental Design Program provide a solid grounding in the basic knowledge and language shared by all of the environmental design disciplines. It also provides opportunity to develop interdisciplinary perspectives through the other academic units in the University of Manitoba. Students come to understand the holistic nature of environmental design and, at an early stage, begin to establish a rich and multidisciplinary dialogue with their peers in the Faculty of Architecture. It also enables students to discover their strengths and interests relating to a particular environmental design discipline.

The Intermediate Studies of the Environmental Design Program provide opportunities to pursue a specific professional design discipline including Architecture, City Planning, Interior Design and Landscape Architecture. The third and fourth years are spent studying in the Option Years where students are exposed to, and challenged by, academic and professional design theories and practices specific to a particular design discipline.

Overall, the curriculum is structured around a design studio sequence that provides a forum for exploring the complex relationships between humans and the natural and built environments that constitute the places and artifacts of cultural production. Over a four year period, a student will develop the necessary knowledge and skills to pursue work in a wide variety of design practices.

The professional options are an important curriculum link to the graduate programs. Students holding a B.Env.D degree are eligible to apply to the graduate departments of Architecture, City Planning, Interior Design and Landscape Architecture and to other graduate programs globally. Applicants already possessing a non-design baccalaureate degree may be qualified to apply directly to the ED program and be placed in one of the 3 Options. Students who have completed a design degree may be eligible to

apply to the graduate program. Interested students should consult the *Graduate Calendar*, Faculty of Architecture.

Electives

University credit courses may be taken as electives. They may come from the Faculties of Arts, Science, Engineering, Fine Arts, Management, Agricultural and Food Sciences among others, or with the permission of the Environmental Design Program Chair in special circumstances.

Supplies and Expenses

The Faculty of Architecture has introduced an Information Technology Program Fee of \$400.00 for all enrolling students. The Information Technology Program Fee includes \$100.00 to go to a technology endowment fund. Remaining funds will be expended on current technology items of direct benefit to students.

In addition to tuition, student fees, and related expenses, the estimated cost of materials, equipment, and textbooks for students in Environmental Design is approximately \$4,000 per year.

The Environmental Design Program offers Field Studies in Years 2, 3 and 4 either as stand alone courses or in conjunction with a design studio offering. These may be regional, national or international. All related costs are to be borne by the students. A valid passport is required.

The Environmental Design Program has revised its mandatory computer purchase policy for all students entering Year 2 of the Environmental Design Program, beginning September 2008. Please refer to the Environmental Design website to note laptop computer and software specifications.

The Environmental Design Program has introduced the Urban Media Lab Fee of \$350.00 (replacing the Sketch Camp fee). The Urban Media Lab course is offered in Year 2 and is hosted off campus in advance of the regular academic session (late August to early September).

For information about professional studies leading to the degrees of Master of Architecture, Master of City Planning, Master of Interior Design and Master of Landscape Architecture, please refer to the *Graduate Calendar*.

SECTION 5: Bachelor of Environmental Design After Degree

5.1 Admission Requirements

The Bachelor of Environmental Design After Degree is designed for students with a previous undergraduate degree [or for those currently enrolled

in the final year of a degree program] THAT have no formal design education. This degree offering requires two years of studies at the ED3 and ED4 level [66 credit hours]. In order to be eligible for consideration, all applicants must have completed an undergraduate degree from a recognized university with a minimum grade point average (GPA) of 3.0 (B), or equivalent in their last 60 credit hour of study. For repeated courses the highest grade received for the course will be used in the GPA calculation.

5.2 Supplementary Regulations

Special regulations governing admission, attendance, withdrawals, examinations, grading procedures and curriculum requirements are on file in the Graduate Program offices and in the general office of the Environmental Design Program.

5.3 Dean's Honour List

Students who achieve a term GPA of 4.0 or better, while registered in 80 per cent of a full course load will be included in the Dean's Honour List for the Faculty of Architecture.

5.4 Enrollment Quotas

Enrollment will be limited to 15 students per year on a competitive basis.

5.5 Program Requirements

Enrollment in the Faculty of Architecture Environmental Design After Degree Program (Architecture Pre-Master Option) is competitive and limited. Students will be admitted on the basis of an annual selection process. Applicants satisfying the minimum academic requirements are eligible for consideration at the discretion of the Department of Architecture Admissions Selection Committee. This committee makes a balanced and holistic assessment of an applicant's capability to undertake architectural studies by evaluating their creative abilities and academic potential as evidenced in all supporting documents submitted. The evaluation is based on the following items, in order of importance:

- Portfolio
- Statement of Intent
- Transcripts (GPA)
- Two Confidential Academic Reference Letters
- Curriculum Vitae

Students who meet the preceding requirements, complete ED3 and ED4 (total of 66 credit hours) and meet the graduation requirements of the Faculty of Architecture will be eligible to graduate with an Environmental Design After Degree.

The Faculty of Architecture offers Field Studies in Years 3 and 4 either as stand alone courses or in conjunction with a design studio offering. These may be regional, national or international. All related costs are to be borne by the students. A valid passport is required. Visas may also be required.

The Faculty of Architecture has revised its mandatory computer purchase policy for all enrolling students beginning September 2008. Please refer to the Faculty of Architecture website to note laptop computer and software specifications.

For information about professional studies leading to the degrees of Master of Architecture, Master of City Planning, Master of Interior Design and Master of Landscape Architecture, please refer to the Graduate Calendar.

In addition to tuition, student fees, and related expenses, the estimated cost of materials, equipment, and textbooks for students in Environmental Design After Degree is approximately \$4,000 per year.

SECTION 6: Registration Information

6.1 Initial Access Times

Please check Aurora Student on or after July 2, 2008 for your initial access time.

6.2 For All New and Returning Students

The Environmental Design Student Advisor is available in 220 Architecture 2 Building or by calling (204) 474 9566 to help should you encounter difficulties in selecting or registering for courses. Appointments are not required. Office hours are between 8:30 am and 3:00 pm Monday through Friday.

6.3 Registration Exceptions

Students 'on probation' and students seeking reinstatement must meet with the Student Advisor before registering.

6.4 Orientation

It is recommended that all new students attend orientation. Information regarding time and location of orientation will be included with acceptance letters distributed to all new students by the Admissions Office.

6.5 Sequence In Which to Register

Students are required to register for their courses in the exact sequence for the applicable year noted under Section 5.2 Course Sequence and Requirements. If you do not follow this sequence exactly you will encounter difficulty as Aurora Student is programmed to check that course prerequisites are met and that course conflicts do not occur.

Because timetable changes may occur throughout the summer, final schedules will not be available until the start of classes.

It is the student's responsibility to ensure all degree requirements have been met.

6.6 Students From Other Faculties or Schools Registering for Courses in Environmental Design

The following Environmental Design courses are available to students not registered in the Environmental Design Program.

EVDS 1600 Introduction to Environmental Design

EVDS 1660 History of Culture, Ideas and Environment 1
EVDS 1670 History of Culture, Ideas and Environment 2
EVDS 1602 Visual Literacy

6.7 Checklist

Have you:

- Verified your initial access time?
- Consulted a student advisor and/or obtained required program approvals?
- Checked for any timetable updates?
- Registered for your courses?
- Asked for a fee assessment?
- Paid your fees?

Your registration is not complete until you pay your fees or make arrangements to have them paid by the fee payment deadline. Do not wait for a fee statement to be mailed to you. See the Section on fee payment for payment options.

6.8 Course Descriptions

EVAR 3000 Pre-Modern Architectural History and Theory I Cr.Hrs.3 Provides a historical and theoretical understanding of early Greek, Roman, Gothic and non-western architectural topics and their influence. Content is explored using primary texts where possible, and through critical analysis of selected topics. May not be held for credit with the former EVDS 2690, EVDS 2610, ARCH 6320 or ARCH 6420.

EVAR 3002 Pre-Modern Architectural History and Theory II Cr.Hrs.3 Provides a historical and theoretical understanding of Gothic and Renaissance architectural topics and their influence, up to the work of Claude Perrault. Content is explored using primary texts where possible, and through critical analysis of selected topics. May not be held for credit with EVDS 2620 or ARCH 6340.

EVAR 3004 Cr.Hrs.3 Construction materials and structural theory in the analysis and design of simple wood-frame, masonry and light steel construction; fundamental passive energy systems and design strategies for material and energy reduction. May not be held for credit with EVDS 1690 or ARCH 6480.

EVAR 3006 Architectural Technology 2-Building Construction, Structures & Envelopes Cr.Hrs.3 Architectural, environmental and technical aspects of construction focusing on low-rise and medium sized wood, steel and masonry construction focusing on low-rise and medium sized wood, steel and masonry construction including issues of material production/manufacturing, soils, foundation, envelope systems, basic mechanical systems and their integration and acoustic concerns. May not be held for credit with the former EVDS 2670, EVDS 2700, ARCH 6520 or ARCH 6530

EVAR 3008 Architecture Design Studio 1 Cr.Hrs.9 An architectural study of the human condition in relation to the natural and built environment through design oriented research exploration, analysis, evaluation and interpretation of a selected subject of inquiry. Various ways of seeing and making are applied as tools for critical thinking to align content with modes of representation. May not be held for credit with former EVDS 2630 or ARCH 6380.

EVAR 3010 Architecture Design Studio 2 Cr.Hrs.9 Building upon first term explorations, architectural propositions are developed that seek to clarify relations between human inhabitation and the physical environment in a regional context. Design principles influenced by programmatic, theoretical, historical, technological material and environmental criteria are examined. *Prerequisite:* EVAR 3008. May not be held for credit with former EVDS 2640 or ARCH 6390.

EVAR 3012 Architecture Technology Preparation: Structural Concepts Cr.Hrs.3 A preparatory block course introducing the fundamentals of structural concepts in architecture that prepares students for the foundation technology courses in architecture. May not be held for credit with EVDS 2300 (or former EVDS 1690), EVDS 1700 or ARCH 6480.

EVAR 3014 Drawing: Freehand/Digital Cr.Hrs.3 An introduction to drawing skills that allows students to become articulate in proposing and studying architecture through drawing. The course covers a range of media. Not to be held for credit with EVDS 2800 and the former ARCH 6352 or ARCH 6370.

EVAR 4000 Modern Architectural History and Theory I Cr.Hrs.3 Provides a historical and theoretical understanding of the origins of modernity in architecture. Content is explored using primary texts where possible, and through critical analysis of selected topics. May not be held for credit with former EVAR 3700, EVAR 3470, ARCH 6460 or ARCH 6450.

EVAR 4002 Architectural Technology 3-Building Systems Cr.Hrs.3 Integrated building systems focusing on multi-story steel and concrete construction including: passive and active heating, cooling, and ventilation methods, strategies and designs, electrical, water, communication, security, fire protection, and vertical transportation systems; and building code constraints. May not be held for credit with the former EVAR 3560, EVAR 3570, ARCH 6500 or ARCH 6510.

EVAR 4004 Architecture Design Studio 3 Cr.Hrs.9 This studio focuses on the broader cultural implications of social interaction and the collective inhabitation of the built and natural environments. Architecture design explorations are influenced by a thorough examination of programmatic, theoretical, historical, technological, material and environmental criteria. May not be held for credit with the former EVAR 3680 or ARCH 6400

EVAR 4006 Modern Architectural History and Theory II Cr.Hrs.3 Provides an historical and theoretical understanding of 20th century topics in architecture (western and non-western). Content is explored using primary texts where possible, and through critical analysis of selected topics. May not be held with the former EVAR 3330, EVAR 3480, ARCH 6440 or ARCH 6470.

EVAR 4008 Arch Tech 4: Comprehensive Design Technology Report Cr.Hrs.3 A technical knowledge project-based course integrating with Arch Studio 4. Comprehensive technology issues include: site; material; energy; structures; construction; sustainability; environmental factors; building code; life safety. Student's work will include analysis, technical drawings and calculations. Corequisite: EVAR 4010 Arch Studio 4

EVAR 4010 Architecture Design Studio 4 Cr.Hrs.9 The previous terms investigations are further developed and synthesized into a comprehensively designed environment. Architectural propositions seek to clarify specific relations between details and the overall design, through the integration of complex social, cultural, programmatic, theoretical, historical, technological, material and environmental principles, systems and criteria. *Prerequisite:* EVAR 4004 Architecture Design Studio 3. May not be held with the former EVAR 3690 or ARCH 6410. Corequisite: EVAR 4008 Arch Tech 4.

EVDS 1600 Introduction to Environmental Design Cr.Hrs.3 (Formerly 079.160) An introduction to the philosophy and pragmatics of design and designing processes and methods. The focus will be on design as a creative, aesthetic and scientific endeavor, and will examine the challenges and roles of environmental designers in society. Available to non-Environmental Design students only.

EVDS 1602 Visual Literacy Cr.Hrs.3 This course examines the contemporary visual environment, its critical historical influences, and more recent cultural impacts. Optics, the structure of images, and the importance of materiality will be examined through various modes of cultural production including emerging media and information networks. Available to non-Environmental Design students only.

EVDS 1660 History of Culture, Ideas and Environment 1 Cr.Hrs.3 A brief history of the western creative imagination, part 1. Interdisciplinary survey of cultural periods and key works from the Foundations of Civilization to the Enlightenment, including literary readings, film screenings, and illustrated lectures and discussion.

EVDS 1670 History of Culture, Ideas and Environment 2 Cr.Hrs.3 A brief history of the western creative imagination, part 2. Interdisciplinary survey of cultural periods and key works from the 19th to the 21st centuries, including literary readings, film screenings, and illustrated lectures and discussion. *Prerequisite:* EVDS 1660 (or 079.166).

EVDS 2100 Urban Media Lab Cr.Hrs.3 An introduction to visual methods of representation and related media including drawing, photography and video. The intention is to critically engage the urban and suburban contexts as a laboratory for investigating cultural values, aesthetic issues, design principles, and representational techniques, '*prerequisite*' to undertaking design studio work.

EVDS 2200 Ecology and Design Cr.Hrs.3 An examination of principles of Ecology and Design works in which these tenets are considered, engaged, and/or demonstrated. Topics fundamental to the science of Ecology will theoretically structure the course content. Emphasis will be placed on understanding the forces and systems working within and between natural, social and human environments.

EVDS 2300 Materials, Structures and Assemblies Cr.Hrs.3 This course provides an introduction to applied statics, construction materials and construction system assemblies for landscape, building, and interior constructions. Construction material properties and applications, including impacts on resource depletion and on sustainable building practices will be introduced along with basic strategies and methods to analyze and calculate forces in simple structures.

EVDS 2400 Visual Media 1 Cr.Hrs.3 An introduction to technical and free-hand drawing processes and techniques, and in various media - to develop, to express, and to communicate design intentions. The focus will be directed to abstract and concrete methods of representation. Emphasis will be placed on the integral relationship between thinking, drawing, and making in relation to critically observing the world at large, and in relation to design studio work.

EVDS 2500 Design Studio 1 Cr.Hrs.6 Introduction to the elements and principles of visual and spatial design, design process and techniques, requisite methods of representation and communication, and design intentions. Studio work will explore different ways of space and form-making, beginning at the site of the body, in both abstract and environmental contexts.

EVDS 2600 Tectonic Precedent Cr.Hrs.3 An examination of seminal built works of environmental design, at a range of scales, from the 19th and 20th centuries, with an emphasis on examples that are representative of diverse positions of key issues in contemporary design practice. Methodologically, this course endeavours to critically evaluate the relationships between perception, intention, and making through the exploration of the material and tectonic nature of the work(s)

EVDS 2702 Natural and Human Systems Cr.Hrs.3 An application of the scientific principles embodied in the natural laws which govern environmental design. Aspects of the bio-physical factors, energy, human physiology and perception, comfort, and resource management are reviewed in the context of sustainable planning and design practices.

EVDS 2800 Visual Media 2 Cr.Hrs.3 This course bridges technical and freehand drawing introduced in Visual Media 1, with computer/digital media. This course advances contemporary digital media in relation to emerging modes of 2, 3, and 4 dimensional modes of representation, in the context of design studio work, and in relation to graphic standards associated with professional design practice.

EVDS 2900 Design Studio 2 Cr.Hrs.6 An exploration of the fundamental relationships between space, form and order in the context of the built environment, from body to place. Pedagogical emphasis will be directed towards design process, cultural intentions, and environmental accountability.

EVDS 3250 Advanced Computing in Environmental Design Cr.Hrs.3 (Formerly 079.325) Advanced Computing in Environmental Design builds upon skills obtained in the introductory course. The advanced course provides an opportunity for students to explore detailed applications of computational technologies in design & planning. *Prerequisite:* EVDS 2800 (or 079.265)

EVDS 3710 Special Topics Cr.Hrs.3 (Formerly 079.371) Independent study related to environmental design. Content may vary according to the interest of the community, students, profession, and the faculty. Written consent of the instructor(s) and program coordinator required.

EVDS 3740 Introduction to AutoCad in Design Cr.Hrs.3 (Formerly 079.374) The course will familiarize the student with the AutoCad program. The course content begins at an introductory level and will progress to a level which will prepare the student for work within a professional office. The course will explore the use of AutoCad for the creation of presentation drawings as well as working drawings. *Prerequisite:* EVDS 2800, ARCH 6370 (or 050.637) or written permission of Instructor.

EVIE 3000 Field Studies Cr.Hrs.3 This course introduces students to the field of Interior Design through firsthand experience and study of innovative and significant examples of historic and contemporary work from interior design and related fields, in a major design center. The course consists of lectures and a field trip. Location may vary from year to year.

EVIE 3002 Interior Design History and Theory 1 Cr.Hrs.3 Examination of concepts, theories and writings related to the development of Interior Design as a discipline, to Modernism. Not to be held for credit with the former EVIE 3650.

EVIE 3004 Materials, Assemblies and Detailing Cr.Hrs.3 Workshop and lecture course on materials, joinery and invention. Review of the principles of framing, bracing, and tension applied to casegoods and furniture; exploration of a variety of soft and hard materials and constructions with an emphasis on sustainability. Not to be held for credit with the former EVIE 3630. *Prerequisite:* EVDS 2200.

EVIE 3006 Interior Design Media Cr.Hrs.3 This course develops a student's ability to use drawing as a reflective, problem-solving, designing and visual communication tool; interfaces with digital photography; figure drawing, techniques for representing volume, depth and scale, and interfaces with digital photography and media are focus.

EVIE 3008 Interior Design Studio 3.1 Cr.Hrs.6 Interior Design studio exploring the body as the primary reference in design, and the semantic and cultural meanings of objects and architectural elements as mediators of space. Integration of drawing, design and making through projects.

EVIE 3010 Interior Design Studio 3.2 Cr.Hrs.6 An in-depth investigation, by design, of the nature of interiors including the physical and perceptual, spatial elements and order, human involvement and experience. Exploration and development of spatial solutions using a variety of visual media. Not to be held for credit with the former EVIE 3680.

EVIE 3012 Interior Light and Colour Cr.Hrs.3 This course examines interior lighting and colour theories and concepts emphasizing human and ecological issues, exploration of spatial design strategies and practices. Not to be held for credit with the former EVIE 3610.

EVIE 3014 Human Factors and Environmental Experience Cr.Hrs.3 Theoretical and practical issues related to human characteristics, needs, behaviours, and interactions with and within the built interior environment.

EVIE 3016 Topics in Interior Design Cr.Hrs.3 This course will explore topics at the cutting edge of interior design, examining political, economic, sociological and technological influences on current and future directions in interior design; examination of current research, writing, projects and works from related and diverse fields.

EVIE 4000 Interior Design History and Theory 2 Cr.Hrs.3 Examinations of concepts, theories and writings related to the development of interior Design as a discipline and profession, from Modernism to the present day. *Prerequisite:* EVIE 3002 Interior Design History and Theory 1. Not to be held for credit with the former EVIE 3660.

EVIE 4002 Indoor Systems 1 Cr.Hrs.3 In-depth, whole building examination of various integrated active and passive environmental controls systems. Focus on working with existing commercial building construction and environmental systems when integrating new interior design and ecological concepts and strategies. Introduction to building performance assessment, construction drawings and schedules. *Prerequisite:* EVIE 3004 and EVIE 3012. Corequisite: EVIE 4010. Not to be held for credit with the former EVIE 3620.

EVIE 4004 Indoor Systems 2 Cr.Hrs.3 Broad exploration of a variety of contemporary and innovative building technologies and their integration with interior design. Focus on ecological, new building construction concepts and measure, delivered in the context of integrated design team processes and building systems innovation. Integration and coordination of interior architectural elements with active and passive building systems. *Prerequisite:* EVIE 4002.

EVIE 4006 Design Methods and Processes Cr.Hrs.3 Development of knowledge and abilities to collect, analyze, synthesize, interpret, and apply information for the purpose of identifying and solving interior design problems. Not to be held for credit with the former EVIE 3640.

EVIE 4008 Digital Media (AutoCAD) Cr.Hrs.3 Drafting and designing for Interior Design students with AutoCAD. The course will focus on using AutoCAD Release 200X, with exposure to Autodesk's Architectural Desktop and Revit Version X. The course is set up to take students from the basics of using the program to being able to produce a conventionally correct working drawing and a rendered 3D representation. Not to be held for credit with former EVIE 3670.

EVIE 4010 Interior Design Studio 4.1 Cr.Hrs.6 Projects that explore the interaction between urban context, programmatic requirements and design concepts; integration of building technology and three-dimensional spatial development; development of

communication skills and methods. Not to be held with the former EVIE 3690. *Prerequisite:* EVIE 3010. *Corequisite:* EVIE 4002.

EVIE 4012 Interior Design Studio 4.2 Cr.Hrs.6 Design studio with the potential for collaboration, exploring regional and global influences, communication technology, history and temporality in the design of interior environments.

EVIE 4014 Advanced Interior Design Media Cr.Hrs.3 Advanced visual communications media for interior designers, focusing on 3D computer-aided design and presentation. Development in the use of a selected range of drawing and rendering software applications. Further development in integrating hand and digital methods. *Prerequisite:* EVIE 4008 or consent of instructor.

EVLU 3000 History of Designed Environments Cr.Hrs.3 A critical examination and appraisal of design for dwelling in the context of settlement with emphasis on representation of diverse positions on key issues in design practice. Studies will include consideration of cross cultural precedents and lessons from around the world.

EVLU 3002 Site Planning Cr.Hrs.3 An investigation of the relationship between natural and cultural processes in the formation of the built environment, including a review of the methods and strategies employed for site programming, inventory, analysis, and development at different scales of intervention.

EVLU 3004 Ecology and Design 2 Cr.Hrs.3 This course will focus on an examination of ecological and technological perspectives on the planning, design and making of the physical environment. This will include a meshing of prediction and advocacy concerning new models of sustainable urbanization, focusing on green technology and infrastructure. Key theories and their application to landscapes at varied scales will be considered along with salient literature, current issues, design precedents and potentials for creative expression and interpretation. *Prerequisite:* EVDS 2200.

EVLU 3006 Studio 3: Dwelling/ Precinct? Everyday Life Cr.Hrs.9 A studio/lecture course that examines the notion of dwelling through spatial design with a concentration at the scale of the precinct in the private to semi-private realm focusing on the needs of the individual, on spatial qualities, materials, and site design detail. Theoretical, analytical, conceptual, design, planning and communication skills in landscape and urbanism will be developed and applied in distinct projects. Emphasis is on habitat by design, issues of contested space, ecological design and sustainability. *Prerequisite:* EVDS 2640. May include a mandatory field studies trip: location and cost to be determined on a yearly basis.

EVLU 3008 Studio 4: Networks and Infrastructure Cr.Hrs.9 A critical exploration of analytical, conceptual, and developmental aspects of design of the public realm in an experimental studio setting. Social, political, economic, communication, and ecological networks will be studied at the scale of neighborhood and community in the urban realm.

EVLU 3010 Landscape and Urbanism Theory Cr.Hrs.3 An examination through lectures, readings, seminars and essay assignments, of twentieth and twenty first century philosophical thinking, which has been influential in the theory and practice of landscape architecture, planning and urbanism. Emphasis is on ideas, paradigms, and manifestos. This will include a study of the social, political, religious, cultural, technological, and aesthetic forces behind landscape and urbanism, and the forms that these forces have generated.

EVLU 3012 Site Morphology and Grading Cr.Hrs.3 An examination of the means and methods used to create landscapes that are shaped by earthwork grading. This will include the study of the forces, principles, and techniques in the modelling and manipulation of the ground plane and the resolution of cultural, ecological and hydrological design considerations implicit in landform design.

EVLU 3014 Placemaking Fundamentals Cr.Hrs.3 An introduction to placemaking as

an integrated community-based application of landscape and urbanism concepts, based on topical themes, such as the Great Neighbourhood or Edens Lost and Found.

EVLU 4000 Philosophy, Ethics and Aesthetics Cr.Hrs.3 An examination of philosophical issues and debates regarding ethics and aesthetics, and their influence and potential upon urban design and urban form in the past and present, and to speculate upon the future. *Prerequisite:* EVLU 3010.

EVLU 4002 Construction Materials Cr.Hrs.3 A comprehensive introduction to construction materials, methods and processes. Examination of regulatory issues of human safety and techniques for communicating construction proposals with application to how this information is incorporated into contracts. Field trips to nurseries, quarries, lumber yards, and urban sites where students can observe materials transformed to comply with the requirements of designers. *Prerequisite:* EVLU 3012.

EVLU 4004 Inquiry by Environmental Design: Researching Space-Place Transformation Cr.Hrs.3 An exploration of the design/research relationship, from a critical and creative thinking perspective will be the core of this course, viewing design and research as linked forms of inquiry into space-place transformation. A focus will be on design/research methods and approaches appropriate to informing and investigating designed environments and community design contexts.

EVLU 4006 Special Topics in Community Design Cr.Hrs.3 This course will involve a critical examination of specific topics such as: health and community design; inner city environments; and Canadian community planning and design, and its contexts.

EVLU 4008 Plants, Ecosystems and Design Cr.Hrs.3 The examination of cultural and technical aspects of designing with plants will be explored in an urban context through field investigations, lectures, seminars and assignments. Issues of plant identification, planting design types, their application to contemporary landscape architecture, technical requirements, planting details and ecological integration in the urban environment will be included.

EVLU 4010 Community Design Process and Method: Advanced Placemaking Cr.Hrs.3 An introduction to the integration of perception, intention and placemaking associated with manifestations of community, especially communities of interest, and systems of 'communities of communities'. A consideration of the relationship of space-place transformation and placemaking, via participatory design processes will be examined as part of a critical design and planning process.

EVLU 4012 Studio 5: Possible Urbanism(s) Cr.Hrs.9 A radical exploration of analytical, conceptual, and socio-political aspects of urban public place in an experimental studio setting. An emphasis will be placed on design as mediation between competition demands. The studio incorporates the theory and application of three dimensional simulation technology in design.

EVLU 4014 Studio 6: Emergent Futures Cr.Hrs.9 This studio integrates planning and design from the scale of urban infrastructure through to design detail in the context of landscape and urbanism. An emphasis is placed on the challenges of relevant equitable environmental and social design in the post-industrial world. The studio incorporates the theory and application of CAD and GIS technology in design.

EVLU 4016 History of Landscape and Urbanism Cr.Hrs.3 An historical survey of human made landscapes and urban settlement form, patterns, and types, including major themes and movements. *Prerequisite:* EVLU 3000.

EVLU 4018 Principles of Urban Design Cr.Hrs.3 This course will examine urban design principles, practices, and applications including political and social systems, and their impacts on the contemporary urban condition.

SECTION 2: Mission of the School of Art

The School of Art at the University of Manitoba offers professional education in the visual arts. It is one of the oldest degree-granting art schools in Canada, recognized for its high standards. The School of Art joined the University of Manitoba in 1950, continuing traditions of the independent Winnipeg School of Art originally founded in 1913. Since moving from downtown Winnipeg to the Fort Garry Campus in 1965, the School continues to embrace both contemporary and traditional art practices as well as sponsoring scholarship in art history. Our facilities accommodate programs in Studio Foundations, Art History, Drawing, Ceramics, Painting Sculpture, Graphic Design, Photography, Printmaking, Video and New Media. Gallery One One One presents major art exhibitions and holds collections of international significance.

The School of Art fosters the development of artists, designers and scholars in art history and studio art programs. Artistic practice, aesthetics, and knowledge of contemporary art and architecture combine with selected studio programs. Students learn expressive as well as technical skills through specialized elective studio and research programs. Theoretical and critical approaches combined with intuitive and conceptual frameworks encourage creativity and knowledge of art and design. The School of Art supports diversity of expression with the understanding that art expresses the human spirit in various cultural forms.

The School of Art is housed in three locations: FitzGerald Building, the Ceramics/Sculpture Building, and the Fine Arts Barn. Each studio and classroom uses specialized equipment. The FitzGerald Building also houses Gallery One One One, the School of Art Permanent Collection, the FitzGerald Study Collection, digital media labs, printmaking, a video production studio, and the Art History Research and Study Centre.

School of Art graduates include professional artists and art historians of national and international acclaim. Their art works and texts are part of our cultural record in important collections, critical reviews, and historical accounts. Many achieve exhibitions, sales, commissions, grants, employment using technologies, and other opportunities to sell and publish their works. Art critics, curators, and directors work in museums, galleries, and other institutions, as do specialists in research, documentation, or archives. The publishing, advertising, design, media and communications fields present options. Further training leads to occupations in education or psychology, while study in competitive graduate schools establishes qualifications for university careers. Sophisticated visual imagery and creative research are in demand for all manner of public, private, business, industrial, scientific, academic, social, and interdisciplinary ventures throughout contemporary culture.

SECTION 3: Admission to the School of Art

3.1 Degrees and Diploma Offered

Bachelor of Fine Arts (Honours) (Studio)

Minimum time to graduate: Four years with admission directly from high school.

Bachelor of Fine Arts Art History (Honours)

Minimum time to graduate: Four years (University 1 plus three years).

Bachelor of Fine Arts (Studio – General)

Minimum time to graduate: Three years with admission directly from high school.

Bachelor of Fine Arts Art History (General)

Minimum time to graduate: Three years (University 1 plus two years).

Diploma in Art (Studio)

Minimum time to graduate: Four years following direct admission.

3.2 Entrance Requirements

The following is a summary of admission requirements in the School of Art. There is an annual admission quota and admission is competitive.

Entry requirements to the University of Manitoba are listed in the Admissions chapter of this Calendar.

All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin available from the Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website, umanitoba.ca.

An acceptance deposit is required and will be credited towards tuition when registration is complete.

Studio Programs

Bachelor of Fine Arts Studio – General Program

Initially, all students wishing to complete a Fine Arts studio degree are admitted to the Bachelor of Fine Arts General program.

Admission to the School of Art is directly from high school, although admission from University 1 is also an option. Candidates applying direct from high school must meet the same admission standards as University 1 applicants. In addition, each applicant must submit a portfolio. Information about the admission and portfolio requirements is available on the School of Art website: umanitoba.ca/schools/art. Grade 12 art is recommended.

Bachelor of Fine Arts Honours – Studio

To enter the Studio Honours program, a student must successfully complete 70 credit hours of study in the first two years of the general program, with a minimum cumulative GPA of 2.5 in the Fine Arts courses. Students must contact the Student Advisor in the School of Art to arrange for a transfer from the General program to the Honours program prior to registration in Year 3 of the program.

Diploma in Art

Admission to the Diploma in Art requires a high school diploma. Applicants must submit a portfolio and satisfy high school course requirements as described in the application bulletin available from Admissions.

Art History Programs

Bachelor of Fine Arts in Art History – General Program

All students wishing to complete an Art History degree must first complete 24 credit hours in University 1, including 12 credit hours from the list that follows, and achieve a minimum cumulative GPA of 2.0.

FAAH 1030 Introduction to Art 1A

FAAH 1040 Introduction to Art 2A

English Literature (3 credit hours at 100-level or above. ENGL 1200, ENGL 1300 or any other English course with "Literature" or "Literary" in the title)

HIST 1200 or PHIL 1200 or 1510 or ASIA 1420 and ASIA 1430

Mathematics FA 1020 or MATH 1020 or any other course that meets the University of Manitoba Math requirement

A language course - French, German, or Italian recommended

Once the University 1 regulations are met, students will initially be admitted to the Bachelor of Fine Arts Art History – General Program.

Bachelor of Fine Arts Honours – Art History

To enter the Art History Honours program, a student must successfully complete 70 credit hours of study in the first two years of the general program, with a minimum cumulative GPA of 2.5 in the Fine Arts courses. Students must contact the Student Advisor in the School of Art to arrange for a transfer from the General program to the Honours program prior to registration in Year 3 of the program.

Additional Admission Categories

Mature Students: A mature student is eligible to enter the School of Art as a student in the Diploma in Art program. A diploma student may transfer into the degree programs under certain conditions once they have completed the first year of the diploma program.

Transfer Students: A student seeking transfer to the School of Art from another faculty at the University of Manitoba should contact the School of Art student advisor regarding transfer of credit. Academic courses completed at other institutions will be assessed for equivalency only after acceptance to the School of Art. Note: The maximum transferable to the B.F.A. General Program is 30 credit hours. The maximum transferable to the B.F.A. Honours Program is 60 credit hours.

Special Students: A special student is someone who is permitted by the director of the School of Art to take courses for interest and whose basis of admission is normally possession of a first degree.

Audit Students: Only art history courses may be audited. Studio courses cannot be audited.

Visiting Students: A visiting student can take courses in the School of Art on a letter of permission from the home university, listing the specific courses for which permission is granted.

SECTION 4: Academic Regulations

The provisions of the chapter *General Academic Regulations* and *Requirements University Policies* apply to all students. In addition, the School of Art has the following regulations and requirements.

4.1 Attendance

Letters of warning may be issued for unexcused absences in excess of three for a course in one term. Unexcused absences in excess of four for a course that meets twice a week or five for a course that meets three times a week in one term may result in suspension.

4.2 Dean's Honour List

School of Art students who achieve a Sessional GPA of 3.3 and carry the minimum required credit hours in their current year of study will be eligible for the Dean's Honour List. Students who are granted incomplete or deferred status are not eligible for the Honour List.

4.3 Residency Requirement

Studio Programs:

In addition to the University of Manitoba general residency requirement, one-half of the studio course requirements beyond the first year must be taken at the University of Manitoba. All thesis and workshop courses must be taken at this university.

4.4 Scholastic Standards

Field Trip Policy

Participation in the Field Trips is a requirement for all School of Art programs. All students must register for the Field Trips. Exemption from participating in the field trips is granted only on compassionate, medical or legal grounds. In case of accommodation, the student must register for and pay the field trip fee and an alternate assignment must be completed successfully for credit. It is the student's responsibility to acquire all necessary documentation at least three months prior to departure. Documentation includes a valid passport, and for international students, a travel visa. Students under the age of eighteen require written parental or guardian permission. Students with questions should check with Canada Border Services Agency to determine the correct documentation required for their citizenship status.

General Scholastic Standards

A minimum grade of "C" is required in all School of Art courses unless otherwise stated.

If a course is repeated, the grade and hours of credit for the repeated course are substituted for those of the original attempt in calculating the Cumulative GPA.

A student placed on probation at the end of an academic year must clear the probationary status by the end of the next academic session or will be required to withdraw permanently from the School of Art.

Specific Scholastic Standards: Art History

Bachelor of Fine Arts Art History - General:

Students must maintain a minimum cumulative GPA of 2.0. For all School of Art courses, the minimum passing grade is "C". For courses taken in other faculties, the minimum passing grade is "D".

Bachelor of Fine Arts Art History Honours: To continue in Art History Honours, a student must maintain a minimum cumulative GPA of 2.5 or better.

To continue in Art History Honours, a student must maintain a minimum cumulative GPA of 2.5 or better.

Art History First Class Honours: Upon completion of the requirements for a BFA Art History Honours degree, a student who achieves a 3.75 GPA in courses taken at the second, third and fourth year levels will be awarded BFA Art History Honours Degree First Class.

Specific Scholastic Standards: Studio

Bachelor of Fine Arts General:

A student must maintain a cumulative GPA above probationary level as follows:

First year	1.5
Second year	1.8
Third year	2.0 (2.0 to graduate)

Bachelor of Fine Arts Honours:

To register for a Studio Major course, a minimum grade of "C+" must be achieved in the appropriate prerequisite course.

To register for the Thesis (STDO 4880) a minimum grade of "B" must be achieved in the appropriate prerequisite Major course.

Students must have completed all required courses in their third year (103 credit hours) in order to register in the Thesis and Thesis Seminar courses. A minimum grade of "B" is required in the Thesis and Thesis Seminar.

To continue in the Studio Honours Program, a student must maintain a cumulative GPA as follows:

Third year Honours	2.2
Fourth year Honours	2.5 (2.5 to graduate)

Studio First Class Honours: Upon completion of the requirements for the BFA Honours degree, a student who achieves a cumulative GPA of 3.5 in courses applicable to the last two years of the Honours program is awarded the BFA Honours Degree First Class.

Diploma in Art: To register for a Studio Major Course, a minimum grade of "C" must be achieved in the appropriate prerequisite course.

To register for a Diploma Workshop course, a minimum grade of "B" must be achieved in the appropriate prerequisite Major course.

To continue in the diploma program, a student must maintain a cumulative GPA as follows:

First Year Diploma	1.5
Second Year Diploma	1.8
Third Year Diploma	2.2
Fourth Year Diploma	2.5 (2.5 to graduate)

4.5 University Written English and Mathematics Requirement

All students are required to complete, within the first 60 credit hours of their programs, a minimum of 6 credit hours of course work. The School of Art accepts only English Literature courses to fulfil this requirement. This

can be met through ENGL 1200 (Representative Literary Works) or ENGL 1300 (Literature since 1900), or English Literary Topics.

The Mathematics requirement for all studio degree programs in the School of Art can be met through FA 1020, Mathematics in Art, or any other university course designated as satisfying the mathematics requirement.

Refer to the chapter on General Academic Regulations and Requirements of this *Calendar* for the complete Written English and Mathematics policy.

4.6 Voluntary Withdrawal Policy

Refer to the general policy on voluntary withdrawal from programs and courses in the chapter, General Academic Regulations and Requirements.

4.7 Audit Policy

Auditing of studio courses is not permitted. Art history courses may be audited. See the chapter, General Academic Regulations and Requirements, for information.

SECTION 5: Program Requirements

5.1 Bachelor of Fine Arts - Art History Programs

The Art History program at the School of Art offers students an opportunity to consider, in a cultural context, both Western and non-Western artistic traditions with an emphasis on the former from the Renaissance to the present. While all courses acknowledge methodological issues, the program also offers courses in art theory and criticism at the second- and third-year levels. Students enrolled in this program broaden their knowledge of art production with studio electives.

Art History General

At least 30 and no more than 42 credits hours in Art History, two specified studio courses, field trips and FA1270 Health Hazards in the Arts, specified history or philosophy requirement, university Written English and Mathematics requirement, and electives for a total of at least 91 credit hours.

5.2 Bachelor of Fine Arts Studio Programs

The School of Art offers degrees that cover the history, theory, and techniques of art. Students must also take courses in the humanities, sciences, and social sciences.

These programs provide a general cultural background as well as the technical education necessary to become an educator, or a professional creative artist in fine art or applied fields. The programs reflect the assumption that in a time of fluctuating cultural values, technical training alone is not sufficient for significant work in any branch of the arts.

The first two years offer basic instruction in the fundamental principles of drawing, design and representation. In the fine arts studio electives in second year, the student selects a program that provides specialization in one or more of the following: ceramics, drawing, graphic design, painting, photography, printmaking, sculpture and video.

The school reserves the right to retain temporarily or permanently any work done by students in fulfilment of course requirements.

Please refer to Section 4.4, Scholastic Standards, for information about grades required in Studio courses and programs.

NOTES:

At the beginning of the second year, a student planning to enter the Honours program must make a tentative selection of a major area of study from the following: ceramics, drawing, graphic design, painting, photography, printmaking, sculpture, or video. Choice is expressed through a second-year Fine Arts studio elective, which must be a course in the intended major (9 credit hour) subject.

The three credit hour Mathematics requirement must be taken in either the first or second year as part of the elective subject(s).

A student planning to enter the Faculty of Education after obtaining a Fine Arts degree should consult the Faculty of Education for advice in selecting appropriate elective courses.

One of STDO 2210 Sculpture 1 or STDO 2230 Ceramics 1 must be taken as one of the elective Fine Art studios in either second or third year.

Honours Studio Degree

The third-year Fine Arts major and the thesis in the fourth year will be done as advanced work in one area of study to which the student has been introduced through a course in that area taken in the first or second year.

A student who fails to achieve the standing required for continuance in the BFA Honours program can transfer back to the BFA General program.

SECTION 6: Registration Information for all New and Returning Students

All students are directed to the University of Manitoba website (umanitoba.ca) for information on how to find out their initial access times. This information will be available on the "Aurora Student" link. Please refer to the Academic Schedule at the beginning of this Calendar for a timetable of registration, revision, examination, holidays and end of term dates.

Student Responsibility: Determine program requirements from the School or Art chapter of the current *Undergraduate Calendar*. New students are recommended to download their Diploma or Degree Course Requirement Worksheet located by clicking on the "Students" link from the School of Art website (umanitoba.ca/schools/art). It is your responsibility to be familiar with all the requirements of your diploma or degree. The student chooses his/her own schedule, and it is students' responsibility to ensure that they comply with degree program requirements and to understand all regulations, policies and practices that affect them. The School has information for new students on its website on the Aurora registration system and

how to choose the courses. Completion of degree requirements is the sole responsibility of the student. Should you encounter difficulty registering, or choosing courses, please contact the Student Advisor in 203 FitzGerald Building (204) 474-8294.

Obtain any written approvals necessary (prerequisite waivers, special permission forms, Special Topics forms, etc.) and present them to the School of Art Student Advisor.

When changing from Diploma to BFA General Degree, students must contact the Student Advisor at least one month prior to registration date.

Space Allocation: Web Registration confirms your successful registration and assigns space for you. You will not be able to register in sections that are full or unavailable to students in your situation. Because the system is "on-line", as students drop and add courses, space in courses may become available at a later date. Access the system several times to check for space once the initial access period has passed. The School of Art cannot register you into courses that are full. Please refer to the Academic Schedule at the beginning of this Calendar for revision dates to add first, second and spanned term courses.

Permission and Approvals: If you need special permission or written consent (pre-requisite waivers) to take any course in the School of Art or another faculty, obtain the necessary form from the appropriate office first. Once you have the instructor's signature, return it to the General Office before attempting to register. If you do not obtain permission you will not be able to register in the course.

Maximum Number of Credits Taken: If you wish to take more than the maximum number of credits for your program as outlined in the School of Art section of the current *Undergraduate Calendar*, you must obtain permission from the School of Art's student advisor before registration.

Transfer Credit: The University of Manitoba will not evaluate courses from other academic institutions until students are admitted and confirmed by receipt of a deposit in the Admissions Office. The evaluation of courses can take significant time. We will try our best to give you as accurate a picture as possible prior to your initial registration time. An attempt to register before transfer credit is completed will result in required withdrawal from courses for which you may have the prerequisites.

Transfer Students: Students wishing to transfer into the School of Art must submit a portfolio as per all other students.

Final Examinations: Since you must be available for final examinations, wait until the final examination schedules are published for December and April exam series before making travel plans. Examination schedules are published approximately six weeks before the exam period. Both a preliminary and a final examination timetable are posted throughout the campus, on the Web Page, and the hallway outside the General Office in the FitzGerald Building. Once the final examination timetable is available, write down the information you need: course number, section, date, time and location of your examination. Since some examinations are scheduled and or arranged by the instructor, make sure that you obtain the correct date, time and location from your instructor.

Deferred Final Examination: If you are unable to write a final examination because of an illness or other disability, apply for a deferred examination through the School of Art's general office within seven days after the final examination period. Obtain a medical certificate signed by a doctor or other signed statement attesting to your inability to write the final examination when scheduled and indicate when you are available to write the exam.

Returning Students not registered in 2008 – 2009 in good standing who have registered within the last five years are eligible to register without submitting a portfolio but are still required to submit a re-admission form with the appropriate fee. You may also be asked to pay a deposit prior to registering.

Visiting Students: Must present a Letter of Permission from their home university to the School of Art, covering the courses they plan to take before registering. Since some courses may be unavailable in a particular term, or may be courses that continue into a second term after the student plans to return home, visiting students should strongly consider submitting alternate choices approved by their home university. It is not feasible to create individual courses for visiting students.

Probation: Students on probation must contact the School of Art student advisor regarding registration to ensure that they understand the assessment procedures and are aware of the assistance offered by the University Counselling Service.

Suspension: Students who are currently on suspension and who have been granted permission to attempt reinstatement must register in person.

Special Students: Students who have completed a degree may be admitted to the School of Art as a Special Student to take courses for personal interest.

Elective Subjects Other Than Fine Arts: Credit courses in the Faculty of Arts, Faculty of Science, and Faculty of Music are acceptable as academic electives in the School of Fine Arts studio programs. Students wishing to take academic electives beyond those in the Faculties listed above should contact the School of Art office to verify credit options.

Section 7: Course Descriptions

FA 1020 Mathematics in Art Cr.Hrs.3 (Formerly 054.102) Specific theory, structuring systems, and mathematical methods and principles used in works of art from various historical periods and contexts will be explored in relation to Euclidean and non-Euclidean geometries. Topics include 1) linear perspective; 2) shapes, patterns, balance and symmetry; 3) ratio, proportion, and harmony; and 4) order, dynamics, and chaos. The course will be one half art and one half mathematics, team-taught by faculty from the School of Art and the Department of Mathematics. Students may not hold credit for both FA 1020 (or 054.102) and MATH 1020 (or 136.102).

FA 1270 Health Hazards in the Arts Cr.Hrs.1 (Formerly 054.127) Lectures on the hazards inherent in the use of common artists' materials and equipment. This course is graded pass/fail. *Prerequisite* for all 2000-level School of Art studio courses.

FA 1990 First Year Field Trip Cr.Hrs.0 (Formerly 054.199) A field trip course conducted by members of faculty early in the Fall. All students are required to have a valid passport from their country of citizenship for travel abroad. When the field trip is destined for the United States, international students requiring a visitor's visa should make arrangements to obtain the visa at least 90 days before the field trip departure date. A field trip exemption is only granted for extreme/extraordinary visa issues and circumstances. The field trip is required for all School of Art programs. Students unable to obtain a visa should contact the Student Advisor.

FA 2620 Writing About Art Cr.Hrs.3 (Formerly 054.262) This course is designed to give art history majors, studio majors, and other interested students studying art history the opportunity to develop their writing skills in the context of the requirements of the discipline. The focus will be on the production of both academic and critical writing about historical and contemporary art, as well as on writing which meets the practical needs of professional artists. This course can only be held as "academic elective" credit for students within the School of Art. *Prerequisite:* FAAH 1030 (or 054.103) and FAAH 1040 (or 054.104) or FAAH 1050 (or 054.105) and FAAH 1060 (or 054.106); or the previous 054.124 or 054.130.

FA 3440 Field Trip Cr.Hrs.0 (Formerly 054.344) A field trip conducted by members of faculty later in the Fall. All students are required to have a valid passport from their country of citizenship for travel abroad. When the field trip is destined for the United States, international students requiring a visitor's visa should make arrangements to obtain the visa at least 90 days before the field trip departure date. A field trip exemption is only granted for extreme/extraordinary visa issues and circumstances. The field trip is required for all School of Art programs. Students unable to obtain a visa should contact the Student Advisor. *Prerequisite:* FA 1990.

Art History Courses

FAAH 1030 Introduction to Art 1A Cr.Hrs.3 (Formerly 054.103) A basic study/survey of world art history and theory to the early Renaissance. May not be held for credit with FAAH 1050 (or 054.105) or the previous 054.124 or 054.130. (Formerly first half of 054.124) This course is a *prerequisite* to further study in art history and theory of art.

STDO 3900 Printmaking 2B Cr.Hrs.4.5 (Formerly 054.390) Continuation of Advanced Printmaking A/B. Students may not hold credit for the former 054.364 or 054.390. *Prerequisite:* STDO 3890 (or 054.389).

STDO 3930 Design Studio 3 Cr.Hrs.4.5 (Formerly 054.393) Builds on students' abilities to solve graphic design problems in visual communications as developed in Design Studio 1 and 2, and to increase repertoire of design problems typically encountered in professional practice. (First part of Major course). *Prerequisite:* "C+" or better in STDO 2630 (or 054.263) and STDO 2640 (or 054.264) or 054.228. May not be held for credit with the former 054.347 or 054.366.

STDO 3940 Design Studio 4 Cr.Hrs.4.5 (Formerly 054.394) Builds on students' abilities to solve advanced graphic design problems in visual communications as developed in Design Studio 3 and to increase repertoire of design problems typically encountered in professional practice. (Second part of Major course). *Prerequisite:* STDO 3930 (or 054.393). May not be held for credit with the former 054.347 or 054.366.

STDO 3950 New Media Design Cr.Hrs.3 (Formerly 054.395) An exploration of the 'new media' revolution within a critical graphic design context. The course is also an introduction to the tools and principles of new media content creation and information architecture. *Prerequisite:* STDO 2650 (or 054.265).

SECTION 1: History of the Faculty of Arts

Although a separate Faculty of Arts was not established until 1970 (when the Faculty of Arts and Science, which was founded in 1921, was divided into two administrative units), the teaching of Arts (and Science) subjects, and the granting of Arts degrees, go back to the beginning of this university.

When the University of Manitoba was founded in 1877, it was given the following responsibilities: to set requirements for degrees, to determine which persons were to be admitted as candidates for degrees (this was done by means of entrance examinations, which were first opened to women in 1886), to administer the examinations that were to be written each spring (in either English or French), and to award degrees to successful candidates. During its early years the only undergraduate degrees actually awarded by the university were Bachelor of Arts degrees, with the first being awarded in 1880 (when the graduating class consisted of only one person, a Science student; the Bachelor of Science degree was not introduced until 1912). Originally the Bachelor of Arts program was designed to take three years; a fourth year, however, was added in 1900 (to compensate for the lack of grade 12 in most rural high schools); the five-year Honours degree in Arts was introduced in 1923.

During the 27 year period from 1877 to 1904 the University of Manitoba did not offer any instruction by academic staff appointed and paid directly by the university; the only instruction in Arts and Science subjects available during that period was that provided by the three founding colleges (St. Boniface College, St. John's College, and Manitoba College), plus Wesley College from 1888. When the colleges found it increasingly difficult to provide all the instruction needed in Science (especially at the upper level, which was required for entrance to Medicine), the university itself began to assist three of the colleges in teaching Science courses, first by providing space for lectures and laboratories (in rented rooms from 1890, and from 1901 in the first building owned by the university, the "Old Science Building" on Broadway), and then by providing (from 1900 to 1904) half the salary of the college Science teachers. In 1904, however, the university began the long process of acquiring a professorial staff of its own, with the hiring that year of six Science professors. Arts professors were first hired by the university in 1910, and by 1914 (when the decision was made to offer instruction also at the first and second year levels, and not only at the third and fourth year levels) the departments of English, History, Political Economy, French, German and Classics had all been established, with the departments of Philosophy and Psychology being added in 1920. The remaining Arts departments were established later: Slavic Studies in 1949, Judaic Studies in 1950, Geography and Icelandic in 1951, Anthropology and Sociology in 1962, Religion in 1968, Native Studies in 1974, and Linguistics in 1987.

Prior to 1931, all instruction provided by the Faculty of Arts and Science (which was established in 1921 as a separate faculty from Medicine and from Engineering and Architecture) was offered at the Broadway site in downtown Winnipeg, where the offices for faculty members were also located. But with the completion of the Arts Building (now known as the Tier Building) in 1931, and the Science Building (now called the Buller Building) in 1932, senior division courses in Arts and Science were transferred to the present Fort Garry Campus, with junior division courses continuing to be offered at the Broadway site until they were transferred to the Fort Garry Campus in 1950. Two of the Arts and Science colleges, St. John's and St. Paul's (the latter having affiliated with the university in 1931), moved to their present locations in 1958, becoming Member Colleges in 1968. (St. Boniface College remained at its original site, and retains its Affiliated College status.) The Isbister Building was completed in 1960, University College (a Constituent College) in 1964, the Fletcher Argue Building in 1967, and the Duff Roblin Building in 1969.

Faculty of Arts courses are also taught at two additional colleges with a less close relationship with the university: St. Andrew's College (which went from Associated to Affiliated College status in 1981), Canadian Mennonite Bible College (an approved teaching centre from 1963 to 2000 when it became the Canadian Mennonite University), William and Catherine Booth College (an approved teaching centre since 1992). In 1988, the Prairie Theatre Exchange school was granted approval as a teaching centre of the Uni-

versity of Manitoba in connection with the Theatre Studies program of the Department of English, Film, and Theatre.

When grade 12 was adopted as the minimum requirement for entrance to the university in 1964, the General degree program was reduced to three years, and the Honours degree program was reduced to four years. In 1967, the major and minor system replaced the sequence system in the General degree program, and letter grades replaced numerical grades. A third undergraduate degree program, a four-year program leading to a B.A. Advanced, was introduced in 1980.

SECTION 2: Students' Code of Responsibilities

2.1 A Community of Scholars

The Faculty of Arts at the University of Manitoba defines itself as a community of scholars, all citizens of which must commit themselves to the advancement of learning, the dissemination of knowledge, and the well-being of all its members. Essential to these goals is each individual's commitment to the following values:

The affirmation of the dignity, worth, and equality of all citizens in the community;

The importance of reasoned debate and inquiry in all academic pursuits;

The practise of ethical conduct and personal integrity in all aspects of academic life.

Students who enrol in the Faculty of Arts voluntarily choose to join this community of scholars, and in doing so they accept the responsibilities as well as the benefits of living within it.

The Faculty of Arts offers its students remarkable opportunities for the acquisition of knowledge, the development of skills, and the free exchange of ideas that will shape their future lives. The scholarly community also provides a forum for extra-curricular activities, personal growth and social relationships that are equally important to one's sense of fulfilment. This should be an exciting process of discovering new goals, new points of view, and, indeed, a new and better sense of one's ideals and potential. But it is also a process of coming to recognize the value and special nature of the academic community itself.

The dynamic freedom of student life in the Faculty of Arts carries a special obligation that each individual act in such a way as to promote the well-being of other members — to accept willingly the categorical imperative of behaving in such a way that, if everyone else did the same, the good of all would prevail. This is a matter of accepting the differences of others, respecting the rights of others, and not abusing the resources that the faculty and the university put at your disposal. It is also a matter of acting honourably in all personal and academic relationships, and not tolerating through diffidence or neglect any violations of such obligations on the part of others. Our common commitment as citizens of the scholarly community will then work to enhance every individual member's experience and likelihood of success. Only with such a commitment from everyone can the Faculty of Arts fulfil its mission at the core of a public institution charged with educating the leaders of tomorrow's society. And only with such a commitment can we make wise use of the public funds for which we are accountable.

2.2 Rights and Responsibilities

As a student in the Faculty of Arts you are entitled to the use of all appropriate resources (human and other) for the successful completion of your studies. But you are also responsible for the use of those resources in a manner that is honest, fair and equitable. For example, when you enrol in a course you implicitly accept the terms of a contract whereby the professor is committed to teaching to the best of his/her ability, while you and the other students are committed to learning to the best of yours. Repeated absences, or the neglect of reading or writing assignments, are not just matters of individual concern; because they undermine the effectiveness of discussion for others as well, they are a failure to honour the academic and social contract that is implicitly a part of your membership in this community. Similarly, borrowing a book from the library is a direct commitment to honour the rules and regulations governing the circulation of such material. To damage a library book by writing in it, highlighting, or worse, is not just an act of individual vandalism; it is the wilful partial destruction of a resource that other students (and even other generations of students) have

the right and the need to consult. It is to forget, in other words, that public property is not no one's property; it is everyone's property.

Similar obligations to ethical conduct are an inherent part of all the academic work you do as requirements of your program. Participation in the free exchange of ideas, upon which the scholarly community depends, obligates all members of that community to complete honesty and to adequate documentation of their intellectual debts. Plagiarism, the representing of someone else's words or ideas as your own, or any other form of academic dishonesty such as cheating, is a betrayal not just of individual honour, but of the whole basis of civilized discourse upon which all other members of the community depend.

The Manitoba Code of Human Rights guarantees everyone the right to be free of discrimination on the basis of gender or sexual orientation, age, ancestry, religion, family status, physical or mental handicap, and political beliefs. The rights and responsibilities of students thus go well beyond the classroom, library, or computer facility. Every student in the Faculty of Arts is at all times entitled to pursue his/her activities and program of study free of any social discrimination, harassment, exploitation or abuse of power on the part of others, staff or students. Consequently, every student also has a reciprocal obligation to act in a similarly ethical fashion toward all other members of the community. In order that we all be fully empowered to take advantage of the pursuit of knowledge, the development of skills and the special opportunities for personal growth offered by the faculty, there must be on everyone's part a commitment to avoid irresponsible behaviour that damages the academic potential or self-esteem of others.

2.3 Rules and Regulations

It is the intention of the Faculty of Arts to discourage any conduct that is detrimental to the welfare of the scholarly community and its individual members. In this *Undergraduate Calendar* there are many regulations governing the expectations and standards of academic work in the faculty, and there are mechanisms of appeal at the department and faculty level for those who feel that the application of these regulations has been unfair or unjust. There are also rules and regulations governing the use of university resources and facilities, and others governing the social conduct of members of the community — for example, a policy on sexual harassment and a policy banning weapons from campus. Any violations of these rules and regulations should be reported to the appropriate administrative agency or authority (e.g., the director of Libraries, the sexual harassment investigation officer or the Security Services). It must be remembered, too, that all federal, provincial and municipal laws (regarding, for example, violence, alcohol, and drugs) are enforced on campus.

There are, however, some kinds of behaviour that fall between these academic and legal concerns, which are nevertheless inappropriate in the context of an academic community. Any disruptive action or physically or verbally aggressive behaviour that serves to threaten or intimidate another member of the community (staff or student) should be immediately reported to the relevant head of department or dean. Persons who are found to have violated the rights of other individuals, or to have subverted the welfare of the academic community, will face disciplinary action, which may include expulsion from the faculty. It is important to recognize, though, that such discipline is always less effective than a common commitment to respect the rights of others.

2.4 Conclusion

The foregoing statement of responsibilities applies to all student members of the Faculty of Arts. Faculty members and support staff are governed by a number of university, Senate and faculty policies that set out similar standards of ethical and professional conduct. This code is meant to give the students in the Faculty of Arts a sense of the relation that exists between their rights and their responsibilities and how these rights and responsibilities in turn sustain the welfare of the whole academic community.

SECTION 3: Admission to the Faculty of Arts

3.1 Degrees Offered

The Faculty of Arts offers three programs leading to a Bachelor of Arts degree:

1) A three-year (90 credit hours) program leading to a B.A (General).

2) A four-year (120 credit hours) program leading to a B.A. (Advanced).

3) A four-year (ranges from 108 to 120 credit hours) program leading to a B.A. (Honours).

There is no time limit for the completion of any of the above degree programs.

Admission Requirements

The following is a summary of the admission requirements. All admission requirements, as well as application deadline dates and forms, are included in an application information bulletin that is available from the Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website.

Completion of a minimum of 24 credit hours of university level courses is required. Depending on the academic performance on the courses acceptable for credit, students may be admitted to or transit into the Faculty in good standing or on academic warning.

Other requirements for all degree programs

The specific requirements for the General, Advanced and Honours degree programs are given in Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Each department and program outlines its entry and requirements in Section 8: Departments in, and Programs and Courses Offered by, the Faculty of Arts.

3.2 Admission to University 1

Most students newly admitted from high school and those who have completed less than 24 credit hours at another post secondary institution complete the first year of their degree program in University 1. In University 1 students will select courses from a wide variety of offerings in Arts, Science and other faculties and schools. After completion of a minimum number of credit hours taken in University 1, students may apply for admission to another faculty or school, or transit to Arts or Science for further study. "Transiting" means declaration of registration in the Faculty of Arts or Faculty of Science on or before the first registration after University 1. For information about University 1, see the chapter on University 1 in this *Calendar*.

The curriculum of University 1 may be completed on a full-time or part-time basis, and consists of 30 credit hours: six hours from courses offered by the Faculty of Arts; six hours of courses offered by the Faculty of Science; six hours of courses offered by either Arts or Science or Clayton H. Riddell Faculty of Environment, Earth, and Resources; and 12 hours from any faculty offering courses to University 1 students, including Arts and Science. Students will not be permitted to remain in University 1 indefinitely but, after completing 30 credit hours or more, and have a minimum cumulative grade point average of 2.00, must exit from University 1 to a faculty or school.

As of May, 2005 students are academically assessed in University 1. Once a student transits to Arts, they are subject to the Faculty of Arts performance requirements as set out under Section 4.1.3. University 1 students will be advised of their status as their program progresses.

3.3 Admission from University 1

University 1 students in Good Standing (2.00 cumulative grade point average) may transit to the Faculty of Arts or Science subject to the following conditions:

- Students in good standing who have completed at least 24 credit hours may choose to transit to the Faculty of Arts or Science.
- Students in good standing who have completed 30 credit hours or more of courses must choose to transit to Arts or Science, if not admitted to another faculty or school, prior to the next regular term of registration.
- Students who have completed 24 credit hours or more and who have not achieved a minimum cumulative grade point average of 2.00 are not admissible. These students may be eligible for special consideration and therefore should contact the Faculty of Arts for further information on transit.
- Students who have exceeded 30 credit hours of "F" grades or have more than a combined 42 credit hours of "F" and "D" grades are not admissible. Students may contact the Faculty of Arts for further information and advice.

3.4 Admission as a Transfer Student

Students transferring to the Faculty of Arts from another faculty or school at the University of Manitoba are called "internal transfers." Students transferring to the Faculty of Arts from another university or college are called "external transfers."

Transfer students must apply for admission to the Faculty of Arts at the Admissions Office by the application deadline date.

For the University of Manitoba's general policy on external transfer students and advance standing, see the chapter on Admission to the University of Manitoba in this Calendar.

Students who apply to transfer to the Faculty of Arts must have completed no fewer than 24 credit hours of university level coursework and must have achieved a minimum grade point average of 2.00. Students who have completed 24 credit hours or more and who have not achieved at least a 2.00 grade point average are not admissible. Students may contact the Faculty of Arts for information and advice. Students who have exceeded the maximum number of "F" and "D" grades permitted on courses acceptable for credit in Arts (see Section 5.10) are not admissible.

Anyone who has been placed on academic suspension by another faculty, school, or external institution will not be admissible if less than one year has elapsed since he/she had been placed on suspension. The waiting period will be increased to two years if the student has been placed on suspension more than once in consecutive years. For information regarding transfer credit see Sections 5.2.1 and 5.2.2.

3.5 Admission as a Student Seeking a Second Degree

A student who holds a first undergraduate degree from a recognized university program may apply for admission to pursue a second undergraduate degree. For information regarding possible transfer credit see Section 5.14.

3.6 Admission as a Visiting Student

A "visiting" student is one who is pursuing a degree at another institution and whose basis of admission is a Letter of Permission from his/her home institution granting permission to register at the University of Manitoba. Previously admitted visiting students can register in a subsequent term without applying for admission, provided they have a Letter of Permission and have not changed their home institution. Certain restrictions may be placed on the kind and number of courses in which they will be allowed to register.

3.7 Admission as a Special Student

A student who holds a first degree and who wishes to take courses out of interest may apply for admission as a "special" student.

SECTION 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

For academic regulations related to graduate degrees, see the *Graduate Calendar* of the Faculty of Graduate Studies. For academic regulations pertaining to the following degrees, *Baccalauréat ès Arts (Latin-Philosophie)*, *Baccalauréat ès Arts (Spécialisé en français)*, and *Baccalauréat ès Arts (Spécialisé en traduction)*, which are also offered under the Faculty of Arts but with instruction available only at Collège universitaire de Saint-Boniface, see the *Annuaire* of the Collège universitaire de Saint-Boniface.

Students are encouraged, prior to reading the faculty regulations which follow, to review the chapter, General Academic Regulations and Requirements, in this *Calendar*.

It is **highly recommended** that all students entering the Faculty of Arts to pursue a degree complete six credit hours in each of five different subject fields within the first 30 credit hours, and that, if possible, they include among those courses the subject fields in which they will probably specialize because future choices may be limited by the initial choice of courses a student makes. Also, students must meet a subject field requirement to qualify for entrance to both the Advanced and Honours programs (see Section 4.2 and 4.3).

Combinations of courses for the Major, Minor and Honours programs, other than those listed, may be permitted with written consent of the department head or program coordinator and consent from the General Office, Faculty of Arts. Similarly, Honours courses may be taken by students in the General or Advanced Major programs with the written consent of the department head or program coordinator.

4.1 General (or Three-Year Major) Degree Program

4.1.1 Its General Purpose

This program is aimed at training students to evaluate information, reach conclusions, and act on these conclusions. The training is intended to result in flexibility and objectivity in problem-solving, sensitivity to the social and physical environment, breadth of learning, and an appreciation of our cultural, political, and economic milieu.

4.1.2 Entrance into the B.A. General Degree Program

1) At the point of admission or transfer to Arts all students proceeding to an undergraduate degree are automatically in the General degree program. Subsequently, students may apply in the General Office for admission to either the Advanced degree program or the Honours degree program.

2) All students who have completed 30 credit hours of coursework are encouraged to declare a Major and a Minor. Once the Major(s) or Minor is declared it can be changed to a different subject field at some later registration. Effective September 2008, students may also declare a double Major in lieu of a Minor. Students who want to declare a double Major must complete a double Major declaration form available in the Faculty of Arts General Office or on the Faculty of Arts website. Students should note that for entry into most Majors/Minors, the faculty requirement is that the student must have a grade of "C" or better in the prerequisite course(s).

For entry into a Major(s)/Minor requiring courses from more than one department, the faculty requirement is that the student must have an average of "C" or better in all courses which are eligible to count towards the Major(s).

For detailed information regarding entry and specific course requirements for Majors and Minors, see the specific listing for the relevant department in Sections 8 and 9.

Students who have not declared a Major or Minor by the time 60 credit hours of coursework have been completed, will not be able to continue registration until a Major/Minor is declared.

4.1.3 Requirements for Continuing in the B.A. General Degree Program

1) By the time students complete 60 credit hours, they must have six credit hours in five different subject fields.

2) Students admitted to the Faculty of Arts for the 1997-98 Regular Session and thereafter must by the time they have completed 60 credit hours have successfully completed or be registered for at least three credit hours in a course with significant content in written English and at least three credit hours in a course in mathematics. (See the Chapter General Academic Regulations and Requirements, Appendix A: List of Approved Written English and Mathematics Courses, or search Aurora Student for the course attributes "Written English Requirement" or "Mathematics Requirement.")

3) Students must meet the minimum performance level as outlined in Section 5.10.

4.1.4 Ten Faculty Requirements for Graduating with a B.A. General Degree

1) A student must successfully complete 90 credit hours of courses acceptable for credit in the Faculty of Arts (see Section 5.2) with a minimum Grade Point Average of 2.00 (i.e. "C" or better) on these 90 credit hours.

The 90 credit hours of passed coursework must include the remaining nine faculty requirements.

2) There must be at least six credit hours from a subject field designated Humanities, at least six credit hours from a subject field designated Social Science, and at least six credit hours from a subject field designated Science (see Section 5.1).

3) There must be at least six credit hours completed in each of five different subject fields (as listed in Section 5.1). In addition, a subject field may also

satisfy the requirement for a Humanity, or Social Science, or Science and at the same time satisfy the Mathematics or Written English requirement.

4) Major: There must be 30 credit hours which constitute a **Major** in one of the subject fields approved by the Faculty of Arts (see Section 5.1). The student must also have a Cumulative Grade Point Average of 2.00 (i.e. "C") or better in courses where a final grade is recorded and that are used toward the Major including only the last grade of any course that has been repeated and excluding any failed course(s). A student who declares only one Major must also complete a Minor. A student who declares two Majors will not be required or allowed to complete a Minor, but must complete five full course equivalents as specified by the Major department (i.e. 30 hours of credit in each subject field). *Students who have questions about a Major in a particular subject are strongly urged to consult an instructor in the appropriate department.*

Students who declare and complete a Major in Global Political Economy **will not** be required nor allowed to complete a separate field for a Minor for purposes of satisfying the degree requirements.

5) Minor: There must be 18 credit hours which are in a subject field that is different from that of the declared Major, and which constitute a **Minor** in one of the subject fields approved by the Faculty of Arts (see Section 5.1). A student who declares only one Major must also complete a Minor. A student who declares two Majors will not be required nor allowed to complete a Minor. A Minor may be declared once the prerequisite has been satisfied. A student who has 18 credit hours in more than one subject field can declare only one of them as a Minor (that is, it is not possible to declare a "double Minor"). No course can be used to satisfy both the Major and the Minor requirement.

6) There must be at least 30 credit hours which are taken and successfully completed in subject fields outside the Major(s) and Minor subject fields.

7) Except for six special cases, a student's Major and Minor cannot be from the same department. (For details on these six exceptions, see the department listings in Section 8 for Classics; English, Film, and Theatre; French, Spanish and Italian; German and Slavic Studies; Native Studies; and Near Eastern and Judaic Studies.)

8) There must be at least 60 credit hours that have been taught by the Faculty of Arts (may include up to 24 credit hours from the Department of Mathematics, Marcel A. Desautels Faculty of Music List A or Art History courses considered as Humanities, see Section 5.1.1), or which have been accepted on transfer as equivalent to courses taught by the Faculty of Arts.

9) There must be at least 30 credit hours numbered at or above the 2000 level.

10) Residency Requirement: A student in the B.A. General degree program must complete University of Manitoba residency requirements (see Section 5.3 for details).

4.2 Advanced (or Four-Year Major) Degree Program

4.2.1 Its General Purpose

This program is intended primarily to serve students who desire a general education along with a reasonable degree of specialization in one area of study through the Major.

4.2.2 Entrance to the B.A. Advanced Degree Program

1) To enter an Advanced program, a student must complete an application form which is available in the Faculty of Arts General Office and have it approved by a student advisor.

Once admitted to the Faculty of Arts it is possible to enter this program at any point up to one month prior to graduation provided the student has successfully completed six credit hours in each of four different subject fields.

2) All students are *required, upon entering* the Advanced degree program, *to declare a Major and Minor*. Effective September 2008, students may also declare a double Advanced Major in lieu of a Minor. Students who want to declare a double Advanced Major must complete a double Advanced Major declaration form available in the Faculty of Arts General Office or on the Faculty of Arts website. Students should note that for entry into a Major(s) requiring courses from only one department, the faculty requirement is that the student must have a grade of "C" or better in the prerequisite course(s).

For entry into a Major(s) requiring courses from more than one department, the faculty requirement is that the student must have an average of "C" or better in all courses which are eligible to count towards the Major.

For additional information regarding entrance into Majors (such as which courses are eligible for counting as fulfilling the Major) see the specific listing for the relevant department in Sections 8 and 9. Students with questions about an Advanced Major in a particular subject should consult an instructor in the appropriate department.

3) For entry to the Minor, the prerequisite is a grade of "C" or better in the prerequisite course(s).

4.2.3 Requirements for Continuing in the B.A. Advanced Degree Program

1) Students admitted to the Faculty of Arts for the 1997-98 Regular Session and thereafter must by the time they have completed 60 credit hours have successfully completed or be registered for at least three credit hours in a course with significant content in written English and at least three credit hours in a course in mathematics. (See the Chapter General Academic Regulations and Requirements, Appendix A: List of Approved Written English and Mathematics Courses, or search Aurora Student for the course attributes "Written English Requirement" or "Mathematics Requirement.")

2) When students register again after completing 90 credit hours, they will be expected to indicate when they plan to graduate. Students should have completed all requirements for the General degree by this point.

3) Students must meet the minimum performance level as outlined in Section 5.10.

4.2.4 Ten Faculty Requirements for Graduating with a B.A. Advanced Degree

1) A student must successfully complete 120 credit hours from among the courses acceptable for credit in the Faculty of Arts (see Section 5.2), with a passing grade ("D" or better) in each, and a minimum Grade Point Average of 2.00 for these 120 credit hours.

The 120 credit hours of passed coursework must include the remaining nine faculty requirements.

2) There must be at least six credit hours in a Humanities subject field, at least six credit hours in a Social Science subject field, and at least six credit hours in a Science subject field (see Section 5.1).

3) There must be at least six credit hours completed in each of five different subject fields (as listed in Section 5.1). In addition, a subject field may also satisfy the requirement for a Humanity, or Social Science, or Science and at the same time satisfy the Mathematics or Written English requirement.

4) Major: There must be at least 48 credit hours which constitute a **Major** in one of the subject fields approved by the Faculty of Arts (see Section 5.1). The student must have a Grade Point Average of 2.00 (i.e. "C") or better in courses where a final grade is recorded that are used toward the Major including only the last grade of any course that has been repeated and excluding any failed course(s). A student who declares only one Advanced Major must also complete a Minor. A student who declares two Advanced Majors will not be required nor allowed to complete a Minor, but must complete the second Advanced Major in accordance with the requirements as specified by the Major department.

Note: Not every department offers an Advanced Major. See the departmental listings in Sections 8 and 9 for information.

Students with an Advanced Major in Global Political Economy **will not** be required nor allowed to complete a separate field for a Minor for purposes of satisfying the degree requirements.

5) Minor: There must be 18 credit hours in a field that is different from the above Advanced Major, and which constitute a **Minor** in one of the subject fields approved by the Faculty of Arts (see Section 5.1). A student who declares only one Advanced Major must also complete a Minor. A student who declares two Advanced Majors will not be required nor allowed to complete a Minor. No course can be used to satisfy both the Advanced Major and the Minor requirement. A student having 18 credit hours in more than one subject field can declare only one of them as his/her Minor.

6) A student who declares a single Advanced Major with a Minor must have at least 42 credit hours in subjects other than those used towards the Advanced Major and Minor subject fields. Similarly, a student who de-

clares two Advanced Majors must have at least 42 credit hours in subjects other than those used towards their two Advanced Major subject fields.

7) Except for six special cases, a student's Advanced Major and Minor cannot be from the same department. (For details on these six exceptions, see the departmental listings, in Section 8, for Classics; English, Film and Theatre; French, Spanish and Italian; German and Slavic Studies; Native Studies; and Near Eastern and Judaic Studies.)

8) There must be at least 81 credit hours that have been taught by the Faculty of Arts (may include up to 36 credit hours from the Department of Mathematics, Marcel A. Desautels Faculty of Music List A or Art History courses considered as Humanities, see Section 5.1.1), or which have been accepted on transfer as equivalent to courses taught by the Faculty of Arts.

9) There must be at least 42 credit hours numbered at or above the 2000 level.

10) Residency Requirement: A student in the B.A. Advanced degree program must complete University of Manitoba residency requirements (see Section 5.3 for details).

4.3 Honours Degree Program

Regulations applicable to students admitted to an Honours Program (Full-time or Part-time) in September 1997 and thereafter.

4.3.1 Its General Purpose

This program is designed to provide a high degree of specialization in a subject field. The entrance requirements and evaluation of performance are at a higher level than the General or Advanced programs. The Honours program is the preferred program for students seeking entrance to graduate study.

4.3.2 Entrance to the B.A. Honours Degree Program

To enter an Honours program, a student must complete an application form which is available in the Faculty of Arts General Office. Students must have successfully completed six credit hours in each of four different subject fields (see Section 5.1), with a minimum Grade Point Average of 3.0 (3.25 for entry to Psychology) on all courses including failed and repeated courses. In addition, students are to have a Grade Point Average of 3.0 (3.25 for entry to Psychology) or better in all course(s) in the intended Honours subject field(s) including failed and repeated courses. Students applying for Honours History must have a grade of "B" or higher in all History courses.

4.3.3 Requirements for Continuing in the B.A. Honours Degree Program

1) Prior to each registration, Honours students must have their programs approved by the department, and then by the Faculty of Arts General Office, and cannot make any subsequent changes without receiving prior permission from their department and the faculty general office.

2) Students admitted to the Faculty of Arts for the 1997-98 Regular Session and thereafter must by the time they have completed 60 credit hours have successfully completed or be registered for at least three credit hours in a course with significant content in written English and at least three credit hours in a course in mathematics. (See the Chapter General Academic Regulations and Requirements, Appendix A: List of Approved Written English and Mathematics Courses, or search Aurora Student for the course attributes "Written English Requirement" or "Mathematics Requirement.")

3) To continue in an Honours program, the student must maintain a Degree Grade Point Average of 3.0 (3.25 for Psychology) at each point of assessment on all courses where a final grade is recorded (as well as meet any additional departmental requirements there may be). In order to continue in Honours History students must maintain a "B" grade or higher in each History course.

Students who fail to maintain the required minimum Degree Grade Point Average are required to withdraw from the Honours program. They will be automatically placed in the General degree program and will have the fol-

lowing academic assessment permanently recorded on their transcript: "Required to Withdraw from the Honours Program." These students may be eligible to apply to the Advanced degree program.

4.3.4 Four Faculty Requirements for Graduating with a B.A. Honours Degree

It should be noted that not every department has an Honours program. For specific information on available single and double Honours, please consult the specific listing for the relevant department in Section 8.

Note: Students in an Honours program who satisfy the requirements for a Minor (in accordance with the Minor requirements listed under the B.A. General degree; Section 4.1.4, point 5 - Minor) may request to have the Minor recorded on their transcript. These students must come to the Faculty of Arts General Office to formally declare their intention to have their Minor recorded on their transcript.

1) The number of credit hours which a student must successfully complete in order to receive an Honours degree ranges from 108 to 120, depending on the specific requirements of the individual department. Information on the specific course requirements for the individual departments will be found in Section 8.

2) Residency Requirement: A student in the B.A. Honours degree program must complete University of Manitoba residency requirements (see Section 5.3 for details).

3) Included among the courses presented for graduation there is to be at least six credit hours completed in five different subject fields (as listed in Section 5.1).

4) Among the courses presented for graduation there must be at least six credit hours in a Humanities subject field, at least six credit hours in a Social Science subject field, and at least six credit hours in a Science subject field (on subject fields see Section 5.1).

4.4 Application to Graduate with a B.A. Degree

In order to officially receive a degree in any of the three programs leading to a B.A., students must indicate their intention to graduate by the relevant deadline date listed below. This process applies to students in each of the following three categories.

Category 1: Those students currently registered in the Faculty of Arts in either the B.A. General degree or the B.A. Advanced degree program must indicate their intention to graduate using Aurora Student.

Those students currently registered in the Faculty of Arts in the B.A. Honours degree program must indicate their intention to graduate at the point of registration for their last set of courses when they complete the Registration Worksheet.

Category 2: Those students currently registered in the Faculty of Arts in either the B.A. Advanced or a B.A. Honours degree program who decide to graduate with a B.A. General degree, must submit a request in writing to graduate to the General Office, Faculty of Arts. For graduation in May, the request must be received by April 30. For graduation in October, the request must be received by September 30. For graduation in February, the request must be received by January 30.

Category 3: Those students previously admitted to and registered in the Faculty of Arts who have completed **all** of the requirements for any one of the three degree programs leading to a B.A. while registered in the Faculty of Arts, but who are currently registered in another Faculty or School at the University of Manitoba (excluding Division of Extended Education) may submit a request in writing to graduate to the General Office, Faculty of Arts.

Deadline Dates to declare expected Graduation Date by Aurora Student:

May Graduation: end of revision period for Winter Term course changes

October Graduation: August 1

February Graduation: end of revision period for Fall Term course changes

4.5 Bachelor of Arts Degree Program Requirements Chart

3 YEAR GENERAL DEGREE PROGRAM (90 Credit Hours)	4 YEAR ADVANCED DEGREE PROGRAM (120 Credit Hours)	4 YEAR HONOURS DEGREE PROGRAM (108-120 Credit Hours)
REQUIREMENT 1: Major(s) or Honours (See Section 8 for Major and Honours requirements)		
- Minimum 30 credit hours - Grade Point Average of 2.00 on all courses taken for purposes of satisfying the Major	- Minimum 48 credit hours (some departments require more) - Grade Point Average of 2.00 on all courses taken for purposes of satisfying the Major	- Varies by Honours subject field(s)
REQUIREMENT 2: Minor (See Section 8 for Minor requirements)		
- Minimum 18 credit hours; except when Major is Global Political Economy	- Minimum 18 credit hours; except when Major is Global Political Economy	- No declared Minor (see note in Section 4.3.4)
REQUIREMENT 3: Options		
- Minimum 30 credit hours outside student's chosen Major(s) and Minor - Minimum 12 credit hours in area of choice	- Minimum 42 credit hours outside student's chosen Major(s) and Minor - Minimum 12 credit hours in area of choice	- Ancilliary Options: Minimum 24 to 30 credit hours over years 2H, 3H, and 4H
Within the above 3 requirements, students must also satisfy the following requirements. Note: a course may satisfy more than one requirement.		
REQUIREMENT 4: Written English and Math		
- Written English and Math Requirement (minimum 3 credit hours in each)	- Written English and Math Requirement (minimum 3 credit hours in each)	- Written English and Math Requirement (minimum 3 credit hours in each)
REQUIREMENT 5: Humanities Requirement (See Section 5)		
- 6 credit hours from subjects identified as Humanities	- 6 credit hours from subjects identified as Humanities	- 6 credit hours from subjects identified as Humanities
REQUIREMENT 6: Social Science Requirement (See Section 5)		
- 6 credit hours from subjects identified as Social Sciences	- 6 credit hours from subjects identified as Social Sciences	- 6 credit hours from subjects identified as Social Sciences
REQUIREMENT 7: Sciences Requirement (See Section 5)		
- 6 credit hours from course subjects taught by the Faculty of Science	- 6 credit hours from course subjects taught by the Faculty of Science	- 6 credit hours from course subjects taught by the Faculty of Science
REQUIREMENT 8: General Requirements		
- 60 credit hours of courses must be taken from courses taught by the Faculty of Arts (may include 24 credit hours of Mathematics, Music or Art History courses) - 30 credit hours must be at the 2000 level or higher - 6 credit hours (c.h.) in each of 5 subject areas (e.g., 6 c.h. Psychology, 6 c.h. Economics, 6 c.h. Computer Science, 6 c.h. French, 6 c.h. Women's and Gender Studies)	- 81 credit hours of courses must be taken from courses taught by the Faculty of Arts (may include 36 credit hours of Mathematics, Music or Art History courses) - 42 credit hours must be at the 2000 level or higher - 6 credit hours (c.h.) in each of 5 subject areas (e.g., 6 c.h. Economics, 6 c.h. Computer Science, 6 c.h. French, 6 c.h. Women's and Gender Studies)
REQUIREMENT 9: Residency Requirements		
- Degree: 48 credit hours or the final 30 credit hours must be taken at the University of Manitoba - Major(s) (effective September 2009): 18 credit hours at the University of Manitoba	- Degree: 60 credit hours must be taken at the University of Manitoba - Major(s) (effective September 2009): 30 credit hours at the University of Manitoba on Major requiring 48 to 57 credit hours; or 36 credit hours at the University of Manitoba on Major requiring more than 57 credit hours	- Degree: Must satisfy a residency requirement as specified in Section 5.3 - Honours Subject(s) (effective September 2009): 33 credit hours at the University of Manitoba on single Honours requiring 54 to 69 credit hours; or 39 credit hours at the University of Manitoba on single Honours requiring more than 69 credit hours; or 24 credit hours at the University of Manitoba on double or joint Honours requiring 42 to 45 credit hours; or 21 credit hours at the University of Manitoba on double or joint Honours requiring less than 42 credit hours; or 33 credit hours at the University of Manitoba on double or joint Honours requiring more than 45 credit hours
REQUIREMENT 10: Graduating Grade Point Average (GPA)		
- 2.00 Grade Point Average on 90 credit hours of passed coursework offered for degree credit	- 2.00 Grade Point Average on 120 credit hours of passed coursework offered for degree credit	- 3.00 Grade Point Average on total passed credit hours offered for degree credit

Section 5: Additional Faculty Regulations and Policies

5.1 Recognized Subject Fields

5.1.1 Five-subject Field Requirement and Humanity/Social Science/Science Requirement

Faculties and Schools offer a number of courses covering a variety of subjects. To satisfy the subject field requirement for any B.A. degree a student must complete 6 credit hours in each of 5 different course subjects. For example: 6 credit hours in Psychology plus 6 credit hours in German plus 6 credit hours in Mathematics plus 6 credit hours in Music plus 6 credit hours in Biology.

Each course subject in the Faculty of Arts has been further categorized as either a Humanity or Social Science. Courses offered by the Faculty of Science will satisfy the Science requirement. Therefore a course may satisfy both the subject field requirement as well as the requirement for the Humanity/Social Science/Science.

Listed below are the categories of Humanities, Social Sciences, Sciences and the course subjects that belong to each category.

Humanities

1) Course subjects taught by the Faculty of Arts that can be used towards the **Humanities** requirement: Asian Studies, Canadian Studies, Catholic Studies, Classical Studies, Drama, English (excluding ENGL 0930, ENGL 0940, ENGL 2000, ENGL 2001), Film Studies, French, German, Greek, History, Icelandic, Italian, Latin, Native Languages, Native Studies, Near Eastern and Judaic Studies, Philosophy, Polish, Religion, Russian, Spanish, Theatre, Ukrainian, and Yiddish. In addition the following courses may be used: Women's and Gender Studies WOMN 1530, WOMN 2530, WOMN 2570, WOMN 2600, WOMN 3570, WOMN 3600, WOMN 3610, WOMN 3620 and Others ARTS 1140, ARTS 1150, ARTS 2640 and ARTS 2650.

2) Course subjects offered by other units which can be used towards the **Humanities** requirement: Music (i.e. all courses listed for Advanced Major and Minor programs except ensemble courses) and History of Art (i.e. all courses listed with course prefix FAAH). (For details, see Section 9).

Social Sciences

3) Course subjects taught by the Faculty of Arts that can be used towards the **Social Science** requirement: Anthropology, Economics, Global Political Economy courses GPE 2700, GPE 4700, Labour Studies, Linguistics, Political Studies, Psychology, and Sociology. In addition the following courses may be used: Women's and Gender Studies WOMN 1540, WOMN 2500, WOMN 2510, WOMN 2550, WOMN 2560, WOMN 3510, WOMN 3550, WOMN 3560. Note: Geography courses completed prior to September 1, 2006 will be considered a Social Science.

Sciences

4) Course subjects taught by the Faculty of Science that can be used towards the **Science** requirement: Astronomy, Biology, Biological Sciences, Biotechnology, Botany, Chemistry, Computer Science, Forensic Science, Mathematics, Microbiology, Physics, Statistics, and Zoology. (For details, see the Faculty of Science chapter of this *Calendar*.) Note: Environmental Science and Geological Sciences courses completed prior to September 1, 2006 will be considered a Science.

5.1.2 Major, Minor, or Honours Programs

1) The Faculty of Arts offers various Majors, Minors and Honours programs. For a listing of the programs offered by the respective departments, please refer to the departmental entry in Section 8.

2) Major and Minor programs offered by other Faculties or Schools are listed in Section 9. These include a General Major, Advanced Major and Minor offered by the Department of Mathematics, a General Major and Minor in History of Art offered by the School of Art, and an Advanced Major and Minor offered by the Marcel A. Desautels Faculty of Music.

An Arts student may declare a Minor offered by any Faculty and School providing the Minor program consists of a minimum of 18 credit hours. For details on those Minor programs please refer to the relevant Faculty/School's chapter in this *Calendar*.

5.2 Courses Acceptable for Credit in the Faculty of Arts

In addition to all courses offered by the Faculty of Arts there are two other categories of courses acceptable for credit in the Faculty of Arts:

5.2.1 Courses Offered by Other Faculties or Schools at the University of Manitoba:

Effective September 2007, all degree credit courses offered by other Faculties or Schools at the University of Manitoba are acceptable for credit in Arts (**excludes Pass/Fail courses**) subject to the Faculty of Arts overall degree requirements.

If a student was registered in another faculty or school within the University of Manitoba prior to registering in the Faculty of Arts, all courses in which the student received a final grade will be treated in the same way as they would have been had they been taken by a student already registered in the Faculty of Arts. That is, all of these courses will count in determining eligibility for admission to Arts in accordance with Sections 3.3, 3.4 and 5.10 and they will all be taken into account when determining the student's Grade Point Averages in accordance with Sections 5.8 and 5.10. In addition, they will all count towards the minimum number of credit hours required for graduating, provided the student received a passing grade in each of them, and the courses did not conflict with some other graduation or continuing regulation (such as the Residency Requirement).

5.2.2 Courses Offered at Other Universities and Colleges:

Effective September 2007, all courses offered at other universities and colleges which are evaluated as equivalent to University of Manitoba courses (**excludes Pass/Fail courses**) will be used when determining eligibility for admission and transfer credit.

There are two groups of courses that are taken at other universities or colleges and which can be used for credit in the Faculty of Arts at the University of Manitoba, namely: a) those taken by students who are already registered in the Faculty of Arts at the University of Manitoba, and b) those taken by students prior to transferring to the Faculty of Arts at the University of Manitoba.

a) Students who are already registered in the Faculty of Arts at the University of Manitoba, and who wish to take courses at another university or college to count towards their University of Manitoba degree are required to obtain a Letter of Permission from The Registrar's Office prior to registering at that other institution; see the chapter, General Academic Regulations and Requirements. The Letter of Permission will not be given to a student who has not completed at least 24 hours of coursework at the University of Manitoba or who is on academic warning or academic suspension. Commencing September 1999 grades earned in courses at other universities are taken into account in the cumulative hours when determining the Grade Point Averages at the University of Manitoba. Grades earned at other universities will not be used in determining eligibility for awards (see Section 5.11 and 5.12 for details).

b) All completed courses that are deemed acceptable for credit in any degree program at the University of Manitoba (**excludes Pass/Fail courses**) which were taken by a student registered at another university or college prior to transferring to the Faculty of Arts, will be used when determining eligibility for admission and transfer credit. That is, all of these courses will count in determining admissibility, in accordance with Sections 3.3, 3.4 and 5.10.

As of September 1999 the applicable courses (credits and attempts) in both a) and b) are included on the University of Manitoba record, the external courses are counted as attempts and external grades are taken into account when determining the University of Manitoba Grade Point Average as well as count towards the maximum number of "F" and "D" grades permitted in an Arts degree (see Section 5.10). Grades earned at other universities will appear on the University of Manitoba transcript and will not be used in determining eligibility for awards (see Section 5.11 and 5.12 for details). Effective September 2006, there is no limit on attempts in any degree program.

All completed courses that are deemed acceptable for credit in any degree program at the University of Manitoba (**excludes Pass/Fail courses**), which were taken by a student at another university or college prior to transferring to the Faculty of Arts and are outside the ten-year period prior to admission and registration in the Faculty of Arts, will not be used for purposes of determining admissibility, advanced standing or transfer credit.

Students who wish to request a review or reassessment of transfer credit must do so within eight months of the initial determination of transfer of credit to the University of Manitoba.

5.3 Residency Requirement

As indicated in Section 4, each of the three undergraduate degree programs has a residency requirement which requires that a minimum number of credit hours must be taken at the University of Manitoba itself in order to qualify for the degree. Effective September 2009, students admitted to the Faculty of Arts will also be required to satisfy a residency requirement on the Major(s), Advanced Major(s) or Honours subject(s) in addition to the residency requirement on the degree.

1) B.A. General Degree

a) Degree: There are two ways in which the Residency Requirement for the B.A. General degree may be satisfied: either by successfully completing at the University of Manitoba no fewer than 48 credit hours of the required 90 credit hours (these 48 credit hours may be taken at various points in the student's career); or by successfully completing at the University of Manitoba itself no fewer than the last 30 credit hours of the required 90 credit hours.

b) Major: A minimum of 18 credit hours of the 30 credit hours required for the Major must be successfully completed at the University of Manitoba or through an approved University of Manitoba exchange program.

2) B.A. Advanced Degree

a) Degree: To receive the B.A. Advanced degree, the student must successfully complete at least 60 credit hours of the required 120 credit hours at the University of Manitoba.

b) Advanced Major: Students must successfully complete at the University of Manitoba or through an approved University of Manitoba exchange program the hours of coursework in their Advanced Major as noted below:

- In an Advanced Major requiring 48 to 57 credit hours, 30 credit hours must be completed at the University of Manitoba or through an approved University of Manitoba exchange program.
- In an Advanced Major requiring more than 57 credit hours, 36 credit hours must be completed at the University of Manitoba or through an approved University of Manitoba exchange program.

3) B.A. Honours Degree

a) Degree: In order to graduate with a B.A. Honours degree, students must take and successfully complete the hours of coursework offered by the University of Manitoba as noted below:

- In Honours programs requiring 108 credit hours, 48 credit hours must be from acceptable courses offered by the University of Manitoba;
- In Honours programs requiring 114 credit hours, 54 credit hours must be from acceptable courses offered by the University of Manitoba;
- In Honours programs requiring 120 credit hours, 60 credit hours must be from acceptable courses offered by the University of Manitoba.

b) Honours Subject(s): Students must successfully complete at the University of Manitoba or through an approved University of Manitoba exchange program the hours of coursework in their Honours subject(s) as noted below:

- In a single Honours subject requiring 54 to 69 credit hours, 33 credit hours must be completed in the Honours subject
- In a single Honours subject requiring more than 69 credit hours, 39 credit hours must be completed in the Honours subject.
- In a double or joint Honours subject requiring 42 to 45 credit hours in one Honours subject, 24 credit hours must be completed in that Honours subject.
- In a double or joint Honours subject requiring less than 42 credit hours in one Honours subject, 21 credit hours must be completed in that Honours subject.
- In a double or joint Honours subject requiring more than 45 credit hours in one Honours subject, 33 credit hours must be completed in that Honours subject.

c) Once admitted to an Honours program, students are expected to take all their courses at the University of Manitoba. For information on exceptions to this requirement, the student should consult the Faculty of Arts General Office.

Residency Requirement Collège universitaire de Saint-Boniface:

In order to satisfy the University of Manitoba, Faculty of Arts residency requirement, students who transfer from Collège universitaire de Saint-Boniface must complete the following minimum hours at the Fort Garry Campus.

1) In order to receive the B.A. (General) or (Advanced) degree, the student must successfully complete at least 30 credit hours at the Fort Garry campus.

2) In order to receive the B.A. (Honours) degree, the student must successfully complete the hours of coursework offered at the Fort Garry campus as noted below:

- In Honours programs requiring 108 credit hours, 24 credit hours of acceptable coursework must be completed at the Fort Garry campus.
- In Honours programs requiring 114 credit hours, 24 credit hours of acceptable coursework must be completed at the Fort Garry campus.
- In Honours programs requiring 120 credit hours, 30 credit hours of acceptable coursework must be completed at the Fort Garry campus.

5.4 Year-of-Study Equivalents

A student's progress towards a degree is measured in terms of credit hours passed rather than years of study completed. The following table may be used to determine the year equivalent.

Year Equivalent	Credit Hours Passed (General Degree)	Credit Hours Passed (Advanced/Honours Degree)
1	fewer than 24 credit hours	fewer than 24 credit hours
2	24 credit hours to fewer than 54 credit hours	24 credit hours to fewer than 54 credit hours
3	54 credit hours or more	54 credit hours to less than 84 credit hours
4	not applicable	84 credit hours or more

5.5 Maximum Number of Courses During a Term

Normally a student may attempt a maximum of 15 credit hours during a term. If, however, a student takes at least 15 credit hours in any term and has obtained a Degree Grade Point Average of 2.75 and is in good standing, he/she may apply at the General Office to be allowed to take 3 additional credit hours in any term.

5.6 Prerequisite, Corequisite, and Course Availability

Prerequisite: Minimum grades of "C" are required in all courses listed as prerequisites, except as otherwise noted in the course descriptions published in each department and program section of this chapter. If a course is prerequisite for a second course, the prerequisite must be met in order to continue in the second course.

Some prerequisite courses may be taken concurrently. In this instance, the course description will indicate that a specific course is a pre- or corequisite for the course in which you wish to register. If you have not previously taken the course, you may register for it in the same term.

Corequisite: Where a course identifies another course as a corequisite it means that you must enrol in both courses at the same time.

Course availability: All courses listed in this *Calendar* are not offered every year. The course(s) being offered for the current terms are available at umanitoba.ca

5.7 Challenge for Credit

Some departments in the Faculty of Arts offer courses by means of challenge for credit. Since the courses offered in this manner may vary from year to year, students interested in this method of attaining credit should consult the Challenge for Credit section in the Faculty of Arts Registration Information located at the end of this chapter. The Academic Schedule in the front of this *Calendar* contains the relevant registration deadline dates

appropriate to challenge for credit. Students on academic warning or academic suspension are not permitted to challenge courses for credit.

5.8 Repeating a Course

A student will normally be permitted to repeat a course only once. If a student wishes to repeat a course, he/she should be aware of the following:

- To repeat a course, a student must request permission to do so from the Faculty of Arts General Office.
- All completed courses will appear on the student's transcript and will be used to calculate the student's attempted hours. Courses that have been repeated will appear on the transcript but only the grade on the last attempt will be used in the calculation of the grade point average in the Major field, the cumulative grade point average and in the calculation of the grade point average required for the degree.
- Repeating a course will not remove the original grade from the transcript.
- All courses with "F" and "D" grades that are repeated count towards the limit of "F" and "D" grades permitted in an Arts degree as outlined in Section 5.10.

5.9 Statute of Limitations

Students who have not been registered at the University of Manitoba (or any other post-secondary institution) for a period of five years or longer immediately preceding an admission to Arts may submit a written appeal to the General Office to be allowed to start afresh a Faculty of Arts degree. If the appeal is granted, all courses listed on the University of Manitoba record will remain but all previous work will **not** count towards satisfying degree requirements nor affect the degree GPA calculation. The following notation will appear under the term of readmission:

"Having discontinued attendance at post-secondary institutions for a period of five years or more, this student has been permitted to start afresh on recommendation of the Dean. All previous credits have been forfeited."

5.10 Maximum Number of "F" and "D" Grades Permitted on Courses Acceptable for Credit in Arts

Each student in the Faculty of Arts will be placed on academic suspension if they have:

more than 30 credit hours of "F" grades, or

more than 42 credit hours of a combination of "F" and "D" grades.

Following the one year suspension, the student may apply to the General Office to return to the Faculty by selecting one of the following irreversible options:

(a) to continue with no possibility of further "F" or "D" grades. Any further "F" or "D" grades will result in academic suspension for two years. (Following the two year suspension, the student may apply to the General Office to return to start afresh.)

Or

(b) start afresh, with their previous work not counting towards satisfying degree requirements.

(In either case this does not mean that the previous coursework will be removed from the student history or transcript.)

5.11 Dean's Honour List and Graduating With Distinction or First Class Honours

Dean's Honour List

The notation "First Class Honours" will appear on both the parchment and the student's transcript.

5.12 University Gold Medal and Program Medals

Gold Medal

The Faculty of Arts will award the University Gold Medal to the student graduating with an Arts degree who:

1) has the highest Grade Point Average of all graduating students (with a minimum of 3.85) on all courses creditable in Arts attempted at the University of Manitoba over the last two Fall/Winter terms prior to graduation (with each Fall/Winter consisting of a minimum 24 hours of credit completed at the University of Manitoba) including any courses taken in the Summer Session between the last two Fall/Winter terms and

2) has a minimum Grade Point Average of 3.85 which is determined on the basis of all courses creditable in Arts attempted in completing the degree, including courses approved on transfer from other faculties/schools at the University of Manitoba.

Students who have up to 30 hours of external transfer credit (including failed courses) would be eligible providing they attain the minimum degree Grade Point Average of 3.85 on courses completed at the University of Manitoba which are acceptable for credit in Arts.

The Gold Medal winner is ineligible for Faculty of Arts program medals.

For specific details on the tie-breaking mechanism, contact the Faculty of Arts General Office.

Program Medals

The Faculty of Arts will award a Program Medal to the student graduating in each of the General, Advanced and Honours degree programs who:

1) has the highest Grade Point Average of all graduating students (with a minimum of 3.75) on all courses creditable in Arts attempted at the University of Manitoba over the last two Fall/Winter terms prior to graduation (with each session consisting of a minimum of 24 hours of credit completed at the University of Manitoba) including any courses taken in the Summer Session between the last two Fall/Winter terms and

2) has a minimum Grade Point Average of 3.75 which is determined on the basis of all courses creditable in Arts attempted in completing the degree,

including courses approved on transfer from other faculties/schools at the University of Manitoba.

Students who have up to 30 hours of external transfer credit (including failed courses) are eligible providing they attain the minimum Grade Point Average of 3.75 on courses completed at the University of Manitoba which are acceptable for credit in Arts.

The Gold Medal winner is ineligible for Faculty of Arts program medals.

For specific details on the tie-breaking mechanism, contact the Faculty of Arts General Office.

5.13 Evaluation of Undergraduate Student Coursework

A copy of the Faculty of Arts *Regulations for the Academic Evaluation of Student Coursework* is available to students for perusal on the front counter in the General Office or on the Faculty of Arts website. This booklet includes regulations concerning the method of student evaluation, final examinations and/or term tests, final grades, etc. It should in particular be noted that there are no Supplemental Examinations in the Faculty of Arts. For information on Incompletes, Deferred Examinations, Debarment, Academic Dishonesty, etc., see the chapter General Academic Regulations and Requirements in this *Calendar*.

5.14 Seeking a B.A. as a Second Degree

Once a Bachelor of Arts degree has been awarded by the University of Manitoba Senate, it cannot be revoked or "turned in" towards another degree.

Students who have completed a first degree may apply and be admitted to the Faculty of Arts seeking a second degree.

Effective the 2002-2003 Regular Session and thereafter, students who have graduated with a first degree from the University of Manitoba will be allowed to transfer up to 60 credit hours of coursework from their first degree toward a second degree program in the Faculty of Arts. Courses taken in a qualifying program will be considered part of the first degree. Courses extra to the first degree, excluding courses taken in a qualifying program or another awarded degree, diploma or certificate, may be transferred in addition to the 60 credit hours.

Students with first degrees awarded by external institutions will be eligible for up to 60 credit hours of transfer credit providing the degree was awarded and the courses were taken within the 10 year period prior to admission and registration in the Faculty of Arts (see Section 5.2.2).

Once admitted students must satisfy all relevant undergraduate degree requirements except for the Written English and Mathematics requirements.

Students may not be admitted to the Faculty of Arts or complete a Bachelor of Arts Degree while concurrently pursuing a degree in another Faculty or School.

No transfer credit will be awarded to students seeking a third, fourth, etc., degree.

Students cannot obtain a second degree in the same discipline at the same or lower level as any of their previously awarded degree(s).

Section 6: Student Responsibilities

Every effort is made to ensure that students in the Faculty of Arts have access to sound information and individual advice and guidance. Within this context and within the framework of faculty and department requirements indicated above, students are personally responsible for course selection and conforming to regulations regarding continuation in, and graduating from, the three undergraduate programs.

Students should take special care to ensure:

That each time they register that the courses they choose meet all requirements for graduation;

- That the courses they choose meet prerequisite conditions;
- That the courses they choose are not exclusions of, or the equivalent of, other courses already taken;
- The accuracy of their registration records, including all changes; and
- That they have noted and are following all deadlines and procedures published in the *Calendar* and elsewhere.

A copy of the Policy on Disclosure and Security of Student Academic Records is available for students to read in the Faculty of Arts General Office.

Section 7: Special Circumstances and Appeals of Matters Regarding Academic Regulations

Students should promptly consult the Faculty of Arts General Office when special circumstances warrant consideration of exceptions to regulations. In addition, the Academic Regulations Appeals Committee meets throughout the year to consider appeals from students who request special consideration with respect to rules and regulations governing their programs of study and qualifications for graduation.

Students who intend to appeal matters concerning regulations or decisions of the Faculty which may affect their registration must arrange to submit a written appeal including all pertinent documentation to the secretary no later than the dates listed below:

Deadline to Submit Appeal	ARAC Meeting Date
June 30	Third week of August
October 1	Third week of November
December 1	Third week of February
April 1	Third or fourth week of May

Deadlines falling on a Saturday or Sunday will be observed on the preceding Friday.

Meeting dates are subject to change by the chair.

Appeals should be addressed to: The Secretary of the Academic Regulations Appeals Committee, c/o General Office, Faculty of Arts. Special forms are available in the General Office of the faculty.

8.1.2 Program Information

Anthropology is a science that examines human issues from both cultural and biological perspectives. The most fundamental concern of this discipline is the survival of humanity and the conditions of continuity and change for all human life. The department offers courses in socio-cultural anthropology or ethnology, archaeology, language and culture, and biological or physical anthropology. While academic staff of the department have research interests that range from northern climates to the tropics and from Asia to the Americas, the department is also involved in research that sheds light on Manitoba and its people.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in both ANTH 1210 and ANTH 1220 (or ANTH 1520). For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate including the higher grade of repeated courses and excluding failed courses.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in both ANTH 1210 and ANTH 1220 (or ANTH 1520).

Introductory Courses

The general introductory courses (ANTH 1210, and ANTH 1220 or ANTH 1520) present the major ideas and findings of Anthropology. It is equally appropriate for those planning to take further courses in this field and for students from other departments or faculties.

Specializations

Anthropology courses are arranged into groups or areas of study as follows:

- A: Introductory Anthropology
- B: Cultural Anthropology
- C: Physical Anthropology
- D: Archaeology
- E: Applied Anthropology

8.2.2 Program Information

Asia is home to approximately 60 percent of the world's population. Asian nations have emerged as major economic powers while their populations are asserting their own cultural and historical identities. With this comes an expectation that Western nations will take an interest not only in the economic potential of the continent but also in its rich cultural heritage.

The Asian Studies Centre was established in 1990 to stimulate and organize teaching and research on Asia. Faculty attached to the centre offer instruction in the languages and culture of China, India and Japan. As well, specialists in other departments offer Asia-related courses that can be used for a Major or Minor in Asian Studies.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in both ASIA 1420 (HIST 1420) and ASIA 1430 (HIST 1430). For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

8.3.1 Program Information

This is an interdisciplinary program that offers a comprehensive and focused approach to the study of Canada. Students will examine Canadian politics, economics, society and culture within a national and international context. A knowledge of French is an asset but it is not required.

The "List of Approved Courses in Canadian Studies" below identifies courses that may be used toward partial fulfillment of the requirements for Canadian Studies. These courses are also identified on Aurora Student with the course attribute of "Canadian Studies Requirement."

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in six credit hours from the list of approved courses in Canadian Studies. For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate including the higher grade of repeated courses and excluding failed courses.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in a six credit hours from the list of approved courses in Canadian Studies.

Honours Program

For entry to the Honours Program, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

ASIA 3600 Japanese Popular Culture Cr.Hrs.3 (Formerly 150.360) This course examines various examples of popular culture in contemporary Japan, including popular literature, film, television, popular music, and leisure activities. Attention will also be paid to popular culture theory and methods of analysis. *Prerequisite:* [a grade of "C" or better in ASIA 2620 (150.262)] or written consent of instructor.

ASIA 3650 Masterpieces of Asian Literature Cr.Hrs.6 (Formerly 150.365) A study of selected major, and influential works of Asian literature in English translation. Significant works in a variety of genres from the classical and modern periods of India, China, Japan, Korea and South East Asia will be introduced. *Prerequisite:* one year of university study and (normally) senior matriculation standing in English.

ASIA 3660 Advanced Mandarin Comprehension Cr.Hrs.6 (Formerly 150.366) A further level of training intended for students who have completed ASIA 2360 (150.236) Mandarin Comprehension (6). There will be further training in oral/aural proficiency while at the same time emphasis will be placed on written expression. Basic English/Chinese translation skills will also be introduced. *Prerequisite:* [a grade of "C" or better in ASIA 2360 (150.236) or ASIA 3760 (150.376)] or written consent of instructor.

ASIA 3760 Advanced Chinese (Mandarin) Cr.Hrs.6 (Formerly 150.376) This course is for those who have taken Intermediate Chinese or who have obtained basic language skills in Mandarin Chinese elsewhere. A balanced approach to reading, writing, and aural/oral skills will be employed. Students will use advanced prepared texts and will also be introduced to selected examples of contemporary Chinese literature. Not open to students who previously obtained credit for ASIA 2360 (150.236) or ASIA 3660 (150.366). *Prerequisite:* [a grade of "C" or better in ASIA 2760 (150.276)] or written consent of instructor.

ASIA 3770 Advanced Japanese Cr.Hrs.6 (Formerly 150.377) This course is designed for those who have taken ASIA 2770 (150.277) Intermediate Japanese or have basic linguistic skills in Japanese and wish to improve their ability in the Japanese language previously acquired. *Prerequisite:* [a grade of "C" or better in ASIA 2770 (150.277)] or written consent of instructor.

ASIA 3790 Advanced Hindi-Urdu Cr.Hrs.6 (Formerly 150.379) Students read texts that are in accordance with their interests and abilities. Class discussion is held exclusively in Hindi-Urdu. *Prerequisite:* [a grade of "C" or better in ASIA 2790 (150.279)] or written consent of instructor.

Single Honours

Single Honours will consist of:

1) 54 credit hours from the list of approved courses in Canadian Studies, to be taken in the three Honours years, of which a maximum of 24 credit hours and minimum of 12 credit hours must be taken in any one department. At least 24 credit hours must be taken in courses designated as Honours courses. One of these may be a 4000-level interdisciplinary Honours seminar in Canadian Studies.

2) The minimum total credit hours that students must hold in order to complete an Honours program in Canadian Studies are 30 in Year 1; 30 in Year 2; 24 in Year 3; and 24 in Year 4.

Double Honours

Double Honours shall consist of:

1) 36 credit hours in one of the participating departments, not necessarily courses in the Canadian field, selected in accordance with the regulations of that department.

2) 36 credit hours chosen from the list of approved courses in Canadian Studies. At least 18 credit hours from the 36 must be Honours courses. One of these may be a 4000-level interdisciplinary seminar in Canadian Studies.

3) The minimum total credit hours that students must hold in order to complete a Double Honours program in Canadian Studies are 30 in Year 1; 30 in Year 2; 24 in Year 3; and 24 in Year 4.

A reading knowledge of French, while not required, is recommended. Students should note that, for certain specific Honours courses in the Canadian field, a reading knowledge of French is, in fact, a prerequisite.

Each of the participating departments is represented by at least one member on the Canadian Studies Program Committee. The initial student advisor for the program is the committee as a whole or any one of its members. Students who are interested in Canadian Studies may obtain further information from the Canadian Studies Program Coordinator. Students should consult the appropriate department upon entering the program regarding prerequisites for specific courses.

8.4.1 Program Information

The story of the Roman Catholic Church and its members, and the story of their interactions with history, the arts and sciences, human thinking and belief – all these together, in the dynamism and richness of their interplay,

form the substance of the human culture which is Catholicism. That culture is the subject matter of Catholic Studies.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in CATH 1190 and a grade of "C" or better in at least three credit hours from the List of Approved Courses in Catholic Studies.

8.5.1 Program Information

The disintegration of the former Soviet Union has altered the social, political, and economic environment of Central and Eastern Europe. The emergence of new independent countries and the transition from an environment dominated by communist political and economic structures continue to reshape Europe. This program offers an array of courses from five departments. It explores past and present issues in the region.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in both six credit hours of Russian, German, Polish, or Ukrainian and six credit hours from the list of approved courses in Central and East European Studies below. For students who have taken additional courses toward the Ma-

ior, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate including the higher grade of repeated courses and excluding failed courses.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in both six credit hours of Russian, German, Polish, or Ukrainian and six credit hours from the list of approved courses in Central and East European Studies below.

Honours Program (Double Honours Only)

For entry to the Honours program, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

This program is only available to students registered in the Honours program in Economics, History or Political Studies.

Courses used toward the Major, Minor or Honours may not also be used toward a Major, Minor or Honours in the department in which they are offered.

8.6.2 Program Information

Classics programs focus on the languages, literature and material cultures of ancient Greece and Rome. The two cultures are considered for their formative role at the beginnings of western civilization and for their continuing influence on modern civilization. Although courses, and entire programs, are available to students without any Latin or Greek, those intending to pursue specialist studies in any field of classical studies are urged to begin study of the languages as early as possible. The department, through academic staff members with expertise in art history and archaeology, offers a variety of opportunities for travel courses and fieldwork overseas.

The Department of Classics offers Major and Minor programs in Classical Studies, Greek, and Latin.

8.6.3 Classical Studies

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Classical Studies

CLAS 1270 Introduction to Ancient Greek Culture Cr.Hrs.3 (Formerly 003.127) Ancient archaeological and literary evidence (in English translation) is the basis for a survey of the major social, political, religious, intellectual, artistic and literary institutions and achievements of the Greeks from the Bronze Age to the early Roman Imperial Period. The Greeks are studied in the context of the ancient Mediterranean world but also with reference to their continuing contributions to world civilization.

CLAS 1280 Introduction to Ancient Roman Culture Cr.Hrs.3 (Formerly 003.128) Ancient archaeological and literary evidence (in English translation) is the basis for a survey of the major social, political, religious, intellectual, artistic and literary institutions and achievements of the Romans, from the period of the monarchy to the onset of the Middle Ages. The Romans are studied in the context of the ancient Mediterranean world but also with reference to their continuing contributions to world civilization.

CLAS 2140 Greek History: Pre-Classical Greece, 1200-479 BC Cr.Hrs.3 This course covers the crucial formative centuries which prefigured the Classical period of Greek history. It focuses upon the Dark Age (ca. 1200-700), when the political framework of later Greece was established, and the subsequent cultural renaissance of the seventh and sixth centuries BC. Students may not hold credit for both CLAS 2140 and the former 003.260.

CLAS 2150 Greek History: Classical Greece, 479-323 BC Cr.Hrs.3 This course covers the heyday of imperial, democratic Athens, her crushing defeat by Sparta, now allied with Persia, and the ensuing crisis of the city-state which culminated in Greek subjection to Macedonian kings, Philip and Alexander. Students may not hold credit for both CLAS 2150 and the former 003.260.

CLAS 2160 Roman History: The Roman Republic, 753-30 BC Cr.Hrs.3 This course covers the history of Rome from its supposed foundation in 753 BC to the end of the Republic in 30 BC. The course considers not only the events of Roman Republican history but also how historians of ancient Rome interpreted these events. Students may not hold credit for both CLAS 2160 and the former 003.261.

CLAS 2170 Roman History: The Roman Empire, 30 BC-AD 337 Cr.Hrs.3 This course covers the history of Rome under emperors, from the ascension of Augustus to the death of Constantine, the first Christian emperor, in AD 337. An important theme in the course is the rise of Christianity. Students may not hold credit for both CLAS 2170 and the former 003.261.

CLAS 2460 Field Studies in Greek Archaeology and History Cr.Hrs.6 (Formerly 003.246) Offered as part of the Summer Session, the course consists of three weeks of on-campus study followed by three weeks of travel to major sites and museums. *Prerequisite:* none, but one or more of CLAS 1270 (003.127) or CLAS 1280 (003.128) or CLAS 2140 or CLAS 2150 or CLAS 2670 (003.267) is recommended. As the course content will vary from year to year, students may take this course more than once for credit.

CLAS 2490 Field Studies in Roman Archaeology and History Cr.Hrs.6 (Formerly 003.249) Offered as part of the Summer Session, the course consists of three weeks of on-campus study followed by three weeks of travel to major sites and museums. *Prerequisite:* none, but one or more of CLAS 1270 (003.127) or CLAS 1280 (003.128) or CLAS 2160 or CLAS 2170 or CLAS 2680 (003.268) is recommended. As the course content will vary from year to year, students may take this course more than once for credit.

CLAS 2520 Greek and Roman Mythology Cr.Hrs.3 (Formerly 003.252) A survey of Greek and Roman myths of creation and the gods with attention to the nature and definition of myth; Greek and Roman legends; the connections of mythology with religious beliefs and cults; and with the literature and arts of Western civilization.

CLAS 2670 Greek Art and Archaeology Cr.Hrs.3 (Formerly 003.267) A survey, illustrated with slides, of the Minoan, Mycenaean, and classical Greek civilizations. The relevant archaeological sites and artistic works will be studied.

CLAS 2680 Roman Art and Archaeology Cr.Hrs.3 (Formerly 003.268) A survey, illustrated with slides, of the civilization and art of the Roman world. The Etruscan civilization and archaeological sites of Hellenistic Greece as they influence the art of Republican and Imperial Rome will be studied.

CLAS 2710 Greek and Latin Elements in English Cr.Hrs.3 (Formerly 003.271) A systematic study of the contribution of the classical languages to modern English, including the vocabulary of the sciences. The course is intended as a practical means of enhancing English vocabulary while it also emphasizes that the linguistic contribu-

tions are a reflection of the broad historical and cultural influences of classical antiquity on the modern world.

CLAS 3250 Aegean and Italian Prehistory Cr.Hrs.3 This course provides a detailed archaeological and historical view of Mediterranean culture and society from the Neolithic period of the sixth millennium BC through the early centuries of the first millennium BC. The course ends with a look ahead to the Early Iron Age.

CLAS 3260 Hellenistic Civilization: History and Archaeology Cr.Hrs.3 The Hellenistic period spans the years from the death of Alexander the Great in 323 BC to the death of the Ptolemaic queen Cleopatra VII in 31 BC. This course explores both the political and, more generally, the cultural history of the period using both textual and archaeological sources.

CLAS 3270 The World of Late Antiquity: History and Archaeology Cr.Hrs.3 This course examines the later Roman Empire, beginning with the reign of Constantine in the early fourth century and ending in the early fifth century. It combines historical and archaeological sources for the study of political, religious and social developments within the period.

CLAS 3610 Greek Literature in Translation Cr.Hrs.3 (Formerly 003.361) Study in English of selected works of such major figures in Greek literature as Homer, Aeschylus, Sophocles, Euripides, Aristophanes, Herodotus, Thucydides, and Plato: discussion of their influence on the arts and literature of the world.

8.8.2 Program Information

The economy is important to all Canadians, and economics is the field of study that helps us understand our world: wages and employment, economic growth, productivity, wealth and poverty, government budgets and taxation, resource exploitation, business practices, inflation, recession, regional economic differences. In economics we study the history and current reality of these issues. We learn the principles and techniques necessary to gain a sound understanding of the choices and problems facing us during our lifetime.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the General or Advanced Major, the prerequisite is a grade of "C" or better in either ECON 1200 or both ECON 1210 and ECON 1220. For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate including the higher grade of repeated courses and excluding failed courses.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in either ECON 1200 or both ECON 1210 and ECON 1220.

Honours Program

For entry to the Honours program, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

It is recommended that students complete ECON 2800, ECON 3800, and ECON 3810 before attempting ECON 4430, ECON 4450, or ECON 4810.

Where it appears appropriate, a senior Honours student may be allowed to substitute a graduate course for an undergraduate course in Economics.

Honours students are advised to select their ancillary options from the following disciplines: Geography, History, Mathematics, Political Studies, Statistics, Sociology and Philosophy. However, other fields may be selected to satisfy study or career interests.

Preparation for Graduate Studies

Honours students contemplating graduate work should normally seek to obtain a good background in both mathematics and statistics. For mathematics, it is strongly recommended that they take ECON 2530 Introduction to Mathematical Economics and seriously consider ECON 3730 Topics in Mathematical Economics. For a good statistics background, ECON 4120 Intermediate Econometrics and ECON 4130 Seminar in Econometrics in combination with some basic statistics courses are highly desirable. Such students are also advised to include at least one course in economic history in their program. These, or equivalents, are required of doctoral candidates at the University of Manitoba.

Other

No student may hold credit for more than six credit hours from the following: ECON 2450(3), ECON 2460(3), ECON 2700(3), ECON 3700(3). No student may hold credit for more than six credit hours from the following: ECON 2470(3), ECON 2480(3), ECON 2800(3), ECON 3800(3).

Combinations of courses for the Major, Minor and Honours programs, other than those listed below, may be permitted by written consent of the department head. Similarly, Honours courses may be taken by students in the General Major or Advanced Major programs with the written consent of the instructor and the department head; an average grade of "B" in all Economics courses is normally required before such consent may be given.

Students may offer the cross-listed courses ABIZ 2390 Introductory Environmental Economics (same as ECON 2390), ABIZ 3080 Introduction to Econometrics (same as ECON 3180), and ABIZ 4120 Intermediate Econometrics (same as ECON 4120) toward any of the above programs.

For information regarding the Canadian Studies program, see Section 8.3; for the Central and East European Studies program, see Section 8.5.

NOTES:			
¹ For the purposes of satisfying program requirements in the Major, Advanced Major and Minor programs, and of satisfying course prerequisites, Honours courses are acceptable as substitutes for general courses according to the following schedule: ECON 2700 for ECON 2450; ECON 3700 for ECON 2460; ECON 2800 for ECON 2470; ECON 3800 for ECON 2480. For each pair, students may hold credit for only one course.			
² In cases where students have been granted three hours of unallocated transfer credit in Economics at the 1000 level, and have achieved additional credits in Economics from The University of Manitoba, and wish to declare Economics as a General Major without having full credit in ECON 1200, then the Years 2-3 requirement for a Major in Economics will be ECON 2450 and ECON 2470, plus an additional 18 credit hours in Economics of which at least 6 hours must be at the 3000 level.			
³ Students in the Advanced Major are urged to take ECON 2450, ECON 2460, ECON 2470 and ECON 2480 in Year 2, but must take at least two of these courses in Year 2.			
⁴ Course ECON 4820 or ECON 4830 may not be taken until the final year of the program and only after students have successfully completed ECON 3170 and ECON 3180, plus all of the following: ECON 2450, ECON 2460, ECON 2470, ECON 2480. A grade of "C" or better in each course is required.			
⁵ For the purpose of satisfying program requirements in the Honours programs and of satisfying course prerequisites, General theory courses are acceptable substitutes for Honours theory courses according to the following schedule: As substitute for ECON 2700, ONE of the following conditions must be satisfied: (i) grades of B or better in each of ECON 2450 and ECON 2460; (ii) a grade of A or better in ECON 2450. As substitute for ECON 2800, ONE of the following conditions must be satisfied: (i) grades of B or better in each of ECON 2470 and ECON 2480; (ii) a grade of A or better in ECON 2470.			
⁶ To meet a minimum required background in mathematics, Single Honours students must complete 6 credit hours in Mathematics in Year 2 (or Year 3 with departmental approval). Students contemplating entering the Single Honours Program in Economics are advised to take the Mathematics requirement in their first year of studies. Students contemplating graduate work in Economics should refer to the notes above "Preparation for Graduate Studies."			
⁷ Students contemplating Double Honours in Economics and Mathematics are advised to consult the Department of Economics for specific details.			
⁸ A maximum of 6 credit hours at the 1000 level may be used towards a Major, Minor or Honours Program.			
⁹ Ancillary options are courses taken from outside the Honours field of study.			

8.8.4 Economics-Mathematics Joint Honours Program

The Department of Economics and the Department of Mathematics (Faculty of Science) offer a Joint Honours program for students wishing in-depth study in Economics and Mathematics. For Mathematics course listings, refer to the Faculty of Science chapter in the *Calendar*.

Joint Honours Program

Students in the Joint Honours program will follow the regulations outlined in the Honours program, see Section 4.3: Honours Degree Program.

8.8.8 Economics Course Descriptions

For prerequisite, corequisite and course availability information, see Section 5.6: Prerequisite, Corequisite, and Course Availability.

Course numbers ending in odd numbers (1, 3, 5, 7, 9) indicate courses given at Collège universitaire de Saint-Boniface.

ECON 1200 Principles of Economics Cr.Hrs.6 (Formerly 018.120) A study of the principles of economics and some of their applications. Students may not hold credit for ECON 1200 (018.120) and any of: ECON 1201 (018.120) or ECON 1210 (018.121) or ECON 1211 (018.121) or ECON 1220 (018.122) or ECON 1221 (018.122).

ECON 1201 Introduction aux sciences économiques Cr.Hrs.6 (L'ancien 018.120) Étude des principes d'économie et quelques-unes de leurs applications. L'étudiant(e) qui détient les crédits du ECON 1201 (018.120) ne peut se faire créditer aucun des cours ECON 1200 (018.120) ou ECON 1210 (018.121) ou ECON 1211 (018.121) ou ECON 1220 (018.122) ou ECON 1221 (018.122). Donné au Collège universitaire de Saint-Boniface.

ECON 1210 Introduction to Canadian Economic Issues and Policies Cr.Hrs.3 (Formerly 018.121) A survey of some major principles underlying, and influences acting upon the Canadian economy and its regions. Students may not hold credit for ECON 1210 (018.121) and any of: ECON 1211 (018.121) or ECON 1200 (018.120) or ECON 1201 (018.120).

ECON 1211 Introduction aux politiques et aux problèmes économiques canadiens

Cr.Hrs.3 (L'ancien 018.121) Une étude de principes majeurs qui sous-tendent et de certains facteurs qui influencent l'économie canadienne et de ses régions. L'étudiant(e) qui détient les crédits du ECON 1211 ne peut se faire créditer aucun des cours ECON 1210 (018.121) ou ECON 1200 (018.120) ou ECON 1201 (018.120). Donné au Collège universitaire de Saint-Boniface.

ECON 1220 Introduction to Global and Environmental Economic Issues and Policies Cr.Hrs.3 (Formerly 018.122) A survey of some major principles and policies characterizing the world economy and the environment. Students may not hold credit for ECON 1220 (018.122) and any of: ECON 1221 (018.122) or ECON 1200 (018.120) or ECON 1201 (018.120).

ECON 1221 Introduction aux politiques et aux problèmes économiques mondiaux Cr.Hrs.3 (L'ancien 018.122) Une étude de principes majeurs qui marquent l'économie mondiale et l'environnement. L'étudiant(e) qui détient les crédits du ECON 1221 (018.122) ne peut se faire créditer aucun des cours ECON 1220 (018.122) ou ECON 1200 (018.120) ou ECON 1201 (018.120). Donné au Collège universitaire de Saint-Boniface.

ECON 2270 European Economic History Cr.Hrs.6 (Formerly 018.227) A study of the economic aspects of the evolution of Europe from the Middle Ages to the present, with emphasis on the development of modern economic institutions. Students may not hold credit for both ECON 2270 (018.227) and ECON 2271 (018.227). *Prerequisite:* none.

ECON 2271 Histoire économique de l'Europe Cr.Hrs.6 (L'ancien 018.227) Étude des aspects économiques de l'évolution de l'Europe, du Moyen-Âge à nos jours. L'accent sera mis sur le développement des institutions économiques modernes. L'étudi-

ant(e) ne peut se faire créditer à la fois le ECON 2271 (018.227) et le ECON 2270 (018.227). *Préalable*: aucun. Donné au Collège universitaire de Saint-Boniface.

ECON 2280 Social Welfare and Human Resources Cr.Hrs.6 (Formerly 018.228) Economic and social dimensions of poverty and inequality: income, wealth, housing, health, education, welfare. Problems and policies in Canada and abroad. *Prerequisite*: a grade of "C" or better in six credit hours of 1000 level Economics.

ECON 2310 Canadian Economic Problems Cr.Hrs.6 (Formerly 018.231) Application of economic theory to a broad range of problems such as agriculture, trade, foreign ownership, regional disparities, competition policy, education. Students may not hold credit for both ECON 2310 (018.231) and ECON 2311 (018.231). *Prerequisite*: a grade of "C" or better in six credit hours of 1000 level Economics.

ECON 2311 Problèmes économiques du Canada Cr.Hrs.6 (L'ancien 018.231) Application de la théorie économique aux problèmes actuels du Canada: les disparités régionales, l'agriculture, l'échange, la pratique concurrentielle, la propriété étrangère et l'éducation, etc. L'étudiant(e) ne peut se faire créditer à la fois le ECON 2311 (018.231) et le ECON 2310 (018.231). *Préalable*: une note minimale de C dans six heures-crédits au niveau 1000 en sciences économiques. Donné au Collège universitaire de Saint-Boniface.

ECON 2350 Community Economic Development Cr.Hrs.3 (Formerly 018.235) A study of the economic development problems of northern and native communities in Manitoba. Students may not hold credit for ECON 2350 (018.235) and any of: NATV 3120 or the former NATV 4310 (032.431). *Prerequisite*: none.

ECON 2360 Women in the Canadian Economy Cr.Hrs.6 (Formerly 018.236) This course explores the changing role of women in the production of goods and services in Canada, with comparisons with selected other countries. It evaluates these changes and assesses government policy in this area. *Prerequisite*: none.

ECON 2390 Introduction to Environmental Economics Cr.Hrs.3 (Formerly 018.239) The economics of management of water, air and land resource quality, and the economics of conservation. 8.9.2 Program Information

English literature connects us in vital ways to times, places, and cultures, including our own; engages us in important moral and social questions; encourages us to reflect upon the capacities of the human mind and imagination; invites us to probe connections between language, form, structure, and meaning; and entertains, surprises, shocks, and moves us. Through its offerings of courses in contemporary and historical literature and in creative writing, our program promotes the study of English from this wide range of perspectives.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in ENGL 1200 or ENGL 1300 (or the former 004.126) or both ENGL 1310 and ENGL 1340. For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate, including the higher grade of repeated courses and excluding failed courses.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in ENGL 1200 or ENGL 1300 (or the former 004.126) or both ENGL 1310 and ENGL 1340.

Honours Program

For entry to the Honours Program see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A. A grade of "B" or better is required in ENGL 1200 or ENGL 1300 (or the former 004.126) or in both ENGL 1310 and ENGL 1340; ENGL 1200 is strongly recommended. Students may also be admitted to Honours in English in the third year of undergraduate study, in consultation with the department. Honours students must have their programs approved by the department each year. Normally, to continue in the Honours Program, a minimum grade of "B" must be obtained in all English courses.

Honours courses are also open to students who have been accepted into the pre-M.A. program and to students who have obtained the written consent of the department head.

Honours students who revert to a general program in English must meet the literature prior to the 1900 requirement for a Major or Minor, and they should consult the department head before continuing.

Students taking Single Honours should, if possible, take at least 12 credit hours in one of the following languages: French, German, Greek, Icelandic, Italian, Latin, Russian, Spanish.

Study Resources

All students taking English should own a writing handbook and a good dictionary such as *Webster's New Collegiate*, *Funk and Wagnall's Standard College*, *The Concise Oxford*, *The Gage Canadian*, or *The New World*. Students will also find useful *The MLA Handbook* and M.H. Abrams, *A Glossary of Literary Terms*.

8.9.4 English Course Descriptions

For prerequisite, corequisite and course availability information, see Section 5.6: Prerequisite, Corequisite, and Course Availability.

Course numbers ending in odd numbers (1, 3, 5, 7, 9) indicate courses given at Collège universitaire de Saint-Boniface.

Types of Courses**A – Preliminary Courses**

These courses are not designed to teach English as a second language.

For students who need help with basic writing skills, the Department of English, Film, and Theatre offers two half courses: ENGL 0930 English Composition and ENGL 0940 Writing About Literature. These courses are limited in size. Both ENGL 0930 and ENGL 0940 are acceptable for credit towards a degree in Arts or Science, but they may not be counted for credit in the 48 hours for a Major (Advanced), the 30 hours for a Major (General), or the 18 hours for a Minor. Either or both will, however, be included in the total number of hours a student is allowed to take in the combined Major and Minor. There is no prerequisite for entry into ENGL 0930 or ENGL 0940, and these courses are not required for admission to subsequent English courses.

ENGL 0930 English Composition Cr.Hrs.3 (Formerly 004.093) Designed to help students write better essays. Course focuses on effective expression; sentence, paragraph, and essay construction; and the writing process. A great deal of writing is required; instructors address the particular needs of individual students. Students may not enter English courses numbered above the 1000 level directly from this course. This course is not designed to teach English as a second language. This course does not satisfy the Humanities requirement.

ENGL 0940 Writing About Literature Cr.Hrs.3 (Formerly 004.094) Designed to supplement and to complement ENGL 0930 (004.093), the course may be taken by itself. The course focuses on writing about literature through the study of the short story and poetry. Students may not normally enter English courses numbered above the 1000 level directly from this course. This course is not designed to teach English as a second language. This course does not satisfy the Humanities requirement.

ENGL 1061 Anglais langue seconde I Cr.Hrs.3 (L'ancien 004.106) Révision et approfondissement de la grammaire anglaise. Élargissement du vocabulaire propre à la langue soutenue et sensibilisation aux pièges posés par les gallicismes d'ordre lexical et syntaxique. Étude des principes fondamentaux de rédaction: style, organisation et argumentation. Étude pratique de l'anglais parlé dans diverses situations. Expressions idiomatiques. Amélioration de la prononciation. Apprentissage des principes de base et exercices pratiques d'art oratoire en anglais. On ne peut se faire créditer le ENGL 1061 (004.106) et l'ancien 004.104. *Préalable:* Réussite du test de classement. Ce test est assorti d'un seuil minimum et d'un seuil maximum afin d'exclure les étudiants et étudiantes dont la connaissance de l'anglais est trop faible ou trop forte aux fins du cours. Donnée au Collège universitaire de Saint-Boniface.

ENGL 1071 Anglais langue seconde II Cr.Hrs.3 (L'ancien 004.107) Suite du ENGL 1061 (004.106). Révision et approfondissement de la grammaire anglaise. Élargissement du vocabulaire propre à la langue soutenue et sensibilisation aux pièges posés par les gallicismes d'ordre lexical et syntaxique. Étude des principes fondamentaux de rédaction: style, organisation et argumentation. Étude pratique de l'anglais parlé dans diverses situations. Expressions idiomatiques. Amélioration de la prononciation. Apprentissage des principes de base et exercices pratiques d'art oratoire en anglais. On ne peut se faire créditer le ENGL 1071 (004.107) et l'ancien 004.105. *Préalable:* [une note minimale de C dans le ENGL 1061 (004.106) ou l'ancien 004.104] ou la recommandation du Service de perfectionnement linguistique. Donnée au Collège universitaire de Saint-Boniface.

B – Introductory Courses

A grade of "C" or better in one of: ENGL 1200 (004.120), ENGL 1201 (004.120), ENGL 1300 (004.130), ENGL 1301 (004.130), or in both ENGL 1310 (004.131) and ENGL 1340 (004.134), or the former 004.126 is normally required for entry to a Major or Minor program in English and is the normal prerequisite for any English course beyond the introductory level. For admission to Honours courses or the Honours program see Honours Program above. Up to 12 hours of courses at the 1000 level may be taken for credit but students may offer only 6 hours of courses numbered at the 1000 level for credit in the minimum number of hours required for a three-year Major, a four-year Major, or a Minor in English. If 9 or 12 hours are taken, however, they will be included in the total number of hours a student is allowed to take in the combined Major and Minor.

ENGL 1200 Representative Literary Works Cr.Hrs.6 (Formerly 004.120) An introduction to the study of literature, with emphasis on the development of reading and writing skills. Poetry, prose and drama from various historical periods. Texts for each section will be announced. Students may not hold credit for both ENGL 1200 (004.120) and ENGL 1201 (004.120). English 40S or the former English 300 are strongly recommended, but English 40G or the former 301 or 305 will also be accepted.

ENGL 1201 Representative Literary Works Cr.Hrs.6 (L'ancien 004.120) An introduction to the study of literature, with emphasis on the development of reading and writing skills. Poetry, prose and drama from various historical periods. Texts for each section will be announced. Students may not hold credit for ENGL 1201 (004.120) and any of: ENGL 1200 (004.120) or the former 004.124. English 40S or the former English 300 are strongly recommended, but English 40G or the former 301 or 305 will also be accepted. Given at Collège universitaire de Saint-Boniface.

ENGL 1300 Literature since 1900 Cr.Hrs.6 (Formerly 004.130) An introduction to the study of literature, with emphasis on the development of reading and writing skills. Poetry, prose and drama from Canada, Britain, the United States and other countries. Texts for each section will be announced. Students may not hold credit for ENGL 1300 (004.130) and any of: ENGL 1301 (004.130) or the former 004.126. English 40S or the former English 300 are strongly recommended, but English 40G or the former 301 or 305 will also be accepted.

ENGL 1301 Literature since 1900 Cr.Hrs.6 (L'ancien 004.130) An introduction to the study of literature, with emphasis on the development of reading and writing skills. Poetry, prose and drama from Canada, Britain, the United States and other countries. Texts for each section will be announced. 8.9.6 Program Information

Film is the most important popular culture art form of the twenty-first century. Our knowledge and perception of the modern world is shaped by film or its related media — video and television. Film is a social, cultural, and historical document that, in addition to being worthwhile for study as an artistic medium, also shares issues with philosophy, sociology, political studies, and other disciplines. Instructors include people who have made and written about films and who are well prepared to discuss film history, film as cultural artifacts and the connections between film and other disciplines.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in both FILM 1290 and FILM 1310 (or the former FILM 1300). For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate including the higher grade of repeated courses and excluding failed courses.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in both FILM 1290 and FILM 1310 (or the former FILM 1300).

8.9.10 Program Information

Theatre is a way of finding out what it means to be human and is therefore a good component of a liberal, humanist education. While the Theatre Program does not prepare students for a career, it can assist in helping students discover whether they have the talent and the determination to pursue that goal later. Students will study dramatic expression, dramatic writing, and become part of the Black Hole Theatre Company, which stages 7 or 8 productions each year.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in THTR 1220.

Other

The faculty also offers a General Major and an Advanced Major in Drama. See Section 8.9.13. Students are encouraged to consult the Chair of the Theatre Program or the Head of the Department of English, Film, and Theatre.

8.10.6 Spanish

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in SPAN 1180, or a grade of "C" or better in both SPAN 1190 and SPAN 1260 (or SPAN 1290), or a grade of "C" or better in both SPAN 1280 and 3 credit hours from Spanish courses numbered at the 2000 level. For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate including the higher grade of repeated courses and excluding failed courses.

It is recommended that students who wish to Major in Spanish take the introductory course in the Summer Session prior to entering the fall program, or take SPAN 1260 and SPAN 1270 (or SPAN 1290) in the Summer Session prior to their entry into the second year. This will allow for a wider variety of course selections in the final two years.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in SPAN 1180, or a grade of "C" or better in both SPAN 1190 and SPAN 1260 (or SPAN 1290), or a grade of "C" or better in both SPAN 1280 and 3 credit hours from Spanish courses numbered at the 2000 level.

Other

Students entering the university with prior knowledge of Spanish may be allowed 'prerequisite standing' in course SPAN 1180 by the Spanish section of the department. Special permission is required to enter a higher numbered course.

All Spanish courses except SPAN 1180 and SPAN 1190 are taught in Spanish.

With written permission of the department head, students registered on the Fort Garry campus may take courses in Spanish language and literature at Collège universitaire de Saint-Boniface.

For information regarding the Minor program in Latin American Studies, see Section 8.17.

8.11.2 Program Information

This department's program covers two European cultural and language groups. German is the official language of five European countries and an understanding of German language and culture is essential to any understanding of European history. Courses are offered in German language, literature and culture. In Slavic Studies, the department offers language, literature and culture courses in Russian, Ukrainian and Polish — the three largest Slavic language groups. The Slavic countries of Eastern Europe exert

an important influence on international affairs. In Canada, immigration from both German and Slavic language groups has contributed greatly to the country's cultural mosaic.

8.11.3 German Program

For entry, continuation and graduation requirements for the General Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

8.11.5 German Course Descriptions

For prerequisite, corequisite and course availability information, see Section 5.6: Prerequisite, Corequisite, and Course Availability.

Course numbers ending in odd numbers (1, 3, 5, 7, 9) indicate courses given at Collège universitaire de Saint-Boniface.

GRMN 1120 Beginning German Cr.Hrs.6 (Formerly 008.112) Three hours of lectures, plus one hour each of language lab and conversation per week. The course is intended for students with little or no previous knowledge of German. Basic grammar is included, but emphasis is placed on the development of broad reading and speaking skills. Satisfactory completion of this course enables students to proceed to GRMN 2100 (008.210) or GRMN 2101 (008.210). Students may not hold credit for both GRMN 1120 (008.112) and GRMN 1121 (008.112). Students with Grade 12 German or its equivalent may not normally take the course for credit. Not open to students who have previously obtained credit for GRMN 2100 (008.210) or GRMN 2101 (008.210).

GRMN 1121 Introduction à l'Allemand Cr.Hrs.6 (L'ancien 008.112) Trois heures de cours plus une heure de travaux dirigés et une heure de conversation par semaine. Destiné à ceux qui n'ont aucune connaissance de l'allemand ou qui n'en ont qu'une connaissance minimale. Initiation à la grammaire fondamentale avec l'accent sur le développement d'aptitudes à la lecture et à la conversation. La réussite à ce cours permet de s'inscrire aux GRMN 2100 (008.210) ou GRMN 2101 (008.210). On ne peut se faire créditer les GRMN 1121 (008.112) et GRMN 1120 (008.112). Si l'on a déjà obtenu crédit pour le cours d'allemand de secondaire 4 ou l'équivalent ou pour le GRMN 2100 (008.210) ou GRMN 2101 (008.210), on ne peut s'inscrire à ce cours. Donné au Collège universitaire de Saint-Boniface.

GRMN 1300 Masterpieces of German Literature in English Translation Cr.Hrs.3 Language of instruction: English. The course introduces students to representative works (prose, poetry, and drama) by German-speaking writers such as Goethe, Kleist, Thomas Mann, Kafka, and Rilke, with an emphasis on the ages of Classicism, Romanticism, and Modernism. 8.13.2 Program Information

The study of history provides essential background for many disciplines and professions where research analysis, communications skills and an understanding of how past events influence the present are important. The department includes specialists in intellectual, cultural, social, medieval, Aboriginal, women's, and international history. A particular area of departmental specialization is Canadian and western Canadian history.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in the first six credit hours of History. For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate including the higher grade of repeated courses and excluding failed courses.

When selecting 2000-level courses in Year 2, students should anticipate their future interests.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in the first six credit hours of History.

Honours Program

For entry to the Honours Program, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Normally, to continue in Honours, a minimum grade of "B" must be obtained in all History courses.

History HIST 4400 or HIST 4580 is recommended in Year 4 for students intending to do graduate work.

Other

At most, 12 credit hours at the 1000-level in History may count for a B.A. General, B.A. Advanced, or B.A. Honours degree credit.

Courses ANTH 2360 offered by the Department of Anthropology, and CLAS 2140, CLAS 2150, CLAS 2160 and CLAS 2170 offered by the Department of Classics count for credit towards a General Major, Advanced Major, Honours Single or Honours Double in History, CLAS 2140, CLAS 2150, CLAS 2160 and CLAS 2170 also count for credit towards a Minor in History.

LABR 3070 Labour Relations and Occupational Health and Safety Law Cr.Hrs.3 (Formerly 153.307) The economic costs of workplace injuries and sickness; the history of occupational health and safety laws and their implementation; the history and functions of workers' compensation; collective bargaining on health and safety. *Prerequisite:* [a grade of "C" or better in both LABR 1260 (the former LABR 1270 or 153.127) and LABR 1290 (153.129) (the former 153.128)] or written consent of the Labour Studies coordinator.

LABR 3080 Labour and Community Organizing Cr.Hrs.3 This course examines the theory and practice of collaborative community and labour organizing, with particular emphasis on Latin America, to identify the strengths and limitations of this approach for reviving unions, protecting workers' rights and advancing social justice. *Prerequisite:* [a grade of "C" or better in both LABR 1260 (the former LABR 1270 or 153.127) and LABR 1290 (153.129) (the former 153.128)] or written consent of the Labour Studies coordinator.

LABR 3090 Globalization and Labour Cr.Hrs.3 An examination of the impact of global capitalism on the lives of workers (both paid and unpaid) in the Global South and North in the early 21st century. Using concepts of class, gender and "race," the course addresses key challenges facing working people, the crisis of workers' movements, and new movements emerging in response to this crisis. *Prerequisite:* written consent of instructor.

LABR 3110 Special Studies in Labour Studies Cr.Hrs.3 (Formerly 153.311) This course will vary from year to year depending on the needs of students and the interests of the instructor. *Prerequisite:* written consent of the Labour Studies coordinator. As the course content will vary from year to year, students may take this course more than once for credit.

LABR 3120 Special Studies in Labour Studies Cr.Hrs.3 (Formerly 153.312) This course will vary from year to year depending on the needs of students and the interests of the instructor. *Prerequisite:* written consent of the Labour Studies coordinator. As the course content will vary from year to year, students may take this course more than once for credit.

LABR 3130 Employment Legislation and the Protection of Workers Cr.Hrs.3 (Formerly 153.313) An examination of the legal rights and obligations of workers and employers, and the enforcement mechanisms for the non-unionized workplace, over the course of the employment relationship from hiring through to termination or retirement. Special emphasis will be placed on statutory and common law, personal employment contracts, wrongful and constructive dismissal, human rights legislation and jurisprudence. *Prerequisite:* [a grade of "C" or better in both LABR 1260 (the former LABR 1270 or 153.127) and LABR 1290 (153.129) (the former 153.128)] or written consent of the Labour Studies coordinator.

LABR 3140 Pensions and Benefits Cr.Hrs.3 (Formerly 153.314) The nature and role of pensions in the life cycle of workers and the issue of pension funds control on distribution. The role of non-wage benefits in the labour compensation package. *Prerequisite:* [a grade of "C" or better in both LABR 1260 (the former LABR 1270 or 153.127) and LABR 1290 (153.129) (the former 153.128)] or written consent of the Labour Studies coordinator.

LABR 3150 Labour Adjustment Cr.Hrs.3 (Formerly 153.315) An examination of occupational and labour training and of income support systems available to the Canadian labour force, including recent immigrants, with comparisons to some other countries. *Prerequisite:* [a grade of "C" or better in both LABR 1260 (the former LABR 1270 or 153.127) and LABR 1290 (153.129) (the former 153.128)] or written consent of the Labour Studies coordinator.

LABR 3200 Workers' Self-Management Cr.Hrs.3 (Formerly 153.320) An examination of historical and contemporary examples of self-managed workplaces and the theory of a participatory economy based on workers' self-management. Students may not hold credit for both LABR 3200 (153.320) and the former 153.308. *Prerequisite:* [a grade of "C" or better in LABR 3510 (153.351) or ECON 3510 (018.351)] or written consent of instructor.

LABR 3510 Industrial Relations Cr.Hrs.6 (Formerly 153.351) A study of comparative employer-employee relationships in Canada and other selected countries as affected by market forces, social traditions, and government action. Students may not hold credit for both LABR 3510 (153.351) and ECON 3510 (018.351). *Prerequisite:* [a grade of "C" or better in both LABR 1260 (the former LABR 1270 or 153.127) and LABR 1290 (153.129) (the former 153.128)] or [a grade of "C" or better in six credit hours of 1000 level Economics].

LABR 3700 History of Working People and Labour Movements 1700 to the Present (M) Cr.Hrs.6 (Formerly 153.370) A survey of working class history with emphasis upon the varieties of labour movements and trade unions. The course will refer to the social and political experience of working people in Great Britain, Europe and the United States and will devote one term to Canadian topics. Also offered as History HIST 3700. May not be held with HIST 3700 (011.370). *Prerequisite:* [a grade of "C" or better in six credit hours of Labour Studies or History] or written consent of the Labour Studies coordinator.

LABR 4510 Labour Studies Field Placement Seminar Cr.Hrs.3 (Formerly 153.451) A Seminar to be taken concurrently with LABR 4520 in which each student will relate theory and practice. Students may not hold credit for both LABR 4510 (153.451) and either the former 153.481 or 153.482. *Prerequisite:* formal declaration of the Labour Studies Advanced Major and written consent of the Labour Studies coordinator.

LABR 4520 Labour Studies Field Placement Cr.Hrs.6 (Formerly 153.452) An educationally directed field experience in which the student will undertake specific tasks and assignments in some aspects of labour relations. Field placement options include a labour union, professional association, employer, provincial department of labour, public archives. Students may not hold credit for both LABR 4520 (153.452) and either the former 153.481 or 153.482. *Prerequisite:* formal declaration of the Labour Studies Advanced Major Degree Program and written consent of the Labour Studies coordinator.

8.17 Latin American Studies Program

Program Code: 099L

Program Coordinator: Maria Ines Martinez

Program Office: 424 Fletcher Argue Building

Telephone: 204 474 9311

E-mail: Marines_Martinez@umanitoba.ca

8.17.1 Program Information

Through varied courses students may examine regions or periods of Latin American history. Emphasis is given to Mexican, Meso-American and Andean topics, Latin American civilizations including the pre-Columbian. Ethnic studies are also a major theme. Courses from Anthropology, Economics, Geography, History, and Spanish are included. This cross-disciplinary program permits a student to gain a deeper understanding of the subject field without being restricted to one discipline. The program offers the option of a term in Mexico from January to April; information is available from the program coordinator.

A Minor in Latin American Studies consists of at least 18 credit hours from a **minimum of two different departments chosen from the following list.**

Faculty of Arts

Anthropology

ANTH 2690 Peoples and Cultures of Contemporary Latin America (B) 3

ANTH 2980** Anthropological Perspectives on Contemporary Mexico (B) 3

ANTH 2990** Prehispanic Cultures of Mexico (D) 3

ANTH 3680 Anthropological Perspectives on Current Issues in Latin America (B) 3

076.366* Latin American Culture History 3

076.369* Peoples and Cultures of Contemporary Latin America 6

Geography

GEOG 2350 Latin America (A) 6

Knowledge of the Spanish language is not required since the literature on Latin America in English is extensive and adequate. However, the Latin American literature courses offered by the Department of French, Spanish and Italian require a reading knowledge of Spanish.

For entry to the Minor in Latin American Studies, the prerequisite is a grade of "C" or better in six credit hours from the approved list.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

8.18.2 Program Information

The linguistics approach to language is based on the analysis of sound, the structure of words and sentences, and the meanings they transmit. But it also has to deal with the way sounds change, words come and go, and meanings shift. Linguistics is the humanities discipline that is closest to be-

ing a science in the generally accepted sense of the word. Partly because human language, the subject of linguistics, is almost entirely acquired sub-consciously, it is a massive and intricate structure that is free to develop in accordance with natural rather than with consciously determined social laws.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in LING 1200 or written consent of the department head. For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate including the higher grade of repeated courses and excluding failed courses.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in LING 1200, or written consent of the department head.

Other

In addition to its core concentration in *Linguistic Theory and Analysis* and such other areas of study as Applied Linguistics, Verbal Arts, etc., Linguistics also offers:

- A pre-professional concentration in *Applied Linguistic Science*, which will be of special interest to students planning a career in speech/language pathology; contact department general office for information; and

• A program in American Sign Language/English Interpretation, offered jointly with Red River College; see below for details.

Students intending to Major in Linguistics are strongly encouraged to undertake the in-depth study of a second language.

NOTES:

¹ Students are advised to take LING 1380 General Phonetics as early as possible in their program (ideally during their first year, in addition to LING 1200 Introduction to Linguistics) as this course is a prerequisite for many of the advanced courses.

² Not all of the core courses listed below will necessarily be offered every year; this includes even those at the 2000 level which are prerequisites for courses at the 3000 level. Students intending to Major in Linguistics are advised to plan their programs well in advance, and to consult the Linguistics department at the beginning of each academic year.

Following successful completion of this prerequisite year, a Certificate in Deaf Studies is awarded by Red River College and selection for continuation for the joint degree program is made by RRC and the Linguistics department.

Program in Linguistics and American Sign Language/English Interpretation taught jointly with Red River College leading to a B.A. General Degree

Students who wish to pursue this program must seek separate admission to both the University of Manitoba and Red River College.

Students must successfully complete all requirements for Deaf Studies and the American Sign Language/English Interpretation Program at Red River College only. Specific courses (42 credit hours) completed in this program will be considered acceptable for university degree credit, will satisfy a humanities requirement and will become the declared Minor for purposes of the degree. For the purposes of satisfying the distribution requirement, completion of the Deaf Studies Certificate will qualify as six hours in a field and completion of the Joint ASL Program will qualify as six hours in a field.

The entire joint program is described below:

8.18.4 Linguistics Course Descriptions

For prerequisite, corequisite and course availability information, see Section 5.6: Prerequisite, Corequisite, and Course Availability.

LING 1200 Introduction to Linguistics Cr.Hrs.6 (Formerly 126.120) Language as a communication system composed of sound, grammatical and semantic subsystems. Development of a theoretical framework. Exercises in a variety of languages.

LING 1340 Semantics Cr.Hrs.3 (Formerly 126.134) An introduction to linguistic approaches to meaning, with special emphasis on the analysis of lexical domains.

LING 1360 Languages of Canada Cr.Hrs.3 (Formerly 126.136) A survey of languages and linguistic problems encountered in North America, with particular attention to questions of relationship and classification. Examples will be drawn from both indigenous and immigrant languages.

LING 1380 General Phonetics Cr.Hrs.3 (Formerly 126.138) The articulatory and acoustic analysis of speech sounds. Transcription exercises in a variety of languages.

LING 1420 Language and Gender Cr.Hrs.3 (Formerly 126.142) In exploring the relationship between language and gender, this course addresses such questions as: how are gender differences manifested and perpetuated through language use?; is there such a thing as "women's language"?; how do gender differences influence communication between women and men?; how does gender interact with (for example) race, class and sexuality with respect to language use? In addition, we consider issues of language structure, including sexism in English and the relative success of gender-based language reform efforts.

LING 1440 Rules of English Grammar Cr.Hrs.3 (Formerly 126.144) What are the criteria that are used to distinguish "good" from "bad" grammar? What are the rules we need to know in order to speak and write "properly"? In focusing on basic concepts in traditional grammar, this course reviews parts of speech, the English tense system, sentence types (active vs. passive), question formation and types of embedded clauses. It examines the rules of traditional grammar and explores the linguistic structures that lie behind the rules. This course is not intended for students learning English; it presupposes native or near-native competence in English.

LING 2200 Syntax Cr.Hrs.6 (Formerly 126.220) Sentences are complex arrangements of words and other elements, and syntactic structures have long been at the centre of theoretical controversy. A typological survey of syntactic patterns, introducing formal and functional approaches to syntactic analysis. *Prerequisite:* [a grade of "C" or better in LING 1200 (126.120)] or written consent of instructor.

LING 2420 Phonology Cr.Hrs.3 (Formerly 126.242) Each language relies on a finite set of distinctive sounds. Based on physical features which are universal, sound systems are language-specific, abstract structures. *Prerequisite:* [a grade of "C" or better in LING 1200 (126.120)] or written consent of instructor.

LING 2440 Analytic Techniques Cr.Hrs.3 (Formerly 126.244) Techniques for recognizing the structure of words and sentences in a variety of languages. The formulation of linguistic rules, especially at the interface of morphology and phonology. *Prerequisite:* [a grade of "C" or better in LING 1200 (126.120)] or written consent of instructor.

LING 2460 Morphology Cr.Hrs.3 (Formerly 126.246) The internal structure of words: the traditional distinction between inflection and derivation, types of word structures, word-formation rules, levels of word-formation. The relationship of morphology to phonology and syntax. *Prerequisite:* [a grade of "C" or better in LING 1200 (126.120)] or written consent of instructor.

LING 2600 Verbal Art Cr.Hrs.3 (Formerly 126.260) Puns, punchlines, slogans and the chant of the auctioneer are as much instances of verbal art as are rhetorical flourishes and formal literary structures. With spoken language as its major focus, this course draws on a variety of languages, sources and genres to study artistic and playful uses of language. *Prerequisite:* [a grade of "C" or better in LING 1200 (126.120)] or written consent of instructor.

LING 2620 Language in Society Cr.Hrs.3 (Formerly 126.262) Language is embedded in a social context: dialect variability, the choice of speech registers, the use of special-purpose languages, code-switching, sexual specialization are instances of language behaviour reflecting non-linguistic reality. *Prerequisite:* [a grade of "C" or better in LING 1200 (126.120)] or written consent of instructor.

LING 2640 Comparative Linguistics Cr.Hrs.3 (Formerly 126.264) Language change and its consequences; aspects of historical linguistics, language classification and linguistic prehistory. Examples from Indoeuropean and North American Indian languages. *Prerequisite:* [a grade of "C" or better in LING 1200 (126.120)] or written consent of instructor.

LING 2720 Applied Linguistics Cr.Hrs.3 (Formerly 126.272) The practical implications of linguistic analysis in such areas as the formal or informal acquisition of a second language, the establishment of standards for spoken and written usage, language maintenance and other aspects of language planning. *Prerequisite:* [a grade of "C" or better in LING 1200 (126.120)] or written consent of instructor.

LING 2740 Introduction to Interpretation Theory Cr.Hrs.3 (Formerly 126.274) A survey of interpretation theory, including specifics of language use and problems in the transfer of cultural context for both source and target language, the history of language awareness on the part of the interpreter, and the development of theories of interpretation. This course will draw heavily on the field of ASL/English interpretation for illustration. *Prerequisite:* [a grade of "C" or better in LING 1200 (126.120)] or written consent of instructor.

LING 2800 Communication Disorders Cr.Hrs.3 (Formerly 126.280) A general introduction to the major pathologies of speech, language and hearing as viewed against the background of normal linguistic structures and functions. The distinction between mechanically- and neurologically-based disorders is illustrated in terms of aetiology, diagnosis and approaches to treatment. *Prerequisite:* [a grade of "C" or better in LING 1200 (126.120)] or written consent of instructor.

LING 2830 Linguistic Anatomy and Physiology 1 Cr.Hrs.3 (Formerly 126.283) An intensive survey of the principal organs of speech and hearing, their embryology, and the general features of their evolutionary history. Some consideration will also be given to their pathological impairment. *Prerequisite:* [a grade of "C" or better in both LING 1200 (126.120) and LING 1380 (126.138)] or written consent of instructor.

LING 2850 Linguistic Anatomy and Physiology 2 Cr.Hrs.3 (Formerly 126.285) A survey of the structures of the central and peripheral nervous systems as they relate to the production and perception of speech and the processing of language. Includes a survey of linguistic aphasiology and a review of neurological deficits associated with abnormal language behaviour. *Prerequisite:* [a grade of "C" or better in both LING 1200 (126.120) and LING 1380 (126.138)] or written consent of instructor.

LING 2860 Language Acquisition Cr.Hrs.3 (Formerly 126.286) The study of first language acquisition based on evidence from typologically diverse languages. Universals in the emergence of phonological, morphological and syntactic features, and their impact upon linguistic theory. *Prerequisite:* [a grade of "C" or better in both LING 1200 (126.120) and LING 1380 (126.138)] or written consent of instructor.

LING 2880 Acoustic Phonetics Cr.Hrs.3 (Formerly 126.288) The physical principles involved in the production, propagation and reception of sound. The subjective characteristics of sounds (loudness, pitch and quality) are related to their objective parameters (intensity, frequency and spectrum). The physical methods and the types of equipment used to analyze the basic physical properties of sounds will be demonstrated. *Prerequisite:* [a grade of "C" or better in both LING 1200 (126.120) and LING 1380 (126.138)] or written consent of instructor.

LING 2900 The Evolution of Language Cr.Hrs.6 (Formerly 126.290) The fundamental concepts of communication and language; emergent and continuity theories of language. The distinctive traits of human speech and their analogues among non-humans (especially birds, primates and cetaceans). The inferential evidence of speech capacity in the human fossil record. *Prerequisite:* [a grade of "C" or better in LING 1200 (126.120)] or written consent of instructor.

LING 3120 Syntactic Theory Cr.Hrs.3 (Formerly 126.312) Formal and functional analyses of specific syntactic issues, such as the representation of grammatical rela-

tions, the formulation and explanation of universals, the "learnability criterion" as a test for theoretical adequacy and the rôle of semantics and pragmatics in syntactic theory. *Prerequisite:* [a grade of "C+" or better in LING 2200 (126.220)] or written consent of instructor.

LING 3140 Phonological Theory Cr.Hrs.3 (Formerly 126.314) The nature of phonological representations: prosodic hierarchies, multi-tiered structures, the underspecification of segments. Types of phonological rules, rule ordering, the cycle. *Prerequisite:* [a grade of "C+" or better in LING 2420 (126.242)] or written consent of instructor.

LING 3200 The Structure of a non-Indoeuropean Language Cr.Hrs.6 (Formerly 126.320) Every "new" language challenges accepted doctrine and helps us to evaluate competing hypotheses: in this course, a non-Indoeuropean language (which may vary from Hua to Hungarian) is systematically explored on the basis of field records and descriptions which have become classics. *Prerequisite:* [a grade of "C+" or better in each of LING 2200 (126.220) and LING 2420 (126.242) and LING 2440 (126.244)] or written consent of instructor.

LING 3300 The Structure of ASL Cr.Hrs.6 (Formerly 126.330) An examination of ASL as a signed, as opposed to spoken, language. Topics include phonetic, phonological, morphological and syntactic structures. *Prerequisite:* [a grade of "C+" or better in each of LING 1200 (126.120) and LING 2200 (126.220) and LING 2460 (126.246)] or written consent of instructor.

LING 3400 Field Methods Cr.Hrs.6 (Formerly 126.340) Working with a speaker of an unfamiliar (and, usually, unrecorded) language, students are apprenticed in the collection, analysis and interpretation of raw data. *Prerequisite:* [a grade of "C+" or better in each of LING 2200 (126.220) and LING 2420 (126.242) and LING 2440

(126.244)] or written consent of instructor.

LING 3600 History of Linguistics Cr.Hrs.6 (Formerly 126.360) The analysis of language and linguistic theory from the Indian, Graeco-Latin and Arabic traditions to the Renaissance, Enlightenment and the modern period. *Prerequisite:* [a grade of "C+" or better in LING 2640 (126.264)] or written consent of instructor.

8.19 Medieval and Renaissance Studies Program

Program Code: 099M

Program Advisor: Roisin Cossar

Program Office: 454 Fletcher Argue Building

Telephone: 204 474 8885

8.19.1 Program Information

The millennium from the end of the Roman empire to the Renaissance is the formative period of European civilization. The Middle Ages and the Dark Ages were periods of human drama full of change and growth and a struggle to regain a civilized way of life. The Age of Chivalry with its crusades, the flowering of the arts and architecture, and the emergence of new philosophical concepts and ideologies found culmination in the Renaissance. For those interested in the pre-modern world, this program permits a broad approach to the subject.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

The following entries contain information which is not contained in Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in 12 credit hours considered relevant to the Major by the program advisor.

A) General Major in Medieval and Renaissance Studies consists of 36 credit hours selected as follows:

- Nine credit hours in either Latin or Greek
- Six credit hours from the following History courses:

HIST 2080	The Byzantine Empire and the Slavic World (D)	3
HIST 2420	The Medieval World (D)	6
011.206*	The Emergence of the Medieval World (D)	3
011.207*	The Early and High Middle Ages (D)	3
011.209*	The Middle Ages in Decline (D)	3

* No longer offered

• 21 credit hours in courses dealing with the Medieval and/or Renaissance world, including a minimum of six credit hours to be selected from each of the following groups (a detailed list of courses may be obtained from the program advisor):

Group 1: History, Philosophy, Religion

Group 2: Literature, Language, Fine Arts (including Music)

B) Advanced Major in Medieval and Renaissance Studies consists of 12 credit hours in addition to the above, of which six must be in a modern language. The remaining six credit hours may be selected from Group 1 or Group 2.

Minor Program

For entry to the Minor program, the prerequisite is a grade of "C" or better in six credit hours considered relevant to the Minor by the program advisor.

A Minor in Medieval Studies will consist of 18 credit hours, and must include History course HIST 2420 The Medieval World (D) (6). The remaining 12 credit hours may be selected from Group 1 or Group 2, or from courses in either Latin or Greek. If Latin or Greek courses are chosen, a minimum of six credit hours is required in either Latin or Greek.

Other

Students should note that courses used towards the Major(s) or Minor in this area may not be used for Major, Minor or Honours in a second field.

8.22.2 Program Information

Philosophy is composed of several areas of study: these include logic, metaphysics, ethics, political philosophy, philosophy of science, philosophy of language, and aesthetics. Philosophers use the tools of rigorous logic and clear conceptual analysis. Their goal is to understand things such as the nature of reason, the physical universe, right and wrong, the human mind, and sometimes even the meaning of life. There are good arguments and bad arguments. Training in philosophy will help the student not only consider these important questions but also to improve his or her clarity of expression and ability to think critically.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in six credit hours in Philosophy. For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate including the higher grade of repeated courses and excluding failed courses.

The General Major may consist entirely of courses numbered beyond the 1000 level.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in six credit hours in Philosophy.

The Minor may consist entirely of courses numbered beyond the 1000 level.

Honours Program

8.23.2 Program Information

Political Studies examines the dynamics of human interaction in which individuals and groups compete to achieve their goals. The study of politics involves a consideration of the interactions between the individual, the state, government, public affairs and public policy. Political Studies examines the dynamics of these interactions in the context of competing visions, values and interests, particularly in the pursuit of varying public goals, including the quest for political power and the control of government. Poli-

8.24.2 Program Information

Psychology is a discipline that examines questions concerning behaviour and mental processes. Cognitive processes such as perceiving, learning, remembering, thinking, talking, and social interactions as well as the biological basis for behaviour and human development are among the issues explored. Psychology on the one hand helps us understand human behaviour, but on the other also provides insights that can help and benefit individuals and society. A degree program is also offered in the Faculty of Science.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in PSYC 1200 or a grade of "C" or better in both PSYC 1211 and PSYC 1221. For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate including the higher grade of repeated courses and excluding failed courses.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in PSYC 1200 or a grade of "C" or better in both PSYC 1211 and PSYC 1221, or written consent of the department head.

Honours Program

For entry to the Honours program, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

On y parle des bases biologiques des comportements, des processus sensoriels, de la perception, des états de conscience, de l'apprentissage et de la mémoire. On décrit également les méthodes de recherche propres à la psychologie scientifique. L'étudiant(e) qui détient les crédits du PSYC 1211 (017.121) ne peut se faire créditer aucun des cours PSYC 1200 (017.120) ou PSYC 1201 (017.120). Donné au Collège universitaire de Saint-Boniface.

PSYC 1221 Introduction à la psychologie II Cr.Hrs.3 (L'ancien 017.122) Ce cours traite des connaissances utilisées par les psychologues pour aider l'être humain dans sa compréhension personnelle et ses interactions sociales. On y parle de motivations, d'intelligence, de personnalité et de psychopathologie. On décrit également les outils et les méthodes de travail propres à la psychologie appliquée. L'étudiant(e) qui détient les crédits du PSYC 1221 (017.122) ne peut se faire créditer aucun des cours PSYC 1200 (017.120) ou PSYC 1201 (017.120). Donné au Collège universitaire de Saint-Boniface.

PSYC 2240 History of Psychology Cr.Hrs.3 (Formerly 017.224) A consideration of some factors contributing to the development of modern psychology. The influence of different schools and systems of psychology on contemporary points of view is considered. *Prerequisite*: [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2250 Introduction to Psychological Research Cr.Hrs.3 (Formerly 017.225) Examines psychology as a scientific discipline and describes methods of collecting and interpreting psychological data. Required of all Majors and normally taken in the second year. Students may not hold credit for both PSYC 2250 (017.225) and PSYC 2251 (017.225). *Prerequisite*: [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2251 Introduction à la recherche en psychologie Cr.Hrs.3 (L'ancien 017.225) Une étude de la psychologie comme discipline scientifique et la description des méthodes de collecte et d'interprétation des données en psychologie. Ce cours est obligatoire pour la majeure et devrait être suivi en deuxième année. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 2251 (017.225) et le PSYC 2250 (017.225).

Préalable: [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur. Donné au Collège universitaire de Saint-Boniface.

PSYC 2260 Introduction to Research Methods in Psychology Cr.Hrs.3 (Formerly 017.226) Discusses concepts of inductive inference and explanation. The nature of research designs is emphasized. Required of all Majors and normally taken in the second year. Students may not hold credit for both PSYC 2260 (017.226) and PSYC 2261 (017.226). *Prerequisite*: a grade of "C" or better in PSYC 2250 (017.225) or PSYC 2251 (017.225).

PSYC 2261 Introduction aux méthodes de recherche en psychologie Cr.Hrs.3 (L'ancien 017.226) Étude des concepts inductifs d'inférence et d'explication. Ce cours mettra l'accent sur les schémas de recherche en psychologie. Ce cours est obligatoire pour la majeure, et devrait être suivi en deuxième année. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 2261 (017.226) et le PSYC 2260 (017.226). *Préalable*: une note minimale de C dans le PSYC 2250 (017.225) ou le PSYC 2251 (017.225). Donné au Collège universitaire de Saint-Boniface.

PSYC 2290 Child Development Cr.Hrs.3 (Formerly 017.229) The course deals with normal psychological development from prenatal life until puberty. The scientific approach to child study is emphasized. Students may not hold credit for both PSYC 2290 (017.229) and PSYC 2291 (017.229). *Prerequisite*: [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2291 Le développement de l'enfant Cr.Hrs.3 (L'ancien 017.229) Étude du développement psychologique normal de la période prénatale à la puberté. Les méthodes de recherche utilisées dans l'étude de l'enfant sont présentées. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 2291 (017.229) et le PSYC 2290 (017.229). *Préalable*: [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur. Donné au Collège universitaire de Saint-Boniface.

PSYC 2310 Adolescent Development Cr.Hrs.3 (Formerly 017.231) This course deals with normal psychological development from puberty until adulthood. Results of scientific research are emphasized. Students may not hold credit for both PSYC 2310 (017.231) and PSYC 2311 (017.231). *Prerequisite*: [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2311 Le développement de l'adolescent Cr.Hrs.3 (L'ancien 017.231) Étude du développement psychologique normal de la puberté au stade adulte, à l'aide des résultats de recherches scientifiques. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 2311 (017.231) et le PSYC 2310 (017.231). *Préalable*: [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur. Donné au Collège universitaire de Saint-Boniface.

PSYC 2320 Motivation Cr.Hrs.3 (Formerly 017.232) Critical evaluation of current theories and research on motivation are presented. Topics typically surveyed include instinct, exploration, homeostasis, frustration, conflict, and social motivation. *Prerequisite*: [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2330 Emotion Cr.Hrs.3 (Formerly 017.233) This course deals with theories and research in the psychology and physiology of emotional behaviour. The theoretical frame of reference for this course is that emotion is a descriptive concept. *Prerequisite*: [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2360 Brain and Behaviour Cr.Hrs.3 (Formerly 017.236) This course explores

the relationship between brain and behaviour. The student will first learn about the fundamental elements of the nervous system. Lectures will integrate these elements into discussions of systems responsible for sensation, motor control, emotion, sleep, learning and memory. Clinical scenarios will be used to illuminate function. Students may not hold credit for PSYC 2360 (017.236) and any of: PSYC 3530 (017.353) or PSYC 3531 (017.353) or PSYC 3540 (017.354) when titled Brain and Behaviour or PSYC 3541 (017.354). *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2370 Developmental Psychology from Adolescence to Old Age Cr.Hrs.3 (Formerly 017.237) The course deals with psychological changes during young adulthood, middle age, and old age. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2390 Psychology of Women Cr.Hrs.3 (Formerly 017.239) A critical re-examination of existing assumptions about women in the light of contemporary research. Psychology as a discipline and a methodology for investigating human behaviour will be stressed. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2400 The Psychology of Sex Differences Cr.Hrs.3 (Formerly 017.240) Course explores the relationship between: human behaviour, physiology, and sex roles for males and females in our society. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2410 Social Psychology 1 Cr.Hrs.3 (Formerly 017.241) This course provides a basic introduction to the ways in which we affect and are affected by the behaviour of others. Topics typically include: methods used by social psychologists, attitudes and attitude change, social beliefs and judgements, conformity, and persuasion. Students may not hold credit for both PSYC 2410 (017.241) and PSYC 2411 (017.241). *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2411 Psychologie sociale 1 Cr.Hrs.3 (L'ancien 017.241) Ce cours présente une introduction de base aux façons par lesquelles nous affectons et sommes affectés par les comportements des autres. Les thèmes abordés incluent: les méthodes utilisées par les psychologues sociaux, les attitudes et le changement d'attitude, les croyances sociales et le jugement, la conformité et la persuasion. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 2411 (017.241) et le PSYC 2410 (017.241). *Préalable:* [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur. Donné au Collège universitaire de Saint-Boniface.

PSYC 2420 Social Psychology 2 Cr.Hrs.3 (Formerly 017.242) This course provides an introduction to basic social psychology topics not covered in PSYC 2410 (017.241) or PSYC 2411 (017.241), such as social norms and roles, group dynamics, prejudice, aggression, altruism, attraction and close relationships, and intergroup conflict. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2430 Humanistic and Transpersonal Psychology Cr.Hrs.3 (Formerly 017.243) A survey of such topics as search for meaning, personal growth, self-actualization, electric stimulation of the brain, meditation, and extra-sensory perception. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2440 Behaviour Modification Principles Cr.Hrs.3 (Formerly 017.244) The fundamental assumptions, principles, and procedures of behaviour modification are described and illustrated by applications to normal and abnormal human behaviour. Students may also conduct supervised projects in applied areas or in basic behavioural research. Students may not hold credit for both PSYC 2440 (017.244) and PSYC 2441 (017.244). *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2441 Principes de modification du comportement Cr.Hrs.3 (L'ancien 017.244) On discutera les hypothèses fondamentales, les principes et les méthodes de modification du comportement à partir d'exemples tirés du comportement humain, normal et anormal. Les étudiants pourraient effectuer des projets de recherche supervisés dans des secteurs d'application spécifique ou de la recherche fondamentale sur le comportement. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 2441 (017.244) et le PSYC 2440 (017.244). *Préalable:* [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur. Donné au Collège universitaire de Saint-Boniface.

PSYC 2450 Behaviour Modification Applications Cr.Hrs.3 (Formerly 017.245) Guidelines for designing, implementing, and evaluating behaviour modification applications are described in detail. Students may also conduct supervised projects in applied areas or in basic behavioural research. Students may not hold credit for both PSYC 2450 (017.245) and PSYC 2451 (017.245). *Prerequisite:* a grade of "C" or better in PSYC 2440 (017.244) or PSYC 2441 (017.244).

PSYC 2451 Domaines d'application de la modification du comportement Cr.Hrs.3 (L'ancien 017.245) L'étude d'un certain nombre de domaines d'application de la modification du comportement basée sur les principes et les procédés décrits dans le cours PSYC 2440 (017.244) ou PSYC 2441 (017.244). Les étudiants pourraient effectuer des projets de recherche supervisés dans des secteurs d'application spécifique; ou de la

recherche fondamentale sur le comportement. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 2451 (017.245) et le PSYC 2450 (017.245). *Préalable:* une note minimale de C dans le PSYC 2440 (017.244) ou PSYC 2441 (017.244). Donné au Collège universitaire de Saint-Boniface.

PSYC 2460 Dyadic Relations Cr.Hrs.3 (Formerly 017.246) This course covers friendship formation and dyadic relations - linking, liking, loving, and leaving from an empirically oriented psychological perspective. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2470 Learning Foundations of Psychology Cr.Hrs.3 (Formerly 017.247) Examines basic learning processes, along with examples of how psychologists study them. Emphasis is placed on how knowledge of basic learning processes can help us understand complex human behaviour. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2480 Cognitive Processes Cr.Hrs.3 (Formerly 017.248) An introduction to the higher mental processes from an information processing perspective. Topics include attention, cognitive development, imagery, language, memory and problem-solving. Extensive reference will be made to recent experimental findings. Students may not hold credit for both PSYC 2480 (017.248) and PSYC 2481 (017.248). *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2481 Processus cognitifs Cr.Hrs.3 (L'ancien 017.248) Une introduction aux processus langage, supérieurs dans une perspective de traitement de l'information. Les sujets abordés incluent l'attention, le développement cognitif, l'imagerie, le langage, la mémoire et la résolution de problèmes. Le cours sera basé sur de nombreuses références aux résultats expérimentaux récents. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 2481 (017.248) et le PSYC 2480 (017.248). *Préalable:* [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur. Donné au Collège universitaire de Saint-Boniface.

PSYC 2500 Elements of Ethology Cr.Hrs.3 (Formerly 017.250) This course involves one three-hour lecture meeting and one laboratory per week and concerns the study of animal behaviour through lectures, films, and field trips. Parakeets, flies, and/or ducklings plus one animal of the student's choice will be observed. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2510 Comparative Psychology Cr.Hrs.3 (Formerly 017.251) This course examines the viability of comparative psychology today, the type of subjects used in comparative psychology research, its history and background, some applications and contemporary viewpoints, and its current status. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 2520 Orientations to Psychological Systems Cr.Hrs.3 (Formerly 017.252) Examines and contrasts humanistic, psychodynamic, cognitive, and behavioural psychology with regard to consciousness vs. the unconscious, free-will vs. determinism, holism vs. analysis, purpose vs. past influences, transcendentalism vs. physicalism, and focus on the person vs. focus on problems. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3130 Introduction to Health Psychology Cr.Hrs.3 This course offers a survey of psychological issues in health and illness. Major topics will include the biopsychosocial approach, mental models of illness, pain, stress and coping, health-damaging and health-promoting behaviours, and psychological issues in medical care. Students may not hold credit for PSYC 3130 and any of: PSYC 3131 or PSYC 3530 when titled "Health Psychology." *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)].

PSYC 3131 Psychologie de la santé Cr.Hrs.3 Introduction au domaine de la psychologie de la santé. On y étudie comment les interactions complexes entre des facteurs environnementaux, psychologiques, neurologiques et immunitaires contribuent au maintien de la santé et, par conséquent, au développement des maladies. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 3131 et le PSYC 3130. *Préalables:* [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)].

PSYC 3160 Perception and Attention Cr.Hrs.3 This lecture course will provide you with a basic introduction to the characteristics and processes of human perception. A scientific approach will be used with specific emphasis on exploring the relation between experimental evidence and theory. Topics to be covered include transmission of information through the visual and auditory systems, visual and auditory pattern recognition, selective and divided attention, and the role of attention and interpretation in perception. Students may not hold credit for both PSYC 3160 and PSYC 3441 (017.344). *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3170 Research in Cognitive Psychology Cr.Hrs.3 This course will provide an introduction to conducting research in human perception and cognition. Students will gain experience in all facets of the research process including: critical reading of

relevant literature, experimental design and preparation, data collection and analysis, and report writing. Activities may include critiques of published research, research proposals, individual and/or group projects, research reports, and individual and/or group presentations. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] and written consent of instructor.

PSYC 3200 Thinking Critically About Psychological Research Cr.Hrs.3 This course will teach students to apply critical thinking skills in the evaluation of psychological research. Core components will include the logic of research design, analysis and interpretation, the description of psychological studies, and the critical reading of published research. Activities will include the preparation of critiques of research claims published in both academic journals and in the main-stream press, sample research proposals, individual and/or group projects, and individual and/or group presentations. *Prerequisite:* [a grade of "C" or better in PSYC 2300 (017.230)] or [a grade of "C" or better in both PSYC 2250 (017.225) and PSYC 2260 (017.226)] or [a grade of "C" or better in both PSYC 2251 (017.225) and PSYC 2261 (017.226)].

PSYC 3350 Behavioural Neuroscience Cr.Hrs.3 This course presents the fundamentals of the neurobiology of behaviour. Special importance is placed on the information-processing properties of the nervous system in order to provide a uniform framework for the understanding of such topics as perception, attention, sleep and wakefulness, motivation, and learning. Students may not hold credit for PSYC 3350 and any of: PSYC 3351 or the former PSYC 3330 (017.333) or the former PSYC 3331 (017.333). *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3351 Neurosciences du comportement Cr.Hrs.3 Ce cours présente les fondements de la neurobiologie du comportement. Une importance particulière est placée dans les propriétés du traitement de l'information du système nerveux de façon à offrir un cadre de référence à la compréhension de thèmes tels la perception, l'attention, le sommeil et la vigilance, la motivation et l'apprentissage. L'étudiant(e) qui détient les crédits du PSYC 3351 ne peut se faire créditer aucun des cours PSYC 3350 ou l'ancien PSYC 3331 (017.333) ou l'ancien PSYC 3330 (017.333). *Préalable:* [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur. Donné au Collège universitaire de Saint-Boniface.

PSYC 3360 Experimental Child Psychology Cr.Hrs.3 (Formerly 017.336) Selected topics in child psychology are reviewed, such as infant learning and the development of memory processes. Students learn methods for observing child behaviour through laboratory assignments. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3370 Principles of Physiological Psychology Cr.Hrs.3 (Formerly 017.337) This course provides an in-depth examination of the important issues and areas of physiological psychology, with emphasis on recent and exciting developments. Biological systems and processes that underlie behaviour and experience will be studied. *Prerequisite:* [a grade of "C" or better in PSYC 3350 or PSYC 3351 or the former PSYC 3330 (017.333) or the former PSYC 3331 (017.333)] or written consent of department head.

PSYC 3390 Thinking Cr.Hrs.3 (Formerly 017.339) A survey of psychological inquiries into complex mental processes. The course provides a conceptual integration of concept learning, problem-solving, creativity, and fantasy. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3430 Sensory Processes Cr.Hrs.3 (Formerly 017.343) A review of the structure and function of biological receptor systems and how they mediate information about the environment. It includes such topics as receptor transduction, neural correlates of sensation, and neural models of sensory discrimination. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 or in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] and [a grade of "C" or better in one of the following: PSYC 2360 (017.236), or PSYC 3350, or PSYC 3351, or both BIOL 1020 and BIOL 1030, or both BIOL 1021 and BIOL 1031, or BIOL 2410, or the former ZOOL 2530 (022.253), or the former PSYC 3330 (017.333), or the former PSYC 3331 (017.333), or the former 071.125].

PSYC 3441 Perception Cr.Hrs.3 (L'ancien 017.344) Un survol des méthodes et des techniques qui traitent de l'interaction entre les informations sensorielles et les informations existantes au sein de l'organisme. Les sujets traités incluent la psychophysique, les constances perceptives, l'apprentissage perceptuel, l'adaptation et les désordres. L'étudiant ne peut pas se faire créditer à la fois le PSYC 3441 (017.344) et le PSYC 3160. *Préalable:* [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur. Donné au Collège universitaire de Saint-Boniface.

PSYC 3450 Psychology of Personality Cr.Hrs.3 (Formerly 017.345) The study of theory and research on the principles affecting personality development and structure. Students may not hold credit for both PSYC 3450 (017.345) and PSYC 3451 (017.345). *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3451 Psychologie de la personnalité Cr.Hrs.3 (L'ancien 017.345) Étude de la théorie et de la recherche dans les principes qui gouvernent le développement de la personnalité. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 3451 (017.345) et le PSYC 3450 (017.345). *Préalable:* [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur.

Donné au Collège universitaire de Saint-Boniface.

PSYC 3460 Abnormal Psychology Cr.Hrs.3 (Formerly 017.346) The study of theory and research on abnormal human behaviour. The major forms of psychological disturbance are discussed. An introduction to the prevention and treatment of psychological disturbances is given. Students may not hold credit for both PSYC 3460 (017.346) and PSYC 3461 (017.346). *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3461 Psychologie de l'anormal Cr.Hrs.3 (L'ancien 017.346) Étude de la théorie et de la recherche dans le domaine du comportement anormal de l'homme. On discute les formes principales des troubles psychologiques, leur prévention et leur traitement. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 3461 (017.346) et le PSYC 3460 (017.346). *Préalable:* [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur. Donné au Collège universitaire de Saint-Boniface.

PSYC 3480 Social Learning and Psychopathology Cr.Hrs.3 (Formerly 017.348) This course emphasizes the manner in which pathological and maladaptive behaviour patterns are transmitted to the individual by his/her environment. The major focus is on the way in which various psychosocial forces contribute to specific disorders such as schizophrenia and psychosomatic illnesses. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3490 Individual Differences Cr.Hrs.3 (Formerly 017.349) This course is concerned with the systematic way in which individuals vary. Topics include individual differences as a function of sex, age, race, and socioeconomic status. Specific behaviours to be studied include reaction-time differences, differences in intelligence, differences in aptitudes and interests, and differences in motor abilities. The reasons for some of these differences will also be delineated. Hence genetic and physiological factors, as well as psychological explanations for individual differences, will be studied. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3510 Organizational Psychology Cr.Hrs.3 (Formerly 017.351) An examination of representative theory and research about psychological aspects of behaviour in various types of organizations. Topics include personnel selection, group processes, worker satisfaction, productivity, and consumer behaviour. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3520 Independent Research in Psychology 1 Cr.Hrs.3 (Formerly 017.352) Students carry out a research project and write a paper. Research may include historical, theoretical or experimental analyses of psychological problems. Normally available only to third and fourth year students who are in Honours Psychology or who are Psychology Majors and have completed one of: PSYC 2300 (017.230), or both PSYC 2250 (017.225) and PSYC 2260 (017.226), or both PSYC 2251 (017.225) and PSYC 2261 (017.226). A student may not hold credit for more than two of PSYC 3520 (017.352) or PSYC 3560 (017.356) or PSYC 3590 (017.359). *Prerequisite:* pre-arranged written consent of an individual instructor and written consent of department head.

PSYC 3530 Contemporary Issues 1 Cr.Hrs.3 (Formerly 017.353) The content of this course will vary from year to year, but in general it will entail either some specific topic of prominent interest in psychology or a psychological analysis of some problem of current public interest. Students may not hold credit for both PSYC 3530 (017.353) and PSYC 3531 (017.353). *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head. As the course content will vary from year to year, students may take this course more than once for credit.

PSYC 3531 Problèmes contemporains 1 Cr.Hrs.3 (L'ancien 017.353) Le contenu de ce cours variera d'année en année, mais traitera généralement d'un sujet spécifique d'actualité concernant la psychologie, ou de l'analyse psychologique d'un problème d'intérêt public. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 3531 (017.353) et le PSYC 3530 (017.353). *Préalable:* [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur. Le contenu variera d'année en année alors l'étudiant(e) peut se faire créditer ce cours plus d'une fois. Donné au Collège universitaire de Saint-Boniface.

PSYC 3540 Contemporary Issues 2 Cr.Hrs.3 (Formerly 017.354) The content of this course will vary from year to year, but in general it will entail either some specific topic of prominent interest in psychology or a psychological analysis of some problem of current public interest. Students may not hold credit for both PSYC 3540 (017.354) and PSYC 3541 (017.354). *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head. As the course content will vary from year to year, students may take this course more than once for credit.

L'étudiant(e) ne peut se faire créditer à la fois le PSYC 3541 (017.354) et le PSYC 3540 (017.354). *Préalable:* [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur.

Le contenu variera d'année en année alors l'étudiant(e) peut se faire créditer ce cours plus d'une fois. Donné au Collège universitaire de Saint-Boniface.

PSYC 3560 Supervised Field Study in Psychology Cr.Hrs.3 (Formerly 017.356) Students usually do supervised field work in a community setting and write a paper. Normally available only to third and fourth year students who are in Honours Psychology or who are Psychology Majors. A student may not hold credit for more than two of: PSYC 3520 (017.352), PSYC 3560 (017.356), PSYC 3590 (017.359). *Prerequisite:* prearranged written consent of an individual instructor and written consent of department head.

PSYC 3580 Language and Thought Cr.Hrs.3 (Formerly 017.358) An examination of recent investigations of human language behaviour. Emphasis will be placed on natural language phenomena, which will be examined within the framework of modern theories of thought. Some of the topics considered include communication, the development of language, and natural language comprehension. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3590 Independent Research in Psychology 2 Cr.Hrs.3 (Formerly 017.359) Students carry out a research project and write a paper. Research may include historical, theoretical or experimental analysis of psychological problems. Normally available only to third and fourth year students who are in Honours Psychology or who are Psychology Majors and have completed one of: PSYC 2300 (017.230), or both PSYC 2250 (017.225) and PSYC 2260 (017.226), or both PSYC 2251 (017.225) and PSYC 2261 (017.226). A student may not hold credit for more than two of: PSYC 3520 (017.352), PSYC 3560 (017.356), PSYC 3590 (017.359). *Prerequisite:* prearranged written consent of an individual instructor and written consent of department head.

PSYC 3600 Environmental Psychology Cr.Hrs.3 (Formerly 017.360) The scientific study of environment/behaviour interactions. The physiological and behavioural effects of the thermal, sonic, luminous, and built environment. Perception and evaluation of environments. Behaviour in domestic, work, and urban environments. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3610 Memory Cr.Hrs.3 (Formerly 017.361) Selected topics in human memory are reviewed, including the physiological and chemical bases for learning and memory, primary determinants of forgetting, memory models, nonverbal memory, organization in memory, and the use of mnemonic schemes to improve memory. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

PSYC 3620 Community Mental Health Cr.Hrs.3 (Formerly 017.362) A general introduction to community mental health theory and practice. The history of psychiatric care and dominant etiological models are briefly reviewed. Factors contributing to the development of community mental health approaches in dealing with psychological problems are discussed and current programs are reviewed. At least one field trip is required. *Prerequisite:* written consent of instructor or department head.

PSYC 3630 Psychological Measurement and Assessment Cr.Hrs.3 (Formerly 017.363) A study of the basic concepts of measurement in psychology and the application of these concepts in selected areas of psychology. The principal topics of the course will be historical foundations, basic concepts such as reliability, validity, and invariance, the use of different tests and instruments, scaling, and the unique aspects of measurement encountered in different areas of psychology. Students may not hold credit for both PSYC 3630 (017.363) and PSYC 3631 (017.363). *Prerequisite:* [a grade of "C" or better in PSYC 2300 (017.230)] or [a grade of "C" or better in both PSYC 2250 (017.225) and PSYC 2260 (017.226)] or [a grade of "C" or better in both PSYC 2251 (017.225) and PSYC 2261 (017.226)] or written consent of department head.

PSYC 3631 Mesure et évaluation en psychologie Cr.Hrs.3 (L'ancien 017.363) Étude et application des principes de la mesure dans divers domaines psychologiques. On étudiera les concepts de validité, de constance, d'échelonnement, de variance, et on offrira une introduction à la construction et l'utilisation de différents tests psychologiques. L'étudiant(e) ne peut se faire créditer à la fois le PSYC 3631 (017.363) et le PSYC 3630 (017.363). *Préalable:* [une note minimale de C dans le PSYC 2300 (017.230)] ou [une note minimale de C dans tous les deux PSYC 2250 (017.225) et PSYC 2260 (017.226)] ou [une note minimale de C dans tous les deux PSYC 2251 (017.225) et PSYC 2261 (017.226)] ou l'autorisation écrite du professeur. Donné au Collège universitaire de Saint-Boniface.

PSYC 3641 Introduction à la neuropsychologie Cr.Hrs.3 (L'ancien 017.364) Un survol des connaissances actuelles touchant les relations entre le cerveau et les comportements humains. Les sujets suivants sont traités: organisation du système nerveux, les désordres neurologiques, effets des lésions cérébrales sur les comportements (agnosie, aphasie, apraxie, négligence, etc.) asymétrie cérébrale, applications cliniques. *Préalable:* [une note minimale de C dans le PSYC 1200 (017.120) ou le PSYC 1201 (017.120)] ou [une note minimale de C dans tous les deux PSYC 1211 (017.121) et PSYC 1221 (017.122)] ou l'autorisation écrite du professeur. Donné au Collège universitaire de Saint-Boniface.

PSYC 3650 Introduction to Clinical Psychology Cr.Hrs.3 (Formerly 017.365) Clinical psychology is presented as both a scientific and an applied discipline. Such topics as assessment, intervention, research, and professional issues are covered. *Prerequisite:* [a grade of "C" or better in one of: PSYC 3450 (017.345) or PSYC 3451 (017.345) or PSYC 3460 (017.346) or PSYC 3461 (017.346)] or written consent of department head.

PSYC 3660 Sport Psychology Cr.Hrs.3 (Formerly 017.366) This course examines the use of psychological knowledge to enhance the development of performance and satisfaction of athletes and others associated with sports. Topics include improving skills of athletes, motivating practice performance, increasing the effectiveness of coaches,

and mental preparation for competition. *Prerequisite:* [a grade of "C" or better in PSYC 1200 (017.120) or PSYC 1201 (017.120)] or [a grade of "C" or better in both PSYC 1211 (017.121) and PSYC 1221 (017.122)] or written consent of department head.

Honours Courses

All Honours courses have as prerequisite appropriate standing in the Honours Psychology program.

PSYC 2300 Advanced General Psychology Cr.Hrs.6 (Formerly 017.230) A lecture and laboratory course introducing basic rationale, logic, and design in research, particularly emphasizing independent research. *Prerequisite:* written consent of department head.

PSYC 3340 Design and Analysis for Psychological Experiments Cr.Hrs.3 Methods for controlling sources of internal validity in psychological experiments, such as randomization, blocking, factorial configurations, and repeated measurements, will be discussed. Descriptive and multivariate methods of analysis will also be introduced. The use of statistical packages will be illustrated. Students may not hold credit for both PSYC 3340 and the former PSYC 4570 (017.457). *Prerequisite:* [a grade of "C" or better in PSYC 2300 (017.230)] or [a grade of "C" or better in both PSYC 2250 (017.225) and PSYC 2260 (017.226)] or [a grade of "C" or better in both PSYC 2251 (017.225) and PSYC 2261 (017.226)], and written consent of department head.

PSYC 3420 Learning Cr.Hrs.6 (Formerly 017.342) A course surveying research in animal and human learning and emphasizing the discovery of basic principles related to the control of behaviour. Major theoretical systems will be considered. *Prerequisite:* written consent of department head.

PSYC 4450 Animal Behaviour 1 Cr.Hrs.3 (Formerly 017.445) The nature-nurture controversy will be discussed, followed by a survey of the diverse behaviours relating to the physical environment (e.g., food storage); predation (e.g. trapping); defence (e.g., camouflage); and migration. *Prerequisite:* written consent of department head.

PSYC 4460 Animal Behaviour 2 Cr.Hrs.3 (Formerly 017.446) A more detailed analysis of selected topics including communication, animal populations, and the social use of space in humans and infrahumans. *Prerequisite:* written consent of department head.

PSYC 4470 Perception Cr.Hrs.3 (Formerly 017.447) Emphasis is on coding and learning in visual perception. Perceptual plasticity is related to the physiology of encoding, information and decision processes, adaptation and constancy phenomena, and perceptual learning in the young. *Prerequisite:* written consent of department head.

PSYC 4480 Thinking Cr.Hrs.3 (Formerly 017.448) A critical evaluation of theory and research in complex mental processes. Topics discussed include information processing, human memory and problem-solving, creative thought, psycholinguistics, and the development of thought. *Prerequisite:* written consent of department head.

PSYC 4490 Comparative Psychology Cr.Hrs.3 (Formerly 017.449) A survey of similarities and differences of behaviour at various phylogenetic levels. Topics include evolution, genetics, sensory processes, neuropsychology, learning processes, and social behaviour. *Prerequisite:* written consent of department head.

PSYC 4520 Honours Research Seminar Cr.Hrs.6 (Formerly 017.452) In first term there will be an examination of important experimental issues, and several experimental assignments. In addition, each student will propose a research project of greater scope to be conducted under the supervision of a Psychology staff member. In second term, students will carry out their projects and report their findings. *Prerequisite:* [90 credit hours towards honours program, including a grade of "C" or better in PSYC 3200, and three credit hours in PSYC 3630 (017.363) or PSYC 3631 (017.363) or PSYC 3340 or the former PSYC 4500 (017.450) or the former PSYC 4570 (017.457)], and written consent of department head.

PSYC 4530 Sleep and Dream Research Cr.Hrs.3 (Formerly 017.453) Course covers current research regarding sleep and dreams. Emphasis will be upon methodology and empirical findings. *Prerequisite:* written consent of department head.

PSYC 4540 Contemporary Issues 1 Cr.Hrs.3 (Formerly 017.454) Course content may vary from year to year, but in general it will entail either some specific topic of prominent interest in psychology or a psychological analysis of some problem of current public interest. *Prerequisite:* written consent of department head. As the course content will vary from year to year, students may take this course more than once for credit.

PSYC 4550 Stress and Adjustment Cr.Hrs.3 (Formerly 017.455) Significant aspects of stress research, theory, and management are reviewed. Major course topics are the evolution of the stress concepts, determinants of stress, measurement of stress, effects of stress and principles of adjustment to stress. *Prerequisite:* written consent of department head.

PSYC 4560 Health Psychology Cr.Hrs.3 (Formerly 017.456) This course focuses on understanding how psychological factors contribute to the promotion and maintenance of good health, to the prevention and treatment of illness, and to recovery from or adjustment to existing illness. *Prerequisite:* written consent of department head.

PSYC 4580 Elements of Behavioural Pharmacology Cr.Hrs.3 (Formerly 017.458) Data and theories related to psychoactive agents are introduced, with emphasis on therapeutic drug classes, drugs of abuse, and methodological issues in drug research. The focus is on the behavioural analysis of drug action, but a neuropharmacological analysis is developed where it has a firm relationship to the behavioural analysis. *Prerequisite:* written consent of department head.

PSYC 4590 Selected Topics in Social Psychology Cr.Hrs.3 (Formerly 017.459) A seminar in Social Psychology whose content shall vary from year to year. A description of the course is available in advance at the Psychology general office. *Prerequisite:* written consent of department head. As the course content will vary from year to year, students may take this course more than once for credit.

PSYC 4600 Selected Topics in Developmental Psychology Cr.Hrs.3 (Formerly 017.460) The specific content of this course will vary from year to year. A description of the course is available in advance at the Psychology general office. *Prerequisite:* written consent of department head. As the course content will vary from year to year, students may take this course more than once for credit.

PSYC 4610 Social Cognition Cr.Hrs.3 (Formerly 017.461) Focus on the processes determining how people perceive themselves and others in their social world. From topics such as causal attribution, psychological control, person memory, and social inference, the course will address selected issues from theoretical and empirical perspectives. *Prerequisite:* written consent of department head.

PSYC 4620 Community Mental Health Cr.Hrs.3 (Formerly 017.462) A seminar covering contemporary issues in community mental health and their relation to psychological services. Topics include the history of the community mental health movement, de-institutionalization as a social policy, the etiology and epidemiology

of mental disorders, recognition of and response to mental disorders, mental health systems, community-based mental health services, and prevention of mental disorders. Students may not hold credit for both PSYC 4620 (017.462) and PSYC 4540 (017.454) offered as Community Mental Health. *Prerequisite:* written consent of department head.

PSYC 4630 Behavioural Endocrinology Cr.Hrs.3 (Formerly 017.463) A comparative approach is adopted to examine how hormones influence a diversity of behaviours through their actions on brain function, the physiological substrates of the behaviours, and their development as evolutionary adaptations. Techniques used by behavioural neuroscientists to study the behavioural and neuroendocrine interactions are surveyed. *Prerequisite:* [a grade of "C" or better in PSYC 3350 or PSYC 3351 or the former PSYC 3330 (017.333) or the former PSYC 3331 (017.333)] and written consent of department head.

8.25.2 Program Information

We are a world religions department. Our approach is interdisciplinary and engages a wide range of human activity commonly deemed "religious," seeking to understand how religions function, how religious discourse evolves, why certain religious perspectives gain prominence and how they are contested. We research and teach about a range of religions, past and present, from around the world, investigating the languages, ethical systems, practices, organizations, and institutions within which such religions are defined, refined, rejected, or renewed. Given the diversity of this study, such theoretical and methodological questions are viewed as central to the coherence of our courses, programs, and fields.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in six credit hours in Religion. For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on

all courses including the higher grade of repeated courses and excluding failed courses.

A maximum of 12 credit hours in Religion courses numbered at the 1000-level may be used toward the 30 credit hours for the Major.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate including the higher grade of repeated courses and excluding failed courses.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in six credit hours in Religion.

A maximum of 12 credit hours in Religion courses numbered at the 1000-level may be used toward the 18 credit hours for the Minor.

Honours Program

For entry to the Honours Program, see Section 4.0: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Other

For the purpose of the Honours and the Major programs, the three areas of study are identified in the course listing with the following letters in brackets after the course title:

A: Western Religious Traditions

B: World Religions

C: Religion and Culture

In addition to courses numbered at the 1000-level, the Department of Religion offers a number of upper-level courses for which there are prerequisites; see course descriptions.

It is not necessary for students to enter the offerings in Religion by way of courses numbered at the 1000-level. Students in any year or program may register for any course in Religion provided they satisfy course and program prerequisites. With written permission of the department head students may take courses numbered at the 4000-level.

In cooperation with St. Paul's College, the Department of Religion offers an arrangement of courses with special emphasis in Catholic studies as an option for students intending to Major or Minor in Religion. This special emphasis involves completing course RLG 2850 Contemporary Issues in Roman Catholicism and selecting relevant courses offered in the Faculty of Arts and the School of Art. Contact the Department of Religion prior to registration in order to select appropriate courses.

It is also possible for students to complete a Specialization in Judaic Studies; contact the Department of Religion for information.

8.26.2 Program Information

Sociology examines the patterns of interaction among individuals and the group activity that emerges from such interaction. A basic premise is that social behaviour, and society itself, cannot be fully understood simply by studying the individuals involved. Sociology has a special interest in all those intermediate forms of association between the family and the state which together comprise much of the basis for social solidarity and cohesion. Whether individuals cooperate, compete, or fight is in large measure determined by forces outside themselves, by social forces that encourage or restrain their behaviour.

Criminology is the study of the patterns and causes of crime in society and the operation of the criminal justice system. The criminology program introduces students to the dimensions of the crime problem, the theories advanced to explain the various types of crime, and the array of agencies and programs designed to prevent, control, and respond to criminal activity. Attention is also given to issues relating to women and crime, youth and crime, the sociology of law, criminal law and procedure, comparative criminology, and community policing.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

8.28.2 Program Information

The program explores alternatives within society to achieve equal rights and equal treatment for both sexes. Women's and Gender Studies is necessary because of a hitherto limited understanding of the role played by women in history and contemporary society. Women's and Gender Studies explores traditional and feminist views of women, the psychology of women, women's economic roles, and their relationships to men and each other. The program is interdisciplinary in focus.

For entry, continuation and graduation requirements for the General Degree, Advanced Degree and Honours Degree, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

The following entries contain information which is not contained in Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Major Program

For entry to the Major, the prerequisite is a grade of "C" or better in each of two 3 credit hour courses in Women's and Gender Studies. It is suggested that students wishing to Major in Women's and Gender Studies take both WOMN 1530 and WOMN 1540. For students who have taken additional courses toward the Major, then a minimum cumulative GPA of 2.00 is required on all courses including the higher grade of repeated courses and excluding failed courses.

A minimum cumulative GPA of 2.00 in all courses that comprise the Major is required to graduate including the higher grade of repeated courses and excluding failed courses.

Minor Program

For entry to the Minor, the prerequisite is a grade of "C" or better in each of two 3 credit hour courses in Women's and Gender Studies.

Honours Program

For entry to the Honours Program, see Section 4: Basic Faculty Regulations for the Three Programs Leading to a B.A.

Coordinated Programs in Women's and Gender Studies

Students may take courses in the Women's and Gender Studies program at the University of Winnipeg and, where applicable, have these courses credited to their degree at the University of Manitoba. The coordinated program offers students access to more faculty resources, greater course selection and additional library facilities and thus can enrich their Women's and Gender Studies program.

Students are advised to consult with the Women's and Gender Studies coordinator for information on courses available for credit in Women's and Gender Studies.

In addition, special courses under the rubric of selected topics or contemporary issues may be available in various Arts departments, particularly Anthropology, English, Psychology, and Sociology, for Women's and Gender Studies credit in any given academic term.

8.28.4 Women's and Gender Studies Course Descriptions

For prerequisite, corequisite and course availability information, see Section 5.6: Prerequisite, Corequisite, and Course Availability.

WOMN 1530 Introduction to Women's Studies in the Humanities Cr.Hrs.3 (Formerly 156.153) Examination of women and the humanities, the development of feminism and of the contemporary women's movement, introduction to theories and issues in women's studies.

WOMN 1540 Introduction to Women's Studies in the Social Sciences Cr.Hrs.3 (Formerly 156.154) Examination of women's historical and contemporary roles in the economy, family, and society from the perspectives of the social sciences. Investigation of strategies and issues of the contemporary women's movement.

WOMN 2500 Race, Class and Sexuality Cr.Hrs.3 (Formerly 156.250) An exploration of the various ways race, class, and sexual orientation impact on women's lives and identities. Focus is on how racism, classism and heterosexism are produced and reproduced both within and outside of the feminist movement. *Prerequisite:* [a grade of "C" or better in a minimum of three credit hours of Women's and Gender Studies courses] or written consent of the Women's and Gender Studies coordinator.

WOMN 2510 Women and Education Cr.Hrs.3 (Formerly 156.251) An examination of school knowledge and organization as they affect the experiences of girls and women as students and teachers. Includes an exploration of the interaction between schooling and women's work as mothers, and between education and femininity.

WOMN 2520 Introduction to Feminist Theory Cr.Hrs.3 (Formerly 156.252) Survey of the varieties of feminist thought and the various approaches feminists have taken toward developing an understanding of women's oppression and the possibilities for change. *Prerequisite:* [a grade of "C" or better in a minimum of three credit hours of Women's and Gender Studies courses] or written consent of the Women's and Gender Studies coordinator.

WOMN 2530 Writing Women's Lives Cr.Hrs.3 (Formerly 156.253) Examination of the ways that traditional scripts for women have been rewritten in literature and film. Topics include coming-of-age, madness, utopia, motherhood, and romantic love as represented in fairytales, autobiographies, documentaries, contemporary novels, and Hollywood films.

WOMN 2540 Special Topics in Women's Studies Cr.Hrs.3 (Formerly 156.254) Course content will vary according to the needs and interests of students and instructors. Consult the Women's and Gender Studies Program office for information as to specific topics offered. As the course content will vary from year to year, students may take this course more than once for credit.

WOMN 2550 Women in Nicaragua/Women in Canada Cr.Hrs.6 (Formerly 156.255) Offered as part of the Summer Session, this course is an exploration of the political, social, economic and relational lives of women on the Caribbean coast of Nicaragua, as well as of broader questions such as the struggle for truly inclusive feminist theories and activism and the possibilities for transnational feminist solidarity. This course consists of two parts: 5 days at the University of Manitoba followed by 1 month on the Caribbean coast of Nicaragua. In Nicaragua we will be accompanied by students and faculty from the University of the Autonomous Regions of the Caribbean Coast of Nicaragua (URACCAN). *Prerequisite:* [a grade of "C" or better in a minimum of three credit hours of Women's and Gender Studies courses] and written consent of instructor.

WOMN 2560 Women, Science and Technology Cr.Hrs.3 (Formerly 156.256) An overview of women's historical and contemporary participation in science, issues in science and math education, feminist critiques and theories on science and gender, and the impact of technology on women's lives.

WOMN 2570 Soap Operas, Harlequins, and Talk Shows Cr.Hrs.3 (Formerly 156.257) This course looks at gender-specific forms of entertainment that have been identified with women. Using postmodern feminist approaches to media, the course looks at how these forms are scripted for TV and cheap paperbacks, and at how the media constructs women as a marketing category for cultural and product consumption. Students may not hold credit for both WOMN 2570 (156.257) and WOMN 2540 (156.254) with the topic "Soaps, Harlequins, Talk Shows."

WOMN 2600 Sex, Gender, Space and Place Cr.Hrs.3 An examination of how we use places and spaces in our everyday lives to produce and maintain social differences of gender, sexuality, race, class, and citizenship. Drawing on perspectives from feminist geography and history, this course explores ideas about places (for example, homes) and spaces (for example, regions), as well as historical claims that women belong in place but men should control space. Students may not hold credit for both WOMN 2600 and WOMN 2540 (156.254) with the topic "Sex, Gender, Space and Place."

WOMN 3500 Selected Topics in Women's Studies Cr.Hrs.3 (Formerly 156.350) Course in which content varies from year to year according to needs and interests of students and instructors. *Prerequisite:* [a grade of "C" or better in a minimum of three credit hours of Women's and Gender Studies courses] or written consent of the Women's and Gender Studies coordinator. As the course content will vary from year to year, students may take this course more than once for credit.

WOMN 3510 International Feminisms Cr.Hrs.3 (Formerly 156.351) An examination of the social, political, economic and cultural realities facing women around the world, with emphasis on "Third World" women. A major focus will be on feminist struggles for change, international organizing and transnational solidarity efforts. *Prerequisite:* [a grade of "C" or better in a minimum of three credit hours of Women's and Gender Studies courses] or written consent of the Women's and Gender Studies coordinator.

WOMN 3530 Readings in Women's Studies Cr.Hrs.6 (Formerly 156.353) Directed readings in a range of Women's Studies literature. This is an independent study course. *Prerequisite:* written consent of instructor and Women's and Gender Studies

WOMN 3540 Readings in Women's Studies Cr.Hrs.3 (Formerly 156.354) Directed readings in a range of Women's Studies literature. This is an independent study course. *Prerequisite:* written consent of instructor and Women's and Gender Studies coordinator. As the course content will vary from year to year, students may take this course more than once for credit.

WOMN 3550 Feminist Community Organizing: Theories and Practices Cr.Hrs.3 (Formerly 156.355) Overview of organizing efforts and techniques, community issues and strategies that women have developed in North American and especially Canadian communities. Focus is on a synthesis of thought and action, theory and practise. *Prerequisite:* [a grade of "C" or better in a minimum of three credit hours of Women's and Gender Studies courses] or written consent of the Women's and Gender Studies coordinator.

WOMN 3560 Feminist Perspectives on Violence Against Women Cr.Hrs.3 (Formerly 156.356) An overview of feminist research and theories on violence against women as an integral component of our social structure, and on issues of social change to alleviate the problem. *Prerequisite:* [a grade of "C" or better in a minimum of three credit hours of Women's and Gender Studies courses] or written consent of the Women's and Gender Studies coordinator.

WOMN 3570 Feminist Cultural Studies Cr.Hrs.3 (Formerly 156.357) The study of how women are involved in, affected by, and have analysed culture, particularly the arts and popular culture. Includes an examination of how women participate in, are represented within, and are affected by, cultural productions. *Prerequisite:* [a grade of "C" or better in a minimum of three credit hours of Women's and Gender Studies courses] or written consent of the Women's and Gender Studies coordinator.

WOMN 3580 Feminist Approaches to Research Cr.Hrs.6 (Formerly 156.358) An examination of the processes of research on, by and for women. It provides an understanding of epistemology, methodology and methods in feminist research. Students develop their own research proposals as the major assignment for this seminar course. *Prerequisite:* [a grade of "C" or better in a minimum of three credit hours of Women's and Gender Studies courses] or written consent of the Women's and Gender Studies coordinator.

WOMN 3600 Good Girls/Bad Girls Cr.Hrs.3 (Formerly 156.360) This course challenges the good girl/bad girl binary as a way of defining the complex reality of women's lives by closely examining regimes of mental and physical hygiene. The course also considers how the media use this binary to sensationalize women like Princess Diana, Madonna, Amy Fisher, and Monica Lewinsky. Students may not hold credit for both WOMN 3600 (156.360) and WOMN 3500 (156.350) with the topic "Good

Girls/Bad Girls." *Prerequisite:* [a grade of "C" or better in a minimum of three credit hours of Women's and Gender Studies courses] or written consent of the Women's and Gender Studies coordinator.

WOMN 3610 Dream Girls, Show Girls, Riot Grrrls Cr.Hrs.3 (Formerly 156.361) A feminist survey of women's performances in media in a sexist society. The course explores the relation between women putting on a show and being on show: e.g., Las Vegas revues, Madonna's videos, 90's supermodels, gynecologists' offices, radical feminist street protests, Playboy centerfolds, Riot Grrrl music, and performance art. Students may not hold credit for both WOMN 3610 (156.361) and WOMN 3500 (156.350) with topic "Good Girls/Bad Girls - The Sequel." *Prerequisite:* [a grade of "C" or better in a minimum of three credit hours of Women's and Gender Studies courses] or written consent of the Women's and Gender Studies coordinator.

WOMN 3620 Masculinities Cr.Hrs.3 An introduction to the key debates in masculinity studies from a feminist perspective. Considering the idea of "hegemonic masculinity" and the practice of creating a typology of masculinity, this course examines the changing forms of masculinity as a political and cultural category, using historical examples from the 19th century and the 1970s and considers the influence of feminist theories on men's engagement with masculinity in North America. Students may not hold credit for both WOMN 3620 and WOMN 3500 (156.350) with the topic "Masculinities." *Prerequisite:* [a grade of "C" or better in a minimum of three credit hours of Women's and Gender Studies courses] or written consent of the Women's and Gender Studies coordinator.

Honours Courses

WOMN 4100 Honours Thesis Cr.Hrs.6 (Formerly 156.410) The Thesis presents the results of an independent research project supervised by a faculty member. *Prerequisite:* written consent of the Women's and Gender Studies coordinator.

WOMN 4110 Advanced Feminist Theory Cr.Hrs.3 (Formerly 156.411) In-depth analysis of feminist thought through an exploration of the major debates and issues in contemporary feminist theory. *Prerequisite:* [a grade of "C" or better in WOMN 2520 (156.252)] and written consent of the Women's and Gender Studies coordinator.

WOMN 4120 Practicum in Feminist Organizing Cr.Hrs.6 (Formerly 156.412) Between September and March, the student will complete a minimum of 80 hours of unpaid independent work in a feminist or woman-centered organization and meet regularly with the instructor and other practicum students. Students will reflect critically on the work experience in course assignments. *Prerequisite:* [a grade of "C" or better in at least 24 credit hours in Women's and Gender Studies courses] and written consent of the Women's and Gender Studies coordinator.

Section 9: Courses and Programs Offered by Other Faculties and Schools for Credit in Arts

Courses

All degree credit courses offered by other Faculties or Schools at the University of Manitoba are acceptable for credit in Arts (excludes Pass/Fail courses) subject to the Faculty of Arts overall degree requirements. Such courses taken prior to admission to Arts will be included on transfer and will also be used in determining eligibility for admission. For details see Section 5.3. For course descriptions see the departmental listing in this Calendar.

Programs

Also listed below are eight programs which can be used by Faculty of Arts students to satisfy the Major or Minor requirement for graduation with a Bachelor of Arts degree. These programs are:

History of Art General Major
History of Art Minor
Minor in Business
Mathematics General Major

NOTES:

¹ MATH 2600 has a prerequisite of COMP 1010.

² MATH 2750 may be substituted for MATH 2720 and MATH 2730.

For entry to either Major in Mathematics, the prerequisite is a grade of "C+" or better in six hours of Mathematics courses taken.

For entry to the Minor in Mathematics, the prerequisite is a grade of "C" or better in six hours of Mathematics courses taken.

A detailed listing of courses in the Department of Mathematics is available in the *Calendar* entries of the Faculty of Science.

Equivalent Honours courses may sometimes be substituted for the courses listed above. In this way, a Major degree can be considerably strengthened. For more detailed advice students should talk to a faculty member in the department.

9.5 Interfaculty Option in Aging

An Interfaculty Option in Aging is offered by: Architecture (Interior Design), Arts, Human Ecology, Nursing, Kinesiology and Recreation Management, and Social Work. To complete the option, Arts students will need to complete each of the following: a) The Social Aspects of Aging, HMEC 2650 or REC 2650 or SWRK 2650; b) Health and Physical Aspects of Aging, NURS 2610 or KIN 2610; c) Developmental Psychology from Adolescence to Old Age, PSYC 2370, and Sociology of Aging, SOC 2620. (Prerequisites for these courses are a grade of "C" or better in, respectively, PSYC 1200 or SOC 1200); and d) an additional six credit hours from the following courses:

Faculty of Arts

Psychology

PSYC 3460	Abnormal Psychology	3
PSYC 3490	Individual Differences	3

PSYC 3610	Memory Religion	3
RLGN 1410	Death and Concepts of the Future (C) Sociology	3
SOC 2490	Sociology of Health and Illness	3
SOC 3510	Population Dynamics and Change	3
SOC 3540	The Sociology of Health Care Systems	3
Clayton H. Riddell Faculty of Environment, Earth, and Resources		
	Geography	
GEOG 4710	Geography of the Elderly and Aging	3

Upon completion of these requirements, a "Comment" will be added to the student's transcript. For information concerning the option, interested students are directed to faculty general offices.

Registration Information

Initial Access Times

New and returning students are referred to the Aurora Student website for initial access time information.

SECTION 1: Welcome

Welcome to the Faculty of Arts.

Please contact our office, either in person or by phone, to seek advice, assistance, or information concerning your academic program, registration procedures, and related problems.

Student advisors are available to help you plan your studies to meet the degree requirements and to provide information on the services available to you on campus.

If you are in a special category such as "Transfer" or on "Academic Warning," we advise you to consult a student advisor before registration. We encourage you to take advantage of the expertise our advisors offer.

While we are prepared to provide information and assistance to you, it is important for you to realize that *it is your responsibility* to be familiar with university and faculty academic regulations and registration procedures as they are described in this publication.

SECTION 2: Faculty Hours and Departments

Faculty of Arts, General Office

Third Floor, Fletcher Argue Building

Telephone: 474 9100; **FAX:** 474 7590

Office Hours: Monday through Friday: 8:30 a.m. to 4:30 p.m.

Department/Program Offices

Please refer to the department/program entries in this chapter.

SECTION 3: College Academic Programs

3.1 St. John's College

St. John's College was established in 1866 and later became one of the founding colleges of the University of Manitoba. It offers courses to students from all faculties and schools. These courses are accredited by the University of Manitoba degree granting programs and they are taught by College Fellows. Students who wish to learn in small classes in a community atmosphere, which includes a student residence, are encouraged to apply. For information, contact the College Registrar, at 474 8520.

3.2 St. Paul's College

St. Paul's College is the Catholic College at the University of Manitoba. Since 1970, its academic programs have been integrated with those of the university. Its faculty members belong to the departments of the university; its students may take any academic program offered by the university.

SECTION 4: Information Applicable to All Students

4.1 Important Information: Student Responsibility

It is your responsibility to be familiar with the regulations, course and graduation requirements of the degree program you have enrolled in. You are advised to review the appropriate sections in Part 1 of this book, the *Undergraduate Calendar*, carefully when selecting your courses, to ensure

compliance with degree program requirements. If you are not sure of how regulations and requirements apply to your case, please consult a student advisor in the General Office of the Faculty of Arts.

Since a complete graduation check is not done until you have indicated your intention to graduate, you are encouraged to make an appointment with a student advisor prior to your initial registration access date to confirm you are meeting the degree requirements. Ultimately you are responsible to ensure compliance with degree program requirements.

4.2 Registration Priorities

Read all of Section 4: Information Applicable to All Students **and**

If you are a *newly admitted transfer student*, read Section 5.

If you are a *returning student, and/or a student transiting from University 1*, read Section 6.

If you are a *visiting, auditing, special, or second degree student*, read Section 8.

4.3 Registration Office Hours

In person registration is only available to students who wish (and are eligible) to register for courses that are not available through Aurora Student. All other students *must* register using Aurora Student.

During the months of July and August, the Arts General Office is open from Monday thru Friday from 8:30 a.m. until 4:00 p.m., except on statutory holidays. Student Advisors are available on a drop-in basis or students may make an appointment to see an advisor between 9:00 a.m. and 11:30 a.m.

Arts General Office, 3rd Floor Fletcher Argue Building

4.4 Maximum Number of Courses During a Term

You may attempt a maximum of 15 credit hours during a Term. If, however, you have taken no fewer than 24 credit hours in the previous Fall/Winter Terms and obtained a Grade Point Average of 2.75 (with no failures) in these Terms, then you would be allowed to take 18 credit hours in the next Term. If you meet this minimum and wish to exceed the normal load you may apply in-person at the Arts General Office or on the Faculty of Arts website at "http://umanitoba.ca/faculties/arts/student/student_forms.html." Contact the Arts General Office at 474 9100 for information.

4.5 Distance and Online Education Courses

You may register for a combination of on-campus and independent study courses offered through Extended Education. Registration is carried out through Aurora Student. The normal maximum of 15 credit hours per Term will apply.

Distance and Online Education information, including registration information, is available from the Student Services Office, Extended Education or in the General Office, Faculty of Arts.

4.6 Subject Area Requirement with Examples

By the time you complete or are registered for up to 60 credit hours (10 six credit hour-course equivalents) you must have at least one six credit hour-course equivalent in five *different subject* fields (or from 5 different departments).

Here is an example of a student who has registered in five different subject fields:

Department	Course	Credit Hours	Subject Area
Psychology	PSYC 1200	6	First
Sociology	SOC 1200	6	Second
Economics	ECON 1200	6	Third
Mathematics	MATH 1500	3	
		Plus	Fourth
Mathematics	MATH 1300	3	
Anthropology	ANTH 1210	3	
		Plus	Fifth
Anthropology	ANTH 1220	3	

Here is an example of a student who *has not* registered in five different subject fields:

Department	Course	Credit Hours	Subject Area
Psychology	PSYC 1200	6	First
Sociology	SOC 1200	6	Second
Economics	ECON 1200	6	Third
Mathematics	MATH 1500	3*	
Anthropology	ANTH 1210	3*	
Religion	RLGN 1320	6	Fourth

* Not six credit hour-course equivalents (i.e. six credit hours) from one subject field. If you have not satisfied the subject field requirement by the time you complete and/or have registered for 60 credit hours, please contact the Arts General Office for clarification and assistance.

4.7 Voluntary Withdrawals

Please see Part 1, the *Undergraduate Calendar*, "Section 6.2: Withdrawal from Courses and Programs." Effective January 2006, there is no longer a limit on the number of Voluntary Withdrawals a student may have.

You are responsible for initiating withdrawals, and for doing this in the required manner by the deadline in the Academic Schedule. To voluntarily withdraw, it is not sufficient merely to stop going to class or to notify the instructor. Rather, you must officially withdraw from courses by the deadline by one of the following methods:

- If you registered through Aurora Student, the same method must be used to withdraw;
- If you registered in person, a request to withdraw must be submitted to the Faculty of Arts General Office, either by letter, or by appearing in person and completing a Registration Revision Form.

4.8 New Academic Standing Rules

Effective September 2006, the Faculty of Arts implemented new academic standing rules which limit the number of unsatisfactory grades, i.e., "F" and "D" grades permitted in an Arts degree.

All students currently in the Faculty of Arts are subject to the academic standing rules which replaced the minimum performance table previously used to assess a student's academic performance. An assessment of a student's academic performance is carried out at the conclusion of the Fall/Winter Terms and Summer Term if a registration has occurred. For details of the academic assessment rules, see Section 5.10 Maximum Number of "F" and "D" Grades Permitted on Courses Acceptable for Credit in Arts, located in the Calendar Information in this chapter.

4.9 Attend the Correct Section

Please see the chapter Other Important Things to Do and Know – Section 2

4.10 Course Outlines

Some departments have course outlines provided by individual instructors. Consult departmental general offices for further information.

4.11 Absence From Classes

If you are absent from classes for any reason, see your instructor to determine what arrangements, if any, can be made regarding missed term work and/or tests. Most instructors require a medical certificate or other documentation when you miss classes, miss an assignment, or miss a term test. Students who are going to be absent for any extended period of time (more than one week) should also notify the Arts General Office and seek advice concerning their status and the action they need to take.

4.12 Academic Evaluations Regulations

Regulations for the Academic Evaluation of Undergraduate Student Course Work for the Faculty of Arts may be found on the Faculty of Arts website. Go to Student Resources and follow the link.

4.13 Final Examinations

Please see the chapter Other Important Things to Do and Know – Section 3

4.14 Deferred Final Examinations

Please see the chapter Other Important Things to Do and Know – Section 3

4.15 Required Courses (Summer)

You are encouraged to register for required courses during the Fall/Winter Terms because there is no guarantee that required courses will be offered during the Summer. Optional courses are best taken during Summer.

4.16 Repeating Courses

Students who wish to repeat a course must obtain Faculty approval prior to registration. All courses taken will appear on your transcript; the calculation of a cumulative grade point average, the grade point average for the Major and the graduating (degree) average will include only the last grade of any course that has been repeated. The graduating (degree) average will exclude any failed course. Students should come into the Arts General Office to complete a Request to Repeat a Course Form or complete the form on-line at "http://umanitoba.ca/faculties/arts/student/student_forms.html."

4.17 Students Taking Courses Offered by Other Faculties and Schools

All degree credit courses offered by other Faculties or Schools at the University of Manitoba are acceptable for credit in Arts (excludes Pass/Fail courses) subject to the Faculty of Arts overall degree requirements. Students should be aware that other Faculties and Schools may restrict registration in their courses.

4.18 Graduation and Convocation

You are responsible for meeting all degree requirements. If you are unsure about whether or not you have fulfilled all requirements for your degree – you should contact the Faculty of Arts General Office and make an appointment to see a Student Advisor.

Graduation occurs three times a year – May, October, and February – while convocation ceremonies are held only twice each year – May and October. All February graduates are invited to be part of the May Convocation ceremonies.

Students in the General and Advanced programs who plan to graduate must indicate their intent to graduate by using Aurora Student. This feature is available to all students, whether or not you used Aurora Student to register for your courses.

Students in the Honours program who plan to graduate must declare their intention at the Arts General Office by the dates indicated below.

After indicating your expected date of graduation, you will receive a verification letter from The Registrar's Office confirming relevant graduation information such as name, address, degree sought and date of graduation. Amend any errors in the verification and return it to The Registrar's Office **immediately** to ensure time for correction.

You may also remove your graduation date through Aurora Student until approximately 8 weeks prior to the graduation date you had declared. After this, the system will not allow you to remove your date and you will need to contact the Faculty of Arts General Office.

Graduation Application Deadline Dates

Aurora Student will stop accepting graduation applications at approximately these dates

- May Graduation: end of revision period for Winter Term course changes
- October Graduation: August 1
- February Graduation: end of revision period for Fall Term course changes

If you have missed your deadline, or have other questions, please contact the Arts General Office. Remember that it is your responsibility to ensure that you have satisfactorily completed the requirements for graduation.

SECTION 5: Information for Newly Admitted Transfer Students from Other Colleges, Universities and Technical Institutes, etc.

5.1 Choosing Your Courses

Consult Aurora Student for courses and the times at which they are taught.

If you intend to transfer to the Faculty of Arts following completion of a minimum of 24 credit hours, be sure you select the equivalent of six credit hours in five different subject areas for your first 30 credit hours of registration. In addition to satisfying this Faculty requirement, you make yourself eligible in part, for consideration for admission to the Honours degree or Advanced degree programs.

After you receive your Certificate of Acceptance, the current edition of the *Undergraduate Calendar* will be mailed to you. You should study the sections in Part 1 of this book, the *Undergraduate Calendar*, pertaining to:

- The overall Faculty of Arts regulations, and
- The course descriptions and departmental announcements.

Section 6: Information Applicable to Returning Students Including Students Transiting from University 1

6.1 Program Planning

Returning students are reminded that the *Undergraduate Calendar* for the current session may be picked up. This document is available in April of each year at a location to be designated. Watch for posters and announcements indicating the location.

Students are urged to review information in the *Undergraduate Calendar* that is appropriate. Student advisors are available in the Faculty of Arts, General Office throughout the year to help you plan your Bachelor of Arts degree programs. You may also wish to discuss your proposed Major, Minor or Honours fields with faculty members in the Faculty of Arts departments. In addition you should review the *Undergraduate Calendar*. It will provide you with overall faculty regulations, departmental announcements and course descriptions as well as university-wide regulations and procedures pertaining to all students.

If you are planning a three-year degree program, use the Summary Sheet for the General degree located at the following website "<http://umanitoba.ca/faculties/arts/student/index.html>"

If you are planning a four-year Advanced degree or an Honours program, request assistance from departmental advisors or student advisors in the Arts General Office in planning your program.

In selecting your course of studies, remember that it is your responsibility to ensure that you:

- Meet the requirements for the degree;
- Meet the course prerequisites;
- Observe any restrictions with respect to the courses.

6.2 Declaring or Modifying Your Major or Minor

The Faculty of Arts requires that students who have completed (or have registered for) two thirds of a General degree program (i.e. 60 credit hours), declare both a Major and a Minor field of study. Aurora Student will prompt for the declaration of a Major and Minor and will not permit further registrations until this is declared.

While students may not intend to complete a B.A. General degree (e.g. student plans to transfer to another Faculty or School), the Faculty of Arts still requires students to make a Major and Minor declaration at the 60 credit hours point. This will allow for an alternative academic program in case the initial plan changes.

If you have previously declared a Major and a Minor, Aurora Student will confirm this information and no further action will be necessary.

To confirm your eligibility to declare a particular Major and/or Minor and to obtain information on current Major/Minor departmental requirements, see the departmental sections of this *Calendar*.

To enter or modify your Major or Minor, access the University of Manitoba home page (umanitoba.ca) then click on Aurora Student, then on Enrollment and Academic Records, then on Declarations.

Effective September 2008 students in the B.A. General degree and the B.A. Advanced degree programs may declare a double Major in lieu of a Minor. Students who wish to complete a double Major must complete a form in-person in the Arts General Office or on-line at "http://umanitoba.ca/faculties/arts/student/student_forms.html."

NOTE:

Not all Majors and Minors are available through Aurora Student. Consult the Arts General Office for the procedure to declare areas that are not available to Aurora Student (e.g., Minor in Business).

Minor programs offered by other Faculties and Schools that are not listed in the Faculty of Arts chapter of the *Undergraduate Calendar* may also be available to Arts students. Consult with a student advisor in the Arts General Office.

Registration difficulties may occur with certain Major/Minor combinations. If this occurs, contact the Arts General Office.

Students who wish to declare a Minor in Business must report to the General Office, Faculty of Arts commencing June 30, 2009. Students are advised to consult the University of Manitoba *Undergraduate Calendar* for condition of admission prior to application.

- Registration in the Minor is limited and is available on a first come, first served basis only, subject to space availability. Prerequisites, where they exist, must be met.
- Once students have been admitted to the Business Minor they may register for Business courses commencing on their stated registration date.
- Arts students who have **not** been admitted to the Business Minor may register for Business courses commencing August 6, 2009.

6.3 New Advanced Degree Students

Between the time final grades are issued in early June and the start of registration, if you wish to enter the Advanced program you are encouraged to review the entrance requirements in the *Undergraduate Calendar* and if you are eligible, report to the Arts General Office in person to apply.

6.4 Business Minor Students

Arts students who have previously been admitted to the Business Minor program may register for Business courses commencing on their stated registration date. Such students must provide the Arts General Office prior to their registration date, a list of the Business courses in which they wish to register.

SECTION 7: Former Arts Students Not Registered During Fall 2008/Winter 2009 Terms

Re-admission: Admissions Office

The following must apply through the Admissions Office in accordance with the application deadlines and be readmitted before they are eligible to register again:

Students who were previously admitted to the Faculty of Arts but did not register in the Faculty of Arts in that Term.

Students who have registered in another Faculty or School at the University of Manitoba since their last registration in the Faculty of Arts.

Students who have attended another university or institution since their last registration in the Faculty of Arts. This does not apply to Arts students who have taken courses at another university or college on the basis of a Letter of Permission granted by this university.

Applications for admission to the Faculty of Arts must be received by mail by June 1, 2009, or delivered *in-person* by July 2, 2009, with complete of-

ficial documentation. Assessment of possible transfer credit may not be completed prior to registration.

Re-registration: General Office, Faculty of Arts

Students previously admitted to Arts but not registered during Fall 2008/Winter 2009 Terms should contact the Arts General Office in person or complete and submit the form at the following website "http://umanitoba.ca/faculties/arts/media/request_to_re-register.pdf" to have their records reactivated.

Former students in the Faculty of Arts who have been academically suspended at the end of the Fall 2008/Winter 2009 Terms or the end of the 2009 Summer Session may not re-register. Students that may have registered for Fall/Winter Terms before grades from the Summer Session were available and were then placed on "Academic Suspension" will be withdrawn from the Fall/Winter Terms regardless of the date.

SECTION 8: Information for Visiting, Second Degree, Special and Auditing Students Only

8.1 Newly Admitted Second Degree and Special Students

Second Degree Students

Second degree students are those who have completed a first degree and have been newly admitted to the Faculty of Arts seeking a second degree. Second degree students are advised to contact an Arts Student Advisor prior to registration to determine transfer credits. Failure to advise the Faculty of transfer credit may result in the admission category being changed to "special."

Special Students

Special students are those who have completed a degree and who have been newly admitted to the Faculty of Arts for the purpose of taking credit courses out of interest or for some other purpose other than for seeking a second degree in the Faculty of Arts.

8.2 Returning Visiting, Second Degree and Special Students

Returning Visiting Students

Once having been admitted and registered as a Visiting student in the Faculty of Arts, you are eligible to register in the Faculty of Arts again in subsequent sessions without reapplying through the Admissions Office provided:

You have not changed your home university since your last registration at the University of Manitoba,
and

You last registered at the University of Manitoba in the Faculty of Arts,
and

You have a Letter of Permission from your home university approving your courses.

If you meet all of these requirements, present your Letter of Permission to the Arts General Office before registration. You may then register through Aurora Student for the courses approved on your Letter of Permission.

8.3 Auditing Students

Students wishing to audit courses must obtain written consent from the instructor of the course. This written consent must then be presented to the Arts General Office at the time of in-person registration commencing.

SECTION 9: Information Concerning Electives

If you are looking for electives from different disciplines that can give you an area of concentration to use to complement your Major or Minor, it is suggested you go to the *Undergraduate Calendar* located on the web at umanitoba.ca.

SECTION 10: Approved Teaching Centres

Students who wish to and who are eligible to cross register for courses taught at the following location should contact the relevant centre or the Arts General Office regarding the courses to be taught and the registration procedures to be followed. Information should be available approximately mid-July.

Approved Teaching Centres:

Prairie Theatre Exchange, 3rd Floor Portage Place
William and Catherine Booth College, 447 Webb Place

SECTION 11: Challenge for Credit

11.1 Regulations

Purpose

Challenges for credit provide students of the university with a means of obtaining academic credit in university courses without attending classes or laboratories or transferring credit from other institutions. The knowledge and competence underlying the academic credit thus obtained may have arisen either from practical training and experience or from reading and study, and its acquisition may have either antedated or followed registration at the university.

General

Only the courses listed in Section 11.2 are available for challenge. If you wish to challenge courses for credit, prior to registering you must obtain an Application to Challenge for Credit from the General Office, Faculty of Arts and obtain written approval from the department offering the course.

The final date to register and pay fees for challenge for credit courses where the final examination is held during the December series is September 23, 2009.

The final date to register and pay fees for challenge for credit courses where the final examination is held during the April series is January 18, 2010.

However, since approval of challenge for credit courses requires consent of the department offering the course and of the Faculty, we advise you to begin the procedure as early as possible.

Tuition fees for students wishing to challenge for credit are one-half the fees normally associated with the course.

If you intend to challenge courses for credit, note the university Senate approved regulations as well as the Faculty regulations governing challenge for credit which are listed below:

Senate Regulations

1. Application for challenge for credit in a given course in a given challenge period shall not be accepted by the university unless the applicant has at the time of application been admitted to or is registered in a program of a Faculty or School of the university, the Faculty or School officially counts the course in question as one that may be offered to qualify for the degree associated with the program, and the course is open for challenge in the challenge period.

2. An application for challenge for credit in a given course in a given challenge period shall not be accepted by the university unless it has the approval of the student's dean or director.

3. No student shall be allowed more than one challenge per course.

4. No student may challenge a course while on academic probation/warning or suspension.

Faculty Regulations

1. Students may offer at most 30 credit hours on the basis of challenge for credit (including transfers of credit of challenge for credit) to qualify for either the B.A. General, B.A. Advanced or B.A. Honours degrees.

2. Credit in any course beyond the 1000 level obtained by challenge for credit does not fulfil the B.A. Honours degree requirements without the written approval of the Honours department(s) involved.

3. Failed challenges for credit are to count in any B.A. program and so far as student progress in the B.A. Honours program is concerned are to count the same way as failed courses not challenged for credit.

4. A student may not register to challenge any given Arts course for credit if the student is concurrently or was previously registered (registered in the sense that the student's history does or will record the registration) in the same or an equivalent course (two Arts courses are equivalent if and only if either the current *Undergraduate Calendar* prohibits holding credit in both courses, or the courses are deemed equivalent by the department concerned). One exception to this rule is permitted: a student who previously challenged a given Arts course for credit and then duly voluntarily withdrew may again challenge the course or an equivalent.

Method of Evaluation

1. All methods of evaluation for challenges for credit must include a written, supervised examination (not a "take-home" examination and not an examination of which the questions are made available prior to the time the examination is written) that lasts at least two hours and that counts for more than 50 per cent of the final grade. (Such an examination is referred to as the final examination for challenge for credit. It may count for as much as 100 per cent of the final grade.)

2. The final examination shall be scheduled in the final examination period in question. The examination may be scheduled and administered by the Registrar, scheduled and administered by the department, or scheduled by the Registrar and administered by the department. If scheduled by the Registrar, the examination must be of two, three or four hours duration at the discretion of the department.

3. In addition to the final examination, additional course work may also be required, either other examinations (e.g. a laboratory examination) or essays or exercises or projects. All such other examinations shall be held in the challenge period in question as scheduled by the department involved and shall be administered by the department involved. Required work other than tests or examinations must be submitted to the department before or during the challenge period in question in accordance with deadlines set by the department involved.

4. Students registered for a challenge for credit may voluntarily withdraw in the usual way and in conformity with the following deadlines: For the December challenge period, the challenge VW deadline is the VW deadline for fall term half courses. For the April challenge period, the challenge VW deadline(s) are the applicable VW deadline for full and second term half courses.

5. The final grades reported for challenge for credit students are to be the customary letter grades or procedural grades now in use in Arts, are to be determined in accordance with the same marking standards used for non-challenge students in the same course, are to be reported on final grade mark registers in the usual way, and will show on official transcripts in the usual way except that an accompanying grade mode of "C" for "challenge for credit" will always appear — even if the official transcript shows VW or CW. Moreover, the procedural final grades of I accompanied by a letter grade, NP accompanied by a letter grade, and I and NP accompanied by a letter grade may be used on the final grade registers in the usual way for challenge for credit students. (In connection with incompletes, such may be awarded for courses challenged for credit only if course work in addition to the final examination for challenge for credit was required by the department but not completed in conformity with its schedule/deadlines, the student requests on or before the end of the challenge period in question an incomplete from the department head, and the department head judges that the student has an acceptable excuse.)

Departmental Approval

When courses are open for challenge for credit but require departmental approval of the student's request to challenge, the department may exercise its discretion for any of various reasons not herein delimited.

11.2 Available Courses: Challenge for Credit

None of these challenge for credit course sections are available for Aurora Student registration. Students who wish to challenge for credit must report to the Arts General Office to apply.

Sociology	SOC 1200	Introduction to Sociology	A92	Winter Term	6	April	A written two or three hour final examination.

NOTE: All courses require written departmental approval prior to registration. For further information on the above courses consult the department office.

SECTION 12: Courses Offered by Other Faculties and Schools Acceptable for Credit in the Faculty of Arts

All degree credit courses offered by other Faculties or Schools at the University of Manitoba are acceptable for credit in Arts (excludes Pass/Fail courses) subject to the Faculty of Arts overall degree requirements. Such courses taken prior to admission to Arts will be included on transfer and will also be used in determining eligibility for admission. For details see Section 5.2.1.

Students should note that written permission from the Faculty or School offering the course may be required.

SECTION 13: Lecture and Laboratory Class Schedule

For class schedule information on courses offered by other Faculties/Schools that are acceptable for credit in the Faculty of Arts, please refer to the applicable section on the web.

If you have any questions regarding the information within the class schedule, consult the Faculty of Arts General Office, 3rd Floor Fletcher Argue Building, telephone 474 9100.

Changes in the Class Schedule

As this class schedule is assembled a considerable time before the opening of the Fall/Winter Terms, the Faculty reserves the right to make changes without notice, including cancellation and addition of courses and/or sections.

If a course or section you have registered in is subsequently cancelled, there will be a refund of fees (where applicable) and the Arts General Office will make every attempt to contact you. You may then choose a course and/or section to replace the cancelled one.

Instructor "TBA"

Some courses which have instructors listed as "TBA" may not be offered due to budget restrictions, the extent of which are unknown at the time of publication. Final decisions regarding staffing will be made prior to the start of classes.

SECTION 2: The Profession of Dental Hygiene

Dental hygiene is a health service profession concerned primarily with the prevention of oral disease and the promotion of optimum oral health. As a licensed professional, the dental hygienist's scope of practice is regulated by provincial legislation. The dental hygiene process of care consists of four components: assessment, planning, implementation, and evaluation. Current practice settings include: Private dental practice, community health centres, institutions (e.g., hospitals, long-term care facilities), primary health care centres, home care and other outreach programs, educational institutions (e.g., universities, community colleges), the military, research, and industry. Dental hygienists acquire competence through instruction in basic sciences, oral health sciences, the humanities and clinical practice. Through more than 600 hours of a competency-based clinical curriculum, students are prepared to meet the needs of a broad range of population groups.

The mission of the School of Dental Hygiene: In a tradition of excellence and progressive learning the University of Manitoba, School of Dental Hygiene prepares future dental hygienists to contribute collaboratively to the health and well-being of the public through oral health promotion and disease prevention.

Practice Requirements

After successful completion of the National Dental Hygiene Certification Board Examination, in Manitoba, graduates must apply to the College of Dental Hygienists of Manitoba for a licence to practice as a dental hygienist. In other provinces, Dental hygienists must fulfil the requirements of the respective provincial licensing bodies.

SECTION 3: Admission to the School of Dental Hygiene

3.1 Diploma offered

Diploma in Dental Hygiene

Minimum time to graduation: Three years (University 1, or satisfaction of prerequisites, plus two years).

NOTE: Pending approval, a degree completion program, Bachelor of Science in Dental Hygiene (B.Sc.D.H.), may be offered commencing August, 2009. This program will only be offered to graduates of the Diploma program.

The following is a summary of the admission requirements. Equivalent academic courses completed at recognized universities elsewhere will be considered. All admission requirements, as well as application deadline dates and forms, are included in an applicant information bulletin that is available from the Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website.

3.2 Course requirements

ENGL 1310

CHEM 1300 and CHEM 1310 or CHEM 1320

PSYC 1200

ZOOL 1320 and ZOOL 1330

STAT 1000

6 credit hours of electives (Sociology is strongly recommended) for a total of 30 credit hours.

Other Requirements

Please note that these requirements are under review and may have changed since the time of the printing of this document. Please contact the School of Dental Hygiene for further information.

High school prerequisites: REQUIRED: Mathematics 40S (pre-calculus or applied), Chemistry 40S; and Biology 40S, or eligibility as a mature student to the University of Manitoba.

Interview: An interview may be part of the admission process.

Minimum GPA for consideration: 3.00 with no grade less than C, with the exception of English which requires the minimum grade of B. Admission is competitive.

Selection criteria: 100 per cent based on academic standing for the Regular Applicant Category. Interview and Letters of Reference are considered within the Special Applicant Category. Preference will be given to Manitobans in the Special Applicant Category and on the alternate list.

It is recommended that all applicants attend an orientation session. Orientation for dental hygiene takes place at the School of Dental Hygiene, Bannatyne Campus.

SECTION 4: Dental Hygiene Academic Regulations

All students are asked to note that some academic policies and regulations are under review and are subject to change. Please check the Web Calendar at umanitoba.ca for updated information.

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the School of Dental Hygiene has regulations and requirements, published below, that apply specifically to its students.

4.1 Immunization and Bloodborne Diseases Policy

Note: This policy is under review. Please consult the on-line Calendar or the School of Dental Hygiene for further information.

All students enrolled in dental hygiene must be immunized against the following diseases: diphtheria/tetanus, polio, rubella, measles, mumps, chicken pox and hepatitis B. Students must be tested for tuberculosis if a suspected exposure occurs. Students who cannot be immunized because of allergies or other reasons must provide a physician's certificate to verify these reasons.

Before the first day of classes all students must complete the University of Manitoba Immunization Record Form, provided by the dental hygiene office. Immunization records must be signed by a physician or nurse verifying that all immunizations are up-to-date.

All students are responsible for updating their immunizations as needed.

Students will not be permitted to attend clinics until all immunization requirements are up-to-date.

4.2 CPR Certification

Accepted candidates will be required to show proof of CPR certification by October 15 of each year. The CPR Certification level required by the School of Dental Hygiene is: Basic Life Support (BLS) for Healthcare Providers. This certification must be maintained on a yearly basis up to the date of graduation.

4.3 Examinations and Promotions

Regular attendance in all courses as well as a satisfactory record completed during the term will be required to qualify a student to sit for the annual or other grading examination.

To obtain standing in any year, a student must attain a minimum Term Grade Point Average (GPA) of 2.0 in all courses of that year. If a student is registered for less than 100% of the courses listed for the year, a minimum Term GPA of a 2.0 must also be obtained.

A student who has obtained a grade of "F" in more than two subjects or who fails to obtain a Term GPA of 2.0 will be regarded as having failed the year and will be required to repeat the work of that year in a succeeding annual session. The student must re-apply for admission to the school if the failed year is the first year.

No student will be allowed to register for the full work of any one year who has a condition remaining from a previous year.

Students are prohibited from interviewing individual members of the school with reference to examination standing at any time prior to the posting of official grade lists.

For details on final examinations, see the Chapter General Academic Regulations and Policy of this Calendar.

For appeals process, see the Chapter General Academic Regulations and Policy.

For a description of the grading system, see the Chapter General Academic Regulations and Policy.

4.4 Supplemental Examinations

A student who has failed in not more than two subjects at the regular final examinations of any year, or who fails to obtain a Term GPA of 2.0 in courses of the year, may upon application and at the discretion of the Dental Faculty Council be awarded the privilege of one or two supplemental examination(s).

The Faculty Council will specify in which subjects the student may write supplemental examinations. The passing grade in supplemental examinations is "C" in each subject.

A student must maintain a minimum Term GPA of 2.0 each year in order to be eligible for supplemental privileges.

A student who, having exercised supplemental privileges, has not more than one condition remaining, may in the ensuing annual session, be allowed to take only that one course in the Dental Hygiene program. If the condition is removed in that session, the student will be regarded as having completed the year to which the condition applied.

Supplemental examinations are held prior to the opening of the session in the autumn, and application must be made to the Registrars Office no later than those deadline dates listed in this Calendar.

4.5 Challenge for Credit

There are a number of courses which may be challenged for credit. Information on the specific courses involved may be obtained from the director of the School of Dental Hygiene. Requests for course challenge must be received prior to the commencement of the term in which the course will be offered.

4.6 Honours and Awards

Dean's Honours: awarded to students in each year of the dental hygiene program who have achieved a minimum sessional (fall & winter term combined) G.P.A. of 3.8. In addition, only students registered for 80 per cent or more of the normal course load during a regular session are eligible for Honours Standing.

A student who fails in one or more subjects, or who fails the year at the regular final examination, is not eligible to obtain Honours Standing or to receive any awards for the work of that year.

A student repeating a year's work is not eligible to obtain Honours Standing or to receive any awards for the work of that year.

The following policy applies to the eligibility of part-time students for academic awards:

A student who is carrying less than 80 per cent of the normal course load for the year is only eligible for an award in the individual subjects taken by him/her.

A student who is repeating a course may not be eligible for an award in that subject.

NOTE: Regulations concerning Admissions, Academic Progress, Examinations and Withdrawal are on file in the general office of the School of Dental Hygiene and through The University of Manitoba webpage at umanitoba.ca/faculties/dentistry.

4.7 Instruments, Computer, Textbooks and Uniforms

Students must purchase a dental hygiene student kit consisting of two sets of clinical instruments and uniforms. The total cost of the kit is approximately \$6,000. Students are also required to purchase one lab coat. Some laboratory equipment is loaned by the school. In addition, students entering the School of Dental Hygiene will be expected to purchase a specified laptop computer as well as *EVOLVE* software. This expenditure is approximately \$3500 for the full two year program. These costs replace most textbook expenditures.

SECTION 6: Registration Information

Initial Access Times

Students are referred to the chapter, "Registration Information: Aurora Student," Section 4.

Registration

Students are referred to the School of Dental Hygiene chapter in Part 1, the *Undergraduate Calendar* for a list of courses and to the web for registration instructions.

umanitoba.ca

Registration exceptions

Students who have a failing grade/s registered against them and/or have other outstanding academic matters (i.e. deferred or supplemental examinations, modified program, etc.) in regards to the previous academic session will not be allowed to register using Aurora Student. Students who fall into this category should contact the student advisor for further information.

For All New and Returning Students

Whether you are a new or returning student, familiarize yourself, not only with the information contained in this Guide, but also with the faculty chapter in the Undergraduate Calendar. However, the student advisor is available in D113 Dental Building or by calling (204) 789-3484 to help should you encounter difficulties in registering.

SECTION 7: Course Descriptions

HYGN 1232 Oral and Dental Anatomy Cr.Hrs.3 This course consists of a self-study CD and laboratory work dealing with the normal development, morphology, structure, and functions of the dentition and related structures. Corequisites: HYGN 1234 and HYGN 1236.

HYGN 1234 Preclinical Dental Hygiene Cr.Hrs.2 This introductory course teaches the necessary dental hygiene skills in laboratory and preclinical settings. Students are introduced to foundational assessment and implementation skills necessary to begin client care at the novice level. Corequisites: HYGN 1232 and HYGN 1236.

HYGN 1236 Dental Hygiene Theory and Practice 1 Cr.Hrs.4 This introductory course provides the necessary foundational knowledge requisite for preclinical experience and early client care. It includes the theory and principles underlying the practice of dental hygiene based on the four phases of the Dental Hygiene Process of Care and the concept of Professionalism. Corequisites: HYGN 1232 and HYGN 1234.

HYGN 1238 Dental Hygiene Clinical Practice I Cr.Hrs.3 The course focus is on the cognitive, psychomotor and affective knowledge and skills requisite to the dental hygiene process of care. It includes the principles underlying the practice of dental hygiene and facilitates the development of a self-directed and self-aware professional. *Prerequisites:* HYGN 1234 and HYGN 1236. Corequisite: HYGN 1242.

HYGN 1242 Dental Hygiene Theory and Practice II Cr.Hrs.4 A continuation of foundational knowledge requisite for clinical care on less complicated clients that includes the theory and principles underlying the practice of dental hygiene based on the Dental Hygiene Process of Care. *Prerequisites:* HYGN 1234 and HYGN 1236. Corequisite: HYGN 1238.

HYGN 1262 Dental Radiology Cr.Hrs.3 An introduction to the production of x-rays, radiation biology, radiation protection, imaging materials, imaging techniques, recognition of radiographic landmarks and structures, and quality control of radiographs. Corequisites: HYGN 1234 and HYGN 1238.

HYGN 1270 Biology of the Head and Neck Cr.Hrs.3 (Formerly 070.127) Anatomy, physiology, histology and embryology of the head and neck.

HYGN 1280 Microbiology and Infectious Diseases Cr.Hrs.3 (Formerly 070.128) A study of different types of microorganisms. Infectious diseases will be discussed in terms of reservoirs, transmission, pathogenesis, treatment and prevention. Emphasis will be given to common communicable diseases, the oral microflora and its role in disease and health.

HYGN 1292 Dental Hygiene Preclinical Restorative Techniques Cr.Hrs.2 A study of the principles and techniques of restorative dentistry. Introduction information on restorative dentistry specialties.

HYGN 1320 Dental Materials Cr.Hrs.2 (Formerly 070.132) A study of the properties of materials used in the oral environment for restorative, prosthetic, orthodontic and preventive purposes. Laboratory demonstrations and exercises are designed to demonstrate the correct preparation and handling of dental materials.

HYGN 1340 Communications Cr.Hrs.2 (Formerly 070.134) This course provides an introduction to basic principles of communication in relation to everyday and professional interactions. The students are sensitized to the process of communication, its complexities and its related dynamics. Particular attention is given to enabling students to develop effective professional communication skills that have the potential to promote client compliance and harmonious working relationships.

HYGN 1352 Community Health I Cr.Hrs.3 An introductory, participatory course in community oral health promotion intended to inspire a sense of community responsibility in students as health professionals responding to community needs through classroom teaching, interviews and debates.

HYGN 1360 Periodontology I Cr.Hrs.2 (Formerly 070.136) A study of the normal tissues of the periodontium, and an introduction to periodontal diseases, their etiolo-

gy, epidemiology and treatment, especially as these relate to dental hygiene practice. A critical analysis of periodontal cases is included.

HYGN 2100 Dental Hygiene Portfolio Cr.Hrs.2 This two credit hour course houses the evaluation component of the programmatic portfolio of student competencies that all students commence at enrolment and complete prior to graduation.

HYGN 2280 Pharmacology Cr.Hrs.2 (Formerly 070.228) Drugs used in clinical practice; a general knowledge of drugs by groups with emphasis on agents such as local anesthetics, analgesics, and antibiotics used extensively in the practice of dentistry.

HYGN 2300 Pathology Cr.Hrs.3 (Formerly 070.230) A study of the principles of general and oral pathology involving pathologic mechanisms, disorders of physiologic systems, and pathologic conditions and diseases affecting oral and para-oral structures.

HYGN 2312 Dental Hygiene Clinical Practice II Cr.Hrs.4 This competency-based clinical course amalgamates theoretical knowledge and clinical skills in both general clinical and community based clinical settings. Students provide care to clients with moderate oral health needs. This course is evaluated on a pass/fail basis. *Prerequisites:* HYGN 1238 and HYGN 1242. *Corequisite:* HYGN 2314.

HYGN 2314 Dental Hygiene Theory and Practice III Cr.Hrs.4 Learning, motivation, and behaviour modification theories are applied to oral health promotion. Dental hygiene care plans are developed using a human needs model and process of care. Ethics, jurisprudence and practice standards are discussed. *Prerequisites:* HYGN 1238 and HYGN 1242. *Corequisite:* HYGN 2312.

HYGN 2316 Dental Hygiene Clinical Practice III Cr.Hrs.4 This course advances the student's clinical dental hygiene skills to a level of minimal competency. Students provide dental hygiene care to clients with high oral health needs to facilitate their

attainment of optimal oral health. This course is evaluated on a pass/fail basis. *Prerequisites:* HYGN 2312 and HYGN 2314. *Corequisite:* HYGN 2318.

HYGN 2318 Dental Hygiene Theory and Practice IV Cr.Hrs.5 The oral health needs of persons with disabilities and the development of dental hygiene care plans to address those needs are discussed as well as issues of access to dental hygiene care, employment, quality assurance, and professional growth and development. *Prerequisites:* HYGN 2312 and HYGN 2314. *Corequisite:* HYGN 2316.

HYGN 2340 Periodontology II Cr.Hrs.2 (Formerly 070.234) Continuation of the study of etiology, diagnosis and treatment of periodontal disease.

HYGN 2350 Biology of Oral Tissues Cr.Hrs.2 (Formerly 070.235) Consideration of physiology of the oral environment and its microflora in relation to health, dental caries and periodontal diseases.

HYGN 2362 Community Health II Cr.Hrs.3 Student abilities to deliver community oral health education/promotion programs, with attention given to barriers and strategies used to meet the unique needs of target populations less likely to have optimal oral health are further developed. *Prerequisite:* HYGN 1352.

HYGN 2370 Nutrition in Dentistry Cr.Hrs.2 (Formerly 070.237) A physiological, psychological, and social insight into the principles of nutrition and their relation to preventive dental practice.

HYGN 2380 Pain Management Cr.Hrs.2 (Formerly 070.238) This course is designed to enhance the dental hygiene student's knowledge of the mechanisms of pain control through the administration of topical and local anesthetic agents. Emphasis will be placed on the pharmacology of dental anesthetic agents and their interaction with the client's current conditions and medications.

SECTION 2: The Profession of Dentistry

The Faculty of Dentistry is dedicated to educating dental, dental hygiene and graduate students in a progressive learning environment, conducting research in oral health, and serving the community and the oral health professions as a source of knowledge and expertise. The faculty serves as a bridge between the fundamental scientific foundation of the profession and its translation into health care for the public. Dentists enhance and promote the total health of patients through oral health management. Dentists are concerned with promoting oral health and preventing and alleviating the effects of oral diseases and conditions in order to contribute to the well-being of their patients.

The curriculum is designed to ensure that students graduate as competent dentists prepared to meet the oral health care needs of their patients. It provides the knowledge of basic biomedical, behavioural and clinical sciences and biomaterials, the cognitive and behavioural skills, and the professional and ethical values necessary for practice as a dental professional.

Information on the Dental Hygiene program is in the chapter, School of Dental Hygiene.

Licensing Requirements

A graduate of the Faculty of Dentistry is entitled to apply to the Manitoba Dental Association to obtain a license to practice within the province of Manitoba. For information on licensing requirements and the application process please contact: The Registrar, Manitoba Dental Association, 103 698 Corydon Avenue, Winnipeg, Manitoba R3M 0X9; telephone (204) 988 5300.

National Examining Body

Graduates of this faculty are required to sit a written examination and an objective structured clinical examination during the calendar year of their graduation, administered by the National Dental Examining Board of Canada. The NDEB certification granted to graduates who pass these examinations, entitles them to apply for a license to practice in all provinces of Canada. The provinces of Ontario and Quebec have additional requirements. For information contact: The Registrar, National Dental Examining Board, 203 - 100 Bronson Avenue, Ottawa, Ontario K1R 6G8; telephone (613) 236 5912.

Other Licensing Bodies

For regulations governing licensure in other areas (e.g., other provinces, the United States), candidates are advised to write the licensing body in the province/state in which they are interested.

SECTION 3: Admission to the Faculty of Dentistry

3.1 Degrees Offered

Doctor of Dental Medicine

Minimum time to graduation: Six years (University 1, plus one year, plus four years in the Faculty of Dentistry).

The following is a summary of the admission requirements. Equivalent academic courses completed at recognized universities elsewhere will be considered. All admission requirements, as well as application deadline dates and forms, are included in an application bulletin that is available from the Admissions Office, Enrolment Services, 424 University Centre; this information is also posted on the university's website (umanitoba.ca/faculties/dentistry).

Bachelor of Science (Dentistry)

In addition to the basic professional degree, the faculty offers the Bachelor of Science in Dentistry to interested dental students wishing to undertake research during their undergraduate program. The program is designed to assure that participation in it will not interfere with the student's dental degree. Through active participation in a research program, the students will be given the opportunity to develop skills in applying scientific knowledge to dental practice and an interest in dental research. In addition, the program will serve as a preparatory step for entry into various graduate programs. Information on admission to this program is available from the Dean's Office and through the Faculty of Dentistry's web page (umanitoba.ca/faculties/dentistry).

3.2 Course Requirements

After University 1, most students choose the Faculty of Science because the pre-Dentistry requirements easily fit Science degree programs.

Minimum 60 credit hours of pre-Dentistry study including:

BIOL 1020 and 1030

CHEM 1300 and CHEM 1310

CHEM 2210 and 2220

CHEM 2360 and CHEM 2370 or MBIO 2360 and MBIO 2370

PHYS 1020 and 1030 or PHYS 1050 and 1070

6 credit hours of English

24 credit hours of electives, 6 of which must be in the non-applied sciences or non-pure sciences.

All science courses must include the laboratory component.

Other requirements

High school prerequisites: Chemistry 40S, Mathematics 40S, Physics 40S and Biology 40S.

The 6 credit hours of English satisfies the written English requirement; the mathematics requirement must be met in the first 60 credit hours even though it is not a specific admissions requirement.

The English Canadian Dental Aptitude Test (DAT) must be written.

A personal interview is required.

Admission is competitive.

Information on the admission process may be accessed through the Faculty of Dentistry's web page (umanitoba.ca/faculties/dentistry) or by requesting an Information Application Bulletin from either the Faculty of Dentistry or the University of Manitoba Admissions Office (Enrolment Services)

Selection criteria: Grades, interview and DAT score equally weighted.

3.3 International Dentist Degree Program (IDDP)

The Faculty of Dentistry, University of Manitoba, offers the International Dentist Degree Program (IDDP) to a maximum of 7 graduates of international dental programs that are not accredited by the Commission on Dental Accreditation of Canada. After a 6 to 8 week summer orientation program, students enter the 3rd year of the regular dental program of the Faculty. Upon satisfactory completion of the 3rd and 4th years of the dental program, IDDP participants will be awarded the Doctor of Dental Medicine (DMD) degree. All graduates of DMD programs in Canada, once having passed the National Dental Examining Board of Canada (NDEB) examinations, are eligible for licensure/registration as a dentist in all provinces in Canada.

Requirements for admission/entrance to the IDDP program include: the successful completion, within two years prior to the application deadline, of the Eligibility Examination, sponsored by the Associations of the Canadian Faculties of Dentistry (ACFD); submission of notarised official transcripts of diploma and dental school grades; letters of good standing from appropriate licensing body; autobiographical sketch; names and addresses of three references and a CV (resume).

Applicants, who have not completed Junior and Senior High School (6 years) in North America, must also complete an English language requirement (Requirements are under review, for further information please see the IDDP Applicant Information Bulletin available at the Dean's Office, or on-line via umanitoba.ca/faculties/dentistry).

Competitive applicants in a given competition will be invited to an On-site Assessment held over a five day period at the Faculty of Dentistry. This assessment will, normally, be held mid-December preceding entry into the program. This assessment consists of a personal interview, a psychomotor skills assessment and an Objective Structured Clinical Examination (OSCE).

Information on admission to this program is available from the Dean's Office and through the Faculty of Dentistry's web page (umanitoba.ca/faculties/dentistry).

SECTION 4: Program Requirements and Regulations

All students are asked to note that some academic policies and regulations are under review and are subject to change. Please check the Web Calendar at umanitoba.ca for updated information.

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Dentistry has regulations and requirements, published below that apply specifically to its students.

4.1 Instruments Computers and Textbook Software

Students entering the Faculty of Dentistry will be expected to own or purchase a laptop computer and Vital Source Technology software. This expenditure may be approximately \$3500 within the first year of the program if the laptop computer has to be purchased. Each following year of the program, students will be required to purchase additional software licensing/updates for a cost of approximately \$900/ year. These costs replace former textbook expenditures.

Each student, on registering, will be provided with a microscope. Otherwise, students are responsible for the purchase of instruments as may be necessary or required. Over the four years of dentistry, the cost of such instruments is approximately \$30,000 (see fee schedule); the bulk of the expenditure is incurred in the first two or three years. Dental Kits are the property of Dental students. The faculty is unable to accept returns of any student computer, software, kit or kit items should a student leave the faculty for whatever reason.

4.2 Immunization and Bloodborne Diseases Policy

Note: This policy is under review. Please consult the Faculty of Dentistry for further information.

All students enrolled in the Faculty of Dentistry must be immunized against the following diseases: diphtheria/tetanus, polio, rubella, measles, mumps, chicken pox and hepatitis B. Students must be tested for tuberculosis if a suspected exposure occurs. Students who cannot be immunized because of allergies or for other reasons must provide a physician's certificate to verify these reasons.

Before the first day of classes, all students must complete the University of Manitoba Immunization Record Form provided by the Admissions Office. A physician or nurse must sign immunization records. All students are responsible for updating their immunizations as needed.

Students will not be permitted to attend clinics until all immunization requirements are up-to-date.

4.3 CPR Certification

Accepted candidates will be required to show proof of CPR certification by October 15 of each year. The CPR Certification level required by the Faculty of Dentistry is: Basic Life Support (BLS) for Healthcare Providers. This certification must be maintained on a yearly basis up to the date of graduation.

4.4 Financial Aid

A number of loan and bursary funds, including 12 bursaries for first year students, are available to dental students. Applications and further information are available in the Dean's Office (late September).

4.5 Attendance

See the chapter, General Academic Regulations and Requirements. The Faculty of Dentistry has additional regulations that can be found in the Student Handbook, available on-line via the Faculty's web page (umanitoba.ca/faculties/dentistry).

4.6 Voluntary Withdrawal

Students intending to withdraw from a portion or all of their courses must report immediately in person or in writing to the Dean's Office. No fees will be refunded without the authorization of the dean. Computer Software, Computers and Kit fees are non-refundable. See chapter, on General Academic Regulations and Requirements.

Students who withdraw from the Faculty of Dentistry without notice will be considered to have terminated their connection with the faculty. If a subsequent application for registration is approved, they will be required to conform to the rules and regulations, fee schedules, sequence of courses, etc., in effect at the time of such subsequent application.

In cases where a student is obliged to withdraw after the final date of withdrawal published in the *Calendar* because of ill health or other sufficient reasons, their cases will be considered by the dean of the faculty.

4.7 Required Withdrawal

The Senate of the university has approved bylaws granting certain faculties and schools the authority to require a student to withdraw on the basis of unsuitability for the practice of the profession to which the program of study normally leads. Senate has approved such a bylaw for the Faculty of Dentistry, and it is available in the Dean's Office.

4.8 Decisions Concerning Academic Promotions

The letter grade "D" is the lowest acceptable level of performance in each undergraduate course leading to the degree of D.M.D. when the work of any given year is being taken for the first time. (In the case of a repeated year, the minimum passing grade in each course is "C".)

A student who has a failing grade registered against him/her may not register for the program of the subsequent year, but may, at the discretion of Dental Faculty Council, be permitted to repeat the failed year.

A minimum term GPA of 2.0 in each year is required to qualify a student for standing in that year.

A student who fails to obtain a minimum term GPA of 2.0 and who is not granted supplemental privileges will be considered to have failed the year.

Except by special permission of Dental Faculty Council, no student may repeat more than one year in Dentistry, nor may any year be repeated more than once.

The work requirements of any repeated year may be modified, even increased, at the discretion of the Dental Faculty Council.

The passing grade in each course of a repeated year in Dentistry is "C".

If a student receives an "F" grade in a fourth year clinical course, they will be required to register and pay a fee for the entire repeated year, and the work in that year may be modified or even increased by Dental Faculty Council.

4.9 Incomplete Standing in the Faculty of Dentistry

The incomplete "I(F)" designation is restricted to clinical courses.

Successful completion of course requirements is through extended clinics rather than supplemental assessment.

A student who is unable to complete the quantitative clinical requirements in a course by the end of the academic year may apply for an incomplete grade classification ["I(F)"] and extension of time. Details of this application procedure can be found in Dentistry's "Student Handbook" (on-line).

4.10 Supplemental Examinations

A "Supplemental Examination" is an examination which may be offered as a privilege to a student who has failed a course or failed to achieve a satisfactory result. Such examinations are offered in order to grant the student an opportunity to rectify the inadequacy without repeating the course.

Information on Supplemental Examinations can be found in the chapter, General Academic Regulations and Requirements at the beginning of this *Calendar*. Specific information on The Faculty of Dentistry's supplemental privileges can be found in Dentistry's "Student Handbook" (on-line).

4.11 Honours and Awards

Dean's Honour List: awarded to students in each year of the dental program who have achieved a minimum sessional (fall & winter term combined) G.P.A. of 3.8.

To qualify for Graduation with Honours, a candidate for the D.M.D. degree must qualify for the Dean's Honour List in both third and fourth year.

A student who repeats a year at his/her own request, i.e., not at the request of Dental Faculty Council, is not eligible for the Dean's Honour List or to receive any awards for the work in that repeated year.

The following policy applies to the eligibility of part-time students for academic awards: in allocating any award, the only academic performance of a student to be considered is that attained during the year(s) for which the award is made. Therefore, a part-time student is not eligible for any purely academic award, other than one in an individual course. However, a part-time student who is carrying 80 per cent or more of the normal course load for the year is eligible for any award where conditions other than academic merit apply, and further, subject to the provisions set forth above, any part-time student is eligible for any award in the individual courses taken in the year for which the award is made.

SECTION 6: Registration Information

Initial Access Times

Students are referred to the chapter, "Registration Information: Aurora Student," Section 4.

DMD Program For All New and Returning Students

Whether you are a new or returning student, familiarize yourself, not only with the information contained in this Guide, but also with the faculty chapter in the Undergraduate Calendar. However, the student advisor is available in D113 Dental Building or by calling (204) 789-3484 to help should you encounter difficulties in registering.

Registration

Students are referred to the Faculty of Dentistry chapter in Part 1, the Undergraduate Calendar for a list of courses and to the web for registration instructions.

umanitoba.ca

Registration exceptions

Students who have a failing grade/s registered against them and/or have other outstanding academic matters (i.e. deferred or supplemental examinations, modified program, etc.) in regards to the previous academic session will not be allowed to register using Aurora Student. Students who fall into this category should contact the student advisor for further information.

SECTION 7: Course Descriptions

DDSS 1020 Periodontology 1 Cr.Hrs.6 (Formerly 103.102) A laboratory course designed to introduce students to periodontal examination procedures and to basic periodontal instrumentation.

DDSS 1140 Radiology 1 Cr.Hrs.6 (Formerly 103.114) A series of lectures which introduces the student to: the elementary principles of dental radiology; radiation physics, radiation biology, imaging techniques, x-ray equipment and radiation protection.

DDSS 2010 Oral Pathology Cr.Hrs.6 (Formerly 103.201) A series of lectures emphasizing recognition, description, etiopathogenesis, clinical and/or radiographic features, biologic behaviour, treatment and/or management of oral and paraoral pathologic conditions.

DDSS 2020 Pain and Anxiety Control 1 Cr.Hrs.6 (Formerly 103.202) A series of lectures to introduce the student to: local anaesthetics, local anaesthesia techniques, avoidance and management of complications and selection of appropriate drugs and techniques.

DDSS 2120 Periodontology 2 Cr.Hrs.6 (Formerly 103.212) An introductory course with emphasis on periodontal structures in health and disease, the etiology and diagnosis of periodontal disease, as well as the role of occlusion.

DDSS 2180 Radiology 2 Cr.Hrs.6 (Formerly 103.218) A series of lectures in the theoretical and practical principles of radiographic interpretation of common oral pathologic conditions as well as selected examples of pathologic conditions exhibiting important radiographic principles.

DDSS 3030 Medicine Cr.Hrs.6 (Formerly 103.303) Lectures or seminars describing the basic mechanisms, symptoms, diagnosis, and management of various disease processes included in internal medicine and their dental correlations.

DDSS 3200 Oral Diagnosis and Radiology 1 Cr.Hrs.6 (Formerly 103.320) This course includes a lecture component covering history-taking, clinical examination, diagnosis and treatment of soft and hard tissue lesions, emergency treatment, dental treatment of patients with systemic disease, and clinical experience.

DDSS 3210 Oral and Maxillofacial Surgery 1 Cr.Hrs.6 (Formerly 103.321) This course consists of lectures, seminars and clinics, covering all aspects of oral and maxillofacial surgery with an emphasis on those procedures performed by the general practitioner.

DDSS 3220 Periodontology 3 Cr.Hrs.6 (Formerly 103.322) This combined didactic and clinical course is designed to provide experience which will allow students to ap-

ply their earlier and current didactic learning to the clinical environment. The lecture periods concern themselves principally with verbal descriptions of treatment modalities and techniques, including non-surgical, surgical intervention and temporomandibular joint problems. Inter-relationships with other clinical disciplines also receives considerable attention.

DDSS 3230 Pain and Anxiety Control 2 Cr.Hrs.6 (Formerly 103.323) This course consists of lectures/seminars and clinical experience in: physiology of pain and psychology of anxiety, management of medical emergencies, parenteral injections, and therapeutics of the various modalities of pain and anxiety control.

DDSS 4080 Psychiatry Cr.Hrs.6 (Formerly 103.408) This course is a series of lectures covering: consideration of personality development, the measurement of intelligence, ego defenses, normal and abnormal psychodynamics, psychological problems which initiate and sustain dental pathology, and handling practice psychiatry problems in dental practice.

DDSS 4130 Hospital Dentistry Cr.Hrs.6 (Formerly 103.413) This course is designed to provide the student with a familiarization with hospital protocol, reinforcement of understanding in medicine, surgery, pharmacology and therapeutics, the dental treatment of medically compromised patients at the Health Sciences Centre, and handicapped patients in other institutional settings. Course evaluated on a pass/fail basis.

DDSS 4200 Oral Diagnosis and Radiology 2 Cr.Hrs.6 (Formerly 103.420) This clinical course is designed to give the student clinical experience with: treatment planning; diagnostic techniques, differential diagnosis, emergency treatment and non-surgical management related to oral pathologic conditions.

DDSS 4210 Oral and Maxillofacial Surgery 2 Cr.Hrs.6 (Formerly 103.421) This course consists of lectures, seminars and clinics covering all aspects of oral and maxillofacial surgery with an emphasis on those procedures performed by the general practitioner.

DENT 1010 Early Clinical Experience Cr.Hrs.6 (Formerly 066.101) A series of lectures and clinical participation sessions designed to introduce the student to clinical dentistry and the relevance of basic science courses in the dental curriculum. Course evaluated on a pass/fail basis.

DENT 2430 Introduction to Comprehensive Care Cr.Hrs.6 (Formerly 066.243) This course is an introduction to an integrated, patient-centered program with patient needs as the primary focus. The course introduces students to clinical protocol and

patient record documentation and communication. Students receive experience in comprehensive treatment planning as well as basic treatments in periodontics, operative dentistry, and pain control. This course is evaluated on a pass/fail basis.

DENT 4020 Interdisciplinary Case Studies Cr.Hrs.6 (Formerly 066.402) Lectures and development of portfolio case designed to enable the student to obtain, organize and critically evaluate information in order to facilitate treatment planning.

DENT 4030 General Practice Clinic Cr.Hrs.30 (Formerly 066.403) This course consists of an integrated, patient-centered clinical program with patient needs as the primary focus. Patients will be assigned to students and organized to provide the required clinical experiences typical of a contemporary general dental practice.

ORLB 1050 Cell and Tissue Biology Cr.Hrs.6 (Formerly 100.105) Structure, function and chemical composition of eucaryotic cells and bacteria will be studied. Molecular interactions within and between cells and the immune system will be described in detail.

ORLB 1060 Head, Neck and Nervous System, Part 1 Cr.Hrs.6 (Formerly 100.106) Gross anatomy of the head and neck are described and observed by regional dissection. Overviews of the nervous system and surface anatomy of the mouth are included.

ORLB 1070 Head, Neck and Nervous System, Part 2 Cr.Hrs.6 (Formerly 100.107) An introduction to the structure and function of the central and peripheral nervous systems and associated structures, the neurophysiology and the stomatognathic system, pain and analgesics.

ORLB 1080 Human Growth and Development Cr.Hrs.6 (Formerly 100.108) Human development from the origin of the reproductive cells through fertilization, conception, embryonic/fetal development, birth, growth and aging. Particular emphasis is given to development and growth of structures of the head and neck.

ORLB 1090 Development, Structure and Function of Oral Tissues Cr.Hrs.6 (Formerly 100.109) A study of development, structure and function of hard and soft oral tissues, the role of organic constituents in them, and their importance to the practice of dentistry.

ORLB 2070 Structure and Function of Major Organ Systems Cr.Hrs.6 (Formerly 100.207) This course emphasizes the basic structure at both organ and cellular levels of a number of organ systems and an understanding of their role in total body function.

ORLB 2090 Cariology and Plaque Associated Diseases Cr.Hrs.6 (Formerly 100.209) A study of the various dietary, host and microbial factors involved in the etiology of dental caries and periodontal disease, and a discussion of the various methods of plaque control.

ORLB 2100 Pathology and Microbiology 1 Cr.Hrs.6 (Formerly 100.210) Study of the basic mechanisms of microbial pathogenicity and general pathology as they relate to dentistry and dental treatment. Includes the pathogenesis of bacterial, viral and fungal infections and the aetiology of neoplastic, inflammatory and metabolic diseases.

ORLB 2150 Nutrition in Dentistry Cr.Hrs.6 (Formerly 100.215) The course covers the role of nutrition in general health and disease with emphasis on the prevention and management of oral problems in Dentistry.

ORLB 3020 Pathology and Microbiology 2 Cr.Hrs.6 (Formerly 100.302) A study of selected infectious diseases and the application of general diagnostic pathology to dental practice.

ORLB 3060 Pharmacology and Dental Therapeutics Cr.Hrs.6 (Formerly 100.306) A discussion of the basic pharmacology of dental and medical therapeutic agents, their therapeutic uses and adverse effects and potential impact on the treatment of dental patients.

PDS 1020 Orthodontics - 1 Cr.Hrs.6 (Formerly 101.102) A series of seminars and tutorials designed to introduce the student to: growth and development of craniofacial structures, relationship of craniofacial growth to general body growth, cephalometric and facial analysis, etiology and classification of malocclusion, development of the dentition and preliminary wire bending and manipulation in orthodontics.

PDS 2020 Orthodontics - 2 Cr.Hrs.6 (Formerly 101.202) A series of lectures and laboratories to introduce the student to: clinical protocol for examination, diagnosis and treatment planning of malocclusions, concepts of occlusion and biomechanics of orthodontic therapy, and fabrication of orthodontic appliances.

PDS 2070 Pediatric Dentistry - 1 Cr.Hrs.6 (Formerly 101.207) A series of lectures and laboratories to introduce the student to: the fundamental principles of dental growth and development of children, introduction to operative dentistry and preventive techniques commonly used in dentistry for children.

PDS 2130 Dental Public Health Cr.Hrs.6 (Formerly 101.213) A series of lectures dealing with dental epidemiology, demography, water fluoridation, and dental health education, program planning and evaluation. The organization of the Canadian health care system is examined with special reference to dental care and Aboriginal health issues.

PDS 3040 Orthodontics - 3 Cr.Hrs.6 (Formerly 101.304) A series of seminars covering the analysis, diagnosis, treatment planning, and mechanotherapy using records of selected cases. The clinical component consists of the diagnosis and treatment planning for individuals seeking orthodontic treatment. The clinical experience includes exposure to removable and fixed appliance mechanotherapy, screening of patients seeking orthodontic care and follow-up of retention of completed cases.

PDS 3050 Pediatric Dentistry - 2 Cr.Hrs.6 (Formerly 101.305) A series of seminars and clinics to give the student a basic understanding and some clinical experience with: clinical procedures, emergency treatment, psychological management, preventive medical considerations and the provision of total dental care to pediatric patients.

PDS 3140 Dental Public Health/Preventive Dental Science Cr.Hrs.6 (Formerly

101.314) (a) Dental Public Health The course focuses on the social and psychological variables that impact on dental care for specific age and disease-related issues in the population. Patient utilization rates and program organization are reviewed. Lectures: 15 hours. (b) Preventive Dental Science Techniques and therapy used to prevent dental diseases are covered. The application of these modalities to specific patient categories follows.

PDS 4050 Pediatric Dentistry - 3 Cr.Hrs.6 (Formerly 101.405) This course consists of clinical experience including exposure to common pediatric dentistry problems, caries preventive and control procedures, routine conservative procedures and the dental treatment of children in community-based clinics.

PDS 4060 Orthodontics - 4 Cr.Hrs.6 (Formerly 101.406) This course consists of seminars on special topics related to the provision of orthodontic therapy. In addition, the clinical component including the diagnosis and treatment planning for individuals seeking orthodontic treatment as well as the continuation of treatment commenced in PDS 3040 (or 101.304). Clinical seminars cover the analysis, diagnosis, treatment planning, mechanotherapy and post-treatment evaluation of previously treated cases.

PDS 4080 Community Dentistry Externship Cr.Hrs.6 (Formerly 101.408) This clinical program is centred in community clinics in Winnipeg and northern Manitoba. The clinics serve elderly, aboriginal, low income or northern patients. Health education seminars may be a requirement at some sites, prepared and delivered by the student interns. Course evaluated on a pass/fail basis.

PDS 7000 Neural Basis of Oropharyngeal Function Cr.Hrs.3 (Formerly 101.700) A program of

RSTD 1070 Dental Materials - 1 Cr.Hrs.6 (Formerly 102.107) This course introduces the materials commonly used in dental practice. Composition, chemistry, properties, manipulation and manipulative variables are covered by lecture, laboratory exercises and demonstrations.

RSTD 1100 Operative Dentistry - 1 Cr.Hrs.6 (Formerly 102.110) A lecture and laboratory course introducing the fundamentals of tooth restoration. Hand and rotary instrumentation, principles of tooth preparation and restoration with amalgam, inlays and composite resin.

RSTD 1110 Dental Anatomy and Occlusion Cr.Hrs.6 (Formerly 102.111) A lecture and laboratory/seminar course introducing dental terminology, tooth identification, dental morphology and comparative anatomy in first term and the relationships of morphology to functional occlusion in second term.

RSTD 1120 Introduction to Dentistry Cr.Hrs.6 (Formerly 102.112) A series of lectures and seminars which introduce the student to the profession, its structure and governance. As well, communication skills and professional ethics will be introduced. Students will also experience the practice of dentistry through field trips and student presentations. Course evaluated on a pass/fail basis.

RSTD 2020 Dental Materials - 2 Cr.Hrs.6 (Formerly 102.202) This course develops a scientific basis for the selection, application, manipulation and clinical performance of dental materials. The relationship between the properties of a material and its manipulation, application and clinical behaviour is developed.

RSTD 2050 Operative Dentistry - 2 Cr.Hrs.6 (Formerly 102.205) A lecture and laboratory course presenting modern and advanced techniques in tooth restoration. Composite resins, adhesion to tooth structure, esthetic restorations and protection of tooth vitality. Introduction to clinical treatment modalities and treatment priorities.

RSTD 2060 Endodontology - 1 Cr.Hrs.6 (Formerly 102.206) Introduction to root canal therapy as a clinical practice, pulp and periapical pathology. The majority of the teaching is directed at the understanding and actual performance of practical endodontic techniques, performed in the laboratory setting on mannequins using extracted human teeth.

RSTD 2140 Fixed Partial Denture Prosthesis - 1 Cr.Hrs.6 (Formerly 102.214) This course consists of lecture and laboratory instruction introducing basic fixed prosthodontic techniques.

RSTD 2220 Removable Partial Denture Prosthodontics Cr.Hrs.6 The didactic portion of this course presents the principles for the treatment of partially edentulous patients. The procedures and techniques founded on the basic principles make up the laboratory exposure.

RSTD 2230 Complete Denture Prosthodontics Cr.Hrs.6 The didactic portion of this course presents the principles for the treatment of edentulous patients. Emphasis is placed on techniques of treatment in the laboratory component.

RSTD 3020 Operative Dentistry - 3 Cr.Hrs.6 (Formerly 102.302) A lecture and clinical course emphasizing diagnosis, treatment planning and the application of fundamental principles of operative and esthetic dentistry. Lectures and clinical treatments dealing with current restorative materials and techniques.

RSTD 3040 Fixed Partial Denture Prosthesis - 2 Cr.Hrs.6 (Formerly 102.304) An introduction to the clinical practice of fixed prosthodontic techniques. An emphasis is placed on diagnosis and treatment-planning. Clinical exposure is supplemented by lecture materials.

RSTD 3050 Endodontology - 2 Cr.Hrs.6 (Formerly 102.305) This course emphasizes the rationale and biologic basis for the practical techniques previously taught. Techniques are discussed in greater detail and are applied to treatment of patients. The second part of the course deals with pulp biology and periapical pathology to prepare the student for understanding the rationale behind pulpal protection, prevention and treatment of pulpal disease. Laboratory exercises are performed on more complex root canal systems in preparation for General Practice Clinic.

RSTD 3090 Complete and Removable Partial Denture Prosthesis Cr.Hrs.6 (Formerly 102.309) This course consists of a series of lectures and clinics. Theories of applied prosthodontics are discussed and applications of this knowledge are made concurrently through the clinical treatment of patients.

RSTD 4060 Endodontic Seminars Cr.Hrs.6 (Formerly 102.406) Seminars designed to enhance the clinical endodontics experience with literature review of diagnosis, more complex treatment methods and materials, case selection and student evidence-based literature and case presentations.

RSTD 4160 Dental Jurisprudence Cr.Hrs.6 (Formerly 102.416) This course provides an overview of the Canadian legal system. It defines and discusses legal concepts relevant to dentistry including issues in negligence, contracts, confidentiality, business and human rights. Identifying a dentist's legal responsibilities to patients, peers, employees, profession and society will underlie the entire course.

RSTD 4170 Practice Management Cr.Hrs.6 (Formerly 102.417) The management, evaluation, economics, organization, design, location, selection and marketing of a dental practice are covered by lectures and seminars. In addition, ethical considerations of dental practice, the options available to new dental graduates and the role of professional associations are discussed.

SECTION 2: The Faculty of Education and the Teaching Profession

The educational objective of the Faculty of Education is to prepare students for a career in the teaching profession. Attaining the B.Ed. degree leads to professional certification by Manitoba Education, Citizenship and Youth and the opportunity to attain initial employment as a classroom teacher in Manitoba and elsewhere. Those desiring other roles in education can achieve the professional requirements via the Post Baccalaureate Diploma in Education (PBDE) or graduate degrees in education (M.Ed. or Ph.D.).

Teacher education in Manitoba dates to 1882, but the Faculty of Education was not created until 1935. Initially charged with offering programs that led to secondary school teaching certificates and Master of Education degrees, in 1965, through amalgamation with the Manitoba Teacher's College, the faculty had its mandate enlarged to include the elementary certification programs. From 1986 to 1998, the four year Bachelor of Education was the prerequisite degree for professional certification; however, effective May, 2003, all future Manitoba teachers must graduate from 150 credit hour teacher education programs and hold two degrees, one of them a B.Ed. The faculty has, therefore, introduced a two-year Bachelor of Education degree which is completed following the awarding of an initial degree from another faculty or university.

2.1 Professional Teacher Certification Requirements for Manitoba Education

During the final year of the B.Ed. degree, the university will provide a list of potential Bachelor of Education graduates to the Professional Certification and Student Records Unit, Manitoba Education, Citizenship and Youth. Students are required to apply for certification. The application form can be found on the Manitoba Education, Citizenship and Youth website at www.edu.gov.mb.ca/k12/profcert/bedgradap.html. As well students are required to submit the following:

- Official transcripts. Upon graduation, students can order transcripts from the Registrar's Office to be forwarded to Professional Certification and Student Records Unit, Manitoba Education, Citizenship and Youth;
- Photocopy of proof of Canadian citizenship or landed immigrant status;
- Photocopy of proof of birth date (birth certificate, treaty card, Canadian Passport, or Landed Immigrant status);
- Photocopy of documentary proof of change of name, if applicable;
- Cheque or money order for \$50, payable to the Minister of Finance, to cover the certification fee.
- Criminal Records Check – students must provide an original and current (no more than 3 months old) *criminal record check* and *vulnerable sector screening* completed at local Police Station.
- It is expected that all B.Ed. students admitted starting September 2008 and applying for Certification in Manitoba as early as May, 2010 will be required to present six (6) credit hours of coursework in Special Education/Diversity. Three (3) credit hours are completed through the required course EDUA 2800 Psychology of Learning and Instruction 2: Inclusive Special Education. The additional three (3) credit hours will be completed by taking one complementary course related to Special Education/Diversity approved by the Faculty of Education and by Manitoba Education, Citizenship and Youth.

Students who receive the B.Ed. degree are recommended for certification by the university, and, if they meet all certification requirements, they will receive the Professional Certificate. This certificate is permanent and entitles the holder to teach any subject, at any level (K – 12) in Manitoba.

Contact the Professional Certification and Student Records Unit at toll free 1 (800) 667-2378 in Manitoba, or (204) 773-2998 or Email: certification@gov.mb.ca, or write to Box 700, Russell, Manitoba, R0J 1W0 for further information about certification.

2.2 Overview of Programs

The Faculty of Education offers programs/courses at both the undergraduate and graduate levels leading to the following degrees and certificates: the Bachelor of Education degree (see below); the Post Baccalaureate Diploma in Education (see Section 10.0); the Certificate in Adult and Continuing Education (CACE); the Certificate in Teaching English as a Second Language (CTESL); the Internationally Educated Teachers Program; the Master of Education degree and the Doctor of Philosophy (see *Graduate Calendar*).

All courses offered by the Faculty of Education are designated "Education" courses and are distinguished from courses offered by other faculties or schools of the university which are designated "Non Education" courses.

After Degree Bachelor of Education: Early Years, Middle Years (Including a Weekend College Middle Years Scheduling Option) and Senior Years

Following a first degree, the After-Degree Bachelor of Education program consists of 60 credit hours (two years) of course work taken within the Faculty of Education and leads to general certification and a Bachelor of Education degree. The Weekend College Middle Years scheduling option takes three years of study to complete 60 credit hours. Unless otherwise stated, the Weekend College scheduling option follows the same regulations as Middle Years. The Faculty anticipates an intake to the Weekend College Middle Years Scheduling Option every three years (subject to enrolment). The next proposed intake will be September 2011. Current certification requirements for the Province of Manitoba require 24 weeks of practicum which are completed as part of the 60 credit hours required for the Bachelor of Education degree.

Bachelor of Music/Bachelor of Education Integrated

A program leading to general certification and preparing of teachers for specialist Music and classroom teaching. Both degrees are awarded upon completion of the program.

Bachelor of Human Ecology/Bachelor of Education Integrated

(The last intake of students for the Human Ecology/Education Integrated program was the 2006-2007 academic session.)

A program leading to general certification and preparing teachers for Senior Years Home Economics. Both degrees are awarded upon completion of the program.

Post Baccalaureate Diploma in Education (PBDE)

Designed for teacher professional development, the PBDE is a 30 credit hour program following the completion of an undergraduate degree, normally a B.Ed.

Certificate in Adult and Continuing Education (CACE)

The following four courses in addition to 100 hours in elective courses offered through Extended Education completes a Certificate in Adult and Continuing Education (CACE). For further information contact Sandra Stechisen at (204) 474-6685 or Sandra_stechisen@umanitoba.ca.

EDUA 1560 Adult Learning and Development
EDUA 1570 Foundations of Adult Education
EDUA 1580 Program Planning in Adult Education
EDUA 1590 Facilitating Adult Education

Certificate in Teaching English as a Second Language (CTESL)

Extended Education, in collaboration with the Faculty of Education, offers a 15 credit hour (200 hour) Certificate in Teaching English as a Second Language. Education students may take courses in this program to fulfil Education complementary course requirements of their B.Ed. CTESL courses include: EDUB 1620 Principles and Procedures of Second Language Teaching (3), EDUB 1640 Teaching ESL Vocabulary and Pronunciation (3), EDUB 1650 Teaching ESL Grammar (3), EDUB 1660 Computers in Second Language Teaching (3), EDUB 1670 English for Non-Native Speaking (NSS) Teachers of ESL (3), EDUB 1820 Language and Content Instruction of ESL/Bilingual Students (3), EDUB 1840 Recent Developments in Curriculum, Teaching and Learning 1: TESL Literacy (3), and EDUB 1860 Practicum in Teaching English as a Second Language (TESL) (3). For further information, contact Heather McIntosh, (204) 474-9861, mcintos1@ms.umanitoba.ca.

Internationally Educated Teachers (IET) Program

The Academic and Professional Bridging Program for Internationally Educated Teachers (also known as the "IET Program") is a University of Manitoba, Faculty of Education pilot program. It is designed for individuals with international teaching credentials who require additional coursework in Education to be certified to teach in Manitoba. For further information, email ietprogram@umanitoba.ca.

Special Students

The Faculty of Education does not admit students to this category.

Students Enrolled in Other Faculties/Schools

Students currently enrolled in other faculties/schools at the University of Manitoba may take Education complementary courses (see Section 9). Students who hold a recognized degree from an accredited institution may also take 5000-level courses, however, students must obtain permission by completing the form 'PBDE & Graduate Permission Slip' available at www.umanitoba.ca/education/current/index.shtml or from Room 227 Education Building. These courses cannot be applied towards a B.Ed. degree, Integrated B.Mus./B.Ed. degree, B.H.Ecol./B.Ed. degree or towards the IET program.

Visiting Students

See the chapter, Registration and Fees, of this *Calendar* and contact the Student Services Office, Faculty of Education, for admission procedure.

SECTION 3: Admission to the Faculty of Education

Degrees Offered

3.1 After Degree Bachelor of Education

The Bachelor of Education program is a two year program following the completion of a first degree of at least 90 credit hours (three years in duration). See admission requirements for detailed information.

3.2 Integrated Degrees: Bachelor of Human Ecology/Bachelor of Education & Bachelor of Music/Bachelor of Education

(The last intake of students for the Human Ecology/Education Integrated program was the 2006-2007 academic session.)

The Faculty of Human Ecology and the Marcel A. Desautels Faculty of Music each offer a degree program that integrates the requirements of its degree program with those of the Faculty of Education. See section 5 and 6 of the chapters for the Faculty of Human Ecology and the Marcel A. Desautels Faculty of Music for information. The integrated programs are five years in length. Students are awarded both degrees upon completion.

3.3 Post Baccalaureate Diploma in Education

Designed for teacher professional development, the Post Baccalaureate Diploma in Education is a 30 credit hour program following completion of a Bachelor's degree, normally a B.Ed.

SECTION 4: After-Degree Bachelor of Education

4.1 Admission Requirements

Early and Middle Years

A first degree of a minimum of 90 credit hours and the requirements for two different teachable subjects plus a breadth component as follows:

- 18 credit hours in a teachable major,
- 12 credit hours in a teachable minor,
- 6 credit hours English or French literature,

Selection criteria: 69.0% on GPA; and 31.0% on writing skills.

To be eligible for this program, applicants must have a conferred first degree and teachable courses at the 1000 level or higher completed from a recognized institution by May of the year of application.

The Weekend College Middle Years scheduling option may not admit students each year; however, an intake of students is anticipated for September, 2011.

Special Consideration Category (currently under review)

The Faculty of Education has a Special Consideration Category. The Faculty recognizes the importance of providing the highest quality of education to all students in Manitoba via a teaching force that is fully representative of the cultural, ethnic and racial diversity of the province.

As the largest teacher education institution in the province, the Faculty recognizes its responsibility to facilitate the development of such a teaching force.

Furthermore, the Faculty recognizes the need to ensure that its recruitment and admission policies and procedures do not inappropriately obstruct the achievement of such a goal, but rather actively promote its attainment.

In keeping with the above, the Faculty will admit up to 10 percent of the After Degree B.Ed. applicants under this category. The Special Consideration Category includes: Canadian Aboriginal peoples, members of a visible minority or persons with disabilities.

Canadian Aboriginal Peoples – An aboriginal person is either one who by birth is a Registered Indian as provided for in the Indian Act, or who is an Indian person without legal status by the Indian Act, or who is a Métis, or who is an Inuit person.

Visible Minority – Persons other than Aboriginal Peoples who, because of their colour, are a visible minority in Canada.

Persons with Disabilities – Persons with disabilities are those who would consider themselves disadvantaged by reason of any physical, intellectual, mental, sensory or learning impairment.

Information on admission within this category is included in the admissions bulletin.

All admission requirements are described in detail in an admissions bulletin that includes application deadline dates and application forms. This material is available from the Faculty of Education, 230 Education Building, or Enrolment Services, 424 University Centre or their website at: umanitoba.ca/student/admissions/application/deadlines/education/.

The detailed admission information is also posted on the university website. The criteria outlined in this section are applicable for 2009-2010 session only. Please refer to the Faculty website for updates to the admission criteria for subsequent sessions.

4.1.1 Adult Criminal Records and Child Abuse Registry

The Minister of Education, Citizenship and Youth for the Province of Manitoba requires that background checks be conducted on all candidates for teacher education in Manitoba and on all applications for certification for this province. Accordingly, all applicants offered admission to Bachelor of Education programs will be required to complete the "Adult Criminal Records Self-Declaration" form as a condition of final acceptance to the program. Only adult criminal records must be disclosed, and the existence of such a record will not automatically exclude applicants.

In addition to the above self-declaration all successful applicants will be conditionally admitted pending clearance of an official Criminal Record Search and clearance from the Child Abuse Registry. Failure to clear or fail-

ure to provide these documents by the stated deadline will result in admission offer being revoked.

Applicants should also be aware that the Professional Certification and Student Records Unit will also require students graduating from the Bachelor of Education program to undergo a criminal record check, including vulnerable sector screening as part of the certification process. Information on the Adult Criminal Records Self-Declaration is included in the admission bulletin available from the Enrolment Services/Admissions, 424 University Centre and the website: umanitoba.ca/student/admissions/application/education/.

4.2 Admission Procedure

Application forms are available from the Faculty of Education, 230 Education Building, or Enrolment Services/Admissions, 424 University Centre, or at the website: umanitoba.ca/student/admissions/application/education/. Completed applications with supporting documentation must be submitted by February 1.

4.3 Program Requirements

(currently under review)

REMINDER: While Education student advisors are available to clarify faculty and university regulations and degree requirements, it is the student's responsibility to ensure that degree and program requirements are met.

Effective February 1, 2007 all continuing students are required to complete and submit a *Self-Declaration of Adult Criminal Records and Listing on Child Abuse Registry* form prior to registration for every year they are enrolled in the Bachelor of Education program.

Returning students planning to take School Experience (EDUB 1960, EDUB 1970, EDUB 1980, EDUB 2960, EDUB 2970, or EDUB 2980) during the upcoming Regular Session must make application for a School Placement no later than February 1. Forms will be available from the Student Services Office, Room 230 Education Building, Faculty of Education, beginning December 15. Failure to apply for School Placement by February 1 may result in students being denied a placement.

SECTION 6: Bachelor of Human Ecology/ Bachelor of Education Integrated

(The last intake of students for the Human Ecology/Education Integrated program was the 2006-2007 academic session.)

6.1 Program Requirements

REMINDER: While Education student advisors are available to clarify faculty and university regulations and degree requirements, it is the student's responsibility to ensure that degree and program requirements are met.

Students choose a Human Ecology concentration for their major and a Human Ecology concentration for their minor selected from Family Social Sciences, Human Nutritional Science, and Textile Sciences.

Students in this program can also select a teachable subject from the list for Senior Years, but these subject areas may require additional coursework over and above the 156 credit hours outlined below.

Students planning to take School Experience (EDUB 1940, EDUB 1950) during the Spring Session must make application for a School Placement no later than November 1. Forms will be distributed during the first week of classes in September. Failure to apply for School Placement by November 1 may result in students being denied a placement.

Students planning to take EDUB 2980 School Experience during the upcoming Regular Session must make application for a School Placement no later than February 1. Forms will be available from the Student Services Office, Room 230 Education Building, Faculty of Education, beginning December 15. Failure to apply for School Placement by February 1 may result in students being denied a placement.

SECTION 7: The Academic and Professional Bridging Program for Internationally Educated Teachers (IET Program)

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Education has regulations and requirements, published below, that apply specifically to its students.

The IET Pilot Program is intended to serve internationally educated teachers who have applied to the Certification Branch of the Department of Education, Citizenship and Youth (MECY) and have received official notification that they require additional university coursework to be certified to teach in Manitoba. The program will admit up to 12 applicants.

Courses and workshops will be held in the Education Building at the University of Manitoba. In-school experiences will take place in middle years (Grades 5-8) schools within one or more School Divisions in Winnipeg. The time to complete the program will depend on the number of courses required by the Certification Branch of the Department of Education, Citizenship and Youth.

In order to be admitted to the program, and IET student must:

- be a permanent Manitoba resident;
- be a graduate of a degree program from an accredited university recognized by the University of Manitoba with a minimum overall grade point average of 2.0);
- have received a written evaluation of teaching credentials from the Manitoba Professional Certification Branch. The assessment must conclude that additional coursework in Education is required to be certified to teach in Manitoba;
- have successfully passed the Canadian Test of English for Scholars and Trainees (CanTEST)

SECTION 8: Academic Regulations for Bachelor of Education

The provisions of the chapter, General Academic Regulations and Requirements, and the chapter, University Policies, apply to all students. In addition, the Faculty of Education has regulations and requirements, published below, that apply specifically to its students.

8.1 Academic Regulations for All Bachelor of Education Programs (currently under review)

(See also sections 8.2, 8.3)

Academic Requirement for Graduation

A Degree Grade Point Average (DGPA) of 2.0 is required for graduation in the Bachelor of Education.

Academic Standing

A minimum Degree Grade Point Average of 2.0 must be maintained in the Bachelor of Education for clear standing. A grade of "D" is considered a passing grade for Education courses.

Additional Academic Considerations

Each student in the Faculty of Education is presumed to be generally suited to a teaching program. Should this prove not to be the case, the Faculty reserves the right, at any time, to require a student to withdraw from the Bachelor of Education degree program. Unsatisfactory performance in School Experience courses may be considered reason to require a student to withdraw from the faculty.

Appeal Procedures

The general university policy for appeal of assigned grades applies to the Faculty of Education. See the chapter, General Academic Regulations and Policy, of this Calendar, Appeals of Assigned Grades. Information about admission decision appeals may be found in the chapter, Admissions.

Application Deadline for School Placement

Returning students planning to take School Experience (EDUB 1960, EDUB 1970, EDUB 1980, EDUB 2960, EDUB 2970 or EDUB 2980) during the upcoming Regular Session must make application for a School Placement no later than February 1. Forms will be available from the Student Services Office, Room 230 Education Building, Faculty of Education beginning December 15. Failure to apply for School Placement by February 1 may result in students being denied a placement.

Integrated B.Mus./B.Ed. and B.H.Ecol./B.Ed students planning to take School Experience (EDUB 1940, EDUB 1950) during the Spring Session must make application for a School Placement no later than November 1. Forms will be distributed during the first week of classes in September. Failure to apply for School Placement by November 1 may result in students being denied a placement.

Assessment of Student Academic Performance

Academic performance is assessed at the end of each regular term in which the student is registered on all courses that are used for credit towards the B.Ed. degree.

Based on the Grade Point Average attained in these courses, the following decisions with respect to the student's eligibility to continue as a Faculty of Education student will be made. Normally,

- The student with a minimum of 2.0 is eligible to proceed;
- The student with a 1.5 to 1.99 is placed on academic probation; and
- The student with less than 1.5 is placed on academic suspension.

Academic Probation

Students placed on academic probation must attend an interview in the faculty prior to being permitted to re-register. During the next regular session, students must re-establish a Degree Grade Point Average of 2.0 or better. Normally, students on probation who fail to raise the DGPA to at least 2.0 will be placed on academic suspension.

Academic Suspension

Students who are placed on academic suspension may not register at the university for one year. Following this period, students wishing to pursue a Bachelor of Education degree, must enroll in another faculty, raise their Degree Grade Point Average, and then re-apply for admission to the Fac-

ulty of Education. Re-admission to the program will be subject to compliance with existing program regulations.

Attendance at Class

Regular attendance is expected of all students in all courses. An instructor can initiate procedures to debar a student from attending classes and from final examinations where unexcused absences exceed three hours of scheduled classes in any one term.

Continuing Students

See the chapter, University of Manitoba Admissions.

Dean's Honour List

Students registered in a minimum of 12 credit hours within a single term and who achieve a Term Grade Point Average of 3.5 or better will be included in the Dean's Honour List. Grades for coursework taken on a letter of permission and used towards the Bachelor of Education degree will be used in meeting the eligibility requirements for the Deans Honour List.

Students receiving failing grades in education coursework where such coursework is required to earn the Bachelor of Education degree and/or student teaching will not be eligible for the Dean's Honour List.

Debarment

See the chapter, General Academic Regulations and Requirements, Attendance at Class and Debarment.

Degree with Distinction

A student graduating from the Bachelor of Education program will have the degree granted "With Distinction" if a minimum Degree Grade Point Average of 3.80 has been attained on all courses that are used for credit towards the B.Ed. degree. This distinction will be noted on the parchment and on the student's transcript.

Gold Medal

The Gold Medal is awarded each year to the B.Ed. graduate who has the highest Grade Point Average (minimum 3.75) in the last 60 credit hours of the B.Ed. degree and who has completed at least 80 per cent of what is considered to be the normal full course load in each of the last two years of the program.

Grading Scale

Effective in 2000-2001 academic session, the Faculty of Education adopted the following grading scale:

Letter Grade	Grade Point	Level of Achievement	Percentage Range
A+	4.50	Exceptional	95 and above
A	4.00	Excellent	90-94
B+	3.50	Very Good	85-89
B	3.00	Good	80-84
C+	2.50	Satisfactory	75-79
C	2.00	Adequate	70-74
D	1.00	Marginal	60-69
F	0.00	Failure	Below 60

Incompletes

See the chapter, General Academic Regulations and Requirements, Academic Evaluation.

5000-level courses

Students enrolled in the B.Ed., the Integrated B.Mus./B.Ed. or B.H.Ecol./B.Ed, or the IET program are not permitted to take 5000-level courses.

Part-Time Programs

Opportunities for part-time study are available in all streams as well as the integrated programs. In any of the program streams, the curriculum and instruction courses and the practicum experience for each year must be taken concurrently. All Year 1 course requirements must be completed before proceeding to Year 2. Integrated B.Mus./B.Ed. and B.H.Ecol./B.Ed. students must complete Years 1 to 4 inclusive before proceeding to Year 5. When exceptions are permitted, they would normally only be allowed as a result of scheduling conflicts, unavailability of courses scheduled on a rotating basis, compassionate grounds or other exceptional circumstances. Part time students should note that not all curriculum and instruction courses are offered every year.

Repeating a Course

Required courses which receive a grade of "F" must be repeated. Complimentary courses which receive a grade of "F" must be repeated or replaced

with other complementary courses. Courses which receive a “D” grade may be repeated; however, courses in which a grade of “C” or higher is obtained may only be repeated with the consent of the Associate Dean, Undergraduate Programs. Education courses may only be repeated once. When a course is repeated, the last grade achieved will be used in calculating the Degree Grade Point Average.

The following required Education courses may be repeated only once:

EDUB 1940	Integrated Programs School Experience 1
EDUB 1950	Integrated Programs School Experience 2
EDUB 1960	Early Years School Experience 1
EDUB 2960	Early Years School Experience 2
EDUB 1970	Middle Years School Experience 1
EDUB 2970	Middle Years School Experience 2
EDUB 1980	Senior Years School Experience 1
EDUB 2980	Senior Years School Experience 2

All Curriculum and Instruction Courses

Early Years and Middle Years students who fail a school experience course will normally be required to repeat all of the Curriculum and Instruction courses related to that year’s practicum.

Weekend College Middle Years students who fail Curriculum and Instruction course(s) may not be able to complete their program through this scheduling option, given that a new intake is every other year.

Senior Years and Integrated B.Mus./B.Ed. and B.H.Ecol./B.Ed. students who fail a school experience course will normally be required to repeat the Curriculum and Instruction courses associated with that practicum. Students who fail a Curriculum and Instruction course will normally be required to repeat the practicum course associated with that curriculum area.

Statute of Limitation

The normal maximum time allowed for the completion of the B.Ed. degree is six years from the date of admission. (This regulation applies to those admitted September, 2002 or later.)

Supplemental Examinations

Supplemental examinations are not permitted in education courses.

University Written English and Mathematics Requirement for Students in the Integrated B.Mus./B.Ed. and B.H.Ecol./B.Ed.

All students admitted since September, 1997, are required to complete the university written English and Mathematics requirement. This requirement is described in the chapter, General Academic Regulations and Requirements.

Voluntary Withdrawals

See the chapter, General Academic Regulations and Requirements.

Authorized Withdrawals (AWs) may be permitted on medical or compassionate grounds, subject to satisfactory documentation. Students must contact an Education Student Advisor to initiate an authorized withdrawal.

8.2 Academic Regulations for the After-Degree Bachelor of Education

Early Years, Middle Years (Including a Middle Years Weekend College Scheduling Option) and Senior Years (see also 8.1)

Transfer of Credit

Students may transfer a maximum of five full courses (30 credit hours) from another recognized university or college toward the After-Degree B.Ed. provided the courses are acceptable to the Bachelor of Education program.

Students admitted to the After-Degree B.Ed. program for September 2004 academic year and thereafter may not receive advance standing for any Education course which is more than six years old at the point of their admission to the Faculty of Education.

Courses taken as part of the Certificate in Teaching English as a Second Language (CTESL) or Certificate in Adult and Continuing Education (CACE) through Extended Education, U of M, may receive credit for some coursework. See 10.5 PBDE Transfer of Credit for a listing of equivalents.

Those students who are currently in the program and wish to register for a course at another university or college must complete an “Application for Letter of Permission” prior to registering.

Maximum Course Load (excluding Weekend College Middle Years Scheduling Option)

The maximum credit hour load for B.Ed. students is 30 credit hours in the regular session (September-April). Students wishing to take courses above the maximum may do so with the following conditions:

- Requests to complete 33 credit hours are approved by the student advisor provided the student’s minimum Degree Grade Point average is 2.50.
- Requests to complete 36 credit hours are approved by the student advisor provided the student’s minimum Degree Grade Point average is 3.50.
- Requests to complete in excess of 30 credit hours where the student’s degree grade point average is below the minimums noted above or where the student wishes to complete more than 36 credit hours must be approved by the Associate Dean, Undergraduate Programs. In this case, students must make formal request in writing to the Associate Dean, Undergraduate Programs.

Students in the Senior Years Stream may request written permission to complete additional Curriculum and Instruction courses, provided they have previously completed the course requirements for this additional major/minor and where there is space in that Curriculum and Instruction course. Where permission is granted, students may substitute this credit for three credit hours of complementary course work as outlined in their program plan. Students who choose to take more than the required two Curriculum and Instruction courses in their program have no guarantee that a practicum teaching experience will be provided in that additional teachable area.

8.3 Academic Regulations for the Integrated B.Mus./B.Ed. and B.H.Ecol./ B.Ed. (see also 8.1)

Major/Minor Academic Requirements

Students must achieve a grade of C or greater in all courses which apply to the major and minor.

Transfer of Credit

Students may transfer a maximum of ten full course equivalents (60 credit hours) from another recognized university or college toward the Integrated B.Mus./B.Ed. and B.H.Ecol./B.Ed. degree provided the courses are acceptable to the program. Those students who are currently in the program and wish to register for a course at another university or college must complete an “Application for Letter of Permission” prior to registering.

SECTION 9: Complementary Courses

Not all courses are offered every year.

All students admitted to the Bachelor of Education degree program and the Internationally Educated Teachers program for September 2008 and beyond are expected to complete six (6) credit hours of specific Content Area comprised of three (3) credit hours of coursework in Aboriginal Education and three (3) credit hours of coursework in Special Education/Diversity as two of their complementary courses. The three (3) credit hours required for Aboriginal Education will be completed by taking one of EDUA 1500 Aboriginal Education or EDUB 1840 Aboriginal Perspectives and the Curriculum and the three (3) credit hours of coursework in Special Education/Diversity will be completed by taking one of 1540 Cross Cultural Education, EDUB 1620 Principles and Procedures of Second Language Teaching, or EDUB 1820 Language and Content Instruction of ESL/Bilingual Students.

For any remaining complementary courses students can choose from the following list:

- EDUA 1500 Aboriginal Education
- EDUA 1502 Measurement and Evaluation
- EDUA 1510 Foundations of Moral and Religious Education
- EDUA 1520 Recent Developments in Educational Administration and Foundations

- EDUB 2160 Teaching Music in Early/Middle Years

SECTION 10: Post Baccalaureate Diploma in Education

The Faculty of Education offers a Post Baccalaureate Diploma in Education (PBDE) designed for teachers and other professionals.

The unique features of the PBDE program are that students can: design their own program of study and tailor it to their own areas of interest; take courses at the Faculty of Education as well as at other faculties and schools at the U of M or other approved institutions; and can transfer up to three credit hours of approved professional development courses offered by other agencies or organizations. Effective August 31, 2007, the Faculty ceased to approve requests from such agencies or organizations. A wide selection of courses is available through Summer Session, distance education, via the internet and summer institutes.

The PBDE is recognized by Manitoba Education, Citizenship and Youth for salary classification purposes. Further, the PBDE program provides the opportunity for teachers to follow courses of study leading to the special education and special education coordinator certificates, and to partial fulfilment of the requirements of the school administrators' (Level 1) and principals' (Level 2) certificates, all of which are issued by Manitoba Education, Citizenship and Youth. For information regarding specialist certificates, contact: Professional Certification and Student Records Unit, Manitoba Education, Citizenship and Youth, Box 700, Russell, Manitoba, R0J 1W0; telephone toll free at: 1-800-667-2378, or 1-204-773-2998, or e-mail certification@gov.mb.ca, or web: www.edu.gov.mb.ca/k12/profcert/#clinician.

10.1 Admission Requirements

Applicants for Admission must possess:

- A Bachelor of Education degree and one of the following types of certificates granted by Manitoba Education, Citizenship and Youth: General Certificate, Limited Certificate, or Clinicians' Certificate; or equivalent from other provinces [See note 1 on teacher certification] or a bachelor's degree and two years of appropriate teaching/work experience (see note 2);

- A Grade Point Average of 2.00 in the bachelor's degree (including any after degree certification program).

Note 1:

Teacher Certification

The majority of applicants will possess a valid teaching certificate before being admitted to the Post Baccalaureate Diploma in Education Program.

The granting of a certificate to teach in the public schools of Manitoba is the prerogative of Manitoba Education, Citizenship and Youth and is based on a recognized program of teacher education. Individuals wishing to apply for such certification should contact the Professional Certification and Student Records Unit, Manitoba Education, Citizenship and Youth.

Note 2:

Applicants must include a brief statement as to educational plans and a resume showing evidence of two years of appropriate full-time teaching or work experience.

10.2 Admission Procedure

Applications may be obtained from the Graduate and PBDE Programs Office, Faculty of Education, or Enrolment Services, 424 University Centre. Applications can also be found at umanitoba.ca/education/programs/pbde.shtml. Completed applications must be returned to Enrolment Services/Admissions Office, 424 University Centre by:

Canadian/US Applicants

- April 1 for classes beginning in May
- June 1 for classes beginning in July
- August 1 for classes beginning in September (Fall)
- December 1 for classes beginning in January (Winter)

International Applicants

- April 1 for classes beginning in September (Fall)
- June 1 for classes beginning in January (Winter)

10.3 Program Requirements

REMINDER: While Education student advisors are available to clarify faculty and university regulations and degree requirements, it is the student's responsibility to ensure that diploma and program requirements are met.

The Post Baccalaureate Diploma in Education consists of 30 credit hours of coursework, subject to the following regulations:

- a) A minimum of 12 credit hours must be taken in the Faculty of Education at the 5000-level;
- b) A maximum of 18 credit hours may be taken in the Faculty of Education below the 5000-level;
- c) A maximum of 18 credit hours may be taken outside the Faculty of Education at the introductory or higher level of which six credit hours may be taken at the 1000-level. In the case of language study other than English or French, a maximum of 12 credit hours may be taken at the 1000-level provided both are in the same language;
- d) A maximum of three credit hours may be earned through approved external professional courses. Effective August 31, 2007, the Faculty ceased to approve such requests from external organizations but will continue to grant credit for up to 24 months from completion date for those courses that had received approval. These courses are offered by professional groups, and credit may be granted where prior approval has been given to the course sponsor. Effective January, 2000, students applying for transfer of credit for external professional courses must do so within 24 months of course completion.

10.4 Academic Regulations

Appeal Procedures

The general university policy for appeal of assigned grades applies to the Faculty of Education. See the chapter, General Academic Regulations and Policy, of this Calendar, Appeals of Assigned Grades. Information about admission decision appeals may be found in the chapter, Admissions.

Assessment of Student Academic Performance

Academic performance is normally assessed at the completion of nine credit hours of course work and at the end of every session thereafter. A minimum grade of "C" is required for each course that is to be included in the student's diploma program. In addition, a student must maintain a min-

imum Degree Grade Point Average of 2.00 to continue in the program. A student whose Degree Grade Point Average falls below 2.00 will be placed on academic suspension for two years. Reapplication is required for re-admission to the program.

Attendance at Class

Regular attendance is expected of all students in all courses. An instructor can initiate procedures to debar a student from attending classes and from final examinations where unexcused absences exceed three hours of scheduled classes in any one term.

Continuing Students

See the chapter, University of Manitoba Admissions.

Debarment

See the chapter, General Academic Regulations and Requirements, Attendance at Class and Debarment.

Grading Scale

Effective in 2000-2001 academic session, the Faculty of Education adopted the following grading scale:

Letter Grade	Grade Point	Level of Achievement	Percentage Range
A+	4.50	Exceptional	95 and above
A	4.00	Excellent	90-94

Maximum Time Limits

The maximum time allowed for completing the PBDE is nine years. In addition, a student will not be permitted to count toward the diploma any course completed more than nine years prior to the completion date of the diploma. Students will be permitted to retake and use as PBDE credit Education courses beyond the nine years provided they have not been previously used elsewhere for credit toward a degree or diploma program. Courses from other faculties will need to be dealt with on an individual basis.

Repeating a Course

Courses for which a grade of "F" or "D" is obtained, must be repeated or replaced; however, courses in which a grade of "C" or higher is obtained may only be repeated with the consent of the Assistant Dean, PBDE Program. When a course is repeated, the last grade achieved will be used in calculating the Degree Grade Point Average.

Supplemental Examinations

Supplemental examinations are not permitted in education courses.

Voluntary Withdrawals

See the chapter, General Academic Regulations and Requirements.

Authorized Withdrawals (AWs) may be permitted on medical or compassionate grounds, subject to satisfactory documentation. Students must contact an Education Student Advisor to initiate an authorized withdrawal.

10.5 Transfer of Credit

Subject to approval by the Faculty, transfer of credit may be granted on the basis of:

- completed university level courses that have not been previously used towards a degree,
- completed M.Ed. courses not used to satisfy requirements for the M.Ed. degree, and
- the following courses completed through the Certificate in Adult and Continuing Education (CACE), University of Manitoba:

CACE 43001 Foundations of Adult Education transferred as EDUA 1570 Foundations of Adult Education (3); CACE 43002 Program Planning in Adult Education transferred as EDUA 1580 Program Planning in Adult Education (3); CACE 43003 Adult Learning and Development transferred as

EDUA 1560 Adult Learning and Development (3); CACE 43004 Facilitating Adult Education transferred as EDUA 1590 Facilitating Adult Education (3).

Completion of the CACE certificate is not required to receive individual credit.

- the following courses completed through the Certificate in Teaching English as a Second Language (CTESL), University of Manitoba:

39301 Principles and Procedures of Second Language transferred as EDUB 1620 Principles and Procedures of Second Language Teaching (3); 39302 Teaching ESL Vocabulary and Pronunciation as EDUB 1640 Teaching ESL Vocabulary and Pronunciation (3); 39303 Teaching ESL Grammar as EDUB 1650 Teaching ESL Grammar (3); 39304 Practicum in Teaching English as a Second Language (TESL) as EDUB 1860 Practicum in Teaching English as a Second Language (TESL) (3); 39305 Content-based Second Language Instruction as EDUB 1820 Language and Content Instruction of ESL/Bilingual Students (3); 39306 Computers in Second Language Teaching as EDUB 1660 Computers in Second Language Teaching (3); 39307 English for Non-Native Speaking (NNS) Teachers of English as EDUB 1670 English for NNS (Non-Native Speaking) Teachers of ESL (3); 39308 Teaching ESL Literacy as EDUB 1840 Recent Developments in Curriculum, Teaching and Learning 1: TESL Literacy (3); 98592 Special Topics as parallel courses offered as EDUB 1840 Recent Developments in Curriculum, Teaching and Learning 1: eg. Adult ESL and the Canadian Language Benchmarks (3), or additional approved topics courses.

Completion of the CTESL certificate is not required to receive individual credit.

A maximum of 12 credit hours may be transferred, including those in 10.3 d) above from an institution other than the University of Manitoba. There is no maximum limit for courses completed at the University of Manitoba.

Courses transferred to the PBDE must fall within the nine year statute of limitation at the completion date, must be within the program requirements, and must have a grade of C or better.

11.4 Registration Information

11.4.1 Bachelor of Education Students (including B.Mus./B.Ed. and B.H.Ecol./B.Ed. and Weekend College)

The Bachelor of Education program integrates full-time students into what we call cohorts. Cohorts are groups of students who are in the same classes. To achieve this, students are assigned to particular sections of courses and will be notified in June of their cohort group number. For Early and Middle Years students the only course section options are in complementary courses. For Senior Years students, the only course section options are in complementary courses and curriculum and instruction courses required for teachable majors and minors.

Detailed course scheduling and registration information for the cohort groups will be provided to new and continuing students via the Faculty of Education website. Information should be available by June 15, 2009. If web access is not available, students are directed to contact Student Services.

Part time students in coursework only

Packages will be mailed to the mailing address of part-time students not enrolling in practicum.

Call 474-9004 or e-mail bachofed@umanitoba.ca if you do not receive a package by June 15, 2009.

Students are encouraged to refer to the faculty website umanitoba.ca/education where any updates or revisions will be posted.

11.4.2 Part Time Bachelor of Education Students

If you are considering or have decided on part time study, please ensure that you contact the Student Services Office for an appointment with a student advisor. Appointments with advisors are available from June 1, 2009 – July 31, 2009. Appointments will not be available during the registration period. Prior to seeing your advisor, ensure that you have reviewed the course information from the faculty and developed a draft timetable for review.

11.5 Course Selection

Students are responsible for ensuring the accuracy of their course selection.

Students should refer to the Education chapter of the Undergraduate Calendar to determine if their degree requirements are satisfied. Should any inconsistencies occur between the Undergraduate Calendar and this Guide, the Undergraduate Calendar shall prevail.

11.6 Post Baccalaureate Diploma in Education (PBDE)/Post Baccalaureate Certificate in Education (PBCE) Students

Students are encouraged to register for both Fall 2009 and Winter 2010 courses early as some courses reach maximum enrolment and others are subject to cancellation if there is insufficient enrolment. Cancellation decisions are generally made three weeks prior to the start of classes.

Many of the PBDE/PBCE course offerings are determined in consultation with school divisions, superintendents, professional organizations based on the needs of educational professionals. Students are encouraged to refer to the university website umanitoba.ca and click on Aurora Student.

11.7 Visiting Students

Visiting students are referred to the chapter, "The Registration System: Aurora Student".

11.8 Students Registered in Other Faculties or Schools

Undergraduate students currently registered in other faculties/schools may take education complementary courses in the Bachelor of Education program. Written permission from the Faculty is **not** required.

5000 level courses are restricted to students holding a degree. Those students must obtain permission by completing the form 'PBDE & Graduate Permission Slip' available at website umanitoba.ca/education/current/index.shtml or from Room 227 Education Building.

Students are referred to the chapter, "The Registration System: Aurora Student".

SECTION 12: Additional Information

12.1 Information Updates

Scheduling changes to courses and practicum will be updated to *Aurora Student*. Students are expected to check their Week-At-A-Glance on *Aurora Student* to confirm location, time, and instructor changes. Cohort meetings and faculty events will be posted on the faculty website. Students are encouraged to regularly refer to the website.

12.2 Registration, Voluntary Withdrawal and Fee Refund Deadlines

Education courses may have unique start and end dates. Students are referred to *Aurora Student Class Schedule* to view VW and fee refund dates.

12.3 Facility Use Fees

Some classes in physical education/movement curriculum and instruction courses (EDUB 1020, EDUB 2020, EDUB 1260, EDUB 2150, and EDUB 2310) may be held in the Frank Kennedy Centre gymnasiums. Students must pay a facility use fee to access the gymnasiums prior to the first scheduled class. The fee can be paid at the Frank Kennedy Centre or Max Bell Centre, Customer Service Desks.

12.4 Faculty Events

The faculty sponsors a number of lectures, workshops and forums. Details will be posted on the "News and Events" of the faculty's website: umanitoba.ca/education.
